**Total Units Required**: 120
Advanced Placement Coordinator and Advisor: Dr. Arlene Spilker

Admittance into this degree requires an Associate in Science degree in Nursing and passage of the NCLEX (National Council Licensure Examination) the licensing examination for nurses in the United States.

Admission occurs every Spring and Fall semester. The RN to BSN program can be completed in 3 semesters of full-time study.

University Graduation Requirements
Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the Graduation Requirements section of the Policies and Procedures.

4-Year Program Roadmap
Students may find a roadmap for this program here. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found here.

University Graduation Requirements

Core Lower Division General Education
Of the 39 units required by the university, 39 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

Upper Division General Education
Of the 9 units required by the university, 3 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions
The 6 units of American Institutions (US123) coursework shown below also fulfills GE Areas D2 and D3. Other courses meet the American Institutions requirement, but may not include additional GE areas. The American Studies (AMS 1A/B) and Humanities Honors (HUM 1A/B, 2A/B) programs both offer larger integrated packages that meet this requirement. Consult with major advisor for details.

Physical Education
Met as part of the community college transfer package required for admission to degree program.

Graduation Writing Assessment Requirement
At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. For additional information on the WST, please see http://testing.sjsu.edu/wst.
Exceptions to the GWAR may be found at http://info.sjsu.edu/gwar.html.

A grade of C or better (C- not accepted) is required to meet graduation requirement.

HPRF 100W. Writing Workshop ...................................................................................................................... 3

Preparation for the Major

Community College Lower Division Coursework necessary for Associate Degree in Nursing (ADN)

External Exam Credit
NCLEX - RN examination
Students admitted to the program will receive 20 units of credit for passage of the National Council Licensure Examination (NCLEX) for Registered Nurses.

MS - Nursing

Graduate Options
The MS - Nursing degree has specializations* in:

- Nurse Educator
- Family Nurse Practitioner (offered via Special Session)

* Specializations are a cluster of courses used by departments for advising purposes. Specializations will not appear on transcripts or diplomas. Please see advisor for more details.

- Post-Masters Certificate/Credential Preparation as Nurse Educator
- Nurse Educator

The School of Nursing also offers an MS in Nursing with a concentration in Family Nursing Practice. This program is described elsewhere in this catalog. Finally, SJSU and Fresno State University are partners in offering a joint Doctorate in Nursing Practice, a mostly online program administered by Fresno State.

All options are offered only if student enrollment is adequate. Please check the school website at http://www.sjsu.edu/nursing/ for current information on the status of our graduate programs and courses being offered.

Requirements for Admission
Candidates must meet all the university admissions requirements. Students can be admitted in either classified or conditionally classified standing.

After earning a baccalaureate degree in Nursing from an accredited program and obtaining San José State University admission, one may enter the master’s program with a major in Nursing. Graduates of non-accredited baccalaureate programs must take prior coursework that will be assessed to determine requisite content and equivalency to baccalaureate degree requirements. Programs of study for the MS degree with a major in Nursing are based on this assessment. A California RN license is required.

Requirements for Conditionally Classified Standing
Students whose records show certain deficiencies, but whose professional achievements indicate a promise of success, may be admitted on a conditional basis. To qualify for classified standing, the conditions must be met. The appropriate form will be completed by the Nursing Program Graduate Coordinator upon receipt of documentation. A California RN license is required.

Registered nurses with baccalaureate degrees in disciplines other than nursing may be accepted conditionally such that a specialized course of study is required prior to taking Master’s in Nursing courses. There are a minimum of four undergraduate courses that need to be completed with a grade of “B” or better.

Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage at GAPE.

Requirements for Admission to Classified Standing
General university requirements for consideration for admission in classified standing for the master’s degree or from moving from conditionally classified to classified standing are outlined in this catalog. The university requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy and for conversion from conditional to classified standing. Refer to the SJSU catalog section titled “Graduation Writing Assessment Requirement” for details. For graduate courses that meet the GWAR, please refer to the Graduate Admissions and Program Evaluations (CAPE) website at www.sjsu.edu/cape. In addition, the following School of Nursing requirements apply:

1. Completion of an accredited baccalaureate program in nursing with an upper-division major comparable to that offered at San José State University. Applicants who have completed other curricula or who have deficiencies will be considered individually and may be required to enroll in designated courses.
2. Applicants must present a GPA of at least 3.0 in the last 60 units of the undergraduate nursing major.
3. Completion of an introductory research course.
4. Evidence of licensure as a Registered Nurse (RN) in the State of California.
5. Completion of The Valley Foundation School of Nursing application with all attachments.
6. A statement of purpose that outlines the applicant’s goals and objectives in seeking a degree.
7. Evidence of having met health requirements of the school.
9. Evidence of knowledge and skills in the following areas: physical and psychosocial assessment skills developed to the level that the applicant can perform a complete history and physical exam on a well adult of either gender within one hour. Work completed to make up any of the above deficiencies will not be counted as part of the required units for the MS - Nursing.
Requirements for Admission to Graduate Candidacy

For advancement to candidacy for the MS - Nursing degree requires that the applicant has been granted classified standing and has removed any deficiencies involved. In addition, the candidate must have:

1. Earned at least a “B” (3.0) average in a minimum of nine graded semester units of 100- and/or 200-level work completed in graduate standing at San José State University and in any course work completed in graduate standing at other institutions before enrollment here.
2. Classified standing.
3. Planned a proposed program of study approved by the Nursing School Graduate Coordinator and approved by GAPE.

Requirements for Graduation

University Graduation Requirements

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

MS - Nursing Graduation Requirements

Classified standing in Nursing or the permission of instructor is required for all nursing courses listed. Students have the option to complete a post master’s Nurse Educator Certificate.

Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). For information on the GWAR, please see http://info.sjsu.edu/gcw.html.

Culminating Experience

COMPLETE ONE COURSE FROM:

| NURS 297. Master’s Project | 1-4 |
| NURS 299. Master’s Thesis | 1-4 |

Total Units Required

36

Elective courses, if applicable, are to be taken outside The Valley Foundation School of Nursing. The content of these units is to support the chosen functional option. At least one of the courses must be at the 200-level of course work. FNP students do not have elective course requirements.

**MS- Nursing, Concentration in Family Nurse Practitioner (Special Session Program)**

A graduate of this program is prepared for advanced nursing practice with a concentration as a Family Nurse Practitioner (FNP).

**Requirements for Admission**

Candidates must meet all the university admissions requirements. Students can be admitted in either classified or conditionally classified standing. The FNP option is offered in Special Session and only if student enrollment is adequate. After earning a baccalaureate degree in Nursing from an accredited program and obtaining San José State University admission, one may enter the master’s program with a major in Nursing. Graduates of non-accredited baccalaureate programs must take prior coursework that will be assessed to determine requisite content and equivalency to baccalaureate degree requirements. Programs of study for the MS degree with a major in Nursing are based on this assessment. A California RN license is required.

**Requirements for Conditionally Classified Standing**

Students whose records show certain deficiencies, but whose professional achievements indicate a promise of success, may be admitted on a conditional basis. To qualify for classified standing, the conditions must be met. The appropriate form will be completed by the Nursing Program Graduate Coordinator upon receipt of documentation. Registered nurses with baccalaureate degrees in disciplines other than nursing may be accepted conditionally such that a specialized course of study is required prior to taking Master’s in Nursing courses. There are a minimum of four undergraduate courses that need to be completed with a grade of “B” or better. A California RN license is required. Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage at CAPE.

**Requirements for Classified Standing**

General university requirements for admission in classified standing or for moving from conditionally classified to classified standing for the master’s degree are outlined in this catalog. The university requires that all graduate students complete the Graduation Writing Assessment Requirement (CWAR) as a condition for advancement to candidacy and for conversion from conditionally to classified standing. Refer to the SJ State catalog section titled “Graduation Writing Assessment Requirement” for details. For graduate courses that meet the CWAR, please refer to the Graduate Admissions and Program Evaluations (GAPE) website at www.sjsu.edu/gape. In addition, the following School of Nursing requirements apply:

1. Completion of an accredited baccalaureate program in nursing with an upper-division major comparable to that offered at San José State University. Applicants who have completed other curricula or who have deficiencies will be considered individually and may be required to enroll in designated courses.
2. Applicants must present a GPA of at least 3.0 in the last 60 units of the undergraduate nursing major.
3. Completion of an introductory research course.
4. Evidence of licensure as a Registered Nurse (RN) in the State of California.
5. Completion of The Valley Foundation School of Nursing application with all attachments.
6. Evidence of having met health requirements of the school.
8. Evidence of knowledge and skills in the following areas: physical and psychosocial assessment skills developed to the level that the applicant can perform a complete history and physical exam on a well adult of either gender within one hour. Work completed to make up any of the above deficiencies will not be counted as part of the required units for the MS - Nursing.
9. Application for the Family Nurse Practitioner Program requires an interview.

**Requirements for Advancement to Graduate Candidacy**

Advancement to candidacy for the MS - Nursing program requires that the applicant has been granted classified standing and has removed any deficiencies involved. In addition, the candidate must have:

1. Earned at least a “B” (3.0) average in a minimum of 9 letter-graded semester units of 100-level and/or 200-level coursework completed while in graduate standing at San José State University and in any coursework completed while in graduate standing at other institutions before enrollment here.
2. Classified standing.
3. Planned a proposed program of study approved by the Nursing Graduate Coordinator and approved by GAPE.

**Requirements for Graduation**

University Graduation Requirements

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.
## MS - Nursing Graduation Requirements

Classified standing in Nursing or the permission of instructor is required for all nursing courses listed.

### Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). For information on the GWAR, please see [http://info.sjsu.edu/gcw.html](http://info.sjsu.edu/gcw.html).

42

Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU cumulative grade point averages of 3.0 in order to graduate.
Doctor of Nursing Practice Program

California State University, Fresno (Fresno State) and San José State University offer a joint post-master’s Doctor of Nursing Practice program. The DNP is a practice degree designed to prepare nurse leaders and advanced practice nurses for evidence-based practice in patient care, leadership, and educational roles. The culminating experience for this program is a doctoral project, rather than a dissertation.

The purpose of the Doctor of Nursing Practice (DNP) Program is to prepare experts in specialized advanced nursing practice. The DNP program prepares graduates for leadership and clinical roles and to engage in evidence-based inquiry. Graduates may also serve as clinical faculty in postsecondary nursing education programs. The curriculum is based on the American Association of Colleges of Nursing’s The Essentials of Doctoral Education for Advanced Nursing Practice (2006) and meets all requirements for national accreditation.

Designed for working professionals, coursework primarily offered in an online format with occasional intensive sessions held alternately on the Fresno State and San José campuses.

Admission occurs once a year in the Fall. Applications are available the previous Fall. The program follows the cohort model, and there is no part-time option. This is a 5 semester, 37 unit program that can be completed in 21 months of full-time study. See www.calstate.edu/dnp for more information.

Introduction
Nutritionists, food scientists, dietitians, foodservice and packaging professionals. The Department of Nutrition, Food Science and Packaging trains graduates for rewarding careers in settings as diverse as community organizations, educational institutions, hospitals, nutrition and research laboratories, corporations and government agencies. The first nutrition department in the CSU system, our department traces its roots to 1911. We currently offer a master’s degree in nutritional science and two undergraduate degrees in the field: a general BS degree and a BS degree with the option of concentrations in dietetics and packaging. Our dietetics program is accredited by the Academy of Nutrition and Dietetics (AND) and the Accreditation Council for Education in Nutrition and Dietetics (ACEND) qualifying our students to apply for ACEND accredited internships and to work toward becoming registered dietitians.
# BS - Nutritional Science, Concentration in Applied Nutrition and Food Science

**University Graduation Requirements**

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the [Graduation Requirements](#) section of the Policies and Procedures.

**4-Year Program Roadmap**

Students may find a roadmap for this program [here](#). Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). | Units | 120 |
# BS - Nutritional Science, Concentration in Dietetics

## University Graduation Requirements

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the [Graduation Requirements](#) section of the Policies and Procedures.

### 4-Year Program Roadmap

Students may find a roadmap for this program [here](#). Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found [here](#).

## University Graduation Requirements

### Core Lower Division General Education

Of the 39 units required by the university, 18 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

**Total Units Required:** 120
**BS - Nutritional Science, Concentration in Food Management**

The concentration in Food Management under the Bachelor of Science Degree Program in Nutritional Science provides students with the education and background needed to gain employment in foodservice administration. The course plan emphasizes providing a scientific foundation in introductory chemistry, bacteriology and human physiology. Support courses in psychology, statistics and economics also provide a strong background. Business courses in human resource management, accounting, and labor relations are needed to provide business skills utilized in foodservice management. Numerous courses in culinary skills, foodservice production management and procurement, catering, sanitation and food science, and cultural aspects of food, as well as nutrition, provide the industry focused education needed to function in the foodservice industry in management.

All students majoring in the Food Management concentration complete both a foodservice internship for 200 hours as well as a field experience course planned for a higher level of work responsibilities with enrollment as a senior for 90 hours. Both experiences provide the students majoring in the Food Management Concentration with the knowledge, skills, and confidence to interview for foodservice management positions. A carefully prepared multi-year program of study will ensure an appropriate sequencing of required courses and students should seek early and frequent advice from departmental advisors.

There are no minimum grade requirements for the major other than an overall 2.5 average across the courses in the major. The Concentration course plan meets the Program Learning Outcomes established for the Department. The BS degree in Nutritional Science with a Concentration in Food Management is a regimented degree plan for students who wish to develop a focused set of skills to be successful in the foodservice industry so they can apply these skills in a practical setting.

**University Graduation Requirements**

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the [Graduation Requirements](#) section of the Policies and Procedures.

4-Year Program Roadmap

Students may find a roadmap for this program [here](#). Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found [here](#).

**Total Units Required**: 15
**MS - Nutritional Science**

Our Master of Science (MS) program in Nutritional Science is designed to meet the needs of the student who has a baccalaureate degree and who wishes advanced preparation in nutrition science, nutrition education, geriatric nutrition, and foodservice/restaurant management and packaging. The program is intended to prepare candidates to assume leadership roles in their profession and communities and to provide the opportunity to acquire a foundation for doctoral study. Our MS graduates have earned doctorates, become college or university faculty, been employed in private, federal and state research institutions, or have established their own private practice or consulting business. In the process of fulfilling requirements for the MS degree, it is possible to complete the academic requirements of the Academy of Nutrition and Dietetics (AND) and the Accreditation Council for Education in Nutrition and Dietetics (ACEND) toward becoming a registered dietitian. Courses are scheduled to accommodate the time needs of working graduate students.

Additional information is available on the department website: [www.sjsu.edu/nufspkg](http://www.sjsu.edu/nufspkg)

**Admission Requirements**

Candidates must meet all the university admission requirements. Students can be admitted in either classified or conditionally classified standing. All prospective students need to apply separately to the university to obtain approval for university-level admission and to the department to obtain admission into the M.S. in Nutritional Science program. The following is required for all applicants seeking admission to the program:

1. Apply online at [calstate.edu/apply](http://calstate.edu/apply);
2. Mail official college transcripts in sealed envelopes from all universities or colleges attended before the posted document deadline to Graduate Admissions & Program Evaluations (GAPE);
3. Submit GRE scores to SJSU (graduate division) Graduate Program Test Requirement;
4. Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirement webpage at GAPE; and
5. Send the following documents to the NUFS/PKG graduate coordinator by email:
   a. Signed and dated letter of intent
   b. 3 letters of recommendation
   c. Signed “right of access to letter of recommendation” for each person providing a letter
   d. Resume

**Requirements for Admission to Classified Standing**

In addition to meeting University requirements, a selection committee will determine eligibility for admission to classified standing on the basis of information provided in the application. Criteria include:

1. BA or BS degree in Nutritional Science, Food Science, Foodservice Management, or equivalent;
2. Grade point average of 3.0 in upper division courses; and
3. Completed prerequisite course requirements as described in the graduate handbook.

**Requirements for Admission to Conditionally Classified Standing**

Students seeking an MS degree in Nutritional Science who meet requirements for admission to the Graduate Division, but lack an undergraduate degree in Nutritional Science, Food Science, Foodservice Management or equivalent and have little or no professional experience, may apply for conditionally classified standing in the department. The decision to accept the student for study in this program will be made by a selection committee. Criteria include:

1. BA or BS degree;
2. Grade point average of 3.0 in upper division courses; and
3. Completion of prerequisite course requirements courses to correct deficiencies in undergraduate courses.

**Requirements for Admission to Candidacy for the MS - Nutritional Science**

Prior to registering for the first time (or upon re-entering), a student should consult with the Graduate Coordinator to develop a schedule of courses. Advancement to candidacy for the Master’s degree in Nutritional Science requires favorable action of the Graduate Committee of the Department of Nutrition, Food Science and Packaging and of the university’s Office of Graduate Admissions & Program Evaluations. In general, students will be recommended for candidacy when they:

1. Fulfill all university requirements for advancement to candidacy;
2. Attain classified graduate standing;
3. Complete a minimum of 9 units of letter-graded approved courses;
4. Receive a minimum 3.0 grade point average in all classes listed on the candidacy form;
5. Successfully complete NUFS 217 with at least a “C” to meet the Graduation Writing Assessment Requirement (GWAR); and
6. Select a graduate advisor and thesis/project problem.

Requirements for Graduation

University Graduation Requirements

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

MS - Nutritional Science Graduation Requirements

Maintenance of a 3.0 GPA is necessary. A comprehensive final oral examination is required and will be of such scope and manner as determined by the student’s graduate committee. As shown below, the program consists of 30 semester units of approved work, including 6 units of Plan A (Thesis) or 3 units of Plan B (Project).

Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). For information on the GWAR, please see http://info.sjsu.edu/gcw.html.

NUFS 299. Master’s Thesis | 1-6 |
Plan B | 18 |
Graduate Emphasis Courses | 12-15 |
Culminating Experience | 3-6 |
NUFS 298. Special Studies in Nutrition, Food Science and Packaging | 1-6 |

Total Units Required 30

Elective courses must be planned in consultation with the Graduate Advisor.

The maximum number of upper-division undergraduate units that can be applied toward the master’s degree is 15.

Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU Cumulative grade point averages of 3.0 in order to graduate.
Culminating Experience

Plan A (with Thesis)

For this plan, the student is required to complete the 12 units of core courses. Fifteen or more units must be approved 200-level courses and must include NUFS 299 Master’s Thesis. A maximum of 3 units Special Studies (NUFS 298) is allowed. See thesis information for steps in completing a thesis. A bound copy of the thesis must be submitted to the Nutrition, Food Science and Packaging Department and to the student’s thesis advisor.

Plan B (with Project)

For this plan, the student is required to complete the 12 units of core courses. Fifteen or more units must be approved 200-level courses. A written project (NUFS 298) to be submitted in publication format is required. A bound copy of the project must be submitted to the Nutrition, Food Science and Packaging Department and to the student’s project advisor.

Curricula
- Certificate, Mindfulness-Based Occupational Therapy
- MS, Occupational Therapy

Introduction
Occupational therapists help people of all ages whose daily lives are disrupted by illness, injury, or other conditions to improve their health, independence and participation through the therapeutic use of everyday activities (occupations). One of the fastest growing of the health care professions, the demand for occupational therapists will grow by almost 30 percent by 2020, the U.S. Bureau of Labor Statistics reports.

The SJSU OT department is the oldest accredited OT program in the CSU system. Founded in 1943, it is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery, Suite 200, Bethesda, MD 20814-3449. ACOTE’s telephone number, c/o AOTA is (301) 652-AOTA and its web address is www.acoteonline.org. NBCOT School Program Performance Data is also available.

Courses are taught by nationally recognized faculty who have clinical, research and teaching expertise across a broad range of traditional and emerging practice areas. The Student Occupational Therapy Association (SOTA) provides a myriad of social, educational and leadership opportunities. Always in high demand, our graduates are hired by private and public health care institutions and agencies.
Certificate in Mindfulness-Based Occupational Therapy

This program is meant to provide the means for occupational therapists to develop, experience, and see the profession of OT through a guiding mindfulness-based practice model and lens. The program provides curricular opportunities in the community of other OTs to build skills for developing all of the senses and abilities one has currently available to be in wise relationship to the occupational paradox of being and doing and explores the value of occupational participation as it relates to meaning and purpose. Developing skillful and steadfast mindful self-care and compassion in the midst of our complex work as OTs is a primary focus of this training program. From this embodied experience of the mindfulness-based lens the program will provide guidance and mentorship for appropriately integrating mindfulness into one’s clinical work.

Requirements of the Certificate

Certificate Prerequisites

Mindfulness-Based Stress Reduction Course 8-week (9-10 session [2.5 to 3 hours per week] with All-Day Retreat Session) and Proof of license as a healthcare professional from any accredited institution. Participation in a 1-day MBOT Certificate Program Orientation / Information /Introductory Session which may be offered in person or online by the MBOT program instructors.

Total Units Required: 11
**MS - Occupational Therapy**

The SJSU OT department is the oldest accredited OT program in the CSU system. Founded in 1943, it is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery, Suite 200, Bethesda, MD 20814-3449. ACOTE’s telephone number, c/o AOTA is (301) 652-AOTA and its web address is www.acoteonline.org. NBCOT School Program Performance Data is also available.

**Admission Requirements**

The MS curriculum in occupational therapy is designed for those who have already earned a baccalaureate degree in another field. The program of study enables students to obtain the education and degree necessary to be eligible to practice as an occupational therapist. Once the MS degree in Occupational Therapy is completed, the student is eligible to sit for the national certification examination. Successful completion of the examination qualifies the candidate to apply for national certification and state licensure.

Applications are accepted beginning October 1 for the subsequent Fall semester. It is important that students apply as early as possible.

**Admission to Classified Graduate Standing**

The following prerequisites must be met:

1. Cumulative GPA of 3.0 (on 4.0 scale) in upper division courses and prerequisite courses.
2. Minimum of 80 hours volunteer experience or equivalent paid work experience in 2 different types of therapeutic settings; 60 of the hours must be completed under the supervision of an occupational therapist. Hours must be verified by supervisor on Evaluation Form for Volunteer Experience available from the Department of Occupational Therapy and submitted at the time of application.
3. Completion of Student Information Form available on the OTCAS and submit the first page of the OTCAS application form and the general essay from the OTCAS application directly to the Occupational Therapy department.
4. Human Anatomy with human cadaver laboratory (virtual laboratory acceptable), 3 semester units or 4 quarter units.
5. Physiology with laboratory, 3 semester units or 4 quarter units.
6. Introductory psychology course or acceptable upper division psychology course as substitute, 3 semester or 4 quarter units.
7. Introductory Sociology or Cultural Anthropology course, 3 semester or 4 quarter units.
8. Abnormal Psychology course, 3 semester or 4 quarter units.
9. One college level skills course may be taken through adult education. The purpose of the course is to have students work with an artistic medium. Acceptable courses include: Ceramics, painting, weaving, graphic arts or woodworking. Previous work may be accepted as fulfilling this requirement, at the discretion of the Admissions Committee.
10. Statistics course, either an upper division course offered by the departments of education, social sciences, psychology or division of health professions or a lower division statistics course that covers correlations and analysis of variance, 3 semester or 4 quarter units.
11. Neuroanatomy/Neuroscience - May be taken on SJSU campus or online. Courses from other institutions may also be acceptable at the discretion of the Admissions Committee. 3 semester units or 4 quarter units.
12. Evidence of understanding of occupational therapy and defined career goals in relation to that profession as stated on the Student Information Form and/or accompanying personal written statements (see #3 above).
13. Ability to write as demonstrated in the student information form (#3 above), transcripts of all previous work submitted and any correspondence.
14. A GRE (Graduate Record Examination) combined minimum Quantitative and Verbal score of 297 is required. A minimum GRE verbal score of 153 is required and a minimum Analytical Writing score of 4.0 are required; a score of 4.5 or higher in Analytical writing is desired. Note: Scores must be sent to both the Department of Occupational Therapy, and the University.
15. Three letters of recommendation from former instructors, employers, supervisors, or other individuals knowledgeable about the candidate’s academic abilities, capacity for goal-directed behavior, and the ability to integrate and synthesize ideas.
16. Personal interview by Graduate Committee may be requested. If so, the student will be notified. If transportation, cost, and time are prohibitive a phone or online interview can be arranged.

All prerequisite courses must be completed before acceptance into the program. All transcripts must be sent to OTCAS, in addition to the University. For current admission procedures, please visit [http://www.sjsu.edu/occupationaltherapy/](http://www.sjsu.edu/occupationaltherapy/).

These requirements exist for all students holding baccalaureate degrees in other disciplines. The department reviews completed files and makes recommendations for acceptance or denial to the SJSU Admissions Office.

The purpose of OCTH 295 is to provide inquiry in advanced topics in occupational therapy practice, including theoretical and clinical problems. The Comprehensive Master’s project requires critical analysis and synthesis of information gathered, crafted into a publishable paper or poster and oral presentation.
Requirements for Advancement to Candidacy

The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. Please refer to the SJSU catalog section titled “Graduation Writing Assessment Requirement” for details. For graduate courses that meet the GWAR, please refer to the Graduate Admissions and Program Evaluations website at http://www.sjsu.edu/gape. Students must maintain a 3.0 GPA to remain in the MS program.

Successful completion of OCTH 245, including passing the final written paper in this course with a grade of “B” or better.

Occupational Therapy International Experience Requirement

To satisfy the Occupational Therapy Department international requirement, students must study abroad for at least nine days in an approved program (exemption from the study abroad portion of the requirement must be approved by the dean of the College of Applied Sciences and Arts based on compelling individual life experiences or physical limitations. A relevant cross-cultural experience in the U.S. will be substituted). Specific details can be found on the college website at http://www.sjsu.edu/casa/international-experience.

Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). For information on the GWAR, please see http://info.sjsu.edu/gcw.html.

Curricula
⦁ **BA, Philosophy**
⦁ **Minor, Philosophy**
⦁ **MA, Philosophy**

Introduction
Philosophy majors read and discuss ideas generated by some of the greatest thinkers in history and learn to examine contemporary theoretical problems from a philosophical perspective. Noted for its treatment of philosophy in a global context as well as its engagement with issues reflecting its Silicon Valley setting, the Department of Philosophy offers classes taught by faculty recognized and highly regarded for both teaching and scholarship. Our curriculum is equally strong in traditional and innovative areas of philosophy, such as feminist and applied philosophy, and we offer both undergraduate and graduate degree programs. Because the study of philosophy develops a student’s ability to analyze ideas and arguments, to think critically and to write well, a major in philosophy provides pre-professional training in a number of fields, including the fields of law, medicine, psychology and theology.
## BA - Philosophy

### University Graduation Requirements

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the [Graduation Requirements](#) section of the Policies and Procedures.

#### 4-Year Program Roadmap

Students may find a roadmap for this program [here](#). Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found [here](#).

PHIL 157. Intermediate Logic & Language Analysis

PHIL 157 requires permission from advisor

**COMPLETE ONE COURSE FROM:**

PHIL 070B. Modern Philosophy

**C2**

Complete Eight upper division Philosophy courses

Undergraduate Philosophy students who have received permission from the instructor may substitute a Graduate Level Philosophy course for one of the eight upper division Philosophy courses.

One of the eight upper division courses must be from the PHIL 190 or PHIL 290 series.
Minor - Philosophy

The selection of philosophy courses should expose the student to the history, traditions and methods of philosophy in a manner that helps students to productively assess their major course work within a broader philosophical perspective.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major (University Policy S16-4).

MA - Philosophy

Advisors: Dr. Carlos A. Sanchez

Requirements for Admission to Classified Standing
Candidates must meet all university requirements for admission. In addition, a student will be admitted to classified status only if:

1. At least 18 units in philosophy have been taken including at least 6 units in upper division work, at least 6 units in the history of philosophy, at least 3 units in ethics, and at least 3 units of symbolic logic (Phil 9 or its equivalent). Exceptions based on comparable studies and experience may be made with graduate committee approval. 
2. The average grade received in the 18 units is at least a “B”.
3. Three letters of recommendation have been submitted.

Admission to Conditionally Classified Standing
Applicants who meet requirements for admission to the Graduate Division but who do not meet all the requirements for classified standing will be admitted as conditionally classified.

Requirements for Admission to Candidacy for the MA - Philosophy
The basic requirements for admission to candidacy for the MA - Philosophy are outlined in detail in the Academic Requirements section of this catalog. The University requires that all graduate students satisfy the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. Please refer to the SJSU catalog section titled “Graduation Writing Assessment Requirement” for details. For graduate courses that meet the GWAR, please refer to the Graduate Admissions & Program Evaluations website at www.sjsu.edu/gape.

Completing Requirements

Plan A - Thesis
Designed for students who wish to do a thesis.

Plan B - Option 1: Reading Intensive
Designed for students who wish to do a guided, individualized reading project.

Plan B - Option 2: Applied Philosophy Project
Designed for students who wish to do a project.

Graduation Writing Assessment Requirement
At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). For information on the GWAR, please see http://info.sjsu.edu/gcw.html.

Introduction
At the core of all science, physics helps us understand chemical reactions, protein folding, the Earth’s interior, and the life cycle of stars. Among much else, physicists invented the semiconductor, the laser, and the electron microscope. They play key roles in the design and operation of spacecraft and in the development of electronic and optical instrumentation. The Department of Physics and Astronomy offers an MS degree in physics and two undergraduate degrees: (1) a BS that prepares students for professional careers in applied physics or graduate study, and (2) a BA that combines a strong foundation in physics with electives that allow for a second area of concentration, such as computer science, chemistry, science education, or math. Our faculty are experts in lasers and optics, computational physics, condensed matter, astrophysics, and physics education research. The department receives on average approximately $1.8 million annually in external funding for sponsored research.
BA - Physics

This 120-unit program provides a strong foundation in physics while allowing sufficient electives for the student to pursue a second program of study in another field (e.g., science education, business, math, or another science; transfer students must take at least 12 units of upper division physics major courses at SJSU with a GPA of 2.0 or better in these courses).

University Graduation Requirements
Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the Graduation Requirements section of the Policies and Procedures.

4-Year Program Roadmap
Students may find a roadmap for this program here. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found here.

BA - Physics, Preparation for Teaching (Not Accepting Students)

This major is designed for students interested in teaching science in high school or middle school. The following course work satisfies San José State University’s requirements for a BA in Physics. A Minimum grade point average (GPA) criteria may be required for verification of subject matter competency. Completion of the program will not guarantee admission to the credential program. Like all other applicants, students must meet credential program standards and undergo screening for admission. See "Teaching: How to Become a Teacher in California" (see Teaching) for information on application and admission to credential programs.

University Graduation Requirements

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the Graduation Requirements section of the Policies and Procedures.

4-Year Program Roadmap

Students may find a roadmap for this program here. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found here.

BS - Physics

This 120-unit program prepares students for professional positions in applied and computational physics or for graduate study (transfer students must take at least 12 units of upper division physics major courses at SJSU with a GPA of 2.0 or better in these courses).

University Graduation Requirements

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the Graduation Requirements section of the Policies and Procedures.

4-Year Program Roadmap

Students may find a roadmap for this program here. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found here.

University Graduation Requirements

Core Lower Division General Education

Of the 39 units required by the university, 15 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a "C-" or better to meet the requirement. Consult with major advisor for details.

NOTE: STUDENTS WHO HAVE COMPLETED THE ADT TRANSFER DEGREE (UNDER SB 1440) FOR THIS MAJOR WILL HAVE COMPLETED ALL LOWER DIVISION GE REQUIREMENTS AND SHOULD FOLLOW THE 60 UNIT GUARANTEE ROADMAP. MEET WITH AN ADVISOR PRIOR TO REGISTERING FOR YOUR FIRST SEMESTER FOR THE 60 UNIT ROADMAP OR SPECIFIC QUESTIONS.

Upper Division General Education

Of the 9 units required by the university, 0 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions

The 6 units of American Institutions (US123) coursework shown below also fulfills GE Areas D2 and D3. Other courses meet the American Institutions requirement, but may not include additional GE areas. The American Studies (AMS 1A/B) and Humanities Honors (HUM 1A/B, 2A/B) programs both offer larger integrated packages that meet this requirement. Consult with major advisor for details.

Graduate Programs in Physics

Requirements for Admission to Classified Standing
Minimum requirements for admission to the Graduate Division are outlined in the Admissions section of this catalog. The student must also have completed at least 24 semester units of upper division physics, or courses in related fields approved by the Physics Department graduate advisor.

Requirements for Admission to Conditionally Classified Standing
Students who meet minimum requirements for admission to the Graduate Division but who lack adequate preparation in physics may be admitted to conditionally classified standing. Students in conditionally classified standing will normally concentrate on undergraduate physics, but may enroll in any graduate course in physics for which they have the prerequisites.

Requirements for Admission to Candidacy for the Master’s Degree
Students seeking admission to candidacy must meet the all-university requirements outlined in the Academic Requirements section of this catalog. In addition, students should also achieve a minimum score of 550 on the physics portion of the Graduate Record Exam (GRE).

The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. Please refer to the SJSU catalog section titled “Graduation Writing Assessment Requirement” for details. For graduate courses that meet the GWAR, please refer to the Graduate Admissions and Program Evaluation website at www.sjsu.edu/gape. The GWAR can also be demonstrated by passing either a 100W course or the waiver exam.
# MS - Physics

**Graduate Advisor: Dr. Peter Beyersdorf**

Introduction
Political science majors tackle the public issues of the day as well as the timeless issues of government, public policy and the political process. The Department of Political Science offers a BA in political science and a master’s degree in public administration (MPA). Our courses cover U.S. politics and public administration, public law, comparative politics, international relations and political theory. Our extensive internship program includes funded internships in Sacramento and Washington, D.C., and our students have the opportunity to participate in a Model United Nations and the honor society Pi Sigma Alpha. We arrange annual trips to the state capital and state supreme court and campus presentations by guest speakers who range from Holocaust survivors to U.S. Senators. We prepare our graduates for advanced graduate study as well as careers in law, teaching, government service, legislative staffing, political consulting, interest group representation, international relations and other fields. Contact us at 408-924-5550 or visit us at http://www.sjsu.edu/polisci/.
Honors Program

The achievements of political science majors with an overall GPA of 3.20 and a 3.50 GPA in political science are recognized by the department honors program. These outstanding students are eligible to enroll in POLS 190H, an honors thesis. Students who attain the required GPA and complete the honors thesis graduate with Honors in Political Science. Interested students should consult the department chairperson.
# BA - Political Science

The BA - Political Science provides students with an understanding of politics and the political process and prepares them for their lifelong responsibilities as citizens, as well as furthering their skills in critical analysis and communication. The major in political science may lead to a wide variety of careers, including teaching, the law, business and public service.

## University Graduation Requirements

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the [Graduation Requirements](#) section of the Policies and Procedures.

### 4-Year Program Roadmap

Students may find a roadmap for this program [here](#). Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found [here](#).

### University Graduation Requirements

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

### Core Lower Division General Education

Of the 39 units required by the university, 9 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a “C-“ or better to meet the requirement. Consult with major advisor for details.

**NOTE:** STUDENTS WHO HAVE COMPLETED THE ADT TRANSFER DEGREE (UNDER SB 1440) FOR THIS MAJOR WILL HAVE COMPLETED ALL LOWER DIVISION GE REQUIREMENTS AND SHOULD FOLLOW THE 60 UNIT GUARANTEE ROADMAP. MEET WITH AN ADVISOR PRIOR TO REGISTERING FOR YOUR FIRST SEMESTER FOR THE 60 UNIT ROADMAP OR SPECIFIC QUESTIONS.

### Upper Division General Education

Of the 9 units required by the university, 0 units may be satisfied by coursework outlined below. Consult with major advisor for details.

### American Institutions

The 6 units of American Institutions (US123) coursework shown below also fulfills GE Areas D2 and D3. Other courses meet the American Institutions requirement, but may not include additional GE areas. The American Studies (AMS 1A/B) and Humanities Honors (HUM 1A/B, 2A/B) programs both offer larger integrated packages that meet this requirement. Consult with major advisor for details.

*Consult Major Advisor for department recommended coursework to meet GE requirement.*

### Physical Education

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Units</th>

</table>

### Graduation Writing Assessment Requirement

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. For additional information on the WST, please see [http://testing.sjsu.edu/wst](http://testing.sjsu.edu/wst). Exemptions to the GWAR may be found at [http://info.sjsu.edu/gwar.html](http://info.sjsu.edu/gwar.html).

A grade of C or better (C- not accepted) is required to meet graduation requirement.

|                                              | Students may choose Political Science or other electives.               |

Total Units Required 120
## Minor - Applied Research Methods

The interdisciplinary Minor in Applied Research Methods (ARM) is designed to prepare students for careers involving social research and data analysis. The ARM Minor provides students with a broad understanding of research methods, including both quantitative and qualitative approaches and techniques such as surveys, experiments, interviews, focus groups, ethnography, and content analysis. Students in the ARM Minor will learn to apply these research skills to socially relevant issues, combining theoretical background with hands-on skills practice. The ARM Minor provides an ideal complement to the programs of students from a variety of social sciences, business, and applied sciences and arts disciplines.

### University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major (University Policy S16-4).

#### Requirements of the Minor 15-19

## Minor - Political Science

Students majoring in a wide variety of fields find a minor in political science interesting and useful, providing knowledge and skills that enhance their careers, improve their citizenship and cultivate their minds. The minor appeals especially to students in the other social sciences or in business, journalism or administration of justice, although many others also use the minor to broaden their education. Political Science department advisors help students customize their programs to support their special interests. A minimum of six units must be completed in residence to satisfy the requirements for a political science minor. The minimum requirements are:

Minor - Public Administration and Public Policy

The Public Administration and Public Policy minor provides a structured introduction to the practice of government. This minor appeals especially to students who are interested in exploring careers in the public, private, or non-profit sectors that involve policy development, advocacy, and evaluation, or government relations. This minor compliments the Political Science major, as well as other majors across the social sciences, business, journalism, justice studies, social work, and many other disciplines.

Total Units Required 19
MPA - Master of Public Administration

The program leads to the professional degree of Master of Public Administration. It provides pre-service students with the knowledge and skills necessary for effective administration of local, state, and federal government agencies and of nonprofit organizations. It also offers mid-career administrators and professionals in public service an opportunity to improve their management skills and qualifications. For the convenience of students who are employed full-time, all courses are offered in the evening. Alumni assist with orientation and mentoring activities.

The MPA program provides each student with a basic understanding of the environment of public policy and the ability to deal with:

- Political and legal institutions and processes
- Economic and social institutions and processes
- Organization and management concepts, and human resource administration
- Concepts and techniques of budgeting and financial administration
- Application of quantitative and qualitative techniques of analysis in policy and program formulation, implementation and evaluation, and decision making and problem solving

Students also develop the ability to:

- Define and diagnose public problems, engage in supported decision-making, collect relevant data including big data, perform logical analyses, develop alternatives, implement an effective and ethical course of action, and evaluate results
- Organize and communicate information clearly to a variety of audiences through formats including oral presentations, written memoranda and technical reports, and statistical charts, graphs, and tables
- Recognize and value diversity and diverse viewpoints within the community, and integrate diverse view into community problem solutions
- Apply information technology to public administration problems, including community service provision and cybersecurity of systems

For more information on the program please go to the program’s website at http://www.sjsu.edu/mpa/

Admissions Requirements

The MPA program accepts students in unclassified and classified standing. People in unclassified standing must meet all admissions requirements, but may be lacking one or more of the prerequisites for the program. These prerequisites must be completed before registering for the fifth MPA course. People admitted in classified standing have met all requirements for admission to the program.

Minimum requirements for admission to the Graduate Division are outlined in this catalog. See admissions requirements.

The MPA does not use the GRE, as it is not a good predictor of performance for people who have been in the working world for several years. The MPA program is designed for working professionals, although well qualified recent graduates may be admitted.

Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage at CAPE. For the MPA a minimum score of 575 is required.

Preparation

A bachelor’s degree or its equivalent, from an accredited college or university is required. No specific undergraduate major is necessary. Preparation must include introductory courses in American government, micro-economics and statistics from an accredited community college or university, and competency in spreadsheet use. These are known as prerequisites, requirements to be met before beginning the MPA program. Deficiencies in preparation must be removed before admission to candidacy and before completion of four MPA courses. Transcripts for the baccalaureate, including from all colleges where prerequisites were taken, must be sent directly to Graduate Admissions upon applying to the program, not to the department. Transcripts for the missing prerequisites submitted after admission must go to the MPA Director directly.

Grade Point Average (GPA) Requirements

Applicants applying directly after graduating from an undergraduate school need an overall grade point average of 3.0 in all courses, or in the last 60 units as an undergraduate, or in the major. Applicants applying three or more years after completing the BA degree need a grade point average of 2.75 overall, or in the last 60 units of undergraduate courses, or in the major. These are minimum qualifications for consideration, and may not result in admission. In addition, applicants should submit evidence of professional development, such as promotions noted on a resume or in letters of recommendation.

Requirements for Advancement to Graduate Candidacy

Students must apply for admission to candidacy as early as possible, but no later than the last semester of their graduate program. University requirements for advancement to candidacy for the master’s degree as outlined in the Graduate Policies and Procedures section of this catalog can be found at this link.
Final date for submission in each semester may be found at the GAPE website http://www.sjsu.edu/gape/current_students/deadlines/. In addition to meeting the university-wide requirements for advancement to candidacy, as outlined in this catalog, applicants must have submitted an approved program for the degree.

Candidacy includes successful completion of the Graduation Writing Assessment Requirement (GWAR), described in this catalog. For graduate courses that meet the GWAR, please refer to the Graduate Admissions and Program Evaluations website at www.sjsu.edu/gape. Within the MPA program, PADM 210 meets the GWAR.

### Requirements for Graduation

#### University Graduation Requirements

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

#### Plan A (with Thesis)

A thesis demonstrating the student’s competence in original research and acceptable to the department must be submitted to the department at least eight weeks prior to the date on which the degree is to be awarded. This thesis must conform to university standards and be approved by the Associate Dean of Graduate Studies.

#### Plan B (with Project)

In lieu of a thesis, a student may complete an academically rigorous research project by enrolling in PADM 298, Special Problems. In PADM 298 the student will complete a substantial paper under faculty supervision to complete the project component of Plan B.

### Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). For information on the GWAR, please see http://info.sjsu.edu/gcw.html.

This requirement is satisfied by passing PADM 210.

### Requirements of the Masters

#### Core Courses

The courses form a base of knowledge and skills that prepare students for advanced seminars. Students must complete these courses before taking PADM 298.

#### Additional Electives

Depending on thesis or project arrangements, electives may include additional MPA courses, the PADM 281, Internship, the PADM 284 Independent Reading, or approved 100- or 200-level courses in political science or other departments, up to a maximum of 9 units.
Culminating Experience

COMPLETE ONE OPTION (PLAN A OR PLAN B):

Plan A (with Thesis) ...................................................................................................................................................................................................................... 3
  PADM 299. Master’s Thesis ........................................................................................................................................................................................................ 3

Plan B (with Project) ..................................................................................................................................................................................................................... 3
  PADM 298. Special Problems ................................................................................................................................................................................................ 3

Total Units Required

No more than six units of 100-level course work may be applied towards the MPA degree.
No more than six units of transfer credit from other universities may be applied toward the MPA degree.
Students who do not have substantial management work experience related to the curriculum are required to register for PADM 281 and complete an appropriate internship.
Elective courses must be planned in consultation with the Graduate Advisor.
Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU cumulative grade point averages of 3.0 in order to graduate.

Curricula
⦁ BA, Psychology
⦁ BS, Psychology
⦁ Minor, Human Systems Integration
⦁ Minor, Psychology
⦁ MA, Psychology, Concentration in Research and Experimental Psychology
⦁ MS, Psychology, Concentration in Clinical Psychology
⦁ MS, Psychology, Concentration in Industrial/Organizational Psychology
Introduction
The Department of Psychology seeks to develop skilled critical thinkers who use their knowledge of the principles of human behavior, cognition, and emotion to work and live effectively and fully in a multicultural global society. Our curriculum covers the major areas in the field of psychology to help students understand the complexities of human thought and behavior in a sociocultural context. In addition, the Department provides students with training in research methods, statistics, and scientific writing. Psychology students have opportunities to gain practical experience by working with our faculty in research labs, community outreach projects, Silicon Valley companies, and so on. The Department offers a BA and BS in Psychology, a minor in Human Systems Integration and a minor in Psychology, an MA in Research and Experimental Psychology, an MS in Clinical Psychology, and an MS in Industrial and Organizational Psychology. Detailed information about our faculty, students, and programs may be found on our website at www.sjsu.edu/psych.

Psychology Honors Program
Students requesting departmental honors in psychology will be evaluated against the following criteria: (1) a minimum aggregate GPA of 3.5 across all psychology coursework; (2) completion of PSYC 117, PSYC 120, PSYC 121(A, B, C or E), STAT 95, and STAT 115 with a GPA of at least 3.5; and (3) evidence of distinguished scholarly work, as indicated by the completion of a BA thesis (PSYC 199), the honors seminar (PSYC 195), or work leading to a published paper or presentation at a professional meeting. Contact the department office for details.
BA - Psychology

The undergraduate degree assures a broad coverage of the major areas of content and methods in psychology identified by the American Psychological Association as the backbone of a strong degree program. The goal of the breadth part of the degree requirements is to provide a strong background in general psychology. In addition, sufficient flexibility is offered through choices in fulfilling these requirements and through the electives so that students, in consultation with their advisors, can design a program of study which focuses on each student's particular area of interest.

A carefully prepared multi-year program of study will ensure an appropriate sequencing of required courses (e.g., STAT 95 is a prerequisite for PSYC 100W, PSYC 100W is a prerequisite for PSYC 120, PSYC 120 is a pre- or co-prerequisite for 190/195). Use the advisor's expertise for GE, SJSU Studies, and American Institutions course selection and to ensure a strong foundation for future coursework. Seeking advising is especially important to those at risk for probation, those in the honors program, and those planning to go on to graduate school in psychology. The two and four year planners give additional guidance in designing a particular program of study including suggestions about the order in which to take classes even if they are not governed by official prerequisite requirements. All of these materials as well as the extra coursework and other requirements for Departmental Honors are available on the department website www.sjsu.edu/psych or the department office.

Once declared as a psychology major, there are no minimum grade requirements for the major other than an overall 2.0 average across the courses in the major (i.e., a D- can "count" towards meeting psychology requirements even if it does not count towards General Education requirements).

University Graduation Requirements

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the Graduation Requirements section of the Policies and Procedures.

4-Year Program Roadmap

Students may find a roadmap for this program here. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found here.

<table>
<thead>
<tr>
<th>University Graduation Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Core Lower Division General Education</strong></td>
</tr>
<tr>
<td>Of the 39 units required by the university, 15 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a &quot;C-&quot; or better to meet the requirement. Consult with major advisor for details.</td>
</tr>
</tbody>
</table>

**NOTE:** STUDENTS WHO HAVE COMPLETED THE ADT TRANSFER DEGREE (UNDER SB 1440) FOR THIS MAJOR WILL HAVE COMPLETED ALL LOWER DIVISION GE REQUIREMENTS AND SHOULD FOLLOW THE 60 UNIT GUARANTEE ROADMAP. MEET WITH AN ADVISOR PRIOR TO REGISTERING FOR YOUR FIRST SEMESTER FOR THE 60 UNIT ROADMAP OR SPECIFIC QUESTIONS.

<table>
<thead>
<tr>
<th>Upper Division General Education</th>

</thead>
<tbody>
<tr>
<td>Of the 9 units required by the university, 0 units may be satisfied by coursework outlined below. Consult with major advisor for details.</td>
</tr>
</tbody>
</table>

American Institutions

The 6 units of American Institutions (US123) coursework shown below also fulfills GE Areas D2 and D3. Other courses meet the American Institutions requirement, but may not include additional GE areas. The American Studies (AMS 1A/B) and Humanities Honors (HUM 1A/B, 2A/B) programs both offer larger integrated packages that meet this requirement. Consult with major advisor for details.

### Physical Education

### Graduation Writing Assessment Requirement

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. For additional information on the WST, please see [http://testing.sjsu.edu/wst](http://testing.sjsu.edu/wst). Exceptions to the GWAR may be found at [http://info.sjsu.edu/gwar.html](http://info.sjsu.edu/gwar.html).

A grade of C or better (C- not accepted) is required to meet graduation requirement.

**BS - Psychology**

The BS degree is a regimented degree plan for students who wish to develop a focused set of skills in pre-selected areas so they can apply these skills in a technical setting or seek research-focused training. The BS degree program has more core course requirements than the BA (i.e., fewer electives). The degree plan emphasizes research focused scientific and methodological training, as well as breadth in pre-selected areas of psychology and other fields (biology, chemistry, philosophy). Students should seek early and frequent advice from departmental advisors.

A carefully prepared multi-year program of study will ensure an appropriate sequencing of required courses (e.g., STAT 95 is a prerequisite for PSYC 100W, PSYC 117, and STAT 115; PSYC 100W is a prerequisite for PSYC 120, PSYC 120 is a pre- or co-prerequisite for PSYC 121a-e and PSYC 190/195). Use the advisor’s expertise for GE, SJSU Studies, and American Institutions course selection and to ensure a strong foundation for future coursework. Seeking advising is especially important for those in the honors program or those planning to go on to graduate school in psychology. The two and four-year planners give additional guidance in designing a particular program of study including suggestions about the order in which to take classes even if they are not governed by official prerequisite requirements. All these materials as well as the requirements for Departmental Honors (BA or BS Psychology) are available from www.sjsu.edu/psych or the department office.

There are no minimum grade requirements for the major other than an overall 2.0 average across the courses in the major (i.e., a D- “can count” towards meeting psychology requirements even if they do not meet General Education requirements).

**University Graduation Requirements**

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the Graduation Requirements section of the Policies and Procedures.

**4-Year Program Roadmap**

Students may find a roadmap for this program here. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found here.

## Minor - Psychology

A minor in Psychology has a minimum of 18 units of PSYC and/or STAT. At least 12 of the 18 units must be upper division (i.e., courses numbered 100+ at SJSU). At least 12 units must be separate and distinct from the units used for the major program of the student. See a departmental advisor for approval of courses. Visit the [Psychology Department Advising](#) website for more information.

It is not permissible for a Psychology Major to also have a minor in Psychology.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major (University Policy S16-4).

<table>

Minor - Human Systems Integration

The Human Systems Integration (HSI) minor: (1) studies the cognitive, perceptual, and performance capabilities and limitations of people as they interact with sociotechnical systems and devices (e.g., energy and transportation systems, computers, mobile devices, workplaces); and (2) seeks to apply evidence-based principles in the development of human-centered systems and devices. The HSI minor aims to provide students with interdisciplinary training to prepare them to work in cross-functional teams to optimize human capabilities, increase system efficiency, reliability, and safety, and minimize error.

At least 12 units must be separate and distinct from the units used for the major program of the student. See a departmental advisor for approval of courses. Visit the Psychology Department Advising website for more information.

It is permissible for Psychology Majors to have a minor in Human Systems Integration.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major (University Policy S16-4).

**Total Units Required 21-24**
MA - Psychology, Concentration in Research and Experimental Psychology

The Master of Arts Program in Psychology affords its candidates an opportunity for advanced study of psychological theory and research techniques with the following objectives in mind:

- **To ultimately earn a doctorate in psychology** - the course work and experience obtained in the Psychology Program is designed to enhance students’ credentials when applying to highly competitive doctoral programs.
- **To succeed in business, industry and or a research setting** - our program’s emphasis on the mastery of statistical and methodological procedures, research experience, and critical thinking produces graduates that are well suited for many careers in business, government, and/or an array of research settings.

**Admission Requirements**

To be eligible for admission into our program, you must:

Meet all of the University’s [graduate admissions requirements](#).

1. Have the equivalent of a U.S. baccalaureate degree
2. Have completed a minimum of 30 semester units in undergraduate psychology
3. Have a minimum GPA of 3.0 in the last 60 semester units (90 quarter units) of all college and/or university course work
4. Have a minimum GPA of 3.0 in all college and/or university psychology courses taken
5. Have taken the GRE Exam (General Test only), although we do not require a minimum score for your application to be considered.

**Degree Requirements**

General university requirements and procedures for completing the Master of Arts degree are described in the Academic Regulations section of this catalog. In addition to these, the following departmental requirements must be fulfilled.

**General Program requirements**

1. The student’s combined total of approved undergraduate and graduate work in psychology must be at least 60 semester units, including 30 units for the MA Degree Program.
2. The student must complete at least 30 approved graduate units. At least 27 of these 30 units must be psychology or statistics units; of the 27, at least 24 must be 200-level courses, i.e., up to six units may be from 100-level courses with the program coordinator’s approval.
3. The candidate must complete an acceptable thesis. This thesis will be a quantitative investigation of some degree of originality and of publication caliber.
4. Satisfactory performance on a final examination is required. This examination may be written, oral or both, as determined by the student’s thesis advisory committee. This is typically satisfied through the oral defense of the student’s thesis research.
5. The University requires that all graduate students complete the [Graduation Writing Assessment Requirement](http://www.sjsu.edu/gape) (GWAR) as a condition for advancement to candidacy. Please refer to the SJCU catalog section titled “Graduation Writing Assessment Requirement” for details. For graduate courses that meet the GWAR, please refer to the Graduate Admissions and Evaluations website at [http://www.sjsu.edu/gape](http://www.sjsu.edu/gape).

**Graduation Writing Assessment Requirement**

At SJCU, students must pass the Graduation Writing Assessment Requirement (GWAR). For information on the GWAR, please see [http://info.sjsu.edu/gcw.html](http://info.sjsu.edu/gcw.html).

Thesis Requirement
The thesis serves as the culmination of a student’s course work, research experience, and growth as a scholar and scientist. This process is guided closely by a thesis advisor; a tenured or tenure-track faculty member of the Department of Psychology. As the student’s ideas develop into a full thesis proposal, a thesis advisory committee is formed in order to provide further guidance and expertise. Collection of the thesis data begins once the proposal has been approved by the committee and the proper animal care/human subjects’ approval has been obtained. The introduction, analysis, and interpretations of these data will form the core of the student’s written master’s thesis. These efforts all culminate in an oral presentation and defense before the thesis committee. A detailed statement of thesis policies is available in the Psychology Department Office and on the departmental website www.sjsu.edu/psych.
MS - Psychology, Concentration in Clinical Psychology

The Master of Science (MS) degree in Clinical Psychology is designed to provide the student with both theoretical and practical training in the assessment, diagnosis, and treatment of a wide variety of individual (adult and children), couples, and family mental health problems, and to prepare the student to work in private or public service agencies, independent practice, community mental health centers, or hospitals. The required academic course work and supervised fieldwork of 60 semester units meets the course work requirements for the California State Marriage and Family Therapist (MFT) license and most of the requirements for the Licensed Professional Clinical Counselor (LPCC) license (see www.bbs.ca.gov for requirements). An additional 2500-3000 hours of acceptable supervised experience is required for admission to the state MFT or LPCC licensing examination.

Admission Requirements
To be eligible for admission into the Clinical Psychology program, you must:

1. Meet all of the University graduate admissions requirements
2. Have a baccalaureate degree (BA or BS) in Psychology OR any baccalaureate degree (BA or BS) and a minimum of 30 semester units (45 quarter units) in Psychology
3. Have taken the REQUIRED six courses in psychology from the list provided below. These are to be included in the minimum 30 semester units (10 semester courses).
4. Have a minimum GPA of 3.0 in all Psychology coursework AND a minimum of 3.0 the last 2 years of academic work attempted (60 semester or 90 quarter units).
5. Provide evidence of a minimum of 100 hours of paid or volunteer applied clinical experience working with persons in a counseling/helping capacity (e.g., volunteer in home for emotionally disturbed children, juvenile hall, suicide and crisis telephone hotline).
6. Provide three letters of recommendation. One reference MUST be from a clinical supervisor. Additional references may come from former instructors and from supervisors of previous work in volunteer placements in the clinical field.

Undergraduate Courses in Psychology Required for Admission
1. General or Introduction to Psychology (SJSU code PSYC 1)
2. Elementary Statistics (SJSU code STAT 95)
3. Introduction to Research Methods (SJSU code PSYC 18 or PSYC 120)
4. Psychobiology or equivalent (SJSU code PSYC 30)

Each of the above four (1-4) may be taken at the community college or university level and may be lower division courses.

5. Upper division course in Abnormal Psychology (SJSU code PSYC 110)
6. Upper division course in Theory and Methods of Counseling, or Clinical Psychology (SJSU code PSYC 160, or PSYC 165)

Degree Requirements

General university requirements and procedures for completing the Master of Science degree are described in the Academic Regulations section of this catalog. In addition to these, the following departmental requirements must be fulfilled.

1. The student must complete a total of 60 units in clinical psychology as specified in the table below.
2. Candidates must demonstrate satisfactory performance on one or more final comprehensive examinations. These examinations are both written and oral.
3. The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. Please refer to the SJSU catalog section titled “Graduation Writing Assessment Requirement” for details. For graduate courses that meet the GWAR, please refer to the Graduate Admissions and Program Evaluations website at http://www.sjsu.edu/gape.

Graduation Writing Assessment Requirement

### MS - Psychology, Concentration in Industrial/Organizational Psychology

The Master of Science (MS) degree in Industrial/Organizational (I/O) Psychology program is designed to provide students with a fundamental grounding in theory, research, and application in the field of I/O Psychology and to prepare them to work in a wide range of settings including medium-to-large sized organizations, government agencies, human resources or management consulting firms, and large research organizations. The program places particular emphasis on the science-practitioner approach in which students understand and appreciate theory and research as they apply their knowledge and skills to the needs and challenges of organizations.

### Admission Requirements

To be eligible for admission into the industrial/organizational Psychology program, you must:

1. Meet all of the University graduate admissions requirements
2. Have completed either a baccalaureate degree [BA/BS] in psychology or any baccalaureate degree and a minimum of 30 semester (45 quarter) units in psychology
3. Have a minimum GPA of 3.0 in the last 60 semester units (90 quarter units) of all college and/or university course work
4. Have a minimum GPA of 3.0 in all college and/or university psychology courses taken
5. Have taken the GRE Exam (General Test only), although we do not require a minimum score for your application to be considered.

### Degree Requirements

General university requirements and procedures for completing the Master of Science degree are described in the Academic Regulations section of this catalog. In addition to these, the following departmental requirements must be fulfilled.

1. The student must complete a total of not less than 30 semester units for the industrial/organizational concentration as specified in the degree below.
2. Candidates in the MS Industrial/Organizational program must complete a thesis as part of their 30 semester unit degree requirement. The nature of the thesis is to be determined in consultation with a committee of at least three faculty members. The thesis ordinarily consists of a quantitative investigation or program design, trial and evaluation of some degree of originality. The topic should be relevant to the field of study in which the candidate plans to work. The thesis will generally constitute the final comprehensive examination.
3. The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. Please refer to the SJSU catalog section titled “Graduation Writing Assessment Requirement” for details. For graduate courses that meet the GWAR, please refer to the Graduate Admissions and Program Evaluations website at http://www.sjsu.edu/gape.

⦁ BS, Recreation, Concentration in Recreation Management
⦁ BS, Recreation, Concentration in Recreation Therapy
⦁ Minor, Recreation

Introduction
Department of Health Science and Recreation, prepares leaders and practitioners who promote health and improve the environments in which we live, work, and play. The undergraduate curriculum in public health examines the multiple dimensions of health (physical, emotional, social, environmental, spiritual) and the scientific basis for understanding health at the population level (epidemiology and biostatistics). Founded in 1970, the Master of Public Health program (MPH) is accredited by the Council on Education for Public Health (CEPH) and offered in two formats: on campus (regular session) and distance (through International and Extended Studies). All undergraduate students in recreation complete a well-rounded set of core courses that prepare them to apply for national and state certification and to obtain employment in a variety of non-profit, for-profit, government, and recreation therapy settings. Our department is involved in many innovative community-based programs, including Salud Familiar en McKinley, the SJSU Peer Health Education Program, Project SHINE, Smokefree SJSU, and several therapeutic and recreation management agencies in the S.F. Bay Area. Our special events throughout the year offer excellent networking and professional development opportunities.

⦁ Credential, Pupil Personnel Services (PPSC)
⦁ Credential, Post-Master’s Pupil Personnel Services (PMPPSC)
⦁ MSW, Master of Social Work

Introduction
Social work is a dynamic and challenging profession that presents exceptional opportunities for personal job satisfaction. A professional social worker helps people cope with interpersonal and social problems and obtain the resources they need to live with dignity. Additionally, social workers help communities mobilize and deliver the services and support their citizens require. The School of Social Work is committed to the core values of service, social justice, the dignity and worth of individuals, human rights, competence, integrity and scientific inquiry. We honor diversity. Employing a transcultural perspective, we train our students to practice professionally in a broad range of groups, including Latinos, Asian and Pacific Islanders, African Americans, the disenfranchised and the marginalized. Our undergraduate and graduate degree programs are accredited by the Council on Social Work Education. Our On-Campus MSW Program may be completed in two or three years; our Online/Hybrid MSW Program is completed in two years through continuous part-time enrollment.
### BA - Social Work

The BASW program, which has been fully accredited by the Council on Social Work Education since 1976, educates generalist social work practitioners with a liberal arts foundation for practice from a transcultural perspective with individuals, families, and groups within organizations and in the context of broader communities in which they are embedded. To develop the necessary professional generalist skills in their work with individuals, families, groups, and communities, the BASW program curriculum and field practicum experiences provide students with learning opportunities to develop: 1) a selected body of knowledge about social institutions, and methods of problem-solving in social relationships; 2) the skills for integrating knowledge, thought, and feeling into an effective and efficient program of doing; and, 3) a personal and professional value system which incorporates a growing self-awareness necessary for the sensitive and disciplined use of self in helping roles.

In addition to the core social work curriculum, which includes human behavior in the social environment, social policy and programs, practice, social research, and field education, electives are offered to expand a student’s interest in the areas of social work with families; social services to children and youth; alcoholism and substance abuse and the family.

#### University Graduation Requirements

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the [Graduation Requirements](#) section of the Policies and Procedures.

#### 4-Year Program Roadmap

Students may find a roadmap for this program [here](#). Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found [here](#).

#### Major-Specific Graduation Requirements

The following courses Required in the Major must be completed with a grade of “C or better”: SCWK 110, SCWK 112, SCWK 120, SCWK 130, and SCWK 175. The following course must be completed with ‘Credit’: SCWK 140

Minor - Social Work

The minor in Social Work consists of 18 units and is designed to enrich the student's major area of study by providing an understanding of the values and structures of current human service programs within a historical and developmental framework. Admission into the minor program is based on the availability of space.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major (University Policy S16-4).

Credentials for Master’s of Social Work Program

A Credential in Spanish Language Counseling is available to students who, through course work or examination, show evidence of competency to conduct counseling/therapy in Spanish.

Pupil Personnel Services Credential (PPSC)

The Pupil Personnel Services Credential (PPSC) may be obtained by students who are completing the MSW degree in our program, the CBEST, and meet the PPSC program requirements. The PPSC is obtained in School Social Work and Child Welfare and Attendance. Students must accept placement in an approved PPSC program school setting for their second year practicum.

* Students in the MSW Program must consult with the MSW Program Coordinator and Advisor prior to starting the process to earn a PPSC.

* While enrolled in the MSW Program, students wanting to earn a PPSC must take and pass the following courses:

<table>
<thead>
<tr>
<th>Requirements of the Credential</th>

Total Units Required 10
MSW - Master's of Social Work

The MSW Program offers graduate professional education in advanced generalist social work practice from a transcultural multi-systems perspective. It prepares graduates for advanced practice and leadership in one of three fields of practice: aging, children, youth, and families; and health/mental health. The curriculum emphasizes the application of skills in those areas of practice where the need for social workers in the next decade will be the greatest in the State of California. The graduate program has been fully accredited by the national Commission on Accreditation of the Council on Social Work Education since 1973.

For more information, see the department website at http://www.sjsu.edu/socialwork/.

Admissions Requirements

University Admissions Requirements

All graduate applicants must submit a complete graduate application by applying through the CSU Cal State Apply system at calstate.edu/apply. Candidates must meet all university-level admissions requirements. Additional information regarding university graduate admissions requirements may be found on the catalog web page.

Program Admissions Requirements

In addition to these general requirements established by the university, applicants for admission for the Master’s of Social Work degree must demonstrate a commitment to social work goals either by having completed undergraduate social work education, or by holding a baccalaureate in a related field and having significant experience, and/or personal involvement with social issues as they relate to various marginalized groups and communities.

To be admitted to the School of Social Work, an applicant must first complete the graduate application for admission to the University through calstate.edu/apply. The applicant then submit a separate application to the MSW program which includes:

a. A personal statement describing the applicant’s interest in the field and professional goals.

b. Three recommendations from professionals in the field or former professors who can testify to the applicant’s ability to succeed in a graduate-level academic program and his or her suitability to meet the challenges of the profession.

c. A description of all social work-related experience (paid, internship and/or volunteer).

d. A sample of the applicant's best writing, i.e., a paper written for an upper-division or graduate-level class, technical report, or other example of academic or professional written work.

Applications to the Master’s in Social Work program and all supporting materials must be sent directly to the School of Social Work for review and recommendation by the MSW Program Admissions Committee.

Applications from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirement webpage at GAPE.

Requirements for Conditionally Classified Standing

An applicant who does not meet all requirements for admission may be admitted into the program on a conditionally classified basis. The MSW Program Admissions Committee may consider applicants who possess strong or considerable work experience and who can by additional preparation remedy minor academic deficiencies. Such admissions will be conditional upon completion of specific courses listed by the graduate advisor on the admission notification.

Requirements for Advancement to Candidacy

Students must complete all university requirements for advancement to candidacy for the master’s degree as outlined in the Graduate Policies and Procedures section of this catalog. Candidacy includes successful completion of the Graduation Writing Assessment Requirement (GWAR), described in this catalog. For graduate courses that meet the GWAR, refer to the GWAR Course List on the Graduate Studies website.

The student will consult with the MSW graduate advisor to complete a petition for advancement to candidacy. The petition includes an official plan of study listing all courses needed to complete the requirements for the degree. The plan of study must be approved by the MSW Graduate Advisor and then by the Office of Graduate Admissions and Program Evaluations (GAPE), which notifies the student of advancement to candidacy.

The student must also demonstrate aptitude for advanced study in social work, as measured by successful completion of the Foundation Year of study, instructor appraisals, and/or evaluation of previous academic work (i.e., applicable transfer units or course substitutions).
Requirements for Graduation

University Graduation Requirements
Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

MSW - Graduation Requirements
The School of Social Work offers an On-Campus MSW Program and an Online/Hybrid MSW Program

On-Campus MSW Program
All students in the Master’s of Social Work program must complete a total of 60 semester units of study in social work with a minimum cumulative grade point average of 3.0 overall. This includes two years (1,200 hours) of field internship in a social agency or community setting selected and approved by the MSW Field Education Committee. The On-Campus MSW Program offers a Two-Year/Full-Time and Three-Year/Part-Time plan of study. The Two-Year Plan requires a full-time commitment to the program. The Three-Year plan is designed for working professionals. It includes two years of field practicum and coursework spread over three academic years, with many courses taught in the evening and on weekends. Both plans have identical course requirements for completing the degree.

To assist matriculated students in progressing more rapidly toward their MSW degree and to increase accessibility to the course curriculum for both Two-Year/Full-Time and Three-Year/Part-Time students, the MSW Program offers courses during the summer and winter terms. The number and type of courses are dependent upon student interest and faculty resources.

For detailed information on the program, see the School of Social Work “Masters of Social Work (MSW)” webpage: sjsu.edu/socialwork/prospectivestudents/msw

Culminating Experience: Project (Plan B)
Candidates for the degree complete a capstone project as part of their 60-unit degree requirement. This project is a complete research study on a social work-related topic.

Online/Hybrid MSW Program (Special Session Program)
The Online/Hybrid MSW Program is a two-year program that requires continuous part-time enrollment (i.e., two academic courses and a field education course concurrently through the calendar year). In this program, academic courses are completed online (with asynchronous sessions and synchronous sessions usually on weekday evenings), and field education is completed in-person. Note that the two Online/Hybrid MSW fields of practice are children, youth, and families; and health/mental health. The field of practice covering aging is not currently offered in the Online/Hybrid MSW Program. The Online/Hybrid MSW Program degree requirements and the social work competencies covered are the same as those of the On-Campus MSW Program.

Requirements for Graduation

University Graduation Requirements
Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

Program Graduation Requirements
The general requirements for the course completion are as follows. Note that students in their Foundation Year take 4 units of both the SCWK 230 and SCWK 231 field courses. Students in their Advanced Year take 5 units of both the SCWK 232 and SCWK 233 field courses.

Special Session Program Information
Academic Programs offered through Special Session are operated by the College of International and Extended Studies (IES). Registration and enrollment in a Special Session course or program must use the special session application form and will follow special session fee and course schedules. Note that regular session students seeking to enroll simultaneously in a special session course or program will trigger a separate and additional set of fees. This may require an additional enrollment appointment from the Registrar and it may have implications for financial aid status or requirements. Please visit the IES website for more information.

Graduation Writing Assessment Requirement
At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). For information on the GWAR, please see http://info.sjsu.edu/gcw.html.

This requirement is satisfied by passing SCWK 212 or 214 (both are required courses).

Curricula
⦁ BA, Earth Science
⦁ BA, Physics, Preparation for Teaching
⦁ Minor, Science Education
⦁ Minor, Science Content for Teaching
⦁ MA, Science Education
⦁ MA, Science Education with Single Subject Credential

Introduction
In concert with the College of Science, the Science Education program offers professional development opportunities for science teachers at all levels. We design and coordinate courses that support the preparation of science teachers in the areas of biology, chemistry, earth science, and physics. In cooperation with the College of Education and the Secondary Education Program, we oversee the single subject teacher credential program in science through advising, coursework offerings and student teacher supervision. In addition, we offer a master’s degree in Science Education and oversee the Science Education Resource Center (SERC), a unique resource center that houses science education materials available for checkout by our local teachers.
BA - Earth Science
This degree is listed with the Geology Department.

**Total Units Required**

32-36
MA - Science Education

The MA in Science Education is a flexible program designed for prospective and practicing K-12 science teachers, educators and specialists working in informal or outdoor education, community college science educators, and prospective science education PhD students. The curriculum is designed to augment and broaden the candidate’s knowledge of current advances in science education research, and connect these findings to best classroom practices.

For more information, please visit our website at www.sjsu.edu/scied/academic_programs/masters

Qualified students who have earned a multiple or single-subject credential at San José State University may apply up to 9 units of approved credential coursework from the College of Education and 3 units of approved credential coursework from the College of Science to the MA Science Education degree. Students who earned their credential elsewhere may transfer up to 9 units of completed post-graduate coursework to the MA Science Education program at the discretion of the Science Education Graduate Coordinator.

Admissions Requirements

Minimum requirements for admission to the Graduate Division are outlined in this catalog. In addition, classified standing requires an undergraduate major with a grade point average of 2.75.

- demonstrated subject-matter competency in science, either through a baccalaureate degree in science or by passing the Science Subtests I and II (test codes 118 and 119) of the California Subject Examinations for Teachers (CSET) and one Specialized Science CSET in either biology (120 or 124), chemistry (121 or 125), geoscience (122 or 126) or physics (123 or 127).
- evidence of appropriate goal(s) and commitment to graduate-level study as demonstrated by a personal statement written by the applicant and letters of recommendation from two or more persons qualified to judge the applicant’s potential as a graduate student.
- a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage at CAPE, if the applicant is from a country in which the native language is not English.
- approval of the graduate advisor and/or graduate committee.

Requirements for Advancement to Graduate Candidacy

The student must satisfy general university requirements for advancement to candidacy as outlined in detail in this catalog. The university requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. Please refer to the Graduation Writing Assessment Requirement (GWAR), described in this catalog. SCED 220 meets the GWAR requirement and is also a required course in this program, so no additional classes beyond the core courses for the MA - Science Education are needed to meet this requirement.

Requirements for Graduation

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). For information on the GWAR, please see http://info.sjsu.edu/gcw.html.

This requirement is satisfied by passing SCED 220.

EDSE 192A. Including and Supporting Students ............................................................................................ 3
EDTE 190. Health Education for the Classroom Teacher .................................................................................. 3

Culminating Experience

COMPLETE ONE OPTION (PLAN A OR PLAN B):

Plan A (Thesis)
SCED 297. Science Education Research ..................................................................................................... 1-3
SCI 299. Master’s Thesis ............................................................................................................................... 1-6
Oral Defense

Plan B (Project)
SCED 297. Science Education Research ..................................................................................................... 1-3
SCED 298. Research .................................................................................................................................... 1-6
Oral Defense

Total Units Required 30

Elective courses must be planned in consultation with the Graduate Coordinator and Graduate Advisor.
The maximum number of upper-division undergraduate units that can be applied toward the master’s degree is 15.

Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU cumulative grade point averages of 3.0 in order to graduate.

Culminating Experience

Plan A (with Thesis)
This option requires a thesis in science education approved by a master’s committee of no fewer than three members. The thesis is credited under SCI 299 units. At the end of the program, the candidate must successfully deliver an oral seminar and defense of the thesis, cumulatively known as a culminating experience. The written thesis must be submitted to the master’s advisor and master’s committee for approval before being submitted to the Office of Graduate Studies for university approval. Note: this is an uncommon choice for our graduate students.

Plan B (with Project)
This option requires a project related to science education approved by a master’s committee of no fewer than three members. The project is credited under SCED 298 units. At the end of the program, the candidate must successfully deliver an oral seminar and defense of the project, cumulatively known as a culminating experience. The written report of the project must be submitted to the master’s advisor and master’s committee. Note: the majority of our graduate students choose this path to graduation.
MA - Science Education With Single Subject Credential

**Graduation Writing Assessment Requirement**

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). For information on the GWAR, please see [http://info.sjsu.edu/gcw.html](http://info.sjsu.edu/gcw.html).

This requirement is satisfied by passing SCED 220.

⦁ MA, Sociology
Introduction
The Department of Sociology and Interdisciplinary Social Sciences educates students about the social processes that create, maintain, and transform our society. The major uses sociological foundations and applications as well as interdisciplinary approaches to the study of society and in teacher education training. Sociologists analyze how social institutions and social structures such as the economy, politics, education, the family, mass media, and the criminal justice system affect individuals in society. The major provides students with the skills and knowledge to navigate the social, political, economic, historical, and cultural issues that build and sustain effective leadership in our complex global society. The teacher preparation program is designed to ensure that teachers will excel in classrooms that are increasingly heterogeneous in terms of race and ethnicity.

We have two major degree program tracks: Sociology, Sociology with Concentrations (Community Change; Race and Ethnic Studies; Social Interaction; Women, Gender and Sexuality Studies); Social Science Teacher Preparation (Multiple and Single Subject). The department offers several minor courses of study: Asian American Studies, Sociology, Sociology of Education, and Women, Gender and Sexuality Studies. These degree programs lead to careers in education, government and public policy, criminal justice, nonprofit organizations, marketing research, human resource management, social work, and other areas.
### BA - Sociology

The BA in sociology educates students about social processes that create, maintain, and transform social institutions and social identities. Sociology provides a framework for understanding social behavior in groups, social change and inequality in society, and solutions to social problems. Analytical and research skills speak to the needs of a changing world. The degree offers students the widest flexibility in terms of future career choices.

#### University Graduation Requirements

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the [Graduation Requirements](#) section of the Policies and Procedures.

#### 4-Year Program Roadmap

Students may find a roadmap for this program [here](#). Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found [here](#).

<td>Of the 39 units required by the university, 12 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a “C-” or better to meet the requirement. Consult with major advisor for details.</td>
<td></td>
</tr>
</tbody>
</table>

**NOTE:** STUDENTS WHO HAVE COMPLETED THE ADT TRANSFER DEGREE (UNDER SB 1440) FOR THIS MAJOR WILL HAVE COMPLETED ALL LOWER DIVISION GE REQUIREMENTS AND SHOULD FOLLOW THE 60 UNIT GUARANTEE ROADMAP. MEET WITH AN ADVISOR PRIOR TO REGISTERING FOR YOUR FIRST SEMESTER FOR THE 60 UNIT ROADMAP OR SPECIFIC QUESTIONS.

#### Upper Division General Education

Of the 9 units required by the university, 0 units may be satisfied by coursework outlined below. Consult with major advisor for details.

**American Institutions**

The 6 units of American Institutions (US123) coursework shown below also fulfills GE Areas D2 and D3. Other courses meet the American Institutions requirement, but may not include additional GE areas. The American Studies (AMS 1A/B) and Humanities Honors (HUM 1A/B, 2A/B) programs both offer larger integrated packages that meet this requirement. Consult with major advisor for details.

**COMPLETE ONE SEQUENCE FROM:**

120
**BA - Social Science, Preparation for Teaching (Single Subject)**

This major is designed for students interested in teaching history, political science (government), economics, or social science in high school or middle school. The following course work satisfies San José State University's requirements for a BA in Social Science. The BA Social Science Preparation for Teaching is approved as subject matter preparation for a single subject credential by the California Commission on Teacher Credentialing (CCTC). Individuals who do not complete an approved degree program, or individuals seeking a single subject credential in subject areas not listed must pass all portions of the appropriate Commission-approved subject matter examination(s).

Minimum grade point average (GPA) of at least 2.87 and completion of the program will not guarantee admission to the credential program. Like all other applicants, students must meet credential program standards and undergo screening for admission. See “Teaching: How to Become a Teacher in California” (see Teaching) for information on application and admission to credential programs.

**University Graduation Requirements**

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the Graduation Requirements section of the Policies and Procedures.

**4-Year Program Roadmap**

Students may find a roadmap for this program here. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found here.

Two Upper Division U.S. History Courses (approved by Social Science Teacher Preparation Advisor) | 6-8 |

#### University Electives 18-20

#### Total Units Required 120
# BA - Social Science, Preparation for Teaching (Multiple Subject)

This major is designed for students interested in teaching in elementary school or middle school. The following course work satisfies San José State University’s requirements for a BA in Social Science. The Commission on Teacher Credentialing in the state of California (CCTC) recognizes the Social Science Teacher Preparation Multiple Subject degree as verification of subject matter competence. Individuals who do not complete an approved degree program, or individuals seeking a single subject credential in subject areas not listed must pass all portions of the appropriate Commission-approved subject matter examination(s).

Maintaining a minimum grade of average (GPA) of at least 2.87 and completion of the program will not guarantee admission to the credential program. Like all other applicants, students must meet credential program standards and undergo screening for admission. See “Teaching: How to Become a Teacher in California” (see Teaching) for information on application and admission to credential programs.

University Graduation Requirements

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the Graduation Requirements section of the Policies and Procedures.

### 4-Year Program Roadmap

Students may find a roadmap for this program here. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found here.

### University Graduation Requirements

<table>

</tr>
</tbody>
</table>

### American Institutions

The 6 units of American Institutions (US123) coursework shown below also fulfills GE Areas D2 and D3. Other courses meet the American Institutions requirement, but may not include additional GE areas. The American Studies (AMS 1A/B) and Humanities Honors (HUM 1A/B, 2A/B) programs both offer larger integrated packages that meet this requirement. Consult with major advisor for details.

**CONSULT MAJOR ADVISOR FOR DEPARTMENT RECOMMENDED COURSEWORK TO MEET GE REQUIREMENT.**

### Physical Education

**2**

### Graduation Writing Assessment Requirement

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. For additional information on the WST, please see http://testing.sjsu.edu/wst.

Exceptions to the GWAR may be found at http://info.sjsu.edu/gwar.html.

A grade of C or better (C- not accepted) is required to meet graduation requirement.

Minor - Sociology

The minor in sociology complements a large number of majors including any of the social sciences, business, journalism, radio and TV, child development, justice studies, kinesiology, education, social work and others. SOCI 1 and any other five sociology courses, at least three of which must be upper division = 18 total semester units required for the minor.

University Graduation Requirements

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major (University Policy S16-4).

<table>

MA - Sociology

Admissions Requirements
The Department of Sociology and Interdisciplinary Social Sciences at San José State University offers a General MA Degree in Sociology. The program is designed to prepare students for entry into PhD programs and to provide skills and training necessary for employment as professional sociologists and other related occupations. We are looking for students who are curious about the social world, academically dedicated, and committed to the examination of society. Information about the program can be found on the department website: sjsu.edu/siss/academics/grad/index.html

Admissions Requirements
Applicants must meet all of the university admission requirements as established by the university catalog. The Department of Sociology and Interdisciplinary Social Sciences sets criteria for admission into the Sociology Master of Arts Program that are higher than the base standards established by the university. The requirements of the Department of Sociology and Interdisciplinary Social Sciences are as follows:

• An earned baccalaureate at an accredited college or university with a grade point average of 3.0 (on a 4-point scale);
• Completion of the following prerequisite coursework with a grade of “B” or better: sociological theory (SOCI 101 or equivalent), research methods (SOCI 104 or equivalent), and social science statistics (SOCI 15 or SOCI 102 or equivalent);
• An approximately 1,000-word statement of purpose discussing the applicant’s purpose for pursuing an MA degree in Sociology, the applicant’s areas of interest and previous academic/professional experience, and the applicant’s career goals;
• Two letters of recommendation from faculty members who can assess the applicant’s potential for graduate level work in Sociology. In certain cases, one letter may be from an employer who can attest to the applicant’s ability and potential for graduate work; and
• A writing sample that consists of a 6- to 10-page paper (or portion of a paper) that highlights the applicant’s writing ability and analytical skills.

Depending on whether or not they have completed the prerequisite requirements, applicants can be admitted in either classified or conditionally classified standing. Students admitted in conditionally classified standing will need to complete any missing prerequisite courses and pass them with a grade of “B” or better within 2 semesters of being admitted. Students who do not do meet this requirement will be disqualified from the program.

Requirements for Advancement to Graduate Candidacy
After completing a minimum of 9 units of letter-graded instruction at the graduate level (with at least a “B” average), students may apply to candidacy. Additionally, admission to candidacy requires:

• An approved program of study consisting of 30 units, developed in consultation with the graduate advisor and in conformity with university and departmental requirements; and
• Completion of the Graduation Writing Assessment Requirement (GWAR). The university requires that all graduate students complete the GWAR as a condition for advancement to candidacy. Please refer to the SJSU catalog section titled “Graduation Writing Assessment Requirement” for details. For graduate courses that meet the GWAR, please refer to the Graduate Admissions and Program Evaluations website at http://www.sjsu.edu/gape.

Further requirements of the department for advancement to candidacy include submission of a declaration of a plan of study to the department’s Graduate Committee, detailing the student’s intent to complete either a special study project (SOCI 298) or a thesis (SOCI 299). If the plan is deemed satisfactory, the student will be advanced to candidacy.

Requirements for Graduation

University Graduation Requirements
Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures of this catalog.

Department Graduation Requirements
Requirements for the MA in Sociology include 30 units of graduate level course work. All students are required to complete SOCI 200, SOCI 201, SOCI 204, and SOCI 205 with a grade of “B” or better. With approval of the department’s graduate coordinator, up to 9 units of upper-division undergraduate course work in Sociology, graduate-level non-sociology course work, or a combination of the two, may count toward the total 30-unit requirement.
Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). For information on the GWAR, please see http://info.sjsu.edu/gcw.html.

This requirement is satisfied by passing SOCI 201.

Total Units Required 30

Electives must be planned in consultation with the Graduate Coordinator.

In all plans, students may have only 12 units of C/NC courses.

The maximum number of upper-division undergraduate units that can be applied toward the master’s degree is 15.

Upon completion of the degree requirements, the student must have achieved a minimum candidacy and SJSU cumulative grade point averages of 3.0 in order to graduate.

Culminating Experience

Plan A (Thesis)

Students selecting the thesis option must demonstrate research and writing competency and show the ability to conduct independent research. Upon successful completion of the four required core courses and after receiving approval from the Graduate Committee for the declared program of study, the student selects a thesis committee consisting of at least three members, two of whom must be from the Faculty in the Sociology Department. The chair of the committee must also be a tenured or tenure-track faculty member in the department. The student may enroll in up to 6 units of thesis/research hours (SOCI 299) with the professor designated as chair of the committee. The student must successfully pass a final oral defense of the thesis and the thesis must meet university requirements as stipulated in this catalog and in the SJSU Master’s Thesis and Doctoral Dissertation Guidelines.

Plan B (Project)

After the successful completion of the four required core courses and after receiving approval from the graduate committee for the declared program of study, the student enrolls in 3 units of SOCI 298 with the professor who is selected as the student’s advisor. The Project option involves a written paper that investigates or analyzes some facet of a social problem; the exact nature and scope of the project is determined by the student in consultation with his or her advisor.

⦁ BS, Industrial Technology, Concentration in Manufacturing Systems
⦁ Minor, Electronics
⦁ Minor, Industrial Technology
⦁ Minor, Manufacturing
⦁ MS, Quality Assurance (Not Accepting Students)

Introduction
Choose a career in applied engineering design and management focused on green operations and sustainable manufacturing or in the dynamic, changing field of computer electronics and network technology. Two undergraduate Industrial Technology programs, accredited by the Association for Technology Management and Applied Engineering (www.ATMAE.org), are offered by the Department of Aviation and Technology: a bachelor’s degree with a concentration in Computer Electronics and Network Technology (CENT) and a bachelor’s degree with a concentration in Manufacturing Systems (sustainable manufacturing). The curriculum also prepares students who are interested in obtaining single subject teaching credentials in Industrial Technology Education in order to pursue careers as public school teachers and industry trainers. The Department also offers graduate work leading to the Master of Science in Quality Assurance (this program is currently not accepting students).
BS - Industrial Technology, Concentration in Computer Electronics and Network Technology

The Bachelor of Science in Industrial Technology with a concentration in Electronics and Computer Technology is designed to prepare students for technical and management careers in business and industry. Computer Electronics and Network Technology prepares you for a career in the networking, communications, electronics, and computer fields. You will gain knowledge, skills, and practical experiences in networking, analog systems, digital systems, telecommunications, control of electronic industrial processes, instrumentation and automation, electronics manufacturing, and microprocessor-based systems design.

This dynamic and changing field applies a broad preparation in industrial practices, electronic test methods and equipment as well as computer and networking hardware and software to solving problems in the networking, communications, electronics, and computer industries. You will apply skills in industrial management, networking and telecommunications, automation technology, microprocessor systems; control systems; analog and digital systems; and computer simulation processes to design, analyze, and solve problems in the manufacturing and implementation of electronic circuits and systems. Graduates of the BSIT in Computer Electronics and Network Technology will be able to:

1. Use a broad understanding of network and communications technologies to solve challenges in wireless networking and communications.
2. Use current programming languages and methods to solve problems in business and industry.
3. Solve network and electronic systems problems in analytical and creative ways.
4. Apply analog and digital communication techniques to a variety of problems in industry.
5. Use computer-aided design and simulation for the development of electronic systems, printed circuit boards, and integrated circuits.
6. Develop and implement software systems for control of industrial processes in electronics and communications.
7. Integrate the processes of instrumentation and automation in the electronics industry.
8. Use skills and knowledge in the control of electronics and networking manufacturing processes, production scheduling and testing.
9. Apply networking and telecommunications theory and management.
10. Design and analyze electronic circuits and systems.

University Graduation Requirements

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the Graduation Requirements section of the Policies and Procedures.

4-Year Program Roadmap

Students may find a roadmap for this program here. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found here.

Major Exceptions

This degree program meets certain University Requirements through approved major modifications. Please see the Major Exceptions area in the Policy and Procedures section of this catalog to identify the specific adjustments for this degree program or contact your major advisor for more details.

Major-Specific Graduation Requirements

All courses in the Preparation and Required in the Major (all courses in preparation, core, and concentration) must be completed with a grade of “C- or better”.

### Physical Education

**Graduation Writing Assessment Requirement**

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. For additional information on the WST, please see [http://testing.sjsu.edu/wst](http://testing.sjsu.edu/wst). Exceptions to the GWAR may be found at [http://info.sjsu.edu/gwar.html](http://info.sjsu.edu/gwar.html).

A grade of C or better (C- not accepted) is required to meet graduation requirement.

BS - Industrial Technology, Concentration in Manufacturing Systems

The Bachelor of Science in Industrial Technology with a concentration in Manufacturing Systems is designed to prepare students for technical and management careers in business and industry. Manufacturing Systems prepares you for a career in manufacturing design and management with a special focus on green operations and sustainable manufacturing. You will gain knowledge, skills, and practical experiences in innovative manufacturing processes and management, green product design, computer integrated manufacturing, sustainable manufacturing practices, robotics and control systems, and computer aided manufacturing.

This dynamic and expanding field applies computer design tools and other advanced technologies to the solving of problems in manufacturing systems, computer aided design and manufacturing (CAD/CAM), and computer integrated manufacturing (CIM). A new, strong emphasis on green design practices and sustainable operations will add to your basic and advanced industrial manufacturing design knowledge. Graduates of the BSIT in Manufacturing Systems will be able to:

1. Use skills in the planning, design, and implementation of sustainable manufacturing processes.
2. Implement Green Design solutions to industrial and consumer product design challenges.
3. Use understanding of the product life cycle and the management of product manufacturing to direct sustainable operations in industry and business.
4. Design and plan sustainable and green industrial facilities in conformance with LEEDS and other environmental standards.
5. Select and operate computer numerical control and other machines for the production of consumer and commercial products.
6. Use knowledge of the uses, advantages, and disadvantages of current and evolving manufacturing techniques including laser machining, electrical discharge machining, water jet and abrasive water jet machining, and rapid prototyping in modern production systems.
7. Select, analyze and use polymers, composites and other materials in the design of manufactured products.
8. Apply the theory and methods of computer-integrated manufacturing (CIM), including the computer-aided design/computer-aided manufacturing (CAD/CAM) interface to industrial problems and settings.
9. Use the principles of production scheduling and planning in the management of the industrial environment.
10. Use robots and mechatronics for sustainable operations in a modern CIM environment.
11. Apply the latest methods for materials and production management including Just-in-Time (JIT), Materials Resource Planning (MRP), and Lean Manufacturing.
12. Integrate green design, sustainable manufacturing, and recyclable/reusable materials into the design and development of new products.
13. Apply the principles of Lean Manufacturing to manufacturing and soft systems.
14. Apply OSHA and NIOSH principles to facilities design and management.

University Graduation Requirements

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the Graduation Requirements section of the Policies and Procedures.

4-Year Program Roadmap

Students may find a roadmap for this program here. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found here.

Major Exceptions

This degree program meets certain University Requirements through approved major modifications. Please see the Major Exceptions area in the Policy and Procedures section of this catalog to identify the specific adjustments for this degree program or contact your major advisor for more details.

Major-Specific Graduation Requirements

All courses in the Preparation and Required in the Major (all courses in preparation, core, and concentration) must be completed with a grade of “C- or better”.

**Total Units Required** 12
Departments & Degrees

MS - Quality Assurance (Not Accepting Students)
The Master of Science in Quality Assurance prepares the student to perform at the masters’ level in the areas of Quality Systems development, Six-Sigma quality, as well as ISO and TL 9000 quality system standards. The program emphasizes the acquisition of theoretical and analytical techniques combined with management and communication skills. The curriculum was developed based on best practices in industry, industry quality standards, the Malcolm Baldridge National Quality Award, and the body of knowledge for Quality Engineering, Reliability Engineering, and Quality Management as defined by the American Society for Quality.

Requirements for Admission to Classified Standing
Minimum requirements for admission to the Graduate Division are outlined in the Admission section of this catalog. Current application forms are available through the university’s Graduate Studies and Research Office at (408) 283-7500.

Students who file for admission to classified graduate standing in the Department of Aviation and Technology must:
1. Submit transcripts from an accredited academic institution which verifies a minimum grade point average of 3.0 in the last 60 upper division university units.
2. Possess a baccalaureate degree from an accredited academic institution in a technical or scientific discipline. Individuals from non-technical disciplines who demonstrate exceptional promise may be conditionally admitted to the graduate program.
3. Present evidence of written and oral communication skills essential to meet the demands of graduate-level study and research. A well-written personal statement in Part B of the Application for Admission is often used for partial verification of these competencies; this statement should discuss the student’s career plans and make note of how the master’s degree will enhance career objectives. Foreign students must present a TOEFL score of at least 550.
4. Complete or present evidence of an undergraduate intermediate course in statistics which covers chi-square, analysis of variance, correlation and regression.
5. Complete or present evidence of an undergraduate course in the principles of computer technology including programming fundamentals and software applications.
6. Optional: Based upon the student’s record, the Graduate Record Examination (GRE) may be required for classified standing. If it is required, the student must complete the GRE (General Test) with a cumulative verbal/quantitative score of at least 1000.

Requirement for Admission to Conditionally Classified Standing
Individuals from non-technical disciplines who demonstrate exceptional promise may be conditionally admitted to the graduate program pending completion of additional undergraduate course work as prescribed by the Department of Aviation and Technology’s graduate coordinator. Students who are conditionally classified may seek admission to classified standing only after completing nine to twelve units of graduate level course work with a minimum grade point average of 3.0.

Requirements for Admission to Candidacy
General university requirements for admission to candidacy for the Master of Science degree are outlined in the Academic Regulations section of this catalog. The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. Please refer to the SJSU catalog section titled “Graduation Writing Assessment Requirement” for details. For graduate courses that meet the GWAR, please refer to the Graduate Studies website at www.sjsu.edu/gradstudies. After successfully completing a minimum of 12 graduate units, with a minimum grade point average of 3.0, students must finalize their programs of study with the Department of Aviation and Technology’s graduate coordinator; this requires the completion of a form entitled - Departmental Request for Approval of Candidacy and Graduate Degree Program - which is forwarded to the Associate Dean for Graduate Studies.

Precis Presentation
Precis presentation is required prior to submission of the graduate proposal (TECH 298 or 299). Refer to the Deadlines and Due Dates sheet for the date of precis presentation. All students must make arrangements with the graduate coordinator. Each precis shall include the following: introduction, abbreviated review of the literature, statement of the problem, research questions or hypothesis and methodology.

Graduation Writing Assessment Requirement
At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). For information on the GWAR, please see http://info.sjsu.edu/gcw.html.

Undergraduate Studies

Curricula
- BA, Special Major
- BS, Special Major

Introduction
The courses offered by the Graduate and Undergraduate Programs Office under University Studies (UNVS) promote leadership, integrated and applied interdisciplinary academic experiences for students.

The office also sponsors undergraduate degrees as a Special Major, which is an individually designed course of study leading to a BA or BS degree. The Special Major is designed for situations in which an existing university-level SJSU undergraduate degree major does not adequately accommodate academic professional aims. Students who complete a Special Major shall be able to demonstrate the characteristics of “intentional learners” who can adapt to new environments, integrate knowledge from different sources, and continue learning throughout their life.

Special Major
The Special Major is an individually designed, interdisciplinary course of study leading to a BA or BS that gives a student who has a specific educational objective the opportunity to accomplish that goal. It is not to be used to bypass normal graduation requirements or projected programs of the University, nor to substitute for a major in which a student is having academic difficulty.

The proposed course of study must be a coherent program organized around an academic theme. Students who complete a Special Major shall be able to demonstrate: “the ability to analyze an issue or problem, integrating at least two disciplinary perspectives.” In addition, students identify two or more student learning outcomes related to their specific areas of study in consultation with a major faculty advisor. They demonstrate their attainment of the learning outcomes through a portfolio or senior project completed in a capstone course.

Applicants must have both a cumulative and SJSU GPA of at least 2.75 and have sixty units (upper division standing) and at least one year of academic work still to be completed to meet minimum degree requirements. Special Majors are considered on a case-by-case basis. Approval is based on the academic merit of the proposed course of study, the applicant’s proposed rationale and potential for successful completion of the program, and the ability of the university to support the proposed program. Students apply for consideration for the Special Major through the Office of Graduate and Undergraduate Programs, ADM 159. For more information visit [http://www.sjsu.edu/gup/ugs/students/specialmajors/index.html](http://www.sjsu.edu/gup/ugs/students/specialmajors/index.html)

- Certificate, Real Estate Development
- Certificate, Transportation and Land Use Planning
- MUP, Urban Planning

Introduction
Urban planners manage and guide critical issues of growth and change while promoting environmental and social balance. Careers for urban and regional planners exist in city, county, regional, state and national government, private consulting firms, nonprofit organizations, and research and academic institutions.

SJSU's Department of Urban and Regional Planning is uniquely poised to educate planning professionals and generate innovative research, given its location in downtown San José, the largest city in Northern California and the capital of Silicon Valley. The department takes advantage of its location in a rapidly changing and socially complex region by collaborating with local planning agencies and community-based organizations. Faculty and students engage in public service projects designed to assist local communities in addressing topical planning issues, while also providing students with real-world professional experience.

We offer an undergraduate minor in urban studies, graduate certificate programs, and a Master of Urban Planning (MUP) degree.
**Minor - Urban Studies**

The minor in Urban Studies is a professionally oriented program designed to: 1) familiarize students with the social, economic, political and physical aspects of the major urban issues of our time; and 2) introduce students to basic professional skills and strategies used to improve our urban environment.

**University Graduation Requirements**

To be awarded a minor, at least 12 units of coursework must be completely distinct and separate from the coursework in the major (University Policy S16-4).

Certificates

The Department of Urban and Regional Planning at San José State University offers six certificate programs which lead to specialization in Affordable Housing and Community Development Finance, Applications of Technology in Planning, Community Design and Development, Environmental Planning, Real Estate Development, and Transportation and Land Use Planning.

The certificate programs are open to graduate degree students enrolled in any program at San José State University (SJSU). Members of the public who hold an undergraduate degree may also complete any of the graduate certificate programs through SJSU's Open University. To earn a certificate, students must complete a total of nine to sixteen units of course work, depending on the certificate. If course work is taken through Open University, the maximum number of units allowed by SJSU policy may be applied towards the MUP degree.

In addition, the student must:

• Maintain a minimum GPA of 3.0 over all semester credits of course work applied towards the certificate.
• Earn a minimum grade of “B Minus” in every course applied towards the certificate.
• Complete all the course work within seven years.

For detailed information on these programs, see the department’s website at [http://www.sjsu.edu/urbanplanning/](http://www.sjsu.edu/urbanplanning/) or contact the department’s Graduate Student Advisor.
Certificate - Affordable Housing and Community Development Finance

In this certificate program, students gain domain-specific knowledge as well as a deep understanding of interrelationships between urban & regional development, housing markets (especially affordable housing market), and financing of public infrastructure and services.

### Certificate - Applications of Technology in Planning

In this certificate program, students develop their knowledge and skills at using information technologies in the planning process. Classes and studies draw on the rich agglomeration of technical applications and skills available in the Silicon Valley region.

# Certificate - Transportation and Land Use Planning

In this certificate program, students learn the principles of transportation and land-use planning at the location and regional levels. In today’s rapidly growing regions, planners recognize that transportation and land use planning are intricately connected and must be planned together to allow residents and freight carriers to access destinations quickly and efficiently, improve accessibility options for residents who cannot or choose not to drive, and build economically and environmentally sustainable communities.

MUP - Master of Urban Planning

The MUP program trains skilled professionals who graduate with a strong education in general planning practice and theory as well as specialized training in planning sub-fields. The program allows students to develop professional skills in an area of specialization such as Affordable Housing and Community Development, Finance, Applications of Technology in Planning, Community Design and Development, Environmental Planning, Real Estate Development, or Transportation and Land Use Planning.

Graduates leave the program prepared with practical skills and theoretical knowledge that they can employ in jobs working to improve the quality of life and economic opportunity for all residents of urban regions as well as improving the quality of the natural environment.

A special mission of the program is to provide planning education opportunities for a diverse student population, including working students who prefer to attend the program on a part-time basis.

The MUP is an accredited professional degree program nationally recognized by the Planning Accreditation Board.

Information about the program and important dates can be obtained at the department website: www.sjsu.edu/urbanplanning.

Admissions Requirements

Candidates must meet all the university admissions requirements. To complete your application, you must submit materials to two distinct bodies: the SJSU Graduate Admissions and Program Evaluation (GAPE) Office through the online CSU application process and the Urban and Regional Planning Admissions Committee. Each has its own timetable. Approval by both offices is necessary to gain admission to the program. Applicants from countries in which the native language is not English must achieve a minimum English-language proficiency test score as indicated on the Graduate Program Test Requirements webpage at GAPE.

1. Materials to be submitted to the SJSU Graduate Admissions and Program Evaluations Office
   - Fill out the online application form. The Master of Urban Planning (MUP) program at SJSU is listed on the online application form under Urban Planning.
   - Domestic Students - Submit one set of official transcripts from all higher educational institutions attended (even those where you did not get a degree) to the Graduate Admissions Office. Do not send transcripts to the Department of Urban & Regional Planning.
   - International Students - International students are advised to closely follow guidelines for submitting transcripts and any other supporting documents, including demonstrating competence in English, available on the Graduate Admission Program Evaluation website.

2. Materials to be submitted to the Department of Urban and Regional Planning (Admissions Committee)
   - Three original, signed letters of recommendation that come from either university instructors who taught you or supervisors who managed you in paid or volunteer work. It is highly recommended that at least one letter come from a university instructor. If this is not possible, ask your letter writers to include an evaluation of your writing and analysis skills. These letters must be submitted to the Urban and Regional Planning Admissions Committee, not to the SJSU GAPE Office. The department will accept only original, signed letters; faxed or emailed letters will not be accepted.
   - A short biographical statement of purpose (approximately 1.5 single-spaced typed pages) that indicates how a Master of Urban Planning degree will help you to achieve your career objectives. This can be the same statement as included on your online application.
   - Graduate Record Examination (GRE) scores are required for applicants with a GPA below 3.0. Original scores from the testing office must be submitted in a sealed, unopened envelope or sent directly by ETS (the code for SJSU is 4687).

Requirements for Advancement to Candidacy

Students must complete all university requirements for advancement to candidacy for the master’s degree as outlined in the Graduate Policies and Procedures section of this catalog. Candidacy includes successful completion of the Graduation Writing Assessment Requirement (GWAR), described in this catalog. For graduate courses that meet the GWAR, refer to the GWAR Course List on the Graduate Studies website. In addition, candidates must pass the Writing Skills Test (WST) at SJSU. Candidates with a previous degree from a California State University campus are exempt from the WST requirement.

Requirements for Graduation

University Graduation Requirements

Students must complete all residency, curriculum, unit, GPA, and culminating experience requirements as outlined in the Graduation Requirements section of the Graduate Policies and Procedures.

Graduation Writing Assessment Requirement

At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). For information on the GWAR, please see http://info.sjsu.edu/gcw.html.

**Culminating Experience (Plan B only)**

| URBP 298A. Special Study: Planning Report | 3     |
| URBP 298B. Special Study: Planning Report Completion | 3     |

**Total Units Required**

48

All electives must be 100-level or 200-level courses as arranged and approved in conference with the student's advisor. Electives to be taken will depend on the student's background and interests.

Students must earn a "B" or better grade in 100-level classes in order for the department to give credit for those classes towards the MUP degree.

URBP 298A and URBP 298B are graded on a Credit/No credit (CR/NC) basis. Receiving an NC in URBP 298A or URBP 298B has the following implications:
- An “NC” is the equivalent of failing the class. The “NC” will remain permanently on the student’s record, although the student GPA is not affected by the “NC.”.
- Students who receive an “NC” in URBP 298A or URBP 298B can enroll again in the class only if there is space available, with the department giving enrollment priority to students who meet the prerequisites and have not previously taken the class.
- Students who receive an “NC” in URBP 298A or URBP 298B will be placed on administrative-academic probation. To return to good standing, a student must re-enroll in the class and receive a grade of “CR.”
- Students who receive a second “NC” in URBP 298A or URBP 298B will be disqualified from the MUP program.

The maximum number of upper-division undergraduate units that can be applied toward the master’s degree is 15.

Upon completion of the degree requirements, the student must have achieved minimum candidacy and SJSU cumulative grade point averages of 3.0 in order to graduate.
Women, Gender and Sexuality Studies

College of Social Sciences

DUDLEY MOORHEAD HALL 241
408-924-5320

Curricula
- BA, Sociology, Concentration in Women, Gender and Sexuality Studies
- Minor, Women, Gender and Sexuality Studies

Introduction
The Women, Gender, and Sexuality Studies Program at San Jose State is committed to interdisciplinary scholarship and teaching based on global feminist frameworks. WGSS curriculum investigates how lives are shaped by gender and gender identity, race, class, sexuality, and nation. The program emphasizes the importance of understanding gender as integral to social and political structures of power. Students will obtain skills to cultivate critical thinking, cultivation of dialogue, coalition building, appreciation of diversity, and contribution to social change based on feminist frameworks. The goal of the WGSS program includes integrating the academic and experiential, thereby contributing to social change and justice.
BA - Sociology, Concentration in Women, Gender and Sexuality Studies
This degree is listed with the Sociology and Interdisciplinary Social Sciences Department.

Courses that meet General Education/American Institution requirements are noted with area designation for required area.

For Legend please see page 2
Minor - Women, Gender and Sexuality Studies

This degree is listed with the Sociology and Interdisciplinary Social Sciences Department.

Introduction
Connect with the world. Study abroad. Become multilingual. Deepen your understanding of other cultures. Read great works of literature. The Department of World Languages and Literatures helps students communicate effectively and thrive in a global context. Our programs are multifaceted, our faculty and students are multicultural, our curriculum is international.

We offer majors and minors in four of the most widely spoken languages in the world: Chinese, Japanese, French, and Spanish, and an M.A. program in Spanish. We also offer language minors in International Business, Italian, Portuguese, German, and Latin American Studies, and a single subject teaching credential program in French, Japanese, Mandarin Chinese and Spanish.

We offer language and culture courses in Assyrian, Hebrew and Vietnamese, and classes in Greek and Latin. Our graduates work as teachers, executives, translators, interpreters, civil servants, journalists, and hold many other occupations in global business and finance.

Proficiency Examination
A proficiency examination in the language is required of candidates for a teaching credential and is a prerequisite for enrollment in any graduate course.
University Graduation Requirements

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the Graduation Requirements section of the Policies and Procedures.

4-Year Program Roadmap

Students may find a roadmap for this program here. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found here.

University Graduation Requirements

Core Lower Division General Education

Of the 39 units required by the university, 12 units may be satisfied by coursework outlined below. Courses that meet GE Areas A1, A2, A3 or B4 must be passed with a “C-” or better to meet the requirement. Consult with major advisor for details.

NOTE: STUDENTS WHO HAVE COMPLETED THE ADT TRANSFER DEGREE (UNDER SB 1440) FOR THIS MAJOR WILL HAVE COMPLETED ALL LOWER DIVISION GE REQUIREMENTS AND SHOULD FOLLOW THE 60 UNIT GUARANTEE ROADMAP. MEET WITH AN ADVISOR PRIOR TO REGISTERING FOR YOUR FIRST SEMESTER FOR THE 60 UNIT ROADMAP OR SPECIFIC QUESTIONS.

Upper Division General Education

Of the 9 units required by the university, 3 units may be satisfied by coursework outlined below. Consult with major advisor for details.

American Institutions

The 6 units of American Institutions (US123) coursework shown below also fulfills GE Areas D2 and D3. Other courses meet the American Institutions requirement, but may not include additional GE areas. The American Studies (AMS 1A/B) and Humanities Honors (HUM 1A/B, 2A/B) programs both offer larger integrated packages that meet this requirement. Consult with major advisor for details.

### Graduation Writing Assessment Requirement

At SJSU, students must pass both the SJSU Writing Skills Test (WST) and a 100W course. For additional information on the WST, please see [http://testing.sjsu.edu/wst](http://testing.sjsu.edu/wst). Exceptions to the GWAR may be found at [http://info.sjsu.edu/gwar.html](http://info.sjsu.edu/gwar.html).

A grade of C or better (C- not accepted) is required to meet graduation requirement.

BA - French, Preparation for Teaching (Not Accepting Students)

This major is designed for students interested in teaching world languages in high school or middle school. The following course work satisfies San José State University’s requirements for a BA in French. A minimum grade point average (GPA) criteria may be required for verification of subject matter competency. Completion of the program will not guarantee admission to the credential program. Like all other applicants, students must meet credential program standards and undergo screening for admission. See “Teaching: How to Become a Teacher in California” (see Teaching) for information on application and admission to credential programs.

University Graduation Requirements

Students must complete all residency, curriculum, unit, and GPA requirements as outlined in the Graduation Requirements section of the Policies and Procedures.

4-Year Program Roadmap

Students may find a roadmap for this program here. Roadmaps should be used in consultation with the catalog and your advisor to identify additional requirements for completing the major (for example, course grade minimums). Associate Transfer Degrees (ADT) pathway roadmaps can be found here.

### Total Units Required

New courses, or courses not listed above, with content directly relevant to the study of Latin America, may be substituted for any of the electives on approval of coordinator.
### Minor - International Business

Students in International Business have the option to select one of the following world languages: Chinese, French, German, Japanese and Spanish for a minor. International Business Majors who are interested in selecting courses in this minor that are most appropriate for their major should contact the respective World Language Faculty Member to advise them regarding their minor. For further information please see the World Languages and Literatures website: [http://www.sjsu.edu/wll/programs/intbusminors/](http://www.sjsu.edu/wll/programs/intbusminors/).

#### University Graduation Requirements

**Total Units Required** 15-17
MA - Spanish

Requirements for Admission to Classified Standing
Minimum requirements for admission to the Graduate Division are outlined in this catalog. In addition, classified standing requires:

1. A bachelor's degree (or its equivalent, as assessed by the department), with a major in the language selected for the MA program, and including at least 15 units of upper division work in the major with a grade of "B" or better.

2. Satisfactory performance on the proficiency examination in the language selected for the MA program, unless such an examination is waived.

Requirements for Admission to Conditionally Classified Standing
A student may be admitted to conditionally classified standing if he or she meets minimum requirements for admission to the Graduate Division but does not meet one or more of the requirements for admission in classified standing.

Requirements for Admission to Candidacy for the MA - Spanish
Admission to candidacy requires favorable action by both the departmental graduate committee and the university graduate committee. All applicants meet institutional requirements as set forth in this catalog. The University requires that all graduate students complete the Graduation Writing Assessment Requirement (GWAR) as a condition for advancement to candidacy. Please refer to the SJSU catalog section titled "Graduation Writing Assessment Requirement" for details. For graduate courses that meet the GWAR, please refer to the Graduate Admissions and Program Evaluations website at www.sjsu.edu/gape.

Completing Requirements for the MA - Spanish
The minimum program for a Master of Arts degree includes the following:

A. The 30 unit program for a Master of French or Spanish requires at least 21 semester units of approved 100- or 200-level courses beyond the baccalaureate degree in the candidate's language of concentration, including no less than 15 semester units in courses numbered in the 200's (approved upper division courses not taken to meet a requirement for the BA degree in a world language at San José State University may be taken in the Graduate Division).

B. Additional 100- or 200-level courses in the Department of World Languages and Literatures or in other departments, closely related to the degree objective and chosen with the advisor's consent, to complete the minimum 30-unit program.

C. At the discretion of the department, one of the following:
   - Plan A - A thesis or project with an oral examination based on its contents and related themes.
   - Plan B - Final comprehensive written and oral examinations conducted in the candidate's target language.

D. Demonstration of competence in written English.

Graduation Writing Assessment Requirement
At SJSU, students must pass the Graduation Writing Assessment Requirement (GWAR). For information on the GWAR, please see http://info.sjsu.edu/gcw.html.

Please suggest ways in which this section can better serve the SJSU community by contacting grad-undergrad-programs@sjsu.edu.
## Calendar - Fall 2018

### APRIL 2018
- **Sunday, April 1**
  - Housing Priority Application Available
  - Fall 2018 Graduate Application for Candidacy Deadline
- **Monday, April 2**
  - Fall 2018 Enrollment appointments posted on [http://my.sjsu.edu](http://my.sjsu.edu) (for continuing students)
- **Tuesday, April 3**
  - Fall 2018 Schedule of Classes goes live at [info.sjsu.edu](http://info.sjsu.edu)
- **Saturday, April 7**
  - WST Exam
- **Friday, April 13**
  - Financial Aid Priority File Documentation Completion Date

### JUNE 2018
- **Monday, June 5**
  - Deadline to clear Spring 2017 incomplete grades
- **Monday, June 11**
  - Fall 2018 Enrollment appointments posted on [http://my.sjsu.edu](http://my.sjsu.edu) (for newly admitted students)
  - Academic standing posted on MySJSU
- **Saturday, June 16**
  - WST Exam
- **Monday, June 18**
  - Advance Registration for Fall 2018 for newly admitted students begins
- **Tuesday, June 26**
  - Frosh Orientation - Session 1
- **Thursday, June 28**
  - Frosh Orientation - Session 2

### JULY 2018
- **Friday, June 29**
  - Deadline to submit all requested financial aid documents and to qualify for Fall 2018 tuition fee deferral
- **Wednesday, July 4**
  - Independence Day - campus closed
- **Thursday, July 5**
  - Payment Due Date
- **Tuesday, July 10**
  - Frosh Orientation - Session 3
- **Thursday, July 12**
  - Frosh Orientation - Session 4
- **Sunday, July 15**
  - Final Transcript for Newly Admitted Students Due
- **Tuesday, July 17**
  - Frosh Orientation - Session 5
- **Thursday, July 19**
  - Frosh Orientation - Session 6
- **Saturday, July 21**
  - WST Exam
- **Tuesday, July 24**
  - Frosh Orientation - Session 7
- **Saturday, July 28**
  - Frosh Orientation - Session 8
- **Thursday, July 31**
  - Frosh Orientation - Session 9
- **August 2018**
  - **Saturday, August 4**
    - Payment Due Date
  - **Sunday, August 12**
    - International House opens to all residents
- **Thursday, August 16**
  - Graduate Student Orientation
- **Saturday, August 18**
  - Fall 2018 Advance Registration closes at 11:59 pm
  - Last day to withdraw for 100% refund of Fall 2018 fees
- **Sunday, August 19 - Monday, August 20**
  - No registration activity on MySJSU

### SEPTEMBER 2018
- **Tuesday, August 21**
  - First day of instruction
  - Late registration begins
  - Late add fee of $25 assessed
- **Friday, August 24**
  - Fall 2018 Master’s Degree Graduation Application Deadline
- **Monday, September 3**
  - Labor Day - Campus Closed
- **Tuesday, September 4**
  - Payment Due Date
- **Monday, September 10**
  - Last day to add courses
- **Wednesday, September 5**
  - Payment Due Date
- **Tuesday, September 11**
  - Graduate Student Workshop: Project/Thesis Best Practices Workshop
- **Tuesday, September 18**
  - Enrollment Census Date
- **Wednesday, September 19**
  - Beginning this day, late add fee of $200 assessed
- **Saturday, September 22**
  - Thanksgiving Holiday - campus closed

### OCTOBER 2018
- **Friday, October 5**
  - Payment Due Date
- **Thursday, October 11**
  - Graduate Programs & Professional Fair
- **Wednesday, October 17**
  - Graduate Student Workshops: Networking from Within
- **Saturday, October 20**
  - WST Exam

### NOVEMBER 2018
- **Friday, November 2**
  - Graduate Thesis Deadline for Fall 2018
- **Monday, November 12**
  - Veteran’s Day - campus closed
- **Friday, November 16**
  - Last day to submit late drop/withdrawal requests for Fall 2018
- **Wednesday, November 21**
  - Non-instructional holiday (no classes held)
- **Thursday - Friday, November 22 - 23**
  - Thanksgiving Holiday - campus closed

### DECEMBER 2018
- **Monday, December 10**
  - Last day of instruction
- **Tuesday, December 11**
  - Study/Conference Day (no classes or exams)
- **Wednesday - Tuesday, December 12-18**
  - Fall 2018 final examinations
- **Tuesday, December 18**, **Wednesday, December 19**, **Thursday, December 20**, **Friday, December 21**
  - Grades due from faculty (Preliminary Deadline)
  - End of Fall semester
- **Saturday, December 22**
  - Fall 2018 grades available at [http://my.sjsu.edu](http://my.sjsu.edu)
- **Tuesday, December 25, 2018 - Tuesday, January 1, 2019**
  - Holiday Observed - campus closed
- **Tuesday, December 25, 2018 - Monday, January 21, 2019**
  - Winter Recess

### JANUARY 2019
- **Tuesday, January 1, 2019**
  - New Year’s Day - Campus Closed
  - Fall 2018 Grades Due from Faculty (Final Deadline).
  - Grade Roster will be Closed at 11:59pm
- **Wednesday, January 2, 2019**
  - Deadline to clear Fall 2017 Incomplete Grades
- **Wednesday, January 9, 2019**
  - Academic Standing posted on MySJSU
- **Monday, January 14, 2019**
  - Graduate Thesis Publication Deadline
Final Exam Schedule - Fall 2018

Classes with meeting times other than those identified in the Final Examination Schedule, or which cannot be held at the scheduled time, should utilize the "Make-Up" period provided.

**Group I Classes**

Group I classes are those classes which meet M, W, F, MTW, MWTh, MTWF, MWThF, MTWThF, MW, WF, MWF, MF, WTh, MT.

Any make-up examinations ......................... Wednesday, December 19, 2018 ...... All day

Admission - Undergraduate Procedures and Policies

Admission - CSU Application Procedures and Policies for Undergraduate

Requirements for admission to San José State University are in accordance with Title 5, Chapter 1, Subchapter 3, of the California Code of Regulations. Complete information is available at [www.calstate.edu/apply](http://www.calstate.edu/apply).

All CSU applications must be submitted online at [www.calstate.edu/apply](http://www.calstate.edu/apply). An acknowledgement will be sent to the applicant when the online application has been submitted.

Importance of Filing Complete, Accurate, and Authentic Application Documents

San José State University advises prospective students that they must supply complete and accurate information on the application for admission, residency questionnaire, and financial aid forms. Further, applicants must, when requested, submit authentic and official transcripts of all previous academic work attempted. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of registration or academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, California Code of Regulations).

Prospective students applying for part-time or full-time undergraduate programs of study must submit a completed undergraduate application. The $55 nonrefundable application fee should be paid on-line at the time of application via credit card, e-check, or PayPal and may not be transferred or used to apply to another term. An alternate major may be requested on the application if desired from the campus. The applications of persons denied admission to an impacted and/or closed campus may be redirected to another campus at no cost, but only if the applicant is CSU eligible. Upper Division Transfer applicants are required to complete a supplemental application to be considered for admission. More information can be found at [sjsu.edu/admissions/impaction](http://sjsu.edu/admissions/impaction).
Admission - Impacted Programs

The CSU designates programs as impacted when more applications from CSU regularly eligible students are received in the initial filing period (October and November for fall terms and August for spring terms) than can be accommodated. Some programs are impacted at every campus where they are offered; others are impacted only at a few campuses. Candidates for admission must meet supplementary admission criteria if applying to an impacted program.

The CSU will announce during the fall filing period those campuses or programs that are impacted. Detailed information on campus and programs impaction will be available at www2.calstate.edu/attend/impaction-at-the-csu.

Campuses will communicate supplementary admission criteria for all impacted programs to high schools and community colleges in their application service area and will disseminate this information to the public through appropriate media. This information will also be published on the CSU campus websites and made available at www.calstate.edu.

Applicants must file applications for admission to an impacted program during the initial filing period. Applicants who wish to be considered for impacted programs at more than one campus should file an application at each campus for which they seek admission consideration.

Admission - Supplemental Criteria

Each campus with impacted programs or class-level admission categories uses supplementary admission criteria in screening applicants. Supplementary criteria may include rank-ordering of freshman applicants based on the CSU eligibility index or rank-ordering of transfer applicants based on verification of the Associate in arts for Transfer (AA-T) or Associate in Science Transfer (AS-T) degrees, the overall transfer grade point average (GPA), completion of specified prerequisite courses, and a combination of campus-developed criteria. Applicants for freshman admission to impacted campuses or programs are required to submit scores on either the SAT or the ACT, regardless of GPA. For fall admission, applicants should take tests as early as possible, but no later than November or December of the preceding year. Applicants who wish to be considered for admission to SJSU as an upper division transfer must complete a supplemental application. Details regarding the supplemental application process are posted to sjsu.edu/admissions/impaction.

The supplementary admission criteria used by individual campuses to screen applicants are made available by the campuses to all applicants seeking admission to an impacted program.

Admission - Application Filing Periods

Note: Not all terms/programs are open for admission.

Admission to San José State is competitive in all majors because SJSU continues to have more qualified applicants than available new student spaces. This situation is called “impaction” and it means that meeting the minimum California State University (CSU) requirements does not guarantee admission to SJSU.

We will no longer have the enrollment capacity to accept all CSU eligible applicants, including some from local high schools and community colleges.

San José State gives preference in the competitive admission process to “local” applicants. For freshmen, you are considered a “local” applicant if you will graduate from a high school in Santa Clara County. For transfer applicants, you are considered a “local” applicant if you will earn the majority of your transferable units at a college located in Santa Clara or Santa Cruz county.

All applicants are strongly encouraged to apply to an alternative campus that offers your preferred major. If applying after the initial filing period, consult http://info.sjsu.edu for current information. Similar information is conveniently available at www.calstate.edu/apply.

Admission - Application Acknowledgment

About a week after applying at Cal State Apply, you will receive an email with your nine-digit SJSU ID included. This nine-digit number will be your primary university identification throughout your career at SJSU. Make sure the spam filters on your email account are set to accept email from @sjsu.edu.

For more information regarding the process go to www.sjsu.edu/admissions.
Admission - Hardship Petitions

At the present time, because of severe budget limitations and the resulting campus-wide impaction, SJSU does not accept hardship petitions.

Admission - Notification

The Office of Undergraduate Admissions normally begins sending acceptance letters to applicants late February for admission to the fall semester and beginning in September for admission to the spring semester. Letters from departments or faculty do not constitute admission to the university.

Applicants are not admitted as students in the regular session of the university until they have received an official letter of admission from the Office of Undergraduate Admissions. In addition to the official letter of admission, International student applicants for F-1 and J-1 status will be issued the appropriate form I-20 or DS-2019 for immigration processing.

Admission - Selection

The university reserves the right to select its students and deny admission to the university or any of its programs as the university, in its sole discretion, determines appropriate based on an applicant’s suitability and the best interests of the university.

Admission - California Promise

The California Promise Program enables a specific number of campuses of the California State University (CSU) to establish pledge programs for entering first-time students who are both interested and able to complete baccalaureate degrees in four years. Many campuses have also established programs for students with Associate Degrees for Transfer from any California Community College to complete their baccalaureate degrees in two years. The program is limited to students who are residents of California.

Students who commit to enter either the four-year or two-year pledge will be given a priority registration appointment for each state-supported enrollment period and will be provided with routine and thorough academic advisement. In order to remain in the program, students must meet with their advisors as prescribed, develop an enrollment plan, and complete 30 semester units or quarter equivalent units within each academic year, including summer. Participating campuses may stipulate other important requirements as well. Interested students entering the CSU in the fall 2017 term should contact the campus offices or visit www.calstate.edu/sas/california-promise.

Admissions - Other Applicants

Fully matriculated students enrolled at any CSU campus have access to courses at other CSU campuses on a space available basis unless those campuses/programs are impacted. This access is offered without students being required to be formally admitted to the host campus and in most cases without paying additional fees. Students should consult their home campus academic advisors to determine how such courses may apply to their specific degree programs before enrolling at the host campus.

CSU Fully Online Courses - Matriculated students in good standing may request enrollment in one course per term, offered by a CSU host campus. Enrollment requests will be granted based on available space, as well as completion of any stated prerequisites. Credit earned at the host campus is electronically reported to the student’s home campus to be included on the student’s transcript at the home campus.

CSU Visitor Enrollment - Matriculated students in good standing enrolled at one CSU campus may enroll at another CSU campus for one term. Credit earned at the host campus is reported at the student’s request to the home campus to be included on the student’s transcript at the home campus.

Intersystem Cross Enrollment - Matriculated CSU, UC, or community college students may enroll on a “space available” basis for one course per term at another CSU, UC, or community college and request that a transcript of record be sent to the home campus.

Admission - Appeal of Admission Decision

Section 89030.7 of the California Education Code requires that the CSU establishes specific requirements for appeal procedures for a denial of admission. Each CSU campus must publish appeal procedures for applicants denied admission to the University. The procedure is limited to addressing campus decisions to deny an applicant admission to the University.
Admissions appeal procedures must address the basis for appeals, provide 15 business days for an applicant to submit an appeal, stipulate a maximum of one appeal per academic term, provide specific contact information for the individual or office to which the appeal should be submitted, and indicate a time estimate for when the campus expects to respond to an appeal. The appeal procedures must be included in all denial of admission notifications to students, and must also be published on the campus website. Please visit: http://info.sjsu.edu/web-dbgen/narr/admission/rec-7381.7388.html

Admission - Orientation

Frosh Orientation

Orientation is an important first step to help new students learn to navigate SJSU, register for classes, and make the connections they need to be successful! These mandatory programs assist new students with making the transition to college. Orientation is delivered collaboratively by two SJSU departments, Academic Advising and Retention Services and New Student and Family Programs. These departments work with new students at Orientation and beyond by utilizing student leaders who are trained in issues of transition. At the program, professional staff advise students about required General Education courses, major courses, and prerequisites. Orientation staff who are knowledgeable about the campus will guide students and parents/guardians through experiences that educate them about campus programs and services.

Graduate Orientation

Graduate and Undergraduate Programs presents an all-day program designed to inform incoming graduate students of university-wide policies and resources beyond those of individual departments and colleges and to integrate students into the SJSU campus community. Attendance is not mandatory but is highly encouraged. New F-1 international students are required to report to the Office of International Student and Scholars Services (ISSS). Students must check-in with ISSS in order to meet U.S. government requirements.

Transfer Orientation

Transfer Orientation is a mandatory one-day program that acquaints students with the campus, introduces them to their colleges and major departments, and provides them with critical academic planning information. This program will be managed by New Student and Family Programs in collaboration with AARS and other campus offices.

Admission - Freshman Requirements

Generally, applicants will qualify for consideration for first-time freshman admission if they meet the following requirements:

1. Have graduated from high school, or have earned a Certificate of General Education Development (GED) or have passed the California High School Proficiency Examination;
2. Have a qualifiable minimum eligibility index (see Eligibility Index); and
3. Have completed with grades of C- or better each of the courses in the comprehensive pattern of college preparatory subject requirements also known as the “a-g” pattern (see “Subject Requirements”).

Admission - Freshmen - Eligibility Index

The eligibility index is the combination of the high school GPA and scores on either the ACT or the SAT. GP is based on grades earned in courses taken during the final three years of high school. Included in calculation of GPA are grades earned in all college preparatory “a-g” subject requirements, and bonus points for approved honors courses. Up to eight semesters of honors courses taken in the last three years of high school, including up to two approved courses taken in the tenth grade can be accepted. Each unit of A in an honors course will receive a total of 5 points; B, 4 points; and C, 3 points.

Note: CSU campuses will accept current and redesigned SAT scores (beginning in spring 2016) for admission eligibility. Applicants may submit scores from either test.

A CSU Eligibility Index can be calculated by multiplying a GPA by 800 and adding the total score on the SAT exam (mathematics and critical reading on the old SAT, or mathematics and Evidence-Based Reading and Writing on the new SAT). For students who took the ACT, multiply the GPA by 200 and add 10 times the ACT composite score. Persons who are California high school graduates (or residents of California for tuition purposes) need a minimum index of 2900 using the old SAT or 2950 using the new SAT or 694 using the ACT. The Eligibility Index Table illustrates several combinations of required test scores and averages. The university has no current plans to include the writing scores from either of the admission tests in the computation of the CSU Eligibility Index.
Eligibility Index Table for California High School Graduates or Residents of California

The CSU uses only the ACT score or the SAT mathematics and critical reading scores in its admission eligibility equation. The SAT or ACT writing scores are not used.

Persons who neither graduated from a California high school nor are a resident of California for tuition purposes, need a minimum index of 3502 using the old SAT, 3570 using the new SAT or 842 using the ACT. Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section. An applicant with a grade point average of 3.00 or above (3.61 for nonresidents) is not required to submit test scores. However, all applicants for admission are urged to take the SAT or ACT and provide the scores of such tests to each CSU campus to which they seek admission. Campuses use these test results for advising and placement purposes and may require them for admission to impacted majors or programs. Impacted CSU campuses require SAT or ACT scores of all applicants for freshman admission.

Eligibility Index Table for California High School Graduates or Residents of California

The CSU uses only the ACT score or the SAT mathematics and critical reading scores in its admission eligibility equation. The SAT or ACT writing scores are not currently used by CSU campuses.

</table>

GPA Below 2.00 does not qualify for regular admission.
Admission - Freshmen - Provisional Admissions

The offer of provisional admission is based on the academic information that applicants report on the CSU Apply application. All academic information must be verified before the admitted student will be allowed to enroll and register for classes at SJSU. The admission status will remain “provisional” until an official, final transcript(s) passes verification and confirmation of graduation from high school has been made. The offer of provisional admission to the academic plan (major) listed on the admission letter is only valid for the admit term and may not be deferred to another semester. In addition, it is not possible to change majors prior to enrollment at SJSU.

Applicants will qualify for regular (non-provisional) admission when the university verifies that they have graduated and received a high school diploma, have earned a qualifying minimum eligibility index, have completed the comprehensive pattern of college preparatory “a-g” subjects, and, if applying to an impacted program or campus, have met all supplementary criteria.

Admission - Freshmen - SAT and ACT Tests

The CSU uses only the ACT composite score, the mathematics and critical reading scores on the old SAT, or the mathematics and Evidence-Based Reading and Writing scores on the new SAT in its admission eligibility equation. The SAT or ACT writing scores are not currently used by CSU campuses.

Admission - Freshmen - Subject Requirements

The California State University requires that first-time freshman applicants complete, with grades of “C-” or better, a comprehensive pattern of college preparatory study totaling 15 units. A “unit” is one year of study in high school.

- 2 years of social science, including 1 year of U.S. history, or U.S. history and government.
- 4 years of English
- 3 years of math (algebra, geometry and intermediate algebra).
- 2 years of laboratory science (1 biological and 1 physical, both must include laboratory instruction).
- 2 years in the same foreign language (subject to waiver for applicants demonstrating equivalent competence).
- 1 year of visual and performing arts: art, dance, drama/theater, or music.
- 1 year of electives: selected from English, advanced mathematics, social science, history, laboratory science, foreign language, visual and performing arts or other courses approved and included on the UC/CSU “a-g” list.

Admission - The California Promise

The California Promise Program enables a specific number of CSU campuses to establish pledge programs for entering first-time students who are both interested and able to complete baccalaureate degrees in 4-years. All campuses have established programs for students with Associate Degrees for Transfer (AA-T or AS-T) from any California Community College to complete their baccalaureate degrees in 2-years. The program is limited to students who are residents of California.

Students who commit to enter either the 4-year or 2-year pledge will be given a priority registration appointment for each state-supported enrollment period and will be provided with routine and thorough academic advisement. In order to remain in the program, students must meet with their advisors as prescribed, develop an enrollment plan, and complete 30 semester units or the quarter equivalent within each academic year, including summer. Participating campuses may stipulate other important requirements as well. Interested students entering the CSU should contact campus offices or visit www2.calstate.edu/apply/freshman/getting_into_the_csu/pages/the-california-promise-program.aspx.

Admission - Early Start Program

For more information on the Early Start program, see Early Start Program, under Test Requirements.

Admission - Subject Requirement Substitution for Students with Disabilities

If you are unable to complete certain subjects because of your disability, please call the Accessible Education Center at 408-924-6000.
Admission - Step to College/Unitrack - High School Students
See Alternative Enrollment Programs

Admission - Transfer Requirements

Students who have completed fewer than 60 transferable semester college units (fewer than 90 quarter units) are considered lower division transfer students. Students who have completed 60 or more transferable semester college units (90 or more quarter units) are considered upper division transfer students. Applicants who complete college units during high school or through the summer immediately following high school graduation are considered first-time freshmen and must meet the CSU minimum eligibility requirements for first-time freshman admission. Transferable courses are those designated for baccalaureate credit by the college or university offering the courses and accepted as such by the campus to which the applicant seeks admission.

Admission - Transfer Policies of CSU Campuses

Most commonly, college level credits earned from an institution of higher education accredited by a regional accrediting agency recognized by the United States Department of Education is accepted for transfer to campuses of the CSU; however, authority for decisions regarding the transfer of undergraduate credits is delegated to each CSU campus.

California Community Colleges and other authorized certifying institutions can certify up to 39 semester (58.5 quarter) units of General Education-Breadth (GE-Breadth) or 37 semester (55.5 quarter) units of the Intersegmental General Education Transfer Curriculum (IGETC) for transfer students to fulfill lower-division general education requirements for any CSU campus prior to transfer.

“Certification” is the official notification from a California Community College or authorized institution that a transfer student has completed courses fulfilling lower-division general education requirements. The CSU GE-Breadth and the Intersegmental General Education Transfer Curriculum (IGETC) certification course lists for particular community colleges can be accessed at www.assist.org.

CSU campuses may enter into course-to-course or program-to-program articulation agreements with other CSU campuses, any or all of the California Community Colleges, and other regionally accredited institutions. Established CSU and California Community College articulations may be found on www.assist.org. Students may be permitted to transfer no more than 70 semester (105 quarter) units to a CSU campus from an institution that does not offer bachelor’s degrees or their equivalents, for example, community colleges. Given the university’s 30-semester (45-quarter) unit residency requirement, no more than a total of 90-semester (135-quarter) units may be transferred into the University from all sources.

Admission - Lower Division Transfer Requirements

Due to increased enrollment demands, most CSU campuses - including San José State - do not admit lower division transfer applicants. Generally, applicants will qualify for admission as a lower division transfer student if they have a cumulative GPA of at least 2.0 (C or better) in all transferable units attempted, are in good standing at the last college or university attended, and meet any of the following standards:

1. Will meet the freshman admission requirements (GPA and subject requirements) in effect for the term to which they are applying (see “Freshman Requirements”); or
2. Were eligible as a freshman at the time of high school graduation except for the subject requirements, and have been in continuous attendance in an accredited college since high school graduation, and have made up the missing subjects.

Applicants who graduated from high school prior to 1988 should contact the Admissions Office to inquire about alternative admission programs.

Admission - Making Up Missing College Preparatory Subject Requirements

San José State University does not allow students to make up missing college preparatory (a-g) subjects over the summer sessions. All work must be completed by the end of the 8th semester of high school with a “C- or Better” grade.
Admission - Upper Division Transfer Requirements

Generally, applicants will qualify for consideration for upper-division transfer admission if they meet all of the following requirements:

1. Cumulative grade point average of at least 2.0 (C or better) in all transferable units attempted;
2. In good standing at the last college or university attended; and
3. Completed at least sixty (60) transferable semester (90 quarter) units of college level coursework with a grade point average of 2.0 or higher and a grade C- or better in each course used to meet the CSU general education requirements in written communication, oral communication, critical thinking, and quantitative reasoning, e.g., mathematics.

The 60 units must include at least 30 units of courses that meet CSU general education requirement including all of the general education requirements in communication in the English language (both oral and written) and critical thinking and the requirement in mathematics/quantitative reasoning (usually 3 semester units) OR the Intersegmental General Education Transfer Curriculum (IGETC) requirements in English communication and mathematical concepts and quantitative reasoning.

All applicants for transfer will be required to complete a supplemental application including grades for all coursework completed and a list of all coursework in progress.

Any transfer applicant who wishes to be considered for admission must complete and submit the supplemental application by the deadline posted to his or her MySJSU To Do List.

For more information about the way that this information will be considered for admission and a list of major-specific coursework, please see Program Specific Supplemental Coursework section.

Questions about the Supplemental Application can be answered by consulting our help guide.

Admission - Associate Degrees for Transfer (AA-T or AS-T)

Student Transfer Achievement Reform (STAR) Act (SB 1440)

The Associate in Arts for Transfer (AA-T) and the Associate in Science for Transfer (AS-T) degrees offered at the California Community Colleges (CCC) are designed to provide California Community College students with the optimum transfer preparation and a clear admission pathway to those CSU degree majors. Students who have completed these transfer degrees and are admitted to a similar CSU major program or option for that discipline will be able to complete the Baccalaureate Degree within 60 semester or 90 quarter units providing that all remaining required courses are completed successfully without a break in attendance and providing that no supplemental courses for minors or areas of emphasis are undertaken.

CCC students who earn an Associate Degree for Transfer (AA-T or AS-T) are guaranteed admission with junior standing to a CSU and given priority admission over other transfer applicants when applying to a local CSU campus or non-impacted CSU program. AA-T or AS-T admission applicants are given limited priority consideration based on their eligibility ranking to an impacted campus/program or to campuses/programs that have been deemed similar to the degree completed at the community college. Students who have completed an AA-T/AS-T in a program deemed similar to a CSU major are able to complete remaining requirements for graduation within 60 semester (90 quarter) units. It is the responsibility of the student who has earned an AA-T/AS-T to provide documentation of the degree to the CSU campus.

Students who earn associate degrees for transfer and apply to a CSU campus but cannot be admitted due to impaction will be redirected to another CSU campus and offered admission for the same term. In order to qualify for the priority admission guarantee, transfer applicants must be conferred an approved Associate Degree for Transfer (AA-T/AS-T) by a California Community College, apply for admission to California State University campuses for an open term by the published deadline, submit all requested transcripts and documents, meet CSU admission eligibility requirements for the campus and/or program, and comply with any other prescribed admission requirements. It is the responsibility of these transfer students to provide documentation about the completion of the degree to each CSU campus that has received an application for admission.
Admission - Transfers - Provisional Admission
The offer of provisional admission is based on the academic information that applicants report on the CSU Apply application. All academic information must be verified before the admitted student will be allowed to enroll and register for classes at SJSU. The admission status will remain “provisional” until an official, final transcript(s) passes verification and confirmation of completion of any spring work in progress. The offer of provisional admission to the academic plan (major) listed on the admission letter is only valid for the admit term and may not be deferred to another semester. In addition, it is not possible to change majors prior to enrollment at SJSU.

Admission - Postbaccalaureate (Second Baccalaureate)
Due to enrollment restrictions and impaction, SJSU no longer accepts applications from post-baccalaureate/second baccalaureate students. The only exception is for Nursing.

Admission - International Student Requirements
The following information pertains to specific requirements for SJSU International Students.

Admission - International Student - Admission Requirements
The CSU must assess the academic preparation of international students. For this purpose, “international students” include those who hold U.S. temporary visas as students (F-1), exchange visitors (J-1), or in other nonimmigrant classifications.

The CSU uses separate requirements and application filing dates in the admission of “international students.” Verification of English proficiency (see the section on the English Language requirement for undergraduate applicants), financial resources, and academic performance are each important considerations for admission. Academic records from international institutions must be on file by the posted deadlines and, if not in English, must be accompanied by certified English translations.

Admission - International Student - Insurance Requirement
Effective August 1, 1995, as a condition of receiving an I-20 or DS-2019 form, all F-1 and J-1 visa applicants must agree to obtain and maintain health insurance as a condition of registration and continued enrollment in the California State University. Such insurance must be in amounts as specified by the United States Department of State and San José State University. The campus president or designee shall determine which insurance policies meet these criteria. Further information may be obtained from International Programs and Services, Clark Hall 543.

Admission - International Student - English-Language Proficiency Exam Requirement
All undergraduate applicants whose native language is not English and who have not attended schools at the secondary level or above for at least three years full time where English is the principal language of instruction must present a score of 61 or above on the Test of English as a Foreign Language (TOEFL). Some majors and class levels may require a higher score. For graduate student applicants, please refer to www.sjsu.edu/graduateadmissions/admission-requirements/test-requirements/index.html. A few programs may also use alternative methods of assessing English fluency: Pearson Test of English Academic (PTE Academic) and the International English Language Testing System (IELTS).

SJSU will notify students after they apply when to submit scores.

Admission - Transcript Requirements

Admission - Transcript Submission

All transcripts submitted must be official and sent directly from the originating school or college to the Office of Admissions. San Jose State University accepts electronic transcripts as the preferred method. If possible please request your school to send your transcripts electronically. Electronic transcripts save processing time. Transcripts submitted by the student are not acceptable unless submitted in a sealed envelope. All records submitted become the property of the university, part of the student’s file, and will not be released. If a student does not complete the application or enroll, the records will be kept on file for one year only.

Undergraduate students with college transfer work who are accepted for admission, and who desire advising, will be required to present a set of college transcripts to their departmental advisor. It is suggested that you order a set of transcripts for yourself at the same time you order transcripts sent to the Office of Admissions.

Admission - Freshmen Applicant Transcripts

Students applying for admission to the university while still attending high school may be evaluated on their self-reported application information. A final high school transcript with the date of graduation must be sent to the Office of Admissions at the time of graduation.

Admission - Transfer Applicant Transcripts

Transfer applicants who have completed 60 or more semester units of transferable credits and who are applying to the university need not file the high school transcript. However, applicants are cautioned that if, during the evaluation process, it is determined that fewer than 60 semester units of transferable credit have been earned, processing will stop and the application will be withdrawn.

All undergraduate applicants must file one official transcript from each college in which they have enrolled. This includes USAFI, the Defense Language Institute, Special Sessions (Winter Session and Professional Development), correspondence and audited courses, as well as any college in which the student was enrolled and withdrew without earning credit.

Former students need not order transcripts of work completed at SJSU whether this work was accomplished in the regular session, Open University, Special Sessions, or through the university Professional Development Program. Similarly, they need not reorder transcripts that were previously forwarded to this university. But if they did college work in the interim, such transcripts must be filed with their papers. Students absent from the university for a period of seven years or longer must resubmit all documents required for admission.

Admission - Credential Applicant Transcripts

Applicants to credential programs are required to file one official transcript from each and every college in which they have enrolled. Transcripts must be sent directly from the originating institution to the Office of Graduate Admissions & Program Evaluations (GAPE). Transcripts submitted by the student are not acceptable unless submitted in an official sealed envelope.

All college work must be reported. Failure to comply with this requirement may void the student’s application.

Test Requirements

EPT/ELM Placement Tests

EPT/ELM Placement Tests in English and Math

Prior to August 2017 the CSU required that each entering undergraduate, except those who qualified for an exemption, take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. As of Spring 2018, these placement tests have been replaced by alternative assessments. See section on alternative assessments elsewhere in the policies.

Although the ELM/EPT are no longer offered, scores for students who previously took the ELM and EPT will be honored.
EPT - English Placement Test

Exemptions from the EPT are granted only to those who present proof of one of the following:

A. A result of Standard Exceeded: “Ready” for CSU or participating CCC college-level coursework in English on the CAASPP Early Assessment Program (EAP) exam.
B. A result of Standard Met: “Conditionally Ready” for CSU or participating CCC college-level coursework in English on the CAASPP Early Assessment Program (EAP) exam and met the conditional requirement.
C. The Conditional requirement may be met by completing an approved English course in the 12th grade and earning a grade of “C-” or better. Students who do not meet the conditional requirement will need to participate in the CSU’s Early Start Program, unless exemption was met through one of the following:
   - New SAT: A score between 510 - 540 on the Evidenced Based Reading and Writing Section*
   - Old SAT: A score between 460 - 490 on the Critical Reading section of the old SAT Reasoning Test
D. score of 19 - 21 on the English section of the ACT Test
E. New SAT: A score of 550 or above on the Evidenced Based Reading and Writing section*
F. Old SAT: A score of 500 or above on the Critical Reading section of the old SAT Reasoning Test
G. A score of 22 or above on the ACT English Test

H. A score of 3 or above on either the Language and Composition or Composition and Literature examination of the College Board Scholastic Advanced Placement Program
I. Completion and transfer to CSU of the credits for a college course that satisfies the CSU General Education requirement in English Composition, provided such a course was completed with a grade of “C-” or better

* In March 2016, the College Board began administering a new SAT. The new SAT scores are different than the old SAT scores. The CSU will accept both old and new SAT scores for students graduating in 2020 and prior. Students graduating after 2020 will be required to take the new SAT.

ELM - Mathematics Placement

Exemptions from the ELM are granted only to those who present proof of one of the following:

A. A result of Standard Exceeded: “Ready” for CSU or participating CCC college-level coursework in mathematics on the CAASPP Early Assessment Program (EAP) exam.
B. A result of Standard Met: “Conditionally Ready” for CSU or participating CCC college-level coursework in mathematics on the CAASPP Early Assessment Program (EAP) exam and met the conditional requirement.
C. The Conditional requirement may be met by completing an approved math course in the 12th grade and earning a grade of “C-” or better. Students who do not meet the conditional requirement will need to participate in the CSU’s Early Start Program, unless exemption was met through one of the following:
   - New SAT: A score between 520 - 560 on the mathematics section of the new SAT Test*
   - Old SAT: A score between 490 - 540 on the mathematics section of the old SAT Reasoning Test
   - A score between 20 - 22 on the mathematics section of the ACT Test
D. New SAT: A score of 570 or above on the mathematics section of the new SAT*
E. Old SAT: A score of 550 or above on the mathematics section of the old SAT Reasoning Test
F. SAT Subject Test: A score of 550 or above on the SAT Subject Test in Mathematics (level 1 or level 2)**
G. A score of 23 or above on the ACT Mathematics Test
H. A score of 3 or above on the College Board Advanced Placement Calculus AB or Calculus BC
I. A score of 3 or above on the College Board Advanced Placement Statistics examination
J. Completion and transfer to CSU of a college course that satisfies the requirement in Quantitative Reasoning, provided such a course was completed with a grade of “C-” or better

* In March 2016, the College Board began administering a new SAT. The new SAT scores are different than the old SAT scores. The CSU will accept both old and new SAT scores for students graduating in 2020 and prior. Students graduating after 2020 will be required to take the new SAT. **Note: there were no changes to the SAT Subject Tests; therefore, the cut score for the Subject Test in Mathematics (levels 1 or 2) remains the same.
Conditional Exemptions

Conditional Exemptions from the EPT and/or the ELM can be earned with a qualifying score on the ACT, SAT or CAASPP exam. For complete information about conditional exemptions, visit the SJSU Developmental Studies site.

Conditionally exempt students who do not take and pass the exam or show proof of passing an approved senior year course by June 30 will be placed into remediation during their first year and may be required to enroll in an Early Start course in that subject during the summer prior to their first semester.

ELM/EPT - Exemption Status

ELM/EPT - Alternative Assessment

Please contact Developmental Studies at developmentalstudies@sjsu.edu for information regarding alternative assessment

Assessment of Academic Preparation and Placement

The CSU requires that all entering freshmen students be evaluated in terms of their preparation to complete first-year courses in written communication and mathematics/quantitative reasoning. This evaluation will utilize the broadest set of multiple measures including high school grades as well as performance scores on standardized exams such as the ACT or SAT. This evaluation of academic readiness is not a condition for admission to the CSU, but it is an important step for determining the best course placement for entering students.

Successful completion of general education (GE) written communication and mathematics/quantitative reasoning courses in the first year of CSU enrollment establishes a foundation for continuous learning. Unless the requirements have been completed, freshmen shall enroll in GE written communication and mathematics/quantitative reasoning courses appropriate to each student’s major and skill level, as demonstrated by applicable systemwide standards utilized in the review of academic preparation.

Students whose skill assessments indicate academic support will be needed for successful completion of GE in written communication or mathematics/quantitative courses shall enroll in appropriate college-level, baccalaureate credit-bearing courses that strengthen skills development to facilitate achieving the appropriate general education student learning outcomes. Supportive course models may include, among others, co-requisite approaches, supplemental instruction or “stretch” formats that extend a course beyond one academic term. In these approaches, instructional content considered pre-baccalaureate may carry a maximum of one unit and shall be offered concurrently with a college-level, baccalaureate credit-bearing course.

Multiple Measures Assessment for General Education Written Communication

Based on the systemwide assessment standards for GE written communication below, freshmen shall enroll in appropriate GE written communication courses during their first academic year unless the requirement has been fulfilled.

Students who have met the following requirements have fulfilled the GE Written Communication requirement in preparation for advanced courses:

- A score of 3 or above on either the Language and Composition examination or the Composition and Literature examination of the College Board Scholastic Advanced Placement Program
- Completion and transfer to the CSU of the credits for a college course that satisfies the CSU GE requirement in written composition, provided such a course was completed with a grade of C- or better

Students who have met the following requirements are ready to enroll in a course that meets the GE Written Communication requirement:

- A result of ‘Standard Exceeded: Ready for CSU or participating CCC college-level coursework in English’ earned on the CAASPP Early Assessment Program (EAP) exam
Multiple Measures Assessment for General Education Mathematics/Quantitative Reasoning

Based on the systemwide assessment standards for GE mathematics/quantitative reasoning below, freshmen shall enroll in appropriate general education mathematics/quantitative reasoning courses during their first academic year unless the requirement has been fulfilled.

Students who have met the following requirements have fulfilled the GE Math/Quantitative Reasoning requirement and are permitted to enroll in the next level of math:

- A score of 3 or above on the College Board Advanced Placement Calculus AB or Calculus BC tests
- A score of 3 or above on the College Board Advanced Placement Statistics test
- A score of 4 or above on the International Baccalaureate Mathematics Higher Level (HL)
- A score of 50 or above on the College Board College Level Examination Program (CLEP) Calculus, College Algebra, College Algebra-Trigonometry, Pre-Calculus, or Trigonometry
- Completion and transfer to the CSU of the credits for a college course that satisfies the CSU General Education requirement in mathematics/quantitative reasoning, provided such a course was completed with a grade of C- or better

Students who are STEM majors who have met the following requirements are ready to enroll in a course that meets the GE Math/Quantitative Reasoning requirement:

A result of ‘Standard Exceeded: Ready for CSU or participating CCC college-level coursework in mathematics’ on the CAASPP Early Assessment Program (EAP) exam

- A score of 570 or above on the mathematics section of the new SAT Reasoning Test
- A score of 550 or above on the mathematics section of the old SAT Reasoning Test
- A score of 550 or above on the SAT Subject Test in Mathematics (level 1 or level 2)

A score of 23 or above on the ACT Mathematics test

- Completion of a 12th grade mathematics course beyond algebra 2 with a grade of C- or better and a score of 520-560 on the new SAT mathematics test or a score of 490-540 on the old SAT mathematics test
- Completion of a 12th grade mathematics course beyond algebra 2 with a grade of C- or better and a score of 20-22 on the ACT Mathematics test
- A result of ‘Standard Met: Conditionally Ready for CSU or participating CCC college-level coursework in mathematics’ on the CAASPP Early Assessment Program (EAP) exam AND completion of a 12th grade mathematics course with a grade of C- or better
- Achievement of a weighted high school GPA >= 3.7
- Achievement of a weighted high school mathematics GPA >= 3.5 and 5+ years of mathematics or quantitative reasoning courses
- Achievement of a weighted high school mathematics GPA >= 3.5 and completion of an approved senior year course
Students who are Non-STEM majors who have met the following requirements are ready to enroll in a course that meets the GE Math/Quantitative Reasoning requirement:

- A result of ‘Standard Exceeded: Ready for CSU or participating CCC college-level coursework in mathematics’ on the CAASPP Early Assessment Program (EAP) exam
- A score of 570 or above on the mathematics section of the new SAT Reasoning Test
- A score of 550 or above on the mathematics section of the old SAT Reasoning Test
- A score of 550 or above on the SAT Subject Test in Mathematics (level 1 or level 2)
- A score of 23 or above on the ACT Mathematics test
- Completion of a 12th grade mathematics course beyond algebra 2 with a grade of C- or better and a score of 520-560 on the new SAT mathematics test or a score of 490-540 on the old SAT mathematics test
- Completion of a 12th grade mathematics course beyond algebra 2 with a grade of C- or better and a score of 20-22 on the ACT Mathematics test
- A result of ‘Standard Met: Conditionally Ready for CSU or participating CCC college-level coursework in mathematics’ on the CAASPP Early Assessment Program (EAP) exam and completion of a 12th grade mathematics course with a grade of C- or better
- A result of ‘Standard Met: Conditionally Ready for CSU or participating CCC college-level coursework in mathematics on the CAASPP Early Assessment Program (EAP exam) and 4 years of mathematics or quantitative reasoning courses
- Achievement of a weighted high school GPA >= 3.7
- Achievement of a weighted high school GPA >= 3.5 and 4+ years of mathematics or quantitative reasoning courses
- Achievement of a weighted high school mathematics GPA >= 3.0 and completion of 5+ years of mathematics or quantitative reasoning courses
- Achievement of a weighted high school mathematics GPA >= 3.0 and completion of an approved senior year course

Students who are STEM majors who have met the following requirements are ready to enroll in a course that meets the GE Math/Quantitative Reasoning requirement and includes supported instruction:

- Achievement of a high school mathematics GPA >= 3.3

Students who are Non-STEM majors who have met the following requirements are ready to enroll in a course that meets the GE Math/Quantitative Reasoning requirement and includes supported instruction:

- Achievement of a high school mathematics GPA >= 3.3
- Achievement of a high school GPA >= 3.0

Students who have met the following requirements are required to participate in the Early Start Program and are ready to enroll in a course that meets the GE Math/Quantitative Reasoning requirement and includes supported instruction:

- A score less than 510 on the mathematics section of the new SAT Reasoning test or a score less than 490 on the mathematics section of the old SAT Reasoning test AND a high school GPA <= 3.2
- A score less than 20 on the ACT Mathematics test AND a high school GPA <= 3.2

Early Start Program

To facilitate appropriate first year course placement, the CSU evaluates entering students for academic preparation in two areas: quantitative reasoning and written communication. The evaluation process takes into account several factors, including grade point average, completed high school coursework, transfer-level coursework, and scores on standardized tests such as the SAT, ACT, CAASPP/EAP, and Advanced Placement and International Baccalaureate examinations.

On the basis of this evaluation, some students who may benefit from additional academic preparation are required to participate in summer skill-building activities through the Early Start Program. This requirement may be satisfied through live or online Early Start courses offered by any CSU campus. Students with an Early Start requirement will receive information about the program, including specific course options, through MySJSU starting in the first week of May and continuing throughout the summer. Regular financial aid packages may not be applied to Early Start classes; however, fee waivers are automatically given to qualifying students. For more information, go to www.sjsu.edu/sfs/earlystart.

Students who need sign language interpreters or other accommodations should contact the Accessible Education Center (AEC) at (408) 924-6000 as soon as possible, or at least two weeks prior to the first day of Early Start classes. For more information about obtaining accommodations through the AEC, go to www.sjsu.edu/aec/prospective-aec-students/earlystart/.

Students who fall into one or more of the following categories are excused from the Early Start requirement, regardless of their academic record:
1. Non-residents of California (See www.sjsu.edu/registrar/students/Residency/Residency_FAQ.html for information on residency.)
2. International students (F-1 and J-1 visas only)
3. Students admitted after August 1st

In addition, students who have a serious and compelling reason for not participating in the program may petition for an exception to the requirement. Exceptions are granted only when program participation is impossible or would lead to undue hardship. (Summer vacation plans are not be considered grounds for an exception.) The petition can be found at www.sjsu.edu/sfs/earlystart/. For a petition to be approved, documentation will be required.

Students who do not satisfy their Early Start requirement may be sanctioned as outlined in the SJSU Early Start Compliance section of the web site, which can be found at www.sjsu.edu/sfs/earlystart/compliance/index.html.

---

### SAT and ACT

SJSU requires SAT or ACT scores from all freshman applicants.

Freshman and transfer applicants who have fewer than 60 semester or 90 quarter units of transferable college credit are strongly encouraged to submit scores, unless exempt (see "Eligibility Index"), from either the ACT or the SAT of the College Board. Persons who apply to an impacted program may be required to submit test scores and should take the test no later than November or December. Test scores also are used for advising and placement purposes. Registration forms and dates for the SAT or ACT are available from school or college counselors or from a CSU campus testing office. Or students may contact:

**The College Board (SAT)**

Registration Unit, Box 6200
Princeton, New Jersey 08541-6200
609-771-7588

**ACT Registration Unit**
P.O. Box 414
Iowa City, Iowa 52240
319-337-1270
www.act.org

---

### Placement by Examination

### Advanced Standing by Examination

Advanced standing by examination permits accelerated progress toward the degree and a wider selection of course work.

Advanced standing by examination is divided into three categories: (1) advanced placement by examination (no unit credit awarded); (2) waiver of requirements (no unit credit awarded); and (3) advanced credit by examination.

---

### Course Placement by Examination

See the policies below and the respective departments for details about all placement examinations.

**Mathematics**

The Mathematics Placement Exam is offered to students who would like to place into MATH 008 (without co-requisite support), MATH 019, MATH 030, MATH 030PL, or MATH 071,

and have not yet satisfied the prerequisites (MATH 071, MATH 008/019 or SAT 570+ or ACT 23+; MATH 030/030P/030PL: MATH 019). See www.sjsu.edu/math/calculus/ for more information or contact the Department of Mathematics and Statistics; MacQuarrie Hall 308, 408-924-5100; math-info@sjsu.edu.

**Foreign Language**

Placement examinations in French, German and Spanish are recommended for those students who studied language in high school or acquired language skills through life experiences.
Students having completed college level foreign language (at SJSU or elsewhere) generally will not take the placement examination but will enroll in the course for which they qualify on the basis of units completed.

Music

All new and transfer music majors, including graduate students and returning former students, must report to the School of Music and Dance for auditions, advising and placement examinations. Music majors and minors must also audition for a major ensemble before completing registration.

Mathematics Placement Examination (ALEKS)

The Mathematics Placement Exam, formerly known as Calculus Placement Exam, is offered to students who would like to place into MATH 008 (without co-requisite support), MATH 019, MATH 030, MATH 030PL, or MATH 071, without taking the prerequisite course (Math 019 or Math 008, respectively). See testing.sjsu.edu, Testing Office, Industrial Studies Building Room 228; 408-924-5980; testing-office@sjsu.edu.

- Entering frosh who plan to take Calculus or Business Calculus their first semester should take the Mathematics Placement Exam prior to attending orientation. Exams are offered throughout the summer. Check the Testing Office website for details at testing.sjsu.edu.
- For course registration information regarding Calculus I (MATH 030, MATH 030P, and Math 030PL) and MATH 071 see www.sjsu.edu/math/calculus.

Placement Through External Exams

- Any student who has earned a 3 or higher on the AP Calculus AB or Calculus BC/AB Subscore has credit for MATH 30 (Calculus I) and is eligible to enroll in Math 31 (Calculus II).
- Any student who has earned a 3 or higher on the AP Calculus BC have credits for Math 30 (Calculus I) and Math 31 (Calculus II) and is eligible enroll to in Math 32 (Calculus III).
- Any student who has earned a 50 or higher on the CLEP Calculus has credit for Math 30 (Calculus I) and is eligible to enroll in Math 31 (Calculus II).
- Any student who has earned a 50 or 70 on the CLEP Pre-Calculus have credit for Math 19 (Pre-Calculus) and is eligible to enroll in Math 30P or Math 30PL (Calculus I).
- Any student who has earned a 71 or 80 on the CLEP Pre-Calculus have credit for Math 19 (Pre-Calculus) and is eligible to enroll in Math 30 (Calculus I).
- Any student who has earned a 50 or higher on the CLEP College Algebra has credit for Math 008 and is eligible to enroll in Math 71.

Mathematics Placement Exam Dates

Information and dates for the Mathematics Placement Exam are posted at testing.sjsu.edu.

Registration and Payment

See information on testing.sjsu.edu.

Accommodations

Students needing accommodations can take the Mathematics Placement Exam through the AEC. Registration can be done after payment and directly through the AEC.

Foreign Language Placement Examination

The placement test is recommended for those students who studied a language in high school or acquired language skills through life experiences such as foreign travel or study abroad.

If you have taken college level foreign language courses (at SJSU, a community college, or other university), you do not need to be tested. Just enroll in the course for which you qualify on the basis of units accumulated. If you are unsure about course equivalencies, call 408-924-4602 and you will be referred to an advisor.

Students may also take the Placement Test for Chinese, French, German, Japanese, Spanish or Vietnamese on an individual basis for the following semester. For details, call the Carmen Sigler Media Center at 408-924-4696.

For other languages, call 408-924-4602.
Waiver Examinations

A satisfactory score on one or more of the following tests will result in a waiver of the requirement, but no unit credit will be awarded. Information on all waiver examinations is available in the Testing Office. There is a test fee associated with some of these exams.

American Institutions

A waiver examination (giving no unit credit) is available in the Testing Office to challenge the California Government graduation requirement (Area US3).

Written Communication II Course (100W)

Students who have earned a waiver-eligible score on the Writing Skills Test (WST) at SJSU, or who have satisfied the CSU Graduation Writing Assessment Requirement at another CSU campus, are not required to take a 100W course unless their degree programs do not accept a waiver of the course. Consult the General Education section for a list of majors that do not accept the waiver.

Credit by Exam (CBE) for Challenge Examinations

In accordance with University Policies F15-5 and F15-11, academic credit may be earned through CBE for any department-approved 0-100 level course for which an equivalent CLEP exam is not available. Credit earned from CBE is non-transferable and awarded on a Credit/No Credit basis. It can only be used to clear SJSU requirements and assist with progress towards a degree at SJSU. CBE can be attempted only once per course, up to a maximum of 30 units. This 30 unit maximum also includes course credit earned through CLEP examinations.

If you are seeking Credit By Examination, you must meet the following criteria:

• You are a currently matriculated student at SJSU.
• You cannot be enrolled in the course, and have never received a grade (other than W) for the course or an equivalent course.
• You can only use the course towards completion of degree requirements at SJSU.
• You have never attempted CBE for the course before.
• You have fewer than the maximum of 30 units allowed for CBE/CLEP credit.

Contact the Testing Office to request a petition form. Visit testing.sjsu.edu/CBE for more information.

Credit by Examination

Standardized Exams

SJSU grants credit toward its undergraduate degrees for successful completion of various standardized exams. The following are the guidelines for the credit that may be granted at SJSU for each standardized exam. Students may not earn duplicate credit by examination if they have previously taken or subsequently take equivalent exams or course work.
College Board Advanced Placement Program (AP)

AP (Advanced Placement) Exams

SJSU grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of the College Board. Students who present scores of three or better will be granted up to six semester units (nine quarter units) of college credit for each exam (no duplicate credit granted). The number of units granted, course equivalence, and satisfaction of requirements vary.

Requires scores of 3-5 for credit to be granted

The International Baccalaureate (IB)

Students who present the following official higher level IB Exam scores of four or better, taken before college matriculation, will be granted up to six semester units of lower division baccalaureate credit. The course equivalence and satisfaction of requirements vary.

Requires score of 4-7 on higher level exams for any credit to be granted. Course equivalence dependent on major advisor for major, minor, or support credit.

Writing Skills Test (WST)

All students, regardless of where they began their college studies, are required by the California State University to satisfy an upper division written communication requirement. At SJSU the writing requirement has two parts: passing the WST and passing a 100W course.

- A satisfactory score on the Writing Skills Test (WST) is required prior to enrollment in Written Communication II (100W courses) and all SJSU Studies (advanced general education, Areas R, S, and V) courses. To make timely progress to their degree, students should register for, and take, the first available WST they can after completing English 1A course (CSU GE Area A2) and a critical thinking course (CSU GE Area A3).

- The WST requirement cannot be waived.

- High WST scores may also be used to waive the required Written Communication II course (100W). Some majors do not permit waiving of 100W no matter what score the student receives on the WST. Individual score reports explain each student’s status.

Beginning Fall 2014 the prerequisite for the WST is completion of English 1A (CSU GE Area A2) with a grade of “C- or Better”. Completion of a second semester composition course (e.g. Area A3 courses or English 1B at SJSU) is strongly recommended for students prior to taking the WST. For SJSU students who completed their English composition courses at SJSU prior to Fall 2014, English 1A and English 1B (or equivalent) were prerequisites for the WST.

Once the writing courses have been completed with grades of “C- or Better”, students should visit testing.sjsu.edu/wst to view upcoming test dates and register for the WST. Completion of the WST prior to reaching upper division standing will prevent any delays in registration for any courses which require the WST or 100W as a prerequisite for enrollment. Transfer students should complete the WST prior to their first semester at SJSU to prevent any delays in registration.

Consult testing.sjsu.edu for the most current information about the WST. The following students do not need to take the WST to enroll in any classes:

1. Students who have completed the Graduate Writing Assessment Requirement (GWAR) at SJSU or at another CSU campus as a matriculated student at the time of completion. Note: If you have satisfied the GWAR at another CSU campus, your department may still require that you take 100W to satisfy the requirements of the major, even though the university GWAR requirement has been met;

2. Post-baccalaureate students who have earned a baccalaureate degree from a regionally accredited U.S. college or university;

3. Students who have submitted a Written Communication II petition and received approval granting equivalency based on satisfactory completion of an upper division composition course completed at another university, or the submission of published work for which the student is the primary author.

For students who have failed the WST, SJSU offers, ENGL 100A and LLD 100A. Either course satisfies the WST requirement if passed with a “C or Better.” If you have questions about your status, contact the Testing Office at testing-office@sjsu.edu.

If you will not be in the U.S. for one of the spring or summer WST exams, take the first available exam in the fall semester.

Effective Fall 2012, students must take the WST no later than the term in which they reach 75 earned units (counting no more than 70 transfer units). If they do not pass, they must retake the WST or, if the WST has been failed once, take a 100A course each term until they pass. Students who reach 90 earned units without passing the test must enroll in 100A. (Updated - Presidential Directive 2009-05)

Graduate Students and the WST

All graduate students are required to satisfy the Graduation Writing Assessment Requirement (GWAR) through the completion of courses designed for this purpose in order to advance to candidacy and to graduate. The current list of courses can be found at http://www.sjsu.edu/gup/gradstudies/policy/gwar/index.html. Some of these courses require the WST for registration. Waivers of the exam are issued for graduate students. The prerequisites described above (Eng 1A and a second semester composition course) are assumed to have been completed during the undergraduate education. Exceptions to the course requirements can be found at www.sjsu.edu/gape/current_students/completing_masters/ and in the section on Graduation Writing Assessment Requirement - Graduate in this catalog. See your department graduate advisor for more information.
WST Scores

Scores will be reported on your MySJSU account. See testing.sjsu.edu/wst/wstScores/index.html for detailed WST score information.

How to prepare for this exam

- WST information sample test questions, and registration materials may be obtained from helpful links can be found at testing.sjsu.edu/wst/wstprep/index.html.
- The Writing Center offers tutorial help and workshops on various writing topics: see www.sjsu.edu/writingcenter/

To register

1. Register at least 4 weeks in advance at testing.sjsu.edu/wst, dates are available on testing website.
   Students who require disability-related accommodations must register and contact AEC at least four weeks prior to the posted test date.
2. The non-refundable test fee is $38.00, payable online via credit card, or at the Testing Office (Industrial Studies 228) with cash or check.

Test Accommodations

Students requiring test accommodations must submit the appropriate documentation to the Accessible Education Center (AEC). To ensure accommodations can be made, an appointment must be scheduled with an AEC counselor at least one month prior to a standardized or placement exam to determine eligibility and prescribe test accommodations. Students unable to meet this deadline should contact the AEC as soon as possible. See http://www.sjsu.edu/aec/for details.

Transfer Credit

SJSU has extensive articulation with many colleges and universities in California. Course-to-course articulation agreements identify courses of comparable content for major and minor requirements for undergraduate degree programs at SJSU. The articulation agreement assures students that the approved transfer courses on the transfer campus will be accepted “in lieu of” the comparable SJSU courses. Information about the courses for each campus that SJSU has agreements with can be found at our comprehensive on-line transfer planning site: http://transfer.sjsu.edu.

Generally, transfer credit will be posted within the first semester of attendance or sooner in some cases. It is important to submit official transcript(s) from all institutions attended for work completed to ensure that transfer credit is posted.

San Jose State University accepts electronic transcripts as the preferred method. If possible please request your school to send your transcripts electronically. Electronic transcripts save processing time. If you have questions or need assistance with your transfer credit, please email eval@sjsu.edu.

Credit from Other Colleges and Universities

California Community Colleges will certify to The California State University those courses that are of baccalaureate level and therefore transferable for at least elective credit. Credits earned in accredited community colleges will be evaluated by the Office of Undergraduate Admissions in accordance with Title 5 of the California Code of Regulations, Section 40409: A maximum of 70 semester units earned in a community college may be applied toward the degree, with the following limitations:

(a) No upper division credit may be allowed for courses taken at a community college, though content equivalence to upper division courses may be approved so that lower division courses may be articulated for “content credit only.”
(b) No credit may be allowed for professional courses in education taken at a community college, other than an introduction to education course.

Credits earned at a regionally accredited colleges will be evaluated by the Office of Undergraduate Admissions and advanced standing allowed on the basis of the evidence submitted. Credit toward the fulfillment of graduation requirements will be allowed only insofar as the courses satisfactorily completed meet the standards and the requirements of the basic course pattern of the college.

Credits earned at a non-accredited colleges may be accepted as a basis for advanced standing only to the extent that the applicant can demonstrate to the satisfaction of the university that a satisfactory degree of proficiency has been attained in the course in question.

For details on transferring graduate credits from other institutions, see the section on Transfer Credit in the Graduate Program.
Credit for Military Training in Non-Collegiate Settings

SJSU grants undergraduate degree credit for successful completion of non-collegiate instruction, either military or civilian, as recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The number of units allowed is based on the recommendation in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs.

Six semester units of credit are awarded for being on active duty for at least one year in the Army, Navy, Air Force, Marines or Coast Guard. Three of these units can be used to complete Area E of the CSU General Education Program, two units will apply to the physical education requirement for SJSU graduation, and one unit is applied toward elective credit.

Documents that should be submitted to assess credit for military education are:
- Joint Service Transcripts (JTS; Army, Navy, Marines, Coast Guard)
- Community College of the Air Force transcript (CCAF)
- DD-214 (or DD-295 for students still in the military)

SJSU also awards credit for College Level Examination Program (CLEP) subject examinations. The specific credit for the 36 different CLEP exams can be found under credit by exam: [http://info.sjsu.edu/static/policies/cbe.html](http://info.sjsu.edu/static/policies/cbe.html)

The Office of Undergraduate Admissions will assist students with questions they may have about transfer credit in order to determine student level and admission eligibility.

Contact:

Office of Admissions and Outreach (Undergraduate)

One Washington Square
San José, CA. 95192-0016
Phone: 408-283-7500
Email: eval@sjsu.edu

Credit for Extended Studies

Special Session

Courses numbered 100-399 earn degree and residence credit. While the university may accept this work toward baccalaureate and graduate degrees, it is a matter of individual department evaluation as to whether such work is accepted as applying toward the major or minor. A record of this work is maintained by the Registrar’s Office. Transcripts are available once credit is posted.

Continuing Education Units (CEUs)

Courses numbered 400-499 offer Continuing Education Units (CEUs), a nationally-recognized unit of measurement for a variety of noncredit programs applying toward licensure, promotion or career advancement. CEUs are not applicable to a degree nor to residence unit requirements. A record of this work is maintained by the College of International and Extended Studies. Transcripts are available once credit is posted. Contact College of International and Extended Studies.

Credit for Noncollegiate Instruction

San José State University grants undergraduate degree credit for successful completion of noncollegiate instruction, either military or civilian, appropriate to the baccalaureate degree, that has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The numbers of units allowed are those recommended in the

- Guide to the Evaluation of Educational Experience in the Armed Services and the
- National Guide to Educational Credit for Training Programs.

Credit for Home Study

The university does not offer and rarely accepts credit for correspondence (home study) courses.
Credit for Work Experience

No unit credit is allowed toward bachelors’ degrees or master’s degrees for teaching or other practical experience. Specific requirements in certain departments may be waived, however, on the basis of previous experience.
Undergraduate Information and Requirements

Change of Major/Degree Objective

Undergraduate students who wish to change their degree major objectives should obtain a change of major form at www.sjsu.edu/registrar/forms. The form requires the approval and signatures of the appropriate university official(s). The completed form for students with fewer than 90 units must be returned to the Registrar’s Office. Students with 90 or more units must submit the change of major form to AARS for review. Students changing to undeclared major must also submit the completed form to Academic Advising and Retention Services (AARS). Upon further review and approval by AARS, the forms are processed and filed with the Registrar’s Office.

The change of major is not official until the approved form is on file with the Registrar’s Office. This form may also be used to move from undeclared to a major; declare a second major, or change a minor. Change of undergraduate major and minor forms are downloadable from www.sjsu.edu/registrar/forms. For graduate change of major, see www.sjsu.edu/gaper/forms.

Students who have earned more than 90 earned units (counting no more than 70 community college transfer units) are not likely to be approved and will need to appeal.

Change of major is not guaranteed.

Classification of Students

San José State University students are classified in the lower or upper division or in graduate standing based on the units completed. The basis of classification is as follows:

**Lower Division**

Freshmen are those who have earned a total of fewer than 30 semester units. Sophomores are those who have earned a total of 30 through 59 semester units.

**Upper Division**

Juniors are those who have earned from 60 through 89 semester units. Seniors are those who have earned 90 semester units or more. Second or Postbaccalaureate students are those possessing a recognized baccalaureate degree and enrolled in an undergraduate degree program. Unless otherwise noted, postbaccalaureate students follow the same policies and procedures as upper division undergraduates.

**Graduate Standing**

Graduate standing is the classification for those who possess a recognized baccalaureate degree and are enrolled in graduate studies or in school credential programs.

Undeclared Majors

The university accepts freshmen who are not ready to declare a major academic objective or who cannot get into their desired major objective into the undeclared category.

Students selecting the undeclared category for admission must declare a degree major objective prior to attaining junior standing. Students must obtain prior approval from the department in which they ultimately choose to major in accordance with university regulations.

Students who are in doubt about their degree program are encouraged to seek assistance from Academic Advising and Retention Services in the Student Services Center. AARS serves as the major department for Undeclared students and does require advising every semester. AARS also serves as the major department for Undeclared-PreNursing students.

Trained counselors are also available in Counseling & Psychological Services and in the Career Center. Students will be assisted on an individual basis with the appropriate use of vocational assessment when necessary.

Undeclared students should report to Academic Advising & Retention Services in the Student Services Center for General Education and other academic advisement aimed at eventually discovering an appropriate major degree program.
**Disqualification and Probation - Undergraduate & Postbaccalaureate**

**Disqualification - Academic**

Undergraduate students on academic probation are subject to academic disqualification if their subsequent Fall or Spring term GPA falls below 2.0. Freshmen on Academic Probation are allowed a second consecutive semester of probation if their SJSU cumulative GPA is in the range 1.50 to 1.99. An undergraduate student reinstated on probation must achieve a grade-point average of 2.0 or better each semester following reinstatement until such time as he/she has achieved a cumulative SJSU GPA of 2.00. A student who fails to do so will be disqualified again (even if this occurs prior to readmission).

Undergraduate students are eligible to repeat a limited number of courses with grades of “C-“, “D+”, “D”, “D-”, “F”, “NC”, “WU”, or “IC” through SJSU’s Open University. All work taken through Open University is included in the cumulative record and is considered in the determination of probation and disqualification. Graduate students should see the section on University Disqualification in the graduate portion of this catalog.

Disqualified students should also refer to the section on reinstatement.

Unless otherwise noted, postbaccalaureate (second baccalaureate) students follow the same policies and procedures as upper division undergraduates.

Academic disqualification policies were revised in University Policy S16-16 and are effective with the determination of Academic Standing at the end of the Fall or Spring semester.

**Disqualification - Administrative-Academic**

A student who has been placed on administrative-academic probation may be disqualified from further attendance if:

1. The conditions for removal of administrative-academic probation are not met within the period specified;
2. The student becomes subject to academic probation while on administrative-academic probation;
3. The student becomes subject to administrative-academic probation for the same or similar reason for which he or she has been placed on administrative-academic probation previously, although not currently in such status.

When such action is taken, the student will receive written notification, including an explanation of the basis for the action.

In addition, an appropriate campus administrator may disqualify a student who at any time during enrollment has demonstrated behavior so contrary to the standards of the profession for which the student is preparing as to render him/her unfit for the profession. In such cases, disqualification will occur immediately upon notice to the student, which shall include an explanation of the basis for the action, and the campus may require the student to discontinue enrollment as of the date of the notification.

**Administrative Academic Disqualification of Students**

Section 41300 in Title 5 of the California Code of Regulations permits administrative-academic probation or disqualification from academic programs in the CSU for unsatisfactory scholastic progress regardless of cumulative GPA. See University Policy S16-16 for details.

**Disqualification - Major**

Each college, school, program and/or department has the option of employing a guideline for disqualification from the major. Those which opt to disqualify from the major must have published criteria for determining probation in the major, disqualification from the major, and reinstatement into the major. Such criteria may include individual course grades below "C" (2.0) or "CR", a major GPA below 2.0, or a university GPA below 2.0. Students disqualified under this guideline must be notified by the department, school or college when placed on probation in the major or disqualified by the major. Students disqualified from their majors are listed as Undeclared, and may do academic work to be reinstated to the major (if permitted by guideline), or change to another major for which they are qualified. Appeals may be submitted to the Academic Disqualification and Reinstatement Review Committee via the Office of Graduate and Undergraduate Programs.

Impacted degree programs are those most likely to have policies for disqualification in the major, but even non-impacted programs may have such policies. The Office of Graduate and Undergraduate Programs will maintain current information about disqualification in the major.

**Disqualification - Graduate**

See Graduate Information and Requirements
Probation - Academic

An undergraduate student is placed on academic probation if the SJSU cumulative grade point average falls below a “C” average (2.0). Students will remain on academic probation until they return to good academic standing (SJSU cumulative GPA greater than or equal to 2.0) or are disqualified. All work taken through Open University is included in the cumulative record and is considered in the determination of probation and disqualification.

Unless otherwise noted, postbaccalaureate (second baccalaureate) students follow the same policies and procedures as upper division undergraduates.

Probation - Administrative-Academic

A student may be placed on administrative-academic probation by action of the Provost for any of the following reasons:

1. Withdrawal from all or a substantial portion of a program of studies in two successive terms or in any three terms. A student whose withdrawal is directly associated with a chronic or recurring disability or its treatment is not subject to administrative-academic probation for such withdrawal.

2. Repeated failure to progress toward the stated degree or other program objective, including that resulting from assignment of 15 units of “NC”, when such failure appears to be due to circumstances within the student’s control.

3. Failure to comply, after due notice, with an academic requirement or regulation which is routine for all students or a defined group of students (examples: failure to complete a required CSU or campus examination, failure to complete a required practicum, failure to satisfy GE Areas A2 and B4 by the beginning of the 3rd year, failure to comply with professional standards appropriate to the field of study, failure to complete a specified number of units as a condition for receiving student financial aid or making satisfactory progress in the academic program).

When such action is taken, the student will be notified in writing and provided with the conditions for removal from probation and the circumstances which would lead to disqualification, should probation not be removed.

Reinstatement - Undergraduate

Reinstatement of Undergraduate Students After Academic Disqualification

Reinstatement is a different process from readmission. Readmission of a disqualified student is not possible unless reinstatement has been approved, but students must note that reinstatement is not readmission nor does it guarantee readmission. There may even be some situations in which reinstatement is sought with no intention of reapplying to SJSU, such as for admission to another institution or program.

In most situations, students will need to apply for readmission prior to being reinstated. All returning students must submit an application for admission to SJSU. Reapply for the next available term at www.calstate.edu/apply by the published deadline. If you miss the deadline for your desired term, you will need to submit an application for the next available term. The major listed on your application must match the major on the Petition for Reinstatement. If the majors differ, the major listed on your application will be changed to reflect the major listed on the Petition for Reinstatement. For more information regarding Readmission, see Readmission - Former Students Returning (FSR).

Categories for Reinstatement

1. SJSU cumulative GPA 2.0 or better. This category is for disqualified students who have attended SJSU through Open University and brought their SJSU cumulative GPA up to 2.0 or better. Raising the GPA to 2.0 or better does not guarantee that a department will approve the petition. Many departments place restrictions on reinstatement to their major degree programs. Please consult with your major advisor(s) as early as possible.

2. Extenuating Circumstances. Reinstatements in this category will only be granted for serious and compelling reasons that were clearly beyond a student’s control. Generally, all acceptable extenuating circumstances fall into one of the following eight categories: administrative error, employment, military, natural disaster, death of immediate family member, personal health or serious family illness, divorce, or personal/other (rarely approved). The following are not valid reasons for reinstatement under this category: Poor academic performance, non-attendance, change of major, or lack of prerequisite(s).

In addition to the required documentation of extenuation, approvals will require demonstration that poor performance in a particular semester was atypical.

3. Special Consideration. This category is reserved for students whose petitions cannot be accommodated within the other categories. Typically, such students have spent substantial time away from SJSU since their disqualification (five years or more) and feel that their life experiences have prepared them for a successful return to school.
4. **Petitioned Grade Change.** This category is reserved for changes of grade approved under Section III (Grade Appeal) and Section IV (Change of Grade) of University Policy S09-7 [http://www.sjsu.edu/senate/docs/S09-7.pdf](http://www.sjsu.edu/senate/docs/S09-7.pdf). If you are petitioning under this category, you must clearly explain which course grade was changed, when it was changed, and the reason for the change.

**Reinstatement Petition Deadlines and Processing**
1. Petitions for Reinstatement are accepted and evaluated on an ongoing basis. Allow at least fifteen business days for processing after submitting the completed petition form to the Registrar’s Office. You may petition under more than one category, but if you do so, your personal statement and documentation must support each category you have selected. Your petition will not be processed if you are not using the current form. See [http://www.sjsu.edu/registrar/forms/index.html](http://www.sjsu.edu/registrar/forms/index.html) to be certain that you are using the most recent version of this petition.

**Extended Studies Scholastic Regulations**
Disqualified students may enroll in Extended Studies programs; however, the university, in considering applications for readmission and reinstatement, does not accept 400-series course credit as evidence of qualification for reinstatement.

Students desiring to apply extension credit toward the requirements for any degree or teachers’ credentials must secure approval from the department that is authorizing the reinstatement.

All students enrolling through Extended Studies must meet course prerequisites and are bound by all applicable university regulations given in this catalog, or in the most recent Winter Session or Open University schedule of classes. Information concerning tuition fees, admission and registration policies and procedures, withdrawal and refund policies, grading systems, academic standards and student advisement may be found in one or more of these publications. Regulations concerning the application of Extended Studies credit toward bachelor’s degrees and toward residence credit in the university are given elsewhere in this catalog under **Credit for Extended Studies**.

**Readmission - Former Students Returning (FSR)**
Readmission is the process of reapplying to the next available application cycle through CSU Apply and it is dependent on meeting all eligibility criteria. Those that are intending to return to SJSU whether in good academic standing or disqualified are encouraged to submit the Readmission Petition. This petition process is based upon University Policy F12-7 [http://www.sjsu.edu/senate/docs/F12-7.pdf](http://www.sjsu.edu/senate/docs/F12-7.pdf) which outlines enrollment priorities for Former Students Returning (FSR). Former Students Returning may complete and submit this petition by the deadlines stated on the petition found on the Office of Registrar’s website in order to receive priority consideration for admission prior to impaction processing for the term indicated by department administration.

**TO BE ELIGIBLE TO SUBMIT THIS PETITION YOU MUST:**
1. Have previously enrolled at SJSU as a fully admitted and matriculated student. (Students who have completed Open University units only are not eligible.) PLEASE NOTE: Students who left SJSU due to disqualification must complete the reinstatement process prior to submitting this petition.
2. Submit an application and application fee for admission by the deadline to apply via CSU Apply [http://www.calstate.edu/apply](http://www.calstate.edu/apply) for the term indicated on this petition. No exceptions.
3. Complete all the required steps for admission by the published deadlines for the term indicated. For example, transcripts must be submitted, intent to enroll must be completed, orientation must be attended, etc.

For the most up to date readmission information for former students returning, please visit [Admissions website](http://www.sjsu.edu/admissions).**Former Students Returning - Disqualified**
Students disqualified at the close of their last enrollment must petition for reinstatement. See the section titled **Disqualification and Probation** for detailed information. Students seeking reinstatement to the university are also advised to make early application for readmission and meet all application and admission deadlines posted at [http://www.calstate.edu/apply](http://www.calstate.edu/apply). Contact the Student Services Center for details, or read the Petition for Reinstatement information on [www.sjsu.edu/registrar/forms/index.htm](http://www.sjsu.edu/registrar/forms/index.htm).

**A. Students disqualified from San José State University who wish to be considered for readmission should:**
1. Read the section of this catalog titled Disqualification and Probation.
2. Complete a Petition for Reinstatement [http://www.sjsu.edu/registrar/forms/index.html](http://www.sjsu.edu/registrar/forms/index.html). Petition guidelines can be found on page 1 of the petition form.
Approval for reinstatement to the University after disqualification does not assure readmission to any particular semester or specific degree objective.

1. Register and attend Transfer Orientation.

B. Students who have been disqualified from the college or university of last attendance (other than SJSU) will not be considered for admission to a regular session until:

1. They have reapplied for admission, as upper division transfers, during the next available admission application cycle and meet all posted deadlines.
2. The official transcript of record indicates eligibility to re-enroll
3. Former Students Returning (FSR) should complete an “FSR petition” from SJSU in addition to applying for admission. Details may be found at https://vpsaweb7.sjsu.edu/FSRpetition.pdf

Former Students Returning - Probation

Students on probation at the close of their last enrollment may be readmitted on probation as upper divisions transfers, provided they are otherwise eligible. They must meet all application and admission deadlines. Students must furnish transcripts of any college work taken during their absence.

Former Students Returning (FSR) should complete an “FSR petition” from SJSU in addition to applying for admission. Details may be found at https://vpsaweb7.sjsu.edu/FSRpetition.pdf

Former Students Returning - Good Standing

Undergraduates in good standing at the close of their last enrollment may be readmitted as upper divisions transfer provided they are otherwise eligible. They must meet all application and admission deadlines. All students must furnish transcripts of any college work taken during their absence.

Former Students Returning (FSR) should complete an “FSR petition” from SJSU in addition to applying for admission. Details may be found at https://vpsaweb7.sjsu.edu/FSRpetition.pdf

Leaves of Absence and Withdrawal

One Semester Leaves

Students who have attended at least one semester as a matriculated student and who are in good or probationary standing may choose to leave SJSU (“stop out”) for one semester (Fall or Spring) without a formal leave. Students choosing this option must return the following semester and continue their enrollment as matriculated students. If a student does not return in the semester following the one semester leave, he or she will be required to apply for re-admission to resume study at SJSU.

The exception to this rule is that graduate students who have completed all degree requirements except their culminating experience and who either have an RP grade in a project or thesis course or will be taking comprehensive exams may not stop out but must maintain continuous enrollment (see University Policy S17-5). They can do so by taking a 1-unit special session course designed for this purpose. Students should consult their department website or this catalog under the appropriate academic program to determine the course to take. Also consult the section in this catalog entitled Thesis and Project Work - RP Status - Graduate. At this stage of the graduate student career, leaves of absence other than medical or military will rarely be permitted.

Students in cohort programs may also be restricted in the semester of their return following a stop out or formal leave of absence. The individual program director or graduate advisor of the cohort program should be consulted before and after an absence to determine the semester of eligibility to return.
Leaves of Absence

By University Policy S15-3, a formal leave of absence for undergraduate or graduate students in the first or subsequent semesters for medical, care-giving, military service, personal hardship, or educational reasons may be requested by submission of the fully signed and documented Leave of Absence Petition. Submission to the Registrar’s Office (Window R at the Student Services Center) must precede the leave period except in the rarely granted cases of retroactive leaves. Leaves can be 1-4 semesters in length (with some exceptions). If a stop-out semester is taken prior to the formal leave, that semester counts in the 4-semester maximum period. Following the leave period, re-enrollment is required to avoid application for re-admission. An early return from leave must be accompanied by written notice to the Registrar’s Office. Students granted a leave are guaranteed a return to their department even if it is or becomes a program restricting the number of applicants.

Graduate students are eligible for all leaves of absence except when finished with all degree requirements other than their culminating experience (thesis, project, and/or comprehensive exam plus any other components required of the major). At that point, neither stopping out (voluntary absence for a semester) nor financial leaves are permissible.

Review University Policy S15-3, for specific information regarding:
- Categories of Leaves of Absence
- The process
- Leave Durations and Extensions
- Retroactive Leaves of Absence
- Exceptions

First-Semester Leaves

These leaves, which are rarely awarded, are for students accepted into the university, but unable to attend because of an exceptional trauma prior to the start of instruction. Once the semester begins, this type of leave is no longer applicable.

Medical Leaves

Matriculated students unable to continue their enrollment by reason of health are eligible for health leave as long as a minimum of one semester has been attended as a matriculated student prior to the leave. The leave request must be supported by a personal statement and documentation that details the health concern or the Healthcare Provider Verification of Medical Condition form signed by a California-registered physical or mental healthcare professional.

Primary Caregiver Leaves

A student can take a leave when responsible for taking care of a loved one in ill health. The Healthcare Provider Verification of Medical Condition form must also be submitted to confirm the medical condition of the patient.

Personal Hardship Leaves

If a student’s scholastic performance is affected by financial hardship, changes in work schedule, or other similar circumstances, he or she may seek a leave. The personal statement must include a plan to being oneself to financial security or to resolve the other personal hardship to be able to successfully return to one’s studies.

Military Leaves

Students called to U.S. military active duty and provide a copy of the military orders, may request a military deployment leave at any time for as long as five years.
Planned Student Educational Leaves

An Educational Leave permits a student to be absent from regular attendance for one or more terms while maintaining continuing enrollment status. Applicants must have an intention to return to formal study within a specified period and a plan for how the time is to be spent. There must be a clear educational objective for award of the leave. At least one supporting letter from an advisor, mentor, or chair from SJSU as well as the consent of the associate dean of the college is also necessary.

The opportunity to apply for such leave is available to all non-international students except those attending their first semester and those in disqualified status.

Leave arrangements must be made in advance with the department in which the student is majoring. Undergraduate students in undeclared status will make leave arrangements with Academic Advising and Retention Services (AARS) in the Student Services Center. Graduate students will make leave arrangements with the graduate program coordinator in their department.

Leave forms and additional information may be downloaded at www.sjsu.edu/registrar/forms.

International Student Leaves

International students must be enrolled in a full course of study (12 units for undergraduate students; 9 units for graduate students) for two semesters annually (summer and winter breaks not included). International students are eligible for leaves of absence only when authorized by International Student and Scholar Services (ISSS). Lack of enrollment for any reason other than prevention of the ability to pursue one’s studies by severe medical circumstances shall result in the student having to leave the US. If the student is able to return from abroad at the expiration of the leave period, he or she shall derive the benefits of having had the formal leave, such as avoiding the re-admission process. However, other restrictions, such as in the ability to work within the US, may be imposed by federal immigration regulations. International students in need of a leave of absence must first speak with an international student advisor. Walk in advising is available at ISSS in Student Union CIES.

Withdrawal from the University

Students may withdraw officially from all courses during the first fourteen days of instruction without academic penalty (no “W” grade on academic record). Students who have compelling reasons to cancel their registration or who wish to withdraw from all classes after the last day to drop without a “W” grade should consult their instructors, department chair or school director, academic advisor, and, for undergraduates, Academic Advising and Retention Services in the Student Services Center. Counseling & Psychological Services might also be sought for assistance.

A completed Petition for Withdrawal form (www.sjsu.edu/aars/forms/) for undergraduates or a Graduate Petition for Course Drop/Semester Withdrawal (www.sjsu.edu/gape/forms/Withdrawal.pdf) for graduate students must be submitted. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses. Students who leave the university but who do not officially withdraw will receive a grade of “WU” (denotes failure for unauthorized drop or withdrawal) in all of their classes. No personnel actions, grades, or transcript services will be permitted until all financial obligations, such as unpaid fines have been settled. If a student fails to return the semester immediately following withdrawal, reapplication for admission at http://www.calstate.edu/apply will be required.

Students who receive financial aid must consult with the Financial Aid and Scholarship Office prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. If a recipient of student financial aid withdraws from the institution during an academic term or a payment period, the amount of grant or loan assistance received may be subject to return and/or repayment provisions.

Students holding visas must consult with ISSS (International Student and Scholar Services) regarding effects on their visa status before submitting a withdrawal petition.

Refer to the section on Continuous Attendance and Catalog Rights for information about the possible effect a break in attendance may have on requirements for graduation.
Grade Appeals and Grade Assignments

University Policy S14-3

Assignment of Grades and Provisions for Appeals

The following principles support the minimum standards governing the assignment of grades and provisions for appeals (per CSU Executive Order 1037):

A. Faculty have the sole right and responsibility to provide careful evaluation and timely assignment of appropriate grades.

B. There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise.

C. In the absence of compelling reasons, such as instructor or clerical error, prejudice or capriciousness, the grade assigned by the instructor of record is to be considered final.

D. Process for student appeal

1. Students who believe that an appropriate grade has not been assigned should first seek to resolve the matter informally with the instructor of record (per Change of Grade section).

2. If the matter cannot be resolved informally, the student may pursue a grade appeal and present his or her case to the Student Fairness Committee (according to University Policy S14-3, Student Fairness Dispute Resolution), have it reviewed and, where justified, receive a grade correction.

E. If the instructor of record does not assign a grade, or if he or she does not change an assigned grade when the necessity to do so has been established by appropriate campus procedures, it is the responsibility of other qualified faculty as determined by the appropriate campus entity. “Qualified faculty” means one or more persons with academic training comparable to the instructor of record who are presently on the faculty at that campus.

F. SJSU shall maintain and implement existing policy and procedures covering the assignment of grades and grade appeals that include the following provisions:

1. The time and manner of reporting course grades including provisions for assuring that such grades have been assigned by the instructor of record.

2. Circumstances under which the instructor of record may change a grade once assigned, and procedures for making such changes.

3. A means for preliminary review of potential appeals that may resolve differences before initiation of formal proceedings.

4. Grounds for which a grade appeal is permitted.

5. One or more committees for hearing grade appeals that shall provide safeguards to assure due process for both student and instructor. Such committees shall include student membership. Student members shall not participate in assignment of grades.

6. Procedures whereby grades are assigned by other qualified faculty in circumstances where the instructor of record does not do so, including those instances where a grade change is recommended by a grade appeals committee and the instructor of record does not carry out that recommendation.

7. Specification of time limits for completion of various steps in the appeal process and of the time period during which an appeal may be brought.

8. Description of the extent of the authority of appeal committee(s), including provisions that clearly limit grade changes to instances where there is a finding that the grade was improperly assigned.

9. Limitation of committee authority to actions that are consistent with other campus and system policy.

10. A statement that there is a presumption that grades assigned are correct. Thus, the burden of proof rests with the individual who is appealing.

11. Procedures for dealing with allegations of improper procedure.

12. Assignment of authority to revise policies and procedures for grade appeals to the campus Academic Senate. The campus president is responsible for ensuring that such revisions conform to the principles and provisions of this executive order.

13. Provision for annual reporting to the President and Academic Senate on the number and disposition of cases heard.

Change of Grade (Not Resulting from a Grade Appeal)

A. The basic principle underlying changes of grade is that all students be treated fairly and be given equal opportunities to demonstrate their academic learning and earn course grades representing that learning. Application of this criterion precludes the assignment of extra credit unless such assignments were made known and available to all students in the class. It further precludes rejudgment, afterthought, or reconsideration of an individual’s graded work unless such opportunity for change of grade is made equally available to all students in the class.

B. Unless a rejudgment, afterthought, or reconsideration is applied fairly and equally for all students in a class, a change of grade request may be submitted only when there is an error in grading an assignment or course component, or in the case of a clerical, computational, transcriptional, or other administrative error. The specific nature of the error shall be recorded on the form requesting the change of grade. Once approved, the original grade will be removed from the transcript and the new (changed) grade will replace it.
C. A change of grade request must be submitted by the department office directly to the Office of the Registrar in a timely fashion. Normally, such requests must be received by the drop deadline of the following Spring or Fall semester and will require the signatures of the instructor and the department chair. Further extension of this deadline will be considered only when there is documentation of the student’s attempt(s) to contact both the instructor and the department chair, and the late submission of the change of grade form is clearly beyond the student’s control.

D. A change of grade request received after the drop deadline of the following Spring or Fall semester and within one calendar year after the posting of the grade requires the signature of the appropriate college Associate Dean in addition to those of the instructor and the department chair.

E. A change of grade request received more than one year after the posting of the grade will require, additionally, the approval of the Associate Dean for Undergraduate Studies or Graduate Studies, as appropriate.

F. If a request for a change of grade is approved by the instructor but denied at a subsequent level of review, a written explanation for the denial shall be provided to the student, the faculty member, and the department chair.

Integrity of the Academic Record

A. All grades reported at the end of each semester are final, unless changes have been made according to the provisions given above, or those of University Policy F08-2. Students are responsible for reviewing their grades for accuracy before the beginning of the subsequent term. They are also responsible for verifying their transcripts for changes, e.g., from grade forgiveness, withdrawals, clearance of Incomplete grades, or clearance of Report Delayed (RD) grades.

B. A student who believes he or she has received a grade in error should contact the instructor to verify and, if appropriate, correct the grade. If an instructor is unavailable or absent during the subsequent semester, the student should promptly consult with the department chair about the grade in question. If the department chair is unable to contact the instructor, he or she shall notify the Associate Dean of the College in writing, requesting that an extension of the grade correction deadline be granted. The Associate Dean will then contact the Office of the Registrar if the request for an extension is deemed valid.

C. After a degree has been posted, no further adjustments can be made on the record except under extraordinary circumstances as determined by Undergraduate Studies or Graduate Studies.

Grade Disputes and Grievances

What is a Grievance?

A grievance is an allegation of an unauthorized or unjustified act or decision by a of the faculty or staff or an administrative officer (hereafter referred to as university employee(s), that in any way adversely affects the status, rights or privileges of a student.

What is a Grade Dispute?

There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise (EO 1037). We encourage you to contact the University Ombudsperson with questions or concerns related to a grievance or dispute. The Ombudsperson is a neutral, confidential, and impartial resource accessible to students, faculty, and staff.

For more information, please visit: [http://www.sjsu.edu/ombudsperson/](http://www.sjsu.edu/ombudsperson/)

Timely Feedback on Class Assignments

Students’ Rights to Timely Feedback on Class Assignments, University Policy F13-1

Every student has the right to know, within reasonable time, his academic test scores, to review his papers and examinations, and to be provided with an explanation of the determination of his course grade.

With changing pedagogical perspectives and increasing use of technology, instructors give a much wider range of assignment types - presentations, online discussion, group projects, etc. - and students should be granted the same expectation for feedback on all assignments within a reasonable period as with papers, tests, and examinations.

View the policy in its entirety here: [http://www.sjsu.edu/senate/docs/F13-1.pdf](http://www.sjsu.edu/senate/docs/F13-1.pdf)
Grading System for Undergraduate

SJSU does not mail grades. Grades from Spring 1991 to the present are available at MySJSU (http://my.sjsu.edu). SJSU ID and Password required.

Fall 2018 Grades

Grades for Fall 2018 term will initially be posted on Saturday, December 22, 2018.

Academic standing will be posted on Wednesday, January 9, 2019.

See Transcripts in the Directory for information on official transcript requests.

Grades - Letter Grading

The grading policy of SJSU provides that A, B, C, D, F, shall be the basic grading system and shall apply to all course work acceptable toward a degree program except for those courses in which it is mandatory or permissible that Credit/No Credit grades be used.

</table>

The scholarship average is based on courses in which letter grades are earned (the total number of grade points divided by the number of units in letter-graded courses). Grade points are assigned as follows.

The grades of "CR," "NC," "AU" (audit), "I," "W," "WB," and "RP" (report in progress) receive no grade points and the units are not considered in computing grade point average. A plus or minus sign following a grade of "A," "B," "C," or "D" will affect the grade points allowed as indicated in the table. A grade of "A+" cannot exceed 4.0 grade points per California Code of Regulations, Title 5, Division 5, Chapter 1, SubChapter 2, Article 2, 40104.

Undergraduate and postbaccalaureate students must maintain a an SJSU Cumulative GPA of 2.0 or better (calculated by dividing grade points (GP) by units graded (UG)).
Grades - Auditing a Class - “AU”
An auditor must be officially enrolled in the course. Enrollment as an auditor is subject to permission of the instructor provided there is space available in the course. **Auditors are subject to the same fee structure as credit students and regular class attendance is expected.** Once enrolled as an auditor, a student may not change to credit status unless such a change is requested no later than the last day to add classes in that term. A student who is enrolled for credit may not change to audit after the last day to add classes in that term.

Grades - Credit/No Credit (CR/NC) - Elective
An upper-division (Junior or Senior) student shall have the option of taking a maximum of 12 semester units as long as the units are not in the major or minor, or in support of, preparation for or prerequisite to the major or minor, or for General Education on the basis of Credit/No Credit for courses under the basic letter grade system. Eligible students may choose this option by turning in the CR/NC option form, available at www.sjsu.edu/registrar/forms, by the add deadline. Students may accumulate a maximum of 60 semester units of Credit/No Credit grades toward a baccalaureate degree.
In addition to turning in the CR/NC Option form, you must have officially added the class.
**CAUTION:** Credit = A, A-, B+, B, B-, C+, C; No Credit = C-, D+, D, D-, F, IC, WU.

Grades - Credit/No Credit (CR/NC) - Mandatory
“CR/NC” grades are mandatory for thesis and remedial course work. It is also normally used in projects, field work, internships, individual studies, or directed reading. As recommended by departments and approved by the college dean, credit/no credit grades may be used in activity and laboratory courses, workshops, and selected seminars (colloquia). Students may accumulate a maximum of 60 semester units of Credit/No Credit grades toward a baccalaureate degree (excluding any remedial course work). A maximum of 40 percent of the units required in a graduate degree can be credit/no credit (e.g., 12 units in a 30 unit program).
**CAUTION:** Credit = A, A-, B+, B, B-, C+, C; No Credit = C-, D+, D, D-, F, IC, WU.

Grades - Incomplete - “I / IC”
The symbol “I” (Incomplete Authorized) indicates that a portion of required course work has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons and that there is still a possibility of earning credit. The student cannot reenroll in the course. It is the responsibility of the student to bring pertinent information to the attention of the instructor (regarding the unforeseen reason(s) for requesting an Incomplete) and to determine from the instructor the remaining course requirements that must be satisfied to remove the Incomplete. A final grade is assigned when the work agreed upon has been completed and evaluated. Clearing an incomplete grade does not permit retaking previously completed portions of the course, nor does it permit assignment of additional graded work (e.g., extra credit) that was not available to other students in the class.
An “I” must normally be made up within one calendar year immediately following the end of the term during which it was assigned.
This limitation prevails whether or not the student maintains continuous enrollment. Failure to complete the assigned work will result in an “I” being converted to an “IC” symbol, or an “NC” for non-traditionally graded courses, unless the faculty member assigns a specific letter grade at the time the Incomplete is assigned, which would replace the “I” in the student’s record after the calendar year deadline.
Failure to complete the assigned work within the established calendar year period for an “I” grade will result in an automatic grade change to an “IC” grade which calculates as a failing grade for grade point average and progress point computation.

Grades - Report Delayed - “RD”
The “RD” symbol may be used where a delay in the reporting of a grade is due to circumstances beyond the control of the student. The symbol may be assigned by the registrar only and, if assigned, shall be replaced by a substantive grading symbol as soon as possible.
Grades - Report in Progress - “RP”

The “RP” symbol is used in connection with courses that typically extend beyond one academic term. It indicates that work is in progress but that assignment of a final grade must await completion of additional work. Work is to be completed within one year except for graduate degree projects and theses (supervised courses, e.g., 298 & 299 courses), which have a two-year time limit. Failure to complete the assigned work for an “RP” grade will result in an automatic grade change to an “NC” grade unless a request for an extension has been made and approved.

A final grade will be assigned to all segments of the course on the basis of overall quality. Any extension of this time period must receive prior authorization by the instructor and department chair or school director.

Grades - Withdrawal - “W”

The symbol “W” on the official transcript indicates that the student was permitted to withdraw from the course after the drop deadline for the term with the approval of the appropriate campus administrator. It carries no connotation of quality of student performance and is not used in calculating grade point average or progress points. However, there are limits on the number of allowable units of “W” on the unofficial transcript. Undergraduate students may withdraw from no more than 18 units. Postbaccalaureate students may withdraw from no more than 12 units. Graduate students may withdraw from no more than 9 units. Exceptions to these unit limits are granted when the cause of withdrawal is due to circumstances clearly beyond the student’s control and the assignment of an Incomplete is not practicable. Such exceptions are designated “WB” for internal processing of drops and withdrawals, and will revert to “W” on the transcript (University Policy S09-7).

Undergraduates may download the appropriate petition (course drop or withdrawal from all courses) at www.sjsu.edu/aars/forms. Graduate Students may download the Course Drop/Semester Withdrawal petition at www.sjsu.edu/gape/forms.

Grades - Withdrawal Unauthorized - “WU”

The symbol “WU” indicates that an enrolled student did not officially withdraw from the course and also failed to complete course requirements. It is used when, in the opinion of the instructor, completed assignments or course activities or both were insufficient to make normal evaluation of academic performance possible. For purposes of grade point average and progress point computation this symbol is equivalent to an “F.”

Unit of Credit

The unit of credit is the semester unit. Transferred work from a quarter system college or university will be converted to semester system units and grade points. Each semester unit is equal to one and one-half quarter units.

Change of Grade

The basic principle underlying changes of grade is that all students be treated fairly and be given equal opportunities to demonstrate their academic learning and earn course grades representing that learning. Application of this criterion precludes the assignment of extra credit unless such assignments were made known and available to all students in the class. It further precludes rejudgment, afterthought, or reconsideration of an individual’s graded work unless such opportunity for change of grade is made equally available to all students in the class.

Unless a rejudgment, afterthought, or reconsideration is applied fairly and equally for all students in a class, a change of grade request may be submitted only when there is an error in grading an assignment or course component, or in the case of a clerical, computational, transcriptional, or other administrative error. The specific nature of the error shall be recorded on the form requesting the change of grade. Once approved, the original grade will be removed from the transcript and the new (changed) grade will replace it.

A change of grade request must be submitted by the department office directly to the Office of the Registrar in a timely fashion. Normally, such requests must be received by the drop deadline of the following Spring or Fall semester and will require the signatures of the instructor and the department chair. Further extension of this deadline will be considered only when there is documentation of the student’s attempt(s) to contact both the instructor and the department chair, and the late submission of the change of grade form is clearly beyond the student’s control.

A change of grade request received after the drop deadline of the following Spring or Fall semester and within one calendar year after the posting of the grade requires the signature of the appropriate college Associate Dean in addition to those of the instructor and the department chair.
A change of grade request received more than one year after the posting of the grade will require, additionally, the approval of the Associate Dean for Undergraduate Studies or Graduate Studies, as appropriate.

Maximum Unit Loads

An undergraduate student who takes 12 or more units is classified as full-time for the purposes of financial aid. An average unit load of at least 30 units per academic year (15 units per semester without summer or winter coursework) is required to complete an undergraduate degree in four years. Advising is essential to be able to complete a degree in a timely and efficient manner. Students with work or family responsibilities outside of school should consult with an advisor and reduce their study loads appropriately.

The maximum load for graduate students is normally 15 semester units. Reasonable exceptions beyond this number up to 18 units may be approved, by the graduate advisor and department chair, for sufficient cause, and department chair, but permission must also be garnered from the Associate Dean of Graduate Studies by means of the Graduate Petition for Excess Units. Loads beyond 18 units for graduate students, are prohibited by the CSU. The Graduate Studies & Research Committee strongly recommends that graduate students carry no more than 12 units of 200-level work in any one semester. There is no official minimum load for graduate students other than for those who wish to receive financial assistance or other benefits.

Immigration and Customs Enforcement (ICE) regulations on international students require that undergraduates maintain full-time status of 12 semester units and graduate students 9 semester units, excluding summer in both cases. To appeal this regulation, go to International Student and Scholar Services (ISSS).

Excess Units

Enrollment limits for undergraduate students will be set on a semester by semester basis. Petitions and information are available at www.sjsu.edu/registrar/forms.

Verification of Unit Load

In verifying enrollments to the Veterans’ Administration, scholarship boards and loan agencies, the university reports the total number of units enrolled as the official unit load for an undergraduate.

The definition of “full-time student” made by the United States Citizenship and Immigration Service (USCIS), Veteran’s Administration and other agencies may vary. Students who are concerned with their status are urged to contact the specific agency involved to determine its policies. Full veterans’ subsistence payments require a course load of 12 weighted semester units for both graduate and undergraduate students. Graduate students from foreign countries who are in the U.S. on student visas must normally carry nine semester units to maintain full-time student status, while undergraduate international students must carry 12 semester units to maintain the required full-time status.

Students may request verification of unit load from the Registrar’s office located in the Student Services Center.

Course Numbering System

Course Numbers

Lower division (freshman and sophomore) courses are numbered 001-099 and cannot be used for credit in graduate or credential programs; upper division (junior and senior) courses are numbered 100-199; graduate courses are numbered 200-299.

Methods or professional courses given by or for other departments are allowed upper division credit are numbered 300-399 and doctoral courses are numbered 500-599. Courses in the NURS 574-597 series is a part of the joint Doctor of Nursing Practice (DNP) with CSU Fresno.

180, 184, 096, 196 and 296 Courses

Individual Studies (180) and Directed Reading (184) are used for independent study and are generally reserved for majors within a department. Normally, no more than four units of 180 and/or 184 may be taken for baccalaureate credit (see Unit Requirements). Courses numbered 96, 196 and 296 are offered to meet special demands for experimental courses on a temporary basis and are listed in the SJSU Schedule of Classes, but not in this catalog.
400-499 Continuing Education Units
Courses in the 400-series are especially designed for professional in-service and relicensure purposes. Continuing Education Units (CEU) are given for these courses. Courses are not applicable to degree programs and units earned do not affect grade point totals or average.

1000 No Degree Credit
Courses in the 1000-series do not earn credit toward any degree program. Examples: remedial courses and units devoted to thesis, project, or dissertation beyond minimum required units. (Effective May 30, 2016)

Transcript of Record

Transcript Requests
Current and former San Jose State students have several ways to order official and unofficial transcripts
1. Official transcripts through the E-transcript portal (preferred)
2. Official paper transcripts through MySJSU
3. Official paper transcripts by mail request
4. Unofficial transcripts through MySJSU
For more information on Transcripts visit http://www.sjsu.edu/registrar/students/transcripts/index.html

Holds
If there is any financial hold or administrative obligation on your student records, it must be cleared with the department that placed the hold before transcripts can be processed. Holds may be placed on your student records by other campus departments for various reasons (e.g. fees, books, housing, equipment or documents).

General Transcript Regulations:
1. Transcripts are a complete record of all courses and/or degrees completed at San José State University. Transcripts do not include course work completed at other institutions. Only the transferable units are reflected on transcripts under “Transfer Credit”. Transcripts from high schools or other colleges cannot be duplicated. You must apply directly to each school for copies of their transcripts.
2. For students who have undergraduate and post-baccalaureate or graduate course work, please be aware that it is not possible to separate undergraduate course work from the post-baccalaureate or graduate course work. All careers will appear on the transcript as it is considered one official record.
3. Transcript requests will not be accepted by fax or e-mail.
4. We do not accept requests for unofficial transcripts. Unofficial transcripts can be obtained through your Student Center page on the mySJSU portal (current and newly graduated students only). If you need assistance with your mySJSU account, please contact the IT Help Desk via e-mail: ithelpdesk@sjsu.edu

Repetition of Courses
Undergraduate and postbaccalaureate students (regular enrollment and Open University) may repeat courses only if they earned grades lower than a “C” (including “WU”, “IC”, and “NC”).

Graduate students may repeat courses only if they earned grades lower than a “B” (including “WU”, “IC”, and “NC”).

Repeating a course with an Incomplete (“I”) grade is not allowed; a grade must be assigned or the “I” must revert to an “IC” prior to repeating the course.

Repeating a course with an “RP” is allowed, although the course instructor and individual departments should be consulted for their requirements in this regard.

The limits on course repetition apply only to units completed at SJSU.
1. Any student who is repeating a course (except if the grade for that course was “W”) is not permitted to register during Advance Registration and must register on a space available basis no earlier than the first day of classes.
2. Courses designated “Repeatable for Credit” may be repeated even though the original grade was “C” or better.
3. The policies regarding repetition of courses with Grade Forgiveness or Grade Averaging (as described below) apply only to courses taken and repeated at SJSU.
Grade Forgiveness

Grade Forgiveness (Formerly known as “Academic Renewal”)

Course Repeats with “Grade Forgiveness.”

Formerly known as “Academic Renewal” at SJSU, Grade Forgiveness is the circumstance in which the new grade replaces the former grade with respect to the calculation of GPA. The original grade remains on the transcript.

1. Undergraduate and postbaccalaureate students may repeat a maximum of 16 units of total Grade Forgiveness, consisting of a combination of up to 9 units (maximum) of lower division (numbered 0-99) course work, and up to 9 units (maximum) of upper division (numbered 100-199) course work.

2. Graduate (numbered 200-299) course work is not eligible for Grade Forgiveness. Graduate students are not eligible for Grade Forgiveness, but may repeat up to 9 units of upper division or graduate course work through Grade Averaging.

3. Grade Forgiveness will be assigned automatically for all eligible courses as soon as a student registers. Eligible courses include those courses with earned grades lower than a “C” (including “WU”, “IC”; but excluding “NC”). Once the pool of available units is insufficient for the next repeated course, unused units may be applied to a future course of lower unit value or simply left unused in the pool. If a repeated course is dropped prior to the Drop Deadline or a “W” is recorded for a repeated course, then the Grade Forgiveness units return to the pool of available lower division or upper division units, as appropriate.

4. To opt out of grade forgiveness: A student may petition to have a repeated course NOT be granted Grade Forgiveness. Such petitions must be submitted prior to the Census Date for the term in which the course is repeated. See www.sjsu.edu/ugs for instructions and forms.

5. Students may repeat an individual course for Grade Forgiveness only once.

6. Grade Forgiveness shall not be applicable to courses for which the original grade was the result of a finding of academic dishonesty.

Grade Forgiveness that results in a higher GPA will not remove a prior academic standing.

The policy regarding repetition of courses with Grade Forgiveness apply only to courses taken and repeated at SJSU (University Policy F08-2)

Course Repeats with Grades Averaged

1. Undergraduate and postbaccalaureate students may repeat a maximum of 28 units for graduation credit (including units repeated for Grade Forgiveness; excluding grades of “W”). After the pool of Grade Forgiveness units have been depleted or used to the fullest extent allowable, the repeat grade shall not replace the original grade. Instead grade points and units from all attempts shall be calculated in the student’s SJSU cumulative GPA and overall GPA.

2. Graduate students may repeat a maximum of 9 units of upper division or graduate course work for graduation credit.

3. Course repeats with Grades Averaged will be assigned automatically for all eligible courses as soon as a student registers. Once the pool of available units is insufficient for the next repeated course, unused units may be applied to a future course of lower unit value or simply left unused in the pool. If a repeated course is dropped prior to the Drop Deadline or a “W” is recorded for a repeated course, then the Grade Averaged units return to the pool of available units,

Students who (1) have repeated the maximum allowable units, (2) are otherwise making appropriate progress to degree, and (3) still need to repeat courses to fulfill specific major or minor requirements necessary for graduation may petition for an exception to the 28-unit limit. Graduate & Undergraduate Programs and the Registrar’s Office will administer the petition process. Any course(s) approved for repeating by this petition process will be Grade Averaged.

Duplicate Credit - Inadmissible Repeats

Unless a course is designated “Repeatable for Credit” in the catalog, repeating a course in which a “C or better” was earned on the first attempt is not admissible. This restriction applies whether the first attempt was at another institution and the second attempt at SJSU, or the reverse. Articulation agreements determine if the course at another institution is considered equivalent to an SJSU course. See the course-to-course articulation information at http://artic.sjsu.edu/web-dbgen/artic/all-course-to-course.html.

If the “inadmissible repeat” (second attempt) is taken at SJSU before the transfer record from the first non-SJSU attempt is posted, the units and grade points will appear on the transcript and the grade will initially be calculated into the SJSU and All College grade point averages. Students should be aware that units completed and grade points cannot be earned for “inadmissible repeats” and will be removed at any time prior to graduation. The grade earned will be indicated on the student’s record. Students should keep track of these units and not count them twice for graduation purposes.

This same restriction about duplicate credit applies to credit earned by AP, CLEP and IB exams. AP, CLEP and IB exams articulate to specific SJSU courses. See credit by exam articulation information at http://artic.sjsu.edu/static/policies/cbe.html. When an exam and a course duplicate credit, the exam credit shall be removed or reduced according to the amount of overlap (EO-1036).
Residency

University requirements for establishing residency are independent from those of other types of residency, such as for tax purposes, or other state or institutional residency. These regulations were promulgated not to determine whether a student is a resident or nonresident of California, but rather to determine whether a student should pay tuition on an in-state or out-of-state basis. A resident for tuition purposes is someone who meets the requirements set forth in the Uniform Student Residence Requirements. These laws governing residence for tuition purposes at the California State University (CSU) are California Education Code sections 68000-68085, 68120-68134, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41916. This material can be viewed on the Internet by accessing the CSU's website at www.calstate.edu/GC/resources.shtml.

Each campus's Registrar's Office is responsible for determining the residence status of all new and returning students based on the Application for Admission, Residency Questionnaire, Reclassification Request Form, and, as necessary, other evidence furnished by the student. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

Generally, establishing California residence for tuition purposes requires a combination of physical presence and intent to remain indefinitely. An adult who, at least 366 days prior to the residence determination date for the term in which enrollment is contemplated, can demonstrate both physical presence in the state combined with evidence of intent to remain in California indefinitely may establish California residence for tuition purposes. A minor normally derives residence from the parent(s) with whom they reside or with whom they most recently resided.

Evidence demonstrating intent may vary from case to case but will include, and is not limited to, the absence of residential ties to any other state, California voter registration and voting in California elections, maintaining California vehicle registration and driver's license (or California identification card), maintaining active California bank accounts, filing California income tax returns and listing a California address on federal tax returns, owning residential property or leasing an apartment where permanent belongings are kept, maintaining active memberships in California professional or social organizations, and maintaining a permanent military address and home of record in California.

Nonresident students seeking reclassification are required to complete a supplemental questionnaire that includes questions concerning their financial independence. Financial independence is required, along with physical presence and intent, to be eligible for reclassification. Financial independence is established if in the calendar year the reclassification application is made and in any of the three calendar years preceding the reclassification application the student:

- has not and will not be claimed as an exemption for state and federal tax purposes by his/her parent;
- has not and will not receive more than seven hundred and fifty dollars ($750) per year in financial assistance from his/her parent; and
- has not lived and will not live longer than six (6) weeks in the home of his/her parent.

A nonresident student who has been appointed as a graduate student teaching assistant, a graduate student research assistant, or a graduate student teaching associate on any CSU campus and is employed on a 0.49 or more time basis is exempt from the financial independence requirement.

Non-citizens establish residence in the same manner as citizens, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States.

Exceptions to the general residence requirements are contained in California Education Code sections 68070-68085 and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41906-41906.6, and include, but are not limited to, members of the military and their dependents, certain credentialed employees of school districts and most students who have attended three or more years of high school in California and graduated from a California high school or attained the equivalent of graduation. Whether an exception applies to a particular student cannot be determined before the submission of an application for admission and, as necessary, additional supporting documentation. Because neither campus nor Chancellor's Office staff may give advice on the application of these laws, applicants are strongly urged to review the material for themselves and consult with a legal advisor.
Residency - Appeals

Students classified as non-residents may appeal a final campus decision within 120 days of notification by the campus. For more information please visit the Residency website from the Office of the Registrar.

Residency Determination Dates

At San José State University, the residence determination dates are:

- Fall - September 20
- Spring - January 25
- Summer - June 1

The Office of General Counsel can either decide the appeal or send the matter back to the campus for further review.

Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations.

Resident students who become nonresidents, or who no longer meet the criteria for an exception, must immediately notify the Registrar’s Office.

Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residence for tuition purposes in California between the time this information is published and the relevant residence determination date. Students are urged to review the statutes and regulations stated above.

Open University - Courses

San José State University’s Open University program permits enrollment by non-matriculated students in specified regular curriculum classes on a space-available basis. Formal admission to the university is not required. Registration is not possible prior to the first class meeting. A maximum of 24 semester units may be applied toward bachelor degree and not more than nine units for a 30-unit master degree (30% of the degree program total) . Units earned in Open University may not be used to meet residence unit requirements for a degree. For undergraduate students, exceptions to these restrictions may be granted by petition (http://www.sjsu.edu/gup/allForms/index.html#studentPetitions).

Regular (matriculated) students in good standing may not enroll as Open University students. Matriculated students are those who have been admitted to San José State University as a regular student for the current semester or were registered as a matriculated student in the previous semester and who have not graduated.

Disqualified students who seek reinstatement following disqualification must see their advisor to develop a plan to meet the required GPA standard for readmission to the university. In addition to reinstatement, disqualified students must reapply and be readmitted in order to become regular (matriculated) students once again.

All prerequisites, including WST are enforced when enrolling through Open University.

International Students

International students must be regular full-time matriculated students admitted to a degree program. Enrollment in Open University does not qualify international students for the immigration document necessary to enter the United States, to transfer to SJSU from another U.S. university, or to maintain their legal F-1 status. Academically disqualified international students are eligible to enroll through Open University but must transfer to another I-20 issuing institution to maintain their F-1 student status, or apply for reinstatement to F-1 student status from the U.S. Citizenship and Immigration Services after being re-admitted to SJSU.

Summer Session

Summer Session allows both matriculated and non-matriculated (i.e. Open University) students to enroll in summer classes at San José State University.

Winter Session

Both matriculated and non-matriculated students may enroll in this session. Credit earned may be applied to residence unit requirements for previously matriculated students, and is not subject to the 24-unit limitation in applying toward bachelor’s degree requirements at San José State University.
Honors

The university recognizes outstanding academic achievement of its students through a variety of different honors.

Honors - Departmental

Students who have completed an approved departmental honors program receive “honors at graduation” as distinct from “university honors at graduation.” The following departments offer departmental honors programs (for details see under each department in the university course catalog):

- Aviation
- Biological Sciences
- Business
- Chemistry
- Child Development
- Computer Science
- Economics
- English
- Environmental Studies
- Geography
- Geology/Earth Science
- History
- Journalism and Mass Communications
- Kinesiology
- Mathematics
- Music
- Political Science
- Psychology
- Sociology
- Theatre Arts

Honors - President and Dean Scholars

Each spring the Honors Convocation recognizes and encourages superior undergraduate academic achievement of President’s and Deans’ Scholars. There are two levels of Honors Scholars:

- President’s Scholars: Any undergraduate student who has earned a 4.0 grade point average at San Jose State University during Fall or Spring terms.
- Deans’ Scholars: Any undergraduate student who has earned a 3.65 or higher grade point average at San Jose State University during Fall or Spring terms.

The minimal load allowed for the award of academic honors is the student’s full program of graded courses or 12 units, CR (Credit) grades are not counted toward the calculation of the grade point average nor toward the 12 unit minimum. Only SJSU courses for which grades are posted, including the clearance of incompletes made during that time period, shall be used.

Recognition of these Honors Scholars through the Honors Convocation was inaugurated at the university in 1962 by the three honor societies - Phi Kappa Phi, Sigma Xi and the Phi Beta Kappa Faculty Club. It is currently under the sponsorship of the University Honors and Honors Programs Committee.

Note. Certain grades are not counted for honors: credit by examination, “overseas” grades, extension courses, “credit” grades and incompletes. Designation as a President’s or Dean’s Scholar does not apply to second baccalaureate, credential or graduate students.

Honors - Outstanding Graduating Senior Awards

Announced each year at Commencement by the University President, the Outstanding Graduating Senior Awards recognize exceptional scholarship and service to the university and community based on the following criteria:
• An overall cumulative GPA of at least 3.75;
• Significant demonstrated SJSU leadership area(s) of university life and/or;
• Significant contributions to the welfare of the university and/or the community, and/or;
• Evidence of a high level of intellectual, artistic, or academic accomplishment, and/or personal contribution as an undergraduate student;
• At least one professional nomination letter submitted by a SJSU faculty or staff member.

To be considered for this honor, visit the Student Affairs website at www.sjsu.edu/studentaffairs and follow the link for Outstanding Graduating Senior Awards or contact the Office of the Vice President for Student Affairs at 408-924-5900.

Honors - University Honors at Graduation

Criteria used to determine honors at graduation are those in effect as of the date of graduation. Honors at graduation are only bestowed upon undergraduates.

Summa Cum Laude is awarded to those undergraduate students achieving a cumulative grade point average in all university and college work and a cumulative grade point average in all work undertaken at SJSU of not less than 3.85.

Magna Cum Laude is awarded to those undergraduate students achieving a cumulative grade point average in all university and college work and a cumulative grade point average in all work undertaken at SJSU of not less than 3.70.

Cum Laude is awarded to those undergraduate students achieving a cumulative grade point average in all university and college work and a cumulative grade point average in all work undertaken at SJSU of not less than 3.50.

Graduation Requirements - Undergraduate

Candidates for graduation with a baccalaureate degree must satisfy the regulations described in this section, and those outlined by the major department. The Bachelor of Arts and the Bachelor of Science degrees are offered with majors in the several fields listed under Curricula Offered. In addition to the BA and the BS, the Bachelor of Music (BM), the Bachelor of Fine Arts (BFA) degrees are also offered. Specific requirements for degrees in each field are outlined in the departmental sections of this catalog. All candidates for graduation must satisfy the general regulations described on the following pages in this section, as well as those outlined by the major department.

Graduation Requirement - Academic

An “All College” average of “C or Better” (2.0), a “C or Better” average earned in all units taken at SJSU (as indicated on the transcript by “SJSU Cum”), a “C or Better” average in both the requirements for the major and the minor (if applicable), a “C- or better” in each of the four GE basic skills courses (Areas A1, A2, A3, and B4), an aggregate “C or Better” average in the nine units of upper division GE (Areas R, S, and V), and a “C or Better” in Area Z (100W), are required for graduation with a baccalaureate degree. Upon the completion of their programs, credential candidates must have a GPA of 3.0 or higher to be recommended for a credential.

A minimum of 120 semester units of credit must be earned for graduation with the baccalaureate degree. Normally, no more than four units of Individual Studies (180) and/or Directed Reading (184) may count for the baccalaureate degree. Exceptions must have approval from the major department.

All requirements listed here may be met either by passing external examinations (AP, CLEP, or IB), waiver examinations, where available, or by individual course challenge exams, or by course work. Students should note that success in a waiver examination satisfies a requirement but does not yield unit credit. For information about the examinations, contact the SJSU Testing Office.

Please check the SJSU catalog for any additional academic requirements that are specific to a major.

Graduation Requirement - American Institutions (AI)

U.S. History, U.S. Constitution, California State and Local Government. State law requires all students graduating from a CSU campus to demonstrate knowledge of these three areas, also referred to as the American Institutions and Ideals, the Title 5, or the “state code” requirement. Students may complete waiver exams or course work to satisfy the requirements. Consult the General Education Requirements and Courses section for approved courses or the Testing Office for information about the waiver examinations. Students should consult an advisor to determine which of the various course combinations are best for their degree objectives.
Graduation Requirement - Graduation Writing Assessment Requirement (GWAR)

The CSU Graduation Writing Assessment Requirement (GWAR) states that all students must demonstrate competency in writing skills as a requirement for graduation.

All undergraduate students must satisfy the GWAR by either passing a 100W course with a “C or better” (C- not accepted) or by earning a waiver score on the WST. Some departments require the 100W as part of the major degree program regardless of the WST score. A student may also satisfy the GWAR while matriculated at another CSU campus.

All undergraduate SJSU students take the Writing Skills Test (WST). A satisfactory score on the WST (or completion of 100A with a grade of “C or better” (C- not accepted) after failing the WST) is required to enroll in the 100W course designated by the major. The 100W Writing Workshop must be passed with a “C or better” (C- not accepted) when satisfying the CSU Graduation Writing Assessment Requirement. Information on currently available ways to meet this graduation requirement may be obtained from the Testing Office or Academic Advising and Retention Services (AARS).

Graduate students should refer to the section on Graduate Degree - Graduation Writing Assessment Requirement (GWAR)

Graduation Requirement - Physical Education (PE)

It is important that all students admitted to SJSU, regardless of major, have an opportunity to expand their knowledge and skills in physical activities. To accommodate the needs and interests of SJSU students, the Department of Kinesiology offers a diverse selection of activity courses which have the following goals:

• To provide a fundamental understanding of the influence physical activity has on physical and mental well-being;
• To promote development of a repertoire of skills for constructive leisure activity and a physically active lifestyle important to maintaining health;
• To provide an understanding of the guidelines for developing and maintaining physical fitness throughout the lifespan;
• To provide exposure to a variety of lifetime fitness activities and sports; and
• To enhance the student’s liberal arts education and develop a well-rounded individual.

All undergraduate students who matriculate at SJSU, except those majors that are exempt as listed under Major Exemptions [http://info.sjsu.edu/static/policies/majormod.html], are required to complete two units of physical education from Kinesiology/Dance activity courses (University Policy S14-11).

Two distinct activity courses or a single activity course of two or more units may be used to satisfy the PE requirement.

Two units of Intercollegiate Athletics may be used to satisfy the PE requirement.

Veterans who have completed at least one year of active duty in the armed services (Army, Navy, Air Force, Marines or Coast Guard) have satisfied the physical education requirement [http://info.sjsu.edu/static/policies/military-credit.html]

Kinesiology activity courses at SJSU are not repeatable for credit.

To challenge a course that meets the requirement, students must consult the Department of Kinesiology at least one semester prior to graduation.

Graduation Requirement - Residency

For all bachelor’s degrees, including second baccalaureates, a minimum of 30 units shall be earned in residence after matriculation at the campus granting the degree. Twenty-four of these units shall be earned in upper division courses, 12 of the units shall be in the major and 9 units shall be in General Education. Extension credit or credit by evaluation shall not be used to fulfill any of the 30 units. Winter Session for previously matriculated students earns residence credit; Open University units are not applicable toward the residence requirement.

Graduation Requirement - Upper Division

At least 40 of the total units required for graduation with the bachelor’s degree must be upper division. For the BA, a minimum of 12 units of upper division credit in the major is required and for the BS, a minimum of 18 units of upper division credit in the major is required. Upper division credit will be allowed by the university and applied toward the baccalaureate degree only for SJSU courses numbered 100 or above and for courses from other universities clearly designated as junior or senior level courses.
Graduation Requirement - Catalog Rights

Undergraduate students remaining in attendance in regular sessions at any California State University campus, at any California community college, or any combination of California community colleges and campuses of The California State University may, for purposes of meeting graduation requirements, elect to meet the requirements in effect at the campus from which they will graduate either:

- at the time the student began such attendance, or
- at the time of entrance to the campus, or
- at the time of graduation.

Continuous attendance is defined as enrollment in at least one semester or two quarters in each calendar year. Absence related to an approved educational leave or for attendance at another accredited institution of higher learning is not considered an interruption, providing the absence does not exceed two years. Campus authorities may authorize or require substitutions for discontinued courses and may also require students changing their major or any minor field of study to complete the major or minor requirements in effect at the time of the change. Students who do not maintain continuous enrollment will be held to any new requirements approved by the university at the time of their readmission.

Graduation Requirement - Time Limits

Time Limit

Courses taken to meet degree requirements at San José State University are subject to a time limitation of 10 years. Students are required to meet those requirements in the major in effect no earlier than 10 years prior to receiving the degree. Students with an unusual problem may petition the major department chair for a waiver of the 10-year requirement.

Graduate students should refer to the section on Graduate Degree - Time Limits.

Facilitating Graduation

Effective Spring 2010, any undergraduate or graduate student will be precluded from enrolling in any additional state-supported courses when that student has already met all necessary requirements for the degree for which that student is matriculated. Moreover, students who have met all requirements for graduation prior to any semester in which they are enrolled will be permitted to drop all courses for which they are registered, with little or no penalty, and to graduate at the next available date. Students who have earned more than enough units to graduate but have some remaining requirements to complete, will be advised and precluded from registering in any courses other than those required for a timely graduation.

Units from 4-Year Colleges/Universities

At least 50 of the total units required for graduation with a bachelor’s degree must be earned from 4-Year Colleges/Universities. This is commonly referred to as a maximum of 70 units of Community College academic work that may count toward the minimum 120 units needed for all baccalaureate degrees.

Graduation Application

Candidates for the baccalaureate degree must file an application for graduation at least two semesters prior to the expected graduation date in order to allow time to make up any deficiencies or correct any discrepancies that may delay graduation. At least 85 semester units must be completed before an application for graduation may be submitted. In addition to fulfilling curricular graduation requirements, a student, to be eligible for a bachelor's degree, must have a grade point average of at least 2.0 (C) in each one of the following categories: all college work (the overall average), all units attempted at SJSU, all units in the major, all units in the minor (if any), and all nine units of upper division GE (Areas R, S, and V).

Graduation applications for undergraduates are available in the Academic Forms section of www.sjsu.edu/registrar/forms. Students return their completed graduation application forms to Registrar’s Office in the Student Services Center. Major and minor forms are obtained from the departments and forwarded by departments to Registrar’s Office.

Master’s or Ed.D. degree candidates, are available to eligible students through their MySJSU account. Eligible students will be messaged once they are eligible to apply online. A tutorial and video instructions for completing the application are available at www.sjsu.edu/gape/forms/ under Graduation.

Those planning to attend a college or university other than SJSU during the final semester must notify the Office of the Registrar. Courses must be completed by the date of graduation and transcripts received within one month after graduation.
If a candidate is unable to complete the course work as expected, or if the date of graduation is to be delayed for any reason, a Change of Graduation Date form must be submitted, accompanied with the fee, prior to the new expected graduation date.

**College of Business Graduation Applicants**

The College of Business requires that students apply to the Jack Holland Student Success Center. Graduation deadlines and procedures differ from those established by the university. For further information, check with the Jack Holland Student Success Center, BBC 008, 408-924-3435.

---

**Bachelor's Degree Candidates**

- You should apply for graduation at least two semesters in advance, after completing at least 85 semester units.
- See major department for specific graduation course and unit requirements.
- File your application no later than the Processing Deadline dates shown below. Submitting your application by the priority processing deadline allows us to review your graduation requirements before Advance Registration ends for your last term of attendance.
- Graduation applications are available at: [www.sjsu.edu/registrar/forms/index.html](http://www.sjsu.edu/registrar/forms/index.html).
- Major/Minor Forms are available from your department office.
- Submit a completed graduation application, Major form (and Minor form as applicable), in a sealed department envelope to the Registrar’s Office, located in the Student Services Center. Incomplete applications will be returned and may cause a delay in graduation.
- Only original signed documents are acceptable.
- All courses and requirements must be completed by the date of graduation and transcripts received within one month after graduation. Any Incomplete (I) or Record Delayed (RD) grade must be cleared before your degree can be awarded. Once your degree has been posted, no grade changes will be made to your record.
- If you are unable to complete the course work, or if the date of graduation is delayed, a “Graduation Date Change Form” must be submitted to the Registrar’s Office. A $10.00 administrative fee must be paid at the Bursar’s Office.

Don’t delay! Apply by the priority processing deadline dates. See [www.sjsu.edu/registrar/students/graduation/](http://www.sjsu.edu/registrar/students/graduation/). Applications will continue to be accepted up to the last day to add classes for the term of graduation; however, delays may occur in the initial and final evaluation of your application and names may not appear in the commencement book. If we receive your application after the final deadline date for the term you are applying, your application will automatically be set up for the next available graduation date.

---

**Degrees - Conferring**

Degrees are conferred three times a year - in August, December and May - at the close of summer, fall and spring terms. The date of the diploma reflects the term during which the degree requirements were completed. There is one graduation or commencement ceremony each academic year, held at the close of the spring semester. Students who have completed all requirements in the previous summer and fall semester, or expect to complete their degree requirements in the spring semester, are eligible to participate.

---

**Double Major**

If a student has completed the requirements for two or more majors leading to the same baccalaureate degree (e.g., two B.A. degrees or two B.S. degrees) for the same graduation application period, those majors shall be acknowledged on a single diploma and on the student’s transcripts. Each major, not including courses in preparation for the major, must consist of at least 36 units for Bachelor of Science degree majors, or at least 24 units for Bachelor of Arts degree majors, units that are completely separate and distinct from the other degree. The University has the right to restrict students from pursuing double majors, particularly when resources must be equitably distributed among all students.
Double Concentration

If a student has completed the requirements for two or more concentrations within the same baccalaureate degree (e.g., two concentrations for the same B.S. degree) for the same graduation application period, those concentrations shall be acknowledged on a single diploma and on the student’s transcripts. Each concentration, not including courses in preparation for or in support of the major, generally must consist of at least 12 units that are completely separate and distinct from the other concentration. Individual degree programs may set higher limits for the number of units that are completely separate and distinct from concentration to the other. Exceptions to allow two concentrations with fewer than 12 units unique to each concentration will require the approval of both the appropriate College Associate Dean and the Associate Dean for Undergraduate Studies. The University has the right to restrict students from pursuing double concentrations, particularly when resources must be equally distributed among all students.

Minors

An undergraduate student may elect to complete a minor. Also, some departments require or recommend a minor as part of the undergraduate degree. The minimum criterion for any minor is 12 units of course work completely distinct and separate from the course work in one’s major. At least 6 units must be upper division and at least 6 units must be taken at SJSU. The student must achieve a minimum aggregate GPA of 2.0 for all coursework required for the minor (University Policy S16-4). Courses designated as “preparation for the major” may be included in the minor and are considered distinct from the major. If a minor is completed after a degree has been granted, the minor is not recorded on the student’s permanent record.

Minors are only available to undergraduate students.

Double Minors

If a student has completed the requirements for two or more minors, each minor must independently satisfy the criteria for a single minor. Additionally, each minor must include a minimum of 12 units of course work completely distinct and separate from the course work in the other minor(s).

Special Major

The courses offered by the Graduate and Undergraduate Programs Office under University Studies (UNVS) promote leadership, integrated and applied interdisciplinary academic experiences for students.

The office also sponsors undergraduate degrees as a Special Major, which is an individually designed course of study leading to a BA or BS degree. The Special Major is designed for situations in which an existing university-level SJSU undergraduate degree major does not adequately accommodate academic professional aims. Students who complete a Special Major shall be able to demonstrate the characteristics of “intentional learners” who can adapt to new environments, integrate knowledge from different sources, and continue learning throughout their life.

The Special Major is an individually designed, interdisciplinary course of study leading to a BA or BS that gives a student who has a specific educational objective the opportunity to accomplish that goal. It is not to be used to bypass normal graduation requirements or projected programs of the University, nor to substitute for a major in which a student is having academic difficulty.

The proposed course of study must be a coherent program organized around an academic theme. Students who complete a Special Major shall be able to demonstrate: “the ability to analyze an issue or problem, integrating at least two disciplinary perspectives.” In addition, students identify two or more student learning outcomes related to their specific areas of study in consultation with a major faculty advisor. They demonstrate their attainment of the learning outcomes through a portfolio or senior project completed in a capstone course.

Applicants must have both a cumulative and SJSU GPA of at least 2.75 and have sixty units (upper division standing) and at least one year of academic work still to be completed to meet minimum degree requirements. Special Majors are considered on a case-by-case basis. Approval is based on the academic merit of the proposed course of study, the applicant’s proposed rationale and potential for successful completion of the program, and the ability of the university to support the proposed program. Students apply for consideration for the Special Major through the Office of Graduate and Undergraduate Programs, ADM 159. For more information visit www.sjsu.edu/gup/ugs/students/specialmajors/index.html.
Second or Additional Baccalaureate Degree

Effective Fall 2011: Postbaccalaureate students who have earned a first baccalaureate from a regionally accredited U.S. college or university, the second or additional baccalaureate degree will be awarded when the student has filed for graduation with Office of the Registrar and a graduation check determines that all major requirements have been satisfied. For such students, residence, university, GE, American Institutions, and PE requirements normally associated with first baccalaureate degrees are not applicable to second or additional baccalaureate degrees.

For postbaccalaureate students who have earned a first baccalaureate from an institution that is not a regionally accredited U.S. college or university, the second or additional baccalaureate degree will be awarded when the student has filed for graduation with Office of the Registrar and a graduation check determines that all university requirements have been satisfied. To be eligible for the degree, students must complete all course work which constitutes the second or additional degree in at least two additional semesters with a minimum of 30 units of work beyond the first degree in accordance with the minimum residence requirement. Second or additional baccalaureate degree candidates must meet the academic regulations required of all undergraduate students, including the residency requirement (30 units in residence, 24 of which must be upper division, 12 in the major and 9-12 in SJSU Studies).

Course work completed in the second or additional baccalaureate degree status will be classified as undergraduate work. Students cannot pursue a graduate degree objective and a second or additional baccalaureate degree at the same time at the university.

Continuous Attendance and Catalog Rights

Undergraduate students acquire “catalog rights” with respect to the requirements for a degree program by maintaining continuous attendance. A student who has been enrolled either at a California community college (CCC) or in regular sessions at a CSU campus for at least one semester or two quarters of consecutive calendar years is considered to be in “continuous attendance.” Once a student has established his or her “catalog rights,” an absence related to an approved leave of absence or for attendance at another accredited institution of higher learning (for undergraduates only) shall not be considered an interruption, providing the absence does not exceed two years.

This concept is important because continuous attendance affects the requirements a student must meet to graduate from a CSU campus. SJSU issues a new on-line catalog every year, which is the official record of all the degrees and degree requirements for the programs at SJSU. These degree requirements may change from one catalog to the next.

Students who have been in continuous attendance may meet the SJSU campus graduation requirements in force

- at the time they began continuous enrollment at a CCC or other CSU campus; or
- at the time they entered SJSU; or
- at the time they graduate from SJSU.

By maintaining continuous attendance and selecting option (1) or (2), students can be assured that their SJSU campus graduation requirements will not change. Their right to choose one of these options is called “catalog rights.” SJSU will use the matriculation term (i.e., option 2) as the initial option (default) for all students; however, students transferring from a CCC or CSU campus, who would benefit from an earlier term based on continuous enrollment, may request option (1) or (3) from their departments or the Office of the Registrar.

If a student follows an earlier version of a program in which his or her department has discontinued or modified required courses, the department may authorize appropriate substitutions. If while enrolled a student changes major, concentration, or minor, he or she may be required to complete the major or minor requirements in effect at the time of the change. However, he or she may continue to follow the university, General Education, and mathematics and writing requirements listed in the university catalog for which “catalog rights,” are claimed.

SJSU affords graduate students the same rights as indicated above with the exception of the references to CCCs.

Graduate Credit for Units Completed as a Graduating Senior

Seniors at San José State University may petition through their major departments to receive graduate credit for 200-level (graduate) courses completed in their final two undergraduate semesters, provided the following conditions are met:

1. No more than 15 semester units are needed to complete a baccalaureate degree at San José State University.
2. None of the courses to be taken for graduate credit is required for or used to satisfy requirements of the bachelor’s degree, including unit requirements.
3. The student has at least a 2.5 grade point average in all coursework in upper division standing completed at San José State University.
4. The student agrees to enroll for no more than the maximum load of 15 units for the term in which this work is taken.
5. The student has completed the graduation application check in Evaluations, Student Services Center.
6. The student agrees not to take letter-graded courses for "CR/NC" when graduate credit is requested.
7. If admitted to a graduate degree program, the student agrees that a maximum of 9 units of transfer credit of any type can be applied to a graduate program. That would include graduate credit earned through this process in addition to units taken in the period between conferral of the bachelor’s degree and the start of matriculation as a graduate student. In either case, transfer credit must be approved by the appropriate advisor of the graduate program.

This policy applies solely to graduate classes taken at SJSU; courses taken at other universities or undergraduate classes taken during the undergraduate career do not qualify for transfer into an SJSU graduate program. If the student subsequently matriculates into a graduate program at SJSU and the courses are approved by the program’s graduate advisor, the units will be transferred into the graduate career. The grade points will not be included in the student’s cumulative grade point average after admission to the Graduate Division.

These policies also apply to students in second baccalaureate status. No courses taken while a student is in second baccalaureate status shall be awarded graduate credit unless the student is within 15 semester units of qualifying for award of the second baccalaureate degree and meets the criteria specified above (including enrollment in all units required for completion of the second baccalaureate degree).

It is recommended that students obtain permission for future graduate credit in writing before enrolling in the graduate classes by means of the Request for Validation of Transfer Credit form available at www.sjsu.edu/gape/forms.
Graduate Information and Requirements

We appreciate your interest in pursuing a graduate career at San José State University. In this section you will find out more about SJSU, the programs we offer, our application process and requirements, and important deadlines and forms related to applying for graduate admission. Some additional external links that might be of interest to prospective students are also listed, including information about housing and other available services.

Office of Graduate Studies

Graduate Studies helps graduate programs and their faculty and students succeed. Located in the Administration Building, the office of the Associate Dean of Graduate Studies supports program development, advising faculty in transforming existing degree and certificate programs or building new ones at the post-baccalaureate, master’s, or doctoral level. Graduate Studies also is a resource for students seeking scholarships or facing special challenges such as probation or disqualification. The office helps maintain academic integrity through the fair and consistent administration of various graduate policies, including those issued by the Chancellor and by the university’s Academic Senate. It works closely with Graduate Admissions and Program Evaluations (GAPE) as students enter and work their way through various degree requirements. Together with GAPE, Graduate Studies interprets and administers the policies and procedures outlined in the sections that follow.

Admission - Graduate Programs (Doctoral, Master's, Credential, and Advanced Certificates)

All graduate applicants (new and returning, including disqualified students who have an approved Program of Study agreement with their graduate department) must submit a complete graduate application by applying through the CSU Cal State Apply system at calstate.edu/apply. A $55 nonrefundable fee is required to submit the university application. Applicants for graduate programs are limited to the choice of a single program on each application. Those wishing to take SJSU classes in any capacity other than through our extension programs (e.g., Open University) must apply for admission to the university and, for most programs, to the department offering the degree in which he or she is interested. After formal admission, the applicant must enroll in classes in the first term of admission to retain active matriculation status.

Former students who have previously attended SJSU and have had a break of two or more consecutive semesters in their enrollment (not counting summer/winter session) must apply for readmission to regain their matriculation status. A former student of SJSU, whether returning after an official leave of absence or continuing immediately after receiving a baccalaureate or master’s degree, must also apply for admission. Reapplication by a previously matriculated student also results in loss of catalog rights. Therefore, returning students are subject, at departmental discretion, to current department policies and requirements.

Graduate Admission - Prospective Students

Students intending to pursue graduate work at San José State University may obtain pertinent information from a variety of sources. Careful reading of several publications will save time and prevent many difficulties that often arise due to lack of information. Publications recommended are:

- **SJSU Catalog** - The listing of regular session courses offered at SJSU and policies and regulations by which the academic programs are governed,
- Graduate Admissions & Program Evaluations (GAPE) at sjsu.edu/graduateadmissions,
- Graduate Studies at sjsu.edu/jup/gradstudies, and
- various departmental publications available from department offices and advisors.

The prospective student is encouraged to consult an academic advisor for detailed information about his or her specific program of interest. Persons assigned responsibility for advising students in specific graduate programs are listed in various sections of the SJSU catalog. In addition, the **GAPE website** provides detailed information about university admission procedures and requirements.

Graduate Admission - CSU Application Procedures and Policies for Graduate and Post-Baccalaureate

All graduate applicants and post-baccalaureate (e.g., Ed.D., joint Ph.D applicants master’s degree applicants, those seeking educational credentials or certificates, and where permitted, holders of baccalaureate degrees interested in taking courses for personal or professional growth through regular or special session but not through Open University, students who have stopped out for more than one semester, students who have been disqualified) must file a complete graduate application as described in the graduate admission materials at [www.calstate.edu/apply](http://www.calstate.edu/apply).
Applicants who completed undergraduate degree requirements in the preceding term are also required to complete and submit an application and the $55 nonrefundable application fee. To be assured of initial consideration by more than one campus, it is necessary to submit separate applications (including fees) to each. All CSU applications must be submitted online at www.calstate.edu/apply. An acknowledgement will be sent to the applicant when the online application has been submitted.

Graduate Admission - Requirements

Graduate and post-baccalaureate applicants may apply for a degree objective, a credential or an advanced certificate objective. Depending on the objective, the CSU will consider an application for graduate admission as follows:

- **General Requirements**: The minimum requirements for admission to graduate and post-baccalaureate studies at a CSU campus are in accordance with university regulations as well as Title 5, Chapter 1, Subchapter 3 of the California Code of Regulations.
- Specifically, a student shall at the time of enrollment:
  1. have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or shall have completed equivalent academic preparation as determined by appropriate campus authorities;
  2. be in good academic standing at the last college or university attended;
  3. have earned a grade point average of at least 2.5 on the last degree completed by the candidate or have attained a grade point average of at least 2.5 (A=4.0 grading scale) in the last 60 semester (or 90 quarter) units attempted; and
  4. satisfactorily meet the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as appropriate campus authorities may prescribe. In unusual circumstances, a campus may make exceptions to these criteria.

Students who meet the minimum requirements for graduate and post-baccalaureate studies may be considered for admission in one of the four following categories:

- **Graduate Classified**: To pursue a graduate degree, applicants are required to fulfill all of the professional, personal, scholastic and other standards, including qualifying examinations, prescribed by the campus; or
- **Graduate Conditionally Classified**: Applicants may be admitted to a graduate degree program in this category if, in the opinion of appropriate campus authority, deficiencies may be remedied by additional preparation; or
- **Post-Baccalaureate Classified**: Persons wishing to enroll in a credential or certificate program will be required to satisfy additional professional, personal, scholastic and other standards, including qualifying examinations, prescribed by the campus; or
- **Post-Baccalaureate Unclassified**: To enroll in undergraduate courses as preparation for advanced degree programs or to enroll in graduate courses for professional or personal growth, applicants must be admitted as post-baccalaureate unclassified students. By meeting the general requirements, applicants are eligible for admission as post-baccalaureate unclassified students. Admission in this status does not constitute admission to, or assurance of consideration for admission to, any graduate degree or credential program. (Most CSU campuses do not offer admission to unclassified post-baccalaureate students.)

(These and other CSU admission requirements are subject to change as policies are revised and laws are amended. The CSU website www.calstate.edu and the CSU admissions portal www.calstate.edu/apply are good sources for the most up-to-date information.)

Graduate Admission - Requirements for International Students

The CSU must assess the academic preparation of international students. The designation, “international students” includes those who are seeking to hold a student visa, hold U.S. visas as students (F-1), exchange visitors (J-1), or are in other nonimmigrant classifications and have completed their prior education in institutions outside of the U.S.

The CSU uses specific requirements and application submission dates in the admission of international (F-1/J-1 seeking) students. Verification of English proficiency (see the section Admission - International Student - English-Language Proficiency Exam Requirement), financial resources, and academic performance are all important considerations for admission. World Education Services (WES) are used in lieu of academic records from international institutions. WES evaluations must be on file by the stated deadlines for the admission term. Although WES evaluations are used for the authentication of academic documents, the evaluation of credentials and CPA will be conducted by the evaluation team at the Graduate Admissions & Program Evaluations (GAPE) office. See www.sjsu.edu/graduateadmissions/deadlines/ for more information.
**Graduate Admission - Test Requirements**

New graduate students enrolling at SJSU who matriculate with graduate degree objectives may be required to take one or more parts of the Graduate Record Examination (GRE). Students with graduate objectives in Business (MBA, MSTax, MSAcct, MSTmMgt) are required to take the Graduate Management Admission Test (GMAT). Some departments may require a locally developed qualification examination in their subject matter areas. Test requirements can be viewed at [www.sjsu.edu/graduateadmissions/admission-requirements/test-requirements/index.html](http://www.sjsu.edu/graduateadmissions/admission-requirements/test-requirements/index.html) and on graduate program web pages.

Applications and information about dates of administration for the GRE and GMAT are available in the Testing Office.

**Graduate Admissions - English Language Proficiency Requirement**

All graduate and post-baccalaureate applicants, regardless of citizenship, whose native language is not English and whose preparatory education was principally in a language other than English must demonstrate competence in English. SJSU does not accept English-medium of instruction as a substitute for an English-language proficiency exam such as TOEFL, IELTS, or the Pearson’s Test of English. Letters from applicants or institutions will not be accepted. Note that scores lower than the minimum will not be accepted and waivers will not be given for lower scores. Also note that a few of our graduate programs do require a higher minimum score than what is posted by the university at [www.sjsu.edu/gape/prospective_students/test_requirements/](http://www.sjsu.edu/gape/prospective_students/test_requirements/).

**Graduate Admission - Transcript Submission**

Transcripts submitted for admission purposes must be official and sent directly from the originating school or college to Graduate Admissions & Program Evaluations (GAPE), San Jose State University, One Washington Square, San Jose, CA 95192-0017. International applicants must request WES evaluations to be sent directly to San Jose State University. Unofficial transcripts submitted via the student are not acceptable for this purpose. Records submitted become the property of the university and will not be released to the student. If a student does not fully complete an application and enroll, the records will be kept on file for about one year and then destroyed.

Graduate applicants must submit with GAPE one official transcript or WES evaluation from each accredited institution attended. Failure to report to the university on the admissions’ application all previous college-level enrollment and to provide transcripts certifying that enrollment are regarded as serious infractions of university policy and may be punishable by permanent separation from the university. Some departments may also require applicants to file additional transcripts with their graduate advisor. Program requirements are located on departmental websites, which can be accessed by clicking on the program name at [www.sjsu.edu/graduateadmissions/admission-requirements/degree-program-requirements/index.html](http://www.sjsu.edu/graduateadmissions/admission-requirements/degree-program-requirements/index.html).

Individuals currently enrolled in courses at the time of their application for admission are required to report of work in progress in the university Cal State Apply application by recording the department course number, course title, and units attempted and to file an official transcript of the work when it is completed.

**Graduate Admissions and Program Evaluations (GAPE)**

GAPE processes the admission for all graduate and teaching credential programs. For most programs, the admissions process is two-step, whereby applicants apply to the university and the department program. Applicants must first pass CSU eligibility and then pass the admission criteria of the department program.

For new students, the GAPE office

- Receives all university applications, including supplemental materials such as transcripts, residency information, and declaration of finances
- Reviews documents for completeness
- Refers applications that meet minimum CSU eligibility requirements to departmental graduate advisors
- GAPE sends out official letters of acceptance for those applicants accepted by both the university and the academic program.

For continuing students, evaluators assigned to each degree program review advancement to candidacy and graduation requests for accuracy and alignment with policies and procedures of the university and the academic programs.

Grading System for Graduate Work

Traditional letter grades are used for all courses taken by graduate students except for field work, thesis, project, individual study and internship courses, which are usually graded Credit/No Credit or Credit/No Credit/Report in Progress. Incomplete grades are not permitted for thesis or project courses, and Credit may not be given for a thesis or project course before completion of the coursework. Graduate students do not have the option of choice between the traditional or non-traditional grading system. A grade of Credit in a graduate-level course indicates performance by the student equal to a letter grade of "C" or above.

The cumulative GPA for the master's degree (3.0 minimum) includes all letter-graded work in 100-level or 200-level courses completed within the preceding seven years and for which the student received graduate credit, excluding transfer courses taken at another institution and those taken as an undergraduate at SJSU. Both the cumulative GPA and GPA of all of the course grades on the student's candidacy form, with the exception of non-Open University transfer courses, must be at least at the 3.0 level. Both the cumulative GPA and the GPA of all courses on the candidacy form must be a minimum of 3.0.

The cumulative GPA of the graduate student is computed by dividing the total number of grade points earned by the total number of graded units attempted at SJSU, excluding Open University courses that are not counted as degree requirements, subsequent to enrollment in the graduate school.

Academic Standards - Graduate Students

To determine a student’s standing, whether "good," probationary or disqualified, quality of performance and progress toward degree completion are considered based on units attempted, grade points earned and grade point average (GPA).

Grade points are assigned as follows:

- A, A+ ...................................4.0
- A* .....................................3.7
- B+ .....................................3.3
- B .......................................3.0
- B- .....................................2.7
- C+ .....................................2.3
- C .......................................2.0
- C- .....................................1.7
- D+ .....................................1.3
- D .......................................1.0
- D- .....................................0.7
- F .......................................0.0
- WU ....................................0.0
- I .......................................0.0
- IC .....................................0.0
- RD .....................................0.0
- RP .....................................0.0

Courses for which the symbols “CR,” “NC,” “RP,” “I,” “W,” and “RD” have been assigned do not enter into the GPA computation. Also excluded are lower-division courses and most transfer courses.
Disqualification and Probation - Graduate Students

Probation - Academic - Graduate

Graduate students enrolled in a degree program, credential program or certificate program are subject to academic probation if the SJSU cumulative GPA falls below 3.0 (grade of “B” on a 4.0-point scale) in all units attempted subsequent to matriculation in either conditionally classified or classified status. Courses taken at the lower-division level will be listed on the transcript but cannot be used for graduate degree credit and are not included in the GPA computation. Courses taken through SJSU Open University before matriculation will also be listed on the transcript and may, with advisor consent on the candidacy form, be used toward the graduate degree if adhering to the transfer course limitation and residency requirement. They will be figured into the GPA for advancement to candidacy and for the candidacy GPA computation at the completion of the program. All SJSU Open University course grades will be included in the SJSU Cumulative GPA, which is used to determine academic standing for degree conferral. However, courses transferred into the graduate program from other institutions or from the SJSU undergraduate career will not count in the cumulative GPA computation.

At the completion of the degree program, should the SJSU cumulative GPA fall below 3.0 at the same time that the candidacy GPA is above 3.0, the student’s academic standing will reflect the former only. In this unusual circumstance, the student or program must make the Associate Dean of Graduate Studies aware of this discrepancy.

Each Winter, Spring, Summer and Fall term while on probation, the student must achieve a 3.0 GPA in the semester’s work to avoid academic disqualification. To avoid disqualification, at least one graded course must be taken each Spring and Fall semester, while on probation. The student remains on continued probation as long as each individual term’s work is equal to or above the 3.0 threshold but the overall GPA is still below 3.0. Probation is cleared when the SJSU cumulative GPA rises to 3.0 or better in any subsequent Winter, Spring, Summer or Fall term.

Graduate students are eligible to repeat courses with letter grades lower than “B” or with grades of “NC,” “WU,” or “IC” up to a total of 9 units, no matter how many units there are in the individual degree program. Exceptions may be made by the Associate Dean of Graduate Studies in this course repetition with respect to high unit clinical or field courses, as long as the exceptions do not violate probation and disqualification policies established in the major (see sections on Probation - Administrative - Graduate and Disqualification - Administrative - Graduate). Repeated and elective courses may not be taken through Open University. Elective classes already taken in the degree program may be added to the candidacy form by means of the Request for Course Substitution in Graduate Degree form. However, the two courses will be grade averaged, as courses, once graded, cannot be removed from the candidacy form. The total allowable units that can be added as either repeated classes or substituted electives can be no greater than 30% of the total number of units for the individual degree for the entire graduate career. To clarify, in a 30-unit degree program, a student may add electives or repeat classes only up to a total of 9 units.

Failure to Achieve a 3.0 Grade Point Average on Completed Graduate Degree Program

If a master’s candidate does not complete the graduate degree program with a minimum 3.0 GPA in both the overall coursework and the candidacy coursework, the student’s major department may terminate the candidacy or permit completing additional courses in an attempt to raise the GPA in the program to the minimum 3.0 threshold. Elective courses may be added to the candidacy form for grade averaging if approved by the graduate advisor. Alternatively, courses can be repeated up to a limit of 9 units (per University Policy F08-2). In the entire graduate career, the combination of added elective units and repeated units cannot exceed 30% of the total number of units in the major. Failure to raise the candidacy and cumulative GPA to 3.0 after completing this additional coursework will result in a termination of the student’s candidacy and an inability to earn the degree. Thus the student would be academically disqualified without the ability to be reinstated by normal means.

Credentialed candidates who fail to achieve a 3.0 GPA upon completion of the credential program will be precluded by the department from attempting additional coursework and therefore not be recommended for an award of a credential by the State of California.

Probation - Administrative Academic - Graduate

Per Sections 41300.1 Title 5, graduate student may be placed on probation or may be disqualified by appropriate campus authorities for unsatisfactory scholastic progress regardless of cumulative grade point average or progress points. Such actions shall be limited to those arising from repeated withdrawal, failure to progress toward an educational objective and noncompliance with an academic requirement... Therefore, regardless of the cumulative GPA, administrative academic probation or disqualification can be imposed by the university.
Most instances of administrative academic probation and disqualification result from probation in and disqualification from the graduate major. Thus despite maintaining an SJSU cumulative GPA of 3.0 or better, a graduate student’s academic performance in the major may fall below the minimum standards established in that major. In these cases, while students remain in overall good standing with the university, they are subject to probation in and disqualification from the graduate major. Departments have an obligation to inform students of these policies.

In most cases, a direct reassignment from good standing in the major to disqualification from the major is prohibited. In other words, at least one semester of probation in the major is required prior to disqualification from the major. By the same token, there must also be a way of returning from the probationary status to good standing. Exceptions to these regulations are described below under Disqualification - Administrative Academic - Graduate.

The department and university may impose administrative academic probation for any of the following reasons:

1. Failure to progress satisfactorily toward the degree or other program objective, including that resulting from assignment of 9 units of “NC,” when such failure appears to be due to circumstances within the student’s control, failure to pass writing requirements, or failure to take a reasonable number of courses in the student’s own degree program.

2. Failure to comply, after due notice, with an academic requirement or regulation that is routine for all students or a defined group of students (examples: failure to complete a required CSU or campus examination, failure to complete a required practicum, failure to make satisfactory progress in the academic program, failure to put together a graduate committee of qualified individuals in programs that require a committee).

3. Failure to achieve a set of academic standards of the department.

4. For example, a program might require the achievement of grades of “B” in every class or in particular classes with a stipulated number of repetitions permitted. Similarly, an acceptable standard would be to require a “CR” in field, student teaching, or internship courses with a stipulated number of “NC” grades allowed for repetition.

5. Programs may restrict a student to two attempts of any course offered by the program. Cohort programs may require that a minimum number of courses/units be taken each semester in order to best use resources or to ensure that the program is completed while student knowledge is still current.

A maximum number of units can be set for students on probation.

When such action is taken, the student will be notified in writing and provided with the conditions for removal from probation and the circumstances that would lead to disqualification should probation not be removed.

### Discontinuation from the University - Graduate

Students who fail to register for classes in two successive semesters, and thus stop out, are placed in a discontinued status that requires readmission to the university and program before being permitted to enroll again. This policy also applies to students who leave the university after having registered for classes but who do not officially withdraw or withdraw from all courses after the semester drop deadline. The courses will be assigned a grade of “WU” (denotes unauthorized drop or withdrawal). No personnel actions, grades, or transcript services will be permitted until all financial obligations, such as unpaid fines, have been settled. If the student fails to return the semester immediately following withdrawal, reapplication for admission will be necessary at www.calstate.edu/apply.

The exception to this policy is for students who file for a formal leave of absence. See the description of the options and regulations governing leaves in this catalog under **Leave of Absence and Withdrawal**.
Disqualification - Academic - Graduate

A graduate student who is on academic probation is academically disqualified if he or she fails to earn a 3.0 or better term GPA each Winter, Spring, Summer or Fall term until the required 3.0 cumulative GPA is established. This requires enrollment in at least one letter-graded course each Spring or Fall semester (but not Winter or Summer term) that the student is on probation. Teaching credential candidates are subject to the GPA dictates of the State Department of Education. Credential candidates will be notified of those requirements by their department within the College of Education in which they are seeking their credential preparation. At this time, the minimum GPA requirement matches that of the graduate division as a whole, that is, the 3.0 level. Credential candidates who fail to meet this standard are academically disqualified and are not eligible for reinstatement. Similarly, if at the time of completion of all credential requirements, a student’s candidacy GPA or cumulative GPA is below the 3.0 threshold, the student is academically disqualified and will not be afforded the option of repeating credential courses to raise the GPA.

For master’s candidates who complete all minimum degree requirements but fail to achieve a 3.0 GPA, the department may exercise its option to terminate the candidacy (see Failure to Achieve a 3.0 GPA on Completed Graduate Program). The department may also allow the student to repeat classes within the university limit of 9 units per graduate career or to add (via grade averaging) elective courses. The total units in the added courses and repeated courses (100 and 200 level coursework) cannot exceed in the entire graduate career 30% of the units of the degree program’s total. If a student fails to raise the candidacy and SJSU cumulative GPA to 3.0 after these measures, he or she is academically disqualified without a possible reinstatement.

With the exception of the scenario described in the paragraph above, reinstatement can be applied for (via the Graduate Petition for Reinstatement; see Reinstatement - Disqualification - Graduate) following a first disqualification at the graduate level. Departments have the option of reinstating or refusing to reinstate, but if the graduate student does garner all signatures of approval on the petition and fulfills the requirements for reinstatement (e.g., through passage of the Program of Study), then reinstatement will be granted; in addition, if reinstatement is achieved, the student is guaranteed readmission to the program when he or she reenrolls for a future term.

After a second disqualification at the graduate level, reinstatement will not be granted and the student’s candidacy will be terminated.

Disqualification - Administrative Academic - Graduate

Upon notice by the coordinator of the graduate program in which a student has been placed on administrative academic probation, the student may be administratively academically disqualified from further attendance by the Associate Dean of Graduate Studies if the conditions for removal of administrative academic probation are not met within the period specified.

As mentioned in the section on administrative academic probation, a probationary period must normally precede a disqualification. However, exemptions to this general rule include the following:

1. In clinical courses, laboratory courses, student teaching assignments, or other types of programmatic requirements, there may be such serious concerns about the safety or well-being of the student, other students, clients, patients, and so forth that repetition of the courses is not reasonable. For such courses or programmatic experiences, departments may establish “no repeat” policies, i.e., a course may not be repeated if not passed on the first attempt. In clinical or lab settings in which safety or well-being are severely compromised, an instructor may disenroll a student from the course, which may lead to disqualification from the major.

2. A program can disqualify a student without a probationary period for behavior that fails to comply with professional standards of conduct appropriate to the field of study. This conduct could occur in or out of class. Examples include threatening behavior, repeated disruptions of classes that interfere with the educational opportunities of other students and repeated acts of professorial disrespect, badgering, rudeness, interruptions and verbal or written abuse.

3. Conditional acceptance to a program is, in effect, acceptance under probation in the major. Typically, a specified set of courses or requirements must be passed prior to attaining good standing in the program. There may be time limits or unit limits established to satisfy the conditions, which, if not met, may lead to disqualification from the major degree program without an intervening term on explicit probation. Cohort programs must provide in their policies a reasonable accommodation for students who must stop out for legitimate reasons.

In most cases (unless stipulated by the program in writing), graduate students administratively academically disqualified from their majors have no means for reinstatement. However, unlike academic disqualification, reinstatement and readmission are not absolutely necessary for continuation at the university after administrative academic disqualification. If a student finds another program willing to accept him or her within one semester, an Application for a Change of Graduate Major form can be filed and enrollment can resume following formal acceptance into the new program. SJSU does not allow an “unclassified status” at the graduate level, and thus a student must be accepted into some program to register for courses at the university other than through Open University. If more than one semester elapses from the point of disqualification, the student will be considered to have stopped out of enrollment and will be required to apply for readmission if a second department indicates willingness to allow a transfer.
Disqualification - International Students - Graduate

To maintain their legal status in the U.S., international students must be matriculated within a degree program. After disqualification from SJSU, international students must transfer to another institution to maintain their legal status. Enrollment in Open University alone does not qualify them for the immigration document needed to remain in the U.S. Disqualified international students who have transferred out to another university may enroll in Open University for a program of study in order to be academically reinstated but must seek immigration reinstatement from SJSU. Disqualified international students must speak with an international student advisor as soon as possible.

Disqualification and Probation - Appeal - Graduate

Students may appeal their probation or disqualification by petitioning the Academic Disqualification and Reinstatement Review Committee after the programmatic appeal process has been exhausted. The student should begin the appeal process by consulting with the graduate advisor. The appeal, in writing to the Associate Dean of Graduate Studies, should contain a description of actions by the department contrary to departmental rules or university policy or an explanation of extenuating circumstances that led to the action.

The student must present documentation— for example, physician’s letters, police reports, and/or transcripts— that the circumstances were beyond his or her control, that they disrupted previously satisfactory scholastic performance, and that they no longer affect the student’s academic work. The Associate Dean of Graduate Studies has the authority to deny further appeal on the basis of reasonable grounds for appeal. If grounds exist, a subcommittee of the Academic Disqualification and Reinstatement Review Committee will in turn hold a formal hearing to confirm or rescind the probation or disqualification.

Reinstatement - Disqualification - Graduate

Following notice of disqualification, the graduate student should obtain a Graduate Petition for Reinstatement. The form indicates that there are four categories by which a student can be reinstated: extenuating circumstances, special consideration, grade change and program of study.

Graduate students may appeal their probation or disqualification by petitioning the Academic Disqualification and Reinstatement Review Committee after the programmatic appeal process has been exhausted. The student should begin the appeal process by consulting with the graduate advisor. The appeal, in writing to the Associate Dean of Graduate Studies, should contain a description of actions by the department contrary to departmental or university policy or an explanation of extenuating circumstances that led to the action. The student must present documentation— for example, physician’s letters, police reports, and/or transcripts— that the circumstances were beyond his or her control, that they disrupted previously satisfactory scholastic performance, and that they no longer affect the student’s academic work. The Associate Dean of Graduate Studies has the authority to deny further appeal on the basis of reasonable grounds for appeal. If grounds exist, a subcommittee of the Academic Disqualification and Reinstatement Review Committee will in turn hold a formal hearing to confirm or rescind the probation or disqualification.

Raising the SJSU Cumulative GPA to 3.0 or Better

The SJSU cumulative GPA can be raised through SJSU Open University coursework as part of a Program of Study (see below) if the graduate advisor approves of the transfer of the upper-division classes into the degree program. In addition, retroactive (after the last day of classes) actions by students, such as completion of Incomplete (“I”) grades or course drops, can also raise the SJSU cumulative GPA.

Extenuating Circumstances

Similar to the appeal process for probation or disqualification, a request for reinstatement due to extenuating circumstances must meet the conditions indicated above for that process. The petition is submitted along with evidence of the circumstances and their role in the decline in scholastic performance. After securing the requisite signatures, the form is submitted to the Associate Dean of Graduate Studies for a final decision.

Special Consideration

This category is reserved for individuals who have been absent from the university for five or more years and who have in that time achieved a renewed sense of purpose through job activities or through increased maturity that would prompt a greater chance of academic success. Often this request is accompanied by a switch in major from that in which the disqualification occurred.
Change of Grade

If a grade that was changed results in an increase in the semester GPA or in the cumulative GPA to 3.0 or above, the student may qualify for reinstatement in this category. The Change-of-Grade Form must be submitted by the department office directly to the Office of the Registrar by the drop deadline of the following spring or fall semester. Extension of this deadline will be considered only when there is documentation of the student’s attempt(s) to contact both the instructor and the department chair and only when the late submission of the Change-of-Grade Form is clearly shown to be beyond the student’s control. If these conditions are met, the disqualification (or probation) will be rescinded. If the conditions are not met, even if the grade is subsequently changed and the GPA elevated, the probationary or disqualified status will remain unchanged. Note that a course or semester withdrawal is not considered to be a grade change, and reinstatement in this category would not be appropriate.

Program of Study

The most common grounds for reinstatement is the completion of a program of study. A student must confer with the graduate advisor to develop a schedule of classes appropriate to the student’s major. The courses must amount to a minimum of 6 and maximum of 9 units per semester, and all must be taken in a single semester. They must be letter graded, upper division (100-level), and taken through the SJSU Open University or SJSU’s Extended Studies winter or summer session. The 100-level courses may or may not be part of the graduation requirements for the student’s degree program. The advisor may require more than 6 units of course work. Graduate (200-level) courses are not permitted on the program of study, and disqualified students cannot enroll in 200-level courses. Under no circumstances will courses be accepted that were taken prior to approval of the program of study via submission of the Graduate Petition for Reinstatement. Also precluded from the program of study are courses taken at another university, 300-level or 400-level courses, and lower-division courses. If the student plans to pursue a different degree program upon readmission to the university, the program of study must be applicable to the new major, be developed in conjunction with the graduate advisor of the new major, and demonstrate the student’s capacity to complete the new graduate degree requirements. If a course on an approved program of study becomes unavailable, another reinstatement petition must be submitted and approved immediately after enrollment in a substitute course. Once the program of study has been completed such that the student earns a minimum grade point average of 3.3 (“B+”), he or she will be reinstated and, after reapplication to the university, readmitted to the university and department. Reinstated students cannot be denied admission on the basis of their lack of good standing.

Reinstatement is not allowed for a second disqualification. Unless extenuating circumstances can be cited that result in rescinding the second disqualification, a Graduate Petition for Reinstatement will not be accepted from students who have been disqualified more than once.

Unless the disqualification is rescinded as above, reinstated students must apply to the university and department for readmission. Reapplication via www.calstate.edu/apply can be done during the semester in which the program of study is underway or in which the reinstatement petition is being considered. The application will be placed on hold at Graduate Admissions and Program Evaluations until the program-of-study grades are posted and students are reinstated. Under most circumstances, a department is expected to readmit students who have successfully completed programs of study signed off by that department. Disqualified, reinstated students seeking readmission are, nevertheless, subject to the same enrollment limitations and admission application requirements as all other applicants.

Readmission - Graduate

A graduate student readmitted after academic disqualification most often retains a sub-3.0 GPA and, therefore, remains on continued probation until the cumulative graduate GPA is raised to a minimum of 3.0. While disqualified, the graduate student has no capacity, outside of possible degree-satisfying courses taken as part of a program of study, to raise the GPA. Unlike an undergraduate in a disqualified status, courses taken by a graduate student through Open University or at other institutions during this period are not counted in university GPA calculations, except in the case of the program of study courses that are applicable to the degree program. At that point, the probationary status is removed, and a subsequent decline in cumulative GPA below 3.0 results again in probation. If while on probation, including following reinstatement, a student fails to achieve a term GPA equal to or above 3.0 in any Winter, Spring, Summer, or Fall term, he or she is disqualified a second and final time.

Disqualified students lose their privileges for course registration and so are effectively removed from the university. Readmission differs from reinstatement. An academically disqualified student may apply for and be granted reinstatement. But to continue with class enrollment requires that he or she also be readmitted into the university. Readmission is possible only after formal reapplication through Cal State Apply, university review, and acceptance by your former department.

The student can reapply as early as the term following a first disqualification, even if reinstatement has not yet been achieved. The university will make special arrangements, before an official term begins, for former students who wish to return to their studies. The Associate Dean of Graduate Studies should be contacted if these circumstances apply.
Graduate Work in Special Session

Special session is often confused with Open University (see section below). Although both are administered by the College of International & Extended Studies, they are different programs.

Special session classes are offered on a selective basis off campus, via different delivery modes or by schedules different from the regular session term. Matriculation is required for special sessions courses. Credit earned in 100-level, 200-level, or 300-level special session courses at SJSU is entered on the matriculated graduate student’s record as graduate credit, provided the student holds an acceptable baccalaureate degree from an accredited institution at the time of enrollment in the courses. Courses taken through special session receive residence credit. Simultaneous enrollment in special and regular session is not possible at this time as students can only be classified in one type of session per academic term.

For further information concerning special session and policies, inquire at the College of International and Extended Studies, One Washington Square, Student Union, San Jose, CA 95192-0135, call at 408-924-2670, or www.sjsu.edu/cies.

Graduate Work in Open University

Open University, often known elsewhere as extension, is set up primarily as an option for members of the surrounding community to take college courses. It is attended by non-matriculated postbaccalaureate students who may hope to gain future admission to one of the SJSU graduate programs or who wish to take classes to prepare for a professional degree program, such as medicine. It can also be part of the program-of-study mechanism by which scholastically disqualified SJSU graduate students can gain reinstatement to the graduate school (see section on Program of Study). Non-matriculated students who enroll only for Open University courses are reminded that they must apply for admission to the university and graduate program and complete other details of matriculation if they wish to obtain a degree or credential from SJSU. Enrollment in Open University courses is governed by specific policies, as follows:

- Fees differ from those in regular and special sessions.
- Open University enrollment in a given graduate class is permitted only with instructor and department chair or school director approval and only after reasonable efforts are made to provide full enrollment opportunities to regularly matriculated students.
- Matriculated students may not take Open University courses. This restriction also applies, without special permission of the Associate Dean of Graduate Studies, to formerly matriculated students who have gone out of matriculation by stopping out or being disqualified.
- Letter-graded or CR/NR courses may be taken through Open University with the exception of supervisory courses, such as independent study courses and project or thesis courses.
- Either regular (state-support) or special (self-support) classes may be taken through Open University if all other requirements are met.
- Open University course enrollment in 200-level courses are only open to holders of baccalaureate degrees who meet course prerequisite requirements. Neither disqualified students nor those denied admission into a graduate program for reasons other than limitations imposed by enrollment caps are permitted to enroll in 200-level courses.
- Open University courses do not qualify for residence credit toward a master’s degree, as specified by Title 5.
- Upper-division (100-level) and graduate (200-level) Open University units up to 30% of the degree program total and taken prior to matriculation may be applied to a master’s degree program with the consent of the program’s graduate advisor. Note that these units are considered to be transfer units into the master’s program, and the allowable total of all transfer units is 30%, with the exception of transfers from credential programs into master’s programs (40% of degree unit total allowed, i.e., 12 units in a 30 unit master’s program). Upper-division courses taken as part of a program of study for reinstatement after disqualification may be applied to the graduate program if they were already present on the student’s candidacy form or were otherwise approved by the graduate advisor.

Open University courses are counted toward the cumulative GPA. Those taken in the postbaccalaureate career (before matriculation and enrollment in the semester admitted) are also counted in the candidacy GPA if transferred into the graduate program. Because the university cannot determine whether the courses are part of the degree program until they appear on the candidacy form, it is not until advancement to candidacy that the grade points are transferred. Thus a student may conceivably be disqualified before advancing to candidacy even if courses to be transferred would have raised the GPA to a passing level.

For further information concerning special session or Open University offerings and policies, inquire at the College of International and Extended Studies, One Washington Square, Student Union, San Jose, CA 95192-0135, call at 408-924-2670, or www.sjsu.edu/cies.
Transfer Credit in the Graduate Program

Students who have completed coursework at other regionally accredited colleges or universities may be eligible to apply credit toward master’s degree requirements at SJSU. To be transferable, the coursework must have been taken at an accredited university, including international institutions, whether through regular session, special session, online programs, or extension. In the case of extension or online courses, the graduate advisor must petition the Associate Dean of Graduate Studies on behalf of the student and provide documentation that the courses have been approved for degree credit at that institution. To be transferable, courses must not have been in professional development courses. They must have been at the upper-division or graduate level and must have been taken within seven years from the time of posting of the grade for the course to the date of award of the graduate degree from SJSU.

As stipulated in University Policy S13-8, not less than 70% of course work required for the master’s degree must be completed in residence. Therefore, for example, a maximum of 9 units can be transferred into a 30-unit graduate program. This total includes all transferred classes, including those from Open University and the SJSU undergraduate career. Transfer work from any source may be applied toward the degree program only if it is approved by the graduate advisor. Those taken at SJSU, whether through Open University or as a matriculated undergraduate, may be revalidated in accordance with the rules on revalidation if surpassing the 7-year limit on course viability. Those taken at any institution other than SJSU cannot be revalidated.

No courses may be transferred if taken during a graduate (master’s, PhD, or other) degree program in which the degree was awarded, whether used to satisfy requirements for those degrees or not. The only exception to this rule is that letter-graded courses from previous master’s degree programs taken at SJSU may be included up to a total of one third of the current degree total (i.e., 10 units in a 30-unit program) if approved by the graduate advisor. If a course was taken as part of a prior graduate degree program that was not finished (thus there was no award of degree), then the courses qualify for transfer credit.

For university approval of transfer units up to the 30% limit, the courses are entered on the Petition for Advancement to Graduate Candidacy in the Transfer Course section. The graduate advisor has full authority to allow or disallow transfer credit for those courses that meet the university requirements of eligibility. The signature of the graduate advisor on the candidacy form is sufficient to indicate departmental approval of the courses without additional forms. If the courses meet all of the requirements stipulated above, the university will accept the courses for advancement to candidacy and for graduation requirements. Credit is awarded for transferred courses of all categories, but grade points are not included in the cumulative GPA for transferred courses other than those courses meet all of the requirements stipulated above, the university will accept the courses for advancement to candidacy and for graduation requirements. Credit is awarded for transferred courses of all categories, but grade points are not included in the cumulative GPA for transferred courses other than those from the SJSU Open University program; therefore, the cumulative grade-point-average (GPA) calculation will not include those units nor will the GPA calculation for advancement to candidacy or graduation.

Official transcripts for all courses transferred from another university, if taken prior to application to the SJSU graduate school, must have been submitted directly to the GAPE office during your initial application to SJSU. Failure to have provided those transcripts precludes the later transfer of the courses. If the courses were taken or grades for them were posted after the application process, then the transferred courses must subsequently be verified by official transcripts sent to GAPE from that university at the time of transfer; failure to provide transcripts will result in a denial of advancement to candidacy and/or award of degree.

Repeat Policy - Graduate

University Policy F08-2 on course repetition stipulates that graduate students may repeat a maximum of 9 units in their graduate careers, regardless of the number of units required in a degree program. This total does not include classes the catalog indicates are repeatable for credit. If within this limit, a graduate student may repeat any 100-level or 200-level course in which a grade below a “B,” including an “NC,” “WU” or “IC,” was received in the first attempt. The student should register through normal procedures. The student’s academic record will indicate the course repeated and the grade earned. Units attempted and grade points will be included in the student’s cumulative GPA; therefore, the course grades will effectively be averaged. The additional units gained by repeating the course will not contribute to the degree total. Graduate students and 200-level courses are not eligible for “grade forgiveness.”

Courses on the candidacy form in which a grade of any kind has been earned cannot be removed from the candidacy form; the grades will be averaged with other courses even when compensated for by additional coursework. Courses listed on the candidacy form in which grades of “NC,” “I,” “IC,” “RP,” “RD,” or letter grades below “C” have been recorded will prevent graduation until completed, repeated, or compensated for in another way. This is also true of courses in programs that have special grade requirements beyond those of the university standard, e.g., requirement of “B” grades in all core classes. SJSU (only) courses can be repeated when they have gone beyond the seven-year time period for completion of master’s or doctoral degree requirements. Teaching credential courses cannot be repeated if the 7-year limit has been broached. See the section Seven-Year Time Limit on Courses in Graduate Degree Programs.
Change of Graduate Major or Degree Objectives for Graduate Students

Official changes in graduate objectives are to be initiated at the CAPE office. If the change in objective is from one graduate major to another, or from one academic session to another, the **Change of Graduate Major Petition form**, available at sjsu.edu/gape/forms, must be completed. Submission of this form by the student is not, however, synonymous with approval of the change. The new department must review you as a candidate for their program through initial communication with CAPE office after CAPE receives your change of major request. There is no fee for this change so long as the student was enrolled the semester prior to the application term. The student should become knowledgeable of any additional admission requirements of the department being entered. Student transfer to the new major is not automatic, but instead requires approval from the incoming department. The department must follow-up with the student request by signing the **Change of Major Decision Form** and returning its decision to the CAPE office. CAPE will then update the student’s status to reflect the new program change.

If a student obtains permission to change their major or concentration after advancing to graduate candidacy and the second program has different requirements than the first, then a new candidacy form (Petition for Advancement to Graduate Candidacy) with the signature of the new graduate advisor must be filed. The change of either major or concentration is made by virtue of approval of the **Change in Graduate Major Petition**. Graded courses on the first form can be eliminated on the second form if not part of the new curriculum.

For a change in the culminating plan from Plan A (thesis) or C (creative project) to Plan B (project or comprehensive exams) or vice versa, no new candidacy form is needed. Any 299 units, project course units, or exam preparation course units in which a Credit was given must be retroactively dropped or, less attractive to students, changed to an NC (no credit) grade. For a switch to Plan B, project and exam preparation courses as well as additional content courses might then be required, depending on the program. These changes all require that CAPE be informed by means of filing the **Request for Course Substitution in Master’s Degree Program** for each course change. Degree requirements for the new plan must be satisfied in full. Therefore, retroactively adding a 298 (project) class, for example, in place of a 299 (thesis) class will be permitted only if all the requirements of the project have been met. The requirements for projects include a written report in every case.

Graduate Degree - Change of Status

Notification of a change from conditionally classified to classified status within the same graduate program before advancement to candidacy is made to CAPE by the graduate advisor by means of the **Change in Classification in Master’s Program form**, available at sjsu.edu/gape/forms. However, an advisor signature on the candidacy form indicates that the advisor has checked that all conditions have been fulfilled, allowing the conditional status to be lifted and establishing the classified status without the need for the **Change in Classification in Master’s Program form**. Graduate students must be in classified status in the graduate program to advance to candidacy. Once a student has advanced to candidacy and thus the student status has progressed to classified, any conditions discovered still unfulfilled are sacrificed and can no longer be required.
Graduate Degree - Advancement to Candidacy

Matriculated graduate students must advance to candidacy a minimum of one semester prior to graduating. Advancement to candidacy requires that the student be in good standing. That is, a minimum of a 3.0 GPA is required in upper-division and graduate courses taken while in graduate status, and in the degree program as indicated by all courses on the candidacy form. The student must be classified with all admissions' provisions and program conditions cleared. Also required is a minimum of 9 units of letter-graded coursework as a graduate student in 100- or 200-level courses that are acceptable to the department in which the degree is sought. Exceptions to this rule can be made for two-semester master’s programs. University policy also stipulates the Graduation Writing Assessment Requirement be fulfilled before advancement to candidacy. However, for special cases, the candidacy form, formally entitled the Petition for Advancement to Graduate Candidacy (available at www.sjsu.edu/gape/forms), may be filed during the semester in which a GWAR-satisfying course is taken. Advancement to candidacy will be formally denied during the semester, but the form will be kept on file by the GAPE office and approved when a passing grade is posted at the end of the semester.

Graduate Degree Program

As indicated above, the Petition for Advancement to Graduate Candidacy ("candidacy form") is submitted to GAPE when the student is qualified to advance to candidacy. This form lists all courses and culminating experiences that must be fulfilled for degree award. The proposed program must meet the following requirements:

- statement of the total number of units in the degree program.
- at least half of the units included on the form must be in 200-level courses.
- at least 60% of all units included must be in letter-graded course work.
- at least 70% of the units included must be in residence at SJSU. Therefore, a maximum of 9 units may be transferred into a 30-unit program from all sources.

The course work included may be entirely within the major department, or it may include a combination of courses drawn from other fields acceptable to the major advisor, so long as it is within the parameters set by the department in the program descriptions on department websites. If deficiencies in the student’s record are identified, including in prerequisites for required courses, additional course work can be assigned by the major advisor. This course work would not appear on the candidacy form and would not be counted in the total number of units required for the degree.

Coursework that may not be applied to the graduate degree includes basic skills’ courses such as lower-division work, courses used to earn any prior degree (except other master’s degrees at SJSU), courses taken at unaccredited institutions, directed (student) teaching, or 300-level residence or 400-level Extended Studies courses taken at SJSU, or courses taken over seven years previous to current degree conferral. Graduate credit by examination is not permitted.

There is no restriction in the number of units of project or thesis research (usually 298 courses) attempted but not included on the candidacy form. However, students completing a thesis must include at least one 299 unit on the form, and the total number must be commensurate with program requirements.

Students may not receive credit for project units unless the project course is successfully completed; instead either an RP or NC grade should be assigned in the semester of enrollment; extensions beyond the semester are prohibited without enrollment in that class in a subsequent semester.

Students may not receive credit for 299 units unless a thesis is submitted and accepted by the Office of Graduate Studies. If thesis units are credited on the student record without thesis approval, the units must be retroactively withdrawn. The process of withdrawal is initiated by the student by submitting the Graduate Petition for Course/Semester Withdrawal, available at www.sjsu.edu/gape/docs/withdrawal.pdf.

The original copy of the completed, signed Petition for Advancement to Graduate Candidacy should be submitted to GAPE in the Student Services Center by the deadlines posted at www.sjsu.edu/gape/current_students/deadlines/. The student will be informed by the approval or denial of the petition through the student’s MySJSU account under “Other Indicators”.

Graduate Degree - Program Course Work

The candidacy form, once approved, is an official contract between the student and university. It can be changed only with the permission of the graduate advisor via written petition to the Associate Dean of Graduate Studies, and even then the petition is likely to be denied. Course substitutions can be made by submission to CAPE of the Request for Course Substitution in Master’s Degree Program, available at www.sjsu.edu/gape/forms. A course may not be dropped from the graduate degree program, as indicated by its appearance on an approved candidacy form, once it has been completed.

If a student obtains permission to change programs and the second program has different requirements than the first one, then a new candidacy form must be filed; graded courses on the first form can be eliminated on the second form if not part of the new curriculum.
Graduation - Applying for the Master’s Degree

The Petition for Advancement to Graduate Candidacy Form must be approved by the CAPE office before applying for graduation. Students should apply for graduation at least one semester before the date of anticipated graduation. However, it is highly advised that students apply at least one year before their future graduation date.

Advancement to candidacy is permitted only when all conditions of admission, if applicable, are met, nine letter-graded units, all with grades of C or better and a GPA of 3.0 or better have been achieved, and the graduate GWAR has been completed. For detailed information about these requirements, please visit sjsu.edu/gape/current_students/completing_masters/ and the catalog section Graduate Degree - Advancement to Candidacy.

IMPORTANT: Eligible students can apply for graduation through self-service within their MySJSU account approximately two weeks after students have been approved for advancement to candidacy by the CAPE office. Students will be sent a MySJSU message including instructions and prompting them to apply for graduation. Only students that apply for graduation will be considered for graduation review.

Please note the following:

- All courses and requirements must be completed by the date of graduation.
- Any Incomplete (I), Report Delayed (RD), or Report Pending (RP) grades must be cleared before the degree can be awarded.
- Once the degree has been posted, no grade changes can be made to the record.
- If a student is unable to complete the course work stipulated on the candidacy form or if the date of graduation is delayed, a Graduation Date Change Request for Award of Master’s Degree must be requested through sjsu.edu/gape/forms/ (see Online Graduation Date Change Request).
- Required forms must be submitted by the deadlines posted on the CAPE website at sjsu.edu/gape/current_students/deadlines/.
- Students are urged not to delay; failure to submit forms by the deadlines posted could delay graduation.
Graduation Requirements - Master’s Degree

After being admitted to candidacy for the master’s degree, the student is then required to

- Maintain a minimum grade point average of 3.0 (“B”) in completing requirements in the graduate degree program. The program is defined as completed courses included in the original graduate degree program plus all additions or substitutions.
- Complete all courses in the graduate degree program with grades between “A” and “C,” or “CR.” Grades of “C-” or lower, including “NC,” “U,” “IC” and “WU,” are considered to be unsatisfactory. Should courses in the graduate degree program be completed with unsatisfactory grades, these grades must remain in the program and will continue to be computed in the grade point average of the program whether they are repeated or not.
- Complete all requirements for the degree as listed in the degree template in the university catalog. Substitutions for core and other required courses in the template must be justified by graduate advisor petitioning of the Associate Dean of Graduate Studies.
- Complete an acceptable thesis, project or comprehensive examination. The thesis (Plan A) or creative project (Plan C) requires that one copy be submitted to the Associate Dean for Graduate Studies. In Plan B, completed projects are submitted to the student’s major department and a final comprehensive oral and/or written examination over the field of concentration for the degree must usually be successfully completed. Failure on initial attempts at these exams results in administrative-academic probation. Failure of the final attempt results in administrative-academic disqualification from the degree program. The program evaluator at GAPE is notified of passage of the exam by means of graduate advisor completion of the Verification of Culminating Experience memo.
- Complete all work on the graduate degree program within seven years preceding award of the degree. If courses become outdated, the candidate should consult the section titled Graduate Degree - Time Limits on Courses in Graduate Degree Programs in this catalog concerning steps to be followed.
- Apply for award of the master’s degree by posted deadline dates through your MySJSU account two weeks after achieving advancement to candidacy.
- Note that failure to clear incomplete (“I”), report-in-progress (“RP”), or report-delayed (“RD”) grades will prevent graduation. An “I” obtained in a graded class results in an automatic grade change to an “IC” grade, which calculates to an “F” grade on the transcript, even after separation or graduation. In an ungraded (“CR/NC”) course, the “I” reverts to a no credit (“NC”) grade and is, therefore, also unsatisfactory for graduation if in a course on the candidacy form.
- Be in good academic standing (cumulative 3.0 minimum GPA in Graduate Division) at San José State University to receive a degree from this university.

Graduate Degree - Graduation Writing Assessment Requirement (GWAR)

University Policy S94-7 requires that all graduate students demonstrate competency in written English for advancement to candidacy within a master’s program. Graduate students may satisfy the Graduation Writing Assessment Requirement (GWAR) in one of four ways:

- Satisfactory completion of a discipline-specific upper-division writing course at another university judged by the Associate Dean of Graduate Studies to be equivalent in content and writing requirements to the SJSU 100W. To satisfy the requirement under this category, students are required to submit to their graduate advisors a transcript (unofficial acceptable) showing completion of the substituting course and the grade received (a “B” or better is required); the syllabus of the substituting course; and original, single-authored writing samples from the course, including especially a large term paper from the course with instructor feedback visible. If the graduate advisor approves of the substitution for an SJSU GWAR course, he or she would then petition the Associate Dean of Graduate Studies on behalf of the student. Students may not petition Graduate Studies directly.
- Approval by the Associate Dean of Graduate Studies of a well-written, professional (peer-reviewed) publication, graduate thesis or dissertation in which the student was the sole author;
- Satisfactory completion of a GWAR course listed here: www.sjsu.edu/gup/gradstudies/policy/gwar/index.html;
- Approval by the Associate Dean of Graduate Studies of a well-written, professional (peer-reviewed) publication, graduate thesis or dissertation in which the student was the sole author;

Candidates should be aware that each department may establish its own criteria within these policy guidelines, and candidates must abide by the department decision. Thus even if a student has satisfied one of the criteria above, the department must approve the waiver and can require that its GWAR-satisfying course still be taken. Graduate courses cannot be taken for credit by examination.

Graduate Degree - Master’s Examinations - Finals

It is university policy to require final examinations or defenses in master’s degree programs in all departments. Departmental requirements for these examinations vary; they may be oral, written, or a combination of both. Students following Plans A and C are usually examined primarily over areas of their theses or projects. Plan B students are generally required to demonstrate their competence by writing in a broad field of concentration, by taking comprehensive examinations, or by completing a broad course project.
In all cases, it is the candidate’s responsibility to register through the departmental coordinator of graduate studies to take all required final examinations. The candidate’s advisor and/or the departmental graduate coordinator will be able to supply general information concerning the nature of the examinations and recommended preparation for them.

The master’s diploma cannot be transmitted to the candidate until the major department certifies to the program evaluator at GAPE via the Verification of Culminating Experience memo that final examinations have been completed satisfactorily.

Required Enrollment for Culminating Graduate Students - 1290R

Continuous enrollment is required of all graduate students between completion of regular courses and satisfactory completion of the culminating experience. Graduate students who receive an RP (report in progress) grade in a thesis (299) or project (often 298) course may maintain enrollment by registering for other courses or by registering for one unit of University Studies (UNVS) 1290R or departmental 1290R (Thesis/Project Supervision) through Special Sessions for each Fall and Spring semester until completion. Effective with the Fall 2018 semester, graduate students preparing for comprehensive exams or completing a courses-only program culminating experience are included in this policy.

Graduate students who have completed their course work but are still working on their culminating experience (thesis, project or comprehensive exam) no longer may stop out for even one semester, and they cannot be granted leaves of absence for any reasons other than military leave and severe medical issues.

Departments may require repeated enrollment in project, thesis, or comprehensive exam-preparation classes each semester until completion, thereby precluding the need for the 1290R course. There are no formal class meetings for this course. Failure to register for this unit will result in a hold on graduation until the unit is retroactively added. At that time, late fees will apply.

Registration for 1290R

Registration for the 1-unit UNVS 1290R or departmental 1290R course must be delayed to give students the opportunity to enroll in other courses. Students who have an RP grade in a culminating experience course, a graduation date in the current or future semester, and no enrollment in other courses will be notified after the add period by the Registrar’s Office and given appointments for the UNVS 1290R or departmental 1290R. Graduate advisors of courses-only programs and those with culminating experiences not attached to courses with the RP grade option will need to generate appointments by submitting student names to Graduate Studies. Students with appointments may then register online through MySJSU. No permission or add code is needed. Students will have until the last day of course instruction to register for the course. To maintain their immigration status, international students are encouraged to add the course as soon as their appointments are available. In each subsequent fall and spring semester, students still completing their culminating experience will have to register for this course and will be precluded from registering for any other. The RP grade in the project or thesis course remains on the official record until the RP was received has petitioned for a grade change, and the student has submitted the online graduation application through their MySJSU account.

The Associate Dean of Graduate Studies is officially the instructor of record in all 1290R courses and is responsible for assigning the grades as well as establishing the courses with the College of International & Extended Studies each semester. Departments should not attempt to add 1290R courses on their own. To retroactively add a 1290R course requires the student to complete an online Enrollment & Grade for Retroactive 1290R Requests form, available at www.sjsu.edu/registrar/forms, and payment of associated tuition and fees.

More details on the continuous enrollment policy may be found on the Academic Senate policy website, under S17-5. Details on the RP (Report in Progress) administrative grading symbol may be found on the Academic Senate policy website, under S09-7.

For more information on required enrollment for culminating graduate students - 1290R, please visit the Graduate Studies website.

Graduation - Facilitation

Undergraduate or graduate students are precluded from enrolling in any additional state-supported courses when that student has already met all necessary requirements for the degree for which that student is matriculated. Moreover, students who have met all requirements for graduation prior to any semester in which they are enrolled will be permitted to drop all courses for which they are registered, with little or no penalty, and to graduate at the next available date. Students who have earned more than enough units to graduate but have some remaining requirements to complete will be advised and precluded from registering in any courses other than those required for a timely graduation.
There are two options for acquiring a second master’s degree. Graduate students who have completed one master’s degree program at San José State University may, with the approval of the new department, complete requirements for a second master’s degree at this institution.

In the first option, the student interested in a sequential second graduate degree after finishing another master’s degree must apply for admission to the second graduate degree program after the first degree is completed and recorded on the permanent record. All policies and procedures listed in this catalog applicable to satisfactory completion of a master’s degree apply to completion of requirements for a second master’s degree, including that program requirements must be completed within a seven-year period. Graduate Studies at SJSU will not admit an applicant in pursuit of a master’s degree if it is determined that the applicant has a similar degree already. Pursuit of a second master’s degree will receive a lower priority for admission.

The second option is pursuit of two simultaneous master’s degrees. A student in good standing enrolled in one master’s program may pursue a second master’s degree. Matriculated master’s students do not need to formally reapply to the university through Cal State Apply. However, the student must secure approval from and admission into the second master’s degree program. This requires submission of all application materials previously requested of applicants by the department or school to the first degree program, as well as any additional materials required by the second program. Current transcripts, GRE scores, English-language test scores and letters of recommendation might be among those items required by the second department or school. The student is responsible for making those items available to the department regardless of his or her date of matriculation into the first major. Individual department deadlines apply for acceptance in any particular semester. Note: Approval for admission into the second master’s program is given by means of its graduate advisor’s signature on the Master’s Level Double Degree Application; download the current form from the CAPE website.

The stipulation, however, is that a student pursuing simultaneous master’s degrees cannot apply for graduation or be awarded either degree until both degree programs are complete. Both degrees must effectively be completed at the same time, and diplomas are issued for both degrees. If a student gains admission into a second degree program while still pursuing the first degree and applies for graduation before finishing the second program, he or she will be awarded the first master’s degree and then lose matriculated status. Student status will thus be revoked and pursuit of a second master’s degree prohibited. To satisfy this procedural requirement, a student should simply delay the request for award of the first degree until the second degree program requirements have been fulfilled. Please keep in mind that graduate units expire after seven years.

Alternatively, if a second master’s degree is desired but will not be completed at the same time as the first, the student must file for graduation from the first degree program and formally apply for admission into the second program. That would require a full application, submission of all documentation required by the university and the department of the second master’s program, and acceptance by both entities. Pursuit of a second master’s degree will receive a lower priority for admission.

An approved program for a second degree should be prepared by the student and graduate advisor in the new field. If the new program happens to include course work taken in the first degree, a maximum of 33% of the total units required for the new degree may be courses completed in the previous degree at this institution. Thus, for example, a student might be permitted to apply up to 10 units toward a 30-unit program. Such courses must have been completed by the student with a grade of “A,” “B” or, in special cases, “CR.” The courses must be approved by the graduate advisor, who may limit the number of transferred units. The 33% level is allowed only for transfer of units from master’s degree programs taken at SJSU. Transfer from completed degree programs at other institutions is not allowed.

Please note that both simultaneous degree programs must be completed in the same semester to qualify for the double degree award. Both programs must also be completed within seven years. The student who finds he or she cannot complete both degree programs in the same semester has the option of dropping one of the programs and receiving a single degree. Dropping one of the programs requires informing CAPE in writing.
Interdisciplinary Studies Major - Graduate

The Interdisciplinary Studies Major for either a Master of Arts or a Master of Science degree provides an alternative for individuals whose desired study plans do not fit the degree offerings of any single existing degree program on campus. In most cases, a thesis is required for this degree. Applicants or graduate students in other majors who wish to undertake the Interdisciplinary Studies major should consult the Graduate Studies website at www.sjsu.edu/gup/docs/interdisciplinary_studies_guide.pdf to obtain the Guide for Interdisciplinary Studies Majors. The guide contains the Proposal for Interdisciplinary Studies Major, which must be completed to obtain initial approval by the Associate Dean of Graduate Studies to be able to enter the program.

For more information on the Interdisciplinary Studies program, contact:

Graduate Studies
ADM 146
www.sjsu.edu/gradstudies

Graduate Degree - Time Limits

Section 40510(b)(2), California Code of Regulations, Title 5, Education, requires that courses in completed graduate degree programs be no older than seven years at the time of the degree award. The seven-year period is counted from the end of the semester in which the course was completed. Thus no more than seven years may elapse between the time the first course in a graduate program is completed and the time the last item in the program is completed, the latter indicating fulfillment of all degree requirements. With an outdated course, the candidate has the following options:

- Repeat the outdated course with a passing grade but without credit. The new grades will be factored into the GPA for graduation, and all grade requirements, such as the 3.0 minimum GPA, will still be in effect.
- Under some circumstances, another course (one already completed or to be taken) may be used to substitute for an outdated course. Permission for the substitution must be obtained from both the program’s graduate advisor and the Associate Dean of Graduate Studies. This practice is highly discouraged, as it violates the rule that completed courses may not be removed from the candidacy form. If the original course is available for enrollment, it is unlikely that permission will be granted.
- Revalidate the outdated SJSU course by examination. Revalidation of courses is governed by University Policy S17-7. A student may revalidate a maximum of 9 units of a 30-unit master’s degree program, or 12 units for a program with more than 30 units. Only courses in which a student has earned a “B” or better may be revalidated. Permission to revalidate from Graduate Studies or from GAPE is not required; examination can proceed and the results communicated to the program evaluator at GAPE by the form entitled Request for Revalidation of Course that Has Exceeded the Seven-Year Time Limit available at www.sjsu.edu/gape/forms. Course work completed at other institutions is not eligible for revalidation, but transfer courses taken at SJSU may be revalidated. However, some kinds of courses cannot be revalidated, including supervisory courses such as project and thesis courses, seminar courses, independent study courses, and internship courses.

- Departmental 100W and 200W courses, which satisfy the Graduation Writing Assessment Requirement (GWAR), do not expire and, therefore, need not be revalidated. Other courses that satisfy GWAR are more content-based and do expire; those can be revalidated.

Veterans who are candidates for graduate degrees and who have had their graduate programs interrupted by military service may petition through the Associate Dean of Graduate Studies to extend the time limit imposed by the above regulations by the amount of time spent in military service. Nevertheless, students in this situation should apply for formal leaves of absence through the University Registrar, thereby making it unnecessary to contact Graduate Studies.

Graduate Degree - Leave of Absence

By University Policy S15-3, a formal leave of absence for graduate students for medical, care-giving, military service, personal hardship, or educational reasons may be requested by submission of the fully signed and documented Leave of Absence Petition. For detailed information on the process and restrictions see Leaves of Absence and Withdrawal.

Graduate students are eligible for all leaves of absence except when finished with all degree requirements other than their culminating experience (thesis, project, and/or comprehensive exam plus any other components required of the major). At that point, neither stopping out (voluntary absence for a semester) nor financial leaves are permissible and students must register for 1 unit of University Studies (UNVS) 1290R or a Departmental 1290R (Thesis/Project Supervision) through special session every semester until graduation (See Thesis and Project Work - RP Status - Graduate). During this stage of a graduate student’s career, leaves of absence for any reason beyond medical or military shall be precluded except under rare circumstances.
Graduate Degree - Checking the Manuscript

Graduate Studies does not serve as an editor. The author and graduate committee members should carefully proofread the thesis or dissertation before it is submitted. A careful review should be used by the student as a guide to correcting similar errors in the entire manuscript. The review conducted by Graduate Studies should also be regarded as an indicator of problems to be addressed globally throughout the manuscript. Making only the changes specifically indicated, rather than applying the criticisms to the remainder of the document, would not only result in a flawed document but would also be beneath graduate school standards. Graduate Studies will reject a thesis or dissertation with excessive errors.

Students can prevent rejection of the thesis or dissertation by ensuring that the final manuscript is free of the following frequent errors: pages for which no numbers are assigned, failure to apply reference style consistently or to cite references when needed, careless spacing or centering, inappropriate margins, incorrect footnotes or bibliography entries, redundancy, awkward or unclear sentences, grammatical errors, punctuation errors, spelling errors, word-usage errors and inconsistencies in or lack of adherence to style-manual formatting rules.

Neither SJSU nor any of its separate offices or departments is responsible for matters concerning a student’s relationships or agreements with any outside agency or individual consulted for manuscript preparation. Neither the university nor any of its offices will take part in disagreements between students and typists, editors or copy shops with regard to thesis preparation services, expected costs or billed costs. A student conducting a thesis or dissertation research off site, for example at a local company, must be free to include all of it in the thesis or dissertation. SJSU’s legal relationship is only with the student and her or her compliance with the rules set forth in this and related documents and does not include any obligations to the company in question unless expressly agreed upon in a separate legal document.

Latin Honors - Not Available for Graduate Students

Latin honors are reserved at SJSU, as at most universities, for those earning baccalaureate degrees. Because graduate students are required to maintain a minimum cumulative GPA of 3.0, all finishing graduate students would receive honors. Thus they are not considered for receipt of Latin honors. Individual programs are free to award other forms of recognition to outstanding graduate students. For more information, see University Honors at Graduation.

Thesis and Dissertation Requirements

Time is critical during the semester of submission of a master’s thesis or doctoral dissertation. Students must allow enough time for preparation of the draft, consideration by graduate committee members by the deadline dates set in departments, word processing, acquisition of permissions to publish, and the inevitable corrections. Students must leave time for the final reading and signing by the committee members. In most departments, a minimum of two months is needed for the entire process, and some departments require a longer period. Students should confer with each committee member in advance regarding the time each requires for review and whether each will be in town and available when the review and signatures are due.

These instructions provide general guidance for authors of master’s theses and doctoral dissertations at SJSU. Examples of front pages are provided in the guidelines. Students should read the guidelines carefully and consult their advisors concerning the format of the thesis or dissertation, the professional style guide to use, and journal articles to emulate, if applicable. The major department sometimes provides students with more complete formatting instructions. In rare cases, Graduate Studies will provide assistance.

SJSU participates in the University Microfilm International (UMI) Dissertation Information Service. Students completing theses and dissertations are required to email their committee-approved manuscript and accompanying documents to Graduate Studies according to the instructions provided in the SJSU Thesis and Dissertation Guidelines at http://www.sjsu.edu/gup/docs/2017_Thesis_Guidelines.pdf.

Note: International students may not take a leave of absence and must remain in the United States except for documented medical reasons. International students must be enrolled in a full course of study (9 units) for two semesters annually. Winter and Summer registration are not required. If you have further questions please contact the International Student Advising Office.

Note that the seven-year limit on course expiration (see Graduate Degree - Time Limits) remains in effect even for students who have taken leaves of absence, so it is important to plan carefully when applying for a leave of absence. Upon a student’s return, the student’s catalog rights shall pertain to his or her most recent admission date.
Graduate Degree - Plans A, B and C

SJSU offers three plans for candidates for master’s degrees.

Plan A - Thesis Plan

This plan requires approval by the candidate’s advisor and other members of the thesis committee of a thesis topic and its satisfactory production in written form. Plan A requires registration in departmental 299, Master’s Thesis, for at least one unit. Departmental 298 units or other department-specific thesis research or methodology courses are often also taken during the data-gathering stages of the thesis research. While the total number of 298 and 299 units, as well as units in any other project or thesis-research or preparatory course, is restricted for degree credit (and therefore inclusion on the candidacy form) by departmental rules and university policy, the total number of these units taken is not restricted.

Plan B - Degree-Without-Thesis Plan

Plan B is characterized by substitution of the thesis and departmental 299 units with another set of courses and either a project or comprehensive exam. The plan is expected to provide substantial practical experiences by means of the tools and techniques of advanced study in the field. The purpose of Plan B is most often to provide breadth, rather than specialization, and so is tailored by the selection of courses and the nature of the final, comprehensive exam. The exam may be oral, written, or both and constitutes the culminating experience in the plan. Many departments historically have assigned students to Plan B for projects, whether they are also accompanied by a comprehensive exam or not. The projects are usually conducted as part of a departmental 298 or otherwise numbered 200-level project course for a maximum of six units, as stipulated by the department, and the write-up for the project is required as part of the culminating experience. Departmental 299 units are not permitted for graduate credit under this plan.

Plan C - Special Plans Including Creative Projects

This plan is reserved for exceptional cases for which needs will be served best through a special arrangement of courses and/or special creative assignments. The assignments might include original paintings, dramatic presentations, motion picture productions, works of sculpture, electronic media or videotapes. In these cases, the candidate is required to submit a written report on the creative project in the form of a supplementary guide or handbook that puts the work into historical, cultural and/or professional context. This written report is to be cataloged in the university’s institutional repository in the University Library in the same manner as regular theses discussed under Plan A. Departmental advisors will provide further information on special requirements of the plan. Plan C requires registration in a minimum of one unit of departmental 299. Note that creative projects can also be conducted under the Plan B umbrella without the submission of a thesis or taking departmental 299 units.

Thesis/Creative Project Unit Conditions

Registration for departmental 299 thesis courses occurs only after advancement to candidacy for the master’s degree. By that point, the thesis committee should be fully established in accordance with the SJSU University policy. Before collection of data from human subjects, prior approval must be granted by the Institutional Review Board; see the section on Human Subjects Data Collection in this catalog. Similarly, prior approval for research on or employing animals must be granted by the Institutional Animal Care and Use Committee; see the section on Animal Research Guidelines in this catalog.

A student is allowed a maximum of nine semester units of thesis research and writing courses (departmental 299 and usually 298 but other thesis courses apply) for graduate credit in Plan A and Plan C, although more of these units can be attempted. There is no minimum requirement except that all thesis students must have at least one 299 unit. The student may register for any or all of the required thesis units in one semester, but the sequence should follow departmental guidelines and regulations. All 299 units will receive a grade of “RP” until a final grade (“CR” or “NC”) is awarded when the thesis is approved by Graduate Studies. “RP” units cannot be changed to “CR” until that time. Extensions of the two-year period for completing thesis work under the “RP” designation should be made before the period expires by means of the form available at www.sjsu.edu/gape/forms. Upon satisfactory completion of the thesis, a “CR” is submitted by the thesis chair via the Change-of-Grade form to the Registrar to clear the “RP.” A separate form must be submitted for each occurrence of “RP” (each semester the grade is displayed) on the record.
Graduate Degree - Thesis and Dissertation - Copyright Permission

If a student copies a figure, table, or a significant section of someone else’s work and it is believed that the use of these copyrighted materials is beyond that permitted by “fair use,” the student will be required to obtain separate written permission letters from the publishers or authors of the works cited. It must be indicated in the text or figure caption within the thesis or dissertation that the material is “copied with permission.” The student should plan well so that permission letters will be received in time. If letters of permission are not submitted with the final copies of the thesis or dissertation, Graduate Studies will not approve the thesis or dissertation, and UMI will not microfilm the work.

The permission letters should be included with the initial submission of the thesis or dissertation as well as when the thesis or dissertation is submitted for publication. For questions about the process, including whether permission is required for a particular insertion, contact the thesis coordinator at Graduate Studies.

Graduate Studies
ADM 146
www.sjsu.edu/gradstudies

Graduate Degree - Thesis and Dissertation - Human Subjects Data Collection

If a thesis or dissertation includes data gathered from human subjects, whether experiments, surveys, or interviews, the students must obtain approval from the SJSU Human Subjects Institutional Review Board (IRB). Information concerning the use of human participants is available online at or from the www.sjsu.edu/research/irb or from the IRB coordinator at 408-924-2479. Approval must be obtained from SJSU prior to data collection regardless of whether the research is done in conjunction with another institution that has given its approval. Approval must also be obtained even if the work is ultimately determined to be “exempt.” Federal law prohibits retroactive approval of human subjects research. Any human subject work conducted before IRB permission cannot be included in a thesis or dissertation. The thesis and dissertation will not be approved if it fails to comply with IRB policy.

Once the research is approved, thesis or dissertation submission must include a copy of the permission letter, whether as a document separate from the thesis or dissertation or as an appendix to the thesis or dissertation. Failure to submit the appropriate documentation can result in a delay or denial of thesis approval by Graduate Studies.

Graduate Degree - Thesis and Dissertation - Animal Research Requirements

If the thesis or dissertation includes research activities involving vertebrate animals or select invertebrate species, the care and use of animals or their tissues must be approved by the SJSU Institutional Animal Care and Use Committee (IACUC). Information concerning IACUC requirements and procedures is available from the IACUC Coordinator and online at http://www.sjsu.edu/research/iacuc/index.html. Animal research approval from SJSU must be obtained prior to data collection even if the work is done in conjunction with another institution from which approval has been granted. SJSU prohibits retroactive approval of animal research that is considered ongoing or completed. The official letter of protocol review, obtained with IACUC approval, must be submitted along with the thesis or dissertation whether as an appendix or as a separate document. Failure to submit the necessary documentation can result in a delay or denial of the thesis or dissertation by Graduate Studies.

Graduate Degree - Thesis and Dissertation - Approval

The last three steps in the thesis or dissertation-approval process are outlined below:

1. After the thesis or dissertation has received final departmental (graduate committee) approval, as indicated by committee signatures, the complete document should be emailed along with the completed Thesis Information Packet or Dissertation Information Packet, available at www.sjsu.edu/gup/gradstudies/thesis/index.html. Deadline dates for submission may be found at http://www.sjsu.edu/gup/gradstudies/thesis/dissertation_forms/index.html. The deadlines are firm, and exceptions are extremely rare.

2. The thesis or dissertation will be read and returned to the student with an assessment by the staff of Graduate Studies as accepted without corrections, provisionally accepted with corrections, or not accepted.

3. If the manuscript has an abundance of errors in formatting, grammar, punctuation or other writing parameters, corrections will have to be made. The advisors on the student’s graduate committee should be consulted about these corrections. It bears repeating that the Graduate Studies staff reads and edits only portions of the manuscript, but it is expected that errors of the kinds indicated be corrected throughout the manuscript. If the manuscript is accepted with corrections, the student will be instructed to resubmit it within about a four-week period from the point of notification. If it is rejected, the revised manuscript may not be submitted until the following semester.
Research - Office of Research

Students have opportunities in many majors to work with faculty on research, scholarship and creativity activity projects. Those who do can present their work in the spring semester in the SJSU Student Research Competition. Finalists of the SJSU competition are eligible for the CSU Student Research Competition. For more information, visit [http://www.sjsu.edu/research/](http://www.sjsu.edu/research/).

Office of Research

officeofresearch@sjsu.edu
[http://www.sjsu.edu/research/](http://www.sjsu.edu/research/)
Organized Research and Training Units

Research units involve industry/university partnerships to enhance technology transfer, encourage development of new products and improve education.

**Accounting Advancement Center** Links SJSU students and accounting professional firms; facilitates student networking and professional opportunities; sponsors student seminars on current accounting issues; and rewards excellence among students and faculty members through scholarships and grants.

**Bay Area Retail Leadership Center** consists of a multilateral partnership between SJSU students, retail industry partners, and SJSU faculty, administration, and staff. A program of Center-sponsored events brings constituents together in an effort to provide co-curricular, experiential learning opportunities designed to build students’ leadership skills as well as their awareness and knowledge about retailing as a career destination.

**Biotechnology Education and Research Institute** directs the development of biotechnology through inter-departmental cooperation, serves as a clearinghouse and promotes cooperation between industry, government and the university in biotechnology research and development.

**Center for Applied Mathematics, Computation, and Statistics** provides an innovative educational program to develop training through practical experience.

**Center for Applied Research on Human Services** housed in CHHS, provides supports and services to SJSU faculty interested in applied human services research, including a Grants Academy, writing groups, statistical consultation, and methodological workshops.

**Center for Asian Studies** provides information and counsel about studies in Asia.

**Center for Banking and Financial Services** provides an important complementary component to students’ curricular education in the area of financial intermediation. One of its major goals is to create a link between SJSU students and the banking and financial services sector. By promoting professional development events, the Center provides students with opportunities to interact with professionals. Another major goal is to provide value to the college and university by enhancing the students’ knowledge of financial topics. In fact, the Center sponsors presentations and lectures focusing on topics related to financial intermediation. Finally, the Center rewards excellence among students and faculty members by providing financial support through scholarships and research grants.

**Center for Comparative Philosophy** aims at promoting and enhancing the research and scholarship of comparative philosophy. Comparative philosophy considers philosophy in a global context: it emphasizes the constructive engagement between distinct methodological approaches, substantial views, or explanatory resources from different philosophical traditions and/or from the complex array of distinct approaches of the same tradition with a global vantage point.

**Center for Human Language Technology** supports the study of computational linguistics, acts as a resource for Silicon Valley technology industries and explores applications of HLT in industry, education and society at large.

**Center for International Sport and Human Performance** promotes and facilitates cross-national and cross-cultural interaction of individuals and their ideas in the context of sport and human performance.

**Center for Literary Arts** provides programs featuring major contemporary writers, poets and scholars.

**Center for Organizational Resilience** In a world of accelerating change, resilience is recognized as ever more crucial to survival, not just for individuals but for organizations as well. The mission of the Center for Organizational Resilience (COR) at San Jose State University is to serve as Silicon Valley’s Center of Excellence for theory and practice in the emerging field of Resilience Management. COR supports a network of subject matter experts coalescing to provide resilience thought leadership and research and to disseminate leading practices to academia and the public and private sectors through training, seminars and a variety of digital channels.

**Center for Service Systems Engineering and Innovation (CSSEI)** focuses on the development and application of the principles of service science and management to complex service systems. CSSEI’s focus is on investigations related to creating and/or applying technological innovations and human centered systems engineering processes to improve the customer’s Access to services and the customer’s Service Experience. CSSEI forms collaborations of faculty, students, and industry partners to improve the performance of any health care and regional transportation service system or organization.

**Center for the Development of Recycling** is a national clearinghouse for recycling information and for applied waste management research in order to increase the scope and availability of recycling information and to increase the effectiveness of recycling as a solid waste management strategy.

**Center of Smart Technology and Computing for Complex Systems (STCCS)** focuses on delivering state-of-the-art engineering solutions to industrial partners and funding agencies, and provides high-quality technical consulting services and technology training to young researchers and local professionals. Experienced academic faculty, students, and research staff at the Center will carry out highly focused R&D projects addressing current and future challenges and needs in businesses, social communities, and government agencies.

**Center on Ethics** facilitates the planning and coordination of research-related activities concerned with issues of professional and business ethics.
Collaborative for Disaster Mitigation is a proactive partnership of the public, private, and academic sectors to encourage and facilitate implementation of mitigation measures to minimize the consequences of natural and other disasters.

Global Leadership Advancement Center advances, fosters, and disseminates cutting-edge knowledge on global leadership and its development via diverse programs for scholars, students, and the community. GLAC has two innovative student programs unique to San José State: the GLLab, which is an assessment center for global competencies, and the Global Leadership Passport Program, a co-curricular program in which students earn stamps for activities that prepare them for global work. GLAC’s Social Innovation Initiative leverages the symbiotic relationship among SJSU, social entrepreneurs, the City of San José, foundations, and other innovation organizations to encourage and train people to apply technology and innovation for the good of the local community.

Institute for Metropolitan Studies facilitates the exchange of knowledge and expertise regarding urban problems and critical matters related to metropolitan development.

Institute for Modern Optics facilitates communication, collaboration, and coordination in the area of lasers and optics and promotes research projects in non-linear effects at surfaces, laser beam characteristics, two-wave laser mixing, holography, light emission from thin film tunnels, and laser spectroscopy.

Institute for People and Performance aspires to be a center of excellence aimed at advancing knowledge of human capital management, through a combination of training, research, and engagement with industry and professional organizations. Institute for Nursing Research and Practice promotes the climate of inquiry within the School of Nursing by coordinating and promoting research projects and interests of nursing faculty in order to develop innovative models for nursing research, practice, and education.

Ira F. Brilliant Center for Beethoven Studies is the only research facility and document repository in North America dedicated solely to the study of the life of and performance of the works of Ludwig van Beethoven.

Institute for the Study of Sport, Society and Social Change encourages, creates and facilitates interdisciplinary collaboration to illuminate the substance, dynamics and significance of the institution of sport as a social sphere within which issues of power and ideology are created, reaffirmed, and challenged. It is dedicated to research, analysis and education focused on the intersection of sport and social justice with activities guided by the theoretical, methodological and applied research perspectives and traditions of the sociology of sport.

Martha Heasley Cox Steinbeck Research Center houses one of the most extensive collections of John Steinbeck’s manuscripts, letters, photographs and artifacts, fostering research concerning the life and work of the author.

Materials Characterization and Meteorology Center provides materials imaging and chemical analysis capabilities for applications in various fields of science and engineering. Instruments are located in various buildings across campus.

Mineta Transportation Institute focuses on international surface transportation policy issues as related to three primary responsibilities: research, education, and technology transfer. MTI receives policy oversight from an internationally respected board of trustees who represent all of the major transportation modes.

Research Institute for Foster Youth Initiatives explores ways to eliminate barriers that current and former foster youth have at obtaining a suitable education.

Silicon Valley Big Data and Cybersecurity Center directs the development of cyber security and big data research projects through multidisciplinary cooperation. Serves as the clearinghouse and promotes cooperation between industry, government, and SJSU in research & development, policy analysis & development, and workforce training.

Silicon Valley Center for Entrepreneurship aims to promote interdisciplinary research that is valuable to entrepreneurs and aspiring entrepreneurs, support academic departments in developing an entrepreneurship curriculum informed by research, foster an entrepreneurial mind-set among students, and strengthen the connective fabric of innovation and entrepreneurship within the university and in Silicon Valley.

Silicon Valley Center for Global Engineering and Education purpose of the Center is to enhance engineering students’ educational experience and career prospects in the global context by cultivating a vital relationship between SJSU and international engineering education institutions. The activities of the Center are to develop, market, and implement educational cooperation programs to international universities and to work with various SJSU units to offer outreach activities around global engineering education.

Silicon Valley Center for Operations and Technology Management is a knowledge portal for sharing academic and industrial information related to operations, supply chain, and technology management among students, faculty members, and industry partners. It is also the point of training for supplying and supporting the professional needs of the industry. The Center will serve as a future knowledge hub through research on state-of-the-art topics relevant to the Center’s themes.

Sourisseau Academy promotes better understanding of California’s state and local history with emphasis on the history of Santa Clara Valley through graduate scholarships and collections of historical source materials.

For more detailed information on Organized Research and Training Units please visit http://www.sjsu.edu/research/oru/.
General Education (GE)

General Education (GE) - Program Objectives
A university brings together many separate areas of learning, yet it is more than just a collection of specialized disciplines. The SJSU General Education Program incorporates the development of skills, the acquisition of knowledge, and the integration of knowledge through the study of facts, issues, and ideas. Regardless of major, all who earn undergraduate degrees should share common educational experiences, as they become university scholars. In combination with major, minor, and elective courses, the General Education curriculum should help students attain those attributes found in an educated person.

Students who complete the General Education curriculum should be able to demonstrate:

• Knowledge of Human Cultures and the Physical and Natural World
  (focused by engagement with big questions, both contemporary and enduring through study in the sciences and mathematics, social sciences, humanities, histories, languages, and the arts)
• Intellectual and Practical Skills
  (practiced extensively, across the curriculum, in the context of progressively more challenging problems, projects, and standards for performance)
• Personal and Social Responsibility
  (anchored through active involvement with diverse communities and real-world challenges)
• Integrative Learning
  (demonstrated through the application of knowledge, skills, and responsibilities to new settings and complex problems)

The advancement of academic discourse requires civility and a respectful attitude toward all in the expression and consideration of a variety of viewpoints. All courses shall reinforce the ethical responsibility of students and instructors to acknowledge respectfully the learning styles and forms of expression of individuals and members of all groups.

General Education (GE) - Policies
1. All students must complete 48 units of approved GE courses with letter grades. If a requirement is waived without unit credit, additional approved GE courses must be taken to complete a minimum of 48 GE units.
2. All three areas described below must be completed by all students: Core GE (39 units), SJSU Studies (9 upper division GE units and 100W) and American Institutions (0-6 units).
3. Transfer students may fulfill all lower division core GE by completing the Intersegmental GE Transfer Curriculum (IGETC) or a CSU GE 39-unit breadth certification prior to transfer. Having completed the IGETC or CSU GE Breadth certification, the transfer student cannot be held to additional lower division core GE requirements.
4. All students must satisfy SJSU Studies at SJSU regardless of GE completed at other institutions. Exceptions:
   • Written Communication II (100W) may be satisfied prior to transfer, unless also specified as a course requirement in the major.
   • A complete 48 unit GE Certification from another CSU is submitted, showing lower and upper division completed.
   • Second baccalaureate students who earned their first bachelor degree from a regionally accredited institution in the U.S. (effective Fall 2011)
     • Student’s complete an approved upper division GE course at another CSU, in person or online
5. If a course is listed as a sequence (A-B), the entire sequence must be completed to satisfy the requirement.
6. Oral Communication (A1), Written Communication I (A2), Critical Thinking and Writing (A3), and Mathematical Concepts (B4) courses each require a minimum grade of “C- or better”.
7. Completion of Written Communication I (Area A2) with a “C- or better” is prerequisite to the WST. Satisfying the WST requirement is prerequisite to any SJSU Studies course.
8. To find approved courses, check the GE designator listed for the requirement. This designator is printed by each GE class section in the SJSU Schedule of Classes.
9. All GE courses must be on the approved list of the California Community College (CCC), California State University (CSU) or University of California (UC) for CSU Breadth Requirements or the Intersegmental General Education Transfer Curriculum (IGETC) where and when the course is taken.

10. The following GE courses require prerequisites to enroll:
   - Oral Communication (Area A1) & Written Communication I (Area A2), both passed with grades of “C- or better”, are prerequisites to Critical Thinking and Writing (Area A3)
   - Satisfaction of the Writing Skills Test (WST) requirement and upper division standing are prerequisites to SJSU Studies (Areas R, S, V, Z)
   - Completion of Area A3 (or a 2nd semester composition course) with a “C- or better” is a prerequisite to Area Z (100W).

See the Testing section for additional information about these exams.

11. Subsequent to completion of all CSU general education requirements (at the lower and upper divisions), a student may not be required to satisfy additional general education requirements outside of the major program requirements.

12. Complete information on specific requirements and approved courses is found each semester in the SJSU Policies document.

---

### General Education (GE) - Previous Requirements

Students approved for earlier GE patterns have four options:

1. Follow the pattern described here;

2. Continue to follow their previous pattern using courses that now appear in categories that are the same as the previous pattern;

   -or-

3. Use courses previously taken when approved for the required categories;

   -or-

4. Use courses in new categories to substitute for previous requirements.

### General Education (GE) - Academic Advisement

Your college student success center and Academic Advising and Retention Services provides general education academic advising to ensure your academic success and help you achieve your educational goals. To make the most of your advising sessions, please observe the following:

- You must be a currently matriculated student at the time you make an appointment.
- Bring a complete set of all college transcripts—unofficial copies are acceptable.
- Bring a copy of your General Education certification if you attended a California Community College. A partial certification is acceptable.
- Review your MyProgress and MyPlanner reports prior to your appointment.
- Learn the requirements for your major—see the [SJSU Catalog](#) for details.
- See your major advisor.

Note: Admitted students should wait until after attending an orientation program before requesting an appointment. Students who have not yet been admitted to SJSU should make an appointment for advising with Student Outreach and Recruitment at 408-924-2564.

General Education (GE) - Requirements Overview

Core General Education

**BASIC SKILLS OF AN EDUCATED PERSON**

These courses build key skills for learning - communication and critical thinking. An educated person communicates ideas effectively both verbally and in writing. Being able to organize and express ideas is a key part of learning. An educated person must also have strong reasoning powers in order to analyze critically all types of information. The skills courses within General Education provide an opportunity for students to gain and enhance critical communication and analytical skills.

- Oral Communication (A1)..................3
- Written Communication I (A2)........3
- Critical Thinking and Writing (A3).....3
- Mathematical Concepts (B4)...........3

Subtotal...........................................12 units

**BASIC KNOWLEDGE OF AN EDUCATED PERSON**

In these courses, students gain the fundamental knowledge of an educated person. Students have opportunities to demonstrate an appreciation of the fundamentals of science, arts and letters, and the forces that shape the individual and modern society throughout the lifespan. This fundamental knowledge is crucial to understanding more advanced topics, including a major field of study.

- Physical Science (B1)*........................................3
- Life Science (B2)*........................................3
- One lab course in either physical or life science is required (B3)
- Arts (C1).........................................................3
- Letters (C2)....................................................3
A third course from either Arts or Letters (C1 or C2) ... 3
Human Behavior (D1) ................................................................. 3
Comparative Systems, Cultures & Environments (D2) ... 3
Social Issues (D3) ........................................................................ 3
Human Understanding & Development (E) .................. 3
Subtotal .......................................................................................... 27 units

**SJSU Studies - Upper Division General Education (R, S, and V) and Written Communication II (Z)**

**INTEGRATED KNOWLEDGE OF AN EDUCATED PERSON**

In these courses, students become integrated thinkers who see connections between and among a variety of concepts and ideas. An educated person applies concepts and foundations learned in one area to other areas as part of a lifelong learning process. These courses help students to live and work intelligently, responsibly, and cooperatively in a multicultural society and to develop abilities to address complex issues and problems using disciplined analytical skills and creative techniques.

Earth and Environment (R) .................................................. 3
Self, Society & Equality in the U.S. (S) ......................... 3
Culture, Civilization & Global Understanding (V) ..... 3
Written Communication II (Z) ...................................... 0-3
Subtotal ....................................................................................... 9-12 units

---

**General Education (GE) - CORE (Basic Skills and Basic Knowledge of an Educated Person)**

Students must complete 39 units of Core GE courses.

**English Language Communication and Critical Thinking**

9 units

Complete one course each in Oral Communication, Written Communication IA, and Critical Thinking and Writing.

**ORAL COMMUNICATION (A1)**

Oral Communication courses should cultivate an understanding of the social, psychological, political and practical significance of communication, with special emphasis on the roles of public communication in a free society.

COMM 020 .............. Public Speaking
COMM 020N .......... Public Speaking for Nonnative Speakers
COMM 040 .............. Argumentation & Advocacy
HUM 001A-1B ^ .......... World Cultures & Societies - Honors
HUM 002A-2B ^ .......... Modern World Cultures - Honors
MAS 074 .......... Public Address
WRITTEN COMMUNICATION I (A2)

Written communication 1A courses should cultivate an understanding of the writing process and the goals, dynamics, and genres of written communication, with special attention to the nature of writing at the university.

ENGL 001A ..................First Year Writing
ENGL 01AS .................First Year Composition, Stretch II
HUM 001A-1B ^ ..........World Cultures & Societies- Honors
HUM 002A-2B ^ ..........Modern World Cultures - Honors

CRITICAL THINKING AND WRITING (A3)

Critical thinking courses should help students learn to recognize, analyze, evaluate, and produce reasoning.

COMM 041 ..................Critical Decision Making
COMM 045 ..................Media and Culture
ENGL 002 .................Critical Thinking and Writing
ENGL 007 ..................Critical Thinking
HIST 050 .................Historical Process: Understanding Historical Reasoning
HUM 001A-1B ^ ..........World Cultures & Societies- Honors
HUM 002A-2B ^ ..........Modern World Cultures - Honors
LING 021 ..................Language & Thinking
LING 024 ..................Language Variation in Space, Time, & Culture
PHIL 057 ..................Logic & Critical Reasoning
POLS 020 ..................Controversial Legal Issues

^ = Eight GE areas, including third Area C, and all of American Institutions completed when the Humanities Honors sequence (HUM 1A/1B/2A/2B) is completed with grades of "C- or better."

Scientific Inquiry and Quantitative Reasoning

9 units

Complete at least one 3-unit course in Physical Science, Life Science, and Mathematical Concepts.

At least one lab course (L) must be included.

PHYSICAL SCIENCE (B1)

In Science courses, students should master sufficiently essential quantitative and qualitative skills that are necessary to understand scientific knowledge and methods. Students should be able to incorporate scientific knowledge into the workplace and everyday life experiences.

ASTR 010 .................Descriptive Astronomy
CHEM 001A (L)* ...... General Chemistry
CHEM 001B (L)* ...... General Chemistry
CHEM 030A (L) .......... Introductory Chemistry
ENCN 005 ................. Science of High Technology
GEOG 001 ................ Geography of Natural Environments
GEOL 001 (L) .......... General Geology
GEOL 003 ................. Planet Earth
GEOL 006 ................. Geology of California
GEOL 007 (L) ............. Earth, Time & Life
GEOL 009 (L) ............. Earth Disasters
METR 010 ................. Weather & Climate
METR 012 ................. Global Warming
NUFS 001A ............. Physical Science of Foods
PHYS 001 ................. Elementary Physics
PHYS 002A (L)* ........ Fundamentals of Physics
PHYS 002B (L)* ..........Fundamentals of Physics
PHYS 023 ..........Animation Physics
PHYS 050 (L)* ..........General Physics/Mechanics
PHYS 051 (L)* ..........General Physics/Electricity and Magnetism
PHYS 052 (L)* ..........General Physics/Waves, Light, Heat

LIFE SCIENCE (B2)

ANTH 012 ..........Introduction to Human Evolution
BIOL 010 ..........The Living World
BIOL 020 (L) ..........Ecological Biology
BIOL 021 ..........Human Biology
BIOL 030 (L)* ..........Principles of Biology I
BIOL 031 (L)* ..........Principles of Biology II
BIOL 065 (L)* ..........Human Anatomy
BIOL 065O (L)* ..........Human Anatomy
BIOL 066 (L)* ..........Human Physiology
ENVS 010 ..........Life on a Changing Planet
GEOL 008 ..........Age of Dinosaurs
CLST 001B ..........Introduction to Global Studies
MICR 020 (L)* ..........General Bacteriology
NUFS 016 ..........Science, Physiology, & Nutrition

LABORATORY SCIENCE (B3)
The following courses meet the Lab requirement only.
ASTR 102 (L) ..........Astronomy Lab (1 unit)
BIOL 065L ..........Anatomy Lab for Transfer Students (1 unit)
BIOL 150/GEOL 150 (L) ..........Fld Stds Nat Hist (1-2 units)
GEOL 004L (L) ..........Planet Earth Lab
PHYS 001L (L) ..........Elem Phys Lab (1 unit)

*Intensive Science
Students who have completed the Intensive Science courses with a "C- or better", will be allowed to use these courses to fulfill the requirement in B1/B3 or B2/B3. Students may petition to have (1) grades below C- (very rarely approved), or (2) other Intensive Science courses not on the list approved as intensive science courses. Additionally, the following packages of courses, all completed with "C- or better", will satisfy Areas B1, B2, and B3: Two courses from PHYS 50, PHYS 51, or PHYS 52, and CHEM 1A; or PHYS 2A and PHYS 2B and CHEM 1A; or CHEM 1A and CHEM 1B, plus a physics course. See details on the petition at: http://www.sjsu.edu/gup/allForms/index.html#studentPetitions.

MATHEMATICAL CONCEPTS (B4)
Mathematical concepts courses enable students to use numerical and graphical data in personal and professional judgments and in coping with public issues.
HS 067 ..........Introductory Health Statistics
JS 015 ..........Introductory Statistics in Justice Studies
MATH 001 ..........Mathematical Reasoning
MATH 008 ..........College Algebra
MATH 010 ..........Mathematics for General Education
MATH 010A ..........Mathematics in Arts, Music and Politics
MATH 012 ..........Number Systems
MATH 019 ..........Precalculus
MATH 030 ..........Calculus I
MATH 030P ..........Calculus I with Precalculus
MATH 030PL*..................Calculus I with Precalculus
MATH 031*.......................Calculus II
MATH 032*.......................Calculus III
MATH 070*.......................Finite Mathematics
MATH 071*.......................Calculus for Business and Aviation
PHIL 009.........................Math & Logic for General Education
SOCI/SOCS 015..............Statistical Applications in the Social Sciences
STAT 095.........................Elementary Statistics
UNVS/MATH 015F-015S.......Statway A-B: Statistics-Concepts & Methods

*Intensive Math
Students who have not completed a course satisfying Area B4, but have completed MATH 030, MATH 030P, MATH 030PL, MATH 031, MATH 032, MATH 070, or MATH 071, with a grade of “C- or better” will be allowed to use one of these courses to fulfill the Area B4 requirement.

Arts & Letters (Area C)

9 units

Effective Fall 2014, Area C3 has been discontinued. Completion of 9 units in Area C is still required.

In Area C, complete no fewer than 9 semester units, with at least one course in the Arts (C1) and one in the Letters (C2).

Arts and Letters courses should give students knowledge and understanding of significant works of the human intellect and imagination. Courses should enable students to participate in social and cultural communities associated with artistic and literary endeavors, enriching their personal and professional lives.

**ARTS (C1)**

AMS 001A-B..................American Civilization
ARTH 015......................Intro to Visual Culture
ARTH 070A......................Art History, Prehistoric to Medieval
ARTH 070B......................Art History, Renaissance to Modern
ARTH/ASIA 070C..............Arts of Asia
ARTH 072......................Design in Society
CA 095.........................Introduction to Queer Arts
DANC 010......................Dance Appreciation
FORL 025......................World Cultures through Literature and Cinema
HUM 001A-1B^..............World Cultures & Societies- Honors
HUM 002A-2B^..............Modern World Cultures - Honors
KIN 068.........................Visual Representations of Sport in Popular Culture
MUSC 004A*..................Music Systems IVA
MUSC 004B*..................Music Systems IVB
MUSC 010A......................Music Appreciation
MUSC 010B......................Introduction to Music
MUSC/ASIA 019..............Music in World Cultures
PHIL 066......................Introduction to Aesthetics
RTVF 010......................The Art of Film
TA 005.........................Acting
TA 010.........................Theatre Appreciation

**LETTERS (C2)**

AMS 001A-B ..................American Civilization
CHIN 001A......................Elementary Chinese
CHIN 001B......................Elementary Chinese
CHIN 025A......................Intermediate Chinese
CHIN 025B......................Intermediate Chinese
ENGL 001B ..........................................Argument and Analysis
ENGL 010 .............................................Great Works of Literature
ENGL 020 .............................................The Graphic Novel
ENGL 021 ...........................................Mystery Fiction
ENGL 022 ..........................................Fantasy & Science Fiction
ENGL 040 ...........................................Contemporary World Fiction

PHIL 061 ................................................Moral Issues
PHIL 070A ............................................Ancient Philosophy
PHIL 070B ............................................Modern Philosophy
POLS 003 .............................................Introduction to Political Thought
RELS 070 ...........................................Gods, Guns, Gurus, Grails -World Religion
RELS/HUM/JWSS/MDES 090 .. Bible Hist and Lit
SPAN 001A ..........................................Elementary Spanish
SPAN 001B ..........................................Elementary Spanish
SPAN 025A ...........................................Intermediate Spanish
SPAN 025B ...........................................Intermediate Spanish
TA 013 ..................................................Great Comedies for Theatre

^ = Eight GE areas, including third Area C, and all of American Institutions completed when the Humanities Honors sequence (HUM 1A/1B/2A/2B) is completed with grades of “C- or better.”

*Intensive Music

Students who have completed the Intensive Music courses, MUSC 4A, MUSC 4B and MUSC 12, with a "C or better", will be allowed to use these courses to fulfill the requirements of Area C. Students may petition to have (1) grades below C (very rarely approved), or (2) other Intensive Music courses not on the list approved as intensive music courses. See details on the petition at: http://www.sjsu.edu/gup/allForms/index.html#studentPetitions.
Social Sciences
9 units
Complete one course each in Human Behavior, Comparative Systems, and Social Issues.
Social Science courses should increase the student’s understanding of human behavior and social interaction in the context of value systems, economic structures, political institutions, social groups, and natural environments

**HUMAN BEHAVIOR (D1)**
Human Behavior courses will enable students to be able to recognize the interaction of social institutions, culture, and environment with the behavior of individuals.
- ANTH 011 — Cultural Anthropology
- CHAD 075 — Imagination, Play & Adult Creativity
- CMPE/CS 025 — The Digital World & Society
- COMM 010 — Communication & Human Relationships
- COMM 021 — Performing Culture & Society
- ECON 001B — Principles of Economics: Microeconomics
- ENGR/TECH 098 — Technology & Women
- GEOG 010 — Cultural Geography
- HS/GERO/RECL 015 — Human Life Span
- LING 020 — Nature of Language
- LING 024 — Language Variation in Space, Time, & Culture
- MAS 030 — Race & Ethnicity in Public Space
- PSYC 001 — General Psychology
- SOCI 001 — Introduction to Sociology
- WOMS 005Q — Gender, Race & Sexuality in Media
- WOMS 010 — Perspectives on Sex & Gender Roles

**COMPARATIVE SYSTEMS (D2)**
Courses in this area will enable students to compare and contrast two or more ethnic groups, cultures, regions, nations, or social systems.
- AAS 033A-33B — Asian Americans in the United States Historical & Political Process
- AAS/AFAM/MAS 025 — The Changing Majority: Power & Ethnicity in America
- AFAM 002A-2B — African-Americans and the Development of America’s History and Government
- AMS 001A-1B — American Civilization
- GEOG 012 — Global Geography
- HIST 010A — Western Civilization
- HIST 010B — Western Civilization
- HIST 015 — Essentials of U.S. History
- HUM 001A-1B — World Cultures & Societies- Honors
- HUM 002A-2B — Modern World Cultures - Honors
- MAS 10A-10B — Mexican Americans & the Development of U.S. History and Government
- POLS 002 — Introduction to Comparative Politics
- WOMS/AAS 020 — Women of Color in the US

**SOCIAL ISSUES (D3)**
Social Issues courses will enable students to apply multidisciplinary material to a topic relevant to policy and social action at the local, national, and/or international levels.
- AAS 033A-33B — Asian Americans in the United States Historical & Political Process
- AMS 001A-1B — American Civilization
- ENVS 001 — Introduction to Environmental Issues
- AFAM 002A-2B — African-Americans and the Development of America’s History and Government
HUM 001A-B .......... World Cultures & Societies - Honors
HUM 002A-B .......... Modern World Cultures - Honors
JS 025 ................. Introduction to Human Rights and Justice
MAS 010A-10B ........ Mexican Americans & the Development of U.S. History and Government
MCOM 072 .............. Mass Communication & Society
POLS 004 .............. Introduction to International Relations
POLS 015 .............. Essentials of U.S. & California Government
SOCI 080 ............... Social Problems

^ = Eight GE areas, including third Area C, and all of American Institutions completed when the Humanities Honors sequence (HUM 1A/1B/2A/2B) is completed with grades of "C- or better."

**Human Understanding & Development**

3 units

Complete one course.

Human Understanding and Development courses will enable students to understand themselves as integrated physiological, social, and psychological entities who are able to formulate strategies for lifelong personal development. Students will also learn skills to employ available university resources to support academic and personal development.

**HUMAN UNDERSTANDING & DEVELOPMENT (E)**

- ANTH 025 ......... Human Lifecourse in Context
- BIOL 054 ......... Human Understanding
- BUS3 012 ......... Money Matters
- CA 060 ......... Creativity Matters
- CHAD 060 ......... Child Development
- CHAD 070 ......... Lifespan Development in the 21st Century
- COMM 074/074Q .... Fundamentals of Intercultural Communication
- EDCO 004/004FY ...... Personal, Academic & Career Exploration
- ENGR 010* ......... Introduction to Engineering
- GEOL 005 ......... Human Development & the Natural World
- RECL 010 .......... Creating a Meaningful Life
- HS 001 .......... Understanding Your Health
- KIN 069 .......... Stress Management: A Multidisciplinary Perspective
- LING 022 ......... Language Across the Lifespan
- NUFS 009 .......... Introduction to Human Nutrition
- PHIL 012 .......... Philosophy of the Person
- PSYC 002Q .......... Identity Development & Prejudice
- RELS/HUM/CERO 099 .......... Death, Dying & Religions
- SCI 002 .......... Success in Science
- SOCI/UNVS 057 .......... Community Involvement & Personal Growth
- TA 048 .......... Voice & Movement for the Actor

*For specific department/program majors only*
American Institutions Courses

6 Units

- All three requirements (US History, US Constitution, and California Government) must be completed from the following course work.
- Courses do not satisfy Core GE unless there is a GE area designator in parentheses.
- The WST is a prerequisite for HIST 170S and POLS 170V only.

Courses in American Institutions should expose students to alternative interpretations of the historical events and political processes that have shaped the social, economic, and political systems in which we live.

**US HISTORY, US CONSTITUTION & CALIFORNIA GOVERNMENT (US 1-2-3)**

All of these sequences satisfy Core GE requirements listed in parentheses. All courses in the sequence must be completed to satisfy the requirement.

- AAS 033A-33B ^Asian Americans in the US Historical & Political Process (D2/3)
- AFAM 002A-2B ^African-Americans & the Development of America's History and Government (D2/3)
- AMS 001A-1B ^American Civilization (C1/2, D2/3)
- HUM 001A-1B ^World Cultures & Societies - Honors (A2, C1/2, D2)
- HUM 002A-2B ^Modern World Cultures - Honors (A1/3, C1/3, D2/3)
- MAS 010A-10B ^Mexican Americans & the Development of US History and Government (D2/3)

**AMERICAN HISTORY ONLY (US 1)**

- HIST 015 ^Essentials of U.S. History (D2)
- HIST 020A ^History of the American People
- HIST 020B ^History of the American People
- HIST 170 ^Topics American History
- HIST 170S ^Topics Am History: Am Identities (S)

**US CONSTITUTION & CALIFORNIA GOVERNMENT ONLY (US 2-3)**

- POLS 001 ^American Government
- POLS 015 ^Essentials of US & California Government (D3)
- POLS 170V ^Am Politics-Global Perspective (V)

**CALIFORNIA GOVERNMENT ONLY (US 3)**

- HIST 189A ^California to 1900
- HIST 189B ^California from 1900
- POLS 102 ^State Government & Politics

^ = Eight GE areas, including third Area C, and all of American Institutions completed when the Humanities Honors sequence (HUM 1A/1B/2A/2B) is completed with grades of “C or better.”

**SJSU Studies**

Students complete 9 to 12 units of SJSU studies: 9 units of upper division general education courses (Areas R, S, and V) and 0 to 3 units of 100W (Area Z). In some cases that SJSU Studies areas are integrated in a single course or overlap with major courses.

- Complete one SJSU Studies course in each category.
- Completing Area Z with a grade of “C or better” (C not accepted) is a graduation requirement.
- Prior to enrollment, all SJSU Studies courses require completion of core GE, satisfaction of Writing Skills Test and upper division standing. Pre/Co-requisite of a 100W course is strongly recommended for enrollment in Areas R, S, and V.
- Students who fail the WST may satisfy this requirement by passing ENGL 100A or LLD 100A with a grade of “C or better.”
• Students can satisfy Areas R, S, & V by taking COMM/ENVS/GEOL/HUM/METR 168A/168B: Global Climate Change or HUM 177A/177B: Advanced Honors in Integrated Science, Social Science and Humanities. These are year-long courses sequences: students enroll in 6 units in the Fall and 3 units in the Spring. By successfully completing one of these course sequences with a “C or Better” in each semester, students satisfy all nine units of upper division GE (Areas R, S, & V) within SJSU Studies.

• All first baccalaureate students are required to have a minimum aggregate GPA of 2.0 in their upper division GE courses (Areas R, S, & V). If more than one course is taken in any of the individual R, S, or V areas, then the highest grade in that individual area will be used to calculate the aggregate SJSU Studies GPA. This policy is effective Fall 2011 for all SJSU students who do not have catalog rights prior to Fall 2011.

• Second baccalaureate students who earned their first bachelor degree from a regionally accredited institution in the U.S. are not required to take SJSU Studies unless specific courses are required by the major. (Effective Fall 2011)

• Transfer students who complete any portion of upper division GE at another CSU campus may request equivalency for coursework in SJSU Studies. Contact the Office of Graduate & Undergraduate Studies for evaluation of coursework.

Areas R, S, and V.

9 units

Complete one 3-unit course from each category.

**EARTH & ENVIRONMENT (R)**

Courses in Earth and Environment will cultivate a student’s knowledge of the scientific study of the physical universe and its life forms. Students will understand and appreciate the interrelationship of science and human beings to each other.

ANTH 160 Reconstructing Lost Civilizations

SELF, SOCIETY & EQUALITY IN THE U.S. (S)

In these courses, students will study the interrelationships of individuals, racial groups, and cultural groups to understand and appreciate issues of diversity, equality, and structured inequality in the U.S., its institutions, and its cultures.

### CULTURE, CIVILIZATION & GLOBAL UNDERSTANDING (V)

In these courses, students should receive an appreciation for human expression in cultures outside the U.S. and an understanding of how that expression has developed over time. Additionally, students should understand how traditions of cultures outside the U.S. have influenced American culture and society.

Written Communication II
3 units

All students must satisfy Area Z (GWAR) by

- Earning a "C or better" in a 100W course, all of which enforce the prerequisite of a passing score on the writing Skills Test (WST) or a grade of "C or better" for ENCL 100A or LLD 100A.
- For most degree programs, students should take the 100W course that is required as part of the degree program (listed below); or
- Completing the Graduation Writing Assessment Requirement (GWAR) while matriculated at another CSU, or equivalent course work at another university prior to SJSU enrollment; or
- A waiver score on the WST satisfies Area Z without the need to complete a 100W course only in majors that permit a waiver score. Majors that do not permit a waiver (regardless of score) are listed below.

- Effective Fall 2011: Second baccalaureate students who earned their first bachelor degree from a regionally accredited institution in the U.S. are not required to take this course unless required by their major department.

In written communication II courses, students will develop advanced proficiency in college-level writing and appropriate contemporary research strategies and methodologies to communicate effectively to both specialized and general audiences.

WRITTEN COMMUNICATION II (Z)

AFAM 100W
ANTH 100W
ART 100W
BIOL 100W
CHAD 100W
CHEM 100W
COMM 100W
CS 100W
DSGN 100W
MAJORS REQUIRING WRITTEN COMMUNICATION II (AREA Z)

The following majors require that students complete the Written Communication II (Area Z) course regardless of their score on the Writing Skills Test (i.e., no waiver allowed).

- African American Studies
- Chemistry
- Communication Studies
- Engineering (all majors)
- English
- Environmental Studies
- Geography
- Geology
- Global Studies
- History
- Meteorology
- Nursing
- Political Science
- Psychology
- Social Science (Teacher Preparation and Multiple Subject Preparation)
- World Languages and Literature (all majors)
## Major Exceptions and Modifications for GE and SJSU Studies

Students with the following majors must consult with their major advisors regarding approved modifications of GE. Most exceptions are valid only if the student graduates with the listed degree major (noted by major). General Education Attribute Legend [http://info.sjsu.edu/static/catalog/ge-course-attributes.html].

SB1440 Programs with PE Waivers
The following SB1440 TMC Roadmaps include PE Waivers:

- Art - Concentration in Art History & Visual Culture (BA)
- Behavioral Science (BA) \{with AA-T in Global Studies or AA-T in Social Justice Studies\}
- Biological Sciences (BA)
- Biological Sciences, Concentration in Ecology and Evolution (BS)
- Biological Sciences, Concentration in Microbiology (BS)
- Biological Sciences, Concentration in Molecular Biology (BS)
- Biological Sciences, Concentration in Systems Physiology (BS)
- Business Administration, Concentration in Business Analytics (BS)
- Business Administration, Concentration in General Business (BS)
- Business Administration, Concentration in Global Operations Management (BS)
- Business Administration, Concentration in Entrepreneurship (BS)
- Business Administration, Concentration in Finance (BS)
- Business Administration, Concentration in Human Resource Management (BS)
- Business Administration, Concentration in Management (BS)
- Chemistry (BA)
- Chemistry (BS)
- Chinese (BA) \{with AA-T in Global Studies or AA-T in Social Justice Studies\}
- Computer Science (BS)
- Economics (BA) \{with AS-T in Business Administration\}
- English (BA)
- English - Concentration in Professional and Technical Writing (BA)
- English - Concentration in Creative Writing (BA)
- Forensics Science - Concentration in Biology (BS)
- Forensics Science - Concentration in Chemistry (BS)
- French (BA) \{with AA-T in Global Studies or AA-T in Social Justice Studies\}
- Geography (BA)
- Hospitality Management (BS)
- Humanities - Concentration in Religious Studies (BA)
- Japanese (BA) \{with AA-T in Global Studies or AA-T in Social Justice Studies\}
- Math (BA)
- Math - Preparation for Teaching (BA)
• Physics (BS)
• Radio-TV-Film (BA)
• Social Science- Preparation for Teaching (Multiple Subject) (BA) {with AA-T in Elementary Education}
• Spanish (BA)
• Spanish (BA) {with AA-T in Global Studies or AA-T in Social Justice Studies}
• Spanish - Preparation for Teaching (BA)

Registration

Make sure you have working access to http://my.sjsu.edu

Make sure your browser (Explorer, Firefox, Safari) will work at MySJSU.

For your convenience, computer access locations are available at these campus locations:
• Clark Hall
• King Library
• Associated Students Computer Lab, Student Union
• Lobby, Student Services Center
• Peer Connections, Student Services Center
• Campus wireless hotspots

SJSU ID
• Use your SJSUOne login information to sign into MySJSU. Your SJSU ID, also known as your Tower ID, is the number found on the front of your Tower Card.
• Your ID can not be changed.
• New students receive this information from Admissions Office communications.

Password
• You can set your password for the first time or reset it if you have forgotten it by navigating to http://my.sjsu.edu and clicking on the Set/Reset Password button.
• When setting or changing your password, pay close attention to the case in which you enter the letters.
• Remember, your password is case sensitive!
• If you are having difficulty resetting your password, please contact ithelpdesk@sjsu.edu for assistance. Include your full name, SJSU ID if known, your date of birth, and your mailing address.

What to do if you can’t log in
• Contact ithelpdesk@sjsu.edu for assistance.

Registration - Appointments and Class Schedule

Do your research and plan your schedule

Check your enrollment appointment at http://my.sjsu.edu.

You will not be able to register before your appointment time, but you can enter the system, run MyProgress and MyPlanner, and research course offerings, degree requirements, course prerequisites, etc. You will not be able to register until you clear registration holds (see Registration Holds).

It is your responsibility to monitor your account to see when the appointment time is posted. Note that enrollment appointments are not mailed to students.
Create a registration worksheet before logging on

Build a sample schedule and have alternate schedules or classes prepared in the event courses are either closed or cancelled. SJSU offers course listings to you in 3 ways:

1. http://my.sjsu.edu class schedule search function: Real-time updates of available courses (open and closed sections, seats remaining).
2. info.sjsu.edu: Instructions, policies, procedures and course listings at one URL. Searchable, linked to SJSU Catalog degree templates.
3. info.sjsu.edu links to PDFs (Portable Document Format): Best current format if you want or need to print schedule pages.

Registration - Course Offerings and Cancelled Classes

The courses listed in the online SJSU Schedule of Classes reflect the scheduled offerings by the departments available at the publication deadline. The online schedule of classes posted at MySJSU provides real time status of classes. Departments have the option, based on enrollment, to cancel and/or add sections or courses.

Registration - Priority Groups

Current work-in-progress is used to determine class level for registration purposes. All priority groups are approved by the Student Success Committee of the Academic Senate, per University Policy F17-4.

Group One
Priority Students
Students who are required by external agencies such as the National Collegiate Athletic Association, or by law, to receive priority. This excludes students covered by SB 412, the California Promise program unless they also fall under another group with required priority registration.

Students whose contributions to the university are recognized as being so extensive that their graduation would be postponed by the amount of time spent on their extracurricular duties.

Students serving on Senate committees that require student participation in order to perform essential functions.

Students who are part of any group that has a contractual agreement with SJSU to provide a full course load. Groups in this category include:

- Accessible Education Center (AEC) students
- AEC note takers
- Associated Students Board of Directors
- Student Fairness Committee Members
- NCAA Athletics
- Guardian Scholars
- Reciprocal Exchange students
- Veterans (as per Cal. Educ. Code §66025.8)
- Students serving on Academic Senate committees that require student participation in order to perform essential functions
- Students who are part of any group that has a contractual agreement with SJSU to provide a full course load
- Appropriately certified students with disabilities

Group Two

- Graduating seniors (bachelors-level students who have a graduation application on file with an anticipated graduation date for the current or next semester) in the California Promise program
- Remaining graduating students (bachelors- and graduate-level students who have a graduation application on file with an anticipated graduation date for the current or next semester)
Group Three
- Non-graduating Graduate students based on alphabetical groupings

Group Four
- Seniors in the California Promise Program
- Non-graduating Seniors based on alphabetical groupings

Group Five
- Second Baccalaureate students based on alphabetical groupings

Group Six
- Juniors in the California Promise Program
- All other Juniors based on rotating alphabetical groupings

Group Seven
- Sophomore and continuing Freshmen in the California Promise Program
- All other Sophomores and continuing Freshmen based on rotating alphabetical groupings

NOTE: First-Time Frosh registration is completed through Frosh Orientation. Incoming transfer students have a registration date dependent on when they matriculate.

Registration - Adding a Class

Go to http://my.sjsu.edu
Enter your SJSU ID and Password
Navigate to Academics > Add a Class
- Select the correct term. If you do not see the desired term, you are not eligible to enroll. New students should contact Admissions. Continuing students should contact the Registrar’s Office.

Choose the class you wish to add.
To search the schedule, click the green “Search Button.” Make sure the Course Career is set to Graduate or Undergraduate depending on the class you are searching for. If you find a class you wish to add, click the “Select Class” button to place it in your shopping cart.
Alternatively, if you know the class number for the class you wish to add, you can simply type the 5 digit Class Nbr and click the Enter button.
Either way, once you have chosen a class, a new page called “Class Enrollment Options” will appear. Verify that the course is the one you selected. If required, enter any permission numbers and select any related components if applicable, and click Okay. The Add Classes page will appear, and you will see your classes in your shopping cart.

Warning: you have not yet added your classes.

Component Classes
If the course has related components attached to it (e.g., lab, seminar), the system will prompt you to select the one you wish to add.

Department or Instructor Consent
If you received a Class Permission Number, enter it in the available field. Please note that most classes will require a Class Permission Number if you are adding during Late Registration.

Switching Class Sections?
You must drop the section (lecture and labs/seminar, as well, if they have related components or corequisites) before adding the new class section(s).
Add Additional Classes
If you want to add another class to your add classes list, simply repeat the previous steps.

Warning: Finish Enrolling
Make sure you complete the process! Once you have added all your classes to your shopping cart, click the green button that says “Proceed to Step 2 of 3.” On the next page you will be given the chance to review your enrollment and make sure that it is accurate. Once you have verified your classes, click the green “Finish Enrolling” button to submit your registration.

Verify Add
Check to make sure you did not receive any errors for the classes you added. If you did, you can see a message explaining why you could not add the class, for example, prerequisites not met, or the class is full. Finally, check your class schedule to make sure all the classes you added appear.

Registration - “Instructor Consent” or “Department Consent”
Should you receive a registration error indicating that “Instructor Consent” is required, you must go to the instructor to obtain the Permission number. To add the course, use the Permission Number with the Class Number for that specific course section, as listed in the course schedule.

“Department Consent” requires students to go to the department that offers the course to obtain the Permission Number. To add the course, use the Permission Number with the Class Number for that specific course section, as listed in the course schedule.

Permission numbers become ‘used’ only after an enrollment request is successful. To assure a successful enrollment request if you are adding using a permission number, remember the following before clicking the submit button:

Remember the following before clicking the submit button:
- Check that you have no holds.
- Check that you have met all prerequisites.
- Only enter the enrollment section in the class number section.
- Enter any and all Component Courses (e.g., corequisite labs or seminars) and determine what required course is approved even before trying to “Enroll in the Class.”

To enroll if you submitted a number but received an error, re-enter the same permission number after resolving the error.

Registration - Adding Classes on the First Day of Instruction
At the first class meeting, Group 3: Graduating Students (bachelors and graduate level students who have a graduation application on file with an anticipated graduation date for the current or next semester) shall have top priority for any available spaces. Students seeking to add the course should provide documentation showing that they are graduating seniors as defined above.

An impartial procedure (such as a lottery or any other method of random selection) shall be used to choose, from among the graduating seniors, those who will fill the available spaces.
- University Policy S93-7

Registration - Adding Classes after the Last Day to Add
Per University Policy F09-2, students can submit the Pre-census Late Enrollment petition form to the Registrar’s office. This petition is valid through census date.

Likewise, after census date, students can petition for late add using the Post-Census Late Enrollment form. This form replaces the Retroactive add petition form. Petition forms can be found on the Registrar’s website at www.sjsu.edu/registrar/forms/.
Registration - Late Fee Assessed

Students registering for classes after the term begins are assessed a late registration fee. Students in the Step to College programs are not required to pay the late registration fee.

<table>
<thead>
<tr>
<th>Amount</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>$25.00</td>
<td>Begins the first day of instruction for initial enrollment within the term.</td>
</tr>
<tr>
<td>$45.00</td>
<td>Begins after late registration deadline and before census for any classes added.</td>
</tr>
<tr>
<td>$200.00</td>
<td>Begins after census for any classes added (includes Retroactive Adds - which begins the first day after instructions ends).</td>
</tr>
</tbody>
</table>
Waitlisting - Registration

SJSU has “waitlisting” for all classes. Waitlisting puts you in line to get a space in a closed class, should a space become available before the end of advanced registration.

Where do I sign up?

Waitlisting is only available at MySJSU (http://my.sjsu.edu). If a class is full, you may place yourself on a waitlist for any seats that might become available.

Waitlist When You Add Classes

- Navigate to ‘add classes.’
- At “Step 1, Select classes to add,” search for your preferred course.
- If the class is full and the waitlist option is available, you will see the yellow waitlist icon.
- To place yourself on the waitlist, you must click the checkbox next to “Wait list if class is full.”
- You will be returned to Step 1. You must complete the remaining steps of the process to add classes.
- When you finish enrolling in the class, you will see a message indicating that you are on the waitlist and your current position number on the list.
- Monitor your waitlist position by navigating to “My Class Schedule” at MySJSU.

Feedback

Problems? Questions? Comments? Contact Registrar@sjsu.edu.

Waitlist - Validity

You can add yourself to the waitlist for a class from the time the class is full until the end of Advance Registration period.

- Waitlists become null and void after this date.
- There is no guarantee you will be moved off the waitlist and enrolled in the class.
- The waitlist cannot enroll you for a different section of the same class and cannot override a time conflict.
- When classes begin, instructors are not required to add students who were waitlisted for the class.
- Check your schedule regularly at MySJSU to monitor your position on a waitlist.
- If you decide you no longer wish to wait for space to become available, as a courtesy to other students, drop yourself from the waitlist.

Waitlist - Registration Procedures

- All scheduled class sections have waitlists.
- You may place yourself on the waitlist provided the list is not already full.
- If you are already enrolled in another section of the same course, you will not be moved from the waitlist if space becomes available unless you drop the section you are enrolled in.
- If there is a time conflict with a class for which you are already enrolled, you will not be moved from the waitlist.
- You must meet any requisites for the class before you can be placed on the waitlist, e.g., course pre-requisites, section co-requisites, major and class level restrictions. See related catalog/course descriptions at http://my.sjsu.edu.
- When you place yourself on a waitlist, you hold a position that changes as students ahead of you get added to the class or drop off the waitlist.
- You may waitlist for up to 5 units in addition to your enrollment limit.
- You may not go over your enrollment limit. For example, if moving into a course from a waitlist exceeds your enrollment limit, you will not be enrolled in the class.
- Waitlists have priority over all general add requests. If students drop from a full class, students from the waitlist will be placed in the class before any student who logs in and requests the class, but is not on the class waitlist.
- If you are moved from the waitlist into the class, you will receive a confirmation message in your MySJSU account.
- As with any class, when you move from the waitlist into a class, it is your responsibility to drop the class if you decide not to attend. Failure to properly drop the class will result in a “WU” grade on your record which will lower your grade point average.
- It is your responsibility to monitor your movement up the waitlist, your enrollment limit, potential time conflicts and any additional fees due.
How do I move from the waitlist into the class?

Students are moved from the waitlist into the class if space becomes available, in the order they have been placed on the waitlist and subject to the restrictions described.

Students will be moved from the waitlist and placed into the class if other students drop or are dropped due to non-payment of fees.

<table>
<thead>
<tr>
<th>Waitlist - Registration Issues</th>
</tr>
</thead>
<tbody>
<tr>
<td>- There is a time conflict with another registered class: compare the exact time of the classes for which you have registered—even a 15 minute overlap will prevent you from moving from the waitlist into the class. Since potential time conflicts are not checked when you place yourself on a waitlist, it is your responsibility to make sure that waitlisted classes do not conflict with your enrolled schedule.</td>
</tr>
<tr>
<td>- You are already enrolled in another section of the same course: you will not be moved from the waitlist if space becomes available unless you drop the section you are enrolled in.</td>
</tr>
<tr>
<td>- If you are repeating the course: you will not be moved into the class. Instructors will have the discretion to allow you to register for the class with a permission number during Late Registration—the first day of instruction through the last day to add.</td>
</tr>
<tr>
<td>- For a course with components: you can waitlist in any section, but you must select all desired sections (lecture, lab and seminar). Space must open in all sections for you to be added to the class.</td>
</tr>
<tr>
<td>- You will not be enrolled from the waitlist if a hold is placed on your record after you sign on to the waitlist. If—for any of the reasons given above—you cannot be moved from the waitlist, you will be skipped over and the next student considered. You will not be reconsidered until the next time space becomes available in the class.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Waitlist - Registration Billing</th>
</tr>
</thead>
<tbody>
<tr>
<td>- You may be added into waitlisted classes at any time which might incur additional charges. It is important to check your class schedule and amount due daily to avoid possible cancellation of all your classes for failure to pay your fees in full by your payment due date.</td>

</tbody>
</table>
Registration - Dropping a Class

Go to [http://my.sjsu.edu](http://my.sjsu.edu)
- Enter your SJSU ID and Password
- If you drop a class, you must do so prior to the time you submit payment to ensure that your registration fees are properly assessed.

Navigate to “Self Service” > Student center > Drop a class”
- Click on “Drop Classes”
- Click the checkbox next to each class you wish to drop and click “Drop Selected Classes.”
- Review your selection and click “Finish Dropping.”
- It is the student’s responsibility to make sure classes are dropped.

Registration - Dropping Without Penalty

Courses may be added during the first fourteen days of classes. Courses may be dropped without academic penalty during the first nine days of classes. See the Calendar section or [www.sjsu.edu/registrar](http://www.sjsu.edu/registrar) for exact dates and deadlines. Courses dropped during this initial period will not appear on the student’s transcript. With instructor consent, students may late add a class up to one week later. Please view the pro-rata refund schedule for the appropriate semester at [http://www.sjsu.edu/bursar/payment_refunds/prorata_refund/index.html](http://www.sjsu.edu/bursar/payment_refunds/prorata_refund/index.html)

Registration - Dropping Classes After Drop Deadline

Dropping Classes After the Fourteenth Day of Instruction

Students may petition to late or retroactively drop a course or withdraw from an entire semester of courses for serious and compelling reasons after the drop deadline. Check the official academic calendar to verify the date.

Conditions and circumstances are defined as “serious and compelling” only if beyond the student’s control. Those acceptable as justifications for a late drop must have occurred after the drop deadline. A personal statement with supporting documentation must be submitted with the late and retroactive drop and withdrawal forms.

Undergraduates may download the appropriate petition (course drop or withdrawal from all courses) at [www.sjsu.edu/aars/forms](http://www.sjsu.edu/aars/forms). Graduate students may download the appropriate petition at [www.sjsu.edu/gape/forms](http://www.sjsu.edu/gape/forms).

Submission of these forms, even with an instructor’s signature, does not constitute approval. Continue attending class and complete all assignments until the petition is approved or denied.

Registration - Instructor Drops

Instructors are permitted to drop a student who fails to establish a committed presence in the class. “Establishing a committed presence” is defined as the following options for the student:

1. In-person classes. Attending the first class meeting or informing the instructor of the intention to continue in the class before 48 hours after the first official class meeting.
2. Online classes. Logging on to the LMS class shell on the first scheduled day of the class or informing the instructor of the intention to continue in the class before 48 hours after the official class start date.

Some instructors will drop students who do not meet the stated course prerequisites. However, they are not required to do so. It is the student’s responsibility to make sure classes are dropped.

Detailed information for instructors is available for download at [www.sjsu.edu/registrar/docs/instructor_Drops_Procedure.pdf](http://www.sjsu.edu/registrar/docs/instructor_Drops_Procedure.pdf)

Registration - Late Drop Petitions

Students may petition to Late Drop for serious and compelling reasons after the drop deadline. To verify the official dates, see [www.sjsu.edu](http://www.sjsu.edu) for links to the official academic calendar. Petitions are available at [www.sjsu.edu/aars/forms](http://www.sjsu.edu/aars/forms) for undergraduates and [www.sjsu.edu/gape/forms](http://www.sjsu.edu/gape/forms) for graduate students.
Conditions and circumstances are defined as ‘serious and compelling’ and are considered beyond the student’s control, and which occurred after the drop deadline.

A personal statement submitted without supporting documentation is not acceptable. Acceptable documentation includes:

- **Personal health or serious family illness**
  - Serious health reasons out of your control (e.g. personal health, serious family illness or assigned caretaker). Attach Healthcare Provider Form found at [http://sjsu.edu/aars/forms](http://sjsu.edu/aars/forms).

- **Military (orders from CO)**
  - Submit military assignment papers.

- **Divorce**
  - Divorce papers or certification of pending divorce.

- **Natural Disaster: (e.g. fire, earthquake)**
  - Submit verifiable documentation.

- **Employment**
  - Letter from employer, on letterhead indicating reason(s) for work schedule circumstances conflicting with the class requested to drop and date of change in schedule.

- **Personal/Other (rarely approved)**
  - Submit verifiable and appropriate documentation other than student’s statement.

- **Administrative Error**
  - University documentation from appropriate departments. Students must understand that their personal letter alone will not suffice as verifiable documentation.

Late drops are to be submitted to the counter of Academic Advising and Retention Services in the Student Services Center.

Neither an instructor’s signature nor submission of a Late Drop petition constitutes approval. Continue attending class and complete all assignments until you are notified via MySJSU message that the petition has been approved or denied.

---

### Academic Renewal

Graduating seniors with a grade point average (GPA) below 2.0 in the major, minor, SJSU, or overall college coursework, may request that all grades earned in a previous semester (or two semesters) be disregarded, to permit graduation. If the petition is approved, all grades and units earned during the semester will be disregarded when calculating GPAs for graduation, but the courses and grades will still appear on the transcript.

ALL OF THE FOLLOWING CONDITIONS MUST BE MET:

- You must have applied for graduation and be ready to graduate.
- You must have a GPA below 2.0 in a category required for graduation (major, minor, overall, SJSU)
- At least 5 years must have elapsed since the semester you want to disregard.
- You must have at least a 3.0 GPA in your most recent 15 units at SJSU, or 2.5 in the past 30 units, or 2.0 in the past 45 units.
- No courses or units earned during the semester you want to disregard may be counted toward graduation.
- You must document extenuating circumstances associated with the semester you want disregarded and show that your performance is not representative of your ability.

Apply for Academic Renewal (formerly known as ‘Disregard of Previous Semester’s Work’) at [www.sjsu.edu/gup/allForms](http://www.sjsu.edu/gup/allForms).

---

### Cancellation of Registration or Withdrawal From the Institution

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the university’s official withdrawal procedures. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available from Academic Advising and Retention Services (AARS) at 408-924-2129.

Students who receive financial aid funds must consult with the Financial Aid office prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. Students who have received financial aid and withdraw from the institution during the academic term or payment period may need to return or repay some or all of the funds received, which may result in a debt owed to the institution.

Please contact the Office of the Registrar at 408-924-5680 for more information.
Registration - Restrictions

Graduate students

Cannot enroll in lower division classes during Advance Registration. Lower division classes will need to be starting on the first day of instruction for the term.

Matriculated SJSU students cannot concurrently enroll in Open University.

Matriculated students are those who have been admitted to SJSU as regular students for the current semester or were registered as matriculated students in at least one of the two previous semesters and did not graduate. This policy does not apply to disqualified students.

Students returning after an absence:

After an absence of more than one semester (without a formal leave of absence), students must reapply for admission before access to registration is granted.

Maximum Unit Load:

Each student is provided a specific priority registration begin date and time (based on university policy). Please check the Office of the Registrar website for more information.

Repeating a Class - Registration Restriction

During Advance Registration you may not register for a class in which you have previously been enrolled unless that class may be taken multiple times for credit (that is, be designated "repeatable for credit"). If you wish to repeat a class for the purpose of improving your grade, you must wait until the start of classes. To repeat any "non-repeatable for credit" course, you must have earned below a "C" for undergraduates or a "B" for graduate students.

Returning After an Absence - Registration Restriction

If you are in good standing and you were not disenrolled for non-payment of fees and you choose not to enroll or “stop out” for one semester, there is no need to reapply for admission. However, in order to maintain your matriculation at SJSU, you must enroll in classes the semester immediately following the one semester you stopped out. Some examples:

- You attended a spring term, earned grades and you are still in good standing. You do not enroll in the fall term, but return to take classes in the following spring. You do not need to reapply for admission.

When you must reapply for admission

- You attended a fall term, earned grades and are in good standing. You do not enroll in the next spring or fall terms. You must reapply for admission.
- If you take a full year off from school—you must reapply for admission. Consider alternatives: read the “leave of absence” section of the catalog.
- You do not enroll in classes in your initial admission term and wish to attend a subsequent term. You must reapply for admission.

How to reapply for admission

Complete the online application at http://www.calstate.edu/apply.

If you intend to stop out for one semester but decide to extend your absence, you may not request a leave of absence.

If you return to SJSU after an absence of more than one semester you must reapply for admission before access to registration is granted. Note that a summer term is not included in this policy.

First Year Course Placement: English and Mathematics/Quantitative Reasoning Supported Instruction

- Students required to participate in Supported Instruction in Math and/or English may be restricted from enrolling in certain classes for which they do not meet prerequisites. Go to www.sjsu.edu/supportedinstruction for more details.
- Students required to participate in Supported Instruction in Math and/or English are required to enroll in an appropriate Math and/or English class during their first year and each successive term until those classes are completed with a grade of at least C-.
• All entering SJSU frosh assigned to enrollment category E-II or E-III must enroll in their A2 course(s) during their first academic year. All entering SJSU frosh assigned to enrollment category M-II or M-III must enroll in their B4 course(s) during their first academic year. Entering SJSU frosh assigned to enrollment category M-IV must enroll in their appropriate B4 course(s) in Fall of their first academic year. (Spring admits choosing either Stretch English or Statway, both of which start only in Fall semesters, may extend their enrollment start date to their first Fall semester.)
• Entering SJSU frosh assigned to enrollment category E-IV must enroll in their appropriate A2 course(s) in Fall of their first academic year. Entering SJSU frosh assigned to enrollment category M-IV must enroll in their appropriate B4 course(s) in Fall of their first academic year. (Spring admits choosing either Stretch English or Statway, both of which start only in Fall semesters, may extend their enrollment start date to their first Fall semester.)
• Students required to participate in Supported Instruction in Math and/or English who do not enroll or who drop out of the appropriate class(es) during any registration period for fall or spring terms without consultation with the specified advisor in Academic Advising and Retention Services may be subject to having all courses dropped. If this occurs, students must re-register for courses with no guarantee that classes in which they were previously enrolled will be available.

Writing Skills Test (WST) - Registration Restriction
• Are you planning on taking an SJSU Studies General Education course?
• Are you planning on taking a 100W course outside of your major?

You must satisfy the WST requirement in order to register for any SJSU Studies (Area R, S, V, and Z) course. This is true even if you want to take the class for a major requirement, instead of GE. If you have not yet taken the WST, plan to take it as soon as possible. Check the General Education Section in this schedule for an explanation.

SJSU offers courses (LLD 100A and ENGL 100A) that satisfy the WST requirement, if completed with a grade of "C" or better.

Immunization Requirements - California State University
Entering CSU students are required to present proof of the following immunizations to the CSU campus they will be attending before the beginning of their first term of enrollment.

Measles and Rubella: All new and readmitted students must provide proof of full immunization against measles and rubella prior to enrollment. Students enrolled in a California public high school for the seventh grade or higher on or after July 1, 1999 will have satisfied this requirement.

Hepatitis B: All new students who will be 18 years of age or younger at the start of their first term at a CSU campus must provide proof of full immunization against Hepatitis B before enrolling. Full immunization against Hepatitis B consists of three timed doses of vaccine over a minimum 4 to 6 months period.

Conditions of Enrollment: Providing proof of the indicated immunizations (or immunity) is a condition of enrollment in the CSU. Students ought to obtain immunizations (or proof of immunity) and upload their documentation online BEFORE their first term on campus.

For Further Details: Visit http://www.sjsu.edu/registrar/students/immunization

Immigration Requirements for Licensure
The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193), also known as the Welfare Reform Act, includes provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants as well as benefits for all illegal immigrants.

Students who will require a professional or commercial license provided by a local, state, or federal government agency in order to engage in an occupation for which the CSU may be training them must meet the immigration requirements of the Personal Responsibility and Work Opportunity Reconciliation Act to achieve licensure. Information concerning the regulation these requirements are available from the Registrar’s Office, Student Services Center.
Registration Holds

Students should periodically check for holds at http://my.sjsu.edu. Follow the instructions on how to clear them.

Holds on student accounts and records will prevent students from registering. Monetary holds of $50.00 or more will block you from registration, obtaining official transcripts, diplomas and other miscellaneous services.

College of Engineering Advising

All College of Engineering undergraduates must see an advisor every semester, prior to registration. Graduate Engineering students (except Civil and Environmental Engineering, Computer Engineering, General Engineering, and Industrial Systems Engineering) must also see a major advisor prior to enrolling every semester.

College of Science Advising

All undergraduate College of Science majors and graduate students in Chemistry, Computer Science and Physics must see a major advisor prior to registering every semester.

AARS Advising Hold

All Undeclared and Undeclared-PreNursing students are required to see an advisor in Academic Advising and Retention Services (AARS) prior to registering every semester.

ELM/EPT

Students might also see ELM (Entry Level Math) and EPT (English Placement Test) “service indicators” that indicate the need to enroll in remedial math or English. These do not prevent registration.

Financial Holds

• Do you have a balance due on your student account?

If so, you will not be able to register until the debt has been paid. Be aware - balances can fluctuate on your student account depending on activity. Clear up any balance as soon as possible by paying your outstanding balance using the Pay Now option at http://my.sjsu.edu after the log-in under Self Service. Remember, payments are applied to the oldest balance first. Keep your account current by paying all charges by the assigned due date.

Title IX Online Training Hold

All incoming students (undergraduate and graduate) are required to complete Title IX online training course addressing sexual assault prevention. A hold (HW1) will be placed if course is not completed. Questions? Email haven@sjsu.edu

AlcoholEdu Hold

All incoming undergraduates are required to complete AlcoholEdu, an online training course addressing alcohol abuse prevention. A hold (HW2) will be placed if the course is not completed. Questions? Email haven@sjsu.edu

Hepatitis B Immunization Series

• Are you a first time SJSU student?
• Will you be 18 years or younger on the first day of instruction?

If the answer to both of these questions is yes, you are required to submit proof of full immunization or immunity against Hepatitis B. Notes: It takes 4-6 months to complete the 3-dose Hepatitis B vaccine series. This requirement may be satisfied for students who attended a California middle or high school. For further details please visit: http://www.sjsu.edu/registrar/students/Immunization

International student Health Insurance

Proof of health insurance is required prior to registration each semester. For questions about this hold, please call International Student and Scholar Services (ISSS) (408) 924-5920.
Measles and Rubella
- Are you a new or readmitted SJSU student?
- Were you born on or after January 1, 1957?

If the answer to both of these questions is yes, you are required to submit proof of full immunization or immunity against Measles and Rubella. Note: This requirement may be satisfied for students who attended a California middle or high school. For further details please visit: http://www.sjsu.edu/registrar/students/Immunization

Missing Document Holds
If you owe documents or transcripts to the Undergraduate Admissions office, please submit by the deadline posted in your MySJSU account. You must submit final, official transcripts or official documents as instructed in your MySJSU “to do” items before you are allowed to register.

Probation Holds
- Is your SJSU cumulative grade point average below 2.00 for undergraduates (3.00 for graduate students)?
- Are you on a reinstated status on probation?

For undergraduates, if the answer is yes, you must see your major advisor or an Academic Advising and Retention Services advisor before you can register. This will happen each term until you are no longer on probation.

Graduation Registration Restriction
Students who have not taken the WST by the time they earn 75 units (counting no more than 70 transfer units) may have their registration held after being notified of the need to test. Students with 120 or more units who have not applied for graduation will not be allowed to register until they have submitted that application. Students with 150 or more units may be required to meet with an advisor in Academic Advising and Retention Services before registration and may have their registration for remaining requirements managed. Students who have changed their graduation date multiple times or who are otherwise in potential violation of Presidential Directive 2009-05 may be required to meet with an AARS advisor.
Records Holds

SJSU has the authority to withhold permission to register, receive services, materials, food or merchandise, or any combination of these, from any person owing a debt to the university. A debt is defined as an unpaid obligation of a student or former student, however incurred, arising while the debtor was a student. For students who have been recipients of Federal Perkins Loan funds, SJSU has the authority to withhold certain services for failure to complete a Perkins Exit Interview upon departure from SJSU.

A Record Hold is a method of implementing these restrictions or for a past due amount of the Federal Perkins Loan.

A automatic financial hold will be placed against the student’s records whenever a student has a past due balance with the University.

Services that may be held include, but are not limited to:

- Registration
- Grades
- Diploma
- Transcripts

When all due debts are cleared, the financial hold will be removed.
Alternative Enrollment Programs

**e-Learning**
San José State University delivers distance education courses via Web-based learning management systems and resources. These courses are offered by individual departments in regular and special sessions.

**Intrasystem and Intersystem Enrollment Programs**
Students enrolled at any CSU campus will have access to courses at other CSU campuses on a space available basis unless those campuses/programs are impacted or desired programs/admission categories. This access is offered without students being required to be admitted formally to the host campus and sometimes without paying additional fees. Although courses taken on any CSU campus will transfer to the student’s home CSU campus as elective credit, students should consult their home campus academic advisors to determine how such courses may apply to their specific degree programs before enrolling at the host campus.

There are a few programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California Community Colleges. Additional information about these programs is available from the Registrar’s Office. Forms are available online at www.sjsu.edu/registrar/forms.

**CSU Concurrent Enrollment**
Matriculated students in good standing may enroll on a space available basis at both their home CSU campus and a host CSU campus during the same term. Credit earned at the host campus is reported at the student’s request to the home campus to be included on the student’s transcript at the home campus. Many online courses at CSU campus are available for concurrent enrollment.

**CSU Fully Online Courses**
Matriculated students in good standing may request enrollment in one course per term, offered by a CSU host campus. Enrollment requests will be granted based on available space, as well as completion of any stated pre-requisites. Credit earned at the host campus is electronically reported to the student’s home campus to be included on the student’s transcript at the home campus.

**CSU Visitor Enrollment**
Matriculated students in good standing enrolled at one CSU campus may enroll on a space available basis at another CSU campus for one term. Credit earned at the host campus is reported at the student’s request to the home campus to be included on the student’s transcript at the home campus.

**Intersystem Cross Enrollment**
Matriculated CSU, UC, or community college undergraduate students may enroll on a space available basis for one course per term at another CSU, UC, or community college and request that a transcript of record be sent to the home campus. This program is not available to graduate students.

**Step-to-College/Unitrack**
SJSU sponsors a low-cost concurrent enrollment program for area high school students through the Step-to-College program. Students must have permission from their school principal and meet all SJSU course prerequisites, including placement exams. Applications and more information are available at the Registrar’s Office.

Open University

Open University is not available to matriculated students.

Open University allows students to earn degree units from SJSU or to take noncredit or Continuing Education Unit programs.

- Fall schedule available online in July.
- Spring schedule available online in December.

College of International and Extended Studies

Registration Fees, Payments and Refunds

CAUTION!

- Fees are subject to change without notice.
- You are responsible for keeping your http://my.sjsu.edu account current.
- If a check or e-check is dishonored by the bank for any reason, including keying errors for e-checks, your registration is subject to cancellation.
- Any delinquent outstanding charges owed to the university will be submitted to the Franchise Tax Board for tax refund offset.
All payments apply to the oldest balance on your account. For example, if you are making a registration payment and you have a housing balance with an earlier due date, the payment will apply to the housing charges first. Keep your account current to avoid the possibility of enrollment cancellation.

When you register, your MySJSU will show the balance due and due date. Fees are payable by the due date(s) and must be posted to your account before or on the due date to avoid enrollment cancellation. Please see acceptable methods of payment and payment plan options on the Bursar’s Office website at www.sjsu.edu/bursar/

Failure to pay fees by the due date will result in enrollment cancellation and all classes will be dropped. Note: Classes are not automatically dropped after census. Students wishing to partially drop or withdraw from all classes must do so by following the university policies and procedures.

## Registration Fees

### Schedule of Tuition Fees

Mandatory tuition fee pays the cost of student services such as counseling, testing, student activities, health services and student financial aid administration. In addition, these fees cover some supplies and service costs of instruction and instructional resources.

The CSU makes every effort to keep student costs to a minimum. Tuition and fees listed in published schedules or student accounts may need to be increased when public funding is inadequate. Therefore, CSU reserves the right, even after tuition or fees are initially charged or initial payments are made, to increase or modify any listed tuition fees. All listed fees, other than mandatory systemwide tuition, are subject to change without notice, until the date when instruction for a particular semester or quarter has begun. All CSU listed tuition and fees should be regarded as estimates that are subject to change upon approval by the Board of Trustees, the Chancellor, or the Presidents, as appropriate. Changes in mandatory systemwide tuition will be made in accordance with the requirements of the Working Families Student Fee Transparency and Accountability Act (Sections 66028 - 66028.6 of the Education Code).

The following reflects applicable systemwide tuition and fees for semester campuses that were authorized by the Board of Trustees at the March 2017 meeting. These rates are subject to change.

Fees and dates subject to change without notice.
Billing

SJSU does not issue bills. To see the amount of fees owed in MySJSU, after you register for classes, go to: Student Center > Scroll down to Finances > Account Inquiry (link) > Charges Due (tab). Due dates are posted within 24 hours after class registration. It is the student’s responsibility to make payments by the stated deadline - failure to pay fees by the due date or making a partial payment will result in all classes being dropped. Note: SJSU does not automatically drop classes after census. If you are on a waitlist, please check your account daily since enrollment in waitlisted classes may result in additional fees owed.

Changing your unit load from 6.0 units to 6.1 or more, will result in additional fees being charged. Check your MySJSU account for your payment due date.

Fees for Non-Residents/International Students

Non-Residents of California and international students must pay all tuition listed above, plus mandatory non-resident fee of $396.00 per unit multiplied by the number of units for which the student is registered.

Graduate Business Professional Tuition Fee

For students pursuing the MBA or MS Accountancy degrees, the Graduate Business Professional Fee is charged on a $270.00 per unit basis in addition to basic tuition and campus fees.

Parking Fees

A variety of parking permits of varying pricing and duration are available for sale through Parking Online Services. For more information, please visit Parking Services http://www.sjsu.edu/parking, e-mail parking@sjsu.edu, or call 408-924-6556.

Nonresident Tuition Exemptions (AB 540)

If you attended high school in California for at least three full years and graduated or earned an equivalent, you may be eligible for resident tuition. Students must file an affidavit with SJSU stating that they have filed an application with INS to legalize their immigration status or will do so as soon as they are eligible. You will need to show proof of attendance and graduation.

On October 11, 2001, Governor Gray Davis signed Assembly Bill 540 (now Education Code Section 68130.5) creating a new exemption from nonresident tuition for any student who meets ALL of the following criteria:

a) attended high school in California for 3 or more years;

b) graduated from a California high school or attained the equivalent;

c) is registered at, or attending an accredited institution of higher education in California not earlier than Fall 2001; and

d) if a student without lawful immigration status files an affidavit with the campus stating that he or she has applied to legalize immigration status (using INS form I-130, Petition for Alien Relative) or will do so as soon as he or she is eligible.

See www.sjsu.edu/bursar/students_parents/faqs/exemption_faqs/index.html for additional information.

Registration Late Fees

Students eligible for participation in advance registration who do not register

<table>
<thead>
<tr>
<th>Fee</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Registration after add deadline through census</td>
<td>$45</td>
</tr>
<tr>
<td>Post Census Late Enrollment Fee</td>
<td>$200</td>
</tr>
</tbody>
</table>

Those exempt from the late fee(s) prior to enrollment census date are:

- Students enrolled in the Step to College program
- Graduate students who cannot enroll in lower division classes during Advance Registration.
Registration Fees - Late Registration Participants

If you add classes during the Late Registration period which change your unit load from 6.0 units to 6.1 or less, additional tuition fees will be due. Review your account via http://my.sjsu.edu to find the amount due and the payment deadline. Billing statements are not issued.

Registration - Deferrals and Waivers

In order to receive a tuition fee deferral, your financial aid file must be complete and all requested documents submitted. Check your “To Do” list at MySJSU for requested documents. Once you have submitted all requested documents, a fee deferral will be assigned to your record to hold your classes and delay the payment of registration tuition fees while your financial aid process is completed. To prevent enrollment cancellation, it is your responsibility to submit all requested documents prior to the scheduled tuition fee payment deadline. Be sure to monitor your account at MySJSU for file status changes and “To Do” items.

Important! Financial Aid fee deferrals are temporary and are issued once all requested financial aid documents are submitted. A financial aid fee deferral holds classes and delays the payment of enrollment fees while the financial aid process is completed. To prevent enrollment cancellation, it is the student’s responsibility to submit all requested financial aid documents prior to the scheduled fee payment deadline. The financial aid fee deferral does not cover housing charges.

If your tuition fees are to be paid by a third party (i.e. employer, government agency, college savings plan, or foreign embassy), documents must be on file before your payment deadline authorizing the university to bill the agency for your fees. Authorization may be given in person, mailed or faxed to the Bursar’s Office at 408-924-1654. If documentation is not received by your payment due date, classes may be dropped.

When financial aid or the amount to be paid by a third party is less than the amount due, you must pay the difference owed.

Federal regulations prevent the university from deducting parking permit charges from financial aid. Financial aid recipients must pay for parking permits separately.
The following dates are tentative. Check the Bursar’s Office website at [http://www.sjsu.edu/bursar/fees_due_dates/due_dates/index.html](http://www.sjsu.edu/bursar/fees_due_dates/due_dates/index.html) for up to date information.

**Advance Registration: Tuesday, May 1, 2018 - Saturday, August 18, 2018**

<table>
<thead>
<tr>
<th>REGISTER</th>
<th>PAYMENT DUE</th>

</tr>
<tr>
<td>Installment Payment Plan (IPP) for housing</td>
<td>$35</td>
</tr>
</tbody>
</table>

See [www.sjsu.edu/bursar/fees/installments](http://www.sjsu.edu/bursar/fees/installments) for installment payment due dates.

**Payment Plan Features**

- There are fees for the payment plans, one for the tuition and fee plan and one for the housing plan.
- There will be a separate payment plan for housing charges
- Payments divided equally

**Loan, Short Term**

Short Term loans are available through the Bursar’s Office

To be eligible, you must:

- Be current on any outstanding debts to the university
- Must have sufficient financial aid or be gainfully employed
- Must be enrolled in at least half-time (six undergraduate or four graduate units).
Selective Service-Eligibility for Aid

The federal Military Selective Service Act (the "Act") requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959 may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at http://www.sss.gov.
Refunds - Registration

A 100% refund of basic and/or non-resident fees will be given to students who drop all classes or withdraw from the university no later than August 23, 2017. Refundable fees include basic registration fees, non-resident fees, course fees and the miscellaneous SJSU fees.

A prorated refund will be given to students who withdraw from SJSU from the first day of instruction, August 21 through October 26, 2018.

Students who drop units resulting in a lower fee structure and/or mandatory fee obligation will be entitled to a refund of applicable tuition and mandatory fees up to the end of the designated SJSU Late Registration drop period on August 31, 2018. There are no refunds for individual course drops after this date.

See www.sjsu.edu/bursar/payment_refunds/prorata_refund/index.html for detailed information on refund percentages.

Financial Aid Students

When students who are receiving financial aid withdraw, the unearned portion of federal and state funds must be returned to the appropriate fund. The Financial Aid and Scholarship Office provides this information.

For All Students

Saturday, August 18, 2018

Last day for full refund of both basic registration tuition fees and non-resident tuition.

Tuesday, August 21, 2018

Pro rata refund schedule begins for both basic registration tuition fees and non-resident tuition for students who withdraw from the university.

Tuesday, August 21, 2018 - Monday, September 10, 2018

Late Registration: If you remain enrolled on Friday, August 31, 2018 and add or drop classes you will not be charged a late registration fee.

Fees owed will calculated based on units enrolled after the last day to add (Monday, September 10, 2018).

Saturday, August 18, 2018

After this date, students who remain enrolled but drop classes resulting in a lower fee category will not be eligible for a refund.

Friday, October 26, 2018

The last day to receive a pro-rated refund based on withdrawal or dropping courses.

See www.sjsu.edu/bursar/fees for specific refund details.

Special Session and Open University students

Consult www.sjsu.edu/cies for specific refund policies.

Refund - Registration - Non-Resident

If a student completely withdraws or there is a reduction in units, any adjustments to the non-resident tuition is based on the transaction date according to the refund schedule as noted above.

Refunds - Parking Permits

Parking permits can be returned for a prorated refund (which adjusts weekly) minus a $10 administrative fee. No returns are accepted during the last month of each semester.

For questions or additional information, please contact Parking Services at 408-924-6556 or via email at parking@sjsu.edu.

All refunds are processed at Parking Services, located in the University Police Building.
California State University Tuition Fee Policies

Mandatory Fees Including Non-resident Tuition

Regulations governing the refund of tuition and mandatory fees, including nonresident tuition, for students enrolling at the California State University are included in Section 41802 of Title 5, California Code of Regulations. For purposes of the refund policy, mandatory fees are defined as those systemwide and campus fees that are required to be paid in order to enroll in state-supported academic programs at the CSU. Refunds of fees and tuition charges for self-support, special session, and extended education programs or courses at the CSU are governed by a separate policy established by the University, available at the College of International & Extended Studies (CIES).

In order to receive a full refund of tuition and mandatory fees, including nonresident tuition, a student must cancel registration or drop all courses prior to the first day of instruction for the term. Information on procedures and deadlines for canceling registration and dropping classes is available in the Payments and Refunds section and at www.sjsu.edu/bursar.

For state-supported semesters, quarters, and non-standard terms or courses of four (4) weeks or more, a student who withdraws during the term in accordance with the university’s established procedures or drops all courses prior to the campus-designated drop period will receive a refund of tuition and mandatory fees, including nonresident tuition, based on the portion of the term during which the student was enrolled. No student withdrawing after the 60 percent point in the term will be entitled to a refund of any mandatory fees or nonresident tuition.

A student who, within the campus designated drop period and in accordance with campus procedures, drops units resulting in a lower tuition and/or mandatory fee obligation shall be entitled to a refund of applicable tuition and mandatory fees established by the campus.

For state-supported non-standard terms or courses of less than four (4) weeks, no refunds of tuition and mandatory fees, including nonresident tuition, will be made unless a student cancels registration or drops all classes, in accordance with the university’s established procedures and deadlines, prior to the first day of instruction for state-supported non-standard terms or courses or prior to the first meeting for courses of less than four (4) weeks.

Students will also receive a refund of tuition and mandatory fees, including nonresident tuition, under the following circumstances:

- The tuition and fees were assessed or collected in error;
- The course for which the tuition and fees were assessed or collected was cancelled by the university;
- The university makes a delayed decision that the student was not eligible to enroll in the term for which tuition and mandatory fees were assessed and collected and the delayed decision was not due to incomplete or inaccurate information provided by the student; or
- The student was activated for compulsory military service.

Students who are not entitled to a refund as described above may petition the Bursar’s Office for a refund demonstrating exceptional circumstances.

Information concerning any aspect of the refund of fees may be obtained from the Bursar’s Office, Student Services Center, 408-924-1601 or via e-mail at bursar@sjsu.edu

Parking Permit Refunds

Parking permits can be returned for a prorated refund minus an administrative fee. No returns are accepted during the last month of each semester. More information can be found at http://www.sjsu.edu/parking/permits/refunds/

Fees and Debts Owed to the University

Should a student or former student fail to pay a fee or a debt owed to the institution, including tuition and student charges, the institution may “withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt” until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381).

Prospective students who register for courses offered by the university are obligated for the payment of charges and fees associated with registration for those courses. Failure to cancel registration in any course for an academic term prior to the first day of the academic term gives rise to an obligation to pay student charges and fees including any tuition for the reservation of space in the course.

The institution may withhold permission to register or to receive official transcripts of grades or other services offered by the institution from anyone owing fees or another debt to the institution. The institution may also offset the amount due against any future state tax refunds due the student or refer the debt to an outside collection agency.
If a person believes he or she does not owe all or part of an asserted unpaid obligation, that person may contact the Bursar’s Office. The Bursar’s Office will review all pertinent information provided by the person and available to the campus and will advise the person of its conclusions. Failure to pay full registration fees when due or to clear any debt by the given deadline may result in an additional Administrative Fee or cancellation of classes.

Nonresident Students (U.S. and Foreign) Tuition

Nonresident Tuition (in addition to basic tuition fees and other systemwide fees charged all students): $396 per unit each semester. The total nonresident tuition paid per term will be determined by the number of units taken.

Exemption from Non-Resident Tuition for Certain Students

If you attended high school in California for at least three full years and graduated or earned an equivalent, you may be eligible for resident tuition. Students must file an affidavit with the CSU campus stating that they have filed an application with USCIS to legalize their immigration status or will do so as soon as they are eligible. You will need to show proof of attendance and graduation.

Determining Residency for Tuition Purposes

University requirements for establishing residency for tuition purposes are independent from those of other types of residency, such as for tax purposes, or other state or institutional residency. These regulations were promulgated not to determine whether a student is a resident or nonresident of California, but rather to determine whether a student should pay University fees on an in-state or out-of-state basis. A resident for tuition purposes is someone who meets the requirements set forth in the Uniform Student Residency Requirements. These laws governing residency for tuition purposes at the California State University are California Education Code sections 68000-68085, 68120-68133, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41916. This material can be viewed on the Internet by accessing the California State University’s website at www.calstate.edu/GC/resources.shtml.

Each campus’ Admissions Office is responsible for determining the residency status of all new and returning students based on the Application for Admission, Residency Questionnaire, Reclassification Request Form, and, as necessary, other evidence furnished by the student. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

Generally, establishing California residency for tuition purposes requires a combination of physical presence and intent to remain indefinitely in the State of California. An adult who, at least 366 days prior to the residency determination date for the term in which enrollment is contemplated, can demonstrate both physical presence in the state combined with evidence of intent to remain in California indefinitely may establish California residency for tuition purposes. A minor normally derives residency from the parent(s) with whom he/she resides or most recently resided.

Evidence demonstrating intent may vary from case to case but will include, and is not limited to, the absence of residential ties to any other state, California voter registration and voting in California elections, maintaining California vehicle registration and driver’s license, maintaining active California bank accounts, filing California income tax returns and listing a California address on federal tax returns, owning residential property or occupying or renting a residence where permanent belongings are kept, maintaining active memberships in California professional or social organizations, and maintaining a permanent military address and home of record in California.

A nonresident student seeking reclassification is required to complete a supplemental questionnaire that includes questions concerning his/her financial independence. Financial independence is required, in addition to physical presence and intent to remain indefinitely, to be eligible for reclassification. Financial independence is established if in the calendar year the reclassification application is made and in any of the three calendar years preceding the reclassification application the student:

- Has not and will not be claimed as an exemption for state and federal tax purposes by his/her parent(s);
- Has not and will not receive more than $750 per year in financial assistance from his/her parent(s); and
- Has not lived and will not live longer than six (6) weeks in the home of his/her parent(s).

A nonresident student who has been appointed as a graduate student teaching assistant, a graduate student research assistant, or a graduate student teaching associate on any CSU campus and is employed on a 0.49 or more time basis is exempt from the financial independence requirement.

Exceptions to the general residency requirements are contained in California Education Code sections 68070-68085 and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41906-41906.6, 41910. Whether an exception applies to a particular student can only be determined after the submission of an application for admission and, as necessary, additional supporting documentation. Because neither the campus nor Chancellor’s Office staff may give advice on the application of these laws, applicants are strongly urged to review the material for themselves and consult with a legal advisor.
The Chancellor’s Office can either decide the appeal or send the matter back to the campus for further review. Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to recategorization as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is also subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations.

Resident students who become nonresidents or who no longer meet the criteria for an exception must immediately notify the Admissions Office. Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residency for tuition purposes in California between the time this information is published and the relevant residency determination date. Students are urged to review the statutes and regulations stated above.

### Average Support Cost Per Full-Time Equivalent Student and Sources of Funds

The total support cost per full-time equivalent student (FTES) includes the expenditures for current operations, including payments made to students in the form of financial aid, and all fully reimbursed programs contained in state appropriations. The average support cost is determined by dividing the total cost by the number of FTES. The total CSU 2017-18 budget amounts were $3,390,564,000 from state General Fund (GF) appropriations and before adding $39.3 million CalPERS retirement adjustment, $2,477,015,000 from gross tuition revenue, and $594,397,000 from other fee revenues for a total of $6,461,976,000.

The 2017-18 resident FTES target is 364,131 and the nonresident FTES based on past-year actual is 24,398 for a total of 388,529 FTES. The GF appropriation is applicable to resident students only whereas fee revenues are collected from resident and nonresident students. FTES is determined by dividing the total academic student load (e.g. 15 units per semester) (the figure used here to define a full-time student’s academic load).

The 2016/17 average support cost per FTES based on GF appropriation and net tuition fee revenue only is $13,152 and when including all sources as indicated below is $14,528, which includes all fee revenue (e.g. tuition fees, application fees, and other campus mandatory fees) in the CSU Operating Fund. Of this amount, the average net tuition and other fee revenue per FTES is $5,764.

*Represents state GF appropriation in the Budget Act of 2017/18; GF is divisible by resident students only (364,131 FTES)

**Represents CSU Operating Fund, gross tuition and other fees revenue amounts (net of tuition fee discounts) submitted in campus August 2017/18 final budgets. Revenues are divisible by resident and nonresident students (388,529 FTES).

The average CSU 2017/18 academic year, resident, undergraduate student basic tuition fee and other mandatory fees required to apply to, enroll in, or attend the university is $7,216 ($5,742 tuition fee plus $1,474 average campus-based fees). However, the costs paid by individual students will vary depending on campus, program, and whether a student is part-time, full-time, resident or nonresident.

### Cancellation of Registration or Withdrawal from the University

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the university’s official withdrawal procedures. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available from the Office of the Registrar.

Students who receive financial aid funds must consult with Financial Aid and Scholarships prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. If a recipient of student financial aid funds withdraws from the institution during an academic term or a payment period, the amount of grant or loan assistance received may be subject to return and/or repayment provisions.

For further information, consult www.sjsu.edu/bursar and www.sjsu.edu/faso.
Fee Waivers - CSU Systemwide

The California Education Code includes provisions for the waiver of mandatory systemwide fees as follows:

Section 66025.3 - Dependent eligible to receive assistance under Article 2 of Chapter 4 of Division 4 of the Military and Veterans Code; child of any veteran of the United States military who has a service-connected disability, has been killed in service, or has died of a service-connected disability, and meets specified income provisions; dependent, or surviving spouse who has not remarried, of any member of the California National Guard who, in the line of duty, and while in the active service of the state, was killed, died of a disability resulting from an event that occurred while in the active service of the state, or is permanently disabled as a result of an event that occurred while in the active service of the state; and undergraduate student who is a recipient of a Medal of Honor, or undergraduate student who is a child of a recipient of a Medal of Honor who is no more than 27 years old, meets the income restriction and California residency requirement. The waiver of tuition or fees under this section applies only to a person who is determined to be a resident of California pursuant to Chapter 1 (commencing with Section 68000) of Part 41.

Section 66002 - A qualifying student from the California State University who is appointed by the Governor to serve as Trustee of the California State University for the duration of his or her term of office.

Section 68120 - Surviving spouse or child of a deceased California resident who was employed by a public agency, or was a contractor or an employee of a contractor, performing service for a public agency, and was killed in the performance of his/her principal duties of active law enforcement or fire suppression and prevention duties (referred to as Alan Pattee Scholarships). A person who qualifies for the waiver under this section as a surviving child of a contractor or an employee of a contractor, who performed services for a public agency must have enrolled as an undergraduate student at the California State University and meets income restriction requirement.

Section 68121 - A qualifying student enrolled in an undergraduate program who is the surviving dependent of any individual killed in the September 11, 2001 terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Section 69432.7 for the Cal Grant A Program and either the surviving dependent or the individual killed in the attacks was a resident of California on September 11, 2001. Students who may qualify for the above benefits should contact the Registrar's Office for further information and/or an eligibility determination.

The California Education Code provides for the following nonresident tuition exemptions:

Section 68075.7 - A nonresident student is exempt from paying nonresident tuition or any other fee that is exclusively applicable to nonresident students if the student (1) resides in California, (2) meets the definition of “covered individual” as defined in either: (A) Section 3679(c)(2)(A) or (B)(i)(l) of Title 38 of the United States Code, as that provision read on January 1, 2017; (B) Section 3679(c)(2)(B)(9)(i) or (ii)(ll) of Title 38 of the United States Code, as that provision read on January 1, 2017; and (3) is eligible for education benefits under either the federal Montgomery GI Bill-Active Duty program or the Post-9/11 GI Bill program as each read on January 1, 2017.

Section 68122 - A student who is a victim of trafficking, domestic violence, and other serious crimes who has been granted T or U visa status shall be exempt from paying nonresident tuition to the same extent as individuals who are admitted to the United States as refugees under Section 1157 of Title 8 of the United States Code.

Section 68130.5 - A student, other than an nonimmigrant alien, who is not a resident of California is exempt from paying nonresident tuition if the student meets the requirements of (1) through (4) below:

(1) Satisfaction of the requirements of either subparagraph (A) or subparagraph (B) (A) A total attendance of, or attainment of credits earned while in California equivalent to, three or more years of full-time attendance or attainment of credits at any of the following:

(i) California high schools.
(ii) California high schools established by the State Board of Education.
(iii) California adult schools established by a county office of education, a unified school district or high school district, or the Department of Corrections and Rehabilitation (subject to the class hours’ requirement).
(iv) Campuses of the California Community Colleges (subject to the credit requirements).
(v) A combination of those schools set forth in clauses (i) to (iv), inclusive.
(B) Three or more years of full-time high school coursework, and a total of three or more years of attendance in California elementary schools, California secondary schools, or a combination of California elementary and secondary schools.

(2) Satisfaction of any of the following:
(A) Graduation from a California high school or attainment of the equivalent thereof.

(B) Attainment of an associate degree from a campus of the California Community Colleges.

(C) Fulfillment of the minimum transfer requirements established for the California State University for students transferring from a campus of the California Community Colleges.

(3) Registration as an entering student at, or current enrollment at, an accredited institution of higher education in California not earlier than the fall semester or quarter of the 2001-02 academic year.

(4) In the case of a person without lawful immigration status, the filing of an affidavit with the institution of higher education stating that the student has filed an application to legalize his or her immigration status, or will file an application as soon as he or she is eligible to do so.

-----------------------------------------------------------------------------------

Nonresident Alien Tax Assessment

International students and scholars receiving payments from San José State University must comply with all federal and state tax reporting responsibilities. The Internal Revenue Service requires that SJSU comply with specific federal tax withholding and reporting regulations when making payments to nonresident aliens. Non-U.S. citizens will be required to complete a Foreign National Information Form to assist in the determination of tax residency and applicable tax withholding liability. Payments affected by these IRS rules include, but are not limited to: compensation, wages, honoraria, consulting fees, scholarships, fellowships, stipends, and some reimbursements for travel and other expenses. Questions regarding nonresident alien tax assessment can be addressed by contacting the Human Resources Service Group at 408-924-2250.

-----------------------------------------------------------------------------------

Fees - Dishonored Checks

An individual is not officially enrolled until the university has received full payment of fees. The university has not received payment if personal checks or E-checks are subsequently dishonored by the bank.

Individuals paying registration fees by personal check or E-check are hereby given notice that if their check is dishonored from the bank for any reason, the registration is subject to cancellation. A $25.00 fee is charged for the first returned check and $35.00 thereafter. An additional administrative fee may be charged. All dishonored checks must be paid with money order, cashier check or cash.

-----------------------------------------------------------------------------------

Fees - Establishment or Abolishment of Campus-Based Mandatory Fees

The law governing the California State University provides that specific campus fees defined as mandatory, such as a student association fee and a student center fee, may be established. A student association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (Education Code, Section 89300). The campus president may adjust the student association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose. The required fee shall be subject to referendum at any time upon the presentation of a petition to the campus president containing the signatures of 10 percent of the regularly enrolled students at the university. Student association fees support a variety of cultural and recreational programs, childcare centers, and special student support programs. A student center fee may be established only after a fee referendum is held which approves by a two-thirds favorable vote the establishment of the fee (Education Code, Section 89304). Once bonds are issued, authority to set and adjust student center fees is governed by provisions of the State University Revenue Bond Act of 1947, including, but not limited to, Education Code sections 90012, 90027, and 90068.

The process to establish and adjust other campus-based mandatory fees requires consideration by the campus fee advisory committee and a student referendum as established by Executive Order 1102, Section III. The campus president may use alternate consultation mechanisms if he/she determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the fee committee review are advisory to the campus president. The president may adjust campus-based mandatory fees but must request the chancellor to establish a new mandatory fee. The president shall provide to the campus fee advisory committee a report of all campus-based mandatory fees. The campus shall report annually to the chancellor a complete inventory of all campus-based mandatory fees.

For more information or questions, please contact the Budget Office in the CSU Chancellor’s Office at 562-951-4560.
Fees - Voluntary

The CSU Board of Trustees established a voluntary student fee, the Student Involvement and Representation Fee (SIRF), which went into effect in the fall 2015 term. This is charged to all students unless they choose to opt out of the fee, which can be done via the student portal. The fee amount is $2.00 per term. For more information, please visit the California State Student Association (CSSA) website at http://www.csustudents.org.

Determining Residency for Tuition Purposes

University requirements for establishing residency for tuition purposes are independent from those of other types of residency, such as for tax purposes, or other state or institutional residency. These regulations were promulgated not to determine whether a student is a resident or nonresident of California, but rather to determine whether a student should pay University fees on an in-state or out-of-state basis. A resident for tuition purposes is someone who meets the requirements set forth in the Uniform Student Residency Requirements. These laws governing residency for tuition purposes at the California State University are California Education Code sections 68000-68085, 68120-68133, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41916.

Each campus’ Admissions Office is responsible for determining the residency status of all new and returning students based on the Application for Admission, Residency Questionnaire, Reclassification Request Form, and, as necessary, other evidence furnished by the student. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

Generally, establishing California residency for tuition purposes requires a combination of physical presence and intent to remain indefinitely. An adult who, at least 366 days prior to the residency determination date for the term in which enrollment is contemplated, can demonstrate both physical presence in the state combined with evidence of intent to remain in California indefinitely may establish California residency for tuition purposes. A minor normally derives residency from the parent(s) they reside with or most recently resided with.

Evidence demonstrating intent may vary from case to case but will include, and is not limited to, the absence of residential ties to any other state, California voter registration and voting in California elections, maintaining California vehicle registration and driver’s license, maintaining active California bank accounts, filing California income tax returns and listing a California address on federal tax returns, owning residential property or occupying or renting a residence where permanent belongings are kept, maintaining active memberships in California professional or social organizations, and maintaining a permanent military address and home of record in California.

Nonresident students seeking reclassification are required to complete a supplemental questionnaire that includes questions concerning their financial independence. Financial independence is required, in addition to physical presence and intent, to be eligible for reclassification. Financial independence is established if in the calendar year the reclassification application is made and in any of the three calendar years preceding the reclassification application the student:

- Has not and will not be claimed as an exemption for state and federal tax purposes by his/her parent;
- Has not and will not receive more than seven hundred and fifty dollars ($750) per year in financial assistance from his/her parent; and
- Has not lived and will not live longer than six (6) weeks in the home of his/her parent.

A nonresident student who has been appointed as a graduate student teaching assistant, a graduate student research assistant, or a graduate student teaching associate on any CSU campus and is employed on a 0.49 or more time basis is exempt from the financial independence requirement.

Exceptions to the general residency requirements are contained in California Education Code sections 68070-68085 and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41906-41906.6, 41910 and include, but are not limited to, members of the military and their dependents, certain credentialed employees of school districts and most students who have attended three or more years of high school (grades 9-12) in California and graduated from a California high school or attained the equivalent of graduation. Whether an exception applies to a particular student can only be determined after the submission of an application for admission and, as necessary, additional supporting documentation. Because neither campus nor Chancellor’s Office staff may give advice on the application of these laws, applicants are strongly urged to review the material for themselves and consult with a legal advisor.

The Office of General Counsel can either decide the appeal or send the matter back to the campus for further review. Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is also subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations.

Resident students who become nonresidents or who no longer meet the criteria for an exception must immediately notify the Admissions Office. Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residency for tuition purposes in California between the time this information is published and the relevant residency determination date. Students are urged to review the statutes and regulations stated above.
Student Responsibilities and Rights

University Policies
To see official SJSU University Policies, see http://www.sjsu.edu/senate/policies/

Academic Standards
Students studying for a baccalaureate degree are expected to maintain a grade point average of 2.0 “C” or better in their academic work at SJSU and in their overall collegiate record in order to continue in good standing. In determining a student’s eligibility to remain enrolled in the university, both quality of performance and progress toward the student’s objective are weighed. Use of grade points and grade point average for all letter-graded courses determines quality of performance. The length of time in meeting requirements is a factor in determining progress toward objectives. While the Registrar’s Office makes every effort to notify students of their academic status, it is the student’s responsibility to continuously monitor his or her own academic standing at http://mysjsu.sjsu.edu.

Attendance Policy
University Policy F15-12, Attendance and Participation
Students are expected to attend all meetings for the courses in which they are enrolled as they are responsible for material discussed therein, and active participation is frequently essential to ensure maximum benefit to all class members. In some cases, attendance is fundamental to course objectives; for example, students may be required to interact with others in the class. Attendance is the responsibility of the student.

Participation may be used as a criterion for grading when the parameters and their evaluation are clearly defined in the course syllabus and the percentage of the overall grade is stated.
View the policy in its entirety here: http://www.sjsu.edu/senate/docs/F15-12.pdf

Academic Integrity Policy
The University emphasizes responsible citizenship and an awareness of ethical choices inherent in human development. Academic honesty and fairness foster ethical standards for all those who depend upon the integrity of the university, its courses, and its degrees. University degrees are compromised and the public is defrauded if faculty members or students knowingly or unwittingly allow dishonest acts to be rewarded academically. This policy sets the standards for such integrity and shall be used to inform students, faculty and staff of the university’s Academic Integrity Policy. See University Academic Integrity Policies at http://www.sjsu.edu/studentconduct/policies/

Student Role
The San José State University Academic Integrity Policy requires that each student:
1. Know the rules that preserve academic integrity and abide by them at all times. This includes learning and abiding by rules associated with specific classes, exams and course assignments.
2. Know the consequences of violating the Academic Integrity Policy.
3. Know the appeal rights, and the procedures to be followed in the event of an appeal.
4. Foster academic integrity among peers.

Faculty Member Role
The San José State University Academic Integrity Policy requires that each faculty member:
1. Provide a clear and concise course syllabus that apprises students of the Academic Integrity Policy and the ethical standards and supporting procedures required in a course.
2. Make every reasonable effort to foster honest academic conduct. Specifically, examinations should be appropriately proctored or monitored to prevent students from copying, using non-cited resources, or exchanging information. Examinations and answers to examination questions should be kept private. Efforts should be made to give unique and varied assignments.
3. Take action against a student in accordance with this policy when supporting evidence indicates that the student has violated the Academic Integrity Policy.
4. Comply with the rules and standards of the Academic Integrity Policy.

Office of Student Conduct and Ethical Development Role
The San José State University Academic Integrity Policy requires that the Student Conduct Administrator:
1. Comply with and enforce the Student Conduct Code (http://www.sjsu.edu/studentconduct) which includes the Academic Integrity Policy.
2. Adjudicate student conduct cases and assign administrative sanctions to students who have violated the Student Conduct Code.
3. Serve as a resource for faculty, staff and students on matters of academic integrity and this policy.
4. Ensure dissemination of the policy to the campus community when changes are made to the policy or procedures.

1.0 Definitions Of Academic Dishonesty

1.1 Cheating
At SJSU, cheating is the act of obtaining or attempting to obtain credit for academic work through the use of any dishonest, deceptive, or fraudulent means. Cheating at SJSU includes but is not limited to:
1.1.1. Copying, in part or in whole, from another’s test or other evaluation instrument including homework assignments, worksheets, lab reports, essays, summaries, quizzes, etc.;
1.1.2. Submitting work previously graded in another course unless this has been approved by the course instructor or by departmental policy;
1.1.3. Submitting work simultaneously presented in two courses, unless this has been approved by both course instructors or by the department policies of both departments;
1.1.4. Using or consulting, prior to, or during an examination, sources or materials not authorized by the instructor;
1.1.5. Altering or interfering with the grading process;
1.1.6. Sitting for an examination by a surrogate, or as a surrogate;
1.1.7. Any other act committed by a student in the course of their academic work which defrauds or misrepresents, including aiding or abetting in any of the actions defined above.

1.2 Plagiarism
At SJSU plagiarism is the act of representing the work of another as one’s own without giving appropriate credit, regardless of how that work was obtained, and/or submitting it to fulfill academic requirements. Plagiarism at SJSU includes but is not limited to:
1.2.1. The act of incorporating the ideas, words, sentences, paragraphs, or parts of, and/or the specific substance of another’s work, without giving appropriate credit, and/or representing the product as one’s own work;
1.2.2 Representing another’s artistic/scholarly works such as musical compositions, computer programs, photographs, paintings, drawing, sculptures, or similar works as one’s own.

2.0 Notification of Standards of Detecting Plagiarism
2.1 SJSU or its faculty may subscribe to and/or use plagiarism detection services.
2.2 Any plagiarism detection service with which SJSU contracts must ensure the anonymity of all submitted work to third parties.
2.3 Except for the stated purpose of storing submitted work in databases and/or using the database solely for the intended purpose of detecting plagiarism, any plagiarism detection service with which SJSU contracts shall agree that to the fullest extent possible, ownership rights of all submitted work shall remain with the work’s author and not with the plagiarism detection service.

3.0 Evaluation and Reporting
When a faculty member suspects and has supporting evidence to substantiate that the behavior of a student or students fall(s) within one or both of the above sets of definitions, it is the faculty member’s responsibility to take the following steps:
3.1 Any classroom confrontation should be discreet. Faculty members should not discuss specific charges of cheating, plagiarism, or any other violations involving specific individuals in the classroom before other members of the class.

3.2 Communicate with the student concerning the alleged infraction; arrange for a conference to present documentation. Advise the student of the allegations and make them aware of the supporting evidence and the probable consequences. As a result of this conference, if the faculty member believes that the student’s response is insufficient to offset the charge of violating the Academic Integrity Policy, the instructor will inform the student of the sanctions to be assessed or recommended in accordance with section 3.0.

All notes and/or discussions between the student and the faculty member will be kept confidential except as may be relevant in subsequent disciplinary proceedings or any subsequent legal actions.

3.3 Report the alleged infraction and the academic action taken to the Office of Student Conduct & Ethical Development on the reporting form for violations to the Academic Integrity Policy. A copy of the supporting documentation must be attached to the reporting form.

3.4 The instructor may impose the recommended penalty and make the report called for in section 3.3 without a conference when a student fails to attend a scheduled conference to discuss the alleged dishonesty, or when the apparent dishonesty is detected only near the end of the semester and the faculty makes a good-faith effort to contact the student but is unable to do so. In either case, the student’s right to appeal is preserved.

4.0 Sanctions

There shall be two major classifications of sanctions that may be imposed for violations of this policy: academic and administrative. Academic sanctions are those actions related to the course work and/or grades which are the province of the faculty. Administrative sanctions are concerned with a student’s status on campus and are acted on by the

Office of Student Conduct and Ethical Development. The imposition of either an academic or administrative sanction will not preclude the additional imposition of the other.

4.1 Academic Sanctions

Faculty members are responsible for determining the type of academic sanction to be applied to students involved in incidents of cheating or plagiarism. Faculty may find it helpful to consult with their department chair, senior faculty, and/or the Conduct Officer in consideration of appropriate academic sanctions. Such sanctions shall be proportional to the offense against the Academic Integrity Policy that has occurred. Usually a form of “grade modification” will be employed. Before sanctions can be employed, the faculty member must have verified the instances of academic dishonesty by personal observation and/or documentation. In all cases, the violation must be reported to the Office of Student Conduct & Ethical Development on the reporting form for violations to the Academic Integrity Policy. A student may be:

4.1.1 Reprimanded orally.

4.1.2 Failed in the evaluation instrument (paper or exam).

4.1.3 Reduced in course grade.

4.1.4 Failed in the course.

4.1.5 Referred for administrative sanctions. A faculty member may choose to refer a student to the Office of Student Conduct & Ethical Development for disciplinary action in addition to the academic sanction the faculty member has taken.

4.1.6 Faculty Discretion:

Cases involving the careless or inept handling of quoted material but which fall short of the definitions of the acts of cheating and/or plagiarism as defined in Items 1.1 and 1.2 of this policy may be dealt with at the discretion of the faculty member concerned. The faculty has the discretion to deal with any other act committed by a student in the course of their academic work which defrauds or misrepresents, including aiding or abetting other students who violate this policy.

4.1.7 Academic Sanctions:

For violations of sections 1.1.5 and 1.1.6, the student must be referred to the Office of Student Conduct & Ethical Development for administrative sanctions as outlined in 4.1.5.

For violations of other sections of this policy, the instructor should choose between sanctions 4.1.1 through 4.1.4 based on the severity of the infraction.
4.2 Administrative Sanctions

As stipulated in the California Administrative Code, Section 41301, cheating or plagiarism in connection with an academic program may warrant expulsion, suspension, probation or a lesser sanction. Administrative action involving academic dishonesty at SJSU is the responsibility of the Office of Student Conduct & Ethical Development.

The Office of Student Conduct & Ethical Development will respond to:

1. referrals from the faculty;
2. violations of the Academic Integrity Policy;
3. repeat violations as brought to attention by the faculty or through the centralized reports filed in the Office of Student Conduct & Ethical Development.

Faculty members will be notified by the Office of Student Conduct & Ethical Development when action has been taken. The Office of Student Conduct & Ethical Development shall maintain a record of students who have been reported for violating the Academic Integrity Policy. The information in this record will be used to identify and discipline students who have been reported.

5.0 Protection of Rights

Nothing in this policy is intended to deny students who come within its scope appropriate “due process,” including the right to be informed of the charges, the nature of the evidence supporting the charges, and to have a meeting with the faculty member, the Office of Student Conduct & Ethical Development or other decision-makers, at which time statements and evidence on behalf of the student may be submitted. Nor is it intended to deny the right to appeal, through appropriate university channels, any decision resulting from such a meeting.

5.1 The handling of student conduct code violations should be separated from the processes handling student disputes with other members of the university community. Specifically, grades resulting from cheating are not a matter of student fairness. Therefore the Office of the Ombudsperson and the Student Fairness Committee should be removed from the student conduct processes regarding academic misconduct (F15-7). Students may, however, consult with the Ombudsperson confidentially and informally regarding the Academic Integrity policy and/or process.

5.2 When an administrative sanction is being considered, Executive Order 1073, Student Disciplinary Procedures for the California State University, stipulates that a student is entitled to a hearing to determine whether violations of conduct and/or conduct-related regulations have occurred. Students may, however, consult with the Ombudsperson confidentially and informally regarding the Academic Integrity policy and/or process.

6.0 Threats

Any threats against any member of the faculty as a consequence of implementing this policy on academic integrity will be cause for disciplinary action under Section 41301, Title 5, California Code of Regulations, in addition to civil and criminal liabilities.

7.0 Dissemination of Information

7.1 This policy shall be published in the Schedule of Classes each semester and in the University Catalog. There shall also be copies of this policy in every department office and copies will be available to all interested parties in the Office of Student Conduct & Ethical Development.

7.2 Dissemination of this information shall be the responsibility of the Office of Student Conduct & Ethical Development. Information is available at http://www.sjsu.edu/studentconduct

7.3 The Office of Student Conduct & Ethical Development shall submit a statistical report on the number and type of infractions and their eventual disposition to the Academic Senate annually.

7.4 Colleges and departments are encouraged to periodically include at faculty meetings, discussion of this policy and strategies for ensuring academic integrity among students.

7.5 Department chairs and school directors should ensure that new faculty members receive a copy of this policy and a verbal explanation at the time they are given their first class assignment.

Complaints

A student involved in a dispute must first attempt to resolve the matter with the other party. If an agreement is not reached, the student should seek the aid of the University Ombudsperson or the immediate supervisor of the other party. Students may seek the counsel of the Ombudsperson before speaking with parties directly involved in the conflict. If this informal process fails to resolve the matter, the student should contact the University Ombusperson regarding the formal complaint process.
Complaint Procedures - Alleged Violations of State Law

Student/Applicant Complaint Procedure for Alleged Violations of State Law Not Covered by Another CSU Complaint Procedure

This executive order fulfills the requirements of the Higher Education Act Title IV, 34 Code of Federal Regulations sections 600.9(a)(1)(i)(A) and 668.43(b), by establishing a complaint procedure for CSU students and student applicants alleging that the CSU has violated one or more state laws, where there is no other applicable CSU complaint procedure.

I. Scope of Procedure

This complaint procedure is for CSU students and student applicants who believe the CSU has violated one or more state laws. It does not encompass complaints already covered by another CSU complaint procedure (e.g., student complaints alleging discrimination, harassment and retaliation, covered by Executive Order No. 1045). It also does not encompass complaints regarding CSU’s compliance with academic program quality and accrediting standards; such complaints may be filed with the Western Association of Schools and Colleges (WASC), the agency that accredits the CSU’s academic program, at http://www.wascsenior.org/comments.

II. The Complaint

A. The complaint must be filed within 30 work days of the CSU’s alleged violation of one or more state laws, or the complainant’s discovery thereof.

B. The complaint must be made in writing and clearly indicate the intent to file a complaint alleging that the CSU violated one or more state laws or specifically reference this executive order.

C. The complaint must contain the following:

The complainant’s name, student I.D. number, mailing address and telephone number.

The term and year of the complainant’s last active academic status or the term and year the complainant sought admission to the university.

A detailed description of the specific actions that constituted the alleged violation of one or more state laws, including the specific law or laws alleged to have been violated and, if known, the name(s) and title(s) of the responsible CSU employee(s).

The date(s) the alleged improper activities occurred or the condition developed.

A list of witnesses, if any, including their contact information and the facts known by each.

Copies of any documentary evidence that supports the complaint.

Descriptions of documents that support the complaint and, if known, where the documents are maintained and by whom if the actual documents are not in the possession of the complainant.

A dated and signed statement by the complainant under penalty of perjury that the complaint is true, or is believed by the complainant to be true.

D. The complaint may be filed with the campus president or designee (“campus administrator”).

E. The complaint must be personally delivered, or sent by electronic or certified mail. The complaint filing date is the date of personal service, the date on the electronic transmission or the postmark date of the mailing.

III. The Level I Campus Investigation

A. The campus administrator shall review the complaint to determine whether it is timely filed, contains all the required information and falls within the scope of this executive order. If it does, the campus administrator shall notify the complainant in writing within 10 work days of receipt of the complaint that the complaint has been accepted. If it is untimely or does not contain all of the required information, the campus administrator shall notify the complainant in writing within 10 work days of receipt of the complaint that the complaint has not been accepted and state the reasons.

If it is determined that the complaint falls within the scope of another CSU complaint procedure, the campus administrator shall forward the complaint to the appropriate campus official and shall notify the complainant in writing within 10 work days of receipt of the complaint that the complaint has been deemed to fall within the scope of another CSU complaint procedure, why, and to whom the complaint has been forwarded. The administrator shall not forward the complaint or disclose the complainant’s identity to anyone who has or appears to have a conflict of interest in regard to the allegation(s).

B. If the complaint raises any new allegations after the complaint has been accepted, the campus administrator shall decide whether to include those allegations as part of the complaint. If they are not included as part of the initial complaint, the complainant shall be advised of the need to file a new complaint to address those allegations.
C. The campus administrator shall investigate the claim, or may appoint a third party to conduct an investigation. The investigator shall be a management personnel plan employee or an external consultant experienced in conducting investigations. If the complaint is against the CSU, the chancellor or any Chancellor’s Office employee, campus president or vice president, the campus administrator shall consult with the Associate Vice Chancellor, Academic Affairs at the Chancellor’s Office, who shall determine the appropriate handling of the complaint. The timelines and procedures for the process remain the same.

D. The complainant is required to fully cooperate in the investigation, and must participate in a timely intake interview. If the complainant does not cooperate, the campus administrator may end the investigation.

E. CSU employees are required to cooperate with the investigation, be truthful, maintain confidentiality, and provide all relevant and/or requested information to the investigator.

F. Complaints and other information gathered during the course of the investigation by the university shall be shared only with individuals who have a legitimate business reason to know.

IV. The Level I Campus Decision

The campus administrator shall make the final decision and issue a letter of determination to the complainant no later than 60 work days from the date the complaint was filed, unless s/he determines that extenuating circumstances warrant an extension of time. In no case shall the decision letter be issued later than 90 work days from the date the complaint was filed.

Within the investigation period, the investigator must make findings of fact and conclusions regarding the allegations, which s/he shall reduce to an investigative report. Preponderance of the evidence is the applicable standard: in order to establish a fact, the investigator must find that the evidence on one side outweighs the evidence on the other side.

The report should include the following information:

A summary of the allegations.

A description of the investigative process.

The preponderance of the evidence standard used to determine whether a violation occurred.

The evidence considered.

A determination of whether the allegations were found to be substantiated.

Within the time frame specified above, the campus administrator shall notify the complainant in writing of the outcome. The notification should include a summary of the allegations, a description of the investigative process, the preponderance of the evidence standard used, the evidence considered and a determination of whether the allegations were found to be substantiated. The notification shall also inform the complainant what, if any, actions were or will be taken (specific employee discipline is confidential), and of his/her option to file an appeal under Article V of this executive order. The campus administrator shall maintain a copy of the notification as required by the applicable document retention policy(ies).

V. The Level II Chancellor’s Office Review and Decision

A. If the complainant is not satisfied with the campus decision, s/he may file a Level II appeal with the Office of the Chancellor no later than 10 work days after receipt of the Level I decision. Level II appeals shall be addressed to: Associate Vice Chancellor, Academic Affairs, CSU Office of the Chancellor, 401 Golden Shore 6th Floor, Long Beach, California 90802.

B. The appeal shall be in writing and must detail the specific disagreements with the campus decision. The issues raised on appeal shall be limited to those raised during the Level I process.

C. The Associate Vice Chancellor, Academic Affairs or designee shall review the issues raised on appeal to determine whether the campus has adequately processed and addressed the complaint and/or whether the preponderance of the evidence indicates that there has been a violation of state law.

D. The Associate Vice Chancellor, Academic Affairs or designee shall issue a decision no later than 60 work days after receipt of the appeal unless s/he determines that extenuating circumstances warrant an extension of time. In no case shall the final decision letter be issued later than 90 work days from the date the appeal was filed. The decision shall include a summary of the issues raised on appeal, a description of the review process, the preponderance of the evidence standard used, the evidence considered and a final decision. The notification shall also inform the complainant what, if any, actions were or will be taken (specific employee discipline is confidential), and note that the CSU’s review of the complaint is now considered final and complete. A copy of the final decision letter shall be provided to the campus administrator.
VI. General Provisions

A. Work days are defined as Monday through Friday, excluding all official holidays or campus closures at the campus where the complaint originated.

B. A student/applicant must proceed with a complaint in good faith. A student who knowingly and intentionally files a false complaint, abuses this policy, or files a malicious or frivolous complaint may be subject to discipline. Discipline shall be taken in accordance with Section 41301, Title 5, California Code of Regulations.

C. When issuing a Level I or II response, personal delivery or certified mail shall be used. If personal delivery is used, a signature acknowledging the calendar date of delivery shall be obtained which will establish the date of response. If certified mail delivery is used, the postmark shall establish the date of response.

D. The CSU is not obligated under this executive order to investigate a complaint not timely filed under its provisions. Regardless, the CSU may investigate the underlying allegations if it determines the circumstances warrant investigation. Also, if the circumstances warrant investigation, the CSU may waive the time limits and choose to process the complaint under the complaint process set forth herein.

E. CSU will notify the California Department of Finance, Office of State Audits and Evaluation, and the Bureau of State Audits, of all cases of actual or suspected fraud, theft or other irregularities it learns of as the result of any complaint made under this executive order.

F. Time periods set forth in this executive order may be extended by the campus administrator and, at Level II, by the Associate Vice Chancellor, Academic Affairs up to the specified maximums, if any, provided s/he informs the complainant of the new time period in writing.

G. Care shall be taken to keep confidential the identity of the complainant in so far as feasible and consistent with the law.

H. CSU employees are prohibited from retaliating against complainants or others who cooperate with the investigation.

Effective: September 1, 2011

Model Complaint Procedure

Model complaint procedure for CSU students/applicants in compliance with HEA Title IV, 34 CFR, Sections 600.9(a)(1)(i)(A) and 668.43(b)

Student/Applicant Complaint Procedure Notice

The California State University takes very seriously complaints and concerns regarding the institution. If you have a complaint regarding the CSU, you may present your complaint as follows:

(1) If your complaint concerns CSU’s compliance with academic program quality and accrediting standards, you may present your complaint to the Western Association of Schools and Colleges (WASC) at http://www.wascsenior.org/comments. WASC is the agency that accredits the CSU’s academic programs.

(2) If your complaint concerns an alleged violation by CSU of a state law, including laws prohibiting fraud and false advertising, you may present your claim to the campus president or designee. The president or designee will provide guidance on the appropriate campus process for addressing your particular issue.

If you believe that your complaint warrants further attention after you have exhausted all the steps outlined by the president or designee, or by WASC, you may file an appeal with the Associate Vice Chancellor, Academic Affairs at the CSU Office of the Chancellor.

Note: Most complaints made to media outlets or public figures, including members of the California legislature, Congress, the Governor, or individual CSU trustees, are referred to the chancellor of the CSU.

Nothing in this disclosure should be construed to limit any right that you may have to take civil or criminal legal action to resolve your complaint.

The CSU has provided this disclosure to you in compliance with the requirements of the Higher Education Act of 1965, as amended, as regulated in 34 Code of Federal Regulations sections 600.9(a)(1)(i)(A) and 668.43(b).

Course Syllabi

Course Syllabi, University Policy, S16-9

Course syllabi enable students to better understand and fulfill their responsibilities as learners in courses. They are a necessary tool in higher education to enable students to take part in the learning process through knowing what is expected of them and what they can expect from the course. Student success is aided by students knowing in advance as much as possible about the course requirements so that they can plan their study time and coordinate work on assignments from multiple courses. Student success is also aided by encouraging students to contact their professors and providing information about key university policies to which they are subject. In addition, syllabi provide an opportunity to model thorough, clear, professional communication.

Review Syllabi Information Website
Educational Equity

The California State University defines “educational equity” to be “justice, equal opportunity, fairness and impartiality in the educational processes affecting under represented minorities. It involves the implementation of programs designed to attract, admit and support students heretofore excluded from full participation in the university by conditions of educational and economic disadvantages” (Educational Equity: A Continuing Commitment, published by the California State University, 1989).

The Office of Diversity, Equity and Inclusion leads university-wide efforts to ensure a welcoming, safe climate for every member of the San Jose State community.

San Jose State University defines diversity as the active appreciation, engagement, and support of ALL campus members in terms of their backgrounds, identities and experiences (as constituted by gender, socioeconomic class, political perspective, age, race, ethnicity, religion, sexual orientation, disability, regional origin, nationality, occupation, language, among others, and the intersection of these aspects).

For more information, visit: http://www.sjsu.edu/diversity/

Equal Opportunity

San José State University does not discriminate on the basis of accent, age, ancestry, citizenship status, color, creed, disability, ethnicity, gender, genetic information, marital status, medical condition, national origin, race, religion or lack thereof, sex, sexual orientation, transgender, or veteran’s status. This policy applies to all SJSU students, faculty and staff programs and activities. Title IX of the Education Amendments of 1972, and certain other federal and state laws, prohibit discrimination on the basis of sex in all education programs and activities operated by the university (both on and off campus). Questions regarding this policy should be directed to the Office for Equal Opportunity, 408-924-1115

The California State University is committed to providing equal opportunities to men and women CSU students in all campus programs, including intercollegiate athletics.

For more information, please visit: http://www.sjsu.edu/hr/about_us/hr_directory/eo_unit/title_ix/index.html

Establishing a Committed Presence in Class

Establishing a Committed Presence in a Class, University Policy F15-3

Six instructional days before Census Day, i.e. the 14th day of instruction, is the last day for the student to add a class; this is also the last day for an instructor to drop a student who fails to establish a committed presence in the class. “Establishing a committed presence” is defined as the following options for the student:

- In-person classes. Attending the first class meeting or informing the instructor of the intention to continue in the class before 48 hours after the first official class meeting.
- Online classes. Logging on to the LMS class shell on the first scheduled day of the class or informing the instructor of the intention to continue in the class before 48 hours after the official class start date.

View the full policy here: http://www.sjsu.edu/senate/docs/F15-3.pdf

Faculty Office Hours

University Policy S12-1, Faculty Office Hours

Today’s teaching and learning dynamics have changed dramatically for both students and faculty, with a much greater reliance on electronically mediated methods for communication. Faculty may now spend many hours in “unofficial” office hour time (including evenings and weekends) responding to students’ instructional needs. These consultations are frequently held outside of the physical “official” office hours, but nonetheless constitute instructional and advising time.

View the full policy here: http://www.sjsu.edu/senate/docs/S12-1.pdf
Disciplinary Action Statement

Students who fail to comply with federal, state, and local laws governing the use of alcohol, illicit drugs, and other grounds upon which student discipline can be based, will be subject to sanctions ranging from disciplinary probation up to and including expulsion from the California State University. California State University Executive Order 1098 entitled Student Conduct Procedures governs the procedures that the University follows in student discipline cases. Any permanent or probationary employee of the California State University may be dismissed, demoted or suspended for any one of several causes, including addiction to the use of controlled substances, conviction of a felony or conviction of any misdemeanor involving moral turpitude or drunkenness on duty (Educ. Code 89535). Employees challenging the imposition of such sanctions may appeal to the State Personnel Board and receive a hearing before an impartial body. Faculty employees have alternative appeal processes outlined in their collective bargaining agreement.

Student Fairness Committee

The Student Fairness Committee is under the jurisdiction of the university’s Academic Senate and is guided by University Policy S14-3. This committee hears complaints of violations of student rights in instructional and curricular matters, including grade appeals, and, when appropriate, makes recommendations for redress. The committee also hears and seeks redress of non-instructional student grievances concerning individual members of the faculty, administration or staff and, when appropriate, makes recommendations for redress.

A grievance can be brought as a result of an unauthorized or unjustified act or decision by a member of the faculty or staff or an administrative officer which in any way adversely affects the status, rights, or privileges of a student. The SFC does not have the authority to receive complaints on matters of sexual harassment, civil rights, disability rights, or equity and diversity. Nor does the SFC deal with allegations of violations of the student code of conduct.

Disputes arising out of assignment of grades or grade appeals shall be considered and decided in accordance with Executive Order 1037. There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise (EO 1037).

The SFC will hear grade dispute petitions when petitions are deemed to be appropriate and include evidence related to the following conditions:

1. When there is evaluation of students that differs from announced requirements.
2. When there are belated impositions of requirements.
3. When grades are based on criteria other than academic performance in the course.
4. When grading criteria do not provide a clear and consistent method of evaluating students’ work or performance.
5. When students’ requests for information during the semester regarding their academic progress in the course are not responded to in a reasonable time (e.g., two weeks after the request is made).
6. When students’ requests for an explanation of how the posted course grades for a term were determined are not responded to in a reasonable time (e.g., the later of two weeks after the request is made or one week before the add deadline for the fall or spring semester following the term in question).
7. When students are penalized for expressing opinions.
8. When students are given to understand that they are removed from a course without due process of a hearing

Petitions must be filed no later than the end of the subsequent fall or spring semester following that in which the alleged cause of the dispute occurred. Prior to lodging a formal complaint, the student must secure informal, confidential advisement from the University Ombudsperson. Before the committee will accept a petition, the student must exhaust all available avenues for informal resolution (i.e., prior to filing a petition, consult with instructor, Department Chair, and the College Dean - if applicable - about the specific complaint).

Any student may contact the University Ombudsperson ADM 269, 408-924-5995.
Ombudsperson

What steps should I take if I feel my rights have been violated?

If you feel that your rights have been violated or you would like to have an informal discussion with a confidential and neutral point person on campus you are encouraged to connect with the University Ombudsperson.

The University Ombudsperson is an advocate for procedural fairness who supports the integrity of the campus policies and procedures and ensures the equity of their application.

The Ombudsperson provides a neutral, confidential, and informal place to discuss a concern with the assurance that no action will be taken, nor will the visit be disclosed to anyone, without consent.

Religious Holidays

Accommodation to Students’ Religious Holidays, University Policy S14-7

San José State University shall provide accommodation on any graded class work or activities for students wishing to observe religious holidays when such observances require students to be absent from class. It is the responsibility of the student to inform the instructor, in writing, about such holidays before the add deadline at the start of each semester. If such holidays occur before the add deadline, the student must notify the instructor, in writing, at least three days before the date that he/she will be absent. It is the responsibility of the instructor to make every reasonable effort to honor the student request without penalty, and of the student to make up the work missed.

Student Conduct & Ethical Development

Student Conduct and Ethical Development promotes fairness and consistency in the administration of the student conduct process while supporting a safe and inclusive living and learning environment. Student Conduct and Ethical Development commits to the principles of empathy, ethics, equity, integrity, and respect.

Through effective prevention (interactions, outreach, presentations) and response (student conduct process) initiatives, Student Conduct and Ethical Development facilitates ethical development, effective decision making, and problem solving skills and contributes to students’ personal and academic success.

### Student Conduct Code

Title 5, California Code of Regulations, §A7 41301. Standards for Student Conduct

(a) Campus Community Values

The university is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the campus community should choose behaviors that contribute toward this end. Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the campus community, and contribute positively to student and university life.

(b) Grounds for Student Discipline

Student behavior that is not consistent with the Student Conduct Code is addressed through an educational process that is designed to promote safety and good citizenship and, when necessary, impose appropriate consequences.

The following behavior is subject to disciplinary sanctions and are the grounds upon which student discipline can be based:

1. Dishonesty, including:
   - (A) Cheating, plagiarism, or other forms of academic dishonesty that are intended to gain unfair academic advantage.
   - (B) Furnishing false information to a university official, faculty member, or campus office.
   - (C) Forgery, alteration, or misuse of a university document, key, or identification instrument.
   - (D) Misrepresenting oneself to be an authorized agent of the university or one of its auxiliaries.

2. Unauthorized entry into, presence in, use of, or misuse of university property.

3. Willful, material and substantial disruption or obstruction of a university-related activity, or on-campus activity.

4. Participating in an activity that substantially and materially disrupts the normal operations of the university, or infringes on the rights of members of the university community.

5. Willful, material and substantial obstruction of the free flow of pedestrian or other traffic, on or leading to campus property or an off-campus university-related activity.

6. Disorderly, lewd, indecent, or obscene behavior at a university-related activity, or directed toward a member of the university community.

7. Conduct that threatens or endangers the health or safety of any person within or related to the university community, including physical abuse, threats, intimidation, harassment, or sexual misconduct.

8. Hazing, or conspiracy to haze. Hazing is defined as any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury to any former, current, or prospective student of any school, community college, college, university or other educational institution in this state (Penal Code 245.6), and in addition, any act likely to cause physical harm, personal degradation or disgrace resulting in physical or mental harm, to any former, current, or prospective student of any school, community college, college, university or other educational institution. The term “hazing” does not include customary athletic events or school sanctioned events.

   Neither the express or implied consent of a victim of hazing, nor the lack of active participation in a particular hazing incident is a defense. Apathy or acquiescence in the presence of hazing is not a neutral act, and is also a violation of this section.

9. Use, possession, manufacture, or distribution of illegal drugs or drug-related paraphernalia, (except as expressly permitted by law and university regulations) or the misuse of legal pharmaceutical drugs.

10. Use, possession, manufacture, or distribution of alcoholic beverages (except as expressly permitted by law and university regulations) or public intoxication while on campus or at a university-related activity.

11. Theft of property or services from the university community, or misappropriation of university resources.

12. Unauthorized destruction, or damage to university property or other property in the university community.

13. Possession or misuse of firearms or guns, replicas, ammunition, explosives, fireworks, knives, other weapons, or dangerous chemicals (without the prior authorization of the campus president) on campus or at a university-related activity.

14. Unauthorized recording, dissemination, or publication of academic presentations (including handwritten notes) for a commercial purpose.

15. Misuse of computer facilities or resources, including:
   - (A) Unauthorized entry into a file, for any purpose.
   - (B) Unauthorized transfer of a file.
(C) Use of another's identification or password.
(D) Use of computing facilities, campus network, or other resources to interfere with the work of another member of the university community.
(E) Use of computing facilities and resources to send obscene or intimidating and abusive messages.
(F) Use of computing facilities and resources to interfere with normal university operations.
(G) Use of computing facilities and resources in violation of copyright laws.
(H) Violation of a campus computer use policy.

(16) Violation of any published university policy, rule, regulation or presidential order.
(17) Failure to comply with directions of, or interference with, any University official or any public safety officer while acting in the performance of his/her duties.
(18) Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or well-being of members of the university community, to property within the university community or poses a significant threat of disruption or interference with university operations.
(19) Violation of the Student Conduct Procedures, including:
(A) Falsification, distortion, or misrepresentation of information related to a student discipline matter.
(B) Disruption or interference with the orderly progress of a student discipline proceeding.
(C) Initiation of a student discipline proceeding in bad faith.
(D) Attempting to discourage another from participating in the student discipline matter.
(E) Attempting to influence the impartiality of any participant in a student discipline matter.
(F) Verbal or physical harassment or intimidation of any participant in a student discipline matter.
(G) Failure to comply with the sanction(s) imposed under a student discipline proceeding.
(20) Encouraging, permitting, or assisting another to do any act that could subject him or her to discipline.

(c) Procedures for Enforcing this Code

The Chancellor shall adopt procedures to ensure students are afforded appropriate notice and an opportunity to be heard before the university imposes any sanction for a violation of the Student Conduct Code. [Note: At the time of publication, such procedures are set forth in California State University Executive Order 1098 (Revised June 23, 2015), available at http://calstate.edu/eo/EO-1098-rev-6-23-15.html]

(d) Application of this Code

Sanctions for the conduct listed above can be imposed on applicants, enrolled students, students between academic terms, graduates awaiting degrees, and students who withdraw from school while a disciplinary matter is pending. Conduct that threatens the safety or security of the campus community, or substantially disrupts the functions or operation of the University is within the jurisdiction of this Article regardless of whether it occurs on or off campus.

Nothing in this Code may conflict with Education Code section 66301 that prohibits disciplinary action against students based on behavior protected by the First Amendment

Title 5, California Code of Regulations, §A7 41302. Disposition of Fees: Campus Emergency; Interim Suspension.

The president of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the president of the individual campus, the president may, after consultation with the chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The president may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the president or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.
Student Conduct Procedures

SJSU is committed to ensuring a safe learning and living environment for students, faculty, and staff. The privilege of attending San José State University is accompanied by certain responsibilities to ensure this environment. The California Code of Regulations, Title 5, Section 41301 establishes behavioral expectations of our students to promote safety and good citizenship. The California State University issued Executive Order 1098, entitled, Student Conduct Procedures, on June 23, 2015 to outline the procedures for administering the Student Conduct Code as well as ensuring students’ rights to due process. The process is intended to be educational in nature, and appropriate sanctions may be administered.

Policy and Implementation

At San José State University the responsibility for administering the Student Conduct Code resides with the Director of Student Conduct and Ethical Development in the Division of Student Affairs. This position is responsible for carrying out the duties in Executive Order No. 1098 assigned to the Student Conduct Administrator, including the determination of whether to initiate disciplinary action.

Students may be accompanied by an advisor of their choice. The advisor’s role is limited to observing and providing consultation, support, and advice to the Student. The advisor may not speak on the Student’s behalf.

San Jose State University excludes attorneys from student discipline proceedings except in limited circumstances where there are (a) pending criminal (felony) charges or (b) the recommended sanction is Expulsion. (Refer to Executive Order 1098, Article II, Section C for additional details about attorneys.)

The duties of the president in Executive Order No. 1098 are delegated to the Vice President for Student Affairs, including the appointment of hearing officers (Article II, section B), review of final reports of hearing officers and issuing notice of the final decision (Article III, Sections E and F), and the imposition of interim suspension (Article VI, Sections H and I).

Student Discipline and Conduct

Questions regarding student disciplinary matters should be directed to Student Conduct & Ethical Development, Administration 218, 408-924-5985 or www.sjsu.edu/studentconduct/.

Student Disciplinary Process

The student conduct process is governed by Executive Order 1098. Copies of this document are available in Student Conduct & Ethical Development, Administration 218, 408-924-5985 or www.sjsu.edu/studentconduct/.

California Code of Regulations

Inappropriate conduct by students or by applicants for admission is subject to discipline as provided in Sections 41301 through 41304 of Title 5, California Code of Regulations.

Regulation - Disposition of Fees

Disposition of Fees - Campus Emergency - 41302 - Interim Suspension

The president of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the president of the individual campus, the President may, after consultation with the chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The president may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.
Regulation - Conduct by Applicants for Admission - 41303

Notwithstanding any provision in this Chapter 1 to the contrary, admission or readmission may be qualified or denied to any person who, while not enrolled as a student, commits acts which, were he enrolled as a student, would be the basis for disciplinary proceedings pursuant to Sections 41301 or 41302. Admission or readmission may be qualified or denied to any person who, while a student, commits acts which are subject to disciplinary action pursuant to Section 41301 or Section 41302. Qualified admission or denial of admission in such cases shall be determined under procedures adopted pursuant to Section 41304.

Regulation - Student Disciplinary Procedures for the California State University - 41304

The chancellor shall prescribe, and may from time to time revise, a code of student disciplinary procedures for the California State University. Subject to other applicable law, this code shall provide for determinations of fact and sanctions to be applied for conduct which is a ground of discipline under Sections 41301 or 41302, and for qualified admission or denial of admission under Section 41303; the authority of the campus president in such matters; conduct-related determinations on financial aid eligibility and termination; alternative kinds of proceedings, including proceedings conducted by a hearing officer; time limitations; notice; conduct of hearings, including provisions governing evidence, a record and review; and such other related matters as may be appropriate. The chancellor shall report to the board actions taken under this section.

Drug-Free Schools Statement

In accordance with the Drug-Free Workplace and the Drug-Free Schools and Communities Act (P.L. 102-226) and the Presidential Directive (90-92), SJSU recognizes that the abuse of alcohol and other drugs is a threat to the health and welfare of the campus community and is not compatible with an environment where education takes place. Therefore, the following principles will serve as standards of conduct.

The unlawful manufacture, possession, distribution or use of a controlled substance is prohibited on campus. Violation of this standard may result in dismissal under the applicable regulations of the Title V and will be subject to civil and criminal penalties.

No individual below the age of 21 and no intoxicated individual may use, purchase or possess alcoholic beverages or they may be subject to the penalties imposed by local, state and federal laws.

SJSU recognizes that its policy on illicit drugs and alcohol meets the legal requirements of public laws 101-226, 100-440, 100-690 and the California Penal Code. For more explicit information on the policy and sanctions, contact the Office of the Vice President for Student Affairs or the Student Health Center.

SJSU’s Commitment to Student Health and Safety

SJSU is sincerely concerned for the welfare of all members of its community. The university recognizes that college and university campuses may be particularly vulnerable to the abuse of alcohol and other drugs. Concern for the potential impairment of education and learning and the safety and good health of all members of the campus community, as well as the effective conduct of campus affairs, has led SJSU to issue this information.

This information was prepared to inform members of the campus community of the problems associated with alcohol and illicit drug abuse; to indicate sources of assistance for such problems; to emphasize standards of conduct desired of students, faculty and employees; and to note sanctions associated with infractions of these standards and other illegal acts related to abuse.

All colleges and universities that receive federal funds in any form are required to comply with Public Law 101-226. Partial compliance with this new law requires annual distribution of information to students and employees. This law, in addition to the Drug Free Workplace Act (Public Law 100-690) which requires applicants for federally funded grants and contracts (including certain forms of student financial aid) to certify that they will take affirmative steps to prohibit the unlawful manufacture, distribution, possession and use of controlled substances in the workplace, establishes the legal requirements for SJSU.

A more complete compendium on Federal, State and Local laws is available at the following locations:

- Vice President for Student Affairs, ADM 242
- Human Resources, UPD
- Wellness and Health Promotion Office, Student Wellness Center 101
Safety Report

The Annual Security and Fire Safety Report is published each year in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. The report contains important safety information, SJSU policies, and crime statistics for the previous 3 years.

University Police
www.sjsu.edu/police

Sexual Harassment

San José State University is committed to maintaining a learning and working environment free from sexual harassment of its students, employees, and those who apply for employee or student status. Sexual harassment is conduct subject to disciplinary action.

SJSU policy defines sexual harassment to include "behaviors such as sexual advances, request for sexual favors, and other verbal or physical conduct of a sexual nature directed towards an employee, student, or applicant when one or more of the following circumstances are present:

- Submission to or toleration of the conduct is an explicit or implicit term or condition of appointment, employment, admission or academic evaluation
- Submission to or rejection of such conduct is used as a basis for a personnel decision or an academic evaluation affecting an individual
- The conduct has the purpose of interfering with an employee’s work performance or creating an intimidating, hostile, offensive or otherwise adverse working environment
- The conduct had the purpose or effect of interfering with a student’s academic performance, creating an intimidating, hostile, offensive or otherwise adverse learning environment, or adversely affecting any student.

All complaints dealing with sexual harassment should be directed to the Office for Equal Opportunity, which is located in UPD 303, 408-924-1115.

CSU Nondiscrimination Policy and Complaint Procedures

Regulation - CSU Executive Order 1045

California State University (CSU) Student/Applicant for Admission Discrimination/Harassment/Retaliation Complaint Process Timeline

Systemwide Policy Prohibiting Discrimination, Harassment and Retaliation, Sexual Misconduct, Dating and Domestic Violence, and Stalking against Students and Systemwide Procedure for Addressing Such Complaints by Students

California State University Executive Order 1097 governs the procedures that SJSU follows when students make a complaint regarding Discrimination, Harassment and Retaliation, Sexual Misconduct, Dating and Domestic Violence, and Stalking.

California State University Executive Order 1097 informs students of their rights and responsibilities when they make a complaint and describes the Campus Early Resolution Process, Campus Investigation Process, Appeal Review-Office of the Chancellor, and Remedies that may be imposed.

Regulation - Campus Climate

Tolerance, Respect and Understanding

As members of a university community it is our responsibility to advocate tolerance, respect and understanding at a level above that which is minimally required of us by law. While SJSU has largely succeeded in creating a diverse campus community, it must also actively promote a civil campus climate. This may require changes in attitudes and behaviors as we develop our common bonds.

Several of the convictions that might help us as members of an educational institution create these bonds are:

- Respect for the individual: In recognition of individual uniqueness and value, whether as students, faculty, staff or administrators, it is our commitment to discourage appropriately any actions, behaviors, communication or programs that erode this fundamental concern for the individual.
- Commitment to issue and problem resolution: It is the intent of the university to recognize the process of problem and issue resolution as integral to the successful achievement of its mission. SJSU is committed to addressing problems and issues in a responsive, equitable and timely manner.
Open communication and feedback: The university endorses and supports an environment of open communication and feedback. In support of this principle, the university will develop internal programs to educate, evaluate, and provide feedback to support the growth process, including the growth of community and civility.

**Regulation - Protected Status: Genetic Information, Marital Status, Medical Condition, Nationality, Race or Ethnicity (including color or ancestry), Religion or Religious Creed, and Veteran or Military Status**

The California State University does not discriminate on the basis of age, genetic information, marital status, medical condition, nationality, race or ethnicity (including color or ancestry), religion (or religious creed), and veteran or military status - as these terms are defined in CSU policy - in its programs and activities, including admission and access. Federal and state laws, including Title VI of the Civil Rights Act of 1964 and the California Equity in Higher Education Act, prohibit such discrimination.

CSU Executive Order 1097 [www.calstate.edu/EO/EO-1097-rev-6-23-15.pdf] is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a third party. The Director of Compliance has been designated to coordinate the efforts of San José State University to comply with all applicable federal and state laws prohibiting discrimination on these bases. Inquiries concerning compliance may be presented to this person at 408-924-1200 or the Office for Equal Opportunity, UPD 303, 408-924-1115.

The Office for Equal Opportunity has been designated to coordinate the efforts of SJSU to comply with all applicable disability laws. Inquiries concerning compliance may be addressed to this office at 408-924-1115.

**Regulation - Protected Status: Disability**

The California State University does not discriminate on the basis of disability (physical and mental) - as this term is defined in CSU policy - in its programs and activities, including admission and access. Federal and state laws, including sections 504 and 508 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, prohibit such discrimination. Each campus has been designated to coordinate the efforts to comply with all applicable federal and state laws prohibiting discrimination on the basis of disability. Inquiries concerning compliance may be presented to this person at [campus address and phone number]. CSU Executive Order 1097 Revised October 5, 2016 [http://www.calstate.edu/EO/EO-1097-rev-10-5-16.pdf] (or any successor executive order) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a third party.

The Office for Equal Opportunity has been designated to coordinate the efforts of SJSU to comply with all relevant disability laws. Inquiries concerning compliance may be addressed to this office at 408-924-1115.

**Regulation - Protected Status: Gender (or sex), Gender Identity (including transgender), Gender Expression and Sexual Orientation**

The California State University does not discriminate on the basis of gender (or sex), gender identity (including transgender), gender expression or sexual orientation - as these terms are defined in CSU policy - in its programs and activities, including admission and access. Federal and state laws, including Title IX of the Education Amendments of 1972, prohibit such discrimination. The California State University is committed to providing equal opportunities to all CSU students in all campus programs, including intercollegiate athletics. Inquiries concerning compliance may be presented to this person at 408-924-1200 or the Office for Equal Opportunity, UPD 303, 408-924-1115. CSU Executive Order 1097 Revised October 5, 2016 [www.calstate.edu/EO/EO-1097-rev-10-5-16.pdf] (or any successor executive order) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a third party.

Title IX of the Education Amendments of 1972 protects all people regardless of their gender, gender identity, gender expression or sexual orientation from gender discrimination, which includes sexual harassment and violence:

**Sexual Discrimination** means an adverse action taken against a student by the CSU, a CSU employee, or another student because of gender or sex (including sexual harassment, sexual violence, domestic violence, dating violence, and stalking) that is perpetrated against an individual on a basis prohibited by Title IX of the Education Amendments of 1972, 20 U.S.C. §1681 et seq., and its implementing regulations, 34 C.F.R. Part 106 (Title IX); California Education Code §A766250 et seq., and/or California Government Code §A711135.

**Sexual Harassment**, a form of sex discrimination, is unwelcome verbal, nonverbal or physical conduct of a sexual nature that includes, but is not limited to, sexual advances, requests for sexual favors, and any other conduct of a sexual nature where:

1. Submission to, or rejection of, the conduct is explicitly or implicitly used as the basis for any decision affecting a complainant’s status or progress, or access to benefits and services, honors, programs, or activities available at or through the university, or
2. The conduct is sufficiently severe, persistent or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the complainant, and is in fact considered by the complainant, as limiting his or her ability to participate in or benefit from the services, activities or opportunities offered by the university.

3. The conduct is sufficiently severe, persistent or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the complainant, and is in fact considered by the complainant, as creating an intimidating, hostile or offensive environment.

Sexual harassment could include being forced to engage in unwanted sexual contact as a condition of membership in a student organization; being subjected to video or photographic exploitation; or a campaign of sexually explicit graffiti; or frequently being exposed to unwanted images of a sexual nature in a classroom that are unrelated to the coursework. Executive Order 1097 covers unwelcome conduct of a sexual nature. While romantic, sexual, intimate, personal or social relationships between members of the University community may begin as consensual, they may evolve into situations that lead to sexual harassment or sexual misconduct, including dating or domestic violence, or stalking, subject to this policy. Claiming that the conduct was not motivated by sexual desire is not a defense to a complaint of harassment based on gender.

Sexual Misconduct: All sexual activity between members of the university community must be based on affirmative consent. Engaging in any sexual activity without first obtaining affirmative consent to the specific activity is sexual misconduct, whether or not the conduct violates any civil or criminal law. Sexual activity includes, but is not limited to, kissing, touching intimate body parts, fondling, intercourse, penetration of any body part, and oral sex. It also includes any unwelcome physical acts, such as unwelcome sexual touching, sexual assault, sexual battery, rape, and dating violence. When based on gender, domestic violence or stalking also constitute sexual misconduct. Sexual misconduct may include using physical force, violence, threat or intimidation, ignoring the objections of the other person, causing the other person's intoxication or incapacitation through the use of drugs or alcohol, or taking advantage of the other person's incapacitation (including voluntary intoxication) to engage in sexual activity. Men as well as women can be victims of these forms of sexual misconduct. Sexual activity with a minor is never consensual when the complainant is under 18 years old, because the minor is considered incapable of giving legal consent due to age.

Sexual Assault is a form of sexual misconduct and is an attempt, coupled with the ability, to commit a violent injury on the person of another because of that person's gender or sex.

Sexual Battery is a form of sexual misconduct and is any willful and unlawful use of force or violence upon the person of another because of that person's gender or sex as well as touching an intimate part of another person against that person's will and for the purpose of sexual arousal, gratification or abuse.

Rape is a form of sexual misconduct and is non-consensual sexual intercourse that may also involve the use of threat of force, violence, or immediate and unlawful bodily injury or threats of future retaliation and duress. Any sexual penetration, however slight, is sufficient to constitute rape. Sexual acts including intercourse are considered non-consensual when a person is incapable of giving consent because s/he is incapacitated from alcohol and/or drugs, is under 18 years old, or if a mental disorder or developmental or physical disability renders the person incapable of giving consent. The respondent’s relationship to the person (such as family member, spouse, friend, acquaintance or stranger) is irrelevant.

Acquaintance Rape is a form of sexual misconduct committed by an individual known to the victim. This includes a person the victim may have just met; i.e., at a party, introduced through a friend, or on a social networking website.

Affirmative Consent means an informed, affirmative, conscious, voluntary, and mutual agreement to engage in sexual activity. It is the responsibility of each person involved in the sexual activity to ensure that s/he has the affirmative consent of the other participant(s) to engage in the sexual activity. Lack of protest or resistance does not mean consent nor does silence mean consent. Affirmative consent must be voluntary, and given without coercion, force, threats or intimidation.

- The existence of a dating or social relationship between those involved, or the fact of past sexual activities between them, should never by itself be assumed to be an indicator of affirmative consent. A request for someone to use a condom or birth control does not, in and of itself, constitute affirmative consent.
- Affirmative consent can be withdrawn or revoked. Consent to one form of sexual activity (or sexual act) does not constitute consent to other forms of sexual activity. Consent given to sexual activity on one occasion does not constitute consent on another occasion. There must always be mutual and affirmative consent to engage in sexual activity. Consent must be ongoing throughout a sexual activity and can be revoked at any time, including after penetration. Once consent is withdrawn or revoked, the sexual activity must stop immediately.
- A person who is incapacitated cannot give affirmative consent. A person is unable to consent when s/he is asleep, unconscious or is incapacitated due to the influence of drugs, alcohol, or medication so that s/he could not understand the fact, nature or extent of the sexual activity. A person is incapacitated if s/he lacks the physical and/or mental ability to make informed, rational decisions. Whether an intoxicated person (as a result of using alcohol or other drugs) is incapacitated depends on the extent to which the alcohol or other drugs impact the person’s decision-making capacity, awareness of consequences, and ability to make fully informed judgments. A person’s own intoxication or incapacitation from drugs or alcohol does not diminish that person’s responsibility to obtain affirmative consent before engaging in sexual activity.
- A person with a medical or mental disability may also lack the capacity to give consent.
- Sexual activity with a minor (a person under 18 years old) is not consensual, because a minor is considered incapable of giving legal consent due to age.
• It shall not be a valid excuse that a person affirmatively consented to the sexual activity if the respondent knew or reasonably should have known that the person was unable to consent to the sexual activity under any of the following circumstances:
  The person was asleep or unconscious;
  The person was incapacitated due to the influence of drugs, alcohol or medication, so that the person could not understand the fact, nature or extent of the sexual activity;
  The person was unable to communicate due to a mental or physical condition.
• It shall not be a valid excuse that the respondent believed that the person consented to the sexual activity under either of the following circumstances:
  The respondent’s belief in affirmative consent arose from the intoxication or recklessness of the respondent;
  The respondent did not take reasonable steps, in the circumstances known to the respondent at the time, to ascertain whether the person affirmatively consented.

Consensual Relationships: Consensual relationship means a sexual or romantic relationship between two persons who voluntarily enter into such a relationship. While sexual and/or romantic relationships between members of the University community may begin as consensual, they may evolve into situations that lead to discrimination, harassment, retaliation, sexual misconduct, dating or domestic violence, or stalking.

• A university employee shall not enter into a consensual relationship with a student or employee over whom s/he exercises direct or otherwise significant academic, administrative, supervisory, evaluative, counseling, or extracurricular authority. In the event such a relationship already exists, each campus shall develop a procedure to reassign such authority to avoid violations of this policy.

• This prohibition does not limit the right of an employee to make a recommendation on the personnel matters concerning a family or household member where the right to make recommendations on such personnel matters is explicitly provided for in the applicable collective bargaining agreement or MPP/confidential personnel plan.

Domestic Violence is abuse committed against someone who is a current or former spouse, current or former cohabitant, someone with whom the abuser has a child, someone with whom the abuser has or had a dating or engagement relationship, or a person similarly situated under California domestic or family violence law. Cohabitant means two unrelated persons living together for a substantial period of time, resulting in some permanency of relationship. It does not include roommates who do not have a romantic, intimate, or sexual relationship. Factors that may determine whether persons are cohabiting include, but are not limited to (1) sexual relations between the parties while sharing the same living quarters, (2) sharing of income or expenses, (3) joint use or ownership of property, (4) whether the parties hold themselves out as husband and wife, (5) the continuity of the relationship, and (6) the length of the relationship. For purposes of this definition, “abuse” means intentionally or recklessly causing or attempting to cause bodily injury or placing another person in reasonable apprehension of imminent serious bodily injury to himself or herself, or another. Abuse does not include non-physical, emotional distress or injury.

Dating Violence is abuse committed by a person who is or has been in a social or dating relationship of a romantic or intimate nature with the victim. This may include someone the victim just met; i.e., at a party, introduced through a friend, or on a social networking website. For purposes of this definition, “abuse” means intentionally or recklessly causing or attempting to cause bodily injury or placing another person in reasonable apprehension of imminent serious bodily injury to himself or herself, or another. Abuse does not include non-physical, emotional distress or injury.

Stalking means a repeated course of conduct directed at a specific person that would cause a reasonable person to fear for his/her or others’ safety or to suffer substantial emotional distress. For purposes of this definition:

• Course of conduct means two or more acts, including but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveys, threatens, or communicates to or about a person, or interferes with a person’s property;
• Reasonable person means a reasonable person under similar circumstances and with the same protected status(es) as the complainant;
• Substantial emotional distress means significant mental suffering or anguish that may, but does not necessarily, require medical or other professional treatment or counseling.
Regulation - Racial Incidents at Educational Institutions

Federal Statute and Guidelines on Handling Racial Incidents at Educational Institutions

Title VII of the Civil Rights Act of 1964 is enforced by the U.S. Department of Education’s Office for Civil Rights issued guidelines for educational institutions receiving federal assistance to follow in handling “Racial Incidents and Harassment Against Students at Educational Institutions.” These guidelines clarify conduct that violates Title VI:

“Under Title VI of Civil Rights Act of 1964 (Title VI) and its implementing regulations, no individual may be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination on the ground of race, color or national origin under any program or activity that receives federal funds. Racially based conduct that has such an effect and that consists of different treatment of students on the basis of race by agents or employees, acting within the scope of their official duties, violates Title VI. In addition, the existence of a racially hostile environment that is created, encouraged, accepted, tolerated or left uncorrected ... also constitutes different treatment on the basis of race in violation of Title VI.”

These same Title VI guidelines further define a “racially hostile environment” as harassing conduct (e.g. physical, verbal, graphic or written) that is sufficiently severe, pervasive or persistent so as to interfere with or limit the ability of an individual to participate in or benefit from the services, activities or privileges provided.

Regulation - Discrimination, Harassment and Retaliation Reporting and Protection

SJSU policies prohibit retaliation against persons who file a complaint of discrimination, or assist with or participate in an SJSU or government agency investigation, proceeding or hearing concerning discrimination complaint. Retaliation complaints can be separately filed in the Office for Equal Opportunity, 408-924-1115. Or go to www.sjsu.edu/hr for more information.

San José State University is committed to creating an atmosphere in which all persons and groups can work and study free of unlawful discrimination.

Unit 11 Academic Student Employee: See Office of Faculty Affairs

Students

If you have any complaints regarding unlawful discrimination or harassment follow the complaint guidelines outlined in CSU Executive Order 1097 and complete the Student Complaint Form for Discrimination, Harassment, Retaliation, & Sexual Misconduct under Title IX (PDF) and return it to Office for Equal Opportunity.

For more information, see our FAQs or contact Office for Equal Opportunity.

For more information, visit http://www.sjsu.edu/hr/students/students_harassment_complaints/index.html

Regulation - Sexual Harassment Policy and Complaints

SJSU is committed to maintaining a working and learning environment free from sexual harassment for its students, employees and those who apply for employee or student status. Sexual harassment is conduct subject to disciplinary action.

CSU policy defines sexual harassment to include “such behavior as sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature directed towards an employee, student or applicant when one or more of the following circumstances are present:

- Submission to, or rejection of, the conduct is explicitly or implicitly used as the basis for any decision affecting a Complainant’s academic status or progress, or access to benefits and services, honors, programs, or activities available at or through the University; or
- The conduct is sufficiently severe, persistent or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the Complainant, and is in fact considered by the Complainant, as limiting his or her ability to participate in or benefit from the services, activities or opportunities offered by the University; or
- The conduct is sufficiently severe, persistent or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the Complainant, and is in fact considered by the Complainant, as creating an intimidating, hostile or offensive environment.

Sexual Harassment could include being forced to engage in unwanted sexual contact as a condition of membership in a student organization; being subjected to video exploitation or a campaign of sexually explicit graffiti; or frequently being exposed to unwanted images of a sexual nature in a classroom that are unrelated to the coursework.
Sexual Harassment also includes acts of verbal, non-verbal or physical aggression, intimidation or hostility based on Gender or sex-stereotyping, even if those acts do not involve conduct of a sexual nature.

Executive Order 1097 covers unwelcome conduct of a sexual nature. While romantic, sexual, intimate, personal or social relationships between members of the University community may begin as consensual, they may evolve into situations that lead to Sexual Harassment or Sexual Misconduct, including Dating or Domestic Violence, or Stalking, subject to this policy.

Claiming that the conduct was not motivated by sexual desire is not a defense to a complaint of harassment based on Gender.

All complaints dealing with sexual harassment should be directed to the Director, Office for Equal Opportunity, who has been designated to investigate such allegations.

---

### Regulation - ROTC Recruiting

This notice is to inform you that San José State University hosts the Air Force Reserve Officers Training Corps program on campus solely in compliance with the federal requirements contained in The Solomon Amendment. This law, passed as an attachment to the FY97 Federal Appropriations Bill, allows the government to deny federal funding, including federal student aid, to any school that does not provide access to ROTC programs and military recruiters on its campus.

San José State University is guided by the principle of equal opportunity, including the conviction that there will be no differential treatment or harassment of persons because of race, color, religion, national origin, age, sex, marital status, pregnancy, disability, veteran’s status, or sexual orientation. The university has a firm and unambiguous commitment to the active elimination of discrimination, and the affirmative recruitment of a diverse, multi-racial community of students, faculty and staff.

### Information Regarding Campus, Criminal and Civil Consequences of Committing Acts of Sexual Violence

Individuals alleged to have committed sexual misconduct may face criminal prosecution by law enforcement and may incur penalties as a result of civil litigation. In addition, employees and students may face discipline at the university, up to and including suspension or expulsion. Employees may face sanctions up to and including dismissal from employment, pursuant to established CSU policies and provisions of applicable collective bargaining unit agreements.

Students who are charged by the university with gender discrimination, harassment or misconduct will be subject to discipline, pursuant to the California State University Student Conduct Procedures (see Executive Order 1098 at www.calstate.edu/EO/EO-1098-rev-6-23-15.pdf or any successor executive order) and will be subject to appropriate sanctions. In addition, during any investigation, the university may implement interim measures in order to maintain a safe and non-discriminatory educational environment. Such measures may include but not be limited to: immediate interim suspension from the university; a required move from university-owned or affiliated housing; adjustments to course schedule; and/or prohibition from contact with parties involved in the alleged incident.

### Confidentiality and Sexual Misconduct, Dating Violence, Domestic Violence and Stalking

The university encourages victims of sexual misconduct, dating violence, domestic violence or stalking to talk to someone about what happened - so they can get the support they need, and so the university can respond appropriately.

**Privileged and Confidential Communications**

Physicians, Psychotherapists, Professional Licensed Counselors, Licensed Clinical Social Workers, and Clergy - Physicians, psychotherapists, professional, licensed counselors, licensed clinical social workers, and clergy who work or volunteer on or off campus, acting solely in those roles or capacities as part of their employment, and who provide medical or mental health treatment or counseling (and those who act under their supervision, including all individuals who work or volunteer in their centers and offices) including those who act in that role under their supervision) may not report any information about an incident of sexual misconduct to anyone else at the university, including the Title IX Coordinator, without the victim’s consent. A victim can seek assistance and support from physicians, psychotherapists, professional, licensed counselors, licensed clinical social workers and clergy without triggering a university investigation that could reveal the victim’s identity or the fact of the victim’s disclosure. However, see limited exceptions below regarding when health care practitioners must report to local law enforcement agencies. Health care practitioners should explain these limited exceptions to victims, if applicable.
Sexual Assault and Domestic Violence Counselors and Advocates - Sexual assault and domestic violence counselors and advocates who work or volunteer on or off campus in sexual assault centers, victim advocacy offices, women's centers and health centers and who are acting solely in that role (including those who act in that role under their supervision, along with non-professional counselors or advocates who work or volunteer in sexual assault centers, victim advocacy offices, women's centers, gender equity centers, or health centers), may talk to a victim without revealing any information about the victim and the incident of sexual misconduct to anyone else at the university, including the Title IX Coordinator, without the victim's consent. A victim can seek assistance and support from these counselors and advocates without triggering a university investigation that could reveal his/her identity or that a victim disclosed an incident to them. However, see limited exceptions below regarding when sexual assault and domestic violence counselors and advocates must report to local law enforcement agencies. Counselors and advocates should explain these limited exceptions to victims, if applicable.

The university will be unable to conduct an investigation into a particular incident or pursue disciplinary action against a perpetrator if a victim chooses to (1) speak only to a physician, professional licensed counselor, licensed clinical social worker, clergy member, sexual assault counselor, domestic violence counselor or advocate; and (2) maintain complete confidentiality. Even so, these individuals will assist victims in receiving other necessary protection and support, such as victim advocacy, disability, medical/health or mental health services, or legal services, and will advise victims regarding their right to file a Title IX complaint with the university and a separate complaint with local or university police. If a victim insists on confidentiality, such professionals, counselors and advocates will likely not be able to assist the victim with: university academic support or accommodations; changes to university-based living or working schedules; or adjustments to course schedules. A victim who at first requests confidentiality may later decide to file a complaint with the university or report the incident to the police, and thus have the incident fully investigated. These counselors and advocates can provide victims with that assistance if requested by the victim. These counselors and advocates will also explain that Title IX includes protections against retaliation, and that the university will not only take steps to prevent retaliation when it knows or reasonably should know of possible retaliation, but will also take strong responsive action if it retaliation occurs.

**EXCEPTIONS:** Under California law, any health practitioner employed in a health facility, clinic, physician’s office, or local or state public health department or clinic is required to make a report to local law enforcement if he or she provides medical services for a physical condition to a patient/victim who he or she knows or reasonably suspects is suffering from (1) a wound or physical injury inflicted by a firearm; or (2) any wound or other physical injury inflicted upon a victim where the injury is the result of assaultive or abusive conduct (including sexual misconduct, domestic violence, and dating violence). This exception does not apply to sexual assault and domestic violence counselors and advocates. Health care practitioners should explain this limited exception to victims, if applicable.

Additionally, under California law, all professionals described above (physicians, psychotherapists, professional counselors, licensed clinical social workers, clergy, and sexual assault and domestic violence counselors and advocates) are mandatory child abuse and neglect reporters, and are required to report incidents involving victims under 18 years of age to local law enforcement. These professionals will explain this limited exception to victims, if applicable.

Finally, some or all of these professionals may also have reporting obligations under California law to: (1) local law enforcement in cases involving threats of immediate or imminent harm to self or others where disclosure of the information is necessary to prevent the threatened danger; or (2) to the court if compelled by court order or subpoena in a criminal proceeding related to the sexual misconduct, dating or domestic violence, or stalking incident. If applicable, these professionals will explain this limited exception to victims.

**SJSU Policies**

San José State University does not discriminate on the basis of accent, age, ancestry, citizenship status, color, creed, disability, ethnicity, gender, genetic information, marital status, medical condition, national origin, race, religion or lack thereof, sex, sexual orientation, transgender, or veteran’s status. This policy applies to all SJSU students, faculty and staff programs and activities. Title IX of the Education Amendments of 1972, and certain other federal and state laws, prohibit discrimination on the basis of sex in all education programs and activities operated by the university (both on and off campus). Questions regarding this policy should be directed to the Office for Equal Opportunity, 408-924-1115

San Jose State University is committed to creating a safe, healthy, and supportive learning environment for our whole community. In this spirit, and to comply with educational mandates under CSU Chancellor’s Office Executive Order 1095, all students are required to complete sexual assault prevention training annually.
Title IX (Nondiscrimination)

SJSU does not discriminate on the basis of sex in the educational programs and activities it conducts. Such programs and activities include admission of students and employment.

Department of Education, Office for Civil Rights: (800) 421-3481 or ocr@ed.gov

If you wish to fill out a complaint form online with the OCR, you may do so at: www2.ed.gov/about/offices/list/ocr/complaintintro.html

Title IX requires the university to adopt and publish complaint procedures that provide for prompt and equitable resolution of gender discrimination complaints, including sexual harassment and misconduct as well as provide training, education and preventive measures related to sex discrimination. CSU Executive Order 1097 (http://www.calstate.edu/EO/EO-1097-rev-10-5-16.pdf) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a third party.

Except as provided below under confidentiality and sexual misconduct, dating violence, domestic violence, and stalking, any University employee who knows or has reason to know of allegations or acts that violate University policy shall promptly inform the Title IX Coordinator. These employees are required to disclose all information including the names of the parties, even where the person has requested that his/her name remain confidential. The Title IX Coordinator will determine whether confidentiality is appropriate given the circumstances of each such incident (see confidential reporting options outlined below).

Regardless of whether an alleged victim of gender discrimination ultimately files a complaint, if the campus knows or has reason to know about possible sexual discrimination, harassment or misconduct, violence, it must review the matter to determine if an investigation is warranted. The campus must then take appropriate steps to eliminate any gender discrimination/harassment/misconduct, prevent its recurrence, and remedy its effects.

Inquiries and complaints concerning the application of Title IX to programs and activities of SJSU may be referred to the Director of Compliance, SAB 106, 408-924-1200 or the Office for Equal Opportunity, UPD 303, 408-924-1115.

Reporting to the Title IX Coordinator and Other University Employees

Most university employees have a duty to report incidents of sexual misconduct when they are on notice of it. When a victim tells the Title IX Coordinator or another university employee about an incident of sexual misconduct, the victim has the right to expect the university to take immediate and appropriate steps to investigate what happened and to resolve the matter promptly and equitably. In all cases, the university strongly encourages victims to report incidents of sexual misconduct directly to the campus Title IX Coordinator. As detailed above, in the “Privileged and Confidential Communications” section of this policy, all university employees except physicians, licensed professional counselors, licensed clinical social workers, sexual assault counselors and advocates, must report to the Title IX Coordinator all relevant details about any incidents of sexual misconduct of which they become aware. The university will need to determine what happened - and will need to know the names of the victim(s) and the perpetrator(s), any witnesses, and any other relevant facts, including the date, time and specific location of the incident.

Student Complaint Procedure (Complaints Regarding the CSU)

The California State University takes very seriously complaints and concerns regarding the institution. If you have a complaint regarding the CSU, you may present your complaint as follows:

1. If your complaint concerns CSU’s compliance with academic program quality and accrediting standards, you may present your complaint to the Western Association of Schools and Colleges (WASC) at www.wascsenior.org/comments. WASC is the agency that accredits the CSU’s academic program. If you believe that your complaint warrants further attention after you have exhausted all the steps outlined by WASC, you may file an appeal with the Assistant Vice Chancellor, Academic and Student Affairs at the CSU Chancellor’s Office.

2. If your complaint concerns an alleged violation by CSU of any law that prohibits discrimination, harassment or retaliation based on a protected status (such as age, disability, gender (or sex), gender identity, gender expression, nationality, race or ethnicity (including color or ancestry), religion or veteran or military status), you may present your complaint as described in Section XVI (Nondiscrimination Policy).

3. If your complaint concerns an alleged violation by the CSU of other state law, including laws prohibiting fraud and false advertising, you may present your claim to the campus president or designee. See Procedure for Student Complaints-Executive Order No. 1063 for details regarding the complaint requirements and complaint process: www.calstate.edu/EO/EO-1063.html.

4. Other complaints regarding the CSU may be presented to the campus dean of students, who will provide guidance on the appropriate campus process for addressing your particular issue.

This procedure should not be construed to limit any right that you may have to take legal action to resolve your complaint.
Civil and Criminal Penalties for Violation of Federal Copyright Laws

Anyone who is found to be liable for copyright infringement may be liable for either the owner’s actual damages along with any profits of the infringer or statutory damages of up to $30,000 per work infringed. In the case of a willful infringement, a court may award up to $150,000 per work infringed. (See 17 U.S.C. §504.) Courts also have discretion to award costs and attorneys’ fees to the prevailing party. (See 17 U.S.C. §505.) Willful copyright infringement can also result in criminal penalties, including imprisonment and fines. (See 17 U.S.C. §506 and 18 U.S.C. §2319.)

Health Policies

Regulation - Health Risks

Federal Law requires the university to provide a description of health risks associated with alcohol and drug abuse.

Regulation - Alcohol

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts. Moderate to high doses of alcohol caused marked impairments in higher mental functions, severely altering a person’s ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described. Repeated use of alcohol can lead to dependence and addiction. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations and convulsions. Addictions often require medical support. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.

California Alcohol and Drug Abuse Law

The Alcoholic Beverage Control Act was enacted in 1953. This Act is intended to protect the safety, welfare, health, peace and morals of Californians, eliminate the unlicensed and unlawful manufacture, sale and disposal of alcoholic beverages and promote temperance in the consumption and use of alcoholic beverages. (Bus and Prof. Code 23001)

A person convicted of a violation of the Alcohol and Beverage Control Act is guilty of a misdemeanor or felony depending on the violation.

The Uniform Controlled Substances Act may be found in the Health and Safety Code, Section 11000-11651. This Act is the result of a growing concern over substances. Controlled Substances are divided into five Schedules and the substances under each Schedule may be found in Sections 11053-11058.

Local Laws

Local laws generally are consistent with Federal and State laws.

University Regulations

Use and Abuse of Alcohol and Other Drugs - University Policy F10-1

This policy delineates University policy concerning alcohol and illegal drugs or substances, provides procedural guidelines, and communicates the consequences of failing to adhere to established policies. Provision for the purchase, sale, service, and consumption of alcoholic beverages on campus is a privilege accorded to University members with the understanding that they will comply with internal rules, regulations, and relevant legislation (local, state or national). All members of the University community as well as their guests have a responsibility to ensure that alcohol is used in a responsible manner by persons twenty-one (21) years of age or older. The use of alcohol and other drugs should not interfere with the primary mission of the University as an educational institution.

Review the full policy here http://www.sjsu.edu/senate/docs/F10-1.pdf

University regulations controlling student behavior may be found in the Student Conduct Code (Title 5 of the California Code of Regulations Section 41301). The Campus Alcohol Policy includes procedures for serving alcoholic beverages on campus.

The University is required to post in designated areas information concerning the use of anabolic steroids.
Conduct Regarding Drugs and Alcohol

SJSU students, faculty and staff are expected to comply with Federal, State and Local laws governing the use of alcohol and illicit drugs on the University campus and as part of university activities both on and off the campus. These laws control the possession, use and distribution of alcohol and unlawful drugs.

All incoming students are required to complete AlcoholEdu, an online alcohol education course. All incoming students starting in the fall will receive information regarding AlcoholEdu in June. Those starting in the Spring will receive information in January.

The sale, possession, distribution or use of illicit drugs will not be tolerated. Students, faculty and staff are expected to comply with laws governing the possession, distribution and consumption of alcohol as promulgated by the State of California and the university.

It is the responsibility of every student, faculty member and employee to report incidents involving infractions of federal, state and local drug and alcohol laws on campus or at officially sponsored Off-Campus Activities to the Executive Vice President for Faculty Affairs, the Human Resources Officer or the Vice President for Student Affairs.

As is the case in courts, lack of awareness and/or failure to comprehend the regulations are not acceptable defense of one’s actions.

Available Drug or Alcohol Counseling and Treatment Programs

SJSU students are encouraged to seek assistance for drug and alcohol problems at the Counseling & Psychological Services (CAPS) or at the Student Health Center. The State also maintains an Employee Assistance Program to help employees and their dependents with problems of alcohol and drugs.

Regulation - Federal Trafficking Penalties

Federal penalties for trafficking are dependent upon several conditions including the substance, amounts involved and whether the matter is a first or second offense.

Penalties involve monetary sanctions and/or prison terms up to and including life in prison.

Federal Penalties and Sanctions For Illegal Possession Of A Controlled Substance 21 U.S.C. 844(a) - 1st conviction: Up to 1 year imprisonment and fined at least $1,000 but not more than $100,000 or both.

After 1 prior drug conviction: At least 15 days in prison, not to exceed 2 years and fined at least $2,500 but not more than $250,000 or both.

After 2 or more prior drug convictions: At least 90 days in prison, not to exceed 3 years and fined at least $5,000 but not more than $250,000 or both.

Special sentencing provisions for possession of crack cocaine: Mandatory at least 5 years in prison, not to exceed 20 years and fined up to $250,000 or both if:

- 1st crack conviction and the amount of crack possessed exceeds 5 grams.
- 2nd crack conviction and the amount of crack possessed exceeds 3 grams.
- 3rd or subsequent crack conviction and the amount of crack possessed exceeds 1 gram.

21 U.S.C. 853(a)(2) and 881(a)(7) - Forfeiture of personal and real property used to possess or to facilitate possession of a controlled substance if that offense is punishable by more than 1 year imprisonment.

21 U.S.C. 881 (a)(4) - Forfeiture of vehicles, boats, aircraft or any other conveyance used to transport or conceal a controlled substance.

21 U.S.C. 844a - Civil fine of up to $10,000 (pending adoption of final regulations).
21 U.S.C. 853a - Denial of Federal benefits, such as student loans, grants, contracts and professional and commercial licenses, up to 1 year for first offense, up to 5 years for second and subsequent offenses.

18 U.S.C. 922(g) - Ineligible to receive or purchase a firearm.

**Regulation - Tobacco**

As of August 2015, SJSU is a Smoke and Tobacco Free campus. For more information see Presidential Directive (PD1014-01) and CSU Executive Order 1108. For more information: [http://www.sjsu.edu/tobaccofree/](http://www.sjsu.edu/tobaccofree/)

For tobacco cessation services:

- Counseling and Psychological Services (CAPS)
  408-924-5910
- Student Health Center- Wellness and Health Promotion
  408-924-6202
  [www.sjsu.edu/wellness/tobacco](http://www.sjsu.edu/wellness/tobacco)
- Low Cost Nicotine Replacement Therapies (NRT):
  Patches and gum are available at Student Health Center Pharmacy
  408-924-6115
- California Smoker’s Helpline
  1-800-662-8887 (1-800-NO-BUTTS)
- VA-San Jose Community Clinic
  408-363-3000

Some of the rationale for a smoke free campus includes:

- Tobacco, both smoked and smokeless, is the leading cause of cancers of the cheeks, gums, palate, tongue and lips.
- A one-pack-a-day smoker increases their chances of cancer of the esophagus by as much as 500%.
- Cigarette smokers are ten times more likely to die of lung cancer than non-smokers.
- Cancer is not the only disease associated with smoking.
- Cigarette smokers are twice as likely to get peptic ulcers as are non-smokers.
- Nicotine is a powerful constrictor of blood vessels and small arteries and results in the restriction of oxygen flow to the heart and elsewhere.
- Heart attacks and strokes are results of oxygen restriction.
- Smoking more than 1/2 pack daily is also associated with higher incidence of infertility in women.
- Babies born to women who smoke are lighter and smaller than those born to non-smokers. This is important because birth weight is a predictor of infant health.

**Regulation - Human Immunodeficiency Virus (HIV)/Acquired Immune Deficiency Syndrome (AIDS)**

HIV/AIDS is a viral disease which destroys the body’s ability to fight specific illnesses.

The risks of HIV/AIDS can be reduced by:

- Avoiding the exchange of body fluids. HIV can be passed through the exchange of blood, semen, vaginal secretions and breast milk.
- Using condoms correctly and consistently to greatly reduce the exchange of body fluids.
- Reducing the number of sexual partners.
- Avoiding the use of intravenous drugs or sharing needles.
• Abstinence.
• Communicating with sexual partners before having sex about being tested for sexually transmitted infections and protection.

For more information about HIV/AIDS prevention, confidential testing, safer sex and free condoms, contact:

Student Health Center, Wellness and Health Promotion

Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students’ privacy in their records maintained by the campus. The statute and regulations govern access to certain student records maintained by the campus and the release of such records. The law provides that the campus must give students access to most records directly related to the student, and must also provide opportunity for a hearing to challenge the records if the student claims they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade determined by the instructor. The law generally requires the institution to receive a student’s written consent before releasing personally identifiable data about the student. The institution has adopted a set of policies and procedures governing implementation of the statute and the regulations. Copies of these policies and procedures may be obtained at (designate location on campus). Among the types of information included in the campus statement of policies and procedures are: (1) the types of student records maintained and the information they contain; (2) the official responsible for maintaining each type of record; (3) the location of access lists indicating persons requesting or receiving information from the record; (4) policies for reviewing and expunging records; (5) student access rights to their records; (6) the procedures for challenging the content of student records; (7) the cost to be charged for reproducing copies of records; and (8) the right of the student to file a complaint with the Department of Education. The Department of Education has established an office and review board to investigate complaints and adjudicate violations. The designated office is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202-5920.

The campus is authorized under the Act to release “directory information” concerning students. “Directory information” may include the student’s name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, grade level, enrollment status, degrees, honors, and awards received, and the most recent previous educational agency or institution attended by the student. The above-designated information is subject to release by the campus at any time unless the campus has received prior written objection from the student specifying what information the student requests not be released. Written objections should be sent to the Registrar's Office. It should be noted, however, that University Policy 566-20 is more restrictive than the law. SJSU policy guidelines indicate that the only directory information routinely released to outside parties without student consent is enrollment status and degree completion (if applicable). Requests for addresses and telephone numbers are not honored, especially if requested for commercial purposes.

The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons have responsibilities in the campus’s academic, administrative or service functions and have reason for accessing student records associated with their campus or other related academic responsibilities. Student records will be disclosed to the Chancellor’s Office of the CSU in order to conduct research, to analyze trends, or to provide other administrative services on behalf of the CSU. Student records may also be disclosed to other persons or organizations under certain conditions (e.g., as part of the accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; or to other institutions to which the student is transferring).

University Development (Advancement) Programs

Directory information (see definition earlier) may be used by the university for the development of campus affiliated programs.

Regulation - Career Placement Information

The Career Center may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. Any such data provided must be in a form that does not allow for the identification of any individual student. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all campuses in the California State University system.

Regulation - Student Identification Information

SJSU ID Number

San José State University is concerned about keeping your personal data private. We are required to use Social Security numbers to process payroll; award financial aid and document fees paid for tax relief purposes. However, for all other purposes, we will use your SJSU ID number for identification, rather than your Social Security Number.
Use of Social Security Number

Applicants are required to include their correct social security numbers in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code (26 U.S.C. 6109). The university uses the social security number to identify students and their records including identification for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the university to file information returns that include the student’s social security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.

Campus and Information Resources

Accreditation

San José State University is accredited by the WASC Senior College and University Commission (WSCUC) - 985 Atlantic Avenue, Suite 100, Alameda, CA 94501, 510-748-9001, one of the six major regional college accreditation agencies in the United States; the California State Board of Education; and by a number of other agencies in special fields. The Teacher Education programs of the University also are accredited by the National Council for Accreditation of Teacher Education and approved by the California Commission on Teacher Credentialing.

Health and Human Sciences, College of

The College of Health and Human Sciences (formerly Applied Sciences and Arts) provides both liberal and well-defined professional education at the undergraduate and graduate levels. Course work prepares students to be competent and transformative professionals in a technologically complex and culturally diverse society. The college’s courses and programs provide students with a theoretical base that is developed and tested through: (1) research; (2) knowledge that can be applied in diverse systems; (3) processes that incorporate human understanding, social justice and cooperation, and (4) supervised practice through internships, field work and/or preceptorships in a variety of career-related settings. Graduates become leaders and establish professional careers as administrators, educators, practitioners, information specialists and applied researchers in a variety of settings. These settings include both private and public agencies, government institutions at all levels, community and health care organizations and educational institutions. The College of Health and Human Sciences values and respects diversity, inclusion, civility and individual uniqueness; we recognize the strength these factors bring to our community and learning environment. All of our interactions should reflect trust, caring and mutual respect. We value education and intellectual curiosity above all. The academic freedom of faculty and students is vital to our role of promoting life-long learning through intellectual inquiry, scholarship and the pursuit of knowledge. An overarching goal is that faculty and our academic programs will be recognized for outstanding research, teaching and service across disciplinary and geographic boundaries.

Internships

The departments/schools within the College offer internships that involve advanced practical experience, fieldwork or clinical experience in a professional work setting under direct supervision of qualified professionals. Interns would be assigned various duties and experiences related to their particular areas of specialization. Internships may include seminars, practica or preceptorships to further develop beginning and advanced level practice skills.

International Experience Requirement

The goal of the international experience requirement is to introduce students to international and intercultural perspectives in order to prepare them to live and work in an increasingly globalized world. A number of different types of international experiences, ranging in length from 9 days to one year, can meet this requirement. Most international experience courses also allow students to earn credit towards the degree. Scholarships and Financial Aid are available to defray the costs of international travel. See http://www.sjsu.edu/casa/international-experience/ for more information.

Nutrition and Food Science

The Institute of Food Technologists uses the term “approved” rather than accredited.

Teaching Credential Programs
The Department of Kinesiology, in collaboration with the College of Education, provides two single subject professional programs designed for individuals who are interested in teaching physical education or adapted physical education in grades K-12. The California School Nurse Credential prepares Registered Nurses at the Master's and Post Master's level to provide and manage health services and programs in the school setting. The School of Library and Information Science offers a Teacher Librarian Credential. The teacher librarian impacts K-12 student outcomes by collaborating with teachers, working directly with students, championing reading and providing information-rich learning environments.

Organized Research Units and Unique Programs
The programs of the College of Applied Sciences and Arts are further enriched by educational, research, global partnerships, as well as cultural and training opportunities provided by the following specialized research units and unique programs: Institute of Nursing Research and Practice, Center for International Sport and Human Performance, Research Institute for Foster Youth Initiatives (RIFYI), Timpany Center, The Center for Research on Effective Services (CRES), and the Center for Healthy Aging in Multicultural Populations (CHAMP).

Business, Donald and Sally Lucas College and Graduate School of
The Donald and Sally Lucas College and Graduate School of Business is the institution of opportunity, providing innovative business education and research for the Silicon Valley region and beyond since 1928. The College offers an accessible, high value education that empowers people of all ages and backgrounds to transform their lives. Faculty and staff are strongly committed to the College’s mission; maintain a collegial, inclusive teaching and learning environment; and are dedicated to continuous improvement in all areas of academic achievement, scholarship, teaching and service.

The college is an active member of the San José and Silicon Valley community and provides a talent pool, thought leadership and service that supports the region’s growth in the global marketplace. The college is one of the 755 institutions worldwide that are accredited by the prestigious AACSB International, the Association to Advance Collegiate Schools of Business. In addition, the college is accredited by the Western Association of Schools and Colleges and the California State Board of Education.

The college is dedicated to equipping graduates with the tools, work ethic and skills to succeed in the ever-changing global economy. This is accomplished through a challenging undergraduate curriculum and an innovative, high quality graduate education in the Donald and Sally Lucas Graduate School of Business.

Undergraduate Business Education
The college provides a rich undergraduate education through five departments and schools - Accounting and Finance, Information Systems and Technology, Management, Global Innovation and Leadership, and Marketing and Decision Sciences. Infused throughout the undergraduate program are opportunities to develop competencies in a number of key areas -- communication, teamwork, global perspectives, critical thinking, ethics, entrepreneurship, community service, and innovation. The rigorous and challenging curriculum prepares graduates to be future leaders that succeed in the global economy.

The college is building upon its existing expertise in entrepreneurship, management, global finance, accounting, and leadership and organizational change. In addition, the college showcases the best and brightest students through the Gary J. Sbona Honors Program and the Thompson Global Internship Program.

Donald and Sally Lucas Graduate School of Business
The Donald and Sally Lucas Graduate School of Business offers a high-value education with a global focus, innovative programs, and deep ties to Silicon Valley corporations and leaders. Our distinguished faculty provide a relevant business education focusing on excellence in teaching and applied research and serving the needs of diverse students from the Silicon Valley and beyond.

We offer an on-campus Early Career MBA program with three tracks: accelerated (12 months), full-time (21-24 months), and part-time (33-36 months). Our off-campus MBA for Professionals is a flexible part-time program suitable for working professionals who set their own paces. We also offer Master of Science in Accountancy, Master of Science in Taxation, Master of Science in Transportation Management programs and a dual degree MBA/Master of Science in Software Engineering or MBA/Master of Science in Engineering with a specialization in Systems Engineering.
Education, Connie L. Lurie College of Education

The Connie L. Lurie College of Education is a professional community of students, faculty and staff engaged in supportive partnerships to serve a community of culturally diverse children, youth and families by pursuing and promoting scholarly and reflective inquiry, and access to a quality lifelong education. Faculty, staff and graduates are compassionate and ethical professionals who are mindful of our responsibilities in a democratic society. The College’s core values are excellence and equity. Excellence is manifested in the rigor of our academic programs, in our teacher/scholar faculty contributions, and in the high level of staff service. We challenge our students to strive for excellence in their academic and personal pursuits, as informed and active citizens in their own communities. To achieve equity, our students, faculty, and staff continuously work for social justice and educational opportunities for all members of our society.

The college offers Bachelor’ and Master’s degrees, a doctoral program, and numerous professional teaching credentials. Programs are offered through seven academic departments which are supplemented by a variety of resources including the Armstead Center for Communication Disorders and the Child Development Laboratory Preschool. The college, housed in William Sweeney Hall, offers two computer laboratories that are open to both undergraduate and graduate students. Students also have access to other high tech education applications.

Student Service Centers

The Kay A. Armstead Center for Communication Disorders provides speech-language-hearing evaluations and therapy services and to students, staff, faculty, and the local San Jose community.

The Child Development Laboratory Preschool is housed in two locations on the SJSU campus, including toddler and pre-school labs. These programs provide undergraduates with both observation and hands-on clinical/practicum opportunities.

The Credentials Office and Student Services Center in Sweeney Hall 108 provides students with information about the California Basic Education Skills Test (CBEST), California Subject Examinations for Teachers (CSET), and Reading Instruction Competence Assessment (RICA). General information on elementary (Multiple Subject), secondary (Single Subject) and special education (Education Specialist) teaching credentials, as well as other service credentials and certificate programs are provided.

Advisement

Advising and information related to applications are handled through the six academic departments and the Ed.D. program.

These departments include Child and Adolescent Development, Communicative Disorders and Sciences, Counselor Education, Educational Leadership, Teacher Education (formerly Elementary Education and Secondary Education).

Engineering, Charles W. Davidson College of Engineering

The College of Engineering offers ten engineering curricula leading to BS and MS degrees in aerospace, biomedical, chemical, civil, computer, electrical, general, industrial and systems, materials, mechanical and software engineering. The college also has BS degree programs in aviation and industrial technology and a MS degree program in quality assurance . California provides, through community colleges, the California State University and the University of California, coordinated educational programs designed to meet local and statewide needs in engineering and technology.

Engineering Student Success Center

The goal of the Engineering Student Success Center is to mentor students from admission through graduation. The Center provides academic advising, support services, and opportunities for professional development and practice.

The MESA Engineering Program and the Women in Engineering Program work to increase the number of graduates entering the engineering profession from traditionally under-represented and economically disadvantaged groups. MEP actively recruits students, provides support services until graduation and acts as liaison with companies offering employment experiences. MEP assists students with admissions, academic and personal counseling, financial aid and scholarships, housing and registration. MEP maintains a study center for tutoring, workshops, individual and group study and social functions. A summer job placement program assists students in obtaining jobs in industry.

The Community for Engineering Learning and Living (CELL) is a themed living community offered by the University Housing Services for first year engineering students. CELL’s objectives are to provide a cooperative learning environment, to encourage and build the engineering community and to foster a sense of belonging and responsibility to the community. Through facilitated study groups, CELL students will experience the academic support and cooperation of a community committed to academic success. CELL students will have regular access to faculty, advisors and industry professionals through workshops and programs. CELL is about shared experiences and creating a vibrant and caring engineering community.
Humanities and the Arts, College of

The College of Humanities and the Arts at San José State University provides a high-quality liberal arts education focused on creativity, innovation, and problem solving. Our programs in art and design, language and literature, film and theater, and music and philosophy prepare students to be compassionate, informed citizens of the world.

Building upon a foundation of excellent oral and written communication skills, our students analyze texts, explore experiences, and perform works that deepen their understanding and appreciation of diverse artistic and intellectual traditions. Under the direction of our accomplished faculty, our students develop the intellectual values, the practical skills, and the self-confidence they need to become accomplished professionals in such diverse fields as design, theatre, teaching, music performance, and visual art.

The Humanities and Arts Student Success Center partners with our academic departments to ensure that all undergraduate students receive on-time advising and robust academic planning support.

Teaching Credential Programs

The College of Humanities and Arts houses teaching credential programs in Art, English, Liberal Studies, Music, Theatre, and World Languages. Our teaching programs benefit from an active network of SJSU alums working in schools across the state.

Special Centers

The College of Humanities and the Arts is home to the Martha Heasley Cox Center for Steinbeck Studies, the Center for Literary Arts, and the Center for Comparative Philosophy. The College also manages the Hammer Theatre, a city-owned venue that offers a professional venue for our best students in theater, music, and dance.

International and Extended Studies, College of

The College of International and Extended Studies offers several programs that allow students to earn degree units from SJSU or to take noncredit or Continuing Education Unit programs. Take classes on campus or online - without formal admission - to take a class or two, for reinstatement to SJSU or another university, or to enroll after the regular application deadline has passed.

Science, College of

San José is at the center of Silicon Valley, known worldwide for its research institutes and industries that set the standard for scientific and technological innovation. San José State is the metropolitan university of the region, and the academic programs of the College of Science prepare students for rewarding careers through our bachelor’s and master’s level degree programs in the biological sciences, physical sciences, mathematics and computer science fields. Our departments have established partnerships with local employers where students find training and employment opportunities.

The College of Science provides the lower division core biology, chemistry, mathematics and physics courses supporting majors in other technical disciplines (such as engineering). As part of the university general education requirements, we offer courses in quantitative reasoning, the physical universe and its life forms, and earth and the environment. Furthermore, we teach the discipline-specific courses for the science and mathematics teacher credential programs.

Successful science students come from many backgrounds. Some enter the university immediately upon graduation from high school. Others, who have worked or have various life experiences, enroll as either full or part-time students in order to continue their education and better their career opportunities. The maturity, laboratory skills and experience of these students enrich our programs. We have several programs to increase the participation of women and underrepresented students in professional level science. Our College of Science Advising Center (COSAC) is available to assist students with their academic advising questions as well as to provide tutoring for key science and math courses.

There are active student clubs associated with each major, several of which have won national recognition for their professional and community service activities. Club members provide mutual support and are able to network with professionals in their field.

Special Centers

The College of Science has several unique interdisciplinary instructional research centers and programs: the Biotechnology Education and Research Institute (BERI), the Masters in BioTechnology (MBT), the Master’s in Medical Product Development Management, the Clinical Lab Science program, the Center for Applied Mathematics, Computation and Statistics, the Institute for Modern Optics, the Flow Cytometry Core Facility, the W.M. Keck Facility for Chemical Research, the laboratory for Conservation Genetics, the Moss Landing Marine Laboratories, and the Nuclear Science Facility. Partially funded by external grants and contracts, these centers provide our students opportunities to participate in sponsored research projects. Cooperative programs with local industries and government laboratories are additional sources of professional experience and financial support for our science majors.

Teaching Credential Programs

Two single subject credential programs are coordinated by the College of Science, in collaboration with the College of Education. The single subject professional programs are designed for individuals who are interested in teaching science or mathematics in middle schools or high schools. The Science Education Program offers single subject credential programs in biology, chemistry, earth science and physics. The Department of Mathematics and Statistics offers a mathematics single subject credential program. For detailed information, contact the appropriate program coordinator.
Through the Science Education Program, the College of Science supports the Science Education Resource Center, which provides hands-on science materials, textbooks, reference materials and technical assistance to pre-service and in-service teachers.

### Social Sciences, College of

Programs in the College of Social Sciences prepare students for work and life in Silicon Valley and a rapidly changing world. Our twelve departments provide training for careers in counseling, human computer interaction, environmental impact assessment and restoration, computerized mapping, public administration, economic analysis, internet communication, and countless other positions in business, government, teaching, and human services.

Major courses of study emphasize the contributions of the many cultures that form our community. Internships are encouraged to help students relate academic work to the opportunities and needs of this diverse region. Completion of one of our undergraduate majors also provides an excellent foundation for advanced work in one of the disciplines or at a professional school such as law or business.

New technologies increasingly improve our instruction and link us to the innovative industry of our region and to the educational resources of the world, but personal interaction between students and faculty is still prized within the College of Social Sciences. Capable and interesting teachers, active student clubs, and small classes provide ideal environments for learning.

#### Special Centers

The programs of the College of Social Sciences are further enriched by educational, research and training opportunities provided by the following specialized units:

- **Burdick Military History Project** supports the study and teaching of military history through public lectures, the Veterans Oral History Project, and its specialized collection of materials relating to military history. Contact the History Department.

- **Center for the Development of Recycling** advances education, research and dissemination of information in various areas of recycling. Contact the Environmental Studies Department.

- **Center for Economic Education** supports improvement in the teaching of economics through a multi-method approach and the dissemination of economics education materials. Contact the Economics Department.

- **East Asian Regional Materials and Resources Center** provides information and counsel about studies in Asia, including library and audio-visual material available to teachers. Contact the History Department.

- **Sourisseau Academy** promotes better understanding and appreciation of California’s state and local history, with emphasis on the history of Santa Clara Valley, through graduate scholarships and collections of historical source materials. Contact the History Department.

#### Teaching Credential Programs

**Teacher Credential Programs** - To apply to a Teacher Credential Program please see the College of Education website.

**Social Science Teacher Preparation:** The College of Social Science offers California Commission on Teacher Credentialing (CCTC) approved Multiple and Single Subject Social Science Teacher Preparation (SSTP) programs. Students who complete the required coursework are considered “subject matter competent” and are not required to take the California Subject Examinations for Teachers (CSET).

#### Graduate and Undergraduate Programs, Office of

Graduate and Undergraduate Programs (GUP) is involved with all aspects of graduate and undergraduate academic matters which support retention and graduation of students. It includes the following areas and programs: Academic Scheduling, Accreditation, Articulation, Assessment, General Education, Program Planning, Catalog, Curriculum, MyProgress, and MyPlanner.

Facilities Unique to SJSU

**Africana Center** functions both as a library resource center and a community center, with the goals of scholarship, leadership, and community responsibility about and for Africana people, a term that refers to all people of African descent. The Africana Center supports and sponsors programs and scholarship specific to Africana life, history and culture.

**Art Foundry**, located one mile south of campus, provides facilities for casting and fabricating large-scale sculptures in bronze, aluminum, iron and steel as well as work in stone and other materials.

**Asian American Resource Center** is a place to study, research, gather and connect to SJSU. Community members bridge the gap between SJSU and the rich history and contributions of Asian-Americans to this region.

**Aviation Facility** provides hands-on aviation operation and maintenance experience from its classroom, laboratory and hanger facility at Reid-Hillview Airport.

**Biological Sciences Research Collections** include entomology, herpetology, vertebrate and invertebrate museums and the Carl Sharsmith Herbarium.

**The Bloomberg Lab** at the Lucas College of Business houses fifteen Bloomberg Terminals providing hands-on experience with the industry standard investment research platform. Supports the investment course and finance course modules, as well as the student managed Spartan Investment Fund.

**Chicano Resource Center** provides a single locus for books, periodicals, reference tools, pamphlets and clippings relating to Mexican-American history, culture and community.

**Electro-Acoustical Studios** offer undergraduate music students access to digital synthesizers.

**Engineering Laboratories** are state-of-the-art, the result of a $41 million project supported by many of the nation’s leading high technology corporations.

**The Hammer Theatre** is a city-owned venue operated by the university. The Hammer offers dynamic, diversified performing arts, educational, and technology-related programming.

**Phyllis Forward Simpkins International House** is a large residence hall, located one block from campus, that is home to overseas and U.S. students interested in widening their international experience.

**Journalism Laboratories** include the newsroom and advertising offices of the Spartan Daily, the studios of television’s Update News, and the production room of the student magazine, Access, that provide applied experience in specific media.

**Moss Landing Marine Laboratories** provides access to the geologically and biologically important Monterey Bay Canyon and to some of the world’s richest ocean and salt marsh research areas.

**Science Education Resource Materials Center** makes available to student teachers educational aids for science classes, including live fauna and geological models.

**Speech and Hearing Center** is an on-campus multilingual audiology and speech pathology community clinic.

**Timpany Center** is owned by Santa Clara County and operated by the Department of Kinesiology in collaboration with other schools/departments within the College of Health and Human Sciences to provide internships/research opportunities in health and physical activity for those with disability, older populations, and the obese.
Academic Advising and Pre-Admissions Counseling

Academic Advising ensures academic success and graduation in a timely manner. Undergraduates will have two types of academic advisors: a general education academic advisor and an advisor in the major department. Both types of academic advisors assist you with selecting courses and developing a plan for fulfilling SJSU requirements or choosing major requirements.

General Education Academic Advising

- Academic planning
- Academic Advising for undeclared students
- General Education Academic Advising for all undergraduates
- Probation and disqualification advising for all undergraduate majors
- Assistance with interpreting your Degree Progress Report (MyProgress).
- After the Late Registration period, process late drop and withdrawal petitions.
- Note: Students are strongly encouraged to ensure the accuracy of their Degree Progress Report (MyProgress) at least one year prior to graduation.
MyProgress Report

The MyProgress Report (Formerly: Academic Requirements Report), linked at your MySJSU account, allows matriculated students, advisors, and evaluators to determine what requirements a student has satisfied and what requirements are still needed. The MyProgress report matches academic requirements (university and major) against a student’s individual academic record.

The report is a valuable tool in tracking your degree requirements, as well as an advising tool to assist you and your advisor in monitoring your academic progress. You should consult with your major advisor on a regular basis.

Official verification of completion of your degree requirements will be processed by the Graduation Evaluators.

Undergraduate Admission Counseling

- No appointments are needed. Students are seen on a first-come, first-serve basis
- All applicants: use access information sent to you by the Undergraduate Admissions office.
- Apply online at http://www.calstate.edu/apply for undergraduate and graduate admission.
- Receive information on admission requirements and information on majors offered at SJSU.
- Get help with questions about the undergraduate admission process or about your admission status.
- For campus tours, by appointment only, please go to http://www.sjsu.edu/visit or call the Welcome Center at 408-924-2786.
- Pick up campus directions and self-guided tour map.

Peer Connections

Peer Connections offers a range of services to assist students in developing their full academic potential. Peer Connections’ tutorials and workshops are designed to guide students in developing critical thinking skills, independent learning strategies and effective study habits. All services at the Center are available free of charge to matriculated students enrolled in SJSU courses. Peer Connections’ offerings include:

- Individual and group tutoring in many General Education (GE) courses taught at the university
- Writing tutorials and workshops in such areas as sentence structure, organization, grammar usage, and self-editing skills
- Skills development workshops
- Writing Skills Test (WST) preparation
- Computer Lab
- Appointments and drop-in services

Academic Counseling Center for Excellence in the Social Sciences (ACCESS)

Academic Counseling Center for Excellence in the Social Sciences (ACCESS) is the student success center for the College of Social Sciences (CoSS). Both current CoSS students and those students interested in minoring or majoring in a social sciences degree program are encouraged to see an advisor at ACCESS for general education advising, graduation support, and/or help with changing majors. We provide both drop-in advising and appointments. We also offer career counseling and tutoring in both social sciences statistics and writing. Finally, the center provides CoSS students with a quiet place to study.

Academic Counseling Center for Excellence in the Social Sciences (ACCESS)
Clark Hall 240
408-924-5363
www.sjsu.edu/access/

Engineering Student Success Center (ESSC)

The Engineering Student Success Center provides General Education advising services and student success programs for the undergraduate students in the College of Engineering. We offer both drop-in advising and appointments.

Engineering Building, Room 344
408-924-3990
www.engr.sjsu.edu/students/essc

Humanities and the Arts Student Success Center (HASSC)

The Humanities and Arts Student Success Center provides general education advising, academic planning support, and graduation checks to undergraduate students pursuing majors in the College of H&A. All H&A majors should meet with one of our professional advisors to develop a plan that will ensure timely graduation.

Humanities and the Arts Student Success Center (HASSC)
Clark Hall 244
408-924-5095

Jack Holland Student Success Center (formerly BSAC)

The Jack Holland Student Success Center, located on the garden level of the Boccardo Business Center, provides advice to students about undergraduate business courses and programs. Prospective students are encouraged to talk with advisors about requirements for business major and general education courses. Prospective graduate students are encouraged to meet a graduate advisor in the Graduate Program Office in the Business Tower.
Business Tutoring Center

The Tutoring Center gives individual and group assistance to business students seeking subject matter tutoring. It is located on the ground level of the Boccardo Business Center.

Boccardo Business Center (BBC) 008
408-924-3435
www.sjsu.edu/lcobssc/

Lurie College of Education Student Success Center (LCOE)

The Lurie College of Education Student Success Center has three core roles. First, the Center helps students know about and apply for department specific credentials, professional licenses, permits, and certifications. Second, the Center builds campus-community partnerships to enable students to be better prepared for internship and work opportunities in social service and educational organizations. Third, the Center sponsors workshops and speaker series related to contemporary educational and professional issues, along with career development.

Science Advising Center, College of (COSAC)

The College of Science Advising Center is located in Duncan Hall, Room 212. COSAC provides general education advising, academic advising for lower division Biology, Chemistry and Computer Science majors and other advising and student success services for students in the College of Science.

COSAC offers Change of Major workshops for students that would like to change into a Biology, Chemistry or Computer Science major. In addition, we process Chemistry Minor applications for students interested in adding a Chemistry minor. We also provide tutoring for many of our lower division and some upper division courses.

Duncan Hall (DH) 212
408-924-5193
www.sjsu.edu/cosac/

Student Success Center (CHHS)

The Student Success Center in the College of Health and Human Sciences (CHHS) provides advising for undergraduate students majoring or wanting to major in programs offered in CHHS Departments and Schools.

All CHHS students and students who would like to be in CHHS are invited to stop by the Center for general education advising, help with changing majors, academic policy related questions, meeting with peer advisors, and/or attending various regularly scheduled presentations and workshops. Looking for academic advice or maybe just some tips about how to navigate your way around SJSU? Check out the CHHS Student Success Center! It’s also a great place to study, and you can check out laptops.

**Accessible Education Center (AEC)**

AEC facilitates the delivery and referral of services for students with disabilities. Students who register and create a confidential file with AEC can receive a wide spectrum of services based on individualized needs. AEC recommends students submit an application through MyAEC prior to registering for classes; however, students can register anytime during the semester with the AEC. Access to MyAEC can be found on AEC’s home page. Accommodations and services include, but are not limited to the following:

**Center for Accessible Technology (CAT)**

Students registered with the AEC receive individual training in the use of assistive technology and have access to an open lab located in The Center for Accessible Technology (MLK 230).

**Curriculum Accommodations**

An array of academically related services is provided on a case-by-case basis for students with verified disabilities to support curriculum requirements. Accommodations include but are not limited to: accessible technology, alternative media, notetaking, sign language interpreters and test accommodations.

**Deaf and Hard of Hearing (DHOH)**

The DHOH Program provides Educational Sign Language Interpreters or Real-Time Educational Captioners for students who are Deaf or Hard of Hearing. Eligibility for this service is determined by the Deaf and HOH Coordinator and is based in part on the professional documentation provided by the student.

**Registration Priority**

All students registering with the AEC will be considered for priority registration based on disability-related criteria determined on a case-by-case basis. It is recommended that students register with the AEC as soon as possible after applying to SJSU.

Counseling and Psychological Services (CAPS)

Professionally trained multi-culturally sensitive staff provides confidential counseling services to enrolled SJSU students. Responding to the many pressures and demands facing students at different times, CAPS offers confidential counseling; groups and workshops; crisis intervention services; resource referral and consultation; and outreach presentations. The private offices in CAPS support an atmosphere of safety and confidentiality between a counselor and a student.

Personal/Psychological Counseling

Counselors can work with you to improve your mood, decrease your anxiety, increase your skills in handling stress, improve your skills in relationships, and help you make better decisions. Our professional staff includes licensed psychologists, professional clinical counselors, social workers, marriage family therapists and advanced doctoral-level clinical trainees supervised by licensed professionals.

Educational Counseling

CAPS Educational Programs provides students with life skills that promote academic success. Our program assist students in navigating the University by informing them of SJSU resources and policies, and serving as a bridge to personal counseling to help students’ overall well-being.

Each semester, CAPS Life Skills Workshops and groups are offered to help students become more successful at SJSU. For a complete listing of these with times and dates, please see: www.sjsu.edu/counseling/students/Workshops/index.html

Outreach Service

Our professional counselors offer a variety of presentations on topics of interest to campus organizations and student groups free of charge. Outreach services also include tabling, interviews, and supportive debriefs for the campus community.

Groups

Groups are a great way for students to connect with peers, learn new skills and strategies, and grow both emotionally and educationally! We offer numerous types of groups that get students interacting and connecting to help each other.

Suicide Prevention Training

We provide learning opportunities for gaining knowledge, skill, and awareness in suicide and mental health crisis and intervention (e.g. QPR, Mental Health First Aid, and ASIST). All trainings are free and open to all SJSU members.

Counseling and Psychological Services (CAPS)

Student Wellness Center, 3rd Floor, Room 300B

Emergency Information

Dial 911 from any on-campus or pay phone (or 408-924-2222 from mobile phones) to report a crime in progress or any life-threatening police, fire or medical emergency.

Bluelight Phones

Bluelight emergency phones are located throughout the campus grounds and inside buildings, elevators and in parking lots and garages. Bluelight phones connect to University Police 24 hours a day and can be used to report emergencies or request an evening safety escort, shuttle ride or motorist assistance. Depending on the location, Bluelight phones are activated by either pressing a call button or picking up the phone receiver.

Non-Emergency and General Information

To report crimes not in progress, general concerns or request information, contact University Police at 408-924-2222 or visit UPD in the first floor of the University Police Building 24 hours a day.

Alert-SJSU Notifications and Major Emergency Information

Alert-SJSU is the campus emergency notification system that provides information about what to do and where to go during a natural disaster or life-threatening emergency. To register or update alert settings (most students are already automatically registered), sign in to MySJSU, select Alert-SJSU and enter your contact phone numbers and e-mail addresses. For more information during a major emergency, call 408-924-SJSU and not University Police (unless you are reporting a crime in progress or a life-threatening emergency).
Financial Aid and Scholarships

The Financial Aid and Scholarships Office awards federal, state and local grants, loans and scholarships. Start by filing the federal Free Application for Federal Student Aid (FAFSA) at www.fafsa.gov. Eligible AB540 students (undocumented immigrant status) may qualify for state grant programs by completing the CA Dream Application at www.caldreamact.org. The priority deadline is March 2 of every year. You must apply every year to be considered for financial aid for the following academic year. By completing the process, we establish your financial need. Need is the difference between a typical student budget and what you and your family are expected to pay. Aid is awarded via:

Grants: Since grants generally do not have to be repaid, grants typically are awarded to undergraduate students with the greatest need. SJSU distributes the Federal Pell Grants, Federal Supplemental Educational Opportunity Grants (SEOG), Federal Teacher Education Assistance for College and Higher Education (TEACH) Grant; California Grants A, B; Middle Class Scholarship (MCS), the State Graduate Fellowship, Educational Opportunity Program (EOP), Graduate Professional Business Grant and the State University Grants.

Loans: Loans can be helpful, but they must be repaid. You must borrow, limit the amount to what you really need. It may seem nice now, but you will be repaying the funds, with interest, after you leave school. SJSU awards the following loan type: Kuhlman Loan, a loan program funded from the estate of a generous alumna. Also, loans are awarded through the federal government for the Federal Direct Stafford Subsidized and Unsubsidized Loans and Federal Plus Loans (for parents of college students). In addition, graduate students are eligible to borrow through the Federal Graduate Plus Loan Program, CA Dream Loans are available to students who complete the CA Dream Application and meet eligibility criteria.

Scholarships: Apply online at http://scholarships.sjsu.edu/. The Scholarship Office has information to assist you with your scholarship search.

Financial Assistance

The following information concerning student financial assistance may be obtained from the Director of Financial Aid and Scholarships, Student Services Center, 408-283-7500:

A description of the federal, state, institutional, local, and private student financial assistance programs available to students who enroll at San José State University;

For each aid program, a description of procedures and forms by which students apply for assistance, student eligibility requirements, criteria for selecting recipients from the group of eligible applicants, and criteria for determining the amount of a student’s award;

A description of the rights and responsibilities of students receiving financial assistance, including federal Title IV student assistance programs, and criteria for continued student eligibility under each program;

The satisfactory academic progress standards that students must maintain for the purpose of receiving financial assistance and criteria by which a student who has failed to maintain satisfactory progress may reestablish eligibility for financial assistance;

The method by which financial assistance disbursements will be made to students and the frequency of those disbursements;

The terms of any loan received as part of the student’s financial aid package, a sample loan repayment schedule, and the necessity for repaying loans;

The general conditions and terms applicable to any employment provided as part of the student’s financial aid package;

The responsibility of San José State University for providing and collecting exit counseling information for all student borrowers under the federal student loan programs; and

The terms and conditions for deferral of loan payments for qualifying service under the Peace Corps Act, the Domestic Volunteer Service Act of 1973, or comparable volunteer community service.
Health Services

The Student Health Center provides quality, convenient, affordable medical care and health promotion to any registered SJSU student. Primary care is covered by your registration fees. Additional services (some laboratory tests, immunizations, procedures, pharmacy, and specialty visits) are available at a nominal fee. Contact the Student Health Center for fee information.

Student Wellness Center
The Student Wellness Center houses the Student Health Center, Counseling and Psychological Services, Wellness and Health Promotion, a pharmacy, a lactation room, and a variety of other services. Also housed within the SWC is the Student Affairs Case Manager who assists students who are in distress or crisis-see: www.sjsu.edu/sjsucares. (Across from the Event Center)
408-924-6122
www.sjsu.edu/studenthealth/

Wellness and Health Promotion
Wellness and Health Promotion, under the Student Health Center, provides workshops, coordinates outreach events, and hosts activities in the Wellness Lounge, where students can access many services to support their well-being.

Institutional Assistance

Information concerning the cost of attending San José State University is available from the Director of Budget Services, 408-924-1660, and includes tuition and fees; the estimated costs of books and supplies; estimates of typical student room, board, and transportation costs; and, if requested, additional costs for specific programs.

Information concerning the refund policies of San José State University for the return of unearned tuition and fees or other refundable portions of institutional charges is available from the Bursar’s Office, Student Services Center, 408-924-1601.

Information concerning policies regarding Federal Title IV student assistance funding and return of those funds as required by regulation is available from the Financial Aid and Scholarship Office, Student Services Center, 408-283-7500.

Information concerning facilities and services available to students with disabilities may be obtained from the Director of the Disability Resource Center, 408-924-6000.

Information concerning San José State University policies, procedures, and facilities for students and others to report criminal actions or other emergencies occurring on campus may be obtained from University Police, 408-924-2222.

Information concerning San José State University annual campus security report may be obtained from Chief, University Police, 408-924-2172.

Information concerning the prevention of drug and alcohol abuse and rehabilitation programs may be obtained from the Director of Student Health Center, 408-924-6122.

Information regarding student retention and graduation rates at San José State University and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest may be obtained from Graduate and Undergraduate Programs Office, 408-924-2447.

Information concerning athletic opportunities available to male and female students and the financial resources and personnel that San José State University dedicates to its men’s and women’s teams may be obtained from the Director of Compliance, 408-924-1514.

Information concerning teacher preparation programs at San José State University, including the pass rate on teacher certification examinations, may be obtained from Credential Services, 408-924-3541.

Information concerning grievance procedures for students who feel aggrieved in their relationships with the university, its policies, practices and procedures, or its faculty and staff may be obtained from the Ombudsperson, Administration 269, 408-924-5995.

The federal Military Selective Service Act (the “Act”) requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution. Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at www.sss.gov.
Library

The Dr. Martin Luther King, Jr. Library, an innovative collaboration that integrates the collections, services and staffs of two major institutions: The SJSU University Library and the San José Public Library is a unique learning and community center where the entire Silicon Valley Community—students, faculty, and residents—can learn for life. The combined collections include more than 1.5 million items and the building houses 33 delightful public art installations.

King Library

MySJSU

MySJSU is the primary website for important transactions between students and the campus.

- Applicants can access information sent to them by the admissions offices (Undergraduate Admissions & Outreach and GAPE) by logging in to check application status and view messages.
- Admitted and enrolled students can view their enrollment appointment start date and time for registration.
- Admitted and enrolled students can register for classes.
- Admitted and enrolled students can search for open sections of classes.
- Admitted and enrolled students can print their own class schedule.
- Admitted and enrolled students pay fees online.
- Undergraduates can view their degree progress using MyProgress.
- Continuing and former students can print grades from Spring 1991 to the present.

ID - SJSU ID

An SJSU ID is assigned to all students. To protect your privacy, this SJSU ID replaces the use of Social Security Number for most SJSU transactions. This number cannot be changed.

New students receive this information via admission office communications.

See SJSU ID, also Tower Card

Password

Use your password to access my.sjsu.edu on the web along with your SJSU ID. MySJSU uses your SJSUOne login information. If you have not yet set your password, you can navigate to my.sjsu.edu/ and click the Set/Reset Password button to create a password.

- New students receive this information from admission office communications.

Having trouble logging in? If you cannot reset your password using the Set/Reset Password button, please contact ithelpdesk@sjsu.edu for assistance. Include your full name, SJSU ID if known (also known as your Tower ID), date of birth, and mailing address.

IT Help Desk

The IT Help Desk provides assistance with campus software and network issues, including MySJSU, Canvas, Wi-Fi, SJSU Email, and many other applications. If you need technical assistance, start here.

Operating Hours:
7:30am - 11:00pm M-Th
7:30am - 6:00pm F
Parking Permits

Parking Online Services - www.sjsu.edu/parking

Student parking permits purchased online with a credit card are typically mailed and delivered within five business days. Temporary parking permits (for immediate use) are automatically issued for purchases made after the semester has begun.

A limited selection of student parking permits (semester and academic year only) are sold at the Bursar’s Office and payable only with cash, check, or money order.

Availability

Please note that parking permits do not guarantee on-campus parking availability during peak periods (typically Monday through Thursday, 9:00 am to 12:00 pm). During peak periods, commuters are encouraged to use Transportation Alternatives (see next section) or the Park & Ride Lot located at 1281 S. 7th St.

Pre-Professional Study

Several sources of information and assistance are available for students who plan to enter the professions of art administration, dentistry, medicine, law, pharmacy, optometry, veterinary medicine, physical therapy, social work and theology. General information, including names and locations of faculty members who have been designated as “pre-professional” advisors, may be obtained from the appropriate academic department office. Interested students should also contact the university of their choice for information regarding the professional prerequisites for that institution. Consultants are available at the Career Center to discuss possible career paths. Application forms for admissions tests to law school, medical school and dental school are available in the Testing Office.

Student associations in pre-law, pre-medicine and pre-dentistry conduct active programs which include information about admission to professional schools, test preparation and seminars/workshops in the profession.

Pre-Law Programs

Students planning to attend law school and pursue careers in law should be aware that no major has a special advantage in preparing them to compete on the Law School Admission Test or for admission into even the most prestigious law schools. The American Bar Association emphasizes this point in its publication Law as a Career. “An undergraduate should be aware that there is no particular course of study that is required or preferred by law schools. Accordingly, students from a wide variety of majors (e.g., philosophy, physics, political science, engineering, and business) are admitted to law schools each year. There is no true prelaw curriculum. Generally, a broad-based education that is rigorous and that stresses analytical and verbal communication skills will be useful.”

Students with undergraduate degrees in the humanities and the arts as well as the social, health, and natural sciences are consistently successful in achieving competitive scores on the LSAT and in obtaining admission to law schools of distinction.
However, students should keep in mind that successful pursuit of a career in law depends on skills acquired only through particular kinds of courses. The Law School Admission Council’s Official Guide to U.S. Law Schools explains: “While no single curricular path is the ideal preparation for law school, you should choose courses that sharpen analytical reasoning and writing skills. Law schools prefer students who can think, read, and write well, and who have some understanding of what shapes human experience.”

Students considering careers in law should consult regularly with a pre-law faculty advisor. The number and kind of courses that prepare students for law can be offered by a variety of departments. It is therefore important that students consult with a faculty member familiar with the curricular choices that best align student aspirations with law school expectations. A faculty advisor can also provide valuable information concerning law school and law careers that will not be acquired through any set of courses. The following departments offer pre-law advising: Justice Studies, Philosophy, Political Science. A further resource for students considering a career in law is the Law School Advisor provided by Student Services.

Pre-Medical Programs

Medical schools do not require any specific major. While many applicants major in biology or biochemistry, the admission rate is quite good for non-science majors because these graduates will have shown strength in two academic areas. At a minimum, applicants must complete during their college years two years of major chemistry with lab, physics with lab, math through calculus, one year of English composition, and one year, preferably two, of biology with lab. Students interested in any medical field should get as much hands-on experience as possible volunteering or working in medical settings so that they fully understand how physicians and other health professionals spend their time. There are pre-medical advisors in Biological Sciences and in Chemistry; consult them early and often.

Service Learning

In March 2000, the California State University Board of Trustees passed a landmark resolution in response to a request from the governor for a community service requirement for all students in California’s public institutions of higher education. The CSU Board of Trustees’ resolution called for the chancellor and each CSU president to “ensure that all students have opportunities to participate in community service, service learning (deemed academically appropriate by faculty), or both.”

To learn more about general education service learning classes, courses in your major, or other service-based leadership opportunities for students, contact the Center for Community Learning and Leadership.

Student Government

Associated Students, SJSU, was founded in 1897 to provide representation and services to students at San José Teachers College. Since then, the organization has evolved from a student club to a fully operational student government entity. Also, as an auxiliary to the University, we provide services that allow students to enhance their college experience.

Originally, voluntary fees were first collected in 1910 to provide services and activities. By 1957, all students were paying a portion of their registration fees to support their student government organization.

Associated Students was incorporated in 1980 and the Student Council also became the Corporation’s Board of Directors.

Review our website for more information and policies related to services provided: http://as.sjsu.edu/

Student Organizations

With over 400 student organizations at SJSU, getting involved is the best way to connect with campus life! For more information on department programs and services, please visit our website at: http://www.sjsu.edu/getinvolved/studentorgs/

Study Abroad International Programs

Developing intercultural communication skills and international understanding among its students is a vital mission of The California State University (CSU). Since its inception in 1963, the CSU International Programs (CSU IP) has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 15,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or study center abroad. CSU IP serves the needs of students in over 100 designated academic majors. Affiliated with more than 50 recognized universities and institutions of higher education in 18 countries, CSU IP also offers a wide selection of study abroad destinations and learning environments.

For applications or more information about any of the programs described here, contact:

Germany
   Universitat Tubingen and a number of institutions of higher education in the Federal state of Baden-Wurttemberg
Students participating in CSU IP pay CSU tuition and program fees, and are responsible for airfare, accommodations, meals and other personal expenses. Financial aid, with the exception of Federal Work-Study, is available to qualified students and limited scholarship opportunities are also available. All programs require students to maintain good academic and disciplinary standing; many programs are open to sophomores or graduate students. California Community College transfer students are eligible to apply (to select programs) directly from their community colleges. Students must possess a current cumulative grade point average of 2.75 or 3.0, depending on the program, and must fulfill all coursework prerequisites. Additional program information and application instructions can be found on our website at www.calstatele.edu/ip.

International Student Exchange Programs (ISEP)

SJSU is a member of this consortium that offers more options in 35 countries for an academic year, semester or summer.

SJSU Faculty-Led Programs (FLP)

SJSU Faculty lead 3-6 week programs to another country during the summer or winter sessions.

California State University (CSU)

Welcome to the California State University (CSU) - the world’s largest comprehensive higher education system in the nation with 23 unique campuses serving approximately 484,000 students with more than 50,800 faculty and staff. Each year, the University awards more than 120,000 degrees. CSU graduates are serving as leaders in the industries that drive California’s economy, including business, agriculture, entertainment, engineering, teaching, hospitality and healthcare. Learn more at www.calstate.edu.

A Tradition of Excellence for More than Five Decades

Since 1961, the CSU has provided an affordable, accessible, and high-quality education to more than 3.4 million graduates throughout California. While each campus is unique based on its curricular specialties, location and campus culture, every CSU is distinguished for the quality of its educational programs. All campuses are fully accredited, provide a high-quality broad liberal educational program and offer opportunities for students to engage in campus life through the Associated Students, Inc., clubs and service learning. Through leading-edge programs, superior teaching and extensive workforce training opportunities, CSU students graduate with the critical thinking skills, industry knowledge and hands-on experience necessary for employment and career advancement.

Facts

- In 2015-16, the CSU received $579 million in research and education grants and contracts by federal, state and regional agencies.
- Today, one of every 20 Americans with a college degree is a CSU graduate.
- One in every 10 employees in California is a CSU alumnus.
- The CSU awards 45 percent of the bachelor’s degrees earned in California.
- Almost half of all the nurses in the state earn their degrees from the CSU.
- The CSU awards 95 percent of the hospitality/tourism degrees in the state.
- Nearly half of all of the state’s engineers earn their degrees from the CSU.
- The CSU is the leading provider of teacher preparation programs in the state.
- The CSU offers more than 124 fully online and 91 hybrid degree programs and concentrations.
- The CSU offers 3,800 online courses per term providing more educational options to students who may prefer an online format to a traditional classroom setting.
- The CSU’s online concurrent enrollment program gives students the ability to enroll in courses offered by other campuses in the CSU.
- Over the past four years, the CSU has issued nearly 50,000 professional development certificates in education, health services, business and technology, leisure and hospitality, manufacturing, international trade and many other industries.
- Nearly half of the CSU’s 484,000 students are engaged in some type of community service, totaling 32 million hours of service annually.
- More than 13,000 students participate in STEM (science, technology engineering and mathematics) service-learning courses.
- For every $1 that the state invests in the CSU, the University generates $5.43 for California’s Economy.

Governance

The CSU is governed by the Board of Trustees, most of whom are appointed by the governor and serve with faculty and student representatives. The CSU Chancellor is the chief executive officer, reporting to the Board. The campus presidents serve as the campus-level chief executive officers. The Trustees, Chancellor and presidents develop systemwide educational policy. The presidents, in consultation with the Academic Senate CSU and other campus stakeholder groups, render and implement local policy decisions.

CSU Historical Milestones

The individual California State Colleges were established as a system with a Board of Trustees and a Chancellor in 1960 by the Donahoe Higher Education Act. In 1972, the system was designated as the California State University and Colleges, and in 1982 the system became the California State Universit. Today, the CSU is comprised of 23 campuses, including comprehensive and polytechnic universities and, since July 1999, the California Maritime Academy, a specialized campus.

The oldest campus-San José State University-was founded in 1857 and became the first institution of public higher education in California. The newest-CSU Channel Islands-opened in fall 2002, with freshmen arriving in fall 2003.
In 1963, the Academic Senate CSU was established to act as the official voice of CSU faculty in systemwide matters. Also, the California State College Student Presidents Association—which was later renamed the California State Student Association—was founded to represent each campus student association on issues affecting students.

Through its many decades of service, the CSU has continued to adapt to address societal changes, student needs and workforce trends. While the CSU’s core mission has always focused on providing high-quality, affordable bachelor’s and master’s degree programs, over time the university has added a wide range of services and programs to support student success—from adding health centers and special programs for veterans to building student residential facilities to provide a comprehensive educational experience.

To improve degree completion and accommodate students working full- or part-time, the educational paradigm was expanded to give students the ability to complete upper-division and graduate requirements through part-time, late afternoon, and evening study. The university also expanded its programs to include a variety of teaching and school service credential programs, specially designed for working professionals.

The CSU marked another significant educational milestone when it broadened its degree offerings to include doctoral degrees. The CSU independently offers Doctor of Education (Ed.D.), Doctor of Physical Therapy (DPT), Doctor of Audiology (AuD) and Doctor of Nursing Practice (DNP) degree programs. A limited number of other doctoral degrees are offered jointly with the University of California and private institutions in California.

In 2010, in an effort to accommodate community college transfer students, the CSU, in concert with the California Community Colleges (CCC), launched the Associate Degree for Transfer (ADT), which guarantees CCC transfer students with an ADT admission to the CSU with junior status.

Always adapting to changes in technology and societal trends to support student learning and degree completion, the CSU achieved another milestone in 2013, when it launched CalState Online, a systemwide collection of services that support the delivery of fully online programs from campuses. Now, full-time students have access to fully online courses offered at other CSU campuses.

By providing an accessible, hands-on education that prepares graduates for career success, the CSU has created a network of alumni that is so extensive and renowned that it spans across the globe. As of 2016-17, more than 3.4 million CSU alumni are making a difference in the lives of the people of California and the world.

The CSU strives to continually develop innovative programs, services and opportunities that will give students the tools they need to meet their full potential. In 2016, the university launched Graduation Initiative 2025, a bold plan to support students, increase the number of California’s graduates earning high-quality degrees and eliminate achievement and equity gaps for all students. Through this initiative, the CSU is ensuring that all students have the opportunity to graduate according to their personal goals, positively impacting their lives, families and communities. The CSU is committed to providing a quality higher education that prepares students to become leaders in the changing workforce.

Credit Hour

As of July 1, 2011 federal law (Title 34, Code of Federal Regulations, sections 600.2 and 600.4) requires all accredited institutions to comply with the federal definition of the credit hour. For all CSU degree programs and courses bearing academic credit, the “credit hour” is defined as the “amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

1. One hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time; or
2. At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution, including laboratory work, internships, practice, studio work, and other academic work leading to the award of credit hours.”

A credit hour is assumed to be a 50-minute period. In courses in which “seat time” does not apply, a credit hour may be measured by an equivalent amount of work, as demonstrated by student achievement.
Legalese

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of the California State University, by the Chancellor or designee of the California State University, or by the President or designee of the campus. It is not possible in a publication of this size to include all of the rules, policies and other information that pertain to students, the institution, and the California State University. More current or complete information may be obtained from the appropriate department, school, or administrative office.

Nothing in this catalog shall be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the Chancellor of the California State University, or the President of the campus. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies that apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and the institution or the California State University. The relationship of the student to the institution is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President and their duly authorized designees.

The annual update of SJSU policies is recommended as an up-to-date source of information on course offerings, general education, registration procedures, schedule of fees and other pertinent information on policies and procedures.

Information is subject to change.

The San José State University Policies and Procedures information is coordinated by the Office of Graduate and Undergraduate Programs and Enrollment Services.

Non-Discrimination Policy and Complaint Procedures

The CSU and San José State University does not discriminate on the basis of age, genetic information, marital status, medical condition, nationality, race or ethnicity (including color and ancestry), religion (or religious creed), and veteran or military status - as these terms are defined in CSU policy - in its programs and activities, including admission and access. Federal and state laws, including Title VI of the Civil Rights Act of 1964 and the California Equity in Higher Education Act, prohibit such discrimination. The Office of Diversity, Equity and Inclusion has been designated to coordinate the efforts and comply with all applicable federal and state laws prohibiting discrimination on these bases. Questions regarding this policy should be directed to the Office of Diversity, Equity and Inclusion, 408-924-8168.

Protected Status: Disability

The California State University does not discriminate on the basis of disability (physical and mental) - as this term is defined in CSU policy - in its programs and activities, including admission and access. Federal and state laws, including sections 504 and 508 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, prohibit such discrimination. Each campus has been designated to coordinate the efforts to comply with all applicable federal and state laws prohibiting discrimination on the basis of disability. Inquiries concerning compliance may be presented to this person at [campus address and phone number]. CSU Executive Order 1097 Revised October 5, 2016 (http://www.calstate.edu/EO/EO-1097-rev-10-5-16.pdf) (or any successor executive order) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a third party. All San José State University classes are wheelchair accessible. If you have other needs regarding accommodations, please contact the Accessible Education Resource Center. Telephone: 408-924-6000; TTY 408-924-5990; Fax: 408-924-5999.

Campus Safety Statistics

A campus safety report is available at www.sjsu.edu/police/crime_reporting/safety_report/ or by calling 408-924-2172. CSU Executive Order 1097 (http://www.calstate.edu/EO/EO-1097.pdf) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a third party.

Aerospace Engineering

Department Courses

AEROSPACE ENGINEERING

LOWER DIVISION

AE 015. Air & Space Flight: Past, Present, and Future
Introduction to the history, basic principles, current and future developments of the aerospace engineering field through projects, guest speakers and field trips.
Normal Grade Rules
1 unit

AE 020. Computer-Aided Design for Aerospace Engineers
The course provides an introduction to the fundamentals of drafting and computer-aided design with applications in aircraft and spacecraft design.
Misc/Lab: Lecture 2 hours/Lab 3 hours
Normal Grade Rules
2 units

AE 030. Computer Programming for Aerospace Engineers
C language: Variables, data types, operators, functions, modular programming, input/output sequence, pointers and memory addressing, external libraries, dynamic memory allocation. MATLAB: Variables, scripts, operations, visualization, plotting and programming. Equation solving and curve fitting. Symbolics, Simulink and I/O building block.
Misc/Lab: Lecture 1 hours/Lab 3 hours
Normal Grade Rules
2 units

AE 112. Aerospace Structural Analysis I
Prerequisites: MATH 32, PHYS 50 or Graduate Standing
Corequisites: MTE 25, Engr 100W OR Graduate Standing
Normal Grade Rules
4 units

AE 114. Aerospace Structural Analysis II
Prerequisite: AE 112 or Graduate Standing
Corequisite: ENGR 100W
Normal Grade Rules
3 units

AE 135. Introduction to Composite Materials
See MATE 135.
Normal Grade Rules
3 units

AE 138. Vector-Based Dynamics for Aerospace Applications
Prerequisite: C- or better in Math 32 and Physics 50
Corequisite: AE112
Normal Grade Rules
3 units

AE 142. Astrodynamics
Two-body problem analysis and orbit design; Kepler’s Laws; Single-impulse orbit transfers; Hohmann transfers; Circularization; Plane changes; Kepler’s Equation; Planetary sphere of influence; Vector mechanics and relative motion of interplanetary flight; Patched conic trajectory model; Gravity-assist trajectories; Case studies; Restricted three-body problem.
Prerequisite: AE 138, AE 165
Normal Grade Rules
3 units

AE 157. Aerospace Automatic Control Systems Design
Prerequisite: Math 129A, Math 133A, AE 138 w. a grade of “C-” or better in each. Or Graduate Standing
Normal Grade Rules
3 units

AE 160. Aerodynamics I
Prerequisites: MATH 032, PHYS 050 (with a grade of ‘C-’ or better in each) or graduate standing.
Corequisite: ENGR 100W
Normal Grade Rules
3 units

AE 162. Aerodynamics II
Two-dimensional and three-dimensional, incompressible and compressible potential flow theory. Airfoil and wing theory for subsonic, supersonic, and hypersonic flows. Flow visualization in a water tunnel. Lift and drag measurements in a subsonic wind tunnel.
Prerequisite: Allowed Declared Majors: Aerospace Engineering, Mechanical Engineering, ENGR 100W, MATH 133A, AE 160 or ME 111 (with a grade of ‘C-’ or better in each). Or Graduate Standing.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

AE 164. Aerothermodynamics
Prerequisite: PHYS 052 and AE 160 with a grade of ‘C-’ or better in each, or graduate standing
Normal Grade Rules
5 units
AE 165. Aerospace Flight Mechanics  
Trajectory dynamics of atmospheric flight (aircraft and missiles) and spaceflight (orbital mechanics). Influence of vehicle design on trajectory. Aircraft static performance, stability and control. Rocket launch and re-entry dynamics. Computer simulations. 
Prerequisite: AE 138 with a grade with ‘C’- or better. Allowed Declared Majors: Engineering, Aerospace Engineering, Mechanical Engineering. Or Graduate Standing. 
Corequisite: AE 162. Normal Grade Rules. 3 units 

AE 166. Rocketry  
Introduction to rocketry through theory, computer simulations, and development / launch of an amateur level rocket. Topics include basic principles of aerodynamics, vehicle structures, rocket propulsion, flight mechanics, avionics, as well as past and current launch vehicle technologies. 
Prerequisite: PHYS 50, AE 165. Normal Grade Rules. 3 units 

AE 167. Aerospace Propulsion  
Basic one-dimensional flows: isentropic, area change, heat addition. Overall performance characteristics of propellers, ramjets, turbojets, turbofans, rockets. Performance analysis of inlets, exhaust nozzles, compressors, burners, and turbines. Rocket flight performance, single-/multi-stage chemical rockets, liquid/solid propellants and design problems. 
Prerequisite: AE 160 and AE 164 with a grade of ‘C’- or better in each. Allowed Declared Majors: Engineering, Aerospace Engineering, Mechanical Engineering. Normal Grade Rules. 3 units 

AE 168. Aerospace Vehicle Dynamics and Control  
Prerequisite: AE 140, AE 157, AE 165 and Math 129A with a grade of ‘C’- or better in each. Allowed Declared Majors: Aerospace Engineering, or Graduate Standing. Normal Grade Rules. 3 units 

AE 169. Computational Fluid Dynamics  
Prerequisite: MATH 129A, AE 160 with a grade of ‘C’- or better in each. Or Graduate Standing. Normal Grade Rules. 3 units 

AE 171A. Aircraft Design I  
First course in a two-semester sequence, in which students work in teams to complete the conceptual and preliminary design of an aircraft. Students are challenged to consider the relationship of aerospace engineering to the broader community. 
Prerequisites: Must be senior in good standing with C or better in AE 20, AE 162, AE 165, ENGR 100W. Or Graduate Standing. Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. 
Pre/corequisite: AE164, AE168, ENGR 195A. Misc/Lab: Lab 9 hours. Note: Meets CE Areas S and V when course is taken in combination with: AE 172B, ENGR 195A and ENGR 195B. Normal Grade Rules. CE: 5 3 units 

AE 171B. Aircraft Design II  
Second course in a two-semester sequence, in which students work in teams to complete the conceptual and preliminary design of an aircraft. Students are challenged to consider the relationship of aerospace engineering to the broader community. GE Area: V when taken with AE major option sequence. 
Prerequisites: AE 164, AE 168, AE 171A, ENGR 195A with a grade of ‘C’ or better, senior in Good Standing or Graduate standing. 
Corequisite: ENGR 195B. Misc/Lab: 9 hour Lab. Note: Meets CE Areas S and V when course is taken in combination with: AE 172A, ENGR 195A and ENGR 195B. Normal Grade Rules. CE: V 3 units 

AE 172A. Spacecraft Design I  
First course in a two-semester sequence in which students work in teams to complete the conceptual and preliminary design of a spacecraft. Students are challenged to consider the relationship of aerospace engineering to the broader community. GE Area: S when taken with AE major option sequence. 
Prerequisites: Must be senior in good standing with C or better in AE20, AE162, AE165, ENGR 100W. Or graduate level. Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. 
Pre/corequisite: AE164, AE168, ENGR 195A. Misc/Lab: Lab 9 hours. Note: Meets CE Areas S and V when course is taken in combination with: AE 172B, ENGR 195A and ENGR 195B. Normal Grade Rules. CE: S 3 units 

AE 172B. Spacecraft Design II  
Second course in a two-semester sequence, in which students work in teams to complete the conceptual and preliminary design of a spacecraft. Students are challenged to consider the relationship of aerospace engineering to the broader community. GE Area: V when taken with AE major option sequence. 
Prerequisites: AE 164, AE 168, AE 172A, ENGR 195A with a grade of ‘C’ or better, senior in Good Standing or Graduate standing. 
Pre/corequisite: AE164, AE168, ENGR 195A. Misc/Lab: 9 hour Lab. Note: Meets CE Areas S and V when course is taken in combination with: AE 172A, ENGR 195A and ENGR 195B. Normal Grade Rules. CE: V 3 units 

AE 173. Design of Unmanned Aerial Vehicles  
Conceptual and preliminary design of autonomous aerial vehicles (UAVs). Review of low Reynolds number fixed and rotary wing aerodynamics, with a focus on wing and rotor design. Vehicle dynamics and control, flight path planning and optimization, control system design. 
Normal Grade Rules 3 units 

AE 180. Individual Studies  
Individual work on special topics. By arrangement. 
Prerequisite: Upper division standing and instructor consent. Not available to Open University Students. Repeatable for credit. Normal Grade Rules. 1-3 units
AE 199. Special Topics in Aerospace Engineering
Special topics that are currently of interest to industry and academia. Content varies from semester to semester.
Prerequisite: Upper division standing or instructor consent
Repeatable for credit
Normal Grade Rules
1-4 units

GRADUATE

AE 200. Engineering Analysis and Control of Aerospace Systems
Engineering analysis and control, linear algebra, ordinary differential equations; Laplace transformation; complex analysis; singular values; matrix perturbations; state-space models, input/output and robust stability, reachability and observability, feedback stabilization; H2 and H-infinity optimization.
Prerequisite: Graduate Standing or Instructor Consent
Normal Grade Rules
3 units

AE 210. Advanced Space Systems Engineering
Overview of the engineering process used in aerospace mission and system design spanning the entire system life cycle for the near-Earth and outer space environment. Effects of gravity field, temperature and radiation on physical systems and the human organism. Mission program inception, proposal development, cost analysis and risk management.
Prerequisites: BSAE or Instructor Consent
Normal Grade Rules
3 units

AE 242. Orbital Mechanics and Mission Design
Prerequisite: BSAE or Instructor Consent.
Normal Grade Rules
3 units

AE 243. Advanced Astrodynamics
Analysis of spacecraft motion using different dynamic models and perturbations. Use of the state transition matrix and differential corrections technique for trajectory computation. Orbit determination and station-keeping methods. Introduction to the three-body problem. Application of computational and analytic methods to solve astrodynamics problems.
Prerequisite: AE 242
Normal Grade Rules
3 units

AE 245. Spacecraft Dynamics and Control
Prerequisite: BSAE or Instructor Consent.
Normal Grade Rules
3 units

AE 246. Advanced Aircraft Stability and Control
Natural longitudinal and lateral/directional motion of aircraft; mode shapes, eigenvalues, eigenvectors. Analysis and synthesis of various aircraft autopilots using classical and state space formulations.
Prerequisite: BSAE or Instructor Consent.
Normal Grade Rules
3 units

AE 247. Trajectory Optimization in Aerospace Systems
Introduction to trajectory optimization; parameter optimization; calculus of variations; optimal control and optimization techniques; dynamic programming; numerical methods in optimization; trajectory optimization in aerospace systems; perturbation analysis.
Prerequisite: Graduate Standing or instructor consent, AE 200 or equivalent.
Normal Grade Rules
3 units

AE 250. Advanced Structures and Materials
Design and analysis of modern flight structures including static and dynamic structural response; materials design including metals, alloys, composites. Introduction to modern computational methods including finite elements.
Prerequisite: BSAE or Instructor Consent.
Normal Grade Rules
3 units

AE 262. Advanced Aerodynamics
Prerequisite: BSAE or Instructor Consent.
Normal Grade Rules
3 units

AE 264. Gas Dynamics
Advanced topics in compressible flow theory with emphasis on the design of high subsonic, supersonic and hypersonic vehicles. In addition to classical compressible flow theory and problem solving, the course may include supersonic wind tunnel experiments and computer simulations.
Prerequisite: Graduate standing in AE/ME or instructor consent.
Normal Grade Rules
3 units

AE 267. Space Propulsion Systems
Rocket propulsion fundamentals. Propulsion requirements for multi-stage launch, orbit establishment, maneuvers and maintenance, spacecraft attitude control. Nozzle flow, thermochemical calculation of performance. Design and performance calculations for systems and components of chemical rockets (liquid, solid, hybrid), electric rockets and advanced concepts.
Prerequisite: BSAE or Instructor Consent. Allowed Declared Majors: Aerospace Engineering, Mechanical Engineering.
Normal Grade Rules
3 units

AE 269. Advanced Computational Fluid Dynamics
Advanced topics in computational fluid dynamics and numerical techniques to solve the Euler and Navier-Stockes equations. The student will use MatLAB, grid generation, CFD and visualization software for homework, and projects.
Prerequisite: BSAE or Instructor Consent.
Misc/Lab: Seminar 2 hours/lab 3 hours.
Normal Grade Rules
3 units

AE 271. Advanced Aircraft Design
Project course in which students complete the preliminary design of an airplane of their choice. The design process involves defining the mission requirements, weight sizing, performance sizing, fuselage design, wing, high-lift system and lateral/ directional stability analysis. Prerequisites: BSAE or Instructor Consent.
Normal Grade Rules
3 units

AE 273. Aircraft Subsystems
Aircraft subsystem analysis and design: flight controls; avionics and electrical systems; cabin systems; landing gear and other mechanical systems; systems safety analysis.
Prerequisite: Graduate Standing or instructor consent.
Normal Grade Rules
3 units

AE 280. Hypersonics and Reentry Systems
Fundamental principles of hypersonic aerodynamics. Development of important theory and techniques, discussion of salient results with emphasis on physical aspects, and presentation of modern thinking on the subject.
Prerequisite: Graduate Standing or instructor consent.
Normal Grade Rules
3 units
AE 295A. Aerospace Engineering Masters Project I
This is a first-semester aerospace engineering Master’s Project supervision course. Students perform original, graduate level research or design or development, involving aerospace systems under the supervision of an aerospace engineering faculty member or engineers from NASA / aerospace industry.
Prerequisite: Admission to candidacy for the master’s degree and a written proposal approved by instructor and graduate advisor. Not available to Open University Students.
Normal Grade Rules
3 units

AE 295B. Aerospace Engineering Masters Project II
This is a second-semester aerospace engineering Master’s Project supervision course, following AE295A. Students perform original, graduate level research and/or design and/or development, involving aerospace systems or subsystems under the supervision of an aerospace engineering faculty member and/or engineers from NASA / aerospace industry.
Prerequisite: A grade of “B” or better in AE295A
Normal Grade Rules
3 units

AE 297. Special Topics in Aerospace Engineering
Special topics that are currently of interest to industry and academia. Content varies from semester to semester. Repeatable for up to six units.
Prerequisite: Graduate Standing or instructor consent
Repeatable for credit
Normal Grade Rules
1-4 units

AE 298. Special Projects in Aerospace Engineering
Advanced individual work in Aerospace Engineering.
Prerequisite: Instructor consent. MATH 129A, AE 160 with a C- or better, or Graduate Standing.
Repeatable for credit
Mandatory CR/NC/RP
1-3 units

Master’s thesis work in aerospace engineering.
Participation in a teaching experience.
Prerequisite: Grade of “B” or better in 1st sem. to continue in 2nd sem.
Repeatable for credit
Mandatory CR/NC/RP
3 units

UPPER DIVISION
AE 1290R. Culminating Experience Supervision
Continued work on thesis or project beyond minimum required units, for cases in which final deliverables are still in progress.
Prerequisite: RP grade in a preceding thesis or project semester.
Note: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit
Aerospace Studies Department (Air Force ROTC) Courses

AEROSPACE STUDIES

LOWER DIVISION

AS 001A. The Foundation of the United States Air Force
Introduces students to the Air Force and AFROTC with an overview of basic characteristics, missions, and organization of the Air Force; additional topics include officership and professionalism, career opportunities, military customs and courtesies, and an introduction to communications skills.

Notes: Year course. Enrollment in leadership lab required.
Normal Grade Rules
1 unit

AS 001B. The Foundation of the United States Air Force
Introduces students to the Air Force and AFROTC with an overview of basic characteristics, missions, and organization of the Air Force; additional topics include officership and professionalism, career opportunities, military customs and courtesies, and an introduction to communications skills.

Notes: Year course. Enrollment in leadership lab required.
Normal Grade Rules
1 unit

AS 002A. The Evolution of USAF Air and Space Power
Examines general aspects of air and space power through historical study and analysis and provides the student with a knowledge level understanding of the capabilities, function and doctrinal employment of aerospace forces; emphasizes development of oral and written communication skills.

Notes: Year course. Enrollment in leadership lab required.
Normal Grade Rules
1 unit

AS 002B. The Evolution of USAF Air and Space Power
Examines general aspects of air and space power through historical study and analysis and provides the student with a knowledge level understanding of the capabilities, function and doctrinal employment of aerospace forces; emphasizes development of oral and written communication skills.

Notes: Year course. Enrollment in leadership lab required.
Normal Grade Rules
1 unit

UPPER DIVISION

AS 131A. Air Force Leadership Studies
Study of leadership, management fundamentals, professional knowledge, Air Force personnel system, ethics, and communication skills; develops application level knowledge of skills required of junior Air Force officer through case studies, practical exercises, and seminar discussion.
Prerequisite: AS 1A and AS 1B, AS 2A and AS 2B, or as determined by department chair.
Notes: Year course. Enrollment in Leadership lab required.
Normal Grade Rules
3 units

AS 131B. Air Force Leadership Studies
Study of leadership, management fundamentals, professional knowledge, Air Force personnel system, ethics, and communication skills; develops application level knowledge of skills required of junior Air Force officer through case studies, practical exercises, and seminar discussion.
Prerequisite: AS 1A and AS 1B, AS 2A and AS 2B, or as determined by department chair.
Notes: Year course. Enrollment in Leadership lab required.
Normal Grade Rules
3 units

AS 141A. National Security Affairs
Examines the national security process, international and regional relations, advanced leadership ethics, and Air Force doctrine with focus on the military as a profession, officership, military justice, civilian control of the military and current issues affecting military professionalism.
Pre/Corequisite: AS 131A.
Notes: Enrollment in leadership lab required.
Normal Grade Rules
3 units

AS 141B. Preparation for Active Duty
Studies the role of the Air Force officer in contemporary society with emphasis on knowledge, comprehension, and application of skills needed to facilitate a smooth transition from civilian to military life.
Pre/Corequisite: AS 131B.
Notes: Enrollment in leadership lab required.
Normal Grade Rules
3 units
African Studies Program Courses

AFRICAN STUDIES

UPPER DIVISION

AFRS 142. African Politics
See POLS 142
Normal Grade Rules
4 units
AFAM 002A. African-Americans and the Development of America's History and Government
Major events in America’s development, emphasizing African-Americans’ relationship to government and other basic institutions. GE Area: D2
Note: Must complete the entire sequence (AFAM 2A and 2B) to satisfy U.S. History, U.S. Constitution and California Government (US1,2,3).
Normal Grade Rules
GE: D2
3 units
AFAM 002B. African-Americans and the Development of America's History and Government
Major events in America’s development, emphasizing African-Americans’ relationship to government and other basic institutions. GE Area: D3, meets additional GE Areas when taken with AFAM 2A)
Prerequisite: AFAM 2A
Note: Must complete the entire sequence (AFAM 2A and 2B) to satisfy U.S. History, U.S. Constitution and California Government (US1,2,3).
Normal Grade Rules
GE: D3
3 units
AFAM 0022. The Humanities in African-American Culture
Analysis of several of the most important African-American creative art forms and personalities. Special attention to Black contributions in music, literature, cinema, photography and painting.
Normal Grade Rules
3 units
AFAM 0025. The Changing Majority: Power and Ethnicity in America
See MAS 025.
Normal Grade Rules
GE D2
3 units
AFAM 040. African Origins
Ancient African civilizations to the advent of the slave trade. Folklore and mythology manifested in ceremonies, rituals and rhythmic movements are examined.
Repeatability for credit
Normal Grade Rules
3 units
UPPER DIVISION
AFAM 100W. Writing Workshop
Development of advanced writing skills through study of principal techniques of communication in the Black community related to Black music, literature and politics.
GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Note: Must be passed with “C or better” to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE: Z
3 units
AFAM 102. African-American Music
Analysis of styles and techniques of major traditions in Black music. Development of music from slave work-a-day songs to rhythm and blues and modern jazz, 1950’s to the present.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units
AFAM 110. Education of the Black Child
Analysis of economic, sociocultural and educational issues that affect Black students. Emphasis directed at elementary and secondary school systems.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units
AFAM 111. African Nations
Analysis of African societies over time, beginning with the Africa of ancient civilizations, followed by Africa under European colonialism, and concluding with the sweeping changes in contemporary Africa.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units
AFAM 115. The Black Community Past and Present
Analysis of historical development of African-Americans including migrational trends of Blacks from the rural South to urban North. Search for alternatives in new institutions and modification of old ones.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units
AFAM 119. Africana Philosophy and Culture
See PHIL 119.
Normal Grade Rules
3 units
AFAM 120. Sociological Analysis of African-American Communities
Sociological analysis of the African-American community. Traces development of the community from its historical inception to contemporary urban settings. Analyzes important trends, shifting values, institutional development and urban problems.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units
AFAM 125. The Black Family
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units
AFAM 130. Psychology of the Black Community
Impact of Black society and culture on personality growth in light of current sociological and social-psychological studies. Social interaction, group membership within the Black community and its influence on the shaping of behavior.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units
AFAM 133. Introduction to Social Issues in Planning
See URBP 133.
Normal Grade Rules
4 units
AFAM 134. Martin L. King and the Civil Rights Movement
Origins and development of Civil Rights movement from 1865 to present. Analysis of role of Martin L. King, Jr. in the Civil Rights movement in the South and of federal government response and struggle of African-Americans for civil and political equality.
Prerequisite: Completion of U.S. History graduation requirement.
Normal Grade Rules
3 units

AFAM 137. Religion in the Black Community
Analysis of formation and development of African-American religious ideas and institutions (i.e., Christianity, Islam, Judaism) in the Black community and their effect on the African American personality.
Normal Grade Rules
3 units

AFAM 142. Race, Ethnicity, and the Law
Analysis of the politics of law and race in the U.S. with a focus on the experience of African-Americans and other racial and ethnic minorities as offenders, victims and as citizens engaged in a continuing movement for equality and an end to injustice.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

AFAM 145. Urban Policy and Its Impact on Inner City Residents
Effects of public policy decisions on inner city populations. Implications of urban planning processes for differential consumption costs of public goods and services.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units

AFAM 150. West African Drumming and Culture
A study of the instrumental music, song, and dance of the African Diaspora with an emphasis on its cultural context.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

AFAM 151. Race, Poverty and the Environment
Analysis of the relationship between the environmental crisis and people of color and poor communities in the U.S., emphasizing the interplay among race/ethnicity, class and politics in the struggle for environmental justice and survival by communities of color and poor people.
Normal Grade Rules
3 units

AFAM 152. The Black Woman
Understanding historical and cultural factors influencing the Black woman such as slavery, racism and poverty; learning the contributions and strengths Black families provide to and for their families and culture.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

AFAM 155. The Triumph and Tragedy of Black Athletes in U.S. History
This course examines the significance and impact of Black athletes on popular culture, race relations and U.S. society.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

AFAM 156. Black Women Writers: Race, Culture and Life Cycle in Cross-Cultural Perspective
Comparative analysis of the meaning and developmental stages of womanhood for women of African ancestry as depicted in the fiction of women of African ancestry. Emphasis on the role of race and culture in shaping contemporary conceptions of womanhood among Black women.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

AFAM 157. Globalization and Technology in Youth Culture
This course examines the impact of globalization and technology on youth worldwide from the perspective of youth in different cultures and countries. Topics will vary and focus on specific countries. Some sessions will be faculty-led international programs.
Prerequisite: Upper division standing.
Repeatable for credit
Normal Grade Rules
3 units

AFAM 159. Economic Issues in the Black Community
Analysis of continuing racial economic disadvantage in context of corporate and public policies. Exploration of new economic development and career opportunities emerging from changed environmental protection priorities.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

AFAM 160. Blacks in U.S. Politics and Society
Examines the lives and major contributions of African-Americans to politics and U.S. society.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

AFAM 161. Black Images in American Film, TV and the Print Media
Course examines the representation of Black people in film, TV, and print media.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

AFAM 164. Survey of Black Business Organizations
Private sector businesses from the perspective of racial ownership and consumption patterns. Historical development, future trends, consumer market, government regulations and funding support as they impact the success of Black business.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

AFAM 165. Topics in African-American Literature
See ENGL 165.
Normal Grade Rules
4 units

AFAM 166. African-American Women in History
Role of African American women in shaping U.S. history through a shared afrocentric gender legacy of activism and public life guardianship. Resulting impacts on abolition, lynching deterrence, labor unions, civil rights and professional activities.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

AFAM 180. Individual Studies
Individual research project and field activity on phase or topic not covered in regular course offerings.
Prerequisite: Upper division standing.
Repeatable for credit
Credit / No Credit
1-4 units

AFAM 184. Directed Reading
Limited to qualified upper division students.
Repeatable for credit
Credit / No Credit
1-4 units

AFAM 190. Internship in Community Development
Supervised placement in practical situations where community workers are employed: community planning, correctional services, community development agencies, etc.
Prerequisite: Upper division standing or instructor consent.
Credit / No Credit
1-4 units
AFAM 198. Senior Seminar in African-American Studies
Major themes and topics in the African-American experience analyzed through readings, reports and discussions. Topics and materials vary each semester. Course is repeatable for 6 unit maximum.
Prerequisite: AFAM 2A, AFAM 2B and senior standing.
Repeatable for credit
Normal Grade Rules
3 units

AFAM 200. Colloquium in African Origins
Analysis of historical writings of pre-colonial and colonial West Africa as a relevant background tool to the history of Black people in the U.S. Discussions based on assumption that assignments have been read in advance.
Prerequisite: Upper division or graduate standing.
Normal Grade Rules
3 units

AFAM 298. Special Studies
Advanced individual research and projects related to the Black community.
Prerequisite: Consent of graduate advisor.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units
American Studies Program
Courses

AMERICAN STUDIES

LOWER DIVISION

AMS 001A. American Civilization
American culture examined through political, literary, artistic, economic and social development. American values, ideas and institutions from popular culture as well as traditional sources. GE Area: C1 and D2, meets additional GE Areas when taken as sequence.
Note: Entire sequence satisfies GE Areas C1,2; D2,3; U.S. History, U.S. Constitution and California Government US1,2,3.
Misc/Lab: Lecture 3 hours/lecture 3 hours
Normal Grade Rules
GE: M4
6 units

AMS 001B. American Civilization
American culture examined through political, literary, artistic, economic and social development. American values, ideas and institutions from popular culture as well as traditional sources. GE Area: C2 and D3, meets additional GE when taken in sequence.
Prerequisite: AMS 1A.
Note: Entire sequence satisfies GE Areas C1,2; D2,3; U.S. History, U.S. Constitution and California Government US1,2,3.
Misc/Lab: Lecture 3 hours/lecture 3 hours
Normal Grade Rules
GE: M5
6 units

UPPER DIVISION

AMS 100W. Writing in the Humanities
See HUM 100W.
Normal Grade Rules
GE: Z
3 units

AMS 129. How the World sees the United States
Comparative analysis of the cultural meaning of “America” outside the United States from the perspectives of global interdependence and transnationalism, and including both pro- and anti-American views through history.
Prerequisite: Upper division standing
Normal Grade Rules
3 units

AMS 159. Nature and World Cultures
The influence of industrialization and globalization on earth and the environment as seen through culture. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units

AMS 160. Special Topics in Humanities
See HUM 160.
Repeatable for credit
Normal Grade Rules
3 units

AMS 169. The American Dream
The American search for identity and meaning, the struggle for equality and success, in relation to myths, illusions and realities reflected in history, literature and the arts. GE Area: S
Prerequisite: Upper division standing.
Normal Grade Rules
GE: S
3 units

AMS 179. American Popular Culture
Music, sports, fashion, popular literature, television and other arts and activities that are main forms of influence, entertainment and escape. Expressions of American attitudes and ideas as important influences upon evolving culture and consciousness.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

AMS 180. Individual Studies
Supervised study of a particular aspect of American culture not covered in a regular course offering.
Prerequisite: Instructor consent.
Repeatable for credit
Credit / No Credit
1-4 units

AMS 190. Senior Seminar in Humanities
See HUM 190.
Normal Grade Rules
3 units

RETURN TO LAST PAGE
DESCRIPTION CONTENTS
### Anthropology Department Courses

**ANTHROPOLOGY**

#### LOWER DIVISION

**ANTH 011. Cultural Anthropology**
- Basic concepts, theories and methods used in the comparative study of socio-cultural systems. Includes cultural ecology and change; political, economic and kinship systems; language, art and religion; cultural perspectives on contemporary issues. GE Area: D1
- Prerequisite: ANTH 11 or instructor consent.
- Normal Grade Rules
- GE: D1
- 3 units

**ANTH 012. Introduction to Human Evolution**
- The human organism from an evolutionary perspective. The foundations of life and evolutionary theory. Introduction to primate behavior and the fossil record. Human biocultural evolution over the last sixty million years. GE Area: B2
- Prerequisite: ANTH 11 or instructor consent.
- Normal Grade Rules
- GE: B2
- 3 units

**ANTH 013. Archaeology**
- How archaeologists invent their own version of the past, illustrated with compelling Old and New World discoveries from early prehistory to the present. How archaeological sites are discovered, excavated and analyzed; how facts are tested and fictions unmasked. GE Area: E
- Prerequisite: ANTH 11 or instructor consent.
- Normal Grade Rules
- GE: EE
- 3 units

**ANTH 025. Human Lifecourse in Context**
- Prerequisite: ANTH 11 or instructor consent.
- Normal Grade Rules
- GE: EE
- 3 units

#### UPPER DIVISION

**ANTH 100W. Writing Workshop**
- Practice in improvement of writing skills appropriate to the fields of anthropology and behavioral science. Includes essays, reports and scholarly communication. GE Area: Z
- Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
- Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).
- Normal Grade Rules
- GE: Z
- 3 units

**ANTH 105. Applied Anthropology**
- Prerequisite: ANTH 11 or instructor consent.
- Normal Grade Rules
- 3 units

**ANTH 107. Eating Culture: The Anthropology of Food**
- This course will explore the many ways in which humans seek, collect, grow, transform and consume foods. We will examine elements of human evolutionary history that mold our current consumption choices. Changes in subsistence strategies, human migration, and colonial expansions remade our landscapes, kitchens, cuisines and our bodies. We will identify and analyze the material processes of food production, preparation and consumption; the cognitive models that define our food choices and the ways in which power and inequality drive global feast and famine. The course will draw on archaeological, biological and cultural anthropologies, as well as examining the potential applications by anthropologists of food.
- Prerequisite: ANTH 11, Upper Division Standing.
- Normal Grade Rules
- 3 units

**ANTH 108. Medical Anthropology**
- A comprehensive examination of culture, sickness and healing in a cross-cultural perspective, emphasizing ecological/evolutionary bases of disease and healing and cultural dimensions of health in modern world.
- Prerequisite: ANTH 11 or instructor consent.
- Normal Grade Rules
- 3 units

**ANTH 114. Legacy of Asia**
- See HUM 114.
- Normal Grade Rules
- GE: V
- 3 units

**ANTH 115. The Emerging Global Culture**
- Introduction to systems concepts and approach as a way to investigate the global impacts of industrial technology on political, economic, social and moral/psychological structures of humankind. GE Area: V
- Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses.
- Completion of, or co-registration in, 100W is strongly recommended.
- Notes: Recommended for behavioral science majors.
- Normal Grade Rules
- GE: V
- 3 units

**ANTH 122. Magic, Science and Religion**
- See RELS 122.
- Normal Grade Rules
- GE: V
- 3 units

**ANTH 125. Urban Anthropology**
- Anthropological theories and methods in analyzing the global effects of urban growth. Relevance of anthropological approach in understanding our local multietnic metropolitan area.
- Prerequisite: ANTH 11 or instructor consent.
- Normal Grade Rules
- 3 units

**ANTH 129. Environmental Anthropology**
- Anthropological examination of humans’ relationship to their biological environment. Course topics include population growth, resource consumption, human induced climate change, biodiversity, solid and hazardous waste, economic and cultural patterns affecting the environment, environmental risk, water resources, hazards, disasters, sustainable initiatives.
- Prerequisite: ANTH 11
- Normal Grade Rules
- 3 units

**ANTH 130. Kin, Kith, and Community: The Anthropology of Social Organization**
- Overview of social organization focused on local forms of human relationships: kinship, non-kin relations such as friendship and networking, and community. Explores the principles of kinship and community-building. Examples will be drawn from small-scale, complex and international societies.
- Prerequisite: Upper division standing.
- Normal Grade Rules
- 3 units

**ANTH 131. Theories of Culture**
- Seminar on evolutionary, functional and structural theories of culture. Analysis of contemporary theory and development of the discipline of anthropology.
- Prerequisite: Upper division standing; ANTH 011; ANTH 012 or ANTH 013 or declared Anthropology major or instructor consent.
- Normal Grade Rules
- 3 units

**ANTH 132. Creating Built Worlds**
- Cross-cultural exploration of material expressions of culture. Analysis of production and consumption of places, shelters, and goods: Implications for design and policy.
- Prerequisite: Upper division standing.
- Normal Grade Rules
- 3 units
ANTH 134. Systemic Leadership
Examination of systemic leadership thought and practice, especially its application to helping resolve complex problematic issues more effectively and responsibly. Focus is on leading collaborative change efforts with diverse sets of stakeholders in group, organizational, community, cultural, and global settings.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

ANTH 136. Thought Control in Contemporary Society
Anthropological analysis of sociocultural controls influencing and regulating human thought and behavior in the contemporary period. Topics include propaganda, censorship, undue influence, coercive persuasion and “brainwashing,” groupthink, messianic cults, totalitarianism, technologies of control, ritualized rebellion, resistance movements, and democratic alternatives.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

ANTH 137. California History for Teachers
See SOCS 137.
Normal Grade Rules
3 units

ANTH 138. US History for Teachers
See SOCS 138.
Normal Grade Rules
3 units

ANTH 139. World History for Teachers
See SOCS 139.
Normal Grade Rules
3 units

ANTH 140. Human Sexuality
Biological and sociocultural facets of human sexuality. Evolution and physiology of sex, reproductive biology/ethics and cross-cultural expression of sexual behavior.
GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LDDL 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
3 units

ANTH 142. Culture in Mind
Prerequisite: ANTH 11, ANTH 25 or instructor consent.
Normal Grade Rules
3 units

ANTH 143. Culture and Adaptation
Explores the relationship between adaptive human behavior and the environment. Theories of interaction between biology, environment and culture are illustrated by examples of mobile foraging peoples, village sedentary farmers, complex chiefdoms and state-level societies.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

ANTH 144. Economic Anthropology
Cross-cultural analysis of economic systems. Topics include reciprocity, redistribution, and market exchange; the history of money and virtual currencies; the cultural construction of debt and credit; corporate capitalism and cyclical crises; global economic integration; and contemporary “alternative” economic systems.
Prerequisite: ANTH 11 or instructor consent
Normal Grade Rules
3 units

ANTH 145. Middle Eastern Traditions
See RELS 145.
Normal Grade Rules
GE: V
3 units

ANTH 146. Culture and Conflict
Problems of change, especially in multiethnic societies of both established and emerging nations. Technological development, modernization, social changes and value conflicts. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LDDL 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units

ANTH 147. Religion and Anthropology
Comparative anthropological study of religious systems and world views; Anthropological theories concerning origin and evolution of religion; structure and function of ritual and myth, types of religious specialists.
Prerequisite: ANTH 11, ANTH 25 or instructor consent.
Normal Grade Rules
3 units

ANTH 148. Religion and Anthropology
Comparative anthropological study of religious systems and world views; Anthropological theories concerning origin and evolution of religion; structure and function of ritual and myth, types of religious specialists.
Prerequisite: ANTH 11, ANTH 25 or instructor consent.
Normal Grade Rules
3 units

ANTH 149. Ethnographic Methods
Qualitative methods: research design, participant observation, collection of life histories, ethical responsibilities, interviewing, analysis and ethnographic writing.
Prerequisite: ANTH 11 or instructor consent.
Normal Grade Rules
3 units

ANTH 151. Modernity and Disease
Modernity and Disease explores the effects of the modern world on human biology, with specific emphasis on adaptations to the last several decades of environmental changes. Topics include reproduction, diet, and infectious, geriatric and environmental diseases.
Prerequisite: ANTH 12 or instructor consent.
Normal Grade Rules
3 units

ANTH 152. Becoming Human
This course reviews the fossil evidence for human evolution. It emphasizes areas of scientific controversy in paleoanthropology by assessing recent fossil discoveries and molecular data. Lectures are supplemented with lab demonstration of modern skeletal materials and reproductions of fossil hominids.
Prerequisite: ANTH 12 or instructor consent.
Normal Grade Rules
3 units

ANTH 154. Monkeys, Apes and Humans
Behavior, ecology and evolution of our closest animal relatives, the nonhuman primates. Interpretive emphasis toward broader understanding of human evolution and behavior.
Prerequisite: Any lower division anthropology or psychology course or instructor consent.
Normal Grade Rules
3 units

ANTH 155. Human Osteology
The human skeletal system as an anatomical structure and biomechanical system. Lab experience in identification of osteological material and recognition of diseases associated with bone.
Prerequisite: ANTH 12 or instructor consent.
MISC/LAB: Lecture 3 hrs/lab 2 hrs.
Normal Grade Rules
3 units

ANTH 156. Bioarchaeology
Study of human skeletal remains from archaeological setting to aid in reconstructing the biological and cultural past. Current theoretical and methodological issues in bioarchaeology. Emphasis on potential of skeletal analysis for uncovering disease and trauma, subsistence patterns, biological relatedness, physical activity and diverse reactions to stressors.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

ANTH 157. Forensic Anthropology
An overview of forensic anthropological methods and applications emphasizing the recovery and interpretation of human remains within the context of multidisciplinary scientific death investigation. Topics include the history of the discipline and a concentrated hands-on overview of basic human osteological identification.
Prerequisite: ANTH 12, BIOL 10, BIOL 21, or BIOL 65.
Normal Grade Rules
3 units
ANTH 159. Mummies
Explore mummies from around the world. Examine the archaeological and biological evidence of how and why mummification was practiced in these cultures, plus what the examination of mummies can tell us about past peoples cultures, diseases, and lifestyles. Prerequisite: Upper division standing or instructor consent. Normal Grade Rules 3 units

ANTH 160. Reconstructing Lost Civilizations
Explores scientific archaeology and the reconstruction of civilizations. Topics include framing hypotheses, site selection, excavation, analysis of artifacts and ecofacts, and reconstructing social systems. GE Area: R Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted). Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. Normal Grade Rules GE R 3 units

ANTH 161. Old World Civilizations
Prehistoric cultural development in Europe, Asia, and Africa from the Paleolithic to the development of civilizations. Discussions of early states include social organization, economic systems, art, architecture and intellectual achievements. Prerequisite: Upper division standing. Normal Grade Rules 3 units

ANTH 162. Inca, Aztec and Maya Civilization
Ancient high civilizations of Mexico, Central America and Andean South America, their predecessors and contemporaries. Explores sociocultural systems with emphasis on art, architecture and intellectual achievements. Prerequisite: Upper division standing. Normal Grade Rules 3 units

ANTH 163. Historical Archaeology
Course centers on the archaeology of the recent past. Students explore how to employ archaeological material analysis and archival research to develop a fuller understanding of the development of the modern industrialized world. Prerequisite: Upper division standing. Normal Grade Rules 3 units

ANTH 164. North America before 1492
Archaeology and history of North American peoples before 1492. Precolumbian culture areas and relationships between them; development of state societies; relationships with and resistance to European colonizers. Prerequisite: Upper division standing or instructor approval. Normal Grade Rules 3 units

ANTH 165. Historical Archaeology
Course centers on the archaeology of the recent past. Students explore how to employ archaeological material analysis and archival research to develop a fuller understanding of the development of the modern industrialized world. Prerequisite: Upper division standing. Normal Grade Rules 3 units

ANTH 168. Archaeological Methodology
Central methods of archaeological practice. Methods of archaeological inquiry, research design, and the cultural resource management presented through case studies in historic and prehistoric archaeology. Prerequisite: ANTH 13. Normal Grade Rules 3 units

ANTH 169. Archaeological Site Excavation
Artifact recovery and analysis during archaeological field project. All phases of professional archaeological practice leading to publication of findings. Sites may be local or distant. Prerequisite: ANTH 13 or instructor consent. Misc/Activity: 6 hours activity Repeatable for credit Normal Grade Rules 3 units

ANTH 170. Archaeological Site Preservation
Methods of archaeological preservation including planning, resource management in the field, and post-archaeological care and presentation of archaeological resources and specimens. Prerequisites: Upper division standing. Normal Grade Rules 3 units

ANTH 171. Archaeological Science
Field and laboratory methods, the use and interpretation of scientific data in archaeological research. Prerequisite: Upper division standing. Normal Grade Rules 3 units

ANTH 173. Multimedia Anthropology
Planning, production, and presentation of ethnographic materials using various media. Theoretical and applied aspects of multimedia anthropology. Use of multiple media in data collection, analysis, evaluation, and representation of culture including photographs, documentary video, websites, social networking platforms, and infographics. Prerequisite: ANTH 11 or instructor consent. Normal Grade Rules 3 units

ANTH 174. Anthropology of Asia
Sociocultural themes of selected Asia cultures. Covers cultural pluralism, intercultural contact, social organization, worldview and economic adaptations. Explores connections within the Pacific Rim, especially to the local region. Course is repeatable once for credit when different cultures are emphasized. Prerequisite: Upper division standing. Repeatable for credit Normal Grade Rules 3 units

ANTH 175. Anthropology of Native America
Survey of indigenous peoples of the Pacific Rim from ethnohistorical times to the present. Cultural adaptation, social organization, world view, intercultural contact and cultural portrayal. Emphasis on Western Native North America with examples drawn from other Asian, Pacific and American indigenous cultures. Prerequisite: Any lower division anthropology course or instructor consent. Normal Grade Rules 3 units

ANTH 176. Indians of California
Native Californian cultures as they functioned before white contact, emphasizing ecological, sociopolitical and religious interrelationships and historic culture change. Ethnographic, archaeological and documentary sources. Prerequisite: ANTH 11 or instructor consent. Normal Grade Rules 3 units

ANTH 177. Anthropology of Asia
Sociocultural themes of selected Asia cultures. Covers cultural pluralism, intercultural contact, social organization, worldview and economic adaptations. Explores connections within the Pacific Rim, especially to the local region. Course is repeatable once for credit when different cultures are emphasized. Prerequisite: Upper division standing. Repeatable for credit Normal Grade Rules 3 units

ANTH 178. Directed Reading
Directed reading in cultural anthropology, physical anthropology or archaeology to gain a broader understanding of a particular topic, culture or theoretical issue. Prerequisite: Upper division standing and instructor consent. Repeatable for credit Credit / No Credit 1-4 units

ANTH 179. Special Topics
Contemporary issues in anthropological theory including cultural anthropology, archaeology and physical anthropology. Course is repeatable once for credit on different issue. Prerequisite: Upper division standing. Repeatable for credit Normal Grade Rules 3 units

ANTH 180. Individual Studies
Prerequisite: Instructor consent. Repeatable for credit Credit / No Credit 1-4 units

ANTH 184. Directed Reading
Directed reading in cultural anthropology, physical anthropology or archaeology to gain a broader understanding of a particular topic, culture or theoretical issue. Prerequisite: Upper division standing and instructor consent. Repeatable for credit Credit / No Credit 1-4 units

ANTH 190. Designing Research
Describes research conception, development and implementation for academic research and applied careers alike. Emphasizes writing grant proposals, academic theses, and professional contracts. Topics include research question identification, methodological and technical approaches, broader significance and impact of research, and ethical considerations. Prerequisites: Declared major in Anthropology or Behavioral Sciences; Completion of Area Z (100W); Two of the following courses: ANTH 011, ANTH 012, ANTH 013 or Instructor consent. Normal Grade Rules 3 units

</tbody>
</table>
ORGS 102. Organizations, Inquiry & Analysis

Development of skills to analyze and design organizations. Topics include analysis of environments and resources; use of technology; communication and decision-making; workflow and division of labor; and symbols. Research skills for understanding organizational values, patterns, processes and environments.

Prerequisite: Upper Division Standing

Misc/Lab: Lecture 4 hours/Activity 2 hours

Normal Grade Rules

4 units

ORGS 103. Organizational Studies Capstone

Capstone course required of all ORGS majors. Emphasizes team projects working with community or institutional partners to address issues through organizational design or change.

Prerequisite: ORGS 101, ORGS 102; or instructor permission

Misc/Lab: Lecture 4 hours/Activity 2 hours

Normal Grade Rules

4 units

---

**Note**: ART 12 is treated as a repeat for students who have taken ANI 12.
**Note**: ART 14 is treated as a repeat for students who have taken ANI 14.
**Note**: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
ART 102. 3D Modeling and Printing
Introduces experimental 3D methods with a focus on conceptual and creative processes using Maya software and 3D printing technology while addressing contemporary uses for artistic production. Prerequisite: ART 75 or instructor consent.
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ART 103. Art as System
Exploration of art as the experience of an information system. Methods and techniques for simulation, networks and information mapping. Prerequisite: ART 75 and ART 101
Misc/Lab: Activity 6 hours.
Normal Grade Rules
3 units

ART 104. Interdisciplinary Seminar in Digital Media Art
Investigation of theoretical topics in digital media art and analysis of contemporary technology research issues. Prerequisite: Upper division standing or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

ART 105. Advanced Digital Video
Advanced exploration of digital video within the context of conceptual art practice. Focus on issues and applications of digital technology and critical thinking in art with specific focus on video, the Internet and alternative media applications. Prerequisite: ART 75 or permission of instructor.
Misc/Lab: Lab 9 hours.
Repeatable for credit
Normal Grade Rules
3 units

ART 106. Topics in Human Machine Interface
Concept design and exploration of methods involving computer controlled sensors and activators used in electronic sculpture, installation, environments or performance. Course is repeatable up to 9 units, when course topic changes. Prerequisite: ART 75 and ART 101 or permission of instructor.
Misc/Lab: Lab 9 hours.
Repeatable for credit
Normal Grade Rules
3 units

ART 107. Advanced Projects in Digital Media Art
Advanced issues and applications of digital technology in art. Application of interactive technology in installation and performance. Emphasis on collaborative projects. Course is repeatable up to 6 units. Prerequisite: ART 75 or permission of instructor.
Misc/Lab: Activity 6 hours.
Repeatable for credit
Normal Grade Rules
3 units

ART 108. Introduction to Game Studies
Introduction to the systems, design, history, and cultural analysis of games with emphasis on critical studies, development, technological literacy, markets and impact on society. Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

ART 110. History and Theory of New Media
See ARTH 110.
Normal Grade Rules
3 units

ART 124. Drawing 3
Form and expression in Drawing. Emphasis may vary with instructor. Prerequisite: ART 024, ART 026
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ART 132. Topics in Intermediate Ceramics
Investigation of ceramic form and surface design with emphasis on the vessel. Development of skills on the potter’s wheel and in glazing, kiln loading and firing. Included are raku, salt, earthenware, stoneware and porcelain. Repeatable for up to 9 units of credit when course topic changes. Prerequisite: ART 46 or instructor consent
Misc/Activity: 6 hours activity
Repeatable for credit
Normal Grade Rules
3 units

ART 133. Topics in Ceramic Sculpture
Focus on handbuilding and nontraditional techniques in clay and related media. Includes gallery and studio visits. Repeatable for credit when topic changes, up to 3 times. Prerequisite: ART 13, ART 46 or instructor consent.
Misc/Activity: 6 hours activity
Repeatable for credit
Normal Grade Rules
3 units

ART 134. Topics in Advanced Ceramics
Focus on personal stylistic development, individual critiques and portfolio preparation. Includes gallery and studio visits. Repeatable for credit when topic changes, up to 3 times. Prerequisite: ART 132 or ART 133.
Misc/Activity: 6 hours activity
Repeatable for credit
Normal Grade Rules
3 units

ART 135. Topics in Moldmaking for Artists
Introduction to moldmaking for upper division/graduate students. Course will include techniques for rubber molds for wax or plastic, molds for pressed clay, slip casting and waste molds. Course is repeatable for a total of 6 units. Prerequisite: ART 13 or instructor consent. Notes: Offered only occasionally.
Misc/Activity: 6 hours activity
Repeatable for credit
Normal Grade Rules
3 units

ART 138. Elementary Art Methods
Equips prospective pre-K through high school educators with the basic knowledge, skills, and strategies to effectively organize and provide sequential art education. Emphasis on art teaching methods, art curriculum development, and art experiences. Prerequisite: Upper division standing.
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ART 139. Teaching Diversity through Art
Strategies for teaching ideas of diversity through art in the preschool through high school classroom. Students deepen their understanding of culture and context and of why the arts matter. Prerequisite: upper-division standing or instructor consent.
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units
ART 140. Topics in Glass
Introduction to glass working techniques, chemistry, history and concept. Basic glass blowing, sand casting, slumping, fusing, cold working, stained glass and gluing techniques. Taught through a series of hands-on projects. Repeatable for up to 9 units when topic changes.
Prerequisite: ART 140, ART 13 or instructor consent.
MISC/ACTIVITY: 6 hours activity
Repeatable for credit
Normal Grade Rules
3 units

ART 141. Topics in Advanced Glass
Technical and aesthetic aspects of glass for sculpture and design. Advanced blowing, kiln casting, mold making, lamp working, lathe techniques and surface treatments. Repeatable for up to 9 units of credit when topic changes.
Prerequisite: ART 140, ART 13 or instructor consent.
MISC/LAB: Activity 6 hours
Repeatable for credit
Normal Grade Rules
3 units

ART 147. Topics in Metalsmithing and Jewelry
Technical and aesthetic aspects of metalsmithing and jewelry design. Fabricating, surfacing, soldering, raising, forming and forging. Repeatable for 12 units of credit when topic changes.
Prerequisite: ART 47.
MISC/ACTIVITY: 6 hours activity
Repeatable for credit
Normal Grade Rules
3 units

ART 149. Topics in Jewelry and Small Sculpture
Technical and aesthetic aspects of metalcasting for small-scale sculpture and jewelry. Pattern materials, gating techniques, burnout procedure, vacuum casting, centrifugal casting and finishing. Repeatable for 12 units of credit when topic changes.
Prerequisite: Upper division standing or permission of instructor.
MISC/ACTIVITY: 6 hours activity
Repeatable for credit
Normal Grade Rules
3 units

ART 150. Introduction to Printmaking and Letterpress
Introduction to relief printing, letterpress and related processes. Studio practice.
Prerequisites: Art 12 and Art 24
MISC/ACTIVITY: 6 hours activity
Normal Grade Rules
3 units

ART 151. Topics in Screen-Printing
Screen printing and related photographic processes. Studio practice. Repeatable for credit when topic changes.
MISC/ACTIVITY: 6 hours activity
Repeatable for credit
Normal Grade Rules
3 units

ART 152. Topics in Lithography
Studio practice. A comprehensive study of the practice of stone and metal plate lithography. Course is repeatable for a total of 9 units when topic changes.
Prerequisite: ART 61 (or equivalent).
MISC/ACTIVITY: 6 hours activity
Repeatable for credit
Normal Grade Rules
3 units

ART 153. Topics in Intaglio Processes
Studio practice towards an understanding of the methods, techniques and procedures necessary to make intaglio prints. Course is repeatable for a total of 9 units when course topic changes.
Prerequisite: ART 61 (or equivalent).
MISC/ACTIVITY: 6 hours activity
Repeatable for credit
Normal Grade Rules
3 units

ART 155. Topics in Monotype
Studio practice. An investigation of the methods, techniques and procedures necessary to make intaglio prints. Course is repeatable for a total of 9 units.
Prerequisite: Upper division standing or permission of instructor.
MISC/ACTIVITY: 6 hours activity
Repeatable for credit
Normal Grade Rules
3 units

ART 156. Topics in Intaglio Processes
Studio practice. An investigation of the methods, techniques and syntax of the monotype and monoprint. Course is repeatable for a total of 9 units when course topic changes.
Prerequisite: ART 61 (or equivalent).
MISC/ACTIVITY: 6 hours activity
Repeatable for credit
Normal Grade Rules
3 units

ART 158. Topics in Drawing III
Form and expression in drawing. Selected media. Course Repeatable for up to 9 units of credit when topic changes.
Prerequisite: Art 025 or Art 026
MISC/ACTIVITY: 6 hours activity
Repeatable for credit
Normal Grade Rules
3 units

ART 159. Advanced Life Drawing
Course is repeatable for a total of 9 units.
Prerequisite: 3 units of ART 55 and 3 additional units of ART 55 or ART 112B.
MISC/ACTIVITY: 6 hours activity
Repeatable for credit
Normal Grade Rules
3 units

ART 162. Watercolor
Painting with various water base media.
Prerequisite: ART 12 and ART 24.
MISC/ACTIVITY: 6 hours activity
Normal Grade Rules
3 units

ART 164A. Intermediate Painting
Emphasis may vary with instructor. Course is repeatable for a total of 6 units.
Prerequisite: ART 61 (or equivalent).
MISC/ACTIVITY: 6 hours activity
Normal Grade Rules
3 units

ART 164B. Intermediate Painting II
Intermediate Painting II expands and builds on the concepts and skills introduced in ART 164A-Intermediate Painting I; with the goal of developing more complex content and process in preparation for Advanced Painting.
Prerequisites: ART 61 and ART 164A or instructor consent.
MISC/ACTIVITY: 6 hours activity
Normal Grade Rules
3 units

ART 165. Topics in Figure Painting
Figure and portrait painting from the model. Repeatable for up to 9 units of credit when course topic changes.
Prerequisite: ART 26 and ART 61.
MISC/ACTIVITY: 6 hours activity
Repeatable for credit
Normal Grade Rules
3 units

ART 166. Topics in Advanced Painting
Emphasis may vary with instructor. Repeatable for 9 units of credit when topic changes.
Prerequisite: ART 61 ART 164A, ART 164B and ART 165 or equivalent, or instructor consent.
MISC/ACTIVITY: 9 hours lab
Repeatable for credit
Normal Grade Rules
3 units

ART 168. Topics in Woodworking
Introduction to the physical structure of wood and to the design and construction of furniture and sculptural objects in wood. Also, an introduction to the historical use of wood joinery in man-made objects. Course is repeatable for 6 units of credit.
Prerequisite: ART 13 or instructor consent
MISC/ACTIVITY: 9 hours lab
Repeatable for credit
Normal Grade Rules
3 units
# Academic Year 2018-2019

## Course Descriptions

**ART 169. Topics in Metal Sculpture**  
Conception and creation of three-dimensional aesthetic form using metal techniques including casting, welding, fabrication and other forming processes. Repeatable for up to 9 units when topic changes.  
**Prerequisite:** ART 13.  
**Misc/Activity:** 6 hours activity  
**Repeatability:** For credit  
**Normal Grade Rules:** 3 units

**ART 170. Topics in Fabricated Sculpture**  
Fabricated Sculpture includes welding training, a concise history of fabricated metal sculpture since 1945, and studio time wherein the student practices skills and executes three steel sculptures. Repeatable for up to 9 units of credit when course topic changes.  
**Prerequisite:** ART 13.  
**Misc/Lab:** Lab 6 hours.  
**Repeatability:** For credit  
**Normal Grade Rules:** 3 units

**ART 171. Advanced Sculpture**  
Self expression and advanced techniques in sculpture. Emphasis will be placed on individual development, current directions and goals.  
**Prerequisite:** 6 units of sculpture.  
**Misc/Activity:** 6 hours activity  
**Repeatability:** For credit  
**Normal Grade Rules:** 3 units

**ART 172. Intermediate Sculpture: System/Structure**  
This is an intermediate-level sculpture class with a focus on contemporary materials and processes. Students will make sculptural responses to timely issues raised in course readings and lectures.  
**Prerequisite:** ART 68 or instructor consent.  
**Misc/Activity:** 6 hours activity  
**Repeatability:** For credit  
**Normal Grade Rules:** 3 units

**ART 173. Topics in Installation Art**  
Exploration of cross-disciplinary artmaking, with an emphasis on conceptual development and critical dialogue. Students make installation art and site-specific artworks using a variety of techniques and processes, including time-based media. Course can be repeated for up to 6 units when course topic changes.  
**Prerequisite:** ART 13 or instructor consent.  
**Misc/Activity:** 6 hours activity  
**Repeatability:** For credit  
**Normal Grade Rules:** 3 units

**ART 174A. Museum and Gallery Operations**  
Theoretical and technical problems of gallery and museum work including administration, security and curatorship.  
**Prerequisite:** Upper division standing.  
**Normal Grade Rules:** 3 units

**ART 174B. Internship: Museum and Gallery Operations**  
Supervised internship in museum or gallery. Experience including installation, curating and administration. Course is repeatable for a total of 6 units.  
**Prerequisite:** ART 174A.  
**Repeatability:** For credit  
**Credit / No Credit:** 3 units

**ART 175. Special Topics in Studio Art**  
Varying concepts, media or techniques. Emphasizing individual expression, professional ability and recent movements and directions in art.  
**Prerequisite:** Upper division standing in art.  
**Misc/Activity:** 6 hours activity  
**Repeatability:** For credit  
**Normal Grade Rules:** 3 units

**ART 176. Workshops in Studio Art**  
Workshop introduction to specific studio art skills or techniques taught through a series of hands-on projects. Repeatable for up to 6 units when topic changes.  
**Prerequisite:** Upper division standing or instructor consent.  
**Misc/Activity:** 6 hours activity  
**Repeatability:** For credit  
**Normal Grade Rules:** 3 units

**ART 177. Professional & Business Practices**  
An introduction to the ways and means necessary to build a career in the arts while successfully negotiating its challenges, this course will provide information on portfolio development and professional and business practices essential for the practicing artist.  
**Prerequisite:** Upper division or graduate standing.  
**Misc/Activity:** 6 hours activity  
**Repeatability:** For credit  
**Normal Grade Rules:** 1 unit

**ART 177. Professional & Business Practices**  
An introduction to the ways and means necessary to build a career in the arts while successfully negotiating its challenges, this course will provide information on portfolio development and professional and business practices essential for the practicing artist.  
**Prerequisite:** Upper division or graduate standing.  
**Misc/Activity:** 6 hours activity  
**Repeatability:** For credit  
**Normal Grade Rules:** 3 units

**ART 178. Art Field Work**  
Professional practice in a selected field.  
**Prerequisite:** Application for assignment made preceding semester. Supervisor and department approval.  
**Repeatability:** For credit  
**Credit / No Credit:** 1-3 units

**ART 179. Special Problems in Art**  
Individual study on a tutorial basis.  
**Prerequisite:** Qualified seniors or graduates.  
**Repeatability:** For credit  
**Credit / No Credit:** 3 units

**ART 180. Individual Studies**  
Special topics or projects by arrangement with instructor. Course is repeatable up to 4 units of credit toward graduation.  
**Prerequisite:** Majors or minors with Department of Art & Art History consent.  
**Repeatability:** For credit  
**Credit / No Credit:** 1-3 units

**ART 197. BA Senior Project**  
Creation of a studio art or design capstone project consisting of new work in media selected by student to be documented and presented to studio or design faculty.  
**Prerequisite:** 15 units of upper division work in the major.  
**Credit / No Credit:** 3 units

**ART 198. BFA Seminar**  
Preparation for BFA project and postgraduate career planning, this course includes field trips, class discussions and studio visits with art professionals.  
**Prerequisite:** Prior acceptance in the B.F.A. program.  
**Normal Grade Rules:** 3 units

**ART 199. BFA Project**  
A project demonstrating professional competence in area of concentration. A gallery exhibition with the approval of the student’s advisory committee is required.  
**Prerequisite:** 30 units of upper division art, admission to the BFA program and ART 198, or ART 178 with advisor’s approval.  
**Credit / No Credit:** 3 units

**ART 200W. Professional Writing in Contemporary Art**  
Graduate seminar focusing on issues and practices of writing about contemporary art, including artist statements, exhibition catalogs and art criticism.  
**Prerequisites:** Graduate Standing in Department of Art & Art History.  
**Normal Grade Rules:**  
**General Education:** GE: GWAR

---

**ART 197. BA Senior Project**  
Creation of a studio art or design capstone project consisting of new work in media selected by student to be documented and presented to studio or design faculty.  
**Prerequisite:** 15 units of upper division work in the major.  
**Credit / No Credit:** 3 units

**ART 198. BFA Seminar**  
Preparation for BFA project and postgraduate career planning, this course includes field trips, class discussions and studio visits with art professionals.  
**Prerequisite:** Prior acceptance in the B.F.A. program.  
**Normal Grade Rules:** 3 units

**ART 199. BFA Project**  
A project demonstrating professional competence in area of concentration. A gallery exhibition with the approval of the student’s advisory committee is required.  
**Prerequisite:** 30 units of upper division art, admission to the BFA program and ART 198, or ART 178 with advisor’s approval.  
**Credit / No Credit:** 3 units

---

**GRADUATE**

**ART 200W. Professional Writing in Contemporary Art**  
Graduate seminar focusing on issues and practices of writing about contemporary art, including artist statements, exhibition catalogs and art criticism.  
**Prerequisites:** Graduate Standing in Department of Art & Art History.  
**Note:** This course satisfies graduate-level GWAR in this master’s program.  
**Normal Grade Rules:**  
**General Education:** GE: GWAR

Misc/Activity: 9 hours lab
Repeatable for credit
Normal Grade Rules
3 units

ART 210. Seminar in Digital Media Art
Theoretical discourse involving art and information culture. Review and analysis of contemporary theory and critical literature. Emphasis on collaborative activities and art practice.
Prerequisite: Classified status in art or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

ART 217. Tutorials in Pictorial Art
Individual projects in painting, drawing and printmaking supervised by an instructor.
Prerequisite: Classified or conditionally classified status in art and instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

ART 219. Tutorials in Spatial Art
Individual projects in sculpture, installation, performance and other 3-D media supervised by an instructor.
Prerequisite: Classified or conditionally classified status in art and instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

ART 220. Tutorials in Digital Media Art
Individual problems in selected area of research or practice.
Prerequisite: Classified status in art and instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

ART 222. Tutorials in Photography
Individual projects employing photographic media supervised by an instructor.
Prerequisite: Classified or conditionally classified status in art and instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

ART 260. Special Tutorials in Art
Individual problems in a selected art area supervised by an instructor.
Prerequisite: Classified or conditionally classified status in art and instructor consent.
Repeatable for credit
Credit / No Credit
3 units

ART 276. Artists Teaching Art
Seminar will examine theoretical and practical issues of art education which relate to traditional institutions of higher learning as well as to other teaching opportunities in the community.
Prerequisite: Classified graduate status or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

ART 282A. Seminar in the Theory and Criticism of Contemporary Art
A historical approach to the thought of major critics and theoreticians of contemporary art.
Prerequisite: ARTH 191A and admission to classified MFA program. Repeatable for up to 9 units when topic changes.
Prerequisite: Admission to the MFA in Art program. Repeatable for credit
Normal Grade Rules
3 units

ART 282B. Seminar in Contemporary Art
An examination of a particular theme in contemporary art theory. Repeatable for credit.
Prerequisite: ARTH 191A and admission to classified MFA status in art or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
C.E. GWAR
3 units

ART 297A. Master’s Special Study
Advanced individual research in an area closely related to the master’s thesis, research or project. Course may be repeated for a total of 6 units.
Prerequisite: Acceptance of qualifications for candidacy by Art Graduate Committee and permission of Thesis, Research or Project Committee chair.
Repeatable for credit
Credit / No Credit
3 units

ART 297B. Master’s Project
Advanced projects in Creative Expression.
Prerequisite: Admission to candidacy for the master’s degree in art.
Repeatable for credit
Credit / No Credit
3 units

ART 298A. MFA Special Study
Advanced individual research in an area closely related to the MFA in Art project.
Prerequisite: Admission to candidacy for the MFA in Art degree.
Repeatable for credit
Mandatory CR/NC/RP
3 units

ART 298B. MFA Project
A creative project of professional caliber.
Prerequisite: Admission to candidacy for the MFA in Art degree.
Repeatable for credit
Mandatory CR/NC/RP
3 units

ART 299. Master’s Thesis or Project
Advanced problems in research. Course may be repeated for a total of 6 units.
Prerequisite: Admission to candidacy for the master’s degree in art.
Repeatable for credit
Mandatory CR/NC/RP
3 units

NO DEGREE CREDIT

ART 1290R. Culminating Experience Supervision
This course satisfies the requirement that all graduate students must remain enrolled during semesters in which they are working solely on their theses or projects, for which they have previously received but not cleared an RP grade.
Prerequisite: Existing RP grade in a graduate-level thesis or project course.
Note: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit
ART EDUCATION

UPPER DIVISION

ARED 150. Field Experience in the Arts
Provides opportunities for those considering teaching, K-12 levels, to interact with outstanding teachers of the arts in the region through structured field experiences in classrooms, reflective writing, community service, and weekly discussion in a seminar setting.
Prerequisite: ART 138 or ART 139, upper division standing, or instructor consent.
Normal Grade Rules
3 units

ARED 184Y. Student Teaching II - Classroom Teaching
Minimum 80-120 class periods of classroom teaching or field teaching in appropriate single subjects, grades K-12 and related teaching activities and seminar.
Prerequisite: Major and Education Department joint approval.
Repeatable for credit
Credit / No Credit
4-6 units

ARED 184Z. Student Teaching III - Classroom Teaching
Notes: May be in different subject/school and will be at a different grade level.
See ARED 184Y.
Repeatable for credit
Credit / No Credit
4-6 units

GRADUATE

ARED 238. Principles of Art Education
This course is designed to equip prospective art educators with the knowledge, skills, and strategies to effectively organize and implement sequential art instruction at the secondary level with an emphasis on Art Teaching Methods and Art Curriculum Development.
Prerequisite: Graduate standing or instructor consent.
Normal Grade Rules
3 units

ARED 365. Field Experience Seminar in Art Education
This companion to the Phase II/III student teaching experience in the Single Subject Credential Program provides a forum for discussing field experiences and prepared candidates for the program's capstone assessment: The performance Assessment for California Teachers (PACT).
Prerequisite: EDCS 184X
Corequisite: ARED 184Z (except for candidates in the Single Subject Internship Program).
Credit / No Credit
1 unit

ART HISTORY AND VISUAL CULTURE

LOWER DIVISION

ARTH 011. Modern Art History
Introductory survey of 20th and 21st century art, its history, and its contexts. Related developments in illustration, design, other forms of art production, and cultural institutions such as museums, galleries, publications also considered.
Pre/Corequisite: ART 12 or ART 13 or PHOT 40 or instructor consent.
Normal Grade Rules
3 units

ARTH 015. Intro to Visual Culture
Key ideas and debates pertaining to visual culture considered through interdisciplinary study of art and media as significant social forces. GE Area: C1
Normal Grade Rules
GE: C1
3 units

ARTH 070A. Art History, Prehistoric to Medieval
Western painting, sculpture and architecture from Prehistoric times through the Middle Ages. Important art works of Egypt, Greece, Rome and Medieval Europe. GE Area: C1
Normal Grade Rules
GE: C1
3 units

ARTH 070B. Art History, Renaissance to Modern
Western painting, sculpture and architecture from the Renaissance to the present. Masters of the Renaissance, Baroque, Rococo, Neo-Classic, Romantic and Modern periods, including Da Vinci, Michelangelo, Durer, Rembrandt, Vermeer, David, Delacroix and Monet. GE Area: C1
Normal Grade Rules
GE: C1
3 units

ARTH 070C. Arts of Asia
Major trends in the art of China, India and Japan, as well as Southeast and Central Asia and Korea, from the Neolithic period to the twentieth century. GE Area: C1
Normal Grade Rules
GE: C1
3 units

ARTH 072. Design in Society
Consider the cultural role of design in addressing human needs in shaping the environment, in providing shelter, clothing, utilitarian objects, and transportation, in visual communication for political and entertainment purposes. GE Area: C1
Normal Grade Rules
GE: C1
3 units

UPPER DIVISION

ARTH 101. Introduction to Practice of Art History
Introduction to practice of art history including visual analysis, research tools, and examination of professional options.
Prerequisite: Art History and Visual Culture major or instructor consent.
Normal Grade Rules
3 units

ARTH 110. History and Theory of New Media
The history of art and technology introducing contemporary critical theory and practice. Course will address digital visualization, simulation, interactive network technologies in the arts and speculate on the artistic implications of advances in engineering and science.
Prerequisite: ARTH 070B or ARTH 072 or instructor consent.
Normal Grade Rules
3 units

ARTH 126. History of Photography
Technical developments and aesthetic trends in photography traced from its invention in the nineteenth century to the present day. Slide presentations, discussions, field trips.
Prerequisite: ARTH 070B or instructor consent.
Normal Grade Rules
3 units

ARTH 127. Photography, Film, and Architecture
This course presents a closely contextualized examination of major photographers, architects and film-makers through their work and their interpretations of modern culture and its spaces. Lectures will cover developments in photography, film and architecture, as well as the changing relationship among these media and other domains visual culture.
Prerequisite: ARTH 070B or Instructor Consent
Normal Grade Rules
3 units

ARTH 160. Modern Architecture
Development of modern architecture from the late 19th century to the present, including Richardson, Sullivan, Wright, Le Corbusier, the Bauhaus, Mies van der Rohe, Meier and Gehry.
Prerequisite: ARTH 070B, ARTH 072 or instructor consent.
Normal Grade Rules
3 units

ARTH 161. Contemporary Architecture
History of contemporary architecture since 1945, covering major trends and issues in a global context; includes Louis Kahn, Frank Gehry and Zaha Hadid.
Prerequisite: ARTH 070B or instructor consent.
Normal Grade Rules
3 units
### Academic Year 2018-2019

#### Course Descriptions

**v1**  
June 1, 2018

---

**ALL DATES, FEES & INFORMATION SUBJECT TO CHANGE WITHOUT NOTICE**

---

**ARTH 162. California Architecture**  
History of architecture in California since 1700, covering major architectural developments in a national and transnational context; includes Bernard Maybeck, Richard Neutra and Morphosis.  
Prerequisite: ARTH 70B or instructor consent.  
Normal Grade Rules  
3 units

**ARTH 163. Twentieth Century Urban Design**  
History of urban design since 1900, covering theories and practices of urban design in the industrialized world; includes Camillo Sitte, Le Corbusier and Frank Lloyd Wright.  
Prerequisite: ARTH 70B or URBP 151 or instructor consent.  
Normal Grade Rules  
3 units

**ARTH 174A. Museum and Gallery Operations**  
See ART 174A.  
Normal Grade Rules  
3 units

**ARTH 174B. Internship: Museum and Gallery Operations**  
See ART 174B.  
Repeatable for credit  
Credit / No Credit  
3 units

**ARTH 175. Theories of Art History and Art Criticism**  
The study of approaches used by professional art historians and critics. The focus will be on 20th-century writers who helped shape the development of contemporary art history and criticism.  
Prerequisite: Upper division standing, 6 units of ARTH 70A, ARTH 70B, and/or ARTH 70C or instructor consent.  
Repeatable for credit  
Normal Grade Rules  
3 units

**ARTH 176A. Graphic Design History and Theory**  
The history of graphic design and typography with an emphasis on the 20th century. Define technological, historical and theoretical concerns and influences on individuals and movements in graphic design.  
Prerequisite: ARTH 072, completion of Area Z, or instructor consent.  
Normal Grade Rules  
3 units

**ARTH 176B. Industrial Design in Society**  
The history of industrial design since 1900. Course covers practice and theories of major industrial designers and design movements in the context of social attitudes toward consumption, production, and aesthetics.  
Prerequisite: ARTH 72 or instructor consent.  
Normal Grade Rules  
3 units

**ARTH 178. Art History Field Work**  
Prerequisite: Application for assignment made preceding semester. Supervisor and department approval.  
Repeatable for credit  
Credit / No Credit  
1-3 units

**ARTH 180. Individual Studies in Art History**  
Special topics or projects by arrangement with instructor. Course is repeatable up to 4 units of credit toward graduation.  
Prerequisite: Majors or minors with Department of Art & Art History consent.  
Repeatable for credit  
Normal Grade Rules  
1-4 units

**ARTH 181. Special Topics in Art History**  
In-depth analysis of a selected art historical topic.  
Prerequisite: ARTH 70A and ARTH 70B or instructor consent.  
Repeatable for credit  
Normal Grade Rules  
3 units

**ARTH 182A. Art of the Americas**  
A survey of architecture, ceramics, metalwork, sculpture, painting and textiles of North, South, and Meso American cultures.  
Prerequisite: ARTH 70A or instructor consent.  
Normal Grade Rules  
3 units

**ARTH 182B. American Art**  
From the Colonial Period to 1940. Social context of America.  
Prerequisite: Upper division standing.  
Normal Grade Rules  
3 units

**ARTH 183A. Art of Egypt and Mesopotamia**  
The Arts of Egypt, Sumer, Akkad, Babylonia, Assyria, Anatolia, Hittites, and Persia (Elamite to Sassanian).  
Prerequisite: ARTH 70A or instructor consent.  
Normal Grade Rules  
3 units

**ARTH 183B. Art of Islam-Early Islam to the Seljuks**  
Focus on the varied Islamic art and architecture from the 7th century to the 13th century, early Islamic period through the Seljuks.  
Prerequisite: Upper division standing or instructor consent.  
Normal Grade Rules  
3 units

**ARTH 183C. Art of Islam 13th-19th Century**  
This course will focus on the varied Islamic art and architecture from the 13th century to the 19th century, from Mongols through the Ottomans.  
Prerequisite: Upper division standing or instructor consent.  
Normal Grade Rules  
3 units

**ARTH 185. Art of the Classical World**  
Focus on the ancient arts of Greece, Roman and Etruria from the 8th century BC through the 4th century AD. Major monuments: Parthenon, Altar of Zeus at Pergamon, Ara Pacis and Forum of Trajan.  
Prerequisite: ARTH 70A or instructor consent.  
Normal Grade Rules  
3 units

**ARTH 186. Medieval Art**  
Introductory survey of art and architecture from from the end of the Western Roman Empire, circa 500 AD to the beginning of the Italian Renaissance, circa 1400 AD. Focuses on the meanings and uses of art and architecture within their specific historical and cultural contexts.  
Normal Grade Rules  
3 units

**ARTH 187A. Art of the Italian Renaissance, Fifteenth Century**  
Early Renaissance art and architecture. Masaccio, Botticelli, Brunelleschi and Donatello.  
Prerequisite: ARTH 70B or instructor consent.  
Normal Grade Rules  
3 units

**ARTH 187B. Art of the Italian Renaissance, Sixteenth Century**  
High Renaissance and Mannerism in Italy. Leonardo, Michelangelo, Raphael and Titian.  
Prerequisite: ARTH 70B or instructor consent.  
Normal Grade Rules  
3 units

**ARTH 187C. The Art of Renaissance Venice**  
A study of Venetian art and its urban ideology, 11th through 18th century, emphasizing the great painters and architects of the Renaissance (Carpaccio, Bellini, Titian, Tintoretto and Veronese, Mauro Codussi, Sansovino and Palladio).  
Prerequisite: ARTH 70B or instructor consent.  
Normal Grade Rules  
3 units
ARTH 188A. Northern Renaissance Fourteenth and Fifteenth Centuries
Survey of art of Netherlands, France and Bohemia from mid-fourteenth through fifteenth century. Principal artists covered include the Limbourg Brothers, Van Eyck, Van der Weyden, Memling and Fouquet. Emphasis on northern painting, manuscripts, tapestry traditions, iconography and social history of northern European art. Prerequisite: ARTH 70B or instructor consent.
Normal Grade Rules
3 units

ARTH 188B. Northern Renaissance, Sixteenth Century
Survey of fifteenth and sixteenth century art of Netherlands, France and Germany. Principal artists covered include Bosch, Durer, Cranewald, Holbein and Bruegel. Emphasis on northern painting, printmaking traditions, iconography, social history of northern European art. Prerequisite: ARTH 70B or instructor consent.
Normal Grade Rules
3 units

ARTH 189A. Baroque Art and Architecture in Italy and France
The art and architecture of Italy and France in the late 16th and 17th centuries. Broad trends and issues, artists such as Bernini, Caravaggio, the Carracci, Borromini, Poussin, Mansart. Prerequisite: ARTH 70B or instructor consent.
Normal Grade Rules
3 units

ARTH 189B. Northern Baroque Art and Architecture
Art and architecture of Spain, the Low Countries, Germany, Austria in the 17th and 18th centuries. Artists such as Velazquez, Rubens, Rembrandt, Vermeer and Goya. Prerequisite: ARTH 70B or instructor consent.
Normal Grade Rules
3 units

ARTH 190A. Art of the Nineteenth Century
Western Europe from Neoclassicism through Post-Impressionism including David, Delacroix, Goya, Manet, Monet, Cassatt, Cezanne, Van Gogh and Gauguin. Prerequisite: ARTH 70B or instructor consent.
Normal Grade Rules
3 units

ARTH 190B. Early Modernist Art
Critical investigation of modern art from the 1880’s (Post Impressionism) to World War I with an emphasis on painting and sculpture with some attention paid to architecture, photography, printmaking and design. Prerequisite: ARTH 70B or instructor consent.
Normal Grade Rules
3 units

ARTH 190C. 20th Century Art: from Dada to Pop
Critical investigation of modernist art from World War I to the 1960s (from Dada to Pop art) with an emphasis on painting and sculpture but some attention paid to architecture, photography, printmaking and design. Prerequisite: ARTH 70B or instructor consent.
Normal Grade Rules
3 units

ARTH 191A. Issues in Contemporary Art
A critical investigation of a theme which bears on the arts from mid-century to the present, looking closely at major artists and trends in order to understand their philosophies, objectives, styles, and contexts. Course is repeatable for a total of 6 units. Prerequisite: ARTH 70B.
Repeatable for credit
Normal Grade Rules
3 units

ARTH 191B. Women in Art
Contributions made to Western culture by women involved in the arts from the Middle Ages to the present and the influence on art of attitudes held about women. Prerequisite: ARTH 70B or instructor consent.
Normal Grade Rules
3 units

ARTH 191C. Contemporary Art in Mexico, the U.S., and Latin America
Contemporary art in Mexico, the U.S., and Latin America. Includes Mexican modernism, social movements of post-revolutionary Mexico (1910-1940), and works influenced by the Chicano Civil Rights Movement (El Movimiento) in the United States (1960s-1990s) up to the present day. Prerequisite: ARTH 70B or completion of Area Z or instructor consent.
Normal Grade Rules
3 units

ARTH 191D. East Meets West in Art
Survey of interior design through historical, political, social, economic, technological, and aesthetic factors that shape the built environment. Design will be analyzed formally and through parallel developments in the arts. Prerequisite: ARTH 072, completion of Area Z, or instructor consent.
Normal Grade Rules
3 units

ARTH 192A. Modern Design
History of design philosophy and practice from the Industrial Revolution to the present including Art Nouveau and Art Deco, the Bauhaus, International Style, Functionalism vs. Formalism, Post-Modern and Deconstructivism. Prerequisite: ARTH 072, completion of Area Z, or instructor consent.
Normal Grade Rules
3 units

ARTH 192B. History of Interior Design
Survey of interior design through historical, political, social, economic, technological, and aesthetic factors that shape the built environment. Design will be analyzed formally and through parallel developments in the arts. Prerequisite: ARTH 072 or ARTH 072, completion of Area Z, or instructor consent.
Normal Grade Rules
3 units

ARTH 192C. History of Interior Design
Survey of interior design through historical, political, social, economic, technological, and aesthetic factors that shape the built environment. Design will be analyzed formally and through parallel developments in the arts. Prerequisite: ARTH 072 or ARTH 072, completion of Area Z, or instructor consent.
Normal Grade Rules
3 units

ARTH 193A. Worlds of Art and Culture
Focuses on the use of art images as primary sources for the study of cultural development in a globalized context and ways in which past cultures and their interactions influence the modern world. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units

ARTH 193B. East Meets West in Art
Comparative study of Eastern and Western art. Emphasis on cross-fertilization. Historical and cultural backgrounds. Includes lectures, discussions and presentations. Research or art project and paper required. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units

ARTH 194A. Art of China
Architecture, sculpture and painting in China from prehistoric times to the Republic. Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

ARTH 195. Art of Japan
Architecture, sculpture and painting in Japan from prehistoric times to Edo era. Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

ARTH 196. German Art, 1800-2000
This course is an upper-division survey of historical figures, movements and developments in German art, architecture, aesthetics and design from the late Enlightenment to the present era. Prerequisite: ARTH 70B or completion of Area Z or instructor consent.
Normal Grade Rules
3 units
**Academic Year 2018-2019**

**Course Descriptions**

**June 1, 2018**

**ALL DATES, FEES & INFORMATION SUBJECT TO CHANGE WITHOUT NOTICE**

---

**ARTH 199. Art History Capstone Seminar**
This seminar explores art history as an academic discipline. Topics include: discovering subfields within art history, constructing art historical arguments, and the methods and practices of art history.
Prerequisites: ARTH 70A or 70C, ARTH 70B, ARTH 100W
Normal Grade Rules
3 units

**ARTH 270. Seminar in Ancient Art**
Directed group research in area of Egyptian, Mesopotamian, Minoan-Mycenaean, Greek, Etruscan or Roman Art History on topic designated by instructor. Research projects required. Course is repeatable for up to 9 units of credit when course topic changes.
Prerequisite: At least two upper division art history courses or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

**ARTH 271. Seminar in Medieval Art**
Directed group research in area of European Medieval art history on topic designated by instructor. Research projects required. Course is repeatable for up to 9 units of credit when course topic changes.
Prerequisite: At least two upper division art history courses or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

**ARTH 272. Seminar in Renaissance Art**
Directed group research in area of European art history of Renaissance period on topic designated by instructor. Research project required. Course is repeatable for up to 9 units of credit when course topic changes.
Prerequisite: At least two upper division art history courses or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
CE: GWAR
3 units

**ARTH 279. Seminar in Interdisciplinary Studies**
Directed group research in examination of relationship of art history to other academic disciplines on topic designated by instructor. Research projects required. Course is repeatable for up to 9 units of credit when course topic changes.
Prerequisite: At least two upper division art history courses or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

**ARTH 275. Seminar in Twentieth Century Art**
Directed group research in area of European or American art of twentieth century on topic designated by instructor. Research projects required. Course is repeatable for up to 9 units of credit when course topic changes.
Prerequisite: At least two upper division art history courses or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
3 units

**ARTH 276. Seminar in Oriental Art**
Directed group research in area of Asian art on topic designated by instructor. Research projects required. Course is repeatable for up to 9 units of credit when course topic changes.
Prerequisite: At least two upper division art history courses or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

**ARTH 277. Seminar in Historiography**
Directed group research in theories and methodologies of art history. Research projects required. Course is repeatable for up to 9 units of credit when course topic changes.
Prerequisite: At least two upper division art history courses or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

**ARTH 278. Seminar in Myth and Symbol**
Directed group research in sources and meanings of myths and symbols. Research projects required. Course is repeatable for up to 9 units of credit when course topic changes.
Prerequisite: At least two upper division art history courses or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

---

**PHOTOGRAPHY**

**LOWER DIVISION**

**PHOT 040. Beginning Photography**
A Beginning photography course which introduces basic aesthetic issues in (primarily black and white) image making. Introduces photographic technique utilizing digital cameras, electronic image processing and digital printing. Requires a DSLR (digital single lens reflex) type camera. Requires Adobe Lightroom.
Normal Grade Rules
3 units
UPPER DIVISION

PHOT 110. Black and White Photography
A traditional darkroom photography class which introduces black and white film developing, fiber based printing, and image manipulation and presentation techniques. Taught with traditional film and paper; requires a film camera, limited number of which are available for loan.
Prerequisite: PHOT 040.
Normal Grade Rules
3 units

PHOT 112. Color Photography
An intermediate course introducing principles of color photography, color theory, a refined use of the camera and digital printing techniques. Requires a DSLR (digital single lens reflex) type camera. Requires Adobe Lightroom and Adobe Photoshop.
Prerequisite: PHOT 40.
Normal Grade Rules
3 units

PHOT 113. Alternative Photo Media
Explores historical, handmade photographic printing processes which open avenues of expression unavailable through contemporary photographic processes. Cyanotype, Van Dyke, and gum bichromate techniques are covered, as well as creating traditional and digital negatives for contact printing.
Prerequisite: PHOT 040
Normal Grade Rules
3 units

PHOT 114. Advanced Black and White Photography
An advanced exploration of traditional silver based film and darkroom printing, the use of view cameras, and the Zone System. Provides students with the opportunity to explore qualities of expression unique to the gelatin silver process.
Prerequisite: PHOT 040 and PHOT 110 or instructor consent.
Normal Grade Rules
3 units

PHOT 115. Intermediate Digital Imaging
An intermediate level course investigating the unique possibilities afforded by contemporary digital imaging including preparation of images for presentation via print, video and/or web. Emphasis upon incorporating digital tools with ongoing development of student work.
Prerequisite: PHOT 040.
Normal Grade Rules
3 units

PHOT 116. Contemporary Issues in Photography
Examination and discussion of aesthetic trends and philosophies in photography and related media, their impact on the medium and society.
Prerequisite: PHOT 040
Normal Grade Rules
3 units

PHOT 120. Image and Idea
An intermediate course in which students pursue individual projects. Emphasis on diverse strategies of approach and presentation which culminate in a group exhibition.
Prerequisite: PHOT 040 and PHOT 110 or PHOT 112 or PHOT 115.
Normal Grade Rules
3 units

PHOT 121. Introduction to Studio Lighting
Concepts and principles of lighting using both daylight and incandescent light sources and the use of standard studio lighting equipment.
Prerequisite: PHOT 40.
Normal Grade Rules
3 units

PHOT 122. Advanced Studio Lighting
An advanced studio lighting course incorporating practices of professional photographic techniques that can be applied to commercial advertising photography or applied as fine art imagery. Training on professional level equipment is emphasized.
Prerequisite: PHOT 121
Normal Grade Rules
3 units

PHOT 123. Photography as Illustration
Technical and conceptual aspects of producing effective photographic illustrations for fine art and commercial purposes (fine art exhibitions, advertisements, posters, magazines, story illustrations, etc.). Can include studio work, location photography, darkroom work and digital manipulation.
Prerequisite: PHOT 40.
Repeatable for credit
Normal Grade Rules
3 units

PHOT 125. Special Topics in Photography
Photography is a rapidly evolving field of study. In order to keep our curriculum current and add diversity to our staple of course offerings, our Photo 125, “Special Topics in Photography” offers a rotating variety of contemporary topics. Can be repeated for up to 15 units of credit when course topic changes.
Prerequisite: PHOT 112, PHOT 113, PHOT 115, or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

PHOT 129. Professional Practices in Photography
Designed to prepare graduating photo majors for practicing their profession. Emphasis will be placed on building a comprehensive portfolio and business identity. Course is repeatable once for credit.
Prerequisite: PHOT 120, PHOT 121, plus two additional upper division photography courses.
Repeatable for credit
Normal Grade Rules
3 units

PHOT 180. Individual Studies
Individual work under guidance in field of special interest.
Prerequisite: PHOT 110.
Repeatable for credit
Credit / No Credit
1-3 units

PHOT 197. Senior Project Photography
Advanced course focused on creation or further development of photo-based project to be determined by the student and consisting of new work. Course emphasizes developing professional exit skills, a final body of finished work, and a professional portfolio.
Prerequisite: 15 units of upper division courses in PHOT
Normal Grade Rules
3 units

PHOT 126. History of Photography
See ARTH 126

Athletics (Intercollegiate) Courses

INTERCOLLEGIATE ATHLETICS

LOWER DIVISION

ATH 002I. Men’s Baseball
Activities include mental and physical skill development for successful participation in NCAA intercollegiate men’s baseball including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 002S. Men’s Skills Development, Baseball
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate men’s baseball. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 004I. Men’s Basketball
Activities include mental and physical skill development for successful participation in NCAA intercollegiate men’s basketball including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 004S. Men’s Skills Development, Basketball
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate men’s basketball. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 006I. Women’s Basketball
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women’s basketball. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 006S. Women’s Skills Development, Basketball
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women’s basketball. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 008I. Women’s Soccer
Activities include mental and physical skill development for successful participation in NCAA intercollegiate women’s soccer including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 012I. Football
Activities include mental and physical skill development for successful participation in NCAA intercollegiate football including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 012S. Skills Development, Football
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate football. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 014I. Men’s Golf
Activities include mental and physical skill development for successful participation in NCAA intercollegiate men’s golf including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 014S. Men’s Skills Development, Golf
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate men’s golf. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 016I. Women’s Golf
Activities include mental and physical skill development for successful participation in NCAA intercollegiate women’s golf including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 016S. Women’s Skills Development, Golf
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women’s golf. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 020I. Women’s Gymnastics
Activities include mental and physical skill development for successful participation in NCAA intercollegiate women’s gymnastics including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 020S. Skills Development, Gymnastics
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women’s gymnastics. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 026I. Women’s Tennis
Activities include mental and physical skill development for successful participation in NCAA intercollegiate women’s tennis including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 026S. Women’s Skills Development, Tennis
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women’s tennis. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 030I. Men’s Soccer
Activities include mental and physical skill development for successful participation in NCAA intercollegiate men’s soccer including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 030S. Men’s Skills Development, Soccer
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate men’s soccer. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit
ATH 030S. Men's Skills Development, Soccer
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate men's soccer. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 031I. Women's Cross Country
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's cross country. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 032I. Women's Swimming
Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's swimming including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 034S. Women's Skills Development, Soccer
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's soccer including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 034I. Women's Swimming
Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's swimming including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 035S. Women's Skills Development, Swimming
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's swimming. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 036S. Women's Skills Development, Volleyball
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's volleyball. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 036I. Women's Water Polo
Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's water polo including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 042I. Women's Cross Country
Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's cross country including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 042I. Women's Cross Country
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's cross country. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 044I. Women's Soccer
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's soccer including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 044S. Women's Skills Development, Soccer
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's soccer. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 044S. Women's Skills Development, Cross Country
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's cross country. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 046S. Women's Skills Development, Water Polo
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's water polo. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 046I. Women's Water Polo
Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's water polo including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 048I. Men's Cross Country
Activities include mental and physical skill development for successful participation in NCAA intercollegiate men's cross country including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 048S. Men's Skills Development, Cross Country
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate men's cross country. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 050I. Women's Track & Field
Activities include mental and physical skill development for successful participation in NCAA intercollegiate women's track & field including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit

ATH 050S. Women's Skills Development, Track & Field
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate women's track & field. Approximately 8 hours per week.
Repeatable for credit
Credit / No Credit
1 unit

ATH 052I. Men's Water Polo
Activities include mental and physical skill development for successful participation in NCAA intercollegiate men's water polo including drills, assignments, film study, scrimmages and competitions not to exceed 20 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit
ATH 052S. Men's Skills Development, Water Polo
Activities include sport specific fitness training and conditioning for successful participation in NCAA intercollegiate men's water polo. Approximately 8 hours per week.
Repeatable for credit
Normal Grade Rules
1 unit
Aviation Courses

AVIATION

LOWER DIVISION

AVIA 002. Introduction to Aviation
Normal Grade Rules
3 units

AVIA 003. Introduction to Private Pilot Part 141 Flight
This course covers the FAA requirements leading up to the award of the FAA Private Pilot Certificate. The course consists of flight training segments in an FAA-approved FAR part 141 flight training program.
Prerequisite: AVIA 002
Credit / No Credit
2 units

AVIA 031. Aircraft Theory and Design
Aerodynamics and aeroelastic forces. Load analysis of flight vehicles. Aircraft design optimization, material selection along with, safety, failure, safe and damage tolerance in design.
Prerequisite: AVIA 2, PHYS 2A, MATH 71.
Pre/Corequisite: PHYS 2B
Misc/Lab: Lecture 2 hours/Lab 3 hours.
Normal Grade Rules
3 units

AVIA 042. Aircraft Systems
Operational and analytical aspects of key aircraft systems such as propulsion, flight control, electrical, and hydraulic. Reliability and maintainability concepts related to the design of aircraft systems. Emphasis is placed on general aviation aircraft.
Prerequisite: AVIA 2, PHYS 2A
Pre/Corequisite: PHYS 2B
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

AVIA 043. Propulsion Theory
Prerequisite: AVIA 2, PHYS 2A.
Pre/Corequisite: PHYS 2B
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

AVIA 062. Instrument Flight Techniques
Flight procedures, radio navigation, air traffic control, use of instrument charts. Flight simulator exercises on instrument flight maneuvers, departure and approach procedures.
Prerequisite: AVIA 2
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

AVIA 063. Instrument Rating Part 141 Flight
This course covers the FAA requirements leading up to the award of the FAA Instrument Rating Certificate. The course consists of 29 instrument flight training segments in an FAA approved FAR part 141 instrument flight training program.
Prerequisite: AVIA 003 or FAA Private Pilot Certificate, AVIA 73
Credit / No Credit
2 units

AVIA 068. Avionics and Airborne Communication
Communications and navigation systems installed on a typical general aviation aircraft. History of avionics. Laboratory exercises will include field-testing and airworthiness evaluation.
Pre/corequisite: AVIA 42
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

AVIA 071. Flight Physiology
Stress and human factors in flight, sleep, nutrition, physiology, ergonomics, psychological aspects of human factors, flight performance, and effects on the operator.
Pre/Corequisite: AVIA 42
Normal Grade Rules
3 units

AVIA 072. Human Performance in Aviation
Human factors and the environment of aviation. Psychological and physiological aspects of human factors for the general aviation pilot and the professional pilot.
Pre/Corequisite: AVIA 42
Normal Grade Rules
3 units

AVIA 073. Air Traffic Control
Prerequisite: AVIA 2.
Normal Grade Rules
3 units

AVIA 074. Introduction to Aviation Management
Normal Grade Rules
3 units

AVIA 081. Aircraft Fuel Systems
A study of fuel systems, including fuel storage, handling, transportation, and fuel systems design for aircraft. Fundamentals of fuel system design and operation.
Prerequisite: AVIA 43
Normal Grade Rules
3 units

UPPER DIVISION

AVIA 110. Aviation Meteorology
Introduction to meteorology with emphasis on aviation applications. Causes of weather, characteristics of common weather phenomena and climatology. Aviation weather resources and reporting, and weather briefings in relation to visual and instrument meteorological conditions for flying.
Normal Grade Rules
3 units

AVIA 112. Professional Commercial Pilot
Material necessary for the FAA requirements leading up to the award of the FAA Commercial Pilot Certificate. Formatted as a ground school and covers the aeronautical knowledge requirements for the Commercial Pilot Knowledge Test.
Prerequisite: AVIA 31, AVIA 42, AVIA 91
Normal Grade Rules
3 units

AVIA 113. Commercial Professional Pilot Part 141 Flight
This course covers the FAA requirements leading up to the award of the FAA Commercial Pilot Certificate. The course consists of 58 flight training segments in an FAA approved FAR part 141 flight training program.
Prerequisite: FAA Private Pilot Certificate
Corequisite: AVIA 112
Credit / No Credit
2 units

AVIA 128. Aviation Safety and Security
Safety in aviation design, operation, and maintenance; hazardous materials; airport environment issues; security regulations for aviation.
Prerequisite: AVIA 2
Normal Grade Rules
3 units

AVIA 141. Human Factors in the Aviation Environment
Effects of time zone changes, sleep disruption, drugs on pilot performance. Role of FAA inspectors, physicians, cabin attendants, unions. Cockpit crew coordination; pilot psychology; aviation safety and accident investigation. Experimental avionics.
Prerequisite: Sophomore or Upper division standing.
Notes: Not an elective in most department majors.
Normal Grade Rules
3 units

AVIA 150. Unmanned Aerial Systems
Introduction to Unmanned Aerial Systems (UAS). Overview of UAS classes and typical UAS missions. Application of sensors/payload analysis, basic design concepts, current regulations in the U.S., and mishap examination.
Prerequisite: AVIA 31 or Instructor Consent
Normal Grade Rules
3 units
## Academic Year 2018-2019
### Course Descriptions

**AVIA 173. Aviation Law**
Law and legal issues in aviation from both a national and international perspective. Rights and responsibilities of individuals, organizations, and the aviation community. Regulations and liability pertaining to the design, manufacture, operation and maintenance of aircraft.
Prerequisite: AVIA 78.
Normal Grade Rules
3 units

**AVIA 176. Airline Operations and Management**
Aspects of managing air transportation companies. Integration of technical, environmental, market and regulatory considerations in the decision-making process in airline management. Future planning techniques.
Prerequisite: AVIA 78
Normal Grade Rules
3 units

**AVIA 177. General Aviation Operations and Management**
Aspects of managing general aviation companies, such as the structure of the general aviation industry, supply and demand of products, and technical and regulatory constraints.
Prerequisite: AVIA 2, AVIA 78
Normal Grade Rules
3 units

**AVIA 178. Airport Planning and Management**
Design, planning, and management of airports in the US including airport development and airport design. Legal responsibilities as an airport manager. Issues and regulations applicable to airport planning and management.
Prerequisite: AVIA 78
Normal Grade Rules
3 units

**AVIA 179. Advanced Airport Planning and Management**
Noise generation and abatement. Leasing and property management including the impact of federal regulations. Concession planning. Use of technology to increase efficiency and security in airports.
Prerequisite: AVIA 178
Normal Grade Rules
3 units

**AVIA 180. Individual Studies**
Special topics by arrangement. Course is repeatable for a maximum of 3 units.
Prerequisite: Aviation majors or minors after advisor consultation and department chair approval.
Repeatable for credit
Credit / No Credit
1-3 units

**AVIA 180H. Individual Studies**
Individual honors studies by arrangement. Course is repeatable for a maximum of 2 units.
Prerequisite: Acceptance into Aviation Honors Program.
Repeatable for credit
Credit / No Credit
1-2 units

**AVIA 190. Senior Capstone Seminar**
Current industry analysis and career development; leadership skills for an aviation professional. Aviation standard procedures. Ethical principles for Aviation. Student projects related to Aviation major.
Prerequisite: Graduating senior, major form completed.
Normal Grade Rules
3 units

**AVIA 193. Aerodynamics**
Aerodynamic forces involved in an airplane in flight. Fundamental flowing gas, incompressible and compressible flow, Bernoulli’s Principles, circulation forces, boundary layer, airfoils, measurement methods, laminar and turbulent flow, force and vortex interactions.
Prerequisite: PHYS 2A, MATH 71, AVIA 31.
Misc/Lab: Lecture 2 hours/Lab 3 hours.
Normal Grade Rules
3 units

**AVIA 194. Pilot Avionics and General Aviation Systems**
Operations of avionics as found on modern general aviation aircraft and turboprop/turbofan aircraft. Major systems used on general aviation aircraft including GPS, FMS, navigation systems, fuel systems, hydraulic systems, environmental systems, landing gear.
Prerequisite: AVIA 42, AVIA 43.
Normal Grade Rules
3 units

**AVIA 195. Internship with the Aviation Industry**
Practical experience with aviation industry under direct supervision of aviation professionals. Experience will relate to air carrier or general aviation aircraft operation/maintenance, fixed-based operation management and/or airport operation/management. Course is repeatable for a maximum of 12 units.
Prerequisite: Junior standing and instructor consent.
Repeatable for credit
Credit / No Credit
1-6 units

**AVIA 197. Cooperative Education Project**
See ENGR 197.
Normal Grade Rules
3 units

**AVIA 199A. Special Topics in Aviation Management**
Special topics in Aviation Management. Content varies from semester to semester.
Course is repeatable for a total of 6 units.
Prerequisite: Instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

**AVIA 199B. Special Topics in Aviation Operations**
Special topics in Aviation Operations. Content varies from semester to semester. Course is repeatable for a total of 6 units.
Prerequisite: Instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

**AVIA 199A. Special Topics in Aviation Management**
Special topics in Aviation Management. Content varies from semester to semester.
Course is repeatable for a total of 6 units.
Prerequisite: Instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

**AVIA 199B. Special Topics in Aviation Operations**
Special topics in Aviation Operations. Content varies from semester to semester. Course is repeatable for a total of 6 units.
Prerequisite: Instructor consent.
Repeatable for credit
Normal Grade Rules
3 units
BIOLOGY

LOWER DIVISION

BIOL 010. The Living World
Provides students with an understanding of the most fundamental concepts of modern biology including ecology (the interaction between organisms and their environment), human inheritance, the structure and function of living organisms, evolution, strategies for survival and reproduction, and biotechnology. GE Area: B2
Notes: Not an elective in the department majors.
Normal Grade Rules
GE: B2
3 units

BIOL 020. Ecological Biology
Introduction to diversity, ecology, evolution and behavior. In conjunction with BIOL 21 a more complete survey of biology. GE Area: B2 and B3
Misc/Lab: Lecture 2 hours/lab 3 hours/field trips.
Notes: Not an elective in the department majors.
Normal Grade Rules
GE: B2B3
3 units

BIOL 021. Human Biology
Introduction to physiology, reproduction, development, heredity and aging. With BIOL 20 a more complete survey of biology. GE Area: B2 and B3
Misc/Lab: Lecture 2 hours/Lab 3 hours.
Notes: Not an elective in the department majors.
Normal Grade Rules
GE: B2B3
3 units

BIOL 030. Principles of Biology I
Cellular and physiological aspects of biological diversity. Concepts include: biomolecules, cellular structures/ function, cell-cell communication, cellular energetics, molecular evolution, gene expression, enzymes, and animal physiological systems.
Prerequisite: Writing Enrollment Group W-I or W-II, or ENGL 1AF with a grade of CR, or ENGL 1A with a grade of C- or better, Math Enrollment Group M-I or M-II, or completion of a GE Area B4 course.
Misc/Lab: Lecture 3 hours/Lab 3 hours.
Normal Grade Rules
GE: B2B3
4 units

BIOL 031. Principles of Biology II
The diversity of life and the mechanisms by which that diversity has arisen. Concepts include: scientific method, origins of life, adaptation of organisms to different environments, ecology, and evolution.
Prerequisite: BIOL 30 with a grade of "C" or better for Biology and Forensic Science majors. Instructor consent for all other majors. Must be majoring in Biology (all), Biomedical Eng, Biochemistry, ENVS (all), Forensic Science (all), Nutritional Science, Meteorology-CS, Kinesiology, Computer Science, and Communicative Disorders.
Misc/Lab: Lecture 3 hours/Lab 3 hours
Normal Grade Rules
GE: B2B3
4 units

BIOL 054. Human Understanding
Major issues in health and disease, learning and memory, maturation and aging (such as diet, exercise, mind-body medicine, and addictions). Emphasis on learning how to understand and apply physiologic information for personal growth and lifelong learning. GE Area: E
Normal Grade Rules
GE: EE
3 units

BIOL 055. Biostatistics
Introductory experimental design and statistical analysis of biological data from manipulated experiments. This course provides experience in designing and analyzing experiments utilizing both univariate and multivariate tests.
Prerequisite: BIOL 30 and 31 with a grade of C or better, or instructor consent.
Misc/Lab: Lecture 3 hours/Lab 3 hours
Normal Grade Rules
GE: B2B3
3 units

UPPER DIVISION

BIOL 100W. Scientific Communication Workshop
Analysis and communication of scientific research to both scientific and general audiences. Satisfies upper division writing requirement. GE Area: Z
Prerequisite: BIOL 30 and 31 (with grades of "C" or better); A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing. Allowed declared majors: Biology, Natural Science.
Note: Must be passed with "C or better" to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE: Z
3 units
Biol 101. Origins of Life
Process of evolution, fossil evidence for life origins, and the place of humans in nature. GE Area: R
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Notes: Not an elective in the department majors. Normal Grade Rules
GE: R
3 units

Biol 105. Principles of Developmental Biology
Emphasis on human development. Other animal systems (fly, frog, chick, mouse) will also be studied to aid in understanding anatomical, physiological, genetic and molecular mechanisms operating during gametogenesis, fertilization, cleavage, gastrulation and organogenesis.
Prerequisite: BIOL 030 and BIOL 031 (with grade of “C” or better in each), or instructor consent, BIOL 115 with “C” or better.
Normal Grade Rules
3 units

Biol 106. Physiological Ecology
Physiological ecology is the study of the interaction of an organism with its environment. Looking at both plants and animals, we will examine how both structure and function interact to enable an organism to survive under particular environmental conditions.
Prerequisites: BIOL 113 or 114 with a grade of “C” or better or instructor consent, CHEM 008 and/or CHEM 112A and CHEM 112B with a grade of “C” or better, BIOL 300W, upper division standing.
Normal Grade Rules
3 units

Biol 106L. Physiological Ecology Lab
This course is the lab section that accompanies the lecture section, Bio 106 Physiological Ecology.
Prerequisite: BIOL 113 or 114 with a grade of “C” or better or instructor consent, CHEM 008 and/or CHEM 112A and CHEM 112B with a grade of “C” or better, BIOL 300W.
Co-requisite: BIOL 106
Normal Grade Rules
1 unit

Biol 107. Immunology
Provides information about all areas of immunology with emphasis on the basic concepts of immune mechanisms of the acquired and innate immune systems. Uses the basic information to study immune disorders and the immune response to infectious agents.
Prerequisite: Micro 101 with a grade of “C” or better, or instructor consent
Normal Grade Rules
3 units

Biol 107L. Immunology Laboratory
The experiments in this beginning immunology laboratory are designed to study both the innate and acquired immune systems. Experimentation into the formation, function and detection of antibodies provides students with skills in basic immunologic techniques. Flow cytometry is used in identification of immune cells as well as functional assays of complement mediated phagocytosis.
Corequisite: Biol 107, or instructor consent
Misc/Lab: 3 hour Lab
Normal Grade Rules
2 units

Biol 109. Human Neuroanatomy and Physiology
Gross and microscopic structure and function of the human nervous system. Introduction to experimental and clinical techniques.
Prerequisite: BIOL 65 or instructor consent
Misc/Lab: Lecture 3 hours/lab 3 hours.
Notes: Not an elective in the department majors.
Normal Grade Rules
4 units

Biol 110. Biodiversity and Biopolitics
Application of ecological principles to the conservation of biodiversity and the management of ecosystems. Analysis of biological, economic, social, and political interrelationships involved in conservation. GE Area: R
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Notes: Not an elective in the department majors.
Normal Grade Rules
GE: R
3 units

Biol 111. Functional Morphology
Develops understanding and skills needed to taxonomically study biodiversity, including the use of morphological and DNA sequence characters to examine phylogeny, and use of a range of biodiversity research techniques and tools.
Prerequisites: BIOL 115 or BIOL 118 with a grade of “C” or better or instructor consent.
Misc/Lab: Lecture 2 hours/Lab 3 hours.
Normal Grade Rules
3 units

Biol 115. General Genetics
Principles and methods of microbial, plant and animal genetics. Mendelism, cytogenetics, molecular genetics, mutation, quantitative genetics and genetic aspects of evolution.
Prerequisite: BIOL 30 and BIOL 31 (with a grade of “C” or better in each), or instructor consent; CHEM 001A and CHEM 001B (with a grade of “C” or better in each).
Misc/Lab: Lecture 3 hours/discussion 1 hour.
Normal Grade Rules
4 units

Biol 116. Molecular Genetics
Molecular genetics of prokaryotes and eukaryotes. Replication, repair, mutation, regulation of gene expression, gene organization and methods of recombinant DNA research.
Prerequisite: BIOL 115 or MIRC 127 with a grade of “C” or better; CHEM 135 with a grade of “C” or better.
Normal Grade Rules
3 units

Biol 116L. Genetics Laboratory
Selected experiments to demonstrate genetic concepts using Drosophila, bacteria and other organisms. Techniques include those of classical, bacterial and molecular genetics.
Prerequisite: BIOL 115 or MIRC 127 with a grade of “C” or better
Misc/Lab: Lecture 1 hours/Lab 6 hours.
Normal Grade Rules
3 units

Biol 117. Human Genetics
Mendelian traits, classical and molecular cytogenetics, DNA variation, sex determination, gene mapping, mutation, population genetics, multifactorial inheritance, genetic counseling and prenatal diagnosis.
Prerequisite: BIOL 115 (with a grade of “C” or better).
Normal Grade Rules
3 units
BIOL 118. Evolutionary Genetics
Principles of molecular and population genetics from an
evolutionary perspective. Application of DNA analyses
and other techniques to conservation biology, evolution,
ecology and systematics.
Prequisite: BIOL 30 and BIOL 31 with a grade of C or
better
Misc/Lab: Lecture 3 hours/semian 1 hour.
Normal Grade Rules
4 units

BIOL 119. Neurogenetics
Cellular and molecular neuroscience at the neuron,
synapse and circuit level, including electrical and chemical
signaling. Neurophysiology of development, maintenance
and modification of neural circuits. Molecular genetics
of neurological disorders such as autism, schizophrenia,
Alzheimer’s disease, and mood disorders.
Prequisite: BIOL 115 (with a grade of “C” or better).
Normal Grade Rules
3 units

BIOL 120A. Electronics, Data Acquisition &
Analysis
See PHYS 120A.
Normal Grade Rules
3 units

BIOL 122. Bacterial Diversity
See MICR 122.
Normal Grade Rules
2 units

BIOL 122L. Bacterial Diversity Laboratory
See MICR 122L.
Normal Grade Rules
2 units

BIOL 123A. Bioinformatics I
See CS 123A.
Normal Grade Rules
3 units

BIOL 123B. Bioinformatics II
See CS 123B.
Normal Grade Rules
3 units

BIOL 124. Systems Physiology
Physiology of organ systems of mammals, with emphasis
on the human. Neuromuscular, respiratory, digestive,
cardiovascular, renal, endocrine, reproductive and thermo-
regulatory physiology.
Prequisite: Biol 30, BIOL 31, BIOL 115; Phys 2A, 2B;
Chem 112A, 112B; All courses with a “C or better”
Corequisite: BIOL 125 highly recommended.
Normal Grade Rules
3 units

BIOL 125. Systems Physiology Laboratory
Selected lab units to demonstrate complex physiological
mechanisms and the physiology of organ systems.
Methods include animal experiments and physiological
recording and stimulation.
Pre/co-requisite: BIOL 124 (with grade of C or better) or
Instructor Consent
Misc/Lab: Lab 6 hours.
Normal Grade Rules
2 units

BIOL 129. Neuroscience
See PSYC 129.
Normal Grade Rules
3 units

BIOL 131. Endocrine Physiology
Emphasis on mammalian systems. Mechanisms of
hormone action, secretion and physiological effects;
hormone assay techniques.
Prequisite: Upper division organ systems physiology
(e.g., BIOL 124) with C- or better, or Instructor Consent.
Normal Grade Rules
3 units

BIOL 134. Vertebrate Histology
Light and electron microscopic structure of vertebrate
tissues with consideration of related functions.
Emphasis on the examination of human tissues including
corresponding pathiology.
Prequisite: BIOL 30, BIOL 31 and BIOL 124 or
instructor consent.
Misc/Lab: Lecture 2 hours/lab 6 hours.
Normal Grade Rules
4 units

BIOL 135A. Eukaryotic Cell and Molecular
Biology I
BIOL 135A is the first semester of a year-long cell
and molecular biology course. Topics covered include
membrane structure, signal transduction, cytoskeletal
structure, cell migration, and gene expression.
Pre-requisites: Biol 30-31, Biol 115, Chem 112A-B, all with
a C or better
Normal Grade Rules
3 units

BIOL 135B. Eukaryotic Cell and Molecular
Biology II
BIOL 135B is the second semester of a year-long cell
and molecular biology course. Topics covered include
chromosome structure and maintenance, stem cell
biology, cell death, and cancer biology. GE Area: R for
majors only
Prequisite: BIOL 115, BIOL 135A, Biol 100W, both with
a grade of C or better. Majors only.
Normal Grade Rules
GE: R
3 units

BIOL 136. Vertebrate Neurophysiology
Review of topics from the molecular to the organismal
level. Chemical and electrotonic phenomena of
membranes, neurochemistry, sensory transduction,
information coding, neural control, and additional
rotating topics.
Prerequisite: BIOL 124 with a C- or better or instructor
consent
Normal Grade Rules
3 units

BIOL 136L. Vertebrate Neurophysiology
Laboratory
Course-based undergraduate research experience using
electrophysiological techniques to study nervous system
function. Topics include chemical and electrotonic
phenomena of membranes, information coding, and
additional rotating topics.
Prerequisite: BIOL 124 with a C- or better. Corequisite:
BIOL 136.
Misc/Lab: Lab 3 hours.
Normal Grade Rules
1 unit

BIOL 137. Introduction to Principles of
Toxicology
Emphasis on basic principles of toxicology. Toxicity of
several classes of compounds covered in depth. Focus on
basic chemical principles and appropriate applications.
Prerequisite: BIOL 030, BIOL 031, BIOL 124, and CHEM
112B with a grade of C- or better, or instructor consent.
Normal Grade Rules
3 units

BIOL 140. Human Sexuality
See ANTH 140.
Normal Grade Rules
GE: S
3 units

BIOL 142. Paleontology
See GEOL 142.
Normal Grade Rules
4 units
BIOL 145. Advanced Undergraduate Biology Seminar
Undergraduate Seminar in Biology. May be taken concurrently with BIOL 145L. Course is repeatable for credit when content changes.
Prerequisites: Completion of nine (9) units of upper division majors’ coursework. Instructor consent.
Note: Course is repeatable when content changes.
Repeatable for credit
Normal Grade Rules
1-3 units

BIOL 145L. Advanced Undergraduate Biology Lab
Advanced undergraduate laboratory or field experience. May be taken concurrently with BIOL 145. Course is repeatable for credit when content changes.
Prerequisites: Completion of nine (9) units of upper division majors’ coursework. Instructor consent.
Repeatable for credit
Normal Grade Rules
1-2 units

BIOL 150. Field Studies in Natural History
Field courses given on site, typically covering general ecology, botany, geology, zoology and specialized natural areas such as Baja California, Death Valley, seacoasts and mountains. Repeatable for up to a total of 3 units of credit when location or content changes. GE Area: B3
Notes: Not an elective in the department majors.
Repeatable for credit
Normal Grade Rules
GE B3
1-2 units

BIOL 155. Hypnosis Testing
Experimental design and statistical analysis of biological data from manipulative experiments. This course provides experience in designing and analyzing experiments using t-tests, 1- and 2-way ANOVA, Randomized Block ANOVA, Nested ANOVA, Linear Regression and Tests of Independence.
Prerequisite: BIOL 30 and BIOL 31 with a grade of “C” or better, or instructor consent. Allowed Declared Majors: Biology, Environmental Studies.
Misc/Lab: Lecture 2 hours/lab 3 hours
Normal Grade Rules
3 units

BIOL 156. Ecological Sampling Design and Analyses
Sampling design and statistical analysis of biological patterns. In this course, students design and execute a field experiment (one required weekend field trip) that incorporates multivariate measurements. Students analyze the data with Log Linear analysis, Logistic Regression, Principal Components Analysis, Canonical Correlation and various Regression techniques.
Prerequisite: BIOL 113 or 114 with a grade of “C” or better, or instructor consent. Allowed Declared Majors: Biology, Business, Environmental Studies.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

BIOL 160. Ecology
Factors that influence the distribution and abundance of organisms; some aspects of applied ecology. GE Area: R for Biology Majors only.
Prerequisite: BIOL 113 or 114 with a grade of “C” or better; BIOL 115 or BIOL 118. Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a “C” or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. Majors only
Pre/Corequisite: BIOL 55 or BIOL 156 or equivalent biostatistics course, or instructor consent.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
GE R
4 units

BIOL 163. Conservation Biology
Principles of conservation biology, including management for the preservation of biodiversity and maintenance of viable populations. Examples from plants and animals
Prerequisite: BIOL 113 or BIOL 114 (with grade of “C” or better) or instructor consent
Normal Grade Rules
3 units

BIOL 164. Ecological Field Methods
Techniques for evaluating and managing the abundance and diversity of plants and animals.
Prerequisite: BIOL 113 or 114 with a grade of “C” or better, or instructor consent.
Misc/Lab: Lecture 1 hour/lab-field 6 hours.
Normal Grade Rules
3 units

BIOL 165. Advanced Human Anatomy
Study of human anatomy, including clinical correlations, for preprofessional students. Not open to student who have completed BIOL 065.
Prerequisite: BIOL 30, BIOL 31 and BIOL 124 and senior or graduate standing or instructor consent.
Misc/Lab: Lecture 2 hours/lab 6 hours.
Normal Grade Rules
4 units

BIOL 166. Cardiorespiratory Physiology
Covers the normal anatomy and physiology of the cardiovascular and respiratory systems, as well as how they function following perturbations in homeostasis. Focuses on the mammalian system with some discussion of comparative physiology.
Pre-requisite: Biol 124 with a C- or better or instructor consent
Normal Grade Rules
3 units

BIOL 168. Reproductive Physiology
Reproductive Physiology covers the anatomy and physiology of the reproductive system, as well as how deviations from the norm affect reproduction. Course focuses on the mammalian system with discussion of comparative physiology.
Prerequisites: BIOL 124 with C- or better or Instructor Consent
Normal Grade Rules
3 units

BIOL 172. Ecology of Inland and Estuarine Waters
Biotic and abiotic principles and relationships in lakes, reservoirs, streams and estuaries. Water quality testing, aquatic habitat sampling and assessment, problem identification and agency responsibilities and jurisdictions.
Prerequisite: BIOL 113 or 114 with a grade of “C” or better, or instructor consent.
Misc/Lab: Lecture 2 hours/lab and field 6 hours.
Normal Grade Rules
GE R
4 units

BIOL 177. Physiology for Engineers
See BME 177.
Normal Grade Rules
3 units

BIOL 178. Integrative Physiology
Integrative Physiology is the capstone course in the Systems Physiology concentration. The specific physiology topics covered may vary depending on the semester. Critical reading of scientific literature, experimental design and scientific communication skills will be emphasized. GE Area: R for majors
Prerequisite: Biol 100W, BIOL 115, Biol 124, both with a “C” or better, at least one upper division systems physiology elective, or instructor consent. Majors only.
Normal Grade Rules
GE R
3 units

BIOL 180. Individual Studies
Advanced lab work in special fields.
Prerequisite: Majors only. Not available to Open University Students
Repeatable for credit
Credit / No Credit
1-4 units
B I O L 1 8 1 . Introduction to Health Care
Participation and observation with a medical doctor, dentist, optometrist, pharmacist, or veterinarian in private practice, hospital or retail setting.
Notes: Hepatitis B or other vaccinations may be required in some settings.
Prerequisite: Instructor consent. Not available to Open University Students.
Credit / No Credit
1-3 units
B I O L 1 8 2 . Tutor Assistant in Biology
Supervised classroom or field experience as a tutor assistant in experiments, demonstrations and discussion.
Prerequisite: Sophomore or Upper division standing, instructor consent and appropriate academic background.
Not available to Open University Students.
Repeatable for credit
Credit / No Credit
1-2 units
B I O L 1 8 4 . Directed Reading
Assigned readings of selected books, journals and papers chosen to fill gaps in training or for contact with new fields. Evaluation through weekly reports and conferences.
Prerequisite: Instructor consent. Not available to Open University Students.
Repeatable for credit
Credit / No Credit
1-4 units
B I O L 1 8 6 . Senior Thesis
Advanced library, laboratory or field research under the supervision of a faculty member, culminating in a senior thesis.
Prerequisite: Instructor consent. Not available to Open University Students.
Credit / No Credit
2-4 units
B I O L 1 9 0 . Field Studies in Biology
Field program involving planning and execution of a project. Course is repeatable for a maximum of 12 units.
Prerequisite: Instructor consent. Not available to Open University Students.
Repeatable for credit
Credit / No Credit
1-4 units
B I O L 1 9 3 . Microbiological Techniques
Microbiological techniques for non-biologists.
Prerequisite: Upper division standing; lower division biology or instructor consent.
Normal Grade Rules
1 unit
B I O L 1 9 8 . Undergraduate Research
Field or laboratory biological research under the direction of a faculty member.
Repeatable for credit
Normal Grade Rules
0.5-4 units
G R A D U A T E
B I O L 2 0 1 . Graduate Seminar in Biological Sciences
Seminar designed to introduce principles and topics in biological research. Mandatory during first semester of enrollment. Must be taken twice for credit.
Repeatable for credit
Normal Grade Rules
1 unit
B I O L 2 0 2 . Graduate Studies in Biology
A seminar on current research and theory in the life sciences, emphasizing scientific writing and formal oral presentations.
Prerequisite: Instructor consent
Misc/Lab: Lecture/seminar/discussion 5 hours.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
CE: CWAR
3 units
B I O L 2 0 2 T A . Biotech Seminar: Biotech Products
BIOL 202TA is a seminar course in which students develop professional skills in writing, speaking, literature review, and critical thinking. Assignments are targeted at developing expertise and knowledge useful in the biotechnology and pharmaceutical industries. BIOL 202TA focuses on biotechnology products.
Prerequisite: Enrollment in the Master of Biotechnology Program.
Repeatable for credit
Normal Grade Rules
1 unit
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
CE: CWAR
3 units
B I O L 2 0 2 T B . Biotech Seminar: Biotech Business I
BIOL 202TB is a seminar course in which students develop their professional skills. Assignments target developing expertise and knowledge useful in the biotechnology and pharmaceutical industries. Focuses on business development in biotechnology and a team project in which students develop a business plan.
Prerequisite: BIOL 202TC or instructor consent
Normal Grade Rules
2 units
B I O L 2 0 3 . Biology Teaching Forum
Introduction to effective methods for teaching undergraduate biology laboratories, activities, seminars and/or lectures. Emphasis on pedagogy and application of best practices and strategies for teaching biology to a diverse audience. Course administration, student conduct and expectations, and assessment will also be covered.
Prerequisite: graduate standing or instructor consent
Normal Grade Rules
3 units
B I O L 2 0 5 . Advanced Molecular Techniques
Emphasizes the laboratory techniques of modern molecular biology. Depending on instructor, focus will be on animal, plant, yeast, bacterial, or viral systems. Course is repeatable for credit if content changes.
Prerequisite: BIOL 135L or instructor consent
Misc/Lab: Lecture 2 hours/lab 6 hours.
Repeatable for credit
Normal Grade Rules
4 units
B I O L 2 0 5 T . Advanced Molecular Techniques for Biotechnology
Emphasizes the laboratory techniques of modern molecular biology especially: report writing and communication of research results. Depending on instructor, focus will be on animal, plant, yeast, bacterial, or viral systems.
Prerequisite: BIOL 135L and admission into the Master of Biotechnology program.
Misc/Lab: Lecture 2 hours/lab 6 hours.
Normal Grade Rules
4 units
B I O L 2 0 7 T C . Biotech Seminar: Biotech Business II
BIOL 207TC is a seminar course in which students develop their professional skills. Assignments target developing expertise and knowledge useful in the biotechnology and pharmaceutical industries. BIOL 207TC focuses on the financial aspects of business development in biotechnology.
Prerequisite: Enrollment in the Master of Biotechnology Program.
Normal Grade Rules
2 units
B I O L 2 0 7 T D . Biotech Seminar: Biotech Business II
Seminar course in which students develop their professional skills. Assignments target developing expertise and knowledge useful in the biotechnology and pharmaceutical industries. BIOL 207TD focuses on the development of drugs and other biotechnology products.
Prerequisite: Enrollment in the Master of Biotechnology Program.
Repeatable for credit
Normal Grade Rules
2 units
B I O L 2 0 8 . Graduate Seminar in Biotechnology
Seminar designed to introduce principles and topics in biotechnology. Mandatory during first semester of enrollment. Must be taken twice for credit.
Repeatable for credit
Normal Grade Rules
1 unit
B I O L 2 0 9 . Graduate Seminar in Biotechnology
Seminar designed to introduce principles and topics in biotechnology. Mandatory during first semester of enrollment. Must be taken twice for credit.
Repeatable for credit
Normal Grade Rules
1 unit
B I O L 2 1 0 . Advanced Microbiological Techniques
Microbiological techniques for non-biologists.
Prerequisite: Upper division standing; lower division biology or instructor consent.
Normal Grade Rules
1 unit
B I O L 2 1 1 . Advanced Undergraduate Research
Field or laboratory biological research under the direction of a faculty member.
Repeatable for credit
Normal Grade Rules
0.5-4 units
BIOL 215. Seminar in Advanced Genetics
Selected topics of current interest in advanced genetics. Each semester will emphasize a particular field of genetics, e.g., molecular genetics, human genetics, developmental genetics, population genetics, etc.
Normal Grade Rules
3 units

BIOL 218. Evolution
Integrated use of modern molecular techniques and classical evolutionary theory to address a broad array of questions in evolutionary biology. Prerequisite: BIOL 115 and instructor consent.
Normal Grade Rules
3 units

BIOL 220. Science Communication
This course will focus on learning to effectively present ongoing scientific research to a wide audience, with an emphasis on developing science communication skills, learning to place data within the context of a field, and developing critical thinking skills.
Pre/Co-requisite: BIOL 202
Normal Grade Rules
3 units

BIOL 221T. Advanced Bioinformatics for Biotechnology
Bioinformatics/computer applications to solve advanced problems in molecular and cell biology by manipulation and analysis of DNA, RNA, and protein sequences.
Prerequisites: Biol 116 or either Chem 130A, Chem 135, or Chem 136 and admission into the Master of Biotechnology program.
Normal Grade Rules
4 units

BIOL 222T. Advanced Physiology/Pharmacology Laboratory
Performance of lab units designed to illustrate complexities of physiological regulation and principles of pharmacology including pharmacokinetics and physiological responses to drugs and hormones. Techniques utilized include anesthesia, small animal surgery, use of the polygraph, electrophoresis, RIA and GLC.
Prerequisite: BIOL 124 and BIOL 125 (or equivalent) and instructor consent.
Misc/Lab: Lab 9 hours.
Normal Grade Rules
3 units

BIOL 227T. Principles of Pharmacology
Principles of pharmacology, especially related to the pharmaceutical industry and clinical applications.
Prerequisites: BIOL 030 or equivalent; Physiology recommended
Normal Grade Rules
3 units

BIOL 229T. Biotechnology Instrumentation
Introduction to the principles of operation of common instruments used in the biotechnology and pharmaceutical industries. Includes understanding and experience with calibration, detection mechanisms, data output, trouble shooting and decision making process.
Prerequisite: Enrollment in the Master of Biotechnology program.
Misc/Lab: Lecture 2 hours / Lab 3 hours.
Normal Grade Rules
3 units

BIOL 230. Comparative Animal Physiology
A seminar in the functional relationships of invertebrates and vertebrates. Evolutionary patterns and environmental adaptations are considered.
Prerequisite: An upper division course in physiology or instructor consent.
Normal Grade Rules
3 units

BIOL 233. Immunological Techniques
Principles, concepts and mechanisms relative to serological and other immunological procedures and reactions with emphasis on practical applications.
Prerequisite: Upper division microbiology or cell biology, or organic chemistry and instructor consent.
Misc/Lab: Lab 9 hours.
Normal Grade Rules
3 units

BIOL 233T. Immunological Techniques for Biotechnology
Principles, concepts, and mechanisms relative to serological and other immunological procedures and reactions with emphasis on applications in the biotechnology industry.
Prerequisite: Immunology laboratory (grade "B" or better) or equivalent experience and admission to the Master of Biotechnology program.
Normal Grade Rules
3 units

BIOL 235E. Advanced Topics: Ecology and Evolution
Advanced Topics: Ecology and Evolution is a rotating topics course; each offering will have different content. The purpose of the seminar is to help students develop a deeper understanding of specific aspects of ecology and evolution through thorough examination of primary scientific literature, discussion and presentations. Enrollment in at least 3 units of BIOL 235E is mandatory for the MS Biological Sciences: concentration in Ecology and Evolution program.
Prerequisite: Graduate standing or Instructor consent
Repeatable for credit
Normal Grade Rules
1-4 units
BIOL 280T. Internship in the Biotechnology Industry
A 8-10 week internship at a Bay Area biotechnology company in R&D, quality control, manufacturing, human resources, marketing, or sales.
Prerequisite: Admission to the Master of Biotechnology program.
Repeatable for credit
Credit / No Credit
2 units

BIOL 281T. Individual Studies in Biotechnology
Supervised, advanced work in specialized fields relevant to biotechnology.
Prerequisite: Admission to the Master of Biotechnology program; instructor consent and Program Director.
Repeatable for credit
Normal Grade Rules
1-4 units

BIOL 282C. Biotechnology Company Management
Provides general management perspectives of biotechnological innovation; focuses on challenges of managing the development of new technologies, products, and processes in biotech sectors; examines management concepts, industry practices, and cases relevant to the biotechnology sector.
Normal Grade Rules
3 units

BIOL 283T. Topics in Biotech Regulatory Affairs
Introduction to laws regulating the pharmaceutical, biotechnology, medical device industries. Discussions of company organization, product development and commercialization; Good Manufacturing Practice.
Prerequisite: Admission to the Master of Biotechnology program and consent of the Program director.
Misc/Lab: Lecture 3 hour/Activity 6 hours.
Repeatable for credit
Normal Grade Rules
3 units

BIOL 284. Master’s Directed Reading
Directed reading and discussion of biological literature and/or individualized preparation for culminating graduate experience. Pre/Corequisite: Graduate standing in MA program and instructor consent. Not available to Open University Students.
Prerequisite: Graduate Standing in MA program; instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-3 units

BIOL 285. Colloquium in Biological Sciences
Meetings for the presentation and discussion of advanced studies in special fields including original work by the faculty, guest investigators and graduate students. Topics will vary from year to year.
Repeatable for credit
Credit / No Credit
1 unit

BIOL 285T. Colloquium in Biotechnology
Meetings for reporting, by written and oral presentations, progress through the MBT program.
Prerequisite: Admission to the Master of Biotechnology program.
Credit / No Credit
1 unit

BIOL 291A. Introduction to Molecular Diagnostics I
Graduate level course which will include topics relevant to all tests and methods used to identify a disease or the predisposition for a disease through DNA, RNA, or protein analysis. Methods for isolation from human clinical samples.
Prerequisite: Instructor consent.
Normal Grade Rules
3 units

BIOL 291B. Introduction to Molecular Diagnostics II: Human Genetic Diseases and Detection
Graduate level course which will include topics relevant to all tests and methods used to identify a disease or the predisposition for a disease through DNA or RNA analysis of human samples.
Prerequisite: BIOL 291A or Instructor Consent.
Normal Grade Rules
3 units

BIOL 297. Graduate Research
Advanced graduate research projects, to be conducted under the direct supervision of a staff member.
Prerequisite: Graduate Standing and Instructor Consent
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

BIOL 298. MS Project Culminating Experience
Culminating experience for MS Project Option, consisting of the development of a manuscript describing student’s research and following journal guidelines for manuscript preparation, followed by a public seminar defending the research project.
Prerequisite: Admission to candidacy for the Master of Science degree.
Repeatable for credit
Mandatory CR/NC/RP
1 unit

BIOL 299. Master’s Thesis
Prerequisite: Admission to candidacy for the Master of Science degree.
Pre/Corequisite: Not available to Open University Students
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

BIOL 1290R. Culminating Experience Supervision
This course covers the same topics and has the same objectives as BIOL 298/BIOL 299.
Prerequisite: BIOL 298 or BIOL 299
Note: No Degree Credit
Repeatable for credit
No Degree Credit
1 unit

BOTANY

UPPER DIVISION

BOT 104. Plant Taxonomy
Taxonomic relations and classification of ferns, conifers and flowering plants, with practice in their collection and identification. Selected techniques of cytotoxonomy, chemotoxonomy, palynology and numerical taxonomy.
Prerequisite: BIOL 113 or 114 with a grade of "C" or better, or instructor consent.
Misc/Lab: Lecture 2 hours/lab 6 hours.
Normal Grade Rules
4 units

BOT 113. Comparative Taxonomy
See BIOL 113
Normal Grade Rules
3 units

BOT 114. Functional Morphology
See BIOL 114
Normal Grade Rules
3 units

BOT 160. Ecology
See BIOL 160
Normal Grade Rules
CE: R
4 units

BOT 165. Plant Communities of California
Prerequisite: BIOL 113 or 114 with a grade of "C" or better, or instructor consent.
Misc/Lab: Lecture 2 hours/lab-field 6 hours (some weekend field trips).
Normal Grade Rules
4 units

BOT 180. Individual Studies
Advanced work in special fields.
Prerequisite: Majors only or instructor consent.
Repeatable for credit
Credit / No Credit
1-4 units
BOT 186. Senior Thesis
Advanced laboratory or field research under supervision of faculty member, culminating in a senior thesis.
Prerequisite: Instructor consent.
Credit / No Credit
2-4 units

BOT 192. Int’l Program Studies
Repeatable for credit
Mixed Grading
1-12 units

ENT 106. Forensic Entomology
Forensic entomology examines the science and methodology used to collect, analyze, and present information regarding insects and other arthropods that are important in legal investigations.
Prerequisite: BIOL 30 and 31 with grades of “C” or better, or instructor consent.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

ENT 113. Comparative Taxonomy
See BIOL 113
Normal Grade Rules
3 units

ENT 114. Functional Morphology
See BIOL 114
Normal Grade Rules
3 units

ENT 180. Individual Studies
Advanced lab work in entomology.
Prerequisite: Instructor consent.
Repeatable for credit
Credit / No Credit
1-4 units

ENT 185. Seminar in Entomology
Current entomological literature and research and historical development of various entomological concepts.
Normal Grade Rules
1 unit

ENT 186. Senior Thesis
Advanced laboratory or field research under supervision of faculty member, culminating in a senior thesis.
Prerequisite: Instructor consent.
Credit / No Credit
2-4 units

ENT 281. Advanced Laboratory Skills in Entomology
Advanced lab work in entomology.
Prerequisite: MA graduate standing.
Credit / No Credit
1-4 units

ENT 282. Entomology Internship
Professional career development and/or individualized preparation for culminating graduate experience.
Prerequisite: Graduate standing.
Credit / No Credit
3 units

ENT 283. Directed Readings in Entomology
Directed reading assignments in entomological literature including but not limited to: research, governmental guidelines/protocols/procedures and risk assessment/management.
Prerequisite: MA graduate standing.
Normal Grade Rules
2 units

ENT 298. Research
Independent investigations.
Prerequisite: Instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

ENT 299. Master’s Thesis or Project
Prerequisite: Admission to candidacy for the master’s degree.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

MEDICAL PRODUCT DEVELOPMENT MANAGEMENT

SMPD 202T. MPDM Seminars: Biomedical Business
Special Topics seminar in the management principles and practices of medical product development. Repeatable for credit when topic changes.
Prerequisite: Graduate Standing
Repeatable for credit
Normal Grade Rules
3 units

SMPD 281A. Clinical Development Seminar I
Provides a comprehensive overview of the regulated medical product development process. Topics include initial drug development/device invention to drug/device approval and post-market surveillance. Discussions include non-clinical and clinical studies, regulations, clinical indication determination, research methodology and ethical conduct. Fulfills GWAR requirement.
Prerequisite: Admission to MPDM program or certificate
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
3 units
SMPD 281B. Clinical Development Seminar II
Current practices for medical product development and the clinical and regulatory pathways required for approval in the USA; including non-clinical study design and CMP process. Emphasis on oral and written communication. Presentations from experts in the field.
Prerequisite: Admission to the Medical Product Development Management program and completion of SMPD 281A.
Misc/Lab: Lecture 2 hours/Activity 4 hours
Normal Grade Rules
2 units

SMPD 283A. Regulatory Affairs I
Provide foundational knowledge of the pharmaceutical, biotechnology and biodevice industries with focus on company organization, product development and commercialization-associated activities such as chemical synthesis, device prototyping, quality assurance, regulatory affairs, manufacturing, control, marketing, and post-marketing surveillance.
Prerequisite: Admission to the MPDM program.
Normal Grade Rules
3 units

SMPD 283B. Regulatory Affairs II Device-Diagnostics
Overview of laws and regulations enforced by the US Food and Drug Administration (FDA) and other Regulatory Agencies as they relate to biotechnology, medical device and diagnostic industries.
Prerequisite: Admission to the MPDM program.
Normal Grade Rules
3 units

SMPD 285. MPDM Research / Practicum
Independent research project / practicum to explore deeper understanding or breadth of experience in medical product development management.
Prerequisite: Admission to MPDM program.
Repeatable for credit
Credit / No Credit
1 unit

SMPD 286. Statistical Methods in Clinical Trials
Overview of statistical methods used in the design and interpretation of clinical trials of drugs and medical devices.
Prerequisite: Admission to the MPDM program.
Normal Grade Rules
3 units

SMPD 287. Informatics in Drug and Device Development
Provides business and regulatory perspectives on electronic information technologies, processes and standards in the conduct of clinical trials. Special emphasis: data collection, clinical trial & data management randomization and drug supply, statistical processes, safety databases and electronic regulatory submission, electronic records and signatures, sys validation processes, and data standards.
Prerequisite: Admission to the MPDM program and completion of SMPD 286 and BUS 224C.
Normal Grade Rules
1 unit

SMPD 289A. Special Topics in Clinical Trials Management I
Seminar focusing on critical issues in clinical development. This programmatic capstone series of seminars challenges the students to demonstrate a mature, professional manner and technical proficiency in the field. Emphasis on oral and written communications. Course includes numerous presentations by industry experts.
Prerequisite: Admission to MPDM program and completion of SMPD 285 and BUS 223.
Misc/Lab: Lecture 2 hours/Activity 4 hours
Normal Grade Rules
2 units

SMPD 289B. Clinical Trials Seminar II
Capstone course of the MPDM program.
Prerequisite: Admission to MPDM program.
Normal Grade Rules
3 units

MICROBIOLOGY

MICR 101. General Microbiology
The fundamentals of basic microbiology emphasizing cell structure, cell metabolism, molecular genetics, microbial diversity and ecological relationships.
Prerequisite: BIOL 30 and 31, CHEM 8 or CHEM 112A, all with a grade of "C" or better or instructor consent.
Misc/Lab: Lecture 2 hours/lab 6 hours.
Normal Grade Rules
4 units

MICR 122. Bacterial Diversity
The focus of this course is the study of the characteristics and microecology of unusual prokaryotes. Molecular and traditional approaches will be discussed.
Prerequisite: MICR 101 (with a grade of C or better or instructor consent)
Misc Lecture 1 hour
Normal Grade Rules
2 units

MICR 122L. Bacterial Diversity Laboratory
Laboratory techniques in bacterial diversity.
Prerequisite: MICR 101 (with grade of "C" or better) or Instructor Consent
Misc/Lab: 6 hour Lab.
Normal Grade Rules
2 units

MICR 123. Food Microbiology
Detection and enumeration of both normal microbiological flora and spoilage organisms of specific foods. Control of sanitation problems in food production and processing.
Prerequisite: MICR 101 (or equivalent with grade of "C" or better).
Pre/Corequisite: BIOL 6.
Normal Grade Rules
1 unit

MICR 123L. Food Microbiology Laboratory
Practical microbiological techniques for the detection and enumeration of both normal microbiological flora and spoilage organisms of specific foods; and for the control of sanitation problems in food production and processing. Field trips to local food industries and/or a water treatment plant may be required within lab hours.
Prerequisite: MICR 101 or equivalent (with grade of "C" or better).
Misc/Lab: 6 hour Lab
Normal Grade Rules
2 units
MICR 127. Microbial Physiology
Studies of the physiology of microbes specifically focusing on bacteria (growth, metabolism and regulation of gene expression), growth experiments and mutagenesis techniques. CE Area: R for Biology Majors only
Prerequisite: CHEM 335, MICR 166, both with a C or better, or instructor consent. Passage of the Writing Skills Test (WST) or ENG/LLD 100A with a C or better (C- not accepted). Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, co-registration in 100W is strongly recommended. Majors only.
Normal Grade Rules
CE: R
2 units

MICR 127L. Microbial Physiology Laboratory
Laboratory experiments involve small and large-scale growth experiments (fermentation, continuous culture and batch culture), techniques used in mutagenesis and mutant characterization as well as construction and studies of reporter fusions.
Prerequisites: MICR 101 (with grade of “C” or better) or Instructor Consent
Misc/Lab: Lab 6 hours.
Normal Grade Rules
2 units

MICR 140. Hematology
Blood and blood forming organs. Theoretical and clinical aspects of normal and pathologic conditions of the erythrocytic, leukocytic, coagulation and blood group systems.
Prerequisite: Micro 101 with C or better.
Repeatable for credit
Normal Grade Rules
3 units

MICR 140L. Hematology Laboratory
Laboratory methodologies used to diagnose hematologic pathology.
Prerequisite: MICR 101 (with a grade of “C” or better) or Instructor Consent
Pre/corequisite: MICR 140.
Misc/Lab: Lab 2 hours.
Repeatable for credit
Normal Grade Rules
2 units

MICR 141. Pathogenic Microbiology I
Concepts and principles of medical microbiology, emphasizing the biology of host-parasite interactions and mechanisms of infectious disease pathogenesis.
Prerequisite: MICR 101, BIOL 107 with C or better, CHEM 008 OR CHEM 112A or Instructor Consent
Normal Grade Rules
3 units

MICR 141L. Pathogenic Microbiology I - Laboratory
Application of principles of medical microbiology to pathogen isolation, characterization and identification.
Prerequisite: MICR 101, BIOL 107, BIOL 107L with grades of “C” or better, Organic Chemistry or instructor consent.
Corequisite: MICR 141.
Misc/Lab: Lab 9 hours.
Normal Grade Rules
3 units

MICR 142. Pathogenic Microbiology II
Concepts and principles of medical microbiology, emphasizing the biology of host-parasite interactions and mechanisms of infectious disease pathogenesis. Continuation of MICR 141.
Prerequisite: MICR 141 (with grade of “C” or better).
Misc/Lab: Lecture 3 hours.
Normal Grade Rules
3 units

MICR 142L. Pathogenic Microbiology II - Laboratory
Application of principles of medical microbiology to pathogen isolation, characterization and identification.
Prerequisite: MICR 141 and MICR 141L (with grades of “C” or better); BIOL 107L.
Corequisite: MICR 142.
Misc/Lab: Lab 9 hours.
Normal Grade Rules
3 units

MICR 166. Bacterial Genetics
Fundamental prokaryotic genetic concepts and their incorporation into problem solving and experimental design. Emphasis on how and why someone might use genetic approaches to their benefit when addressing biological questions in bacteria.
Prerequisites: MICR 101 with a “C or better” or Instructor Consent
Normal Grade Rules
4 units

MICR 170. General Virology
Molecular and biological aspects of animal, plant and microbial viruses and their relationships with their hosts.
Prerequisite: BIOL 30, BIOL 31, and Organic Chemistry with a “C” or better
Normal Grade Rules
3 units

MICR 180L. Individual Studies
Advanced lab work in special fields.
Prerequisite: Majors only or instructor consent.
Repeatable for credit
Credit / No Credit
1-4 units

MICR 184. Directed Reading
Assigned readings of selected books, journals and papers to fill gaps in training or for contact with new fields. Evaluation through weekly reports and conferences.
Prerequisite: Instructor consent.
Repeatable for credit
Credit / No Credit
1-4 units

GRADUATE

MICR 291A. Advanced Hematology
Students will engage in advanced study of normal and abnormal hemolytic conditions, including molecular diagnosis of disorders.
Credit / No Credit
4 units

MICR 291B. Advanced Pathophysiology
Students will engage in advanced study of normal and abnormal physiologic conditions, including but not limited to diseases of glucose metabolism, organ dysfunction, endocrine disorders and electrolyte balance.
Note: Not an elective for Biology majors and not available to Open University students.
Credit / No Credit
4 units

MICR 291C. Advanced Human Immunology
Students will engage in advanced study of normal and abnormal immunologic conditions in humans, including molecular diagnosis of those disorders.
Note: Not an elective for Biology majors and not available to Open University students.
Repeatable for credit
Credit / No Credit
4 units

MICR 291D. Advanced Medical Microbiology
Students will engage in advanced study of bacteria, fungi, viruses and other organisms of significance in medical microbiology. Emphasis will be on experience through clinical practice.
Note: Not an elective for Biology majors and not available to Open University students.
Credit / No Credit
4 units

MICR 291E. Advanced Immunohematology
Students will engage in advanced study of immunohematology and the use of transfused products in medical treatment. Emphasis will be on experience through clinical practice.
Note: Not an elective for Biology majors and not available to Open University students.
Credit / No Credit
4 units

RETURN TO LAST PAGE
DESCRIPTION CONTENTS
MICR 291F. Molecular Based Diagnostic Techniques
Students will engage in advanced study of application of molecular techniques for diagnostic purposes. Emphasis will be on advanced practical training.
Note: Not an elective for Biology majors and not available to Open University students.
Credit / No Credit
4 units

MICR 291G. Clinical Laboratory Management
Students will engage in advanced study of laboratory management skills, including finance, time management, team building, quality control, basic human resources management and other topics. Emphasis will be on practical training.
Note: Not an elective for Biology majors and not available to Open University students.
Repeatable for credit
Credit / No Credit
4 units

MICR 292. Topics and Demonstrations in Clinical Laboratory Science
Presentations and demonstrations of topics and selected clinical lab procedures.
Prerequisite: Baccalaureate degree in a biological science, valid license as a CLS Trainee, admission into the CLS Traineeship, and instructor consent. Concurrent enrollment in MICR 292.
Repeatable for credit
Normal Grade Rules
3 units

MICR 298. Research
Advanced individual work in a specialized field of microbiology.
Prerequisite: Instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

MICR 299. Master’s Thesis or Project
Prerequisite: Admission to candidacy for the Master of Science degree and instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

MICR 1291. Field Work in Clinical Laboratory Science
Fieldwork in affiliated hospital laboratories prerequisite to the California Licensing examination for Clinical Laboratory Science (CLS).
Prerequisite: Baccalaureate degree in a biological science, valid license as a CLS Trainee, admission into the CLS Traineeship, and instructor consent. Concurrent enrollment in MICR 292.
Notes: No Degree Credit.
Repeatable for credit
No Degree Credit
12 units

ZOOLOGY

UPPER DIVISION

ZOOL 113. Comparative Taxonomy
See BIOL 113
Normal Grade Rules
3 units

ZOOL 114. Functional Morphology
See BIOL 114
Normal Grade Rules
3 units

ZOOL 115. Invertebrate Zoology and Natural History
The evolution, distribution, structure, natural history and systematics of invertebrates other than insects.
Prerequisite: Biol 113 or 114, or instructor consent.
Misc/Lab: Lecture 2 hours/lab-field trips 6 hours.
Normal Grade Rules
4 units

ZOOL 116. Vertebrate Evolution and Natural History
Prerequisite: BIOL 113 or 114 with a grade of “C” or better, or instructor consent.
Misc/Lab: Lecture 2 hours/lab 6 hours with several field trips.
Normal Grade Rules
4 units

ZOOL 150. Fishery Conservation and Management
Principles and techniques for evaluating and managing habitats, life history characteristics and population dynamics of aquatic vertebrates.
Prerequisite: BIOL 160 or BOT 160
Misc/Lab: Lecture 1 hour/lab-field 6 hours.
Notes: Some optional weekend field trips.
Normal Grade Rules
3 units

ZOOL 160. Zoogeography
Animal distribution throughout the world and factors and basic principles affecting it.
Prerequisite: BIOL 31 or equivalent or instructor consent.
Normal Grade Rules
3 units

ZOOL 180. Individual Studies
Advanced lab work in special fields.
Prerequisite: Majors only or instructor consent.
Repeatable for credit
Credit / No Credit
1-4 units

ZOOL 186. Senior Thesis
Advanced laboratory or field research under supervision of faculty member, culminating in a senior thesis.
Prerequisite: Instructor consent.
Credit / No Credit
2-4 units

GRADUATE

ZOOL 298. Research
Independent investigations.
Prerequisite: Instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

ZOOL 299. Master’s Thesis or Project
Prerequisite: Admission to candidacy for the master’s degree.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units
Biomedical Engineering
Department Courses

BIOMEDICAL ENGINEERING

LOWER DIVISION

BME 025. Introduction to Biomedical Engineering Design
Introduction to the broader field of biomedical engineering, with emphasis on design of biomedical devices. Development of familiarity with standards and software tools relevant to the biomedical engineering industry, packages for design and analysis, FDA and EU guidelines.
Prerequisite: CHEM 3A, ENGR 10, with C- or better
Co-requisite: MATH 31, PHYS 50
Misc/Lab: 2 hours lecture/ 2 hours lab
Normal Grade Rules
3 units

BME 115. Foundations of Biomedical Engineering
Introduction to the fundamental principles of biomedical engineering. Core conservation equations are applied to mass, energy, charge, and momentum transfer in biomedical systems. Additional topics provide a breadth of exposure in cell and molecular biology, diagnostics and analytical techniques, statistical analysis of biomedical data, bioinformatics, bioinstrumentation, FDA regulations, and biomedical ethics.
Prerequisite: BIOL 30, CHEM 001B, ENGR 010, MATH 032 and PHYS 050
Misc/Lab: Lecture 3 hours / Lab 3 hours
Normal Grade Rules
4 units

BME 117. Biotransport Phenomena
Applications of fundamentals of thermodynamic and kinetic aspects of energy and mass transport phenomena to biological systems. Development of quantitative description of transport processes beginning from the molecular level to entire organ systems.
Prerequisite: BME 115, Math 123 or Math 133A, BME 130 all with C- or better.
Normal Grade Rules
3 units

BME 127. Quantitative Methods in Biomedical Engineering
Course applies computational and numerical analysis techniques to myriad Engineering problems. The course focus is on application of numerical analysis to BME topics ranging from image analysis to nonlinear systems. We will employ various computational tools, including MATLAB/Simulink and ImageJ.
Prerequisite: MATH 32, BIOL 30, CHEM 1B all with C- or better
Corequisite: BME 115, MATH 133A or MATH 123
Misc/Lab: Lecture 2 hours/Lab 3 hours
Normal Grade Rules
3 units

BME 147. Quantitative Methods for BME
Descriptive statistics; hypothesis testing; linear and nonlinear model regression; statistical approach to medical device verification and validation; statistical sampling plans; analysis of survival data; bioinformatics; quantitative methods for design and testing of biomedical devices; programming for statistical analysis (R, Matlab).
Prerequisite: MATH 32, BME 115, BME 177 all with C- or better.
Normal Grade Rules
3 units

BME 167. Introduction to Engineering Biomechanics
See ME 167.
Normal Grade Rules
3 units

BME 174. Biomedical Regulatory Requirements
Study of Food and Drug Administration regulations for design of biomedical engineering products and processes, including design review and documentation processes; Good Laboratory Practices; Good Manufacturing Practices; quality and reliability requirements.
Prerequisites: ENGR 100W, BME 115
Corequisite: BME 177
Normal Grade Rules
3 units

BME 175. Biomaterials
See MATE 175.
Normal Grade Rules
3 units

BME 177. Physiology for Engineers
Structure and function of physiological systems and discussion of topics of particular importance to the design, development, construction and clinical application of biomedical devices. Practical laboratory application of technologies to monitor, repair, replace or augment physiological systems.
Prerequisite: BIOL 30, CHEM 1B, PHYS 50
Misc/Lab: Lecture 2 hour/Lab 3 hours.
Normal Grade Rules
3 units

BME 180. Individual Studies
Individual work on special topics. Students work with faculty and/or industry mentors on design, research, lab development or other types of projects.
Course credit: 1-3 units.
Prerequisite: Upper division standing
Repeatable for credit
Credit / No Credit
1-3 units

BME 182. Orthotics and Prosthetics
Diagrammatic breakdown of prosthetic design covering patient interfaces, socket designs, materials, modular components, prosthetic feet, prosthetic knees, upper extremity designs. Treatment options within current standard of care, device design trends, future device, material, and design needs.
Prerequisite: CE 95 or CE 99, MatE 25, BME 115, BME 177
Normal Grade Rules
3 units

BME 188. Biomedical Device Manufacturing
Overview of manufacturing processes for producing biomedical devices, implants, instruments, prosthetics, and capital equipment. Introduction to design processes and tools that facilitate start-up and expansion of manufacturing activities.
Prerequisite: BME 25, MatE 25, BME 115, BME 177, all with C- or better
Normal Grade Rules
3 units

BME 189. Biomedical Product Realization
Basics of product realization from concept to clinical trials to prepare students for career(s) in multiple bioengineering sectors. Specific topics include: Product Concept, Research & Development, Design Controls in Application, Design Verification and Design Validation, Process Control in Application, Software Validation, Effective Risk Management, Engineering and Quality Management System Practices.
Prerequisites: ENGR 100W, BME 147, BME 174 all with a grade of C- or better.
Normal Grade Rules
3 units

UPPER DIVISION

BME 117. Biomedical Engineering Design
Prerequisite: ENGR 100W, BME 147, BME 174 all with a grade of C- or better.
Normal Grade Rules
3 units

BME 167. Introduction to Engineering Biomechanics
See ME 167.
Normal Grade Rules
3 units

BME 174. Biomedical Regulatory Requirements
Study of Food and Drug Administration regulations for design of biomedical engineering products and processes, including design review and documentation processes; Good Laboratory Practices; Good Manufacturing Practices; quality and reliability requirements.
Prerequisites: ENGR 100W, BME 115
Corequisite: BME 177
Normal Grade Rules
3 units

BME 175. Biomaterials
See MATE 175.
Normal Grade Rules
3 units

BME 177. Physiology for Engineers
Structure and function of physiological systems and discussion of topics of particular importance to the design, development, construction and clinical application of biomedical devices. Practical laboratory application of technologies to monitor, repair, replace or augment physiological systems.
Prerequisite: BIOL 30, CHEM 1B, PHYS 50
Misc/Lab: Lecture 2 hour/Lab 3 hours.
Normal Grade Rules
3 units

BME 180. Individual Studies
Individual work on special topics. Students work with faculty and/or industry mentors on design, research, lab development or other types of projects.
Course credit: 1-3 units.
Prerequisite: Upper division standing
Repeatable for credit
Credit / No Credit
1-3 units

BME 182. Orthotics and Prosthetics
Diagrammatic breakdown of prosthetic design covering patient interfaces, socket designs, materials, modular components, prosthetic feet, prosthetic knees, upper extremity designs. Treatment options within current standard of care, device design trends, future device, material, and design needs.
Prerequisite: CE 95 or CE 99, MatE 25, BME 115, BME 177
Normal Grade Rules
3 units

BME 188. Biomedical Device Manufacturing
Overview of manufacturing processes for producing biomedical devices, implants, instruments, prosthetics, and capital equipment. Introduction to design processes and tools that facilitate start-up and expansion of manufacturing activities.
Prerequisite: BME 25, MatE 25, BME 115, BME 177, all with C- or better
Normal Grade Rules
3 units

BME 189. Biomedical Product Realization
Basics of product realization from concept to clinical trials to prepare students for career(s) in multiple bioengineering sectors. Specific topics include: Product Concept, Research & Development, Design Controls in Application, Design Verification and Design Validation, Process Control in Application, Software Validation, Effective Risk Management, Engineering and Quality Management System Practices.
Prerequisites: ENGR 100W, BME 147, BME 174 all with a grade of C- or better.
Normal Grade Rules
3 units
BME 198A. Senior Design Project I
Apply bioengineering principles to the design and implementation of an approved project, from problem definition to analysis, design and validation, and experimentation, including possible construction and testing. Integrate global and social issues in engineering. GE Area: S when taken with BME Major sequence.
Prerequisite: ENGR 100W, BME 117, BME 177 all with a C or better. Passage of the Writing Skills Test (WST) or ENGLISH/LDL 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Allowed Declared Major: Biomedical Engineering or Graduate Standing.
Corequisite: ENGR 195A, and BME 147 or CHE 162 or ISE 130.
Note: Meets CE Areas S and V when course is taken in combination with: BME 198B, ENGR 195A and ENGR 195B
Misc/Lab: Lecture 1 hour/Lab 3 hours.
Normal Grade Rules
GE S
2 units

BME 198B. Senior Design Project II
Continuation of BME 198A. Culmination of project requiring formal oral presentation and report consisting of documentation of project methodology and results. GE Area: V when taken with BME major sequence.
Prerequisite: BME 198A with C or better; BME 147 with C- or better. Passage of the Writing Skills Test (WST) or ENGLISH/LDL 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Allowed Declared Major: Biomedical Engineering or Graduate Standing.
Pre/Corequisite: ENGR 195B
Note: Meets CE Areas S and V when course is taken in combination with: BME 198A, ENGR 195A and ENGR 195B
Misc/Lab: Lecture 1 hour/Lab 3 hours.
Normal Grade Rules
GE V
2 units

BME 207. Experimental Methods in BME
Introduction to experimental methods and techniques used in Biomedical Engineering. Principles of data representation, analysis, and experimental designs in bioreactors, biomaterials, and medical devices. Topics include error analyses, modeling, normality testing, hypothesis testing. This is a hands-on course, and students will operate equipment in the departments laboratories.
Prerequisite: BME 115, graduate standing
Misc/Lab: 2 hours lecture/3 hours lab
Normal Grade Rules
3 units

BME 210. Mathematical Methods in Biomedical Engineering
Mathematical and computational methods applied to biomedical engineering. Topics include: i) statistical analysis of biomedical datasets, ii) design of experiments to meet FDA requirements, iii) solution techniques for partial differential equations, and iv) modeling of stochasticity in biological systems including error analysis.
Prerequisite: CompE 30, Math 133A, Graduate standing (or by instructor consent)
Normal Grade Rules
3 units

BME 254. Microscale Biomedical Systems: Physics and Applications
Introduction to microscale physics and phenomena used in biomedical systems; analytical techniques and diagnostic applications. Course will discuss: microscale fluid mechanics (Navier-Stokes), electrical phenomena (Maxwell), and particle/molecule/device interactions. Case studies focus on applications of microscale physics to biomedical engineering analyses.
Prerequisite: BME 117, Math 123 or Math 133A, and graduate standing, or instructor consent
Normal Grade Rules
3 units

BME 256. Biomedical Applications of Nanoplatforms
Biomedical applications of nanoplatforms explores the development of three cutting edge sub fields: nanoplatforms in therapeutics; nanoplatforms in prosthetics and implants; and nanoplatforms in diagnosis and screening. The socioeconomic risks and solutions of nanoplatforms in biomedical applications are also explored.
Prerequisite: BME 177, Graduate Standing or instructor consent
Normal Grade Rules
3 units

BME 258. Medical Imaging for Engineers
Prerequisite: Phys 51, Math 123 or Math 133A, BME 177, and BME 210, or Instructor consent.
Misc/Lab: Lecture 3 hours/Lab 3 hours
Normal Grade Rules
3 units

BME 272. Biomedical Device Design and Principles
Principles involved in designing medical devices to function reliably in human body; interaction between synthetic and biological materials; use of design principles during conception and development of medical devices; effect of design on manufacture clinical performance, reliability and quality/regulatory assurance.
Prerequisite: BME 115, Graduate standing or instructor consent.
Normal Grade Rules
3 units

BME 274. Regulatory, Clinical and Manufacturing Aspects of Medical Devices
FDA regulations related to medical devices; planning and implementation of clinical trials; sterilization techniques; failure mode analysis; quality control for medical device manufacture; intellectual property; field trips to device manufacturers.
Prerequisite: BME 115, Graduate standing, or instructor consent.
Normal Grade Rules 3 units

BME 288. Tissue Engineering
This course strikes a balance among the diversity of subjects that are related to tissue engineering, including biology, chemistry, material science, and engineering, among others. Emphasis on research areas of clinical value for engineering new organ systems.
Prerequisite: Graduate Standing or Instructor Consent
Normal Grade Rules 3 units

BME 291. MS Thesis/Project Preparation Seminar
Development of project or thesis proposal.
Prerequisites: Good standing (GPA 3.0), classified status in the BME program, candidacy form submitted, satisfactory completion of graduation writing assessment requirement (GWAR).
Credit / No Credit
1 unit

BME 298. MS Project
Masters project work in Biomedical Engineering.
Prerequisite: Admission to candidacy. BME 291
Mandatory CR/NC/RP 2 units

BME 299. MS Thesis
Masters thesis work in Biomedical Engineering.
Prerequisite: Admission to candidacy. BME 291, BME 298.
Mandatory CR/NC/RP 3 units
NO DEGREE CREDIT

BME 1290R. Culminating Experience Supervision

Continued work on dissertation, thesis, or project or in preparation for comprehensive exams beyond the minimum required units for cases in which final deliverables are still in progress and all other degree requirements except the culminating experience have been fulfilled.

Prerequisite: Outstanding RP grade in a previous semester in BME 298 or 299

Note: No Degree Credit.

No Degree Credit

1 unit
Business Courses

ACCOUNTING AND FINANCE

LOWER DIVISION

BUS1 020. Financial Accounting
Accounting postulates and principles, application of accounting theory to accumulate and summarize financial data, critical analysis and interpretation of financial statements. Prerequisite: MATH 071.
Normal Grade Rules 3 units

BUS1 020N. Survey of Accounting
Introduction to accounting theory and techniques for business minors and non-business majors. Principles are applied to accumulating and summarizing financial data, critical analysis and interpretation of financial statements. Prerequisite: Sophomore status recommended, non-business majors only.
Normal Grade Rules 3 units

BUS1 021. Managerial Accounting
Uses of accounting data for managerial decision-making. Topics include: cost accumulation for product costing; cost structure for control and motivation; cost-volume-profit relationships; profit planning; standard costing; flexible budgets; and relevant costs for non-routine decisions. Prerequisite: BUS 20 or BUS 20N.
Normal Grade Rules 3 units

BUS1 120A. Accounting Information Systems
Documentation, flow and processing of accounting information in business organizations; related principles of internal control; system design principles. Computerized and non-computerized procedures are used for processing. Prerequisite: BUS 20 with a minimum grade of “C”. Declared Major in Accounting, Accounting Information Systems or Corporate Accounting and Finance. Upper division standing. Lower Division Business Pool, declared Accounting, AIS or CAF major.
Normal Grade Rules 3 units

BUS1 120B. Advanced AIS and IS Risk Assessment
Hands-on project-oriented computer lab to develop working knowledge and skills in using Microsoft Excel and Access as application development tools. Students design a prototype accounting system and generalize audit module prototype assessing integrity of previously designed databases. Upper division standing. Lower Division Business Pool or Business Minor. Prerequisite: BUS 120A and COMM 100W or ENGL 100WB or LLD 100WB with a minimum grade of “C” or better in both.
Normal Grade Rules 3 units

BUS1 120C. Network Environment and Accounting Controls
Introduction to current network arrangements in small, medium and large corporations, including hardware/software components used to control the integrity, and access of networks. Internet interfaces including TCP/IP basics and network configurations. A practical NT domain and its administration will be included. Prerequisite: BUS 120B with a minimum grade of “C”. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules 3 units

BUS1 120D. Accounting Topics in IT Audit
Students will be exposed to real life audit environment cases. Students will apply the EDP auditing techniques of integrated audit risk management, auditing of platforms, applications, and network as appropriate. Discussion of network security, including telecommunications, firewall, encryption and other current IT Audit issues will be included as part of IT discussion. Prerequisite: BUS1 120B and BUS1 120C with a grade of “C” in each. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules 3 units

BUS1 122A. Management Accounting and Control Systems
Examination of the nature, objectives and procedures of cost management as applied to product and service costing, decision-making and control systems. Prerequisite: BUS 20 with a minimum grade of “C” and upper division standing. Declared Major in Accounting, Accounting Information systems or Corporate Accounting and Finance.
Normal Grade Rules 3 units

BUS1 121B. Intermediate Accounting II
Principles, controls, and theory of accounting for liabilities and equities; preparation, utilization, and analysis of cash flow and fund statements; financial ratios and statistical analysis of financial statements accounting data. Projects involving spreadsheet software required. Prerequisite: BUS 20 with a minimum grade of “C” and Upper division standing. Student must be a declared Accounting, Accounting Information Systems, Finance, or Corporate Financial Management major to enroll.
Normal Grade Rules 3 units

BUS1 121A. Intermediate Accounting I
Principles, control and theory of accounting for assets; correction of prior year’s earnings; measurement and determination of income. Projects involving spreadsheet software required. Prerequisite: BUS 20 with a minimum grade of “C” and Upper division standing. Declared Major in Accounting, Accounting Information Systems, Finance, or Corporate Financial Management major to enroll.
Normal Grade Rules 3 units

BUS1 120G. Programming and Systems Development in AIS
This course covers the process, technical elements and current techniques used in accounting systems development. Programming topics include business reporting languages. Systems development topics include requirements analysis, functional specification, system design, implementation, testing, and maintenance. Prerequisite: BUS1 020 with a minimum grade of “C”. Lower division business pool or Business Minor.
Normal Grade Rules 3 units

BUS1 120F. Advanced Accounting Topics
Principles, control and theory of accounting for assets; auditing and correction of prior year’s earnings; measurement and determination of income. Projects involving spreadsheet software required. Prerequisite: BUS1 120 with a minimum grade of “C” and Upper division standing. Declared Major in Accounting, Accounting Information Systems, Finance, or Corporate Financial Management major to enroll.
Normal Grade Rules 3 units
SJSU SAN JOSE STATE UNIVERSITY  

Academic Year 2018-2019  

Course Descriptions  
v1  
June 1, 2018  

ALL DATES, FEES & INFORMATION SUBJECT TO CHANGE WITHOUT NOTICE  

BUS1 123A. Tax Factors of Business and Investment Decision  
Introductory course in taxation with emphasis on certain themes that pervade the federal income tax system and its impact on business. Property transactions, deferral techniques, accounting periods, accounting methods and research techniques with emphasis on corporations.  
Prerequisite: BUS 20 with a minimum grade of “C,” and declared Accounting, Accounting Information Systems or Corporate Accounting Finance Major. Upper division standing. Lower Division Business Pool, declared Accounting, AIS or CAF Major.  
Normal Grade Rules 3 units  

BUS1 123C. Taxation of Individuals and Pass Through Entities  
Emphasis on the unique factors involved in taxation of individuals and pass-through entities (partnerships, S corporations, estates and trusts). Taxation of the transfer of wealth through gifts and inheritance.  
Prerequisite: BUS 123A with a grade of “C” or better. Accounting and Corporate Accounting Finance Majors only. Upper division standing. Lower Division Business Pool, Business Minor or Accounting or Corporate Accounting Finance Major.  
Normal Grade Rules 3 units  

BUS1 124. Forensic Accounting  
This course will examine the various frauds that are perpetrated on companies and discuss ways the accountant can uncover the frauds. The criminal justice system will be reviewed and the various litigation-support functions provided to attorneys by accountants will be discussed.  
Prerequisite: BUS 20, COMM 100W or ENGL 100WB or LLD 100WB, BUS 121A and BUS 121B with a minimum grade of “C” in each. Accounting and Corporate Accounting Finance Majors only.  
Normal Grade Rules 3 units  

BUS1 125. Special Financial Reporting Topics  
Analysis of specialized and emerging accounting topics (such as interim reporting, deferred taxes, post-employment benefits and new FAS pronouncements) with emphasis on research, application and analytical skills.  
Prerequisite: COMM 100W or ENGL 100WB or LLD 100WB, BUS 121A and BUS 121B (with minimum grade of “C” in each). Lower division business pool or Business Minor. Accounting and Corporate Accounting Finance Majors only.  
Normal Grade Rules 3 units  

BUS1 125A. Advanced Writing for Accounting  
Students learn to communicate accounting and other specialized financial information to a variety of audiences including employers, clients and the investing public in a manner that promotes clarity, accuracy and professionalism.  
Prerequisite: BUS1 121A  
Normal Grade Rules 3 units  

BUS1 125B. Accounting Ethics  
Students study accounting ethics, professional codes of conduct and the application of accounting ethics in various fields of accounting including auditing, managerial accounting and taxation.  
Pre-requisite: BUS1 121A, BUS1 122A  
Normal Grade Rules 3 units  

BUS1 125C. Professional Development and Communications  
Interview and verbal presentation skills, including computer applications, in professional, business and social situations are developed. Professional Skills and personal awareness are emphasized.  
Prerequisites: BUS 20  
Normal Grade Rules 3 units  

BUS1 125D. Internship in Accounting  
Course integrates accounting education with work experience and exposes students to career opportunities and accounting in the business environment. It provides individualized educational experience through structured employment and on-the-job learning.  
Prerequisite: BUS1 121A and BUS1 125A  
Normal Grade Rules 3 units  

BUS1 126. Advanced Accounting  
Accounting for multi-unit operations: consolidated reporting issues, transfer pricing issues, globalization issues (foreign tax structures, organizational forms, and international accounting); translating foreign currency transactions and operations, hedging foreign currency exposures, goodwill, and business combinations. Extensive use of spreadsheets (Excel)  
Prerequisite: COMM 100W or ENGL 100WB or LLD 100WB, BUS 121A and BUS 121B (with minimum grade of “C” in each). Lower Division Business Pool, Business Minor, Accounting or Corporate Accounting Finance Majors only.  
Normal Grade Rules 3 units  

BUS1 127A. Honors Practicum in Corporate Financial Management  
Corporate sponsored projects in accounting and finance. Students are assigned to a host company and are required to work with the host company and faculty advisor on a topic in financial management. A report will be presented. Students are admitted based on an average 3.0 GPA in four prerequisite courses.  
Prerequisite: COMM 100W or ENGL 100WB, BUS 121A, BUS 121B, BUS 122A, and BUS 170 with a minimum grade of “C” in each and instructor approval. Upper division standing. Lower Division Business Pool or Business Minor.  
Repeatable for credit  
Normal Grade Rules 3 units  

BUS1 127B. Advanced Honors Practicum  
Course involves advanced corporate sponsored projects in accounting and finance. Students are assigned to supervisory personnel at the host company under the advisement of the instructor. Course is repeatable for credit for a total of 6 units.  
Prerequisite: Declared major in Accounting, Finance, AIS or Corporate Financial Management and instructor consent.  
Repeatable for credit  
Normal Grade Rules 3 units  

BUS1 128. Accounting for Nonprofit Organizations  
Principles, objectives and methods of accounting for governmental and other nonprofit organizations.  
Prerequisite: COMM 100W or ENGL 100WB or LLD 100WB and BUS 121A (with minimum grade of “C” in both). Lower Division Business Pool, Business Minor, Accounting or Corporate Accounting Finance Majors Only.  
Normal Grade Rules 3 units  

BUS1 129A. Financial Auditing  
Emphasis on process by which an accountant forms an opinion on financial statement fairness of presentation. Examines public accounting profession, application of relevant professional standards, auditing procedures, and professional ethics.  
Prerequisites: BUS1 120A, BUS1 121A with grade of C or better.  
Normal Grade Rules 3 units
BUS1 129B. Operational Auditing
Study of professional and technical aspects of internal and operational auditing with emphasis on concepts, ethical conduct and significance in preparation/implementation of the audit and its findings. Effectiveness and efficiency of audits in industry and not-for-profits will be covered.
Prerequisite: COMM 100W or ENGL 100WB or LLD 100WB, BUS 120A, BUS 121A, BUS 121B and BUS 122A (with minimum grade of "C" in each). Lower division business pool or Business Minor.
Normal Grade Rules
3 units

BUS1 170. Fundamentals of Finance
The finance function and its relationship to other decision-making areas in the firm; the study of theory and techniques in acquisition and allocation of financial resources from an internal management perspective.
Prerequisite: BUS 21 or BUS 122A, ECON 1A, ECON 1B and BUS 90. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS1 171A. Financial Institutions and Markets
Study of financial markets and institutions that operate in them. Examinations of money and capital markets, interest rates and financial institutions, both depository and non-depository. Emphasis on past, current and future industry and regulatory authorities.
Prerequisite: BUS 170 (with minimum grade of "C")
Upper division standing. Business Administration Finance or Corporate Accounting and Finance majors only.
Normal Grade Rules
3 units

BUS1 171B. Commercial Banking
Analytical tools for the evaluation of the performance and risk of commercial banks. The measurement and management of interest rate, liquidity, credit and solvency risks. Historical and current banking regulations. Commercial credit analysis and loan policies.
Prerequisites: BUS 171A with a minimum grade of "C".
Normal Grade Rules
3 units

BUS1 172A. Investment Analysis
Procedures and tools necessary to evaluate investment variables, determine value and analyze risk/return characteristics of equity, fixed income securities, and alternative individual investments. Emphasizes responsible decisions and provides background for portfolio analysis.
Prerequisite: BUS 170 (with minimum grade of "C")
Upper division standing. Business Administration Finance or Corporate Accounting and Finance Majors only.
Normal Grade Rules
3 units

BUS1 172B. Portfolio Management
Basic procedures and analytical tools necessary to construct, analyze, evaluate and revise investment portfolios or groups of assets, including computerized portfolio models. Approach and content consistent with objectives of Chartered Financial Analyst (CFA) program.
Prerequisite: COMM 100W or ENGL 100WB or LLD 100WB and BUS 172A with a minimum grade of "C" in both. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS1 172C. Futures and Options
The use of derivatives for risk management by individuals, banks and corporations. The functioning of the futures and options markets for equities, fixed income and commodities. Option valuation models, Black-Scholes and beyond. Risk arbitrage. Applications in personal investment strategies.
Prerequisite: BUS 170 and BUS 172A with a minimum grade of "C" in each.
Normal Grade Rules
3 units

BUS1 173A. Financial Management: Theory and Policy
From the financial manager’s perspective, considerations and alternatives for maximizing a firm’s value. Tools for understanding what determines value and what managerial actions can alter value, by combining theory with practical knowledge of marketplace limitations.
Prerequisite: BUS 170 (with minimum grade of "C")
Upper division standing. Business Administration Finance or Corporate Accounting and Finance Majors only.
Normal Grade Rules
3 units

BUS1 173B. Problems in Financial Management
Advance study of business case materials, including assessment of financial condition; projection of capital requirements; and analysis of decisions pertaining to working capital, capital expenditures, financing, capital structure, dividends, mergers and reorganization.
Prerequisite: COMM 100W or ENGL 100WB or LLD 100WB and BUS 173A with a minimum grade of "C" in both. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS1 173C. Entrepreneurial Finance
Basic principles of finance applied to new ventures and small businesses. Topics include incorporation, venture capital, business models, financial analysis, valuation, capital structure, cash flow forecasting, growth and exit strategies.
Prerequisite: BUS 170 with a minimum grade of ‘C’ and Upper Division Standing
Normal Grade Rules
3 units

BUS1 175. Real Estate Finance
Real estate financing from the viewpoint of borrower and lender, financing mathematics, legal aspects of lending, appropriate financial instruments, taxes and real estate, loan cost analysis, loan valuation, development and assumability. Mortgage markets/institutions considered together with alternative financing techniques for various types of properties.
Prerequisite: BUS 170 (with minimum grade of "C")
Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS1 177. International Business Finance
Focuses on the determination of exchange rates and the workings of international financial markets. Develops exchange rate parity relationships and techniques for hedging exchange rate risk. Strategies for managing working capital, long term debt, fixed asset selection and international financial reporting are also examined.
Prerequisite: BUS 170 (with minimum grade of "C")
Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS1 179B. Selected Topics in Business Finance
Extensive investigation of selected topics with major emphasis on integration of finance theory and practice within a current business context.
Prerequisite: BUS 173A (with minimum grade of "C")
Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS1 196A. Accounting and Audit Analytics
Course develops basic principles of data analytics and applications for auditing, financial reporting, managerial accounting, and taxation.
Prerequisite: BUS1 121A, BUS2 90, BUS4 91L
Normal Grade Rules
3 units
BUS 196B. Corporate Finance II
Introduction to selected topics of corporate finance: mergers and acquisitions, bankruptcy, initial public offerings, working capital management, payout policy, capital structure, multinational financial management. Application of finance theory to investment and financing decisions of a corporation.
Prerequisite: BUS1 173A
Normal Grade Rules
3 units

BUS 201. Business Communications
This business communications course develops students’ written and oral communication skills, emphasizing clear, concise and coherent articulation via a multitude of channels: e-mails, memos, cover letters, resumes, presentations, reports, etc. The course enables students to continue practicing effective communication in all aspects of their academic and professional careers.
Normal Grade Rules
1 unit

BUS 202. Managing in the Global Economy
This course investigates the world economy, including how markets, institutions and organizations vary from country to country, and how global competition, climate change, digital and emerging economics, and shifting from manufacturing to a service economy affect management practice.
Prerequisite: Graduate standing and restricted to Business - MBA majors only
Normal Grade Rules
3 units

BUS 210. Developing and Managing People
Based on the philosophy that increased self-awareness and effective self-management leads to more effective management of others, uses experientially focused, integrating models, principles, and activities.
Prerequisite: Graduate standing and restricted to Business - MBA majors only
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units

BUS 211. Orientation and Behavioral Workshop
The course provides graduate business students with an overview of the graduate business program format. Students are introduced to key concepts in business communication and etiquette, case study methodology, and business strategy. This overview includes the opportunity to apply key concepts in a team format and discuss their strategic, behavioral and career implications.
Credit / No Credit
1 unit

BUS 220. Financial and Managerial Accounting
Introduces students to financial and managerial use of accounting information systems and concepts, including the sources, uses and limitations of accounting information as used by investors outside the firm and by managers within the firm.
Prerequisite: Graduate standing and restricted to Business - MBA majors only
Normal Grade Rules
3 units

BUS 220A. Financial Statement Analysis for Accountants
Course develops the ability to understand, interpret, and analyze financial information, and examines the relationship between financial statement information and the capital markets. Students develop financial analysis skills, and expand business knowledge from an accounting perspective.
Prerequisite: MSA Classified Standing.
Normal Grade Rules
3 units

BUS 220B. Financial Reporting and Analysis I
Principles, control and theory of accounting for assets, correction of prior year’s earnings; measurement and determination of income.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units

BUS 220C. Accounting Information Systems I
Will provide conceptual framework concerning contemporary accounting information systems including: database concepts, internal control, use of systems technology, applications, management, systems analysis/design and auditing.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units

BUS 220D. Financial Analysis and Markets
Provides an overview of the required skills and the environment appropriate to the financial and economic decision-making function of the firm. The integrated approach of this course is designed to identify and analytically evaluate those internal and external variables which contribute to economic and financial decisions. Strategies of financial management in practical settings, application of concepts and analytical tools.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units

BUS 220E. Financial Reporting and Analysis II
Continuation of Financial Reporting and Analysis I. Principles, controls, and theory of accounting for liabilities and equities; preparation, utilization, and analysis of cash flow statements; financial ratios and statistical analysis of financial statements accounting data.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units

BUS 220F. Management Accounting and Control Systems
Provides the student techniques with an overview of the concepts and procedures of cost accounting relevant to managerial decision-making. Emphasizes planning and control, inventory valuation and income determination, and performance measurement.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units
BUS 220G. Tax Factors of Business and Investment Decisions: Theory and Practice
Introduces essentials of tax research methodology, focusing on taxation of corporations and shareholders. Includes taxation of property transactions, deferral techniques, accounting periods, and accounting methods.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units

BUS 220H. Auditing: Concepts/Practice
Discusses the public accounting profession and its socio-economic role; auditing techniques with an emphasis on EDP environment; audit procedures, practice and programs; working paper preparation, unqualified and qualified report writing.
Prerequisite: MSA classified standing. Graduate Standing only.
Normal Grade Rules
3 units

BUS 220I. Forensic Accounting
Course will examine the frauds perpetrated on companies and methods of discovery. The criminal justice system will be reviewed and litigation support services provided by accountants to attorneys, including damage computations and testifying techniques and skills will be covered.
Normal Grade Rules
3 units

BUS 220J. Business Communications & Ethics
Emphasizes communication effectiveness and skill building for influencing and guiding people. Includes fundamental skill building in researching, organizing and writing reports, making persuasive presentations that are sensitive to the needs and requirements of clients, peers and managers.
Prerequisite: MSA classified standing.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units

BUS 220K. Accounting Practicum
The Accounting Practicum is an internship with an accounting firm or corporate finance group. This provides opportunities to apply program content to real-world environments, gain appreciation of work expectations and demands, and relate field experience to remaining program curriculum.
Prerequisite: MSA classified standing.
Credit / No Credit
3 units

BUS 220L. Legal and Ethical Environment of Accounting Practice
Emphasizes knowledge in the areas of the Law of Contracts and selected portions of the Uniform Commercial Code: Sales of Goods, Commercial Paper and other Negotiable Instruments; and Secured Transactions.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units

BUS 220M. Accounting Ethics
Examines professional ethical standards for accountants.
Focuses on professional codes of conduct and workplace decisions for professionals in the fields of auditing, managerial accounting and taxation.
Prerequisite: BUS 220H, Graduate Standing only.
Normal Grade Rules
3 units

BUS 220N. Management of Organizations and Projects
Examines the integrative role of the general manager as a strategist responsible for leading and managing multi-functional projects and develop skills related to leadership, planning, decision-making, motivating, scheduling and shaping organizational team culture by making extensive use of team building exercises/cases.
Prerequisite: MSA Classified Standing.
Normal Grade Rules
3 units

BUS 220P. Taxation of Individuals and Flow-Through Entities
Taxation of individuals and pass-through entities (partnerships, LLCs, S corporations, estates and trusts) with emphasis on unique rules and factors in the Internal Revenue Code and Treasury Regulations.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units

BUS 220R. Software Applications for Accounting
Creation, internal controls, evaluation and audit of advanced electronic spreadsheets. Students learn to use complex queries to extract information from databases.
Prerequisites: BUS220C or equivalent
Normal Grade Rules
3 units

BUS 220S. Financial Reporting and Analysis III
Accounting for multi-unit operations: consolidated reporting issues, transfer pricing issues, globalization issues (foreign tax structures, organizational forms and international accounting), translation of foreign currency transactions and operations, hedging foreign currency exposures, goodwill and brief exposure to business combinations.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units

BUS 220T. Accounting Information/Tax
Prerequisite: MSA classified standing.
Normal Grade Rules
6 units

BUS 220U. IT Audit & Internal Controls
The course provides an understanding of the types of risk that arise in computer environments and consider the impact these risk and threats have on the audit by examining computer-assisted audit tools and techniques.
Prerequisite: MSA Classified Standing.
Normal Grade Rules
3 units

BUS 220V. Special Topics in Accounting
Current special topics in accounting including an understanding of the financial accounting policies and procedures followed by state, county, and municipal governments, universities, and other non-profits for accounting and budgeting of the receipt and expenditure of tax and related revenues.
Prerequisite: MSA Classified Standing.
Normal Grade Rules
3 units

BUS 220X. Business Analysis and Valuation Using Financial Statements
Development of Accounting based valuation framework that integrates a firm’s strategy, accounting performance, and value; assessing a firm’s value proposition and identifying key value drivers and risks; evaluating degree to which a firm’s accounting policies capture the underlying business reality.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units

BUS 220Y. Professional Communications and Relationships III
Skill development in converting critique into meaningful and important information to improve professional performance; integration of professional skills; personal style with effective communication skills to prepare the student for transition to professional in the further development of their careers.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units

BUS 220Z. Data Analytics for Accounting
Basic principles and practices of data analytics as applied to accounting.
Prerequisite: Graduate standing in MS Accountancy program.
Normal Grade Rules
3 units
### BUS 222. Profit Planning and Control
Course covers how financial planning and control systems operate, and are used to deploy strategy, align interests, improve operations, and facilitate strategic change, maximizing firm value. Includes disciplined processes of decision-making, resource allocation, performance measurement to link strategy, management action, and shareholder accountability.
Prerequisite: BUS 220 and graduate standing.
Normal Grade Rules
3 units

### BUS 223A. Tax Research and Decision Making
Develops basics for tax research and evaluates the interrelationships of statutes, regulations, rulings and court cases. Identifies tax services and other primary research materials with emphasis on their use in tax decision-making. Emphasizing critical thinking and communication skills.
Prerequisite: Graduate standing.
Note: This course satisfies graduate-level GWAR in this master's program.
Normal Grade Rules
GE: GWAR
3 units

### BUS 223B. Taxation of Partnerships
Income tax treatment of partners and partnerships and LLCs, including the creation, operation, liquidation and sale or other amalgamation of organizations. Special allocation and non-recourse debt arrangements are also covered.
Prerequisite: BUS 223A and 223G
Normal Grade Rules
3 units

### BUS 223D. Seminar in Tax Planning and Practice
Capstone course for the MS in Taxation degree. Will integrate financial planning throughout the program, including sale of the business and estate planning, and will include a final written comprehensive project.
Prerequisite: Graduate standing and completion of at least 3 tax core courses.
Notes: Completion of the course or BUS 223E satisfies the MST comprehensive project requirement.
Normal Grade Rules
3 units

### BUS 223F. Tax Accounting Methods/Periods
Definition and importance of accounting methods and periods; timing rules for income, expenditures, inventory and R&D; change procedures; special methods; book-tax differences; introduction to provision for income taxes.
Pre/Corequisite: BUS 223A
Normal Grade Rules
3 units

### BUS 223G. Taxation of Business Entities
Income tax treatment of different types of business entities and their owners. Focuses on operations, reporting, formation, restructuring and termination. Selected special state and international tax rules, tax planning, and underlying tax policies also covered.
Corequisites: BUS 223A
Normal Grade Rules
3 units

### BUS 223H. Tax Policy Capstone
Capstone course that examines the principles and policies that underlie and shape tax systems and rules. Students gain a broader perspective of the tax law beyond its technical application, and learn how tax, economic, social and environmental policies interact.
Prerequisites: BUS 223A, BUS 223F, BUS 223G
Normal Grade Rules
3 units

### BUS 224. Financial Statement Analysis
Course develops the ability to understand, interpret, and analyze financial information, and examines the relationship between financial statement information and the capital markets. Students develop financial analysis skills, and expand perspectives of business and professional roles.
Prerequisite: BUS 220 and graduate standing.
Normal Grade Rules
3 units

Examine managerial accounting in medical product development with emphasis on financial aspects of the industry. Develops understanding of profit/loss statements; budget preparation and execution; financial implication of patent life, rationale for mergers and acquisitions; financial implications of outsourcing.
Prerequisite: Admission to MPDM program & completion of BUS 210 and SMPD 281A.
Normal Grade Rules
3 units

### BUS 225A. Taxation of Estates and Trusts
Examine transfer tax treatment of estates, gifts, trusts, creators, beneficiaries and fiduciaries. Distinguishes between revocable and irrevocable trusts, including proper trusts to achieve desired goals. Reviews taxation of asset sales and dissolution or liquidation of estates or trusts. Analyzes estate evaluation, family limited partnerships, grants, GST, and planning opportunities.
Pre/Corequisite: BUS 223A
Normal Grade Rules
3 units

### BUS 225B. Taxation of Corporate Reorganizations
Income tax treatment of corporate reorganizations and amalgamations, including acquisitions, tax-free and taxable as well as corporate division. Tax treatment of net operating losses, earnings and profits, property basis and other corporate attributes.
Prerequisite: BUS 223A and BUS 223G
Normal Grade Rules
3 units

### BUS 225C. International Tax - US Corporations with Foreign Activities
Taxation of outbound investment and activities of the US corporations. Topics include sourcing, foreign tax credit, subpart F, Sections 482 and 367, foreign currency, establishing foreign operations, state taxation of outbound operations, and issues affecting expanding US multinational technology firms.
Prerequisite: BUS 223A and BUS 225W
Corequisite: BUS 223G
Normal Grade Rules
3 units

### BUS 225D. International Tax - Individuals and Foreign Corporations
Taxation of individuals with foreign activities, and inbound investment and activities of foreign corporations. Topics include taxation of US expatriates and foreign nationals, foreign tax credit, tax treaties, foreign-owned US real estate, and issues of mobile employees.
Prerequisite: BUS 223A
Corequisite: BUS 223C
Normal Grade Rules
3 units

### BUS 225F. State Taxation Fundamentals
Introduction to the legal foundation, nature and operation of key state and local taxes. Constitutional constraints regarding nexus, sourcing and apportionment are covered. Additional topics include research techniques, compliance and planning considerations, current issues and state tax reform.
Pre/Corequisite: BUS 223A
Normal Grade Rules
3 units

### BUS 225G. Taxation of S Corporations
Topics include: Income tax treatment of S Corporations and their shareholders, built-in gains tax and excess net passive income tax; operating and distribution rules, shareholders basis, NOL pass-through rules; formation, reorganizations, S QSUBS, and state income tax consequences.
Prerequisite: BUS 223A and 223G
Normal Grade Rules
3 units
BUS 225H. Taxation of Property Transactions
Key rules and planning considerations of property development, transfer, lease, abandonment, worthlessness, and destruction; depreciation and amortization; special types of intangibles and relevant tax rules; property indebtedness; sale of a business; tax-deferred transactions; sale of a principal residence; and basics of non-income taxes applicable to property and property transactions.
Pre/Corequisite: BUS 223A
Normal Grade Rules
3 units

BUS 225J. Taxation of Executive Compensation
Tax aspects of executive compensation includes qualified and nonqualified stock options, deferred compensation, fringe benefits, 401(K), 403(B), pension and profit sharing plans, rabbi trusts, etc.
Pre/Corequisite: BUS 223A
Normal Grade Rules
3 units

BUS 225K. Advanced Individual Taxes
Course includes interest tracing, passive activity losses, net operating losses, divorce, AMT’s impact on individuals and individual California income taxes.
Pre/Corequisite: BUS 223A, Graduate Standing only.
Normal Grade Rules
3 units

BUS 225L. Accounting for Income Taxes
Financial accounting rules regarding the calculation and presentation of a company’s provision for income taxes.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 225M. State Tax Planning
Tax planning considerations are covered for multistate and single state businesses for key state taxes. Tax effects of location of property, payroll and sales are covered along with state tax incentives and dealing with incomplete guidance.
Prerequisite: BUS 225F
Normal Grade Rules
3 units

BUS 225N. Financing Options - New or Growing Bus
Covers the fundamentals of various financing techniques for such businesses including equity, debt and “going public”. Decision-making considerations, strategy, valuation and relevant security and tax laws are covered.
Pre/Corequisite: BUS 223A
Normal Grade Rules
3 units

BUS 225O. Taxation of Tax Exempt Organizations
Taxation of tax exempt organizations, including application of UBIT, investment in partnerships and S Corp., foundation, pension plans, VEBAS, form 990’s.
Pre/Corequisite: BUS 223A
Normal Grade Rules
3 units

BUS 225P. Advanced International Tax - US Corporations
Advanced study of income tax treatment of international corporate transactions including international reorganizations and Section 367, Section 304 and corporate inversions. Planning for intangibles, subpart F planning, foreign entity structuring including use of check-the-box entities, foreign currency transactions, and foreign tax credit planning.
Prerequisite: BUS 225C
Normal Grade Rules
3 units

BUS 225S. Consolidated Returns
Review and analysis of theory, rules and practice involving affiliated entities and filing of consolidated returns.
Prerequisite: BUS 223A and 223G
Normal Grade Rules
3 units

BUS 225T. Intermediate Acctg for Income Taxes
Follow-up to BUS 225L, Accounting for Income Tax. Topics covered include IFRS-CAAP convergence, FAS 141R (Purchase accounting), International tax accounting (including APB 23, ARB 51, FAS 52), FAS 123R (advanced topics), State & Local considerations, FIN 48 and other relevant/current topics.
Prerequisite: BUS 225L
Normal Grade Rules
3 units

BUS 225U. Fundamentals of Transfer Pricing
Introduction to the fundamental principles of intercompany pricing, applications of transfer pricing methods to related party transactions under U.S. transfer pricing regulations and OECD Guidelines, and the economic analysis required for intercompany transactions of multinational corporations.
Prerequisites: BUS 223A.
Normal Grade Rules
3 units

BUS 225V. Tax Considerations for High Tech Companies
Explores the nature of high tech companies, special features, and why tax issues exist. In depth learning about tax incentives for innovation including the research credit, treatment of intangibles, stock options, multi-stage financing, multi-jurisdictional considerations, and book-tax differences.
Pre-Requisite: BUS 223A
Normal Grade Rules
3 units

BUS 225W. Introduction to International Taxation
Introduction to the structure, basic rules, and policies of the federal income tax system with respect to international transactions of US and foreign persons. Topics include residency, sourcing, tax treaties, foreign tax credit, transfer pricing, and compliance.
Prerequisite: BUS 223A
Corequisite: BUS 223G
Normal Grade Rules
3 units

BUS 225X. International Taxation - US and Foreign Individuals
Taxation of US and foreign individuals with investments and activities outside their home country. Topics include FTC, treaties, withholding taxes, US expatriates, foreign nationals, mobile employees, and compliance considerations, including US Bank Secrecy Act, FATCA and PFICs.
Prerequisites: BUS 223A, BUS 225W
Normal Grade Rules
3 units

BUS 225Z. Personal & Business Leadership Skills for Tax Professionals
Learn intrapersonal and interpersonal skills and knowledge a tax practitioner needs for personal and professional success. Includes listening, oral and written communication, ethical reasoning, relationship and team building, conflict minimization, leadership behaviors, EQ, mindfulness, and career planning.
Prerequisite: Graduate Standing.
Normal Grade Rules
3 units
BUS 227A. Individual Tax Compliance
Basics of federal income tax compliance from information gathering to return filing. Includes practice preparing various individual forms and schedules, software tools, engagement letters, rules of conduct, disclosures, record keeping, key California adjustments, and completion of a moderately complex Form 1040.
Corequisites: BUS 223A.
Normal Grade Rules
1 unit

BUS 227B. Ethics for Tax Practitioners
Review of rules of conduct, tax penalties and professional ethical behavior relevant to tax compliance and planning. Key rules applicable to a CPA are covered in the context of their application in the day-to-day work of a tax practitioner.
Prerequisite: Graduate Standing only.
Corequisites: BUS 223A.
Normal Grade Rules
1 unit

BUS 227C. Tax Symposium
Tax symposium topics may vary from year to year to allow for focus on new developments or special tax topics. Check the MST schedule for the topic description.
Corequisites: BUS 223A.
Repeatable for credit
Normal Grade Rules
1 unit

BUS 227D. Employment Taxation and the Modern Workforce
An overview to the types of employment tax and related issues that can arise for companies and workers when employees telecommute or have multiple work locations. The basics of federal employment taxes are covered along with worker classification rules as well as selected state and international tax issues and rules relevant for today’s workforce.
Pre/Corequisites: BUS 223A
Normal Grade Rules
1 unit

BUS 227E. Foundation for Understanding Taxation
Legal foundation of taxes, types of taxes, and underlying theories, definitions and concepts. How to analyze transactions and activities for tax consequences. Helps strengthen one’s overall understanding of taxation and application of analytical skills to resolving tax issues.
Prerequisite: Undergraduate tax course
Normal Grade Rules
1 unit

BUS 227F. Personal and Business Leadership Skills for Tax Practitioners
Learn the intrapersonal and interpersonal skills and knowledge a tax practitioner needs for personal and professional success. Includes listening, oral and written communication, ethical reasoning, relationship and team building, establishment and assessment of accountability measures, time management, and career planning.
Pre-Requisite: Graduate Standing
Normal Grade Rules
2 units

BUS 230. Marketing Management
Fundamental concepts and skills required for understanding markets and managing marketing efforts. Includes market orientation, consumer and industrial buyer behavior, market segmentation, target market identification, product development, pricing, distribution channels, marketing communication, strategy development, and marketing planning and control.
Prerequisite: Graduate standing and restricted to Business - MBA majors only
Normal Grade Rules
3 units

BUS 231. Consumer and Market Behavior
Influence of consumer behavior upon marketing management strategy, examination of behavioral concepts as they relate to purchase decisions; types of consumer research instructions and applications; focus on buyer behavior in action-oriented environments.
Prerequisite: BUS 230 and graduate standing.
Normal Grade Rules
3 units

BUS 231A. Market Forecasting
Course will help business people in understanding and identifying the appropriate forecasting methods in order to make a more accurate prediction of future demand.
Prerequisite: BUS 230, Business statistics and graduate standing.
Normal Grade Rules
3 units

BUS 231C. High Tech Marketing
Course will give students exposure to marketing in technology industries. Principal ideas from the technology adoption life cycle form the conceptual basis for the course. Differences between technology marketing and other kinds of marketing are explored and special skills identified.
Prerequisite: BUS 230, business statistics, and graduate standing.
Normal Grade Rules
3 units

BUS 232. Third World Marketing Manager
Marketing in Third World high risk areas Russian, African, Islamic. Understanding methods of marketing, as well as how to deal with specific third world risks: mafia, bribery, “black” market, smuggling and corruption.
Prerequisite: BUS 230 and graduate standing.
Normal Grade Rules
3 units

BUS 233. Business to Business Marketing
Course deals with business-to-business marketing, that is, the marketing of goods, services, and ideas to business and non-retail institutions. Covers product, price, promotion and distribution with emphasis on strategy development and marketing decision making.
Prerequisite: BUS 230 and graduate standing.
Normal Grade Rules
3 units

BUS 234B. Promotional Strategy
Explores the media and techniques used by businesses to communicate with consumers, resellers, and the public. Topics will include budgeting; choosing media; testing communication effectiveness; executing and controlling advertising; personal selling, and consumer trade promotions.
Prerequisite: BUS 230 and graduate standing.
Normal Grade Rules
3 units

BUS 235A. Introduction to Business Analytics
This course will introduce fundamental business analytics tools including Probability Analysis, Decision Analysis, and Linear and Discrete Optimization An emphasis will be placed on conceptual understanding and analytic insight.
Prerequisite: Graduate Standing only.
Normal Grade Rules
3 units

BUS 235B. Business Research
This course introduces participants to 21st Century business research methodology. The emphasis here is not on issues related to ongoing data sources but rather to unique, one-time problems that are best solved with custom research projects. Quantitative methods are emphasized but the advantages of the qualitative perspective are not overlooked. Other topics include questionnaire design, data collection, analysis, and presentation, highlighting appropriate new technology. The aim is to prepare managers to conduct research as well as to enable them to engage collaboratively with their research consultants.
Prerequisite: Graduate Standing only.
Normal Grade Rules
3 units
BUS 235C. Data Mining
Data mining is used to discover patterns and relationships in data. Emphasis is on large complex data sets such as those in transactional databases or gathered through web mining. Topics: data visualization, association rules, clustering, and various modern classification techniques. Prerequisite: Graduate Standing only.
Normal Grade Rules
3 units

BUS 235D. Business Analytics Simulation
Transforming diverse data into knowledge-driven business decisions. Participants make tactical and strategic decisions based on consumer, competitor, aggregate market, financial, etc. Success is gauged by monitoring a dashboard that includes manufacturing productivity, return on investment, investment in the future, market share, product quality, financial performance, etc. Prerequisite: Graduate Standing only.
Normal Grade Rules
3 units

BUS 236. Current Topics in Marketing
Emphasizes marketing and decision-making in social, government and business environments. Uses behavioral science and quantitative techniques to develop strategies for tactical and strategic marketing solutions to problems which impact on R&D, finance, logistics, marketing, distribution and others. Prerequisite: BUS 230 and graduate standing.
Repeatable for credit
Normal Grade Rules
3 units

BUS 238. International Marketing
The development of international marketing strategy. Focus on the evaluation of the various environmental variables, selection of target markets, methods of entry, developing an appropriate marketing mix and planning/control of the international marketing effort. Prerequisite: BUS 230 and graduate standing.
Normal Grade Rules
3 units

BUS 240. Electronic Commerce
Focuses on organizational uses of information technology, impacts of IT on organizational operations and strategies, and increasing importance of Internet in business activities. Covers fundamentals of IT, organizational applications of IT and Internet, and successfully developing and implementing IT-based applications. Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 241. Structured Methods of Information Technology
An analysis of structured methodologies of programming, documentation, testing, and management. Examined in terms of various information technologies, emphasis on development of techniques to analyze, design and adapt system solutions to organizational information needs. Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 242. Distributed Information Systems
An analysis of database management systems, data communications, and telecommunications in a distributed information network. Focus will concentrate on identifying the means through which an organization can use the information technologies of distributed systems to satisfy its data needs. Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 243. Database Management
Introduction to database approach of planning, design and implementation of information systems applications in organizations from the viewpoint of the manager as a knowledgeable user. Includes data modeling, data integrity and practical project assignments. Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 245. Service Innovation
This course surveys cyber risk management concepts and best practices. Topics include cyber security threats, countermeasures, vulnerabilities, cost/benefit analysis, incident handling/response, business contingency planning, ethics, and legal imperatives within the organizational context.
Normal Grade Rules
3 units

BUS 250. Law and Ethics
Course focuses on both law and ethics in the business environment, how individuals and organizations approach law and ethics, as well as the ethical, legal and social consequences of disregarding law and ethics in favor of other objectives. Prerequisite: Graduate standing and restricted to Business - MBA majors only.
Normal Grade Rules
3 units
BUS 258. Leading Edge Managers
Experiential seminar to develop specific managing and leading capabilities. Focus on skills typically missing from MBA education: managing a multi- and cross-cultural workforce; developing effective teams and collaborative work; building a high-performing work system.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 259. Mg Legal Aspects of Tech & New Prod Dev
This course addresses emerging issues in intellectual property - patent, copyright, trademark, and trade secrets laws - with an emphasis toward managing and protecting innovation and new product development in areas such as computer technology, biotechnology, and cyber-space.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 260. Managerial Decision Analysis
Concerns the inherent complexities in the process of choice. Covers decomposition of the decision environment, the use of decision trees, value theory, analysis of criterion, the statistical measurement of risk and uncertainty, preposterior analysis, and problems of collective choice.
Prerequisite: Business statistics and graduate standing; restricted to Business - MBA majors only.
Normal Grade Rules
3 units

BUS 261. Legal Challenges for the International Manager
Learn how legal systems affect international business. Topics include: securities law in international transactions; US trade law; export regulations; foreign legal problems; legal risk analysis; labor law systems; control of capital and currency; intellectual property rights; licensing, business with state-controlled agencies.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 262. Leadership
Explores classic and contemporary models of leadership and leadership and defines the difference between management and leadership. Practical applications of theory emphasizing the contingency perspective.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 262A. Global Leadership and Innovation
This course provides an in-depth introduction to global leadership and its development and to fostering innovation and global change. Through assessments and behavioral simulations, it prepares students to do global work effectively in a complex context with people from various cultures.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 262B. Global Leadership Development
Students learn about global leadership and, in particular, its development in the Global Leadership Laboratory. As GLLab Associates, they help facilitate high-impact experiential exercises, learn to give feedback, and supervise and coach student teams in global leadership courses.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 263. High Performance Management
An intense analysis of management with main focus on understanding organizations as systems. Use of academic theories as tools with which you solve real-world tactical performance problems. Emphasizes critical thinking and problem solving.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 264. Introduction to Technology Planning and Management
Develops technology strategies through a qualitative (scenario and strategy map-based) and a quantitative (decision analysis and option theory-based) approach for technology portfolio planning and management. It provides practical, stimulating, and easy-to-use methods for realistic applications.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 264A. Professional/Business Ethics
Ethical principles relevant to decision-making in business situations. Using case studies, examines and analyzes moral issues to determine the most appropriate actions. Experiential and self-reflective as well as theoretical.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 265. Silicon Valley Experience
This course is designed to develop the “whole student” for success in the business world, including professionalism, ethics, case competitions, communications, networking, career success, and work/life balance. It includes lectures, speakers, panels, competitions, and other events providing students with an in-depth exposure to Silicon Valley.
Normal Grade Rules
2 units

BUS 266. Managing Across Cultures
A comprehensive foundation for understanding, managing, and successfully interacting in the multi-faceted, culturally-embedded contexts of multinational firms. Understanding major issues facing multinational corporations in the management of international operations; insights into cultural, historical and institutional factors; skills for working effectively in international multicultural teams.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 268A. Global Business Management
A global view on business, investigating why and how companies succeed internationally. It provides students a conceptual tool by which to understand how economic, social and political factors influence both domestic and international operations.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 269. Strategic Management in the Computer Industry
The online course focuses on the industry-specific strategic challenges faced by companies that comprise the sector that is preeminent in the Information Age. Case studies favor PCs over big iron and software over hardware.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 270. Financial Management
Introduces the structure, markets and regulatory factors within the financial system. Develops basic skills in preparing financial plans/budgets, valuing capital costs, financial assets and evaluating the firm’s capital structure, cost of capital, working capital, dividend policies, financing and investment decisions.
Prerequisite: BUS 220 or BUS 231B and graduate standing; restricted to Business - MBA majors only.
Normal Grade Rules
3 units
BUS 271. Capital Markets
Driven by technological change, deregulation and globalization, course provides students an overview of the U.S. and international financial environment through financial media, spreadsheets and the Internet. Students leave the class with knowledge of interest rates, flow of funds, derivatives, money and capital markets and financial intermediaries.
Prerequisite: BUS 270 and graduate standing.
Normal Grade Rules
3 units

BUS 272. Current Topics in Finance
Presented as a collection of topics of current interest and concern to managers, investors and creditors. A seminar approach emphasizes discussion, illustrations, examples and applications drawn from current financial practice to encourage exploration of all facets of select financial issues.
Prerequisite: BUS 270 and graduate standing.
Repeatable for credit
Normal Grade Rules
3 units

BUS 273. Business Valuation
Course uses accounting and market data to determine the value of public and private businesses. The course considers methods and models whereby business values are created and destroyed. Techniques, from basic rules of thumb to holistic computer models are considered.
Prerequisites: BUS 220 and BUS 270.
Normal Grade Rules
3 units

BUS 274. Financial Analysis of Technology-Based Firms
Students will learn to develop financial strategies in practical settings. This includes the ability to construct and interpret pro forma financial statements, planning and control models, working capital analysis, capital structure studies, capital budgeting and cost of capital models, and valuation analysis.
Prerequisite: BUS 270 and graduate standing.
Normal Grade Rules
3 units

BUS 275. Corporate Finance: Cases in High Tech Firms
Course is a continuation of corporate finance where finance concepts directly related to high technology firms are examined. The concepts are enhanced by using five Harvard cases. Other data and handouts are provided to supplement these cases and the textbook.
Prerequisite: BUS 270 and graduate standing.
Repeatable for credit
Normal Grade Rules
3 units

BUS 276. New Venture Finance
New ventures face different business and financing environments than large, publicly-traded firms. The risk of R&D failure is more severe for new ventures. Examines how business and financing decisions are intertwined. Topics: Venture capital, joint ventures and intrapreneurship.
Prerequisite: BUS 270 and graduate standing.
Normal Grade Rules
3 units

BUS 277. Investment Analysis and Management
Principles of financial and portfolio analysis applied to investments in common stocks and bonds. Descriptive characteristics of financial markets reviewed, with main emphasis on application of financial theory and statistics to understanding movements in security prices and portfolio values. A financial management viewpoint will be taken in conducting fundamental valuation analysis and formulating portfolio policy.
Prerequisite: BUS 270 and graduate standing.
Normal Grade Rules
3 units

BUS 278. International Corporate Finance
The finance manager’s responsibilities, risks, problems and need for strategic planning. Unique aspects of financial analysis for international business discussed and applied to real and/or similar decision situations.
Prerequisite: BUS 270 and graduate standing.
Normal Grade Rules
3 units

BUS 279. Operations and Supply Chain Management
Analysis of effective and efficient flow of materials, products, services, and information within and across organizations. Includes: process flow analysis, capacity planning, quality, lean supply chain, layout, aggregate planning, supply chain networks, inventory management, sourcing, ERP, and logistics planning.
Prerequisite: Graduate standing and restricted to Business - MBA majors only.
Normal Grade Rules
3 units

BUS 281. Management of High Technology Organizations
Investigates ingredients for sustained profitable innovation. Emphasizes management of technological innovation, including: innovation strategies, organization, project selection, project management, managing and integrating functional areas. Analyzes developmental processes which enable small firms to grow and prevent large organizations from stifling innovation.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 282. Silicon Valley: The Business of Technology
The Silicon Valley Business of Technology course prepares students for fast-paced and pressure-packed conditions to accelerate development of Critical Thinking Skills, providing a unique insight into the Silicon Valley culture. Students will apply technology to various industries by understanding its origins, categories, and functionality.
Prerequisite: Graduate Standing
Normal Grade Rules
3 units

BUS 282A. Essentials of Management and Organizational Behavior
Familiarizes students with the challenges that arise for managers in organizational settings; surveys theories and practices related to managerial roles, organizational cultures, strategy, planning, team building, communication, motivation, leadership, decision-making, control, structure, and change.
Prerequisite: Enrollment in the MBT program.
Normal Grade Rules
3 units

BUS 282B. Essentials of Operations Management
Familiarizes students with the role and importance of operations management and how it interacts with other parts of the organization; develops skills in applying analytical tools and techniques to operations management challenges.
Prerequisite: Enrollment in the MBT program.
Normal Grade Rules
3 units

BUS 283. Entrepreneurship
Examines the growth and nature of entrepreneurship and the support infrastructure of tasks, people, finances and technology. Emphasizes entrepreneur characteristics sought by venture capitalists and investors, role of the business plan and evolutionary stages of start-up activity.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 284. Managing Product Development
Views product development as a cross-functional business process. Examines concepts used and management challenges faced in structuring product development activity and in strategically managing a portfolio of product development projects.
Prerequisite: Graduate Standing.
Normal Grade Rules
3 units
BUS 284C. Managing Medical Product Development
Views medical product development as a cross-functional business process. Examines concepts used and management challenges faced in structuring medical product development activity and in strategically managing a portfolio of medical product development projects. Examines industry practices and cases relevant to medical product development.
Prerequisite: Admission to MPDM program and completion of BUS 224C, BUS 286 and SMPD 289A.
Normal Grade Rules
3 units

BUS 285. Total Quality Management
Documents forces which propel quality (competition, Deming, Baldrige, etc.) and impact on planning, benchmarking and competitive analysis. Includes design for manufacturability, design of experiments, Taguchi methods, systems analysis, continuous process development and statistical process control.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 286. Project Management
Covers both strategic and operational points of view for managing projects. Quantitative methods include project planning, budgeting, selection, scheduling, evaluation and control. Qualitative methods include project organization, staffing and team building.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 287. Advanced Topics in Global Supply Chain Management
In depth analysis of current issues in global SCM with emphasis on industry best practices from around the globe. Topics may include continuous replenishment, value of information, outsourcing, collaboration, strategic alliances, e-SCM, supply chain risk, performance metrics, SCM simulations.
Prerequisite: Bus 280. Graduate standing.
Normal Grade Rules
3 units

BUS 288. Manufacturing Planning, Cost and Control
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 289. Managing Information and High Technology
Applies convergence among information, technology and strategy to organization and design of information and business systems for competitive advantage. Practical uses of electronic data interchange, expert systems and design and control of database systems to manage high-tech production.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 290. Strategic Thinking
Integrative focus on managing the total enterprise, including corporate and business-level strategy formation. Applies market and industry analysis, using qualitative and quantitative techniques, to position companies in their competitive environment. Students create a strategic plan for on-going or new organization.
Prerequisites for Early Career MBA students: Completion of BUS 201, BUS 202, BUS 210, BUS 220, BUS 230, BUS 250, BUS 260, BUS 270, BUS 280 and graduate standing; restricted to Business - MBA majors only.
Prerequisites for MBA for Professional students: BUS 200W, BUS 202, BUS 210, BUS 220, BUS 230, BUS 250, BUS 260, BUS 270, BUS 280 and graduate standing; restricted to Business - MBA majors only.
Note: Must receive a minimum grade of “B” on project.
Normal Grade Rules
3 units

BUS 294. Management Simulation Competition
Developing analytical and general management decision-making skills as member of a team competing in the regional business schools’ management simulation game. Extensive use of computers for simulation and analytical/planning tools.
Prerequisite: Graduate standing or instructor consent.
Normal Grade Rules
3 units

BUS 295. Management Consulting Field Experience
Apply management theory and learn consulting skills by carrying out an intensive project. Identify and analyze actual business problems, develop and evaluate alternative solutions and present plan to management.
Prerequisite: Graduate standing and instructor consent.
Normal Grade Rules
1-3 units

BUS 297D. Special Topics in Business Administration
Special topics to augment regularly-scheduled electives. Prerequisite: Graduate standing and prerequisite courses as specified.
Repeatable for credit
Normal Grade Rules
1-4 units

BUS 298. Individual Study Problems
For the student with a specific project in mind, in an area not covered by existing coursework. The student must submit a one-page formal proposal to be accepted by an assigned faculty member and approved by the MBA program director. Number of units received will be based on depth and breadth of project.
Prerequisite: Graduate standing. Not available to Open University Students
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

BUS 298C. Applied Business Experience Internship
The course provides students with an opportunity to translate their academic training into real world practice and gain overall knowledge of key functional areas of business. The internship must offer students a valuable learning experience and must significantly increase their knowledge of business organizations. Students are responsible for identifying a specific internship opportunity and obtaining an official offer from an employer. Upon approval from the MBA Director, the students will be able to enroll in the 3-unit course which will count as one of the MBA electives. The course requires the preparation of an internship journal & report. The internship qualifies as Curricular Practical Training (CPT) for international students.
Prerequisites: Advancement to Candidacy
Normal Grade Rules
3 units

BUS 298I. Applied Business Experience Internship
For the student with a specific internship providing a quality experience that reinforces the curriculum and involves meaningful work. The student must submit a one-page formal proposal to the graduate program director. A final report is required. The internship must qualify as Curricular Practical Training (CPT) for international students.
Prerequisite: Approved advancement to candidacy.
Repeatable for credit
Mandatory CR/NC/RP
1 unit

BUS 299. Master's Thesis
Master's Thesis Plan A.
Prerequisite: Approval of the instructor and admission to candidacy. Not available to Open University Students
Mandatory CR/NC/RP
1-4 units
GLOBAL INNOVATION AND LEADERSHIP

LOWER DIVISION

BUS 016. Introduction to Leadership & Innovation
This interdisciplinary course covers basic theories of leadership and innovation and investigates key topics that influence contemporary social leadership issues. Students assess their leadership styles to create personal development plans leading toward positive, innovative impacts on society.
Pre-requisites: Upper Division Standing or instructor consent
Normal Grade Rules
3 units

BUS 040. Developing Your Entrepreneurial Potential
This course introduces foundational concepts in innovation and entrepreneurship. It provides insights into the characteristics and motivations of entrepreneurs, and the factors that foster an entrepreneurial mind-set and enable individuals to translate positive attitudes toward entrepreneurship into actual behavior.
Pre-requisites: Lower Division Business Pool or Business Minor
Normal Grade Rules
3 units

BUS 140. Fundamentals of Operations Management
Familiarizes students with processes that transform inputs into finished goods and services; helps students understand the importance of operations management and how it interacts with other parts of the organization; develops skills in applying appropriate analytical tools to business operations challenges.
Pre-requisites: Upper Division Standing or instructor consent
Normal Grade Rules
3 units

BUS 141. Procurement and Supply Management
Comprehensive survey of forecasting, inventory management (including just-in-time), purchasing, supplier relations, warehousing (tied, centralized, decentralized) and distribution methods. Make-or-buy analysis and specification/standardization techniques.
Pre-requisites: Upper Division Standing or instructor consent
Normal Grade Rules
3 units

BUS 141B. Transportation & Logistics Management
Coverage of the fundamentals of transportation management combined with a focus on its role in global supply management. The challenge of managing the various modes of transportation is combined with strategies for their use in the supply chain environment.
Pre-requisites: Upper Division Standing or instructor consent
Normal Grade Rules
3 units

BUS 142. Total Quality Management
Holistic approach to managing quality: interaction of production design, work design and the manufacturing process. International view and roles qualitative and quantitative techniques play in successful quality management programs.
Pre-requisites: Upper Division Standing or instructor consent. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS 142B. Business Process Management
Includes concepts and methods to optimize business processes relevant for creating value for the customers and adding value to an organization. Provides capability of designing and managing business processes and the interfaces between Operations Management and other business functions.
Pre-requisites: Upper Division Standing or instructor consent
Normal Grade Rules
3 units

BUS 144. Supply Chain Management
Addresses concepts/tools for effective and efficient management of supply chains. Topics include materials planning/control, sourcing strategy, strategic alliances, information technology role, quality/customer issues, inventory management, and distribution/logistics management.
Pre-requisites: Upper Division Standing or instructor consent
Normal Grade Rules
3 units

BUS 144B. Global Operations Analytics
Builds analytic thinking for improving global operations management (GOM). Introduces analytical methods, tools, and software to analyze GOM problems and then derive managerial implications and decisions in global business operations perspectives.
Pre-requisites: Upper Division Standing or Instructor Consent
Normal Grade Rules
3 units

BUS 145. Global Operations Strategy
Studies operations management issues unique to manufacturers with extensive international operations. Educational objectives are to develop an understanding of: the strategic tradeoffs associated with global operations, total supply chain management and the economics of transnational logistics.
Pre-requisites: Upper Division Standing or instructor consent. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS 145B. Healthcare Operations Management
Operations Management (OM) approaches across a broad range of healthcare settings: clinical, management, and support processes in the medical and public healthcare systems. Apply OM tools including flowcharting, process analysis, queuing, forecasting, six-sigma, health worker scheduling.
Pre-requisites: Upper Division Standing or instructor consent
Normal Grade Rules
3 units

BUS 146. Fundamentals of Project Management
Fundamentals of managing projects, basic concepts and techniques underlying project management, and application using the appropriate software.
Pre-requisites: Upper Division standing or instructor consent
Normal Grade Rules
3 units

BUS 147. Service Operations Management
Develops skills in setting formal standards for product attributes and operating procedures that comprise service experience. Categories of services; indirect and direct consumption. Psychological/social characteristics of the consumer/server encounters, enhancing ability to monitor service quality. Total quality management.
Pre-requisites: Upper Division Standing or instructor consent. Business Minor.
Normal Grade Rules
3 units

BUS 148. Sustainable Operations Management
Introduces a holistic view of the interaction between operations activities and the environment. Builds awareness of major environmental problems and issues in the operations function of business, and learns environmental assessment and management tools for operations management.
Pre-requisites: Upper division standing or instructor consent
Normal Grade Rules
3 units
BUSS 162. International and Comparative Management
Management functions and practices in an international context; comparison of management and business practices from various political and cultural perspectives; emphasis on what managers need to be aware of in order to perform in the international environment. Prerequisite: Any 100W, BUS 187 or instructor consent. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUSS 162A. International Business Strategy
Course focuses on the strategic challenges and the strategic management of firms that operate and compete in a global environment. Course provides an overarching experience in international business by integrating knowledge and previous international business learning. Prerequisite: COMM 100W or ENGL 100WB or LLD 100WB, BUS 187, or instructor consent.
Normal Grade Rules
3 units

BUSS 163. Management Issues in High Technology Companies
Provides an overview of a wide variety of key managerial concerns, industry knowledge and management techniques that are especially relevant in high technology companies. Such organizations compete within an environment characterized by rapid technological change and a high degree of uncertainty. Prerequisite: Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUSS 163A. Negotiating Globally
Introduces a theoretical framework and skill-building exercises for negotiating agreements, resolving disputes, and making decisions across cultures. Builds awareness of the global negotiating environment including cultural and institutional factors. Applicable to commercial transactions, employee relations, contract disputes, and international diplomacy. Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

BUSS 163B. Globalization and Innovation in Emerging and Developing Markets
This course investigates the world economy, specifically emerging and developing markets and provides an in-depth understanding of how institutions shape the strategies that firms employ and the actions that managers take in these countries. Prerequisite: COMM 100W or ENGL 100WB or LLD 100WB, BUS 187, or instructor consent.
Normal Grade Rules
3 units

BUSS 164. Strategies in High Technology Companies
Examines strategies for companies within high technology industries, focusing on how to anticipate, identify and exploit such technological change for competitive advantage. Technological change creates opportunities for new industries and products, but at the same time renders obsolete existing company capabilities. Prerequisite: BUS 161A. Upper division standing. Lower Division Business Pool or Business Minor.
Repeatable for credit
Normal Grade Rules
3 units

BUSS 164A. Country Perspectives on Business and Management
Provides a comprehensive study of the business and management practices of a featured country or region. Includes historical, institutional, sociopolitical, and cultural context. Japan is the featured country this semester. May be repeated for credit with a different featured country or region. Prerequisite: Upper Division Standing or Instructor Consent.
Repeatable for credit
Normal Grade Rules
3 units

BUSS 164B. Doing Business Globally
Course is designed with a faculty-led program abroad. Students gain first-hand knowledge of the historical, institutional, and cultural factors influencing business and management practices in the destination country. May be repeated for credit with a different country destination. Prerequisite: Upper Division Standing or Instructor Consent.
Normal Grade Rules
3 units

BUSS 165A. Global Leadership
This course introduces students to global leadership and its development and is designed for students who want to work effectively with people in diverse settings. Taught experientially, the course involves simulations, innovation projects, and extensive individual feedback. Prerequisite: Any 100W.
Normal Grade Rules
3 units

BUSS 165B. Leadership & Innovation Practicum
This is a project-based practicum course for students interested in global leadership and innovation. Course topics include project management of multicultural teams, innovation, and change management. Students apply theory and skills gained in previous courses as they implement personal leadership projects. Prerequisites: Any 100W, BUS 3 016, BUS 3 165A, or instructor consent.
Normal Grade Rules
3 units

BUSS 167. Managing Environmental Issues
The management of environmental issues, including the relationship of business to the natural environment, the public policy context of management decision-making; and the greening of the corporation and implications for strategic management. Operations, human resources, marketing and accounting. Normal Grade Rules
3 units

BUSS 169B. Honors Practicum in Organization and Management
Second part of a two-semester honors program sequence. Student teams will work on a project sponsored by a company or other organization, under the supervision of the sponsor and the instructor. Teams will present their final report to the sponsor. Prerequisite: BUS 160 or BUS 161A and permission of the instructor.
Normal Grade Rules
3 units

BUSS 180D. Individual Study
Individual work on special topics by arrangement. Petition and plan of study must have consent of instructor and Chairperson.
Repeatable for credit
Credit / No Credit
1-3 units

BUSS 181. Introduction to Entrepreneurship
Insight into the characteristics of entrepreneurs, the approaches they use to create, identify and evaluate opportunities for new ventures and the skills that are needed to start and manage new ventures and develop a preliminary business plan. Repeatable for credit
Normal Grade Rules
3 units

BUSS 182. Business Plans for New Ventures
An integrative course involving teamwork to prepare complete plans for starting a new business. This will require analyzing the industry and potential market, the competitive advantage of the business proposition, human and financial resource requirements and the founders’ skills. Prerequisite: BUS 181 or instructor consent. Upper division standing. Lower Division Business Pool or Business Minor.
Repeatable for credit
Normal Grade Rules
3 units
BUSS 183. Global Entrepreneurship
Will explore the opportunities that entrepreneurs create, encounter and change in the global and cross-cultural arena. It will examine how entrepreneurs adapt to and succeed in a global economy and how institutional networks facilitate global and immigrant entrepreneurship.
Prerequisite: Upper Division or instructor consent
Repeatable for credit
Normal Grade Rules
3 units

BUSS 184A. Management of Innovation
Discusses types of innovation and their impact. Analyzes industry practices in management of innovation for corporate growth and renewal through new products, processes, organization, and business models. Examines strategic and tactical aspects of the innovation process and alignment of innovation efforts with strategy.
Prerequisite: Upper division standing or instructor consent
Normal Grade Rules
3 units

BUSS 185. Family Business Dynamics
This course explores and analyzes the unique issues and challenges of family businesses in terms of the dynamic relationship between the family and business and its impact on decision-making and performance of the business.
Prerequisite: BUS3 181 or instructor consent.
Normal Grade Rules
3 units

BUSS 186H. Entrepreneurship Laboratory
Explores all facets of growing an entrepreneurial organization, including building the team, sales, marketing, operations, and finance. Opportunity to learn with practical internship and roundtables with entrepreneurs, venture capitalists and others in the new venture ecosystem.
Prerequisite: Instructor’s consent.
Normal Grade Rules
3 units

BUSS 186S. Current Issues in Entrepreneurship
A presentation of topics of current interest to entrepreneurs and intrapreneurs. Focuses on one or more special topics of concern to current practice, such as green entrepreneurship, social entrepreneurship, or managing high-growth ventures.
Prerequisites: BUS3 181 or instructor consent.
Normal Grade Rules
3 units

BUSS 186V. Venture Lab
VLAB is an experiential course in which students work on the process of developing and testing the idea(s) for a new venture. The course combines theory with hands-on entrepreneurship. Students will test each aspect of the business model outside the class, and share the insights with their peers in class. By the end of the course, they will have completed a prototype and be able to demonstrate the business opportunity.
Prerequisite: Upper Division Standing or Instructor Consent
Normal Grade Rules
3 units

BUSS 187. Global Dimensions of Business
An integrative interdisciplinary foundation for more specialized courses and self-directed learning. Provides an overview of economic, social, cultural and political/legal forces and factors influencing crossborder business and an introduction to international dimensions of business functions and operations.
Prerequisites: Upper division standing, Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUSS 194. Business Organization and Management of Technology Enterprise
See ENGR 194.
Normal Grade Rules
3 units

BUSS 196. Doing Business Globally
A hands-on, project-oriented course beginning with seminars led by instructor with experience in Latin American business providing insights into conducting business in the region. Each weekly, hour-long seminar will involve discussions of international business topics and issues specifically related to countries in the Latin American region. Students work through solutions with the instructor’s guidance. To provide students with an opportunity apply a real-world context to what they have learned, at least one week of the course will be set in a Latin American country in which students will visit local businesses and other organizations, along with cultural sites.
Prerequisite: BUS3 80
Repeatable for credit
Normal Grade Rules
1-4 units

BUSS 196E. Startup Founders and Funders
Covers the early decisions that have important long-term consequences for founders and funders. It also examines the motivations, mechanics and resources available for those interested in investing in early stage ventures as an angel investor or venture capitalist.
Prerequisite: BUS3 181 or Instructor Permission
Normal Grade Rules
3 units

BUSS 197. Special Topics in International Business
This course features special topics in International Business. The course can be taken for credit on campus or in a study abroad or short-term faculty-led program. It may be repeated for credit in the case of different special topics.
Prerequisite: Upper Division Standing or Instructor Consent
Normal Grade Rules
3 units

BUSS 198. Strategic Consulting for Small Business
An integrative course requiring student work in a consulting arrangement with a local small business. Field study involves working within an integrated strategic framework to guide original data collection/analysis/recommendations encompassing external and internal considerations.
Prerequisite: Upper division standing, Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

MANAGEMENT INFORMATION SYSTEMS

LOWER DIVISION

BUS4 091A. Advanced Computer Tools for Business
Students learn advanced spreadsheet and presentation software skills through individual lessons and through application in team case projects.
Prerequisite: Basic Excel and PowerPoint skill proficiency
Credit / No Credit
1 unit

BUS4 091L. Computer Tools for Business
Fundamentals of spreadsheet software through in-class exercises and individual assignments. Team projects to improve students’ collaboration and communication skills, using online tools to produce slide and video presentations.
Credit / No Credit
1 unit

BUS4 092. Introduction to Business Programming
Analysis of business problems to design and implement the software component of an information system. Emphasis on structured design and programming.
Introduction to visual programming languages.
Prerequisite: BUS 91L.
Normal Grade Rules
3 units
UPPER DIVISION

BUS 4110A. Fundamentals of Management Information Systems
Prepares students for upper division MIS courses by providing an overview of the strategic and managerial issues involved in the design, implementation, and maintenance of information systems. Includes an introduction to business application programming. Prerequisite: BUS 92, upper division standing.

  * Normal Grade Rules
  * 3 units

BUS 4110B. Systems Analysis and Design
Introduction to systems development methodologies, techniques and tools. Emphasis on enterprise, process, data and object modeling techniques. Students use UML and prototyping tools to analyze and design an information system.

  * Corequisite: BUS 4092.
  * Normal Grade Rules
  * 3 units

BUS 4111. Networking and Data Communications
Emphasis on the concepts, architectures, components, protocols and standards for message movement within information networks. Uses the network design process to develop understanding of business and information technology perspectives.

  * Prerequisite: Upper Division Standing, Lower Division Business Pool
  * Normal Grade Rules
  * 3 units

BUS 4112. Database Management Systems
Introduction to intermediate database management concepts, methods, and technologies, stressing the design and development of relational databases and data analysis. Emphasis on data modeling, data integrity, and SQL. Non-relational data and information management technologies are also introduced.

  * Prerequisite: BUS 4092 with a grade of C or better
  * Normal Grade Rules
  * 3 units

BUS 4115. Advanced Networking and Data Communications
Integration of telecommunications and database management systems concepts in a distributed information systems environment. Emphasis on information systems architectures, systems integration, open systems and other advanced topics.

  * Prerequisite: BUS 4111. Lower division business pool.
  * Normal Grade Rules
  * 3 units

BUS 4116. Advanced Database Management Systems
Advanced topics in relational data management and analysis including advanced SQL, PL/SQL, and database functions, procedures, and triggers; dimensional modeling, data warehousing, and data visualization; non-relational (NoSQL, big data) databases and data analysis.

  * Prerequisite: BUS 4112
  * Normal Grade Rules
  * 3 units

BUS 4118C. Information Security and Assurance Management
Introduces the spectrum of threats and associated best practices for managing information security and assurance in organizations. Covers use of education/ training, policy/procedure and technology to balance information confidentiality, integrity and accessibility requirements against associated costs to support organizations’ strategy goals.

  * Prerequisite: Lower Division Business Pool.
  * Corequisite: BUS 4111.
  * Note: Offered only occasionally.
  * Normal Grade Rules
  * 3 units

BUS 4118D. Big Data
How to formulate business questions and use current Big Data analytics technologies through hands on assignments to wrangle, query, and graph relationships using a large unstructured dataset. Issues relating to developing the business proposition, Big Data strategies, and ethical considerations.

  * Prerequisite: BUS 4112
  * Co-requirement: BUS 410A
  * Normal Grade Rules
  * 3 units

BUS 4118H. Honors Practicum in MIS I
Honors student teams formulate, develop and initiate implementation of an MIS project for an organization in our community. Requirements include using industry-standard project management tools and methods, interacting with project stakeholders in a professional manner, and applying appropriate technical skills and processes to the project.

  * Prerequisite: BUS 4110A, BUS 4110B, BUS 4111 and BUS 4112
  * Normal Grade Rules
  * 3 units

BUS 4118W. Web Based Computing
Explores Web applications for personal, E-Commerce and corporate computing. Covers essentials of WWW protocols. Students will learn to design and program both client and server-side applications using HTML and extensions, JavaScript, Perl, VBScript, Active Server Pages, database connections, XML, Java.

  * Prerequisite: Grade of “C” or better in BUS 4110A and BUS 4142. Lower division business pool.
  * Normal Grade Rules
  * 3 units

BUS 4119A. Practicum in MIS
Students, working in teams, complete an MIS project for a community organization. Requirements include using industry-standard project management tools and methods, interacting with project stakeholders in a professional manner, and applying appropriate technical skills and processes to the project.

  * Prerequisite: Any 100W or equivalent; BUS 4110A, BUS 4110B, BUS 4111 and BUS 4112
  * Normal Grade Rules
  * 3 units

BUS 4119B. Business Strategy and Information Systems
Analysis of the effective use of information systems and technology for competitive advantage by a business organization for enterprise, business-to-business, and e-Commerce computing. Emphasis on integration of information systems and technology with business strategy, financial justification, personnel and organizational considerations. Intended for last semester before graduation.

  * Prerequisite: Any 100W or equivalent, BUS 4110A, BUS 4110B, BUS 4111, BUS 4112
  * Normal Grade Rules
  * 3 units

BUS 4119H. Honors Practicum in MIS II
Honors student teams develop and complete implementation of an MIS project for an organization in the community initiated in 118H. Requirements include using industry-standard project management tools and methods, interacting with project stakeholders in a professional manner, and applying appropriate technical skills/processes to the project.

  * Prerequisite: BUS 4110A, BUS 4110B, BUS 4111, BUS 4112
  * Normal Grade Rules
  * 3 units

BUS 4118S. Special Topics in MIS
Special topics to augment regularly scheduled electives.

  * Course is repeatable for credit, maximum 9 units.
  * Prerequisite: BUS 111, BUS 112, and COMM 100W or ENGL 100W or LLID 100WB.
  * Lower division business pool.
  * Repeatable for credit
  * Normal Grade Rules
  * 3 units

BUS 4118S. Special Topics in MIS
Special topics to augment regularly scheduled electives.

  * Course is repeatable for credit, maximum 9 units.
  * Prerequisite: BUS 111, BUS 112, and COMM 100W or ENGL 100W or LLID 100WB.
  * Lower division business pool.

  * Repeatable for credit
  * Normal Grade Rules
  * 3 units

BUS 4188. Business Systems and Policy
Provides system perspective on organizations, using information as an integrating vehicle. Examines how information systems can serve business functions and integrate value chain activities.

  * Prerequisite: COMM 100W or ENGL 100W or LLID 100WB. Upper division standing. Lower Division Business Pool.
  * Pre/Corequisite: Fundamental courses.
  * Normal Grade Rules
  * 3 units
MARKETING AND BUSINESS ANALYTICS

LOWER DIVISION

BUS 090. Business Statistics
In terms of theory and application: collection and presentation of data; measures of central values and spread; probability as a measure of uncertainty; sampling and sampling distribution of the sample mean; confidence intervals; hypothesis testing; regression and correlation. Prerequisite: MATH 071. Normal Grade Rules 3 units

BUS 130. Introduction to Marketing
Analysis of marketing opportunities; planning of marketing programs with emphasis on product, price, promotion and distribution; control of the marketing effort; social and ethical responsibilities of marketing. Prerequisite: Upper division standing. Lower Division Business Pool or Business Minor. Recommended: COMM 100W or ENGL 100WB or LLD 100WB. Normal Grade Rules 3 units

BUS 131A. Business to Business Marketing
Marketing of goods, services and ideas to businesses. Examines distribution, pricing, promotion, marketing research and planning. Emphasizes strategy development and the decision-making processes of customers. Prerequisite: BUS 130. Upper division standing. Lower Division Business Pool or Business Minor. Normal Grade Rules 3 units

BUS 131B. Retail Marketing Management
Special issues faced and approaches taken in retailing. Topics include store location, merchandise selection and display, financial management, promotion, store layout and image. Prerequisite: BUS 130. Upper division standing. Lower Division Business Pool or Business Minor. Notes: Offered only occasionally. Normal Grade Rules 3 units

BUS 131D. Marketing in New Ventures
Examines and explores the roles of marketing in the new venture. Focuses on learning conceptual framework for understanding customers, designing appropriate marketing activities, making marketing decisions and addressing marketing problems in building a new venture. Students analyze cases and undertake projects. Prerequisite: BUS 130. Normal Grade Rules 3 units

BUS 132. Business Logistics
Logistics in the process of planning, implementing and controlling the efficient, effective flow and storage of goods, services and related information from the point of origin to the point of consumption for the purpose of conforming to customer requirements. Prerequisite: BUS 130 and BUS 190. Upper division standing. Lower Division Business Pool or Business Minor. Normal Grade Rules 3 units

BUS 132A. International Marketing
Impact of the international business environment on the development of marketing strategy and marketing mix, with emphasis on development of a global perspective and cultural sensitivity. Also covers international trade, importing and exporting. Prerequisite: BUS 130. Upper division standing. Lower Division Business Pool or Business Minor. Normal Grade Rules 3 units

BUS 132B. Business Logistics
Logistics in the process of planning, implementing and controlling the efficient, effective flow and storage of goods, services and related information from the point of origin to the point of consumption for the purpose of conforming to customer requirements. Prerequisite: BUS 130 and BUS 190. Upper division standing. Lower Division Business Pool or Business Minor. Normal Grade Rules 3 units

BUS 133A. International Marketing
Impact of the international business environment on the development of marketing strategy and marketing mix, with emphasis on development of a global perspective and cultural sensitivity. Also covers international trade, importing and exporting. Prerequisite: BUS 130. Upper division standing. Lower Division Business Pool or Business Minor. Normal Grade Rules 3 units

BUS 133B. Relationship Marketing: Pacific Rim
Why not use PacRim marketing methods in PacRim markets? Americans tend to be short-term, sales-oriented. Asians tend to be relationship oriented. Why not master both marketing methods? Focus: Launching a “start-up.” Topics: PacRim forms of product-launch, sales presentation, negotiation, promotion, PacRim risks. Prerequisite: BUS 130. Normal Grade Rules 3 units

BUS 133C. International Marketing: Developing Nations
Why not use Third World marketing methods in Third World markets? Russian, African and Islamic regions pose special risks for U.S. marketers. Focus: Third World ways to cope. Topics: Bribery, corruption, terrorism, smuggling, as well as Anti-Americanism, Market-Communism, Fundamentalist Islam. Prerequisite: BUS 130. Upper division standing. Lower Division Business Pool or Business Minor. Normal Grade Rules 3 units

BUS 133E. Marketing to Eastern/Western Europe
To market in Europe, one must learn how Europeans market. Developed and evolved over centuries, European business methods are complex, subtle, and largely unknown to America. This course provides insights into these methods. Prerequisite: BUS 130. Normal Grade Rules 3 units

BUS 134A. Consumer Behavior
An examination of psychological, sociological, and other factors that affect customer behavior. These factors are examined in an effort to help businesses and other organizations to accurately assess and effectively satisfy customer needs. Prerequisite: BUS 130, and Any 100w. Upper division standing. Lower Division Business Pool or Business Minor. Normal Grade Rules 3 units

BUS 134B. Integrated Marketing Communications
Focus is on design and delivery of marketing messages to targeted audiences. Analysis and planning seeks integration of messages delivered through advertising, sales promotion, personal selling, public relations, and other communication methods. Prerequisite: BUS 130 and Any 100w. Upper division standing. Lower Division Business Pool or Business Minor. Normal Grade Rules 3 units
BUS2 137A. Soft Skills
An examination of the soft skills (self-management skills and people skills) employers feel recent college graduates are lacking. Some of these skills include, but aren't limited to, listening skills, likability, flexibility, giving/receiving criticism, work ethic, dining etiquette, cultural sensitivity, etc.
Prerequisites: BUS2 130
Normal Grade Rules
3 units

BUS2 137H. Marketing Honors Practicum
Course involves sponsored projects in the area of Marketing; Students are assigned to a host company and are required to work with the host company and faculty advisor on a topic in Marketing. A report will be presented.
Prerequisite: BUS2 130, or Instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

BUS2 137S. Special Topics in Marketing
Special topics in the management of marketing or in the marketing environment. The instructor may choose to address one special topic, theme, or several related topics. Requires one or more projects, at instructors discretion.
Prerequisite: BUS2 130
Normal Grade Rules
3 units

BUS2 138. Marketing Research
Fundamentals of empirical study in marketing, including hypotheses formulation, testing, and the basis of inference. Questionnaire and experimental design, attitude measurement, sampling and data collection, and analysis are emphasized along with applications to marketing decision-making.
Prerequisite: BUS 90, BUS 130, Any 100W. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS2 139. Marketing Management
Marketing management is a capstone course whose purpose is to provide the student with the opportunity to demonstrate and integrate the capabilities acquired from the prerequisite courses.
Prerequisite: BUS2 130, BUS 134A, BUS 134B, BUS 138, COMM 100W or ENGL 100W or LLD 100W and Senior standing.
Recommend: BUS 190 is strongly recommended.
Normal Grade Rules
3 units

BUS2 190. Quantitative Business Analysis
Quantitative models and computer software used in business decision-making. Studies of network and transportation models, linear programming, CPM/PERT project analysis, decision analysis, simulation and other techniques used in management science applications.
Prerequisite: BUS2 090 and MATH 071. Upper Division Standing. Lower Division Business Pool or Business Minor.
Not available to Open University Students.
Normal Grade Rules
3 units

BUS2 191. Decision Making Under Uncertainty
Decision analysis models and methods for optimizing decision policies: Bayes’ Theorem, decision trees, influence diagrams, utility functions and certainty equivalence functions for risk-averse analyses, measures of the value of information, use of relevant spreadsheet computer tools.
Prerequisite: BUS2 090 or any one of the following: MATH 161, HS 367, ISE 130, ECON 003, ECON 103A, or Instructor Consent. Lower division business pool or Business Minor.
Note: Offered only occasionally.
Normal Grade Rules
3 units

BUS2 193. Data Mining
Data Mining is used to discover patterns and relationships in data. Emphasis is on large complex data sets such as those in very large databases or through web mining. Topics: data visualization, association rules, clustering, and various modern classification techniques.
Prerequisite: BUS2 90, BUS2 130 or Instructor Consent
Normal Grade Rules
3 units

BUS2 194A. Statistical Analysis
This course develops fundamental knowledge and skills for applying statistics in business decision-making. Topics include hypothesis testing, simple and multiple regression, experimental design, time series analysis and non-parametric estimation.
Prerequisite: BUS2 90
Normal Grade Rules
3 units

BUS2 194B. Business Analytics
This course covers applications of linear, nonlinear, and discrete optimization as well as the modeling of stochastic processes, including inventory control models and waiting line models.
Prerequisite: BUS2 190
Normal Grade Rules
3 units

BUS2 195A. Spreadsheet Modeling
Develop your analytical modeling skills and learn advanced features of Excel. Focus is on using Excel to model real-world decision-making problems. Covers Excel features including IF functions, lookup tables, date and text manipulation, sorting, filtering, graphing, and VBA.
Prerequisite: BUS2 190
Normal Grade Rules
3 units

BUS2 195B. Data Visualization
This course focuses on state-of-the-art data techniques for creating effective visualizations for structured and unstructured data. The course targets students who are interested in using visualizations to better understand information and communicate with other people.
Prerequisite: BUS2 90
Normal Grade Rules
3 units

BUS2 195C. Simulation Modeling and Analysis
Building and using simulation models in business systems using both Excel and high-level simulation software packages. Topics include discrete-event simulation, Monte Carlo simulation, simulation input data collection and analysis, statistical analysis of simulation output.
Prerequisite: BUS2 190
Normal Grade Rules
3 units

BUS2 195D. Analytic Strategy
This course provides hands-on experience in transforming large amounts of diverse data into business decisions. This is accomplished via an engaging, complex simulation in which participants develop data-driven tactical and strategic decisions.
Prerequisite: BUS2 194A and BUS2 194B
Normal Grade Rules
3 units

SCHOOL OF MANAGEMENT

LOWER DIVISION

BUS3 010. Discovering Business
Simulates setting up a small business to explore the many facets of an enterprise (marketing, accounting, finance, management, information systems, etc.). Through self-assessment and readings, directs students toward career paths that best reflect their personal aptitudes and interests.
Prerequisite: Highly recommended for SJSU freshman business majors, optional for others.
Normal Grade Rules
3 units
BUS3 012. Money Matters
Learn to manage your money for a more meaningful life: afford your life goals, pay for college, avoid financial stress, talk to family about money, choose a credit card, understand investing. Bonus: learn how to pump-up your grades. GE Area: E
Normal Grade Rules
GE EE
3 units

BUS3 080. Legal Environment of Business
Understand the judicial system and dispute resolution with emphasis on the role of law in purchasing, contracting and administering a business as it impacts the firm’s constituencies and society as a whole.
Prerequisite: Sophomore status.
Normal Grade Rules
3 units

BUS3 148. E-Commerce Management
Includes all aspects of management of e-commerce businesses. Topics include business planning, business-to-business and business-to-consumer sectors, entrepreneurship, and small business management.
Normal Grade Rules
3 units

BUS3 149. Negotiation and Conflict Resolution
Provides conflict resolving and negotiation techniques. Case studies demonstrate applications of these methods in real world business, personal, interpersonal and international situations. Emphasis on acquiring and improving skills.
Normal Grade Rules
3 units

BUS3 150. Fundamentals of Human Resource Management
Theories, concepts and processes of human resource management; specific topics include EEO, employee motivation, job analysis and work design, strategic human resource planning, recruitment and selection, talent assessment and development, performance management, compensation and benefits, OSH, and employee rights and discipline.
Prerequisite: BUS 91L or instructor consent. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS3 151. Labor Relations
Private sector union-management relations; labor history, basic labor economics. Legislative, judicial, administrative issues in collective bargaining; contract negotiations; grievance procedures, dispute resolution. Overview of public sector collective bargaining and comparative labor relations. Current trends, including labor-management cooperation.
Prerequisites: Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS3 152. Human Resource Information Systems
Examines the strategic role of Human Resource Information Systems (HRIS) in the effective management of organizations; needs analysis, criteria for selection and evaluation of software tools for HR decision-making; HRIS issues in Internet, privacy, security, system integration, expert systems.
Prerequisite: BUS 150 or instructor consent. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS3 153. Management of Diversity
Cross-cultural differences in effective HR management; organizational culture, cross-cultural communication, opportunity structures, organizational change; legal compliance and planning models such as Equal Employment Opportunity and Affirmative Action; conflict resolution strategies; dealing with internal and external compliance agencies.
Prerequisite: BUS 150 or instructor consent. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS3 154. Workforce Planning, Staffing and Training
Examines basic concepts, strategies and current issues in recruitment, talent acquisition, selection and training. Involves use of computer tools to analyze impacts of legal compliance, diversity, technology, outsourcing, restructuring and downsizing on effective management of human resources.
Prerequisite: BUS 150 and COMM 300W or ENGL 100WB or LLD 100WB. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS3 155. Performance Management and Development
Assessment and performance management of individuals, groups and organizations in a rapidly changing environment. Explores need for change management skills such as organizational development, career development and coaching to assess and improve the talent base of organizations. Project required.
Prerequisite: BUS 150, COMM 100W or ENGL 100WB or LLD 100WB.
Normal Grade Rules
3 units

BUS3 156. International Issues in Human Resource Management
Personnel practices in international context; cross-cultural management, human resource planning, recruitment and selection, expatriation/repatriation, training, performance appraisal, compensation and benefits, labor relations as experienced by multinational corporations; comparative human resource management.
Pre/Corequisite: BUS 150 or instructor consent. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS3 157. Legal Issues in Human Resource Management
Legal aspects of the employment relationship, including employment at will; contract, privacy, public policy, and whistleblower exceptions; EEO and affirmative action; prohibitions against discrimination and harassment; arbitration, trade secrets and non-competition agreements; occupational safety/health; compensation, benefit and family leave laws. Project required.
Prerequisite: BUS 80, BUS 150 and BUS100W or COMM 100W or ENGL 100WB or LLD 100WB. Upper division standing. Allowed Declared Major: Bus Admin/Human Resource Mgmt or Business Minor.
Normal Grade Rules
3 units

BUS3 158. Compensation and Reward Systems
Theories and practices of compensation and benefits; strategies to establish and administer equitable pay structures; job analysis, and evaluation, salary surveys, pay and motivation, skill-based pay systems, long-term and short-term performance plans, merit increase, bonus, stock options, profit-sharing, executive compensation and computer tools in compensation.
Prerequisite: BUS 91L and BUS 150. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units
BUS 159. Senior Seminar in Human Resource Management
Extension and integration of student knowledge, skills and abilities in strategic HRM, critical analysis of current HRM issues, exploration of HR career options, analysis of existing organization to develop methods of improving HRM decision-making in a real-world setting. Prerequisite: COMM 100W or ENGL 100WB or LLD 100WB, BUS 150, BUS 157 and BUS 158. Allowed Declared Major: Bus Admin/Human Resource Mgmt. Lower Division Business Pool. Graduating Senior Status.
Normal Grade Rules
3 units

BUS 160. Fundamentals of Management and Organizational Behavior
Provides a foundation for major topics in management and organizational behavior by surveying theories and practices relating to managerial roles, organizational cultures, fundamental strategic issues, planning, team building, communication, motivation, leadership, decision-making, control, structure and change.
Prerequisites: Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS 161A. Applied Organizational Behavior
Focuses on high-level application, analysis, synthesis and evaluation of group dynamics, interpersonal communication, motivation, leadership, perception and attitudes, individual power and politics, conflicts and stress management. In-depth emphasis on key theories plus interpersonal managerial skills.
Prerequisite: BUS 160, COMM 100W or ENGL 100WB or LLD 100WB. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS 161B. Organization Theory
Managing organization-wide structural and cultural changes leading to designs that enhance organizational effectiveness. Change issues of managing growth, resistance, intervention phases, crisis management, intergroup conflict/power are combined with design issues of balancing innovation and predictability, decentralization and centralization.
Prerequisite: BUS 160, COMM 100W or ENGL 100WB or LLD 100WB. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS 166. Business, Government, & Society
Analysis of the American business system in terms of socio-economic and political constraints imposed upon business organizations by external, physical, legal, political, social and economic environments. Special reference to ethical issues in business, corporate social responsibility, profit maximization and countervailing powers in a pluralistic society.
Prerequisite: COMM 100W or ENGL 100WB or LLD 100WB. Upper division standing. Lower Division Business Pool or Business Minor.
Normal Grade Rules
3 units

BUS 169A. Honors Seminar
This course will introduce some of the seminal theories in management and related fields. The seminar will provide a variety of views on organizations, organizational life and the way organizations function. The course will be cross-disciplinary, drawing on readings about organizations from a variety of sources and disciplines. Students will be required to apply theoretical concepts to their own work, field study, or internship experiences.
Prerequisite: BUS 160 or BUS 161B.
Normal Grade Rules
3 units

BUS 186. Professional and Business Ethics
See PHIL 186.
Normal Grade Rules
GE: S
3 units

BUS 189. Strategic Management
Integrated capstone seminar analyzing interrelationships of managerial decisions/actions within and between the firm and its environment. Applies multi-disciplinary techniques to diagnose and recommend actions appropriate to specific company situations, using case method.
Prerequisite: Any 100W. Restricted to students who completed the Jack Holland Student Success Center graduation application process.
Normal Grade Rules
3 units

TRANSPORTATION MANAGEMENT

MTM 201. Fundamentals of Transportation Management
Provides a common core of surface transportation knowledge for further MS/TM courses. Includes discussion of the historic development of transportation economics, policy and culture. Reviews stakeholders whose commitment is necessary to create and sustain a successful transportation entity.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units

MTM 202. Introduction to Transportation Funding & Finance
Introduces financial and managerial uses of accounting information systems and concepts. Includes standard costs, cost-volume-profit relationships, contribution analysis, budgeting, performance measurement, variance analysis, working capital, valuing capital costs and financing investment decisions. Explores use of complex information decision systems.
Normal Grade Rules
3 units

MTM 203. Transportation Marketing and Communications Management
Focuses on the marketing of transportation services and the management of transportation marketing communications. Emphasizes the planning and development of transportation marketing strategies and the implementation of transportation marketing plans.
Normal Grade Rules
3 units

MTM 214. Transportation Policy and Regulation
Surveys transportation policy and regulation in the United States, with particular attention to the development of transportation policies and regulations at the federal, state, and local levels.
Normal Grade Rules
3 units

MTM 215. Transportation System Planning and Development
Examines transportation system development and the relationships between transportation systems and the social, economic, and environmental factors that influence them. Focuses on the development of transportation policies and plans at the federal, state, and local levels.
Normal Grade Rules
3 units

MTM 217. Leadership and Management of Transportation Organizations
A study of the human resource aspects of managing transportation systems, including labor/management collaboration/mediation and discriminate employee relations programs. Builds skills in leadership and team building within the context of bringing about organizational change in a complex transportation system.
Normal Grade Rules
3 units
MTM 226A. Emergency Management Issues for Transportation Professionals
Examines the role of emergency management within transportation agencies and the role of transportation and related resources in community-wide responses to emergencies disasters. Includes instruction in Standardized Emergency Management Systems (SEMS).
Normal Grade Rules
3 units

MTM 226B. Security Issues for Transportation Professionals
Examines contemporary challenges to transportation security. Topics to be covered include management of infrastructure challenges (such as tunnels), bridge, road and rail vulnerabilities) prevention of and response to theft, work place violence, disruptive terrorism, suicide and placement combing attacks, and their related protection strategies. Students will learn about federal and state grants for security, as well as regional transportation planning for disaster response planning.
Normal Grade Rules
3 units

MTM 230. Multi Modal Transportation in CA
Course provides an overview of public transit systems in California. It examines the maze of public transit services, funding and regulation.
Repeatable for credit
Normal Grade Rules
3 units

MTM 236. Contemporary Issues in Transportation Management
Emphasizes the impact of contemporary, political, and popular views on decision-making in transportation, and how collaborative efforts are made within the framework of government and business environments. May include significant content via guest speakers/professionals in transportation industry and government.
Prerequisite: Graduate standing and prerequisite courses as may be specified.
Normal Grade Rules
3 units

MTM 245. High Speed Rail Mgmt I
The course is designated for students interested in participating in the evolving high-speed rail program in the United States. The course will introduce students to the Intercity and High Speed Passenger Rail mode and describe its attributes and technical components. The worldwide status of the mode will be described as well as the path being taken in the United States. The course will also deal with general enterprise management and the management competencies required. It will introduce students to the issues of organizing project development and implementation.
Normal Grade Rules
3 units

MTM 246. High Speed Rail Mgmt II
Designed for students interested in participating in the evolving Intercity and High Speed Passenger Rail Program in the United States, the course is a companion to MTM 245, and will introduce students to the Intercity and High Speed Passenger Rail mode and describe its attributes and technical components. The worldwide status of the mode will be described as well as the path being taken in the United States. The course will also deal with general enterprise management and the management competencies required. It will introduce students to the issues of organizing project development and implementation.
Normal Grade Rules
3 units

MTM 250. Transportation and the Environment
Students will be introduced to the complexities in the relationship of transportation and the environment. An important theme of this class is that real world trade-offs are inherent in addressing transportation as an important cause of environmental degradation. Solutions considered have technical, socio-economic, and cultural impediments. Students will learn from case studies of success in creating more environmentally-benign forms of access and mobility. Students will contribute their own ideas in class discussions and a term paper on innovation in transportation policy to address environmental concerns.
Normal Grade Rules
3 units

MTM 283. MSTM Capstone - Project Design
Provides the first part of a culminating experience in which students design and carry out an individual, comprehensive policy or program evaluation. Students conduct background research and develop a Policy or Program Evaluation Proposal that demonstrates their capacity to do independent research, analysis, and writing about a complex transportation management problem.
Prerequisite: Completion of 21 units towards the Master of Science in Transportation Management degree
Credit / No Credit
3 units

MTM 290. MSTM Capstone - Evaluation Report
Provides the second part of a culminating experience in which students design and carry out an individual, comprehensive policy or program evaluation. Students complete a Policy or Program Evaluation following the proposal design they developed in MTM 283. The final report demonstrates their capacity to do independent research, analysis, and writing about a complex transportation management problem.
Prerequisite: MTM 283
Mandatory CR/NC/RP
3 units

Note: No Degree Credit.
Charles W. Davidson College of Engineering Courses

ENGINEERING

LOWER DIVISION

ENGR 005. Science of High Technology
Scientific principles underlying commonly used high technology devices and systems such as the computer, cell phone, iPods, cameras, and the Internet. Emphasizes practical applications of scientific principles to contemporary engineering products and services. GE Area: B1
Normal Grade Rules
GE: B3
3 units

ENGR 008Q. Engineering Success
Combination of workshop and lab exercises emphasizing group interaction, communications skills and problem solving for incoming students. May be repeated for a total of 2 units.
 Misc/Lab: Activity 2 hours. Repeatable for credit
Credit / No Credit
1 unit

ENGR 010. Introduction to Engineering
Introduction to engineering through hands-on design projects, case studies, and problem-solving using computers. Students also acquire non-technical skills, such as team skills and the ability to deal with ethical dilemmas. GE Area: E
Prerequisite: Eligible for MATH 019 and Writing Enrollment Category W-I or W-II, or ENGL 1AF with a grade of CR, or ENGL 1A with a grade of C- or better.
Engineering Majors Only
Misc/Lab: Lecture 2 hour/lab 3 hours.
Normal Grade Rules
GE: EE
3 units

UPPER DIVISION

ENGR 100W. Technical Writing Workshop
Weekly writing and speaking practice to develop technical communication skills. Repeatable not for graduation credit.
Prerequisite: Referral by engineering faculty.
Repeatable for credit
Credit / No Credit
2 units

ENGR 102. Renewable Energy Engineering
Prerequisite: CHEM 1A and (PHYS 71 or PHYS 52 or PHYS 2B); Upper division standing in engineering.
Normal Grade Rules
3 units

ENGR 025. The Digital World and Society
The secure, effective and ethical use of information technology. The effect of such technology on people and institutions. Technology-related challenges to society and frameworks for the analysis of information technology with respect to its cultural, historical, environmental, and spatial contexts. GE Area: D1
Normal Grade Rules
GE: D1
3 units

ENGR 060SL. Engineering Projects in Community Service
EPICS is a service-learning course where engineering students work in multidisciplinary teams to undertake community-identified engineering projects. Students will gain insight into design and development processes and perform and report upon tasks consistent with their level of discipline expertise.
Prerequisite: Engineering major; non-remedial
Repeatable for credit
Normal Grade Rules
1 unit

ENGR 090W. Engineering Reports
Regular technical writing assignments and company-focused oral presentations while integrating effects of environmental factors as they relate to products, systems and engineering processes. GE Area: R and Z
Prerequisite: ENGL 1B or equivalent second semester composition course (with a grade of C- or better);
Completion of core GE, satisfaction of Writing Skills Test and upper division standing. Allowed Declared Majors: All Engineering, Aviation, Industrial Technology. Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
GE: ZR
3 units

ENGR 120. Programming Concepts for Behavioral and Social Science Applications
This course covers the application of Python programming to the fields of behavioral and social sciences, as well as basic building blocks of computers and the Web. This course also covers how programming is used in various careers.
Prerequisite: STAT 095, or MATH 30, or MATH 71
Normal Grade Rules
3 units

ENGR 157SL. Community Action/Community Service
Use R programming language to collect, analyze, and present data sets from behavioral and social science applications.
Prerequisite: ENGR 120
Normal Grade Rules
3 units

ENGR 175SL. Community Action/Community Service
See COMM 157SL.
Normal Grade Rules
GE: S
3 units
ENGR 160SL. Engineering Projects in Community Service UD
EPICS UD is a service-learning course where upper division engineering students work in multidisciplinary teams to undertake community-identified engineering projects. Students will gain insight into design and development processes and perform and report upon tasks consistent with their level of discipline expertise. Prerequisite: Engineering major, upper division standing
Repeatable for credit
Normal Grade Rules
1 unit

ENGR 180. Individual Studies
Individual work on special topics, by arrangement. Prerequisite: Upper division standing and instructor consent. Allowed Declared Majors: Engineering. Not available to Open University Students. Repeatable for credit
Credit / No Credit
1-3 units

ENGR 184. Business Strategy in Practice in Technology Enterprise
This course provides students with the practical tools and assessment for applying their business acumen. The first half introduces the students to standard business assessment tools that feed business strategies, such as marketing, business development and M & A. The second half of the course is comprised of developing the basic elements of a formal Business Plan and providing both comprehension and application levels of learning of business strategy. Prerequisite: BUS 193 or ENGR 193 and BUS 181. Normal Grade Rules
3 units

ENGR 194. Business Organization and Management of Technology Enterprise
This course provides a “top down” overview of how commercial business works, including the business components: Corporate Environments, Human Resources, Legal, Marketing, Customer Insights, Management/Leadership. Communication and business soft skills will be covered providing a foundation for a solid business acumen. All class sessions focus on local and global perspectives. Prerequisite: BUS 193 or ENGR 193. Normal Grade Rules
3 units

ENGR 195A. Global and Social Issues in Engineering
Interdisciplinary seminar treating social and global impacts of technology and engineering. This integrated GE experience requires students to apply these concepts in their senior project classes. Students must enroll concurrently in their department senior project course Part A. GE Area: S when taken as part of Engineering Major sequence. Prerequisite: ENGR 100W with a C or better. Engineering Majors only. Completion of Core General Education and upper division standing are prerequisites to all SJSU Studies courses. Corequisite: Enrollment in major capstone course or equivalent.
Note: Meets GE Areas S and V when course is taken in combination with ENGR 195B and Engineering major specific sequence. Must be passed with a C or better to earn S and V Repeatable for credit
Normal Grade Rules
GE: S
1 unit

ENGR 195B. Global and Social Issues in Engineering
Second course in a two-course sequence to support the integration of General Education Area S and Area V into the engineering major. Case study approach to the relationship of engineering to social, ethical and cultural aspects of the broader community both in the U. S. and worldwide. GE Area: V when taken as part of Engineering Major Sequence. Prerequisite: ENGR 195A (with a grade of “C” or better). Engineering Majors Only Passage of the Writing Skills Test (WST) or ENGL/LI 100A with a “C” or better” (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. Corequisite: Enrollment in major capstone course or equivalent.
Note: To receive credit for GE Areas S and V, students must complete both ENGR 195A and ENGR 195B, each with a grade of C or better. They must also complete their senior project course sequence and earn a grade of C or better in each course. Repeatable for credit
Normal Grade Rules
GE: V
1 unit

ENGR 195C. Interdisciplinary Senior Project I
Interdisciplinary team senior design projects. Proposal preparation with feasibility plans and specifications; oral and written reports; professional seminars. GE Area: S when taken as part of an engineering major sequence. Prerequisites: ENGR 100W, eligible for senior project course in major.
Note: Meets GE Areas S and V when course is taken in combination with: ENGR 195D, ENGR 195A and ENGR 195B
Normal Grade Rules
GE: S
3 units

ENGR 195D. Interdisciplinary Senior Project II
Construction, testing, and evaluation of the design from ENGR 195C culminating in demonstrations and written and oral presentations to faculty, industry mentors and peers. GE Area: V when taken as part of an engineering major sequence. Prerequisites: ENGR 195C with a grade of “C” or better.
Note: Meets GE Areas S and V when course is taken in combination with: ENGR 195C, ENGR 195A and ENGR 195B
Normal Grade Rules
GE: V
3 units

ENGR 195E. Interdisciplinary Computing Project
Culminating project experience for students to apply computing knowledge and skills to solving problems or generating insights in their chosen area of study such as behavioral and social sciences.
Prerequisite: ENGR 120 or Instructor Consent
Normal Grade Rules
3 units

ENGR 197. Cooperative Education Project
Part or full-time on-site paid work experience based on a pre-approved project assignment in area of student’s career objective. Oral presentations, written final report and evaluation by project supervisor. Approved technical elective.
Prerequisite: Instructor consent.
Normal Grade Rules
3 units

ENGR 198. Technology and Civilization
See TECH 198
Normal Grade Rules
GE: V
3 units
GRADUATE

ENGR 200W. Engineering Reports and Graduate Research
Graduate level technical writing workshop designed to develop advanced communication skills that will readily transfer to the engineer’s professional needs, along with research methodologies, copyright issues, and proper documentation for the master’s thesis project.
Prerequisite: Graduate standing and completion of an undergraduate writing course.
Note: This course satisfies graduate-level CWAR in this master’s program.
ABC/No Credit
GE: CWAR
3 units

ENGR 201. Engineering Analysis
Mathematical techniques for solving engineering problems. Topics include linear systems analysis, probability and statistics, and differential equations. Applications include modeling and simulation, optimization, projection, experimental design. Several computer projects are required.
Prerequisite: Graduate standing or instructor consent.
Normal Grade Rules
3 units

ENGR 202. Systems Engineering
Large scale system design and development. Integrated approach including mission statement, synthesis of design concepts, tradeoff studies, risk assessment and interactions encountered in the optimal design, development, manufacture and test of systems.
Prerequisite: Graduate standing or instructor consent.
Normal Grade Rules
3 units

ENGR 203. Engineering Management
Students will develop contemporary expertise in the principles of engineering finance, management, IP, operations management, performance metrics, and their application to design, development, and commercialization of new products and services in dynamic environments.
Prerequisite: Graduate standing and instructor consent.
Normal Grade Rules
3 units

ENGR 204. Computational Analytics In Bioinformatics for Engineers
Project-based study of computational accuracy, precision, completeness, speed, and memory usage of key algorithms used in biological and big data analytics. Example algorithms: HMMs, SVM, clustering, dimension reduction, sequence assembly & De Bruijn graphs.
Prerequisite: Graduate standing and instructor consent.
Normal Grade Rules
3 units

ENGR 206. Renewable Energy Systems
Advanced knowledge in renewable energy resources such as solar, wind, geothermal, biomass, waves and tidal energy. Solar resources and technologies, Integrated Resource Planning and System Operations, Enabling technologies and new energy use trends: Smart Grid, Demand Response, Energy Storage, and Electric Vehicles.
Prerequisite: Instructor consent
Normal Grade Rules
3 units

ENGR 212. Engineering Management in a Global Economy
Application of engineering methodologies and practices to manage projects and organizations in a global digital economy. Topics include shifting from a manufacturing, production, marketing, and supply chain to a service economy, premium manufacturing, ethics, and competitive soft skills.
Prerequisites: ENGR 203 or Instructor Consent.
Normal Grade Rules
3 units

ENGR 220. Bioinfo Comp Tools & Alg for Engr
Students will experience hands-on application and problem-solving oriented introduction to Perl, Python, or R script programming and the analysis and management of bioengineering and biological data.
Prerequisite: Instructor consent
Normal Grade Rules
3 units

ENGR 230. Special Topics Next Generation Sequencing for Engineers
This course will provide students with an understanding of the genomic landscape, description of sequence generation methodologies and technologies, computational tools for genome browsing and mining data, association studies, genomic microbes and microbiomes, pharmacogenomics, and large-scale expression analysis.
Prerequisite: BIOL 023, BIOL 116, or BIOL 117, and CHE 162, HS 167, ISE 130, or equivalent, or instructor consent.
Normal Grade Rules
3 units

ENGR 236. Design for Manufacturability
Knowledge-based design, value engineering, DFM methodologies, robust design, process and materials selection, design constraints, design for assembly. Techniques of quality engineering, CAD/CAM integration and simultaneous engineering, cost estimating, activity-based costing, case studies, team projects.
Prerequisite: Principles of Design and Manufacturing Processes.
Normal Grade Rules
3 units

ENGR 240. Control Systems Design and Applications
Introduction to control system analysis, feedback control theory, control law design and implementation. Topics include system modeling and identification, computer simulation, frequency domain and state space design approaches, control law implementation, and commonly used sensors and actuators for control systems. CAD tools for control systems analysis, design and simulation are used throughout this course.
Prerequisite: Graduate Standing
Normal Grade Rules
3 units

ENGR 253. Advanced Bioinformatics Computational Laboratory For Engineers
A hands-on programming laboratory project-based course that will provide instruction about engineering approaches to develop, apply, and analyze R, Python, Perl, or Java based implementations of computational solutions to biological related problems.
Prerequisites: ENGR 220, Math 162, or instructor consent
Normal Grade Rules
3 units

ENGR 261. Battery Technologies I
ENGR 261 teaches fundamentals of battery technologies. Concepts and understanding of electrochemical interactions, kinetics and thermodynamics in batteries will be covered. Basic concepts, material development and modeling of lithium-ion batteries will be discussed as well as understanding of flow batteries. Advanced and future technologies for next generation batteries will be introduced.
Normal Grade Rules
3 units

ENGR 262. Battery Technologies II
This follow-up course will provide an in-depth look at batteries with a focus on cutting-edge research and development. Topics such as material synthesis techniques, science of electrode fabrication, advanced characterization techniques, battery life degradation mechanisms, design of battery electrodes, thermal management, and state-of-charge and state-of-health measurements will be covered.
Normal Grade Rules
3 units

ENGR 263. Battery Electrochemistry
This course will cover the basics of electrochemistry, including thermodynamics, kinetics, mass transfer effects, reference electrodes, porous electrodes, dilute and concentrated solution theory, and electro-analytical methods, including voltammetry, coulometry and impedance spectroscopy.
Normal Grade Rules
3 units
ENGR 264. Battery Manufacturing
Lectures will cover the manufacturing of Li-ion cells and battery packs in detail and the basics steps in manufacturing, equipment, cost considerations, and quality issues related to manufacturing.
Normal Grade Rules
3 units
ENGR 265. Battery Control Systems
Learn how to design, analyze, and perform experiments for model and system validation work on battery control systems in electric vehicles, solar and/or wind renewable energy storage, and retrieval systems for the electric grid.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units
ENGR 271. Passive Optical Sensing
An introduction to passive optical sensing systems, including application areas, phenomenology and component/technology performance analysis. Detector types, principles, noise and sensor cooling issues will be addressed. Case studies and system analysis of complete passive optical sensing systems included.
Prerequisite: Instructor consent
Normal Grade Rules
3 units
ENGR 281. Master’s Project/Thesis Preparation Seminar
Preparation for project or thesis research, including development of scope, assembly of committee, preparation of schedule, completion of literature survey, completion of introductory chapter for final report, and research proposal examination at the end of the course.
Prerequisite: Complete common and option core courses, a grade of “B” or better in ENGR 200W or any CS&IS approved course that satisfies the Graduate Writing Competency Requirement and approved candidacy form on file.
Misc/Lab: Lab 3 hours.
Mandatory CR/NC/RP
1 unit
ENGR 282A. Engineering for Teachers: Introduction to Engineering Design
A thematic approach to the study of relevant topics and concepts in engineering. Development of inquiry-based, hands-on classroom activities in engineering education. Design process, research and analysis, teamwork, communication methods, global and human impacts, engineering standards, and technical documentation.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units
ENGR 282B. Engineering for Teachers: Principles of Engineering
A thematic approach to the study of relevant topics and concepts in engineering. Communication, presentation skills and teamwork, visualization and sketching techniques, introduction to mechanical systems and mechanisms, basic thermodynamics, fluid control and hydraulic systems, control systems and feedback, robotics, engineering units, instruments, tools and measurements, statics, material properties and strength of materials.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units
ENGR 282C. Engineering for Teachers: Digital Electronics
A thematic approach to the study of relevant topics and concepts in electronics engineering. Introduction to process and control of digital signals, design process for combinational and sequential logic design, teamwork, communication methods, engineering standards, and technical documentation.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units
ENGR 282D. Engineering for Teachers: Gateway to Technology Foundations
A project-based curricular approach to the teaching of technology, designed to challenge and engage the natural curiosity and imagination of middle school students. Introduction to mechanical and computer control systems, robotics and animation, and explorations of the importance of energy, including innovative ways to reduce, conserve and produce it using solar, thermal and wind power.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units
ENGR 282E. Engineering for Teachers: Gateway to Technology Specializations
A project-based curricular approach to the teaching of technology, designed to challenge and engage the natural curiosity and imagination of middle school students. Includes units on the impact of energy on our lives and the environment; the science behind aeronautics; design, build and test an airfoil; the science of electricity, behavior and parts of atoms, and sensing devices; knowledge and skills in basic circuitry design and examine the impact of electricity on our lives.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units
ENGR 282F. Engineering for Teachers: Civil Engineering and Architecture
A thematic approach to the study of relevant topics and concepts in engineering. Development of inquiry-based, hands-on classroom activities in engineering education. History of and careers in civil engineering and architecture including residential and commercial design, aesthetics and building safety codes.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units
ENGR 282G. Engineering for Teachers: Aerospace Engineering
A thematic approach to the study of relevant topics and concepts in engineering. Development of inquiry-based, hands-on classroom activities in engineering education. Introduction to the study of relevant topics and concepts in aerospace engineering, including the history and physics of flight, flight navigation, aerospace design, materials and structures, propulsion, flight physiology, space travel and aerospace careers.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units
ENGR 282H. Engineering for Teachers: Biotechnical Engineering
A thematic approach to the study of relevant topics and concepts in engineering. Development of inquiry-based, hands-on classroom activities in engineering education and careers. Topics include biotechnical history and industry, impact of technology on human health and safety, forensics, biomedical, environmental and agricultural applications.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units
ENGR 282I. Engineering for Teachers: Computer Integrated Manufacturing
A thematic approach to the study of relevant topics and concepts in engineering. Development of inquiry-based, hands-on classroom activities in engineering education and careers. Topics include history of manufacturing, control systems, design for manufacturability, cost estimating, and elements of automation.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units
ENGR 282J. Engineering for Teachers: Engineering Design and Development
A thematic approach to the study of relevant topics and concepts in engineering. Development of inquiry-based, hands-on classroom activities in engineering education and careers. Topics include project management, research and development of problem solutions, prototyping and testing, project and process evaluation, documentation and presentation.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units
ENGR 295A. Master Project I
In-depth developmental engineering work relating to problems of interest to an individual or a group of students. Project includes proposal formulation, analysis, design, implementation, and testing.
Prerequisite: Graduate Advisor consent. Not available to Open University students.
Repeatable for credit
Mandatory CR/NC/RP
3 units

ENGR 295B. Master Project II
A continuation of ENGR 295A. Students complete the in-depth project, write a detailed project report and make a comprehensive presentation and demonstration of project.
Prerequisite: Admission to Candidacy of Master’s Degree and CMPE 295A or CMPE 295W. Not available to Open University students.
Mandatory CR/NC/RP
3 units

ENGR 297B. Special Topics in Bioinformatics
This course augments regularly-scheduled graduate courses and programs in bioinformatics by providing an opportunity for students to learn about and develop skills in specialized and well focused areas of bioinformatics.
Prerequisites: BIOL 135, CHEM 130A, CS 123A (all with grades of B or better)
Normal Grade Rules
1-3 units

ENGR 297C. Special Topics in Systems Engineering
Special seminars and discussions to augment regularly-scheduled graduate courses. Emphasis on systems, process, product, and service integration in short-life cycle product and service industries using systems, concurrent engineering, and cost of ownership principles.
Prerequisite: Instructor consent.
Normal Grade Rules
3 units

ENGR 297D. Special Topics in Emerging Technologies
Special topics in emerging technologies that emphasize new development in technologies, skills and knowledge which are suitable for the new technologies development such as but not limited to Machine Learning, Big Data Processing, Analytics, Data Analysis, and Information retrieval.
Prerequisite: Instructor consent.
Normal Grade Rules
1-3 units

ENGR 297E. Special Topics in Electronic Materials and Devices
Special Seminars and discussions to augment regularly-scheduled graduate courses. Emphasis on VLSI design computer-aided design, modeling, simulation and testing. Materials and processes includes characterizing and processing of electronic materials.
Prerequisite: Instructor’s consent
Repeatable for credit
Normal Grade Rules
3 units

ENGR 297G. Battery Technology 1
Basic and fundamentals about battery technologies. Cover the concepts and understanding of electrochemical, kinetics and thermodynamics in batteries. Discussion on basic concepts on material development and modeling of lithium-ion batteries as well as understanding of flow batteries. Introduction to advanced and future technologies for next generation batteries.
Prerequisite: Graduate standing or instructor’s consent
Repeatable for credit
Normal Grade Rules
3 units

ENGR 297M. Special Topics in Engineering Management
Special seminars and discussions to augment regularly-scheduled graduate courses. Emphasis on engineering management fundamentals, product development and marketing, finance management, managing people and organizations and communication, planning, estimation, tracking metrics, risk analysis, e-business, project and change management.
Prerequisite: Graduate standing or instructor’s consent
Normal Grade Rules
3 units

ENGR 298. Master’s Project
Completion of an in-depth project, a detailed project report, followed by a comprehensive presentation and demonstration of project.
Prerequisite: ENGR 281, satisfaction of English Proficiency requirement, advancement to candidacy.
Misc/Lab: Lab 6 hours.
Mandatory CR/NC/RP
2 units

ENGR 298I. MSE Internship
Student will be employed in an industry as an intern, working in an engineering area to their MSE option. This course supplements and supports the student’s program of study.
Prerequisite: Students must have graduate standing.
Mandatory CR/NC/RP
1-3 units

ENGR 299. Master’s Thesis
Master’s thesis work in engineering.
Prerequisite: Admission to candidacy for master’s degree; written contract with thesis advisor and graduate coordinator.
Misc/Lab: Lab 9 hours.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units
### CHEMICAL ENGINEERING

#### UPPER DIVISION

**CHE 109. Heat Transfer in Electronics**
Introduction to thermodynamics and heat transfer, including conduction, convection and radiation. An emphasis on applications for electronics, including heat transfer in computer components, heat sinks, liquid and air cooling and heat pipes.
Prerequisite: EE 098, PHYS 051 and one of the following courses: MATH 129 or MATH 123 or MATH 129; Allowed Declared Majors: Computer Engineering, Electrical Engineering, Engineering, Industrial and Systems Engineering
Normal Grade Rules
3 units

**CHE 115. Industrial Chemical Calculations**
Methods of formulation and solution of material and energy balances as applied to chemical processes.
Prerequisite: PHYS 051 (with a grade of "C" or better); MATH 133A, CHEM 001B
Corequisite: ENGR 010
Misc/Lab: Lecture 2 hours/calculation period 3 hours.
Normal Grade Rules
3 units

**CHE 131. Air Pollution Meteorology**
See METR 131.
Normal Grade Rules
3 units

**CHE 151. Process Engineering Thermodynamics**
Analysis of the ideal and real behavior of gases, liquids and solids from a macroscopic viewpoint; 1st and 2nd Law; phase rule, volumetric properties of fluids; heat effects; solution theory and applications; vapor-liquid and solid-solid equilibria; chemical reaction equilibria.
Prerequisite: CHE 115 and ENGR 10
Misc/Lab: Lecture 3 hours/calculation period 3 hours.
Normal Grade Rules
4 units

**CHE 158. Kinetics and Reactor Design**
Analysis of unsteady chemical processes with emphasis on kinetics of reaction and application of fundamental principles to the design and operation of commercial reactors.
Prerequisite: CHE 115, CHE 151, CHE 160A, CHE 162 and CHE 190 (with an average of "C" or better in the five courses); ENGR 100W.
Misc/Lab: Lecture 2 hours/calculation period 3 hours.
Normal Grade Rules
3 units

**CHE 160A. Unit Operations I**
Materials transportation, fluid metering, mixing, sedimentation, filtration, heat exchange and evaporation; types of equipment used and numerous practical applications. Introduction to transport theory.
Prerequisite: CHE 115 and CHE 190
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
4 units

**CHE 160B. Unit Operations II**
Continuation of CHE 160A. Mass transfer operations, diffusion, absorption, extraction, distillation, humidification, membrane separations, drying and crystallization. Field trips to process industries. Integrate global and social issues in engineering.
Prerequisite: CHE 115, CHE 151, CHE 160A, CHE 162 and CHE 190 (with an average of "C" or better in the five courses); ENGR 100W. Allowed Declared Major: Chemical Engineering.
Misc/Lab: Lecture 3 hours/calculation period 3 hours.
Normal Grade Rules
4 units

**CHE 161. Process Safety and Engineering Ethics**
Topics include principles of chemical process safety, risk assessment, analysis of ethics issues, and the application of the engineering ethical code using case studies.
Integrate global and social issues in engineering. GE Area: S and V when taken with CHE major sequence.
Prerequisite: CHEM 1B.
Misc/Lab: Lecture 1 hour.
Note: Meets GE Areas S and V when course is taken in combination with: CHE 160B, CHE 165, ENGR 195A and ENGR 195B
Normal Grade Rules
1 unit

**CHE 161L. Undergraduate Chemical Engineering Laboratory**
Quantitative study of chemical engineering processes, with emphasis on fluid flow and heat transfer operations. Written and oral reports will be required.
Prerequisite: CHE 115, CHE 151, CHE 160A, CHE 162 and CHE 190 (with an average of "C" or better in the five courses); ENGR 100W.
Corequisite: CHE 160B and CHE 161.
Misc/Lab: Lecture 1 hour/lab 3 hours.
Normal Grade Rules
1 unit

**CHE 162. Engineering Statistics and Analysis**
Topics will include error analysis, probability, statistics including hypothesis testing, confidence limits and control variables, design of experiments and statistical process control as they are utilized in the chemical, materials and process engineering industries.
Prerequisite: MATH 133A.
Misc/Lab: Lecture 1 hour/lab 3 hours
Normal Grade Rules
2 units

**CHE 162L. Undergraduate Chemical Engineering Laboratory**
Chemical engineering principles with an emphasis on traditional and novel applications in focuses such as environmental engineering and biotechnology. Written and oral reports will be required.
Prerequisite: ENGR 100W, CHE 160B and CHE 161L.
Misc/Lab: Lecture 1 hour/lab 3 hours.
Normal Grade Rules
1 unit

**CHE 165A. Plant Design I**
Introduction to the technical and economic evaluation of a chemical processing plant design. Introduction to project design and effective team management.
Corequisite: CHE 158 and CHE 160B, instructor consent.
Misc/Lab: Lab 3 hours.
Normal Grade Rules
1 unit

**CHE 165B. Plant Design II**
Continuation of the technical and economic evaluation of a chemical processing plant, including most aspects of a typical industrial design.
Major plant design project report required.
Prerequisite: CHE 165A, instructor consent.
Misc/Lab: 2 hours lecture/ 2 hours lab
Normal Grade Rules
3 units

**CHE 172. Biofuels Process Engineering**
Focus on the practical applications of engineering principles and practices used to produce the three major biofuels products commonly available today: ethanol, biodiesel and methane. Differences between entrepreneurial efforts and more traditional processes will be explored.
Prerequisite: CHE 160A
Normal Grade Rules
3 units

**CHE 174. Hazardous Materials**
Review of current methods and procedures for management of hazardous materials and hazardous wastes; analysis of contaminated systems and remedial actions.
Prerequisite: PHYS 51, PHYS 52, or PHYS 71 and CHEM 1A or instructor consent.
Normal Grade Rules
3 units

**CHE 176. Introduction to Fuel Cells**
Examination of how electricity, chemistry, heat and mass transfer inter-relate to each other in a fuel cell, and a survey of fuel cell systems. Practical consideration of different fuel cell types and applications will be discussed.
Prerequisite: CHE 160A
Normal Grade Rules
3 units
CHE 180. Individual Studies
Individual work on special topics by arrangement.
Prerequisite: Not available to Open University Students
 Repeatable for credit
Credit / No Credit
1-3 units

CHE 185. Chemical Process Dynamics and Control
Dynamic behavior of representative chemical processes. Process control; dynamics of open-loop systems; techniques of closed-loop control.
Prerequisite: CHE 160B.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

CHE 190. Introduction to Transport Phenomena
Prerequisite: PHYS 051 (with a grade of “C-“ or better); MATH 133A, CHEM 001B, CE 099
Normal Grade Rules
3 units

CHE 192. Introduction to Biochemical Engineering
Enzyme kinetics and enzyme reactors, enzyme isolation and purification, cellular regulation and recombinant DNA technology, microbial kinetics and design/operation of fermenters.
Prerequisite: CHEM 112A, or both CHEM 130A and CHEM 130B, or CHEM 135 or CHE 158.
Normal Grade Rules
3 units

CHE 193. Microbiological Techniques
See BIOL 193
Normal Grade Rules
1 unit

CHE 194. Biochemical Engineering Lab
Principles, concepts and mechanisms of growth and purification of products from biological systems investigated, with emphasis on scale-up procedures. Recombinant DNA techniques and bioinformatics included.
Pre/Corequisite: CHE 192.
Misc/Lab: Lecture 2 hour/lab 3 hours.
Normal Grade Rules
3 units

CHE 197. Cooperative Education Project
See ENGR 197
Normal Grade Rules
3 units

CHE 198. Industrial Bioseparations
Industrial considerations for downstream bioseparation processes including design, troubleshooting, scale-up, economics and validation with a focus on pharmaceutical products.
Prerequisite: CHE 192 or biochemistry or relevant industrial experience.
Normal Grade Rules
3 units

CHE 199. Special Topics in Chemical and Materials Engineering
Special Topics in Chemical and Materials Engineering. Content varies from semester to semester. Course is repeatable for a total of 6 units.
Prerequisite: Instructor consent
Repeatable for credit
Normal Grade Rules
3 units

GRADUATE

CHE 207. Mass Transfer
An advanced study of the principles of mass transfer in the diffusional operations of distillation, absorption, extraction, drying and humidification.
Prerequisite: CHE 160B.
Normal Grade Rules
3 units

CHE 211. Advanced Chemical Engineering Thermodynamics
Quantitative development of fundamental laws of thermodynamics and their application to chemical processes. Equilibria and thermal effects in homogeneous and heterogeneous systems. Studies of behavior of complex mixtures and high pressure phenomena.
Prerequisite: CHE 151 and MATH 133A.
Normal Grade Rules
3 units

CHE 218. Reaction Kinetics
Theoretical background of simple homogeneous reactions collision theory and absolute reaction rate theory, mechanisms of complex homogeneous reactions. Mechanisms of reactions catalyzed by solids; diffusion in solid catalyst. Reactor design.
Prerequisite: MATH 133A, CHE 151 and CHE 158.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
3 units

CHE 219. Transport Processes
Derivation of general differential equations for transport of heat, mass and momentum; kinetic theory of fluids and its application to transport phenomena based on molecular motion; methods for estimating transport coefficients in fluids.
Prerequisite: CHE 160B.
Normal Grade Rules
3 units

CHE 281. MS Thesis/Project Preparation Seminar
See MATE 281.
Credit / No Credit
1 unit

CHE 287. MS Thesis/Project
Mandatory CR/NC/RP

CHE 297. Special Topics in Chemical Engineering
Special topics to augment regularly-scheduled graduate courses.
Prerequisite: Graduate standing or instructor permission.
Repeatable for credit
Normal Grade Rules
1-4 units

CHE 298. MS Research/Project
Master’s project work in Chemical Engineering.
Prerequisite: Admission to candidacy. Not available to Open University Students
Corequisite: CHE 281.
Repeatable for credit
Mandatory CR/NC/RP
1-2 units

CHE 299. Master’s Thesis
Master’s thesis work in Chemical Engineering.
Prerequisite: Admission to candidacy. Not available to Open University Students
Corequisite: CHE 281.
Repeatable for credit
Mandatory CR/NC/RP
3 units
MATE 025. Introduction to Materials
Atomic and crystal structures, imperfections and atom movement; phase equilibria and transformations; boundaries, heat treatment of metals, mechanical, physical and chemical properties of engineering materials. Prerequisite: CHEM 001A, PHYS 050, MATH 031. Allowed Declared Majors: Any Engineering
Normal Grade Rules
3 units

MATE 115. Structure/Properties of Solids
Bonding and crystal structure, the space lattice and unit cell calculations; crystalline anisotropy, point, line and surface defects; phase equilibria and interpretation of phase diagrams; thermal activation and the vacancy mechanism of mass transport in solids. Prerequisite: PHYS 051 (with a grade of “C-“ or better), MATH 133A, CHEM 001B and MATE 025
Corequisite: ENGR 010.
Normal Grade Rules
3 units

MATE 129. Introduction to Integrated Circuits Processing and Design
Basic processes involved in fabrication of integrated circuits; semiconductor physics, material preparation, oxidation, diffusion, photolithographic, thin-film deposition and etching. Simple component layout and evaluation of device parameters. Prerequisite: MATE 25 or MATE 153.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

MATE 135. Introduction to Composite Materials
Introduction to theory, application, and design with composite materials, including high performance resin-matrix fibrous composites and metal-matrix materials. Topics include materials, test techniques, environmental effects, design considerations, and application requirements. Prerequisite: MATE 025.
Normal Grade Rules
3 units

MATE 140. Principles of Scanning Electron Microscopy
Principles and practice of scanning electron microscopy. Basic theory and skills development of electron microscopy, including electron dispersive spectroscopy. Imaging and compositional analysis of conductive and non-conductive samples. Prerequisite: ENGR 100W.
Normal Grade Rules
1 unit

MATE 141. Structure and Analysis of Materials
Crystallography and structural analysis of materials by x-rays and electrons. Imaging, diffraction, scattering and spectroscopic methods of characterization. Prerequisite: MATE 115.
Corequisite: MATE 153
Normal Grade Rules
3 units

MATE 142. Solid State Thermodynamics
Analysis of the ideal and real behavior of gases, liquids and solids from a macroscopic viewpoint; 1st and 2nd Law; phase rule, volumetric properties of fluids; heat effects; solution theory and applications; vapor-liquid and solid-solid equilibrium; chemical reaction equilibria. Prerequisite: MATE 115
Co-Requisite: Chem 161A
Notes: Lecture 3 hours
Normal Grade Rules
3 units

MATE 143. Principles of Scanning Electron Microscopy
Principles and practice of scanning electron microscopy. Basic theory and skills development of electron microscopy, including electron dispersive spectroscopy. Imaging and compositional analysis of conductive and non-conductive samples. Prerequisite: ENGR 100W.
Normal Grade Rules
1 unit

MATE 144. X-Ray Diffraction Lab
Practical applications of X-ray diffraction. Including phase identification, texture analysis, grain size determination. Prerequisite or Corequisite: MATE 141 or instructor consent.
ABC/No Credit
1 unit

MATE 145. Principles of Scanning Probe Microscopy
Principles and practice of various surface probe microscopies including AFM and STM. Prerequisite: Introductory course in chemistry, physics or materials engineering.
Normal Grade Rules
1 unit

MATE 146. X-Ray Diffraction Lab
Practical applications of X-ray diffraction. Including phase identification, texture analysis, grain size determination. Prerequisite or Corequisite: MATE 141 or instructor consent.
ABC/No Credit
1 unit

MATE 151. Solid State Thermodynamics
Analysis of the ideal and real behavior of gases, liquids and solids from a macroscopic viewpoint; 1st and 2nd Law; phase rule, volumetric properties of fluids; heat effects; solution theory and applications; vapor-liquid and solid-solid equilibrium; chemical reaction equilibria. Prerequisite: MATE 115
Co-Requisite: Chem 161A
Notes: Lecture 3 hours
Normal Grade Rules
3 units

MATE 152. Solid State Kinetics
Diffusion and rates of reaction in solids. Transformations in solids, including nucleation and growth, martensitic transformation, spinodal decomposition and order-disorder reactions. Prerequisite: 2.0 average for MATE 115, MATE 141, MATE 151, MATE 154 and MATE 155; ENGR 100W; CHE 162.
Normal Grade Rules
3 units

MATE 153. Electronic, Optical and Magnetic Properties of Materials
Crystalline and energy band structure of materials, thermal properties and electrical conduction in semiconductors and metals, optical and magnetic properties of solids. Prerequisite: PHYS 051, CHEM 001A, EE 098 and MATH 133A
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

MATE 154. Metals and Alloys
Thermal and mechanical processing of metals and alloys. Heat treatments, metallography and interpretation of microstructure. Biomedical, aerospace, automotive and other applications of metals discussed, including precipitation hardening of non-ferrous metal alloys, and the processing/structure/properties relationship in titanium alloys. Prerequisite: MATE 115.
Corequisite: MATE 153 or ENGR 100W.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

MATE 155. Materials Selection and Process Design
Methodology for selecting materials in process design for engineering applications. Case studies emphasizing materials selection and process parameters. Evaluation of material performance, robust design, and process control on semiconductor manufacturing, bioengineering devices, energy storage and conversion, water purification applications. Prerequisite: MATE 115, CHE 162, and ENGR 010.
Normal Grade Rules
3 units

MATE 156. Photovoltaic Fabrication/Testing Lab
Laboratory course covering photovoltaic (solar cell) design, fabrication, and testing. TCAD simulation tools will be used in design. Fabrication processes will include cleaning, surface texturing, deposition, diffusion, metallization, photolithography, etching, and electrical testing. Prerequisites: MATE 025 or MATE 153 or corequisite of MATE 129.
Misc/Lab: Lab 3 hours.
Normal Grade Rules
1 unit
MATE 168. Microfluid Fabrication and Design
See ME 168.
Normal Grade Rules
1 unit

MATE 169. Microelectromechanical Systems Fabrication and Design
See ME 169.
Normal Grade Rules
1 unit

MATE 175. Biomaterials
Fundamentals of structure, processing, and properties of metallic, ceramic and polymeric materials utilized in biomedical devices and biotechnology. Effect of structure and processing on properties, especially biocompatibility, corrosion and long term reliability. Methods for characterization and testing of materials. New trends in biomaterials for interventional cardiology, implants, vascular prostheses, catheters and orthopedics.
Prerequisite: MATE 25 or instructor consent.
Misc/Lab: Lecture 3 hours/Lab 3 hours.
Normal Grade Rules
3 units

MATE 180. Individual Studies
Individual work on special topics by arrangement.
Prerequisite: Major form on file with department and instructor consent. Not available to Open University Students.
Repeatable for credit
Credit / No Credit
1-3 units

MATE 185. Ceramics
Structure, properties and processing of crystalline and glassy ceramics, including defect thermodynamics, surfaces, ternary phase equilibria, and sintering. Applications include solid oxide fuel cells, oxide based chemical sensors, ceramics for biomedical and dental applications, and processing of electronic components.
Prerequisite: MATE 115, MATE 151, MATE majors must also satisfy Jr. Core requirements.
Normal Grade Rules
3 units

MATE 186. Polymers
Structure and properties of solid polymers; chemistry, thermal transitions, mechanical, electrical and optical properties, influence of chemical structure and processing on properties, applications.
Prerequisite: MATE 25 (with a grade of “C”) and CHEM 161A (or equivalent as determined by instructor).
Normal Grade Rules
3 units

MATE 187. Solids
Structure and properties of crystalline and glassy solids, including defect thermodynamics, surfaces, thermal phase transitions, and sintering. Applications include solid oxide fuel cells, oxide based chemical sensors, ceramics for biomedical and dental applications, and processing of electronic components.
Prerequisite: MATE 115, MATE 151, MATE majors must also satisfy Jr. Core requirements.
Normal Grade Rules
3 units

MATE 195. Mechanical Behavior of Materials
Elasticity, plasticity, anelasticity, deformation mechanisms; effect of microstructure and imperfections; fatigue, creep, fracture; plane stress and plane strain; failure analysis for structural applications involving engineering devices and systems, bulk and nanomaterials, material compatibility, and interfacial bonding in thin films.
Prerequisite: MATE 115, ENGR 100W, CHE 162, CE 099; MatE majors must satisfy the Junior core.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

MATE 197. Cooperative Education Project
See ENGR 197
Normal Grade Rules
1 unit

MATE 198A, Senior Design Project
Apply materials engineering principles to the design and implementation of an approved materials engineering project, Integrate global and social issues in engineering. GE Area: S when taken as part of the MATE Major sequence.
Prerequisite: 2.0 average and “C-” minimum grade in (MATE 115, MATE 141, MATE 151, MATE 153, MATE 154, MATE 155); ENGR 100W; CHE 162.
Corequisite: ENGR 195A, MATE 195 and CHE 161
Misc/Lab: Lecture 1 hour/lab 3 hours.
Note: Meets GE Areas S and V when course is taken in combination with: MATE 198B, ENGR 195A and ENGR 195B
Normal Grade Rules
3 units

MATE 198B, Senior Design Project
Apply materials engineering principles to the design and implementation of an approved materials engineering project, Integrate global and social issues in engineering. GE Area: V when taken as part of the MATE Major sequence.
Prerequisite: MATE 198A with a minimum grade of “C”.
Corequisite: ENGR 195B
Misc/Lab: Lecture 1 hour/lab 3 hours.
Note: Meets GE Areas S and V when course is taken in combination with: MATE 198A, ENGR 195A and ENGR 195B
Normal Grade Rules
2 units

MATE 205. Advanced Mechanical Behavior of Solids
Structure-property relationships in mechanical behavior of materials, including elastic, anelastic and plastic behavior; creep characteristics, fracture, testing methods, dislocation dynamics, strengthening mechanisms.
Prerequisite: MATE 115 (or equivalent).
Normal Grade Rules
3 units

MATE 210. Experimental Methods in Materials Engineering
Advanced study of experimental techniques used in materials engineering, including data acquisition and analysis, experiment design strategy and hands-on operation of advanced equipment.
Prerequisite: MATE 115 (or equivalent).
Misc/Lab: Lecture 2 hour/lab 3 hours.
Normal Grade Rules
3 units

MATE 211. Solid State Materials Engineering
Electrical, optical and magnetic properties. Includes wave mechanics, bonding theory, energy band theory, electronic transport, conduction, semiconduction and insulation.
Prerequisite: MATE 115 (or equivalent).
Normal Grade Rules
3 units

MATE 220. Principles and Applications of Electrochemistry
Applied electrochemical systems, such as fuel cells, batteries, electrolytic plating, electrosynthesis. Environmental degradation in biological and material systems. Modern electrochemical techniques in analytical chemistry, including polarography, cyclic voltammetry, coulometric and pulse methods.
Prerequisite: MATE 155 (or equivalent) or instructor consent.
Normal Grade Rules
3 units

MATE 232. Plasma Processing of Materials
Principles of low temperature plasmas used for materials processing, including plasma fundamentals, plasma chemistry, collision and heating mechanisms and diagnostics. Material interactions in plasma assisted etching, deposition, and surface treatment will be emphasized.
Prerequisite: MATE 133A, MATE 25, and PHYS 51 or equivalent courses.
Normal Grade Rules
3 units
MATE 241. Advanced Methods of Materials Characterization
Methods for characterization and analysis of bulk materials, films, nanoscale structures and surfaces.
Prerequisite: Upper division undergraduate course in chemistry, condensed matter physics or materials.
Normal Grade Rules
3 units

MATE 251. Advanced Solid State Thermodynamics
Thermodynamics of phase changes, nucleation and growth, martensitic changes, diffusion, rate theory, structural changes accompanying transformation, applications of theoretical concepts to materials development.
Prerequisites: MATE 115 and MATE 151 (or equivalent).
Normal Grade Rules
3 units

MATE 260. Theory of Semiconductor Materials
Advanced theory of constitution, structure and energy bands in semiconductors; material requirements of devices; different methods of doping, interconnection, isolation of circuits, material processing and failure analysis.
Prerequisite: MATE 25, MATE 115, MATE 153 or MATE 129 (or equivalent).
Normal Grade Rules
3 units

MATE 265. Principles of Nanomaterials
The fundamental properties of nanomaterials including thermodynamic, mechanical, electrical, magnetic, optical and biochemical properties and synthesis and characterization. Applications including nanomaterials for structural composites, memory and logic devices, clean renewable energy technologies, bio materials in drug delivery, and aerospace applications.
Prerequisites: CHEM 001A, EE 098, MATH 133A, PHYS 051, PHYS 071, MATE 025, and MATE 153.
Normal Grade Rules
3 units

MATE 270. Methods of Thin Film Deposition
Chemical and physical methods of thin film deposition including evaporation, sputtering, chemical vapor deposition, and electroplating. Thermodynamics and kinetics of growth, considerations for reactor design, control of deposition to alter film properties; deposition processes used for metals, dielectrics and semiconductors.
Prerequisite: MATE 152 (or equivalent).
Normal Grade Rules
3 units

MATE 281. MS Thesis/Project Preparation Seminar
Development of project or thesis proposal.
Prerequisites: Classified standing, completion of minimum 9 units towards MS degree, candidacy form submitted, satisfactory completion of university graduate writing requirement.
Misc/Lab: Lab 3 hours.
Credit / No Credit
1 unit

MATE 297. Special Topics in Materials Engineering
Special topics to augment regularly-scheduled graduate courses.
Prerequisite: Graduate standing or instructor permission.
Notes: By arrangement only.
Repeatable for credit
Normal Grade Rules
1-4 units

MATE 298. MS Research/Project
Master’s project work in Materials Engineering.
Prerequisite: Admission to candidacy
Corequisite: MATE 281. Not available to Open University Students.
Repeatable for credit
Mandatory CR/NC/RP
1-2 units

MATE 299. Master's Thesis
Master’s thesis work in Materials Engineering.
Prerequisite: Admission to candidacy. Not available to Open University Students.
Corequisite: MATE 281.
Repeatable for credit
Mandatory CR/NC/RP
1-3 units

NO DEGREE CREDIT

MATE 1290R. Culminating Experience Supervision
Continued work on dissertation, thesis, or project or in preparation for comprehensive exams beyond the minimum required units for cases in which final deliverables are still in progress and all other degree requirements except the culminating experience have been fulfilled.
Prerequisite: Outstanding RP grade in a previous semester in MATE 298 or 299
Note: No Degree Credit
No Degree Credit
1 unit
Chemistry Department Courses

CHEMISTRY

LOWER DIVISION

CHEM 001A. General Chemistry
Topics including stoichiometry, reactions, atomic structure, periodicity, bonding, states of matter, energy changes, solutions using organic and inorganic examples. Lab program complements lecture.
Prerequisite: Proficiency in high school chemistry or CHEM 010 (with a grade of “C” or better; “C-” not accepted) or instructor consent; proficiency in high school algebra and eligibility for MATH 019; Writing Enrollment Group W-I or W-II, or ENGL 1AF with a grade of CR, or ENGL 1A with a grade of C- or better.
Misc/Lab: Lecture 2 hours/activity 2 hours.
Notes: No credit toward chemistry major or minor.
Normal Grade Rules
GE: B1B3
3 units

CHEM 001B. General Chemistry
Topics including stoichiometry, colligative properties, kinetics, equilibria, thermodynamics and electrochemistry. Lab program complements lecture. GE Area: B1 and B3
Prerequisite: CHEM 001A (with a grade of “C” or better; “C-” not accepted).
Misc/Lab: Lecture 3 hours/lab
Normal Grade Rules
GE: B1B3
5 units

CHEM 008. Organic Chemistry
Introduction to the chemistry of carbon compounds for allied health majors and others requiring only 3 units of organic chemistry lecture.
Prerequisite: CHEM 001B (with a grade of “C” or better; “C-” not accepted).
Notes: CHEM 008 is not a satisfactory prerequisite for CHEM 112B. No credit toward Chemistry major or minor.
Normal Grade Rules
3 units

CHEM 009. Organic Chemistry Lab
Organic chemistry laboratory for allied health majors and others requiring only 1 unit of organic chemistry lab.
Pre/Corequisite: CHEM 008.
Misc/Lab: Lab 3 hours.
Notes: No credit toward Chemistry major or minor.
Normal Grade Rules
1 unit

CHEM 010. Chemical Calculations and Concepts
Fundamental concepts in chemistry and problems in chemical symbolism and calculations. For students wishing to continue in chemistry, but lacking prerequisites for CHEM 001A.
Prerequisite: One year high school algebra.
Misc/Lab: Lecture 2 hours/activity 2 hours.
Notes: No credit toward chemistry major or minor.
Normal Grade Rules
3 units

CHEM 030A. Introductory Chemistry
The physical world as seen by a chemist; the ways this world affects humans, other animals and plants used as illustrations of fundamental general chemistry. GE Area: B1 and B3
Misc/Lab: Lecture 2 hours/lab 3 hours.
Notes: No credit toward Chemistry major or minor.
Normal Grade Rules
GE: B1B3
3 units

CHEM 030B. Introductory Chemistry
Organic compounds produced both in nature and artificially and the reactions they undergo, particularly in the human.
Prerequisite: CHEM 030A or CHEM 001A (with a grade of “C” or better; “C-” not accepted).
Misc/Lab: Lecture 2 hours/lab 3 hours.
Notes: No credit toward Chemistry major or minor.
Normal Grade Rules
3 units

CHEM 055. Quantitative Analysis
Introduction to theories and techniques of chemical analysis.
Prerequisite: CHEM 001B (with a grade of “C” or better; “C-” not accepted).
Normal Grade Rules
2 units

CHEM 055L. Quantitative Analysis Laboratory
Introduction to chemical analysis techniques.
Pre/Corequisite: CHEM 055
Misc/Lab: Lab 6 hours.
Normal Grade Rules
2 units

CHEM 090. Problem Solving for Chemistry
Supplemental course taken simultaneously with lower division chemistry lecture courses. Techniques for studying and problem solving emphasis. Preparation and active participation expected. Consult schedule of classes for current offering(s).
Notes: No credit toward chemistry major or minor.
Repeatable for credit
Credit / No Credit
1 unit

UPPER DIVISION

CHEM 100W. Writing Workshop: Chemical Communications
Improvement of skills in scientific writing and speaking. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing. CHEM 055 or CHEM 112A (with grades of “C” or better; “C-” not accepted). Allowed Declared Majors: Chemistry, Biochemistry.
Note: Must be passed with “C” or better” to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE: Z
3 units

CHEM 101. Chemistry and the Computer
Analysis of chemical problems. Spreadsheets, mathematical software packages, computer programming, computational chemistry methods.
Prerequisite: CHEM 055 and MATH 030 or MATH 030P (with a grade of “C” or better; “C-” not accepted).
Misc/Lab: Lecture 2 hours/activity 2 hours.
Normal Grade Rules
3 units

CHEM 112A. Organic Chemistry
Chemistry of the carbon compounds, both aliphatic and aromatic, emphasizing underlying concepts.
Prerequisite: CHEM 1B (with a grade of “C” or better; “C-” not accepted).
Normal Grade Rules
3 units

CHEM 112B. Organic Chemistry
Continuation of CHEM 112A.
Prerequisite: CHEM 112A (with a grade of “C” or better; “C-” not accepted).
Normal Grade Rules
3 units

CHEM 113A. Organic Chemistry Lab
Fundamental techniques for the isolation, characterization and synthesis of organic compounds.
Prerequisite: CHEM 112A (with a grade of “C” or better; “C-” not accepted). Chemistry, Biology, Forensic Science-Chemistry, Forensic Science-Biology, Biomedical Engineering and Chemical Engineering majors only, all others by department consent.
Misc/Lab: Lab 6 hours.
Normal Grade Rules
2 units
CHEM 113B. Organic Chemistry Lab
Continuation of CHEM 113A including more advanced work.
Prerequisite: CHEM 113A (with a grade of "C" or better; "C-" not accepted). Chemistry majors only or instructor consent.
Pre/Corequisite: CHEM 112B.
Misc/Lab: Lecture 1 hour/lab 6 hours.
Normal Grade Rules
3 units

CHEM 114. Advanced Organic Chemistry Lab
A capstone course on special topics in laboratory experiments utilizing modern chemical, physical and spectrometric methods. A grade of "C" or better is required for majors.
Prerequisite: CHEM 113A and CHEM 113B (with grades of "C" or better; "C-" not accepted).
Misc/Lab: Lecture 1 hour/lab 6 hours.
Normal Grade Rules
3 units

CHEM 118. Special Topics in Organic Chemistry
Introduction to a wide range of subjects typically missing from the traditional organic chemistry sequence (CHEM 112A and CHEM 112B, CHEM 113A and CHEM 113B). Consult schedule of classes for current offering(s).
Prerequisite: CHEM 113A (with a grade of "C" or better; "C-" not accepted).
Repeatable for credit
Normal Grade Rules
1 unit

CHEM 120S. Chemical Safety Seminar
Safety protocol appropriate to working with hazardous chemicals. Physical nature of hazards, biological effects, permissible exposures, safety precaution techniques. OSHA requirements.
Prerequisite: College level chemistry course. Upper division standing.
Credit / No Credit
1 unit

CHEM 121S. Radiation Safety
See NUCS 121S.
Normal Grade Rules
1-2 units

CHEM 126. Introduction to Nuclear Science
Properties of the atomic nucleus. Applications of nuclear science in biology, chemistry, engineering, geology and physics.
Prerequisite: Lower division calculus, chemistry and physics.
Normal Grade Rules
3 units

CHEM 127. Nuclear Science Lab
Basic techniques and procedures used in nuclear science. Nuclear decay, nuclear reactions, radiation detection and measurements, nuclear analytical methods and tracer techniques.
Prerequisite: NUCS 121S, CHEM 100W and CHEM 126 (with grades of "C" or better; "C-" not accepted); or instructor consent.
Misc/Lab: Lecture 1 hour/lab 6 hours.
ABC/No Credit
3 units

CHEM 130A. Biochemistry
Chemistry of amino acids, carbohydrates, lipids and nucleotides. Studies of protein structure and function, protein isolation, enzyme kinetics and enzyme mechanisms.
Prerequisite: CHEM 112B (with grades of "C" or better; "C-" not accepted).
Normal Grade Rules
4 units

CHEM 130B. Biochemistry
Continuation of CHEM 130A, Concepts of bioenergetics, biochemical pathways of degradation and synthesis; metabolic regulation.
Prerequisite: CHEM 130A and BIOL 30 (with grades of "C" or better; "C-" not accepted).
Normal Grade Rules
4 units

CHEM 130C. Biochemistry
Advanced biochemical topics selected from the fields of immunology, physiology, molecular and cell biology.
Prerequisite: CHEM 130A and BIOL 30 (with grades of "C" or better; "C-" not accepted).
Normal Grade Rules
3 units

CHEM 131A. Biochemistry Lab
Fundamental qualitative and quantitative techniques and methodology in modern biochemistry.
Prerequisite: CHEM 55, 55L and 113A (with a grade of "C" or better; "C-" not accepted).
Pre/Corequisite: CHEM 130A.
Misc/Lab: Lab 6 hours.
Normal Grade Rules
2 units

CHEM 131B. Biochemistry Lab
A capstone course on advanced isolation techniques and enzyme methodology. A continuation of CHEM 131A. A grade of "C" or better is required for majors.
Prerequisite: CHEM 100W, CHEM 130A, CHEM 131A (with grades of "C" or better; "C-" not accepted).
Pre/Corequisite: CHEM 130B or CHEM 130C.
Misc/Lab: Lecture 1 hour/lab 6 hours.
Normal Grade Rules
GE: R
3 units

CHEM 132. Introductory Biochemistry
Cellular and nutritional biochemistry for those who do not plan to continue in biochemistry, such as nutritional science and other science majors.
Prerequisite: CHEM 30B or CHEM 8 (with grades of "C" or better; "C-" not accepted).
Notes: No credit toward Chemistry major or minor.
Normal Grade Rules
4 units

CHEM 132L. Introductory Biochemistry Lab
Lab work associated with chemistry of foods and nutrition, cellular metabolism, biomacromolecules, vitamins and the structure of carbohydrates, lipids, proteins and nucleic acids.
Prerequisite: CHEM 030B or CHEM 008 (with a grade of "C" or better; "C-" not accepted).
Pre/Corequisite: CHEM 132.
Misc/Lab: Lab 3 hours.
Notes: No credit toward Chemistry major or minor.
Normal Grade Rules
1 unit

CHEM 135. General Biochemistry
A survey course on structure/function of biological molecules such as amino acids, proteins including enzymes, lipids/membranes, carbohydrates, and nucleic. Course topics include intermediary metabolism, regulation, and molecular biology.
Prerequisite: BIOL 30, CHEM 112A, CHEM 112B (with a grade of "C" or better; "C-" not accepted).
Normal Grade Rules
4 units

CHEM 146. Inorganic Chemistry
Development of unifying principles to understand the chemistry of the elements. An introduction to the chemistry, bonding theories and applications of coordination compounds.
Prerequisite: CHEM 112B and CHEM 160 or CHEM 161A (with grades of "C" or better; "C-" not accepted).
Normal Grade Rules
3 units

CHEM 146. Physical-Inorganic Techniques
Application of advanced instrumental and preparative techniques to the study of structure, reactivity and spectroscopy of inorganic and organic substances including materials. This is a capstone course. A grade of "C" or better is required for majors.
Prerequisite: CHEM 100W, CHEM 101, CHEM 145, CHEM 161A (with grades of "C" or better; "C-" not accepted) or instructor consent.
Pre/corequisite: CHEM 155
Misc/Lab: Lecture 1 hour/lab 6 hours.
Normal Grade Rules
3 units
CHEM 155. Instrumental Analysis
Principles and practices in the use of instrumental methods in chemical analysis. Basic physical chemistry necessary to understand the operation and limitations of the instruments.
Prerequisite: CHEM 100W, CHEM 160 or CHEM 161A (with grades of “C” or better, “C-” not accepted).
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
4 units

CHEM 159. Advanced Analytical Chemistry
A lecture and problem course which considers advanced topics in chemical analysis. Consult schedule of classes for current offering(s).
Prerequisite: Upper division standing or instructor consent.
Notes: A total of 6 units may apply toward degree.
Repeatable for credit
Normal Grade Rules
1-2 units

CHEM 160. Physical Chemistry
Introduction to the fundamental principles of physical chemistry. Thermodynamics, kinetics, quantum mechanics and spectroscopy.
Prerequisite: CHEM 55, PHYS 2B and MATH 30 (with grades of “C” or better, “C-” not accepted).
Normal Grade Rules
4 units

CHEM 161A. Physical Chemistry
Principles of classical physical chemistry. Chemical thermodynamics, kinetics and electrochemistry.
Prerequisite: CHEM 55 or CHEM 1B and upper division standing for engineering majors), PHYS 50 and MATH 32 (with grades of “C” or better, “C-” not accepted).
Normal Grade Rules
3 units

CHEM 161B. Physical Chemistry
Principles of modern physical chemistry. Quantum chemistry, spectroscopy and statistical mechanics.
Prerequisite: CHEM 161A and PHYS 52 (with grades of “C” or better, “C-” not accepted). Upper division standing.
Normal Grade Rules
3 units

CHEM 162L. Physical Chemistry Lab
Physical chemical measurements with data analysis and written reports.
Prerequisite: CHEM 100W or ENCR 100W; CHEM 161A or CHEM 160 (all prerequisites with grades of “C” or better, “C-” not accepted).
Note: If using CHEM 161A as a prerequisite, it requires either CHEM 161B or CHE 158 as a co-requisite.
Misc/Lab: Lab 6 hours.
Normal Grade Rules
2 units

CHEM 172. Chemistry of Wine
Introduction to chemistry of important components (organic acids, pigments, tannins, flavor constituents, etc.) of grape wine. Chemical changes that occur during fermentation, maturation and aging.
Prerequisite: CHEM 1B (with a grade of “C” or better, “C-” not accepted) or instructor consent.
Normal Grade Rules
1 unit

CHEM 173. Polymer Chemistry
Chemistry of polymeric substances, both natural and synthetic, emphasizing polymers of current interest.
Prerequisite: CHEM 112B (with a grade of “C” or better, “C-” not accepted) or instructor consent.
Normal Grade Rules
3 units

CHEM 180. Individual Studies
Advanced supervised lab work. Work and results described in written and oral reports as required by instructor. An honors course.
Prerequisite: CHEM 120S, instructor consent and “B” average. Not available to Open University Students
Repeatable for credit
Credit / No Credit
1-4 units

CHEM 184. Directed Reading
Assigned readings of selected books, journals and papers to fill gaps in training or for contact with new fields. Regular conferences with instructor. Written report required. An honors course.
Prerequisite: Instructor consent and CHEM 55. Not available to Open University Students
Repeatable for credit
Credit / No Credit
1-4 units

CHEM 190. Advanced Problem Solving for Chemistry
Supplemental course taken simultaneously with upper division chemistry lecture courses. Techniques for studying and problem solving emphasis. Preparation and active participation expected. Consult schedule of classes for current offering(s).
Notes: No credit toward chemistry major or minor.
Repeatable for credit
Credit / No Credit
1 unit

CHEM 191. Undergraduate Seminar
Problem solving and presentation of topics within specialized sub-areas of chemistry by students, faculty and guests. A total of 2 units may be repeated.
Prerequisite: CHEM 3B.
Repeatable for credit
Credit / No Credit
0.5 units

CHEM 199. Senior Thesis or Project
Prerequisite: Minimum of 2 units of CHEM 180 or CHEM 184, instructor consent and CHEM 100W. Not available to Open University Students
Credit / No Credit
1 unit

GRADUATE

CHEM 201. Graduate Studies in Chemistry
Principles and topics in contemporary chemical research. Open to senior undergraduates with instructor consent.
Credit / No Credit
1 unit

CHEM 212. Natural Products
Topics from the structure proof, synthesis and biosynthesis of secondary metabolites.
Prerequisite: CHEM 114 (or equivalent with a grade of “C” or better, “C-” not accepted) or other advanced organic course.
Notes: Alternate years.
Normal Grade Rules
3 units

CHEM 213. Organic Synthesis
Synthetic methods and their application to multistep organic syntheses. Emphasis will be placed on synthetic strategy and a mechanistic understanding of synthetic reactions.
Prerequisite: CHEM 112B (or equivalent with a grade of “C” or better, “C-” not accepted). Alternate years.
Normal Grade Rules
3 units

CHEM 216. Physical Organic Chemistry
Application of molecular orbital theory to organic chemistry and related topics.
Prerequisite: CHEM 112B and CHEM 161B (or equivalents with grades of “C” or better, “C-” not accepted).
Notes: Alternate years.
Normal Grade Rules
3 units

CHEM 218. Organotransition Metal Chemistry
Structure and reaction chemistry of compounds which contain transition metal-carbon bonds. Applications to catalytic processes and to organic synthesis.
Prerequisite: CHEM 112B and CHEM 134 (or equivalents with grades of “C” or better, “C-” not accepted) or instructor consent.
Notes: Alternate years.
Normal Grade Rules
3 units
### CHEM 231. Advanced Biochemistry
Chemistry of the amino acids, peptides and proteins, the chemistry of enzyme action and introduction to the metabolism of amino acids and related compounds.
Prerequisite: CHEM 130B or CHEM 135 (or equivalent with a grade of "C" or better; "C-" not accepted).
Notes: Alternate years.
Normal Grade Rules 3 units

### CHEM 232. Nucleic Acids
Topics include structural features of DNA and RNA, protein-DNA or RNA interactions, chemical and enzymatic basis for gene expression, and recombinant DNA methods.
Prerequisite: CHEM 130C or CHEM 135 (or equivalent with a grade of "C" or better; "C-" not accepted).
Notes: Alternate years.
Normal Grade Rules 3 units

### CHEM 234. Enzymology
Enzyme structure, function, classification, isolation and methodology, mechanisms, theory of catalysis, enzyme kinetics, pH effects, allosterism and regulation.
Prerequisite: CHEM 130B or CHEM 135 (or equivalent with a grade of "C" or better; "C-" not accepted).
Notes: Alternate years.
Normal Grade Rules 3 units

### CHEM 236. Biophysical Methods
Advanced lectures on theory and methodology of biophysical measurements. Topics selected from spectroscopic, electromigration and hydrodynamic methods. Practice, limitations and data reduction procedures for each method examined.
Prerequisite: CHEM 130A or CHEM 135 (or equivalent with a grade of "C" or better; "C-" not accepted) or instructor consent.
Notes: Alternate years.
Normal Grade Rules 3 units

### CHEM 237. Bioinorganic Chemistry
Provides an in-depth survey of the frontiers of bioinorganic chemistry from both biochemical and synthetic inorganic chemistry perspectives.
Prerequisite: CHEM 130A (or equivalent with a grade of "C" or better; "C-" not accepted) or instructor consent.
Notes: Alternate years.
Normal Grade Rules 3 units

### CHEM 245. Advanced Inorganic Chemistry
Advanced topics of current interest in inorganic chemistry.
Prerequisite: CHEM 145 (or equivalent with grade of "C" or better; "C-" not accepted).
Notes: Alternate years.
Repeatable for credit Normal Grade Rules 3 units

### CHEM 250. Current Topics in Analytical Chemistry
Lecture, discussion and reading assignments on special topics in analytical chemistry. Topics vary each semester. Course may be repeated for credit for different topics.
Prerequisite: CHEM 155 (or equivalent with a grade of "C" or better; "C-" not accepted).
Repeatable for credit Normal Grade Rules 3 units

### CHEM 264. Chemical Applications of Group Theory
The application of group theoretical principles to problems in quantum chemistry, molecular structure, spectroscopy and ligand field theory.
Prerequisite: CHEM 161B (or equivalent with grade of "C" or better; "C-" not accepted) or instructor consent.
Notes: Alternate years.
Normal Grade Rules 3 units

### CHEM 265. Molecular Spectroscopy
Prerequisite: CHEM 161B (or equivalent with grade of "C" or better; "C-" not accepted).
Notes: Alternate years.
Normal Grade Rules 3 units

### CHEM 268. Laser Spectroscopy
See PHYS 268.
Normal Grade Rules 3 units

### CHEM 270. Advanced Chemistry
Lectures, discussions and reading assignments in special fields of chemistry. Topics vary. Course may be repeatable for maximum of 10 units.
Prerequisite: Satisfactory background in upper division chemistry and instructor consent.
Repeatable for credit Normal Grade Rules 1-5 units

### CHEM 270L. Advanced Chemistry Laboratory
Advanced laboratory assignments in special fields of chemistry. Topics vary. Maximum of 4 units may be repeatable.
Prerequisite: Satisfactory background in upper division chemistry, CHEM 120S and instructor consent.
Repeatable for credit Normal Grade Rules 1-3 units

### CHEM 276. Physical Polymer Chemistry
Techniques for characterizing molecular weights of polymers, their distribution functions, polymer chain statistics and solution thermodynamics.
Prerequisite: Satisfactory background in upper division chemistry or materials science or instructor consent.
Notes: Alternate years.
Normal Grade Rules 3 units

### CHEM 285. Seminar
Presentation of chemical topics by graduate students, faculty and guests. A maximum of 3 units may be repeated.
Repeatable for credit Normal Grade Rules 0.5 units

### CHEM 291. Divisional Seminar
Problem solving and presentation of topics in chemistry by graduate students, faculty and guests. A maximum of 1 unit may be repeated.
Repeatable for credit Credit / No Credit 0.5 units

### CHEM 297. MA Special Study
Supervised individual MA project. Maximum of 12 unit may be repeated.
Pre/corequisite: CHEM 201 and instructor consent. Not available to Open University Students
Repeatable for credit Credit / No Credit 1-3 units

### CHEM 298. Research
Supervised individual laboratory work or directed chemical field studies for the student with adequate preparation. Maximum of 12 unit may be repeated.
Pre/-corequisite: CHEM 120S, CHEM 201 and instructor consent. Not available to Open University Students
Repeatable for credit Mandatory CR/NC/RP 1-6 units
CHEM 299. Master's Thesis
Prerequisite: CHEM 298, instructor consent and admission to candidacy for the master's degree. Maximum of 6 unit may be repeated. Not available to Open University Students
Notes: 3-2 units per semester
    Repeatable for credit
    Mandatory CR/NC/RP
    1-6 units

NO DEGREE CREDIT

CHEM 1290R. Culminating Experience Supervision
Continued work on thesis or project. Prerequisite: Outstanding RP grade in a preceding semester in CHEM 299, Master's Thesis
Note: No Degree Credit
    Repeatable for credit
    No Degree Credit
    1 unit
Child and Adolescent Development, Department of Courses

CHILD AND ADOLESCENT DEVELOPMENT

LOWER DIVISION

CHAD 060. Child Development
The child in the family and community from prenatal life throughout the adolescent years. Observation required. GE: EE
Normal Grade Rules
GE: EE
3 units

CHAD 070. Lifespan Development in the 21st Century
Understanding life-long development in the 21st century is promoted through studying theories, research, and the role of culture in shaping physical, cognitive, social, and emotional development. We explore commonalities and differences in human development to understand ourselves as global citizens. GE Area: D1
Normal Grade Rules
GE: D1
3 units

CHAD 075. Imagination, Play and Adult Creativity
Explores childhood play and imagination as well as adult creativity and the influence of value systems, economic structures, political institutions, social groups and natural environments on the development of play, imagination and creativity. GE Area: E
Normal Grade Rules
GE: EE
3 units

UPPER DIVISION

CHAD 100W. Writing Workshop
Development of advanced skills in writing, particularly in the field of child development. Focus on development of a mature writing style and organization of persuasive and analytical prose. GE: Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better). Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE: Z
3 units

CHAD 101. Research Methods in Child Development
Study of various techniques and methods used in child development research. Development of proposal writing skills.
Prerequisite: CHAD 060 or instructor consent.
Normal Grade Rules
3 units

CHAD 102. Development of Self in a Culturally Diverse Society
Examines the influence of various institutions and society on the psychosocial development of children and adolescents from culturally diverse backgrounds in the United States. GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Note: Lecture and field observations.
Normal Grade Rules
GE: S
3 units

CHAD 104. Program Evaluation and Assessment in Community-Based Programs
Optimizing services for children and families requires knowledge and skills in program evaluation and assessment. Through lecture, discussion and case studies, students are introduced to the principles and varied methods of evaluation, and to underlying ethical issues and cultural competencies.
Pre-requisite: CHAD 060
Normal Grade Rules
3 units

CHAD 106. Concepts of Childhood
Explores the historical diversity in the ways in which childhood has been defined, investigates diverse cultural definitions of childhood, examines the impacts of those beliefs and definitions on human development. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units

CHAD 149. Child Health and Physical Activity
An integrative approach to understanding the multiple factors that impact children’s health and physical fitness and that influence the development of lifelong habits. Emphasis is on the inter-relationships between health and fitness and cognitive, social, and emotional well-being.
Prerequisite: CHAD 060 or instructor consent.
Normal Grade Rules
3 units

CHAD 150. Development of Communicative Competence
Survey of major topics in the development of communicative competence (theoretical approaches to understanding language acquisition, contexts for development, language diversity, relationship between language and cognition). Attention given to language acquisition, media influences and language assessment.
Prerequisite: CHAD 060 or instructor consent.
Normal Grade Rules
3 units

CHAD 151. Developing Literacy in a Diverse Society
Knowledge of a balanced literacy approach, including an understanding and use of the major descriptors of developing literacy, appropriate assessment methods and instruments, and a developmental and analytical appreciation for writing strategies, conventions, and applications.
Prerequisite: CHAD 060 or instructor consent.
Normal Grade Rules
3 units

CHAD 152. Foundations for Early Childhood Curriculum
Examines the foundation for implementing integrated ECE curricula. Addresses historical and theoretical issues of curriculum models, assessment of children’s learning, research and standards applicable to curriculum in language, literacy, and STEAM (science, technology, engineering, arts, and math) content areas.
Prerequisite: CHAD 60 or Instructor Consent
Normal Grade Rules
3 units

CHAD 157. Adult Supervision for Programs Serving Children, Youth, and Families
The course is designed to provide students with the practical knowledge necessary to meet criteria for adult supervision in programs that serve children and youths.
Pre-Requisite: CHAD 060
Normal Grade Rules
3 units

CHAD 158. Practicum in Community-Based Organizations Serving Children and Youth
This course provides for a practical application of the theoretical information acquired across the CHAD major coursework. Students will participate in the context of a community service organization serving youth and families.
Pre-requisite: CHAD 060
Misc/Lab: Lecture 3 hours/Lab 3 hours
Normal Grade Rules
3 units
CHAD 159. Child Development K-8 Practicum
Principles, techniques, observation and participation in
the guidance of elementary and middle school children.
Prerequisite: CHAD 060 or instructor consent.
Misc/Lab: Lecture 1 hour/lab 6 hours.
Normal Grade Rules
3 units

CHAD 160. Child Development Practicum
Principles, techniques, observation and participation in
the guidance of children.
Prerequisite: CHAD 060 or instructor consent.
Misc/Lab: Lecture 1 hour/activity 4 hours.
Normal Grade Rules
3 units

CHAD 161. Administration of Early Childhood
Programs
Survey of practices and procedures integral to designing,
administering, and assessing high quality early
learning environments. Focus is on parent involvement,
staff development, curriculum design, and program
development and administration.
Prerequisite: CHAD 152
Normal Grade Rules
3 units

CHAD 162. Childhood and Adolescence in a
Multicultural Society
Exploration of the agents and processes by which cultural
values and social attitudes are transmitted. Interactions
of individuals from four groups in the U.S. examined from
culturally monolithic and pluralistic perspectives.
Prerequisite: CHAD 060 or instructor consent.
Normal Grade Rules
3 units

CHAD 163. Critical Issues in Adolescent
Development
Relationships among major socialization agents (family,
peers, school, media), Ethnicity, primary language and
socioeconomic status as they affect adolescents.
Prerequisite: CHAD 60 or instructor consent.
Normal Grade Rules
3 units

CHAD 164. Contemporary Parenting
Philosophies and theories of parent-child relationships in
a multicultural society.
Prerequisite: CHAD 060 or instructor consent.
Normal Grade Rules
3 units

CHAD 165. Risk and Resilience in a Community
Context
This course provides students with an understanding of
theories, concepts and research that explain risk
and resilience. Students will explore community-based
organizations that promote resilience and apply their
knowledge of risk and resilience to a variety of settings and
contexts.
Pre-requisite: CHAD 060
Normal Grade Rules
3 units

CHAD 166. Social and Emotional Development
in Childhood and Adolescence
Understanding issues in social and emotional
development and processes of development underlying
the emergence of self, social behavior, and emotional
competence. Study coping and models of resiliency as
related to familial and extrafamilial contexts of social and
emotional development.
Prerequisite: CHAD 060 or instructor consent.
Normal Grade Rules
3 units

CHAD 167. Contextual Influences on Cognitive
Development
Survey of major topics and issues in cognitive
development and the acquisition of communication skills.
The influence of family, school and cultural environment
on these developmental changes.
Prerequisite: CHAD 060 or instructor consent.
Normal Grade Rules
3 units

CHAD 168. Social and Emotional Development
in Childhood and Adolescence
Understanding issues in social and emotional
development and processes of development underlying
the emergence of self, social behavior, and emotional
competence. Study coping and models of resiliency as
related to familial and extrafamilial contexts of social and
emotional development.
Prerequisite: CHAD 060 or instructor consent.
Normal Grade Rules
3 units

CHAD 169. Motivating Children and
Adolescents in Educational Settings
Perspectives of psychoanalysis, individual psychology,
behaviorism and cognitive psychology as applied to the
motivation of children and adolescents in educational
settings.
Prerequisite: CHAD 060 and PSYC 001 (or equivalent) or
instructor consent.
Normal Grade Rules
3 units

CHAD 170. Contextual Influences on Cognitive
Development
Survey of major topics and issues in cognitive
development and the acquisition of communication skills.
The influence of family, school and cultural environment
on these developmental changes.
Prerequisite: CHAD 060 or instructor consent.
Normal Grade Rules
3 units

CHAD 173. Crit. Issues in Infant/Toddler
Development
Surveys infant and toddler development in five domains
(i.e. social, emotional, cognitive, language, physical) as
well as relevant contexts (e.g. culture). Attention given to
best practices in infant and toddler care and factors that
place infants and toddlers at risk.
Prerequisite: CHAD 060 (or equivalent) and PSYC 001.
Normal Grade Rules
3 units

CHAD 180. Individual Studies
Individual work on special topics by arrangement.
Prerequisite: Program director consent.
Repeatable for credit
Credit / No Credit
1-4 units

CHAD 195. Senior Seminar in Child
Development
Advanced study of recent and seminal research and
writing in the area of child and adolescent development.
Prerequisite: CHAD major, 12 units completed in CHAD,
senior standing, and completion of CHAD or LLD 300W
with a grade of “C” or better (“C-” not accepted).
Normal Grade Rules
3 units

CHAD 199. Senior Honors Thesis
Supervised thesis. Enrollment limited to qualified senior
child and Adolescent development majors.
Prerequisite: Senior or graduate standing and instructor
consent.
Repeatable for credit
Credit / No Credit
1-3 units
CHAD 266. Social Policy Issues in American Childhood and Youth
Survey of issues in child and adolescent development which are the topics of national debate in the United States. Research background and social policy implications of these topics are addressed.
Prerequisite: 9 units in CHAD or related disciplines.
Normal Grade Rules
3 units

CHAD 268. Seminar in Social and Emotional Development
Examination of current issues in childhood and adolescent social and emotional development: processes underlying self-esteem and self-control and emergence of the self. Contributions of family, school and society are considered.
Prerequisite: 9 units in CHAD or related disciplines.
Normal Grade Rules
3 units

CHAD 270. Seminar in Cognitive and Language Development
Examination of major topics in cognitive and language development: stages of development, nature/nurture controversy, stability of behavior over time. Individual differences in cognition and cognitive styles are also explored.
Prerequisite: 9 units in CHAD or related disciplines.
Normal Grade Rules
3 units

CHAD 298. Special Studies in Child and Adolescent Development
Supervised study in the field of child development.
Prerequisite: Admission to candidacy for the master’s degree.
Repeatable for credit
Mandatory CR/NC/RP
3-6 units

CHAD 299. Master’s Thesis
Supervised thesis in the field of child development.
Prerequisite: Admission to candidacy for the master’s degree.
Repeatable for credit
Mandatory CR/NC/RP
3-6 units
CIVIL ENGINEERING DEPARTMENT COURSES

LOWER DIVISION

CE 008. Plane Surveying
Theory and practice of engineering measurements. Techniques and instruments used establishing horizontal and vertical control. Topographic methods. Prerequisite: MATH 019 (or eligibility for MATH 30, 30P or 30PL). Misc/Lab: Lecture 2 hours/lab 3 hours. Normal Grade Rules 3 units

CE 020. Engineering Graphics, CAD and Programming
Develop visualization skills by using technical sketching, AutoCAD and manual drafting to solve civil engineering graphical problems. Subjects include: isometric sketching, orthographic projection, descriptive geometry, and plan reading. Writing computer programming code and logic flow. Prerequisites: MATH 019 (or eligibility for MATH 30, 30P or 30PL). Misc/Lab: Lecture 2 hours/lab 3 hours. Normal Grade Rules 3 units

CE 095. Theory and Application of Statics
Detailed study of bodies in equilibrium to provide background for advanced study of engineering mechanics. Applications to general three-dimensional bodies and structural systems. Topics include free body diagrams, centroids, internal forces, distributed loads, moments of inertia and friction. Prerequisites: MATH 031, PHYS 050. Normal Grade Rules 3 units

CE 099. Introductory Statics
Introduction to the study of two-dimensional bodies in equilibrium. Applications to two-dimensional particles and structural systems. Topics include free body diagrams, centroids, and moments of inertia. Prerequisite: MATH 031, PHYS 050. Normal Grade Rules 2 units

UPPER DIVISION

CE 112. Mechanics of Materials
Stress distributions, strain, stresses and deformations in machines and structures subject to axial, bending and torsional loads, including combined loads. Stability of columns. Prerequisite: CE 95 or CE 99, Math 133A. Allowed Declared Majors: Any Engineering Normal Grade Rules 3 units

CE 113. Mechanics of Materials Laboratory
Experimental stress analysis. Verification of theoretical models through testing. Deflection of beams, inelastic bending and column instability. Prerequisite: CE 112. Allowed Declared Majors: Any Engineering. Normal Grade Rules 1 unit

CE 120. Construction Materials Laboratory
Properties, testing and design of civil engineering construction materials, including aggregates for concrete and bituminous mixes. Theory and design of bituminous and portland cement-aggregate mixes. Prerequisite: CE 112. Allowed Declared Major: Civil Engineering. Misc/Lab: Lab 3 hours. Normal Grade Rules 1 unit

CE 121. Transportation Engineering
Principles, theories, practices in transportation engineering design; planning surveys and data analysis; traffic flow characteristics; location and geometric design of systems to include highways, rail, airports, waterways and pipelines. Problems in planning, design and operations. Prerequisite: CE 008, CE 020, MATH 032, PHYS 050. Allowed Declared Major: Civil Engineering. Misc/Lab: Lecture 2 hours/lab 3 hours. Normal Grade Rules 3 units

CE 122. Traffic Engineering
Design of traffic control systems to include traffic signals and other traffic control devices for safe and efficient vehicular flow; traffic surveys; traffic operations. Prerequisite: MATH 032 or graduate standing. Junior standing. Allowed Declared Major: Civil Engineering. Normal Grade Rules 3 units

CE 123. Highway and Street Design
Geometric design of highways and streets. Discussion of design policy. Safety and operational features as well as the evaluation of improvements. Prerequisite: CE 121 or graduate standing. Normal Grade Rules 3 units

CE 130. Civil Engineering Economic Analysis
Marginal theoretic procedures for identifying optimal investment alternatives. Algorithmic approaches to one-dimensional deterministic benefit-cost analysis. Multidimensional and probabilistic decision problems. Prerequisite: MATH 032. Allowed Declared Major: Civil Engineering Normal Grade Rules 2 units

CE 131. Introduction to Construction Engineering
Introduction to construction engineering, construction contract types, contracting documents, project delivery methods, owner-engineer-contractor relationships, professional liability, engineering ethics, construction cost estimates, construction planning, basic concepts and techniques of scheduling, creating CPM scheduling, updating and reporting a schedule. Prerequisite: CE 130. Normal Grade Rules 3 units

CE 132. Construction Methods and Equipment
Construction earthmoving, excavating, loading, compaction, safety; equipment productivity; construction methods and materials. Prerequisite: CE 130, CE 140 or graduate standing. Normal Grade Rules 3 units

CE 134. Project Management for Construction
Methods of planning and controlling construction including the participants, processes and techniques required to maintain the life cycle of a construction project. Planning construction operations, estimating, analyzing the bid process, jobsite operations and functions, safety, quality and scheduling. Prerequisite: CE 131 or Graduate standing. Junior Standing in Engineering. Normal Grade Rules 3 units

CE 140. Geotechnical Engineering
Soil as an engineering material; Classification, compaction, consolidation, shear strength, and permeability of soils; Basic design concepts for bearing capacity of shallow foundations, lateral earth pressures and slope stability. Prerequisite: CE 20, CE 112, ME 111, ENGR 100W. Allowed Declared Majors: Civil Engineering, Geology. Misc/Lab: Lecture 2 hours/lab 3 hours. Normal Grade Rules 3 units

CE 144. Transport in Porous Media
Flow of groundwater through soil; Unsaturated flow; Groundwater and Geologic Processes; Flow nets for structures; Groundwater Contaminant Remediation; Seepage. Prerequisite: CE 140, CE 150 or graduate standing. Normal Grade Rules 3 units
CE 145. Foundation Engineering  
Use of field data in geotechnical design; Design of shallow foundations for bearing capacity and settlement; Design of deep foundations for shear and tip resistance; Analysis of mat foundations. Design of retaining walls.  
Prerequisite: CE 140 or graduate standing  
Normal Grade Rules  
3 units

CE 150. Introduction to Hydrology and Hydraulics  
Analysis and design of open channels and pipe networks. Introduction to hydraulic structures, machinery, basic hydrology, and computer modeling. Social impacts of Civil Engineering.  
Prerequisite: CE 20, ME 111, ENCR 100W  
Misc/Lab: Lecture 2 hours/lab 3 hours.  
Normal Grade Rules  
3 units

CE 152. Engineering Hydrology  
Hydrologic processes; streamflow, hydrographs and flood routing; groundwater hydraulics, flood frequency analysis.  
Prerequisite: CE 150 or graduate standing  
Normal Grade Rules  
3 units

CE 154. Hydraulic Design  
Design of hydraulic structures-reservoirs, dams, spillways, energy dissipators, outlet works, hydroelectric systems and flood control.  
Prerequisite: CE 150 and graduate standing  
Normal Grade Rules  
3 units

CE 160. Structural Analysis  
Analysis of statically determinate beams, frames, and plane trusses. Force method of analysis of statically indeterminate structures. Applications to building design. Introduction to computer analysis.  
Prerequisite: CE 20, CE 112, and ME 101. Allowed Declared Major: Civil Engineering.  
Misc/Lab: Lecture 2 hours/computation period 3 hours.  
Normal Grade Rules  
3 units

CE 162. Structural Concrete Design  
Prerequisite: CE 160 and ENCR 100W. Allowed Declared Major: Civil Engineering.  
Misc/Lab: Lecture 2 hours/design period 3 hours.  
Normal Grade Rules  
3 units

CE 163. Design of Steel Structures  
Structural steel design elements for buildings and bridges, tension members, beams, columns, bolted and welded connections. Design project.  
Prerequisite: CE 160 or graduate standing. Allowed Declared Major: Civil Engineering.  
Normal Grade Rules  
3 units

CE 164. Design of Wood Structures  
Prerequisite: CE 160 and graduate standing  
Normal Grade Rules  
3 units

CE 165. Earthquake Resistant Design  
Seismic resistant design according to the provisions of the Uniform Building Code. Elements of seismic hazard analysis.  
Prerequisite: CE 160 or graduate standing  
Normal Grade Rules  
3 units

CE 167. Principles of Environmental Engineering  
Introduction to environmental (water, air and land) pollution problem, surface water and groundwater quality, water and wastewater treatment processes, drinking water and wastewater treatment flowsheets, design of drinking water treatment processes, contemporary environmental issues, and environmental sustainability.  
Prerequisite: CE 20, ME 111, CHEM 1A, and ENCR 100W  
Misc/Lab: Lecture 2 hours/lab/design 3 hours.  
Normal Grade Rules  
3 units

CE 169. Environmental Engineering Analysis and Design  
Fundamentals of environmental systems and design: Pollution flow and concentration, pollution materials balance, reaction kinetics for destruction of pollutants, pollution control reactor analysis and design, application in the design of water and wastewater treatment processes.  
Prerequisite: CE 170 and graduate standing  
Normal Grade Rules  
3 units

CE 170. Solid Waste Management Engineering  
Introduction to engineering analysis, planning and design problems associated with storage, collection, processing, treatment and disposal of solid waste.  
Prerequisite: CE 170 or graduate standing.  
Normal Grade Rules  
3 units

CE 171. Engineering for Sustainable Environment  
Introduction to environmentally conscious engineering and pollution prevention for sustainable environment, and a review of impact of engineering projects, processes and products on the environment.  
Prerequisite: CE 170 or graduate standing  
Normal Grade Rules  
3 units

CE 172. Environmental Engineering Analysis and Design  
Fundamentals of environmental systems and design: Pollution flow and concentration, pollution materials balance, reaction kinetics for destruction of pollutants, pollution control reactor analysis and design, application in the design of water and wastewater treatment processes.  
Prerequisite: CE 170 and graduate standing  
Normal Grade Rules  
3 units

CE 173. Engineering for Sustainable Environment  
Introduction to environmentally conscious engineering and pollution prevention for sustainable environment, and a review of impact of engineering projects, processes and products on the environment.  
Prerequisite: CE 170 or graduate standing  
Normal Grade Rules  
3 units
GRADUATE

CE 210. Advanced Mechanics
Beams on elastic foundations, curved beams, torsion of non-circular sections; introduction to the theory of elasticity, three dimensional stress and strain, failure theories, deep beams.
Prerequisite: CE 161 and MATH 133A (or equivalent).
Normal Grade Rules
3 units

CE 212. Structural Dynamics
Analysis of lumped and distributed parameter systems subject to dynamic loading; matrix analysis and orthogonal functions applied to beams, frames and complex structures. Introduction to earthquake response spectrum analysis.
Prerequisite: CE 161 (or equivalent).
Normal Grade Rules
3 units

CE 220. Rigid and Flexible Pavement Design
Advanced study of the theories and practices in the structural design of flexible and rigid pavements for highways and airports; magnitude and arrangement of wheel loads; stresses in flexible and rigid pavements; pavement behavior under moving loads; design of bases and subbases; methods of structural design of flexible and rigid pavements; pavement evaluation, strengthening and selection criteria; accelerated traffic and loading tests.
Prerequisite: CE 120 and CE 140 (or equivalent).
Normal Grade Rules
3 units

CE 221. Advanced Highway Design
Advanced study of highway location and design principles; advanced analysis of criteria controlling geometric design of highways including design speed, design volume, vehicle requirements and capacity; advanced theory and practice in the design of alignment, grade and cross-section; design of intersections and interchanges; access control, frontage roads.
Prerequisite: CE 121 (or equivalent).
Normal Grade Rules
3 units

CE 222. Transportation Engineering Planning
Technical and economic evaluation of transportation improvements; capacity restraints; geometric design factors, location and relocation principles; optimization theory in transportation system design; user costs and benefits; transport equipment; operation and safety; economic impact, construction and maintenance practices; intergovernmental coordination, cooperation, responsibility and financial participation.
Prerequisite: CE 121 and CE 130.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE GWAR
3 units

CE 224. Traffic Operations
Flow, density and speed characteristics. Capacity and level of service analysis of transportation facilities with emphasis on highways and streets. Analysis of strategies and tactics, including traffic control, related to optimal use of facilities.
Prerequisite: Instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE GWAR
3 units

CE 225. Public Transportation Systems
Performance characteristics of public transportation systems. Planning, design and operational issues related to public transportation systems. Emerging technologies.
Prerequisite: CE 121 or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE GWAR
3 units

CE 226. Topics in Transportation Engineering
Presentation and discussion of special topics in transportation engineering. Topics may vary each semester. Course may be repeated with instructor consent.
Prerequisite: Graduate standing or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

CE 232. Construction Estimating and Cost Analysis
Estimating and bid preparation in the construction industry including cost analysis techniques for labor, materials, equipment and overhead costs on a construction project. Development of schedules and networks for construction.
Prerequisite: CE 130 and CE 131.
Repeatable for credit
Normal Grade Rules
3 units

CE 234. Construction Law
Construction contracts and specifications, bid documents, sources of law, agency relationships, contract formation, breach of contract, tort law, contract interpretation, changes, mechanics liens, claims and disputes.
Prerequisite: CE 131 (or equivalent).
Normal Grade Rules
3 units

CE 236. Construction Operations Analysis
Overall aspects of productivity improvement for construction operations. Quantitative methods for measuring, analyzing and improving productivity at job sites. Concepts of computer simulation to study, plan and optimize construction operations.
Prerequisite: CE 132 or instructor consent.
Normal Grade Rules
3 units

CE 237. Sustainable Construction
Green construction processes, sustainable construction materials, material recycling and reuse in construction, green construction policy, green building case study, economic analysis of green buildings, and LEED rating systems and certification.
Prerequisite: CE 130 and CE 131, or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE GWAR
3 units

CE 238. Advanced Construction Project Management
Provides the principles and techniques of construction project management and develops the engineering project management skills necessary to successfully participate in the management of the project delivery process.
Prerequisite: CE 131 or instructor consent.
Normal Grade Rules
3 units

CE 239. Information Technology in Construction
Provides information technology applications in construction, from traditional computer applications to emerging web-based and mobile technologies. Design, development, and implementation of decision support systems for construction management applications.
Prerequisite: CE 131 or instructor consent.
Normal Grade Rules
3 units

CE 240. Advanced Soil Mechanics
Advanced study of classical and modern soil mechanics theories, including consolidation, stress and deformation, shear strength. In-depth discussion of stress paths, flow nets and stress variants.
Prerequisite: CE 140 (or equivalent).
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE GWAR
3 units

<th>Course Title</th>
<th>Description</th>
<th>Prerequisite(s)</th>
<th>Repeatable for credit</th>
<th>Grade Rules</th>
</tr>
</thead>
<tbody>
<tr>
<td>CE 243</td>
<td>Advanced Foundation Design</td>
<td>Advanced analysis of foundation design for atypical soil conditions. Seismic design of foundations. Laterally loaded foundations. Structural design of shallow foundations.</td>
<td>CE 141 (or equivalent). Normal Grade Rules</td>
<td>Normal Grade Rules</td>
<td>3 units</td>
</tr>
<tr>
<td>CE 245</td>
<td>Geotechnical/Structural Seminar</td>
<td>Meetings for the presentation and discussion of special topics and case histories of significant engineering projects by the faculty, guest lecturers and graduate students. Topics will vary each semester. May be repeated for credit when content changes.</td>
<td>CE 140 (or equivalent). Note: This course satisfies graduate-level GWAR in this master’s program.</td>
<td>Repeatable for credit</td>
<td>Normal Grade Rules</td>
</tr>
<tr>
<td>CE 246</td>
<td>Geotechnical Earthquake Engineering</td>
<td>Wave propagation in soils, seismology, fundamentals of dynamic soil behavior, seismic hazard analysis, site effects, liquefaction, and seismic design.</td>
<td>CE 140 (or equivalent). Normal Grade Rules</td>
<td>Normal Grade Rules</td>
<td>3 units</td>
</tr>
<tr>
<td>CE 247</td>
<td>Earth Retention and Stability</td>
<td>Design of classic retaining walls using lateral earth pressure theory, Slope stability of earthen embankments, cut slopes and natural slopes, Design of modern earth-retention systems, including soil nails, mechanically-stabilized earth walls, soil anchors, etc.</td>
<td>CE 140 or instructor consent. Normal Grade Rules</td>
<td>Repeatable for credit</td>
<td>Normal Grade Rules</td>
</tr>
<tr>
<td>CE 248</td>
<td>Forensic Engineering and Failure Analysis</td>
<td>Analysis of civil engineering failures. Investigation into causes of failure, implications of failure and lessons learned from failure. Legal obligations and responsibilities of ethical engineers.</td>
<td>Graduate Standing. Normal Grade Rules</td>
<td>Normal Grade Rules</td>
<td>3 units</td>
</tr>
<tr>
<td>CE 250</td>
<td>Modeling in Water Resources Engineering</td>
<td>Technical, economic, legal, political, environmental and social factors in decision-making in water project planning and water resources development and management.</td>
<td>Instructor consent. Note: This course satisfies graduate-level GWAR in this master’s program.</td>
<td>Normal Grade Rules</td>
<td>3 units</td>
</tr>
<tr>
<td>CE 251</td>
<td>Hydraulics of Open Channels</td>
<td>Conveyance curves, the varied flow equation, specific energy, channel transitions, waves, routing of floods and super-critical flow.</td>
<td>ME 111, Math 133A or instructor consent. Normal Grade Rules</td>
<td>Normal Grade Rules</td>
<td>3 units</td>
</tr>
<tr>
<td>CE 252</td>
<td>Advanced Hydrology</td>
<td>Advanced topics in hydrograph analysis, flood routing, statistical methods and groundwater flow.</td>
<td>CE 150 and CE 152. Normal Grade Rules</td>
<td>Normal Grade Rules</td>
<td>3 units</td>
</tr>
<tr>
<td>CE 254</td>
<td>Water Resources Systems Management</td>
<td>Various modeling techniques for optimal planning and operation of water resources systems, which involve many random variables.</td>
<td>CE 150 or instructor’s consent. Note: This course satisfies graduate-level GWAR in this master’s program.</td>
<td>Normal Grade Rules</td>
<td>3 units</td>
</tr>
<tr>
<td>CE 255</td>
<td>Sediment Transport</td>
<td>Introduction to sediment transport; concepts of bedload, suspended load, bed formation, stable channels and regime theory, environmental issues.</td>
<td>CE 150. Normal Grade Rules</td>
<td>Repeatable for credit</td>
<td>Normal Grade Rules</td>
</tr>
<tr>
<td>CE 256</td>
<td>Sustainable Water Resources Engineering</td>
<td>Water use, water-energy nexus, water excess management, environmental impact assessment, risk-based analysis, and water resources management.</td>
<td>CE 150 or instructor’s consent. Normal Grade Rules</td>
<td>Normal Grade Rules</td>
<td>3 units</td>
</tr>
<tr>
<td>CE 258</td>
<td>GIS Applications in Water Resources Engineering</td>
<td>Geographic Information Systems (GIS) Applications in hydrology and water supply, spatial analysis, Digital Elevation Model (DEM), pre and post processing of hydrologic model</td>
<td>CE 150 or instructor consent. Normal Grade Rules</td>
<td>Repeatable for credit</td>
<td>Normal Grade Rules</td>
</tr>
<tr>
<td>CE 260</td>
<td>Matrix Analysis of Structures</td>
<td>Linear static and dynamic analysis of structures by matrix methods, including sideways of frames and multistory buildings. Introduction to finite element analysis of structural systems. Discussion of computer-aided design of structures.</td>
<td>CE 161 (or equivalent). Normal Grade Rules</td>
<td>Normal Grade Rules</td>
<td>3 units</td>
</tr>
</tbody>
</table>
CE 271. Physical/Chemical Processes in Environmental Pollution Control
Theory, analysis and engineering design of physical and chemical systems in environmental pollution control. Topics include mechanisms involved in physical/chemical destruction of pollutants, clarification, softening, coagulation and others.
Prerequisite: CE 170 or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

CE 272. Biological Processes in Environmental Pollution Control
Theory, analysis and engineering design of biological systems in environmental pollution control. Topics include mechanism of biological destruction of pollutants, aerobic and anaerobic processes, nutrient removals and others.
Prerequisite: CE 170 or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

CE 273. Water Treatment and Plant Design
Studies in the theory, design and operation of water treatment facilities. Water quality standards and water quality control.
Prerequisite: CE 170 or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

CE 274. Wastewater Treatment and Plant Design
Studies in the theory, design and operation of traditional primary and secondary sewage treatment facilities. Review of water pollution control laws and regulations.
Prerequisite: CE 170 or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

CE 275. Industrial and Hazardous Waste Management and Treatment
Study of industrial and hazardous wastes. Sources, characteristics, management, treatment and disposal. Effects on the environment.
Prerequisite: CE 170 or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

CE 276. Management and Reuse of Process Solids
Solids production at water and wastewater treatment plants, types, characteristics, processing, management and reuse including biofuel production from wastewater biosolids, and disposal of residual matter.
Prerequisite: CE 271 and CE 272.
Repeatable for credit
Normal Grade Rules
3 units

CE 277. Environmental Sustainability
Studies of various engineering design and practices for sustainable environment.
Prerequisite: CE 170 or Instructor Consent
Normal Grade Rules
3 units

CE 279. Special Topics in Environmental Engineering
Current problems in environmental engineering. Course is repeatable for credit with instructor consent.
Prerequisite: Instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
3 units

CE 297. Special Topics in Civil Engineering
Special topics to augment regularly-scheduled graduate courses.
Normal Grade Rules
1-4 units

CE 298. Special Problems
Advanced individual research and projects.
Prerequisites: Not available to Open University Students.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

CE 299. Master’s Thesis or Project
Prerequisite: Admission to candidacy for the MS degree.
Not available to Open University Students
Repeatable for credit
Mandatory CR/NC/RP
1-6 units
College of Health and Human Sciences Courses

APPLIED SCIENCE AND ARTS

UPPER DIVISION

APSC 198ITL. International Experience Seminar
Seminar for students who have completed a prior international service activity. Students will analyze and reflect upon their international service experience in relation to discipline-specific knowledge acquired through academic study, their intended career, and their identity as a global citizen.
Prerequisite: Completion of international service activity
Credit / No Credit
1 unit
Ha 157SL. Community Action/Community Service
See COMM 157SL
Normal Grade Rules
GE: S
3 units
College of International and Extended Studies Courses

DATA ANALYTICS

GRADUATE

DATA 294. Data Analytics Seminar
Advanced and domain specific topics in the area of data analytics; content is updated in each offering; possible topics include though not restricted to research design and data analytics for the applications of business, engineering, natural science, social science, etc.
Prerequisite: Graduate standing and instructor consent
Normal Grade Rules
3 units

DATA 295. Special Problems in Data Analytics
Advanced individual work in data analytics. Repeatable with graduate advisor approval.
Credit / No Credit
3 units

DATA 296. Special Topics in Data Analytics
Special topics in Data Analytics. Content varies from semester to semester. Repeatable in different topic areas.
Prerequisite: Instructor Consent
Repeatable for credit
Normal Grade Rules
3 units

DATA 297. Data Analytics Internship
Fieldwork for MS in Data Analytics students. A report is required at the end of the semester addressing the goals set at the start of the assignment.
Prerequisite: Completed 12 units degree required courses, classified status, in good standing, and graduate advisor consent
Credit / No Credit
1 unit

DATA 298A. Data Analytics Masters Project I
Comprehensive plan and preliminary design of data analytics project; integration of knowledge in technologies, processes and management to support program outcomes.
Prerequisite: Classified status, good standing, Data 294, and graduate advisor consent
Normal Grade Rules
3 units

DATA 298B. Data Analytics Masters Project II
Completion of an in-depth project to achieve the program outcomes and satisfy the cumulating experience; write a detailed project report; make a comprehensive presentation and demonstration.
Prerequisite: Advancement to candidacy, DATA 298A, and graduate advisor consent
Normal Grade Rules
3 units
College of Science Courses

SCIENCE

LOWER DIVISION

SCI 001. Academic Excellence Workshop
Cooperative learning activity to accompany selected College of Science courses and sections.
Corequisite: Enrollment in course and section accompanying workshop.
Notes: No credit toward requirements of the major or requirements of the minor for any science major or minor.
May be used for university electives.
Misc/Lab: Activity 4 hours.
Repeatale for credit
Credit / No Credit
1-2 units

SCI 002. Success in Science
Emphasis on development of study skills, time management, and personal growth needed to transition from high school to university. Orientation to SJSU policies and procedures; and degree and career options in science. Guest lecturers, peer advisors, and community building.
GE Area: E
Misc/Lab: Lecture 2 hour/activity 2 hours.
GE: E
Normal Grade Rules
3 units

SCI 075. Fundamentals of Leadership and Career Accelerator
This course is a foundational course designed to begin preparing students in their sophomore year or first year of transfer to SJSU to practice the leadership habits of mind and workplace skills needed to thrive in 21st century workplaces once they graduate from school. Given the increasingly competitive, and globalized job marketplace, this course enables participants to cycle through rounds of interactive experiences and practice to acquire “hard” and “soft” skills needed to succeed. Students will apply these skills in real-life leadership situations and build meaningful networks of peers and adults, all while activating their personal assets and deepening their sense of self and community.
Prerequisite: ENGL 1A
Misc/Lab: 2 hours lecture/ 2 hours lab
Normal Grade Rules
3 units

SCI 090. Success as Transfer Students
Emphasis on development of study skills, time management, and personal growth needed to transition from community college to university. Orientation to SJSU policies and procedures; and degree and career options. Guest lecturers, peer advisors, and community building.
Misc/Lab: Lecture 1 hour/activity 2 hours/recitation 1 hour.
Normal Grade Rules
2-3 units

UPPER DIVISION

SCI 105. Integrated Science Teacher Enhancement
A thematic approach to the study of relevant topics and concepts in integrated science. Development of inquiry-based, hands-on classroom activities in integrated science.
Prerequisite: Teacher credential and/or instructor consent.
Repeatale for credit
Credit / No Credit
1-3 units

SCI 110. Global Themes of Science
The themes of energy, evolution, and systems & interactions are used to examine conceptual connections between biological, earth and physical sciences. Emphasis on strategies best suited to teach these unifying global themes of science.
Prerequisite: BIOL 21, CHEM 35, and GEOL 103.
Normal Grade Rules
3 units

SCI 125. Leadership and Career Accelerator
This is a course is designed to prepare students for the increasingly competitive, globalized job marketplace. It is aimed at students in their junior year or first year of transfer, though all upper division students of all majors can participate. Through online, peer learning, interactive experiences, and reflection, students will build meaningful networks, discover their innate leadership, and cultivate the “hard” and “soft” skills and habits of mind needed to thrive in twenty-first century workplaces and make positive impact through their careers upon graduation. The course’s primary text will serve as the foundation to the course, but will include additional articles and videos each week that are curated from a wide range of fields and that includes perspectives of both researchers and practitioners. Sci 75 and Sci 125 can not both be taken for credit.
Prerequisite: Upper division standing.
Misc/Lab: 2 hours lecture/ 2 hours lab
Normal Grade Rules
3 units

SCI 157SL. Community Action/Community Service
See COMM 157SL.
Normal Grade Rules
GE: S
3 units

SCI 180. Individual Studies
Work, under guidance, in special fields.
Prerequisite: Instructor consent.
Repeatable for credit
Credit / No Credit
1-4 units

SCI 184. Directed Reading
Assigned readings of selected books, journals and special papers chosen to fill gaps in training or to introduce new fields. Evaluation through weekly reports and conferences.
Prerequisite: Instructor consent.
Repeatable for credit
Credit / No Credit
1-4 units

GRADUATE

SCI 299. Master’s Thesis
Thesis development for Plan A MA Natural Science students, to be carried out under direct supervision of a faculty member and committee. Seminar presentation required upon final completion of thesis.
Prerequisite: Admission to candidacy for the master’s degree and selection of a thesis committee.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

NO DEGREE CREDIT

SCI 1003. Workshop Facilitator Training
Practical collaborative education theory and techniques for academic excellence workshop facilitators.
Prerequisite: Current appointment as AEW Facilitator.
Notes: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit
Academic Year 2018-2019
Course Descriptions

College of Social Science Courses

SOCIAL SCIENCE

LOWER DIVISION

SSCI 090. Successfully Negotiating Social Science
Course designed to help students in the College of Social Sciences, enabling them to learn the skills and knowledge necessary to become successful students. Students will explore the ways in which different social scientists see, research, analyze, understand and communicate.

Normal Grade Rules
1 unit
COMMUNICATION STUDIES

LOWER DIVISION

COMM 010. Communication and Human Relationships
Course examines role of communication in developing/maintaining human relationships. Discussion focuses on relational communication processes as they occur in various settings, such as the intercultural, the family, the intimate, the organizational, the public and between/within genders. GE Area: D1
Normal Grade Rules
GE: D1
3 units

COMM 020. Public Speaking
Principles of rhetoric applied to oral communication; selecting, analyzing, adapting, organizing and delivering ideas effectively. GE Area: A1
Normal Grade Rules
GE: A1
3 units

COMM 020N. Public Speaking for Nonnative Speakers
Public speaking for the nonnative speaker. Course content identical to COMM 20 with intercultural emphasis. GE Area: A1
Prerequisite: English Language Learners/nonnative speakers
Normal Grade Rules
GE: A1
3 units

COMM 021. Performing Culture and Society
Live performance used as a method for exploring human behavior as it occurs within contemporary cultures and societies. Performance assignments will draw from among the following: performance of texts, street performance, personal narrative, oral history, everyday life, and social justice. GE Area: D1
Normal Grade Rules
GE: D1
3 units

COMM 040. Argumentation and Advocacy
Principles of inquiry and advocacy in public discussion and necessary basic skills for intelligent participation in discussion and debate. GE Area: A1
Normal Grade Rules
GE: A1
3 units

COMM 041. Critical Decision Making
Critical reasoning and problem solving in group discussion. Examination of the relationship between critical decision-making and group communication. Practice in group problem solving as a means for developing critical thinking skills. GE Area: A3
Prerequisite: Completion of GE Areas A1 and A2 each with grades of C- or better
Normal Grade Rules
GE: A3
3 units

COMM 045. Media and Culture
Application of critical thinking, writing, and oral communication skills in the analysis of media representations of culture. Practice in reasoning, advocating ideas, researching and evaluating arguments, developing well supported factual conclusions, and engaging in meaningful dialogue on diverse issues. GE Area: A3
Prerequisite: GE Areas A1 (Oral Communication) and A2 (Written Communication I, English 1A) with grades of “C” or better (C- not accepted).
Normal Grade Rules
GE: A3
3 units

COMM 074. Fundamentals of Intercultural Communication
Emphasis on direct experience and the development of skill in intercultural communication. Provides opportunity for discussion of variations within and among cultures. Encourages students to examine their own cultural heritage. GE Area: E
Note: All courses with a ‘Q’ suffix are designated as First Year Experience courses.
Normal Grade Rules
GE: EE
3 units

COMM 074Q. Fundamentals of Intercultural Communication
Emphasis on direct experience and the development of skill in intercultural communication. Provides opportunity for discussion of variations within and among cultures. Encourages students to examine their own cultural heritage. GE Area: E
Note: All courses with a ‘Q’ suffix are designated as First Year Experience courses.
Normal Grade Rules
GE: EE
3 units

COMM 076. Fundamentals of Intercultural Communication
Emphasis on direct experience and the development of skill in intercultural communication. Provides opportunity for discussion of variations within and among cultures. Encourages students to examine their own cultural heritage. GE Area: E
Note: All courses with a ‘Q’ suffix are designated as First Year Experience courses.
Normal Grade Rules
GE: EE
3 units

COMM 091A. Activity Project in Forensics: Intramural Debate
Supervised activity in the forensics program. A: Intramural competition in debate. A total of 3 units applicable to the major may be repeated.
Repeatable for credit
Normal Grade Rules
1 unit

COMM 091B. Activity Projects in Forensics: Intramural Platform Speaking
Supervised activity in the forensics program. B: Intramural Individual events-Platform Speaking including persuasive speaking and communication analysis. A total of 3 units applicable to the major may be repeated.
Repeatable for credit
Normal Grade Rules
1 unit

COMM 091J. Judge Training
Community service course designed to train students to judge high school speech and debate tournaments. Students are taught the rules and given criteria for judging each event in oral interpretation of prose poetry, and drama, platform speaking, debate; and Student Congress. Students are required to write cogent ballots that help competitors.
Credit / No Credit
1 unit

COMM 101C. Junior Seminar: Theorizing Communication
Overview of the contemporary field of communication studies based on survey of theoretical and practical responses to communication problems arising from changing social contexts. Discussion of communication literature, resources and methods of inquiry. Students will begin their major portfolios.
Prerequisite: Completion of GE oral communication.
Normal Grade Rules
4 units
COMM 105P. Communication, Self and Society
Examines the role of communication in the development of the self and the creation of social worlds. Students develop an appreciation for and practical skills in negotiating self-society tensions inherent in a diverse, global, and mediated environment. Prerequisite: Completion of A1 Core GE requirement or instructor consent. Normal Grade Rules 4 units

COMM 110F. Interpersonal Communication
Integration of theory and practice to facilitate student understanding and skills in evaluating and participating in interpersonal relationships across contexts and the lifespan. Prerequisite: Upper division standing or instructor consent. Normal Grade Rules 4 units

COMM 111P. Interviewing
Setting and achieving communicative goals essential in preparing for and conducting interviews. Special attention on developing effective questions and responses. Participation in a variety of interviews, including employment, appraisal, journalistic, research, survey, health care, and persuasive. Prerequisite: Completion of the GE oral communication. Normal Grade Rules 4 units

COMM 113P. Games in Everyday Life
Games serve key communicative functions in promoting fun, play, collaboration, competition, and learning. Explores games and the use of game elements across communication contexts, including interpersonal, small group, organizational/business, health, and education. Prerequisite: Completion of GE Area A1 Normal Grade Rules 4 units

COMM 114P. Business and Professional Speaking
Application of current theory and research to develop communications skills within larger global and ethical issues across a range of professional and workplace contexts, including interviews, oral reports, persuasive presentations, group meetings, and mediated public speaking. Prerequisite: Completion of A1 Core GE requirement or instructor consent. Normal Grade Rules 4 units

COMM 115P. Communication and Conflict
Focus on theories of communication as related to interpersonal and group conflict. Development of communication skills in conflict management, and applied activity in interpersonal conflict management. Prerequisite: Completion of A1 Core GE requirement or instructor consent. Normal Grade Rules 4 units

COMM 116P. Mediation: Theory and Practice
Theoretical background and communication skills training in Mediation Practice. Basic 40 hours of training includes readings, analysis and role plays as well as some observed mediation. Prerequisite: Completion of A1 Core GE requirement or instructor consent. Normal Grade Rules 4 units

COMM 117F. Understanding Play & Games
Examines play and games as fundamental social experiences central to developing cultural norms and structures. Explores topics such as gameplay, identity, narrative, and serious games. Special attention to communication theories that provide insight into the nature of play and games. Prerequisite: Upper Division Standing Normal Grade Rules 4 units

COMM 119I. Researching Games
Introduction to research methods commonly used to study games and human communication, such as observation, textual analysis, interviewing, and surveys. Students develop and apply analytical skills and ethical practices for understanding, conducting, and evaluating research in games and communication. Prerequisite: Upper Division Standing Normal Grade Rules 4 units

COMM 121P. Performance as Practice
Exploration of performance as a site of communication and embodied practice. Will examine the many ways in which performance exists and operates in our culture with a focus on literature, ethnographic fieldwork, personal narrative, and everyday rituals. Prerequisite: Completion of A1 Core GE requirement or instructor consent. Normal Grade Rules 4 units

COMM 122F. Performance Studies
Examines the constitutive effects of performance, broadly understood, across a variety of communication contexts. Special attention paid to how performances construct experiences of culture, everyday life, ritual, political protest, social belonging, and identity. Prerequisite: Upper division standing or instructor consent. Normal Grade Rules 4 units

COMM 123I. Performance of Ethnodrama
Explores how live performance can be used to create, interpret, and present arts-based scholarship. Students will read ethnodramatic texts and engage in original research, script writing, rehearsal, and performance. Emphasis is on cross-cultural performances. Prerequisite: Upper division standing or instructor consent. Normal Grade Rules 4 units

COMM 124P. Communication Training and Development
Principles of designing and delivering ethical and socially responsible communication training programs including needs assessment, setting objectives, program design, selection and development of training materials, presentation skills, facilitation skills, and training evaluation. Prerequisite: Completion of A1 Core GE requirement or instructor consent. Normal Grade Rules 4 units

COMM 125P. Ensemble Performance
Students collaborate to conceive, write, rehearse, and produce an ensemble project culminating in a public performance. Readings and written work focus on performance as a community-building process as well as dramaturgical research for the production. Prerequisite: Completion of A1 Core GE requirement or instructor consent. Repeatable for credit Normal Grade Rules 4 units

COMM 130F. Activism, Action, and Resistance
Examines national and global historical and contemporary social movements in the context of communication practices ranging from street protests to use of media and the internet. Resistance is explored using variety of theoretical and cultural perspectives. Prerequisite: Upper division standing. Normal Grade Rules 4 units
COMM 131P. New Media/You Media
Practical application of current communication theories and research to facilitate skill development in the use and critique of new media tools, such as social networking sites, blogs, microblogging, wikis, personal webpages, video sharing sites, and similar digital communication venues.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units

COMM 132F. Dis/Ability Communication
Theoretical foundations in dis/ability communication facilitate student understanding of the social construct of disabilities and provide means to deconstruct communications surrounding difference.
Prerequisite: Upper Division Standing
Normal Grade Rules
4 units

COMM 133F. Ethical Problems in Communication
Examines current and historical theoretical approaches to ethical problems across communication contexts, including workplace, interpersonal, and mediated settings. Explores the role of cultural and societal practices in ethical communication.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units

COMM 140P. Argumentation and Debate
Principles of argumentation including analysis of propositions, issues, evidence and reasoning. Training and experience in debate forms.
Prerequisite: Completion of A1 of Core GE requirement or instructor consent.
Normal Grade Rules
4 units

COMM 141P. Small Group Communication
An applied approach to small groups and teamwork that links theory and practice across a variety of contexts. Emphasis on the relationships between group communication and larger cultural issues, such as diversity and democracy.
Prerequisite: Completion of GE oral communication.
Normal Grade Rules
4 units

COMM 144F. Organizational Communication
Application of organizational communication theories and concepts to communication processes and functions in organizational life. Examines topics such as ethics, leadership, teams, culture, networks, power, diversity, identity, and assessment of communication practices.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
4 units

COMM 145I. Rhetorical and Cultural Criticism
Survey of leading theorists, critics and movements in the area of rhetoric and cultural studies. Examines interpretations of speech and discourse as an approach to understanding both real life issues and advanced work in communication studies.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
4 units

COMM 146F. Communication and the Environment
Examination of communication in environmental issues, especially conflicting values and modes of discourse that assume different meanings of human-nature relationship. Emphasis on environmentalism as popular movement, rhetoric of radical ecology and the technical discourse of environmental policy administration.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
4 units

COMM 147P. Argumentation and Persuasion in Courts of Law
Principles of legal argumentation, cross-examination, jury selection and strategy. Selected trial transcripts studied to explore differing uses of the trial forum.
Prerequisite: Completion of GE oral communication.
Normal Grade Rules
4 units

COMM 148P. Environmental Advocacy
Applies theories and research of message framing, social marketing and community engagement to environmental communication. Considers broader issues of persuasion and influence surrounding sustainability to develop environmental advocacy campaigns.
Prerequisite: Upper Division Standing
Normal Grade Rules
4 units

COMM 149F. Rhetoric and Public Life
Knowledge of rhetorical theory and practice as they relate to public life, democratic governance and social conflict and consensus from the classical era to contemporary times.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
4 units

COMM 150I. Inquiry in Organizational Communication
Introduction to research methods commonly used in studies of organizational communication, such as focus group, interviewing, survey, ethnography, appreciative inquiry, and textual analysis.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units

COMM 151I. New Media/New Methods
Examines the internet and related digital communication systems as both a site of and a tool for communication research. Special attention to legal and ethical concerns associated with communication research in digital environments.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units

COMM 152I. Communication in World Cultures
Origins of human communication studies in early societies, including those of China, Egypt, Greece, India, Mesopotamia and Rome. Special attention to the cultural origins of classic texts and significant patterns of communication which continue to inform our contemporary experiences.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units

COMM 153I. Discourse Analysis
Introduction to discourse analytic approach to studying situated communication practices, including research design, data collection, data analysis, and ethical issues pertaining to conducting discourse analyses.
Misc/Lab: 3 hours lecture/ 2 hours lab
Normal Grade Rules
4 units

COMM 154I. Ethnography for Communication Studies
Introduction to ethnography from a communication studies perspective, i.e. ethnographic approaches to studying situated communication practices in particular cultural milieus, such as ethnography of communication, critical ethnography, digital ethnography, autoethnography, and/or other types relevant to communication studies.
Normal Grade Rules
4 units

COMM 155I. Quantitative Communication Inquiry
Quantitative social scientific approaches to communication facilitate students understanding of the philosophical foundations of quantitative methods and skills in hypothesis testing, research design, data collection, analysis, and interpretation. Methods to be covered include experimental design, survey research and content analysis.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units
COMM 156I. Observation and Interviewing Methods  
Observation and interviewing methods, or qualitative approaches to communication, facilitate student understanding of the philosophical foundations of developing research questions, research design, data collection, analysis and interpretation. Methods covered include ethnography and participant observation, interviewing, focus groups, and action research. 
Prerequisite: Upper division standing or instructor consent. 
Normal Grade Rules 
4 units

COMM 157SL. Community Action/Community Service  
A campus-wide service learning program with opportunities for direct involvement with local community services, both off campus and on campus. Weekly seminars held on campus or at the field site, plus four to six hours of community service work per week at the field site. 
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. 
Normal Grade Rules 
GE S 
3 units

COMM 158I. Communication and Global Organizations  
Examines the relationships among culture, communication, technology, and ways of organizing in various types of global organizations (e.g., nongovernmental organizations, not-for-profits, corporations). Explores the unique communicative processes and ethical issues that arise in international organizing. 
Pre/Corequisite: upper division standing.  
Normal Grade Rules 
4 units

COMM 158J. Communication and Globalization  
Explores theories, concepts, and research associated with persuasive communication. Considers broader issues of persuasion and ethics at societal and global levels, examining how those issues provide a context for the kinds and contexts of persuasion encountered in everyday life. 
Prerequisite: Upper division standing. 
Normal Grade Rules 
4 units

COMM 159. Intercultural Communication and Global Understanding  
Analysis of communication among persons from different U.S. and world cultures. Experiences and research in intercultural communication. The influence of varying values, norms, belief structures and roles. Prejudice, ethnocentrism, nationalism and racism in communication. 
Prerequisite: Upper division standing. 
Normal Grade Rules 
4 units

COMM 160F. Language, Meaning and Culture  
Course addresses the question of how language, symbols and society work together. Students will learn about the nature of language and how language and symbols shape individual and collective actions. 
Prerequisite: Upper division standing or instructor consent. 
Normal Grade Rules 
4 units

COMM 161F. Communication and Culture  
Human communication explored as a mechanism of control and as a vehicle of cultural change. Applies theoretical principles of communication to social issues and communication settings in different cultures. 
Prerequisite: Upper division standing or instructor consent. 
Normal Grade Rules 
4 units

COMM 164F. Communication and Global Organizations  
Examines the relationships among culture, communication, technology, and ways of organizing in various types of global organizations (e.g., nongovernmental organizations, not-for-profits, corporations). Explores the unique communicative processes and ethical issues that arise in international organizing. 
Pre/Corequisite: upper division standing.  
Normal Grade Rules 
4 units

COMM 165P. Communication and Organizational Philanthropy  
A broad look at the history of Philanthropy, fundraising, legal and compliance issues, messaging and marketing, recruitment and managing of volunteers, technology, evaluating non-profits and philanthropy as a career choice. 
Prerequisite: Completion of Area A1 of core GE or instructor consent.  
Normal Grade Rules 
4 units

COMM 166A. Global Climate Change I  
Scientific and social scientific approaches to the process and effects of global climate change: Climate changes in the Earth’s past, interactions between climate and life, anthropogenic climate change, socioeconomic contexts of environmental effects, cultural influences on climate change mitigation strategies. 
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. 
Normal Grade Rules 
4 units

COMM 166B. Global Climate Change II  
Scientific and social scientific approaches to the process and effects of global climate change: Climate changes in the Earth’s past, interactions between climate and life, anthropogenic climate change, socioeconomic contexts of environmental effects, cultural influences on climate change mitigation strategies. GE Area: RSV with completion of sequence (COMM 168A). 
Prerequisites: COMM/ENVS/GEOL/HUM/METR 168A, with a grade of “C” or better (“C-” not accepted), Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a “C” or better (“C-” not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. 
Normal Grade Rules 
GE: RSV 
3 units

COMM 167F. Intercultural Communication and Global Understanding  
Analysis of communication among persons from different U.S. and world cultures. Experiences and research in intercultural communication. The influence of varying values, norms, belief structures and roles. Prejudice, ethnocentrism, nationalism and racism in communication. 
Prerequisite: Upper division standing. 
Normal Grade Rules 
4 units

COMM 168A. Global Climate Change I  
Scientific and social scientific approaches to the process and effects of global climate change: Climate changes in the Earth’s past, interactions between climate and life, anthropogenic climate change, socioeconomic contexts of environmental effects, cultural influences on climate change mitigation strategies. GE Area: RSV with completion of sequence (COMM 168A). 
Prerequisites: COMM/ENVS/GEOL/HUM/METR 168A, with a grade of “C” or better (“C-” not accepted), Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a “C” or better (“C-” not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. 
Normal Grade Rules 
GE: RSV 
3 units

COMM 169I. The Media: Response and Criticism  
Examination of media as a locus of meaning making. Critical analysis of communication practices and content in a variety of venues, such as television, film, radio, social networking, and other sites of web-based communication. 
Prerequisite: Upper division standing or instructor consent. 
Normal Grade Rules 
4 units

COMM 170F. Persuasion  
Explores theories, concepts, and research associated with persuasive communication. Considers broader issues of persuasion and ethics at societal and global levels, examining how those issues provide a context for the kinds and contexts of persuasion encountered in everyday life. 
Prerequisite: Upper division standing. 
Normal Grade Rules 
4 units

COMM 172F. Multicultural Communication in the United States  
Analysis of the communication process between and among people in a culturally diverse domestic population (United States). Topics cover speech communication principles, conflict management, language, script analysis, attitudes and values. Includes both theory and activity-based exercises. 
Prerequisite: Upper division standing. 
Normal Grade Rules 
4 units

COMM 173F. Intercultural Communication and Global Understanding  
Analysis of communication among persons from different U.S. and world cultures. Experiences and research in intercultural communication. The influence of varying values, norms, belief structures and roles. Prejudice, ethnocentrism, nationalism and racism in communication. 
Prerequisite: Upper division standing. 
Normal Grade Rules 
4 units

COMM 174. Intercultural Comm & Strct Inequality  
Analysis of intercultural communication in the U.S. as it relates to social inequalities, power differences, and diversity. Examines identities and interactions between people of different racial/ethnic backgrounds. Investigates influence of sociocultural forces on intercultural communication encounters and relationships. GE Area: S 
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. 
Normal Grade Rules 
GE: S 
3 units
COMM 175F. Nonverbal Communication
A look at differences between and the interdependency of verbal and nonverbal messages. Students will study the role of nonverbal communication in everyday life.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
4 units

COMM 176P. Communication and Gender
An analysis of issues and problems related to communication and gender. The course will consider theoretical and practical perspectives on male-female and same-sex interactions in a variety of situations and cultures.
Prerequisite: Completion of A1 of Core GE requirement or instructor consent.
Normal Grade Rules
4 units

COMM 179. Global Media and Resistance
Study of communication issues facing global resistance movements, particularly the role of new technology and social media in public dissent. Covers the application of social movements and resistance theories and concepts.
GE Area: V
Prerequisites: Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Normal Grade Rules
GE: V
3 units

COMM 180. Individual Studies
Supervised study in specific fields of speech not covered by offered courses.
Prerequisite: Department chair consent.
Repeatable for credit
Credit / No Credit
1-3 units

COMM 181F. New Media/New World
Explores the impact of the internet, mobile devices, and other information and communication technologies on social interaction, self-representation, business, politics, and cultural production. Covers the application of mediated communication theories and concepts.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units

COMM 182P. Communication in the Classroom
Analysis of the classroom as a communication system. Application of communication principles to the facilitation of educational dialogue.
Prerequisite: Completion of GE oral communication.
Normal Grade Rules
4 units

COMM 184. Directed Reading
Prerequisite: Upper division or graduate standing and department chair approval. A total of 3 units may be repeated.
Repeatable for credit
Credit / No Credit
1-2 units

COMM 190. Activity Projects in Speech
Supervised activity in communication studies. Application of principles and theories of communication in business, community and professional settings.
Prerequisite: Upper division or graduate standing and department chair approval.
Repeatable for credit
Credit / No Credit
1-6 units

COMM 190I. Activity Proj in Speech
International
Supervised activity in communication studies for international students. Application of principles and theory of communication in business, community, and professional settings with specific attention to needs of visiting international students.
Prerequisite: Upper division or graduate standing, or department chair approval.
Repeatable for credit
Normal Grade Rules
1-6 units

COMM 191A. Activity Projects in Forensics
Prerequisite: Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Normal Grade Rules
GE: V
3 units

COMM 191B. Activity Projects in Forensics
Prerequisite: Completion of GE oral communication.
Normal Grade Rules
4 units

COMM 191C. Activity Projects in Forensics
M: Research and oral presentation of appellate court arguments from simulated cases before law judges or in intercollegiate tournaments. A total of 6 units applicable to the major may be repeated.
Repeatable for credit
Credit / No Credit
1-3 units

COMM 191G. Activity Projects in Forensics
M: Research and oral presentation of appellate court arguments from simulated cases before law judges or in intercollegiate tournaments. A total of 6 units applicable to the major may be repeated.
Repeatable for credit
Credit / No Credit
1-3 units

COMM 191M. Activity Projects in Forensics
M: Research and oral presentation of appellate court arguments from simulated cases before law judges or in intercollegiate tournaments. A total of 6 units applicable to the major may be repeated.
Repeatable for credit
Credit / No Credit
1 unit

COMM 199. Activity Projects in Intercultural/International Communication
Supervised activity in communication studies for students participating in immersive experiences in different cultural environments. Students demonstrate proficiency in evaluating and applying core communication concepts relevant to the experience of living, studying, and/or working in a different cultural environment.
Repeatable for credit
Normal Grade Rules
1-3 units
COMM 194. Specialized Projects for International Immersion
Supervised activity in communication studies for students participating in immersive direct enrollment programs abroad. Students demonstrate proficiency in evaluating and applying core communication concepts relevant to the experience of living, studying, and/or working in a different cultural environment.
Repeatable for credit
Credit/No Credit
1 unit

COMM 195. Special Topics in Communication Studies
Investigation of topics not included in regular departmental offerings. Topics range from corporate training to communication in health settings to teaching speech in the high school. Focus varies each semester and is announced in the schedule of classes. Course is repeatable with department chair consent no more than 3 times.
Repeatable for credit
Normal Grade Rules
1-3 units

COMM 198. Applied Activity in Communication
Practical application of communication theory to real world settings to provide meaningful applied capstone experiences. Students demonstrate proficiency in the critical application of core communication requirements to speech acts and contexts outside the traditional classroom.
Prerequisite: COMM 101 or COMM 101C, upper division standing.
Repeatable for credit
Credit/No Credit
1-2 units

COMM 199C. Senior Seminar: Synthesis & Application
Capstone overview of the contemporary field of communication studies that builds on theory, concepts, and skills learned in COMM 101C and upper-division major courses. Synthesis and application of communication literature, resources and methods of inquiry. Students complete their major portfolios.
Prerequisite: COMM 101 or COMM 101C; upper division standing
Normal Grade Rules
4 units

COMM 200R. Graduate Study in Communication
History of and current research in the communication field; introduction to humanistic and social science methods and computer applications; theory-building and metatheoretical issues; reviewing and critiquing studies; preparing research questions/hypotheses and prospectus.
Prerequisite: Admission into the Graduate Program, Graduate standing.
Note: This course satisfies graduate-level GWAR in this master's program.
Normal Grade Rules
CE: GWAR
4 units

COMM 201. Communication Methodologies
Introduction to the methodologies and methodological considerations pertinent to the field of communication studies, including social scientific, humanist and critical approaches to quantitative, qualitative and rhetorical methods.
Prerequisites: Graduate standing or instructor consent
Corequisites: COMM 200R
Normal Grade Rules
3 units

COMM 210R. Seminar in Interpersonal Communication
Examination of the role of communication in creating and maintaining social relationships. Draws on interpretive, critical, and/or quantitative theories and methods for investigating relationships in different cultural contexts and across the life span.
Prerequisite: Graduate standing.
Normal Grade Rules
4 units

COMM 231R. Performing Presentational Aesthetics
Explores the practice and theory of presentational aesthetics through performance. Students will acquire the skills of writing, adapting, directing, and presenting performances of literary texts, ethnographic interviews, and social activism. Required of graduate students who wish to do thesis performances.
Prerequisite: Graduate standing, or instructor consent.
Normal Grade Rules
4 units

COMM 232R. Seminar in Performance and Culture
Explores cultural identity as constructed, contested, and displayed through acts of performance such as theatre, dance, storytelling, performance art, film, literature, and everyday behavior. Focuses on performance as a site of cultural manifestation and transformation.
Repeatable for credit
Normal Grade Rules
4 units

COMM 233R. Seminar in Communication and Social Media
Examination of the role of communication in creating and maintaining social relationships. Draws on interpretive, critical, and/or quantitative theories and methods for investigating relationships in different cultural contexts and across the life span.
Prerequisite: Graduate standing.
Normal Grade Rules
4 units

COMM 234R. Seminar in Communication and Social Media
Examination of the role of communication in creating and maintaining social relationships. Draws on interpretive, critical, and/or quantitative theories and methods for investigating relationships in different cultural contexts and across the life span.
Prerequisite: Graduate standing.
Normal Grade Rules
4 units

COMM 240R. Seminar in Argument and Debate
Advanced study of patterns, techniques, and theory of argumentation and advocacy as reflected in debates on significant issues in a variety of contemporary and historical settings.
Prerequisite: Graduate standing.
Normal Grade Rules
4 units

COMM 241R. Seminar in Small Group Communication
Exploration of group process and structure. Special attention given to democratic process, effective group decision-making, team-building concerns, group leadership, the distinctive place of communication research in small group studies.
Prerequisite: Graduate standing.
Normal Grade Rules
4 units

COMM 244R. Seminar in Organizational Communication
Examination of internal communication processes in large organizations. Emphasis on information flow, communication networks, communication relations and the design and management of communication systems. Experience in gathering and analyzing data to monitor and assess a communication system.
Prerequisite: Graduate standing.
Notes: MBA recommended elective.
Normal Grade Rules
4 units

COMM 245R. Seminar in Communication Criticism
Theories guiding critical evaluation of messages communicated in a variety of media, from oral to digital. Emphasis on the historical, political, and social contexts where such messages are designed, transmitted, interpreted, and used.
Prerequisite: Graduate standing.
Repeatable for credit
Normal Grade Rules
4 units

COMM 249R. Seminar in the Philosophy of Communication
Study of philosophical models of communication, their foundations, insights, and implications for social practice.
Prerequisite: Graduate standing, or instructor consent.
Normal Grade Rules
4 units

COMM 250R. Seminar in Communication Theory: Critical and Interpretive
Major theorists and theories of communication in the rhetorical, historical, critical, empirical, and philosophical traditions.
Prerequisite: Graduate standing.
Pre/Corequisite: COMM 200R.
Normal Grade Rules
4 units
COMM 255R. Seminar in Communication Theory
Review and evaluation of communication theories and research, past and present. Examination of methods of theory construction and scholarly inquiry. Experience in applying theory to designing and conducting communication research.
Prerequisite: Graduate standing, or instructor consent.
Normal Grade Rules
4 units

COMM 265. Seminar in Crisis Communication
Role of public communication in crisis situations; types of crisis; pre- and post-crisis planning; crisis communication management; risk communication; crisis narratives and rhetoric; ethical obligations of crisis communication; dealing with media; image restoration. Independent research project required.
Prerequisite: Admission into the Graduate Program, Graduate standing.
Normal Grade Rules
3 units

COMM 269R. Seminar in Contemporary Communication
Advanced analysis of recent developments and trends in communication. Topics include globalization, symbolic power and creativity, media and information technology, and formation of cultural styles and identities.
Prerequisite: Admission into the Graduate Program, Graduate standing.
Normal Grade Rules
4 units

COMM 274R. Seminar in Intercultural Communication
Advanced study of the theories, perspectives, and processes that affect intercultural communication among diverse cultural groups in the world.
Prerequisite: Graduate standing.
Pre/Corequisite: COMM 200R.
Normal Grade Rules
4 units

COMM 280. Independent Study
Supervised and specialized study in specific fields of communication not covered by offered courses or that extends beyond what can be covered in an offered course.
Prerequisite: Department Chair consent
Repeatable for credit
Mandatory CR/NC/RP
1-3 units

COMM 282R. Seminar in Communication Pedagogy
Investigation and analysis of the intersections of communication and instruction, including communication education, instructional communication, and critical communication pedagogy.
Prerequisite: Graduate standing, or instructor consent.
Normal Grade Rules
4 units

COMM 285A. Teaching Associate Practicum I
Instruction and supervised experience in teaching university level courses in Communication Studies. Topics include curriculum design, instructional objectives and activities and assessment.
Prerequisite: Appointment as Departmental Teaching Associate, or instructor consent.
Credit / No Credit
2 units

COMM 285B. Teaching Associate Practicum II
Instruction and supervised experience in teaching university level courses in Communication Studies. In addition to advanced discussion of topics from 285A, topics will include theories of teaching and learning, identity, culture and power.
Prerequisites: Appointment as Departmental Teaching Associate and COMM 285A, or instructor consent.
Repeatable for credit
Credit / No Credit
1-3 units

COMM 291. Communication Studies Graduate Internship Program
Practical application of communication theory and research methods to real world settings to provide applied capstone experiences. Students demonstrate proficiency in the critical application of core communication requirements to speech acts in engaged and applied settings outside the traditional classroom.
Prerequisite: Graduate Standing, Permission of Director
Repeatable for credit
Credit / No Credit
1-4 units

COMM 295R. Special Topics in Communication
Advanced consideration of selected topics in communication research and theory with emphasis on current literature. The topic will vary from term to term. Course may be repeated with instructor and advisor consent.
Repeatable for credit
Normal Grade Rules
4 units

COMM 297. Advanced Writing Workshop
Advanced graduate level writing instruction in preparation for the culminating experience.
Prerequisite: Graduate standing or instructor consent.
Pre/Corequisite: COMM 200R.
Repeatable for credit
Normal Grade Rules
2 units

COMM 298. Master’s Project
Supervised project work in the field of Communication Studies.
Prerequisites: Admission to candidacy for the master’s degree, completion of core requirements and instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

COMM 299. Master’s Thesis
Supervised thesis work in the field of Communication Studies.
Prerequisites: Admission to candidacy for the master’s degree, completion of core requirements and instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

SPEECH EDUCATION

UPPER DIVISION

SPED 184Y. Student Teaching II - Classroom Teaching
Minimum 80-120 class periods of classroom, teaching laboratory or field teaching in appropriate single subjects, grades K-12 and related teaching activities/seminar.
Prerequisite: Joint approval of major and Education departments.
Repeatable for credit
Credit / No Credit
4-6 units

SPED 184Z. Student Teaching III - Classroom Teaching
Notes: May be in different subject/school and will be at a different grade level.
See SPED 184Y.
Repeatable for credit
Credit / No Credit
4-6 units

GRADUATE

SPED 242C. Educational Internship in Teaching
Designed to provide opportunity for supervised teaching on either the elementary or secondary school level on the basis of a special provisional credential.
Prerequisite: Matriculation as a Graduate student.
Repeatable for credit
Credit / No Credit
4-6 units
Computer Engineering Courses

LOWER DIVISION

CMPE 030. Programming Concepts and Methodology
Introduction to programming; overview of computer organization and introduction to software engineering. Topics include methodologies for program design, development, style, testing, and documentation; algorithms, control structures, functions, and elementary data structures.
Corequisites: MATH 030 or equivalent.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules 3 units

CMPE 050. Object-Oriented Concepts and Methodology
Application of object-oriented software engineering techniques to the design and development of larger programs; data abstraction, structures, classes and associated algorithms.
Prerequisite: CMPE 030 with a minimum grade of "C-".
Computer Engineering and Software Engineering Majors only.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules 3 units

CMPE 080. Introduction to Software Engineering
Introduction to computer organization and architecture, system buses, internal memory and external memory, input/output, central processing unit CPU, instruction sets, CPU structure and function, RISC, control unit. Prerequisite: CMPE 050 or CS 046B (with a grade of "C-" or better). Computer Engineering and Software Engineering Majors Only.
Normal Grade Rules 3 units

CMPE 124. Digital Design I
Categorical and sequential logic theory and circuits. Emphasis on mixed logic and algorithmic state machines. Design projects using standard integrated circuit packages. Prerequisite: EE 97 and EE 98 (both with C or better). Computer Engineering or Software Engineering Majors Only.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules 3 units

CMPE 125. Digital Design II
Digital system building blocks, data path and control units, system-level RTL design, Verilog HDL for design and verification, contemporary design flow and methodology, lab experiments using industry standard CAD tools and field programmable gate array (FPGA) devices. Prerequisite: CMPE 124 (with grade of "C-" or better). Computer Engineering or Software Engineering Majors Only.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules 3 units

CMPE 126. Algorithms and Data Structure Design
Object-oriented data organization and representation as strings, arrays, stacks, queues, dequeues, lists, sets, trees, tables, and graphs. Sorting and searching and algorithm design and performance analysis. Prerequisite: ENGR 010, CMPE 050 and MATH 42 both with a C- or better. Computer Engineering or Software Engineering Majors Only.
Misc/Lab: Lecture 2 hours/Lab 2 hours.
Normal Grade Rules 3 units

CMPE 127. Microprocessor Design I
Microprocessor architecture and assembly language. Design of peripheral blocks and their interfaces to the microprocessor. Design projects using standard integrated circuit packages. Prerequisite: Computer Engineering or Software Engineering Majors Only. Pre/Corequisite: CMPE 125
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules 3 units

CMPE 130. Advanced Algorithm Design
Design and analysis of data structures and algorithms. Advanced tree structures, hashing, searching and sorting. Divide-and-conquer, greedy and dynamic programming algorithm design techniques. Prerequisite: CMPE 126, SE 130 (with grades of "C-" or better). Computer Engineering or Software Engineering Majors Only.
Normal Grade Rules 3 units

CMPE 131. Software Engineering I
Why software engineering? What is software engineering? Software development lifecycle activities: project planning and management requirements analysis, requirement specification. Software design, software testing, verification, validation, and documentation. Software quality assurance and review techniques, software maintenance, team-based projects. Prerequisite: CMPE major. CMPE 126 (C- or better), SE major: CS 46B (C- or better), other majors: CMPE 30 and MATH 32 (C- or better).
Normal Grade Rules 3 units

CMPE 132. Information Security
A study of computer and network security from centralized systems to distributed networks. Cryptology, vulnerabilities and controls. Firewalls, privacy enhanced e-mail, viruses and worms. Case studies will be featured. Prerequisite: CMPE 126. Computer Engineering or Software Engineering Majors Only.
Normal Grade Rules 3 units

CMPE 133. Software Engineering II
Software Architecture, Software Technical Metrics, evaluating products, processes, and resources, improving predictions, products, processes, and resources. Advanced topics such as: Formal Methods, Software Reuse, Reengineering, Client/Server Software Engineering, Computer-Aided Software Engineering, Team-Based Projects.
Prerequisite: CMPE 131 (with a grade of "C-" or better). Computer Engineering or Software Engineering Majors Only.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules 3 units

CMPE 135. Object-Oriented Analysis and Design
Feasibility analysis and system requirements determination, object-oriented design methodology, and information systems design using object-oriented modeling techniques. Emphasis on both theoretical and practical aspects of object-oriented systems analysis and design. Team-based design project. Prerequisite: For SE Majors: CS 046B or for others CMPE 126. See SJSU Catalog for detail list of prerequisites.
Normal Grade Rules 3 units

UPPER DIVISION

CMPE 102. Assembly Language Programming
Assembly programming; assembly-C interface; CPU and memory organization; addressing modes; arithmetic, logic and branch instructions; arrays, pointers, subroutines, stack and procedure calls; software interrupts, multiplication, division and floating point arithmetic.
Prerequisite: CMPE 050 or CS 046B (with grade of "C-" or better). Sophomore or upper division standing. Allowed Declared Majors: Computer Engineering, Software Engineering.
Normal Grade Rules 3 units

CMPE 110. Electronics for Computing Systems
RC, RL, and RLC circuit analysis, diodes and diode circuits, MOSFET and bipolar transistor I-V characteristics and circuits, CMOS logic circuits, CMOS-TTL interface, sensors and signal conditioning circuits using operational amplifiers, A/D and D/A converters, electromechanical device control. Prerequisites EE 97, EE 98, Math 123 all with a C or better.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules 3 units
CMPE 137. Wireless Mobile Software Engineering
Mobility analysis, design principles, techniques, and methods for software systems on a variety of wireless and mobile Internet based computing and communication platforms, such as advanced pocket/tablet PCs, GPS, Bluetooth, Infrared, Wi-Fi, and RFID. Design multi-disciplined mobile project.
Prerequisite: CMPE 131. Computer Engineering or Software Engineering Majors Only.
Normal Grade Rules
3 units

CMPE 138. Database Systems I
File organization and storage structure, database system architecture, entity relationship model, normalization techniques, SQL, relational algebra, storage organization, query processing, and concurrency control.
Prerequisite: CMPE 126 (with a grade of "C-" or better). Computer Engineering or Software Engineering Majors Only.
Normal Grade Rules
3 units

CMPE 139. Fundamentals of Data Mining
Introduction to data management and data mining, data preprocessing, OLAP and data warehousing, frequent pattern mining and association rules, clustering, classification, web mining, web search, recommender systems, social network analysis.
Prerequisite: CMPE 126 or CS 146 (with C- or better). Computer Engineering or Software Engineering Majors Only.
Normal Grade Rules
3 units

CMPE 140. Computer Architecture and Design
Pipelining and timing issues in CPU data-paths. Principles of RISC-type CPU instruction set and architecture. Structural, data and control hazards in a RISC processor, forwarding loops, branch mechanisms. Memory architectures in CPUs such as register files and caches.
Prerequisite: CMPE 125 (with grade of "C-" or better). Computer Engineering or Software Engineering Majors Only.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

CMPE 142. Operating Systems Design
Prerequisite: CMPE 102, CMPE 126 (all with grades of "C-" or better). Computer Engineering or Software Engineering Majors Only.
Corequisite: CMPE 130 (with grades of "C-" or better).
Normal Grade Rules
3 units

CMPE 146. Real-Time Embedded System Co-Design
Embedded system architecture with real-time operating system including microcontrollers, interfacing techniques for industrial applications using transducers, sensors, and A/D-D/A converters. Hardware/software integration and codesign.
Prerequisite: CMPE 110 and CMPE 127 with grade of “C-” or better. Computer Engineering or Software Engineering Majors Only.
Misc/Lab: Lecture 2 hrs/lab 3 hrs.
Normal Grade Rules
3 units

CMPE 147. Fundamentals of System on Chip (SoC) Design
System on Chip implementation of a computing architectures. Implementation of parallel and serial bus architectures. SRAM, SDRAM and Flash memory interfaces. Direct Memory Access (DMA), interrupt controller, transceiver, timers and data converters. Verilog skills are required.
Prerequisite: CMPE 125 (with "C-" or better). Computer Engineering or Software Engineering Majors Only.
Normal Grade Rules
3 units

CMPE 148. Computer Networks I
Comparative evaluation of network architecture, layering model, standards, protocol examples for ISO and TCP/IP layers. Network applications, transport layer protocols, Internet routing, data link and physical transimissions. Applications in world wide web, file transfer, electronic mail, peer-to-peer and other areas.
Prerequisite: For CMPE major: CMPE 124 and CMPE 126; for SE major: CMPE 120 and CS 146; Computer Engineering or Software Engineering Majors Only.
Normal Grade Rules
3 units

CMPE 150. System Architecture and Electronic Design for Robotics
Design and architecture for generating autonomous and human-robotic systems, algorithm development for object perception, electronic design and system integration for cognitive and sensory capabilities of robots, mechanisms for actuation and mobility, fault diagnosis and self-calibration.
Prerequisite: CMPE 110, CMPE 124
Normal Grade Rules
3 units

CMPE 152. Compiler Design
Principles of lexical analysis, finite state automata and parsing; issues of variable declarations, variable types, control statements, function calls, nested scopes and efficient assembler target code.
Prerequisite: CMPE 126, CMPE 102 (both with grade of “C-” or better).
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

CMPE 163. Introduction to Computer Graphics and Augmented Reality
Introduction to 2D and 3D vector and pixel graphics, 2D and 3D transformations, world to viewer transformation pipeline, perspective projection, hidden line and surface removal, decoration algorithm and texture mapping, integration of pixel graphics and augmented reality, and hands-on laboratories.
Prerequisite: CMPE 127, ENGR 100W; MATH 123 or MATH 129A or EE 112.
Corequisite: ENGR 100W
Normal Grade Rules
3 units

CMPE 165. Software Engineering Process Management
Integrated approach to managing development within small teams, including mission statement, synthesis of design concepts, tradeoff studies, risk assessment and the interactions encountered in the optimal design, development, manufacture and test of systems.
Prerequisite: CMPE 133. Computer Engineering or Software Engineering Majors Only.
Normal Grade Rules
3 units

CMPE 172. Enterprise Software Platforms
Introduction to enterprise software systems. Covers network operating systems, DBMS, transaction monitors, groupware, distributed objects, system management and the Web. Covers standards such as Java, CORBA, SQL, JDBC, and HTTP, and emerging software technologies.
Prerequisite: CMPE 142 or CS 149 with grade of “C-” or better. Computer Engineering or Software Engineering Majors Only.
Normal Grade Rules
3 units

CMPE 180. Individual Studies
Individual work in computer engineering. Prerequisite: Upper division standing and instructor consent. Not available to Open University Students. Repeatable for credit
Credit / No Credit
1-3 units

CMPE 180A. Data Structures and Algorithms in C++
Data representation and preprocessing, proximity, finding nearest neighbors, dimensionality reduction, exploratory analysis, association Object-oriented data organization and representation as strings, arrays, stacks, queues, dequesues, lists, sets, trees, tables, and graphs. Sorting and searching and algorithm design and performance analysis. Testing methods and data are discussed.
Prerequisite: Admission into MS Computer Engineering or MS Software Engineering
Credit / No Credit
3 units
CMPE 180B. Database Systems
File organization and storage structure, database system architecture, entity relationship model, normalization techniques, SQL, relational algebra, storage organization, query processing, and concurrency control. Prerequisite: Admission into MS Computer Engineering or MS Software Engineering
Credit / No Credit
3 units

CMPE 180C. Operating Systems Design
History, concepts, system calls and structures. Management of major components: processes, memory, input/output and files. Design of system calls and device drivers for hardware dependence. Concepts of kernel and shell, file protection and interactive computation. Prerequisite: Admission into MS Computer Engineering or MS Software Engineering
Credit / No Credit
3 units

CMPE 180D. Digital Design and Microprocessors
Binary codes/number representations, binary arithmetic, combinational logic design with gates, logic minimization, decoders, encoders, adders; sequential logic design with latches, flip-flops, registers, counters, state machine design; basic microprocessor architectures (control/data paths) and memory subsystems; asynchronous logic (racing, glitches, timing diagrams). Prerequisite: Admission into MS Computer Engineering or MS Software Engineering
Credit / No Credit
3 units

CMPE 187. Software Quality Engineering
Software testing and quality assurance engineering concepts, processes, models, criteria, and methods. Software unit testing, integration, function validation, system performance and reliability evaluation; Software security testing methods and tools; software quality management, control systems, standards, and evaluation metrics. Prerequisite: CMPE 131. Computer Engineering or Software Engineering Majors Only.
Normal Grade Rules
3 units

CMPE 188. Machine Learning for Big Data
Introduction to machine learning and pattern recognition for big data analytics; machine learning concepts, theories, approaches, algorithms, and big data analytic applications; supervised learning unsupervised learning and learning theory. Prerequisite: CMPE 126 or CS 146
Normal Grade Rules
3 units

CMPE 189. Special Topics in Computer Engineering
Advanced topics in Computer Engineering. Content varies from semester to semester. Prerequisite: Instructor consent
Normal Grade Rules
3 units

CMPE 195A. Senior Design Project I
Comprehensive plan and preliminary design of a group computer/software engineering project; integration of knowledge in science, technologies and team processes; group written report and oral presentation; global and social issues in engineering; individual professional development plans. GE Area: S when taken as part of CMPE major sequence. Corequisite: ENGR 195A
Prerequisite: For CMPE Majors: CMPE 127, CMPE 130, CMPE 131, ISE 130 (all with a C- or better); ENGR 100W (with a grade of "C" or better), in good standing in the major and graduation application on file.
For SE Majors: CMPE 131, ISE 130 or MATH 161A (with a grade of "C-" or better), ENGR 100W (with a grade of "C-" or better); in good academic and major standings, graduation application on file.
Note: Meets GE Areas S and V when course is taken in combination with: CMPE 195B, ENGR 195A and ENGR 195B
Misc/Lab: 6 lab hours
Normal Grade Rules
CE: S
1-2 units

CMPE 195B. Senior Design Project II
Implementation of group design project initiated in CMPE 195A; group oral presentation and written report; integrated global and social issues in engineering; GE Area: V when taken as part of CMPE major sequence. Prerequisite: CMPE 195A (with grade of "C" or better), junior and senior only. Allowed Declared Majors: Computer Engineering, Engineering, Software Engineering. Corequisite: ENGR 195B
Note: Meets GE Areas S and V when course is taken in combination with: CMPE 195A, ENGR 195A and ENGR 195B
Misc/Lab: Lab 9 hours.
Normal Grade Rules
CE: V
3 units

CMPE 195F. Senior Design Project II
Reimplementation of group design project initiated in CMPE 195A; group oral presentation and written report. Prerequisite: CMPE 195A (grade of C or better); in good academic and major standings
Misc/Lab: 9 hours of Lab
Normal Grade Rules
3 units

CMPE 195G. Senior Design Project III
Implementation of student group design project with faculty roles and guidance. GE Area: V when taken as part of CMPE major sequence. Prerequisite: CMPE 195F (with grade of "C" or better). Note: GE Area S when course is taken in combination with: CMPE 195A, ENGR 195A and ENGR 195B
Misc/Lab: Lab 24 hours.
Normal Grade Rules
CE: V
4 units

CMPE 197. Cooperative Education Project
See ENGR 197.
Normal Grade Rules
3 units

CMPE 198. Technology and Civilization
See TECH 198.
Normal Grade Rules
CE: V
3 units

GRADUATE

CMPE 200. Computer Architecture
Computer design overview, processor instruction set architecture and microarchitecture, instruction-level parallelism, memory hierarchy, storage and I/O systems, multicores/multiprocessor and data/thread-level parallelism, introduction to parallel programming. Prerequisite: Classified graduate standing or graduate advisor consent. Computer Engineering or Software Engineering majors only.
Normal Grade Rules
3 units

CMPE 202. Software Systems Engineering
Integrated approach to software design and development including requirements elicitation and analysis, system design and construction through studying multiple facets of software development processes, design methodologies, modeling approaches, and implementation techniques. Prerequisite: Classified graduate standing or instructor consent. Computer Engineering and Software Engineering majors only.
Misc/Lab: 3 hours
Normal Grade Rules
3 units

CMPE 203. Software Engineering Management
Development of software systems from the perspective of project management within the dynamic and complex nature of software technologies and environments; development lifecycle, communications, team dynamics, planning, estimation, scheduling, risk analysis, metrics tracking, problem management, and configuration management. Prerequisite: Graduate standing or instructor consent. Computer Engineering or Software Engineering Majors only.
Normal Grade Rules
3 units

CMPE 206. Computer Network Design
Network topology and queuing theory. The seven layers of the ISO reference model: physical, data link, network, transport, session, presentation and application. Example networks. Network design project. Prerequisite: Classified graduate standing or instructor consent.
Normal Grade Rules
3 units
CMPE 207. Network Programming and Application
Development and implementation of networking software for building distributed applications. Application Programming Interfaces: BSD Sockets, Winsock, Remote Procedure Call and Middleware. Network programming project. Prerequisite: CMPE 206, or instructor consent. Normal Grade Rules 3 units

CMPE 208. Network Architecture and Protocols
In-depth study of the principles and architecture of Internet protocols in current practice. Analysis of protocols of network, transport, and application layers. Topics will also cover emerging network architecture and protocols. Network analysis project. Prerequisite: CMPE 206 or instructor consent. Normal Grade Rules 3 units

CMPE 209. Network Security
Network security protocols and applications, cryptography algorithms, authentication systems, intrusion detection, network attacks and defenses, system-level security issues, and how to build secure systems. Prerequisite: CMPE 206 or EE 281. Normal Grade Rules 3 units

CMPE 210. Software-defined Networks and Network Functions Virtualization
The course covers development and implementation of Software-defined Networks and Network Functions Virtualization for building programmable network applications. It includes their concepts with various use cases. Students conduct a network programming project related to SDN/NFV by using open source projects. Prerequisite: CMPE 206 or (equivalent graduate network courses) or instructor consent. Normal Grade Rules 3 units

CMPE 212. System Verification
Introduction to SoC system configuration and integration, on-chip protocols, assertion based verification, code and functional coverage metrics, methodologies, tools, and environments for functional verification of special function blocks (SFBs) and integrated SoC-based computer systems. Prerequisite: CMPE 200 and CMPE 264 or instructor consent. Normal Grade Rules 3 units

CMPE 213. Parallel Computing
How to effectively program parallel computers, from smartphones to large clusters. Types of parallel architectures, routing, communication operations, parallel programming models, performance analysis, parallel algorithms for sparse matrix and graph problems, load balancing, advanced topics. Applications to Big Data Analytics. Prerequisite: Classified graduate standing or instructor consent. Normal Grade Rules 3 units

CMPE 214. CPU Architecture and Programming
Explores state-of-the-art parallel architecture and various parallel programming techniques. Investigate the architectural difference between CPU and various parallel architectures including CPU, programming basics of parallel platforms such as CUDA, optimization and debugging techniques. Prerequisite: CMPE 140 or CMPE 200. Normal Grade Rules 3 units

CMPE 217. Human Computer Interaction
See ISE 217. Normal Grade Rules 3 units

CMPE 219. HCI for Cyber Security
See ISE 219. Normal Grade Rules 3 units

CMPE 220. System Software
System software overview, assemblers, macro-assemblers, loaders and linkers, compilers and operating systems. Design project. Prerequisite: Classified graduate standing or graduate advisor consent. Computer Engineering and Software Engineering Majors only. Normal Grade Rules 3 units

CMPE 226. Database Systems
Database architectures, technologies, and practices for enterprise systems that use structured, semi-structured, and unstructured data. Provides opportunities to research and acquire experience using modern and emerging concepts in relational and non-relational database theory and technologies. Prerequisite: CMPE 272 or instructor consent. Computer Engineering or Software Engineering majors only. Normal Grade Rules 3 units

CMPE 231. Computer Networks
Principles of computer networks. Introduction to computer network concepts, architectures, protocols, gateways, and internetworking. Prerequisites: CMPE 206 or CMPE 202 or instructor consent. Normal Grade Rules 3 units

CMPE 232. Microcomputer Systems
Introduction to microcomputer systems. Microprocessors, microcontrollers, design and implementation of microcontroller and microcomputer hardware and firmware. Prerequisite: CMPE 202 or instructor consent. Normal Grade Rules 3 units

CMPE 235. Mobile Software System Design
Study of wireless-based software systems in design and engineering, underlying networks, infrastructures and frameworks, wireless security, mobile user security & privacy (i.e. biometric security), emerging mobile programming platforms and technologies (such as RFID/Barcode/NFC), mobile commerce and service application systems. Prerequisite: CMPE 220 or CMPE 202 or instructor consent. Computer Engineering and Software Engineering majors only. Normal Grade Rules 3 units

CMPE 236. Mobile Web Application Systems
Mobile web system concepts, technology, architectures, security, design methods, validation techniques, mobile platforms and enabled technologies, mobile cloud, database and access services, mobile app development and platform solutions. Prerequisite: CMPE 202 or instructor consent. Normal Grade Rules 3 units

CMPE 240. Advanced Computer Design
Architecture of a computing system including system bus, memory subsystems and peripherals. Unidirectional and bidirectional bus architectures. SRAM, SDRAM and FLASH memories. Design of DMA, interrupt controller, transmitter/receiver, timer, display adapter, A/D and D/A converters and other system peripherals. Design of memory and peripheral bus interfaces. Prerequisite: CMPE 127 or instructor consent. Computer Engineering and Software Engineering majors only. Normal Grade Rules 3 units

CMPE 242. Embedded Hardware Design
Advanced topics dealing with microprocessor and microcontroller hardware and firmware including processor architecture, advanced memory and I/O systems design, multilevel bus architecture, interrupt systems. Design project. Prerequisite: CMPE 200 or EE 275. Normal Grade Rules 3 units

CMPE 243. Embedded Systems Applications
Embedded system interfacing techniques, peripheral devices; discussion of industrial, telecommunication, automotive, medical, and consumer applications of embedded systems. Design project. Prerequisite: CMPE 242 or instructor consent. Normal Grade Rules 3 units
CMPE 244. Embedded Software
Experiments dealing with advanced embedded software programming concepts, interfacing techniques, hardware organization and software development using an embedded system. Individual projects.
Prerequisite: CMPE 200, CMPE 220 or instructor consent.
Normal Grade Rules
3 units

CMPE 245. Embedded Wireless Architecture
Embedded Wireless architecture with basic communication protocols, hands on labs with state of the art embedded system development tools.
Prerequisites: CMPE 240 or instructor consent.
Normal Grade Rules
3 units

CMPE 246. Interface Design in Embedded Systems
Oscillator configuration, parallel and serial I/O port initialization and interface building techniques with Microchip DSP microcontrollers. Integration of external memory blocks, MEMS sensors, MEMS microphone, ADC, DAC and image recognition camera to achieve a specific system functionality. Servo motor, stepper motor and brushless motor interfaces design and control. Design specification and development with Microchip MPLABX design tools.
Prerequisite: CMPE 30, CMPE 127, passing score on the logic design exam, or Instructor Consent
Normal Grade Rules
3 units

CMPE 253. Advanced Bioinformatics
Computational Laboratory For Engineers
See ENGR 253.
Normal Grade Rules
3 units

CMPE 255. Data Mining
Data representation and preprocessing, proximity, finding nearest neighbors, dimensionality reduction, exploratory analysis, association analysis and sequential patterns, supervised inference and prediction, classification, regression, model selection and evaluation, overfitting, clustering, advanced topics.
Prerequisite: Classified graduate standing or instructor consent for non-MS SE majors
Normal Grade Rules
3 units

CMPE 256. Large-Scale Analytics
Data mining and machine learning algorithms and applications for large amounts of data. Information retrieval and search engines, social network analysis, link analysis, ranking, Web personalization, recommender systems, opinion mining and sentiment analysis, advanced topics.
Prerequisite: Classified Graduate standing, Instructor consent for non-MS SE students
Normal Grade Rules
3 units

CMPE 257. Machine Learning
Machine Learning concept, feasibility and learning types, theory of generalization, bias and variance, linear models for classification and regression, nonlinear transformation, regularization and validation, kernel methods, radial basis functions, support vector machines, ensemble methods, neural networks, hands-on projects.
Prerequisite: Instructor Consent
Normal Grade Rules
3 units

CMPE 258. Deep Learning
Deep neural networks and their applications to various problems, e.g., speech recognition, image segmentation, and natural language processing. Covers underlying theory, the range of applications to which it has been applied, and learning from very large data sets.
Prerequisite: CMPE 255 or CMPE 257 or instructor consent
Normal Grade Rules
3 units

CMPE 264. Advanced Digital and Computing System Design
Advanced topics in register-transfer-level design of complex digital functional blocks, application-specific instruction set processors, and system-level integration/validation using Verilog/VHDL/C-level hardware description languages.
Prerequisite: CMPE 200 or instructor consent
Normal Grade Rules
3 units

CMPE 265. High Speed Digital System Design
Introduction to high speed interface design techniques and analyzing high speed circuits utilizing latest modeling and simulation tools to provide necessary knowledge for the printed circuit board layout.
Prerequisite: CMPE 200 or instructor consent
Normal Grade Rules
3 units

CMPE 266. Big Data Engineering and Analytics
New big data related technologies, architecture, tool, algorithms and analytics to manage and extract values and hidden knowledge from data whose scale, diversity, speed and complexity are big.
Prerequisite: CMPE 272 or Instructor Consent
Normal Grade Rules
3 units

CMPE 270. Information Engineering
See ISE 270.
Normal Grade Rules
GE: GWAR
3 units

CMPE 272. Enterprise Software Platforms
Enterprise software, system and virtualized platforms. Covers OSs, NOS, security, databases (OLTP, Big Data, Analytics), transactions, groupware, components, web services, web, systems management and app development. Covers standards and emerging technologies.
Prerequisite: Classified graduate standing or instructor consent. Computer Engineering and Software Engineering majors only.
Normal Grade Rules
3 units

CMPE 273. Enterprise Distributed Systems
Introduction to application protocols for large scale distributed systems including object request brokers, asynchronous messaging, and Web services. Lab is based on using protocols to build distributed systems.
Prerequisites: Java programming or instructor consent. Computer Engineering and Software Engineering majors only.
Corequisites: CMPE 272
Normal Grade Rules
3 units

CMPE 274. Business Intelligence Technologies
This course covers technologies that are key to delivering business intelligence to an enterprise. The goal of business intelligence is to analyze and mine business data to understand and improve business performance by transforming business data into information into knowledge.
Prerequisite: CMPE 272 or instructor consent. Computer Engineering and Software Engineering majors only.
Normal Grade Rules
3 units

CMPE 275. Enterprise Application Development
Distributed component design, scalability, messaging, and integration practices for modern and emerging architectures and technologies.
Prerequisite: CMPE 273 or instructor consent. Computer Engineering and Software Engineering majors only.
Normal Grade Rules
3 units

CMPE 277. Smartphone Application Development
Architectures, technologies, and programming concepts for developing smartphone applications. Covers current smartphone/tablet OSs, application development, and deployment environments.
Prerequisites: Classified graduate standing or instructor consent. Computer Engineering and Software Engineering majors only.
Normal Grade Rules
3 units
CMPE 279. Software Security Technologies
The course provides the fundamental concepts, methods and tools used to design and implement software security technologies for constructing trustworthy centralized, distributed or enterprise-wide software systems.
Prerequisite: CMPE 220 or CMPE 202 or instructor consent.
Normal Grade Rules
3 units

CMPE 280. Web UI Design and Development
Web User-interface (UI) design and development with contemporary web standards. Understand interaction and interface design principles and processes for rich web applications, mobile web, web graphics, web design fundamentals, tools, interaction using client side scripting and server side frameworks.
Pre-requisite: Classified graduate standing or instructor consent. Computer Engineering and Software Engineering majors only.
Normal Grade Rules
3 units

CMPE 281. Cloud Technologies
Cloud computing concepts, evolution, architectures, infrastructure, opportunities, risks, enterprise adoption strategies, standards and policies, Software-as-a-Service (SaaS), Platform-as-a-Service (PaaS), Infrastructure-as-a-Service (IaaS), modern cloud computing technologies and tools, case studies and team projects.
Corequisites: CMPE 272 or instructor consent. Computer Engineering and Software Engineering majors only.
Normal Grade Rules
3 units

CMPE 282. Cloud Services
Cloud service architecture and layering, administrative issues, resiliency and security considerations, business development, operations and business support service, case studies and team projects.
Prerequisites: CMPE 281 or instructor consent. Computer Engineering and Software Engineering majors only.
Normal Grade Rules
3 units

CMPE 283. Virtualization Technologies
Virtualization concepts, components and infrastructure, hardware and software virtualization, virtualization machine life cycle management, virtualization services, case studies and team projects.
Prerequisites: CMPE 272 or instructor consent. Computer Engineering and Software Engineering majors only.
Normal Grade Rules
3 units

CMPE 284. Storage and Network Virtualization
Network and storage technologies, network virtualization and storage virtualization, including virtual local area networks, load balancers, firewalls, virtual private networks, network attached storage and storage area networks, case studies, and team projects.
Prerequisites: CMPE 283 or instructor consent. Computer Engineering and Software Engineering majors only.
Normal Grade Rules
3 units

CMPE 285. Software Engineering Processes
Software system development with emerging software engineering processes and technologies; planned and agile development processes, processes of Service-Oriented Architecture; component-based, Web-based, mobile based, event programming, wireless, user interface, and database access technologies.
Corequisite: CMPE 202 or CMPE 220 or instructor consent. Computer Engineering and Software Engineering majors only.
Normal Grade Rules
3 units

CMPE 287. Software Quality Assurance and Testing
Software testing concepts, processes, models, criteria, and methods; software unit testing, integration, function validation, system performance measurement, and reliability evaluation; software security testing methods, assurance criteria, and validation tools; software security assurance process, standards, techniques, and case study.
Prerequisite: CMPE 202 or instructor consent. Computer Engineering and Software Engineering majors only.
Normal Grade Rules
3 units

CMPE 288. Cloud Security Engineering
Cloud security engineering concepts, issues, infrastructure, risks, enterprise adoption concerns; cloud security management, standards, criteria, processes, polices, regulations, identity and access management; security as a service and emergent security solutions and tools in clouds, case studies and team projects.
Prerequisites: CMPE 272 or instructor consent
Normal Grade Rules
3 units

CMPE 292. Int’l 1 Program Studies
Repeatable for credit
Mixed Grading
1-9 units

CMPE 294. Computer Engineering Seminar
Provides graduate students with a background to conduct research, write proposals and present results in oral and written form.
Prerequisite: Instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units

CMPE 294A. Cyber Security Seminar
Provides graduate students with the background and capability to conduct research and write technical reports in the area of cyber security
Prerequisites: Instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units

CMPE 295A. Master Project I
Comprehensive plan and preliminary design of a computer/software engineering project; integration of knowledge in technologies, processes and management to support program outcomes.
Prerequisite: Classified status, good standing, completed 2 degree core courses, completed 2 courses in specialization, and graduate advisor consent.
Misc/Lab: Lab 9 hours.
Repeatable for credit
Normal Grade Rules
3 units

CMPE 295B. Master Project II
Completion of an in-depth project to achieve the program outcomes and satisfy the cumulative experience; write a detailed project report; make a comprehensive presentation and demonstration.
Prerequisite: CMPE 295A (with a B or better) or CMPE 295W (with a B or better), completed all degree core courses, admission to candidacy and graduate advisor consent.
Misc/Lab: Lab 9 hours.
Repeatable for credit
Normal Grade Rules
3 units

CMPE 295W. Master Project
In-depth developmental engineering work relating to problems of interest. Project includes proposal formulation, analysis, design, implementation, and testing.
Prerequisites: Completed degree and specialization core requirements, classified status, in good standing and graduate advisor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units

CMPE 296Y. High Level Synthesis
Purpose, methodologies, and techniques of high level synthesis (HLS), hands-on HLS practices starting from C/C++/SystemC description to FPGA device implementation.
Prerequisites: CMPE 200, CMPE 212, and CMPE 264.
Normal Grade Rules
3 units

---

CMPE 296Z. System Architecture  
System-level description and verification, performance and power driven system optimization via microarchitecture exploration and hardware/software trade-offs, system integration and hardware/software co-validation.
Prerequisites: CMPE 200, CMPE 212, and CMPE 264.  
Normal Grade Rules 3 units

CMPE 297. Special Topics in Computer/Software Engineering  
Special topics to augment regularly-scheduled graduate courses. May be taken up to three times in different topic areas.
Prerequisite: Instructor consent.
Repeatable for credit
Normal Grade Rules 3 units

CMPE 298. Special Problems  
Advanced individual work in computer engineering.
Prerequisite: Instructor consent. Not available to Open University Students.
Repeatable for credit
Mandatory CR/NC/RP 1-6 units

CMPE 298I. Computer/Software Engineering Internship  
Field work for computer and software engineering graduate students. A report is required at the end of the semester addressing the goals set at the start of the assignment.
Prerequisite: Completed 6 units degree core plus six additional degree program units, classified status, in good standing and graduate advisor consent.
Repeatable for credit
Mandatory CR/NC/RP 1-6 units

CMPE 299A. Master Thesis I  
The first part of a thesis culminating the work for the master's degree in the specialization.
Prerequisite: Completed core courses and classified status. Not available to Open University students.
Mandatory CR/NC/RP 3 units

CMPE 299B. Master Thesis II  
The second part of a thesis culminating the work for the master's degree in the specialization.
Prerequisite: Admission to Candidacy of Master Degree and CMPE 299A. Not available to Open University students.
Mandatory CR/NC/RP 3 units

### Computer Science Department Courses

#### COMPUTER SCIENCE

#### LOWER DIVISION

**CS 022A. Python Programming for Non Majors I**
This course is an introduction to Python Programming. Programming in interesting, relevant, and practical contexts. Image and video manipulation, digital music, databases, web pages, data analysis in life sciences, other applications. Fundamental programming constructs: data structures and algorithms, iterations, functions.
Prerequisite: This course is intended for students who have no prior programming experience. This course is not open to computer science majors or minors or software engineering majors.
Normal Grade Rules
3 units

**CS 022B. Python Programming for Non Majors II**
Hands-on Python programming skills. Skills include casting a problem as an algorithm, translating an algorithm to executable code, and debugging and testing code. Applications focus on computational techniques to understand, analyze, and visualize data.
Prerequisite: CS 22A or consent of the instructor. This course is not open to computer science majors or minors or software engineering majors.
Normal Grade Rules
3 units

**CS 025. The Digital World and Society**
See ENGR 025.
Normal Grade Rules
GE: D1
3 units

**CS 040. Introduction to Computers**
For students with little or no computer experience. Topics include: history of computing, user interfaces, computer applications, programming, hardware and software, computer networks.
Normal Grade Rules
3 units

**CS 042. Discrete Mathematics**
See MATH 042.
Normal Grade Rules
3 units

**CS 046A. Introduction to Programming**
Prerequisite: Eligibility for Math 019 and a major of Computer Science, Software Engineering, or Undeclared; or instructor consent.
Misc/Lab: Lecture 4 hour/lab 3 hours
Normal Grade Rules
4 units

**CS 046B. Introduction to Data Structures**
Prerequisite: Knowledge of Java equivalent to CS 046A (in Java) or CS 049J (with grade of "C" or better). Eligibility for MATH 030 or MATH 030P, or instructor consent.
Pre/Corequisite: MATH 042.
Misc/Lab: 3 hours of lecture/ 3 hours lab
Normal Grade Rules
4 units

**CS 047. Introduction to Computer Systems**
Instruction sets, assembly language and assemblers, linkers and loaders, data representation and manipulation, interrupts, pointers, function calls, argument passing, and basic gate-level digital logic design.
Prerequisite: CS 46B (with a grade of "C-" or better)
Normal Grade Rules
3 units

**CS 049C. Programming in C**
Beginning course in the C language.
Prerequisite: Previous programming experience and completion of math GE.
Normal Grade Rules
3 units

**CS 049J. Programming in Java**
Introduction to the Java programming language and libraries. Topics include fundamental data types and control structures, object-oriented programming, string processing, input/output, and error handling. Use of Java libraries for mathematics, graphics, collections, and for user interfaces.
Prerequisite: Previous programming experience in a language other than Java.
Normal Grade Rules
3 units

**CS 050. Scientific Computing I**
See METR 050.
Normal Grade Rules
2 units

**CS 085C. Practical Computing Topics**
Computing topics of current interest in industrial practice. Emphasis on effective use and integration of software/hardware. Different topics may be offered at different times in a short-course lecture/lab format. Different versions of this course may be repeated for credit.
Pre/corequisite eligibility for MATH 19
Additional Prerequisite: Varies with topic
Repeatable for credit
Normal Grade Rules
3 units

#### UPPER DIVISION

**CS 100W. Technical Writing Workshop**
Advanced writing through preparation of technical reports and presentations. Improving skills for writing subject-related reports, project proposals and personal resumes through practice and evaluation. Course assignments will be related to issues concerning careers in computer science. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C+ or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE: Z
3 units

**CS 108. Introduction to Game Studies**
See ART 108.
Normal Grade Rules
3 units

**CS 116A. Introduction to Computer Graphics**
Vector geometry, geometric transformations and the graphics pipeline. Basic raster graphics algorithms for drawing discrete lines, clipping, visible, surface determination and shading. Display of curves and surfaces. Graphics data structures.
Prerequisite: MATH 31, MATH 129A, CS 146 (with a grade of "C-" or better in each) and previous programming experience in C/C++, or instructor consent.
Normal Grade Rules
3 units

**CS 116B. Computer Graphics Algorithms**
In-depth discussion of algorithms and techniques used in computer graphics and their implementation. Topics include: animation, fractals, anti-aliasing, fill algorithms, visible surface algorithms, color and shading, ray tracing, radiosity and texture maps. Substantial programming required.
Prerequisite: CS 116A (with a grade of "C-" or better) or instructor consent.
Notes: Offered only occasionally.
Normal Grade Rules
3 units
CS 120A. Electronics, Data Acquisition & Analysis
See PHYS 120A.
Normal Grade Rules
3 units

CS 122. Advanced Programming with Python
Advanced features of Python programming language, with emphasis on algorithmic theory and programming practice. Programming projects in linguistics, music, scientific computing, system administration, and bioinformatics.
Prerequisite: CS 146 (with a grade of "C-" or better) or instructor consent.
Normal Grade Rules
3 units

CS 123A. Bioinformatics I
Introduction to the main public domain tools, databases and methods in bioinformatics. Analysis of algorithms behind the most successful tools, such as the local and global sequence alignment packages, and the underlying methods used in fragment assembly packages. Solution of complex biological questions requiring modification of standard code.
Prerequisite: Biol 30 and Biol 31, or CS 46A and CS 46B.
Normal Grade Rules
3 units

CS 123B. Bioinformatics II
Computational methods used for searching, classifying, analyzing, and modeling protein sequences. Tools for analyzing DNA and RNA sequences. More advanced topics, such as genetic algorithms and simulated annealing, which can be used to address folding problems.
Prerequisite: CS 123A.
Normal Grade Rules
3 units

CS 130. Windows Programming
Introduction to the concepts and techniques of Windows programming using the .NET Foundation Class Library (FCL) and C#. Topics include graphics programming, graphical user interface programming, current technology for code reuse (components), and programmatic access to web services.
Prerequisite: CS 46B (with a grade of "C-" or better), or instructor consent.
Normal Grade Rules
3 units

CS 134. Computer Game Design and Programming
Architectures and object-oriented patterns for computer game design. Animation, simulation, user interfaces, graphics, and intelligent behaviors. Team projects using an existing game engine framework.
Prerequisite: CS 146 and either CS 151 or CMPE 135 (with a grade of "C-" or better in each), or instructor consent.
Normal Grade Rules
3 units

CS 134C. Numerical Analysis and Scientific Computing
See MATH 134C.
Normal Grade Rules
3 units

CS 134M. Numerical Analysis and Scientific Computing
See MATH 134M.
Normal Grade Rules
3 units

CS 144. Advanced C++ Programming
Advanced features of C++, including operator overloading, memory management, templates, exceptions, multiple inheritance, RTTI, namespaces, tools.
Prerequisite: CS 46B and CS 49C (with a grade of "C-" or better in each), or equivalent knowledge of object-oriented programming and C++, or instructor consent.
Normal Grade Rules
3 units

CS 146. Data Structures and Algorithms
Implementations of advanced tree structures, priority queues, heaps, directed and undirected graphs. Advanced searching and sorting (radix sort, heapsort, mergesort, and quicksort). Design and analysis of data structures and algorithms. Divide-and-conquer, greedy, and dynamic programming algorithm design techniques.
Prerequisite: MATH 030, MATH 042, and CS 049J (or equivalent knowledge of Java), and CS 046B (with a grade of "C-" or better in each); Computer Science, Applied and Computational Math or Software Engineering Majors only, or instructor consent.
Normal Grade Rules
3 units

CS 147. Computer Architecture
Introduction to the basic concepts of computer hardware structure and design, including processors and arithmetic logic units, pipelining, and memory hierarchy.
Prerequisite: CS 47 or CMPE 102 (with a grade of "C-" or better), Computer Science, Applied and Computational Math, or Software Engineering majors only, or instructor consent.
Normal Grade Rules
3 units

CS 149. Operating Systems
Fundamentals: Contiguous and non-contiguous memory management; processor scheduling and interrupts; concurrent, mutually exclusive, synchronized and deadlocked processes; files. Substantial programming project required.
Prerequisite: CS 146 or SE 146 (with a grade of "C-" or better). Computer Science, Applied and Computational Math or Software Engineering Majors only, or Instructor Consent.
Normal Grade Rules
3 units

CS 151. Object-Oriented Design
Prerequisite: MATH 42, CS 46B, and CS 49J (or equivalent knowledge of Java) (with a grade of "C-" or better in each); Computer Science, Applied and Computational Math or Software Engineering majors only, or instructor consent.
Normal Grade Rules
3 units

CS 152. Programming Paradigms
Prerequisite: CS 151 or CMPE 135 (with a grade of "C-" or better); Computer Science, Applied and Computational Math or Software Engineering Majors only, or instructor consent.
Normal Grade Rules
3 units

CS 153. Concepts of Compiler Design
Theoretical aspects of compiler design, including parsing context free languages, lexical analysis, translation specification and machine-independent code generation. Programming projects to demonstrate design topics.
Prerequisite: CS 47 or CMPE 102, CS 146, and CS 154 (with a grade of "C-" or better in each); Computer Science, Applied and Computational Math or Software Engineering majors only, or instructor consent.
Normal Grade Rules
3 units

CS 154. Formal Languages and Computability
Finite automata, context-free languages, Turing machines, computability.
Prerequisite: MATH 42 and CS 46B (with a grade of "C-" or better in each); Computer Science, Applied and Computational Mathematics, or Software Engineering, majors only, or instructor consent.
Normal Grade Rules
3 units

CS 155. Introduction to the Design and Analysis of Algorithms
Algorithm design techniques: dynamic programming, greedy algorithms, Euclidean and extended Euclidean algorithms, Discrete and Fast Fourier transforms. Analysis of algorithms, intractable problems and NP-completeness. Additional topics selected from: selection algorithms and adversary arguments, approximation algorithms, parallel algorithms, and randomized algorithms.
Prerequisite: CS 146 (with a grade of "C-" or better) or instructor consent.
Normal Grade Rules
3 units
### CS 156. Introduction to Artificial Intelligence
Basic concepts and techniques of artificial intelligence: problem solving, search, deduction, intelligent agents, knowledge representation. Topics chosen from logic programming, game playing, planning, machine learning, natural language, neural nets, robotics.
Prerequisite: CS 146 and either CS 151 or CMPE 135 (with a grade of "C-" or better in each); or instructor consent.

Normal Grade Rules
3 units

### CS 157A. Introduction to Database Management Systems
Prerequisite: CS 146 (with a grade of "C-" or better); Computer Science, Applied and Computational Math, or Software Engineering majors only, or instructor consent.

Normal Grade Rules
3 units

### CS 157B. Database Management Systems II
Prerequisite: CS 157A (with a grade of "C-" or better);
Computer Science, Applied and Computational Math, or Software Engineering Majors only, or instructor consent.

Normal Grade Rules
3 units

### CS 157C. NoSQL Database Systems
Prerequisite: CS 157A with a "C-" or better

Normal Grade Rules
3 units

### CS 157D. NoSQL Database Systems
Database trends like active, temporal, multimedia, deductive databases. Web database topics, namely, architectures, introduction to interface languages. Team projects.
Prerequisite: CS 157A (with a grade of "C-" or better);
Computer Science, Applied and Computational Math, or Software Engineering Majors only, or instructor consent.

Normal Grade Rules
3 units

### CS 158A. Computer Networks
Introduction to computer networks, including network layered architectures, local and wide area networks, mobile wireless networks, Internet TCP/IP protocol suite, network resource management, network programming, network performance, network security, network applications.
Prerequisite: CS 146, and CS 147 or CMPE 120, (with grades of "C-" or better in each); or instructor consent.

Normal Grade Rules
3 units

### CS 158B. Computer Network Management
Principles and technologies of network management: reference models, functions (fault, configuration, performance, security and accounting management), management information, communication protocols, integration, and assessment. Network security and cyber defense: cryptography, key distribution, authentication protocols, network attacks, access control, and example systems.
Prerequisite: CS 158A or CMPE 148 (with a grade of "C-" or better); or instructor consent

Normal Grade Rules
3 units

### CS 159. Introduction to Parallel Processing
Major parallel architectures: shared memory, distributed memory, SIMD, MIMD. Parallel algorithms: techniques for scientific applications, measures of performance. Parallel programming: principles and implementations in various languages. Assignments on available parallel and vector computers.
Prerequisite: CS 146 (with a grade of "C-" or better);
Computer Science, Applied and Computational Math, or Software Engineering Majors only, or instructor consent.

Normal Grade Rules
3 units

### CS 160. Software Engineering
Software engineering principles, software process and product models, requirements elicitation and analysis, design, configuration management, quality control, project planning, social and ethical issues. Required team-based software development, including written requirements specification and design documentation, oral presentation, and tool use.
Prerequisite: CS 146, CS 151 (with a grade of "C-" or better in each); CS 100W (with a grade of "C-" or better) or instructor consent. Computer Science and Software Engineering Majors only.

Normal Grade Rules
3 units

### CS 161. Software Project
A substantial project based on material from an advanced area of computer science. Includes lectures on the project topic and the design and testing of software systems. At least 50% of the course grade to be based on the project. 
Prerequisites: CS 160 (with a grade of "C-" or better) or instructor consent. Computer Science and Software Engineering Majors only.

Normal Grade Rules
3 units

### CS 162. Introduction to Artificial Intelligence
Basic concepts and techniques of artificial intelligence: problem solving, search, deduction, intelligent agents, knowledge representation. Topics chosen from logic programming, game playing, planning, machine learning, natural language, neural nets, robotics.
Prerequisite: CS 146 and either CS 151 or CMPE 135 (with a grade of "C-" or better in each); or instructor consent.

Normal Grade Rules
3 units

### CS 163. Computer Network Management
Principles and technologies of network management: reference models, functions (fault, configuration, performance, security and accounting management), management information, communication protocols, integration, and assessment. Network security and cyber defense: cryptography, key distribution, authentication protocols, network attacks, access control, and example systems.
Prerequisite: CS 158A or CMPE 148 (with a grade of "C-" or better); or instructor consent

Normal Grade Rules
3 units

### CS 164. Software Engineering
Software engineering principles, software process and product models, requirements elicitation and analysis, design, configuration management, quality control, project planning, social and ethical issues. Required team-based software development, including written requirements specification and design documentation, oral presentation, and tool use.
Prerequisite: CS 146, CS 151 (with a grade of "C-" or better in each); CS 100W (with a grade of "C-" or better) or instructor consent. Computer Science and Software Engineering Majors only.

Normal Grade Rules
3 units

### CS 165. Software Project
A substantial project based on material from an advanced area of computer science. Includes lectures on the project topic and the design and testing of software systems. At least 50% of the course grade to be based on the project. 
Prerequisites: CS 160 (with a grade of "C-" or better) or instructor consent. Computer Science and Software Engineering Majors only.

Normal Grade Rules
3 units

### CS 166. Information Security
Fundamental security topics including cryptography, protocols, passwords, access control, software security, and network security. Additional topics selected from multilevel security, biometrics, tamper-resistant hardware, information warfare, e-commerce, system evaluation and assurance, and intrusion detection.
Prerequisite: CS 146 (with a grade of "C-" or better) and either CS 47 or CMPE 102 or CMPE 120 (with a grade of "C-" or better); Computer Science, Applied and Computational Math, or Software Engineering Majors only, or instructor consent.

Normal Grade Rules
3 units

### CS 167B. DB2 Application Development for z/OS
Application interfaces for DB2 such as embedded SQL, ODBC, CLI, JDBC, SQLJ, and pureQuery. Preparation, execution, and advanced SQL functions of DB2 applications. Service-oriented architecture and data web services. Current industrial applications. Hands-on labs included.
Prerequisites: CS 157A or CS 157A (with a grade of "C-" or better) or instructor consent.

Normal Grade Rules
3 units

### CS 167C. DB2 Query Optimization for z/OS
Overview of query processing including query transformation, runtime environments, and predicate application. Discussion of access paths, optimizer statistics, and access path selection. Query performance monitoring and tuning with industrial tools. Hands-on labs included.
Prerequisites: CS 157A or CS 157A (with a grade of "C-" or better) or instructor consent.

Normal Grade Rules
3 units

### CS 172A. Fundamentals of Unix System Administration
Basic tasks for Unix systems administration including system installation, administration of user accounts, file system installation and maintenance, backups, process management and introduction to shell scripting. Second course in Unix Systems Administration Certificate Program.
Prerequisite: CS 72 (with a grade of "C-" or better).

Normal Grade Rules
3 units

### CS 174. Server-side Web Programming
Development and deployment of multi-tier web-based applications. Introduction to HTML, XML, enterprise design patterns, web services and database access.
Prerequisite: CS 46B (with a grade of "C-" or better); Computer Science, Applied and Computational Math, or Software Engineering Majors only.

Normal Grade Rules
3 units
CS 175. Mobile Device Development
Mobile Platform APIs including those for networking, touch, graphics, data, location, and camera. Testing and profiling on devices and emulators/simulators.
Prerequisites: CS 047, and knowledge of Java equivalent to that of CS 046A or CS 049
Normal Grade Rules
3 units

CS 180. Individual Studies
Individual study in a specific field.
Prerequisite: Department chair consent. Not available to Open University Students
Repeatable for credit
Credit / No Credit
1-3 units

CS 180H. Individual Studies for Honors
Senior project on advanced topics in computer science as determined by the instructor. Written paper or oral presentation of the project required. Intended for students graduating with departmental honors.
Prerequisite: At least junior standing as computer science major. GPA of 3.5 or higher in the major and department chair consent.
Credit / No Credit
3 units

CS 185C. Advanced Practical Computing Topics
Computing topics of current interest in industrial practice. Emphasis on effective use and integration of software/hardware. Different topics may be offered at different times in a short-course lecture/lab format and may be repeated for credit.
Prerequisite: Varies with topic.
Repeatable for credit
Normal Grade Rules
3 units

CS 190. Internship Project
Work on an approved semester-long paid project at an industrial site. Meet once per week on campus. Progress reports, oral presentations, final report, and evaluation by project supervisor will be used to demonstrate the acquisition of skills identified as goals prior to the start of the assignment.
Prerequisite: CS 146 (with a grade of “C-” or better) or graduate standing, selection by a company, and instructor consent
Repeatable for credit
Normal Grade Rules
1 unit

CS 190I. Internship Project
Work on an approved semester-long paid project at an industrial site. Meet once per week on campus. Progress reports, oral presentations, final report, and evaluation by project supervisor will be used to demonstrate the acquisition of skills identified as goals prior to the start of the assignment.
Prerequisite: CS 146 (with a grade of “C-” or better) or graduate standing, selection by a company, and instructor consent
Normal Grade Rules
3 units

GRADUATE

CS 200W. Graduate Technical Writing
Graduate technical writing workshop to develop advanced communication skills that will meet the professional needs of computer scientists, along with research methodologies and proper documentation for the master’s thesis project. (This course does NOT satisfy the undergraduate GE Area Z requirement.)
Prerequisite: Graduate standing.
Note: This course satisfies graduate-level GWAR in this master’s program.
ABC/No Credit
GE: GWAR
3 units

CS 216. Geometric Modeling
Representation of curves and surfaces, basic differential geometry, solid modeling fundamentals, implementation considerations.
Prerequisite: CS 116A or instructor consent.
Normal Grade Rules
3 units

CS 218. Topics in Cloud Computing
Topics in cloud computing, including distributed system models, virtual machines, virtualization, cloud platform architectures (IaaS, PaaS, SaaS), service-oriented architectures, cloud programming and software environments, peer-to-peer computing, ubiquitous cloud, cloud security and trust management.
Prerequisite: CS 149
Normal Grade Rules
3 units

CS 223. Bioinformatics
The course investigates the main algorithms for solving computational problems in bioinformatics. Methods will include Hidden Markov Models for gene prediction and protein profiling, and Genetic Algorithms for biological sequence analysis and structure prediction. Students will be given programming projects.
Prerequisite: CS 123A or CS 155
Normal Grade Rules
3 units

CS 235. User Interface Design
Human-computer interaction principles. Direct manipulation, focus plus context, interaction history, interfaces for websites and website collections; usability testing; role of metaphors; case studies; advanced topics include information visualization, interfaces for collaboration, intelligent interfaces, and software agents.
Prerequisite: CS 130 or CS 116A, or instructor consent.
Normal Grade Rules
3 units

CS 243A. Advanced Numerical Analysis
See MATH 243A.
Normal Grade Rules
3 units

CS 243B. Advanced Topics in Numerical Analysis
See MATH 243B.
Normal Grade Rules
3 units

CS 247. Advanced Computer Architecture
Advanced topics in vector architectures, including: pipelined architectures, dataflow computers, VLSI architectures, butterfly connections; bus and memory architectures; cache structures; hardware implementations of algorithms.
Prerequisite: CS 147 and CS 149 or instructor consent.
Normal Grade Rules
3 units

CS 249. Distributed Computing
Current issues in operating systems, including multiprocessor systems and distributed computing, networks, security and performance. Case studies of current operating systems.
Prerequisite: CS 149 or instructor consent.
Normal Grade Rules
3 units

CS 251A. Object-Oriented Analysis
Emphasizes the important concepts, activities, and artifacts of the analysis phase of object-oriented software development. CASE tools and UML are used to model application domain data, workflows, system requirements, deployment, and life cycles.
Prerequisite: CS 160 or instructor consent.
Normal Grade Rules
3 units

CS 251B. Object-Oriented Design
Course covers important concepts, activities, and artifacts of the design phase of object-oriented software development. Topics include design metrics, design patterns, refactoring, frameworks, and testing.
Prerequisite: CS 160 or instructor consent.
Normal Grade Rules
3 units
CS 252. Advanced Programming Language Principles
Language design and paradigms, including concepts underlying functional, logic, object-oriented and parallel paradigms. Theoretical foundations, including lambda calculus, denotational and axiomatic semantics. Proofs of program correctness. Programming projects emphasizing different aspects of language design. Prerequisite: CS 152 or instructor consent. Normal Grade Rules 3 units

CS 253. Advanced Compiler Design
Review of attribute analysis and static semantic evaluation. Runtime environments and code generation. Basic blocks and flow graphs. Register allocation and storage classes. Common subexpression elimination and constant propagation. Loop optimizations. Global data flow analysis. Completion of a code optimization project. Prerequisite: CS 153 or instructor consent. Normal Grade Rules 3 units

CS 254. Theory of Computation
Models of computation; decidability, complexity measures; hierarchies; P, NP and other complexity classes; intractable problems. Prerequisite: CS 154 or instructor consent. Normal Grade Rules 3 units

CS 255. Design and Analysis of Algorithms
Randomized algorithms. Parallel algorithms. Distributed algorithms. NP-completeness of particular problems. Approximation algorithms. Prerequisite: CS 155 or instructor consent. Normal Grade Rules 3 units

CS 256. Topics in Artificial Intelligence
Introduction to topics in artificial intelligence such as problem solving methods, game playing, understanding natural languages, pattern recognition, computer vision and the general problem of representing knowledge. Students will be expected to use LISP. Prerequisite: CS 156 or instructor consent. Normal Grade Rules 3 units

CS 257. Database System Principles
Design management and performance issues on: file organization and access methods, buffer management and storage management. Query processing and query optimization, transaction management, recovery, and concurrency control techniques. Reliability, protection and integrity techniques. Extensive programming project. Prerequisite: CS 157B or instructor consent. Normal Grade Rules 3 units

CS 258. Computer Communication Systems
Design, analysis and survey of the latest advancements in network and Internet technologies, such as supporting TCP/IP over various network media, software-defined networks, networks supporting cloud computing, network security, peer-to-peer and overlay networks, and quality of services. Prerequisite: CS 158A or instructor consent. Normal Grade Rules 3 units

CS 259. Advanced Parallel Processing
An advanced hardware architecture and software development class focused on multi-threaded, parallel processing algorithms and techniques. A study of high-performance parallel hardware architectures and parallel programming languages. Applications of parallel and CPU processing, including computer gaming. Normal Grade Rules 3 units

CS 262. Randomized Algorithms and Applications
Design and analysis of algorithms which incorporate randomness in their design. Applications will be given in several of the following areas: data structures, pattern matching, cryptography, parallel computing, distributed computing, and interactive proof systems. Prerequisite: CS 154 or CS 155. Normal Grade Rules 3 units

CS 265. Cryptography and Computer Security
Security mechanisms for protecting information in computer systems and networks. Includes cryptography and its applications to security services in distributed systems, mathematics of cryptography, access control, protection models, security policies, design of secure systems, firewalls, and intrusion detection. Prerequisite: CS 149 or instructor consent. Normal Grade Rules 3 units

CS 266. Topics in Information Security
Advanced topics in the area of information security. Content differs with each offering. Possible topics include, but are not restricted to: Network Security, Software Reverse Engineering and Cryptanalysis. Prerequisite: CS 166 or instructor consent. Repeatable for credit. Normal Grade Rules 3 units

CS 267. Topics in Database Systems
Advanced topics in the area of database and information systems. Content differs in each offering. Possible topics include though not restricted to: Data Mining, Distributed Databases and Transaction Processing. Prerequisite: CS 157B. Repeatable for credit. Normal Grade Rules 3 units

CS 268. Topics in Wireless Mobile Networking
Advanced topics in the area of wireless mobile networking. Content may differ in each offering. Possible topics include though not restricted to: wireless local and metropolitan area networks, mobile Internet, sensor networks, mobile computing, wireless network security. Repeatable when topic changes. Prerequisite: CS 158A. Repeatable for credit Normal Grade Rules 3 units

CS 274. Topics in XML and Web Intelligence
XML: DTD, Schema, Namespace, XSLT, XPath, Xquery, Encryption, Signature in XML, applications in vertical industries; Semantic Web, RDF, RDFS, Ontology, Inferences; Web services, relevant tools for search, inference, data conversion in XML, Semantic web applications. Prerequisites: CS 160 or instructor consent. Normal Grade Rules 3 units

CS 280. Graduate Individual Studies
Individual study in specific field. Prerequisite: Department chair consent. Not available to Open University Students. Repeatable for credit Credit / No Credit 1-3 units

CS 286. Advanced Topics in Computer Science
Selected topics in computer science. Topics vary each semester and may be repeated for a maximum of 6 units. Prerequisite: Suitable upper division background in mathematics and computer science as set by instructor. Repeatable for credit Normal Grade Rules 3 units

CS 297. Preparation for Writing Project or Thesis
Supervised individual research and project work to prepare for a master’s writing project or thesis. Prerequisite: Fully classified standing in the MSCS program, department chair consent. Not available to Open University Students. Pre/Co-requisite: CS 200W Credit / No Credit 3 units

CS 298. Master’s Writing Project
Prerequisite: CS 297 or CS 240, and department chair consent and admission to candidacy for the MS degree. Not available to Open University Students. Repeatable for credit Mandatory CR/NC/RP 3 units
CS 299. Master’s Thesis
Prerequisite: CS 297 and department chair consent and admission to candidacy for the MS degree. Not available to Open University Students.
Repeatable for credit
Mandatory CR/PIC/RP
3 units
Connie L. Lurie College of Education Courses

EDUCATION

UPPER DIVISION

EDUC 157SL. Community Action/Community Service
See COMM 157SL
   Normal Grade Rules
   GE: S
   3 units

EDUC 186. Using Instructional Media
   Prerequisite: Upper division standing
   Normal Grade Rules
   3 units

GRADUATE

EDUC 298. Individualized Studies in Education
Supervised study in school administrations for both the preliminary and professional services credential programs.
   Prerequisite: Admission to Graduate department, EDAD 200, EDAD 270 or advisor consent.
   Repeatable for credit
   Mandatory CR/NC/RP
   1-6 units
Creative Arts Program Courses

CREATIVE ARTS

LOWER DIVISION

CA 060. Creativity Matters
Study why creativity matters to you from imagining possible career paths to improving communication, expressing ideas, and flourishing over the course of one's lifetime. Creativity is not just for artists and inventors! It is a human faculty that matters for life. GE Area: E
Normal Grade Rules
GE: EE
3 units

CA 095. Introduction to Queer Arts
Exploration of the ways that LGBTQ individuals and groups have used the arts, in various times and places, to make their lives, communities, and selves meaningful and to resist the domination of non-queer cultures.
Normal Grade Rules
GE: C1
3 units

UPPER DIVISION

CA 124. Literature and Religious Experience
See RELS 124
Repeatable for credit
Normal Grade Rules
3 units

CA 134. Religion Film & Media
See RELS 134
Normal Grade Rules
3 units

CA 139. Teaching Diversity through Art
See ART 139
Normal Grade Rules
3 units

CA 150. Field Experience in the Arts
See ARED 150
Normal Grade Rules
3 units

CA 172. The Arts in U.S. Society
Study of American arts and artists in their aesthetic, social, and political contexts, focusing on 20th and 21st centuries. Arts examined include architecture, poetry, music, visual arts, dance, theatre, performance art, and fiction. Special emphasis on issues of cultural diversity.
GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: S
3 units

CA 173. Thinking About Contemporary World Arts
An interdisciplinary course on contemporary arts and culture which investigates connections between arts disciplines and world cultures. The course uses critical and creative thinking as the lens to focus on issues in the arts, especially personal and cultural identities. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units

CA 174. Special Topics Seminar
In-depth study of historical and/or contemporary topics in the interdisciplinary creative arts. Content changes each semester.
Course repeatable when content changes
Prerequisite: Upper division standing
Repeatable for credit
Normal Grade Rules
3 units

CA 175. Seminar in Creative Process
An exploration of the creative process across the creative domains and of the use of practice-based research in the humanities and creativity studies.
Prerequisite: CA60 or upper division standing
Repeatable for credit
Normal Grade Rules
3 units

CA 176. Creativity and Creative Leadership
A course focusing on mastering current theories about creativity, adapting theoretical knowledge for an individual/personal strategy, and embodying both the knowledge and strategy in a collaborative project.
Prerequisite: Instructor consent
Normal Grade Rules
3 units

CA 177. Interdisciplinary Arts for Teaching
Creativity in teaching and learning—a course designed for prospective teachers; connections between the various arts disciplines, integrating other core subjects taught in California’s classrooms.
Normal Grade Rules
3 units

CA 178. Senior Seminar in Creative Arts
A capstone seminar in two sections. First, students present and facilitate discussion of a major book or topic in creative arts or, when appropriate, humanities. Second, students devote themselves to senior projects (a written thesis or work in other media).
Prerequisite: CA 172 or CA 173.
Normal Grade Rules
3 units

CA 180. Individual Studies
Individual work on special topics, by arrangement.
Prerequisite: Coordinator approval.
Notes: Mixed grading.
Repeatable for credit
Credit / No Credit
1-4 units

CA 190. Field Work/Internship
Pre-professional experience in arts management/program design/implementation in a public setting.
Prerequisite: Coordinator approval.
Repeatable for credit
Credit / No Credit
1-3 units

CA 194. Community Building through Arts Orgs
In-depth study of strategies and methods for building community through creative arts organizations, both for-profit and non-profit.
Prerequisite: Upper Division Standing
Normal Grade Rules
3 units
## Dance Courses

### LOWER DIVISION

**DANC 010. Dance Appreciation**
A survey of dance as art in the Western world. The course examines the diversity of people, cultures and events that led to the development of Ballet, Modern, Jazz, Tap and Musical Theatre Dance. GE Area: C1
- Normal Grade Rules
- GE C1
- 3 units

**DANC 012. Ensemble Dance Rehearsal and Performance**
ENS. Training and performance experience in the field of dance. Fully-staged productions of original professional choreographic works.
- Pre-requisite: Audition and Instructor Consent
- Repeatable for credit
- Normal Grade Rules
- 2 units

**DANC 040A. Topics in Modern Dance I**
Training experience in the field of beginning modern dance with varied topics. Can be repeated when topic changes.
- Misc/Lab: Activity 4 hours
- Repeatable for credit
- Normal Grade Rules
- GE PE
- 2 units

**DANC 041A. Topics in Ballet I**
Training experience in the field of beginning ballet dance with varied topics. Can be repeated when topic changes.
- Misc/Lab: Activity 4 hours
- Repeatable for credit
- Normal Grade Rules
- GE PE
- 2 units

**DANC 042A. Topics in Jazz Dance I**
Training experience in the field of beginning Jazz dance with varied topics. Can be repeated when topic changes.
- Misc/Lab: Activity 4 hours
- Repeatable for credit
- Normal Grade Rules
- GE PE
- 2 units

**DANC 043. Dance Improvisation**
Introduction to dance improvisation, developing skills in creativity in preparation for DANC 145A.
- Prerequisite: Intermediate technique standing and permission of instructor.
- Normal Grade Rules
- 1 unit

**DANC 045A. Beginning Lindy Hop and Night Club Swing**
See KIN 045A.
- Normal Grade Rules
- GE PE
- 1 unit

**DANC 046A. Beginning Social Dance**
See KIN 046A.
- Normal Grade Rules
- GE PE
- 1 unit

**DANC 046B. Intermediate Social Dance**
See KIN 046B.
- Normal Grade Rules
- GE PE
- 1 unit

**DANC 048A. Beginning Latin Dance**
See KIN 048A.
- Normal Grade Rules
- GE PE
- 1 unit

**DANC 048B. Intermediate Latin Dance**
See KIN 048B.
- Normal Grade Rules
- GE PE
- 1 unit

**DANC 049A. Topics in Tap Dance I**
Training and experience in the field of beginning tap dance with varied topics. Can be repeated when topic changes.
- Misc/Lab: Activity 4 hours
- Repeatable for credit
- Normal Grade Rules
- GE PE
- 1 unit

**DANC 049B. Topics in Tap Dance II**
Training and experience in the field of intermediate tap dance with varied topics. Can be repeated for up to 2 units of credit when topic changes.
- Prerequisite: DANC 49A (or equivalent).
- Misc/Lab: Activity 3 hours
- Repeatable for credit
- Normal Grade Rules
- 1 unit

**DANC 051A. Dance Production**
Practical experience in technical aspects of producing a dance concert.
- Prerequisite: Instructor consent
- Misc/Lab: Lecture 1 hour/activity 3 hours
- Repeatable for credit
- Normal Grade Rules
- 3 units

**DANC 051B. Topics in Dance Crewing**
The purpose of this course is to apply practical application of skills in dance production.
- Repeatable for credit
- Credit / No Credit
- 0.5 units

**DANC 053. Techniques in World Dance**
Traditional or theatrical dance forms selected from one or at the most two specific cultures. Classical ballet, modern, jazz, and tap dance are excluded.
- Prerequisite: Level II technique standing.
- Misc/Lab: Activity 3 hours
- Repeatable for credit
- Normal Grade Rules
- 1 unit

**DANC 054. Topics in Dance Technique II**
Beginning/Intermediate Dance with varied topics.
- Prerequisite: Audition or Instructor Consent
- Repeatable for credit
- Normal Grade Rules
- GE PE
- 3 units

**DANC 075. Rhythm and Dynamics in Dance**
Basic music theory and the relationship of dance and music.
- Misc/Lab: Activity 2 hours
- Normal Grade Rules
- 1 unit

### UPPER DIVISION

**DANC 102. Dance in World Cultures**
Survey of dance in selected world cultures; the role of dance in society, consideration of style, historical background and religious/cultural influences. Included are: Caribbean, West African, Mexican, Balkan, European, Asian and American cultures. GE Area: V
- Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
- Normal Grade Rules
- GE V
- 3 units

**DANC 112. ENS: Dance Rehearsal and Performance**
ENS. Training and performance experience in the field of dance. Fully-staged productions of original professional choreographic works of varying styles.
- Prerequisite: Audition and instructor consent
- Misc/Lab: Lab hours required
- Repeatable for credit
- Credit / No Credit
- 2 units
DANC 140B. Topics in Modern Dance IV
Training experience in the field of advanced modern dance with varied topics. Can be repeated for credit when topic changes.
Prerequisite: DANC 140A and permission of instructor.
Misc/Lab: Activity 6 hours.
Repeatable for credit
Normal Grade Rules
2 units

DANC 141B. Topics in Ballet IV
Training experience in the field of advanced ballet with varied topics. Can be repeated for credit when topic changes.
Prerequisite: DANC 141A and permission of instructor.
Misc/Lab: Activity 6 hours.
Repeatable for credit
Normal Grade Rules
2 units

DANC 142B. Topics in Jazz Dance IV
Training experience in the field of advanced Jazz dance with varied topics. Can be repeated for credit when topic changes.
Prerequisite: DANC 142A and permission of instructor.
Misc/Lab: Activity 6 hours.
Repeatable for credit
Normal Grade Rules
2 units

DANC 144A. Dance History and Repertory
History of dance and dances from ancient time to the court of King Louis XIV. Selected repertory works.
Prerequisite: Upper division standing.
Misc/Lab: Lecture 2 hours/activity 3 hours.
Normal Grade Rules
3 units

DANC 144B. Dance History and Repertory
History of dance and dances from the court of King Louis XIV through the twentieth century. Selected repertory works.
Prerequisite: Upper division standing.
Misc/Lab: Lecture 2 hours/activity 3 hours.
Normal Grade Rules
3 units

DANC 145A. Choreography I
Presentation and criticism of solo choreography; introduction to improvisational techniques.
Prerequisite: DANC 043 and Audition.
Misc/Lab: Activity 4 hours.
Normal Grade Rules
3 units

DANC 145B. Choreography II
Styles; forms; use of improvisation; presentation and criticism of small group dance.
Prerequisite: DANC 145A and Audition.
Misc/Lab: Activity 4 hours.
Normal Grade Rules
3 units

DANC 145C. Choreography III
Practical application of external style in relationship with art from tribal to contemporary times. Concepts, styles and forms of modern dance in the twentieth century.
Prerequisite: DANC 145B and Audition.
Misc/Lab: Activity 4 hours.
Repeatable for credit
Normal Grade Rules
3 units

DANC 147A. Dance Seminar
Course geared toward the understanding of a broader perspective of the Art of Dance with emphasis on current trends, development of personal artistic statement and introductory teaching techniques.
Prerequisite: Senior standing and completion or concurrent enrollment in DANC 144A and/or DANC 144B.
Normal Grade Rules
3 units

DANC 148. Children’s Dance
Study of dance for children as personal expression through movement. Use of creative dance as a tool for the enrichment of learning. Experiencing dance in a variety of cultures.
Prerequisite: Upper division standing.
Misc/Lab: Lecture 2 hours/activity 2 hours.
Normal Grade Rules
3 units

DANC 150A. Kinesiology I
This course is designed to help provide the dancer with essential information about structure and function of the human body and the achievement of optimal performance through the science of human motion.
Misc/Lab: Lecture 2 hours/activity 2 hours.
Normal Grade Rules
3 units

DANC 150B. Kinesiology II
This course is designed to help provide the dancer with essential information about injury prevention and introduce active somatic techniques to increase muscular efficiency, balance and overall awareness of the body.
Prerequisite: DANC 150A.
Misc/Lab: Lecture 2 hours/activity 2 hours.
Normal Grade Rules
3 units

DANC 151. Introduction to Dance Pedagogy
Examines methods and modes of teaching dance as an art form, and embodied practice for producing and constructing knowledge and as movement research. Course investigates both theory and practice with concentrated focus on experiential, relational and holistic learning modes.
Prerequisite: DANC 54 and instructor approval.
Misc/Lab: 1 hour lecture/ 2 hours activity
Normal Grade Rules
2 units

DANC 154A. Topics in Dance Technique I
Intermediate/advanced dance with varied topics.
Prerequisite: Audition or Instructor Approval
Repeatable for credit
Normal Grade Rules
GE: PE
3 units

DANC 154B. Topics in Dance Technique IV
Advanced Dance with varied topics.
Prerequisite: Audition or Instructor Approval
Repeatable for credit
Normal Grade Rules
GE: PE
3 units

DANC 186. Choreographing the Musical
Study and practice of staging and choreographing musical comedy. Analysis of scripts and choreographic techniques.
Prerequisite: DANC 75, DANC 145A and permission of instructor.
Misc/Lab: Lecture/activity 3 hours.
Normal Grade Rules
3 units

DANC 194. Repertory Dance Activity
REP: Training and performance experience in the field of dance. Fully-staged productions of original student choreographic works. Can be repeated up to 4 times when repertory changes.
Prerequisite: DANC 146 or instructor consent.
Repeatable for credit
Credit / No Credit
1 unit

DANC 198. Internship in Dance
Supervised internship with approved dance organization. Written evaluation submitted by organizations and student after field work.
Prerequisite: Instructor consent.
Repeatable for credit
Credit / No Credit
1-3 units
Design Department Courses

ANIMATION AND ILLUSTRATION

LOWER DIVISION

ANI 001. Animation / Illustration Survey
Survey of animation and illustration practice and its respective impact on modern culture. Evolution of both will be examined relative to current paradigms in the screen arts industry.
Prerequisites: Allowed declared Animation major only
Normal Grade Rules
3 units

ANI 012. Light & Optics
An investigation into the physical properties of light and optics relevant to the visualization of artwork for the screen arts industry.
Prerequisites: Allowed declared Animation major only
Note: ANI 12 is treated as a repeat for students who have taken ART 12.
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ANI 014. Color Principles for Screen Arts
Exploration of basic illustration problems involving studies in color, light, painting technique, and their application to color scripting in the screen arts industry.
Prerequisites: Allowed declared Animation major only
Note: ANI 14 is treated as a repeat for students who have taken ART 14.
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ANI 024. Illustration Fundamentals
Basic principles of animation and illustration stressing composition, sequential visual storytelling, value drawing and other visual art techniques utilized by professionals in the screen arts industry.
Prerequisites: Allowed declared Animation or Art-Design Studies majors only
Note: ANI 24 is treated as a repeat for students who have taken ART 24.
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ANI 028. Animation Fundamentals
Introduction to the basic elements of animation and representation. Included are motion and animation exercises to understand mass, movement through space, and reaction to external forces. Progressing to other fundamental animation studies culminating in a short original film of each student's creation.
Prerequisites: Allowed declared Animation major only
Normal Grade Rules
3 units

ANI 050. Visual Principles
Presents concepts of 2D design as they apply to the creation of sequential narrative imagery for the screen arts.
Prerequisites: Allowed declared Animation major only
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ANI 051A. Introduction to 3D Modeling
Emphasis is on generating an in-depth understanding of digital media using commercial 2-D and 3-D software. Students will be introduced to the underlying mathematical and conceptual processes of computer graphics.
Prerequisite: ANI 024 and Allowed declared Animation major only
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ANI 051B. Introduction to 3D Animation
Basic concepts and professional practices used in 3D computer animation. Application of traditional principles of animation to the 3D digital environment.
Prerequisites: Allowed declared Animation major only
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ANI 055. Beginning Drawing for Animation/ Illustration
Principles of drawing for illustration and animation: gesture, construction, anatomy and technique. An intensive study of the human figure from life, and its use in working in animation and the screen arts industry.
Prerequisite: ANI 024 and Allowed declared Animation major only
Note: ANI 55 is treated as a repeat for students who have taken ART 55.
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

UPPER DIVISION

ANI 112A. Intro to Illustration/Animation
Basic principles of animation and illustration stressing composition, sequential visual storytelling, value drawing and other visual art techniques utilized by professionals in the screen arts industry.
Prerequisite: ANI 012, ANI 024, Allowed declared Animation major only
Misc/Lab: Activity 6 hours.
Normal Grade Rules
3 units

ANI 112B. Drawing for Animation/Illustration
Principles of drawing for illustration and animation: gesture, construction, anatomy and technique. An intensive study of the human figure from life, and its use in working in animation and the screen arts industry.
Prerequisite: ANI 55, Allowed declared Animation major only
Misc/Lab: Activity 6 hours.
Normal Grade Rules
3 units

ANI 113A. Intermediate Animation / Illustration
Exploration of basic illustration problems involving studies in color, light, painting technique, and their application to the screen arts industry.
Prerequisite: ANI 014; Allowed declared Animation major only
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ANI 113B. Intermediate Project
Completion of a complex painting incorporating knowledge of drawing principles, construction, composition, value and technique.
Prerequisite: ANI 055; Allowed declared Animation major only
Misc/Lab: Activity 6 hours.
Normal Grade Rules
3 units

ANI 114. Animation
Fundamentals of animation involving the completion of a series of basic exercises in motion, action analysis and kinetics.
Prerequisite: ANI 113A, Passage of Mid-Program Review; Allowed declared Animation major only
Misc/Lab: Activity 6 hours.
Normal Grade Rules
3 units

ANI 115. Intermediate Animation
Demonstrate understanding of animation principles through the completion of a series of advanced exercises.
Prerequisite: ANI 114, Allowed declared Animation major only
Misc/Lab: Activity 6 hours.
Normal Grade Rules
3 units
ANI 116. Conceptual Illustration
Emphasis on individual expression and development of personal direction.
Prerequisite: ANI 113B, Passage of Mid-Program Review;
Allowed Declared Majors: Animation
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ANI 117A. Advanced Illustration
Narrative problems for illustrative assignments, professional processes and technical accomplishment.
Prerequisite: ANI 113B, Allowed Declared Majors: Animation
Misc/Lab: Activity 6 hours
Normal Grade Rules
3 units

ANI 117B. Visual Development
Advanced visual development projects with emphasis on attaining professional standards.
Prerequisite: ANI 117A, Allowed Declared Majors: Animation
Misc/Activity: 9 hours activity
Normal Grade Rules
3 units

ANI 118. Advanced Animation
Special problems in animation studies: film making, professional practices and portfolio preparation.
Prerequisite: ANI 115; Allowed Declared Majors: Animation
Misc/Lab: Activity 6 hours.
Normal Grade Rules
3 units

ANI 118B. Application of Advanced Animation to Film
Students will learn the concepts of sound design, video editing, compositing, and post production; principles necessary to put Advanced Animation skills into practical application for film production.
Prerequisite: Instructor Consent Required and BFA Status in Animation/Illustration
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ANI 128A. Digital Animation I
This class focuses on how to create believable movement by applying the traditional principles of animation to 3D digital characters, focusing on body mechanics, with emphasis on the building blocks of an animated scene, and the work flow from planning phase to final animation.
Prerequisite: ANI 051B
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ANI 128B. Digital Animation II
How to apply the traditional principles of animation for intermediate level character animation, with focus on arcs, overlapping action, spacing, squash and stretch, strong posing and silhouette. In terms of workflow, the emphasis will be on achieving a strong blocking more efficiently, and on techniques for polishing the animation.
Prerequisite: ANI 128A
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ANI 130A. Digital Modeling I
This class introduces students to intermediate level 3D Digital modeling techniques using current industry standard software for the creation of 3D digital models. This class will also introduce students to the concept of production pipelines, with focus on modeling.
Prerequisites: ANI 051A
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ANI 130B. Digital Modeling II
This class re-investigates the character pipeline with focus on a human characters with complicated costuming and accessories. This class expands the practice of standard industry software for modeling, focusing in high end organic modeling.
Prerequisites: ANI 130A
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ANI 178. Animation / Illustration Internship
Professional practice in a selected field relevant to current practices in the screen arts industry.
Prerequisite: Program and Supervisor Approval; Allowed declared Animation major only
Repealable for credit
Credit / No Credit
1-6 units

ANI 179. Special Topics in Animation/Illustration
Individual Studies on a tutorial basis.
Prerequisites: Upper-Division standing in Animation/Illustration; Allowed declared Animation major only
Repealable for credit
Credit / No Credit
3-6 units

ANI 180. Individual Studies
Special topics or projects by arrangement with instructor
Prerequisites: Upper-division standing in Animation/Illustration; Allowed declared Animation major only
Repealable for credit
Credit / No Credit
3-6 units

ANI 198. Senior Seminar Animation/Illustration
The first in a two-course sequence that constitutes the capstone for the BFA degree in Animation/Illustration. In ANI 198, students will undertake the necessary research to successfully complete the second course in the sequence.
Prerequisite: ANI 115 or ANI 117; Allowed declared Animation major only
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

ANI 199. Senior Project Animation/Illustration
A project demonstrating professional competence in area of concentration. A gallery exhibition with the approval of the student’s advisory committee is required.
Prerequisite: ANI 198; Allowed declared Animation major only
Misc/Activity: 6 hours activity
Normal Grade Rules
3 units

DESIGN STUDIES

UPPER DIVISION

DSGN 100W. Writing Workshop: Design
Advanced writing course for design majors, based upon philosophical issues and current professional practices in design. Clear analytical and critical writing in examination of these topics. GE Area: Z
Prerequisites: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
CE: Z
3 units

DSGN 127. Internship
Experience in the methods and procedures employed by professional designers in consulting offices and corporate design departments. Professional responsibilities in local design offices on a weekly basis. Course is repeatable for a total of 6 units.
Prerequisite: Completion of 3 units of DSIT 104, DSGD 106, or DSID 123, with GPA in major of at least 3.0, or instructor consent.
Repealable for credit
Credit / No Credit
1-4 units

DSGN 148. Intro Spatial Vis Tech in Urb Plan
See URBP 148.
Normal Grade Rules
1-4 units
DSGN 180. Individual Studies
Special topics or projects by arrangement with faculty.
Prerequisite: Art and design majors with upper division standing.
Repealtable for credit
Credit / No Credit
1-3 units

DSGN 197. BA Senior Project
In-depth study of current issues in the design fields. Utilizes interdisciplinary approaches and concepts to provide a capstone experience for the design studies student.
Prerequisite: DSGD 99 and DSGD 100
Misc/Lab: Activity 6 hours.
Normal Grade Rules
3 units

GRADUATE
DSGN 248. Spatial Visualization Tech in Urb Plan
See URBP 248.
Normal Grade Rules
1-4 units

GRAPHIC DESIGN

LOWER DIVISION
DSGD 063. Fundamental Graphic Visualization
Critical examination and theories on how to work with two-dimensional compositional space and the interconnected basic principles, attributes, and elements of graphic design, includes the relationships between some production methods and materials.
Normal Grade Rules
3 units

DSGD 083. Digital Applications: Basics
The fundamental use of features and functions inherent within graphic software programs for graphic design.
Normal Grade Rules
3 units

DSGD 099. Introduction to Typography
Study and demonstration of letterforms and fundamental typographic principles. Emphasis on the vocabulary of typographic form and its relationship to message/purpose.
Prerequisite: CD majors: ANI 24 or ART 24; DSGD 83; IT majors: DSIT 33, DSIT 30, DSIT 83; ID majors: completion of DSID 22 or completion of DSGD 83 and concurrently enrolled in DSID 22
Misc/Lab: Activity 6 hours
Normal Grade Rules
3 units

UPPER DIVISION

DSGD 100. Visual Communication & Process
Problems explore methods of visual organization used in graphic communication. The course also promotes the critical examination and development of ideas, two-dimensional spaces, and three-dimensional structures, including the relationship between some production methods and materials.
Prerequisites: Ani 024 (or ART 024 or DSID 21 or DSIT 10), DSGD 063, DSGD 083 (or ANI 50 or DSID 22, DSIT 83), DSGD 99
Normal Grade Rules
3 units

DSGD 102. Intermediate Typography
Application of typographic principles to a diverse series of graphic design problems utilizing text and display letterforms, organizational systems, fundamental design theories and conceptual innovation.
Prerequisite: Pass BFA portfolio review, DSGD 104
Normal Grade Rules
3 units

DSGD 103A. Advanced Typography I
Advanced conceptual investigations, verbal and visual problem solving utilizing typography and image.
Prerequisite: Pass BFA Portfolio Review, DSGD 105, DSGD 186
Normal Grade Rules
3 units

DSGD 103B. Advanced Typography II
Capstone conceptual investigations, verbal and visual problem solving utilizing typography and image.
Prerequisite: Pass BFA Portfolio Review, DSGD 105, DSGD 186
Normal Grade Rules
3 units

DSGD 104. Introduction to Graphic Design
Familiarization to form and message development. Emphasis on visual concepts and fundamental design theory. Course is repeatable for a total of 6 units.
Prerequisite: DSGD 100, DSGD 99
Repeatable for credit
Normal Grade Rules
3 units

DSGD 105. Intermediate Graphic Design
Development of concepts combining image/form, message, typography and function with fundamental design theory. Course is repeatable for a total of 6 units.
Prerequisite: Pass BFA Portfolio Review, DSGD 102, DSGD 110
Normal Grade Rules
3 units

DSGD 106. Advanced Graphic Design
Advanced and diverse series of topics confronting a wide variety of situations and needs emphasizing conceptual innovation, organization, planning and analysis.
Prerequisite: Pass BFA Portfolio Review
Normal Grade Rules
3 units

DSGD 107A. Special Topics in Graphic Design
Comprehensive design problems utilizing design theories, analysis, experimentation, innovation and conceptual development as systematic approaches to structuring various degrees of graphic design issues; database scientific visualization, graphic information system, publication design, and promotion & media graphics.
Prerequisite: Pass BFA Portfolio Review
Misc/Lab: Lab 6 hours.
Normal Grade Rules
3 units

DSGD 107B. Special Topics in Experience Design
Capstone design problems utilizing design methodologies, theories, and analysis in the area of time-base multi-media design; narrative filming, kinetic typography in motion, interaction design, and event design as related to visual information design.
Prerequisite: Pass BFA Portfolio Review
Misc/Lab: Lab 6 hours.
Normal Grade Rules
3 units

DSGD 108. Graphic Design Portfolio
Portfolio preparation using various media and methods for effective professional presentation.
Prerequisite: Pass BFA Portfolio Review, DSGD 105, DSGD 186
Normal Grade Rules
3 units

DSGD 110. Visual Literacy: Image Making
A course that defines the ability to assess and utilizes communications composed of various visual images (hybridization of manual, analog, and digital processes) for goal oriented projects. Students will develop tools needed to critically examine the visual world and strategies for creating unique visual forms and process of visual encoding and visual decoding for incorporating into graphic design projects.
Prerequisites: Pass BFA portfolio review; DSGD 104
Normal Grade Rules
3 units
DSGD 111. Design Values and Professional Practices
Defines and investigates design practices, processes, materials, and vocation and their effects on society, environment, business, and intellectual property. Lectures, discussions, and group and individual projects explore applications of design thinking for positive local to global outcomes.
Prerequisite: ANI majors: ANI 50, GD majors: DSGD 63, DSGD 83; IT majors: DSIT 33, DSIT 83; ID majors: DSID 22 or DSGD 83.
Corequisite: DSID 22
Misc/Lab: Activity 6 hours.
Normal Grade Rules
3 units

DSGD 120. Exhibition Design & Info Graphics
Introducing principles, processes, and vocabularies of exhibition design. A substantial amount of student activity in the classroom will address acquiring and refining the two- and three-dimensional visualization of objects and spaces.
Prerequisites: Pass BFA Portfolio Review, DSGD 105, DSGD 186
Normal Grade Rules
3 units

DSGD 127. Design Practicum
Building a successful design career requires an understanding of best practices and the standards governing the ever-evolving business of graphic design. This course aims to explore the creative business processes, marketing, negotiation and pricing, ethical standards of design business, and professional relationships in design.
Prerequisite: Pass BFA Portfolio Review, DSGD 105, DSGD 186
Normal Grade Rules
3 units

DSGD 131. Motion Graphics
A capstone design problems course that exposes students to the principles, methodologies, and elements of motion graphics and narrative design. Students will develop techniques and skills for synthesizing the language of motion simultaneously with an emphasis on narrative structure, and text and image in relation to time-based media. The project will be examined in terms of its historical, cultural and conceptual implications.
Prerequisites: Pass BFA Portfolio Review, DSGD 105, DSGD 186
Normal Grade Rules
3 units

DSGD 132. User Interface & Interaction Design
An advanced course focusing on the fundamental theory and practice of computer user interface and interactive design with emphasis on: the 2D graphic digital user interfaces, the current interaction development technology, theory, process and methods, and its overall impact on culture and society.
Prerequisites: Pass BFA Portfolio Review, DSGD 105, DSGD 186
Normal Grade Rules
3 units

DSGD 141. 3D Branding & Promotion Design
Experimental problems and themes exploring theories, strategies, and methodologies in 3D branding and Promotion Design such as marketing communication tools, packaging and P.O.P design, emphasizing innovative expression. Projects also examine contextual and conceptual prototyping for point of purchase display.
Prerequisite: Pass BFA Portfolio Review, DSGD 105 and DSGD 186
Normal Grade Rules
3 units

DSGD 150. Degree Project: Senior Studio
This in-depth studio course focuses on research concerning current issues in visual communication/information/graphic design fields. This course is for procuring the undergraduate degree in BFA Graphic Design degree where the student will develop an individual design approach, process, and methodology for the application of graphic design solutions as the thesis project that will fulfill the criteria expected for graduation.
Prerequisites: Pass BFA Portfolio Review, DSGD 105, DSGD 186
Normal Grade Rules
4 units

DSGD 176A. Graphic Design History and Theory
See ARTH 176A.
Normal Grade Rules
3 units

DSGD 186. Digital Applications: Methodology
Exposes students to the tools, skill sets, and languages that are essential to understanding the fundamentals for web based information and interaction design principles and discovery of its practice in the profession.
Prerequisite: Pass BFA Portfolio Review
Misc/Lab: Activity 6 hours.
Normal Grade Rules
3 units

DSGD 186A. Graphic Design History and Theory
See ARTH 176A.
Normal Grade Rules
3 units

LOWER DIVISION

DSID 021. Visualization I
Presenting design concepts in both preliminary and finished states: Appraisal and application of media used in industry. Includes elements of color theory.
Prerequisites: Declared BA Design Studies or BS Industrial Design Major
Corequisites: DSID 031
Normal Grade Rules
3 units

DSID 022. Visualization II
Sketching techniques commonly used by designers for communicating their concepts.
Prerequisites: DSID 021, BA Design Studies or BS Industrial Design majors only.
Corequisites: DSID 032
Repeatable for credit
Normal Grade Rules
3 units

DSID 031. Industrial Design Foundation I
Practical exploration of the basics of industrial design aesthetics. Introduction to the design process with special emphasis on 3D form development and presentation.
Prerequisites: Declared BS Industrial Design or BA Design Studies Major
Corequisite: DSID 021.
Repeatable for credit
Normal Grade Rules
3 units

DSID 032. Industrial Design Foundation II
Development and application of basic industrial design skills, methodology and aesthetics to elementary product design. Project assignments leading from abstract exercises to actual product design.
Prerequisite: DSID 31, BA Design Studies or BS Industrial Design Majors Only
Corequisites: DSID 022
Normal Grade Rules
3 units

DSID 032A. ID Portfolio Project I
ID portfolio project class combines 2D and 3D skills from previous ID classes, in the first complete product design application. Complete presentation for ID faculty review required.
Prerequisites: DSID 021, DSID 031, BA Design Studies and BS Industrial Design Majors only.
Corequisites: DSID 022, DSID 032
Misc/Lab: Activity 2 hours
Repeatable for credit
Normal Grade Rules
1 unit
DSID 041. Materials and Processes I
Introduction to materials and manufacturing processes as they relate to product development and the Industrial Design profession.
Prerequisites: DSID 022, DSID 032, BA Design Studies or BS Industrial Design Majors Only
Repeatable for credit
Normal Grade Rules
3 units

UPPER DIVISION

DSID 121. Industrial Design Process
Explores how a conscious and rational approach can enhance creativity. Techniques used include goalsetting, brainstorming, time-management, evaluation matrices and journal keeping.
Prerequisite: DSID 125A, BS Industrial Design or HFS Graduate Majors Only, or Instructor consent
Normal Grade Rules
3 units

DSID 122. Cont. & Crit. Studies: Industrial Design
This course thematically offers readings in Industrial Design theory, considers specific applications intended to highlight problems in contemporary practice, and is divided into five modules. Course content and examples will be selected to complement the studio projects in the program.
Prerequisite: DSGN 100w, BA Design Studies or BS Industrial Design Majors Only.
Misc/Lab: Lecture 3 hours/lab 1 hour.
Normal Grade Rules
3 units

DSID 123. Intermediate Industrial Design
Design theories, methods and presentation techniques used by product designers in small scale product design. Stress application of knowledge of ergonomics, industrial materials and manufacturing processes. Course is repeatable for total of 6 units.
Prerequisite: DSID 032A (Credit), PHYS 001, BS Industrial Design Majors Only.
Repeatable for credit
Normal Grade Rules
3 units

DSID 123A. ID Portfolio Project 2
Provides instruction on integrating ergonomics (DSID 126), CAD (DSID 129), typography (DSCD 99 or equivalent), materials and processes (DSID 41), and at least two major design projects (DSID 123 and at least one Design Elective) into Intermediate Design Projects and Portfolio. Comprehensive presentation to ID faculty required.
Prerequisites: DSID 32A (Credit), BS Industrial Design Majors Only.
Credit / No Credit
3 units

DSID 124. Design for All
Designing for as broad a percentage of the population as possible. Course focuses on accessible design despite physical, cognitive and/or socioeconomic obstacles. Course is repeatable for a total of 6 units.
Prerequisite: DSID 32A (Credit), BS Industrial Design Majors Only or Instructor Consent
Misc/Lab: Activity 6 hours.
Repeatable for credit
Normal Grade Rules
3 units

DSID 125. Advanced Industrial Design
Advanced exploration of industrial design theory and practice with projects involving high levels of complexity of technological, functional and aesthetic constraints. Course is repeatable for a total of 6 units.
Prerequisite: DSID 123A, BS Industrial Design Majors Only.
Misc/Lab: Lab 6 hours.
Repeatable for credit
Normal Grade Rules
3 units

DSID 125A. ID Portfolio Project 3
Class requires integration of advanced computer graphics and technology knowledge in the advanced ID Projects, comprehensive presentation for ID faculty and invited professionals required.
Prerequisites: DSID 123A (Credit), BS Industrial Design Majors Only.
Credit / No Credit
2 units

DSID 126. Ergonomics for Design
Aspects of products affecting human performance, comfort and safety. Emphasis on design of computer interfaces, automobiles and furniture. Topics include visual displays, anthropometry, seating design and safety design.
Prerequisite: DSID 022, DSID 032, BA Design Studies or BS Industrial Design Majors Only.
Misc/Lab: Lecture 3 hour/lab 2 hours.
Normal Grade Rules
3 units

DSID 128. Advanced Projects in Industrial Design
Comprehensive, in-depth analysis and design of faculty-assigned projects as well as a student-proposed project. Student proposed projects must meet with the approval of the Industrial Design faculty.
Prerequisite: DSID 125A, DSCN 127, BS Industrial Design Majors Only.
Misc/Lab: Lab 6 hours.
Repeatable for credit
Normal Grade Rules
3 units

DSID 128A. ID Portfolio Project 4
Integration of business and advanced technologies into the special graduating project. Final show and presentation for ID faculty and invited professionals required.
Prerequisite: DSID 125A, DSID 128, DSCN 127, BS Industrial Design Majors Only.
Misc/Lab: Activity 2 hours.
Repeatable for credit
Credit / No Credit
1 unit

DSID 129. Visualization III
Principles of computer graphics, computer-aided technology and applications in industrial design. Emphasis on the transition from 2D applications to 3D applications.
Prerequisite: DSID 022, DSID 032, BA Design Studies or BS Industrial Design Majors only
Repeatable for credit
Normal Grade Rules
3 units

DSID 130. Sustainable Design
Design products with a focus on minimizing their impact on the environment. The entire lifespan of designed and manufactured products will be explored. Course is repeatable for credit for a total of 6 units.
Prerequisite: DSID 32A (Credit); BS Industrial Design Majors only, or Instructor Consent
Notes: Offered only occasionally.
Repeatable for credit
Normal Grade Rules
3 units

DSID 131. Interactive and Interface Design
Advanced practical applications of interactive design theory, involving hardware and software/human interface. Emphasis on computer-related interface design.
Prerequisite: DSID 123A (Credit), DSID 126, BS Industrial Design or HFE Graduate Majors only.
Repeatable for credit
Normal Grade Rules
3 units

DSID 132. Softgoods
Design of products that incorporate soft materials and textiles in their construction. Products include furniture, clothing, shoes, and other products that contribute to current lifestyles.
Prerequisite: DSID 032A (Credit), BS Industrial Design Majors only, or Instructor’s Consent
Repeatable for credit
Normal Grade Rules
3 units
DSID 133. Design Projects: Making It
Students take an idea from concept to actual product (and multiples of the product) in one semester. The course ends with the creation of a store and the sale of the products produced.
Prerequisite: DSID 032A credit or instructor permission.
Repeatable for credit
Normal Grade Rules
3 units

DSID 134. Design and Meaning
This course will focus on the formal properties of products to better understand how design addresses and projects meaning as it relates to designed and manufactured objects. Coursework will explore this via experiments in specification and fabrication.
Prerequisite: DSID 32A; BS Industrial Design Majors Only
Normal Grade Rules
3 units

DSID 135. Design, Entrepreneurship, Intellectual Property and Professional Practice
Strategies for entering the profession as a business owner or design entrepreneur: Course includes the exploration of past and future business models as well as issues of intellectual property protection.
Prerequisite: DSID 123A or Instructor Permission.
Repeatable for credit
Normal Grade Rules
3 units

DSID 136. Advanced Digital Workshop
Advanced Digital modeling and prototyping tools for Industrial Design.
Prerequisite: DSID 129; BA Design Studies or BS Industrial Design Majors only, or Instructor Consent
Repeatable for credit
Normal Grade Rules
3 units

DSID 137. Advanced Physical Prototyping
Advanced Prototyping techniques for Industrial Design including patternmaking, sewing and casting.
Prerequisite: DSID 032, DSID 041; BA Design Studies or BS Industrial Design Majors only.
Repeatable for credit
Normal Grade Rules
3 units

DSID 138. Advanced Materials, Process & Technology
Advanced Materials, Processes and Technology will enhance themes covered in Materials and Processes coursework with the addition of study of the relevance and implications of advanced materials and technologies on designed artifacts.
Prerequisite: DSID 32, DSID 041; BA Design Studies or BS Industrial Design Majors only, or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

DSID 144. Design for Healthcare
Introduction to unique theories and challenges associated with the design of objects, experiences and services related to healthcare. Focuses on the application of patient-centered design theories for the betterment of patient experiences and patient-provider relationships.
Prerequisites: DSID 123 or instructor consent
Misc/Lab: Activity 6 hours.
Normal Grade Rules
3 units

DSID 176B. Industrial Design in Society
See ARTH 176B.
Normal Grade Rules
3 units

INTERIOR DESIGN

LOWER DIVISION

DSIT 005. Introduction of Interior Design and Architecture
A comprehensive introduction to the field of Interior Architecture. Focuses on social, psychological, economic and aesthetic challenges facing designers in the 21st century. Integration of design principles, creative expression and consumer information pertaining to living environments and public spaces.
Prerequisites: DSIT 005, DSIT 010.
Corequisite: DSIT 33
Normal Grade Rules
3 units

DSIT 010. Sketching, Drawing + Modeling
Explore the processes of conceptual sketching and drawing. Utilize and teach architectural documentation techniques such as interior: floor plans, reflected ceiling plans, elevations, sections, details, perspectives and axonometric drawings. Demonstrate techniques in pencil, contemporary pens, markers, and artistic visualization techniques.
Corequisite: DSIT 005
Normal Grade Rules
3 units

DSIT 015. Architectural Drawing and 3D Modeling
Study, exploration and comprehensive development of the technical and conceptual aspects of architectural drawing and architectural modeling used to visualize innovative and functional interior spaces.
Prerequisite: DSIT 83
Pre/co-requisite: DSIT 29
Misc/Lab: Activity 6 hours.
Normal Grade Rules
3 units

DSIT 029. Design Process
Development of skills to work with point, line and plane to create volumes with spatial relationships.
Prerequisite: DSIT 05, DSIT 10
Corequisite: DSIT 15, DSIT 83
Misc/Lab: Activity 6 hours.
Normal Grade Rules
3 units

DSIT 033. Architectural Presentation
Further study, exploration, and comprehensive development of the technical and conceptual aspects of architectural drawing and modeling used to visualize innovative and functional interior spaces.
Prerequisite: DSIT 15.
Normal Grade Rules
3 units

DSIT 034. Interior Architecture Foundation Studio
In-depth study exploration and comprehensive development of innovative and functional interior spaces using the technical and conceptual aspects of architectural drawing and architectural model making and the theoretical and conceptual methodologies used to formulate interior architectural space. Course emphasizes design theory, process, programming and human factors. Focus on residential and small-scale commercial building types.
Prerequisite: DSIT 15, DSIT 29
Corequisite: DSIT 33
Misc/Activity: Activity 6 hours
Normal Grade Rules
3 units

DSIT 083. Visual Communication I
Principles of digital drawing and presentation tools essential to 2D architectural representation. Principle skills and disciplines of making 3D forms through the use of digital technology.
Prerequisites: DSIT 005, DSIT 010.
Corequisites: DSIT 015, DSIT 029.
Misc/Lab: Activity 6 hours.
Normal Grade Rules
3 units
DSIT 088. Visual Communication II
Introduction to Building Information Modeling concepts, practices, and drafting techniques. Using parametric 3D modeling software, students will create a virtual architectural model that will aid in the creation of construction documents and design presentation materials.
Prerequisites: DSIT 005, DSIT 010.
Corequisites: DSIT 033, DSIT 034.
Normal Grade Rules
3 units

DSIT 098. Architectural Forum
Discussion and analysis of the processes of interior architecture; lectures and field trips emphasizing critical thinking, communication skills and professional ethics.
Prerequisite: ART 1.
Normal Grade Rules
3 units

UPPER DIVISION

DSIT 100. Building Codes
Introduction to building codes and legal regulations relate to interior architecture design. Egress, occupancy levels, regulations for the handicapped, general accessibility requirements, finishes and material specifications and fire ratings, will be highlighted in the class.
Prerequisites: DSIT 103.
Normal Grade Rules
3 units

This course covers the functional, aesthetic and environmental aspects of building materials and systems focusing on the documentation of design through BIM software.
Prerequisites: DSIT 033, DSIT 034.
Misc/Lab: Lecture 3 hours/Activity 4 hours.
Normal Grade Rules
3 units

DSIT 102. Computer Graphics for Interior Architecture
Examination of programs related to the development of state of the art presentation methods and portfolios.
Prerequisite: DSIT 34.
Normal Grade Rules
3 units

DSIT 103. Interior Architecture Conceptual Design Studio
Organize programmatic adjacencies and allocate planned spaces based on a singular design concept or objective. Conceptualize and execute a design through the use of 3D modeling software, digital animation and analogue methods of fabrication. Site analysis, formal, thermal and material issues problem-solving, iterative and rigorous production, experimentation, and research. Presentation of work to a jury.
Prerequisite: DSIT 33, DSIT 34.
Corequisite: DSIT 102.
Corequisites: DSIT 33, DSIT 34.
Normal Grade Rules
3 units

DSIT 104. Interior Architecture Space Planning Studio
Further project-oriented study, examination and analysis of planning and designing innovative and functional interior spaces. Emphasis on the space planning of state of the art commercial environments. Additional emphasis on implementation and interpretation of laws, codes and regulations. Course is repeatable for a total of 6 units.
Prerequisite: DSIT 103 and pass portfolio review.
Repeatable for credit
Normal Grade Rules
3 units

DSIT 105. Interior Architecture Advanced Design Studio
In-depth project oriented study, examination and analysis of planning and designing innovative and functional interior spaces. Emphasis on the advanced design of state of art commercial environments. Additional emphasis on implementation and interpretation of laws, codes and regulations.
Prerequisite: DSIT 103, and pass portfolio review.
Normal Grade Rules
3 units

DSIT 106. Architectural Project Materials
Discussion and analysis of materials for interior architecture lectures and field trips emphasizing aesthetic sensibilities, human factors, manufacturing processes and specifications.
Prerequisite: DSIT 34.
Normal Grade Rules
3 units

DSIT 107. Furniture Design
Design and production of original furniture, including drawing, prototypes and materials selection. Course is repeatable for a total of 6 units.
Prerequisite: DSIT 105 or upper division standing and instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

DSIT 108. Architectural Lighting Design
Theory and practice of architectural lighting emphasizing aesthetics, drawing, specifications, terminology, calculations and advances in technology. Course is repeatable for a total of 6 units.
Prerequisite: DSIT 103, DSIT 104 or upper division standing and instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

DSIT 109. Object Design for Interiors
Advanced exploration of object design theory and practice with projects involving high levels of aesthetic and functional complexity.
Prerequisite: DSIT 109, DSIT 106 and DSIT 108.
Normal Grade Rules
3 units

DSIT 110. Capstone Thesis Studio
Students will select an appropriate project type, determine the site, prepare existing drawings, write a project statement and program, and develop a design solution. Work must be presented to a jury of professionals, and exhibited in a thesis exhibition.
Prerequisites: DSIT 104, DSIT 105.
Normal Grade Rules
3 units

DSIT 111. Interior Architecture Seminar
A capstone course for discussion of design work and professional values as a basis for portfolio and resume preparation.
Prerequisite: DSIT 105 and enrollment in graduation semester.
Normal Grade Rules
3 units

DSIT 112. Professional Practice of Interior Architecture
This course focuses on the business, legal, financial, and managerial considerations of interior design practice as well as the role and responsibilities of a design assistant, with emphasis on ethical considerations and the legal issues of the profession and licensing.
Prerequisites: DSIT 103, Pass portfolio.
Corequisites: DSIT 104.
Normal Grade Rules
3 units

DSIT 116. Solar Energy Analysis
See ENVS 116.
Normal Grade Rules
3 units

DSIT 132. Solar Home Design
See ENVS 132.
Normal Grade Rules
3 units
DSIT 151. Introduction to Urban Design
See URBP 151.
Normal Grade Rules
4 units

DSIT 152. Introduction to Urban Design Studio
See URBP 152.
Normal Grade Rules
4 units

DSIT 192C. History of Interior Design
See ARTH 192C.
Normal Grade Rules
3 units
Donald and Sally Lucas College and Graduate School of Business

Courses

BUSINESS

UPPER DIVISION

BUS 180. Individual Studies in Business
Individual work on special topics by arrangement.
Notes: Business majors only. Petition and plan of study must have consent of instructor and Chairperson in the department of concentration.
Prerequisites: Upper division standing. Not available to Open University Students.
Credit / No Credit
1-6 units

BUS 200. Business, Economics and Society
Emphasizes the relationship between the micro and macro economic environment and thoughtful managerial decision-making. Examines various theories and techniques that underlie the market economy. Costs and benefits of various governmental policies are investigated in a historical context.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 200W. Business Research and Communications
Using a case approach, students will learn about communication within the business world, with the intention that they will practice interpersonal, team, and presentation skills that are expected of effective managers.
Prerequisite: Graduate standing and restricted to Business - MBA majors only
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
CE: GWAR
3 units

BUS 211. Orientation and Behavioral Workshop
The course provides graduate business students with frameworks, processes and methods to improve their opportunity for success in a rigorous, accelerated graduate business program format. Students are introduced to key concepts in business communication and etiquette, case study methodology, and business strategy. This overview includes the opportunity to apply key concepts in a team format and discuss their strategic, behavioral and career implications.
Credit / No Credit
1 unit

BUS 220. Financial and Managerial Accounting
Introduces students to financial and managerial use of accounting information systems and concepts, including the sources, uses and limitations of accounting information as used by investors outside the firm and by managers within the firm.
Prerequisite: Graduate standing and restricted to Business - MBA majors only
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
CE: GWAR
3 units

BUS 220A. Financial Statement Analysis for Accountants
Course develops the ability to understand, interpret, and analyze financial information, and examines the relationship between financial statement information and the capital markets. Students develop financial analysis skills, and expand business knowledge from an accounting perspective.
Prerequisite: MSA Classified Standing.
Normal Grade Rules
3 units

BUS 220B. Financial Reporting and Analysis I
Principles, control and theory of accounting for assets; correction of prior year’s earnings; measurement and determination of income.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units

BUS 220C. Accounting Information Systems I
Will provide conceptual framework concerning contemporary accounting information systems including: database concepts, internal control, use of systems technology, applications, management, systems analysis/ design and auditing.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units

BUS 220D. Financial Analysis and Markets
Provides an overview of the required skills and the environment appropriate to the financial and economic decision-making function of the firm. The integrated approach of this course is designed to identify and analytically evaluate those internal and external variables which contribute to economic and financial decisions. Strategies of financial management in practical settings, application of concepts and analytical tools.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units

BUS 220E. Financial Reporting and Analysis II
Continuation of Financial Reporting and Analysis I. Principles, controls, and theory of accounting for liabilities and equities; preparation, utilization, and analysis of cash flow statements; financial ratios and statistical analysis of financial statements accounting data.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units

BUS 220F. Management Accounting and Control Systems
Provides the student techniques with an overview of the concepts and procedures of cost accounting relevant to managerial decision-making. Emphasizes planning and control, inventory valuation and income determination, and performance measurement.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units

BUS 220G. Tax Factors of Business and Investment Decisions: Theory and Practice
Introduces essentials of tax research methodology, focusing on taxation of corporations and shareholders. Includes taxation of property transactions, deferral techniques, accounting periods, and accounting methods.
Prerequisite: MSA classified standing.
Normal Grade Rules
3 units
**BUS 220H. Auditing: Concepts/Practice**

Discusses the public accounting profession and its socio-economic role; auditing techniques with an emphasis on EDP environment; audit procedures, practice and programs, working paper preparation, unqualified and qualified report writing.

Prerequisite: MSA classified standing. Graduate Standing only.

Normal Grade Rules

3 units

**BUS 220I. Forensic Accounting**

Course will examine the frauds perpetrated on companies and methods of discovery. The criminal justice system will be reviewed and litigation support services provided by accountants to attorneys, including damage computations and testifying techniques and skills will be covered.

Normal Grade Rules

3 units

**BUS 220J. Business Communications & Ethics**

Emphasizes communication effectiveness and skill building for influencing and guiding people. Includes fundamental skill building in researching, organizing and writing reports, making persuasive presentations that are sensitive to the needs and requirements of clients, peers and managers.

Prerequisite: MSA classified standing.

Note: This course satisfies graduate-level GWAR in this master's program.

Normal Grade Rules

GE: GWAR

3 units

**BUS 220K. Accounting Practicum**

The Accounting Practicum is an internship with an accounting firm or corporate finance group. This provides opportunities to apply program content to real-world environments, gain appreciation of work expectations and demands, and relate field experience to remaining program curriculum.

Prerequisite: MSA classified standing.

Credit / No Credit

3 units

**BUS 220L. Legal and Ethical Environment of Accounting Practice**

Emphasizes knowledge in the areas of the Law of Contracts and selected portions of the Uniform Commercial Code: Sales of Goods; Commercial Paper and other Negotiable Instruments; and Secured Transactions.

Prerequisite: MSA classified standing.

Normal Grade Rules

3 units

**BUS 220M. Accounting Ethics**

Examines professional ethical standards for accountants. Focuses on professional codes of conduct and workplace decisions for professionals in the fields of auditing, managerial accounting and taxation.

Prerequisite: BUS 220H, Graduate Standing only.

Normal Grade Rules

3 units

**BUS 220N. Management of Organizations and Projects**

Examines the integrative role of the general manager as a strategist responsible for leading and managing multi-functional projects and develop skills related to leadership, planning, decision-making, motivating, scheduling and shaping organizational team culture by making extensive use of team building exercises/cases.

Prerequisite: MSA Classified Standing.

Normal Grade Rules

3 units

**BUS 220P. Taxation of Individuals and Flow-Through Entities**

Taxation of individuals and pass-through entities (partnerships, LLCs, corporations, estates and trusts) with emphasis on unique rules and factors in the Internal Revenue Code and Treasury Regulations.

Prerequisite: MSA classified standing.

Normal Grade Rules

3 units

**BUS 220R. Software Applications for Accounting**

Creation, internal controls, evaluation and audit of advanced electronic spreadsheets. Students learn to use complex queries and extract information from databases.

Prerequisites: BUS220C or equivalent

Normal Grade Rules

3 units

**BUS 220S. Financial Reporting and Analysis III**

Accounting for multi-unit operations: consolidated reporting issues, transfer pricing issues, globalization issues (foreign tax structures, organizational forms and international accounting), translation of foreign currency transactions and operations, hedging foreign currency exposures, goodwill and brief exposure to business combinations.

Prerequisite: MSA classified standing.

Normal Grade Rules

3 units

**BUS 220T. Accounting Information/Tax**

Prerequisite: MSA classified standing.

Normal Grade Rules

6 units

**BUS 220U. IT Audit & Internal Controls**

The course provides an understanding of the types of risk that arise in computer environments and consider the impact these risk and threats have on the audit by examining computer-assisted audit tools and techniques.

Prerequisite: MSA Classified Standing.

Normal Grade Rules

3 units

**BUS 220V. Special Topics in Accounting**

Current special topics in accounting including an understanding of the financial accounting policies and procedures followed by state, county, and municipal governments, universities, and other non-profits for accounting and budgeting of the receipt and expenditure of tax and related revenues.

Prerequisite: MSA classified standing.

Normal Grade Rules

3 units

**BUS 220X. Business Analysis and Valuation Using Financial Statements**

Development of Accounting based valuation framework that integrates a firm’s strategy, accounting performance, and value; assessing a firm’s value proposition and identifying key value drivers and risks; evaluating degree to which a firm’s accounting policies capture the underlying business reality.

Prerequisite: MSA classified standing.

Normal Grade Rules

3 units

**BUS 220Y. Professional Communications and Relationships III**

Skill development in converting critique into meaningful and important information to improve professional performance; integration of professional skills; personal style with effective communication skills to prepare the student for transition to professional in the further development of their careers.

Prerequisite: MSA classified standing.

Normal Grade Rules

3 units

**BUS 220Z. Data Analytics for Accounting**

Basic principles and practices of data analytics as applied to accounting.

Prerequisite: Graduate standing in MS Accountancy program

Normal Grade Rules

3 units

**BUS 222. Profit Planning and Control**

Course covers how financial planning and control systems operate, and are used to deploy strategy, align interests, improve operations, and facilitate strategic change, maximizing firm value. Includes disciplined processes of decision-making, resource allocation, performance measurement to link strategy, management action, and shareholder accountability.

Prerequisite: BUS 220 and graduate standing.

Normal Grade Rules

3 units
BUS 223A. Tax Research and Decision Making
Develops basics for tax research and evaluates the interrelationships of statutes, regulations, rulings and court cases. Identifies tax services and other primary research materials with emphasis on their use in tax decision-making. Emphasizes critical thinking and communication skills.
Prerequisite: Graduate standing.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units

BUS 223B. Taxation of Partnerships
Income tax treatment of partners and partnerships and LLCs, including the creation, operation, liquidation and sale or other amalgamation of organizations. Special allocation and non-recourse debt arrangements are also covered.
Prerequisite: BUS 223A and 223C
Normal Grade Rules
3 units

BUS 223D. Seminar in Tax Planning and Practice
Capstone course for the MS in Taxation degree. Will integrate financial planning throughout the program, including sale of the business and estate planning, and will include a final written comprehensive project.
Prerequisite: Graduate standing and completion of at least 3 tax core courses.
Notes: Completion of the course or BUS 223E satisfies the MST comprehensive project requirement.
Normal Grade Rules
3 units

BUS 223F. Tax Accounting Methods/Periods
Definition and importance of accounting methods and periods; timing rules for income, expenditures, inventory and R&D; change procedures; special methods; book-tax differences; introduction to provision for income taxes.
Pre/Corequisite: BUS 223A
Normal Grade Rules
3 units

BUS 223G. Taxation of Business Entities
Income tax treatment of different types of business entities and their owners. Focuses on operations, reporting, formation, restructuring and termination. Selected special state and international tax rules, tax planning, and underlying tax policies also covered.
Corequisites: BUS 223A
Normal Grade Rules
3 units

BUS 223H. Tax Policy Capstone
Capstone course that examines the principles and policies that underlie and shape tax systems and rules. Students gain a broader perspective of the tax law beyond its technical application, and learn how tax, economic, social and environmental policies interact.
Prerequisites: BUS 223A, BUS 223F, BUS 223G
Normal Grade Rules
3 units

BUS 224. Financial Statement Analysis
Course develops the ability to understand, interpret, and analyze financial information, and examines the relationship between financial statement information and the capital markets. Students develop financial analysis skills, and expand perspectives of business and professional roles.
Prerequisite: BUS 220 and graduate standing.
Normal Grade Rules
3 units

Examine managerial accounting in medical product development with emphasis on financial aspects of the industry. Develops understanding of profit/loss statements; budget preparation and execution; financial implication of patent life, rationale for mergers and acquisitions; financial implications of outsourcing.
Prerequisite: Admission to MPDM program & completion of Bus 210 and SMPD 281A.
Normal Grade Rules
3 units

BUS 225A. Taxation of Estates and Trusts
Examine transfer and transfer tax treatment of estates, gifts, trusts, creators, beneficiaries and fiduciaries. Distinguishes between revocable and irrevocable trusts, including proper trusts to achieve desired goals. Reviews taxation of asset sales and dissolution or liquidation of estates or trusts. Analyzes estate evaluation, family limited partnerships, grants, GST, and planning opportunities.
Pre/Corequisite: BUS 223A
Normal Grade Rules
3 units

BUS 225B. Taxation of Corporate Reorganizations
Income tax treatment of corporate reorganizations and amalgamations, including acquisitions, tax-free and taxable as well as corporate division. Tax treatment of net operating losses, earnings and profits, property basis and other corporate attributes.
Prerequisite: BUS 223A and BUS 223G
Normal Grade Rules
3 units

BUS 225C. International Tax - US Corporations with Foreign Activities
Taxation of outbound investment and activities of the US corporations. Topics include sourcing, foreign tax credit, subpart F, Sections 482 and 367, foreign currency, establishing foreign operations, state taxation of outbound operations, and issues affecting expanding US multinational technology firms.
Prerequisite: BUS 223A and BUS 225W
Corequisite: BUS 223G
Normal Grade Rules
3 units

BUS 225D. International Tax - Individuals and Foreign Corporations
Taxation of individuals with foreign activities, and inbound investment and activities of foreign corporations. Topics include taxation of US expatriates and foreign nationals, foreign tax credit, tax treaties, foreign-owned US real estate, and issues of mobile employees.
Prerequisite: BUS 223A
Corequisite: BUS 223C
Normal Grade Rules
3 units

BUS 225F. State Taxation Fundamentals
Introduction to the legal foundation, nature and operation of key state and local taxes. Constitutional constraints regarding nexus, sourcing and apportionment are covered. Additional topics include research techniques, compliance and planning considerations, current issues and state tax reform.
Pre/Corequisite: BUS 223A
Normal Grade Rules
3 units

BUS 225G. Taxation of S Corporations
Topics include: Income tax treatment of S Corporations and their shareholders, built-in gains tax and excess net passive income tax; operating and distribution rules, shareholders basis, NOL pass-through rules, formation, reorganizations, Q Subs, and state income tax consequences.
Prerequisite: BUS 223A and 223G
Normal Grade Rules
3 units

BUS 225H. Taxation of Property Transactions
Key rules and planning considerations of property development, transfer, lease, abandonment, worthlessness, and destruction; depreciation and amortization; special types of intangibles and relevant tax rules; property indebtedness; sale of a business; tax-deferred transactions; sale of a principal residence; and basics of non-income taxes applicable to property and property transactions.
Pre/Corequisite: BUS 223A
Normal Grade Rules
3 units
BUS 225I. Tax Practices, Penalties and Procedures
Procedures applicable to filing returns, amended returns and claims for refund. Also covers key procedural matters governing examinations, appeals, and adjudication of disputes. Relevant penalty provisions and rules of conduct are also examined. While the focus is on federal rules, key procedural differences in California law are also covered.
Pre/Corequisite: BUS 223A
Normal Grade Rules
3 units

BUS 225J. Taxation of Executive Compensation
Tax aspects of executive compensation includes qualified and nonqualified stock options, deferred compensation, fringe benefits, 401(k), 403(b), pension and profit sharing plans, rabbi trusts, etc.
Pre/Corequisite: BUS 223A
Normal Grade Rules
3 units

BUS 225K. Advanced Individual Taxes
Course includes interest tracing, passive activity losses, net operating losses, divorce, AMT’s impact on individuals and individual California income taxes.
Pre/Corequisite: BUS 223A, Graduate Standing only.
Normal Grade Rules
3 units

BUS 225L. Accounting for Income Taxes
Financial accounting rules regarding the calculation and presentation of a company’s provision for income taxes.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 225M. State Tax Planning
Tax planning considerations are covered for multistate and single state businesses for key state taxes. Tax effects of location of property, payroll and sales are covered along with state tax incentives and dealing with incomplete guidance.
Prerequisite: BUS 225F
Normal Grade Rules
3 units

BUS 225N. Financing Options - New or Growing Bus
Covers the fundamentals of various financing techniques for such businesses including equity, debt and “going public”. Decision-making considerations, strategy, valuation and relevant security and tax laws are covered.
Pre/Corequisite: BUS 223A
Normal Grade Rules
3 units

BUS 225O. Taxation of Tax Exempt Organizations
Taxation of tax exempt organizations, including application of UBIT; investment in partnerships and S Corp., foundation, pension plans, VEBAS, form 990’s.
Pre/Corequisite: BUS 223A
Normal Grade Rules
3 units

BUS 225P. Advanced International Tax - US Corporations
Advanced study of income tax treatment of international corporate transactions including international reorganizations and Section 367, Section 304 and corporate inversions. Planning for intangibles, subpart F planning, foreign entity structuring including use of check-the-box entities, foreign currency transactions, and foreign tax credit planning.
Prequisite: BUS225C
Normal Grade Rules
3 units

BUS 225S. Consolidated Returns
Review and analysis of theory, rules and practice involving affiliated entities and filing of consolidated returns.
Pre/Corequisite: BUS 223A and 223G
Normal Grade Rules
3 units

BUS 225T. Intermediate Acctg for Income Taxes
Follow-up to BUS 225L, Accounting for Income Tax. Topics covered include IFRS-CAAP convergence, FAS 141R (Purchase accounting), International tax accounting (including APB 23, ARB 51, FAS 52), FAS 123R (advanced topics), State & Local considerations, FIN 48 and other relevant/current topics.
Prerequisite: BUS 225L
Normal Grade Rules
3 units

BUS 225U. Fundamentals of Transfer Pricing
Introduction to the fundamental principles of intercompany pricing, applications of transfer pricing methods to related party transactions under U.S. transfer pricing regulations and OECD Guidelines, and the economic analysis required for intercompany transactions of multinational corporations.
Prerequisites: BUS 223A.
Normal Grade Rules
3 units

BUS 225V. Tax Considerations for High Tech Companies
Explores the nature of high tech companies, special features, and why tax issues exist. In depth learning about tax incentives for innovation including the research credit, treatment of intangibles, stock options, multi-stage financing, multijurisdictional considerations, and book-tax differences.
Pre-Requisite: BUS 223A
Normal Grade Rules
3 units

BUS 225W. Introduction to International Taxation
Introduction to the structure, basic rules, and policies of the federal income tax system with respect to international transactions of US and foreign persons. Topics include residency, sourcing, tax treaties, foreign tax credit, transfer pricing, and compliance.
Prequisite: BUS 223A
Corequisite: BUS 223G
Normal Grade Rules
3 units

BUS 225X. International Taxation - US and Foreign Individuals
Taxation of US and foreign individuals with investments and activities outside their home country. Topics include FTC, treaties, withholding taxes, US expatriates, foreign nationals, mobile employees, and compliance considerations, including US Bank Secrecy Act, FATCA and PFICs.
Prequisite: BUS 223A, BUS 225W
Normal Grade Rules
3 units

BUS 225Y. International Taxation - US, CA and Foreign Corporations
Topics include residency, sourcing, tax treaties, foreign nationals, mobile employees, and compliance considerations, including US Bank Secrecy Act, FATCA and PFICs.
Prequisite: BUS 223A, BUS 225W
Normal Grade Rules
3 units

BUS 225Z. Personal & Business Leadership Skills for Tax Professionals
Learn intrapersonal and interpersonal skills and knowledge a tax practitioner needs for personal and professional success. Includes listening, oral and written communication, ethical reasoning, relationship and team building, conflict minimization, leadership behaviors, EQ, mindfulness, and career planning.
Prerequisite: Graduate Standing
Normal Grade Rules
3 units

BUS 227A. Individual Tax Compliance
Basics of federal income tax compliance from information gathering to return filing. Includes practice preparing various individual forms and schedules, software tools, engagement letters, rules of conduct, disclosures, record keeping, key California adjustments, and completion of a moderately complex Form 1040.
Corequisites: BUS 223A
Normal Grade Rules
1 unit
BUS 227B. Ethics for Tax Practitioners
Review of rules of conduct, tax penalties and professional ethical behavior relevant to tax compliance and planning. Key rules applicable to a CPA are covered in the context of their application in the day-to-day work of a tax practitioner.
Prerequisite: Graduate Standing only.
Corequisites: BUS 223A.
Normal Grade Rules
1 unit

BUS 227C. Tax Symposium
Tax symposium topics may vary from year to year to allow for focus on new developments or special tax topics. Check the MST schedule for the topic description.
Corequisites: BUS 223A.
Repeatable for credit
Normal Grade Rules
1 unit

BUS 227D. Employment Taxation and the Modern Workforce
An overview to the types of employment tax and related issues that can arise for companies and workers when employees telecommute or have multiple work locations. The basics of federal employment taxes are covered along with worker classification rules as well as selected state and international tax issues and rules relevant for today's workforce.
Pre/Corequisites: BUS 223A
Normal Grade Rules
1 unit

BUS 227E. Foundation for Understanding Taxation
Legal foundation of taxes, types of taxes, and underlying theories, definitions and concepts. How to analyze transactions and activities for tax consequences. Helps strengthen one's overall understanding of taxation and application of analytical skills to resolving tax issues.
Prerequisites: Undergraduate tax course
Normal Grade Rules
1 unit

BUS 227F. Personal and Business Leadership Skills for Tax Practitioners
Learn the intrapersonal and interpersonal skills and knowledge a tax practitioner needs for personal and professional success. Includes listening, oral and written communication, ethical reasoning, relationship and team building, establishment and assessment of accountability measures, time management, and career planning.
Pre-Requisite: Graduate Standing
Normal Grade Rules
2 units

BUS 230. Marketing Management
Fundamental concepts and skills required for understanding markets and managing marketing efforts. Includes market orientation, consumer and industrial buyer behavior, market segmentation, target market identification, product development, pricing, distribution channels, marketing communication, strategy development, and marketing planning and control.
Prerequisite: Graduate standing and restricted to Business - MBA majors only
Normal Grade Rules
3 units

BUS 231. Consumer and Market Behavior
Influence of consumer behavior upon marketing management strategy, examination of behavioral concepts as they relate to purchase decisions; types of consumer research instructions and applications; focus on buyer behavior in action-oriented environments.
Prerequisite: BUS 230 and graduate standing.
Normal Grade Rules
3 units

BUS 231A. Market Forecasting
Course will help business people in understanding and identifying the appropriate forecasting methods in order to make a more accurate prediction of future demand.
Prerequisite: BUS 230, Business statistics and graduate standing.
Normal Grade Rules
3 units

BUS 231C. High Tech Marketing
Course will give students exposure to marketing in technology industries. Principal ideas from the technology adoption life cycle form the conceptual basis for the course. Differences between technology marketing and other kinds of marketing are explored and special skills identified.
Prerequisite: BUS 230, business statistics, and graduate standing.
Normal Grade Rules
3 units

BUS 232. Third World Marketing Manager
Marketing in Third World high risk areas: Russian, African, Islamic. Understanding methods of marketing, as well as how to deal with specific third world risks: mafia, bribery, “black” market, smuggling and corruption.
Prerequisite: BUS 230 and graduate standing.
Normal Grade Rules
3 units

BUS 233. Business to Business Marketing
Course deals with business-to-business marketing, that is, the marketing of goods, services, and ideas to business and non-retail institutions. Covers product, price, promotion and distribution with emphasis on strategy development and marketing decision-making.
Prerequisite: Bus 230 and graduate standing.
Normal Grade Rules
3 units

BUS 234B. Promotional Strategy
Explores the media and techniques used by businesses to communicate with consumers, resellers, and the public. Topics will include budgeting, choosing media, testing communication effectiveness, executing and controlling advertising, personal selling, and consumer trade promotions.
Prerequisite: BUS 230 and graduate standing.
Normal Grade Rules
3 units

BUS 235A. Introduction to Business Analytics
This course will introduce fundamental business analytics tools including Probability Analysis, Decision Analysis, and Linear and Discrete Optimization. An emphasis will be placed on conceptual understanding and analytic insight.
Prerequisite: Graduate Standing only.
Normal Grade Rules
3 units

BUS 235B. Business Research
This course introduces participants to 21st Century business research methodology. The emphasis here is not on issues related to ongoing data sources but rather to unique, one-time problems that are best solved with custom research projects. Quantitative methods are emphasized but the advantages of the qualitative perspective are not overlooked. Other topics include questionnaire design, data collection, analysis, and presentation, highlighting appropriate new technology. The aim is to prepare managers to conduct research as well as to enable them to engage collaboratively with their research consultants.
Prerequisite: Graduate Standing only.
Normal Grade Rules
3 units

BUS 235C. Data Mining
Data mining is used to discover patterns and relationships in data. Emphasis is on large complex data sets such as those in transactional databases or gathered through web mining. Topics: data visualization, association rules, clustering, and various modern classification techniques.
Prerequisite: Graduate Standing only.
Normal Grade Rules
3 units

BUS 235D. Business Analytics Simulation
Transforming diverse data into knowledge-driven business decisions. Participants make tactical and strategic decisions based on consumer, competitor, aggregate market, financial, etc. Success is gauged by monitoring a dashboard that includes manufacturing productivity, return on investment, investment in the future, market share, product quality, financial performance, etc.
Prerequisite: Graduate Standing only.
Normal Grade Rules
3 units
BUS 236. Current Topics in Marketing
Emphasizes marketing and decision-making in social, government and business environments. Uses behavioral science and quantitative techniques to develop strategies for tactical and strategic marketing solutions to problems which impact on R&D, finance, logistics, manufacturing, distribution and others.
Prerequisite: BUS 230 and graduate standing.
Repeatable for credit
Normal Grade Rules
3 units

BUS 238. International Marketing
The development of international marketing strategy. Focus on the evaluation of the various environmental variables, selection of target markets, methods of entry, developing an appropriate marketing mix and planning/control of the international marketing effort.
Prerequisite: BUS 230 and graduate standing.
Normal Grade Rules
3 units

BUS 240. Electronic Commerce
Focuses on organizational uses of information technology, impacts of IT on organizational operations and strategies, and increasing importance of Internet in business activities. Covers fundamentals of IT, organizational applications of IT and Internet, and successfully developing and implementing IT-based applications.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 241. Structured Methods of Information Technology
An analysis of structured methodologies of programming, documentation, testing, and management. Examined in terms of various information technologies; emphasis on development of techniques to analyze, design and adapt system solutions to organizational information needs.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 242. Distributed Information Systems
An analysis of database management systems, data communications, and telecommunications in a distributed information network. Focus will concentrate on identifying the means through which an organization can use the information technologies of distributed systems to satisfy its data needs.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 243. Database Management
Introduction to database approach of planning, design and implementation of information systems applications in organizations from the viewpoint of the manager as a knowledgeable user. Includes data modeling, data integrity and practical project assignments.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 245. Service Innovation
The course introduces students to the service in a variety of trade, enterprise and service industry settings. Students will learn about the economics and management of service systems and their design, operations, information technology, performance measurement, marketing, supply chain and quality assurance.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 248. Cyber Risk Management
This course surveys cyber risk management concepts and best practices. Topics include cyber security threats, countermeasures, vulnerabilities, cost/benefit analysis, incident handling/response, business contingency planning, ethics, and legal imperatives within the organizational context.
Normal Grade Rules
3 units

BUS 250. Law and Ethics
Course focuses on both law and ethics in the business environment, how individuals and organizations approach law and ethics, as well as the ethical, legal and social consequences of disregarding law and ethics in favor of other objectives.
Prerequisite: Graduate standing and restricted to Business MBA majors only
Normal Grade Rules
3 units

BUS 251. Strategic Human Capital Performance Management
This course utilizes case and research discussions as well as quantitative costing and utility analyses to develop practical skills in the global deployment of human resources to achieve and sustain strategic competitive advantage.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 252. Managing Organizational Change
The focus will be upon applied organizational change by covering organizational behavior from a normative, policy-oriented perspective. The perspective will be one of viewing the person (student) as an actual or potential change agent; a consultant (internal or external), innovative personnel specialist, or middle or top level manager.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 253. Negotiation and Conflict Management
Introduces a theoretical framework and skill-building exercises/simulations for negotiating agreements in adversarial or competitive relationships. Explores conflict resolution methods applicable to commercial transactions, employee relations, union management negotiation and contract disputes, as well as international diplomacy.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 254. Advanced Personnel Management
Selected human resource management topics are studied, including: computer applications and quantitative methods, forecasting, job analysis, personnel recruitment and selection, training and development, EEO, compensation, performance appraisal, OSHA requirements, labor relations.
Prerequisite: BUS 251 (or equivalent); statistics and computer applications, graduate standing.
Repeatable for credit
Normal Grade Rules
3 units

BUS 255. Diversity in the Workforce
Analysis of communication, leadership, motivation, group dynamics, decision-making, problem solving, training, change, conflict resolution and other behavioral concerns as they apply to the management of the multicultural workforce.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 258. Leading Edge Managers
Experiential seminar to develop specific managing and leading capabilities. Focus on skills typically missing from MBA education: managing a multi- and cross-cultural workforce; developing effective teams and collaborative work; building a high-performing work system.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 259. Mg Legal Aspects of Tech & New Prod Dev
This course addresses emerging issues in intellectual property - patent, copyright, trademark, and trade secrets laws - with an emphasis toward managing and protecting innovation and new product development in areas such as computer technology, biotechnology, and cyber-space.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 260. Current Topics in Marketing
Emphasizes marketing and decision-making in social, government and business environments. Uses behavioral science and quantitative techniques to develop strategies for tactical and strategic marketing solutions to problems which impact on R&D, finance, logistics, manufacturing, distribution and others.
Prerequisite: BUS 230 and graduate standing.
Repeatable for credit
Normal Grade Rules
3 units
BUS 260. Managerial Decision Analysis
Concerns the inherent complexities in the process of choice. Covers decomposition of the decision environment, the use of decision trees, value theory, analysis of criteria, the statistical measurement of risk and uncertainty, preposterior analysis, and problems of collective choice. Prerequisite: Business statistics and graduate standing; restricted to Business - MBA majors only. Normal Grade Rules 3 units

BUS 261. Legal Challenges for the International Manager
Learn how legal systems affect international business. Topics include: securities law in international transactions; US trade law; export regulations; foreign legal problems; legal risk analysis; labor law systems; control of capital and currency; intellectual property rights; licensing; business with state-controlled agencies. Prerequisite: Graduate standing. Normal Grade Rules 3 units

BUS 262. Leadership
Explores classic and contemporary models of leadership and defines the difference between management and leadership. Practical applications of theory emphasizing the contingency perspective. Prerequisite: Graduate standing. Normal Grade Rules 3 units

BUS 262A. Global Leadership and Innovation
This course provides an in-depth introduction to global leadership and its development and to fostering innovation and global change. Through assessments and behavioral simulations, it prepares students to do global work effectively in a complex context with people from various cultures. Prerequisite: Graduate standing. Normal Grade Rules 3 units

BUS 262B. Global Leadership Development
Students learn about global leadership and, in particular, its development in the Global Leadership Laboratory. As CLLab Associates, they help facilitate high impact experiential exercises, learn to give feedback, and supervise and coach student teams in global leadership courses. Prerequisite: Graduate Standing Normal Grade Rules 3 units

BUS 263. High Performance Management
An intense analysis of management with main focus on understanding organizations as systems. Use of academic theories as tools with which you solve real-world tactical and strategic problems. Emphasizes critical thinking and problem solving. Prerequisite: Graduate standing. Normal Grade Rules 3 units

BUS 264. Introduction to Technology Planning and Management
Develops technology strategies through a qualitative (scenario and strategy map-based) and a quantitative (decision analysis and option theory-based) approach for technology portfolio planning and management. It provides practical, stimulating, and easy-to-use methods for realistic applications. Prerequisite: Graduate standing. Normal Grade Rules 3 units

BUS 264A. Professional/Business Ethics
Ethical principles relevant to decision-making in business situations. Using case studies, examines and analyzes moral issues to determine the most appropriate actions. Experiential and self-reflective as well as theoretical. Prerequisite: Graduate standing. Normal Grade Rules 3 units

BUS 265. Silicon Valley Experience
This course is designed to develop the “whole student” for success in the business world, including some of the most controversial or innovative issues in the U.S. and international financial environment through financial media, spreadsheets and the Internet. Students leave the class with knowledge of interest rates, flow of funds, derivatives, money and capital markets and financial intermediaries. Prerequisite: BUS 260 or BUS 262A or BUS 262B and graduate standing; restricted to Business - MBA majors only. Normal Grade Rules 3 units

BUS 266. Alternative Compensation Systems
A systematic exposure to theories and practices of various organizational reward systems. Drawing on managerial, behavioral, and economic frameworks to review various compensation topics and tackle some of the most controversial or innovative issues in compensation management. Prerequisite: Graduate standing. Normal Grade Rules 3 units

BUS 267. Capital Markets
Driven by technological change, deregulation and globalization, course provides students an overview of the U.S. and international financial environment through financial media, spreadsheets and the Internet. Students leave the class with knowledge of interest rates, flow of funds, derivatives, money and capital markets and financial intermediaries. Prerequisite: BUS 260 or BUS 262A or BUS 262B and graduate standing; restricted to Business - MBA majors only. Normal Grade Rules 3 units
Academic Year 2018-2019
Course Descriptions

**BUS 272. Current Topics in Finance**
Presented as a collection of topics of current interest and concern to managers, investors and creditors. A seminar approach emphasizes discussion, illustrations, examples and applications drawn from current financial practice to encourage exploration of all facets of selected financial issues.
Prerequisite: BUS 270 and graduate standing.
Repeatable for credit
Normal Grade Rules
3 units

**BUS 273. Business Valuation**
Course uses accounting and market data to determine the value of public and private businesses. The course considers methods and models whereby business values are created and destroyed. Techniques, from basic rules of thumb to holistic computer models are considered.
Prerequisites: BUS 220 and BUS 270.
Normal Grade Rules
3 units

**BUS 274. Financial Analysis of Technology-Based Firms**
Students will learn to develop financial strategies in practical settings. This includes the ability to construct and interpret pro forma financial statements, planning and control models, working capital analysis, capital structure studies, capital budgeting and cost of capital models, and valuation analysis.
Prerequisite: BUS 270 and graduate standing.
Normal Grade Rules
3 units

**BUS 275. Corporate Finance: Cases in High Tech Firms**
Course is a continuation of corporate finance where finance concepts directly related to high technology firms are examined. The concepts are enhanced by using five Harvard cases. Other data and handouts are provided to supplement these cases and the textbook.
Prerequisite: BUS 270 and graduate standing.
Repeatable for credit
Normal Grade Rules
3 units

**BUS 276. New Venture Finance**
New ventures face different business and financing environments than large, publicly-traded firms. The risk of R&D failure is more severe for new ventures. Examines how business and financing decisions are intertwined. Topics: Venture capital, joint ventures and intrapreneurship.
Prerequisite: BUS 270 and graduate standing.
Normal Grade Rules
3 units

**BUS 277. Investment Analysis and Management**
Principles of financial and portfolio analysis applied to investments in common stocks and bonds. Descriptive characteristics of financial markets reviewed, with main emphasis on application of financial theory and statistics to understanding movements in security prices and portfolio values. A financial management viewpoint will be taken in conducting fundamental valuation analysis and formulating portfolio policy.
Prerequisite: BUS 270 and graduate standing.
Normal Grade Rules
3 units

**BUS 278. International Corporate Finance**
The finance manager's responsibilities, risks, problems and need for strategic planning. Unique aspects of financial analysis for international business discussed and applied to real and/or similar decision situations.
Prerequisite: BUS 270 and graduate standing.
Normal Grade Rules
3 units

**BUS 280. Operations and Supply Chain Management**
Analysis of effective and efficient flow of materials, products, services, and information within and across organizations. Includes: process flow analysis, capacity planning, quality, lean supply chain, layout, aggregate planning, supply chain networks, inventory management, sourcing, ERP, and logistics planning.
Prerequisite: Graduate standing and restricted to Business - MBA majors only
Normal Grade Rules
3 units

**BUS 281. Management of High Technology Organizations**
Investigates ingredients for sustained profitable innovation. Emphasizes management of technological innovation, including: innovation strategies, organization, project selection, project management, managing and integrating functional areas. Analyzes developmental processes which enable small firms to grow and prevent large organizations from stifling innovation.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

**BUS 282. Silicon Valley: The Business of Technology**
The Silicon Valley Business of Technology course prepares students for fast-paced and pressure-packed conditions to accelerate development of Critical Thinking Skills; providing a unique insight into the Silicon Valley culture. Students will apply technology to various industries by understanding its origins, categories, and functionality.
Prerequisite: Graduate Standing
Normal Grade Rules
3 units

**BUS 282A. Essentials of Management and Organizational Behavior**
Familiarizes students with the challenges that arise for managers in organizational settings; surveys theories and practices relating to managerial roles, organizational cultures, strategy, planning, team building, communication, motivation, leadership, decision-making, control, structure, and change.
Prerequisite: Enrollment in the MBT program.
Normal Grade Rules
3 units

**BUS 282B. Silicon Valley: The Business of Technology**
Examines the growth and nature of entrepreneurship and the support infrastructure of tasks, people, finances and technology. Emphasizes entrepreneur characteristics sought by venture capitalists and investors, role of the business plan and evolutionary stages of start-up activity.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

**BUS 282C. Managing Medical Product Development**
Views product development as a cross-functional business process. Examines concepts used and management challenges faced in structuring product development activity and in strategically managing a portfolio of product development projects.
Prerequisite: Graduate Standing.
Normal Grade Rules
3 units

**BUS 282D. Managing Medical Product Development**
Views medical product development as a cross-functional business process. Examines concepts used and management challenges faced in structuring product development activity and in strategically managing a portfolio of medical product development projects. Examines industry practices and cases relevant to medical product development.
Prerequisite: Admission to MPDM program and completion of BUS 224C, BUS 286 and SMPD 289A.
Normal Grade Rules
3 units
BUS 285. Total Quality Management
Documents forces which propel quality (competition, Deming, Baldrige, etc.) and impact on planning, benchmarking and competitive analysis. Includes design for manufacturability, design of experiments, Taguchi methods, systems analysis, continuous process development and statistical process control. Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 286. Project Management
Covers both strategic and operational points of view for managing projects. Quantitative methods include project planning, budgeting, selection, scheduling, evaluation and control. Qualitative methods include project organization, staffing and team building. Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 287. Advanced Topics in Global Supply Chain Management
In depth analysis of current issues in global SCM with emphasis on industry best practices from around the globe. Topics may include continuous replenishment, value of information, outsourcing, collaboration, strategic alliances, e-SCM, supply chain risk, performance metrics, SCM simulations. Prerequisite: Bus 280. Graduate standing.
Normal Grade Rules
3 units

BUS 288. Manufacturing Planning, Cost and Control
Methods for analyzing cost/volume/profit relationships, job costing, process costing and activity-based accounting. Creating budgets, standards and performance measurements applied to cost of quality and internal control systems. Develops financial tools for non-financial managers. Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 289. Managing Information and High Technology
Applies convergence among information, technology and strategy to organization and design of information and business systems for competitive advantage. Practical uses of electronic data interchange, expert systems and design and control of database systems to manage high-tech production. Prerequisite: Graduate standing.
Normal Grade Rules
3 units

BUS 290. Strategic Thinking
Integrative focus on managing the total enterprise, including corporate and business-level strategy formulation. Applies market and industry analysis, using qualitative and quantitative techniques, to position companies in their competitive environment. Students create a strategic plan for on-going or new organization. Prerequisites for Early Career MBA students: Completion of BUS 201, BUS 202, BUS 210, BUS 220, BUS 230, BUS 250, BUS 260, BUS 270, BUS 280 and graduate standing; restricted to Business - MBA majors only.
Prerequisites for MBA for Professional students: BUS 200W, BUS 202, BUS 210, BUS 220, BUS 230, BUS 250, BUS 260, BUS 270, BUS 280 and graduate standing; restricted to Business - MBA majors only.
Note: Must receive a minimum grade of “B” on project.
Normal Grade Rules
3 units

BUS 294. Management Simulation Competition
Developing analytical and general management decision-making skills as member of a team competing in the regional business schools’ management simulation game. Extensive use of computers for simulation and analytical/planning tools. Prerequisite: Graduate standing or instructor consent.
Normal Grade Rules
3 units

BUS 295. Management Consulting Field Experience
Apply management theory and learn consulting skills by carrying out an intensive project. Identify and analyze actual business problems, develop and evaluate alternative solutions and present plan to management. Prerequisite: Graduate standing and instructor consent.
Normal Grade Rules
1-3 units

BUS 297A. Special Topics in Business Administration
Special topics to augment regularly-scheduled electives. Prerequisite: Graduate standing and prerequisite courses as specified.
Repeatable for credit
Normal Grade Rules
1-4 units

BUS 297B. Special Topics in Business Administration
Special topics to augment regularly-scheduled electives. Prerequisite: Graduate standing and prerequisite courses as specified.
Repeatable for credit
Normal Grade Rules
3 units

BUS 299. Individual Study Problems
For the student with a specific project in mind, in an area not covered by existing coursework. The student must submit a one-page formal proposal to be accepted by an assigned faculty member and approved by the MBA program director. Number of units received will be based on depth and breadth of project. Prerequisite: Graduate standing. Not available to Open University Students
Mandatory CR/NC/RP
Repeatable for credit
1-6 units

BUS 298C. Applied Business Experience Internship
The course provides students with an opportunity to translate their academic training into real world practice and gain overall knowledge of key functional areas of business. The internship must offer students a valuable learning experience and must significantly increase their knowledge of business organizations. Students are responsible for identifying a specific internship opportunity and obtaining an official offer from an employer. Upon approval from the MBA Director, the students will be able to enroll in the 3-unit course which will count as one of the MBA electives. The course requires the preparation of an internship journal & report. The internship qualifies as Curricular Practical Training (CPT) for international students.
Prerequisites: Advancement to Candidacy
Normal Grade Rules
3 units

BUS 298A. Applied Business Experience Internship
For the student with a specific internship providing a quality experience that reinforces the curriculum and involves meaningful work. The student must submit a one-page formal proposal to the graduate program director. A final report is required. The internship must qualify as Curricular Practical Training (CPT) for international students.
Prerequisite: Approved advancement to candidacy.
Repeatable for credit
Mandatory CR/NC/RP
1 unit

BUS 298B. Applied Business Experience Internship
Master’s Thesis Plan A.
Prerequisite: Approval of the instructor and admission to candidacy. Not available to Open University Students
Mandatory CR/NC/RP
1-4 units

BUS 299. Master’s Thesis
Master’s Thesis Plan A.
Prerequisite: Approval of the instructor and admission to candidacy. Not available to Open University Students
Mandatory CR/NC/RP
1-4 units
ECONOMICS

LOWER DIVISION

ECON 001A. Principles of Economics: Macroeconomics
Determination of economic aggregates such as total output, total employment, the price level and the rate of economic growth.
Notes: May be taken concurrently or prior to ECON 1B.
Normal Grade Rules
4 units

ECON 001B. Principles of Economics: Microeconomics
Allocation of resources and distribution of income as affected by the workings of the price system and by government policies. GE Area: D1
Notes: May be taken concurrently or prior to Econ 1A.
Normal Grade Rules
GE: D1
4 units

ECON 002A. Principles of Macroeconomics Online Lab
Self-paced, online lab guides students through practice and graded problem sets of key microeconomics tools and concepts.
Credit / No Credit
1 unit

ECON 002B. Principles of Microeconomics Online Lab
Self-paced online lab guides students through practice and graded problem sets of key microeconomics tools and concepts.
Credit / No Credit
1 unit

ECON 002C. Statistics Lab
This 1 unit, credit/no credit statistics lab is designed for transfer students who have taken a 3 semester-unit elementary statistics course. (SJSU Economics Department requires 4 semester units of introductory statistics. Transfer students who are economics majors and minors must make-up the missing unit.) The lab also is useful for those who have taken an elementary statistics course and are in need of a refresher.
Basic statistical concepts and methods that emphasize understanding the principles of data collection and analysis rather than theory. Discussions of how statistics is commonly used in the real world.
Credit / No Credit
1 unit

ECON 003. Economic Statistics
Elementary statistical analysis of economic data, probability theory, probability distributions, sampling, sampling distributions; estimation, hypothesis testing, simple linear regression, correlation and index numbers.
Prerequisite: ECON 1A, and ECON 1B
Misc/Lab: Lecture 3 hours/lab 2 hours.
Normal Grade Rules
4 units

ECON 100W. Writing Workshop: Economic Reports
Writing skills appropriate to majors in economics of lucid expression in essays, reports and other types of communication. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better);
Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE: Z
4 units

ECON 101. Microeconomic Analysis
Consumer behavior determining demands for goods and services. Theory of the firm including theories of production and cost. Theory of distribution to production factors.
Prerequisite: ECON 1B.
Normal Grade Rules
4 units

ECON 102. Macroeconomic Analysis
Theory of aggregate demand and related topics: national income accounting, employment and inflation, monetary and fiscal policies, economic stability, growth and balance of payments equilibrium.
Prerequisite: ECON 1A.
Normal Grade Rules
4 units

ECON 103. Introduction to Econometrics
Use of econometric methods in analyzing economic data. Simple and multiple regression. Problems of autocorrelation multicollinearity and heteroskedasticity.
Prerequisite: ECON 3.
Misc/Lab: Lecture 3 hours/lab 2 hours.
Normal Grade Rules
4 units

ECON 104. Mathematical Methods for Economics
Applications of linear algebra and differential calculus to economic analysis. Topics include market equilibrium, properties of production functions, multipliers, optimization methods, comparative statics analysis.
Prerequisite: ECON 1A, ECON 1B & MATH 30 or MATH 71
Normal Grade Rules
4 units

ECON 105. Managerial Economics
Applications of economic analysis to practical problems in the private and public sector. Demand and cost analysis, market structure, statistical estimation and forecasting.
Prerequisite: ECON 1B.
Normal Grade Rules
4 units

ECON 106. Environmental Economics
Applications of economic analysis to practical problems in the private and public sector. Demand and cost analysis, market structure, statistical estimation and forecasting.
Prerequisite: ECON 1B.
Normal Grade Rules
4 units

ECON 107. Introduction to Environmental Economics and Policy
See ENV 107.
Normal Grade Rules
3 units

ECON 108. Cost-Benefit Analysis
Theory and practice of cost-benefit analysis applied to various topics including public projects and environment. Welfare foundations of CBA, valuation of goods (such as clean air, wilderness, and sports arenas), discounting future values and cost.
Prerequisite: ECON 1B and ECON 3 or STAT 95, or instructor consent
Normal Grade Rules
4 units

ECON 109. Analysis of Economic Issues for Teachers
Economic analysis of such topics as unemployment, inflation, poverty, pollution, education and international trade will be covered within the context of K-12 education.
Prerequisite: Upper division standing.
Notes: Not acceptable for Economics majors, except double majors; acceptable for Economics minors.
Normal Grade Rules
3 units

ECON 110. Economic Development
Theories of development and underdevelopment. Problems of initiating and sustaining growth. Relations between developed and underdeveloped regions. Economic reform and change in the underdeveloped world.
Prerequisite: ECON 1A and ECON 1B.
Normal Grade Rules
4 units
ECON 113A. Economic History of the United States
Economic analysis of U.S. and Canadian history to the mid-20th century and its application to understanding the causes, patterns and consequences of economic development.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
4 units

ECON 113B. Economic History of Europe
Economic analysis of U.S. history to the mid-20th century and its application to understanding the causes, patterns and consequences of economic development.
Prerequisite: Upper division standing or instructor consent.
Notes: Offered summer and winter sessions and occasionally during the academic year.
Normal Grade Rules
4 units

ECON 121. Industrial Organization
Microeconomic theory applied to pricing of products by seller having different market structures such as competition, imperfect competition, monopoly, public utility regulation or government pricing.
Prerequisite: ECON 1B.
Normal Grade Rules
4 units

ECON 122. Public Finance
Prerequisite: ECON 1B.
Normal Grade Rules
4 units

ECON 131. Public Choice
Economic analysis applied to non-market decision making. Topics may include: voting, special interests, rent-seeking, legislative decision-making, bureaucracy, collective action problems, judicial decision-making, political business cycles, and comparative political institutions.
Prerequisite: ECON 001B
Normal Grade Rules
4 units

ECON 133. Principles of Investments
Stocks, bonds, money market instruments, options, futures and real estate. Institutions, markets and theory. Speculation, present value theory, yields, term structure, taxes, portfolios and insurance.
Prerequisite: ECON 1A and ECON 1B
Normal Grade Rules
4 units

ECON 135. Money and Banking
Monetary institutions and theory, central banking, Federal Reserve System, interest rates, foreign exchange, price level theory, flow of funds, policy relative to private, government and international finance.
Prerequisite: ECON 1A
Normal Grade Rules
4 units

ECON 136. International Economics
International trade theory, customs union, tariffs, quota policies. International monetary system balance of payments problems, foreign exchange markets.
Prerequisite: ECON 1A and ECON 1B
Normal Grade Rules
4 units

ECON 137A. Fundamentals of Corporate Finance
Net present value criterion for investment and financial decisions, portfolio analysis, capital assets pricing model, information efficiency of security markets, influence of dividend policy on stock prices and optimality of financial structure of corporations.
Prerequisite: ECON 1B
Normal Grade Rules
4 units

ECON 137B. Topics in Corporate Finance
Analytical coverage of topics such as role of leverage, valuation of options (warrants, puts, calls and convertibles), valuation of risky debt, capital budgeting, mergers, financial planning and international aspects of corporate finance.
Prerequisite: ECON 137A or instructor consent.
Normal Grade Rules
4 units

ECON 138. Business and Economic Forecasting
Use of regression techniques to forecast movements in economic conditions having effects on business firms and governments.
Prerequisite: ECON 1A, ECON 1B and a semester of statistics.
Normal Grade Rules
4 units

ECON 139. Principles of Investments
Stocks, bonds, money market instruments, options, futures and real estate. Institutions, markets and theory. Speculation, present value theory, yields, term structure, taxes, portfolios and insurance.
Prerequisite: ECON 1A and ECON 1B
Normal Grade Rules
4 units

ECON 141. Law and Economics
Effects on resource use of existing and proposed laws concerning contracts, tort liability, crime, water resources, antitrust, real property, the environment and corporations.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
4 units

ECON 150. Economic Analysis of Law
Economic analysis of law. Emphasizes the application of economic principles to problems in the law. Some common law topics include: the structure and process of lawmaking, the role and impact of legal institutions and the economic analysis of selected substantive legal areas. Critical thinking skills developed through the close reading of legal materials and the study of the economic tools needed to analyze legal problems. Prerequisite: ECON 1A or ECON 1B.
Normal Grade Rules
4 units

ECON 151. Labor Economics
Development of labor institutions and markets, public regulation of unions, economics of collective bargaining. Theories of wages, employment and labor income.
Prerequisite: ECON 1A or ECON 1B.
Notes: Offered occasionally during the academic year.
Normal Grade Rules
4 units

ECON 155. Principles of Austrian Economics
Examines the discipline of Austrian economics and differentiates from other economic disciplines. Uses the Austrian approach to analyze and understand the consequences of various policy prescriptions.
Prerequisite: ECON 001A and ECON 001B
Normal Grade Rules
4 units

ECON 158. Economics of Entrepreneurship
Examines how economists have approached the phenomenon of entrepreneurship, from its behavioral foundations to its effects on economic growth and progress. Explores the role of entrepreneurship in theory and policy, and emphasizes its cultural, legal, and political determinants.
Prerequisite: ECON 001A and ECON 001B
Normal Grade Rules
4 units

ECON 160. Public Regulation of Business
Economic criteria of public regulation and control of private business with emphasis on the problems of public policy.
Prerequisite: ECON 1B.
Notes: Offered summer and winter sessions and occasionally during the academic year.
Normal Grade Rules
4 units

ECON 166. Urban Economics
The economic structure of a region, including the economic base and its relation to industries serving the local market, the relationships among the subregions and the location of industry.
Prerequisite: ECON 1A or ECON 1B or instructor consent.
Normal Grade Rules
4 units

ECON 168. Urban Economics
Analysis of major economic problems of metropolitan areas: taxation, financing of urban services, transportation, residential and industrial development, local growth controls, zoning and housing.
Prerequisite: ECON 1B.
Normal Grade Rules
4 units
ECON 170. Health Economics
Introduction to the application of economics to healthcare and medical care issues including demand and supply of healthcare, health insurance, health quality and safety, and the role of regulations within a healthcare system.
Prerequisite: ECON 1A and ECON 1B
Normal Grade Rules
4 units

ECON 180. Individual Studies
Prerequisite: Instructor consent and department chair approval.
Repeatable for credit
Credit / No Credit
1-4 units

ECON 185. Applied Economics Internship
Supervised work with a private or public employer. Provides opportunity to gain experience in applied economics or in a discipline closely related to economics.
Prerequisite: Junior or senior standing and consent of internship coordinator.
Repeatable for credit
Credit / No Credit
3 units

ECON 190. History of Economic Thought
Course includes Ancient Greek thought; the School of Salamanca; mercantilism; Adam Smith and classical political economy; the pre-Marxian socialists and Karl Marx; the marginalist revolution and the development of neoclassical economics; and monetary theory from David Hume to Keynes.
Prerequisite: Econ 1A and Econ 1B
Normal Grade Rules
4 units

ECON 193. New Institutional Economics
Introduces recent approaches to the study of institutions in economics and other social sciences. Examines how formal and informal institutions, including laws, contracts, norms and conventions, affect economic and political outcomes from a global perspective.
Prerequisite: ECON 001B
Normal Grade Rules
4 units

ECON 195. Computational Methods for Economics
Covers the use of software which has the greatest applicability in economics and related social sciences, i.e., spreadsheets, databases, and programs for statistical analysis of data and numerical computation. Examples of software programs that may be covered include Excel, Gretl, Matlab/Octave, Netlogo, R, and STATA.
Prerequisite: ECON 1A, ECON 1B and a semester of statistics.
Normal Grade Rules
4 units

ECON 201. Seminar in Microeconomic Analysis
Advanced analysis of costs, pricing, revenue, market structures, economic efficiency, rates of wages, rent, interest, profits and allocation of resources; analytical models and economic equilibrium.
Prerequisite: ECON 101 and ECON 104.
Normal Grade Rules
3 units

ECON 202. Seminar in Macroeconomic Analysis
Aggregate analyses of inflation and unemployment (and of alternative fiscal and monetary policies) using general equilibrium and dynamic disequilibrium adjustment models of real output, labor, real capital and financial markets (both domestic and international).
Prerequisite: ECON 101, ECON 102 (or equivalents approved by the instructor, with grades of “B” or better).
Normal Grade Rules
3 units

ECON 203A. Economic Research Methods
Illustrates how to construct an economic study. Topics include basic statistical methods, cost-benefit analysis, data analysis, other quantitative techniques, literature reviews, and the professional standards of the discipline.
Prerequisite: Econ 003 & Econ 101 or instructor permission
Normal Grade Rules
3 units

ECON 203B. Seminar in Econometric Methods
Elements of statistical inference (t, F and Chi-square tests); the classical regression model and simultaneous equations models; estimation and prediction; the use of lagged and dummy variables; problems of multicollinearity, heteroskedasticity, serial correlation of disturbances and errors in the variables.
Prerequisite: ECON 103 or instructor consent.
Normal Grade Rules
3 units

ECON 204. Seminar in Mathematical Economics
The use of mathematical techniques such as differential and integral calculus, linear algebra, topology, differential and difference equations, mathematical programming, optimal control theory and game theory to analyze economic models.
Prerequisite: ECON 104 (or equivalent).
Notes: Offered summer and winter sessions and occasionally during the academic year.
Normal Grade Rules
3 units

ECON 205. Workshop in Policy Analysis
Survey of major areas of economic policy such as taxes, transportation, health, housing, environment, trade and education. Students prepare a written report on some topic of policy analysis and present the results to the class.
Prerequisite: instructor consent.
Notes: Usually offered in the Spring semester.
Normal Grade Rules
GE: CWAR
3 units

ECON 205A. Economic Decision Making (Quantitative Economic Analysis for Public Decision-Making)
The nature and use of techniques for estimating the impact of alternative courses of action. Emphasizes fiscal impact analysis, cost benefit analysis, input-output analysis and multiplier methods.
Prerequisite: ECON 101 and ECON 102, or instructor consent.
Normal Grade Rules
3 units

ECON 221. Industrial Organization
Analysis of the relations between industry structures, business conduct and economic performance under conditions of limited governmental interference. Appraises the role of competition and monopoly in the American economy. Stresses the role played by antitrust laws and regulatory commissions in the U.S. economy.
Prerequisite: Instructor consent.
Normal Grade Rules
3 units

ECON 232. Seminar in Public Finance
The public sector. Determination of objectives of the public sector; pricing and output in the public sector; taxes, their distribution and allocative effects; public expenditure theory; public debt theory and policy.
Prerequisite: Instructor consent.
Normal Grade Rules
3 units

ECON 235. Seminar in Monetary Theory and Policy
Concentration on the theoretical aspects of money and monetary policy. Early and modern theories of money demand; early Keynesian and Monetarist monetary analysis; expectations and dynamic monetary business cycles; monetary policy under the Keynesian, Monetarist and New Classical assumptions; open economy monetary theory.
Prerequisite: ECON 1A, ECON 102 and ECON 135, or instructor consent.
Normal Grade Rules
3 units
ECON 236. Seminar in International Trade and Finance
Advanced theory of international trade and finance and its application to current problems in international economics.
Prerequisite: Instructor consent.
Notes: Not offered on a regular basis.
Normal Grade Rules
3 units

ECON 241. Seminar in Law and Economics
Examines the economic effects of legal institutions, existing and proposed, and economic analysis applied to the law. Evaluation of the interactions between legal and economic principles and introduction to standard topics such as property rights, contracts, liability, and torts. Includes case studies, a proposal, research paper and oral presentation.
Prerequisite: Graduate Standing
Normal Grade Rules
3 units

ECON 251. Seminar in Labor Economics
Analysis of labor markets, utilizing economic theory and empirical techniques with applications to public policy. Topics include: investment in human capital; employee compensation issues; compensating wages; discrimination; unions; and public sector labor markets.
Prerequisite: Graduate Standing or Instructor consent.
Notes: Offered summer and winter sessions and occasionally during the academic year.
Normal Grade Rules
3 units

ECON 281. Advanced Topics in Economics
This course addresses current developments or special-interest topics in economics.
Prerequisite: Instructor Consent
Repeatable for credit
Normal Grade Rules
3 units

ECON 285. Applied Economics Internship
Supervised work with a private or public employer.
Prerequisite: Graduate standing and 3.0 GPA.
Credit / No Credit
3-6 units

ECON 289. Master’s Thesis or Project
Open only to approved candidates for the MA - Economics degree.
Description: Open only to approved candidates for the MA - Economics degree.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

NO DEGREE CREDIT
ECON 1290R. Culminating Experience Supervision
Department and University support for progress to completion of culminating experience.
Prerequisite: Outstanding RP grade in a preceding semester in a culminating experience class or project.
Note: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit
Education - Communicative Disorders and Sciences, Department of Courses

AUDIOLOGY

UPPER DIVISION

EDAU 115. Introductory Hearing Science
Anatomy, physiology and psychoacoustics of the auditory system; theories of hearing and physics of sound. Prerequisite: CDS major, upper division standing, or instructor consent. Normal Grade Rules 3 units

EDAU 116. Audiology for Speech-Language Therapists
Anatomy, physiology and psychoacoustics of the auditory system; theories of hearing and physics of sound. Prerequisite: CDS major, upper division standing, or instructor consent. Repeatable for credit Normal Grade Rules 3 units

EDAU 170. Audiology I
Theory and application of the fundamentals of pure tone and speech, audiometric procedures and immittance measurements basic to identification audiometry and the differential diagnosis of peripheral auditory problems. Prerequisite: EDAU 115 or instructor consent. Normal Grade Rules 3 units

EDAU 172. Introduction to Principles of Aural Rehabilitation
Principles and methods of aural rehabilitation procedures. Components include development of listening, visual and oral communication skills; psycho-social aspects of hearing loss. Prerequisite: EDAU 115 and EDAU 170. Normal Grade Rules 3 units

EDAU 177. Practicum in Audiology
Supervised clinical experience in basic testing and treatment of children and adults with communicative disorders due to hearing impairments. Prerequisite: EDAU 170 and EDAU 172 or instructor consent. Repeatable for credit Credit / No Credit 1-3 units

EDAU 180. Individual Studies
Supervised study in specific fields of audiology not covered by offered courses. Prerequisite: Upper division standing and area coordinator consent. Repeatable for credit Normal Grade Rules 1-3 units

GRADUATE

EDAU 257. Seminar in Audiology
Current issues impacting the practice of audiology. Prerequisite: 6 units of graduate work or instructor consent. Repeatable for credit Normal Grade Rules 3 units

EDAU 273. Aural Rehabilitation
Aural rehabilitation services and procedures for the hearing impaired. Emphasis on governmental agencies, community services, especially for adult and geriatric populations, school programs and the professional role and responsibilities of the audiologist. Repeatable for credit Normal Grade Rules 3 units

EDAU 277. Advanced Practicum in Aural Rehabilitation
Supervised advanced clinical experience with children and adults with complex communicative disorders due to hearing impairments, leading to independence in administering therapeutic services. Prerequisite: EDAU 177, EDAU 172 (or equivalent) and instructor consent. Repeatable for credit Normal Grade Rules 1-3 units

EDAU 298. Special Studies
Supervised study in a specific field of audiology. Prerequisite: Consent of area coordinator. Repeatable for credit Mandatory CR/NC/RP 1-3 units

SPEECH PATHOLOGY

UPPER DIVISION

EDSP 102. Language Development in Children
Students will acquire knowledge concerning the language learning process and theories as well as the factors that intervene in its normal development. We will review linguistic terminology, components in language, stages of language development, and language diversity factors. Prerequisites: CDS major or instructor consent. Normal Grade Rules 3 units

EDSP 110. Resources for Human Communication Disorders
Scope of human communication disorders and public attitudes affecting educational, sociological, psychological and vocational opportunities of the communication disordered. Management resources for the communication handicapped. Prerequisite: CDS major, upper division standing, or instructor consent. Normal Grade Rules 3 units

EDSP 111. Introduction to Phonetics
Principles of the International Phonetic Alphabet and their application. Prerequisite: CDS major, upper division standing, or instructor consent. Normal Grade Rules 3 units

EDSP 112. Principles of Assessment and Treatment in Communicative Disorders
Fundamental principles of assessment and treatment of communicative disorders. Prerequisite: EDSP 102, 111, 113, or instructor consent. Normal Grade Rules 3 units

EDSP 113. Speech Science
Analysis and measurement of the components and processes involved in the production and reception of speech. Prerequisite: CDS major, upper division standing, or instructor consent. Normal Grade Rules 3 units

EDSP 120. Communicative Disorders in Children
Etiology and remediation of communicative disorders in children. Prerequisite: EDSP 102, 111, 113, or instructor consent. Normal Grade Rules 3 units
EDSP 124. Assessment in Speech Pathology  
Principles and practices of assessment of language, speech and communication disorders. Clinical procedures and theory in diagnostic evaluations.  
Prerequisite: EDSE 102, EDSP 110, EDSP 111 or instructor consent.  
Normal Grade Rules  
3 units

EDSP 161. Normal Processes of Speech, Language and Hearing  
Normal neuropsychological processes of swallowing, speech, language and hearing. Normal functioning of the nervous system in sensory, cognitive and motor processes.  
Prerequisite: Upper division standing, EDSP 113 or instructor consent.  
Normal Grade Rules  
3 units

EDSP 162. Communicative Disorders in Adults  
Etiology and remediation of communicative disorders in adults.  
Prerequisite: EDSP 102, 111, 113, or instructor consent.  
Normal Grade Rules  
3 units

EDSP 177. Practicum in Speech Pathology  
Supervised clinical experience with children and adults who have speech and language disorders.  
Prerequisite: EDSP 112, EDSP 120 and EDSP 125 or instructor consent.  
Credit / No Credit  
1-3 units

EDSP 180. Individual Studies  
Supervised study in specific fields of speech pathology.  
Prerequisite: Upper division standing and area coordinator consent.  
Repeatable for credit  
Credit / No Credit  
1-3 units

EDSP 221. Research Seminar in Communicative Disorders  
An overview of the theory, procedures, application and use of research in educational settings; assist in the study of a specific area of applied research from the current professional literature; and assist in the development of a specific research proposal.  
Note: This course satisfies graduate-level GWAR in this master’s program.  
Normal Grade Rules  
GE GWAR  
3 units

EDSP 222. Navigating Oral and Written Connections: Theory and Applications  
Explores and discusses connections between listening, speaking, reading and writing with applications in assessing and planning intervention programs for monolingual and bilingual individuals who have a developmental or acquired language-learning disabilities. Required for speech-language pathologists.  
Prerequisite: EDSP 251, EDSP 259, EDSP 262, EDSP 276 or instructor consent.  
Normal Grade Rules  
3 units

EDSP 250. Seminar in Voice Disorders  
Advanced discussion of human voice production, the perceptual, acoustic, and physiologic characteristics of voice disorders, and clinical implications, with hands-on learning of assessment methods and treatment of functional, organic, and neurological voice disorders across the lifespan.  
Normal Grade Rules  
3 units

EDSP 251. Seminar in Phonological Disorders  
Establishes a level of advanced competency in the knowledge and understanding of phonology and phonological disorders: the procedures of analysis, the assessment of phonological disorders and the establishment of intervention strategies as a logical consequence of diagnostic findings.  
Prerequisite: Graduate standing or instructor consent.  
Normal Grade Rules  
3 units

EDSP 252. Fluency Disorders  
Examines the complex issues related to the clinical management of fluency disorders. Includes contemporary research on etiology, assessment methods and concerns, intervention approaches, interdisciplinary considerations, and technological advancements.  
Prerequisite: Graduate standing or instructor consent.  
Normal Grade Rules  
3 units

EDSP 254. Seminar in Neurological Disorders  
Provides an understanding of the neuropsychological, cognitive and linguistic correlates underlying adult neurological disorders. Assessment and treatment for a variety of disorders emphasized.  
Prerequisite: Graduate standing or instructor consent.  
Normal Grade Rules  
3 units

EDSP 255. Seminar in Motor Speech Disorders  
Provides an understanding of anatomy, physiology and neurology of motor speech disorders. Emphasis on assessment and treatment of apraxia and dysarthrias.  
Prerequisite: Graduate standing or instructor consent.  
Normal Grade Rules  
3 units

EDSP 259. Seminar in Language Disorders in Children  
Provides an understanding of the neuropsychological, cognitive and linguistic correlates of developmental language disorders which underlie the competencies to diagnose and provide treatment for children with language impairments.  
Prerequisite: Graduate standing or instructor consent.  
Normal Grade Rules  
3 units

EDSP 260. Seminar in Dysphagia  
A review of the anatomic, neurologic, physiologic, and behavioral correlates of normal and disordered swallowing across the life-span. Assessment and treatment of swallowing disorders will be emphasized in children and adults with genetic and acquired disorders.  
Prerequisite: EDSP 254, 255, 265 or Instructor Consent.  
Normal Grade Rules  
3 units

EDSP 262. Speech and Language in a Cross-Cultural Society  
Communication development and disorders in bilingual clients. Emphasis on the assessment of such disorders to the bilingual population.  
Normal Grade Rules  
3 units

EDSP 264. Contemporary Professional Issues  
Organization and development of profit and nonprofit agencies that serve the communicatively impaired. Role and responsibilities of supervisors included.  
Normal Grade Rules  
3 units

EDSP 265. Seminar in Cognitive Disorders  
Provides a framework for better understanding the process of cross-generational communication and the improvement of communication competencies for interaction with cognitively impaired persons.  
Normal Grade Rules  
3 units

EDSP 269. Field Experience in Public Schools - Speech Pathology and Audiology  
Supervised teaching in speech pathology and audiology. Two hundred clock hours minimum requirement for credential as speech, language and hearing specialist.  
Prerequisite: TB clearance, CPR, basic physical, Hep B  
Normal Grade Rules  
6 units

EDSP 276. Practicum in Advanced Assessment  
Supervised clinical experience in assessment of a variety of speech/language disorders. Laboratory and classroom experience required.  
Prerequisite: EDSP 124 and instructor consent.  
Repeatable for credit  
Normal Grade Rules  
3 units
EDSP 277. Advanced Practicum-Speech Pathology
Working with children, adult, and group clients within a clinical practicum setting including preparing lesson plans, analyzing assessment results, developing and implementing therapy activities, collecting data, conducting client conferences and writing reports and home programs.
Prerequisite: Graduate standing and instructor consent.
Repeatable for credit
Normal Grade Rules
1-3 units

EDSP 278. Clinical Management and Practicum
Supervised clinical experience
Prerequisite: EDSP 254, EDSP 255, EDSP 276, EDSP 277 and instructor consent.
Repeatable for credit
Credit / No Credit
6-10 units

EDSP 288. Seminar in ACC and Communication Disorders
Exploration of how augmentative and alternative communication is used for individuals with complex communication needs. The impact of cognition, educational, physical, psychosocial and linguistic aspects of behavior on AAC use, assessment, intervention and research will be explored.
Prerequisite: EDSP 255, graduate standing or instructor consent.
Normal Grade Rules
3 units

EDSP 298. Special Studies
Supervised study in a specific field of speech pathology.
Prerequisite: Instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-3 units

EDSP 299. Master’s Thesis
Supervised thesis work in the field of speech pathology.
Prerequisite: Instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units
Education - Counselor Education, Department of Courses

COUNSELOR EDUCATION

LOWER DIVISION

EDCO 004. Personal, Academic and Career Exploration
This course explores the concepts and applications of personal decision-making. Introduction to life-span development concepts through the use of self-assessment instruments and procedures. Orientation to San Jose State University. GE Area: E
Normal Grade Rules
GE EE
3 units

EDCO 004FY. Personal, Academic and Career Exploration
This course explores the concepts and applications of personal decision-making. Introduction to life-span development concepts through the use of self-assessment instruments and procedures. Orientation to San Jose State University.
Misc/Lab: 2 hours lecture/2 hours Lab
Normal Grade Rules
GE EE
3 units

UPPER DIVISION

EDCO 180. Individual Studies
Supervised study in specific fields of counselor education not covered by other courses.
Prerequisite: Program director consent.
Repeatable for credit
Credit / No Credit
1-3 units

EDCO 215. Introduction to Counseling and Guidance
Introduction to counseling and guidance research, theories, concepts, and competencies. Provides an overview of the related professional roles and settings.
Note: This course satisfies graduate-level CWAR in this master’s program.
Normal Grade Rules
GE CWAR
3 units

EDCO 218. Counseling Process & Techniques
Foundational course in individual and small group counseling process, skills, and techniques. Examines the characteristics of an effective counselor, the role of the counselor in the counseling process, and fundamental counseling microskills and techniques.
Normal Grade Rules
3 units

EDCO 219. Practicum in Guidance II
Provides for the expansion and extension of the skills with a focus on group systems communication. Media will be used to help students be aware of constructive and destructive elements of interpersonal functioning in group systems. Two intensive training weekends.
Repeatable for credit
Credit / No Credit
3 units

EDCO 221. Research in Counselor Education
Exploration of research and evaluation in education and counseling. Research procedures, forms of evaluation, and data collection and analysis techniques are examined. Coursework focuses on the conceptualization and development of a research proposal.
Prerequisite: EDCO 215
Normal Grade Rules
3 units

EDCO 227. School-Family-Community Collaboration
Exploration of the socio-cultural and psychological dynamics influencing home, school, and community relations. To provide knowledge to collaborate effectively with diverse families, communities, and school personnel to support students’ learning, achievement, and psychological well-being.
Normal Grade Rules
3 units

EDCO 232. Law & Ethics in Counseling
Examination of the professional ethical standards guided by the American School Counselor Association (ASCA) and American Counseling Association (ACA) codes of ethics. To explore local, state and federal laws relating to youth and child welfare, adults, and families.
Normal Grade Rules
3 units

EDCO 244. Cultural Perspectives in Counseling
Exploring, identifying, and broadening personal perspectives, with an emphasis on culture and diversity in the context of counseling. Raising awareness regarding multicultural diversity and social justice issues.
Prerequisite: EDCO 215, 218, 232, 248
Normal Grade Rules
3 units

EDCO 248. Dynamics of Behavior and Development
Study of the dynamics of individual and group behavior over the lifespan. Specific study of selected personality and development theory and practices.
Normal Grade Rules
3 units

EDCO 266. Education and Career Planning
Study of practice and theories of educational and career planning. Includes sources, uses, evaluation and filing of educational and career information and procedures for working with both individuals and groups.
Normal Grade Rules
3 units

EDCO 267. Practicum in Lifespan and Career Development
Practicum in lifespan development and career planning with emphasis on the development of applied skills in career counseling. May be repeated for credit when an alternate focus is shown in the Schedule of Classes.
Prerequisite: Core curriculum.
Repeatable for credit
Normal Grade Rules
1-3 units

EDCO 268. Lifespan Development
Examination of human development across the lifespan, through multiple theoretical and cultural perspectives, with a holistic integration of physical, cognitive, and socio-emotional aspects of development. To deepen knowledge to assist children, adolescents, and adults with life challenges.
Normal Grade Rules
3 units

EDCO 279. Advanced Group Process Theory and Practice
Focus on diverse theoretical approaches in group dynamics, group facilitation/leadership and the group as an instrument of learning within varying institutional settings.
Prerequisite: Core curriculum and instructor consent.
Normal Grade Rules
3 units

EDCO 280. Multicultural Counseling
Practical application of multicultural counseling theories and techniques. Examine and understand personal cultural perspectives; develop empathy and understanding of various community cultures.
Prerequisite: EDCO 215, 218, 232, 248, 266 and 244
Repeatable for credit
Normal Grade Rules
3 units
EDCO 282. Assessment for Counselors
Exploration of the assessment and diagnostic process, including differential diagnosis and use of diagnostic tools including the current edition of the Diagnostic and Statistical Manual. Discuss development of pathology, applicable for use within educational and counseling agency settings.
Prerequisite: EDCO 215, 218, 232, 248
Normal Grade Rules
3 units

EDCO 283. Advanced Educational Assessment
Concept and practice in uses of standardized evaluative instruments in school and community. Emphasis on generating curriculum and guidance hypotheses for groups.
Prerequisite: Core curriculum.
Normal Grade Rules
3 units

EDCO 285. Trauma Counseling & Crisis Intervention
Advanced seminar addressing cognitive, affective, behavioral, physiological, and interpersonal effects of trauma. To learn to assess and respond to crises as well as brief and long-term counseling interventions for individuals and groups in K-12, higher education, and agency settings.
Prerequisites: EDCO 215, 218, 232, 248, 266, 282
Normal Grade Rules
3 units

EDCO 286. Organizational Change and Development
Examination of organizational change within educational and community settings. To develop knowledge and increase skills in using institutional change strategies and innovations in various settings. Concepts and skills are applied through the design and planning of a change intervention.
Prerequisite: EDCO 215, 218, 232, 248, 266, and 282
Normal Grade Rules
3 units

EDCO 287. Comprehensive School Counseling Analysis
Examination of the planning, development, organization, and evaluation of comprehensive K-12 school counseling programs based on national standards. Coursework is designed to increase effective use of data and technology to promote students’ academic, career, and personal/social development. Hybrid course format.
Prerequisite: EDCO 227
Normal Grade Rules
3 units

EDCO 288. Seminar in Counseling Theory and Practice
Assists students in the clarification of philosophical and psychological theory and develops a consistent individual and group counseling theory in relation to a defined lifestyle and the study of practice in school and agency settings.
Prerequisite: Core curriculum.
Corequisite: EDCO 280.
Normal Grade Rules
3 units

EDCO 289. Seminar in Professional Counseling
A culminating seminar which emphasizes a critical review and critique of theory and research in application of human development specialties. May be repeated for credit when an alternate focus is shown in the Schedule of Classes.
Prerequisite: Instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

EDCO 292. Supervised Experience in Counseling
Supervised field experience in guidance and counseling. Assignments to public schools or agencies.
Prerequisite: Core curriculum.
Repeatable for credit
Credit / No Credit
3-6 units

EDCO 293. Practicum in Child and Substance Abuse
A practicum in peer group systems and psychodrama counseling intervention for treatment of addiction, physical and sexual abuse, teen pregnancy and other at-risk groups. Required participation in a peer group counseling process.
Prerequisite: Instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

EDCO 294. Practicum in Self-Development
Facilitates training in individual and group counseling methods, including transpersonal journal, psychodrama and peer group techniques.
Prerequisite: EDCO 218, EDCO 219 and instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

EDCO 298. Special Studies in Counselor Education
Supervised study for master’s degree counselor education candidates with a final course product that satisfies the department and university Plan B requirement.
Prerequisite: EDCO 215 and EDCO 221
Repeatable for credit
Mandatory CR/NC/RP
3 units

EDCO 299. Master’s Thesis
Supervised thesis in the field of counseling and guidance. Prerequisites: Advanced to candidacy, satisfactory completion of EDCO 221 & advisor/designated faculty consent
Repeatable for credit
No Degree Credit
3 units

EDCO 1010. Adjunct Learning
Reading/writing/learning skills necessary for comprehension of textbooks and lectures in various disciplines; includes notetaking, exam preparation and library techniques. Not repeatable for graduation credit.
Repeatable for credit
No Degree Credit
1-2 units
ELECTEDONAL LEADERSHIP

EDD 501. Quantitative Analysis for Educational Research
Students will develop a comprehensive understanding of the statistical principles used in the description and analysis of data. Students will also learn how to conduct appropriate statistical analyses, interpret findings, and compose meaningful reports while examining how these skills can lead to being a more informed and involved educator.
Prerequisite: Acceptance into the Ed.D. Program
Normal Grade Rules
3 units

EDD 502. Qualitative Methods in Educational Research
Explores qualitative research approaches and methods including participant observation, interviews, ethnography, narrative and case study approaches; includes methods of data analysis such as discourse analysis, dialogic analysis, and visual analysis.
Prerequisite: Acceptance into the Ed.D. Program
Normal Grade Rules
3 units

EDD 510. Educational Leadership: Theory and Practice
This course presents an overview of the major concepts and theories that constitute the knowledge base in the leadership of education, including an examination of leadership theories from early models of hierarchical control to contemporary models of shared leadership and organizational transformation.
Prerequisite: Acceptance into the Ed.D. Program
Normal Grade Rules
3 units

EDD 511. Leadership for Learner Centered Organizations
Students will develop the knowledge and skills for examining, designing and implementing organizational, classroom, and training conditions that support quality learning experiences for individuals in the organization.
Prerequisite: Acceptance into the Ed.D. Program
Normal Grade Rules
3 units

EDD 512. Leadership, Complexity, and Systems Thinking
This course presents principles, theories, attributes related to individual leadership development. It includes concepts related to systems thinking that are critical to the long-term sustainability of your school, agency, or organization.
Prerequisite: Acceptance into the Ed.D. Program
Normal Grade Rules
3 units

EDD 515. Leadership, Diversity, and Culture: Family, School and Community Connections
Educational leadership and management issues related to an increasingly diverse student body in educational institutions. Reviews educational research, practice, theory and legal matters within local and global contexts. Students engage in activities and discussions focused on strategies utilized by social justice advocates that have the potential to improve educational experiences and opportunities in P-12 settings, and in university-school-community partnerships. Emphasis placed on the interaction between underrepresented segments of society and educational institutions with attention to varying cultural backgrounds, communication patterns, social networks, leadership and administrative styles.
Prerequisite: Acceptance into the Ed.D. Program
Normal Grade Rules
3 units

EDD 520. Organizational Behavior and Change in Education
This course seeks to interpret and analyze observed organizational processes, behavior, and potential solutions using theoretical insights. The course relies on seminar discussions, theory applications, and an organizational change design project and evaluation research design.
Prerequisite: Acceptance into the Ed.D. Program
Normal Grade Rules
3 units

EDD 522. Communication and Educational Leadership
This course analyzes popular narratives on education and leadership theories from early models of hierarchical control to contemporary models of shared leadership and organizational transformation.
Prerequisite: Acceptance into the Ed.D. Program
Normal Grade Rules
3 units

EDD 525. District Office Administration: The Superintendency
An overview of the major concepts and theories that constitute the knowledge base in the superintendency, including public education governance, role characterizations and management responsibilities, the conditions of practice and contemporary challenges, the school organization, federal and state policy and superintendent-school board relations.
Prerequisite: Acceptance into the Ed.D. Program
Normal Grade Rules
3 units

EDD 530. Assessment, Testing and Evaluation: Contexts and Implications for School Reform
This course provides a historical, analytical and empirical framework for understanding assessment, testing and evaluation in K-12 education. The context aims at exploring the current national and state accountability policy regimes in the U.S. particularly those linked to the Common Core Standards movement.
Prerequisite: Acceptance into the Ed.D. Program
Normal Grade Rules
3 units

EDD 535. Education Policy, Resource Allocation and School Reform
This course is designed for students to develop understanding of education policy. The course explores the formation, design, and implementation of school reform efforts across different levels of educational system.
Prerequisite: Acceptance into the Ed.D. Program
Normal Grade Rules
3 units

EDD 550. Education and Leadership in Global Context: Globalization & Narrative Ethics
This course provides global perspectives on education and leadership in contemporary society with emphasis on social, political, and economic factors that affect access and equity and the role of leadership.
Normal Grade Rules
3 units

EDD 585. Field Experience: Global Context
Lectures, field visits, and extended study of education and leadership in global context
Mandatory CR/NC/RP
3 units

EDD 591A. Proseminar I: Introduction to Doctoral Studies in Educational Leadership
This course provides an orientation to the doctoral program in educational leadership, doctoral studies more generally, and an overall introduction to educational leadership studies. The seminar will discuss the skills and practices needed to be successful doctoral students, both as consumers and producers of research.
Credit / No Credit
3 units
EDD 591B. Proseminar II - Practitioner-Led Research
The course content focuses on practice-led research methods and the problems they are best suited to answer. In practice-led research, the primary focus of the research is to advance knowledge about practice, or to advance knowledge within practice.
  Mandatory CR/NC/RP
  3 units

EDD 591C. Professional Seminar III: Structuring & Writing a High Quality Dissertation
The focus of the seminar is to facilitate the production of a high quality dissertation. Candidates will gain a deep understanding of the expectations of dissertation writing by examining published dissertations and considering relevant applications to their own dissertation writing.
  Mandatory CR/NC/RP
  3 units

EDD 599. Dissertation
Over the final year of the program, students must enroll in 12 units of dissertation credit. This course carries degree credits to recognize work done on the dissertation and is to be used on the candidacy form and to fulfill graduation requirements.
Prerequisite: Acceptance into the Ed.D. Program
  Repeatable for credit
  Mandatory CR/NC/RP
  1-12 units

NO DEGREE CREDIT

EDD 1290R. Culminating Experience Supervision
Continued work on dissertation or project.
Prerequisite: Outstanding RP grade in a preceding semester in a project or thesis class
Note: No Degree Credit
  No Degree Credit
  1 unit
Education - Educational Leadership, Department of Courses

ADMINISTRATION AND HIGHER EDUCATION

UPPER DIVISION

EDAD 160A. Leadership, Education, and Advocacy Development (LEAD)
Review and discuss issues related to educational equity and the experience of first-generation college students, learn about communication with the community. Autoethnographic and basic qualitative approaches to research and graduate school.
Prerequisite: Passage of the WST and Upper Division Status
Normal Grade Rules
3 units

EDAD 200. The School Manager
Management skills for leading effective school organizations. Present and emerging issues in our society and how they relate to schooling; Governance of education.
Prerequisite: Admission to Graduate Division.
Normal Grade Rules
3 units

EDAD 201. The School Leader
Leadership as principal and program administrator in a variety of settings. Promotion of successful learning. Instructional program administration. Personnel functions at school level. Group problem solving and decision-making.
Prerequisite: Admission to Graduate Division
Note: This course satisfies graduate-level CWAR in this master's program.
Normal Grade Rules
CE CWAR
3 units

EDAD 202. The Educator
Prerequisite: Admission to Graduate Division.
Repeatable for credit
Normal Grade Rules
3 units

EDAD 203. The School Human Resources Administrator
Certificated staff supervision and staff development. Organization development, staff motivation and personnel management functions at the district level.
Prerequisite: Admission to Graduate Division.
Normal Grade Rules
3 units

EDAD 204. School Fiscal and Legal Leadership
Prerequisite: EDAD 200 and admission to Graduate Division
Normal Grade Rules
3 units

EDAD 205. The School Leader in the Community
Mobilization of community and public agency resources. Response to cultural and socio-economic diversity in the community. Communication with the community.
Prerequisite: Admission to Graduate Division.
Normal Grade Rules
3 units

EDAD 206. Advocate for All Students
Administration of programs for handicapped, economically disadvantaged and other exceptional students. Needs assessment and goal setting. Preparation of proposals for competitive funding to foundations and public agencies.
Prerequisite: Admission to Graduate Division.
Normal Grade Rules
3 units

EDAD 221A. Research Seminar Ed Leadership
To provide an overview of the theory, procedures, application, and use of research in educational settings. To deepen your understanding of the ways that educational research can be brought to bear on the challenges of practice.
Normal Grade Rules
3 units

EDAD 221B. Research Seminar Ed Leadership: Methods
To provide an overview of theory, procedures, application, and research in educational settings. To assist in the study of a specific area of applied research from the current professional literature and in the development of a specific research proposal.
Prerequisite: EDAD 221A
Normal Grade Rules
3 units

EDAD 221C. Research Ed Leadership: Data Collection
To provide an overview of and support during data collection, data organization, and preliminary analyses of findings. To assist in the study of a specific area of applied research from the current professional literature to carry out a specific research project.
Prerequisites: EDAD 221A and EDAD 221B
Normal Grade Rules
3 units

EDAD 242A. Fieldwork: Effective Leadership
This fieldwork course focuses on dispositions of effective educational leadership and provides for the application of administrative skills in various educational settings in instructional leadership, school management, personnel management, and business management.
Prerequisite: EDAD 242A
Repeatable for credit
Credit / No Credit
3 units

EDAD 242B. Fieldwork: Instructional Leadership
This fieldwork course focuses on dispositions of effective instructional leadership and provides for the application of administrative skills in various educational settings in instructional leadership, school management, personnel management, and business management.
Prerequisite: EDAD 242A
Repeatable for credit
Credit / No Credit
6 units

EDAD 242C. Fieldwork: Assessing Resources
This fieldwork course focuses on the application of administrative skills in various educational settings in instructional leadership, school management, personnel management, and business management. Leadership skills will be developed for the management of school change initiatives.
Prerequisite: EDAD 242A and EDAD 242B
Credit / No Credit
6 units

EDAD 242D. Fieldwork: Advocacy
This fieldwork course focuses on dispositions of critical leadership while advocating for all students and provides for the application of administrative skills in various educational settings in instructional leadership, school management, personnel management, and business management.
Prerequisite: EDAD 242A, EDAD 242B, and EDAD 242C
Credit / No Credit
6 units
EDAD 242H. Educational Field Work in Higher Education
Designed to provide opportunity for supervised field experience in administration in community colleges and universities.
Repeatable for credit
Credit / No Credit
3 units

EDAD 253. Seminar in Administration in Educational Settings
Analysis of practical problems in educational administration. Application of planning, evaluation and research methodologies to problems in education.
Prerequisite: Completion of all other courses in the administrative credential sequence and EDLD 221.
Repeatable for credit
Normal Grade Rules
3 units

EDAD 270. Administrative Assessment and Induction
Assessment activities for development of Professional Development Action Plan. Development of a plan with official district representative, student, mentor and university supervisor.
Prerequisite: Admission to Professional Services Credential Program.
Credit / No Credit
2 units

EDAD 275A. The Successful School
Based on problem approach to educational administration through exploration of essential questions dealing with leadership in successful schools. Challenged to answer questions/problems in a way that continues development as an educational leader. Challenged to raise questions/problems that you feel are essential.
Prerequisite: EDAD 270 and admission to Professional Services Credential Program.
Note: This course satisfies graduate-level GWAR in this master’s program
GE: GWAR
2 units

EDAD 275B. Improving Schools From Within and Without
One of the courses in the core program of the Professional Credential Program. Assessment and improvement of school level learning support systems; development, supervision and evaluation of certificated staff.
Prerequisite: EDAD 270 and admission to the Professional Services Credential Program.
Normal Grade Rules
6 units

EDAD 275C. Building Equity in Diverse Communities
One of the courses in the core program of the Professional Credential Program. Exploring leadership behaviors that maximize learning for all students.
Prerequisite: EDAD 270 and EDAD 275B.
Normal Grade Rules
2 units

EDAD 275D. Politics and Economics of Education
One of the courses in the core program of the Professional Credential Program. School, district, state and federal governance, and management. Private sector/public sector financial relationships and school/community pressure groups.
Prerequisite: EDAD 270 and admission to the Professional Services Credential Program.
Normal Grade Rules
2 units

EDAD 285A. Advanced Fieldwork/Peer Coaching/Mentoring
Supervised advanced field experiences for school administrators. Peer coaching skills are applied to specialization areas. May not be repeated in the same semester.
Prerequisite: EDAD 270, admission to Graduate Division and admission to the Professional Services Credential Program.
Repeatable for credit
Credit / No Credit
2-6 units

EDAD 298. Individualized Studies in Education
Supervised study in school administrations for both the Preliminary and Professional Services Credential Programs.
Prerequisite: Admission to Graduate Division; EDAD 200 or EDAD 270; advisor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

DESCRIPTION CONTENTS

Education - Special Education, Department of Courses

SPECIAL EDUCATION

LOWER DIVISION

EDSE 014A. American Sign Language I
Introductory course covering basic vocabulary and grammatical structures, appropriate cultural and linguistic behaviors within the deaf community and basic information about the deaf community.
Normal Grade Rules
3 units

EDSE 014B. American Sign Language II
Continuation of EDSE 14A. Covers additional basic vocabulary and grammatical structures, cultural and linguistic behaviors within the deaf community and information about the deaf community.
Prerequisite: EDSE 14A or instructor consent.
Normal Grade Rules
3 units

UPPER DIVISION

EDSE 102. Speech, Language & Typical, Atypical Dev
Prerequisite: Department consent.
Normal Grade Rules
3 units

EDSE 104. Atypical Development in Young Children
Historical and philosophical background of intervention theories of learning related to young children with high risk development. Skills and techniques to promote optimal environments and appropriate methods for early intervention and stimulation of young children with special needs.
Prerequisite: CD 60 (or equivalent).
Normal Grade Rules
3 units

EDSE 105. Supervision Induction Plan Evaluation
Supervised observation, support and feedback for new special education teachers and evaluation of the induction plan.
Prerequisite: Department consent.
Repeatable for credit
Credit / No Credit
6 units

EDSE 105X. Intern Support Seminar
Discussion about challenging aspects of Interns' jobs and a focus on problem solving. Collaboration and effective practices for collaborative group work is addressed. Interns learn to collaboratively interact with others, and to provide support to each other.
Prerequisite(s): Enrollment in the Collaborative Intern Program and teaching with an Intern Credential.
Repeatable for credit
Credit / No Credit
1 unit

EDSE 108. Assessment and Evaluation: Atypical Young Children
Identification, description and assessment of atypical children ages birth through 8 years. Introduction to early intervention and collaboration.
Prerequisite: Department consent.
Normal Grade Rules
3 units

EDSE 110. Autism Spectrum Disorders
EDSE 110 provides an overview to autism spectrum disorders and examines theoretical foundations and applications of evidence-based best practices (EBPs) for students on the Autism Spectrum.
Prerequisite: Special Education Minor
Normal Grade Rules
3 units

EDSE 115. Introduction to Deaf Culture
This course is an introduction to the American Deaf Culture and provides a comprehensive analysis of how Deaf people are understood from a cultural perspective. The identities, contributions and experiences of Deaf people are explored in educational and linguistic context.
Prerequisite: EDSE 014A or EDSE 102
Normal Grade Rules
3 units

EDSE 116. Practicum and Student Teaching in Special Education
Field-based course to measure competency in a special education setting.
Prerequisite: Department consent.
Repeatable for credit
Credit / No Credit
6 units

EDSE 180. Individual Studies
Supervised study of a specific problem or topic.
Prerequisite: Upper division standing and instructor consent.
Repeatable for credit
Credit / No Credit
1-4 units

EDSE 192A. Including and Supporting Students
Preparation for teaching students with disabilities in general education; provides intervention strategies prior to referral for special education with policies and procedures regarding placement of and services for students with disabilities, either in special education or within an inclusive classroom.
Prerequisites: Department consent
Normal Grade Rules
3 units

GRADUATE

EDSE 206A. Assessment Strategies for M/S
Strategies for comprehensive assessment of students from diverse backgrounds and with a variety of language and cognitive skills for the purpose of making instructional decisions. Required field experiences and an emphasis on developing effective communication practices and collaborative partnerships.
Prerequisite: Department consent.
Normal Grade Rules
3 units

EDSE 209. Educating Students with Emotional Disorders
Identification of students with emotional disorders, effective models of instruction, educational theories, teaching strategies and positive behavior support.
Prerequisite: Department consent.
Corequisite: EDSE 105 or instructor consent.
Normal Grade Rules
3 units

EDSE 213A. Curriculum, Instruction and Transition
Exploration of instructional practices and current issues for students with moderate-severe disabilities and English Learners with moderate-severe disabilities. Curriculum design aligned with content standards that promote life skills and successful student transition into school and community settings.
Prerequisite: EDSE 206A and department consent.
Normal Grade Rules
3 units

EDSE 214A. Augmentative and Alternative Comm Strat
The use of augmentative and alternative communication (AAC) devices and strategies for assessing and instructing individuals with complex communication needs in home, school, and community settings, and computer-based technology to facilitate the teaching and learning process.
Prerequisite: Department consent.
Normal Grade Rules
3 units
EDSE 215. Assessment And Evaluation of Individuals with Mild/Moderate Disabilities
Formal and non-formal evaluation methods to assess students with mild/moderate disabilities for first and second language learners. Includes standardized and alternative assessment, tools and practices, case studies, report development, and a comprehensive understanding of related research.
Prerequisite: Department consent.
Normal Grade Rules
3 units

EDSE 216A. Teaching Reading and Language Arts
Emphasis on socio-cultural propensities of diverse groups and theories of culturally relevant pedagogy and a model of teaching reading and writing that is based on scientific research.
Prerequisite: Department consent.
Normal Grade Rules
3 units

EDSE 217A. Directed Teaching I
Supervised teaching experience in educational settings for students with mild to moderate disabilities.
Concurrent seminar.
Prerequisite: Department consent.
Credit / No Credit
6 units

EDSE 217B. Directed Teaching II
Supervised teaching experience in educational settings for students with mild to moderate disabilities.
Concurrent seminar.
Prerequisite: Completion of prescribed credential program including EDSE 217A and departmental consent.
Credit / No Credit
6 units

EDSE 217D. Advanced Directed Teaching
Supervised teaching experience in educational settings for students with disabilities.
Prerequisite: Departmental consent.
Repeatable for credit
Credit / No Credit
3 units

EDSE 218A. ASD: Moderate to Severe Disabilities
Theoretical foundations and application of evidence-based best practices for students with ASD and M/S disabilities including social language interventions, social stories, integrated playgroups, positive behavior support, self-advocacy skills inclusive education, recreation and leisure, and special interventions for young children.
Prerequisite: Department consent.
Normal Grade Rules
3 units

EDSE 218B. ASD: Mild to Moderate Disabilities
Theoretical foundations and application of evidence-based best practices for students with ASD and M/M disabilities including social language interventions, social stories, integrated playgroups, positive behavior support, self-advocacy skills, inclusive education, recreation and leisure, and special interventions for young children.
Prerequisite: Department consent.
Normal Grade Rules
3 units

EDSE 218C. ASD: Collaboration and Implementation of Best Practices
Focus on collaboration and understanding roles of service providers for students with autism spectrum disorders. Team work and strategies for working with educational professionals and parents or significant others in the life of the students with autism spectrum disorders.
Prerequisite: Department consent.
Normal Grade Rules
3 units

EDSE 220. Research Seminar on Exceptional Individuals
Applied research or projects in the field of special education.
Prerequisite: Department consent.
Normal Grade Rules
3 units

EDSE 221. Intervention for Young Children with Disabilities and Delays
Intervention strategies for young children with special needs; theory and design of content, linkage between assessment, intervention and evaluation; inclusion of motor, adaptive, cognitive communication and social skills development; attention to multicultural/linguistic considerations. When content changes may be repeated.
Prerequisite: Department consent.
Normal Grade Rules
3 units

EDSE 222. Methodologies for Second Language Learners in Special Education Programs
Examine the unique considerations, legislation, and approaches to teaching culturally and linguistically diverse students with special education needs.
Prerequisite: Department consent.
Normal Grade Rules
1-3 units

EDSE 224. Topics in Collaboration and Transition
Strategies for effective communication and collaboration practices with members of the various teams that plan and serve students receiving special education services.
Prerequisite: Department consent.
Normal Grade Rules
3 units

EDSE 230A. Curriculum and Instruction M/M
Focus on special education alignment with content standards, integrated curriculum design, information literacy, evidence-based practices for differentiated classroom instruction, multiple intelligences and modeling and integrating habits of mind.
Prerequisite: Department consent.
Normal Grade Rules
3 units

EDSE 231. Issues and Research in Special Education
Evaluation of research on characteristics and methods of identification of individuals with disabilities; including minority and underachieving students. Current funding issues, research models, research on individuals with disabilities and instructional organization are reviewed and analyzed.
Prerequisite: Department consent.
Repeatable for credit
Normal Grade Rules
3 units

EDSE 231X. Educational Research: Design and Implementation
EDSE 231X is a continuation of the process for the development of educational research, implementation of the study, and writing for the Masters of Arts project or thesis started in EDSE 231.
Prerequisites: EDSE 231 and EDSE 285.
Normal Grade Rules
3 units

EDSE 234. Advanced Fieldwork in Special Education
Application of knowledge and skills in classrooms. Examination of ethical practices, work with parents, challenges in application, and professional growth.
Prerequisite: Department consent.
Repeatable for credit
Credit / No Credit
6 units

EDSE 235A. Movement, Mobility, Sensory and Health
Identifies the special services available to students with moderate/severe disabilities and defines the implementation of these services in the school and community. The course will define the role, function and services provided by professionals available to meet the health care and educational needs of students with multiple disabilities. The course will also address appropriate assessment and referral practices for teachers, seizures protocols, basic first aid and universal precautions, medication administration, positioning and handling for students with severe disabilities and feeding techniques.
Prerequisite: Department consent.
Normal Grade Rules
3 units
EDSE 241. Emerging Technology for All Learners
Effective use of the computer to meet exceptional learning needs, including special education software evaluation, word processing for written language development, logo, individualized lessons with graphics and speech and database management for cognitive and language development.
Prerequisite: Department consent.
Repeatable for credit
Normal Grade Rules
3 units

EDSE 279. Managing Behavior and Emotional Problems of Students in Special Education
Introduction to the application of various management approaches to individual and group instruction of exceptional individuals.
Prerequisite: Department consent.
Repeatable for credit
Normal Grade Rules
3 units

EDSE 281. Student Teaching with Deaf and Hard of Hearing Students
Classroom teaching with hearing impaired students in an educational setting under supervision of the instructor.
Prerequisite: Department consent.
Repeatable for credit
Credit / No Credit
6 units

EDSE 285. Seminar on Issues Related to Teaching Exceptional Individuals
Issues, trends and research in educating handicapped students.
Prerequisite: Department consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
3 units

EDSE 298. Special Studies
Supervised study in a specific field of special education; to be taken only with the consent of the division head.
Prerequisite: Department consent.
Repeatable for credit
Mandatory CR/NC/RP
1-3 units

EDSE 299. Master’s Thesis
Supervised thesis in the field of special education, to be taken only with chair consent.
Prerequisite: Department consent.
Repeatable for credit
Mandatory CR/NC/RP
3 units
EDEL 102. Psychological Foundations of Education
Cognitive, affective and social/emotional development related to school settings. Theories of development, learning and instruction critically examined. Other topics include individual differences, measurement, evaluation, instructional goals, classroom management and diversity in the classroom.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

EDEL 103. Social-Multicultural Foundations of Education
Foundational preparation focused on implications of social, cultural, linguistic and economic diversity on teaching and learning. Emphasis on understanding the implications of history and social context on the educational endeavor in a pluralistic and democratic society.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

EDEL 108A. Curriculum: Reading/Language Arts
Elementary school language/literacy acquisition in culturally diverse classrooms; emphasis on listening, speaking, reading and writing within the context of theory and practice. May be repeated for different substitute.
Prerequisite: Upper division standing.
Repeatable for credit
Normal Grade Rules
2-6 units

EDEL 108B. Curriculum: Science
Elementary school science curriculum and theoretical approaches; emphasis on materials, methods, content and evaluation procedures for teaching science in elementary and middle schools in a multicultural and technological society. May be repeated for different substitute.
Prerequisite: Upper division standing.
Repeatable for credit
Normal Grade Rules
1-3 units

EDEL 108C. Curriculum: Social Studies
Elementary school social studies curriculum and instruction with emphasis on the influence of ethnic, linguistic, cultural, economic, gender and disability factors on present day culture.
Prerequisite: Upper division standing.
Repeatable for credit
Normal Grade Rules
1-3 units

EDEL 108D. Curriculum: Mathematics
Elementary school mathematics curriculum and methodology relationships between instructional materials and how children construct knowledge; the role of technology and issues that bear on the teaching of school mathematics. May be repeated for different substitute.
Prerequisite: Upper division standing.
Repeatable for credit
Normal Grade Rules
1-3 units

EDEL 108E. Teaching Reading in Linguistically and Culturally Diverse Classrooms
Assessing and teaching reading in diverse classrooms with K-8. Integrates research, theory and practice. Requires some classroom observation and working in schools with K-8 students.
Prerequisite: LLD 108, ENGL 103 or LLD 107.
Note: Should be taken in final semester of undergraduate program.
Repeatable for credit
Normal Grade Rules
1-3 units

EDEL 143A. Beginning Student-Teaching (Phase I)
Role of state and local government in education. Clinical observation of classroom, school and district organization. Emphasis on lesson planning.
Prerequisite: Upper division standing.
Repeatable for credit
Credit / No Credit
1-6 units

EDEL 143B. Advanced Student-Teaching (Phase II)
Practicum in public school classrooms at two grade levels for student teaching experience; includes field and campus seminar. Supervision by College of Education faculty.
Prerequisite: EDEL 143A.
Repeatable for credit
Credit / No Credit
1-10 units

EDSC 153. Student Teaching/Seminar for Interns
Third of three courses required of second year interns. Action research, peer observation, and self reflection serve as vehicles for examining how instructional design affects student outcomes in content literacy. Includes classroom observations and professional development activities.
Prerequisite: EDSC 152.
Credit / No Credit
2 units

EDSC 162. Language/Literacy Development of L2 Learners
Prerequisite: Program Director consent.
Normal Grade Rules
3 units

EDSC 172A. Social, Philosophical Multicultural Fdn
Social, cultural, historical and philosophical concepts in secondary teacher education. Application to problems of curriculum and instruction in multilingual, multicultural classrooms.
Prerequisite: Program director consent.
Normal Grade Rules
3 units
EDSC 173. Psychological Foundations of Secondary Teacher Education
Application of developmental cognitive and socio-cultural theories of adolescent psychology and culture as a rationale for teaching and learning.
Prerequisite: Program director consent.
Normal Grade Rules
3 units

EDSC 182. Assessment and Evaluation
Principles and practices of measurement and evaluation. Instructional objectives as criteria; construction, selection and use of evaluation instruments. Interpretation of data.
Prerequisite: Program director consent.
Normal Grade Rules
3 units

EDSC 184X. Student Teaching I
Supervised teaching of public middle or high school students. In-class experience ranging from observation to classroom teaching. Emphasis on application of theories examined in foundation courses.
Prerequisite: Program director consent.
Repeatable for credit
Credit / No Credit
2-6 units

EDSC 184Y. Student Teaching II
Minimum 80-120 class periods of classroom teaching in grades K-12. Related school activities.
Prerequisite: Joint approval of major advisor, program director and field placement coordinator.
Repeatable for credit
Credit / No Credit
2-6 units

EDSC 184Z. Student Teaching III
Minimum 80-120 class periods of classroom teaching in grades K-12. Related school activities.
Prerequisite: Joint approval of major advisor, program director and field placement coordinator.
Repeatable for credit
Credit / No Credit
1-6 units

EDSC 246. Learning Communities: Methods and Management
Examine factors that contribute to a healthy, inclusive, and collaborative classroom community. Through critical reflection on their field experiences, teacher candidates develop a broad view of classroom management, and develop their own approach to building a learning community.
Prerequisites: EDSC 184X.
Normal Grade Rules
3 units

TEACHER EDUCATION

UPPER DIVISION

EDTE 162. Meeting the Needs of Second Language Learners
Second Language acquisition theories and application of teaching in diverse secondary classrooms.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

EDTE 166. Pre-Professional Experience
Observation of learners; service as teacher assistants in public school classrooms; tutoring. May be repeated once.
Prerequisite: Upper division standing.
Repeatable for credit
Credit / No Credit
1-3 units

EDTE 180. Individual Studies
Supervised study in specific fields of elementary or secondary education not covered by offered courses.
Prerequisite: Division head consent.
Repeatable for credit
Credit / No Credit
1-3 units

EDTE 190. Health Education for the Classroom Teacher
Current problems of individual, family and community health. Theories, organization, methods and materials for teaching health education.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

EDTE 201. Critical Issues in Education
A cross-disciplinary investigation of fundamental value issues of American education in a democratic society, considered in the context of the problems and prospects of world civilizations.
Normal Grade Rules
3 units

EDTE 208. Educational Sociology
Role of education in modern social, economic and political life. The school as institution. Problems in American life which affect and are affected by public schools.
Note: This course satisfies graduate-level GWAR in this master's program.
Normal Grade Rules
GE: GWAR
3 units

EDTE 210. Becoming a Reader at Any Age
Theory and practice of teaching beginning and struggling readers and writers, both native and nonnative English speakers.
Prerequisite: EDEL 108A or EDSC 138A.
Normal Grade Rules
3 units

EDTE 211. Developing Academic Language for Reading Across the Curriculum
Focus on comprehension across subject areas for first and second language learners: background knowledge, fluency, vocabulary, and metacognition.
Prerequisite: EDEL 108A or EDSC 138A.
Normal Grade Rules
3 units

EDTE 212. Leadership, Politics and Literacy Program Evaluation
Review of reading research, public policy and effective literacy programs for curriculum leaders.
Prerequisite: EDTE 216 and EDTE 217.
Notes: Open to MA candidates in Reading only.
Normal Grade Rules
3 units

EDTE 213. Multicultural Literature for Children and Young Adults
Literature for children and young adults that reflects diverse experiences and perspectives. Will address the role of this literature in classrooms.
Normal Grade Rules
3 units

EDTE 214. Learning in a High Tech Environment
Teaching and learning with high technology from student-centered perspectives. Lab activities, field observations and investigations in individual areas of specialization. Includes theory to practice, exploring new uses of technology, logistics, leadership roles. May not repeated in the same semester.
Prerequisite: EDIT 122 (or equivalent).
Repeatable for credit
Normal Grade Rules
3 units
EDTE 216. Ongoing Assessment in Your Classroom
Prevention and correction of reading/writing/language difficulties with emphasis on diagnosis and evaluation. 
Prerequisite: EDEL 108A, EDSC 138A or instructor consent.
  Normal Grade Rules
  3 units

EDTE 217A. Reading Practicum I
For Reading/Language Arts Specialist Credential or Reading Certificate candidates. In a supervised after-school program, candidates work with struggling readers and implement effective ongoing assessment and instructional strategies to meet the needs of diverse struggling readers.
Prerequisites: EDTE 210, EDTE 211, EDTE 216, EDTE 292.
Misc/Lab: Lecture 2.5 hours/Activity 1.0 hours
Credit / No Credit
  3 units

EDTE 217B. Reading Practicum 2
For Reading/Language Arts Specialist Credential or Reading Certificate candidates. In a supervised summer school program, candidates work with struggling readers and implement effective ongoing assessment and instructional strategies to meet the need of diverse struggling readers.
Prerequisites: EDTE 210, EDTE 211, EDTE 216, EDTE 292.
Misc/Lab: 2.5 hour Seminar/1.0 hour activity
Credit / No Credit
  3 units

EDTE 223. The Politics of Literacy
State, national and global decisions about literacy instruction and the impact on the profession.
Prerequisite: Teaching experience or English major.
  Normal Grade Rules
  3 units

EDTE 224. Seminar in Educational Psychology
Role of psychology in education. Contributions of educational research to current classroom practice and curriculum design. Applications of educational psychology research to current problems in education. Theoretical and practical approaches to understanding learning and teaching.
Prerequisite: EDSC 172A and EDEL 102.
  Normal Grade Rules
  3 units

EDTE 230. Mathematics: Teaching Common Core (K-3)
Course focuses on the mathematical knowledge for teaching K-3 Common Core content standards and mathematical practices within the domains of number, operations, and algebraic thinking. Additional emphasis on pedagogical strategies to foster motivation, engagement, and development of academic language.
  Normal Grade Rules
  3 units

EDTE 231. Math Seminar: Common Core (grades K-3)
Seminar focuses on implementation of Common Core standards and mathematical practices within teachers’ specific curricular and school context. Emphasis on classroom implementation of high-leverage mathematical practices within foundational K-3 content domains of number and operations, measurement, geometry, and data.
  Normal Grade Rules
  3 units

EDTE 232. Mathematics: Teaching Common Core (4-8)
Course focuses on mathematical knowledge for teaching 4th-8th grade Common Core content standards and mathematical practices within the domains of number, operations, proportional relationships, and algebra. Additional emphasis on strategies to foster motivation, engagement, and development of academic language.
  Normal Grade Rules
  3 units

EDTE 233. Math Seminar: Common Core (4-8)
Seminar focuses on implementation of Common Core standards and mathematical practices within teachers’ specific curricular and school context. Emphasis on classroom implementation of high-leverage mathematical practices within foundational 4-8 content domains of algebraic thinking, measurement, geometry, statistics, and probability.
  Normal Grade Rules
  3 units

EDTE 242R. Field Experience - Reading/Language Arts Specialist
Conducting reading/language arts assessments; designing, organizing and implementing reading programs; assisting teachers with reading programs.
  Credit / No Credit
  1-4 units

EDTE 244. Seminar in School Curriculum
Curriculum in the elementary and middle level school. Includes current issues and practices, curriculum planning and interrelation of theory and practice in elementary education curriculum.
Prerequisite: EDTE 208.
  Normal Grade Rules
  3 units

EDTE 246. Classroom Management and Governance
Study of theory, practice and research related to effective communication in cross-cultural, multilingual settings.
Prerequisite: EDEL 103.
  Normal Grade Rules
  3 units

EDTE 247. Supervisory/Coaching Practices for Teacher Leaders
Development of coaching/supervisory behaviors which encourage the development of reflective practitioners. Includes understanding of principles and methods of observing teachers and children, and how to record, analyze and share data to best meet their needs.
Prerequisite: Two years of teaching experience.
  Normal Grade Rules
  3 units

EDTE 250. Qualitative Research in Education
The role of qualitative research in education and society. Historical theoretical groundings, ethical considerations, procedures in development and evaluation of research proposals, techniques of research data analysis.
Prerequisite: EDEL 221 or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
  Normal Grade Rules
  3 units

EDTE 260. Critical Perspectives on Schooling for a Pluralist Democracy
Critical study of theory, practice and research related to effective communication in cross-cultural, multilingual settings.
Prerequisite: EDEL 103.
  Normal Grade Rules
  3 units

Study of cross-cultural communication for teachers with a focus on theory and practice related to language, culture and narrative in educational settings.
Prerequisite: EDTE 225 or instructor consent.
  Normal Grade Rules
  3 units

EDTE 262. Classroom Issues in the Language/Literacy Development of L2 Learners
Theories of first and second language acquisition and their application to teaching reading, writing and SDAIE in linguistically diverse classrooms.
Prerequisite: EDEL 108A, EDSC 138A or instructor consent.
  Normal Grade Rules
  3 units

EDTE 281. Philosophy of Education
Critical philosophical issues as they bear on education in a democratic society.
  Normal Grade Rules
  3 units
EDTE 290C. Research on Literacy Across the Curriculum for an Equitable Society
Emphasis on research/teacher inquiry with attention to research designs and methods from various disciplinary perspectives for the study of literacy. An historical look at three additional program themes: Reading and Writing Across Cultures and the Curriculum; Second Language Learners; and The politics of Literacy.
Pre/Corequisite: EDTE 290A or EDTE 290B.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
3 units

EDTE 292. Writing Across Cultures and the Curriculum
Research, theory and practice of writing development of instruction for native and nonnative English speakers. Emphasis on writing in an integrated curriculum.
Prerequisite: EDEL 108A or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units

EDTE 298. Special Studies in Education
Supervised study in a specific educational field.
Prerequisite: Consent of program director.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

EDTE 299. Master’s Thesis
Supervised thesis in the field of education.
Prerequisite: Admission to candidacy for the master’s degree.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

NO DEGREE CREDIT
EDTE 1290R. Culminating Experience Supervision
Continued work on thesis or project beyond minimum required units, for cases in which final deliverables are still in progress.
Prerequisite: RP grade in a preceding thesis or project semester.
Note: No Degree Credit.
Mandatory CR/NC/RP
1 unit
Electrical Engineering
Department Courses

**ELECTRICAL ENGINEERING**

**LOWER DIVISION**

**EE 030. Introduction to Programming Micro-Controllers for Electrical Engineering**
Introduction to C language program development using an integrated development environment. Program development includes program design, development, debugging, testing and documentation. Electrical engineering application examples dealing with circuits, systems, data converters and signal processing concepts are used throughout the course.
Pre-requisite: ENGR 10
Misc/Lab: Lecture 3 hours/Lab 3 hours
Normal Grade Rules
3 units

**EE 097. Introductory Electrical Engineering Laboratory**
Basic instruments and experimental techniques in electrical engineering. Oscilloscopes, function generators, frequency counters and multiple-use meters. Measurements of voltage, current, frequency response, transient response and computer simulation of circuits.
Misc/Lab: Lab 3 hours.
Normal Grade Rules
1 unit

**EE 098. Introduction to Circuit Analysis**
Circuit laws and nomenclature, resistive circuits with DC sources, ideal operational amplifier, controlled sources, natural and complete response of simple circuits, steady-state sinusoidal analysis and power calculations.
Pre-requisites: ENGR 10 and Phys 51 with a C or better. Allowed declared majors: Any engineering.
Corequisite: MATH 133A or MATH 123.
Normal Grade Rules
3 units

**EE 098H. Honors Introduction to Circuit Analysis**
A project and design based approach to the introduction of circuit laws and analysis methods such as nodal analysis, superposition, equivalent circuits and phasor analysis for circuits involving RLC and operational amplifiers.
Pre-requisite: ENGR 10 and Phys 51 with a B or better
Corequisite: Math 133A or Math 123
Normal Grade Rules
3 units

**EE 101. Circuits Concepts and Problem Solving**
Development of skill and proficiency in solving electric circuit, calculus, and differential equation problems; techniques for analyzing DC circuits, AC circuits, and transients. Well prepared students should consider credit by examination for this course.
Pre-requisite: EE 98 (with a grade of “C” or better).
Misc/Lab: Activity 2 hours.
Repeatable for credit
Credit/No Credit
1 unit

**EE 102. Probability and Statistics in Electrical Engineering**
Discrete probability theory. Theory of one and two random variables. Elementary statistics and hypothesis testing. EE Applications.
Pre-requisite: EE 112 with a grade of “C” or better.
Allowed declared major: Electrical Engineering.
Normal Grade Rules
3 units

**EE 104. Numerical Methods in Electrical Engineering**
Pre-requisite: EE 110, EE 112, EE 118 and EE 140 (with grades of “C” or better). Allowed declared major: Electrical Engineering.
Normal Grade Rules
3 units

**EE 106. Fundamentals of Mechatronics Engineering**
See ME 106.
Normal Grade Rules
3 units

**EE 110. Circuits and Systems**
Continuous-time signals, circuits and systems. Impulse response and convolution. Laplace and Fourier transforms. Frequency response, transfer function, poles/zeros, filtering. Application to passive and active circuits, and to basic control, communications, and bio-systems.
Pre-requisite: EE 098 and MATH 133A (with grade of “C” or better) and satisfactory score on the Circuit Concepts Placement Exam.
Corequisite: EE 110.
Normal Grade Rules
1 unit

**EE 112. Introduction to Signal Processing**
Pre-requisite: EE 098 and MATH 133A (with grade of “C” or better) and satisfactory score on the Circuit Concepts and Problem Solving Placement Exam. Allowed declared major: Electrical Engineering.
Normal Grade Rules
3 units

**EE 118. Digital Logic Circuit Design**
Fundamentals of digital logic design. Boolean logic, MUXes, DEMUXes, decoders, encoders, comparators, arithmetic blocks, flip-flops, counters, registers, RAMs, ROMs, PLDs and FPGAs. Design of simple computer CPU. Schematic capture and Hardware Description Language (HDL), particularly, Verilog.
Pre-requisite: EE 98 and EE 97 with a C or better. Allowed declared major: Electrical Engineering.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
4 units

**EE 120. Microprocessor Based System Design**
Pre-requisite: EE 118 with grade of “C” or better. Allowed declared major: Electrical Engineering.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
4 units

**EE 122. Electronic Design I**
Design of circuits based on OPAMPs, diodes, MOSFETs and BJTs, as applied to the contemporary issues of biomedical devices and power generation (solar cell modules), and power usage. Electronic CAD tools (LTSPICE) will be used extensively, PCB board design.
Pre-requisite: EE 110 with grade of “C” or better, EE 97. Allowed declared majors: Electrical Engineering, Computer Engineering.
Misc/Lab: Lecture 4 hours/lab 3 hours.
Normal Grade Rules
4 units
Academic Year 2018-2019
Course Descriptions

EE 124. Electronic Design II
Analysis and design of Analog integrated circuits using Bipolar and CMOS transistors. Topics include current sources, active loads, differential amplifiers, frequency response, frequency compensation, output stages, feedback amplifiers and operational amplifiers.
Prerequisite: EE122 and EE128 with grade C or better.
Allowed Declared Major: Electrical Engineering.
Misc/Lab: Lecture 3 hours/lab 3 hour.
Normal Grade Rules
4 units

EE 125. Analog CMOS Integrated Circuits
Analysis and design of analog CMOS integrated circuits. Voltage references, noise analysis, amplifiers and comparators, sample-and-hold circuits, switched-capacitor circuits and converters.
Prerequisite: EE 124.
Normal Grade Rules
3 units

EE 126. Electronics for Biomedical Applications
Study of the fundamental concepts of electrical circuits relevant to the use and design of biomedical instruments and devices currently used for patient care using several examples.
Prerequisite: EE 98 with C or better
Normal Grade Rules
3 units

EE 127. Physical Electronics
Review of semiconductor theory. Methods of device fabrication; p-n junctions; bipolar junction transistors; field-effect transistors (FETS); MOSFETS; and equivalent circuits.
Prerequisite: MATE 153 with a grade of "C" or better.
EE 122. Allowed Declared Major: Electrical Engineering.
Misc/Lab: Lecture 3 hours.
Normal Grade Rules
3 units

EE 128. Microfluid Fabrication and Design
See MATE 169.
Normal Grade Rules
3 units

EE 129. Introduction to Integrated Circuits Processing and Design
This course introduces the theory of operation and the control of electro-mechanical machines including DC machines, DC brushless machines, and AC synchronous machines and their electric drive systems. Applications include robotics, electric vehicle, and electric power generation.
Prerequisite: EE 110 and EE 112 with grade of "C" or Better.
Misc/Lab: Lecture 3 hours.
Normal Grade Rules
3 units

EE 130. Theory of Automatic Controls
This course introduces control methodology and laboratory demonstrations. Applications include electric vehicle propulsion and spacecraft power systems.
Prerequisite: EE 124
Normal Grade Rules
3 units

EE 131. Theory of Automatic Controls
This course introduces control methodology and laboratory demonstrations. Applications include electric vehicle propulsion and spacecraft power systems.
Prerequisite: EE 101, EE 112. Allowed Declared Major: Electrical Engineering.
Normal Grade Rules
3 units

EE 132. Control and Electronics for Renewable Energy Systems
This course introduces control methodology and laboratory demonstrations. Applications include electric vehicle propulsion and spacecraft power systems.
Prerequisite: EE 124
Normal Grade Rules
3 units

EE 133. Microcontroller Power Electronics
This course introduces control methodology and laboratory demonstrations. Applications include electric vehicle propulsion and spacecraft power systems.
Prerequisite: EE 124
Normal Grade Rules
3 units

EE 134. Power Systems
Introduction to power systems including: complex power, power factor correction, power quality, power flow analysis, grid steady state and transient stability, fault analysis, integration of renewable energy, theory and modeling of transformers, transmission lines, and synchronous generators.
Prerequisites: EE 110 and EE 112 (with grade of "C" or better).
Normal Grade Rules
3 units

EE 135. Control and Electronics for Renewable Energy Systems
This course introduces control methodology and laboratory demonstrations. Applications include electric vehicle propulsion and spacecraft power systems.
Prerequisite: EE 124
Normal Grade Rules
3 units

EE 136. Semiconductor Power Electronics
This course introduces control methodology and laboratory demonstrations. Applications include electric vehicle propulsion and spacecraft power systems.
Prerequisite: EE 124
Normal Grade Rules
3 units

EE 137. Semiconductor Power Electronics
This course introduces control methodology and laboratory demonstrations. Applications include electric vehicle propulsion and spacecraft power systems.
Prerequisite: EE 124
Normal Grade Rules
3 units

EE 138. Embedded Control System Design
Introduction to designing microcontroller-based embedded control systems using C programs to control input/output peripherals including general purpose I/Os, state machines, analog interfaces, pulse width modulation, digital filter implementation, design of control systems for motor, and interrupt concept.
Prerequisite: EE 112, EE 120 both with a C or better.
Normal Grade Rules
3 units

EE 139. Embedded Control System Design
Introduction to designing microcontroller-based embedded control systems using C programs to control input/output peripherals including general purpose I/Os, state machines, analog interfaces, pulse width modulation, digital filter implementation, design of control systems for motor, and interrupt concept.
Prerequisite: EE 112, EE 120 both with a C or better.
Normal Grade Rules
3 units

EE 140. Principles of Electromagnetic Fields
Static electric and magnetic fields using vector calculus methods. Development of Maxwell’s Equations.
Prerequisite: PHYS 52 or PHYS 72, EE 98 (with grade of “C” or better), MATH 133A, ENGL 1A. Allowed Declared Major: Electrical Engineering.
Normal Grade Rules
3 units

EE 153. Introduction to Digital Signal Processing
Introduction to digital signal processing fundamentals, discrete system theory, convolution, DFT, and design of IIR and FIR filters. MATLAB based lab exercises are used for verification of DSP principles, signal analysis, and design of filters for audio signals.
Prerequisite: EE 112
Normal Grade Rules
3 units

EE 160. Principles of Communication Systems
Prerequisite: EE 112 with grade of “C” or better.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

EE 161. Digital Communication Systems
Prerequisite: EE 102, EE 112. Allowed Declared Major: Electrical Engineering.
Normal Grade Rules
3 units

EE 165. Photovoltaic Fabrication/Testing Lab
See MATE 165
Normal Grade Rules
1 unit

EE 166. Design of CMOS Digital Integrated Circuits
Analysis and design of MOS based combinational sequential digital integrated circuits. Industry standard CAD tools (Cadence) will be used extensively in homework and a group final project.
Prerequisite: EE 128. Allowed Declared Major: Electrical Engineering.
Normal Grade Rules
3 units

EE 168. Microfluid Fabrication and Design
See ME 168.
Normal Grade Rules
1 unit
EE 169. Microelectromechanical Systems Fabrication and Design
See ME 169.
Normal Grade Rules
1 unit

EE 172. Introduction to Microwave Engineering
Introduction to microwave engineering and techniques. Transmission lines and waveguides, microwave network analysis, impedance matching and tuning. Resonators, dividers, couplers.
Prerequisite: EE 140 with a C or better. EE 142. Allowed Declared Major: Electrical Engineering.
Normal Grade Rules
3 units

EE 174. Analog Peripheral for Embedded Systems
Introduction to analog peripherals for embedded systems such as ADC/DAC, DC-DC Converters, Energy harvesting and solar cells, near field communication, RF-IDs, phase lock loops, clock generators, displays and touch screens. Industry based projects and applications are integral to the course.
Prerequisite: EE110 and EE112 with C grade or better. Allowed Declared Major: Electrical Engineering.
Normal Grade Rules
3 units

EE 176. Computer Organization
Design of instruction sets, addressing modes and memory management. Data and control paths of the CPU. Microprogramming. Arithmetic units and I/O organization.
Prerequisite: EE 120.
Normal Grade Rules
3 units

EE 178. Digital Design with FPGAs
Advanced Digital Design Technologies as they relate to synchronous digital systems. Requires student design projects that deal with the use of CAD tools for the Design, Simulation, and Implementation of Systems with FPGAs.
Prerequisite: EE 118.
Normal Grade Rules
3 units

EE 180. Individual Studies
Individual work on special topics arranged by the student and faculty mentor. Enrollment is handled by the EE department office. A completed and approved application is required.
Prerequisite: BS in Electrical Engineering Senior in good standing. Allowed Declared Major: Electrical Engineering. Not available to Open University Students.
Repeatable for credit
Credit / No Credit
1-3 units

EE 181. Fundamentals of Internetworking
Data communication concepts, protocols, algorithms; 7-layer OSI reference model and implementations; physical media (fiber, wire); switching systems; LAN architectures and components; Ethernet, FDDI, TCP/IP, and related standards.
Prerequisite: EE 118.
Normal Grade Rules
3 units

EE 189. Special Topics in Electrical Engineering
Advanced topics in Electrical Engineering. Content varies from semester to semester.
Prerequisite: Instructor consent/senior standing.
Repeatable for credit
Normal Grade Rules
3 units

EE 197. Cooperative Education Project
See ENGR 197.
Normal Grade Rules
3 units

EE 198A. Senior Design Project I
Team design project proposal, business plan, oral design presentations of the initial phases of the design project, a written and oral defense of the proposed design project. Global and social issues in engineering. Individual written reports on professional development plans. GE Area: S when taken as part of EE Major sequence.
Prerequisite: EE Senior in good standing in Major, ENGR 100W (with grade of “C” or better), EE120, EE122, and EE128 (with grades of “C-” or better).
Corequisite: ENGR 195A
Misc/Lab: Lab 3 hours
Note: Meets GE Areas S and V when course is taken in combination with: EE 198B, ENGR 195A and ENGR 195B
Normal Grade Rules
3 units

EE 198B. Senior Design Project II
Implementation of group design projects initiated in EE 198A. Group oral and written reports. Integrate global and social issues in engineering. GE Area: V when taken as part of the EE Major sequence
Prerequisite: EE 198A (with grade of “C” or better), Senior EE student in good standing.
Corequisite: ENGR 195B
Misc/Lab: Lab 9 hours.
Note: Meets GE Areas S and V when course is taken in combination with: EE 198A, ENGR 195A and ENGR 195B
Normal Grade Rules
GE: V 3 units

EE 209. Network Security
See CMPE 209.
Normal Grade Rules
3 units

EE 210. Linear System Theory
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

EE 220. Radio Frequency Integrated Circuit Design I (RFIC Design I)
Study of transmitter and receiver architectures and their building blocks for modern wireless communication standards, high frequency modeling of passive and active circuit components realized in CMOS and BiCMOS technologies, networks theory, wideband matching, nonlinearity and noise link budgets.
Prerequisite: EE 124 or instructor consent.
Normal Grade Rules
3 units

EE 221. Semiconductor Devices I
Study of semiconductors in equilibrium and nonequilibrium conditions; principles of semiconductor device fabrication, p-n junctions; and junction transistors; device modeling for circuit analysis.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

EE 222. Analog Integrated Circuits
Prerequisite: Graduate standing or instructor consent.
Normal Grade Rules
3 units

EE 224. High Speed CMOS Circuits
Analysis and design of digital integrated circuits; bipolar and MOS inverters and logic gates; semiconductor memories; gate arrays; standard cells; programmable logic array; computer-aided design; SPICE program is used extensively.
Prerequisite: Graduate standing or instructor consent.
Normal Grade Rules
3 units
EE 224B. Advanced High Speed CMOS Circuits
EE224B covers advanced high speed CMOS design circuit design and challenges. The course will focus on design of advanced circuits such as arithmetic circuits, memory. Overall concepts will be tied together by a design project. Team work will be stressed.
Prerequisite: EE 224
Normal Grade Rules
3 units

EE 227. Signal Integrity in AMS IC
This course studies essential blocks for wire-line communication integrated circuits such as analog equalizer circuits, Decision-Feedback Equalization (DFE), Phase Locked Loop (PLL) and Clock and Data Recovery (CDR) circuits. True understanding of system level modeling and behavioral of the PLL will be discussed. Matlab/Simulink Modeling techniques will be introduced as new vehicle for system level design and simulation. Performance metrics, such as random jitter, BER, jitter transfer, jitter tolerance, phase noise, will be introduced. Integrated circuit design consideration for the key essential blocks for PLL and equalizer block will be covered.
Prerequisite: EE 221
Normal Grade Rules
3 units

EE 230. Radio Frequency Integrated Circuit Design II
Low noise amplifiers, mixers, power amplifiers, LC voltage controlled oscillators, phase shifters, patch antennas and advanced layout to improve noise, stability, efficiency and bandwidth performance of nanoscale CMOS integrated circuits. 
Prerequisite: EE 220 or instructor consent.
Normal Grade Rules
3 units

EE 231. Automatic Control Theory
Fundamentals of state space techniques in the analysis and synthesis of dynamic control systems; relationship to classical control theory via the Laplace transform; controllability; observability; performance indices discrete systems; introduction to optimal control and Kalman filtering.
Prerequisite: EE 132
Normal Grade Rules
3 units

EE 237. Vector Control of AC Machines
This course introduces modeling and control of electrical drive for AC motors and generators including induction, permanent magnet, and synchronous machines. The dynamic model, control methods, current regulation, and space vector modulation are discussed by both analysis and computer simulation.
Prerequisites: EE 210
Normal Grade Rules
3 units

EE 238. Advanced Power Electronics
Adv. study of switching regulators in power management, including energy conversion topologies, state space averaging techniques, assessing voltage mode/current mode control to embedded hardware. Applications include photo-voltaic /solar grid-tied inverters, active power factor correction, analysis, computer simulation.
Prerequisite: Graduate Standing
Normal Grade Rules
3 units

EE 239. Selected Topics in Systems and Control
Critical analysis of current literature pertinent to control systems.
Prerequisite: EE 231 and instructor consent.
Normal Grade Rules
3 units

EE 241. Fundamental of Signal Integrity
EE241 aims to introduce the essential knowledge on signal integrity. The course covers transmission line theory, channel loss, coupling, signal lunch and termination, timing issues on clock distribution and EDA tools usage for modeling and analysis of signal integrity in a system.
Normal Grade Rules
3 units

EE 242. Embedded Hardware Design
See CMPE 242.
Normal Grade Rules
3 units

EE 243. Embedded Circuits for Biomedical Application
EE243 aims to introduce the essential knowledge and techniques for designing integrated circuits for biomedical applications. An introduction to the deep-submicron effects and noise in transistors, the principles for designing low-power, low-noise electronics and RF/inductive coupling links will be discussed.
Prerequisite: EE 223
Normal Grade Rules
3 units

EE 251. Digital Communication Systems
Prerequisite: EE 250
Normal Grade Rules
3 units

EE 252. Advanced Communication Systems
Digital modulation techniques for power and bandwidth limited communication systems. Offset QPSK, CQPSK, noncoherent modulation and detection. Multipath fading channels, diversity and combining methods. 
Prerequisite: EE 250
Normal Grade Rules
3 units

EE 253. Digital Signal Processing
Prerequisite: Graduate standing or instructor consent
Normal Grade Rules
3 units

EE 254. Adaptive Signal Processing
Prerequisite: EE 250 and EE 253
Normal Grade Rules
3 units

EE 255. Wireless/Mobile Communications
Cellular mobile radio systems, propagation models, multipath propagation effects, diversity and combining noise, and interference are discussed. Analog and digital modulation techniques and their performance measures multiple access techniques such as FDMA, TDMA and CDMA are discussed. 
Prerequisite: Instructor Consent
Normal Grade Rules
3 units

EE 256. Programmable DSP Architectures and Applications
Implementations of DSP algorithms using programmable DSP architectures. Internal architectural requirements for a DSP device, system level hardware/software design and applications of programmable DSP architectures. 
Prerequisite: EE 210
Normal Grade Rules
3 units
EE 258. Neural Networks
Principles of neural networks. Basic neurophysiology, neural nets as finite-state machines, synaptic learning, perceptrons, the LMS and back propagation algorithms, capacity theorems, feedforward nets as statistical classifiers, stability of feedback nets, self-organizing feature maps, adaptive resonance theory, retinal and cochlear models.
Normal Grade Rules
3 units

EE 259. Selected Topics in Signal Processing
Advanced topics in signal processing. Content varies from semester to semester.
Prerequisite: Instructor consent.
Normal Grade Rules
3 units

EE 260. RFID Systems
This course gives an introduction to RFID systems. Emphasis is on RFID technology applications in biomedical devices, object tracking and identification. Complemented with practical laboratory experiments. A final project (written report and oral presentation) covers RFID applications in a topic of interest to the student.
Prerequisite: EE 251 or instructor consent.
Normal Grade Rules
3 units

EE 261. Acq. & Analysis of Biomedical Imaging
Study of the image acquisition physics and analysis concepts of biomedical imaging systems like X-Ray, MRI, Ultrasound etc. currently used for patient care in diagnosing various disease conditions.
Prerequisites: EE 210 or equivalent.
Normal Grade Rules
3 units

EE 263. Digital Image Processing
Fundamental principles and algorithms for digital image processing. Topics include image formation, modeling, transforms, enhancement, compression, segmentation, representation, feature extraction, and object recognition. Introduction to imaging system hardware components and architectures.
Prerequisite: EE 210.
Normal Grade Rules
3 units

EE 265. Software-Defined Radio Communications
Experimental approach to designing and building wireless communications. Topics include analog/digital transmission, ADC/DAC, and wireless channel modeling. Students are exposed to MATLAB, software defined radios (USRP boards), GNU Radio, GRC (GNU Radio Companion) in homework assignments and projects.
Prerequisite: EE 210 or instructor consent.
Normal Grade Rules
3 units

EE 270. Advanced Logic Design
Logic design theory, advanced logic minimization, design and analysis of sequential circuits, asynchronous circuit design, logic circuit testing and design for testability. Review Verilog/VHDL. CAD tools are used for design, modeling and simulation.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

EE 271. Digital System Design and Synthesis
In depth study of concepts and practices in modern digital system design, such as high-speed arithmetic, cache memory design, advanced pipelining and processor design. Verilog or VHDL is used for simulation and synthesis.
Prerequisite: EE 270.
Normal Grade Rules
3 units

EE 272. SoC Design & Verifi. with System Verilog
The course covers topics in System-on-Chip design and verification with SystemVerilog. Major topics include top-down SoC design, design metrics, techniques, and system-level synthesis; IP integration and system-level verification; SystemVerilog design hierarchy, data types, assertions, interfaces, verification constructs, and testbench structures.
Prerequisite: EE 271 or instructor consent.
Normal Grade Rules
3 units

EE 275. Advanced Computer Architectures
Advanced topics in digital systems. Content varies from semester to semester.
Prerequisite: EE 250 or equivalent. Allowed Declared Major: Electrical Engineering.
Normal Grade Rules
3 units

EE 276. Parallel Computer Systems
Advanced concepts in parallel computer architectures and algorithms. Cache memory for multiprocessor systems, multistage networks, pipelined vector processors, massive parallel processors, systolic arrays and array processors, parallel processing algorithms and time complexity analyses. Design project.
Prerequisite: EE 270.
Normal Grade Rules
3 units

EE 278. Digital Design for AI and DSP
Digital design and FPGA/ASIC/VLSI-based implementation of high-performance DSP/AI/Machine Learning systems. FPGA and GPU architectures, various deep neural network design examples of video/imaging/speech and AI/machine learning include applications to object recognition for autonomous vehicles and speech recognition.
Prerequisite: EE 270 or EE 271
Normal Grade Rules
3 units

EE 279. Special Topics in Digital Systems
Advanced topics in digital systems. Content varies from semester to semester.
Prerequisite: Instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

EE 281. Internetworking
Prerequisite: EE 250 or equivalent. Allowed Declared Major: Electrical Engineering.
Normal Grade Rules
3 units
EE 283. Broadband Communication Networking
Broadband Networks Overview, Tunneling, VPNs, and Multi-Protocol Label Switching (MPLS), All-Optical Networks, Architecture of High-Speed Switches and Routers, Data Center Networks, Network Virtualization, Software-Defined Networking (SDN), Packet Delay and Network Queuing Models, and Quality of Service. Prerequisite: EE 281 or equivalent
Normal Grade Rules 3 units

EE 284. VoIP and Multimedia Networks
Public-Switched Telephone Network and SS7 Protocol, Voice over IP (VoIP) Signaling Protocols, H.323, Session Initiation Protocol (SIP), Internetnetworking VoIP, Regular, and Wireless Cellular Networks, Media Gateways, Media Preparation and Compression, Codex, Multimedia Networks, IPTV, VoD, Content Delivery Networks (CDNs). Prerequisite: EE 281 or equivalent
Normal Grade Rules 3 units

EE 286. Mobile and Wireless Networking
This course covers recent and upcoming networking topics on mobile and wireless scenarios and applications. The course focuses on mobile and wireless network standards including cellular (LTE), Wi-Fi, Bluetooth, and routing algorithms including DSDV, DSR, TORA, and AODV.
Prerequisite: EE 250
Normal Grade Rules 3 units

EE 287. ASIC CMOS Design
CMOS ASIC design principles. Topics include ASIC architectures, cell libraries, synthesis issues, latches, clocking multiple clock synchronizers, delay calculation, timing closure, I/O specification, and testing. Prerequisite: EE 271 or Instructor consent.
Normal Grade Rules 3 units

EE 288. Data Conversions/Analog Mixed Signal ICs
Study of different architectures for analog to digital converters and digital to analog converters. System level modeling & simulation. Design considerations and techniques for circuit implementation. Data conversion testing methods.
Prerequisites: EE 221
Normal Grade Rules 3 units

EE 289. Special Topics in Networking
Advanced topics in networking that are currently of high interest to both industry and academia. Content varies from semester to semester, and may include, but not limited to, network security, virtual private network, network availability and reliability, network management. Repeatable for credit
Normal Grade Rules 3 units

EE 295. Technical Writing - Engineering Ethics
Students learn to analyze and write about issues in engineering ethics. Three types of ethics are explored: ethics of the person, the process, and the product. Prerequisite: Graduate standing.
Note: This course satisfies graduate-level GWAR in this master's program.
Normal Grade Rules
CE: GWAR
3 units

EE 296A. ES-level and Physical-level Design
Electronic System Level (ESL) Description of Systems using SystemC/OpenCL, High Level Synthesis from ESL Languages, Physical design and verification, Floorplanning, Placement, Routing, Power Analysis, Signal Integrity Analysis, ESL simulations and automate physical design tasks
Prerequisite: Graduate Standing
Normal Grade Rules 3 units

EE 297A. MSEE Project Proposal
Written project proposal development for MSEE research/design project, subsequently culminating in EE 297B or EE 297B. An approved application for EE 297A registration including project title and abstract and graduate seminar participation required.
Prerequisites: Classified Standing, GPA of at least 3.3 or above (GPA GPA of at least 3.0 and graduate coordinator consent) consent, satisfied GWAR requirement or EE295 may be taken concurrently.
Credit / No Credit 3 units

EE 297B. MSEE Project
Implementation of the research/design project, culminating the MSEE work proposed in EE 299A or EE 297A. Formal Master’s Thesis report and its formal defense required.
Prerequisites: EE 297A or EE 299A with grade of CR and satisfied GWAR requirement
Mandatory CR/NC/RP 3 units

EE 298. Special Problems
Advanced individual work in electrical engineering
Prerequisite: Graduate standing. Not available to Open University Students
Repeatable for credit
Mandatory CR/NC/RP 1-6 units

EE 298I. Electrical Engineering Internship Experience
For this course a student is employed in industry as an electrical engineering intern or in an equivalent position. The course supplements and supports student's plan of study.
Prerequisite: Graduate standing
Repeatable for credit
Mandatory CR/NC/RP 1-3 units

EE 299A. MSEE Thesis Proposal
Written Thesis proposal development for research/design, subsequently culminating the MSEE work in EE 299B or EE 297B. An approved application for EE 299A registration, including project title and abstract and graduate seminar participation required.
Prerequisites: Classified, GPA of at least 3.3 or above (GPA GPA of at least 3.0 and graduate coordinator consent) consent, satisfied GWAR requirement or EE295 may be taken concurrently.
Credit / No Credit 3 units

EE 299B. MSEE Thesis
Implementation of the research/design, culminating the MSEE work proposed in EE 299A or EE 297A. Formal Master’s Thesis report and its formal defense required.
Prerequisites: EE 297A or EE 299A with grade of CR and satisfied GWAR requirement
Mandatory CR/NC/RP 3 units

NO DEGREE CREDIT

EE 1290R. Culminating Experience Supervision
Continued work on thesis or project beyond minimum required units, for cases in which final deliverables are still in progress.
Prerequisite: RP grade in a preceding thesis or project semester
Note: No Degree Credit.
Repeatable for credit
No Degree Credit 1 unit

English and Comparative Literature Courses

COMPARATIVE LITERATURE

UPPER DIVISION

COLT 121. Introduction to Comparative Literature
Critical approaches, reference sources, problems of translation.
Prerequisite: One year of college level foreign language or instructor consent.
Normal Grade Rules
3 units

COLT 122. Topics in Comparative World Literature
An exemplary theme as treated in various literatures in different languages, e.g., war, love, freedom, religious experience. May be repeated when course content changes.
Prerequisite: One year of college level foreign language or instructor consent.
Normal Grade Rules
4 units

COLT 124. Literature and Religious Experience
See RELS 124
Repeateable for credit
Normal Grade Rules
3 units

ENGLISH

LOWER DIVISION

ENGL 001A. First Year Writing
English 1A is an introductory course that prepares students to join scholarly conversations across the university. Students develop reading skills, rhetorical sophistication, and writing styles that give form and coherence to complex ideas for various audiences, using various genres.
Prerequisite: Completion of Reflection on College Writing.
Credit / No Credit
3 units

ENGL 001AF. First-Year Writing: Stretch English I
Stretch I is the first semester of a year-long ENGL 1A that prepares students to join scholarly conversations across the university. Students develop reading skills, rhetorical sophistication, and writing styles that give form and coherence to complex ideas for various audiences, using various genres.
Prerequisite: Completion of Reflection on College Writing.
Credit / No Credit
3 units

ENGL 001AS. First-Year Writing: Stretch English II
Stretch II is the second semester of a year-long ENGL 1A that prepares students to join scholarly conversations across the university. Students develop reading skills, rhetorical sophistication, and writing styles that give form and coherence to complex ideas for various audiences, using various genres. GE Area: A2
Prerequisite: ENGL 1AF Stretch English I (formerly HA 96F (FYC Stretch))
Normal Grade Rules
GE: A2
3 units

ENGL 001B. Argument and Analysis
English 1B is a writing course that focuses on argumentation and analysis. Through the study of literary, rhetorical, and professional texts, students will develop the habits of mind required to write argumentative and critical essays. Particular emphasis is placed on writing and reading processes. Students will have repeated practice in prewriting, drafting, revising, and editing, and repeated practice in reading closely in a variety of forms, styles, structures, and modes. GE Area: C2
Prerequisite: ENGL 1A or ENGL 1AS with a C- or better.
Note: ENGL 1B is treated as a repeat for students who have taken ENGL 2.
Normal Grade Rules
GE: C2
3 units

ENGL 002. Critical Thinking and Writing
English 2 is a course that focuses on the relationship between language and logic in composing arguments. Students learn various methods of effective reasoning and appropriate rhetorical strategies to help them invent, demonstrate, and express arguments clearly, logically, and persuasively. GE Area: A3
Prerequisite: Completion of GE Areas A1 and A2 with a C- or better
Note: ENGL 2 is treated as a repeat for students who have taken ENGL 1B.
Normal Grade Rules
GE: A3
3 units

ENGL 007. Critical Thinking
Nature and meaning of critical thought, Western and non-Western. Relationship between logic and language. Examination of contrasting arguments on related subjects as a means for developing skill in analysis of prose. GE Area: A3
Prerequisite: ENGL 1A.
Normal Grade Rules
GE: A3
3 units

ENGL 010. Great Works of Literature
Fiction, drama and poetry for non-English majors. Emphasis on critical appreciation of various literary forms. GE Area: C2
Notes: No credit in the English major.
Normal Grade Rules
GE: C2
3 units

ENGL 020. The Graphic Novel
Approaching the graphic novel as a form of popular literature, students examine the narrative and textual aspects of the form including the function of the text, its integration with the graphics, and formal aspects of narrative such as plot, character, theme, and symbol. GE Area: C2
Normal Grade Rules
GE: C2
3 units

ENGL 021. Mystery and Detective Fiction
Examines mystery or detective fiction from its inception in the 19th century and follow it across the globe as the genre has been taken on and developed by a variety of cultures. GE Area: C2
Normal Grade Rules
GE: C2
3 units

ENGL 022. Fantasy and Science Fiction
Students will examine works of literary fantasy and science fiction to understand them as expressions of human intellect and imagination; to comprehend their historical and cultural contexts; and to recognize their diverse cultural traditions. Both contemporary and historical works will be studied. GE Area: C2
Notes: No credit in the English major.
Normal Grade Rules
GE: C2
3 units

ENGL 040. Contemporary World Fiction
A study of selected works of fiction in English and in English translation written since 1975. The course both focuses on international texts that address significant themes of our time and explores ways of reading and understanding literature. GE Area: C2
Notes: No credit in the English major.
Normal Grade Rules
GE: C2
3 units
ENGL 050. Beginnings to the “American” Experiment
Exploration of Anglo-Saxon, Medieval, Renaissance, and Early Colonial Writings in Britain and America. Class engages literary text, literary history, and historical events that shape the literature of the period.
Prerequisite: ENGL 1A
   Normal Grade Rules
   3 units

ENGL 060. The Emergence of “British” and “American” Literatures (1680 to 1860)
Exploration of Restoration, Early American, Romantic, American Romantic, and Victorian writings in Britain and America. Class engages literary text, literary history, and historical events that shape the literature of the period.
Prerequisite: ENGL 1A
   Normal Grade Rules
   4 units

ENGL 070. Emerging Modernisms and Beyond
Exploration of Modernist and twentieth-century writings in Britain and America. Class engages literary text, literary history, and historical events that shape the literature of the period.
Prerequisite: ENGL 1A
   Normal Grade Rules
   3 units

ENGL 071. Creative Writing
Examinations of works of poetry, creative nonfiction and short fiction as expression of human intellect and imagination, to comprehend the historic and cultural contexts, and recognize issues related to writing by men and women of diverse cultural traditions. Students will also write poetry, creative nonfiction, and a short fiction.
GE Area: C2
   Normal Grade Rules
   GE C2
   3 units

ENGL 078. Introduction to Shakespeare’s Drama
Reading of five or six representative plays. The Elizabethan era, dynamics of performance and close analysis of the plays. GE Area: C2
Notes: No credit in the English major.
   Normal Grade Rules
   GE C2
   3 units

ENGL 100A. Writing Competency Through Genres
Satisfies the WST requirement if passed with a C or better (C- or lower will not satisfy the WST). Prepares students for 100W through drafting, feedback, and revision to demonstrate writing competency. Develops ability to analyze written genres used in the students’ chosen disciplines as well as write analytical and reflective essays.
Prerequisite: Must have failed the WST.
   Note: A CR/NC option may not be used to satisfy the WST requirement.
   Normal Grade Rules
   3 units

ENGL 100W. Writing Workshop
Advanced workshops in Reading and Composition. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better);
   Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Notes: Required of all English majors before they achieve senior standing. Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (CWAR).
   Normal Grade Rules
   GE C2
   3 units

ENGL 100WB. Written Communication: Business
Written communications for business majors; includes minimum of 8,000 words of writing spaced throughout the semester. GE Area: Z
Prerequisites: A3 or equivalent second semester composition course (with a grade of C- or better);
   Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Notes: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (CWAR).
   Normal Grade Rules
   GE Z
   3 units

ENGL 103. Modern English
The growth and structure of modern English, including its phonology, morphology, syntax and semantics. Attention to social and regional varieties, with implications for language development and literacy among native and nonnative speakers.
Prerequisite: Upper division standing.
   Normal Grade Rules
   4 units

ENGL 105. Seminar in Advanced Composition
Advanced expository writing.
Prerequisite: Six units of lower division composition and completion of the Written Communication II requirement (ENGL100W). May be repeated once for credit with different instructor and department chair consent.
   Normal Grade Rules
   4 units

ENGL 106. Editing for Writers
Copy editing, substantive editing and reorganization of technical documents. Review of grammar and punctuation to ensure technical mastery and ability to justify editing decisions. Graphics editing, access aids and professional skills of an editor.
Prerequisite: ENGL 2 or A3 equivalent
   Normal Grade Rules
   4 units

ENGL 107. Professional Technical Writing
Research methods, audience analysis and development of reader-based writing techniques. Writing based on models from scientific and technical discourse.
Prerequisite: ENGL 2 or A3 equivalent
   Normal Grade Rules
   4 units

ENGL 108. Gaming and Narrative
Study of the relationship between literary narrative theory (narratology) and interactive fiction (books and games designed to produce different stories for different readers or players). Course focuses on whether interactive fiction has changed or reinvented the possible spaces of narrative.
Pre-Requisite: Upper Division Standing
   Normal Grade Rules
   4 units
ENGL 109. Writing and the Young Writer
Emphasis on workshop approach to improve creative and expository writing skills and to transfer knowledge gained as a writer into practice as a prospective teacher of writing.
Normal Grade Rules
4 units

ENGL 110. Visual Rhetoric and Digital Document Design for Writers
Combines visual rhetorical theory with design techniques to teach writers about the visual aspects of written and digital communication. In this hands-on course, students will design documents, including a poster, a book chapter, and promotional materials for local nonprofits.
Prerequisite: ENGL 100W
Normal Grade Rules
4 units

ENGL 112A. Children's Literature
Study of literature for elementary and intermediate grades, representing a variety of cultures. Evaluation and selection of texts.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

ENGL 112B. Literature for Young Adults
Study of selected literary representations, presenting a variety of cultures, chosen to motivate secondary school readers.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units

ENGL 113. Gothic Novel and Horror Fiction
Study of the gothic novel in Britain and America 1795-1900. Current trends in horror fiction and films will be traced to these gothic predecessors.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units

ENGL 115. The Bible as Literature
Study of the Bible from the perspective of literature, examining key portions of the Bible, its subjects, themes, literary styles and genres, and contributions to Western Literature.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units

ENGL 116. Myth in Literature
Relations between archetypes, artistic style and cultural context in masterworks, ancient through modern.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units

ENGL 117A. American Literature, Film, & Culture
Using both film and literature, course examines narratives that create and define cultural identities in the United States. A variety of cultural moments in the history of North America as depicted in both film and literature as well as the artistic practices used to shape those representations will be discussed. GE Area: S
Prerequisites: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: S
3 units

ENGL 117B. Global Film, Literature, and Cultures
Using films and literary works, students will appreciate and understand the narratives (myths and other stories) that create and define cultural identity, explore cultural interaction, and illustrate cultural preservation and cultural difference over time. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units

ENGL 117C. Literature for Global Understanding-The Americas
Course promotes global understanding by examining the cultures and literary arts of a selected region of the world, the Americas, and covers representative texts and authors from Latin America and the Caribbean/West Indies. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units

ENGL 117D. Literature for Global Understanding-Africa
Course promotes global understanding by examining the cultures and literary arts of a selected region of the world, Africa, and covers representative texts and authors from North Africa and Sub-Saharan Africa. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units

ENGL 117E. Literature for Global Understanding-Oceania
Course promotes global understanding by examining the cultures and literary arts of a selected region of the world, Oceania, and covers representative texts and authors from Australia, New Zealand, and the Pacific Islands. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units
ENGL 123D. Literature for Global Understanding-Asia
Course promotes global understanding by examining the cultures and literary arts of a selected region of the world, Asia, and covers representative texts and authors from a sub-region of Asia such as East Asia, South Asia, Southeast Asia, Central Asia, or West Asia/the Middle East. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units
ENGL 124. Literature and Religious Experience
See RELS 124.
Repeatable for credit
Normal Grade Rules
3 units
ENGL 125. European Literature: Homer through Dante
Classical and medieval literature in translation: Homer, Aeschylus, Sophocles, Euripides, Virgil and Dante.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units
ENGL 126. Holocaust Literature
Survey of literature written by survivors or witnesses of the Holocaust, the destruction of European Jewry during World War II, focusing upon diaries, memoirs, fiction, and occasionally poetry and drama. Writers may include Elie Wiesel, Primo Levi, Anne Frank, Charlotte Delbo. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units
ENGL 127. Contemporary Theatre
See TA 127.
Normal Grade Rules
GE: V
3 units
ENGL 128. Scriptwriting
See TA 128.
Repeatable for credit
Normal Grade Rules
3 units
ENGL 129. Introduction to Career Writing
Practice in various professional writing tasks: instructions, descriptions, reviews, interviews, articles, creative nonfiction, short stories, poetry. Publication of a newsletter. Study of models and application of techniques to achieve given stylistic effects.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units
ENGL 130. Writing Fiction
Workshop in short stories or other short fiction. Beginning the novel in individual cases. May be repeated twice for credit.
Prerequisite: ENGL 71 (or equivalent) or instructor consent.
Repeatable for credit
Normal Grade Rules
4 units
ENGL 131. Writing Poetry
Workshop in verse forms. Study of traditional and contemporary models. May be repeated twice for credit.
Prerequisite: ENGL 71 (or equivalent) or instructor consent.
Repeatable for credit
Normal Grade Rules
4 units
ENGL 132. Reed Magazine
Student-edited and managed literary magazine. Contents selected from local, national and international submissions. Students urged to work on the magazine for the two semesters required for publication. Open to all majors. May be repeated once for credit.
Prerequisite: Upper division standing.
Repeatable for credit
Normal Grade Rules
4 units
ENGL 133. Reed Magazine
Student-edited and managed literary magazine. Contents selected from local, national and international submissions. Students urged to work on the magazine for the two semesters required for publication. Open to all majors. May be repeated once for credit.
Prerequisite: Upper division standing.
Repeatable for credit
Normal Grade Rules
4 units
ENGL 134. Speech Writing
Writing speeches for others. Study of audience, language, persuasion, devices, style.
Prerequisite: ENGL 129 or instructor consent.
Normal Grade Rules
3 units
ENGL 135. Writing Nonfiction
Advanced creative writing workshop in literary nonfiction. Study of traditional and contemporary models. May be repeated twice for credit.
Prerequisite: ENGL 71, ENGL 100W, ENGL 105, ENGL 129 or instructor consent.
Repeatable for credit
Normal Grade Rules
4 units
ENGL 139. Visiting Authors
Study of works by contemporary writers participating in the Major Authors series and other programs sponsored by the Center for Literary Arts. Includes meetings with visiting authors and attending their various presentations. Required for the Creative Writing Concentration.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units
ENGL 140A. Old English
Introduction to the language, with short selections for translation.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units
ENGL 140B. Beowulf
This class is the second class in a year-long sequence of Old English. Students will be translating all 3,182 lines of Beowulf and investigating its linguistic, historical and cultural context as the first epic poem recorded in the English language.
Prerequisite: ENGL 140A or equivalent
Normal Grade Rules
4 units
ENGL 141. Medieval Literature
Middle English and continental literature, including such forms as the lyric, allegory, narrative, romance and biblically-based drama.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units
ENGL 142. Chaucer
Chaucer’s language and major poetic works. The Legend of Good Women, The Canterbury Tales and Troilus and Cressida.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units
ENGL 144. Shakespeare I
Major plays such as Twelfth Night, Henry IV, Part I and Hamlet.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units
ENGL 145. Shakespeare and Performance
Course examines in depth several of Shakespeare’s plays, specifically addressing issues of performance. We will discuss each play in the context of its original performance during Shakespeare’s time and its life on stage and screen in the ensuing centuries.
Prerequisite: Upper division standing.
Normal Grade Rules
4 units

**Description Contents**

- **Academic Year 2018-2019**
- **Course Descriptions**
- **v1 June 1, 2018**
- **ALL DATES, FEES & INFORMATION SUBJECT TO CHANGE WITHOUT NOTICE**
ENGL 180. Individual Studies
By arrangement with instructor and department chair approval.
Prerequisite: Upper division standing.
Repeatable for credit
Credit / No Credit
1-3 units

ENGL 181. Special Topics
Significant topics or themes in English or Comparative Studies.
Prerequisite: Upper division standing.
Repeatable for credit
Normal Grade Rules
4 units

ENGL 182. Women in Literature
Image of women in literature or works of significant female writers.
Prerequisite: Upper division standing.
Repeatable for credit
Normal Grade Rules
4 units

ENGL 183. Major Authors
One major author’s works: Author changes each semester.
Prerequisite: Upper division standing.
Repeatable for credit
Normal Grade Rules
4 units

ENGL 190. Honors Colloquium
Selected topics.
Prerequisite: Admission to departmental honors program.
Normal Grade Rules
4 units

ENGL 199. Writing Internship
Internship at a local industry, publisher, arts or public agency. Discussion of experiences and problems in the internship. Study of professional practices and demands, including those of career preparation and development.
Prerequisite: 3.0 GPA both overall and in English; no credit in English major.
Repeatable for credit
Credit / No Credit
3 units

ENGL 201. Materials and Methods of Literary Research
Use and evaluation of resource for literary research; problems in critical writing and literary history. Required for all English Masters students (to be taken as early as possible after achieving Classified standing).
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
4 units

ENGL 202. Poetic Craft and Theory
Poetry as a literary genre - its patterns and sub-types (such as the epic, lyric, pastoral, and elegy). Attention to the theories of poetics applied to practical criticism. Prior permission of graduate advisor may be repeatable once for credit.
Prerequisite: Classified standing or instructor consent.
Repeatable for credit
Normal Grade Rules
4 units

ENGL 203. Narrative Craft and Theory
Study of prose fiction and nonfiction as a literary genre (with sub-genres) and an art which can be learned through imitation and analysis. Course emphasizes the formal and technical properties of prose narrative, with attention to Narratology. Prior permission of graduate advisor may be repeatable once for credit.
Normal Grade Rules
4 units

ENGL 204. Seminar in Modern Approaches to Literature
Study of modern approaches to the theory and practice of literary criticism. With prior permission of graduate advisor may be repeatable once for credit.
Prerequisite: Classified standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

ENGL 205. Seminar in Comparative Literature
Study of selected topics in comparative literature. Students will be encouraged to do some reading and research in a language other than English. With prior permission of graduate advisor repeatable twice for credit.
Prerequisite: Classified standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

ENGL 208. Seminar in Comparative Literature
Study of selected topics in comparative literature. Students will be encouraged to do some reading and research in a language other than English. With prior permission of graduate advisor repeatable twice for credit.
Prerequisite: Classified standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

ENGL 211. Seminar in Twentieth Century Poetry
Intensive study of selected major English and American poets of the twentieth century. With prior permission of graduate advisor may be repeatable once for credit.
Prerequisite: Classified standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

ENGL 215. Seminar in Myth and Symbolism
Comparative study of mythic and symbolic forms in literature, focusing on theory and a variety of texts. With prior permission of graduate advisor may be repeatable once for credit.
Prerequisite: Classified standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

ENGL 216. Seminar in Medieval English Literature
Study of selected writings in medieval English literature and their continental sources. With prior permission of graduate advisor may be repeatable once for credit.
Prerequisite: Classified standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

ENGL 224. Studies in English Early Modern Literature
Study of selected writers or topics of the sixteenth and seventeenth century.
Prerequisite: Classified graduate standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

ENGL 225. Seminar in Shakespeare
A close study of selected plays and of selected major issues in Shakespearean criticism. With prior permission of graduate advisor may be repeatable once for credit.
Prerequisite: Classified standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

ENGL 228. Seminar in Genre Studies
Provides focused study of a single genre of British and/or World Literature.
Prerequisite: Classified graduate standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units
ENGL 230. Seminar in Eighteenth Century British Literature
Study of selected writers from 1660 to 1789. With prior permission of graduate advisor may be repeatable once for credit.
Prerequisite: Classified standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

ENGL 232. Seminar in Romanticism
Study of selected British writers from the late eighteenth and early nineteenth centuries. With prior permission of graduate advisor may be repeatable once for credit.
Prerequisite: Classified standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

ENGL 233. Seminar in the Victorian Period
Study of selected British writers from 1832 to 1900. With prior permission of graduate advisor may be repeatable once for credit.
Prerequisite: Upper division standing.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

ENGL 240. Poetry Writing Workshop
Poetics and poetry writing as preparation for thesis. Includes theory and practice of major trends in contemporary poetry. Intensive workshop experience. With prior permission of graduate advisor may be repeatable once for credit.
Prerequisite: Graduate standing and admission via portfolio acceptance to the Writing Focus.
Repeatable for credit
Normal Grade Rules
4 units

ENGL 241. Fiction Writing Workshop
Fiction writing as preparation for thesis. Study of canonical and contemporary fiction and fiction produced by students. Intensive workshop experience. May be repeatable twice for credit.
Repeatable for credit
Normal Grade Rules
4 units

ENGL 242. Nonfiction Writing Workshop
Nonfiction writing as preparation for thesis. Study and critique of canonical and contemporary nonfiction. Intensive workshop experience. May be repeatable for credit for up to 12 units.
Repeatable for credit
Normal Grade Rules
4 units

ENGL 253. Seminar in Period Studies of American Literature
Focuses on a period of American literature such as Colonial, Revolutionary/Federal, Romantic, Realist, Modernist, Post-modernist. With prior permission of graduate advisor may be repeatable once for credit.
Prerequisite: Classified standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

ENGL 254. Seminar in Genre Studies of American Literature
Focuses on a genre of American Literature such as poetry, the novel, the short story, drama, autobiography, the personal and/or philosophical essay. With prior permission of graduate advisor may be repeatable once for credit.
Prerequisite: Classified standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

ENGL 255. Seminar in Thematic Studies of American Literature
Focuses on development of a theme in American Literature. With prior permission of graduate advisor may be repeatable once for credit.
Prerequisite: Classified standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

ENGL 256. Seminar in Twentieth Century British Literature
Study of selected British writers since 1900. With prior permission of graduate advisor may be repeatable once for credit.
Prerequisite: Classified standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

ENGL 257. Seminar in the History of Rhetoric
Study of rhetorical theory and practice from classical to modern times.
Prerequisite: Classified standing or instructor consent.
Repeatable for credit
Normal Grade Rules
4 units

ENGL 258. Seminar in Composition Studies
Study of current approaches to composition.
Prerequisite: Classified standing or instructor consent.
Normal Grade Rules
4 units

ENGL 259. Literary Practicum
This course prepares Creative Writing graduate students to take the MFA exam and develop and begin writing an MFA thesis. Customize the MFA exam reading list, prepare to take the MFA comprehensive exam, draft the thesis abstract and thesis preface.
Prerequisite: Approval of thesis proposal
Credit / No Credit
4 units

ENGL 291. Supervision
Continued work on thesis or project.
Prerequisite: Approval of thesis proposal
Repealable for credit
Mandatory CR/NC/RP
1-6 units

ENGL 292. Thesis Proposal
Preparation
Prerequisite: Classified standing or instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

ENGL 293. Master’s Thesis or Project
Prerequisite: Admission to candidacy for the master’s degree.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

NO DEGREE CREDIT

ENGL 1290R. Culminating Experience Supervision
Continued work on thesis or project.
Prerequisite: Outstanding RP grade in a preceding semester in a project or thesis class
Note: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit
ENGLISH EDUCATION

UPPER DIVISION

ENED 184Y. Student Teaching II - Classroom Teaching
Minimum of 75 periods of classroom teaching, laboratory or field teaching in appropriate subject, grades 7-12, plus related school activities and seminar. Course is repeatable for credit in the same term.
Prerequisite: ENED 353.
Repeateable for credit
Credit / No Credit
4 units

ENED 184Z. Student Teaching III - Classroom Teaching
Notes: May be in a different subject/school and will be at a different grade level. Includes final summary project for student teaching.
See ENED 184Y.
Repeateable for credit
Credit / No Credit
4 units

ENED 353. Methods of Teaching English
Theory and practice of teaching literature and language arts to a diverse student population. Strategies for planning and implementing curricula appropriate to junior and senior high school.
Prerequisite: Instructor consent.
Normal Grade Rules
3 units

ENED 365. Seminar in English Education
Topics in English Education for middle and high school English teachers.
Prerequisite: Acceptance into the English Credential Program.
Repeateable for credit
Credit / No Credit
2 units
Environmental Studies,
Department of Courses

ENVS 001. Introduction to Environmental Issues
What effects are human activities having on the natural environment and our quality of life? Discover the technical and social causes of environmental degradation; learn how your personal and career choices can protect the environment for current and future generations. GE Area: D3
Normal Grade Rules
GE: D
3 units
ENVS 010. Life on a Changing Planet
An introduction to basic knowledge and theory in the life sciences, focusing on the theme of environmental change. Examines challenging issues in biology and methods for evaluating conflicting data and claims. Develops students' analytical and writing skills. GE Area: B2
Prerequisite: As required for Core GE courses in B2.
Normal Grade Rules
GE: B
3 units
ENVS 100W. Environmental Research and Writing
Advanced research and writing skills for future environmental professionals. Focus on issues, literature and challenges associated with environmental writing. Emphasis on writing for technical and general audiences. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing. Declared major in environmental studies.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE: Z
3 units
ENVS 105. Environmental Change and Problems, San Francisco Bay Area
Systematic inquiry into physical environments of the San Francisco Bay Area, with emphasis on impacts and changes to those systems by human action. Analysis of public action and policies regarding regional environmental issues.
Prerequisite: ENVS 1 and ENVS 100W.
Notes: Offered only occasionally.
Normal Grade Rules
3 units
ENVS 106. Exploring Ocean Environments
Understand human interactions with marine environments by exploring the ocean as a place of socio-ecological encounter. Students learn and employ interdisciplinary approaches to conceptualizing, knowing, exploiting, and managing ocean environment.
Normal Grade Rules
3 units
ENVS 107. Introduction to Environmental Economics and Policy
Analysis of basic economic and political factors related to the environmental crisis. Surveys policy approaches to the problem: regulation, taxes, subsidies, cost benefit analysis.
Prerequisite: ECON 1B or instructor consent.
Normal Grade Rules
3 units
ENVS 108. Cost-Benefit Analysis
See ECON 108.
Normal Grade Rules
4 units
ENVS 110. Resource Analysis
Quantitative analysis of Earth's natural resources. Topics typically include the status and trends of resources such as topsoil, agriculture, water, energy, wildlife and the impacts of human population growth on these resources. Emphasis is on problem solving and computational methods applied to resource management problems.
Prerequisite: ENVS 001, ENVS 010, STAT 095.
Misc/Lab: Lecture 4 hours/lab 3 hours.
Normal Grade Rules
4 units
ENVS 111. Geology and the Environment
See GEOL 111.
Normal Grade Rules
3 units
ENVS 112. Hazardous Waste
Familiarization with major environmental problems through study of federal, state and regional regulation of hazardous waste management. Methods of treatment, disposal and destruction.
Prerequisite: Junior standing, two semesters chemistry and biological science or instructor consent.
Normal Grade Rules
3 units
ENVS 113. Atmospheric Pollution
See METR 113.
Normal Grade Rules
GE: R
3 units
ENVS 116. Solar Energy Analysis
Provides a comprehensive overview of sustainable solar energy resources, economics, and policy. Includes a review of basic solar energy physics and interdisciplinary analysis of economic, social justice and environmental strategies for a solar powered civilization.
Prerequisite: ENVS 119, PHYS 002A, and PHYS 002B or instructor consent.
Normal Grade Rules
3 units
ENVS 117. Human Ecology
Diversity and similarity of human adaptation, cultural evolution, cultural change and environmental modification in African, Asatric, Oceanic and Latin American cultural groups. Emphasis: traditional non-Western conservation practices and their lessons for the modern-day resource manager.
Prerequisite: ENVS 1, ENVS 10 and ENVS 100W, or instructor consent.
Normal Grade Rules
3 units
ENVS 118. Sustainable Home Gardens
Techniques for designing landscape gardens which are sustainable in the various biomes of California. Students first research, explore, and photograph California native plant communities. Then, they design a California native home garden based on their field investigations and principles of ecology.
Prerequisite: ENVS 001 or instructor consent.
Misc/Lab: Lecture 3 hours / Activity 2 hours
Repeatable for credit
Normal Grade Rules
4 units
ENVS 119. Energy and the Environment
Introduces students to the sources of energy that fuel industrial civilization and the environmental impacts of energy extraction, distribution, and consumption. Explores a range of approaches to moving society toward a more sustainable energy future. GE Area: R
Prerequisite: Upper Division Standing, Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: R
3 units
ENVS 121. Population and Global Change
See GEOG 121.
Normal Grade Rules
3 units
ENVS 124. Introduction to Environmental Law
Development, interpretation, application and enforcement of environmental laws, regulations and legal policies by legislatures, courts, administrative agencies and citizens. Examination of air and water quality, hazardous materials, workplace, land use and wetlands regulation, international, ethical and efficacy issues. Prerequisite: ENVS 1 or Instructor Consent.
Normal Grade Rules 3 units

ENVS 125. Advanced Environmental Law
Detailed evaluation of practical environmental law problems. Students use an interdisciplinary approach, combining evaluation of technical data with review and application of law and policy. Extensive legal analysis and writing. Prerequisite: ENVS 1 and ENVS 124.
Normal Grade Rules 3 units

ENVS 126. Environmental Ethics and Philosophy
See PHIL 126.
Normal Grade Rules 3 units

ENVS 127. Community-Based Participatory Research
This course integrates interdisciplinary theory and practice in developing a situated understanding of community-based participatory research (CBPR) toward redressing environmental inequities. Students will apply these theories and practices in their own environmental research and advocacy projects regarding local environmental issues. Prerequisite: Upper Division Standing.
Normal Grade Rules 3 units

ENVS 128. Water Resource Management
Water uses and supplies; water resource measurement methods; hydrology, erosional processes; sediment production and transport particularly on Northern California coastal watershed; flood hazards and methods of control; groundwater and groundwater aquifers; water quality. Prerequisite: ENVS 129 and STAT 095 or appropriate math course, or instructor consent.
Normal Grade Rules 3 units

ENVS 129. Water Policy in the Western U.S.
Water resource development, federal reclamation policy, water law and water rights; interbasin transfers; Colorado River, Central Valley Project and State Water Project; groundwater overdrafting; agricultural water and water pricing. Prerequisite: ENVS 001 or Instructor Consent.
Normal Grade Rules 3 units

ENVS 130. Energy Policy Analysis
Energy policy questions and examination of choices including energy pricing, options for controlling oil imports, incentives for reducing consumption, allocation and end use controls, synthetic fuel production, offshore oil development. Prerequisite: Upper division standing.
Normal Grade Rules 3 units

ENVS 131. Air Pollution Meteorology
See METR 131.
Normal Grade Rules 3 units

ENVS 132. Solar Home Design
Techniques for designing environmentally-sensitive, healthy, passive solar homes via site selection, energy conservation, lighting, non-hazardous natural building materials. Residential passive solar heating and cooling approaches for retrofits and new construction. For homeowners, teachers, professional designers and architects. Prerequisite: ENVS 001 or instructor consent.
Normal Grade Rules 3 units

ENVS 133. Sustainable Energy Strategies
Challenges and opportunities facing sustainable energy pathways for heat, fuel, and electricity with a focus on energy efficiency, solar, wind, geothermal, bioenergy, alternative modes of transportation and other energy consuming infrastructures. Prerequisite: ENVS 119, PHYS 002A, and PHYS 002B or instructor consent.
Normal Grade Rules 3 units

ENVS 135. U.S. Environmental Policy
See POIS 135.
Normal Grade Rules 3 units

ENVS 136. Intro to Land Use and Urban Planning
See URBP 136.
Normal Grade Rules 4 units

ENVS 137. Green Building Design Issues
Provides an overview of green building design strategies based on renewable energy, water conservation, healthy interior design, beneficial building orientation, native landscaping, sustainable building materials; includes economics, policy, and green building auditing and certifications. Prerequisite: Upper division standing.
Normal Grade Rules 3 units

ENVS 140. Politics and the Environment
Application of different political strategies to local issues examined through examples from specific environmental challenges facing the Bay Area. Considers relative contributions of the public, elected officials, government employees and interest groups in environmental decision-making. Prerequisite: ENVS 1, ENVS 107 and ENVS 124 or instructor consent.
Normal Grade Rules 3 units

ENVS 142. Introduction to Environmental Planning
See URBP 142.
Normal Grade Rules 4 units

ENVS 144. California Wetland Controversies
Impact of agriculture, urbanization and other human land uses upon the California coastal wetlands with emphasis on current environmental problems and controversies. State public agencies concerned with vital environmental problems and analysis of current environmental legislation. May be repeated for a maximum of 8 units.
Prerequisite: ENVS 1 or instructor consent.
nMisc/Lab: Lecture 4 hours/lab 4 hours.
Repeatability: for credit
Normal Grade Rules 4 units

ENVS 146F. Communication and the Environment
See COMM 146F.
Normal Grade Rules 4 units

ENVS 148. Sustainable Materials Management
Focuses on practical understanding and approaches to managing discarded materials for sustainability. An interdisciplinary perspective that includes politics, business, economics, marketing, science, and environmental principles. Provides direct experience through field trips and service learning.
Prerequisite: ENVS 1 or instructor consent.
nMisc/Lab: Lecture 3 hours/2 hours lab
Normal Grade Rules 4 units

ENVS 150. Introduction to Environmental Thought
An introduction to significant works in the field of environmental studies. Topics covered include preservation, conservation, biocentrism, environmental justice, eco-feminism, deep ecology, and environmental activism. GE Area: S
Prerequisites: Pass the WST before enrollment. Upper division standing or instructor consent.
Normal Grade Rules
GE: S
3 units
ENVS 151. Race, Poverty and the Environment
See AFAM 151.
Normal Grade Rules
3 units

ENVS 152. Globalization and the Environment
Scientific approach to goods distribution worldwide, and environmental consequences of shipping materials and packaging, which when discarded become waste. Mutual interests of commerce and environment. GE Area: R.
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LDL 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: R
3 units

ENVS 154. Sustainable Agriculture
Analysis of and practicum in environmentally sustainable methods of food production, emphasizing biological diversity, water conservation, air quality, social equity and economic justice. Special focus on primary research in natural and social sciences for sustainable agriculture. Field trips and labs.
Prerequisite: ENVS 001 and GE B2 course, or instructor consent.
Misc/Lab: Lecture 3 hours/lab 2 hours.
Normal Grade Rules
4 units

ENVS 156. Introduction to Local Transportation Planning
See URBP 156.
Normal Grade Rules
4 units

ENVS 158. Environmental Education
Education of individuals can make a difference in protecting the environment. Comprehensive overview from the perspective of schools, American culture and law. Interdisciplinary approaches for correcting conditions created by modern living, energy and environmental demands.
Prerequisite: ENGL 1A and ENGL 2, upper division standing or instructor consent.
Normal Grade Rules
3 units

ENVS 159. Nature and World Cultures
See AMS 159.
Normal Grade Rules
GE: V
3 units

ENVS 160. Topics in Environmental Planning
See URBP 160.
Repeatable for credit
Normal Grade Rules
4 units

ENVS 161. California Wildlands
Discussion and field analysis of California’s wildlands, including the range of biodiversity, associated agencies, environmental issues, policy choices and management approaches to protect different types of open space.
Prerequisite: ENVS 001 and ENVS 100W
Misc/Lab: 3 hours lecture/ 2 hours lab
Normal Grade Rules
4 units

ENVS 165. National Parks
See GEOG 165.
Normal Grade Rules
3 units

ENVS 166. Nature and Conservation Photography
Still photography of nature and illustrative conservation subjects in both color and black and white. Theory critique sessions supplemented with field experience. May be repeated for a maximum of 8 units.
Prerequisite: Photo experience or instructor consent.
Misc/Lab: Lecture 2 hours/activity 4 hours.
Repeatable for credit
Normal Grade Rules
4 units

ENVS 167. Managing Environmental Issues
See BUSS 167.
Normal Grade Rules
3 units

ENVS 168A. Global Climate Change I
See COMM 168A.
Normal Grade Rules
6 units

ENVS 168B. Global Climate Change II
See COMM 168B.
Normal Grade Rules
GE: RS
3 units

ENVS 169. Introduction to Social Media in Planning
See URBP 169.
Normal Grade Rules
1-4 units

ENVS 170. Introduction to Environmental Health and Safety
An overview of environmental health and safety issues that affect industry and government, including regulatory framework and basic technical elements; course covers historical and legislative background, risk management and training required in the field.
Prerequisite: ENVS 100W.
Normal Grade Rules
3 units

ENVS 173. Forest Ecology and Conservation
A field based course designed to provide students with the conceptual framework and practical tools necessary for understanding the ecology and conservation of local forest ecosystems. Topics covered include forest restoration, succession, wildlife, diversity, natural and human disturbance, and the history of forest management.
Prerequisite: ENVS 01, ENVS 10, or upper division standing.
Misc/Lab: Lecture 3 hours/lecture 2 hour/lab.
Normal Grade Rules
4 units

ENVS 178. Intro to Regional Transport Planning
See URBP 178.
Normal Grade Rules
4 units

ENVS 179A. Fundamentals of GIS for Urban Planning
See URBP 179A.
Normal Grade Rules
4 units

ENVS 181. Environmental Resource Center
Supervised projects that support the Environmental Resource Center, a source of sustainability information and activities for the campus and community; projects help students take personal action toward achieving a sustainable lifestyle.
Prerequisite: ENVS 001 or instructor consent.
Misc/Lab: Activity 2-6 hours.
Repeatable for credit
Credit / No Credit
1-3 units

ENVS 184. Directed Reading
Directed reading in an environmental subject to gain broader knowledge.
Prerequisite: Specific proposal to or need defined by department, with consent of faculty.
Credit / No Credit
1-4 units

ENVS 185. Environmental Impact Analysis
Current environmental impact reports subjected to critical review; determination of alternative procedures and mitigating opportunities; extensive field analysis and practice.
Prerequisite: ENVS 001, ENVS 124 or instructor consent.
Misc/Lab: Lecture 3 hours/lab 2 hours.
Normal Grade Rules
4 units
ENVS 187. Environmental Restoration
Interdisciplinary art and science of restoring destroyed or degraded habitats. Emphasis on the interplay of ecological principles, policy, public involvement and economics in the planning, implementation and monitoring of restoration plans. Field work and independent research required.
Prerequisite: ENVS 001, GE B2 course and any 100W, or instructor consent.
Misc/Lab: Lecture 3 hours/lab 2 hours.
Normal Grade Rules
4 units

ENVS 189. Coastal Field Studies
Introduction to coastal processes, resources, policy, and conservation. Course emphasizes environmental issues, human impact, and protection efforts focusing on adapting to coastal change. Students conduct research and participate in local field trips along the California coast.
Prerequisite: ENVS 1.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
4 units

ENVS 190. Advanced Environmental Impact Assessment
Advanced work in the field of environmental impact assessment. Analysis of EIA documents for regulatory adequacy, consistency with local planning documents and technical accuracy.
Prerequisite: ENVS 185 or instructor consent.
Misc/Lab: Lecture 3 hours/lab 2 hours.
Normal Grade Rules
4 units

ENVS 191. Advanced Environmental Restoration
Advanced restoration research and applications. Emphasis on independent literature research and field data collection. Participation in on-going restoration project. Fieldwork and grasp of restoration principles required.
Prerequisite: ENVS 187.
Misc/Lab: Lecture 3 hours/lab 2 hours.
Notes: Offered only occasionally.
Normal Grade Rules
4 units

ENVS 193. Supervised Projects and Research
Projects and/or research to build practical environmental skills. Work on or off campus on projects with direct social value.
Prerequisite: Upper division standing.
Repeatable for credit
Normal Grade Rules
1-15 units

ENVS 194. Environmental Internship
Service in a local, city, county, state or federal environmental/sustainability agency, school or in environmental/sustainability industry, or with a worthwhile environmental education or protection organization or center.
Prerequisite: Senior standing in Environmental Studies
Repeatable for credit
Credit / No Credit
1-9 units

ENVS 195. Instructor Assistant in Environmental Studies
Experience as a tutor assistant in classroom demonstrations, field techniques and discussion. May be repeated for a 4 unit maximum, but not for same course or instructor.
Prerequisite: Senior standing, ENGL 1A, instructor consent and appropriate academic background.
Repeatable for credit
Credit / No Credit
1-3 units

ENVS 197. Introduction to Tropical Studies
Culmination of interdisciplinary curriculum in environmental studies through integration and critical assessment of the field. Goal is transition from undergraduate experience to full professionalism.
Prerequisite: Filed for graduation, completion of Environmental Studies core, including ENVS 100W.
Normal Grade Rules
3 units

ENVS 198. Senior Seminar
Thesis demonstrating grasp of environmental subjects and principles, ability to research in depth particular environmental problems and facility at recommending practical solutions.
Prerequisite: Senior standing in Environmental Studies, completion of all Environmental Studies core requirements and university 100W writing requirement.
Credit / No Credit
3 units

ENVS 199. Senior Thesis
Thesis demonstrating grasp of environmental subjects and principles, ability to research in depth particular environmental problems and facility at recommending practical solutions.
Prerequisite: Senior standing in Environmental Studies.
Credit / No Credit
3 units

ENVS 200. Seminar: Environmental Methods
Rigorous analysis of methods used by social, physical and natural scientists in assessing a region’s natural resources and quality of environment. Environmental application of such techniques as field methods, maps, social surveys and project evaluation. Critique of individual research proposals.
Description: ENVS 297 and consent of graduate advisor.
Normal Grade Rules
3 units

ENVS 210. Current Topics in Environmental Studies
An investigation of current research topics in the field of Environmental Studies. Lectures by faculty, visiting scholars, and Master’s student candidates are accompanied by class discussions and analysis of academic journal articles.
Prerequisites: Graduate Student Standing or instructor consent
Repeatable for credit
Credit / No Credit
1-3 units

ENVS 230. Seminar: Environmental Theory
Intensive probe into interdisciplinary research and theories related to natural resources and environmental management. Applications of these theories to the present-day concerns of the resource manager and environmental professional. Oral critiques of various theories, advanced individual research paper and presentation.
Prerequisite: Graduate standing in Environmental Studies or instructor consent.
Normal Grade Rules
3 units

ENVS 250. Seminar: Environmental Thought and Philosophy
An in-depth critical analysis of significant works in the field of environmental studies. Topics covered include preservation versus conservation, biocentrism, environmental justice, eco-feminism, deep ecology, and environmental activism. Individual student research is presented with oral and written reports.
Prerequisite: Graduate standing in Environmental Studies or instructor consent.
Normal Grade Rules
3 units

ENVS 260. Computer Applications in Environmental Analysis
Overview of environmental simulation software used by professionals to investigate design alternatives and decision-making in the social and life sciences. Application of model designs to individual projects.
Prerequisite: Graduate standing in Environmental Studies or instructor consent.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Repeatable for credit
Normal Grade Rules
3 units
An intensive field investigation of water resource agencies and projects to acquaint resource managers, environmental quality specialists and other interested students with projects and philosophies unique to particular geographic areas.
Prerequisite: Upper division standing and ENVS 128 or ENVS 129, or instructor consent.
Misc/Lab: Lecture 4 hours/lab 2 hours.
Normal Grade Rules
4 units

ENVS 284. Directed Reading for Graduate Students
Directed reading on an environmental subject to assist graduate-level research thesis development. Analysis of peer-reviewed and grey literature; development of a literature review.
Prerequisite: Graduate student standing or instructor consent
Repeatable for credit
Credit / No Credit
3 units

ENVS 285. Graduate Internship
Advanced service in a local, city, county, state agency, federal agency or environmental industry.
Prerequisite: Graduate standing in Environmental Studies or instructor consent.
Repeatable for credit
Credit / No Credit
3-9 units

ENVS 291. Advanced Topics in Environmental Restoration
High-level restoration research and applications for advanced students. Emphasis on independent literature research and field data collection/analysis. Participation in ongoing restoration project and/or thesis research. Fieldwork and grasp of restoration principles required.
Repeatable for up to 8 units of credit.
Prerequisite: Graduate standing and ENVS 187 or equivalent, or instructor consent.
Misc/Lab: Lecture 4 hours/Activity 2 hours.
Repeatable for credit
Normal Grade Rules
4 units

ENVS 295. Graduate Teaching Assistant
Teaching experience in environmental studies at the college level. Does not meet requirements for California Certification in Elementary or Secondary Education. May be repeated for maximum of 6 units, but not for same course or instructor.
Prerequisite: Graduate standing in Environmental Studies or instructor consent.
Repeatable for credit
Credit / No Credit
3 units

ENVS 297. Research and Proposal Development
Students develop their thesis topic through extensive literature research. The product will be a draft thesis proposal to be circulated among potential committee members.
Prerequisite: Graduate Standing in Environmental Studies or consent of instructor.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
3 units

ENVS 298. Special Study
Advanced individual research and projects.
Prerequisite: Graduate standing in Environmental Studies or instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

ENVS 299. Master’s Thesis or Project
Masters thesis research.
Prerequisite: Graduate standing in Environmental Studies or instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

ENVS 1290R. Culminating Experience Supervision
Continued work on dissertation, thesis, or project or in preparation for comprehensive exams beyond the minimum required units for cases in which final deliverables are still in progress and all other degree requirements except the culminating experience have been fulfilled.
Prerequisite: Outstanding RP grade in a preceding semester in a project or thesis class
Note: No Degree Credit.
1 unit
Film and Theatre, Department of Courses

RADIO-TELEVISION-FILM

LOWER DIVISION

**RTVF 010. The Art of Film**
Study of the formal, aesthetic, historical, and cultural contexts of film as an art form. GE Area: C1
Prerequisite: Instructor consent
Normal Grade Rules
GE: C
3 units

**RTVF 020. Introduction to Sound Production**
Fundamentals of sound production.
Misc/Lab: Lecture 2 hours/Activity 2 hours.
Normal Grade Rules
3 units

**RTVF 021. KSJS On-Air Operations**
On-Air operation of campus radio station KSJS-FM, FCC, equipment, D.J. interview, sports; all activities and processes required for live broadcasting, music, public service and community service programming.
Misc/Lab: Lecture 1 hour /Activity 4 hours.
Normal Grade Rules
3 units

**RTVF 030. Introduction to Film/TV Production**
Fundamentals of film and television production.
Misc/Lab: Lecture 2 hours/Activity 2 hours.
Normal Grade Rules
3 units

**RTVF 031. Film and Television Aesthetics**
Aesthetic analysis of video, film, and related new electronics media based on an examination of fundamental image and sound elements.
Normal Grade Rules
3 units

**RTVF 080. Introduction to Media**
Analysis of the history and evolution of radio (audio) and television (video) in the U.S. Examination of programming, government regulation, advertising, networking, development of electronic media technologies and world media systems.
Normal Grade Rules
3 units

**RTVF 082. Introduction to Film History**
The history and evolution of the motion picture from 1895 to 1945. Viewing of representative films, study and discussion of major world film movements, important directors, and key genres.
Normal Grade Rules
3 units

UPPER DIVISION

**RTVF 110. Media and Culture**
Critical survey of roles played by electronic media in shaping culture. Media institutions are examined regarding information they distribute, entertainment they provide and influence they bring. Analysis of media sources, messages and audiences. GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: S
3 units

**RTVF 111. Alternative Cinema**
Uses films from previously marginalized national cinemas from around the world as primary sources to teach students to appreciate, understand and compare diverse cultures. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Repeatable for credit
Normal Grade Rules
GE: V
3 units

**RTVF 120. Intermediate Sound Production**
Intermediate sound recording and post-production techniques (audio and radio KSJS-FM).
Prerequisites: RTVF 020, RTVF 030 and RTVF 031, upper division standing or instructor consent.
Misc/Lab: Lecture 2 hours /Activity 2 hours.
Normal Grade Rules
3 units

**RTVF 121. KSJS-FM Radio Activity**
Student participation in radio with KSJS-FM and Update News. Activities supervised by area faculty. Repeatable, but up to 6 units may be used for graduation.
Prerequisite: Instructor consent
Repeatable for credit
Credit / No Credit
1-3 units

**RTVF 122. KSJS Station Operation & Mgmt**
Structure and operation of non-commercial radio station KSJS-FM. Theory and practice of radio management, programming, production, public service, sales and engineering.
Prerequisite: Appointment to KSJS management staff or instructor consent.
Misc/Lab: Lecture 3 hours/Activity 4 hours
Repeatable for credit
Normal Grade Rules
3 units

**RTVF 130. Intermediate Film & TV Production**
Techniques of film and television production.
Prerequisite: RTVF 020, RTVF 030 and RTVF 031, upper division standing or instructor consent.
Misc/Lab: Lecture 2 hours/Activity 2 hours.
Normal Grade Rules
3 units

**RTVF 131A. Post Production: Color Correction**
Post production course with emphasis on color correction of film and television production projects.
Prerequisite: RTVF 130 or instructor consent.
Misc/Lab: Lecture 3 hours/Lab 2 hours
Normal Grade Rules
3 units

**RTVF 131B. Post Production & Delivery**
Post production techniques and associated delivery of film and television projects.
Prerequisite: RTVF 130 or instructor consent.
Misc/Lab: Lecture 2 hours/Lab 3 hours.
Normal Grade Rules
3 units

**RTVF 132A. Introduction to Cinematography**
This is the first in-depth course in cinematography. You will achieve an understanding of the principles of motion picture photography through lecture, discussions, projects and screenings; develop the skills of the cinematographer by shooting exercises during and outside of the class, and acquire an appreciation of the art of and technology of cinematography.
Prerequisite: RTVF 030 or Instructor Consent
Misc/Lab: Lecture 3 hours/Activity 2 hours.
Normal Grade Rules
3 units

**RTVF 132B. Advanced Cinematography**
This is an advanced, in-depth course in cinematography. The course consists of mostly hands-on practice, with lectures as needed. Dramatic scenes will be filmed in realistic production shooting situations, both in the studio and on location. Scripts to be photographed will be selected by the professor and the students, based on the challenges they present.
Prerequisite: RTVF 131A or Instructor Consent
Misc/Lab: Lecture 3 hours/Lab 3 hours.
Normal Grade Rules
3 units

**RTVF 133. Film & TV Production Management**
Analysis of film and television organization and programming concepts, including production management, decision-making processes, technical script breakdown, and its relation to budgeting and finance.
Prerequisite: RTVF 120, RTVF 130, upper division standing or instructor consent.
Normal Grade Rules
3 units
### RTVF 135. RTVF Production: Special Projects
Principles, procedures and techniques of radio, television and film production. Use of cameras, sound, lighting, pictorial composition, cinematic effects, color and editing. See department office for specific project information.
Prerequisite: RTVF 020, RTVF 030, upper division standing or instructor consent.
Misc/Lab: Lecture 2 hours/Activity 2 hours.
Repeatable for credit
Normal Grade Rules
3 units

### RTVF 136. Advanced Film & TV Production
Creation, production and direction of senior-level short dramatic or informational film and television projects.
Prerequisite: Upper division standing or instructor consent.
Misc/Lab: Lecture 2 hours/Activity 2 hours.
Normal Grade Rules
3 units

### RTVF 160. Introduction to Screenwriting
Basic principles and practices in writing scripts for film and/or television.
Prerequisite: RTVF 020, RTVF 030 and TA 100W, upper division standing or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

### RTVF 161. Advanced Screenwriting
Each student develops an original screenplay through several drafts in this workshop. Drawing on constructive feedback from classmates and instructor. The course focuses on dramatic structure, character and plot development as well as visual language of the screen.
Prerequisite: RTVF 160.
Normal Grade Rules
3 units

### RTVF 1805. Individual Studies
Directed study (special production or research projects) in specified fields not covered by offered courses.
Prerequisite: Instructor Consent
Repeatable for credit
Normal Grade Rules
1-3 units

### RTVF 181. Modern Film History
The history and evolution of the motion picture after 1945. Viewing of representative films, study and discussion of major world film movements, important directors, and key genres.
Prerequisite: RTVF 082, upper division standing or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

### RTVF 183. Critical Studies & Research in RTVF
Critical and scholarly inquiry into established and emerging areas of criticism, theory and research in RTVF studies. Production of scholarly criticism and research suitable for delivery at an academic conference or submission to a refereed journal.
Prerequisites: RTVF 010, RTVF 080, upper division standing or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

### RTVF 185. Special Topics in RTVF
Special topics in radio, television and film. Repeatable for credit two times as topics change. See department office for specific topic information.
Prerequisite: RTVF 010, RTVF 080, RTVF 110, RTVF 180, upper division standing or instructor consent.
Notes: See department office for specific information.
Repeatable for credit
Normal Grade Rules
3 units

### RTVF 198. RTVF Internships, Portfolio, Career Prep
Supervised internships with approved radio, television, film or media organizations. Written evaluation submitted by sponsor and student after field work.
Repeatable for credit up to 6 units.
Misc/Lab: Lecture 3 hours/Activity 9 hours.
Repeatable for credit
Normal Grade Rules
3 units

### RTVF 199H. Honors Program
See TA 199H.
Repeatable for credit
Credit / No Credit
2-3 units

### THEATRE ARTS

#### LOWER DIVISION

### TA 005. Acting
Basic acting class for non-theatre arts majors. Exploration of inner and external resources for performance; analysis of text and character; guidelines for successful rehearsal and performance. Learning to be seen, heard, understood and believed. GE Area: C2
Normal Grade Rules
GE: C1
3 units

### TA 010. Theatre Appreciation
Study of the historical and cultural contexts of theatre around the world. Seeing and critical writing about plays. Hands-on experiences in the arts and crafts of live theatre. GE Area: C1
Normal Grade Rules
GE: C1
3 units

### TA 011. Script Analysis
Detailed analysis of dramatic and screenplay scripts related to performance and production.
Normal Grade Rules
3 units

### TA 013. Great Comedies for Theatre
This course is designed to introduce students to comedic dramatic literature and the performance techniques to stimulate the proper audience response. GE Area: C2
Normal Grade Rules
GE: C2
3 units

### TA 015. Voice and Diction
Voice production and articulation for the performer. Voice and speech improvement through guided exercises in posture/relaxation, respiration, phonation, resonance and articulation. Standard American diction taught through use of the International Phonetic Alphabet.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

### TA 017. Intermediate Acting
Analysis, internal methods and characterization for playing scenes. Lab exercises in disciplined stage movement.
Prerequisite: TA 5 and TA 11 (can take TA 11 concurrently with TA 17).
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

### TA 048. Voice & Movement for the Actor
Course focuses on using voice & movement to understand different stages of human life, in its biological and cultural configurations we bring to the stage. Voice and movement shapes, units and differentiates our communications and expressions as performers. GE Area: E
Normal Grade Rules
GE: EE
3 units

### TA 051A. Scenery and Props for the Performing Arts
Introduction to facilities, materials and tools; safety guidelines for production shop and stage. Standard construction techniques and production vocabulary.
Note: Lec and Misc/Lab
Normal Grade Rules
1 unit

### TA 051B. Costume for the Performing Arts
Costume production laboratory introducing costume construction techniques and materials, basic alteration techniques, costume craft techniques; costume shop organization, management, personnel and equipment.
Misc/Lab: Activity 2 hours.
Normal Grade Rules
1 unit
TA 051C. Stage Management for the Performing Arts
Stage management practices including responsibility, communication, audition and rehearsal supervision, audience services coordination and working relationship with performance and production staff. Health and safety issues for performers and technical staff.

Misc/Lab: Activity 2 hours.
Normal Grade Rules
1 unit

TA 055. Intro to Design for Theatre
An introduction to the expansive field of visual and audio design for the performing arts, including scenic design, costume design, lighting design, sound design, and video/projection design. In exploring the practice of these rapidly evolving forms, students will exercise strategies for applying creative, fine-arts based solutions to a variety of challenges. Students will learn how theatrical designers collaborate and respond to literary prompts, such as play scripts, with art and technology to create physiological environments that impart psychological and social meanings.

Students will also have opportunities to participate directly in university productions through a hands-on practicum (lab) component.

Misc/Lab: 2 hours of Activity
Normal Grade Rules
3 units

TA 064. Make-up for Performing Arts
Makeup techniques for stage, television, film and print. Course covers makeup design, makeup materials and two dimensional application techniques. Laboratory work on actual stage productions, video and film shoots.

Misc/Lab: Lecture/demonstration 2 hours/lab 2 hours.
Normal Grade Rules
3 units

TA 091. Introduction to Tech Theatre Activity
Supervised activity with individual instruction in stage production topics for regularly-scheduled theatre production. Prerequisite: Instructor consent. Repeatable for up to 6 units when topic changes.

Repeatable for credit
Credit / No Credit
1-3 units

UPPER DIVISION

TA 100W. Writing Workshop: Theatre Arts
Development of skills appropriate to the theatre profession: criticism, research, publicity and promotion materials, and cover letter and resume composition. GE Area: Z

Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better);
Completion of core GE, satisfaction of Writing Skills Test and upper division standing. Allowed Declared Majors: Radio/Television/Film, Theatre Arts, Dance, Animation/ Illustration, Special Majors (BA).

Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE: Z
3 units

TA 103. Musical Theatre
The repertoire of musical theatre with intensive training in appropriate acting, singing and dance techniques.

Prerequisite: Upper division standing.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Repeatable for credit
Normal Grade Rules
3 units

TA 113. Acting Techniques and Professional Career Preparation
Activities and production of a dramatic work that presents unusual problems of background, interpretation, style or meaning. Lectures, discussions, readings, rehearsal of play and participation in other aspects of the final production.

Prerequisite: TA 15, TA 5, TA 17 or instructor consent.
Misc/Lab: Lab hours required.
Repeatable for credit
Normal Grade Rules
3 units

TA 116. Directing
Study and discussion of and practice in the fundamental principles of play direction; stage composition, movement, business, tempo, directing procedures, play selection and interpretation; problems in styles, casting and rehearsal and performance.

Prerequisite: TA 13, TA 5 or TA 17, TA 105.
Misc/Lab: Lecture 2 hours/activity 2 hours.
Normal Grade Rules
3 units

TA 117. Practice in Acting or Directing
Director analyzes, casts, rehearses scenes. The actor performs in a variety of roles. Repeatable for credit when content changes.
Prerequisite: TA 17 or TA 16 and instructor consent.
Misc/Lab: Activity 6 hours
Repeatable for credit
Normal Grade Rules
3 units

TA 120. Theatre History
Examines the historical roots, many manifestations, and diversity of theatrical performances with particular attention to theatre’s role within and between cultures. When content changes may be repeated.

Prerequisite: TA 011 or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

TA 121. Topics in Performance History
Examines relations between performance and unique historical/cultural conditions which motivate change or continuity in a specific area of performing arts. Not a historical survey, but a problem-centered course which focuses on developing the power to think historically about performance.

Prerequisite: TA 011 or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

TA 127. Contemporary Theatre
European and American playwrights from 1950 to the present and important theatre practices for this period. GE Area: V

Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units
TA 128. Scriptwriting
Writing in dramatic form: plot structure, characterization, content and theme. Analysis of plays. Exercises in writing. Prerequisite: Upper division standing or instructor consent. Repeatable for credit Normal Grade Rules 3 units

TA 129. Advanced Scriptwriting
Writing in dramatic form—plays, film scripts, television scripts. Study and discussion of models. Criticism of student writing. Prerequisite: TA 128 or RTVF 1 (or equivalent) and instructor consent. Upper division standing or instructor consent. Repeatable for credit Normal Grade Rules 3 units

TA 131. Storytelling
Course focuses on Storytelling and Creative Dramatics to teach Multiple Subject Credential Students theatre techniques. Prerequisite: Upper division standing. Normal Grade Rules 3 units

TA 144. Shakespeare I
See ENGL 144.
Normal Grade Rules 4 units

TA 145. Shakespeare and Performance
See ENGL 145.
Normal Grade Rules 4 units

TA 151. Lighting for Performing Arts
Fundamentals of fixtures, distribution, control, color/diffusion media and systems for lighting stages, video studios, sound stages and locations. Portable and permanent installations examined. Emphasis on state of the art technology. Laboratory work on actual stage presentations, video productions and film shoots. Prerequisite: Upper division standing.
Misc/Lab: Lecture 3 hours/Activity 3 hours Normal Grade Rules 3 units

TA 152. Studies in British Drama before 1800
See ENGL 152.
Normal Grade Rules 4 units

TA 153. Costume Design for Performing Arts
Theory and practice of designing costumes for the performing arts. Presents broad-based understanding of the design process and responsibilities; the importance of collaboration and communication in theatre; and the skill of articulately presenting design ideas visually and orally. Prerequisite: TA 51B or instructor consent.
Misc/Lab: Lecture 2 hours/Activity 2 hours Normal Grade Rules 3 units

TA 154. Scenic Design for Performing Arts
Theory and practice of designing scenery for the performing arts. Presents broad-based understanding of the design process and responsibilities; the importance of collaboration and communication in theatre; and the skill of articulately presenting design ideas visually and orally. Prerequisite: TA 51A or instructor consent.
Misc/Lab: Lecture 3 hours/Activity 3 hours Normal Grade Rules 3 units

TA 155. Model Making & Drafting Film & Television
Explores the processes, methods, tools, and skills used for scale model making and drafting for stage and screen. Prerequisite: Upper division standing or instructor consent.
Misc/Lab: Lecture 2 hours/lab 2 hours. Repeatable for credit Normal Grade Rules 3 units

TA 158. Theatre Design Topics
Discussion of theatre design including scenic, property, costume, makeup, lighting, sound and facility design. Subject matter varies depending on specialty of faculty. Prerequisite: TA 105 and upper division standing.
Misc/Lab: Lecture 2 hours/activity 2 hours. Repeatable for credit Normal Grade Rules 3 units

TA 161. Theatre in Education
Materials, problems and techniques of producing formal dramatic works and for children at the school, community and professional levels. Prerequisite: Upper division standing. Repeatable for credit Normal Grade Rules 3 units

TA 165. Costume Design for Performing Arts
Theory and practice of designing costumes for the performing arts. Presents broad-based understanding of the design process and responsibilities; the importance of collaboration and communication in theatre; and the skill of articulately presenting design ideas visually and orally. Prerequisite: TA 51B or instructor consent. Repeatable for credit Normal Grade Rules 3 units

TA 167. Theatre in Education
Materials, problems and techniques of producing formal dramatic works and for children at the school, community and professional levels. Prerequisite: Upper division standing. Repeatable for credit Normal Grade Rules 3 units

TA 170A. Acting and Directing for the Camera
Acting techniques, voice and microphone use, movement for camera, gesture and the frame, role analysis for non-sequential performance, concentration, relaxation. Preparation, performance and critique of taped scenes. Prerequisite: RTVF 130 or TA 017.
Misc/Lab: Lecture 2 hours/Activity 2 hours. Repeatable for credit Normal Grade Rules 3 units

TA 170B. Advanced Acting and Directing for the Camera
Using the grammar of film and narrative storytelling to direct, produce and write contemporary film and television scenes. Use of single- and multi-camera techniques. Prerequisite: TA 170A or RTVF 132.
Misc/Lab: Lecture 2 hours/Activity 2 hours. Repeatable for credit Normal Grade Rules 3 units

TA 172. The Arts in U.S. Society
See CA 172.
Normal Grade Rules GE: S 3 units

TA 173. Thinking About Contemporary World Arts
See CA 173.
Normal Grade Rules GE: V 3 units

TA 180. Individual Studies
Directed study in specified fields not covered by offered courses. Prerequisite: Department chair consent. Repeatable for credit Credit/No Credit 1-3 units
TA 191. Activity Projects in Theatre Production
Supervised activity with individual instruction in scenic construction, lighting, sound, painting, properties, costuming and makeup for regularly-scheduled production of plays. Repeatable for credit.
Co/Prerequisite: 51A, B, & C or instructors consent.
Misc/Lab: Activity 6 hours
Repeatable for credit
Normal Grade Rules
1 unit

TA 198. Internship
Supervised internships with approved radio, television or theatre organizations. Written evaluation submitted by sponsor and student after field work. Repeatable for credit up to 6 units.
Prerequisite: Junior or senior standing and instructor consent.
Misc/Lab: Lecture 3 hours/Activity 6 hours
Repeatable for credit
Normal Grade Rules
3 units

TA 199H. Honors Program
Demanding project demonstrating student’s ability to do independent action and research. Written thesis or, in the case of the creative project, analysis and evaluation of the aesthetic problem; thesis to be defended orally by the student before a theatre arts staff committee. May be repeated once for credit.
Prerequisite: Senior standing/3.0 GPA; by invitation only.
Repeatable for credit
Credit / No Credit
2-3 units

GRADUATE

TA 225. Seminar in Shakespeare
See ENGL 225.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

TA 231R. Performing Presentational Aesthetics
See COMM 231R.
Normal Grade Rules
4 units
General Engineering Courses

GENERAL ENGINEERING

LOWER DIVISION

ENGR 005. Science of High Technology
Scientific principles underlying commonly used high technology devices and systems such as the computer, cell phone, IPODS, cameras, and the Internet. Emphasizes practical applications of scientific principles to contemporary engineering products and services. GE Area: B1
Normal Grade Rules
GE B1
3 units

ENGR 008Q. Engineering Success
Combination of workshop and lab exercises emphasizing group interaction, communications skills and problem solving for incoming students. May be repeated for a total of 2 units.
Misc/Lab: Activity 2 hours.
Repeateable for credit
Credit / No Credit
1 unit

ENGR 010. Introduction to Engineering
Introduction to engineering through hands-on design projects, case studies, and problem-solving using computers. Students also acquire non-technical skills, such as team skills and the ability to deal with ethical dilemmas. GE Area: E
Prerequisite: Eligible for MATH 019 and Writing Enrollment Category W-I or W-II, or ENGL 1AF with a grade of C- or better.
Engineering Majors Only
Misc/Lab: Lecture 2 hour/lab 3 hours.
Normal Grade Rules
GE EE
3 units

ENGR 011. Intro to Engineering; Transfer Students
Ethical issues related to engineering. Information literacy and communication skills in engineering. Working on multidisciplinary teams on collaborative engineering projects.
Prerequisite: Upper division transfer student in engineering
Normal Grade Rules
1 unit

ENGR 025. The Digital World and Society
The secure, effective and ethical use of information technology. The effect of such technology on people and institutions. Technology-related challenges to society and policy. Frameworks for the analysis of information technology with respect to its cultural, historical, environmental, and spatial contexts. GE Area: D1
Normal Grade Rules
GE D1
3 units

ENGR 060SL. Engineering Projects in Community Service
EPICS is a service-learning course where engineering students work in multidisciplinary teams to undertake community-identified engineering projects. Students will gain insight into design and development processes and perform and report upon tasks consistent with their level of discipline expertise.
Prerequisite: Engineering major; non-remedial Repeatable for credit
Normal Grade Rules
1 unit

ENGR 090W. Technical Writing Workshop
Weekly writing and speaking practice to develop technical communication skills. Repeatable not for graduation credit.
Prerequisite: Referral by engineering faculty.
Repeateable for credit
Credit / No Credit
2 units

UPPER DIVISION

ENGR 100W. Engineering Reports
Regular technical writing assignments and company-focused oral presentations while integrating effects of environmental factors as they relate to products, systems and engineering processes. GE Area: R and Z
Prerequisite: ENGR 120
Completion of core GE, satisfaction of Writing Skills Test (WST) or ENGL/LLD 100A with a C or better.
ENGR 100W is strongly recommended.
ENGR 100W with C- or instructor consent
Normal Grade Rules
GE ZR
3 units

ENGR 108. Green Electronics
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE R
3 units

ENGR 119. Energy and the Environment
See ENVS 119.
Normal Grade Rules
GE R
3 units

ENGR 120. Programming Concepts for Behavioral and Social Science Applications
This course covers the application of Python programming to the fields of behavioral and social sciences, as well as basic building blocks of computers and the Web. This course also covers how programming is used in various careers.
Prerequisite: STAT 095, or MATH 30, or MATH 71
Normal Grade Rules
3 units

ENGR 121. Data Structures and Algorithms for Behavioral and Social Science Applications
Represent and analyze behavioral and social science data using Python and data structures such as classes, trees, and graphs; use related algorithms to solve behavioral and social science problems.
Prerequisite: ENGR 120 with C- or instructor consent
Normal Grade Rules
3 units

ENGR 122. Data Technology for Behavioral and Social Science Applications
Use R programming language to collect, analyze, and present data sets from behavioral and social science applications.
Prerequisite: ENGR 120
Normal Grade Rules
3 units

ENGR 157SL. Community Action/Community Service
See COMM 157SL.
Normal Grade Rules
GE S
3 units
ENGR 160SL. Engineering Projects in Community Service UD
EPICS UD is a service-learning course where upper division engineering students work in multidisciplinary teams to undertake community-identified engineering projects. Students will gain insight into design and development processes and perform and report upon tasks consistent with their level of discipline expertise.
Prerequisite: Engineering major; upper division standing
Repeatable for credit
Normal Grade Rules
1 unit

ENGR 180. Individual Studies
Individual work on special topics, by arrangement.
Prerequisite: Upper division standing and instructor consent.
Allowed Declared Majors: Engineering. Not available to Open University Students.
Repeatable for credit
Credit / No Credit
1-3 units

ENGR 184. Business Strategy in Practice in Technology Enterprise
This course provides students with the practical tools and assessment for applying their business acumen. The first half introduces the students to standard business assessment tools that feed business strategies, such as marketing, business development and M & A. The second half of the course is comprised of developing the basic elements of a formal Business Plan and providing both comprehension and application levels of learning of business strategy.
Prerequisite: BUS 193 or ENGR 193 and BUS 181.
Normal Grade Rules
3 units

ENGR 194. Business Organization and Management of Technology Enterprise
This course provides a “top-down” overview of how commercial business works, including the business components: Corporate Environments, Human Resources, Legal, Marketing, Customer Insights, Management/Leadership. Communication and business soft skills will be covered providing a foundation for a solid business acumen. All class sessions focus on local and global perspectives.
Prerequisite: BUS 193 or ENGR 193.
Normal Grade Rules
3 units

ENGR 195A. Global and Social Issues in Engineering
Interdisciplinary seminar treating social and global impacts of technology and engineering. This integrated GE experience requires students to apply these concepts in their senior project classes. Students must enroll concurrently in their department senior project course Part A. GE Area: S when taken as part of Engineering Major sequence.
Prerequisite: ENGR 100W with a C or better. Engineering Majors only. Completion of Core General Education and upper division standing are prerequisites to all SJSU Studies courses.
Corequisite: Enrollment in major capstone course or equivalent.
Note: Meets GE Areas S and V when course is taken in combination with ENGR 195B and Engineering major specific sequence. Must be passed with a C or better to earn S and V
Repeatable for credit
Normal Grade Rules
GE: S
1 unit

ENGR 195B. Global and Social Issues in Engineering
Second course in a two-course sequence to support the integration of General Education Area S and Area V into the engineering major. Case study approach to the relationship of engineering to social, ethical and cultural aspects of the broader community both in the U. S. and worldwide. GE Area: V when taken as part of Engineering Major Sequence.
Prerequisite: ENGR 195A (with a grade of “C” or better). Engineering Majors Only Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a “C or better” (C-not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Corequisite: Enrollment in major capstone course or equivalent.
Note: To receive credit for GE Areas S and V, students must complete both ENGR 195A and ENGR 195B, each with a grade of C or better. They must also complete their senior project course sequence and earn a grade of C or better in each course. Repeatable for credit
Normal Grade Rules
GE: V
3 units

ENGR 195C. Interdisciplinary Senior Project I
Interdisciplinary team senior design projects. Proposal preparation with feasibility plans and specifications; oral and written reports; professional seminars. GE Area: S when taken as part of an engineering major sequence.
Prerequisites: ENGR 100W, eligible for senior project course in major.
Note: Meets GE Areas S and V when course is taken in combination with: ENGR 195D, ENGR 195A and ENGR 195B
Normal Grade Rules
GE: S
3 units

ENGR 195D. Interdisciplinary Senior Project II
Construction, testing, and evaluation of the design from ENGR 195C culminating in demonstrations and written and oral presentations to faculty, industry mentors and peers. GE Area: V when taken as part of an engineering major sequence.
Prerequisites: ENGR 195C with a grade of “C” or better.
Note: Meets GE Areas S and V when course is taken in combination with: ENGR 195C, ENGR 195A and ENGR 195B
Normal Grade Rules
GE: V
3 units

ENGR 195E. Interdisciplinary Computing Project
Culminating project experience for students to apply computing knowledge and skills to solving problems or generating insights in their chosen area of study such as behavioral and social sciences.
Prerequisite: ENGR 120 or Instructor Consent
Normal Grade Rules
3 units

ENGR 197. Cooperative Education Project
Part or full-time on-site paid work experience based on a pre-approved project assignment in area of student’s career objective. Oral presentations, written final report and evaluation by project supervisor. Approved technical elective.
Prerequisite: Instructor consent.
Normal Grade Rules
3 units

ENGR 198. Technology and Civilization
See TECH 198
Normal Grade Rules
GE: V
3 units
ENGR 200W. Engineering Reports and Graduate Research
Graduate level technical writing workshop designed to develop advanced communication skills that will readily transfer to the engineer's professional needs, along with research methodologies, copyright issues, and proper documentation for the master's thesis project. Prerequisite: Graduate standing or instructor consent.

ENGR 201. Engineering Analysis
Mathematical techniques for solving engineering problems. Topics include linear systems analysis, probability and statistics, and differential equations. Applications include modeling and simulation, optimization, projection, experimental design. Several computer projects are required. Prerequisite: Graduate standing or instructor consent.

ENGR 202. Systems Engineering
Large scale system design and development. Integrated approach including mission statement, synthesis of design concepts, tradeoff studies, risk assessment and interactions encountered in the optimal design, development, manufacture and test of systems. Prerequisite: Graduate standing or instructor consent.

ENGR 203. Engineering Management
Students will develop contemporary expertise in the principles of engineering finance, management, IP, operations management, performance metrics, and their application to design, development, and commercialization of new products and services in dynamic environments. Prerequisite: Graduate standing and instructor consent.

ENGR 204. Computational Analytics In Bioinformatics for Engineers
Project-based study of computational accuracy, precision, completeness, speed, and memory usage of key algorithms used in biological and big data analytics. Example algorithms: HMMs, SVM, clustering, dimension reduction, sequence assembly & De Bruijn graphs. Prerequisite: Graduate standing and instructor consent.

ENGR 206. Renewable Energy Systems
Advanced knowledge in renewable energy resources such as solar, wind, geothermal, biomass, waves and tidal energy. Solar resources and technologies, integrated resource planning and system operations, enabling technologies and new energy use trends: Smart Grid, Demand Response, Energy Storage, and Electric Vehicles. Prerequisite: Instructor consent
Normal Grade Rules
3 units

ENGR 212. Engineering Management in a Global Economy
Application of engineering methodologies and practices to manage projects and organizations in a global digital economy. Topics include shifting from a manufacturing, production, marketing, and supply chain to a service economy, premium manufacturing, ethics, and competitive soft skills. Prerequisites: ENGR 203 or Instructor Consent.
Normal Grade Rules
3 units

ENGR 220. Bioinfo Comp Tools & Alg for Engr
Students will experience hands-on application and problem-solving oriented introduction to Perl, Python, or R script programming and the analysis and management of bioengineering and biological data. Prerequisite: Instructor consent.
Normal Grade Rules
3 units

ENGR 223. Engineering Design
Prerequisite: Graduate standing or instructor consent.
Normal Grade Rules
3 units

ENGR 225. Engineering Design Project
Prerequisite: Graduate standing or instructor consent.
Normal Grade Rules
3 units

ENGR 226. Engineering Management
Prerequisite: Graduate standing or instructor consent.
Normal Grade Rules
3 units

ENGR 230. Special Topics Next Generation Sequencing for Engineers
This course will provide students with an understanding of the genomic landscape, description of sequence generation methodologies and technologies, computational tools for genome browsing and mining data, association studies, genomic microbes and microbiomes, pharmagenomics, and large-scale expression analysis. Prerequisite: BIOL 023, BIOL 116, or BIOL 117, and CHE 162, HS 167, ISE 130, or equivalent, or instructor consent.
Normal Grade Rules
3 units

ENGR 236. Design for Manufacturability
Knowledge-based design, value engineering, DFM methodologies, robust design, process and materials selection, design constraints, design for assembly. Techniques of quality engineering, CAD/CAM integration and simultaneous engineering, cost estimating, activity-based costing, case studies, team projects. Prerequisite: Principles of Design and Manufacturing Processes.
Normal Grade Rules
3 units

ENGR 240. Control Systems Design and Applications
Introduction to control system analysis, feedback control theory, control law design and implementation. Topics include system modeling and identification, computer simulation, frequency domain and state space design approaches, control law implementation, and commonly used sensors and actuators for control systems. CAD tools for control systems analysis, design and simulation are used throughout this course. Prerequisite: Graduate standing.
Normal Grade Rules
3 units

ENGR 253. Advanced Bioinformatics Computational Laboratory For Engineers
A hands-on programming laboratory project-based course that will provide instruction about engineering approaches to develop, apply, and analyze R, Python, Perl, or Java based implementations of computational solutions to biological related problems. Prerequisites: ENGR 220, Math 162, or instructor consent.
Normal Grade Rules
3 units

ENGR 261. Battery Technologies I
ENGR 261 teaches fundamentals of battery technologies. Concepts and understanding of electrochemical interactions, kinetics and thermodynamics in batteries will be covered. Basic concepts, material development, and modeling of lithium-ion batteries will be discussed as well as understanding of flow batteries. Advanced and future technologies for next generation batteries will be introduced.
Normal Grade Rules
3 units

ENGR 262. Battery Technologies II
This follow-up course will provide an in-depth look at batteries with a focus on cutting-edge research and development. Topics such as material synthesis techniques, science of electrode fabrication, advanced characterization techniques, battery life degradation mechanisms, design of battery electrodes, thermal management, and state-of-charge and state-of-health measurements will be covered.
Normal Grade Rules
3 units

ENGR 263. Battery Electrochemistry
This course will cover the basics of electrochemistry, including thermodynamics, kinetics, mass transfer effects, reference electrodes, porous electrodes, dilute and concentrated solution theory, and electro-analytical methods, including voltammetry, coulometry and impedance spectroscopy.
Normal Grade Rules
3 units
ENGR 264. Battery Manufacturing
Lectures will cover the manufacturing of Li-ion cells and battery packs in detail and the basics steps in manufacturing, equipment, cost considerations, and quality issues related to manufacturing.
Normal Grade Rules
3 units

ENGR 265. Battery Control Systems
Learn how to design, analyze, and perform experiments for model and system validation work on battery control systems in electric vehicles, solar and/or wind renewable energy storage, and retrieval systems for the electric grid.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units

ENGR 271. Passive Optical Sensing
An introduction to passive optical sensing systems, including application areas, phenomenology and component/technology performance analysis. Detector types, principles, noise and sensor cooling issues will be addressed. Case studies and system analysis of complete passive optical sensing systems included.
Prerequisite: Instructor consent.
Normal Grade Rules
3 units

ENGR 281. Master’s Project/Thesis Preparation Seminar
Preparation for project or thesis research, including development of scope, assembly of committee, preparation of schedule, completion of literature survey, completion of introductory chapter for final report, and research proposal examination at the end of the course.
Prerequisite: Complete common and option core courses, a grade of “B” or better in ENGR 200W or any CS&IS approved course that satisfies the Graduate Writing Competency Requirement and approved candidacy form on file.
Misc/Lab: Lab 3 hours.
Mandatory CR/NC/RP
1 unit

ENGR 282A. Engineering for Teachers: Introduction to Engineering Design
A thematic approach to the study of relevant topics and concepts in engineering. Development of inquiry-based, hands-on classroom activities in engineering education. Design process, research and analysis, teamwork, communication methods, global and human impacts, engineering standards, and technical documentation.
Prerequisites: Instructor consent.
Mandatory CR/NC/RP
3 units

ENGR 282B. Engineering for Teachers: Principles of Engineering
A thematic approach to the study of relevant topics and concepts in engineering. Communication, presentation skills and teamwork, visualization and sketching techniques, introduction to mechanical systems and mechanisms, basic thermodynamics, fluid control and hydraulic systems, control systems and feedback, robotics, engineering units, instruments, tools and measurements, statics, material properties and strength of materials.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units

ENGR 282C. Engineering for Teachers: Digital Electronics
A thematic approach to the study of relevant topics and concepts in engineering electronics. Introduction to process and control of digital signals, design process for combinational and sequential logic design, teamwork, communication methods, engineering standards, and technical documentation.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units

ENGR 282D. Engineering for Teachers: Gateway to Technology Foundations
A project-based curricular approach to the teaching of technology, designed to challenge and engage the natural curiosity and imagination of middle school students. Introduction to mechanical and computer control systems, robotics and animation, and explorations of the importance of energy, including innovative ways to reduce, conserve and produce it using solar, thermal and wind power.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units

ENGR 282E. Engineering for Teachers: Gateway to Technology Specializations
A project-based curricular approach to the teaching of technology, designed to challenge and engage the natural curiosity and imagination of middle school students. Includes units on the impact of energy on our lives and the environment; the science behind aeronautics; design, build and test an airfoil; the science of electricity, behavior and parts of atoms, and sensing devices; knowledge and skills in basic circuitry design and examine the impact of electricity on our lives.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units

ENGR 282F. Engineering for Teachers: Civil Engineering and Architecture
A thematic approach to the study of relevant topics and concepts in engineering. Development of inquiry-based, hands-on classroom activities in engineering education. History of and careers in civil engineering and architecture including residential and commercial design, aesthetics and building safety codes.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units

ENGR 282G. Engineering for Teachers: Aerospace Engineering
A thematic approach to the study of relevant topics and concepts in engineering. Development of inquiry-based, hands-on classroom activities in engineering education. Introduction to the study of relevant topics and concepts in aerospace engineering, including the history and physics of flight, flight navigation, aerospace design, materials and structures, propulsion, flight physiology, space travel and aerospace careers.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units

ENGR 282H. Engineering for Teachers: Biotechnical Engineering
A thematic approach to the study of relevant topics and concepts in engineering. Development of inquiry-based, hands-on classroom activities in engineering education and careers. Topics include biotechnical history and industry, impact of technology on human health and safety, forensics, biomedical, environmental and agricultural applications.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units

ENGR 282I. Engineering for Teachers: Computer Integrated Manufacturing
A thematic approach to the study of relevant topics and concepts in engineering. Development of inquiry-based, hands-on classroom activities in engineering education and careers. Topics include history of manufacturing, control systems, design for manufacturability, cost estimating, and elements of automation.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units

ENGR 282J. Engineering for Teachers: Computer Integrated Manufacturing
A thematic approach to the study of relevant topics and concepts in engineering. Development of inquiry-based, hands-on classroom activities in engineering education and careers. Topics include project management, research and development of problem solutions, prototyping and testing, project and process evaluation, documentation and presentation.
Prerequisites: Instructor consent
Mandatory CR/NC/RP
3 units
ENGR 295A. Master Project I
In-depth developmental engineering work relating to problems of interest to an individual or a group of students. Project includes proposal formulation, analysis, design, implementation, and testing.
Prerequisite: Graduate Advisor consent. Not available to Open University students.
Repeatable for credit
Mandatory CR/NC/RP
3 units

ENGR 295B. Master Project II
A continuation of ENGR 295A. Students complete the in-depth project, write a detailed project report and make a comprehensive presentation and demonstration of project.
Prerequisite: Admission to Candidacy of Master’s Degree and CMPE 295A or CMPE 295W. Not available to Open University students.
Mandatory CR/NC/RP
3 units

ENGR 297B. Special Topics in Bioinformatics
This course augments regularly-scheduled graduate courses and programs in bioinformatics by providing an opportunity for students to learn about and develop skills in specialized and well focused areas of bioinformatics.
Prerequisites: BIOL 135, CHEM 130A, CS 123A (all with grades of B or better)
Normal Grade Rules
1-3 units

ENGR 297C. Special Topics in Systems Engineering
Special seminars and discussions to augment regularly-scheduled graduate courses. Emphasis on systems, process, product, and service integration in short-life cycle product and service industries using systems, concurrent engineering, and cost of ownership principles.
Prerequisite: Instructor consent.
Normal Grade Rules
3 units

ENGR 297D. Special Topics in Emerging Technologies
Special topics in emerging technologies that emphasize new development in technologies, skills and knowledge which are suitable for the new technologies development such as but not limited to Machine Learning, Big Data Processing, Analytics, Data Analysis, and Information retrieval.
Prerequisite: Instructor consent.
Normal Grade Rules
1-3 units

ENGR 297E. Special Topics in Electronic Materials and Devices
Special Seminars and discussions to augment regularly-scheduled graduate courses. Emphasis on VLSI design computer-aided design, modeling, simulation and testing. Materials and processes includes characterizing and processing of electronic materials.
Prerequisite: Instructor’s consent
Repeatable for credit
Normal Grade Rules
3 units

ENGR 297G. Battery Technology 1
Basic and fundamentals about battery technologies. Cover the concepts and understanding of electrochemical, kinetics and thermodynamics in batteries. Discussion on basic concepts on material development and modeling of lithium-ion batteries as well as understanding of flow batteries. Introduction to advanced and future technologies for next generation batteries.
Prerequisite: Graduate standing or instructor’s consent
Repeatable for credit
Normal Grade Rules
3 units

ENGR 297M. Special Topics in Engineering Management
Special seminars and discussions to augment regularly-scheduled graduate courses. Emphasis on engineering management fundamentals, product development and marketing, finance management, managing people and organizations and communication, planning, estimation, tracking metrics, risk analysis, e-business, project and change management.
Prerequisite: Graduate standing or instructor’s consent
Normal Grade Rules
3 units

ENGR 298. Master’s Project
Completion of an in-depth project, a detailed project report, followed by a comprehensive presentation and demonstration of project.
Prerequisite: ENGR 281, satisfaction of English Proficiency requirement, advancement to candidacy.
Mandatory CR/NC/RP
2 units

ENGR 298I. MSE Internship
Student will be employed in an industry as an intern, working in an engineering area to their MSE option. This course supplements and supports the student’s program of study.
Prerequisite: Students must have graduate standing.
Mandatory CR/NC/RP
1-3 units

ENGR 299. Master’s Thesis
Master’s thesis work in engineering.
Prerequisite: Admission to candidacy for master’s degree; written contract with thesis advisor and graduate coordinator.
Mandatory CR/NC/RP
1-6 units

NO DEGREE CREDIT

ENGR 1081W. Basic Writing Workshop
Weekly writing to improve grammar and punctuation skills needed for student success. Repeatable for up to 6 units.
Notes: No Degree Credit.
Mandatory CR/NC/RP
3 units

ENGR 1290R. Culminating Experience Supervision
This course covers the same topics and has the same objectives as ENGR298/ENGR299.
Prerequisite: Student must have been enrolled in ENGR298 or ENGR299 in a previous semester.
Note: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit
Geography Department Courses

GEOGRAPHY

LOWER DIVISION

GEOG 001. Geography of Natural Environments
Atmospheric, biologic and geologic processes that create the natural environments of the world. Discovery of local, regional and global patterns in the location and distribution of environmental phenomena, and the human modifications of natural environments. GE Area: B1
Normal Grade Rules
GE B1
3 units

GEOG 010. Cultural Geography
The human population studied through the perspective of cultural groups, their institutions and geographic distributions, how different people occupy, use, and modify their environment, and the interaction of individuals from one group with those of another. GE Area: D1
Normal Grade Rules
GE D1
3 units

GEOG 012. Global Geography
Comparative geography of our world: regions and countries, natural environments and resources, settlements and land use, cultural diversity, economic and political patterns. GE Area: D2
Normal Grade Rules
GE D2
3 units

UPPER DIVISION

GEOG 100W. Writing Workshop
Development of skills required for geographical research and writing. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE Z
3 units

GEOG 105. Urban Geography
Spatial patterns in the urban environment: City function and morphology, population patterns and functional zonation, analysis of recent changes.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

GEOG 107. Mapping the World
Finding, preparing, and using maps, satellite and aerial images, and spatial data to create effective presentations. Includes a basic introduction to geographic visualization through cartography, geographic information systems, and remote sensing for professionals outside geography.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

GEOG 110. Urbanization in the Global South
This course explores issues and debates that relate to urbanization in the developing world. Students will gain a general understanding of the concept of urbanization in the developing world, and what are some of the issues, challenges, and policy responses found in these urban environments.
Prerequisite: Completion of the WST and core GE. Upper division standing
Pre/co-requisite: 100w
Normal Grade Rules
3 units

GEOG 112. Nations, Cultures, and Territorial Disputes
In a world with rapidly diminishing resources new conflicts are emerging based on factors such as ethnicity, economic opportunity, religion, and nationalism. Explore global circumstances leading to conflict. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses.
Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
3 units

GEOG 115. Mapping the World
Finding, preparing, and using maps, satellite and aerial images, and spatial data to create effective presentations. Includes a basic introduction to geographic visualization through cartography, geographic information systems, and remote sensing for professionals outside geography.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

GEOG 117. Advanced Economic Geography
This is an advanced course in Economic Geography that explores the contemporary insights provided by geographers researching various dimensions of economy and space.
Prerequisite: Junior or Senior Standing
Normal Grade Rules
3 units

GEOG 120. Food Supply and Agricultural Systems
Geography of world agriculture and nutritional needs of a growing world population. Comparison of traditional and modern agricultural systems in their use of resources and technologies. Effectiveness in meeting demands and sustainability.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

GEOG 121. Population and Global Change
Impact of population changes on countries, regions, and their environments. Demographic comparisons of developed and developing societies from perspectives of land use, economics and politics.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

GEOG 123. Geography for K-12 Teachers
Geography for future K-12 teachers. Topics include mapping, places, and regions, and themes of human, physical and historical geography. Overview of geography in the California K-12 Frameworks as well as the geography in the California teacher credential examinations.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

GEOG 124. Topics in Physical Geography
Interactions between humans and environment from a geographical perspective.
Prerequisite: GEOG 1 or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

GEOG 125. Selected Topics in Human Geography
Changing topics in human geography.
Prerequisite: Upper division standing.
Repeatable for credit
Normal Grade Rules
3 units

RETURN TO LAST PAGE
DESCRIPTION CONTENTS
GEOG 130. Natural Resources
Geography of economic, environmental, political and technological factors that define natural resources and affect their availability and use. Focus on water, food-producing and energy resources.
Prerequisite: Upper division standing or instructor consent.
  Normal Grade Rules
  3 units
GEOG 132. Creating Built Worlds
See ANTH 132.
  Normal Grade Rules
  3 units
GEOG 135. Qualitative Methods in Geographical Research
Development of skills required for geographical research and writing. Library research, oral presentations, variety of writing assignments dealing with diverse geographic problems.
Prerequisite: ENGL 2.
  Normal Grade Rules
  3 units
GEOG 137. California History for Teachers
See SOCS 137.
  Normal Grade Rules
  3 units
GEOG 138. US History for Teachers
See SOCS 138.
  Normal Grade Rules
  GE: S
  3 units
GEOG 139. World History for Teachers
See SOCS 139.
  Normal Grade Rules
  GE: V
  3 units
GEOG 140. The United States
Geography of the U.S. emphasizing the continuing changes of America’s places and regions. Themes include environmental, culture, economic, and social geographies at community, regional and national scales.
Prerequisite: Upper division standing or instructor consent.
  Normal Grade Rules
  3 units
GEOG 145. California
Origins and patterns of California’s diverse landscapes, including the geography of natural environments and resources, economic regions, land use, cultural patterns, political trends and the future.
  Normal Grade Rules
  3 units
GEOG 150. Central and South America and the Caribbean
Geography of Mexico, Central America, Caribbean, and South America. Themes include environmental, historical, political, and economic geographies at the scales of the region, its countries, and selected cities.
Prerequisite: Upper division standing or instructor consent.
  Normal Grade Rules
  3 units
GEOG 155. Europe
Geography of Western and Central Europe. Themes include environmental, historical, political, and economic geographies at the scales of the region, its countries, and selected cities. Particular emphasis is given to the increasing economic and political unity through the European Union.
Prerequisite: Upper division standing or instructor consent.
  Normal Grade Rules
  3 units
GEOG 156. East and South Asia
Geography of Eastern, Southeastern, and Southern Asia. Themes include environmental, historical, political, and economic geographies at the scales of the region, its countries, and selected cities. Particular emphasis is given to comparing and analyzing the variable rates of economic progress across the region.
Prerequisite: Upper division standing or instructor consent.
  Normal Grade Rules
  3 units
GEOG 157. City Life
See SOCI 161.
  Normal Grade Rules
  3 units
GEOG 158. Sub-Saharan Africa
Regional study of environments, as well as cultural, economic and political geography of Africa south of the Sahara. Special attention given to geographic factors in the progress of less developed countries.
  Normal Grade Rules
  3 units
GEOG 160. Cartography: Introduction to Mapping and Geographic Information Systems
Foundations of the mapping sciences and geographic information systems. Basics of earth measurement, location and mapping. Thematic map display and analysis. Application through a variety of laboratory experiences.
Prerequisite: Geog 1 or instructor consent.
  Misc/Lab: Lecture 2 hours/lab 3 hours.
  Normal Grade Rules
  3 units
GEOG 161. Cartography: Advanced Geographic Information Systems
Maps as tools of geographic expression and research. Introduction to spatial analysis through geographic information systems. Data collection and description, measuring absolute and relative location, patterns, interaction and association.
Prerequisite: GEOG 1, GEOG 170 or instructor consent.
  Misc/Lab: Lecture 2 hours/lab 3 hours.
  Normal Grade Rules
  3 units
GEOG 165. National Parks
An exploration of the history, philosophy, and science of park and wilderness preservation. Includes site visits to selected parks and wilderness areas.
Prerequisite: Upper division standing or instructor consent.
  Normal Grade Rules
  3 units
GEOG 168. Sub-Saharan Africa
Regional study of environments, as well as cultural, economic and political geography of Africa south of the Sahara. Special attention given to geographic factors in the progress of less developed countries.
  Normal Grade Rules
  3 units
GEOG 170. Introduction to Mapping and Geographic Information Systems
Foundations of the mapping sciences and geographic information systems. Basics of earth measurement, location and mapping. Thematic map display and analysis. Application through a variety of laboratory experiences.
Prerequisite: Geog 1 or instructor consent.
  Misc/Lab: Lecture 2 hours/lab 3 hours.
  Normal Grade Rules
  3 units
GEOG 171. Advanced Geographic Information Systems
Maps as tools of geographic expression and research. Introduction to spatial analysis through geographic information systems. Data collection and description, measuring absolute and relative location, patterns, interaction and association.
Prerequisite: GEOG 1, GEOG 170 or instructor consent.
  Misc/Lab: Lecture 2 hours/lab 3 hours.
  Normal Grade Rules
  3 units
GEOG 172. Cartography: Compilation and Presentation
Techniques of compilation, design, construction and production. Lab projects applying computer graphics and geographic information systems to the effective presentation of geographic themes and information.
Prerequisite: GEOG 1 and GEOG 170 or instructor consent.
  Misc/Lab: Lecture 2 hours/lab 3 hours.
  Normal Grade Rules
  3 units
GEOG 173. Cartography: Dynamic and Interactive Mapping
Design and implementation of dynamic and interactive presentations for visualizing geographic information. Lab projects creating animated and multimedia presentations. Designing user-interfaces for interactive mapping systems.
Prerequisite: GEOG 170, GEOG 172 or instructor consent.
  Misc/Lab: Lecture 2 hours/lab 3 hours.
  Normal Grade Rules
  3 units
GEOG 175. Geographic Information Systems: Project Development
Creation of geographic information system databases and application software to solve specific problems in such areas as resource and facilities management, demographic analysis and planning.
Prerequisite: Geog 170 or instructor consent.
  Misc/Lab: Lecture 2 hours/lab 3 hours.
  Normal Grade Rules
  3 units
GEOG 178. Geographic Information Systems Project
Develop geographic database, web mapping, interactive mapping, and/or remote sensing solutions to a GIS problem. Identification of appropriate methods, and design, implementation, testing, and documentation of solution.
Prerequisites: GEOG 170 and GEOG 171; 3 units from GEOG 173, GEOG 175, GEOG 181, or GEOG 182; or instructor consent.
Misc/Lab: Lecture 3 hours/lab 4 hours.
Normal Grade Rules
3 units

GEOG 180. Individual Studies
Student-initiated in-depth study of a mutually agreeable topic conducted under faculty guidance.
Prerequisite: Supervisor and department chair approval.
Repeatable for credit
Credit / No Credit
1-4 units

GEOG 181. Remote Sensing: Basic Theory and Image Interpretation
Acquisition, interpretation and applications of imagery obtained from both airborne and satellite platforms.
Includes visual interpretation and analysis of airphotos and non-photographic images, such as radar and thermal infrared. Remotely-sensed imagery as a source for mapping and geographic information systems.
Prerequisite: GEOG 170 or instructor consent.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

GEOG 182. Remote Sensing: Digital Analysis
Digital image systems and application to earth resource problems. Emphasis on non-photographic sensors, including digital manipulation and image enhancement. Integration of digital imagery with geographic information systems.
Prerequisite: GEOG 170 or instructor consent.
Misc/Lab: Lecture 2 hours/lab 3 hours/field trips.
Normal Grade Rules
3 units

GEOG 186. Field Study in Physical Geography
Field research methods in physical geography, including biogeography, hydrology, soils, geomorphology, and human-environment studies. Mapping, GPS, landscape remote sensing, and field measurements. Local field trips and projects tailored to class interests.
Prerequisite: 6 units of upper division geography courses.
Credit / No Credit
3 units

GEOG 187. Field Study in Human and Historical Geography
Introduction to field methods in human and historical geography. Field trips, archival research, and student projects provide practical and applied skills and an informed view of the relationships between people and their environments.
Prerequisite: 6 units of upper division geography courses.
Credit / No Credit
3 units

GEOG 195. Spatial Analysis
Quantitative analysis of geographic information, including spatial statistics and analytical mapping, application of descriptive and inferential statistics to geographic problems.
Prerequisite: GEOG 170 and GEOG 171 or instructor consent.
Normal Grade Rules
3 units

GEOG 197. Geography Internship
Work/activity with professional application in off-campus establishment or agency. Course requirements and units determined in consultation with faculty advisor and work/activity supervisor.
Prerequisite: 12 units of geography.
Repeatable for credit
Credit / No Credit
1-6 units

GEOG 199. Senior Seminar
Capstone course examining the history of geographic thought and themes with emphasis on critical assessment of issues affecting current trends; objective of placing undergraduate experience in a professional context.
Prerequisite: Senior standing in geography.
Credit / No Credit
3 units

GRADUATE

GEOG 239. Geographic Information Technology
Research in application of technology to the design and implementation of computer mapping, remote sensing, and geographic information systems. Includes spatial database design issues, spatial processing algorithms, and cartographic visualization. Research project and paper. May be repeated for credit when offered as a different technology.
Prerequisite: Instructor consent.
Repeatable for credit
Normal Grade Rules
CE: CWAR
3 units

GEOG 240. Qualitative Research Methods
Rigorous analysis of methods used by social scientists in assessing notions of human and physical geography. Application of determined qualitative techniques including participant observation, semi-structured interviews, focus groups, participatory action, oral histories, textual analysis, social survey. Project development and evaluation.
Prerequisite: Graduate level or instructor permission.
Normal Grade Rules
CE: CWAR
3 units

GEOG 279. Geographic Information Science Applications
Research in applications of geographic information science in such areas as urban spatial analysis, environmental analysis, geo-demographic analysis, regional analysis, facilities management, and geographic education. Research project and paper. May be repeated for credit when offered as a different technology.
Prerequisite: Instructor consent.
Repeatable for credit
Normal Grade Rules
CE: CWAR
3 units

GEOG 282. Advanced Geographic Techniques
Specific topics in display and analysis of geographic information. Possible topics include advanced spatial analysis, cartographic representation, user-interface design, internet map server technology. May be repeated for credit when offered as a different technique.
Prerequisite: GEOG 170 or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
CE: CWAR
3 units

GEOG 286. Geographic Information Systems: Project Management
Principles of project management applied to geographic information systems projects. Requirements assessment, estimating, scheduling, system design, and acceptance testing. Students will negotiate, plan and execute projects for outside agencies. May be repeated when course content changes.
Prerequisite: GEOG 175 or instructor consent.
Repeatable for credit
Normal Grade Rules
CE: CWAR
3 units
GEOG 290. Seminar in Research Design for Geographic Information Science
Introduction to research in geographic information science. Includes definition of research problems, design of research project, identification of appropriate methodologies for acquiring, organizing and analyzing data, and presentation of research results. Research paper.
Prerequisite: Instructor consent.
Normal Grade Rules
3 units

GEOG 298. Special Study
Advanced individual research and projects unavailable in other department offerings conducted under the supervision of a faculty member.
Prerequisite: Approval of supervising faculty member and department chair.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

GEOG 299. Master’s Thesis or Project
Prerequisite: Approved master’s degree candidate.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units
Geology Department Courses

GEOLOGY

LOWER DIVISION

GEOL 001. General Geology
Examination of geologic processes and materials, including volcanoes, earthquakes, rock formation, oceans, streams, and plate tectonics and their importance to society. GE Area: B1 and B3
Misc/Lab: Lecture 3 hours/Lab 3 hours and field trips.
Normal Grade Rules
GE: B2B3
4 units

GEOL 001L. General Geology Laboratory
Supplement to general lecture courses in Earth science or geology.
Pre/Corequisite: GEOL 2, GEOL 1, GEOL 6 or GEOL 111.
Misc/Lab: Lab 3 hours.
Normal Grade Rules
1 unit

GEOL 002. Geology for Engineers
This course provides a foundational introduction to geology as applied to civil engineering. The course focuses on learning and applying knowledge of geologic processes to civil engineering works, decision making, and evaluating the suitability of areas for urban infrastructure based upon geologic evidence and reasoning. Fieldtrips are required and may include weekends.
Prerequisite: Enrolled as Civil Engineering Major
Normal Grade Rules
3 units

GEOL 003. Planet Earth
Origins and processes of Earth's interconnected physical and chemical systems, including aspects of astronomy, geology, meteorology, and oceanography. Impacts of these systems on humans, and of humans on the systems. GE Area: B1
Normal Grade Rules
GE: B1
3 units

GEOL 004L. Earth Systems Lab
Hands-on investigations, measurements, and analysis of Earth's materials, processes, and hazards. Supplements general lecture courses in Geology. GE Area: B3
Misc/Lab: Lab 3 hours.
Normal Grade Rules
GE: B3
1 unit

GEOL 005. Human Development and the Natural World
Introductory course examining the role of the natural world on the physiological, social, and psychological development of human beings within the context of the environment, social, and academic community system. GE Area: E
Misc/Lab: 2 hours lecture/ 2 hours lab
Normal Grade Rules
GE: EE
3 units

GEOL 006. Geology of California
California's geology, illustrating physical processes, landscapes, geologic history and resources. California's seismic, volcanic, landslide and flooding hazards, and their impact on society. GE Area: B1
Misc/Lab: Lecture 3 hours/field trips.
Normal Grade Rules
GE Area: B1
3 units

GEOL 007. Earth, Time and Life
Earth's geosphere: processes that act on it and materials that comprise it; how rocks and fossils are used to interpret the history of Earth's geosphere, atmosphere, oceans, and life forms. GE Area: B1 and B3
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
GE Area: B1 and B3
3 units

GEOL 008. The Age of the Dinosaurs
Scientific overview of the Mesozoic Era, or "age of dinosaurs." The course will focus on the evolution of dinosaurs and other contemporaneous life forms, as well as the mass extinction events that mark the beginning and end of the Mesozoic. GE Area: B2
Normal Grade Rules
GE: B2
3 units

GEOL 009. Earth Disasters
Exploration of natural disasters related to earth processes, including earthquakes, volcanoes, landslides, tsunamis, flooding, and climate change, and their impacts on society. GE Area: B1 and B3
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
GE: B1B3
4 units

GEOL 028. Geology Outdoors
Hands-on introduction to geology in a variety of field settings. Develop your observational skills at several California's spectacular geologic attractions. Includes one-day field trips, a multi-day field trip, and short written reports.
Prerequisite: Completion of or co-enrollment in GEOL 3, GEOL 4L, and GEOL 7.
Credit / No Credit
1 unit

UPPER DIVISION

GEOL 100W. Writing Workshop
Advanced writing, including planning and preparation of scientific reports. Improvement of skills needed for writing scientific reports, project proposals and resumes through practice and evaluation. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing. Completion of or co-enrollment in GEOL 125, or instructor consent.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE: Z
3 units

GEOL 103. Earth Systems and the Environment
Fundamental earth/space science concepts. Emphases on active learning and guided inquiry. Recommended for students preparing for multiple subject credential. GE Area: R
Prerequisite: PHYS 001 or CHEM 030A, Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Note: Departmental consent required.
Normal Grade Rules
GE: R
3 units

GEOL 104. Earth Science Teacher Enhancement
A thematic approach to the study of regionally significant topics, including earthquakes, landslides and volcanoes. Development of hands-on classroom activities. Normally offered through University Continuing Education. Field trips.
Prerequisite: Teaching credential and instructor consent.
Repeatable for credit
Credit / No Credit
0.5-3 units

GEOL 105. General Oceanography
Scientific examination of the impact of oceans on global society, and human impacts on the oceans, through classroom discussions, computer exercises and field trips. GE Area: R
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C - not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Misc/Lab: Lecture 3 hours/field trips.
Normal Grade Rules
GE: R
3 units
GEOL 107. Prehistoric Life
Integrated interdisciplinary examination of the fossil record, including information from the fields of paleontology, genetics and cosmology that aids in the understanding of organic evolution and periodic massive extinctions. GE Area: R
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: R
3 units

GEOL 108. Water, Ecosystems and Society
Interdisciplinary investigation of hydrologic systems and their interactions with biologic communities and with society. Streams, lakes, estuaries, groundwater and the safety and protection of water resources.
Prerequisite: Upper division standing.
Misc/Lab: Lecture 3 hours/field trips.
Normal Grade Rules
3 units

GEOL 111. Geology and the Environment
The effect of Earth processes on humans and their structures. Environmental problems related to earthquakes, landslides, minerals, energy, water and urban growth. GE Area: R
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Misc/Lab: Lecture 3 hours/field trips.
Normal Grade Rules
3 units

GEOL 112. Hazards, Risks of Earthquakes and Volcanoes
How, where and why earthquakes and volcanic eruptions occur. Analysis of hazards posed by earthquakes and volcanoes. Risks incurred by humankind due to these hazards. Minimizing risk; economic, social and political problems associated with earthquakes. GE Area: R
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: R
3 units

GEOL 120. Fundamentals of Mineralogy
Laboratory course designed to give students basic skills for identifying minerals and basic understanding of geologic processes that form minerals. Emphasis is on hand specimen and microscope identification.
Prerequisite: GEOL 001 and GEOL 007.
Misc/Lab: Lecture 2 hours / Lab 3 hours
Normal Grade Rules
3 units

GEOL 122. Petrology
Identification of minerals and rocks in hand sample and under the microscope. Processes of formation, description, and classification of igneous, sedimentary and metamorphic rocks.
Prerequisite: GEOL 120; completion of or co-enrollment in CHEM 1A.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
4 units

GEOL 124. Sedimentology and Stratigraphy
Study of the origin and description of sediment and sedimentary rocks; study of the formation, sequence, and correlation of stratified rocks. GE Area: R
Prerequisite: GEOL 120; completion of or co-enrollment in CHEM 1A.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
4 units

GEOL 125. Structural Geology
Recognition, interpretation and representation of structures of the Earth’s crust. Analysis of basic principles of rock deformation.
Prerequisite: Math 19, Geol 1, Geol 7, Geol 28
Misc/Lab: Lecture 3 hours/lab and field 3 hours.
Normal Grade Rules
4 units

GEOL 127. Tectonics
Description of large-scale features of the Earth’s crust and upper mantle and the processes which formed them. Emphasis on plate tectonics and its implications for the evolution of North America.
Prerequisite: GEOL 100W, GEOL 122, GEOL 124, GEOL 125.
Normal Grade Rules
3 units

GEOL 129A. Introductory Field Geology
Introductory level field methods, field mapping and interpretation of geologic and tectonic history. Students stay at camp sites that vary from year to year.
Prerequisite: Geol 120, 122, 124 and 125 or permission of instructor.
Normal Grade Rules
2 units

GEOL 129B. Advanced Field Geology
Geologic field mapping and interpretation of geologic and tectonic history. Students stay at camp sites that vary from year to year.
Prerequisite: Geol 122, 124, 125, or Permission of Instructor.
Misc/Lab: Lab 6-12 hours.
Repeatable for credit
Normal Grade Rules
4 units

GEOL 130. Marine Geology
Introduction to the geology of continental margins and ocean basins. Discussions focus on crustal structures and the effect of plate tectonics and oceanographic processes on modern marine sedimentation.
Prerequisite: GEOL 001 or GEOL 007; GEOL 3 with instructor approval.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
4 units

GEOL 134. Geomorphology
Earth’s surficial processes and landforms; effects of tectonics, climate and geology; landscape evolution. Landform interpretation using maps; surface water hydrology; applications.
Prerequisite: GEOL 001 and GEOL 007, or instructor consent; 1 year of college calculus and physics recommended.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
4 units

GEOL 135. Geochemistry
Application of geochemical and thermodynamic principles to solution of geologic problems. Topics include: equilibrium-disequilibrium reactions; major and trace element behavior; isotope systematics and modern analytical methods.
Prerequisite: GEOL 122 and CHEM 18 (or equivalent).
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
4 units
GEOL 137. Introduction to GPS/GIS for Geologic Applications
Introduction to digital geologic mapping and analysis using Trimble GPS and ArcView GIS.
Prerequisite: GEOL 1 and GEOL 7, or instructor consent.
Computer literacy assumed.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
4 units

GEOL 138. Hydrogeology
Geological principles of the occurrence, accumulation and migration of water; groundwater as a manageable resource; groundwater geochemistry and contaminant transport.
Prerequisite: GEOL 125 or instructor consent.
Recommended: MATH 32 and GEOL 135.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
4 units

GEOL 140. Principles of Engineering Geology
Qualitative and quantitative analysis of geologic factors influencing site selection, development and use; methods of data collection, interpretation and presentations.
Prerequisite: GEOL 125.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
4 units

GEOL 142. Paleontology
Study of the major groups of invertebrate fossils and their use in geological studies; principles of stratigraphy, including seismic stratigraphy.
Prerequisite: GEOL 001 and GEOL 007.
Misc/Lab: Lecture 2 hours/lab and field trips 3 hours.
Normal Grade Rules
4 units

GEOL 143. Active Tectonics
This course will introduce students to the interdisciplinary field of Active Tectonics. The aim of the course is to provide students with a comprehensive and quantitative understanding of the tectonic and surficial processes that shape the Earth’s surface.
Prerequisites: Geol 1, 7, and 28. Geol 137 recommended.
Misc/Lab: Lecture 4 hours/Lab 3 hours.
Normal Grade Rules
4 units

GEOL 147. Introduction to Applied Geophysics
Introduction to modern geophysical techniques with emphasis and environmental applications. Field techniques and case histories.
Prerequisite: PHYS 2A and PHYS 2B (or equivalent).
GEOL100W GEOL 1, GEOL 7
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
4 units

GEOL 150. Field Studies in Natural History
See BIOL 150
Repeatable for credit
Normal Grade Rules
GE: B3
1-2 units

GEOL 168A. Global Climate Change I
See COMM 168A.
Normal Grade Rules
6 units

GEOL 168B. Global Climate Change II
See COMM 168B.
Normal Grade Rules
GE: RSV
3 units

GEOL 171. The End of the World (as you knew it)
Examines challenges to the survival of modern complex societies. Natural resources, particularly petroleum; the economics of energy resources; possible replacements for petroleum; climatic impacts of available choices; futures ranging from zero-growth sustainability to plunges in economic and social stability. GE Area: R
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: R
3 units

GEOL 174. Hazardous Materials
See CHE 174.
Normal Grade Rules
3 units

GEOL 204. Earth Systems Science for Teachers
Peer teaching and leadership instruction in earth science. Demonstrations, classroom activities, field projects and teaching strategies for K-12 teacher groups.
Prerequisite: Teaching credential and instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

GEOL 213. Advanced Igneous and Metamorphic Petrology
Igneous and metamorphic processes and the evolution of the lithosphere. Application of field, petrographic and chemical data to models of petrogenesis. Laboratory emphasizes microscope studies and computer modeling.
Prerequisite: GEOL 121 (or equivalent).
Misc/Lab: Lecture 3 hours/lab 3 hours; field trips.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
4 units

GEOL 216. Sedimentary Petrology and Petrography
Petrographic study of sedimentary rocks with application of petrographic information to reconstructions of source terranes, depositional conditions and diagenesis. Discussion of nature and origin of carbonate and terrigenous components is emphasized.
Prerequisite: GEOL 124 and GEOL 213 or instructor consent.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
4 units

GEOL 222. Advanced Sedimentary Geology
Analysis of sedimentary facies, patterns of facies architecture and major controls on evolution of sedimentary basins.
Prerequisite: GEOL 123 and GEOL 127.
Misc/Lab: Lecture 3 hours/lab 3 hours; field trips.
Normal Grade Rules
4 units

GEOL 231. Advanced Structural Geology
Analysis of deformed rocks with emphasis on deformation mechanisms, small-scale structures, shear zones, faults and folds. Techniques of strain analysis and analyzing structure on maps are emphasized in the laboratory.
Prerequisite: GEOL 125.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
4 units
GEOL 234. Advanced Geomorphology
We will investigate the role of geomorphology in affecting large-scale processes such as mountain uplift and the global climate. Coursework will include the manipulation of data sets from the Himalayas, topographic analysis of the Sierra Nevada, and modelling with Matlab.
Prerequisite: GEOL 134 or equivalent
Misc/Lab: Lecture 3 hours/lab 3 hours; 3-day field trip required.
Note: This course satisfies graduate-level GWAR in this master’s program.
GE: GWAR
4 units

GEOL 237. Advanced GIS/GPS Mapping
Advanced methods of ArcGIS mapping and analysis using published digital datasets and/or student-generated Differential GPS files. Topics vary, depending on student interest, but are generally limited to natural sciences.
Prerequisite: GEOL 137 or instructor consent.
Misc/Lab: Lecture 4 hour/Lab 3 hours
Normal Grade Rules
4 units

GEOL 238. Advanced Hydrogeology
Numerical methods in groundwater modeling, vadose zone monitoring and transport and geochemistry of natural and contaminated waters.
Prerequisite: GEOL 138 or instructor consent.
Misc/Lab: Lecture 3 hours/lab 3 hours; field trips.
Note: This course satisfies graduate-level GWAR in this master’s program.
GE: GWAR
4 units

GEOL 242. Advanced Paleontology
The lecture portion of this course will be conducted as a seminar; students will read and discuss classic and important newer papers on macroevolutionary theory and paleobiology. In the lab portion of this course, students will use fossil samples to develop and test scientific hypotheses that will be part of a semester-long project.
Prerequisites: Suitable background in geology or evolutionary biology.
Misc/Lab: Lecture 4 hours/Lab 3 hours.
Normal Grade Rules
4 units

GEOL 255. Advanced Geology
Selected topics in geology. Topics change with each offering.
Prerequisite: Suitable background in geology.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Repeatable for credit
Normal Grade Rules
4 units

GEOL 285. Seminar
Fundamental problems in geology. Topics change with each offering. May be repeated when content changes.
Prerequisite: Instructor consent.
Misc/Lab: Discussion 2 hours.
Repeatable for credit
Normal Grade Rules
2 units

GEOL 298. Research
Advanced individual study in geology.
Prerequisites: Not available to Open University Students.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

GEOL 299. Master’s Thesis
Prerequisite: Admission to candidacy for the master’s degree. Not available to Open University Students.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

NO DEGREE CREDIT

GEOL 1290R. Culminating Experience Supervision
Continued work on thesis.
Prerequisite: Outstanding RP grade in a preceding semester in a thesis class
No Degree Credit
1 unit
Global Studies Courses

GLOBAL STUDIES

LOWER DIVISION

GLST 001A. Introduction to Global Studies
Introduces students to the scope of global studies as seen from the social and cultural perspectives. Readings based on the best critical studies of globalization and its outcomes. Occasionally, visiting professors will give new academic approaches to this field.
Normal Grade Rules
3 units

GLST 001B. Introduction to Global Studies
Introduces students to the scope of global studies as seen from the social and cultural perspectives. Readings based on the best critical studies of globalization and its outcomes. Occasionally, visiting professors will give new academic approaches to this field.
Normal Grade Rules
GE: B2
3 units

UPPER DIVISION

GLST 100W. Writing Workshop
See GEOG 100W.
Normal Grade Rules
GE: Z
3 units

GLST 143. Gender, Power, Intnl Dev
Explore issues of poverty, gender, economic transformations, inequality while examining the history of development. Consider various meanings given to development by women and men, primarily as residents of particular regions, but also as aid workers, policy makers, and government officials. Explore the underlying political, economic, social, and gender dynamics that make "development" an ongoing problem world-wide. GE Area: V
Prerequisite: Upper Division. Passage of the Writing Skills Test (WST) or ENGL/LDL 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended
Corequisite: Any 100W
Normal Grade Rules
GE: V
3 units

GLST 156. Technology of the Modern World
Normal Grade Rules
3 units

GLST 162. Contemporary Global Issues
Interdisciplinary approach to contemporary global issues. Understanding and analyzing global issues are the focus of the course. Students will explore, analyze, and articulate the unique challenges each of the issues pose to the global community in ways that will foster student's ability to understand and evaluate causes, consequences, and responses to global challenges.
Prerequisite: Upper Division standing or Instructor Consent
Normal Grade Rules
3 units

GLST 164. Advanced Seminar in Global Citizenship
Designed to encourage and inspire students to develop their own understanding of the concept of global citizenship and to develop informed perspectives related to concerns of the global community. Students will be asked to consider the impact they may have, as well as their individual and collective responsibilities, as global citizens, within their local, national, and global communities.
Pre-requisite: Upper Division Standing or Instructor Consent
Normal Grade Rules
3 units

GLST 167. Changing Ecologies of Globalization
Environmental and human issues and challenges 1492 to present. Global environmental shifts & relationship to social, demographic, cultural, political change. Human interaction with natural environment. GE Area: R
Prerequisite: Passage of WST, completion of Core GE, Upper division standing
Corequisite: GEOG 100W (if not already completed)
Normal Grade Rules
GE: R
3 units

GLST 179. Capstone Seminar in Global Studies
Course is designed for majors to help them to gain coherence in their theoretical knowledge, factual grounding, international living, personal aptitudes, and career aspirations. It will also give them experience in interdisciplinary research through preparation of a major scholarly paper. The format includes discussion, group analysis, visiting professors, and individual work.
Prerequisite: Completion of GLST 1A, senior standing
Normal Grade Rules
3 units

GLST 187. Special Topics
Selected topics in Global Studies. Topics vary and will be announced each semester.
Prerequisite: Upper division standing.
Repeatable for credit
Normal Grade Rules
3 units

GLST 188. Special Topics in International Experiences
Study of modern history, government, immigration and impacts on development of diverse communities. Study of effects of immigration, economics, biases, and other factors on community development, as well as comparing and contrasting US and other cultural perspectives.
Course offered as FLP in countries outside the U.S. GE Area: V
Prerequisites: Passage of the Writing Skills Test (WST) or ENGL/LDL 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Repeatable for credit
Normal Grade Rules
GE: V
3 units

GLST 189. Global Experience
Required for Global Studies majors. Completion of Global Studies sponsored faculty-led international educational study, semester-long residence abroad, for formal study, research, service learning, or internship.
Students will develop their programs with the advice and approval of the GLST advisor and the International Programs and Service office. Students may transfer in additional credits from approved study, with prior approval of the GLST advisor.
Prerequisite: Completion of GLST 1A, junior standing.
Repeatable for credit
Credit / No Credit
1-3 units
Health Science and Recreation Department Courses

HEALTH PROFESSIONS

UPPER DIVISION

HPRF 100W. Writing Workshop
Development of skills in scientific and technical writing. How to write a critical review of published writing, a business letter, a scholarly paper, and give an oral presentation. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE: Z
3 units

HPRF 134. Complementary and Alternative Health Practices
Philosophical, historical, clinical, and scholarly aspects of complementary and alternative medicine and associated health practices used in the US, with emphasis on scientific clinical investigation and evidence based efficacy.
Prerequisite: Completion of Core GE or instructor consent.
Normal Grade Rules
GE: Z
3 units

HPRF 135. Health Issues in a Multicultural Society
Multidisciplinary interpretation and evaluation of consumer health issues. Impact of cultural variables (including communication methods, socioeconomic status and traditional beliefs) on health and illness. Interaction of individuals in families and other groups.
GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENCL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: S
3 units

HPRF 135ITL. Health issues in a multicultural society-international experience
See HS 135ITL.
Normal Grade Rules
3 units

HPRF 180. Individual Studies
Individual work on special topics by arrangement.
Prerequisite: Upper division standing, instructor consent and division director approval.
Repealable for credit
Credit / No Credit
1-5 units

GRADUATE

HPRF 260. Multidisciplinary Health Promotion in Later Life
See NUFS 260.
Normal Grade Rules
3 units

HPRF 295. Research Methodology
This course provides basic principles of research, both quantitative and qualitative. Novice researchers are familiarized with research methodology. Candidates engage in evaluating public research, and develop and write a feasible proposal ready for implementation as a research project.
Prerequisite: STAT 095 (or equivalent).
Normal Grade Rules
3 units

HEALTH SCIENCE

LOWER DIVISION

HS 001. Understanding Your Health
Introductory course on the interdependence of the physiological, social and psychological factors influencing the healthy well-being of individuals throughout the life span. Emphasis is on identifying and utilizing both university and community resources to assist in personal and educational development.
GE Area: E
Normal Grade Rules
GE: EE
3 units

HS 015. Human Life Span
Emphasizes growth and development of the individual from conception to death - perspective on biological, cultural, sociological and psychological changes and continuities during the human life span. Special attention will be given to socioeconomic status, gender and ethnic variations.
GE Area: D1
Normal Grade Rules
GE: D1
3 units

HS 025. Health Team Building
Develops skills to work effectively on a health team. Learning to plan, implement and evaluate health programs; understanding the dynamic forces operating in groups; integrating and applying theory and practice.
Normal Grade Rules
3 units

HS 067. Introductory Health Statistics
A practical introduction to the statistical methods used in health, health care, biomedical, and public health settings. Concepts are illustrated with concrete examples that demonstrate how principles operate and are applied to common health problems.
GE Area: B4
Prerequisite: Math Enrollment Category M-I or M-II, or completion of a GE Area B4 course with a grade of C- or better.
Normal Grade Rules
GE: B4
3 units

HS 074. Healthy Communities
Transdisciplinary introduction to community health. Strategic analysis of local communities, evidence-based interventions, impact of environmental changes at individual, family, neighborhood, and community levels. Focus on healthy policies, built environment, leisure, equity, and integration of recreation and population health approaches.
Prereqs: Successful Completion of HS 001 or RECL 10
Normal Grade Rules
3 units

UPPER DIVISION

HS 100W. Writing Workshop
See HPRF 100W.
Normal Grade Rules
GE: Z
3 units

HS 101B. Computer Applications for Professionals
See NUFS 101B.
Normal Grade Rules
3 units

HS 103. Introduction to Health Policy
Examination of historical and current policies related to public health, stakeholders in health policy making and advocacy, and health policy frameworks for conducting policy analysis and policy making.
Co-requisites: HS/HPRF 100W
Normal Grade Rules
3 units

HS 104. Community Health Promotion
Examination of community health issues, needs and assets, core determinants, enabling factors, and levels of intervention. Introduction to community approaches to disease prevention and health promotion, risk and resilience, social capital, and social change to promote community health.
Prerequisite: HS1, HS15, HS67, HS74.
Corequisite: HS 114
Normal Grade Rules
3 units

</tr>
<tr>
<td>HS 164</td>
<td>Health Services and Social Marketing</td>
<td>3</td>
<td>Introduction to marketing principles and concepts as applied in community health education and health services settings. Examination of difference between strategic business marketing and social marketing for health, through examples of successful health education and health services programs. Restricted to Public Health Majors or instructor consent. Prerequisite: HS 158 with a grade of C or better. Public Health Majors only. Misc/Lab: Lecture 3 hours/lecture 3 hours. Normal Grade Rules.</td>
</tr>
<tr>
<td>HS 165</td>
<td>The Health Professional</td>
<td>3</td>
<td>Preparation for entry into community health professions with an emphasis in four areas; (1) settings and roles, (2) skills for practice, (3) ethics, and (4) leadership and professional associations. Prerequisite: senior standing, HS majors in Final Semester and minors only. Misc/Lab: Lecture 3 hours/lecture 3 hours. Normal Grade Rules.</td>
</tr>
<tr>
<td>HS 166A</td>
<td>Field Experience Seminar</td>
<td>3</td>
<td>Theory and practice in a community health agency, health care facility or industry. Prerequisite: HS 159, HS 161 and HS 162. Senior Standing and Health Science Majors and Minors only Corequisite: HS 166B. Credit/No Credit.</td>
</tr>
<tr>
<td>HS 166B</td>
<td>Field Experience Seminar</td>
<td>3</td>
<td>Theory and practice in a community health agency, health care facility or industry. Prerequisite: HS 159, HS 161 and HS 162. Senior Standing and Health Science Majors and Minors only Corequisite: HS 166B. Credit/No Credit.</td>
</tr>
</tbody>
</table>
HS 166B. Field Experience in Health Science
Supervised work experience in an official or voluntary health agency, health care facility or industrial setting; short-term projects, observation of agency or facility dynamics and individual skills development.
Prerequisite: HS 159A, HS 161 and HS 162, senior standing. Health Science Majors and Minors only. Not available to Open University Students.
Credit / No Credit
3 units

HS 167. Biostatistics
Statistical analysis of health and biological data covering measurement scales, random sampling, data quality, data storage descriptive and exploratory techniques, probability distributions, estimation and hypothesis testing, includes an integrated lab activity.
Prerequisite: HS 67 with a minimum grade of C. HS Majors only.
Misc/Lab: Lecture 2 hours/activity 2 hours
Normal Grade Rules
3 units

HS 168. Health Education Theory and Methods
Explores the foundations and applications of health education theory. Students will study models of individual, interpersonal and community health behavior. They also will learn methods for applying theory in research and health education practice.
Prerequisite: HS 104.
Normal Grade Rules
3 units

HS 169. Diversity, Stress and Health
See KIN 169.
Normal Grade Rules
GE: S
3 units

HS 170. Health Care Economics
Study of the economics of health care and understanding cost-benefit, cost-effectiveness ratio and decision tree analysis for health care.
Prerequisite: HS 162 with a minimum grade of C.
Normal Grade Rules
3 units

HS 171. Managed Health Care
Study of managed health care and its growth and impact on the organization and delivery of health services in the United States.
Prerequisite: HS 162 with a grade of C or better.
Normal Grade Rules
3 units

HS 172. Contemporary Environmental Health Issues
Examines the complex and interdependent relationship between environment and health outcomes. Advances scientific understanding of evolution and biodiversity, ecosystems, population dynamics, sustainability of earth's resources, pest management, solid and hazardous waste, water and air pollution, climate change, and environmental/occupational exposures. GE Area: R
Prerequisites: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted); completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: R
3 units

HS 173. Comparative Healthcare Systems
A comprehensive examination of the structure of healthcare systems in selected countries worldwide. Specific attention is paid to the developmental history of the national healthcare systems, financing, and delivery infrastructure. The impact of international relations is also examined.
Prerequisite: HS 162 with grade of ‘C’ or higher.
Note: HS 173 required for students completing the Health Science, Option 4, Health Services Administration Concentration.
Normal Grade Rules
3 units

HS 174. Fundamentals of Health Information Technology
Introduction to the principles and practices of health information technology to administer healthcare systems and promote public health. Focus on best practices, case-based learning, and global comparisons of innovative systems.
Prerequisite: HS 162
Normal Grade Rules
3 units

HS 175. Legal/Ethical Aspects, Healthcare Admin
Exploration of legal and ethical issues facing the health care industry, government regulation, patient rights, and corporate/administrative responsibility.
Prerequisite: HS 162
Normal Grade Rules
3 units

HS 176. Introduction to Global Health
Prerequisite: Upper Division Standing
Normal Grade Rules
3 units

HS 180. Individual Studies
Individual work on special topics by arrangement.
Prerequisite: Upper division standing, instructor consent and department chair approval. Not available to Open University Students.
Repeatable for credit
Credit / No Credit
1-4 units

HS 184. Directed Reading
Directed reading in journals and books of authorities in the field of health.
Prerequisite: Upper division standing and department chair consent. Not available to Open University Students.
Repeatable for credit
Credit / No Credit
1-4 units
HS 262. Health Services Organization
In-depth examination of the organization and administration of health services in the United States. Topics explored include health care economics, health service expenditures, insurance theory, comparative health systems, government role, cost containment and quality.
Normal Grade Rules
2 units

HS 263. Principles and Skills of Health Administration
Application of administrative concepts and skills in health systems agencies. Includes decision-making, communication, funding, budgeting, marketing, personnel management, labor relations, planning, evaluation and health promotion.
Normal Grade Rules
2 units

HS 264. Health Policy
Analysis of major policy issues with an emphasis on neoclassical economics. Topics to be explored include health insurance and its effect on utilization, antitrust, managed care, health care legislation and health care reform.
Prerequisite: HS 117 (or equivalent).
Normal Grade Rules
3 units

HS 265. Environmental Health
Investigation of environmental health issues: risk evaluation, risk management, hazardous materials, occupational health and safety, plus air, water and noise pollution. Learning fundamentals of managing environmental health problems.
Repealable for credit
Normal Grade Rules
3 units

HS 267. Computational Public Health Statistics
Methods of public health and biostatistical data collection, management, analysis and reporting using microcomputers, including the detection and control of confounding factors.
Prerequisite: HS 167 or instructor consent.
Normal Grade Rules
3 units

HS 269. Applied Data Analysis
Overview of quantitative and qualitative data analysis and reporting. Application of basic quantitative analysis concepts introduced in computational statistics and research courses. Specific emphasis of interpretation of qualitative data including data reduction, text management, coding, content analysis, and data trustworthiness.
Prerequisites: HS 295
Pre/Corequisites: HS 267
Repealable for credit
Normal Grade Rules
3 units

HS 271. Theoretical Foundations of Public Health
Role of theory in shaping practice, research and evaluation that facilitates social change and promotes health across the spectrum of prevention, including individual, community, organization, and policy levels.
Normal Grade Rules
3 units

HS 272. Health Promotion Planning and Evaluation
Theory and practice of developing community health programs. Focus on program planning within the context of strategic planning, problem/needs assessment, setting of program goals and objectives, approaches to program evaluation and grant writing.
Prerequisite: HS 271.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units

HS 273. Systems Approach to Community Health Problems and Program Design
General systems theory and its application to a selected community health problem. Systems analysis and the use of a variety of specific and broad systems tools within the context of program design. Structured opportunities to apply and practice specific methodologies.
Repealable for credit
Normal Grade Rules
3 units

HS 276. Community Organization and Health Promotion
Advanced study of the principles, practices and ethical considerations underlying community organization, health promotion, empowerment and advocacy. Includes examination of the change process and introduction to the skills and tools of effective public health organizing.
Normal Grade Rules
3 units

HS 277. Multicultural Communication for Health Professionals
Theories and skills of multicultural communication necessary for effective professional practice with diverse clients, communities, staff and colleagues. Examination of concepts and indicators of cultural competence begins with intensive self-study and concludes with community examples.
Normal Grade Rules
3 units

HS 291A. Fieldwork Seminar
Preparation for fieldwork placement, with emphasis on (1) self-assessment of strengths, competencies, professional objectives, and fieldwork priorities; (2) identification of fieldwork site and negotiation of Memorandum of Understanding; and (3) planning for professional development.
Prerequisite: HS 200, HS 201, HS 271, HS 272 or instructor consent.
Repeatable for credit
Normal Grade Rules
1 unit

HS 291B. Fieldwork Practicum
Application of theory and skills to health education practice, research, and/or policy under the supervision of a preceptor.
Prerequisite: HS 200, HS 201, HS 271, HS 272, HS 291A or instructor consent. Not available to Open University Students.
Corequisite: HS 291P
Repeatable for credit
Credit / No Credit
1-2 units

HS 291D. Work Experience Practicum
Supervised work experience in community, health care organization, or worksite settings.
Prerequisites: HS 200, HS 201, HS 271, HS 272, HS 291A.
Repeatable for credit
Mandatory CR/NC/RP
2 units

HS 291E. Work Experience Synthesis
Critical reflection and synthesis of fieldwork experience, including lessons learned, organizational analysis, and professional self-assessment.
Prerequisites: HS 200, HS 201, HS 271, HS 272, HS 291A, HS 291D.
Normal Grade Rules
2 units

HS 291P. Professional Development
Strategically selected professional development activities to supplement experiences during fieldwork and advance public health career objectives.
Prerequisite: HS 291A
Credit / No Credit
1 unit

HS 292. Practicum II: Professional Experience
Supervised experience. Emphasis is on short term projects and observations related to practice.
Prerequisite: HS 291. Not available to Open University Students.
Credit / No Credit
3 units
RECREATION

LOWER DIVISION

RECL 010. Creating a Meaningful Life
Study how a meaningful life relates to the freedom to pursue happiness. Examines personal, social, and cultural bases for a creative and successful lifestyle. Learn to recognize and foster creative potential for lifelong personal growth, meaningful rewards, and leisure enjoyment. GE Area: E
Normal Grade Rules
GE EE
3 units

RECL 015. Human Life Span
See HS 015.
Normal Grade Rules
GE D1
3 units

RECL 090. Foundations of Recreation Parks & Tourism
Field of parks and recreation; history of development of the recreation profession; survey of recreation and leisure services.
Normal Grade Rules
3 units

RECL 094. The Outdoor Recreation Experience
Students will explore, understand, and experience firsthand the value, meaning, and benefits of a variety of outdoor recreation activities. Socio-cultural and ecological systems will be examined as they relate to the delivery of outdoor recreation experiences in both the public and private sector.
Normal Grade Rules
3 units

RECL 097. Event Planning
Principles of event planning with emphasis on development and integration of operational strategies in recreation and hospitality management. Application of programming techniques and exploration of career opportunities in event management.
Misc/Lab Lecture 2 hours/activity 3 hours.
Normal Grade Rules
3 units

NO DEGREE CREDIT

HS 1290R. Culminating Experience Supervision
Continued work on dissertation, thesis, or project or in preparation for comprehensive exams beyond the minimum required units for cases in which final deliverables are still in progress and all other degree requirements except the culminating experience have been fulfilled.
Prerequisite: Outstanding RP grade in a preceding semester in a project or thesis class, or RFP in progress No Degree Credit
1-3 units

RECL 100W. Writing Workshop
Developing and enhancing written communication skills in the recreation and leisure profession in the following areas: scientific/technical writing, administrative writing, public-relations-related writing and funding proposals. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE; satisfaction of Writing Skills Test and upper division standing.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).
Normal Grade Rules
GE Z
3 units

RECL 110. Leisure, Life and Contemporary Society
Explore conceptual foundations of play, recreation and leisure and their importance in physical, social, psychological and spiritual development across the lifespan. Assess the roles of existing services in enhancing quality of life across social, cultural, economic and environmental realms.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

RECL 111. Leisure, Culture, and Identity
Perspectives of leisure as a source of self-expression and social control related to cultural beliefs, values, and practices and institutionalized social systems. Observation, analysis and critique of history and social structures, leisure and culture, and personal opportunities for change. GE Area: S
Prerequisite: Completion of core GE, successful completion of Writing Skills Test, upper division standing.
Normal Grade Rules
GE S
3 units

RECL 112. Foundations of Recreation Therapy
Fundamentals of the profession; history, delivery models, theory and practice of Recreation Therapy as a treatment modality for persons whose functional abilities are impaired. Exposure to ADA facility assessment, inclusion, and impact of social attitudes through didactic and experiential learning.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

RECL 113. Leisure: Philosophy and Education
Examination of philosophical, historical, psychological, and wellness foundations for education for leisure. Learning systems to facilitate the process of change through leisure opportunities for wellness.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units
RECL 130. Event Marketing in Recreation Enterprises
Develop competence in event promotion and marketing. Explore marketing fundamentals, such as targeting an audience, creating promotional materials and pricing to cover event costs as well as event sponsorship. The role of social media in special themed events will be surveyed.
Prerequisite: RECL 097
Normal Grade Rules
3 units

RECL 132. Recreation Program Planning
Learn to plan and implement programs and events for diverse individual, group and community recreation experiences using contemporary needs assessment, outcomes oriented goal setting, program/event selection, leadership techniques and evaluation tools.
Normal Grade Rules
3 units

RECL 133. Principles of Recreation Leadership
In-service training workshops to develop skills in planning, implementation and evaluation processes. Self-awareness, communication and group process.
Prerequisite: Upper division standing
Misc/Lab: Lecture 4 hours/Activity 2 hours
Normal Grade Rules
4 units

RECL 135. Planning and Managing Rec Areas & Facil
Content includes legal principles and risk management, as well as fundamentals of facility design and preventive maintenance in recreation, park, and tourism settings. This is a problem-based learning course, including case study, problem solving, project applications, and working with stakeholders.
Normal Grade Rules
3 units

RECL 136. Principles of Recreation and Park Admin
In the context of leadership roles and responsibilities in the field of recreation and park administration, course examines issues related to the organization and administration of human resources, finances, areas and facilities, programs, risk management, and liability.
Prerequisites: Upper Division Standing
Normal Grade Rules
3 units

RECL 137. Recreation Risk & Financial Management
Legal and financial aspects of managing parks, recreation and leisure service organizations.
Prerequisites: Upper division standing; RECL 090, RECL 110.
Corequisite: RECL 136.
Normal Grade Rules
3 units

RECL 140A. Spec Interventions in RT:Aquatic Therapy
Develop in-depth knowledge and skills related to the facilitation and supervision of a complex Recreation Therapy intervention. Includes equipment use, clinical application of each aspect of the activity or equipment, contraindications, safety, facilitation techniques, costs, industry standards, and evidence-based practices.
Repeatable for credit
Normal Grade Rules
1 unit

RECL 140B. Spec Inter in RT: Behavior Interventions
Theory and practice of interventions that positively affect healthy behaviors. Implementing prevention strategies including activity modification, assessment of harmful or disruptive behaviors, and identifying cause and effect relationships. Learn and practice teaching appropriate behaviors, increasing appropriate behaviors, decreasing inappropriate behaviors.
Repeatable for credit
Normal Grade Rules
1 unit

RECL 140C. Spec Inter in RT: Adventure Rx
Theoretical, hard, and soft skills related to adventure therapy interventions. Demonstrate skill development through facilitation. Learn diverse interventions and clinical application, modification, contraindications, and safety precautions for each based on psychiatric diagnosis served.
Repeatable for credit
Normal Grade Rules
1 unit

RECL 143. Festivals and Community Special Events
Principles and applications for effective management of festivals, fairs and community special events; including planning, marketing, financing, evaluating, logistics, consumer behavior, corporate sponsorship, licensing agreements, risk management, and sustainable practices.
Normal Grade Rules
3 units

RECL 144. Natural and Cultural Resource Interpretation in Recreation and Parks
Explore the interpretive approach to communicating value and vision of nature, outdoor recreation and tourism sites. Gain skills to develop and conduct activities such as guided walks, interpretive programs and fireside chats. Learn fundamentals of creating interpretive media such as brochures, displays, and exhibits as well as e-media.
Normal Grade Rules
3 units

RECL 148. Biofeedback Principles and Practices
Conceptual and historical review of Biofeedback theory and practice. Experiential engagement with software, instrumentation, data interpretation and personal reflection. Assessment, treatment, evaluation, and case studies applied to medical and non-medical practices.
Normal Grade Rules
3 units

RECL 150. For-Profit Enterprises in Recreation
Development of knowledge and skills relating to the variety and types of for-profit recreation enterprises, including planning for and management of commercial ventures, development of corporate identity and market niche, and forecasting of trends and shifts in consumer culture.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

RECL 151. Planning and Development of Tourism and Event Enterprises
Practices utilized in private, nonprofit and commercial sectors for planning, developing and operating leisure, tourism, and event enterprises. Management functions and consumer behavior related to products and services.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

RECL 152. Non-Profit Leadership & Management
Introduction to the historical and philosophical foundations of the Non-Profit sector. Provides a basic understanding of key issues in managing contemporary nonprofit organizations including: organizational behavior, board development, fund-raising, boundary-spanning skills, and developing leadership skills for social innovation and entrepreneurship.
Prerequisite: Upper Division Standing.
Normal Grade Rules
3 units

RECL 153. Youth Development and Services
Surveys the field of youth development, its historical roots, sociocultural and psychological development, and contemporary innovations. Develop knowledge of the institutional and programmatic factors that lead to positive developmental outcomes for youth in leisure and human service organizations.
Prerequisite: Upper Division Standing.
Normal Grade Rules
3 units
RECL 155. Outdoor Recreation Systems
Overview of outdoor recreation in the United States. Study of the historic, social, economic and political factors influencing natural resource protection. Includes a survey of organizations that manage visitors and protected areas to provide quality outdoor recreation experiences.
Prerequisite: Upper Division Standing.
Normal Grade Rules
3 units

RECL 156. Principles of Sustainable Travel and Tourism
Examination of travel and tourism as it relates to tourist motivations, hospitality and destination management. The impact of tourism on the physical, cultural and economic environment.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

RECL 157. Sustainable Recreation & Ecotourism
Course examines cultural, ethical, environmental and social science issues, and uses applied research methods to achieve competence in making programmatic and resource management decisions for recreational and tourism purposes.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

RECL 158. Cultural and Heritage Tourism
Heritage experiences leading to deeper cultural understanding are essential in the tourism segment of recreation. Exploration of culture and heritage using the lens of growth, popularity or compression will be examined. Discussion on practices and concerns associated with cultural heritage-based tourism.
Normal Grade Rules
3 units

RECL 159. Research and Recreation Practice
Students will learn about the systematic process for evaluation or research. The course focuses on three main areas: Criteria and research questions, evidence and data (data collection and data analysis), and judgment and interpretation. The course is for students interested in basic information about systematic inquiry using evaluation and research design, data collection and analysis, and data reporting.
Prerequisite: RECL 90, RECL 100W, RECL 110.
Corequisites: RECL 136, RECL 137.
Credit / No Credit
1 unit

RECL 160. Evaluation and Research in Recreation
Students will learn about the systematic process for evaluation or research. The course focuses on three main areas: Criteria and research questions, evidence and data (data collection and data analysis), and judgment and interpretation. The course is for students interested in basic information about systematic inquiry using evaluation and research design, data collection and analysis, and data reporting.
Prerequisite: RECL 90, RECL 100W, RECL 110.
Corequisite: RECL 136.
Normal Grade Rules
3 units

RECL 165. Senior Seminar in Recreation
A capstone experience designed to help students synthesize and further develop skills acquired in program planning and development, implementation, and evaluation. Emphasis placed on negotiation of all phases of designing and facilitating meaningful recreation experiences in a variety of agencies and communities.
Prerequisite: Completion of 36 units of RECL coursework including RECL 90, RECL 97, RECL 110 and RECL 113.
Major form completed and signed by HSR advisor and chair. Senior standing.
Normal Grade Rules
3 units

RECL 166. Practicum in Recreation Therapy
Supervised 100 hour competency-based field learning in approved health agency (e.g., hospital, community health, municipal). Learning exposes the learner to different populations, interventions, terminology, resources. Learner will observe job task skills, apply knowledge, and gain abilities of Recreation Therapy practice.
Prerequisites: RECL 90
Credit / No Credit
1 unit

RECL 170A. Pre-Intern Workshop
Introduces and prepares upper division majors for senior internship. Includes career goal clarification, resume development and interviewing through both workshops and online delivery.
Prerequisites: RECL 90, RECL 100W, RECL 110.
Corequisites: RECL 136, RECL 137.
Credit / No Credit
1 unit

RECL 170B. Internship in Recreation
Supervised 40-hour-per-week internship (minimum of 12 weeks) in one of a variety of approved agencies (leisure services, park and recreation, or tourism/commercial recreation).
Prerequisites: Upper division standing; RECL 136, RECL 160, RECL 170A.
Corequisites: RECL 136, RECL 170A.
Credit / No Credit
10 units

RECL 170C. Internship in Recreation Therapy
Supervised 40-hour-per-week internship (minimum 15 weeks, 600 hours) occurring in approved health agencies. Supervisor must have a valid CTRS credential. Student will develop competencies as identified in the NCTRC Job Task Analysis and ATRA Standards of Practice.
Credit / No Credit
10 units

RECL 180. Individual Studies
Individual work investigating special topics/problems through research, applied projects, and/or field experiences. Assessment by project(s) and/or paper(s).
Prerequisites: Upper division standing, supervising instructor approval, and department chair consent.
Repeatable for credit
Credit / No Credit
1-4 units

RECL 184. Directed Reading
Directed reading in journals and books by authorities in Hospitality, Recreation, Tourism and related fields. Assessment by project(s) and/or paper(s).
Prerequisite: Upper division standing, supervising instructor approval, and department chair consent.
Repeatable for credit
Credit / No Credit
1-4 units

RECL 185. Leisure, Recreation and Aging
Theory and practice related to the role of leisure services in maximizing the quality of life for older adults. Interrelationship of leisure and other supportive services for older adults in community and institutional settings.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

RECL 187. Leisure Education in Recreation Therapy
Overview of leisure education as it is used both in medical and non-medical settings to improve functioning and wellbeing among diverse clientele. Students will learn historical, philosophical, and contemporary conceptual foundations, evidence-based and practical applications to service delivery.
Normal Grade Rules
3 units

RECL 189. RT Interventions for People with Physical Conditions
Theoretical foundations, research, and evidenced based Recreation Therapy interventions for persons with physical, intellectual, and developmental disabilities and other chronic conditions. Focuses on rehabilitation, community reintegration, day programs, and inclusion.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

RECL 197. Recreation Therapy in Mental Health
Application of theory, models, concepts and facilitation processes used in Recreation Therapy and related professions for people with mental health conditions. Experiential learning and facilitation of leisure education, clinical interventions, and behavioral change processes used in medical and non-medical settings.
Prerequisite: Upper division status, RECL 112 and RECL 113.
Normal Grade Rules
3 units

RECL 198. Directed Reading
Directed reading in journals and books by authorities in Hospitality, Recreation, Tourism and related fields. Assessment by project(s) and/or paper(s).
Prerequisite: Upper division standing, supervising instructor approval, and department chair consent.
Repeatable for credit
Credit / No Credit
1-4 units

RECL 199. Directed Reading
Directed reading in journals and books by authorities in Hospitality, Recreation, Tourism and related fields. Assessment by project(s) and/or paper(s).
Prerequisite: Upper division standing, supervising instructor approval, and department chair consent.
Repeatable for credit
Credit / No Credit
1-4 units

<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>RECL 198</td>
<td>Rec Therapy Assessment and Documentation</td>
<td>Clinical procedures utilized in Recreation Therapy whereby habilitation/habilitation is the primary goal; client assessment, development of behavioral objectives and treatment plans, evaluation, documentation, medical terminology, and charting procedures are covered. Extensive skill development regarding critique and development of assessment tools. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 199</td>
<td>Advanced Practices in Recreation Therapy</td>
<td>The application and examination of concepts, techniques, research, and legal issues utilized by advanced practitioners and managers. Includes trends and issues related to clinical supervision, reimbursement, quality improvement, legislation, comprehensive program design, and applied research that produces evidenced based practice. Prerequisite: RECL 112. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 200</td>
<td>Foundations of Recreation and Tourism</td>
<td>Basic philosophical, historical, and scientific foundations and developments in leisure, recreation and tourism; analyses of the significance of leisure in modern societies; critical review of major and classical writings in the field with special attention to academic writing. Corequisite: RECL 110. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 202</td>
<td>Evaluation and Assessment in Recreation and Tourism</td>
<td>Acquires knowledge and principles of evaluating selected areas in recreation and tourism services. Through use of analytical tools and processes, students learn how to write evaluation report to meet stakeholders’ information and decision-making needs. Prerequisite: RECL 200. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 203</td>
<td>Seminar in Recreation-Park Administration</td>
<td>A discussion of selected problems and their possible solutions dealing with personnel administration, planning of recreation and park areas and facilities, program organization, public relations, financial procedure, legal aspects of recreation, etc. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 204</td>
<td>Research Methods in Recreation and Tourism</td>
<td>A critical examination of the various approaches and methods used in research, a survey of research design, data collection, data coding, and analysis in the recreation, tourism and related fields. Prerequisite: RECL 202 or instructor consent. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 205</td>
<td>Finance in Recreation</td>
<td>Examination of bases, sources and strategies for financing and marketing of recreation programs and services. Includes public, private-for-profit, nonprofit and commercial leisure service agencies. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 210</td>
<td>Contemporary Theories in Recreation and Tourism</td>
<td>Reviews theoretical and empirical social science literature in recreation and tourism. Review, interpretation and evaluation of contemporary research in recreation, leisure, tourism, and related fields. Prerequisite: RECL 200. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 211</td>
<td>Therapeutic Recreation Practices</td>
<td>Development and analysis of individualized program plans based upon selected theoretical foundations; emphasis on assessment, program design, follow-up services. Major service delivery systems studied in depth with regard to implications for leisure service delivery affecting disabled or ill individuals. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 212</td>
<td>Facilitation and Intervention in Therapeutic Recreation</td>
<td>Theories of intervention and facilitation integrated with methodology to recognize the interdependence of the individual and the environment. Direct and enabling technique application to the therapeutic recreation profession analyzed for situational effectiveness. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 213</td>
<td>Advanced Professional Therapeutic Recreation Practices</td>
<td>Professional practices, including in-service and pre-service training, consultation and group facilitation; processes for addressing professional trends and issues, including credentialing, legislative processes, interdisciplinary service delivery and networking. Prerequisite: RECL 211 and RECL 212. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 214</td>
<td>International Tourism Trends and Issues</td>
<td>Analyze international tourism concepts, trends, and issues associated with development. Study goals and procedures for basic and applied tourism research and introduce varied information sources for independent research. Adopt a culturally sensitive perspective for interpreting information related to different cultures. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 216</td>
<td>Marketing for Tourism and Recreation</td>
<td>Study of characteristics which define cultural groups around the world. Learn to adjust marketing approaches, materials, and technology to accommodate the different ways people communicate to attract specific markets. Includes field-based market research. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 217</td>
<td>Information Technology and Tourism</td>
<td>Analysis of concepts, trends, and issues associated with technology and tourism development. History and applications of various information technologies in the tourism industry. Trends in technology and the impact on the travel industry. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 218</td>
<td>Tourism Planning and Development</td>
<td>Review, analysis, and application of concepts, strategies, techniques, and approaches associated with destination tourism planning, development, and management. Emphasis is on integrated and sustainable tourism planning and development models at global, national, regional, and local/community levels. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 219</td>
<td>Cultural and Heritage Tourism</td>
<td>Introduction to the concerns and issues involved in studies of heritage, tradition, historic preservation, public archaeology, and heritage tourism. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 265</td>
<td>Graduate Research Seminar</td>
<td>Presentation, discussion, and evaluation of leisure research. Prerequisite: RECL 200, RECL 202, or instructor consent. Normal Grade Rules 3 units</td>
</tr>
<tr>
<td>RECL 270</td>
<td>Graduate Internship in Recreation and Tourism</td>
<td>A 12-week, 15 hours per week of applied management experience in a leisure service or tourism organization under the joint supervision of a faculty advisor and an organizational representative. Prerequisite: RECL 200, RECL 202, RECL 204. Normal Grade Rules 3 units</td>
</tr>
</tbody>
</table>
RECL 298. Special Studies
Individual work investigating special topics/problems through research and/or applied projects.
Prerequisite: RECL 202
Repeatable for credit
Mandatory CR/NC/RP
1-3 units

RECL 299. Master’s Thesis
Supervised thesis in the field of recreation or tourism.
Prerequisite: Admission to candidacy for the master’s degree; RECL 202
Repeatable for credit
Mandatory CR/NC/RP
1-6 units
History Department Courses

HISTORY

LOWER DIVISION

HIST 001A. World History to 1500
Introduces students to the world’s regions and civilizations as interconnected entities. HIST 1A examines the growth and development of traditional civilizations to 1500. HIST 1B surveys the transformation of civilizations since 1500.
Normal Grade Rules
3 units

HIST 001B. World History from 1500
Introduces students to the world’s regions and civilizations as interconnected entities. HIST 1A examines the growth and development of traditional civilizations to 1500. HIST 1B surveys the transformation of civilizations since 1500.
Normal Grade Rules
3 units

HIST 010A. Western Civilization
History and culture of Europe; social and political structures; roles of individuals and groups; relationships among ideas, institutions, society and culture, to 1648.
GE Area: D2
Normal Grade Rules
GE: D2
3 units

HIST 010B. Western Civilization
History and culture of Europe; social and political structures; roles of individuals and groups; relationships among ideas, institutions, society and culture, to 1648.
GE Area: D2
Normal Grade Rules
3 units

HIST 015. Essentials of U.S. History
Treatment of essentials of U.S. history. Satisfies the American Institutions requirement in U.S. history (US1) and the Core GE requirement in Social Sciences: Comparative Systems, Cultures, and Environments (D2).
GE Area: D2 and American Institution Requirement: US1
Normal Grade Rules
GE: M12
3 units

HIST 020A. History of the American People
Survey of continuity and change in society, culture, institutions and environment. Origins through slavery conflict. American Institutions: US1
Normal Grade Rules
GE: US1
3 units

HIST 020B. History of the American People
Survey of continuity and change in society, culture, institutions and environment. Emergence of modern society and world power status. American Institutions: US1
Normal Grade Rules
GE: US1
3 units

HIST 050. Historical Process: Understanding Historical Reasoning
Modes and skills of practical logic and reasoning through study of historical method. Historical problems examined to that end.
GE Area: A3
Normal Grade Rules
GE: A3
3 units

HIST 099. History Fundamentals
An introduction to the skills, technology and technique of history reading, writing and research. It is a prerequisite to History 100W. Sophomores and transferring juniors are required to take this course.
Prerequisite: Open to history majors only; lower or upper division standing.
Normal Grade Rules
3 units

UPPER DIVISION

HIST 100W. History Writers’ Workshop
Development of skills required for the art and practice of historical research and writing. Library research, oral reports and written exercises dealing with a variety of historical problems. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Pre/Co-requisite: HIST 099 required or Department permission. History majors only.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).
Normal Grade Rules
GE: Z
3 units

HIST 102. Historiography
Critical study of the writings of great historians.
Prerequisite: HIST 099 and HIST 100W.
Normal Grade Rules
4 units

HIST 103. History of the Modern Middle East
Survey from late 18th century to the present. Topics include imperialism and dissolution of the Ottoman Empire; World War I, the Mandate System, and the growth of nationalism; secularism versus fundamentalist Islam; formation of the state of Israel and the Israeli-Palestinian conflict; the Iranian Revolution; U.S.-Middle East relations and the quest for oil; the changing status of women.
Prerequisites: Upper division standing and instructor consent
Normal Grade Rules
4 units

HIST 104. Advanced Topics in Ancient History
An investigation in depth of selected periods or topics in Ancient history. Repeatable for credit when topic changes up to 8 units.
Prerequisites: Upper division standing or instructor consent
Repeatable for credit
Normal Grade Rules
4 units

HIST 109A. History of China
Traditional society from earliest times to 1800.
Prerequisite: Upper Division Standing
Normal Grade Rules
4 units

HIST 109B. History of China
China’s revolutions and ongoing modernization.
Prerequisite: Upper division standing or instructor consent
Normal Grade Rules
4 units

HIST 110A. History of Japan
Development of state and society from prehistoric times to 1750. Major topics include the controversy over the origins of the Japanese people; the adaptation of Chinese cultural, religious, and political models; the role of the emperor in state formation; the classical era of Japanese culture during the Heian period; the rise of the samurai elites; and the development of military rule under the shoguns.
Prerequisite: Upper division standing or consent of instructor.
Normal Grade Rules
4 units

HIST 110B. History of Japan
Since 1750 emphasizing the process of modernization.
Prerequisite: Upper division standing or instructor consent
Normal Grade Rules
4 units

HIST 111. Special Topics in Jewish Studies
See JWSS 111.
Repeatable for credit
Normal Grade Rules
3 units
HIST 112. Ancient West to 500 BCE
Political, social and cultural history of the Ancient West (Europe, the Middle East and North Africa, from ca. 15,000 BCE to 500 BCE).
Prerequisites: Upper division standing
Normal Grade Rules
4 units

HIST 113A. Economic History of the United States
See ECON 113A
Normal Grade Rules
4 units

HIST 113B. Economic History of Europe
See ECON 113B
Normal Grade Rules
4 units

HIST 114. The Ancient West, 500 BCE-400 CE
Political, social, and cultural history of the Ancient West (Europe, the Middle East, and North Africa), from ca. 500 BCE to 400 CE.
Prerequisites: Upper division standing or instructor consent
Normal Grade Rules
4 units

HIST 111A. Medieval Worlds, 400-1000
This course surveys European Medieval History from the late fourth century through the first millennium. It examines the political, economic, social, cultural, and religious changes that constituted the transformation of the antique world into a unique "European" civilization.
Prerequisites: Upper division standing
Normal Grade Rules
4 units

HIST 111B. Medieval Worlds, 1000-1500
From 1000 - 1500 emphasizing growth of papal power, commercial revolution and revival of urban life, twelfth century Renaissance, interactions between the European, Byzantine, and Islamic worlds, and late medieval transformations leading to modernity
Prerequisites: Upper division standing
Normal Grade Rules
4 units

HIST 112. The Renaissance and Reformation
The European world in transition from 1400-1600.
Prerequisite: Upper Division Standing
Normal Grade Rules
4 units

HIST 114. Early Modern Europe
The European world in transition from 1580 to 1750. A continuation of History 112, exploring the central place of the princely court in the transformation of politics, religion, art, culture, science, technology and philosophy. Introduction to the Enlightenment.
Prerequisite: Upper Division Standing
Normal Grade Rules
4 units

HIST 126. Advanced Topics in Medieval History
An investigation in depth of selected periods or topics in Medieval history. Repeatable for credit when topic changes for up to 12 units.
Prerequisites: Upper division standing or instructor consent
Repeatable for credit
Normal Grade Rules
4 units

HIST 132. Advanced Topics in World History
Aspects of world history under various topics. Repeatable for credit when topic changes for up to 12 units.
Prerequisites: Upper division standing or instructor consent
Repeatable for credit
Normal Grade Rules
4 units

HIST 137. California History for Teachers
See SOCS 137
Normal Grade Rules
3 units

HIST 138. US History for Teachers
See SOCS 138.
Normal Grade Rules
3 units

HIST 139. World History for Teachers
See SOCS 139.
Normal Grade Rules
3 units

HIST 143. Europe, 1750-1900
Major political, economic, social and cultural themes of European history from the Enlightenment to 1900.
Prerequisites: Upper division standing
Normal Grade Rules
4 units

HIST 144. Europe, 1900-1945
A history of political, economic, social and cultural developments in Europe during the era of the two world wars.
Prerequisites: Upper division standing
Normal Grade Rules
4 units

HIST 145. Europe and the World Since 1945
Political, economic and social developments since World War II, with emphasis on Europe.
Prerequisites: Upper division standing
Normal Grade Rules
4 units

HIST 146. Advanced Topics in European History
An investigation in depth of selected periods or topics in European history. Repeatable for credit when topic changes up to 12 units.
Prerequisites: Upper division standing
Repeatable for credit
Normal Grade Rules
4 units

HIST 153. History of Women in Europe
Changes in women’s private and public roles in diverse national, class, religious, ethnic and racial contexts from Ancient Greece to Modern Europe. GE Area: V
Prerequisite: Completion of Core GE, satisfaction of Writing Skills Test and upper division standing. For students who begin continuous enrollment at a CCC or a CSU in Fall 2005 or later, completion of, or corequisite in a 100W course is required.
Normal Grade Rules
GE: V
3 units

HIST 155. 20th Century World
Global perspectives on a century of scientific progress that also saw the violent deaths of millions, with emphasis on the decline of traditional imperialism and the ideological contention that led to World War II and the Cold War. GE Area: V
Prerequisite: Completion of core GE, satisfaction of Writing Skills Test and upper division standing. For students who begin continuous enrollment at a CCC or a CSU in Fall 2005 or later, completion of, or corequisite in a 100W course is required.
Normal Grade Rules
GE: V
3 units

HIST 163. Modern Latin America, 1800-Present
Latin America since 1800. Focus on major political changes, such as independence, wars, popular uprisings, and systems of government. Also economic and cultural affairs, especially when they disrupt existing societies, and outstanding leaders who charted their nations’ destinies.
Prerequisites: Upper division standing or instructor consent
Normal Grade Rules
4 units

HIST 164. Colonial Latin America
The course covers the colonial administration and society of the Spanish and Portuguese colonies in the New World. I also look at social, economic, and political conditions of the Iberian Peninsula and of the Amerindian empires on the eve of the conquest. The course concludes with an overview of the independence movements in Hispanic America and Brazil.
Pre-requisites: Upper division standing or instructor consent
Normal Grade Rules
4 units
HIST 167. Advanced Topics in Latin American History
An investigation in depth of selected periods or topics in Latin American history. Repeatable for credit when topic changes up to 12 units.
Prerequisites: Upper division standing or instructor consent
Repeatable for credit
Normal Grade Rules
4 units

HIST 168. Advanced Topics in American History
An investigation in depth of selected periods or topics in American history. Repeatable for credit when topic changes up to 12 units.
Prerequisites: Upper division standing, American Institutions Requirement: US1
Repeatable for credit
Consent
Normal Grade Rules
4 units

HIST 170. Topics in American History
An investigation in depth of selected periods or problems. Repeatable for credit when topic changes. American Institutions Requirement: US1
Prerequisite: Upper division standing
Note: No credit for history majors or minors.
Repeatable for credit
Normal Grade Rules
GE: US1
3 units

HIST 170S. Topics in American History: American Identities and Institutions
An investigation in depth of selected periods or problems. This topic focuses on historical relationships between social groups and the political, social, economic and cultural institutions they created. GE Area: S and American Institutions Requirement: US1
Prerequisites: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE S
3 units

HIST 173. New World Encounters, 1400-1750
Examines the first wave of European expansion, from 1400-1750, through the prism of cultural and religious interactions. Explores how Europeans, Africans, and Indians understood each other during European exploration, conquest, and colonization of the "New World".
Prerequisite: Upper division standing or instructor consent.
Notes: Offered only occasionally.
Normal Grade Rules
4 units

HIST 174. Colonial & Revolutionary America
Investigates the socio-political development of British North America from the 1600s to the era of the American Revolution. Examines how mentalities, voluntary and involuntary immigration, demographic catastrophes, rebellions, and religious revivals shaped the British Atlantic.
Prerequisites: Upper division standing
Normal Grade Rules
4 units

HIST 175. Inventing America, 1800-1860
The history of the United States from 1800-1860. Topics include the rise of democratic political culture, industrialization, the emergence of a market economy, pivotal changes in institutions such as the family and church and the redefinition of key American values.
Prerequisites: Upper division standing
Normal Grade Rules
4 units

HIST 176. The Civil War and Reconstruction
Course takes a topical approach, examining the political, social, economic, military, and ideological dimensions of the Civil War and Reconstruction. Focus will be on the war and its aftermath as a revolutionary experience rather than solely as a military struggle.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
4 units

HIST 177. Industrial America, 1877-1920
Economic, social, and political history from the end of Reconstruction to the achievement of women’s suffrage. Topics include the triumph of industrial capitalism, labor conflict, women’s suffrage, Populism/Progressivism, race/ethnicity, and World War I.
Prerequisites: Upper division standing or instructor consent
Normal Grade Rules
4 units

The United States from the “Roaring Twenties” through the Great Crash, the Great Depression, the New Deal, World War II, the home front, the Atomic Age, and the beginning of the Cold War.
Prerequisites: Upper division standing or instructor consent
Normal Grade Rules
4 units

HIST 179. Cold War America, 1950-Present
Modern history of the United States since 1950 including the Cold War, the Korean and Vietnam wars, the Civil Rights Movement, postwar society, culture, economics and politics.
Prerequisites: Upper division standing or instructor consent
Normal Grade Rules
4 units

HIST 180. Individual Studies
Individual work on special topics by arrangement.
Prerequisite: History majors or minors.
Repeatable for credit
Credit / No Credit
1-4 units

HIST 181. Advanced Topics in American History
An investigation in depth of selected periods or topics in American history. Repeatable for credit when topic changes up to 12 units.
Prerequisites: Upper division standing or instructor consent.
Repeatable for credit
Normal Grade Rules
4 units

HIST 184. Directed Reading
Directed reading on a specific topic in history. Prerequisite: History major/minor and instructor and department chair consent.
Repeatable for credit
Credit / No Credit
1-4 units

HIST 188. History of Women in the United States
A multi-faceted history of women in the United States from colonial times to the present. GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses.
Completion of, or co-registration in, 100W is strongly recommended.
Repeatable for credit
Normal Grade Rules
GE S
3 units

HIST 189A. California History to 1900
Topics include Native American civilizations, Spanish discovery and missions, the Mexican era, the American conquest, the Gold Rush, Chinese immigration, the railroad, growth, development, politics and class conflict.
American Institutions Requirement: US3
Prerequisite: Upper division standing or instructor consent.
Notes: Satisfies American Institutions requirement in California government.
Normal Grade Rules
GE US3
4 units

HIST 189B. California History Since 1900
Social, political, and economic history of California since 1900. American Institutions Requirement: US3
Prerequisite: Upper division standing or instructor consent.
Notes: Satisfies American Institutions requirement in California government.
Normal Grade Rules
GE US3
4 units
HIST 197. Introduction to Public History
Introduction to preservation and presentation of history to the community and to roles historians play in public agencies. Exploration of archives, museums and historic sites. Required for admission to Public History internship. 
Prerequisite: Upper division standing or consent of instructor.
Normal Grade Rules
4 units

HIST 199. Public History Internship
Supervised placement in historical organizations, public institutions and community agencies concerned with preservation of history. May be repeated for 6 unit maximum. 
Prerequisite: Instructor consent.
Repeatable for credit
Credit / No Credit
3 units

GRADUATE

HIST 200. Graduate Methodology, Research and Writing
An orientation to history graduate study focusing on the critical advanced writing, library, research and historiographical skills needed for success as a graduate student and professional historian. Includes an overview of current methodologies and trends in the field. 
Normal Grade Rules
4 units

HIST 209. Colloquium in Ancient and Medieval Europe
Intensive readings, discussions and reports on Ancient and Medieval Europe. For areas and field of emphasis see the schedule of classes. May be repeated when content changes. 
Prerequisites: Graduate standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master's program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

HIST 210A. Advanced Colloquium United States History
Intensive readings, discussions, and reports on American history in the seventeenth and eighteenth centuries. Repeatable for credit once with different instructor. 
Prerequisites: Graduate standing
Repeatable for credit
Normal Grade Rules
4 units

HIST 210B. Advanced Colloquium United States History
Intensive readings, discussions, and reports on American history in the nineteenth century. Repeatable for credit once with different instructor. 
Prerequisites: Graduate standing
Note: This course satisfies graduate-level GWAR in this master's program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

HIST 210C. Advanced Colloquium United States History
Intensive readings, discussions, and reports on American history in the twentieth century. Repeatable for credit once with different instructor. 
Prerequisites: Graduate standing
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

HIST 211. Advanced Colloquium in Modern Europe
Intensive readings, discussions and reports on American history in the twentieth century. Repeatable for credit once with different instructor or topic. 
Prerequisites: Graduate standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master's program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

HIST 212. Advanced Colloquium in Ancient and Medieval Europe
Intensive readings, discussions, and reports on Ancient and Medieval Europe. For areas and field of emphasis see the schedule of classes. May be repeated when content changes. 
Prerequisites: Graduate standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master's program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

HIST 220. Advanced Colloquium in World History
Intensive readings, discussions and reports in Asian, African, European and North and South American history, in one of three eras: ancient and classical eras (before 1000), between 1000 and 1750 or since 1750. May be repeated with different instructor or topic. 
Prerequisites: Graduate standing or instructor consent.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

HIST 221. Seminar in World History
An intensive study of some area, problem or period in world history. Topics have included World War II, the Atlantic Economy, World Slavery, British Imperialism. Repeatable for up to 8 units when course content changes. 
Prerequisite: Graduate Standing
Note: This course satisfies graduate-level GWAR in this master's program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

HIST 230. Seminar in Ancient and Medieval Europe
An intensive study of some areas, problem or period in Ancient or Medieval Europe. Individual research with oral and written reports. May be repeated for up to 8 units with different instructor or topic. 
Prerequisite: Graduate Standing
Note: This course satisfies graduate-level GWAR in this master's program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
4 units

HIST 240. Seminar in Pre-Twentieth Century Europe
An intensive study of some area, problem or period in European history before 1900. Topics have included economic, social and gender differences in Industrial Europe and social theories of Max Weber. May be repeated when content changes. 
Prerequisite: Instructor consent.
Note: This course satisfies graduate-level GWAR in this master's program.
Repeatable for credit
Normal Grade Rules
4 units

HIST 241. Seminar in Twentieth Century Europe
An intensive study of some area or problem. Individual research with oral and written reports. Topics have included the Cold War, European diplomacy and international security. 
Prerequisite: Graduate standing
Note: This course satisfies graduate-level GWAR in this master's program.
Repeatable for credit
Normal Grade Rules
4 units

HIST 272. Seminar in American Diplomatic History
An intensive analysis of some chronological period, area or major problem in American diplomatic history. Individual research with oral and written reports. 
Prerequisite: Graduate standing
Note: This course satisfies graduate-level GWAR in this master's program.
Repeatable for credit
Normal Grade Rules
4 units
HIST 274. Seminar in US Social & Cultural History
Intensive study of some phase of American social, cultural, and/or intellectual history. Individual research with oral and written reports. Topics have included class, race, ethnic, and gender differences. May be repeated when content changes. Repeatable for up to 8 units when topic changes.
Prerequisite: Graduate standing or instructor consent.
Repealable for credit
Normal Grade Rules
GE: GWAR
4 units

HIST 276. Seminar in Early American History
An intensive study of some phase in, or problem of, American history from colonial period through the Civil War. Topics have included American independence from British control, the development of the industrial North and the colonization of the West. May be repeated when content changes.
Prerequisite: Instructor consent.
Note: This course satisfies graduate-level GWAR in this master's program.
Repealable for credit
Normal Grade Rules
GE: GWAR
4 units

HIST 280. Seminar in Recent American History
An intensive study of some phase or problem in the period from the Civil War to the present. Individual research with oral and written reports. May be repeated when content changes.
Prerequisite: Graduate standing or instructor consent.
Note: This course satisfies graduate-level GWAR in this master's program.
Repealable for credit
Normal Grade Rules
GE: GWAR
4 units

HIST 283. Seminar in California and Western History
An intensive study of an area, phase or period of history associated with California or the West. Individual research with oral and written reports. May be repeated for credit when course content changes.
Prerequisite: Graduate standing and instructor consent.
Note: This course satisfies graduate-level GWAR in this master's program.
Repealable for credit
Normal Grade Rules
GE: GWAR
4 units

HIST 288. Seminar in the History of Women in the United States
An intensive study of some phase of the history of women in the United States. Individual research with oral and written reports.
Prerequisite: Graduate Standing
Note: This course satisfies graduate-level GWAR in this master's program.
Repealable for credit
Normal Grade Rules
GE: GWAR
4 units

HIST 298. Special Study
Advanced individual research.
Prerequisite: Instructor consent and approval by graduate advisor.
Notes: More than 3 units only in areas where graduate courses not normally offered.
Repealable for credit
Mandatory CR/NC/RP
1-6 units

HIST 299. Master's Thesis or Project
Open only to approved master's candidates in history.
Reserved for students under Plan A.
Repealable for credit
Mandatory CR/NC/RP
3-6 units

NO DEGREE CREDIT

HIST 1290R. Culminating Experience
Supervision
This course is offered in special sessions for 1 unit. It is repeatable up to 32 times. It is required of, and limited to, graduate students who have an outstanding RP grade in a preceding semester in a project or thesis class. If one has an outstanding RP, this course must be taken unless the student is enrolled in any other course. By outstanding, it is meant that the RP grade has not been changed to any other grade, including a CR or NC. The RP grade in the project or thesis course remains on the official record until a culminating memo has been submitted by the graduate advisor to the Office of Graduate Admissions & Program Evaluations and the course instructor of the class in which an RP was received has petitioned for a grade change to CR. This course receives no degree credit and therefore cannot be used on the candidacy form or to fulfill graduation requirements.
Prerequisite: HIST 299
Note: No Degree Credit
Repeatable for credit
No Degree Credit
1 unit

Hospitality, Tourism, and Event Management Courses

HOSPITALITY MANAGEMENT

LOWER DIVISION

HSPM 001. Introduction to Hospitality Management
Overview of structure and financial performances of hospitality industry; food and lodging, resorts, tourism enterprises, attractions and related operations. Focus on orientation to customer service, cultural/economic trends and career opportunities.
Normal Grade Rules
3 units

HSPM 002. Food Business Management
Corequisite: HSPM 001
Normal Grade Rules
3 units

HSPM 003. Introduction to Food and Beverage Management
Corequisites: HSPM 001, HSPM 065.
Normal Grade Rules
3 units

HSPM 010. Hospitality and Tourism Management
Corequisites: HSPM 001, HSPM 65.
Normal Grade Rules
3 units

HSPM 011. Restaurant Management
Overview of food and beverage with emphasis on food quality.
Prerequisites: HSPM 001, HSPM 065.
Corequisite: HSPM 001
Normal Grade Rules
3 units

HSPM 012. Cost Control in Hospitality
Food, beverage and payroll systems, including standards determination; variable, semi-variable and fixed costs; the operating budget; income and cost control and menu pricing. Cost control simulation exercises implemented through software programs.
Prerequisites: HSPM 001, BUS1 020N.
Co-Requisite: HSPM 11 and HSPM 65
Normal Grade Rules
3 units

HSPM 020. Sanitation and Environmental Issues in the Hospitality Industry
See NUFS 020.
Normal Grade Rules
2 units

HSPM 022. Catering and Beverage Management
See NUFS 022.
Normal Grade Rules
2 units

HSPM 023. Culinary Concepts
Food and beverage production techniques; preparation of food and beverage with emphasis on quality standards.
Misc./Lab: Lecture 1 hour/Lab 6 hours.
Normal Grade Rules
3 units

HSPM 045. Restaurant Operations Management
Corequisites: HSPM 001, HSPM 65.
Normal Grade Rules
3 units

HSPM 097B. Special Events Management in Hospitality Recreation and Tourism
This course provides students with hands-on experience in the operation, coordination, and management of special events as they relate to hospitality recreation and tourism. Students will develop management skills and experience in the planning and execution of a major event.
Prerequisite: Instructor consent
Normal Grade Rules
3 units

UPPER DIVISION

HSPM 100W. Writing Workshop
Developing and enhancing written communication skills in the hospitality, recreation and tourism professions in the following areas: scientific/technical writing, administrative writing, public-relations-related writing and funding proposals. GE Area: Z
Prerequisites: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE: Z
3 units

HSPM 101. Multicultural & Intl Issues Hospitality
Multicultural/International issues in the hospitality industry, historical, socioeconomic, cultural and linguistic variables presented in relationship to these issues.
Prerequisite: HSPM 001
Normal Grade Rules
3 units

HSPM 102. Hotel & Lodging Operations
Principles of organization, management and decision models applied to the tasks and challenges of hotel operations. Involves techniques of problem solving (including planning, organizing, staffing, directing and controlling operations) in areas of front office operations, housekeeping, food/beverage and personnel.
Prerequisites: HSPM 001, HSPM 065 or instructor consent.
Corequisite: HSPM 001
Normal Grade Rules
3 units

HSPM 103. Facility Planning and Design in Hospitality & Tourism
Development, planning, and maintenance of hospitality/tourism facilities. Topics include real estate economics, income generation, lease and management contracts, project development sequencing, space and building operations planning, financing, asset management, industry practices, renovation, environmental impact and public relations.
Prerequisite: Upper division standing
Normal Grade Rules
3 units

HSPM 104. Hospitality Marketing
Applying marketing principles, theories, and concepts in developing marketing strategies for hospitality, recreation and tourism organizations in a dynamic business environment. Emphasis is placed on marketing mix, market segmentation and analysis, sales planning, and public relations.
Prerequisites: HSPM 001, HSPM 065, BUS1 020 or BUS1 020N
Normal Grade Rules
3 units

HSPM 105. Finance in Hospitality
This course provides an introduction to the fundamentals of hotel and restaurant finance and develops an understanding of the strategic roles and financial analysis and finance play in internal management decision-making.
Prerequisites: HSPM 001, HSPM 65, BUS1 020 or BUS1 020N, HSPM 102
Normal Grade Rules
3 units

HSPM 107. Legal Aspects of Hospitality Management
Introduction to fundamental legal issues and concepts related to the fields of hospitality, recreation and tourism. Content will include legal process, source of law, organization structure, and a survey of selected legal principles from the areas of employment, public health and safety, contract, negligence, premise liability, personal property, environmental and constitutional law.
Prerequisite: HSPM 011, HSPM 65, BUS1 020 or BUS1 020N
Normal Grade Rules
3 units

HSPM 108. Hospitality Information Systems
Focuses on the application of various information systems to the management of facilities, programs, services, finances and accounting, products, marketing and sales, human resources and other major functions of hospitality, recreation, and tourism organizations/ agencies.
Prerequisite: HSPM 1, HSPM 65, BUS 20 or 20N, HSPM 102
Normal Grade Rules
3 units
HSPM 111. Customs and Courtesies in Hospitality
An exploration of a variety of customs and courtesies that demonstrate the influences of history, traditions, social customs, religious beliefs, language, and other cultural elements on hospitality service etiquette and manners in different cultures and countries.
Normal Grade Rules
3 units

HSPM 121. Hospitality Leadership and Management
This course acquaints students with the theory and practice of management and leadership principles in a hospitality operation. Topics include: manager's roles, leadership principles, goal setting, power and empowerment, communication skills, coaching and team building, diversity, career planning, and organizational development.
Prerequisite: HSPM 001, HSPM 065
Normal Grade Rules
3 units

HSPM 130. Hospitality Event Production
Planning and execution of a hospitality event. Topics include strategic planning, event design, event project management, event related technology, financial management, human resources, event marketing, and on-site management.
Normal Grade Rules
3 units

HSPM 134. Human Resource Management
Explores HR functions in business settings with a focus on development of knowledge and skills needed by managers. Supervisor's role within organizations with emphasis on recruitment, selection, staff training and development, legal issues, performance appraisal, motivational strategies, public relations, and maintenance of effective environments.
Prerequisite: HSPM 001, HSPM 065, BUS1 20 or BUS1 20N
Normal Grade Rules
3 units

HSPM 140. Meeting, Convention and Event Industry
Leisure service system planning through explanation of the scope and segmentation of the conference, convention and event market. Strategies in planning, developing and implementing meeting and convention services.
Prerequisite: HSPM 001, HSPM 065, BUS1 020 or BUS1 020N
Normal Grade Rules
3 units

HSPM 141. Resort and Club Management
Management and operation of resort and private club properties from their historical development to their economic and environmental impact; marketing and managing of services provided by these facilities within the leisure industry.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

HSPM 142. Tradeshows Event & Meeting Mgmt
Management and operations of tradeshows from business, economic and hospitality service perspectives; understanding the marketing, fiscal, and evaluative processes necessary to provide large scale meetings including hotel negotiations, food service, contract negotiation, and onsite management.
Prerequisites: HSPM 140 or instructor consent.
Normal Grade Rules
3 units

HSPM 143. Tourism Destination Marketing and Management
Principles of destination marketing and management in formulating strategies to promote tourism in a variety of locations. Appraising a destination's potential and developing a destination's products/services and marketing campaign to attract both business and leisure travelers.
Prerequisite: HSPM 1, HSPM 11, HSPM 102, HSPM 130
Normal Grade Rules
3 units

HSPM 148. Wine Appreciation
Introduces the student to the significance of wine in the dining experience. The class will study the wine-making process, wine grape varieties, health and legal issues of wine and include in-class evaluation of wine.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

HSPM 149. Beer Appreciation
Examining the history, business and economic impact of beer from its international brewery markets to the small craft beer distributors. Explore beer styles, regions, brewing processes and food pairings through weekly tastings and sensory applications of the principles of beer making.
Normal Grade Rules
3 units

HSPM 152. Hotel Catering and Banquet Management
Overview of hotel group sales, convention services, catering sales and banquet operations. Learn tools and applications necessary to be successful in providing catering and banquet operations for hotel, restaurant, or corporate events.
Prerequisites: HSPM 001, HSPM 11, HSPM 12, HSPM 065, HSPM 102
Normal Grade Rules
3 units

HSPM 154. Revenue Management
Formulating tactical pricing decisions to maximize revenues for hospitality organizations. Topics include: history of revenue management, reservation systems, forecasting demand, inventory control, cost analysis, pricing strategy, channel management, revenue management tactics, and applications.
Prerequisites: HSPM 001, HSPM 065, BUS1 020 or BUS1 020N, HSPM 102
Normal Grade Rules
3 units

HSPM 161. Cruise Operations and Management
This course examines the major aspects of cruise operations and management including history, global cruise market, economic significance, geography of cruising, itinerary design, anatomy of a cruise ship, operations, sales and marketing procedures, passenger services, event planning and management, and career opportunities.
Prerequisite: HSPM 1, 65, 11, 102
Normal Grade Rules
3 units

HSPM 168. Gaming Management
Introduction to the casino’s external environments and the casino’s impact on the consumer and the local economy. Topics cover the history of gaming and gambling development, casino organization and operation, the mathematics of casino games, and casino management.
Prerequisite: HSPM 1 or instructor consent
Normal Grade Rules
3 units

HSPM 175. Entrepreneurship in Hospitality
Explores the entrepreneurial opportunities available in the public, non-profit, and private sectors by examining the process of creating, planning, and managing hospitality, recreation, and tourism ventures, programs, and services.
Prerequisite: HSPM 001, HSPM 065, BUS1 020 or BUS1 020N, Senior Standing
Normal Grade Rules
3 units

HSPM 177. Hospitality Service Management
Develop skills in setting formal service standards and procedures to deliver customer experience and evaluate service quality for hospitality businesses. Topics include service experience design, psychological/social characteristics of customer satisfaction, service delivery processes, consumer/server encounters, service quality, and service recovery.
Prerequisite: HSPM 001, HSPM 011, HSPM 065, HSPM 102, HSPM 130, Senior Standing
Normal Grade Rules
3 units
HSPM 180. Individual Studies
Investigation of special problems, including research project and/or field experience.
Prerequisite: Instructor consent. Not available to Open University Students
Credit / No Credit
1-3 units

HSPM 184. Directed Reading
Directed reading in journals and books by authorities in Hospitality, Recreation, Tourism and related fields. Assessment by project(s) and/or paper(s).
Prerequisite: Upper division standing, supervising instructor approval, and department chair consent. Not available to Open University Students.
Repeatable for credit
Credit / No Credit
1-4 units

HSPM 186. Strategic Management
A capstone course focuses on the development and evaluation of management strategies with special emphasis on hospitality, recreation and tourism fields.
Prerequisite: HSPM 001, HSPM 65, BUS1 020 or BUS1 020N, Senior Standing.
Normal Grade Rules
3 units

HSPM 191A. Internship Level 1
Supervised professional broad-based work experience in hospitality management industry for a total of 200 hours.
Prerequisite: HSPM 1, HSPM 65, HSPM Major only. Not available to Open University Students.
Credit / No Credit
2 units

HSPM 191B. Internship Level 2
Supervised professional in-depth work experience in hospitality management industry for total of 300 hours.
Prerequisite: HSPM 1, HSPM 65, Bus 20 or 20N, HSPM Major only. Not available to Open University Students.
Credit / No Credit
3 units
Humanities Department Courses

AMERICAN STUDIES

LOWER DIVISION

AMS 001A. American Civilization
American culture examined through political, literary, artistic, economic and social development. American values, ideas and institutions from popular culture as well as traditional sources. GE Area: C1 and D2, meets additional GE Areas when taken as sequence.
Note: Entire sequence satisfies GE Areas C1,2, D2,3; U.S. History; U.S. Constitution and California Government U1,2,3.
Misc/Lab: Lecture 3 hours/lecture 3 hours
Normal Grade Rules
GE: M4
6 units

AMS 001B. American Civilization
American culture examined through political, literary, artistic, economic and social development. American values, ideas and institutions from popular culture as well as traditional sources. GE Area: C2 and D3, meets additional GE when taken in sequence.
Prerequisite: AMS 001A.
Note: Entire sequence satisfies GE Areas C1,2, D2,3; U.S. History; U.S. Constitution and California Government U1,2,3.
Misc/Lab: Lecture 3 hours/lecture 3 hours

UPPER DIVISION

HUM 100W. Writing in the Humanities
Advanced workshop in composition and reading for the critical and comparative study of the humanities and interdisciplinary arts. Students explore and practice the thinking and writing skills that help us communicate insight, critique, interpretation, description, and analysis of arts, literature, history, and culture, including expository writing and library research. Readings and objects of study include a range of topics and at least two different art forms. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE: Z
3 units

HUM 101. Human Life: Let's Think About It
Introduction to interdisciplinary comparative and creative studies. A range of methodologies will be explored through two contrasting subjects. Students learn and synthesize approaches - geography, history, literature, arts, and social science - to achieve a holistic understanding of the topics.
Prerequisites: Upper Division Standing.
Normal Grade Rules
3 units

HUM 111. Special Topics in Jewish Studies
See JWSS 111.
Repeatable for credit
Normal Grade Rules
3 units
HUM 114. Legacy of Asia
Interdisciplinary focus on continuity and change in China and India as these ancient civilizations responded to challenges throughout their history. GE Area V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLED 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE V
3 units

HUM 119. Myths, Heroes, and Global Cultures
This course examines cultural developments in Europe, Asia and Africa during the ancient era and middle ages, roughly 700 B.C.E. to 1400 C.E, and the roles of pivotal figures, both mythic and historical, whose actions and ideas created our understanding of the early world.
Prerequisite: Upper division standing or permission of instructor
Normal Grade Rules
3 units

HUM 120. Renaissance, Reason and Romanticism
This course will examine the cultural, artistic, philosophical, and political developments in the Western world and certain aspects of world cultures during the Renaissance, Enlightenment and Romantic eras, approximately 1400 through 1850.
Prerequisite: Upper division standing or permission of instructor
Normal Grade Rules
3 units

HUM 121. Introduction to Comparative Literature
See COLT 121.
Normal Grade Rules
4 units

HUM 122. Topics in Comparative World Literature
See COLT 122.
Normal Grade Rules
4 units

HUM 124. Literature and Religious Experience
See RELS 124.
Repeatable for credit
Normal Grade Rules
3 units

HUM 126. Holocaust Literature
See ENGL 126.
Normal Grade Rules
GE V
3 units

HUM 128. Perspectives on the Twentieth Century: The West in a Global Context
Literature and the arts of selected world cultures contextualized in significant events and concepts of the twentieth century, such as two world wars, totalitarian systems, the revolt against colonial powers, modernity and postmodernity, and the global challenge to western hegemony. GE Area: V
Prerequisite: Completion of core GE, satisfaction of Writing Skills Test and upper division standing. For students who begin continuous enrollment at a CCC or a CSU in Fall 2005 or later, completion of, or corequisite in a 100W course is required.
Normal Grade Rules
GE V
3 units

HUM 134. Religion Film & Media
See RELS 134.
Normal Grade Rules
3 units

HUM 141. Medieval Literature
See ENGL 141.
Normal Grade Rules
4 units

HUM 142. Contemporary Buddhism and its Roots
See RELS 142.
Normal Grade Rules
3 units

HUM 144. Chinese Traditions
See RELS 144.
Normal Grade Rules
3 units

HUM 148. Children’s Dance
See DANC 148.
Normal Grade Rules
3 units

HUM 155. Pagan Traditions
See RELS 155.
Normal Grade Rules
3 units

HUM 159. Nature and World Cultures
See AMS 159.
Normal Grade Rules
GE V
3 units

HUM 160. Special Topics in Humanities
Comparative studies of vital issues and enduring ideas (ethical, political, social, cross-cultural, etc.). Content varies each semester and with each instructor. Repeatable for up to 9 units of credit when course topic changes.
Prerequisite: Upper Division Standing
Repeatable for credit
Normal Grade Rules
3 units

HUM 168A. Global Climate Change I
See COMM 168A.
Normal Grade Rules
6 units

HUM 168B. Global Climate Change II
See COMM 168B.
Normal Grade Rules
GE RSV
3 units

HUM 169. The American Dream
See AMS 169.
Normal Grade Rules
GE S
3 units

HUM 177A. Advanced Honors in Integrated Science, Social Science, and Humanities
SJSU Studies Honors cultivates scientific study of the physical universe and life form, explores individuals and groups in the USA regarding diversity equality, and institutional inequalities and practices, and develops appreciation for human cultures and their diverse development globally over time. Meets SJSU Studies R, S and V with successful completion of sequence (C or Better).
Prerequisite: WST essay score 8, all college GPA 3.0
Co-requisite: 100W pre- or co-requisite strongly recommended
Misc/Lab: Lecture 6 hours/Lecture 6 hours
Normal Grade Rules
6 units

HUM 177B. Advanced Honors in Integrated Science, Social Science, and Humanities
SJSU Studies Honors cultivates scientific study of the physical universe and life form, explores individuals and groups in the USA regarding diversity equality, and institutional inequalities and practices, and develops appreciation for human cultures and their diverse development globally over time. GE Area: R, S and V
Prerequisite: Completion of Hum 177A with C or better.
Misc/Lab: Lecture 3 hours/Lecture 3 hours
Normal Grade Rules
GE RSV
3 units

HUM 179. American Popular Culture
See AMS 179.
Normal Grade Rules
3 units

HUM 180. Individual Studies
Directed reading and thesis by arrangement.
Prerequisite: Department chair consent
Repeatable for credit

Normal Grade Rules
3 units

RELS 114. Legacy of Asia
See HUM 114.
Normal Grade Rules
GE: V
3 units

RELS 120. Censors and Icons: Arts and Religion
Study of interactions between arts and world religions, using paradigmatic examples (e.g. Eastern Orthodox icons, Muslim architecture, Zen Buddhist calligraphy, Hindu Vedic chant, Biblical poetry) and contemporary developments (e.g. Evangelical Christian films, New Age music, religious themes in literature).
Normal Grade Rules
3 units

RELS 122. Magic, Science and Religion
Exploring the ways in which people have attempted to gain mastery over the natural and supernatural worlds beginning with prehistoric times and concluding with modern day society and the contemporary world. GE Area: V
Prerequisite: Completion of core GE, satisfaction of Writing Skills Test and upper division standing. For students who begin continuous enrollment at a CCC or a CSU in Fall 2005 or later, completion of, or corequisite in a 100W course is required.
Normal Grade Rules
GE: V
3 units

RELS 124. Literature and Religious Experience
How authors and poets represent spiritual ideals and human dilemmas in a variety of literary genres such as the epic, the novel, the essay, love poetry and the haiku; and writers such as Plato, Emerson, Emily Dickinson, Thomas Merton, Shakespeare, Basho, Hanshan, Rumi and Sufi poets, Kabir, Indian Virashaiva poets, and authors of The Book of Odes and The Mahabharata. Course is repeatable as readings and themes change.
Prerequisite: Upper division standing or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

RELS 131. Gender, Sexuality, and Religion
Women's roles and gendered categories within diverse religions. Feminist critiques, reforms, and creations of religious institutions. The political and feminist dimensions of women's religious experience. Understanding the roles of sexuality in religion.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

RELS 134. Religion Film & Media
Depictions of religion, religions, religious behavior, and religious propaganda in film and media. Exploring these from several perspectives (e.g. emic and etic, cross-national, aesthetic) and examining the murky problem of "the truth" in the depiction of religious and spiritual experience.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

RELS 137. Religion in the Black Community
See AFAM 137.
Normal Grade Rules
3 units

RELS 142. Contemporary Buddhism and its Roots
Teachings of Gautama, the Buddha and ways in which those teachings were modified in forms of Buddhism that followed: Theravada in southeast Asia and Mahayana in east Asia.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

RELS 144. Chinese Traditions
Religious thought and practice of China's three Great Traditions (Buddhism, Taoism and Confucianism) as well as China's Little Tradition (Chinese folk religion). The role of these traditions within traditional Chinese culture and their relevance to the modern world, including China.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

RELS 145. Middle Eastern Traditions
Introduction to the peoples and cultures of the Middle East through exploration of the cooperation, competition, conflict and dialogues between the ethnic, national, and religious communities of contemporary Middle Eastern countries. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units

RELS 148. Religion and Anthropology
See ANTH 148.
Normal Grade Rules
3 units

RELS 155. Pagan Traditions
Thematic and historical examination of localized religious traditions; e.g., Shamanic, Animistic, Polytheistic. These traditions will be studied through their arts, music, myths, life patterns, cosmologies and contact between indigenous and universalizing religions.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

RELS 156. Islam, Politics and the West
An in-depth look at the roots of Islamic tradition, law, politics, culture, and society. Emphasis on Islam's growing global prominence, relations with the West, stereotypes and misconception, as well as the nature of the Islamic state.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

RELS 161. Varieties of Spiritual Experience
Comparative analysis of mystical experience, emphasizing the writings and creative works of the mystics themselves. Perspectives include comparative religions, theology, psychology, anthropology, philosophy, music and literature. Focus on ultimate transformation of self and the world.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

RELS 162. Religion and Political Controversy in the US
Contemporary problems (e.g., ecology, abortion, war, gender, sexuality and race) as interpreted by a diverse range of American ethno-religious groups.
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.

Industrial and Systems Engineering Courses

INDUSTRIAL AND SYSTEMS ENGINEERING

UPPER DIVISION

ISE 102. Engineering Economic Systems
Systems analysis applied to economic decisions in engineering: comparison of alternatives based on cost breakdown, time and value of money, system life-cycle processes, life-cycle economic concepts, costing methodology and applications. Co-requisite: MATH 31 and ENGR 10 or equivalent.
Normal Grade Rules
3 units

ISE 103. Life Cycle Engineering
Life cycle analysis of products focused on the contexts of reducing energy and the carbon footprint. Methods to analyze and evaluate the environmental impacts of engineering activities. Interdisciplinary case studies and projects related to life cycle engineering.
Pre-requisite: Upper Division Standing
Normal Grade Rules
3 units

ISE 105. Introduction to Systems Engineering and Activity Costing
Techniques for integrating engineering problem solving methods with systems theory including principles of problem identification, description, modeling, solution and implementation, applying traditional and activity based cost systems to assist engineers in decision making process through the product life cycle.
Normal Grade Rules
3 units

ISE 110. Manufacturing Processes
See ME 110.
Normal Grade Rules
3 units

ISE 112. Occupational Health Engineering
Legislative framework and historical perspective of work-related injuries and diseases: prevention assessments, legal and regulatory issues concerning solutions to occupational health problems, principles of industrial hygiene and program management.
Pre-requisite: Junior standing in engineering.
Normal Grade Rules
3 units

ISE 114. Safety Engineering
Hazards, accident prevention and engineering approaches to the design of equipment, facilities and processes. Provides familiarity with system safety, system evaluation and evaluation of alternative countermeasures. Latest safety regulations and agencies responsible for their enforcement.
Pre-requisite: Junior standing.
Normal Grade Rules
3 units

ISE 115. Lean Integrated Manufacturing
Analyzes design and integrates manufacturing processes including application of Group Technology, CAM, automated material handling, and flexible automation within lean manufacturing environment. Manage automation in support of a lean enterprise improvement program based upon the Toyota Production System paradigm.
Pre-requisite: ISE 120, CMPE 30 or equivalent, Engineering majors only.
Normal Grade Rules
3 units

ISE 120. Work Methods Design and Measurement
Design of efficient and effective work processes; includes process management, methods analysis and improvement and work measurement.
Corequisite: ISE 130.
Normal Grade Rules
3 units

ISE 121. Statistical Process Control and Improvement
Statistical computations, sampling procedures, development and use of control charts and utilization of computerized statistical packages. Design of statistical quality control systems. The seven tools of quality process capability studies.
Pre-requisite: ISE 130 (with a grade of "C-" or better) or equivalent. Allowed Declared Majors: Any Engineering.
Normal Grade Rules
3 units

ISE 130. Engineering Probability and Statistics
Probability theory, graphical displays of data, graphical methods of comparisons of samples and hypotheses testing. Statistical estimation and inference. Uses graphical statistical packages.
Pre-requisite: MATH 32 or MATH 071. Allowed Declared Majors: Any Engineering and graduate students.
Normal Grade Rules
3 units

ISE 131. Statistical Process Control and Improvement
Operational productivity, operational quality strategy and information technology applications in the service sector through the use of tools, techniques and case studies. Contrasts manufacturing and service sector issues related to supply chain, process quality, information systems and other topics.
Pre-requisite: Upper division standing.
Normal Grade Rules
3 units

ISE 132. Service Systems Engineering and Management
A comprehensive coverage of supply chain topics; real world applications including logistics, inventory management, risk pooling, value of information, strategic alliance, procurement and outsourcing strategies, information technology, coordinated product and supply chain design, customer value, decision, support systems.
Pre-requisite: ISE 140.
Normal Grade Rules
3 units

ISE 135. Design of Experiments
Tests of composite hypotheses, analysis of variance, statistical decision theory, sampling procedures, design and implementation of statistical process control systems, response surface experimental design, Taguchi experimental design, system reliability, utilization of computerized statistical packages.
Pre-requisite: ISE 130 (with grade of "C-" or better) or equivalent. Allowed Declared Majors: Any Engineering.
Normal Grade Rules
3 units

ISE 140. Operations Planning and Control
Design, implementation and evaluation of manufacturing, planning and control systems. Includes MRP II, ERP, JIT.
Pre-requisite: ISE 102, ISE 120. Allowed Declared Majors: Any Engineering and graduate students.
Normal Grade Rules
3 units

ISE 142. Service Systems Engineering and Management
Operational productivity, operational quality strategy and information technology applications in the service sector through the use of tools, techniques and case studies. Contrasts manufacturing and service sector issues related to supply chain, process quality, information systems and other topics.
Pre-requisite: Upper division standing.
Normal Grade Rules
3 units

ISE 151. Introduction to Engineering Management
A comprehensive coverage of supply chain topics; real world applications including logistics, inventory management, risk pooling, value of information, strategic alliance, procurement and outsourcing strategies, information technology, coordinated product and supply chain design, customer value, decision, support systems.
Pre-requisite: ISE 140.
Normal Grade Rules
3 units

ISE 155. Supply Chain Engineering
Operational productivity, operational quality strategy and information technology applications in the service sector through the use of tools, techniques and case studies. Contrasts manufacturing and service sector issues related to supply chain, process quality, information systems and other topics.
Pre-requisite: Upper division standing.
Normal Grade Rules
3 units
ISE 160. Healthcare Delivery Systems
Overview and analysis of health care delivery systems in the US with emphasis on the assessment, analysis, and improvement of operational quality, efficiency, and effectiveness. Impact on primary components of health care systems: facilities, approaches to care and treatment modalities, and personnel. Quantitative and qualitative techniques and applications to improve health care systems; performance measures used to evaluate access and quality of care. Impact of healthcare policies, laws, economics, and current US health care culture on organizational performance and patient outcomes.
Prerequisite: Junior Standing
Normal Grade Rules
3 units

ISE 161. Medical Errors Reduction and Patients Safety Engineering
Standardization of national reporting of medical errors; patient safety and high risks processes performance analysis; Safety improvements utilizing human factors techniques; information technology applications to reduce medication errors and improve patient safety; structured teams and systems to reduce clinical errors.
Prerequisite: Junior Standing
Normal Grade Rules
3 units

ISE 162. Engineering Statistics and Analysis
See CHE 162.
Normal Grade Rules
2 units

ISE 163. Healthcare Information Systems
Prerequisite: Junior Standing
Normal Grade Rules
3 units

ISE 164. Computer and Human Interaction
Introduction to human/computer interaction, paradigms for interaction, human performance capabilities, computer input/output device analysis and design, pattern recognition 3D audio, 3D visualization, application to virtual reality and multimedia.
Prerequisite: Junior standing.
Normal Grade Rules
3 units

Healthcare activity costing and life-cycle, methodologies of modeling financial decisions, dynamic pricing techniques, and integrated financial analysis that spans clinical, access, and revenue functions. Financial risks assessment using statistical and stochastic methods as applied to pricing of alternative providers’ settings.
Prerequisite: Junior Standing
Normal Grade Rules
3 units

ISE 167. System Simulation
Introduction to simulation. Monte Carlo techniques. Design and use of discrete-event computer simulation modeling techniques; theoretical and practical treatment of input to models, model validation methods and output analysis. Synchronized sampling, model comparisons.
Prerequisite: CMPE 30 or equivalent; ISE 130 (with grade of “C-” or better) Allowed Declared Majors: Any Engineering and graduate students.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

ISE 170. Operation Research
Development and application of mathematical models to industrial problems. Linear programming, network analysis, Markov models, game theory, queuing theory and decision analysis.
Prerequisite: ISE 130 (with grade of “C-” or better) Allowed Declared Majors: Any Engineering.
Pre/corequisite: MATH 123.
Normal Grade Rules
3 units

ISE 180. Individual Studies
Individual work on special topics by arrangement.
Prerequisite: Upper division standing and instructor consent. Not available to Open University Students.
Repeatable for credit
Credit / No Credit
1-3 units

ISE 194. Analytics Workshop
Application of common analytics programming languages to problems in industrial engineering.
Prerequisite: CMPE 30; ISE 135; and Senior Standing.
Normal Grade Rules
Credit / No Credit
1 unit

ISE 195A. Senior Industrial Engineering Design I
Prerequisite: ISE 105, ISE 120, ENGR 100W, major form on file and good standing in the major.
Misc/Lab: Lab 3 hours.
Normal Grade Rules
1 unit

ISE 195B. Senior Industrial Engineering Design II
Design of industrial system: Quality function deployment, technology trends, financial analysis, functional specifications, process design, production capability, quality management, manufacturing resource planning, equipment requirements, human resource management, MIS, facility design, and project management. Integrated global and social issues in engineering.
Prerequisite: ISE 140 and ISE 195A (with grade of “C” or better). ISE majors only.
Normal Grade Rules
3 units

ISE 197. Cooperative Education Project
See ENGR 197.
Normal Grade Rules
3 units

GRADUATE

ISE 200. Financial Methods for Engineers
Systematic approach and methods for engineering decision making where economic outcomes are principal criteria. Accounting analysis and decision making topics that aid in understanding the relationships between various functional areas of business and the decision making processes of engineering managers.
Normal Grade Rules
3 units

ISE 201. Engineering Statistics
Statistical concepts, techniques relevant to engineering, motivation by real world examples. Probability, statistics including set theory, combinatorics, random variables, distributions, estimation, confidence interval, hypothesis testing, regression and ANOVA.
Prerequisite: Graduate Standing
Normal Grade Rules
3 units

ISE 202. Design and Analysis of Engineering Experiments
Prerequisite: ISE 130
Normal Grade Rules
3 units
ISE 203. Agile Systems Engineering
Exploration of Lean, Agile, Scrum, Kanban, Large-Scale Scrum, and Scaled Agile Frameworks. Real examples leverage the immersion understanding of Agile. Students acquire Agile knowledge and skills that can be applied to any type of project in any industry.
Prerequisite: ISE 213
Normal Grade Rules
3 units

ISE 210. Human Factors/Ergonomics
Analysis and evaluation of work systems in terms of the capabilities and limitations of human participants. Person as a system component. Emphasis is on evaluation of how work affects people and how people affect the work.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

ISE 211. Experiment Design for Human Factors Engr
Hypotheses testing, linear regression, analysis of variance, factorial experiments, fractional factorial designs, Construction/analysis of complete/incomplete block designs, non-parametric statistical methods including alternatives to ANOVA, multiple comparisons, power and sample size determination, and factor analysis.
Prerequisite: STAT 115 or ISE 130 or ISE 201 or equivalent
(with a grade of B or better)
Normal Grade Rules
3 units

ISE 212. Human Factors Experiments
Research and experimentation on specific aspects of the person as a system or in systems. Particular emphasis is placed on in-depth studies of unique human factors.
Prerequisite: ISE 210 or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
3 units

Prerequisites: Graduate Standing
Repeatable for credit
Normal Grade Rules
3 units

ISE 214. Enterprise Engineering
The body of knowledge, principles, and disciplines related to the analysis, design, implementation, and operation of all elements associated with an enterprise which is explained through a set of conceptual models and the understanding of an enterprise from engineering perspective.
Prerequisite: ISE 213
Normal Grade Rules
3 units

ISE 215. Usability Evaluation and Testing
Seminar is designed to provide students with a comprehensive overview of usability testing methods, as applied to systems products and software-web applications. Course will address testing methods, processes and marketing justification for usability testing.
Prerequisite: ISE 210
Normal Grade Rules
3 units

ISE 217. Human Computer Interaction
Human performance characteristics, computational tools, and HCI applications. How to access/evaluate HCI requirements, to design HCI requirements, to assess the impact of design on performance, and to generalize the design implications to system function.
Normal Grade Rules
3 units

ISE 218. Interaction Design I
Theory, science and application of user experience interaction design. Latest tools and techniques. Relationship between software interaction design patterns, usability, learnability and human performance in man-machine systems.
Pre-requisite: Graduate Standing
Normal Grade Rules
3 units

ISE 219. HCI for Cyber Security
The course covers HCl in cyber security that include: authentication and access control, trust, user privacy and data protections, cyber security in social networking, data protection and security in healthcare ; cyber security in eCommerce, mobile, computing & cloud computing, compliance and regulation, visualization tools and techniques in cyber security and privacy.
Prerequisite: Graduate Standing
Normal Grade Rules
3 units

ISE 220. Interaction Design II
Advanced topics for design of product and service experiences focused on methods that motivate, delight and influence human behavior during engagement with applications and information in multiple media and across devices ranging from wearables to mobile and Web.
Prerequisite: ISE 218
Normal Grade Rules
3 units

ISE 222. Advanced Systems Engineering
Comparison of different kinds of systems; unique characteristics. Mathematical models for the description, analysis and design of systems. Synthesis and analysis of systems of various types. Theory of organizations, information theory and control theory applied to problems in system design.
Prerequisite: ISE 130. Allowed Declared Majors: Any Engineering.
Normal Grade Rules
3 units

ISE 223. Decision Models for Sustainable Development
Decision models for the planning and management of natural and industrial resources to achieve economic, environmental and social objectives in enterprises (businesses, city governments). Trade-offs involved in making decisions addressing the triple-bottom-line. Role of government regulations and incentives. Consideration of life cycle impacts. Applications of quantitative analysis, mathematical optimization, scenario planning and risk management. Interdisciplinary case studies and projects related to sustainable development.
Prerequisite: Graduate standing
Normal Grade Rules
3 units

ISE 230. Advanced Operations Research
Advanced operations research techniques and topics. Practical consideration in understanding and utilizing operations research methods. Critical analysis of case studies.
Prerequisite: ISE 130.
Normal Grade Rules
3 units

ISE 235. Quality Assurance and Reliability
Selection of adequate variables to monitor a manufacturing/service process; quality improvement through process design, vendor management, customer feedback and product development; use of statistical control charts, the Pareto principle, PDCA, process capability, design for reliability, statistical techniques for analysis of reliability and reliability growth.
Prerequisite: ISE 130 (or equivalent). Allowed Declared Majors: Any Engineering.
Normal Grade Rules
3 units

ISE 240. Analytics for Systems Engineering
Application of data analysis, predictive and prescriptive (optimization) modeling techniques to analyze, model, and optimize real-world industrial and systems engineering problems using computer programming languages.
Prerequisite: ISE 170 or equivalent, ISE 130 or equivalent
Classified graduate standing or instructor consent
Normal Grade Rules
3 units
ISE 241. Advanced Operations Planning and Control
Design, implementation and evaluation of production and service systems; manufacturing strategy, choice of processes, resources planning, production and procurement control, forecasting methods, scheduling considerations and decision-making techniques. Prerequisite: ISE 140 or instructor consent. Normal Grade Rules 3 units

ISE 242. Advanced Service Systems Engineering and Management
Advanced studies of operational productivity, operational quality, strategy and information technology applications in the service sector through the use of tools, techniques and case studies. Current literature review of issues related to service sector productivity, quality and value. Prerequisite: Graduate standing. Normal Grade Rules 3 units

ISE 245. Advanced Supply Chain Engineering
Supply chain concepts, strategies; emphasis on analytical tools to solve supply chain problems. Fundamentals of supply chain modeling of inventory, transportation, location, facility planning problems. Information sharing, risk pooling. Mechanisms for increasing profits. Prerequisite: ISE 140. Normal Grade Rules 3 units

ISE 247. Logistics for Supply Chain
An exploration of logistics for entire supply chain system from inbound movement through material management to physical distribution to customers. Topics include: packaging and handling, material management, transportation and traffic management, facility location, and global logistics. Prerequisite: Graduate standing. Normal Grade Rules 3 units

ISE 250. Leading the Six Sigma Improvement Project
Improvement projects are critical. Covers Six Sigma methodology, problem-solving tools to improve cost, quality, time and variability. Management of projects, teams, change, and benchmarking; root cause problem solving, and implementation effectiveness. Practical experience through course project. Prerequisite: Instructor consent. Normal Grade Rules 3 units

ISE 251. Managing the Lean Enterprise Improvement Program
The elements of an effective organizational improvement program composed of multiple projects. Covers capabilities-based strategy; dimensions of performance such as cost, quality and time; when to use Six Sigma, Lean, Theory of Constraints and Reengineering. Prerequisite: Instructor consent. Note: This course satisfies graduate-level GWAR in this master’s program. Normal Grade Rules CE: GWAR 3 units

ISE 260. Healthcare Delivery Systems
Overview and analysis of health care delivery systems in the US with emphasis on the assessment, analysis, and improvement of operational quality, efficiency, and effectiveness. Impact on primary components of health care systems: facilities, approaches to care and treatment modalities, and personnel. Quantitative and qualitative techniques and applications to improve health care systems; performance measures used to evaluate access and quality of care. Impact of healthcare policies, laws, economics, and current US health care culture on organizational performance and patient outcomes. Prerequisite: Graduate Standing. Normal Grade Rules 3 units

ISE 261. Medical Errors Reduction and Patients Safety Engineering
Standardization of national reporting of medical errors; patient safety and high risks processes performance analysis; Safety improvements utilizing human factors techniques; information technology applications to reduce medication errors and improve patient safety; structured teams and systems to reduce clinical errors. Prerequisite: Graduate standing. Normal Grade Rules 3 units

Evaluation of healthcare systems underlying health economics principles with emphasis are on financial strategy planning and capital formation; integrated analysis that spans clinical, access and revenue financial functions; new approaches to reimbursement methods and pricing of alternatives health care providers. Prerequisite: Graduate Standing. Normal Grade Rules 3 units

ISE 263. Healthcare Information Systems
Current and emerging use of clinical information, electronic medical records and clinical information systems. Healthcare enterprise architecture. Pre-built automation models of unified patient records. Automated decision support. Integrated interfaces, interoperable record exchange, and meta knowledge integration. Security of healthcare information. Prerequisite: Graduate standing. Normal Grade Rules 3 units

ISE 265. Advanced System Simulation
Use of computerized simulation and modeling techniques to conduct experiments, evaluate the costs of a process, evaluate alternative inspection policies and determine effects of JIT management models for shop setting. Prerequisite: ISE 167 or instructor consent. Normal Grade Rules 3 units

ISE 270. Information Engineering
Technologies, strategies and systems for planning, analyzing, designing and implementing data resources in order to ensure and continuously improve processes in the enterprise; object-oriented development, Computer-Aided Software/Systems Engineering (CASE), information superhighway, client/server computing and distributed database management systems. Prerequisite: CMPE 46 or instructor consent. Allowed Declared Majors: Any Engineering. Note: This course satisfies graduate-level GWAR in this master’s program. Normal Grade Rules CE: GWAR 3 units

ISE 290. Human Factors & Ergonomics Professional Seminar
Real world skills necessary to start your professional HR/Erpo career, i.e. public presentation, terminology, field evaluations, current research and industry issues in human factors and ergonomics. Prerequisite: Graduate standing. Credit / No Credit 2 units

ISE 297. Special Topics in Industrial Engineering
Special topics to augment regularly-scheduled courses. Prerequisite: Graduate standing in industrial engineering. Repeatable for credit Normal Grade Rules 1-4 units

ISE 298. Special Problems
Advanced individual work in industrial engineering. Repeatable for up to 18 units when project changes. Prerequisite: Instructor consent. Not available to Open University Students. Repeatable for credit Mandatory CR/NC/RP 1-4 units
ISE 299. Master’s Thesis
Prerequisite: Consent of thesis advisor. Not available to Open University Students.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

NO DEGREE CREDIT

ISE 1290R. Culminating Experience Supervision
Continued work on thesis or project.
Prerequisite: Outstanding RP grade in a preceding semester in a thesis or project class
Note: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit
Information School Courses

INFORMATION SCHOOL

LOWER DIVISION

INFO 200. Introduction to Computing for Personal Information Management
Introduction to computing for personal information access, use and management including basic computer operations, access to geographically distributed information on the global Internet, electronic communication, word processing and document design, data modeling with spreadsheets, database design and maintenance for information storage and retrieval and information presentation.
Normal Grade Rules
3 units

INFO 201. Information Professions
Examines the organizations and environments in which information professionals work.
Prerequisite: Demonstrated computer literacy.
Normal Grade Rules
3 units

INFO 202. Information Retrieval System Design
The systems and knowledge structures that information professionals create and use to connect users with information.
Prerequisite: Demonstrated computer literacy.
Normal Grade Rules
3 units

INFO 203. Online Learning: Tools and Strategies
This course introduces students to new and emerging technologies used in today’s online learning environment. It covers learning management tools, various social networking platforms, web conferencing, as well as strategies and skills needed for success in online learning.
Credit / No Credit
1 unit

INFO 204. Information Professions
Examines the organizations and environments in which information professionals work.
Prerequisite: Demonstrated computer literacy.
Normal Grade Rules
3 units

INFO 205. Big Data Technologies
Introduction to the technological ecosystem of Big Data and Hadoop as well as the goals and work of Data Science.
Prerequisite: Graduate Standing or instructor consent
Normal Grade Rules
3 units

INFO 206. Web and Data Mining
Covers topics ranging from data mining, Web mining, classification, numeric prediction, association rules, sequential patterns, Web crawling, retrieval and search engines, social network analysis, link analysis, ranking, Web personalization and recommender systems, to Hadoop based technologies, including MapReduce, Spark, MLlib
Prerequisite: Basic knowledge of Linux/UNIX programming. Some familiarity with C, C++, and/or Java.
Normal Grade Rules
3 units

INFO 210. Reference and Information Services
Process-oriented examination of how information professionals answer reference questions. Stresses interpersonal skills required for effective question negotiation and sources with which questions are answered.
Prerequisite: INFO 202.
Repeatable for credit
Normal Grade Rules
1-3 units

INFO 211. Transfer Course One
Prerequisite: Transfer content for MLIS students who transfer graduate credits. Needs graduate advisor and/or academic advisor approval.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

INFO 212. Transfer Course Two
Prerequisite: Transfer Content for MLIS Students who transfer graduate credits. Needs graduate advisor and/or academic advisor approval.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

INFO 213. Transfer Course Three
Prerequisite: Transfer content for MLIS students who transfer graduate credits.
Needs graduate advisor and/or academic advisor approval.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

INFO 215. Information Visualization
Applying perceptual and cognitive principles to the design and development of information visualization techniques, such as scatterplots, treemaps, parallel coordinates, and GIS visualizations; interactive visualization interface design and implementation; narrative visualization and storytelling; visual analytics for decision making.
Prerequisite: Graduate Standing or Instructor Consent
Normal Grade Rules
3 units

INFO 220. Resources and Information Services in Professions and Disciplines
Examination of the nature of resources for, and services to, professions and disciplines. Possible disciplines for study may be law, business and economics, life and/or physical sciences, medical sciences, engineering and computer science, maps, and visual and performing arts.
Course is repeatable in the same semester for a maximum of nine units when content changes.
Repeatable for credit
Normal Grade Rules
1-3 units

INFO 221. Government Information Sources
Study in government publications and databases, their bibliographic organization, use in all types of libraries and information centers, methods of acquiring information from federal, state and local sources; problems of depository and non-depository collections.
Prerequisite: INFO 210.
Repeatable for credit
Normal Grade Rules
3 units

INFO 228. Advanced Information Resources and Services
In-depth survey of information needs, uses, and sources across different user groups; current methods of providing reference services and instruction in different information seeking contexts; and techniques for evaluating reference sources and services.
Prerequisite: INFO 202 and INFO 210.
Normal Grade Rules
3 units

INFO 229. Practicum/Seminar in Information Services
Opportunity to work in a setting delivering information services. Discussion of encountered problems, current trends and contemporary approaches to information service delivery.
Prerequisite: INFO 244 or instructor consent.
Credit / No Credit
3 units
INFO 230. Issues in Academic Libraries
Investigate current issues that impact the functioning of the academic library. Topics include issues related to social and political environments, clientele, services, collections, physical settings, financing, staffing and future trends in the academic library sector.
Prerequisite: INFO 200, INFO 202 and INFO 204.
Normal Grade Rules
3 units

INFO 231. Issues in Special Libraries and Information Centers
This course will investigate current issues that impact the functioning of special libraries/information centers. Topics covered will include issues related to social and political environments, clientele, services, collections, physical settings, financing and staffing, and future trends in the special library/information center sector.
Prerequisite: INFO 200, INFO 202, INFO 204.
Normal Grade Rules
3 units

INFO 232. Issues in Public Libraries
This course will investigate current issues that impact the functioning of the public library. Topics covered will include issues related to social and political environments, clientele, services, collections, physical settings, financing and staffing, and future trends in the public library sector.
Prerequisite: INFO 200, INFO 202, INFO 204.
Normal Grade Rules
3 units

INFO 233. School Library Media Centers
The role of the school library media teacher and the school library media program in the educational community. Emphasis on creation of effective learning environments, involvement in the curriculum and teaching process as well as philosophies of service and management.
Prerequisites: INFO 204 and INFO 250.
Normal Grade Rules
3 units

INFO 234. Intellectual Freedom Seminar
Focuses on current intellectual freedom issues and the centrality of intellectual freedom to librarianship.
Prerequisite: INFO 200, INFO 204.
Normal Grade Rules
3 units

INFO 237. School Library Media Materials
Survey of materials in a variety of formats that meet the needs of K12 students. Materials will be examined that support state and national curriculum standards as well as material that support independent reading and learning. Course can be repeated one time.
Prerequisites: INFO 200, INFO 202, INFO 203, INFO 204
Repeatable for credit
Normal Grade Rules
3 units

INFO 240. Information Technology Tools and Applications
Focuses on building practical skills in a variety of networked computer applications. Topics will vary, but will typically include web coding languages and designing web sites.
Prerequisite: INFO 202.
Normal Grade Rules
3 units

INFO 241. Automated Library Systems
Review of major systems for library automation. Problems associated with the planning, implementation and use of the systems, negotiation of systems acquisition and trends in the field.
Prerequisite: INFO 200, INFO 202 and INFO 204. Not available to Open University Students.
Repeatable for credit
Normal Grade Rules
1-3 units

INFO 242. Database Management
Design and implementation of fully interactive database-driven Web-applications. Includes ODBC and SQL compliant database systems such as Oracle.
Prerequisite: INFO 200, INFO 202 and INFO 204. Not available to Open University Students.
Repeatable for credit
Normal Grade Rules
3 units

INFO 243. Systems Analysis
Study of systems as applied to libraries and information centers. Application of methods for studying the means by which libraries deliver information services to users.
Prerequisite: INFO 202.
Normal Grade Rules
3 units

INFO 244. Online Searching
Techniques and concepts for searching online, including strategies, database content, search options, and understanding the information environment. The course includes extensive hands-on experience with subscription search engines.
Prerequisite: INFO 202.
Normal Grade Rules
3 units

INFO 245. Advanced Online Searching
Emphasis is on on-line techniques for developing current awareness services.
Prerequisite: INFO 244.
Normal Grade Rules
3 units

INFO 246. Information Technology Tools and Applications - Advanced
Designing advanced Web applications using technology such as dynamic HTML and XML and Web programming languages such as XSLT, JavaScript, JSP, Perl, PHP, MYSQL, and ASP. May be repeated for up to 12 units when content changes.
Prerequisite: INFO 202.
Repeatable for credit
Normal Grade Rules
1-3 units

INFO 247. Vocabulary Design
Survey of principles and practices used to index information-bearing objects such as documents or images. Includes term assignment, review of existing vocabularies, thesaurus design, metadata structures and automatic and natural language processes.
Prerequisite: INFO 202.
Normal Grade Rules
3 units

INFO 248. Beginning Cataloging and Classification
Theory and practice of bibliographic control including the study of representative cataloging using AACR2, machine-based representation using MARC formats and other standards, subject analysis and classification using LCSH, Dewey, and LCC with application to books, non-book materials and serials.
Prerequisite: INFO 202.
Normal Grade Rules
3 units

INFO 249. Advanced Cataloging and Classification
Application of cataloging and organization of information principles to multi- and hyper-media resources. Complex serial publications, evolving standards for representation of non-traditional networked information, and cataloging policy development. Specific focus of the course may vary each time taught.
Prerequisite: INFO 202, INFO 248.
Normal Grade Rules
3 units

INFO 250. Design and Implementation of Instructional Strategies for Information Professionals
Examination of concepts of instruction in the use of information technologies, information services and sources. Includes investigation of learning theory and instructional design. Emphasis on application of theory through development of instruction and instructional resources in various media for use in a broad array of institutional environments.
Prerequisite: INFO 200. Not available to Open University Students.
Repeatable for credit
Normal Grade Rules
3 units
INFO 251. Web Usability
Through examination of theory, methodologies, and real-life cases, Info 251 offers a user experience (UX) framework for developing information systems. Students learn the principles of user-centric design and style for particular circumstances and populations.
Prerequisite: INFO 202.
Normal Grade Rules
3 units

INFO 252A. Information Processing and Management I
An introduction to programming in the Java programming language. Emphasis on techniques necessary for manipulating character strings, sorting and searching algorithms frequently used for information storage and retrieval problems, and fundamental concepts of modern software engineering.
Prerequisite: Computer Literacy.
Normal Grade Rules
3 units

INFO 252B. Information Processing and Management II
Introduction to Object-Oriented Programming (OOP) and Object-Oriented Database Design (OODB) in the Java programming language. Emphasis is on how to apply these concepts and techniques to problem solving in the field of information storage and retrieval.
Prerequisite: INFO 252A or instructor consent.
Normal Grade Rules
3 units

INFO 253. Natural Language Processing and Automatic Indexing/Abstracting
Introduction to natural language processing and automatic indexing/abstracting with emphasis on text processing. Topics include: semantic dictionary, lexical analysis, word frequency analysis and automatic selection of indexing tokens, term weighting, the vector space model and document representation.
Prerequisite: INFO 252B or instructor consent.
Normal Grade Rules
3 units

INFO 254. Information Literacy and Learning
Provides theory and practice for teaching information literacy in an LIS setting. The course emphasizes learning theory as well as the practical aspects of teaching. Students learn methods and tools for teaching in both synchronous and asynchronous settings.
Prerequisite: INFO 200
Normal Grade Rules
3 units

INFO 256. Archives and Manuscripts
An introduction to the theory and practice of managing archival documents, such as personal papers, institutional records, photographs, electronic records and other unpublished material. Topics covered include manuscript and records acquisition and appraisal, arrangement and description, conservation and preservation, reference and access.
Prerequisite: INFO 200, INFO 202, INFO 204.
Normal Grade Rules
3 units

INFO 257. Records Management
An introduction to the theories, methodologies and technologies used in managing institutional information and records. Topics include the history of records management, the records' life cycle, record inventory and analysis, classification and filing, retention scheduling and equipment.
Prerequisite: INFO 200, INFO 202, INFO 204.
Normal Grade Rules
3 units

INFO 258. Electronic Records Management
An introduction to the theory and practice of managing electronic records management systems. Students learn the principles of electronic records management, the various models and technologies used for managing electronic records, and methods for incorporating these technologies into library and information services.
Prerequisite: INFO 200, INFO 202, INFO 204.
Normal Grade Rules
3 units

INFO 259. Preservation Management
An introduction to the philosophies and techniques used to preserve manuscript, printed and digital materials. Examination of the evolution of preservation practice, with emphasis on emerging theories, models and technologies in digital preservation.
Prerequisite: INFO 200, INFO 202, INFO 204.
Normal Grade Rules
3 units

INFO 260. Resources for Children, Ages 0-6
Survey of children's materials for infants to age six, with emphasis on books for beginning readers, integration of developmental needs. Collection development tools and techniques for these materials will also be included. Repeatable for credit when content changes.
Prerequisite: INFO 200
Normal Grade Rules
3 units

INFO 260A. Programming and Services for Children Ages 0-8
This course examines the importance of programming for children, including parent education programs, story hours, outreach techniques, services with schools, summer reading programs, and program series such as weekly or monthly programs on manga, knitting, book discussions, or homework help.
Prerequisite: INFO 200
Normal Grade Rules
3 units

INFO 261. Resources for Children, Ages 6-12
A survey of the books and media available for children 6-12, and of the evaluation, selection, and use of these materials in the contexts of collection development, children's reading interests, informational needs, school curricula, and multicultural library service. Repeatable for credit when content changes.
Repeatable for credit
Normal Grade Rules
3 units

INFO 261A. Programming and Services for Young Adults Ages 9-18
Administration and delivery of professional library and information services with multi-cultural young adult populations: features critical youth studies cultural/historical research, resources, policy, threats, tools, methods, service philosophies and management skills necessary for a comprehensive profile of YA library services.
Prerequisite: INFO 200
Normal Grade Rules
3 units

INFO 262. Resources for Young Adults
Materials for adolescents and pre-adolescents and methods for incorporating these materials into library planning. Collection development, needs assessment and programming will be featured. Information services for young adults in a variety of settings will also be addressed. Repeatable for credit when content changes.
Repeatable for credit
Normal Grade Rules
3 units

INFO 262A. Materials for Children Ages 0-4
Survey of children's materials, including "toy" books, picture books, and various media and technology appropriate for this age group, and how they can meet developmental needs. Collection development tools and techniques for these materials will also be included.
Prerequisite: INFO 200
Normal Grade Rules
3 units

INFO 263. Materials for Children
Survey of materials in a variety of formats including nonfiction, beginning chapter books, fictional genres, paperback series and electronic resources, and how they can help meet developmental needs. Collection development tools and techniques for this material will also be included.
Prerequisite: INFO 200, and either INFO 260A or INFO 261A
Normal Grade Rules
3 units
INFO 264. Materials for Tweens
Survey of materials in various formats including fiction, nonfiction, movies, CDs, computer games and other materials, and how they can meet the developmental needs of this age group. Collection development tools and techniques for this material will also be included.
Prerequisite: INFO 200, and either INFO 260A or INFO 261A
Normal Grade Rules
3 units

INFO 265. Materials for Young Adults Ages
This course will allow students to take an in depth look at materials in a variety of formats for teens, including fiction, popular nonfiction, graphic novels, movies, computer games, websites, other media, and determine how they can meet developmental needs.
Prerequisite: INFO 200, and either INFO 260A or INFO 261A
Normal Grade Rules
3 units

INFO 266. Collection Management
Study of collection management in all types of libraries and information centers. Includes analysis of information needs, criteria for selection, collection use evaluation and resources for collection development.
Prerequisite: INFO 202, INFO 204
Normal Grade Rules
3 units

INFO 267. Services to Youth
Seminar in planning, developing and evaluating youth services in public libraries. Special needs of children and young adults in the public library, liaison with schools, reference services, and collection planning will be featured. Repeatable for credit when content changes.
Prerequisite: INFO 200, and either INFO 260A or INFO 261A
Repeatable for credit, for up to 9 units.
Repeatable for credit
Normal Grade Rules
1-9 units

INFO 268. History of Youth Literature
The history of literature for children and teens from its earliest examples to today's current trends, including how childhood has changed over the years, the influence of culture on those changes, and on the materials created for children and teens.
Prerequisite: INFO 200
Normal Grade Rules
3 units

INFO 269. Early Childhood Literacy
Covers a wide variety of topics important for an understanding of early childhood multi-literacies in library and non-library environments, including current research, best practices and practical examples that can be implemented in various work environments with children.
Prerequisite: INFO 200
Normal Grade Rules
3 units

INFO 270. Intellectual Freedom and Youth
This course will focus on intellectual freedom issues with youth, the value of youth literature to enhance individuals' lives, the ethics of intellectual freedom, the psychology of censorship and how to combat it, and how to defend materials for youth.
Normal Grade Rules
3 units

INFO 271A. Genres and Topics in Youth Literature
Various topics and genres in literature for children or teens will be examined in depth, such as graphic novels, poetry, fantasy, science fiction, publishing and writing trends, reading motivation techniques, literature in the classroom, and the art of picture books. Repeatable for up to 9 units.
Prerequisite: INFO 200, and either INFO 260A or INFO 261A
Repeatable for credit
Normal Grade Rules
1-9 units

INFO 272. Authors and Illustrators in Youth Literature
This course will look at selected authors and/or illustrators of youth literature, examining their work, their lives, their motivations, their criticism, and the usefulness of their work.
Repeatable for credit
Normal Grade Rules
3 units

INFO 275. Library Services for Racially and Ethnically Diverse Communities
This course focuses on developing skills for planning, implementing and evaluating programs for addressing the information needs of racially, ethnically and linguistically diverse communities. Reviews the major national, state and local studies.
Prerequisites: INFO 200 and INFO 204. Not available to Open University Students.
Normal Grade Rules
3 units

INFO 278. Seminar in Contemporary Issues
Investigation of major contemporary issues within the information profession. Topics range from censorship to the need for a national information policy and change each time the course is offered. A maximum of nine units may be repeated in the same semester when content changes.
Prerequisite: INFO 200, INFO 202, INFO 204.
Repeatable for credit
Normal Grade Rules
1-3 units

INFO 282. Seminar in Library Management
Application of management theory to specific problems. Readings and discussions of the development of effective strategies for planning and implementing organizational change. Content changes each time offered. A maximum of nine units may be repeated in the same semester when content changes.
Prerequisite: INFO 200 and INFO 204. Not available to Open University Students.
Repeatable for credit
Normal Grade Rules
1-3 units

INFO 283. Marketing of Information Products and Services
Applications of marketing concepts to library and information services. Market analysis, use surveys, market targeting and introduction of services.
Prerequisites: INFO 200 and INFO 204. Not available to Open University Students.
Normal Grade Rules
1-3 units

INFO 284. Seminar in Archives and Records Management
In-depth study of current issues and practices in archives and records management. The course addresses new areas of research and application such as oral history, sound and visual archives, digitization, archival automation, archival security, genealogy, and more. Course is repeatable for credit for up to 12 units.
Prerequisite: INFO 200, INFO 202, INFO 204
Repeatable for credit
Normal Grade Rules
1-3 units
INFO 285. Applied Research Methods
Selection, formulation and development of problems in library and information science research. Evaluation of published research and in the field.
Prerequisite: INFO 200, INFO 202, INFO 204
Repeatable for credit
Normal Grade Rules
1-4 units

INFO 286. Interpersonal Communication Skills for Librarians
The principles and practice of interpersonal communication; small group and peer relationships.
Prerequisite: INFO 200 and INFO 204. Not available to Open University Students.
Repeatable for credit
Normal Grade Rules
1-3 units

INFO 287. Seminar in Information Science
Current issues and problems in information retrieval as related to concepts and theories of information science. A maximum of nine units may be repeated with different content.
Prerequisite: INFO 200. Not available to Open University Students.
Repeatable for credit
Normal Grade Rules
1-3 units

INFO 289. Advanced Topics in Library and Information Science
Advanced independent examination of selected issues and problems in library and information science with a focus on the integration of theory and practice. Issues and problems addressed will vary each semester.
Mandatory CR/NC/RP
3 units

INFO 292. Professional Experience: Projects
Gives students the opportunity to complete a professional project related to the theory and method of Library & Information Science in an information organization or institution, and to gain practical experience in one or more areas of LIS.
Prerequisite: INFO 200, 202, 204, plus six advanced courses.
Credit / No Credit
3 units

INFO 293. Introduction to Data Networking
An introduction to computer networking in both Lan and Wan environments with an emphasis on hands-on projects.
Prerequisite: INFO 200, INFO 202, INFO 204. INFO 240 desirable
Repeatable for credit
Normal Grade Rules
3 units

INFO 294. Professional Experiences: Internships
Supervised professional experience in an approved public, academic, or special library or other information-based organization.
Prerequisite: INFO 200, INFO 202, INFO 204, and three advanced courses.
Repeatable for credit
Credit / No Credit
2-4 units

INFO 295. School Library Field Work
A supervised professional experience of school librarianship at the levels of both elementary and secondary (middle or high) schools. Emphasis is on observation and guided practice with a credentialed school librarian (library media teacher).
Prerequisite: INFO 200, INFO 202, INFO 204.
Credit / No Credit
3 units

INFO 297. Practicum in Instruction for Information Literacy
Experience with instruction in the computer, network and media aspects of information literacy. Course may be repeated in different semester.
Repeatable for credit
Credit / No Credit
3 units

INFO 298. Special Studies
Advanced individual research and projects related to libraries and information systems. Available only to those students who have completed the major portion of the degree coursework. May be repeated for a maximum of six units of credit.
Prerequisite: INFO 200, INFO 202, INFO 204, instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-3 units

INFO 299. Thesis
Approved thesis proposal and consent of a faculty advisor required. May be repeated for a maximum of six units of credit.
Prerequisite: INFO 200, INFO 202, INFO 204, INFO 285.
Repeatable for credit
Mandatory CR/NC/RP
3 units

NO DEGREE CREDIT

INFO 1290R. Culminating Experience Supervision
Continued work on thesis.
Prerequisite: Outstanding RP grade in a preceding semester in a thesis class
Note: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit

MASTERS OF ARCHIVES AND RECORDS ADMINISTRATION

GRADUATE

MARA 200. Record and Recordkeeping Professions
The role of records and recordkeeping in society; history, definitions and important concepts related to records and recordkeeping; contexts and critiques of records and recordkeeping; significant scholars and recordkeepers throughout history. Not repeatable.
Prerequisite: Demonstrated computer literacy through completion of required new student online technology workshop.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units

MARA 204. Management of Records and Archival Institutions
Application of management principles to the administration of records and archives centers; management functions, theories and concepts; decision making; goals and objectives; organizational structures; human resources; financial considerations; marketing; legal considerations; ethical considerations; global concerns.
Prerequisite: Demonstrated computer literacy through completion of required new student online technology workshop.
Normal Grade Rules
3 units

MARA 210. Records Creation, Appraisal and Retention
Overview of records creation processes; management and documentation of those processes, including forms, mail, reports, reprographics management, document control, legal compliance; basic appraisal concepts; records inventories and retention scheduling, vital records; contingency planning; records disposition; and archives.
Prerequisite: MARA 200, MARA 202.
Normal Grade Rules
3 units

MARA 211. Records Access, Storage and Retrieval
Examination of records systems, storage, retrieval; filing systems; fundamentals of information retrieval; active file systems and operation; records center operations; special storage; archival reference and access concepts; legal and ethical considerations; privacy and copyright; user communities. Not repeatable.
Prerequisite: MARA 200, MARA 202, and MARA 204.
Normal Grade Rules
3 units
MARA 249. Electronic Recordkeeping Systems and Issues in Electronic Recordkeeping
Application of recordkeeping and archival principles to management and preservation of electronic records, multi- and hyper-media resources and email; standards for representation and preservation of nontraditional networked information; electronic records/document management systems and derivations; policy development. Not repeatable.
Prerequisite: MARA 200, MARA 202, and MARA 204.
Normal Grade Rules
3 units

MARA 256. 21st Century Archival Methods
Archival science and archival methods as presently practiced in archival repositories. Types of archival repositories. Influence of other disciplines on archives and vice versa. Focus on technological changes and their effects on traditional archival records, systems, methodologies. Not repeatable.
Prerequisite: MARA 200, MARA 202.
Normal Grade Rules
3 units

MARA 283. Enterprise Content Management and Digital Preservation
Presents theoretical principles and practical aspects of digital content management and preservation. Explores challenges related to multiple file formats, standards, and retention requirements. Provides hands-on experience using both a digital content management system and a trusted digital repository.
Prerequisite: MARA 210, or MARA 211, or MARA 249
Normal Grade Rules
3 units

MARA 284. Seminar in Archives and Records Management
This course explores current issues and practices in archives and records management such as Protecting Conflicting Rights in the Digital Environment, Archivist: Meet Web 2.0, Ethics and Computer Forensics, and Implications of Cloud Computing on Records Management.
Prerequisite: MARA 200, 202, and 204.
Repeatable for credit
Normal Grade Rules
1-3 units

MARA 285. Research Methods in Records Management and Archival Science
Overview of research methods in the social sciences and their application to research about and within archives and records centers. Research design, human subjects, quantitative and qualitative methods, model studies, methodological critique and evaluation, data analysis and presentation. Not repeatable.
Normal Grade Rules
3 units

MARA 289. Advanced Topics in Archives and Records Administration (ePortfolio)
Completion of the ePortfolio, integrating theory and practice, to satisfy the Culminating Experience, with the portfolio based on core competencies for archives and records administration professionals as outlined in the MARA 289 Handbook. Completed in final semester. Not repeatable.
Prerequisite: See information about eligibility by looking at the current MARA 289 Handbook and revising the section on "Eligibility".
Repeatable for credit
Credit / No Credit
1-3 units

MARA 292. Professional Certification
Through consultation with advisor: preparation exercises, mock exams, information, work experience and registration guidance toward application, submission and completion (completion not required) of ICRM and/or ACA exams for professional certification(s) in archives and records administration. Not repeatable.
Prerequisite: MARA 200, MARA 202, MARA 204, plus six advanced courses.
Credit / No Credit
3 units

MARA 293. Professional Experience: Projects
Professional projects submitted by an individual or organization, supervised by a professional archivist or records manager, which can be completed during one semester.
Prerequisite: MARA 200, MARA 204
Credit / No Credit
3 units

MARA 294. Professional Experience - Internships
Internship under professional supervision in a selected archives or records center. The internship site must meet criteria outlined in the MARA internship guidelines and be approved by the internship coordinator. Repeatable for up to 6 units of credit.
Prerequisite: MARA 200, MARA 204
Repeatable for credit
Credit / No Credit
3 units

MARA 295. Organizational Consulting Project (OCP)
Organizational Consulting Projects are submitted by an individual or organization, supervised by a professional archivist or records manager, and requires the application of the knowledge and skills developed throughout the program.
Repeatable for up to 6 units.
Prerequisites: MARA 200, MARA 204
Repeatable for credit
Credit / No Credit
3 units
## Journalism and Mass Communications Courses

### ADVERTISING

#### LOWER DIVISION

**ADV 091. Introduction to Advertising**  
Comprehensive survey of the basic principles of advertising. Topics include consumer behavior, advertising media, social responsibility, advertising ethics, international advertising and current issues in advertising.  
Normal Grade Rules  
3 units

**ADV 092. Int’l Program Studies**  
Repeatable for credit  
Mixed Grading  
1-12 units

#### UPPER DIVISION

**ADV 116. Spartan Daily Advertising Staff**  
This class constitutes the paid advertising staff of the online and print editions of the Spartan Daily. Students work with clients and handle the newspaper’s advertising sales and production.  
Prerequisite: ADV 91 or instructor consent  
M/Lab: Daily lecture and production.  
Repeatable for credit  
Normal Grade Rules  
3 units

**ADV 121. Consumer Advertising**  
Principles and practices of advertising consumer products and services using traditional mass media, alternative media and new media. Topics include consumer behavior, advertising, and merchandising.  
Prerequisite: ADV 91.  
Normal Grade Rules  
3 units

**ADV 122. Business-to-Business Advertising**  
Principles and practices of developing marketing communications programs and collateral materials for business-to-business products and services; translating technical information into persuasive communications; direct marketing, and other forms of sales support communications.  
Prerequisite: ADV 091.  
Normal Grade Rules  
3 units

**ADV 123. Broadcast and New Media Advertising**  
History, development, and current applications of traditional broadcast advertising, the Internet as an advertising medium, and the implications of emerging new media. Focus is on creative strategy and media strategy.  
Prerequisite: ADV 91.  
Normal Grade Rules  
3 units

**ADV 124. Copywriting**  
Conceptual development. Advertising theory used in the development of writing, editing and evaluating advertising copy. Research methods and techniques.  
Ethical problems.  
Prerequisite: ADV 091, MCOM 100W and ENGL 071.  
Normal Grade Rules  
3 units

**ADV 125. Advertising Layout and Production**  
Principles of design applied to print advertising; print production theory and practical application. Preparation of layouts and mechanicals utilizing latest computer applications. Instruction in use of type, printing processes, types of paper, uses of color.  
Prerequisite: ADV 91.  
Normal Grade Rules  
3 units

**ADV 126. Media Planning and Buying**  
Theory, evaluation and selection of advertising media for a variety of target audiences; demographics and psychographics. Students plan, buy and measure the success of a real media plan.  
Prerequisite: ADV 091 and BUS2 130.  
Normal Grade Rules  
3 units

**ADV 127. Integrated Marketing Communications (IMC)**  
Learn how advertising, public relations, promotions, and marketing all work together to achieve campaign objectives. Strategic planning, budgeting, research, tactics, evaluation, presentation skills and team building.  
Prerequisite: Three ADV courses and BUS2 130.  
Normal Grade Rules  
3 units

**ADV 129. Advertising Campaign Planning and Management**  
Capstone course in which students engage hands-on in the process and methods employed to develop a fully integrated advertising campaign based on the marketing objectives established by a real-world client.  
Prerequisite: MCOM 111 or ADV 116.  
Normal Grade Rules  
3 units

### JOURNALISM

#### LOWER DIVISION

**JOUR 061. Writing for Print, Electronic and Online Media**  
Introduction to writing for media--newspapers, magazines, electronic and the Internet--as well as producing content for multi-media distribution in a converged media environment. Emphasis on how different media require different writing styles and content.  
Prerequisite: ENGL 1A, ENGL 2.  
Normal Grade Rules  
3 units

**JOUR 095. Beginning Digital News Photography**  
Basic introduction to news photography and photojournalism field. Includes camera use -- composition, aperture, shutter speed and lens selection -- and processing for print or electronic media using PhotoShop. Emphasis on technical aspects of digital news photography and storytelling with photographs.  
Prerequisites: Writing Enrollment Category W-I or W-II or completion of ENGL 1AF with grade of CR.  
Normal Grade Rules  
3 units

#### UPPER DIVISION

**JOUR 132. Magazine Reporting, Print and Online**  
Reporting and writing of feature stories for magazines, print and online. Develops expertise in reaching a targeted audience with words and images. Prerequisite: JOUR 61 teaches breaking news writing, this course explores longer, deeper forms.  
Prerequisite: JOUR 61.  
Normal Grade Rules  
3 units

**JOUR 133. Editing and News Management**  
Media Lab. For the editor serving as wordsmith and coach, a hands-on approach to copy editing and headline writing for online and print media. Students work as editors for media lab publications.  
Prerequisite: JOUR 61 or instructor consent.  
Normal Grade Rules  
3 units

**JOUR 134. In-Depth Online Reporting**  
Media Lab. Designed for experienced writers who want to report for online media. Includes feature and in-depth reporting as well as Web design for a team project.  
Prerequisite: JOUR 61 or instructor consent.  
Normal Grade Rules  
3 units
JOUR 135. Reporting, Editing, and Management Media Lab. A team of reporters, photographers and editors will produce the Spartan Daily online publications as well as its daily newspaper and magazines. The editors will direct the coverage, including digital photography and audio/video streaming. May be repeated for credit with instructor consent.
Prerequisite: Reporters, JOUR 61, JOUR 132A; Photographers, JOUR 142. Editors, JOUR 135 as reporters; non majors with demonstrated writing and/or Web-design skills, instructor consent.
Repeatable for credit
Normal Grade Rules
1-3 units

JOUR 136. Newspaper and Magazine Design Principles of newspaper and magazine design—news judgment, story and headline hierarchy, typography and meaningful visual storytelling through use of photos/art. Practice in creating newspaper pages and magazine layouts and cover designs.
Prerequisite: JOUR 061, JOUR 133 or instructor consent.
Normal Grade Rules
3 units

JOUR 137. Reviewing the Arts Students explore the arts while learning to forge their opinions into reasoned critical journalistic reviews. Students will attend performances and exhibits, meet and interview artists and professional critics, read selected writings in criticism and aesthetics, and learn to support their insightful opinions with evidence.
Prerequisite: JOUR 061
Normal Grade Rules
3 units

JOUR 138. Sports Journalism Investigation Course prepares sports journalists to develop their investigative and technical skills in audio, video, photography, and sports writing across traditional and new media platforms. Students work collaboratively across media to publish sports features weekly. Diversity/inclusion emphasized.
Co-Requisites: JOUR 61 or consent of instructor
Normal Grade Rules
3 units

JOUR 142. Beginning Visual Journalism for Print/Electronic Media Media Lab. Introduction to basic principles and practices of photojournalism for online media, newspapers, magazines and corporate publications, using still photographs to tell the story.
Prerequisite: JOUR 95, PHOT 040, or instructor consent.
Misc/Lab: Lecture 2 hours/activity 3 hours.
Normal Grade Rules
3 units
MASS COMMUNICATIONS

LOWER DIVISION

MCOM 063. New Media
Hands on instruction in multimedia and emerging new media technologies. Print and web page design, blogging, podcasting, videocasting, RSS and creation of multimedia presentations by combining still photos, graphics, and video with music and/or audio.
Normal Grade Rules
3 units

MCOM 070. Visual Communication for Modern Media
Design for television, newspapers, advertising, public relations, magazines, film and video. Modules include design and impact of visual imagery and how to apply sound ethical principles.
Normal Grade Rules
3 units

MCOM 072. Mass Communication and Society
Mass communication and its relationship to society. Basic theories in mass communication, contemporary issues and milestones in our understanding of media effects. GE Area: D3
Prerequisite: Not repeatable for credit if equivalent course has been taken elsewhere.
Normal Grade Rules
GE D3
3 units

MCOM 092. Int’l Program Studies
Repeatable for credit
Mixed Grading
1-12 units

UPPER DIVISION

MCOM 100W. Writing Workshop: Mass Communications
Advanced writing across the media -- advertising, journalism and public relations. Writing and research for an increasingly convergent media with multiple media formats from the Web to print and broadcast, including writing to accompany audio and visual images. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing. Should be taken junior year; required of all advertising, journalism and public relations majors before they reach senior standing. The course will be waived for students receiving a waiver score on the Writing Skills Test.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE Z
3 units

MCOM 101. Media Law and Ethics
Principles and case studies of mass communications law and ethics. Constitutional guarantees, libel, privacy, contempt, privilege, copyright, Internet law, FCC and FTC regulatory law.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

MCOM 103. History of American Media
Development of mass communications in the United States from colonial times to the present. Social, economic and political factors that shaped modern media and the impact of mass media on the society.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

MCOM 104. Introduction to Mass Communications Research
Introduction to social science research in mass communications; emphasis on public opinion research, including sampling, survey research design, measurement; also precision journalism, content analysis and external databases; may include class project.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

MCOM 105. Lifestyles, Diversity and the Media
Identifies and evaluates the impact of ethnicity/culture, alternative lifestyles and gender issues on advertising, television, radio, newspapers, magazines and public relations. Examines attitudes, trends and perceptions that help shape mass communication messages.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

MCOM 106. Global Mass Communication
Societal factors behind gathering and disseminating information and entertainment content among mass communication systems of the world. Basic theoretical concepts about international communication and international relations. Impact on economy, politics, culture and governmental communication policies.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

MCOM 107. Audio Podcasting, Aesthetics and Invention
Explores philosophies, methods, and perceptions of sound aesthetics, archiving, and techniques that comprise audio podcasting (and related documentary production) to develop “aural” skills collaboratively across traditional and new media technologies as innovators of sound practice.
Normal Grade Rules
3 units

MCOM 108. Virtual Worlds, Virtual Reality and Mass Media
Explores how virtual reality is shaping our media experiences and expectations, from work, socialization and news reporting. Students learn to investigate, experiment, and interact with virtual and augmented technologies, structures and people within those media platforms.
Normal Grade Rules
3 units

MCOM 111. Internship
Field work for advertising, journalism and public relations majors near end of junior or beginning of senior year, including summer term.
Prerequisite: At least 9 units of major course work in the department (including specified foundation courses) and advisor consent.
Credit / No Credit
3 units

MCOM 139. Specialized Writing
Writing for mass communication with focus on specific topic during the semester. Topics may include specialized writing in public relations, advertising, broadcast and print media.
Prerequisite: JOUR 61, upper division standing or instructor consent.
Notes: Offered only occasionally.
Repeatable for credit
Normal Grade Rules
3 units

MCOM 163. Advanced New Media Technologies
Hands on instruction in multimedia and emerging new media technologies. Print and web page design, blogging, podcasting, RSS and creation of interactive multimedia presentations by combining still photos, graphics, and video with music and/or other audio.
Prerequisites: MCOM 63 or Instructor Consent
Normal Grade Rules
3 units

MCOM 170. Strategic Social Media & Business Communications
This class helps students learn how to apply the fundamentals of social media in a business setting to include: best practices for creating effective content strategies, how to fully utilize Twitter, Facebook, Instagram and other information platforms to generate community engagement, and how to use blogs most effectively to engage the public.
Prerequisite: MCOM 100W
Normal Grade Rules
3 units
MCOM 180. Global Leadership
This program is designed to help students begin a journey of becoming globally competent. Through classroom instruction, interaction with local business leaders, and cultural excursions, this course will introduce students to the theories and practices of global leadership.
Repeatability: for credit
Credit: 1-6 units

MCOM 180ITL. JMC International Experience
Through international study students will examine globalization models to gain a global perspective on geopolitical and economic issues, media and integrated strategic communications, explore the concepts of global citizenship and global corporate citizenship, and learn how to analyze cultural differences.
Prerequisite: SJSU upper division undergraduate or graduate student, or by instructor’s permission.
Repeatability: for credit
Credit: 1-6 units

MCOM 199A. Advertising & Public Relations Agency I
The first of a two-semester capstone course where seniors will work in teams in a School-sponsored Advertising and Public Relations Agency to plan and execute real-world integrated strategic campaigns as well as to prepare entries for national competitions. Enrollment by permission only.
Prerequisite: PR Majors: PR 099, PR 190 or PR 192, PR 191; ADV Majors: ADV 091.
Normal Grade Rules
3 units

MCOM 199B. Advertising & Public Relations Agency II
The second of a two-semester capstone course where seniors will work in teams in a School-sponsored Advertising and Public Relations Agency to plan and execute real-world integrated strategic campaigns as well as to prepare entries for national competitions. Enrollment by permission only.
Prerequisite: MCOM 199A.
Normal Grade Rules
3 units

MCOM 210. Media and Social Issues
Selected readings and group discussions of significant published works dealing with mass communications: history, biography and appraisals, law and ethics of the print and broadcast media, advertising and public relations; public opinion and propaganda.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
CE: GWAR
3 units

MCOM 215. New Media Visionaries
Class lecture series by visiting Silicon Valley leaders on the development of new media products, including such topics as idea generation, intellectual property, funding, design, development and integrated communication strategies.
Prerequisites: Admission to Graduate program.
Normal Grade Rules
3 units

MCOM 260. Integrated Strategic Communications
Investigates the theory and practice of integrated communications to include promotion, advertising, public relations, direct marketing and branding. It explains how to integrate these processes of communication and how to develop a comprehensive integrated marketing communications plan.
Prerequisite: Intro course in advertising, public relations or marketing, or instructor consent.
Normal Grade Rules
3 units

MCOM 270. Communication Law and Public Policy
A case history approach to the law of communications, including libel, privacy and regulation of broadcasting. Major development and landmark decisions, with emphasis on contemporary ethical and social issues such as free-press/fair trial and new technology.
Normal Grade Rules
3 units

MCOM 280. Communication Management
Explores the practice and theory of media management as it applies to: online media, newspapers, magazines, radio stations, television stations, advertising agencies, public relations firms, corporate communications and marketing communications. It incorporates leadership, media economics and conflict resolution.
Prerequisite: Instructor consent.
Normal Grade Rules
3 units

MCOM 284. Interactive Project Management
Students will work in teams to create, develop and implement hypothetical Web and mobile applications while living the role of the interactive project manager, design manager and development manager. This class focuses on the rapidly changing creative and technological base of interactive Web and mobile application development.
Prerequisites: Admission to Graduate Program.
Normal Grade Rules
3 units

MCOM 285. New Media Technologies
An examination of new technologies and the ways they influence and converge with traditional media and other communication specialties. Social, political, and regulatory aspects of emerging technologies are discussed.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

MCOM 290. Theory of Mass Communications
Basic theories of communications systems. Functional comparisons of various communications systems in relation to political structure. Communications theories in related disciplines of psychology, sociology, anthropology, economics and political science.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
CE: GWAR
3 units

MCOM 295. Mass Communications Research
Methodologies of research in mass communications: historical, descriptive and empirical with emphasis on statistical aspects of data processing and interpretation.
Prerequisite: MCOM 210 and MCOM 290 or instructor consent.
Normal Grade Rules
3 units

MCOM 298. Special Studies in Mass Communications
Independent studies in specific areas of mass communications. May be repeated for credit (not in same semester).
Notes: Units can be used for Plan B master’s degree projects.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

MCOM 299. Master’s Thesis
Supervised thesis in the field of mass communications. May be repeated for credit (not in same semester).
Prerequisite: Admission to candidacy for the master’s degree and approval of thesis proposal.
Repeatable for credit
Mandatory CR/NC/RP
3-6 units
PUBLIC RELATIONS

LOWER DIVISION

PR 099. Contemporary Public Relations
Principles, evolution and professional practice of modern public relations. Concepts of planning and executing effective communication strategies, including message design and distribution for any organization.
Normal Grade Rules
3 units

UPPER DIVISION

PR 190. Media Writing in the Information Age
Writing and preparation of public relations materials for distribution to today’s print, broadcast, and Internet media. Writing techniques for various media to reach specific audiences.
Prerequisite: JOUR 061.
Normal Grade Rules
3 units

PR 191. Strategic Writing for the Organization
Writing and production of marketing communication materials such as speeches, direct mail, brochures, newsletters and Web sites, all with an emphasis on computer-aided design and graphics.
Prerequisite: JOUR 061.
Normal Grade Rules
3 units

PR 192. Case Studies in Strategic Communication
Case studies focusing on the problems and challenges faced by a variety of organizations. Practical application of creative problem-solving, theory, and research about "real world" situations.
Prerequisite: PR 099.
Normal Grade Rules
3 units

PR 193. Special Event Management
The planning and managing of events for the purpose of accomplishing organizational objectives. Emphasis on creative thinking, logistics and practical application of strategies and tactics. A major project is the execution of an actual event.
Prerequisite: PR 099 or instructor consent.
Normal Grade Rules
3 units

PR 199. Campaign Planning and Management
Creative problem-solving in strategic planning and program management. Conceive, develop and present an integrated communications plan to a "real-world" client.
Prerequisite: PR 099, PR 190 or PR 191, PR 192, and MCOM 111.
Normal Grade Rules
3 units
Justice Studies Department Courses

FORENSIC SCIENCE

LOWER DIVISION

FS 011. Survey of Forensic Science
This survey course introduces students to the profession of forensic science. Topics include the field's history and sub-disciplines, the CSI Effect, the application of the scientific method to physical evidence analysis. Virtual labs may be used to augment readings.
Normal Grade Rules
3 units

FS 160. Special Topics in Forensic Science
Range of topics in Forensic Science which will vary by semester. Topics may include Blood Spatter Analysis, Microscopy and Trace Evidence, Forensic Art, Facial Reconstruction, and others. Repeatable for up to 9 units credit when content changes.
Prerequisite: JS 10 or FS 11 or Instructor Permission.
Justice Studies or Forensic Science major, Forensic Studies minor.
Repeatable for credit
Normal Grade Rules
1-5 units

FS 161. Crime Scene Investigation
Fundamental theories of physical evidence practically applied and the legal considerations involved in its recognition, collection preservation and presentation in court are covered. Topics include securing and recording the crime scene, collecting evidence, maintaining the chain of custody and reconstruction.
Prerequisites: FS 11, JS or FS Major/Minor, Upper Division Standing. JS students may substitute JS 10 for FS 11.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
3 units

FS 162. Forensic Science Applications
Scientific analysis and interpretation of physical evidence using identification and comparison techniques. Practical lab exercises in human identification, questioned documents, bite marks, trace evidence, presumptive testing and glass analysis. Additional topics include court testimony, quality assurance and ethics.
Prerequisites: FS 11, JS or FS Major/Minor, Upper Division Standing. JS students may substitute JS 10 for FS 11.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

FS 163. Fingerprint Science
History and use of fingerprints in criminal identification. Topics include the scientific basis for fingerprint ID, anatomy of friction ridge skin, pattern classification, minutiae marking, the Henry System, AFIS and ACE-V, and court presentation of fingerprint evidence.
Prerequisites: FS 11, JS or FS Major/Minor, Upper Division Standing. JS students may substitute JS 10 for FS 11.
Misc/Lab: Lecture 3 hours/Activity 3 hours.
Normal Grade Rules
3 units

FS 164. Crime Scene and Evidence Photography
Practical use of photography in documenting crime scenes and evidence. Topics will include 35mm camera operation, lenses, focus, exposure, depth of field, lighting, composition, flash, injury documentation, digital cameras and video, and court presentation of photographic evidence.
Prerequisites: FS 11, JS or FS Major/Minor, Upper Division Standing. JS students may substitute JS 10 for FS 11.
Misc/Lab: Lecture 3 hours/Activity 3 hours.
Normal Grade Rules
3 units

FS 165. Forensic Biometrics
A survey of scientific and biometric tools and applications used to establish human identity. Topics include identification of missing persons; casualties of mass disasters; victims of war crimes; and the ethical, legal and social implications of such technology.
Prerequisites: FS 11, JS 10, JS 25, or ANTH 12; upper division standing
Normal Grade Rules
3 units

FS 166. Forensic Chemistry
An exploration of scientific concepts, methods, practices, instrumentation, interpretation, statistics and court issues of chemistry as applied in forensic science including special topics: drug analysis, toxicology, arson and trace analysis emphasizing the instrumentation that allows chemical examination of evidence.
Prerequisites: CHEM 001A, CHEM 001B, FS 11
Normal Grade Rules
3 units

FS 167. Forensic Molecular Biology
History, scientific concepts, methods, practices, instrumentation, interpretation, statistics and court issues of forensic DNA analysis via lectures, hands-on activities/ laboratories, and videos. Collection, documentation and preservation of biological evidence, bioethics, QA, validation, admissibility and training will also be covered.
Prerequisites: BIOL 031, CHEM 001A, and CHEM 001B
Misc/Lab: Lecture 4 hours/lab 2 hours.
Normal Grade Rules
5 units

FS 168. Fluorescent Applications in Molecular Biology and Forensic Science
This course covers scientific concepts, methods, practices, instrumentation, interpretation, statistics and court issues of fluorescent applications in molecular biology and forensic science. Topics include, atomic and molecular basis of fluorescence, emission, photophysical processes, energy transfer, QA, validation, accreditation, and admissibility.
Prerequisites: BIOL 030, BIOL 031, CHEM 001A, CHEM 001B, FS 162 all with grades of ‘C’ or better.
Misc/Lab: Lecture 4 hours/lab 6 hours.
Normal Grade Rules
3 units

FS 169. FS Senior Sem : Studies in Contemporary FS Issues
Identification, discussion and analysis of selected problems in forensic science. A major term paper, presentation on a selected topic and participation on written as well as in-class assignments and activities are required.
Prerequisites:
Justice Studies Majors: Senior standing, JS 100W and JS 114 or instructor consent, graduation application filed and you must have already filled out and have a signed major form. Note: JS 114 is waived as a prerequisite for forensic science majors.
For Forensic Science Majors: Senior standing, JS 100W, FS 161, FS 162, Biology 30, CHEM 1A and CHEM 1B or by instructor consent, graduation application filed and you must have already filled out and have a signed major form.
Normal Grade Rules
3 units

UPPER DIVISION

FS 106. Forensic Entomology
See ENT 106.
Normal Grade Rules
3 units

FS 167. Fluorescent Applications in Molecular Biology
History, scientific concepts, methods, practices, instrumentation, interpretation, statistics and court issues of forensic DNA analysis via lectures, hands-on activities/ laboratories, and videos. Collection, documentation and preservation of biological evidence, bioethics, QA, validation, admissibility and training will also be covered.
Prerequisites: BIOL 031, CHEM 001A, and CHEM 001B
Misc/Lab: Lecture 4 hours/lab 2 hours.
Normal Grade Rules
5 units

FS 168. Fluorescent Applications in Molecular Biology and Forensic Science
This course covers scientific concepts, methods, practices, instrumentation, interpretation, statistics and court issues of fluorescent applications in molecular biology and forensic science. Topics include, atomic and molecular basis of fluorescence, emission, photophysical processes, energy transfer, QA, validation, accreditation, and admissibility.
Prerequisites: BIOL 030, BIOL 031, CHEM 001A, CHEM 001B, FS 162 all with grades of ‘C’ or better.
Misc/Lab: Lecture 4 hours/lab 6 hours.
Normal Grade Rules
3 units

FS 169. FS Senior Sem : Studies in Contemporary FS Issues
Identification, discussion and analysis of selected problems in forensic science. A major term paper, presentation on a selected topic and participation on written as well as in-class assignments and activities are required.
Prerequisites:
Justice Studies Majors: Senior standing, JS 100W and JS 114 or instructor consent, graduation application filed and you must have already filled out and have a signed major form. Note: JS 114 is waived as a prerequisite for forensic science majors.
For Forensic Science Majors: Senior standing, JS 100W, FS 161, FS 162, Biology 30, CHEM 1A and CHEM 1B or by instructor consent, graduation application filed and you must have already filled out and have a signed major form.
Normal Grade Rules
3 units

JUSTICE STUDIES

LOWER DIVISION

JS 010. Introduction to Justice Studies
Historical and philosophical development of the justice system. Description, analysis and evaluation of criminal justice agencies. Relationship between theory and practice.
Normal Grade Rules
3 units
JS 012. Introduction to Legal Studies
The course presents historical and modern perspectives of the theories and structures of law, and provides an overview of the economic and sociological challenges to law making. This course also examines the nexus between law, social change, and dispute resolution.
Normal Grade Rules
3 units

JS 015. Introductory Statistics in Justice Studies
Introduction to measures of central tendency, variation, correlation and regression, probability, estimation and hypothesis testing as used in Justice Studies. GE Area: B4
Prerequisite: Math Enrollment Category M-I or M-II, or completion of a GE Area B4 course with a grade of C- or better.
Normal Grade Rules
GE: B4
3 units

JS 025. Introduction to Human Rights and Justice
This course is a lower division introduction to the history of human rights as a concept and body of international law, and to the complicated role of human rights in contemporary social justice campaigns. GE Area: D3
Normal Grade Rules
GE: D3
3 units

UPPER DIVISION

JS 100W. Writing Workshop
Development of advanced communication skills, both written and oral. Emphasis on writing formats used by criminal justice professionals. A scholarly paper, written in APA format and informed by research, will be required.
GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of a core GE, satisfaction of Writing Skills Test and upper division standing. Allowed Declared Major: Justice Studies.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE: Z
3 units

JS 101. Critical Issues and Ideas in Justice
Interdisciplinary, historical and comparative examination of justice concepts and controversies, including the state’s role in promoting justice and perpetuating injustice; legitimate versus illegitimate violence; human rights, stateless persons, and the international community; the relationship between social justice and criminal justice.
Prerequisite: Upper Division Standing; JS 10, 12, 25 or FS 11;
Co-requisite: JS 100w
Note: A grade of “C” or better is required for Justice Studies majors.
Normal Grade Rules
3 units

JS 102. Police and Society
A multidisciplinary study of law enforcement from the early 1800's to the present. Focus on significant studies in relation to the role of police and analysis of current models and practices.
Prerequisite: JS 10, 12, 25, or FS 11. Upper division standing.
Corequisite: JS 100W
Note: Must achieve a grade of “C” or better to fulfill Justice Studies major requirements.
Normal Grade Rules
3 units

JS 103. Courts and Society
Structure and functions of the court system. Emphasizes attorneys’ and judges’ roles and the court process. Examination of federal and state legislative, executive and judicial branch actions, including Supreme Court decisions in civil and criminal cases.
Prerequisite: Upper division standing.
Note: A grade of “C” or better is required for graduation.
Normal Grade Rules
3 units

JS 104. Penal Politics & Institutions
Interdisciplinary examination of issues of race, class, gender, ethnicity, economy, and culture as it relates to punishment, the penal process, and social control.
Prerequisite: Upper division standing.
Note: Must achieve a grade of “C” or better to fulfill Justice Studies major requirements.
Normal Grade Rules
3 units

JS 107. Justice Management and Ethics
The theory and practice of managing justice system agencies, including organizational change and contemporary issues. In-depth examination of ethical challenges in managing justice agencies, and strategies for ensuring ethical practices.
Prerequisite: Upper division standing.
Note: A grade of “C” or better is required for graduation.
Normal Grade Rules
3 units

JS 114. Research Methods in Justice Studies
Introduction to quantitative research methods used in Justice Studies. Includes relationship of theory to empirical evidence; logic underlying methods of inquiry; ethics in conducting empirical research; and methodological design, operationalization, and data analysis.
Prerequisite: JS 10, 12, 25, or FS 11; JS 100W with a grade of “C” or better; JS 15 or Stat 95 or equivalent with a “C” or better; Upper Division Standing; Restricted to JS majors and minors.
Note: A grade of “C” or better is required for Justice Studies majors.
Normal Grade Rules
3 units

JS 117. Qualitative Research Methods
Introduction to qualitative research methods used in Justice Studies. Includes relationship of empirical evidence to theory; ethics in conducting empirical research, methodological design, interviewing techniques, field methods, participant observation, and content analysis.
Prerequisites: Upper division standing
Pre/Corequisite: Any 100W
Note: Must achieve a grade of “C” or better to fulfill Justice Studies major requirements.
Normal Grade Rules
3 units

JS 121. Media and Justice
This course is an interdisciplinary and comparative media examination of justice concepts and controversies, including forms of violence, human rights, undocumented persons, the state’s role in promoting criminalization and social inequality, and the need for social justice and media reform.
Pre/co-requisites: Any 100W
Note: Must achieve a grade of “C” or better to fulfill Justice Studies major requirements.
Normal Grade Rules
3 units

JS 122. Drugs and Society
Examines the physiological effects of psychoactive drugs; history of legal and illegal drug use; causes and rates of use and addiction; drugs in the media; drug-related crime and violence; criminalization, decriminalization, legalization, harm reduction; drug courts; drug treatment.
Pre/Co-requisite: Any 100W
Note: Must achieve a grade of “C” or better to fulfill Justice Studies major requirements.
Normal Grade Rules
3 units
JS 123. Terrorism, Intelligence, and Security
Examination of terrorist organizations and activities, definitions of terrorism, and social and political consequences of terrorism. Includes policy responses to terrorism, including roles of intelligence and security agencies, and impacts on law, rights and liberties.
Prerequisite: Upper division standing.
Note: A grade of “C” or better is required for Justice Studies majors.
Normal Grade Rules
3 units

JS 127. Immigration and Justice
Interdisciplinary analysis of cultural, social and political implications of transnational migrations and their historical and present influences on US culture. Emphasis on issues of social justice and human rights related to contemporary migratory movements.
Pre/Co-requisite: Any 100W,
Note: Must achieve a grade of “C” or better to fulfill Justice Studies major requirements.
Normal Grade Rules
3 units

JS 128. Punishment, Culture and Society
Critical analysis of the cultural, political and economic dimensions of penal politics in contemporary American society, with particular reference to the relationships between criminal justice and social justice. Emphasis on issues of racial, economic, and gender inequality.
Pre/Co-requisite: Any 100W,
Note: Must achieve a grade of “C” or better to fulfill Justice Studies major requirements.
Normal Grade Rules
3 units

JS 129. International Crime and Deviance
This course offers an international perspective on violence. This course analyzes transnational crime and deviance trends, their causes, as well as organizational responses. Topics discussed in this class include international drug markets, sexual commerce, child soldiers, and terrorism.
Pre/Co-requisite: Any 100W,
Note: Must achieve a grade of “C” or better to fulfill Justice Studies major requirements.
Normal Grade Rules
3 units

JS 130. Sexuality & Justice
JS 130 surveys the relationship between sexuality and social and criminal justice. Students explore the nature and extent of sexual offenses against adults and children. A critical examination of recent public policies aimed at managing sexual aggression is included.
Pre/Co-requisite: Any 100W,
Note: Must achieve a grade of “C” or better to fulfill Justice Studies major requirements.
Normal Grade Rules
3 units

JS 131. Crisis Intervention, Mediation and Restorative Justice
Review of theory, research and practical skill development in communication and problem resolution strategies using techniques of crisis intervention, mediation and restorative justice in community policing, family court, dependency court and juvenile justice settings.
Pre/Co-requisite: Any 100W,
Note: Must achieve a grade of “C” or better to fulfill Justice Studies major requirements.
Normal Grade Rules
3 units

JS 132. Race, Gender, Inequality and the Law
History of legal issues and individual and institutional discrimination of women, ethnic/cultural and religious minorities, gays and lesbians and the disabled in education, employment, criminal justice and the family. Affirmative action and reverse discrimination. Solutions for structured inequality in the U.S.
Normal Grade Rules
GE: S
3 units

JS 136. Family and Community Violence
Examines abusive relationships and responsive community and justice system policy and preventive interventions. Topics include child abuse, neglect, gang and hate crimes, rape, marital violence and elderly abuse.
Pre/Co-requisite: Any 100W,
Note: Must achieve a grade of “C” or better to fulfill Justice Studies major requirements.
Normal Grade Rules
3 units

JS 137. Collaborative Response to Family Violence
Employs an ecological framework to explore the scope, effects and response to family violence by diverse services and systems. Students are introduced to theory and practice of interdisciplinary collaboration and how it applies to respond more effectively to family violence.
Prerequisite: 100W, upper division standing or instructor permission
Corequisite: JS 136 or instructor permission
Normal Grade Rules
3 units

JS 140. Record Clearance Project
RCP teaches students to give community education presentations and advise clients regarding court procedures to clear criminal convictions. Students learn legal interviewing, counseling, ethics, reading rap sheets, performing legal research and writing; court interpreting and related skills.
Prerequisites: JS 100W.
Normal Grade Rules
3 units

JS 141. Record Clearance Project Representation
Record Clearance Project Representation teaches students to assist clients in preparing and filing petitions to clear criminal convictions in court, and related tasks. Under attorney supervision, students represent between two to four clients.
Prerequisites: JS 140 or instructor consent.
Credit / No Credit
3 units

JS 142. RCP - Advanced Study and Comm Involvement
Record Clearance Project - Advanced Study and Community Involvement involves mentoring RCP students in client interviews, coordinating project tasks and events, collecting data from former clients and students, helping with RCP community involvement, and assisting in other tasks.
Prerequisites: JS 140 or instructor consent.
Credit / No Credit
3 units

JS 143. Criminal Evidence and Procedure
Origin, development, philosophy and constitutional basis of evidence; administrative and judicial rules and procedures that govern admissibility; examination of judicial decisions interpreting individual rights; exploration of process by which attorneys introduce evidence as proof or exculpation of crime.
Pre/Corequisite: Any 100W
Note: Must achieve a grade of “C” or better to fulfill Justice Studies major requirements.
Normal Grade Rules
3 units

JS 144. Criminal Law
Historical development of philosophy of law and constitutional provisions, legal definitions, classifications of crime, case law, methodology and concepts of criminal law as a social force.
Pre/Co-requisite: Any 100W
Note: Must achieve a grade of “C” or better to fulfill Justice Studies major requirements.
Normal Grade Rules
3 units
### JS 145. White Collar Crime
Growth and development of white collar crime in the United States: crimes at the workplace, computer fraud, swindles, embezzlement, bribery and graft at the corporate and governmental levels. 
Pre/Requisite: Upper division standing. 
Note: A grade of "C" or better is required for Justice Studies majors. 
Normal Grade Rules 
3 units

### JS 150. Gender and Crime
Analysis of gender and its influence upon criminal participation and victimization, treatment in the criminal justice system, and those working in the criminal justice fields. Emphasis on women's experiences. 
Pre/Co-requisite: Any 100W 
Note: Must achieve a grade of "C" or better to fulfill Justice Studies major requirements. 
Normal Grade Rules 
3 units

### JS 151. Criminological Theory
Analysis of the nature and extent of crime, including causation and prevention. Descriptions of offenses, criminal typologies and victim surveys. Evaluation of various control and prevention strategies. 
Prerequisite: JS 10, JS 12, JS 25 or FS 11 
Pre/Co-requisite: JS 100W 
Note: Must achieve a grade of "C" or better to fulfill Justice Studies major requirements. 
Normal Grade Rules 
3 units

### JS 152. Juvenile Delinquency & Justice
History, theory and functions of the juvenile justice system. The legal processes for delinquent minors, status offenders and dependent children, including intake, detention, adjudication and disposition. Current legal issues and debate. 
Prerequisites: Upper Division Standing 
Note: Must achieve a grade of "C" or better to fulfill Justice Studies major requirements. 
Normal Grade Rules 
3 units

### JS 153. Crime and Justice Across the Life Course
Explores how crime and justice are experienced by individuals over time. The nature and extent of offending and victimization at various ages across the life course is examined. A critical consideration of the criminal career paradigm is also provided. 
Pre/corequisites: Any 100W. 
Note: Must achieve a grade of "C" or better to fulfill Justice Studies major requirements. 
Normal Grade Rules 
3 units

### JS 155. Victimology
Examination of the relationship between victim and offender, the behavior and attitudes of family, society and justice system toward the victim; nature and extent of loss, injury and damage to the victim. 
Pre/Co-requisite: Any 100W 
Note: Must achieve a grade of "C" or better to fulfill Justice Studies major requirements. 
Normal Grade Rules 
3 units

### JS 156. Gangs, Criminal Syndicates & Justice
A socio/historical examination of the emergence, evolution, persistence, activities and social structure of gangs and mobs, the effects of social factors, e.g., politics, law, technology and the economy, and consequences for communities and social institutions. 
Pre-Co-requisite: Any 100W 
Note: Must achieve a grade of "C" or better to fulfill Justice Studies major requirements. 
Normal Grade Rules 
3 units

### JS 157. Deviance and Justice
This course examines various areas of norm violations and rule-breaking behaviors including, alcohol and drug use/abuse, criminal violence, corporate deviance, gang violence, and sexual deviance, child abuse, hate crime, mental illness, computer piracy and evaluates justice policies. 
Pre/Co-requisite: Any 100W 
Note: Must achieve a grade of "C" or better to fulfill Justice Studies major requirements. 
Normal Grade Rules 
3 units

### JS 158. The Prison Community
Analysis of formal and informal systems of organization and interaction among inmates and staff. Effects of the social structure and external system on the organization of the prison community. 
Pre/Co-Requisite: Any 100W 
Note: Must achieve a grade of "C" or better to fulfill Justice Studies major requirements. 
Normal Grade Rules 
3 units

### JS 159. The Culture of Law Enforcement
This course introduces the student to the culture of the criminal justice system and how this affects the way in which law enforcement officers carry out their work. 
Pre/co-requisites: Any 100W 
Note: Must achieve a grade of "C" or better to fulfill Justice Studies major requirements. 
Corequisite: Any 100W 
Normal Grade Rules 
3 units

### JS 161. Introduction to Cybercrime
Introduces students to the growing legal, technical, and social issues surrounding crimes committed in cyberspace or assisted by computers. Discusses the nature of cybercrime from an international perspective and how the borderless nature of cybercrime impacts regulation and enforcement. 
Pre/co-requisites: Any 100W 
Corequisite: Any 300W 
Normal Grade Rules 
3 units

### JS 171. Human Rights and Justice
Interdisciplinary exploration of human rights instruments, institutions, and notable human rights campaigns. The historical development of human rights and contemporary threats to the realization of fundamental dignity for humans and non-humans will also be explored. 
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. 
Completion of, or co-registration in, 100W is strongly recommended. 
Normal Grade Rules
GE: V 
3 units

### JS 172. Human Trafficking and Modern Day Slavery
This course examines the social, cultural, and historical dimensions of global human trafficking and modern-day slavery, with special attention to the efficacy, effectiveness, and unintended consequences of various anti-trafficking policies from around the world, including the United States. 
Pre/Co-Requisite: Any 100W 
Note: Must achieve a grade of "C" or better to fulfill Justice Studies major requirements. 
Normal Grade Rules 
3 units

### JS 173. Borders and Conflict
Explores border conflicts, including their history and evolution over time as they relate to states, institutions, practices, politics, and impact on communities. Issues include militarism, human rights/civil rights, environmental impact, and prospects for peace. 
Co-requisite: Any 100W 
Note: A grade of "C" or better is required to meet Justice Studies major requirements. 
Normal Grade Rules 
3 units

### JS 179. Human Rights Practicum and Seminar
Complete field experience in human rights advocacy/reporting/organizing while surveying recent human rights scholarship in seminar format. 
Prerequisites: JS 025, any 100W 
Normal Grade Rules 
3 units

### JS 180. Individual Studies
Individual work on special topics by arrangement. 
Prerequisite: Upper division standing. Not available to Open University Students. 
Repeatable for credit 
Credit / No Credit 
1-3 units
JS 181. Internship: Justice Studies
The internship is designed to provide broad exposure to the operations of a variety of agencies and organizations that range from a criminal justice to social justice focus, including courts, law enforcement agencies, law offices, nonprofit organizations and community-based programs.
Prerequisite: Upper division standing. Justice Studies or Forensic Science major; JS 100W with a C or better; 2.0 GPA; Department Consent, No Open University
Notes: Students can take up to 3 additional units as JS electives.
Repeateable for credit
Credit / No Credit
1-7 units

JS 183. Ethics in Criminal Justice
In-depth examination of ethical issues in policing, forensic science, and the judicial system. Rhetorical and critical analyses of opposing arguments in justice studies from a variety of ethical perspectives.
Prerequisite: JS 10, JS 25, or JS 11; JS 100W or approved substitute
Normal Grade Rules
3 units

JS 184. Directed Reading
Designed to meet individual needs and interests.
Prerequisite: Upper division standing. Not available to Open University Students.
Repeateable for credit
Credit / No Credit
1-7 units

JS 185. Special Topics in Law and Justice
Range of law and justice issues and topics may be addressed. Content varies by semester. Topics may include international law and globalization, the struggle for justice, human rights, law, inequality and injustice, and others. May be repeated for credit when content changes for a maximum of 9 units.
Prerequisites: Upper division standing.
Repeateable for credit
Normal Grade Rules
3 units

JS 185ITL. Justice Studies International Experience
The goal of this course is to gain insight into systems of criminal and social justice outside of the U.S. Issues of justice are explored, and the role of the student as a global citizen is emphasized. Includes international experiential component through study abroad.
Repeateable for credit
Normal Grade Rules
1-9 units

JS 189. Senior Seminar: Contemporary Problems
Identification, discussion and analysis of selected problems in justice studies. A major term paper on a selected topic is required.
Prerequisite: Senior standing in final semester; Justice Studies or Forensic Science major; JS 100W and JS 114 with a “C or better”, Department Consent
Note: A grade of “C” or better is required for Justice Studies majors.
Normal Grade Rules
3 units

GRADUATE

JS 201. Justice and Social Theory
Examines classic and contemporary theories of justice, including legal, social, economic and criminal justice and their application to current social issues.
Prerequisite: Graduate standing.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
CE: GWAR
3 units

JS 202. Survey of Research Methods
Examination of research methods applied to solving problems and resolving issues in justice-related agencies, organizations and processes. Focuses on the application of the scientific method to problem-solving and program evaluation.
Prerequisite: STAT 95 or equivalent, JS 114 or equivalent, and graduate standing
Normal Grade Rules
3 units

JS 203. Seminar in Applied Statistics in Justice
An evaluation of specific statistical methods for quantitative and nonquantitative analyses, concentrating on applications and interpretations in justice-related settings.
Prerequisite: STAT 95 or equivalent, JS 114 or equivalent, and graduate standing
Normal Grade Rules
3 units

JS 204. Seminar: Punishment & Society
Examination of a range of penal ideas and practices; includes historical analysis of punishment, overview of theoretical perspectives and empirical social science research on punishment and alternative sanctions and implications for contemporary penal policy.
Normal Grade Rules
3 units

JS 205. Seminar in Law and Courts
Roles of the law in society. Analysis and critique of courts, attorneys, judges and juries; dispute resolution; race, class, sex inequality; law’s symbolic functions and unintended consequences; new socio-legal research; and comparative perspectives.
Normal Grade Rules
3 units

JS 206. Seminar in Juvenile Justice
Analysis of philosophy, theories, relevant law, research, constitutional issues related to juvenile justice. Structure and purpose of juvenile court proceedings. Minors in law criminal and civil court, juvenile corrections, death penalty for juveniles, transfers to adult court, child victims, fetal abuse.
Normal Grade Rules
3 units

JS 207. Seminar in Qualitative Research Methods
Qualitative research methods used in Justice Studies. Includes relationship of empirical evidence to theory, ethics in conducting empirical research, methodological design, interviewing techniques, field methods, participant observation, and content analysis.
Prerequisites: Graduate standing, or instructor permission.
Normal Grade Rules
3 units

JS 208. Seminar: Punishment & Society
Examination of a range of penal ideas and practices; includes historical analysis of punishment, overview of theoretical perspectives and empirical social science research on punishment and alternative sanctions and implications for contemporary penal policy.
Normal Grade Rules
3 units

JS 209. Seminar in Police and Social Control
Critical examination of democratic policing, including internal and external strategies for control and reform. Emphasis on police role in democracy, policy, culture, performance measures for individuals and organizations, and alternative policing methods and policies.
Normal Grade Rules
3 units

JS 211. Historical Issues in Justice Studies
Equips students to do historical research, understand the significance of historical perspectives for contemporary issues, and explore the place of historical obligations and entitlements in theories of justice.
Prerequisite: JS 201 and graduate standing
Normal Grade Rules
3 units

JS 212. Local & Global Perspectives on Human Rights
This course is a graduate level exploration of contemporary human rights scholarship and praxis in the United States and in relation to U.S. domestic and foreign policy.
Normal Grade Rules
3 units
JS 214. Seminar: Social Movement, Community Organizing, and Social Justice
This course is an exploration of social movement praxis. The class investigates community organizing broadly and discusses the idea of social justice, specifically how it relates to establishing human rights in our communities through the active participation of informed citizens.
Normal Grade Rules
3 units

JS 218. Seminar: Immigration, Law, & Justice
Graduate level interdisciplinary analysis of the cultural, political and socioeconomic implications of contemporary migratory movements and immigration control policies in the United States, with particular emphasis on notions of international human rights and global justice.
Normal Grade Rules
3 units

JS 220. Seminar: Criminological Theory
A critical review of classical and contemporary theories and research in criminology. Evaluation of contemporary criminal justice and its relationship to theories of criminal behavior.
Normal Grade Rules
3 units

JS 221. Seminar: Deviance & Social Control
This course examines various areas of norm violations and rule-breaking behaviors including, alcohol and drug use/abuse, criminal violence, corporate deviance, gang violence, and sexual deviance, child abuse, hate crime, mental illness, computer piracy and evaluates justice policies.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

JS 222. Seminar: Penal Policies and Justice
A critical review of historical and contemporary theoretical models. Evaluation of current research on treatment, rehabilitation/punishment models and their use in adult and juvenile institutions and community settings.
Normal Grade Rules
3 units

JS 223. Seminar: Comparative Criminology & Criminal Justice
This course provides a comparative perspective on crime, violence and punishment in contemporary global societies. The course analyzes transnational trends in crime, as well as organizational responses to criminality. Topics include international drug markets, sexual commerce, child soldiers, and terrorism.
Prerequisite: Graduate Standing
Normal Grade Rules
3 units

JS 243. Collaborative Dialogues Seminar
This course will engage students in facilitated dialogues on cultural and professional perspectives on family violence. Students will learn the philosophy and process of dialogue and how dialogue enriches and sustains collaborative capacities at individual, relationship and organizational levels.
Prerequisite: JS 136 and JS 137
Normal Grade Rules
1 unit

JS 244. Collaborative Projects Seminar
This course will facilitate the design and implementation of student projects designed to enhance services and service delivery through interdisciplinary collaboration.
Prerequisite: JS 136 and JS 137
Corequisite: Research Methods course (if needed)
Normal Grade Rules
1 unit

JS 245. Collaborative Field Experience Seminar
This seminar will facilitate integration of concepts of collaboration in the field of family violence using the students’ current experience in the field. Topics covered in the seminar will include: elements of effective collaboration, trauma-informed practice, cultural competence and ethical considerations.
Prerequisite: JS 136 and JS 137
Normal Grade Rules
1 unit

JS 245B. Independent Study ICR Field Placement
This independent study is designed for students unable to meet the program’s field experience requirement through their current employment or internship. Students and community professionals taking the Independent Study: Collaborative field Placement internship will be placed in ICR approved placements. Students are required to complete a minimum of 60 hours in their field placement during the course.
Prerequisite: JS 136, JS 137
Corequisite: JS 245
Credit / No Credit
1 unit

JS 246. Research Methods in Family Violence
This course will prepare students to interpret, critique, plan and conduct applied research in the field of domestic violence by providing a fundamental understanding of the types and purposes of research and the logic involved in the scientific method and research design.
Normal Grade Rules
1 unit

JS 247. Family Violence in Special Populations
This course covers special populations in family violence, contributing to a broader understanding of this complex social issue. The course chooses one group for study, such as LGBT or military families, and explores the unique correlates, effects and intervention strategies.
Repeatable for credit
Normal Grade Rules
1 unit

JS 265. Comparative Criminal Justice Systems
Theory-based comparative analysis of US criminal justice system with criminal justice systems around the world. Course focuses on legal traditions, policing, courts and corrections, with emphasis on the role of geographical, historical and cultural traditions in shaping criminal justice.
Normal Grade Rules
CE: GWAR
3 units

JS 266. Applied Research Methods and Statistics
This course introduces research concepts, methodology, design, qualitative and quantitative data analysis, interpretation, and SPSS use for understanding crime and evaluating criminal justice issues, policies, and agency practices.
Prerequisite: JS 114 or equivalent
Normal Grade Rules
3 units

JS 267. Crime and Gender Around the World
This course is designed to examine the growing body of literature that deals with women’s experiences about crime and justice to understand the impact of gendered relations on criminal behavior and justice outcomes.
Normal Grade Rules
3 units

JS 268. Immigration and International Law
This online course provides an overview of the United States legislation and policy relating to immigration and explores the opportunities and challenges facing policymakers in the context of domestic law and policy, as well as global norms and regimes.
Normal Grade Rules
3 units

JS 269. Cyber Forensics
This online course teaches procedures for identification, preservation and extraction of electronic evidence. Public and private sector responses to cyber security issues in national and international contexts are discussed.
Normal Grade Rules
3 units

JS 270A. Global Terrorism
This online course examines terrorism and the role it plays in today’s complex world as well as the theory and practice of international terrorism.
Normal Grade Rules
3 units
JS 271. International Human Rights
This online course focuses on the politics and history of the conception, protection, and violation of human rights in global perspectives as well as the examination of the practical applications of the theory.
   Normal Grade Rules
   3 units

JS 272. Policing in Global Contexts
This online course examines policing from a global perspective. The objective of this course is to orient students as to how police organizations operate in different parts of the world in terms organization, crime control, and crime prevention.
   Normal Grade Rules
   3 units

JS 273. International Criminology and Juvenile Delinquency
This online course will examine: (1) issues fundamental to criminological and juvenile delinquency research and practical applications; (2) the current and emerging national/international crime and delinquency issues; and (3) criminal and juvenile justice policies adopted by different countries.
   Normal Grade Rules
   3 units

JS 274. Applied Project
For this project, a substantial paper of a justice agency program, justice policy, and/or organizational issue is required. The contents will be determined by the student in consultation with the instructor, with whom the student meets regularly for supervision.
   Credit / No Credit
   3 units

JS 281. Justice Practicum
Supervised placement in a justice organization or agency in a position emphasizing analytical and research skills and/or managerial responsibilities. Culminating research or policy paper required.
   Prerequisite: Graduate standing and graduate coordinator consent.
   Repeatable for credit
   Credit / No Credit
   1-3 units

JS 288. Seminar in Special Topics
In-depth exploration and analysis of selected justice-related topic. Course will consider relevant theories, issues, and research on the selected topic.
   Prerequisite: Graduate standing or instructor consent.
   Repeatable for credit
   Normal Grade Rules
   3 units

JS 297. Program Evaluation Project
A substantial paper/mock evaluation of a justice agency program, justice policy, or organizational issue.
   Prerequisite: Completion of JS 201, JS 202, JS 203, JS 204, Not available to Open University Students.
   Repeatable for credit
   Mandatory CR/NC/RP
   3 units

JS 299. Master’s Thesis
Six units are required to complete the thesis and oral defense of the thesis. Required for Plan A. Must be repeated for a total of 6 semester units.
   Prerequisite: Admission to candidacy for the MS degree and thesis chair consent. Not available to Open University Students.
   Repeatable for credit
   Mandatory CR/NC/RP
   1-3 units

NO DEGREE CREDIT
JS 1290R. Thesis/Project Supervision
Continued work on thesis or project.
   Pre-requisite: Outstanding RP grade in a preceding semester in a project or thesis class
   Repeatable for credit
   Mandatory CR/NC/RP
   1 unit
Kinesiology Department Courses

KINESIOLOGY

LOWER DIVISION

KIN 001. Adapted Physical Activities
Structured individualized physical activities to enhance physical/motor fitness and develop an active, health-oriented lifestyle for students unable to participate in the general activity program.

Repeatability: Yes
Normal Grade Rules
GE: PE
1 unit

KIN 002A. Beginning Swimming
This course is designed for the non-swimmer and beginning swimmer. It is assumed that all students enrolled in the class have had little or no experience in learning the basic skills of swimming. The course is designed to instruct the student in the basic skills necessary to enable him/her to swim safely in deep water.

There are no prerequisites for the course.

Normal Grade Rules
GE: PE
1 unit

KIN 002B. Intermediate Swimming
This course is designed to meet the needs of students who have satisfactorily completed the skills involved in beginning swimming.

Prerequisite: Beginning level or its equivalent.

Normal Grade Rules
GE: PE
1 unit

KIN 002C. Advanced Swimming
This course is designed to refine and extend the development of advanced skills in swimming.

Prerequisite: Intermediate level or its equivalent.

Normal Grade Rules
GE: PE
1 unit

KIN 003. Water Polo
Fundamental skills, techniques, strategies, rules, and knowledge necessary to safely and correctly play water polo.

Prerequisite: Beginning level swimming proficiency

Normal Grade Rules
1 unit

KIN 008. Skin and SCUBA Diving
Both skin and SCUBA diving skills for enjoyment and to understand dangers connected with the sport. Only one unit can be applied for the physical education graduation requirement.

Prerequisite: KIN 2C (or equivalent).

Misc/Lab: Lecture 1 hour/activity 3 hours.

Normal Grade Rules
GE: PE
1 unit

KIN 009A. Beginning Sailing
Basic skills and safety knowledge in small boats for those with little or no sailing experience.

Prerequisite: Student must be able to swim 100 yards without stopping, tread water for 5 minutes, and exit from an overturned dinghy. Students will be tested for this in the SPX pool.

Normal Grade Rules
GE: PE
1 unit

KIN 010A. Beginning Kayaking
Beginning skills and knowledge for those with little or no experience of flat water kayaking. The emphasis will be on safe operation at all times.

Prerequisite: Students must be able to swim 100 yards without stopping, tread water for 5 minutes, and exit from an overturned kayak. Students will be tested for this in the SPX pool.

Normal Grade Rules
GE: PE
1 unit

KIN 011A. Beginning Rowing
Basic skills and knowledge for those with little or no experience of sweep rowing or sculling. Initial classes will be on indoor rowing machines, then eight-oared boats will be used. Students will learn both how to row and how to cox; improvement of strength / fitness is central.

Prerequisite: Swim 100 yards without stopping; tread water for 5 minutes; don lifejacket in the water. Tested in pool.

Normal Grade Rules
GE: PE
1 unit

KIN 013A. Beginning Rugby
This course is designed to familiarize the student with the rules, skills and basic concepts of modern Rugby Union Football. The class will equip the student to be an informed rugby spectator and/or participant.

Normal Grade Rules
GE: PE
1 unit

KIN 014A. Beginning Volleyball
This course provides the student with the opportunity to learn and develop the basic rules and skills of volleyball, the 6-6 offense and the defense against the 6-6 offense.

Normal Grade Rules
GE: PE
1 unit

KIN 014B. Intermediate Volleyball
This course provides the intermediate student with the opportunity to refine and perfect the basic volleyball skills and to master individual positions when using the 6-2 offense and the defense against the offense.

Prerequisite: Beginning level or its equivalent.

Normal Grade Rules
GE: PE
1 unit

KIN 014C. Advanced Volleyball
This course is designed to teach advanced skills, principles and techniques necessary and fundamental to understanding and playing volleyball.

Prerequisite: Intermediate level or its equivalent.

Normal Grade Rules
GE: PE
1 unit

KIN 015A. Beginning Basketball
This course is designed to assist students in the development of fundamental skills necessary for effective involvement in playing the game of basketball.

Normal Grade Rules
GE: PE
1 unit

KIN 015B. Intermediate Basketball
This course is designed to assist the intermediate student with the opportunity to refine and perfect basic basketball skills.

Prerequisite: Beginning level or its equivalent.

Normal Grade Rules
GE: PE
1 unit

KIN 018A. Beginning Handball
This course is focused on the development of fundamental handball skills, basic tactics, simple strategies, etiquette and sportsmanship, rules, and their application in beginning games.

Normal Grade Rules
GE: PE
1 unit

KIN 019A. Beginning Soccer
This course is designed to introduce students to the game of soccer, and to provide students with the fundamental ability and knowledge needed to enjoy this game as players and as spectators.

Normal Grade Rules
GE: PE
1 unit

KIN 019B. Intermediate Soccer
Designed for students with previous soccer experience to refine technical skills, enhance offensive and defensive tactical awareness, learn various strategy and game philosophies, and improve conditioning. Develop a greater understanding of the rules of the game with an emphasis on the application of skills and strategy in game play.

Prerequisite: KIN 19A (or equivalent) or Instructor Consent

Normal Grade Rules
GE: PE
1 unit

KIN 020A. Beginning Badminton
This course is focused on the development of fundamental badminton skills, basic tactics, simple strategies, etiquette, rules, and their application in single and double games.

Normal Grade Rules
GE: PE
KIN 020B. Intermediate Badminton
This course is focused on improving the quality of fundamental badminton skills, learning intermediate badminton skills and their application, developing intermediate badminton tactics and strategies, good sportsmanship, and playing more effective single and double games in elimination, round robin, and team competitions.
Prerequisite: Completed SJSU beginning badminton class or have equivalent skills/knowledge.
Normal Grade Rules
GE: PE
1 unit

KIN 020C. Advanced Badminton
This course is focused on improving the quality of fundamental and intermediate badminton skills, learning advanced skills and their application, developing advanced badminton tactics and strategies, good sportsmanship, and playing high level games.
Prerequisite: Completed SJSU intermediate class or show equivalent skills/knowledge.
Normal Grade Rules
GE: PE
1 unit

KIN 021A. Beginning Tennis
This course is designed to give students a basic understanding of the game of tennis. Students will be given a chance to learn through lecture, demonstration, drilling and match play.
Normal Grade Rules
GE: PE
1 unit

KIN 021B. Intermediate Tennis
This course is focused on improving the quality of fundamental tennis skills, learning intermediate tennis skills and drills and application, developing intermediate tennis tactics and strategies, establishing proper manners, and playing more effective single and double games in elimination, round robin, and team competitions.
Prerequisite: Completed SJSU beginning class or have equivalent skills/knowledge.
Normal Grade Rules
GE: PE
1 unit

KIN 021C. Advanced Tennis
This course is focused on improving the quality (power, speed, control, and placement) of basic and intermediate tennis skills, learning advanced skills and their application, developing advanced tennis tactics and strategies, good sportsmanship, and playing high level games.
Prerequisite: Completed SJSU intermediate class or have equivalent skills/knowledge.
Normal Grade Rules
GE: PE
1 unit

KIN 022A. Beginning Racquetball
This course is focused on the development of fundamental racquetball skills, basic tactics, simple strategies, etiquette, rules, and their application in single and double games.
Normal Grade Rules
GE: PE
1 unit

KIN 022B. Intermediate Racquetball
This course is focused on improving the quality of fundamental racquetball skills, learning intermediate racquetball skills/drills and application, developing intermediate racquetball tactics and strategies, good sportsmanship, and playing more effective single and double games in different formats.
Prerequisite: Completed SJSU beginning class or have equivalent skills/knowledge.
Normal Grade Rules
GE: PE
1 unit

KIN 023A. Beginning Archery
This course is designed to introduce the student to the basic skills and concepts, provides the opportunity to learn, practice and analyze correct shooting form and to participate in a variety of archery tournaments.
Normal Grade Rules
GE: PE
1 unit

KIN 023B. Intermediate Archery
This course builds upon beginning level skills and knowledge and provides the opportunity to shoot a variety of different archery rounds.
Prerequisite: Beginning level or its equivalent.
Normal Grade Rules
GE: PE
1 unit

KIN 024A. Beginning Bowling
This course is designed to give students an understanding of the sport of bowling and develop fundamental bowling skills.
Normal Grade Rules
GE: PE
1 unit

KIN 024B. Intermediate Bowling
This course is designed to meet the needs of students who have satisfactorily completed the skills in beginning bowling. The course will add more advanced theory and techniques.
Prerequisite: Beginning level or its equivalent.
Normal Grade Rules
GE: PE
1 unit

KIN 024C. Advanced Bowling
Designed for students who are skilled bowlers. A brief review of bowling fundamentals and principles will be followed by in depth lectures on application of principles. Drills will be used to improve skills.
Prerequisite: KIN 24B and a bowling average of 150 or better, alternative would be "scratch" league or a low handicap league plus instructor consent.
Normal Grade Rules
GE: PE
1 unit

KIN 025A. Beginning Golf
Designed for those who have never played golf or who have played very little and have had no basic formal instruction. Provides the student with a sound set of fundamentals to prepare for further instruction, if desired.
Normal Grade Rules
GE: PE
1 unit

KIN 025B. Intermediate Golf
Development of intermediate golf skills and knowledge with a focus on technique that facilitates the acquisition of consistent intermediate level performance.
Prerequisite: KIN 25A or equivalent.
Normal Grade Rules
GE: PE
1 unit

KIN 025C. Advanced Golf
This course is designed for people who might score from the high seventies to the high eighties on a regular basis.
Prerequisite: Intermediate level or its equivalent.
Normal Grade Rules
GE: PE
1 unit

KIN 027A. Beginning Table Tennis
This course is focused on the development of fundamental table tennis skills, basic tactics, simple strategies, etiquette, rules, and their application in single and double games.
Normal Grade Rules
GE: PE
1 unit

KIN 027B. Intermediate Table Tennis
This course is focused on improving the quality of fundamental table tennis skills, learning intermediate table tennis skills and drills and their application, developing intermediate tactics and strategies, good sportsmanship, and playing more effective single and double games in elimination, round robin, and team competitions.
Prerequisite: Completed SJSU beginning class or have equivalent skills/knowledge.
Normal Grade Rules
GE: PE
1 unit

</table>
KIN 048B. Intermediate Latin Dance
This course is focused on the development of intermediate level latin dance skills and knowledge. Dances will be selected from the International Latin, American Rhythm (e.g. Rumba, Cha Cha) and swing dance categories. Prerequisite: KIN 046A or KIN 048A, or equivalent dance experience.
Normal Grade Rules
GE: PE
1 unit

KIN 049A. Topics in Tap Dance I
See DANC 049A.
Repeatable for credit
Normal Grade Rules
1 unit

KIN 049B. Topics in Tap Dance II
See DANC 049B.
Repeatable for credit
Normal Grade Rules
1 unit

KIN 050. Tai Chi (Non-Combative)
Emphasis on knowledge and skill, development of the standard Simplified Tai Chi Form and applications of Tai Chi for life. It is assumed that students enrolled in the class have had little or no experience in Tai Chi.
Normal Grade Rules
GE: PE
1 unit

KIN 051A. Beginning Aikido
This course is focused on the philosophy, history, and basic skills related to the Japanese-derived martial art of Aikido.
Normal Grade Rules
GE: PE
1 unit

KIN 051B. Intermediate Aikido
This course is focused on the development of intermediate level skills and knowledge related to the Japanese-derived martial art of Aikido. It builds upon the basic movement patterns and falling skills introduced in the beginning class.
Prerequisite: KIN 51A or equivalent Aikido skills and experience.
Normal Grade Rules
GE: PE
1 unit

KIN 052A. Beginning Judo
This course is focused on development of the fundamental skills and knowledge related to Judo. Included are basic groundwork and throwing techniques.
Normal Grade Rules
GE: PE
1 unit

KIN 052B. Intermediate Judo
This course is focused on development of intermediate level ground and throwing skills and learning in-depth strategies, philosophy, and culture related to Judo. It builds upon the basic ukemi, newaza, and tachiwaza techniques learned in the beginning class.
Prerequisite: KIN 52A or equivalent judo skills and experience.
Normal Grade Rules
GE: PE
1 unit

KIN 052C. Competitive Judo
Prepares students to use Judo techniques in competitive tournaments. The course will offer intermediate and advanced skills (standing, mat and falling techniques) and strategies to improve competitiveness.
Prerequisite: KIN 052A or KIN 052B, and/or instructor consent.
Repeatable for credit
Normal Grade Rules
GE: PE
1 unit

KIN 053A. Beginning Karate
This course is focused on development of fundamental skills and knowledge related to Karate. Included are basic kicking, punching, and blocking techniques.
Normal Grade Rules
GE: PE
1 unit

KIN 053B. Intermediate Karate
This course is focused on development of intermediate level skills and knowledge related to Karate. It builds upon the fundamental skills and techniques developed in the beginning class.
Prerequisite: KIN 53A or equivalent karate skills and experience.
Normal Grade Rules
GE: PE
1 unit

KIN 054A. Beginning Tae Kwon Do
This course is focused on development of fundamental skills and knowledge related to Tae Kwon Do. Included are basic patterns (poomse), kicking and one-step defenses.
Normal Grade Rules
GE: PE
1 unit

KIN 054B. Intermediate Tae Kwon Do
This course is focused on development of intermediate level skills and knowledge related to Tae Kwon Do. It builds upon the fundamental skills and techniques developed in the beginning Tae Kwon Do class.
Prerequisite: KIN 54A or equivalent Tae Kwon Do skills and experience.
Normal Grade Rules
GE: PE
1 unit

KIN 055A. Beginning Self-Defense
This course is focused on development of fundamental skills and knowledge related to self-defense. Included are mental and physical self-defense skills and techniques applicable under a variety of conditions.
Normal Grade Rules
GE: PE
1 unit

KIN 061A. Beginning Hatha Yoga
In this course the student will learn the correct movements, postures and sequence used in traditional Hatha Yoga.
Normal Grade Rules
GE: PE
1 unit

KIN 061B. Intermediate Hatha Yoga
Further exploration of the theories and practices of Hatha Yoga encompassing the second level series of traditional intermediate Hatha Yoga postures, breathing exercises, and relaxation techniques.
Prerequisite: Beginning level or its equivalent.
Normal Grade Rules
GE: PE
1 unit

KIN 062A. Beginning Ice Skating
A beginning ice skating course that covers the skills identified by the International Ice Skating Association (IIIA).
Normal Grade Rules
GE: PE
1 unit

KIN 063A. Beginning Hiking and Backpacking
An introductory course designed to impact skills such as topographical map reading, navigation and hiking. The emphasis is on logistics and operations of adventure excursions and fitness in various wilderness environments.
Normal Grade Rules
GE: PE
1 unit

KIN 063B. Intermediate Hiking and Backpacking
Intermediate course designed for the student with previous hiking or outdoor adventure experience. Students are responsible for planning, packing and leading at intervals, the entire group on a 3-day overnight hiking and backpacking excursion. Students will learn topographical map, compass reading, fundamental hiking and trip planning.
Prerequisite: KIN 063A or instructor approval
Normal Grade Rules
GE: PE
1 unit

KIN 064A. Beginning Mountaineering
Fundamental mountain climbing techniques for a beginner level climber which includes face climbing, chimney climbing, traversing and rappelling.
Normal Grade Rules
GE: PE
1 unit
KIN 065A. Beginning Ice Hockey
Basic skills, techniques, strategies and rules of ice hockey. No previous skating is required but the ability to skate is highly recommended.
Normal Grade Rules
GE, PE
1 unit

KIN 066. Fit for Life!
Concepts of fitness and wellness, focusing on the importance of regular physical activity for health and well-being throughout the lifespan.
Co-Requirement: Enrollment in a college level physical activity course for academic credit at a CCC or CSU
Pre-requisite: Course is only open to students in approved high unit majors that have received a waiver for the physical education graduation requirement.
Normal Grade Rules
3 units

KIN 068. Visual Representations of Sport in Popular Culture
Critical examination of visual representations of sport in popular culture. Facilitate a deeper understanding and appreciation of the artistic qualities that exemplify works of human creativity as related to sport. GE Area: C1
Normal Grade Rules
GE, C1
3 units

KIN 069. Stress Management: A Multidisciplinary Perspective
The stress process and its relation to health, disease, lifestyle, and the sociocultural environment. Physiological, psychological, sociological, and environmental parameters of stress across the lifespan, emphasizing university resources and stress management strategies to enhance academic, personal, and social development. GE Area: E
Normal Grade Rules
GE, EE
3 units

KIN 070. Introduction to Kinesiology
Explores the broad spectrum of kinesiology as an academic discipline, fundamental concepts and meaning of movement/physical activity, diversity of humans as moving beings, professional/career options, current issues, personal characteristics/professional responsibilities. Kinesiology at SJSU; initiates professional portfolio. Misc/Lab: Lecture 2 hours/activity 2 hours.
Normal Grade Rules
3 units

KIN 080. Individual Movement Studies
Individual work related to motor performance and activity made by special arrangement. Misc/Lab: Activity 2 hours.
Repeatable for credit
Credit / No Credit
1 unit

KIN 100W. Writing Workshop
Advanced skills in writing. Development of writing style and creation of organized, persuasive and analytical prose. Generalized and specialized forms of writing. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); completion of core GE; satisfaction of Writing Skills Test and upper division standing. KIN 70 for major/minors only or instructor consent. Allowed Declared Major Kinesiology.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE, Z
3 units

KIN 101. Sport in America
The role of sport (recreational and professional) as a social, political and economic institution in American society. Critical examination of contemporary issues affecting sport and sport involvement by diverse cultural groups within American society. GE Area: S
Normal Grade Rules
GE, S
3 units

KIN 102. Beginning Ice Hockey
Basic skills, techniques, strategies and rules of ice hockey. No previous skating is required but the ability to skate is highly recommended.
Normal Grade Rules
GE, PE
1 unit

KIN 103. Water Safety Instructor’s Course
Designed to teach the basic concepts, skills and knowledge for successful teaching in the American Red Cross Aquatics program. The content and requirements are in accordance with the American Red Cross and the criterion set forth by the organization.
Prerequisite: Minimum age of 18.
Misc/Lab: Lecture 1 hour/activity 2 hours.
Normal Grade Rules
2 units

KIN 104. Advanced SCUBA and Aquatic Technology
Underwater navigation, light salvage, searches, biological sampling, communications, weightless simulations, construction problem solving and lighting.
Prerequisite: NAUI SCUBA certification (or equivalent).
Misc/Lab: Lecture 1 hour/activity 4 hours.
Normal Grade Rules
GE, PE
3 units

KIN 105. Water Safety Instructor’s Course
Designed to teach the basic concepts, skills and knowledge for successful teaching in the American Red Cross Aquatics program. The content and requirements are in accordance with the American Red Cross and the criterion set forth by the organization.
Prerequisite: Minimum age of 18.
Misc/Lab: Lecture 1 hour/activity 2 hours.
Normal Grade Rules
2 units

KIN 106. Advanced SCUBA and Aquatic Technology
Underwater navigation, light salvage, searches, biological sampling, communications, weightless simulations, construction problem solving and lighting.
Prerequisite: NAUI SCUBA certification (or equivalent).
Misc/Lab: Lecture 1 hour/activity 4 hours.
Normal Grade Rules
GE, PE
3 units

UPPER DIVISION

KIN 107. Adapted Aquatics
Theories, techniques and practices in the instruction of persons with disabilities as they function in the aquatic environment.
Prerequisite: KIN 070 for majors/minors only or instructor consent.
Misc/Lab: Activity 2 hours.
Normal Grade Rules
1 unit

KIN 111. Sport & Movement in a Global Context
Human expression through sport, games, and movement in cultures outside the US, and how those expressions have changed over time. Exploration of how sporting traditions in cultures outside the US have influenced US culture and society. GE Area: V
Prerequisite: Passage of WST or ENGL/LLD 100A with a C or better, upper division standing, completion of CORE GE.
Normal Grade Rules
GE, V
3 units

KIN 111ITL. Sport & Movement in a Global Context: International Experience
Human expression through sport, games, and movement in cultures outside the U.S. and how those expressions have changed over time. Exploration of how sporting traditions outside the US have influenced US culture and society. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE, V
3 units

KIN 145A. Physical Activity for Older Adults
Analyses of development and implementation processes of exercise programs for older adults.
Prerequisite: KIN 070 or instructor consent
Misc/Lab: Lecture 3 hours/Lab 3 hours
Normal Grade Rules
3 units

KIN 145B. Physical Activity for Older Adults
Analyses of development and implementation processes of exercise programs for older adults.
Prerequisite: KIN 70 or instructor consent
Misc/Lab: Lecture 3 hours/Lab 3 hours
Normal Grade Rules
3 units
KIN 147. Biomechanical Assessment of Movement
This class is designed to assist the student in becoming familiar and proficient with the Biomechanical methods and equipment for assessing human movement performance characteristics with the following goals: improving movement effectiveness, preventing injuries, and assessing rehabilitation progress. Prerequisite: KIN 158
Misc/Lab: Lecture 3 hours/Lab 9 hours
Normal Grade Rules
3 units

KIN 149. Child Health and Physical Activity
See CHAD 149.
Normal Grade Rules
3 units

KIN 151. Sports and Fitness Marketing
Course is designed to apply marketing principles and processes to the sport and fitness industry. Content will focus on the sport and fitness product, consumer behavior, consumer satisfaction/dissatisfaction, and the customer experience in sport and fitness organizations. Prerequisite: KIN 070
Normal Grade Rules
3 units

KIN 152. Theory of Sport and Fitness Management
Basic theory of sport management. Topics include sport management and organizational skills, sport marketing and sales; sport communication; sport finance, economics, law and governance. Prerequisite: KIN 070 for majors/minors only or instructor consent.
Normal Grade Rules
3 units

KIN 153. Sport Facility and Event Management
Provide students with the skills necessary to effectively manage sport and fitness facilities and events. Prerequisite: KIN 070; and KIN 152 for sports management emphasis. Open only to declared KIN majors/minors, or instructor consent.
Normal Grade Rules
3 units

KIN 154A. Instrumentation in Exercise Physiology and Biomechanics
Familiarity and proficiency with methods and instruments of assessing physiological and biomechanical characteristics of human performance. Prerequisite: KIN 070 (or equivalent) for majors/minors only or instructor consent; KIN 070; KIN 155; KIN 158 with grades of ‘C-‘ or better in each.
Misc/Lab: Lecture 1 hour/activity 4 hours.
Normal Grade Rules
3 units

KIN 154B. ECG Interpretations and Graded Exercise Testing
Theoretical background and practical proficiency in the methods and instruments of electrocardiogram interpretations and graded exercise testing. Prerequisite: KIN 070 (or equivalent) for majors/minors only or instructor consent; KIN 070; KIN 155 with grades of ‘C-‘ or better in each.
Misc/Lab: Lecture 2 hours/activity 2 hours.
Normal Grade Rules
3 units

KIN 155. Exercise Physiology
Physiological responses and adaptations of the human organism to physical activity. Prerequisite: KIN 070; BIOL 066 and CHEM 030A with a grade of ‘C-‘ or better in each; approved GE Math Concept course. Open only to declared KIN majors/minors, or instructor consent.
Misc/Lab: Lecture 2 hours/activity 2 hours.
Normal Grade Rules
3 units

KIN 156. Introduction to Adapted Physical Activity
Focus on attitude change as well as knowledge, comprehension and application of human movement principles related to individuals with disabling conditions. Prerequisite: KIN 070 for majors/minors only or instructor consent.
Normal Grade Rules
3 units

KIN 157. Physiological Assessment
Use of exercise physiology instrumentation to assess physiological characteristics of human performance, interpret results, and implement corrective strategies, when appropriate. Prerequisite: Chem 30A, GE Math, Biol 66, KIN 70 (C- or better grade), KIN 155 (C- or better grade)
Misc/Lab: Lecture 3 hours/Lab 3 hours
Normal Grade Rules
3 units

KIN 158. Biomechanics
Relationship of structural and mechanical principles of the musculoskeletal system to the analysis of human performance. Prerequisite: KIN 070; BIOL 065 with a grade of ‘C-‘ or better, approved GE Math Concept Course. Open only to declared KIN majors/minors, or instructor consent.
Misc/Lab: Lecture 2 hours/activity 2 hours.
Normal Grade Rules
3 units

KIN 159. Sport and Adapted Activities
Principles of kinesiology for adapting sport and activity for individuals with disabling conditions. Prerequisite: KIN 070 for majors/minors only or instructor consent.
Normal Grade Rules
3 units

KIN 160. History of Sport and Physical Education
Historical survey of physical education and sport from primitive societies through classical and medieval periods to the nineteenth and twentieth centuries. Development of sport, physical education and recreation in the U.S. and factors affecting their growth. Prerequisite: KIN 070 for majors/minors only or instructor consent.
Normal Grade Rules
3 units

KIN 161. Philosophical Perspectives of Sport
Emphasis on systems of philosophy, aesthetic and moral considerations, metaphysical fitness and contemporary issues. Review of leading human movement theorists. Prerequisite: KIN 070 for majors/minors only or instructor consent.
Normal Grade Rules
3 units

KIN 162. Advanced Fitness Assessment and Exercise Prescription
In-depth study and analysis of the principles and techniques used in the assessment of physical fitness and health as well as the design of conditioning programs and physical activities. Prerequisite: KIN 070 (or equivalent) for majors/minors only and KIN 155, or instructor consent. Grade of ‘C-‘ or better in KIN 070 and KIN 155.
Misc/Lab: Lecture 2 hours/Activity 2 hours.
Normal Grade Rules
3 units

KIN 163. Physical Fitness and Nutrition
See NUFS 163.
Normal Grade Rules
GE: R
3 units

KIN 164. Sociocultural Perspectives
Sociocultural processes of sport and play in contemporary society. The study of phenomena arising out of group relations within the realm of kinesiology. Prerequisite: KIN 070 for majors/minors only or instructor consent or lower division social science core GE.
Repeatable for credit
Normal Grade Rules
3 units
KIN 165. Motor Development
Motor development of the individual from birth to maturity. Emphasis upon motor behavior, needs, capacities and interests.
Prerequisite: KIN 070 for majors/minors only or instructor consent.
Normal Grade Rules
3 units
KIN 166. Motor Learning
Concepts, principles and theories of motor learning with application to physical activities.
Prerequisite: KIN 070 for majors/minors only or instructor consent; BIOL 066 with a grade of ‘C’ or better.
Misc./Lab: Lecture 2 hours/lab 2 hours.
Normal Grade Rules
3 units
KIN 167. Sports Psychology
Psychological aspects of sports, including the value of sports, psychological factors involved in competitive as well as non-competitive athletic activities and the role of sports psychologists.
Prerequisite: PSYC 001.
Normal Grade Rules
3 units
KIN 168. Psychology of Coaching
Social, clinical, child, measuring, industrial, personality and organizational psychology and the practical application of the material to coaching.
Prerequisite: KIN 070 for majors/minors only or instructor consent.
Normal Grade Rules
3 units
KIN 169. Diversity, Stress and Health
Impact of structured inequalities on stress and health of diverse populations. Analysis of physiological/psychosocial health factors related to diversity, as well as behavioral interventions and social actions that mediate stress and optimize health and social justice. GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE S
3 units
KIN 170A. Field Experience Coaching on Campus
Practical experience in on-campus programs for coaching minors. May be repeated once for credit.
Prerequisite: KIN 070 for majors/minors only or instructor consent.
Repeatable for credit
Credit / No Credit
1-3 units
KIN 170B. Field Experience Coaching off Campus
Practical experience in off-campus programs for coaching minors. May be repeated once for credit.
Prerequisite: KIN 070 for majors/minors only or instructor consent.
Repeatable for credit
Credit / No Credit
1-3 units
KIN 170C. Fieldwork in Adapted Physical Activity
Supervised experiences in adapted physical activity at selected public and private agencies.
Prerequisite: KIN 070 for majors/minors only or instructor consent; KIN 156. Concurrent enrollment in KIN 172 or KIN 178 or KIN 179
Repeatable for credit
Credit / No Credit
1-3 units
KIN 170D. Fieldwork in Sport Management
Practical experience in a professional work setting while working and observing 100 hours under direct supervision of qualified sport management professionals. Interns assigned a variety of duties and experiences.
Prerequisite: KIN 070, KIN 152, and upper division standing.
Repeatable for credit
Credit / No Credit
1-3 units
KIN 170E. Field Experience Coaching on Campus
Practical experience in on-campus programs for coaching minors. May be repeated once for credit.

Repeatable for credit
Credit / No Credit
2 units
KIN 170G. Field Experience Activity Programs on Campus
Practical experience in on-campus activity programs. Appropriate only for non-teaching concentration areas. Maximum of 3 units may be repeated.
Prerequisite: KIN 070 for majors/minors only or instructor consent.
Repeatable for credit
Credit / No Credit
1 unit
KIN 170H. Field Experience Skin and SCUBA Diving on Campus
Practical experience in skin and SCUBA diving situations. Appropriate for certified SCUBA divers to satisfy certification requirements in on-campus program. Maximum of 4 units may be repeated.
Prerequisite: SCUBA Diver Certificate, Life-Saving, first-aid and CPR certification.
Repeatable for credit
Credit / No Credit
1 unit
KIN 171A. Non Traditional Game and Sport Activities
Non traditional and global game and sport activities appropriate for preadolescents and adolescents in instructional settings.
Prerequisite: KIN 070 for majors/minors only or instructor consent; upper division standing.
Misc./Lab: Lecture/activity 4 hours
Normal Grade Rules
3 units
KIN 172. Elementary School Programs, K-6
Philosophy, principles and activities of physical education appropriate for children.
Prerequisite: KIN 070, KIN 165 or KIN 173. Open only to declared KIN majors/minors or instructor consent.
Co-requisites: KIN 170B or KIN 170C.
Misc./Lab: Lecture/activity 4 hours
Normal Grade Rules
3 units
KIN 173. Intro to Teaching PE & Non-trad Sports
This course will introduce future physical educators to profession of teaching and will include philosophies, ethics, and standards for teaching, legal and current issues, learning-communities, inclusion of non-traditional and global games and sport activities, and observations of effective teaching.
Prerequisite: KIN 070 for majors/minors only or instructor consent or concurrent enrollment; KIN 171A.
Co-requisite: KIN 170B.
Misc./Lab: Lecture 3 hour/Lab 3 hours.
Normal Grade Rules
3 units
KIN 174. Assessment of Psychomotor Function
Basic procedural elements of informal observation, formal performance testing and direct measures of psychomotor function of individuals with disabling conditions.
Prerequisite: KIN 070. Open only to declared KIN majors/minors or instructor consent.
Normal Grade Rules
3 units
KIN 175. Measurement and Evaluation in Kinesiology
Designed to develop an understanding of measurement and evaluation concepts and application relevant to assessment in the psychomotor, cognitive and affective domains. Activities include collection and computer analysis of data.
Prerequisite: KIN 070 for majors/minors only or instructor consent; approved GE Math Concept Course.
Misc/Lab: Lecture/activity 4 hours.
Normal Grade Rules
3 units
KIN 177. Movement Experiences for Children
Physical Education K-6 curricular philosophy and activities appropriate for elementary school personnel; emphasizes the social, emotional, physical and skill development of children in the elementary school setting.
Prerequisite: CHAD 060 or CHAD 067.
Misc/Lab: Lecture 2 hours/activity 2 hours.
Normal Grade Rules
3 units
KIN 178. Management Practices for Physical Education Teachers
Examines current practices for managing student behaviors, instructional technology, legal regulations, and physical fitness needs as well as exploring adolescent development.
Prerequisite: KIN 070 for majors/minors only or instructor consent; KIN 172, KIN 171A or concurrent enrollment and upper division standing.
Corequisite: KIN 170B or KIN 170C.
Misc/Lab: Lecture 2 hours/lab 2 hours.
Normal Grade Rules
3 units
KIN 179. Design and Assessment of Movement Experiences
Integrates concepts from kinesiology, motor learning, motor development to address sequential movement experiences, including qualitative analysis and interactions with performer.
Prerequisite: KIN 070 for majors/minors only or instructor consent; KIN 158, KIN 166 and KIN 178.
Corequisite: KIN 170B or KIN 170C.
Misc/Lab: Lecture/activity 4 hours.
Normal Grade Rules
3 units
KIN 180. Independent Study
Independent study through projects or directed reading related to the field of Kinesiology. Repeatable for a total of 6 units.
Prerequisite: CPA overall of 2.0, KIN 70 or instructor consent
Repeatable for credit
Mandatory CR/NC/RP
1-6 units
KIN 180C. Individual Studies: Coaching
Individual education in selected coaching situations.
Prerequisite: KIN 070, upper division coaching minor; appropriate concepts and performance course, intermediate level competency or instructor consent.
Repeatable for credit
Credit / No Credit
2 units
KIN 184. Directed Reading
Assigned reading of selected books, journals and papers. Conferences with instructor, seminars, reports (oral and written). May be repeated for a total of 4 units.
Prerequisite: KIN 070 for majors/minors only for; instructor and department chair consent.
Repeatable for credit
Credit / No Credit
1-4 units
KIN 185. Senior Seminar
Active learning capstone course designed to synthesize students’ undergraduate preparation, including internship experiences.
Capstone course designed to integrate and synthesize students’ knowledge and skills gained in their undergraduate preparation through active participation in the class and reflection on the internship experience; requires completion of a professional portfolio and a movement project.
Prerequisite: KIN 70, KIN Majors ONLY, KIN Minors
Normal Grade Rules
1 unit
KIN 185H. Senior Seminar - Honors
Examination of a topic of current interest in human performance. Summarized paper to be presented at student seminar.
Prerequisite: KIN 070 for majors/minors only or instructor consent; senior standing, 3.2 or better GPA and 3.5 or better average in major.
Normal Grade Rules
1 unit
KIN 187. Clinical Exercise Physiology
Physiological principles applied to the prevention, management, and treatment of chronic health conditions. Focus on the pathophysiology, acute response to exercise, chronic training effects, and development of appropriate conditioning and training programs for chronic conditions.
Prerequisite: KIN 070 (or equivalent) for majors/minors only or instructor consent; KIN 155, with grades of 'C-' or better in each.
Normal Grade Rules
3 units
KIN 188. Prevention and Care of Athletic Injuries
Prevention through safe equipment, facilities and protective strapping. Methods used to aid recovery.
Prerequisite: KIN 070, BIOL 065 with a grade of 'C-' or better, or instructor consent.
Misc/Lab: Lecture/activity 4 hours.
Normal Grade Rules
2 units
KIN 189. Prevention and Care of Athletic Injuries Laboratory
The laboratory course is designed to provide hands-on experience in the prevention and care of athletic injuries, including preventive and supportive taping techniques, emergency management, and various hands-on experiences related to the prevention of activity related injuries.
Prerequisite: KIN 070, KIN 188 (concurrent enrollment acceptable).
Normal Grade Rules
1 unit
KIN 191A. Advanced Assessment of Lower Extremity Injuries
An advanced course designed to develop knowledge and skills in recognition, assessment, and medical referral of athletic injuries to the lower extremity, thoracolumbar spine, posture and gait. Activity sessions are designed to assist in the development of clinical assessment skills.
Prerequisite: KIN 070, KIN 188, KIN 189. Open only to declared KIN majors/minors or instructor consent.
Misc/Lab: Lecture 3 hour/Lab 3 hours.
Normal Grade Rules
3 units
KIN 191B. Advanced Assessment of Upper Extremity Injuries
An advanced course designed to develop knowledge and skills in recognition, assessment, and medical referral of athletic injuries to the upper extremity, abdomen, thorax, cervical spine, head, and general medical conditions. Activity sessions are designed to develop clinical assessment skills.
Prerequisite: KIN 070, KIN 191A.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units
KIN 193. Organization & Administration in Athletic Training
Theoretical and practical information concerning organization and administration of a modern athletic training program, including managerial styles, personnel, facilities/equipment management, budget, medical records, insurance issues, legal aspects, public relations, and other current topics in athletic training.
Prerequisite: KIN 070 for majors/minors only or instructor consent; KIN 188.
Normal Grade Rules
2 units
KIN 194. Therapeutic Exercise
Theoretical and clinical bases for the use of therapeutic exercise in rehabilitation settings; basic biomechanics, indications, contraindications, and proper application procedures of therapeutic exercise in athletic injury rehabilitation.
Pre/Corequisite: KIN 191A and KIN 191B.
Misc/Lab: Lecture 2 hours/activity 2 hours.
Normal Grade Rules
3 units

KIN 195. Therapeutic Modalities
Theoretical and clinical aspects of therapeutic modalities in athletic rehabilitation. Includes the physics and physiological effects, indications and contra-indications, as well as application procedures of various therapeutic modalities.
Prerequisite: KIN 070 for majors/minors only or instructor consent. KIN 188 and upper division standing.
Misc/Lab: Lecture 2 hours/activity 2 hours.
Normal Grade Rules
3 units

KIN 197A. Practicum in Athletic Training I
Introductory level supervised practical experiences at selected athletic training clinical settings.
Prerequisite: BIOL 065 and BIOL 066 with a grade of ‘C’ in each, KIN 188, KIN 189 and 50 hours of observation. Open only to KIN majors.
Repeatable for credit
Credit / No Credit
1 unit

KIN 197B. Practicum in Athletic Training II
Observations and experiences within the profession of athletic training to assist in developing required National Athletic Trainers’ Association competencies. Interns supervised on a daily basis by a NATA-certified athletic trainer.
Prerequisite: KIN 197A. Open only to KIN majors.
Repeatable for credit
Credit / No Credit
1 unit

KIN 197C. Practicum in Athletic Training III
Clinical internship in allied health-related situations, e.g., physician’s offices, physical therapy sports medicine clinics, etc. Typically off-campus assignment.
Prerequisite: KIN 191A and KIN 191B (concurrent enrollment in KIN 191B is allowed). KIN 197B and professional insurance recommended.
Repeatable for credit
Credit / No Credit
1 unit

KIN 197D. Practicum in Athletic Training IV
Course is designed to provide the student with advanced, diverse, supervised, and practical experiences in the athletic training profession. Selected on-an-off campus clinical settings will be used to assist the student in the development of professional competencies and proficiencies.
Prerequisite: KIN 195; KIN 197C.
Credit / No Credit
1 unit

KIN 198. Internship in Kinesiology
Practical professional experiences related to the field of Kinesiology. Experiences are varied and can include exercise testing, prescription and evaluation; program leadership, design, and/or administration, coaching, and sport medicine internships. May be repeated for a total of 6 units.
Prerequisite: Upper division status; GPA overall of 2.0; KIN 70 or instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

GRADUATE

KIN 250. Fundamentals of Quantitative Research
Design, analysis and interpretation of quantitative research. Course focuses on the research process from the formulation of a research problem through the analysis of data. Topics include: ethics in research, research design and analysis issues and techniques, psychometrics, descriptive statistics, parametric and non-parametric inferential statistics, critiquing research.
Prerequisite: KIN 175 (or equivalent).
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units

KIN 251. Fundamentals of Qualitative Research
Design, analysis and interpretation of qualitative research. Course focuses on the research process from the formulation of a research problem through the analysis of data. Topics include: ethics in research, research design and analysis issues and techniques, data representation, critiquing research.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units

KIN 255. Advanced Exercise Physiology
Survey and critical evaluation of current concepts and literature regarding physiological regulatory mechanisms of the oxygen transport system and muscle metabolism. Acute and chronic effects of exercise with emphasis placed on physiological limitations.
Prerequisite: KIN 155 (or equivalent).
Normal Grade Rules
3 units

KIN 256. Environmental Exercise Physiology
Survey and critical evaluation of current concepts and literature regarding various and environmental (heat, cold, altitude, etc.) conditions as they affect the typical responses to exercise. Acute effects and chronic adaptations examined.
Prerequisite: KIN 155 (or equivalent).
Normal Grade Rules
3 units

KIN 257. Biomechanics
Principles and laws of physics and mechanics as applied to analysis of human movement activities. Critical evaluation of current research findings in sport biomechanics.
Prerequisite: KIN 158 (or equivalent).
Normal Grade Rules
3 units

KIN 259. Advanced Internship in Adapted Physical Activity
Advanced, supervised practicum for the development of direct service, administration/supervision, in-service training and advocacy/leadership competencies in adapted physical activity.
Prerequisite: BS degree with emphasis in adapted physical education and/or satisfactory completion of specified didactic curriculum.
Repeatable for credit
Credit / No Credit
1-3 units

KIN 260. Philosophy of Sport and Embodiment
Development of a consistent set of basic professional values compatible with individual differences which may serve as a frame of reference for professional behavior.
Prerequisite: KIN 161 (or equivalent).
Normal Grade Rules
3 units

KIN 264. Sport Sociology
An in-depth study of the relationship between sport and society. Focus will be on social and cultural factors that affect how Americans play and view sport.
Prerequisite: KIN 164 (or equivalent).
Normal Grade Rules
3 units
KIN 265. Advanced Motor Development
Examination of specific theory and research related to the movement changes that occur across the lifespan. Interpretation of recent related research and individually guided investigation of a specific area of concern in motor development.
Prerequisite: KIN 165 (or equivalent).
Normal Grade Rules
3 units

KIN 266. Principles and Concepts of Perceptual Motor Learning
Motor behavior and the learning patterns developed in acquiring skill in a motor activity.
Prerequisite: KIN 166 (or equivalent).
Normal Grade Rules
3 units

KIN 267. Advanced Sport Psychology
Sport psychology research and its use in field settings. Major theoretical areas (anxiety, motivation, cohesion, etc.) and their application in sport.
Prerequisite: KIN 167 and KIN 168 (or equivalent).
Normal Grade Rules
3 units

KIN 268. Evidence Based Research and Practice in Management and Assessment of Injuries to the Lower Extremities
Multidisciplinary approach for recognition, initial care, treatment, and rehabilitation used to return athletes to lower extremity pre-injury fitness levels. (First course in two-course series.)
Prerequisite: BIOL 065, BIOL 066, KIN 155, KIN 158 and KIN 188.
Normal Grade Rules
2 units

KIN 269. Evidence Based Research and Practice in the Mgmt and Assessment of Injuries to the Upper Extremity
Multidisciplinary approach for recognition, initial care, treatment and rehabilitation used to return an athlete to upper extremity pre-injury fitness levels (second course in two-course series).
Prerequisite: KIN 268.
Normal Grade Rules
2 units

KIN 271. Advanced Topics in Athletic Training
This course is designed to improve the basic knowledge of athletic training students. Topics include outcome research and practical applications for mild traumatic brain injury, alteration evaluation skills for athletic injuries, and research design in the field of athletic training.
Normal Grade Rules
3 units

KIN 272. Evidence Based Research in the Practice of Therapeutic Exercise
Investigation of the scientific and philosophical bases of therapeutic exercise and therapeutic modalities with reference to the rehabilitation process, and to acquire skills necessary for prudent application of current modalities and techniques.
Prerequisite: KIN 155, KIN 158 and KIN 188 (or equivalent).
Normal Grade Rules
3 units

KIN 273. Evidence Based Research in the Practice of Therapeutic Modalities
An advanced course designed to critically evaluate the scientific and philosophical bases of therapeutic modality use. The course is intended to provide the student with the information necessary to perform prudent clinical applications of therapeutic modalities on orthopedic injuries.
Normal Grade Rules
2 units

KIN 278. Advanced Fieldwork in Sport Management
Advanced practical experience in a professional work setting under direct supervision of qualified sport management professionals. Interns assigned a variety of duties and experiences.
Prerequisite: Graduate standing or instructor consent.
Credit / No Credit
1-3 units

KIN 279. Master of Arts Seminar in Kinesiology
The purpose of this seminar course is to offer an intensive, comprehensive focus of a specific topic, and/or theme as it relates to the study of kinesiology.
Prerequisite: Graduate standing or instructor consent.
Normal Grade Rules
3 units

KIN 292A. Leadership and Administration in Athletic Training
Current problems and issues related to the athletic training profession. Topics include professional ethics and competency, medicolegal issues, administration of athletic training programs, stress management and drug testing.
Normal Grade Rules
1 unit

KIN 292B. Seminar in Sports Medicine II
Current issues related to the athletic training profession. Topics include eating disorders, injury rehabilitation and management. Related topics of medical and scientific nature will be discussed with guest lecturers.
Miss/Lab: Lecture 2 hours/Supervision 1.5 hours
Normal Grade Rules
2 units
KIN 293A. Fieldwork in Athletic Training I  
Advanced practical experience in athletic training under the direct supervision of qualified sports medicine professionals.  
Misc/Lab: Lecture 3 hours/Supervision 1.5 hours.  
Credit / No Credit  
2 units

KIN 293B. Fieldwork in Athletic Training II  
Advanced practical experience in athletic training under the direct supervision of qualified sports medicine professionals.  
Prerequisite: KIN 293A.  
Misc/Lab: Lecture 3 hours/Supervision 1.5 hours.  
Credit / No Credit  
2 units

KIN 293C. Fieldwork in Athletic Training III  
Advanced practical experience in athletic training under the direct supervision of qualified sports medicine professionals.  
Prerequisite: KIN 293A, KIN 293B.  
Misc/Lab: Lecture 3 hours/Supervision 1.5 hours.  
Credit / No Credit  
2 units

KIN 293D. Fieldwork in Athletic Training IV  
Advanced practical experience in athletic training under the direct supervision of qualified sports medicine professionals.  
Prerequisite: KIN 293A, KIN 293B and KIN 293C.  
Misc/Lab: Lecture 3 hours/Supervision 1.5 hours.  
Credit / No Credit  
2 units

KIN 296A. Advanced Topics in Athletic Training  
This course covers current topics in the field of athletic training education. Topics may include but are not limited to: outcome research and practical applications for concussion management, movement patterns, and shoulder orientation and scapular adaptation for overhead athletes.  
Normal Grade Rules  
3 units

KIN 298. Special Studies  
Advanced individual research and projects.  
Prerequisite: KIN 250.  
Repeatable for credit  
Mandatory CR/NC/RP  
3 units

KIN 299. Master’s Thesis or Project  
Prerequisite: KIN 250 and admission to candidacy for the master’s degree.  
Repeatable for credit  
Mandatory CR/NC/RP  
1-6 units

KINESIOLOGY TEACHER EDUCATION

UPPER DIVISION

KNED 184I. Student Teaching for Kinesiology Individualized Interns  
Supervised student teaching in Kinesiology class(es) in the public school where the student is employed as an individualized intern.  
Prerequisite: Admission to Single Subject Credential Program; kinesiology advisor and Single Subject Coordinator consent  
Repeatable for credit  
Credit / No Credit  
2-4 units

KNED 184Y. Student Teaching II: Classroom Teaching  
Minimum 80-120 class periods of classroom, teaching laboratory or field teaching in appropriate single subjects, grades K-12 and related teaching activities and seminar.  
Prerequisite: Joint approval of major and Education departments.  
Repeatable for credit  
Credit / No Credit  
4-6 units

KNED 184Z. Student Teaching III - Classroom Teaching  
Notes: May be in different subject/school and will be at a different grade level.  
See KNED 184Y.  
Repeatable for credit  
Credit / No Credit  
4-6 units

KNED 339. Instructional Materials and Procedures in Physical Education  
Application of theories of learning and principles of teaching to the selection of instructional procedures to be used in physical education. Practical experience provided.  
Prerequisite: KIN 170B.  
Notes: Physical education majors and minors only.  
Mandatory CR/NC/RP  
3 units
LINGUISTICS

LOWER DIVISION

LING 020. Nature of Language
Introduction to the nature of language as a social institution and practice in observing language structure and use in local speech communities. GE Area: D1
Normal Grade Rules
GE: D1
3 units

LING 021. Language and Thinking
Exploring systems of language and logic in oral and written discourse, with a focus on the role of shared cultural assumptions, language style and the media of presentation in shaping the form and content of argumentation. GE Area: A3
Normal Grade Rules
GE: A3
3 units

LING 022. Language across the Lifespan
Introduction to what is known about how people successfully learn second languages, with a focus on physiological, psychological, social-cultural and linguistic factors that affect second language acquisition, and on skills and strategies that promote language learning across the lifespan. GE Area: E
Normal Grade Rules
GE: EE
3 units

LING 024. Language Variation in Space, Time, & Culture
Exploring the diverse structural patterns and social functions found in English; analyzing the social, cultural, political, historical, and technological factors underlying language change; developing critical thinking and effective argumentation in writing. GE Area: A3 or D1
Normal Grade Rules
GE: A3 or D1
3 units

LING 092. Int’l Program Studies
Repeatable for credit
Mixed Grading
1-9 units

UPPER DIVISION

LING 101. Introduction to Linguistics
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

LING 107. Patterns of English
Description of the sound, word-formation, sentence, semantic and discourse patterns of English. Analysis of contemporary examples of spoken and written English.
Prerequisite: Written Communication I (or equivalent).
Normal Grade Rules
3 units

LING 108. Introduction to Second Language Development, Teaching, and Assessment
Theoretical and practical approaches to how people learn first, second, and foreign languages in bilingual and multilingual educational settings. Methods, materials, and assessment of language development for English language learners K-16.
Prerequisite: LING 101 or ENGL 103 or LLD 107.
Normal Grade Rules
3 units

LING 111. Introduction to Linguistic Phonetics
Production, recognition and accepted transcription of speech sounds used in languages. Physiological and acoustic analysis of speech.
Prerequisite: LING 101 or instructor consent.
Normal Grade Rules
3 units

LING 112. Introduction to Syntax
Introduction to the study of sentence structure: Syntactic constructions; constituent structure; grammatical relations; dependency relations; problems in syntactic analysis; formal systems for describing syntactic structure; typological range of syntactic phenomena.
Prerequisite: LING 101.
Normal Grade Rules
3 units

LING 113. Introduction to Phonology
Examination of sound patterns found in the world’s languages, their description via traditional phonemic analysis, distinctive feature analysis and rule writing in the format of generative phonology.
Prerequisite: LING 101 and LING 111.
Normal Grade Rules
3 units

LING 114. Introduction to Semantics and Discourse
Approaches to meaning, truth conditional semantics, relation of semantics to pragmatics and speech act theory (e.g., presupposition, deixis, adjacency pairs) and text structure (cohesion).
Prerequisite: LING 101 or instructor consent.
Normal Grade Rules
3 units

LING 115. Corpus Linguistics
Introduction to the use of large collections of computer-readable text ("corpora") in linguistics. Focus on text processing techniques and quantitative data analysis. Other topics: philosophical foundations; lexical resources, the WWW as corpus; applications to stylistics, language teaching, and sociolinguistics.
Prerequisite: LING 101 or instructor consent.
Normal Grade Rules
3 units

LING 122. English as a World Language
A survey of the ways and the purposes which English is used in diverse societies and cultures around the world, including the United States; implications for international and cross-cultural communication. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or core-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units

LING 123. Sound and Communication
Basic acoustics and nature of sound as applied to the study of vocal communication by humans and other animals. Voice communication as transmission of a speech code via sound. GE Area: R
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or core-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: R
3 units

LING 124. Introduction to Speech Technology
Strategies in man-machine communication, with a focus on speech recognition and speech synthesis. Computer modeling of speech production and perception.
Prerequisite: LING 101, LING 111 or instructor consent.
Normal Grade Rules
3 units
LING 125. Introduction to Historical and Comparative Linguistics
Why and how languages change; how linguists go about studying, documenting and explaining such change. Social and phonetic motivations for change. Language families and proto-languages. Prerequisite: LING 101, LING 111 or instructor consent. Normal Grade Rules 3 units

LING 129. Culture, Language and Ethnicity in the U.S.
The role of language in the formation of culture and ethnicity in the U.S. Language and culture contact between indigenous, colonial and immigrant peoples. GE Area: S Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. Normal Grade Rules 3 units

LING 161. Psycholinguistics
Psychology of language. Child language acquisition, language disorders, representation of language in the brain, cognitive aspects of linguistic communication, theories of language in linguistics and psychology. Prerequisite: LING 101 Normal Grade Rules 3 units

LING 162. Introduction to Morphology
Examination of the morphological structure of words; morphological typology; morphemes, morphs and allomorphs; issues in inflectional and derivational morphology; morphophonemics; word syntax; productivity, markedness, iconicity. Prerequisite: LING 101 or instructor consent. Normal Grade Rules 3 units

LING 165. Introduction to Natural Language Processing
Computer processing of text using data-driven (statistical) and knowledge-driven (rule-based) methods. Applications including spelling correction, information retrieval, question answering, and machine translation. Prerequisite: LING 101 and LING 115, or instructor consent. Normal Grade Rules 3 units

LING 166. Sociolinguistics: Cross-Cultural Communication
Relationship between language and society; inter- and intracultural communication; non-verbal communication; language and cognition; language planning. Prerequisite: LING 101 or Instructor Consent Normal Grade Rules 3 units

LING 180. Individual Studies
Individual work by arrangement. Prerequisite: Instructor consent and department chair approval. Repeatable for credit Credit / No Credit 1-3 units

GRADUATE

LING 201. Phonology: Theory and Applications
Survey of the theoretical issues in phonology; language universals; notions of markedness and natural rules, psychological reality of phonological constructs. Applications to language teaching, speech synthesis and automatic speech recognition. Prerequisite: LING 101, LING 111 and LING 113. Normal Grade Rules 3 units

LING 202A. Syntactic Theory
Aspects of syntax and grammatical theory. Prerequisite: LING 101 and LING 112. Normal Grade Rules 3 units

LING 203. Semantic Structures
Aspects of meaning and semantic theory. Prerequisite: LING 101 and LING 114, or instructor consent. Normal Grade Rules 3 units

LING 213. Linguistic Field Methods
Methods in phonological, morphological and syntactic analysis of linguistic data obtained from native-speaker informants. Prerequisite: LING 101, LING 111, LING 112 and LING 113 (or equivalents). Normal Grade Rules 3 units

LING 298. Individual Studies
Advanced individual research. Prerequisite: Instructor consent Repeatable for credit Mandatory CR/NC/RP 1-4 units

LING 299. Master's Thesis or Project
Thesis or project research. Repeatable for credit Mandatory CR/NC/RP 1-6 units

NO DEGREE CREDIT

LING 1290R. Culminating Experience Supervision
Continued work on thesis or project. Prerequisite: Outstanding RP grade in a preceding semester in a project or thesis class. Note: No Degree Credit. Repeatable for credit No Degree Credit 1 unit

LINGUISTICS AND LANGUAGE DEVELOPMENT

UPPER DIVISION

LLD 100A. Writing Competency through Genres
Satisfies the WST requirement if passed with a C or better. Prepares students for 100W through drafting feedback and revision to demonstrate competency. Develops the ability to analyze written genres used in the students’ chosen disciplines and to write analytical and reflective essays. Prerequisite: Must have failed the WST. Note: A CR/NC option may not be used to satisfy the WST requirement. Normal Grade Rules 3 units

LLD 100W. Writing Workshop
Advanced composition. Instruction and practice in reading, discussing and writing about issues germane to the student’s major field of study. GE Area: Z Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing. Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR). Normal Grade Rules GE: Z 3 units
LLD 100WB. Writing Workshop for Business Students
Instruction and practice in reading, oral interaction and writing activities germane to the genres of the business world. GE Area: Z
Prerequisite: Completion of Core GE, ENGL 2 or any Area A3 course (Critical Thinking and Writing) with a grade of C- or better, Passage of a Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), and Upper division standing (60 units).
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR). Normal Grade Rules
GE: Z
3 units

LLD 182. Tutorial Practicum
Directed practical experience in tutoring academic English at the college level. Prerequisite: LING 101, LLD 107 or ENGL 103.
Repeatable for credit
Credit / No Credit
1 unit

GRADUATE

LLD 250W. Becoming a Professional in Linguistics/TESOL
Course focuses on the research and communication skills needed to become an active and effective member of the professional community in linguistics or TESOL. Note: This course satisfies graduate-level GWAR in this master's program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
3 units

LLD 260. English Structures for Teaching I
The phonological, morphological and syntactic structures of English for pedagogical purposes. Prerequisite: LING 101 and LLD 107.
Normal Grade Rules
3 units

LLD 261. English Structures for Teaching II
The semantic, pragmatic and discourse structure of English for pedagogical purposes. Prerequisite: LLD 260 or Instructor Consent
Normal Grade Rules
3 units

LLD 270. Second Language Acquisition
Products and processes of child and adult second language acquisition: classroom instruction versus untutored settings; psychological variables; individual differences, interlanguage hypothesis; input and interaction in language development; organization of language systems of bilinguals. Prerequisite: LING 101.
Normal Grade Rules
3 units

LLD 271. Intercultural Communication and Second Language Acquisition
The social and cultural factors that affect first and second language acquisition and use. Understanding how to function in intercultural settings. Prerequisite: LING 101.
Normal Grade Rules
3 units

LLD 280. Methods and Materials for Teaching English to Speakers of Other Languages
A critical approach to evaluating learners' needs, designing curricula, identifying and evaluating materials, and applying appropriate methods and techniques in the ESL classroom. Prerequisite: LING 101.
Normal Grade Rules
3 units

LLD 282. Practicum in Teaching English to Speakers of Other Languages
Directed practical experience in teaching English to speakers of other languages. Prerequisite: LLD 280.
Credit / No Credit
3 units

LLD 283. Curriculum and Assessment in TESOL
Theories and practices of needs analysis, curriculum design and assessment. Hands-on experience in identifying learner needs, determining instructional objectives, designing curricula/syllabi and constructing appropriate assessment instruments. Prerequisite: LLD 280 (or equivalent).
Normal Grade Rules
3 units

LLD 293. Teaching College-level Reading and Writing
Theoretical foundations of literacies; strategies and approaches for teaching academic reading and writing to culturally and linguistically diverse classes in college and other post-secondary contexts. Prerequisite: LING 101, LING 107, or ENGL 103
Normal Grade Rules
3 units

LLD 298. Individual Studies
Advanced individual research. Prerequisite: Instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

LLD 299. Master's Thesis or Project
Thesis or project research. Repeatable for credit
Mandatory CR/NC/RP
1-6 units

NO DEGREE CREDIT

LLD 1001. Academic English I
Emphasis on development of English for academic purposes. Integration of reading and writing, supplemented by use of oral language. Required for students scoring 141 and below on the EPT.
Mandatory CR/NC/RP
Notes: No degree credit.
No Degree Credit
5 units

LLD 1002. Academic English II
Continued emphasis on the development of English for academic purposes. Integration of reading and writing, supplemented by use of oral language. Required for students scoring between 142 and 148 (inclusive) on the EPT or advancing from LLD 1001.
Notes: No Degree Credit.
No Degree Credit
3 units

LLD 1004. Tutorial for Successful Writing
Tutorial consists of a combination of one-on-one interaction with a tutor and facilitated word processing in the computer lab. It is designed to support the development of academic writing skills.
Notes: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit

LLD 1290R. Culminating Experience Supervision
Continued work on thesis or project. Prerequisite: Outstanding RP grade in a preceding semester in a project or thesis class
Notes: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit
Mathematics and Statistics Department Courses

MATHMATICS

LOWER DIVISION

MATH 001. Mathematical Reasoning
Focus on foundational mathematical skills and knowledge in the context of contemporary society. GE Area: B4.
Corequisite: MATH 301S, required for Math Enrollment Categories M-III and M-IV.
Normal Grade Rules
GE: B4
3 units

MATH 008. College Algebra
Prerequisite: MATH Enrollment Category M-I, M-II, or M-III; or MATH 001 with a grade of C- or better. MATH 100S required as a corequisite for Enrollment Categories M-III and M-IV, and recommended for Enrollment Category M-II.
Corequisite: MATH 008W recommended
Normal Grade Rules
GE: B4
3 units

MATH 008W. College Algebra Workshop
Designed to help all students excel in College Algebra. Students work in groups on challenging college algebra problems to help them understand the concepts in College Algebra more deeply and lay the groundwork for success in future math courses.
Corequisites: MATH 8 is required.
Repeatable for credit
Credit / No Credit
1 unit

MATH 010. Mathematics for General Education
Topics include methods of proof, problem solving, trigonometry, probability, statistics, applications to scheduling and apportionment, population studies, consumer math, theory of games, polyhedra, networks, graph theory, linear programming. GE Area: B4.
Prerequisite: MATH Enrollment Category M-I or M-II, or MATH 001 with a grade of C- or better.
Normal Grade Rules
GE: B4
3 units

MATH 010A. Mathematics in Art, Music, and Politics
Corequisite: MATH 1010AS required for Math Enrollment Categories M-III and M-IV.
Normal Grade Rules
GE: B4
3 units

MATH 010B. Number Systems
Structure of the real number system, numeration systems, elementary number theory, and problem-solving techniques; technology integrated throughout the course. GE Area: B4.
Prerequisite: Two years of high school algebra; one year of high school geometry; Math Enrollment Category M-I or M-II, or MATH 001 with a grade of C- or better.
Normal Grade Rules
GE: B4
3 units

MATH 015F. Statway Part A: Statistics-Concepts & Methods
See UNVS 015F.
Normal Grade Rules
3 units

MATH 015S. Statway Part B: Statistics-Concepts & Methods
See UNVS 015S.
Normal Grade Rules
3 units

MATH 019. Precalculus
Preparation for calculus: polynomial, rational, exponential, logarithmic and trigonometric functions; analytic geometry. GE Area: B4.
Prerequisite: MATH Enrollment Category M-I, M-II, or M-III; or MATH 001 with a grade of C- or better. MATH 101S required as a corequisite for Enrollment Category M-II, and recommended for Enrollment Category M-III.
Corequisite: MATH 019W, to opt out of MATH 019W, contact the Math Department office.
ABC/No Credit
GE: B4
5 units

MATH 019W. Precalculus Workshop
Designed to help all students excel in MATH 019. Students work in groups on challenging problems to help them understand precalculus concepts more deeply and lay the groundwork for success in future math courses.
Corequisite: enrollment in MATH 019 is required.
Repeatable for credit
Credit / No Credit
1 unit

MATH 030. Calculus I
Introduction to calculus including limits, continuity, differentiation, applications and introduction to integration. Graphical, algebraic and numerical methods of solving problems. GE Area: B4.
Prerequisite: Math Enrollment Category M-I, satisfactory score on the Calculus Placement Exam, or MATH 019 (with a grade of B or better to waive the placement exam).
Corequisite: MATH 030W, to opt out of MATH 030W, contact the Math Department office.
Note: MATH 030 is treated as a repeat for students who have taken MATH 030P or MATH 030PL.
Normal Grade Rules
GE: B4
3 units

MATH 030P. Calculus I with Precalculus
Selected topics in precalculus. Introduction to calculus including limits, continuity, differentiation, applications, and introduction to integration. Graphical, algebraic and numerical methods of solving problems. GE Area: B4.
Prerequisite: Math Enrollment Category M-I, satisfactory score on the Calculus Placement Exam, or MATH 019 (with a grade of C- or better to waive the placement exam).
Corequisite: MATH 030W, to opt out of MATH 030W, contact the Math Department office.
Note: MATH 030P is treated as a repeat for students who have taken MATH 030 or MATH 030PL.
Normal Grade Rules
GE: B4
5 units

MATH 030PL. Calculus I with Precalculus
Selected topics in precalculus. Introduction to calculus including limits, continuity, differentiation, applications, and introduction to integration. Graphical, algebraic and numerical methods of solving problems. GE Area: B4.
Prerequisite: Math Enrollment Category M-I, satisfactory score on the Calculus Placement Exam, or MATH 019 (with a grade of C- or better to waive the placement exam).
Note: MATH 030PL is treated as a repeat for students who have taken MATH 030 or MATH 030P.
Misc/Lab: Lecture 5 hours/Lab 3 hours
Normal Grade Rules
GE: B4
6 units

MATH 030W. Calculus I Workshop
Designed to help all students excel in Calculus I. Students work in groups on challenging calculus problems to help them understand the concepts in Calculus I more deeply and lay the groundwork for success in future math courses.
Corequisite: MATH 30 or MATH 30P required.
Repeatable for credit
Credit / No Credit
1 unit
MATH 031. Calculus II
Prerequisite: AP Calculus AB score 3 to 5, AP Calculus BC/AB Subscore 3-5, satisfactory score on the Calculus Placement Exam, or MATH 030 or 030P or 030PL (with a grade of C- or better).
Corequisite: MATH 031W, to opt out of MATH 031W, contact the Math Department office.
Note: Passing this course with a grade of “C-” or better course fulfills GE Area B4.
Normal Grade Rules
GE: B4
4 units

MATH 031W. Calculus II Workshop
Designed to help all students excel in Calculus II. Students work in groups on challenging calculus problems to help them understand the concepts in Calculus II more deeply and lay the groundwork for success in future math courses.
Pre/Corequisite: enrollment in MATH 31 is required.
Repeatable for credit
Credit / No Credit
1 unit

MATH 032. Calculus III
Functions of more than one variable, partial derivatives, multiple integrals and vector calculus. Graphical, algebraic and numerical methods of solving problems. GE Area B4.
Prerequisite: AP Calculus BC score 3 to 5, MATH 031 (with a grade of C- or better).
Corequisite: MATH 032W, to opt out of MATH 032W, contact the Math Department office.
Normal Grade Rules
GE: B4
3 units

MATH 032H. Honors Multivariable Calculus
Functions of more than one variable, partial derivatives, and multiple integrals. Vector fields, line and surface integrals, Green’s Theorem, Stokes’ Theorem, Divergence Theorem. Applications to engineering and science.
Prerequisite: A score of 4 or 5 on the AP Calculus BC exam or Instructor Consent.
Miss/Lab Lecture 3 hours/Lab 3 hours
Normal Grade Rules
GE: B4
4 units

MATH 032W. Calculus III Workshop
Designed to help all students excel in Calculus III. Students work in groups on challenging calculus problems to help them understand the concepts in Calculus III more deeply and lay the groundwork for success in future courses.
Corequisite: Enrollment in MATH 032 required
Repeatable for credit
Credit / No Credit
1 unit

MATH 041. Probability
Introduction to the concepts of probability. Problems useful to junior and senior high school teachers.
Prerequisite: Equivalent of MATH 001 with a grade of “C-” or better.
Normal Grade Rules
GE: Z
3 units

MATH 042. Discrete Mathematics
Sets, logic, methods of proof including mathematical induction, functions, relations, elementary combinatorics, probability, Boolean algebras.
Prerequisite: MATH 19 with a grade of “C” or better, or eligibility for MATH 30 or 30P or 30PL.
Normal Grade Rules
3 units

MATH 042W. Discrete Math Workshop
A course designed to help all students excel in Discrete Mathematics. Students work in groups on challenging discrete mathematics problems to help them understand the concepts in discrete math more deeply and lay the groundwork for success in future courses.
Corequisite: Concurrent enrollment in MATH 042 required.
Repeatable for credit
Credit / No Credit
1 unit

MATH 050. Scientific Computing I
See METR 050.
Normal Grade Rules
2 units

MATH 070. Finite Mathematics
Systems of linear equations and inequalities, matrices, linear programming, set theory and probability theory, applications to business and to social sciences. GE Area B4.
Prerequisite: MATH 001 with a grade of C- or better, or satisfactory score on the Calculus Placement Exam.
Normal Grade Rules
GE: B4
3 units

MATH 071. Calculus for Business and Aviation
Prerequisite: MATH 008 (grade of C- or better), or MATH 019 (grade of C- or better), or a score of 550 or higher on the SAT Math, or a score of 23 or higher on ACT math, or a satisfactory score on the Calculus Placement Exam.
Corequisite: MATH 071W, to opt out of MATH 071W, contact the Math Department office.
Normal Grade Rules
GE: B4
3 units

MATH 071W. Calculus Workshop for Business/Aviation
Designed to help all students excel in Calculus for Business/Aviation. Students work in groups on challenging calculus problems to help them understand the concepts in calculus more deeply and lay the groundwork for success in future courses.
Corequisite: Enrollment in MATH 071 is required.
Repeatable for credit
Credit / No Credit
1 unit
### MATH 106. Intuitive Geometry
Introductory geometry, measurement, inductive and deductive reasoning, introduction to transformations, and problem-solving techniques; technology integrated throughout the course.
Prerequisite: MATH 012 and MATH 105 (with grades of "C-" or better); two years of high school algebra; one year of high school geometry.
Normal Grade Rules
3 units

### MATH 107A. Explorations in Algebra
Comprehensive view of school algebra primarily for the mathematical preparation of teachers. The computer will be used to generate examples, investigate relationships, explore algorithms and solve problems. Functions and relations used as a unifying theme throughout.
Prerequisite: MATH 106 (with a grade of "C-" or better), or instructor consent.
Normal Grade Rules
3 units

### MATH 107B. Explorations in Geometry
Comprehensive view of elementary geometry primarily for the mathematical preparation of teachers. The computer will be used to investigate two- and three-dimensional patterns, measurement and parallelism. Transformational approach to congruence and similarity.
Prerequisite: MATH 106 (with a grade of "C-" or better), or instructor consent.
Normal Grade Rules
3 units

### MATH 108. Introduction to Abstract Mathematics and Proofs
The purpose of this course is to develop students' mathematical maturity and skill with proofs. Material covered will include logic, set theory including functions, relations, and cardinality, the real number system, including the completeness axiom, and selected topics.
Prerequisite: MATH 31 and MATH 42 (with a grade of "C-" or better in each) or instructor consent.
Normal Grade Rules
3 units

### MATH 110. Vector Calculus
Vector fields, line and surface integrals, Green's Theorem, Stokes' Theorem, Divergence Theorem and advanced topics such as differential forms or applications to mechanics, fluid mechanics, or electromagnetism.
Prerequisite: MATH 32 with a grade of "C-" or better) or instructor consent.
Normal Grade Rules
3 units

### MATH 113. Differential Geometry
Properties of curves and surfaces, Frenet-Serret formulas and the fundamental forms. Study of curves and surfaces in the small by means of differential calculus.
Prerequisite: MATH 32 and MATH 129A (with a grade of "C-" or better in each) or instructor consent.
Notes: Offered only occasionally.
Normal Grade Rules
3 units

### MATH 115. Modern Geometry and Transformations
Synthetic and analytic theory of projective transformations, similarities, Euclidean motions, inversive geometry and an introduction to non-Euclidean geometry.
Prerequisite: MATH 31 (with a grade of "C-" or better) or instructor consent.
Normal Grade Rules
3 units

### MATH 123. Differential Equations and Linear Algebra
Matrices, determinants, systems of linear equations, vector geometry, linear transformations, eigenvalues and eigenvectors, diagonalization, first order differential equations, linear systems of differential equations, higher order differential equations, Laplace transforms.
Prerequisite: MATH 31 (with a grade of "C-" or better) or instructor consent.
Normal Grade Rules
3 units

### MATH 123W. Differential Equations and Linear Algebra Workshop
A course designed to help all students excel in Linear Algebra and Ordinary Differential Equations (ODE's). Students work in groups on challenging problems to help them understand the concepts of Linear Algebra and ODE's more deeply and lay the groundwork for success in future courses.
Prerequisite: MATH 32 (with a grade of C- or better)
Corequisite: MATH 123
Repeatable for credit
Credit / No Credit
1 unit

### MATH 126. Theory of Numbers
Divisibility, prime numbers, congruences of first and higher degrees, theorems of Fermat, Euler and Wilson. Quadratic residues.
Prerequisite: MATH 31 and MATH 42 with a grade of "C-" or better in each) or instructor consent.
Normal Grade Rules
3 units

### MATH 127. Applied and Industrial Algebra
Fundamental topics of abstract algebra (groups, rings, fields) from the viewpoint of real-world application, such as coding theory, robotics, algorithm design, cryptography, integrated circuit design, and signal processing.
Prerequisite: MATH 42 and MATH 129A with a C- or better in each (or instructor consent)
Normal Grade Rules
3 units

### MATH 128A. Abstract Algebra I
Group theory: permutation groups, abelian groups, morphism theorems, finite groups. Introduction to rings and fields.
Prerequisite: MATH 108 and MATH 129A (with a grade of "C-" or better in each) or instructor consent.
Normal Grade Rules
3 units

### MATH 128B. Abstract Algebra II
Emphasis on rings, integral domains, fields, field extensions, Galois theory.
Prerequisite: MATH 128A (with a grade of "C-" or better) or instructor consent.
Normal Grade Rules
3 units

### MATH 129A. Linear Algebra I
Matrices, systems of linear equations, vector geometry, matrix transformations, determinants, eigenvectors and eigenvalues, orthogonality, diagonalization, applications, computer exercises. Theory in R^n emphasized; general real vector spaces and linear transformations introduced.
Prerequisite: MATH 31 (with a grade of "C-" or better) or instructor consent.
Normal Grade Rules
3 units

### MATH 129B. Linear Algebra II
Continuation of Math 129A. Abstract vector spaces and linear transformations, diagonalization, Cayley-Hamilton theorem, minimal polynomials, Jordan canonical form. Selected topics from inner product and adjoint, duality, rational canonical form and applications.
Prerequisite: MATH 108 and MATH 129A (with a grade of "C-" or better in each) or instructor consent.
Normal Grade Rules
3 units

### MATH 131A. Introduction to Analysis
Properties of real numbers including completeness and compactness. Continuous functions, uniform continuity, the derivative.
Prerequisite: MATH 32 and MATH 108 (with a grade of "C-" or better in each) or instructor consent.
Normal Grade Rules
3 units
MATH 131B. Introduction to Real Variables
The theory of the Riemann integral, sequences and series of functions, spaces of functions.
Prerequisite: Math 131A (with a grade of "C-" or better) or instructor consent.
Normal Grade Rules
3 units

MATH 132. Advanced Calculus
Calculus of several variables; Jacobian, inverse and implicit function theorems, contracting mapping theorem, change of variables in integration and applications.
Prerequisite: MATH 32 and MATH 129A (with a grade of "C-" or better in each), or instructor consent.
Normal Grade Rules
3 units

MATH 133A. Ordinary Differential Equations
First order differential equations, first order linear systems, second order linear equations, applications, Laplace transforms, series solutions. Additional topics.
Prerequisite: MATH 32 or Math 32H (with a grade of "C-" or better) or instructor consent.
Normal Grade Rules
3 units

MATH 133B. Partial Differential Equations
Partial differential equations of physics and engineering, Fourier series, Legendre polynomials, Bessel functions, orthogonal functions, the Sturm-Liouville equation.
Prerequisite: Math 133A or Math 134 (with a grade of "C-" or better) or instructor consent.
Normal Grade Rules
3 units

MATH 133W. Ordinary Differential Equations Workshop
A course designed to help all students excel in Ordinary Differential Equations (ODE's). Students work in groups on challenging problems to help them understand the concepts in ODE's more deeply and lay the groundwork for success in future courses.
Prerequisite: Math 32 (with a grade of C- or better)
Corequisite: Math 133A
Credit / No Credit
1 unit

MATH 134. Ord. Diff. Eqns and Dynamical Systems
Prerequisite: Math 032 and MATH 129A (with a grade of "C-" or better in each), or instructor consent.
Normal Grade Rules
3 units

MATH 138. Complex Variables
Analytic functions, complex integration, residues and power series.
Prerequisite: MATH 32 (with a grade of "C-" or better) or instructor consent.
Normal Grade Rules
3 units

MATH 142. Introduction to Combinatorics
Sets, permutations, combinations, probability, mathematical induction, counting techniques, generating functions, partitions, recurrence relations, inclusion-exclusion. Polya's theorem and applications to computer science, mathematics, engineering and physical sciences.
Prerequisite: MATH 31 and MATH 42 (with a grade of "C-" or better in each) or instructor consent.
Normal Grade Rules
3 units

MATH 143C. Numerical Analysis and Scientific Computing
Development and comparison of important algorithms for scientific computing in terms of efficiency, accuracy and reliability. Topics include nonlinear equations, interpolation, approximation theory, differentiation, integration, differential equations, numerical stability and error analysis. Substantial assignments using contemporary software packages and professional subprogram libraries.
Prerequisite: MATH 32; one of CS 022A, Math 50, CS 046A, CS 046C or CS 049 (with a grade of "C-" or better in each) or instructor consent.
Normal Grade Rules
3 units

MATH 143M. Numerical Analysis and Scientific Computing
Development and comparison of important algorithms for scientific computing in terms of efficiency, accuracy and reliability. Topics include systems of linear equations-direct and iterative methods, least squares problems, eigenvalues and eigenvectors, numerical stability and error analysis. Substantial assignments using contemporary software packages and professional subprogram libraries.
Prerequisite: MATH 32; one of CS 022A, Math 50, CS 046A or CS 049 (with a grade of "C-" or better in each) or instructor consent.
Normal Grade Rules
3 units

MATH 143N. Numerical Analysis and Scientific Computing
Development and comparison of important algorithms for scientific computing in terms of efficiency, accuracy and reliability. Topics include systems of linear equations-direct and iterative methods, least squares problems, eigenvalues and eigenvectors, numerical stability and error analysis. Substantial assignments using contemporary software packages and professional subprogram libraries.
Prerequisite: MATH 32; one of CS 022A, Math 50, CS 046A or CS 049 (with a grade of "C-" or better in each) or instructor consent.
Normal Grade Rules
3 units

MATH 146. Mathematical Statistics
Sampling distributions, confidence intervals, order statistics, sufficient statistics, the Rao-Blackwell Theorem, completeness, uniqueness, point estimation, maximum likelihood, Bayes' methods, testing hypotheses, likelihood ratio tests, categorical data analysis, nonparametric tests.
Prerequisite: MATH 163 (with a grade of "C-" or better) or instructor consent.
Normal Grade Rules
3 units

MATH 161A. Applied Probability and Statistics I
Descriptive and inferential statistics. Collection and analysis of data, discrete and continuous probability models, random variables, Central Limit Theorem, confidence intervals, hypothesis testing.
Prerequisite: MATH 31 (with a grade of "C-" or better) or instructor consent.
Normal Grade Rules
3 units

MATH 161B. Applied Probability and Statistics II
A continuation of Math 161A. Two sample confidence intervals and hypothesis tests, analysis of variance, simple and multiple regression, chi-square tests of homogeneity and goodness-of-fit, other topics as time permits. Use of statistical software is integral to the course. Student project required.
Prerequisite: MATH 161A (with a grade of "C-" or better), or instructor consent.
Normal Grade Rules
3 units

MATH 162. Statistics for Bioinformatics
Introduction to the theory and applications of statistical methodology in the biological sciences. Topics include inference, stochastic processes, Markov chains, hidden Markov models, clustering, and gene expression analysis. Applications to current molecular biology and genetics problems. No biology background required.
Prerequisite: MATH 161A (with a grade of "C-" or better) or instructor consent.
Normal Grade Rules
3 units

MATH 163. Probability Theory
Probability axioms; random variables; marginal and conditional density and distribution functions; binomial, geometric, Poisson, gamma and normal probability laws; mathematical expectations, moment generating functions; limit theorems; sampling distributions.
Prerequisite: MATH 32 and MATH 161A (with a grade of "C-" or better in each) or instructor consent.
Normal Grade Rules
3 units

MATH 164. Mathematical Statistics
Sampling distributions, confidence intervals, order statistics, sufficient statistics, the Rao-Blackwell Theorem, completeness, uniqueness, point estimation, maximum likelihood, Bayes' methods, testing hypotheses, likelihood ratio tests, categorical data analysis, nonparametric tests.
Prerequisite: MATH 163 (with a grade of "C-" or better) or instructor consent.
Normal Grade Rules
3 units
MATH 167. Programming in SAS
Programming and applying the computer language SAS to perform statistical computations and to analyze large amounts of data. Data preparation and transformations, creating and managing data files, macros, data reporting techniques, basic statistical methods.
Prerequisite: MATH 161A (with grade of ‘C-’ or better), or instructor consent.
Normal Grade Rules
3 units

MATH 170. Mathematical Modeling for the Life Sciences
Mathematical models used in Biology and other life sciences, discrete and continuous processes, mathematical methods for analyzing solutions to the above models, interpretation of mathematical results.
Prerequisite: Math 123, 129A, 133A, or 134 with a grade of C- or better or instructor consent.
Normal Grade Rules
3 units

MATH 177. Linear and Non-Linear Optimization
Linear inequalities, the simplex method and other algorithms, duality, integer optimization, convex optimization, quadratic optimization, game theory.
Prerequisite: MATH 070 and MATH 071 (with a grade of ‘C-’ or better in each); or MATH 129A (with a grade of “C-” or better); or instructor consent.
Normal Grade Rules
3 units

MATH 178. Mathematical Modeling
Basic modeling techniques including graphing, proportion, curve fitting and interpolation, optimization, probability and computer simulation, derivatives and differences. Technology will be incorporated to model applied problems from business/economics, physical/life/social sciences and engineering.
Prerequisite: MATH 129A (with a grade of “C-” or better) or instructor consent.
Normal Grade Rules
3 units

MATH 179. Introduction to Graph Theory
Hamiltonian and Eulerian properties, matching, trees, connectivity, coloring problems and planarity. Emphasis on algorithms and applications, including optimal network flows.
Prerequisite: MATH 42 and MATH 129A (with a grade of “C-” or better in each) or instructor consent.
Normal Grade Rules
3 units

MATH 180. Individual Studies
Individual study in a specific field. Not available to Open University Students.
Prerequisite: Department chair consent.
Repeatable for credit
Credit / No Credit
1-4 units

MATH 180H. Individual Studies for Honors
Senior project on advanced topics in mathematics as determined by the instructor. Written paper and oral presentation of the project required. Intended for students graduating with departmental honors.
Prerequisite: At least junior standing as mathematics major. GPA of 3.5 or higher in the major and department chair consent.
Credit / No Credit
3 units

MATH 180R. Undergraduate Research in Mathematics
Advanced work in specific fields with variable units 1 to 4. Students will work on research topics in mathematics which will vary depending the instructor(s).
Prerequisite: Mathematics major/minor or consent of instructor
Credit / No Credit
1-4 units

MATH 185. Special Topics in Mathematics
Selected topics in Mathematics. Topics vary each semester. Course is repeatable for a maximum total of 12 units of credit.
Prerequisite: Suitable upper division background in mathematics set by instructor.
Repeatable for credit
Normal Grade Rules
3 units

MATH 187. Mathematics for Secondary Teachers
Individual study in a specific field. Not available to Open University Students.
Prerequisite: Department chair consent.
Repeatable for credit
Credit / No Credit
1-4 units

MATH 190. Introduction to MS Level Statistics
Intensive review of mathematical methods. Selected topics from multivariate calculus, linear algebra, probability theory and elementary statistics. Introduction to statistical software including graphics and programming using R. Course will cover indispensable tools necessary for success in the MS statistics program.
Prerequisite: Admission to the MS Statistics Program
Credit / No Credit
1 unit

MATH 201A. Mathematics for Secondary Teachers
Secondary school mathematics from an advanced viewpoint, plus topics from higher mathematics. Emphasizes inductive reasoning in problem solving. Applications useful to junior and senior high school teachers.
Prerequisite: Equivalent of mathematics minor or instructor consent.
Normal Grade Rules
3 units

MATH 201B. Mathematics for Secondary Teachers
Secondary school mathematics from an advanced viewpoint, plus topics from higher mathematics. Emphasizes deductive reasoning in problem solving. Applications useful to junior and senior high school teachers.
Prerequisite: Equivalent of mathematics minor or instructor consent.
Notes: MATH 201A is not a prerequisite.
Normal Grade Rules
3 units

MATH 203. Applied Mathematics, Computation, and Statistics Projects
Supervised teamwork to solve a substantial problem in mathematics or computer science usually supplied by an outside agency such as a local company. The number of different projects offered and the topics will vary widely. A project usually continues for two consecutive semesters.
Prerequisite: Instructor consent.
Repeatable for credit
Credit / No Credit
3 units

MATH 211A. Geometry of Projective Spaces
Structure of projective planes, finite planes and combinatorics; automorphism groups; configuration theorems and coordinatizations; conics; introduction to projective n-space over a field, topological properties, subgeometries.
Prerequisite: MATH 112 or MATH 115 or instructor consent.
Notes: Alternate years.
Normal Grade Rules
3 units
MATH 213A. Introduction to Smooth Manifolds
Prerequisites: MATH 113 or MATH 175 or MATH 132, or instructor consent. 
Notes: Alternate years. 
Normal Grade Rules 
3 units

MATH 213B. Introduction to Riemannian Geometry
Riemannian metric and Levi-Civita connection. Geodesics, completeness and Hopf-Rinow theorem. Curvature. First and second variations of arc-length. Spaces of constant curvature. Additional topics selected by the instructor such as theorems of Myers, Hadamard, Synge, and Gauss-Bonnet. 
Prerequisites: MATH 213A or instructor consent. 
Notes: Alternate years. 
Normal Grade Rules 
3 units

MATH 221A. Higher Algebra I
Topics from groups, rings, integral domains, modules, fields, vector spaces. 
Prerequisite: MATH 128B or instructor consent. 
Normal Grade Rules 
3 units

MATH 221B. Higher Algebra II
Continuation of Math 221A with additional advanced topics in algebra selected by instructor. 
Prerequisite: MATH 221A or instructor consent. 
Normal Grade Rules 
3 units

MATH 226. Theory of Numbers
Advanced topics in number theory selected by the instructor. Emphasis may be in algebraic number theory (e.g. Diophantine equations), analytic number theory (e.g. the prime number theorem), and/or computational number theory (e.g. cryptography). 
Prerequisite: MATH 126 and MATH 128A or instructor consent. 
Notes: Alternate years. 
Normal Grade Rules 
3 units

MATH 229. Advanced Matrix Theory
Eigenvalues, unitary equivalence and Schur’s theorem. Normal, Hermitian and symmetric real matrices. Positive definite matrices, polar and singular value factorizations, and selected topics at the discretion of the instructor. 
Prerequisite: MATH 129B or instructor consent. 
Notes: Alternate years. 
Normal Grade Rules 
3 units

MATH 231A. Real Analysis
Sigma algebra, construction of measures, differentiation, product measures, integration theory, the spaces L1 and C. 
Prerequisite: MATH 131B or instructor consent. 
Normal Grade Rules 
3 units

MATH 231B. Functional Analysis
Function spaces and their duals, operators on function spaces, applications to analysis (classical and functional) and topics selected at the discretion of the instructor. 
Prerequisite: MATH 231A or instructor consent. 
Normal Grade Rules 
3 units

MATH 233A. Applied Mathematics I
Prerequisite: MATH 133B or instructor consent. 
Normal Grade Rules 
3 units

MATH 234. Advanced Dynamical Systems
Continuous and discrete dynamical systems with applications. Topics include stability of equilibria and closed orbits, structural stability, applications in classical mechanics, biology and engineering, including control systems. 
Prerequisite: MATH 134 or instructor consent. 
Notes: Alternate years. 
Normal Grade Rules 
3 units

MATH 235. Wavelets and their Applications
Wavelets with particular emphasis on their use in the representation of digital signals and image analysis. Theory of filters, filter banks and wavelets with applications selected from image and video compression, speech, audio and ECG compression, and communication applications. 
Prerequisites: MATH 129A and MATH 134, or instructor consent. 
Notes: Alternate years. 
Normal Grade Rules 
3 units

MATH 238. Advanced Complex Variables
A course specializing in one or more of the advanced branches of the theory of complex functions. 
Prerequisite: MATH 138 or instructor consent. 
Notes: Alternate years. 
Normal Grade Rules 
3 units

MATH 243A. Advanced Numerical Analysis
Finite difference methods applied to parabolic, elliptic and hyperbolic equations including numerical methods for solving the discretized problem, convergence, stability, error control, and applications. 
Prerequisites: MATH 143C or MATH 143M or instructor consent. 
Notes: Alternate years. 
Normal Grade Rules 
3 units

MATH 243B. Advanced Topics in Numerical Analysis
Advanced topics in numerical methods. 
Prerequisite: MATH 143C or MATH 143M; and instructor consent. 
Notes: Alternate years. 
Normal Grade Rules 
3 units

MATH 243M. Numerical Linear Algebra
Advanced topics in numerical linear algebra. 
Prerequisite: MATH 143C or MATH 143M; and instructor consent. 
Notes: Alternate years. 
Normal Grade Rules 
3 units

MATH 251. Classification
Dimensionality reduction, instance-based classification, discriminant analysis, logistic regression, support vector machine, kernel methods, ensemble learning, neural networks and deep learning, classification of nonnumeric data. 
Prerequisite: Math 32 and Math 129A (each with a grade of B or better). 
Co/Pre-requisite: Math 164, Math 267A or CS 122 or instructor consent. 
Normal Grade Rules 
3 units

MATH 252. Cluster Analysis
Prerequisite: Math 32, Math 129A (each with a grade of B or better), Math 165, and Math 267A or CS 122 or instructor consent. 
Normal Grade Rules 
3 units
MATH 257. Multivariate Data Analysis
Multivariate normal distribution, Hotelling's T-squared distribution, data reduction techniques including principal component and factor analysis, canonical correlation analysis, discrimination and classification techniques. Intensive use of computer analysis and real data sets. As time permits, advanced topics chosen by instructor. Possible topics include basis functions, derivative estimation, functional principal components, functional linear model.
Prerequisites: Math 163 and Math 261A
Normal Grade Rules
3 units

MATH 258. Categorical Data Analysis
Distributions for categorical data, descriptive and inferential methods for contingency tables, introduction to generalized linear models, logit models for binary data, and logistic models for count data.
Prerequisites: Math 261A
Normal Grade Rules
3 units

MATH 259. Sampling Design and Analysis
Prerequisites: Math 261A
Normal Grade Rules
3 units

MATH 261A. Regression Theory and Methods
Simple linear regression, multiple regression, indicator variables, influence diagnostics, transformations, assumption analysis, generalized linear models, nonlinear regression, CART, hypothesis testing, confidence and prediction intervals, variable selection and model building.
Prerequisites: Math 128A, and either Math 163A or Math 164 (each with grade "B" or better), Math 163, Math 267A. Math 163 and/or Math 267A may be taken concurrently.
Normal Grade Rules
3 units

MATH 261B. Design and Analysis of Experiments
Principles, construction and analysis of experimental designs: ANOVA; randomized blocks, Latin squares, factorial, nested and other designs; fixed and random effects, multiple comparisons, repeated measures. Expected mean squares. Diagnostics and model comparison.
Prerequisites: Math 261A (with grade "B" or better), Math 164. Math 164 may be taken concurrently.
Normal Grade Rules
3 units

MATH 263. Stochastic Processes
Introductory course in stochastic processes and their applications. The course will cover random walks, discrete time Markov chains, the Poisson process, continuous time Markov processes, renewal theory and queueing theory.
Prerequisites: MATH 129A and MATH 163
Normal Grade Rules
3 units

MATH 264. Bayesian Data Analysis
Prerequisite: Math 163
Normal Grade Rules
3 units

MATH 265. Time Series Theory and Methods
Analysis of correlated data in time, trends, seasonal patterns, periodicity, autocorrelation, spectral/frequency analysis, filtering, ARIMA models, state-space models, forecasting. Applications from various fields including economics, signal processing, finance, atmospheric science.
Prerequisites: Math 261A.
Notes: Alternate years.
Normal Grade Rules
3 units

MATH 266. Survival Analysis
Statistical methods for analysis of time-to-event censored data. Survival distributions and hazard rates; Kaplan-Meier estimator; proportional hazards; partial likelihood; diagnostics. Applications from clinical trials, toxicology and tumorigenecity studies, epidemiological studies, and engineering reliability.
Prerequisite: Math 261A
Notes: Alternate years.
Normal Grade Rules
3 units

MATH 267A. Statistical Programming with R
Introduction to the R programming language. Topics include data structures, reading and writing data, databases, data visualization, accessing packages, programming structures and functions.
Prerequisite: MATH 161A with a grade of C- or better
Normal Grade Rules
3 units

MATH 267B. Computational Statistics
Simulation and Monte Carlo methods, Markov chain Monte Carlo, bootstrap and resampling, optimization, and special topics.
Prerequisites: Math 163, Math 261A and Math 267A
Normal Grade Rules
3 units

MATH 269. Statistical Consulting
Theoretical and practical aspects of statistical consulting. Development through classwork, group discussion, role-playing and real consulting activities, of tools necessary to conduct effective consulting sessions, present oral arguments and written reports, and work collaboratively to solve problems.
Prerequisite: Math 163, Math 164, Math 261A, Math 261B (each with a grade of "B" or better); and instructor consent.
Note: This course is normally taken in the last semester of the MS Statistics program.
Credit / No Credit
3 units

MATH 275A. Topology
Topological spaces and associated concepts (e.g., subspaces, product spaces, quotient spaces), continuous functions, compactness, connectedness (including path connectedness) and their local versions; countability and separation axioms; compactifications and Tychonoff's Theorem; paracompactness and metrization theorems.
Prerequisite: Math 131A with a grade of "B" or better; or instructor consent.
Normal Grade Rules
3 units

MATH 275B. Advanced Topics in Topology
A course specializing in one or more topics from advanced topology such as homotopy and the fundamental group, homology groups of spaces, continuum theory, function spaces, metrization, dimension theory, manifolds, topological groups.
Prerequisite: Math 275A or instructor consent.
Notes: Alternate years.
Normal Grade Rules
3 units

MATH 279A. Graph Theory
Advanced course in graph theory covering graphs, digraphs, trees, networks, connectedness, eulerian circuits, hamiltonian cycles, graph embeddings, matchings, factorizations, graph colorings and Ramsey theory.
Prerequisite: MATH 179, or both MATH 142 and an upper division algebra class, or instructor consent.
Notes: Alternate years.
Normal Grade Rules
3 units

MATH 279B. Advanced Graph Theory
Advanced topics in modern graph theory selected by instructor. Possible topics are algebraic graph theory, random graph theory, matroid theory, Ramsey theory, expander graphs, and others.
Prerequisite: MATH 279A or instructor consent.
Normal Grade Rules
3 units
MATH 280. Graduate Individual Studies
Individual study in a specific field.
Prerequisite: Department chair consent. Not available to Open University Students
Credit / No Credit
1-3 units

MATH 281. Research Seminar
Weekly participation in the department research seminar. Topics will focus on recent developments in mathematics and emphasis will be placed on written and oral presentations.
Prerequisite: Instructor Consent
Normal Grade Rules
1-3 units

MATH 285. Advanced Topics in Mathematics
Selected topics in Mathematics. Topics vary each semester. A maximum of 12 units may be repeated.
Prerequisite: Suitable upper division background in mathematics set by instructor.
Repeatable for credit
Normal Grade Rules
3 units

MATH 287. Professional Development in College Teaching
Required for all teaching assistants in the master’s program. Practical and technical aspects of college teaching, current pedagogical techniques and educational issues.
Corequisite: TA position in the Mathematics and Statistics Department
Repeatable for credit
Credit / No Credit
1 unit

MATH 2881. Internships
Professional work experience under the supervision of a statistician.
Prerequisite: Graduate standing and MS Statistics Project Coordinator consent.
Mandatory CR/NC/RP
3 units

MATH 288J. Applied Mathematics Internship
Professional work experience under the supervision of an applied mathematician.
Prerequisite: Graduate standing in the MS Math program and instructor consent.
Mandatory CR/NC/RP
3 units

MATH 295E. Mathematics Comprehensive Exam Preparation
Preparation for Mathematics Master’s Comprehensive Examination. Review of topics and representative problems covered by the various parts of the Exam. CR grade assigned when student has passed both parts of the Comprehensive Exam. Successful completion satisfies graduate Culminating Experience requirement.
Prerequisite: Approval of Mathematics Graduate Advisor is required. Students must file for Advancement to Candidacy before enrolling. Not open to students electing Thesis/Writing Project option.
Mandatory CR/NC/RP
3 units

MATH 297A. Preparation for Writing Project, Research Project or Thesis
Supervised individual research and project work to prepare for a master’s writing project, research project or thesis.
Prerequisite: Fully classified standing in the MS/MA Math or MS Statistics program, department chair consent.
Corequisite: GWAR
Repeatable for credit
Credit / No Credit
3 units

MATH 298. Special Study
Advanced individual research and writing projects.
Prerequisite: Admission to candidacy for the MA or MS degree, Math 297 and Department Chair consent. Not available to Open University Students.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

MATH 299. Master’s Thesis
Prerequisite: Admission to candidacy for the MA or MS degree, Math 297 and Department Chair consent. Not available to Open University Students.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

NO DEGREE CREDIT

MATH 1001S. Support for Mathematical Reasoning
This 2-hour activity class reviews background material and provides discussion/workshop time for Mathematical Reasoning (Math 3), as additional support for students who require it.
Notes: No Degree Credit.
Misc/Lab: Activity 2 hours
No Degree Credit
1 unit

MATH 1005W. Entry Level Mathematics II Workshop
This workshop is intended as additional support for students who did not earn credit for Math 1005A but who wish to enroll in Math 1005B.
Co-requisite: Math 1005B
Note: No Degree Credit
No Degree Credit
1 unit

MATH 1008S. College Algebra Review
This 2-hour activity class reviews background material for College Algebra (Math 8) as additional support for students who require it.
Notes: No Degree Credit.
Misc/Lab: Activity 2 hours
No Degree Credit
1 unit

MATH 1010AS. Support Course for Math 10A
This support course will review relevant background material prior to the corresponding content for Math 10A. Required for Category III and Category IV students in Math 10A.
Notes: No Degree Credit.
Misc/Lab: Activity 2 hours
No Degree Credit
1 unit

MATH 1015D. Statway Algebra Review Activity
See UNVS 1015D.
No Degree Credit
1 unit

MATH 1015W. Statway Supplemental Activity
See UNVS 1015W.
No Degree Credit
1 unit

MATH 1019S. Precalculus Review
This 2-hour activity class reviews background material for Precalculus (Math 19) as additional support for students who require it.
Notes: No Degree Credit.
Misc/Lab: Activity 2 hours
No Degree Credit
1 unit

MATH 1290R. Graduation Writing Project Supervision
Continued work on thesis or project.
Prerequisite: Outstanding RP grade in a preceding semester in a project or thesis class
Note: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit
MATHEMATICS EDUCATION

UPPER DIVISION

MTED 184S. Math Education Phase II Seminar
This seminar will support the student teaching field experience. Students will be asked to extend their pedagogical content knowledge in light of their phase II experiences and will be supported in the preparation of their Performance Assessment for California Teachers. Prerequisites: EDSC 184X and good standing in the Secondary Education Credential program. Corequisite: MTED 184Y and/or MTED 184Z
Credit / No Credit
1 unit

MTED 184X. Student Teaching Phase I
Student teaching in Mathematics Education (Phase I) is designed to provide students with the experiences they need to be successful in Phase II. During the Phase I semester, student teachers work with their mentor teacher in a mathematics classroom one period each day, with additional times set aside each week to confer, debrief, and plan. Prerequisite: MTED 294
Credit / No Credit
4 units

MTED 184Y. Student Teaching II - Classroom Teaching
Minimum 80-120 class periods of classroom teaching, laboratory or field teaching in appropriate single subjects, grades K-12 and related teaching activities. Attendance at a weekly seminar is required. Prerequisite: MTED 394 and joint approval of Mathematics and Education departments. Repeatable for credit
Credit / No Credit
4-6 units

MTED 184Z. Student Teaching III - Classroom Teaching
Same as MTED 184Y, including the seminar, but in a different course. May be in a different school. Prerequisite: MTED 394 and joint approval of the Mathematics and Teacher Education Departments. Repeatable for credit
Credit / No Credit
4-6 units

MTED 394. Secondary School Mathematics
The place and function of mathematics in secondary education, improvement and evaluation of instruction. Teaching the subject matter of secondary mathematics. Prerequisite: MATH 201A or MATH 201B and, either passing score on the CSET exams or be within 3 courses of completing the subject matter preparation program, or instructor consent. Normal Grade Rules
3 units

MTED 394F. Middle School Mathematics Methods
The place and function of mathematics in middle grades education, improvement and evaluation of instruction. Teaching the subject matter of middle grades mathematics. Prerequisite: EDEL 108D, Passing scores on CSET I and II or Instructor consent. Normal Grade Rules
3 units
Mechanical Engineering Department Courses

MECHANICAL ENGINEERING

LOWER DIVISION

ME 020. Design and Graphics
Introduction to design and graphical solutions to three-dimensional design problems involving points, lines, surfaces and solids. Development of visualization and technical sketching skills in conjunction with orthographic and pictorial projections. Focus on computer-aided design and graphical analytical methods.
Corequisite: Engineering majors: ENGR 10, Technology majors: none
Misc/Lab: Lecture 1 hour/lab 3 hours.
Normal Grade Rules
2 units

ME 030. Computer Applications
Using a computer to solve engineering problems through programming and the use of engineering application procedures. Use of procedural and informational problem solving methods and practices applied to software design, application, programming and testing.
Misc/Lab: Lecture 1 hour/lab 3 hours.
Normal Grade Rules
2 units

ME 041. Machine Shop Safety
See TECH 041.
Repeatable for credit
1 unit

ME 042. Manufacturing and Machine Shop Projects and Practices
See TECH 042.
Repeatable for credit
Credit / No Credit
1 unit

ME 101. Dynamics
Vector mechanics. Two and three dimensional motion of particles and rigid bodies. Force, energy and momentum principles.
Prerequisite: CE 095 or 099 and MATH 032 (with a grade of "C-" or better in each). Sophomore or upper division standing. Allowed Declared Majors: Any Engineering.
Normal Grade Rules
3 units

ME 104. Manufacturing Processes
Fundamentals of manufacturing processes such as machining, forming, casting, molding and welding. Surface treatments, powder-based processes, and microfabrication methods. Materials behavior and selection for manufacturing. Geometric dimensions and tolerancing.
Prerequisite: ME 020 with a grade of "C-" or better.
Pre/Corequisites: MATE 025.
Normal Grade Rules
3 units

ME 109. Heat Transfer in Electronics
See CHE 109.
Normal Grade Rules
3 units

ME 110. Manufacturing Processes
Fundamentals of manufacturing processes such as machining, forming, casting, molding and welding. Surface treatments, powder-based processes, and microfabrication methods. Materials behavior and selection for manufacturing. Geometric dimensions and tolerancing.
Prerequisite: ME 020 with a grade of "C-" or better.
Pre/Corequisites: MATE 025.
Normal Grade Rules
3 units

ME 111. Fluid Mechanics
Prerequisite: CE 095 or 099 and MATH 032 (with a grade of "C-" or better in each). Sophomore or upper division standing. Allowed Declared Majors: Any Engineering.
Normal Grade Rules
3 units

ME 101H. Honors Dynamics
Prerequisite: Math 32 and either CE 95 or CE 99 (with a grade of B or better in each)
Normal Grade Rules
3 units

ME 106. Fundamentals of Mechatronics Engineering
Fundamental concepts in mechatronics including analog and digital electronics, sensors, actuators, microprocessors and microprocessor interfacing to electromechanical systems. Hands-on laboratory experiments with components and measurement equipment used in the design of mechatronic products.
Prerequisites: EE 098 and ME 030 (with a grade of "C-" or better in each). For IT majors: TECH 060, MATH 071, CMPE 046 (with a grade of "C-" or better in each).
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

ME 109. Heat Transfer in Electronics
See CHE 109.
Normal Grade Rules
3 units

ME 110. Manufacturing Processes
Fundamentals of manufacturing processes such as machining, forming, casting, molding and welding. Surface treatments, powder-based processes, and microfabrication methods. Materials behavior and selection for manufacturing. Geometric dimensions and tolerancing.
Prerequisite: ME 020 with a grade of "C-" or better.
Pre/Corequisites: MATE 025.
Normal Grade Rules
3 units

ME 111. Fluid Mechanics
Prerequisite: CE 095 or 099 and MATH 032 (with a grade of "C-" or better in each). Sophomore or upper division standing. Allowed Declared Majors: Any Engineering.
Normal Grade Rules
3 units

ME 113. Thermodynamics
Prerequisite: PHYS 070 or PHYS 052, and MATH 032 (with a grade of "C-" or better in each).
Normal Grade Rules
4 units

ME 114. Heat Transfer
Conduction, convection and radiation heat transfer with applications. Analytical, experimental, and computational methods of analyzing heat transfer behavior.
Prerequisites: MATH 133A or MATH 123, and ME 113 (with a grade of "C-" or better in each).
Normal Grade Rules
3 units

ME 115. Thermal Engineering Laboratory
Thermodynamics and heat transfer experiments. Temperature, pressure, and flow rate measurements. Technical reports and presentations.
Pre/Corequisite: ME 114.
Misc/Lab: 3 hour lab
Normal Grade Rules
1 unit

ME 120. Experimental Methods
Theory and practice of experimental methods and sensors for mechanical measurements; statistical and uncertainty analysis; computer-hosted data acquisition, processing and analysis; formal report writing and presentations.
Prerequisite: CE 112 and ENGR 100W (with a grade of "C-" or better in each).
Corequisite: ME 130. AE majors may use AE 162 and AE 168 to satisfy corequisite requirements.
Misc/Lab: Lecture 1 hour/lab 3 hours.
Normal Grade Rules
2 units

ME 130. Applied Engineering Analysis
Analytic models for physical systems in mechanical engineering. Practical interpretations of analytical solutions. Introduction to linear algebra and statistics.
Prerequisite: MATH 133A, ME 101 and ME 113 (with a grade of "C-" or better in each). Sophomore or upper division standing. Allowed Declared Majors: Aerospace Engineering, Mechanical Engineering.
Pre/Corequisite: ME 111 or AE 160.
Normal Grade Rules
3 units

ME 135. Introduction to Composite Materials
See MATE 135.
Normal Grade Rules
3 units
ME 136. Design for Manufacturability
Principles and practice of design and manufacturability, design parameters; manufacturing techniques; reliability; design for quality, assembly and environmental considerations; case study projects and laboratory activities.
Prerequisite: ME 110 and either ME 154 or AE 114, all with C- or better.
Normal Grade Rules
3 units

ME 140. Green & Sustainable Product Design
See TECH 140.
Repeatability for credit
Normal Grade Rules
3 units

ME 147. Dynamic Systems Vibration and Control
Prerequisite: ME 130 (with a grade of C- or better).
Normal Grade Rules
3 units

ME 149. Engineering Acoustics
Generation, transmission and absorption of sound. Noise measurement. Applications to architectural design, control and reduction of noise.
Prerequisite: ME 130. Upper division standing
Normal Grade Rules
3 units

ME 154. Mechanical Engineering Design
Prerequisite: ME101, ME20, CE112, ME 25, all with a C- or better. Junior or senior only. Allowed Declared Majors: Any Engineering.
Corequisite: TECH/ME 041
Normal Grade Rules
4 units

ME 157. Mechanical System Design
Introduction to the mechanical design process. Design and selection of specific machine components including springs, bearings, brakes, clutches and gears. Introduction to fatigue design using fracture mechanics. Application of plastics, composite materials and finite element methods in design. Group design project. Computer applications in the design process and in design optimization.
Prerequisite: ME 154, ME 130 with a grade of C- or better.
Corequisites: ME 110
Normal Grade Rules
3 units

ME 160. Introduction to Finite Element Method
Matrix algebra, interpolation functions. Deformation and stress analysis, using truss, beam, plate and axisymmetric elements.
Prerequisite: ME 20, CE 112, and either ME 130 or Math 129A, with a grade of C- or better in each
Normal Grade Rules
3 units

ME 165. Computer-Aided Design in Mechanical Engineering
Theory and application of CAD 2-dimensional and 3-dimensional modeling, commercial CAD software. Application to finite element analysis.
Prerequisite: ME 020, CE 112, and either ME 130 or MATH 129A, with a grade of C- or better in each.
Allowed Declared Majors: Aerospace Engineering, Mechanical Engineering.
Normal Grade Rules
3 units

ME 166. Introduction to Engineering Biomechanics
Introduction to the mechanical behavior of biological systems: mechanics of cells, mechanics of biological fluids (blood circulation), mechanics of blood vessels, biomechanics of the muscular-skeletal system. Kinematics and dynamics of motion. Application of engineering fundamentals to the human body structure and functional relationships.
Prerequisites: ME 25 and either CE 095 or CE 099.
Normal Grade Rules
3 units

ME 170. Solar Energy Engineering
Fundamentals of solar energy engineering, basic principles, design and operation of solar systems. Solar energy generation, storage and system efficiency.
Prerequisites: EE 98 and ME 109, ME 114 or CHE 190 (with a grade of C- or better in each)
Normal Grade Rules
3 units

ME 172. Alternative and Renewable Energy Resources
An introduction to alternative energy sources such as solar, wind, nuclear, geothermal, hydroelectric, biomass and fuel cell. Stationary power generation and storage.
Prerequisite: ME 114 or CHE/ME 109 or CHE 190
Normal Grade Rules
3 units

ME 180. Individual Studies
Individual work on special topics. By arrangement.
Prerequisite: Upper division standing and instructor consent. Allowed Declared Majors: Aerospace Engineering, Mechanical Engineering. Not available to Open University Students.
Repeatable for credit
Credit / No Credit
1-3 units

ME 181. Fundamentals of Biosensors
Operating principles, design and applications of the most commonly used biosensors: Electrochemical (Potentiometric, Amperometric, Voltammetric), Optical-based (Fluorescence, Electrophoresis, and Fiber Optic), Piezoelectric-based (Mechano, QCM Enzyme/Cell, Acoustic), and AFM (Atomic Force Microscopy) biosensors/transducers. Immunosensors and biosensors for virus detection. Biosensor signal processing and electronics. Biosensor design, materials, and applications. Case studies to explore state-of-the-art biosensor products. Invited speakers to share their first-hand experience in biosensor design and manufacturing. Term projects to design practical and functional biosensors.
Prerequisite: EE 98 with a C- or better
Normal Grade Rules
3 units

ME 169. Microelectromechanical Systems Fabrication and Design
Hands-on design, fabrication, and testing of micro electro-mechanical systems (MEMS). Processes including photolithography, etching, and metal deposition applied to MEMS. Design problems for MEMS transducer components. Introduction to MEMS simulation.
Prerequisite: MATE 25 or MATE 153 or MATE/EE 129.
Mus/Lab: Lab 3 hours.
Normal Grade Rules
1 unit
ME 182. Thermal Systems Design
Integration of thermodynamics, fluid mechanics, heat transfer and economics in the design of energy conversion and transfer systems, e.g., power generation, electronics and human thermal control.
Prerequisite: ME 114, and either ME 111 or AE 160 (with a grade of ‘C-‘ or better in each).
Normal Grade Rules
3 units

ME 183. HVAC Systems Design
Pre/Corequisite: ME 114. Junior or senior only. Allowed Declared Major: Mechanical Engineering.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

ME 185. Hybrid and Electric Vehicle Fundamentals
This course covers the key technical fundamentals of hybrid and electric vehicles including propulsion system design, controls, batteries and storage management, electric machines and power electronics. Review of critical technologies and components used in modern hybrid and electric vehicles. Hands-on experience through demonstrations, laboratory activities, and a term project. Guest speakers will present technical seminars on selected topics.
Prerequisite: EE 98 and ME 130, both with a C- or better
Normal Grade Rules
3 units

ME 186. Automotive Engineering
Overview of automotive engineering including aerodynamics, structures, suspension, steering, brakes and drive-train. Application of engineering principles in automotive design and analysis. Use of vehicle dynamic simulation for performance analysis.
Prerequisite: ME 114, ME 130, ME 154 with a grade of C- or better in each.
Normal Grade Rules
3 units

ME 187. Automatic Control Systems Design
Prerequisite: ME 147 with a grade of C- or better. Junior or senior only. Allowed Declared Majors: Aerospace Engineering, Mechanical Engineering.
Normal Grade Rules
3 units

ME 189. Design and Manufacture of Microsystems
Overview of design and manufacture of microdevices and systems including MEMS. Engineering physics and mechanics; scaling laws for miniaturization, microfabrication technique, material selection, microsystems design methodologies, microsystems packaging design.
Prerequisite: ME 106, ME 154.
Normal Grade Rules
3 units

ME 190. Mechatronics System Design
Prerequisite: ME 106 (with a grade of ‘C-‘ or better).
Corequisite: ME 147.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

ME 192. Robotics and Manufacturing Systems
Scientific and engineering principles of robotics in the area of mechanical manipulation, dynamics, sensing, actuation, control, computer vision and manufacturing automation application. Motor, motion control, digital control devices application and integration.
Prerequisite: ME 106 and ME 130 (with a grade of ‘C-‘ or better in each).
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

ME 194. Senior Design Project I
First half of a one-year team project carried out under faculty supervision. Project proceeds from problem definition to analysis, design and validation, experimentation including possible construction and testing. GE Area: S when taken as part of the ME major sequence.
Prerequisite: ME 114, ME 154 and ENGR 100W (with a grade of ‘C-‘ or better in each).
Pre/Corequisite: ME 120, good standing in the program with an approved major form.
Note: ME 195A and B sequence must be completed in the same academic year. Meets GE Areas S and V when course is taken in combination with: ME 195A, ENGR 195A and ENGR 195B
Misc/Lab: Lab 3 hours.
Normal Grade Rules
GE: V
3 units

ME 195A. Senior Design Project II
Continuation of ME 195A. Culmination of project requiring a formal report consisting of documentation of project results and oral presentation. GE Area: V when taken with ME Major sequence.
Prerequisite: ME 195A with a C- or better
Note: ME 195A and B sequence must be completed in the same academic year. Meets GE Areas S and V when course is taken in combination with: ME 195A, ENGR 195A and ENGR 195B
Misc/Lab: Lab 3 hours.
Normal Grade Rules
GE: V
3 units

ME 197. Cooperative Education Project
See ENGR 197.
Normal Grade Rules
3 units

ME 198. Technology and Civilization
See TECH 198.
Normal Grade Rules
GE: V
3 units

ME 199. Special Topics in Mechanical Engineering
Special Topics in Mechanical Engineering. Content varies from semester to semester. A total of six units may be repeated.
Prerequisite: Instructor Consent.
Repeatable for credit
Normal Grade Rules
3 units

ME 210. Advanced Thermodynamics
Application of the first and second laws of thermodynamics to the analysis of engineering systems. Equations of state and thermodynamic property relations. Chemical equilibrium and combustion.
Prerequisite: BSME or Instructor Consent.
Normal Grade Rules
3 units

ME 211. Advanced Heat Transfer
Conduction, convection and radiation heat transfer, including conjugate problems. Numerical methods and use of the computer to solve heat transfer problems.
Prerequisite: ME 114 or equivalent.
Normal Grade Rules
3 units
ME 221. Viscous Flow Analysis and Computation
The Navier-Stokes equations for laminar flow, exact solutions, lubrication theory and boundary layer forms with computer-based solution techniques. Reynolds-averaging and turbulent flow; solution of the Reynolds-averaged full and boundary layer equations using computers. Prerequisite: ME 200 and ME 270. Allowed Declared Majors: Aerospace Engineering, Mechanical Engineering. Normal Grade Rules 3 units

ME 230. Advanced Mechanical Engineering Analysis
Designed to supplement and enrich students with advanced mathematical methods in treating problems selected from various areas of mechanical engineering. Topics discussed will include Fourier series, special functions, solutions to partial differential equations and numerical methods. Prerequisite: BSME or BSAE or Instructor Consent. Normal Grade Rules 3 units

ME 240. Rigid Body Dynamics
Introduction to Euler’s method, Lagrange’s equations of motion and Hamilton’s principle. Three-dimensional dynamics in vector and tensor notation. Multi-body dynamics. Application to engineering problems including numerical solutions. Prerequisite: BSME or Instructor Consent. Normal Grade Rules 3 units

ME 243. Vibration of Mechanical Systems
Vibration of MDOF (Multi-degree of Freedom) systems. Superposition and direct integration methods. Complex frequency response. Random vibration of MDOF systems. Shock and impulse. Vibration of strings, rods and beams. Prerequisite: BSME degree or instructor consent. Normal Grade Rules 3 units

ME 250. Precision Machine Design
Principles of precision machine design. Exact kinematic constraint. Error motions of a machine. Integration of mechanical design, materials, sensors, and metrology for precision applications. Prerequisite: BSME or Instructor Consent. Normal Grade Rules 3 units

ME 256. Product Design and Development
Introduction to the product development process as followed in the industry, latest developments in identifying product opportunities, understanding customer requirements, converting them to technical requirements, functional modeling, concept generation, selection and evaluation, latest trends in product design, patenting and intellectual property rights, group design project. Prerequisite: Graduate standing with solid modelling knowledge Normal Grade Rules 3 units

ME 260. Applied Stress Analysis
Introduction to stress analysis techniques, including advanced strength of materials, energy methods and theory of elasticity. Elastic-plastic stresses, creep, fatigue, fracture mechanics, failure analysis. Prerequisite: BSME or Instructor Consent. Allowed Declared Majors: Aerospace Engineering, Mechanical Engineering. Normal Grade Rules 3 units

ME 265. Computer-Aided Mechanical Engineering Design
Integration of product data with CAD including; overview of CAD, numerical techniques for CAD, computer graphics and design, principles and management of design database systems, finite element analysis and CAD, design optimization, computer-aided linkage design and integrated CAD systems. Prerequisite: BSME or Instructor Consent. Allowed Declared Majors: Aerospace Engineering, Mechanical Engineering. Note: This course satisfies graduate-level GWAR in this master’s program. Normal Grade Rules CE: GWAR 3 units

ME 267. Engineering Biomechanics
Application of engineering mechanics to human body structure and function, involving 3-D kinematics, deformable bodies, viscoelastic behavior, and non-Newtonian fluids. Modeling of hard and soft tissues and analysis of response to loading conditions. Design considerations for biomedical and orthopedic devices. Prerequisite: Graduate standing and CE 112 or equivalent. Normal Grade Rules 3 units

ME 271. Computational Fluid Dynamics for ME
Introduction into methods and techniques for computational solutions of fluid mechanics and heat transfer problems. Model problems from mechanical engineering are used to study the interaction of physical processes and numerical techniques. A commercial CFD package is used for analysis. Prerequisite: BSME or instructor’s consent. Normal Grade Rules 3 units

ME 273. Finite Element Methods in Engineering
Introduction into various finite element methods for developing stiffness equation. Truss, beam, 2-D, 3-D and axisymmetric elements. Applications and case studies. Prerequisite: BSME or Instructor Consent. Normal Grade Rules 3 units

ME 274. Advanced Finite Element Methods In Engineering
Advanced concepts in finite element analysis, assembly modeling, contact and welded joints, anisotropy and composites, structural dynamics, nonlinear modeling, linear and nonlinear multiphysics coupled heat transfer and fluid flow, thermal stress analysis, and electromechanical coupling. Prerequisites: ME 160 or ME 273, or instructor consent. Normal Grade Rules 3 units

ME 280. Automatic Control Engineering
ME 281. Advanced Control System Design
Establishment of design criteria. Digital control system design based on conventional and modern approaches. Intelligent control system design. Digital control system hardware and software. Case studies. Microprocessor implementation of control systems.
Prerequisite: ME 280 or equivalent.
Normal Grade Rules
3 units

ME 283. Automatic Control of Manufacturing Processes
Develops general concepts for control of manufacturing processes. The concepts of and tools for process modeling, process optimization and process control. Emphasizes the integrated approach combining statistical process control (SPC) and automatic process control.
Prerequisite: BSME or Instructor Consent.
Normal Grade Rules
3 units

ME 284. Sensor Technology and Principles
Sensors and principles, including mechanical and magnetic sensors, optical sensors, chemical sensors, and bio sensors; Sensor circuitry, signal characterization and processing, Sensor design, fabrication and applications.
Prerequisite: BSME or Instructor Consent.
Normal Grade Rules
3 units

ME 285. Mechatronic Systems Engineering
Introduction of mechatronic systems. Combine hardware, software and system integration. Subjects include basic circuits, logic gates, OpAmps, encoder/decoder, DC and stepper motor, A/D and D/A, C-language, interfacing and control. Hands-on lab practices.
Prerequisite: BSME or Instructor Consent.
Misc/Lab: Lecture 2 hours/Lab 3 hours.
Normal Grade Rules
3 units

ME 286. Autonomous and Connected Vehicles
Application of fundamentals of robotics, computer vision, and mechanical engineering in a vehicle-to-vehicle and vehicle-to-infrastructure connected environment for safe-driving and reducing traffic congestion. Defining levels of autonomy in relation to driver-assist and self-driving technologies. Occupant monitoring, distracted driving, and government regulations.
Prerequisite: Graduate Standing or Instructor Consent
Normal Grade Rules
3 units

ME 295A. Mechanical Engineering Project I
Advanced individual work in mechanical engineering, including but not limited to research, design, development, and simulation studies.
Prerequisite: Admission to Candidacy for Master’s Degree in Mechanical Engineering, written proposal approved by instructor and graduate advisor. Not available to Open University Students.
Normal Grade Rules
3 units

ME 295B. Mechanical Engineering Project II
Continuation of ME 295A. Students complete the in-depth project, write a detailed engineering report and make a comprehensive presentation.
Prerequisite: ME 295A. Not available to Open University Students.
Normal Grade Rules
3 units

ME 296N. Applied Nonlinear Control
Practical considerations in control systems design: system nonlinearities, parametric uncertainties, integrator windup effects, and response optimality. Lyapunov-based analysis and control design: sliding mode, adaptive, and adaptive-sliding control; nonlinear state observers, trajectory optimization, and repetitive learning control.
Normal Grade Rules
3 units

ME 297. Special Topics in Mechanical Engineering
Special topics in Mechanical Engineering. Content varies from semester to semester.
Prerequisite: Instructor Consent.
Repeatable for credit
Normal Grade Rules
3 units

ME 298. Special Project in Mechanical Engineering
Advanced individual work in mechanical engineering.
Prerequisite: Consent of project advisor. Not available to Open University Students.
Repeatable for credit
Mandatory CR/NC/RP
1-3 units

ME 299. Master’s Thesis
Advanced individual work in mechanical engineering for Plan A.
Prerequisite: Consent of thesis advisors. Not available to Open University Students.
Repeatable for credit
Mandatory CR/NC/RP
3 units

NO DEGREE CREDIT
ME 1290R. Culminating Experience Supervision
Continued work on thesis or project beyond minimum required units, for cases in which final deliverables are still in progress.
Prerequisite: RP grade in a preceding thesis or project semester.
Note: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit
Medical Product Development Management Courses

SCIENCE MEDICAL PRODUCT DEVELOPMENT

GRADUATE

SMPD 202T. MPDM Seminars: Biomedical Business
Special Topics seminar in the management principles and practices of medical product development. Repeatable for credit when topic changes.
Prerequisite: Graduate Standing
Repeatable for credit
Normal Grade Rules
3 units

SMPD 281A. Clinical Development Seminar I
Provides a comprehensive overview of the regulated medical product development process. Topics include initial drug development/device invention to drug/device approval and post-market surveillance. Discussions include non-clinical and clinical studies, regulations, clinical indication determination, research methodology and ethical conduct. Fulfills GWAR requirement.
Prerequisite: Admission to MPDM program or certificate
Note: This course satisfies graduate-level GWAR in this master's program.
Normal Grade Rules
GE: GWAR
3 units

SMPD 281B. Clinical Development Seminar II
Current practices for medical product development and the clinical and regulatory pathways required for approval in the USA, including non-clinical study design and GMP process. Emphasis on oral and written communication. Presentations from experts in the field.
Prerequisite: Admission to the Medical Product Development Management program and completion of SMPD 281A.
Misc/Lab: Lecture 2 hour/Activity 4 hours
Normal Grade Rules
2 units

SMPD 283A. Regulatory Affairs I
Provide foundational knowledge of the pharmaceutical, biotechnology and biodevice industries with focus on company organization, product development and commercialization-associated activities such as chemical synthesis, device prototyping, quality assurance, regulatory affairs, manufacturing, control, marketing, and post-marketing surveillance.
Prerequisite: Admission to the MPDM program.
Normal Grade Rules
3 units

SMPD 283B. Regulatory Affairs II Device-Diagnostics
Overview of laws and regulations enforced by the US Food and Drug Administration (FDA) and other Regulatory Agencies as they relate to biotechnology, medical device and diagnostic industries.
Prerequisite: Admission to the MPDM program.
Normal Grade Rules
3 units

SMPD 285. MPDM Research / Practicum
Independent research project / practicum to explore deeper understanding or breadth of experience in medical product development management.
Prerequisite: Admission to MPDM program.
Repeatable for credit
Credit / No Credit
1 unit

SMPD 286. Statistical Methods in Clinical Trials
Overview of statistical methods used in the design and interpretation of clinical trials of drugs and medical devices.
Prerequisite: Admission to the MPDM program.
Normal Grade Rules
3 units

SMPD 287. Informatics in Drug and Device Development
Provides business and regulatory perspectives on electronic information technologies, processes and standards in the conduct of clinical trials. Special emphasis: data collection, clinical trial & data management randomization and drug supply, statistical processes, safety databases and electronic regulatory submission, electronic records and signatures, sys validation processes, and data standards.
Prerequisite: Admission to the MPDM program and completion of SMPD 286 and BUS 224C.
Normal Grade Rules
3 units

SMPD 289A. Special Topics in Clinical Trials Management I
Seminar focusing on critical issues in clinical development. This programmatic capstone series of seminars challenges the students to demonstrate a mature, professional manner and technical proficiency in the field. Emphasis on oral and written communications. Course includes numerous presentations by industry experts.
Prerequisite: Admission to MPDM program and completion of SMPD 285 and BUS 223.
Misc/Lab: Lecture 2 hour/Activity 4 hours
Normal Grade Rules
2 units

SMPD 289B. Clinical Trials Seminar II
Capstone course of the MPDM program.
Prerequisite: Admission to MPDM program.
Normal Grade Rules
3 units
Meteorology and Climate Science Department Courses

METEOROLOGY

LOWER DIVISION

METR 010. Weather and Climate
A descriptive introduction to the atmosphere, with emphasis on weather phenomena, climate, climate change, forecasting and air pollution. GE Area: B1
Normal Grade Rules
GE: B1
3 units

METR 012. Global Warming: Science and Solutions
Examination of past, present and future climates. Examination of global warming and mitigation strategies. GE Area: B1
Normal Grade Rules
GE: B1
3 units

METR 040. Weather Seminar
Meteorology program planning; careers in Meteorology; a survey of major problems in the atmosphere; faculty research programs; department, college and university resources, survival in the university; strategies for success. Repeatable for credit
Credit / No Credit
1 unit

METR 050. Scientific Computing I
Computer systems and structured programming, emphasizing solutions of problems in the atmospheric sciences using Python programming. Includes the UNIX operating system, mass data handling and data visualization.
Prerequisite: MATH 030
Corequisite: For METR majors: MATH 31, METR 60, PHYS 50. For Climate Science majors: METR 60 and CHEM 3A
Misc/Lab: Lecture 1 hour/Lab 3 hours.
Normal Grade Rules
2 units

METR 051. Scientific Computing II
Computer systems and advanced programming in Python emphasizing solutions of problems in the atmospheric sciences. Other related topics include UNIX scripting, advanced data visualization and basic HTML techniques. Introduction to Fortran.
Prerequisite: METR 050 (or equivalent).
Corequisite: For METR majors: METR 61. For Climate Science majors: METR 61 or 71.
Misc/Lab: Lecture 1 hours/lab 3 hours.
Normal Grade Rules
2 units

METR 060. Meteorology I
A quantitative introduction to Atmospheric Science for Meteorology majors.
Prerequisite(s): MATH 030 or MATH 030P and (PHYS 002B for Climate Science Concentration).
Corequisite(s): MATH 031, PHYS 050, METR 050 (or CHEM 001A and METR 050 for Climate Science Concentration).
Misc/Lab: Lecture 2 hours/Lab 3 hours
Normal Grade Rules
3 units

METR 061. Meteorology II
A continuation of METR 060, introducing Meteorology majors to quantitative aspects of the science.
Prerequisite: METR 060, CHEM 001A.
Corequisite: METR 051, MATH 032, PHYS 052, METR 163.
Normal Grade Rules
2 units

METR 071. Introduction to Climate Science
Continuation of METR 060, but with an emphasis on Climate Science.
Prerequisite: METR 060.
Corequisite(s): METR 051, BIOL 031.
Misc/Lab: Lecture 2 hour/Lab 3 hours
Normal Grade Rules
2 units

UPPER DIVISION

METR 100W. Writing Workshop: Meteorological Reports
Introduction to scientific writing, research methods and preparation of technical reports in the meteorology field. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Corequisite: METR 121A or METR 135, or instructor consent.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).
Normal Grade Rules
GE: Z
3 units

METR 112. Global Climate Changes
Formation and evolution of the atmosphere. Climate changes in the Earth’s past. Interactions between climate and life. Anthropogenic climate change. GE Area: R
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses.
Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: R
3 units

METR 113. Atmospheric Pollution
Descriptive discussion of the sources, effects and fates of pollutants in the atmosphere. Interaction of pollutants and weather systems, including acid precipitation, ozone destruction; air pollution policy and regulations. GE Area: R
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses.
Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: R
3 units

METR 115. Wildfire in the Earth System
Introduces students to the science of wildland fire on earth and in various ecosystems. Topics include extreme fire behavior in a changing climate, fire weather, fire danger, and national policies on fire suppression strategies and prescribed fire use in land management. GE Area: R
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses.
Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: R
3 units

METR 120A. Electronics, Data Acquisition & Analysis
See PHYS 120A.
Normal Grade Rules
3 units

METR 121A. Dynamic Meteorology
Theoretical examination of the motion and behavior of the atmosphere. Governing equations and applications; vorticity, waves; numerical prediction; baroclinic instability.
Prerequisite: METR 051, METR 061
Corequisite: MATH 133A
Notes: Year course.
Normal Grade Rules
4 units

METR 121B. Dynamic Meteorology
Theoretical examination of the motion and behavior of the atmosphere. Governing equations and applications; vorticity, waves; numerical prediction; baroclinic instability.
Prerequisite: METR 121A
Notes: Year course.
Normal Grade Rules
3 units
METR 123. Advanced Climatology
The physical basis of climate with emphasis on the theory of global warming.
Prerequisite: METR 061 or METR 071.
Normal Grade Rules
3 units

METR 125. Physical Meteorology
Cloud and precipitation physics, atmospheric electricity, optics and acoustics.
Prerequisite: METR 124 or instructor consent.
Normal Grade Rules
3 units

METR 130. Boundary Layer Meteorology
Structure of the atmospheric planetary boundary layer with applications to air pollution, agriculture and cities; meso-circulations such as sea breeze.
Prerequisite: METR 121B or instructor consent.
Normal Grade Rules
3 units

METR 131. Air Pollution Meteorology
Quantitative description of contaminants in the atmosphere: sources, dispersion and sinks; their effects on atmospheric energy balance and condensation.
Prerequisite: METR 121B or instructor consent.
Normal Grade Rules
3 units

METR 135. The Global Carbon Cycle
A quantitative examination of the global carbon cycle through the solid earth, atmosphere, oceans, and biosphere.
Prerequisite: METR 071.
Normal Grade Rules
3 units

METR 136. Empirical Techniques in Meteorology
Applications of statistical methods to analysis of meteorological and climatological data; use of the internet to obtain climate data; objective forecasting methods; elementary decision theory; data analysis using contemporary computer software.
Prerequisite: METR 061 or METR 071 (for Climate Science Concentration), or STAT 095 and METR 012 (or METR 112) and Common Core.
Prerequisite: METR 061 (METR majors).
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

METR 143C. Numerical Analysis and Scientific Computing
See MATH 143C.
Normal Grade Rules
3 units

METR 150. Computers in Meteorology III
Computer applications to advanced problems in atmospheric science, including specialized computer systems, mass data handling, weather data communications.
Prerequisite: MATH 043, METR 051 or instructor consent.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Notes: Offered only occasionally.
Normal Grade Rules
3 units

METR 155. Remote Sensing
This course will cover the background of remote sensing, current status of sensors and platforms, and recent satellite-based results on climate change.
Prerequisite: METR 124.
Normal Grade Rules
3 units

METR 160. Tropical Meteorology
Local and diurnal variations in tropical weather; mean and synoptic fields of meteorological parameters in the tropics; general circulation; hurricanes; monsoons.
Prerequisite: METR 121B.
Notes: Offered on an irregular basis only.
Normal Grade Rules
3 units

METR 163. Meteorological Instrumentation
Measurement techniques and instruments used in atmospheric and climate sciences, using lecture, laboratory and field work. Students will learn techniques of instrument calibration, deployment, and data acquisition.
Prerequisite: METR 060 (or PHYS 002B, CHEM 001A, STAT 095, and METR 012 or METR 112 for ENV S majors).
Corequisites: METR 061 (METR majors).
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

METR 164. Introduction to Fire Weather
Quantitative description of weather conditions that lead to fire danger around the world and atmospheric conditions leading to extreme fire behavior.
Prerequisite: METR 061.
Normal Grade Rules
3 units

METR 165. Mountain Meteorology
Examination of atmospheric processes in mountain environments including micro and mesoscale wind systems, precipitation processes and convection, snow and avalanche mechanics.
Prerequisite: METR 061.
Corequisite: METR 121A.
Normal Grade Rules
3 units

METR 166. Field Studies in Meteorology
Intensive summer observing campaign in the field.
Prerequisite: METR 100W, METR 121B, METR 124, METR 170B.
Misc/Lab: Lecture 3 hours/Activity 4 hours.
Normal Grade Rules
3 units
METR 172. Mesoscale Meteorology
Structure and behavior of mesoscale atmospheric circulations, practical weather forecasting techniques.
Prerequisite: METR 171A.
Normal Grade Rules
3 units

METR 173. Global Climate Modeling
Senior level course focused on climate modeling using the CMIP 3 intercomparison (models used for the IPCC 2007) as the primary study area.
Prerequisites: METR 051, METR 071, METR 100W, METR 136.
Misc/Lab: Lecture 3 hour/Lab 3 hours
Normal Grade Rules
3 units

METR 174. Climate Change Solutions
Senior level capstone course in which students will define and conduct a project which is both climate change related and of a practical nature.
Prerequisite(s): METR 179, METR 100W.
Normal Grade Rules
3 units

METR 179. Topics in Senior Thesis
Supervised research and the preparation of a senior thesis.
Prerequisite: METR 100W. Not available to Open University Students.
Pre/Corequisite: METR 179A (first semester) METR 179B (second semester).
Repeatable for credit
Credit / No Credit
1-2 units

METR 180. Individual Studies
Independent work on topics by special arrangement. A maximum of four units may be repeated.
Prerequisite: Meteorology major or minor. Not available to Open University Students.
Repeatable for credit
Credit / No Credit
1-4 units

METR 182. Tutor Assistant in Meteorology
Supervised instructional experience as a tutor assistant. A maximum of four units may be repeated.
Prerequisite: Upper division standing and instructor consent. Not available to Open University Students.
Repeatable for credit
Credit / No Credit
1 unit

METR 185. Special Topics
Selected topics in meteorology. Topics vary and are announced each semester.
Prerequisite: METR 121B.
Repeatable for credit
Normal Grade Rules
1-3 units

GRADUATE

METR 202. Research Methods in Meteorology
The nature of research in meteorology with particular reference to formulation of the problem, methods of attack and presentation of results. Proposal writing and selection of MS thesis topic.
Prerequisite: Instructor consent.
Notes: Offered on an irregular basis only. This course satisfies graduate-level GWAR in this master's program.
Normal Grade Rules
GE: GWAR
3 units

METR 205. Advanced Atmospheric and Climate Dynamics
Dynamics of larger-scale atmospheric flows over short and climate timescales. Quasi-geostrophic theory and applications; atmospheric waves; baroclinic instability; energetics of atmospheric and climate systems; dynamics of the general circulation; dynamics of the climate system; dynamics of climate change.
Prerequisite: METR 121B or equivalent.
Normal Grade Rules
3 units

METR 206. Advanced Synoptic Meteorology
Structure and theory of the observed features of atmospheric circulation regimes. Dynamical and thermodynamical interpretation of various scales of disturbances; application of numerical weather analysis and prediction methods; use of satellite data.
Prerequisite: METR 171B (or equivalent).
Notes: Offered on an irregular basis only.
Normal Grade Rules
3 units

METR 209. Advanced Fire Behavior
Introduces students to advanced topics in the meteorology of extreme fire behavior, including fire-atmosphere interactions, microscale turbulence in fires, flame properties, combustion physics, fuel dynamics, and extreme fire behavior such as fire whirls.
Prerequisite: METR 124 or instructor consent.
Normal Grade Rules
3 units

METR 215. Advanced Physical Meteorology
Thermodynamics of moist air; nucleation processes; particulates in air, microphysics and cloud dynamics, sampling techniques.
Prerequisite: METR 125 (or equivalent).
Normal Grade Rules
3 units

METR 225. Topics in Advanced Atmosphere Dynamics
Gravity wave theory and observation; atmospheric tides; chaos theory; climate change dynamics; telecommunications; the MJO.
Prerequisite: METR 205 or equivalent.
Normal Grade Rules
3 units

METR 240. Numerical Modeling
Numerical analysis and prediction in meteorology. Numerical methods and their errors; finite-difference and spectral methods; atmospheric models.
Prerequisite: METR 050 (or equivalent); METR 205A or instructor consent.
Normal Grade Rules
3 units

METR 241. Parameterization in NWP
Studies of parameterization schemes for sub-gridscale physics in numerical models. Included are schemes for surface fluxes, soil-vegetation models, convection, clouds, and radiative transfer. Why these are needed, and how they are developed and implemented.
Prerequisite: METR 240
Normal Grade Rules
3 units

METR 245. Mesoscale Modeling
Formulation and solution techniques for numerical models of the polluted atmospheric boundary layer, including meso-circulations such as sea breezes.
Prerequisite: METR 130 and METR 240.
Normal Grade Rules
3 units

METR 245L. Mesoscale Modeling Lab
Experience porting, compiling, initializing and running mesoscale models; data analysis and visualization.
Prerequisite: METR 245.
Normal Grade Rules
1 unit

METR 280. Recent Developments in Meteorology
Intensive study of a particular topic in the atmospheric sciences with special emphasis on recent research results, such as instrumentation or modeling techniques. Topics vary and are announced each semester.
Prerequisite: Instructor consent.
Repeatable for credit
Normal Grade Rules
1-3 units

METR 285. Colloquium
Advanced studies in special fields, including original work by faculty, guest speakers and graduate students. One presentation required of each enrolled student and attendance required for all graduate students.
Prerequisite: Instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1 unit

METR 298. Research
Supervised individual laboratory or field work.
Prerequisite: Instructor consent. Not available to Open University Students.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units
METR 299. Master’s Thesis or Project
Prerequisite: Admission to candidacy for the MS degree and approval of topic by thesis advisor.
Prerequisites: Not available to Open University Students.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units
MEXICAN AMERICAN STUDIES

LOWER DIVISION

MAS 001. Introduction to Chicana and Chicano Studies
Through readings, lectures, discussions and assignments students are introduced to Chicana/o Studies. Students learn how CCS examines problems, policies, and social issues to analyze theories, problems, resistance, historical development, identity choices, social/cultural contributions, and consciousness among Chicanas and Chicanos.
Normal Grade Rules
3 units

MAS 002. Library Studies
An introduction to the library, its resources, and skills for students to be successful in the MAS major and at SJSU. Topics will cover developing a research topic, developing a research strategy, and finding and evaluating print and non-print sources.
Credit/No Credit
1 unit

MAS 010A. Mexican Americans and the Development of U.S. History and Government
The American people and institutions from various ethnic points of view. Historical similarities and differences of various groups that make up the U.S. and its historical/political institutions. From pre-Columbian times to 1865. GE Area: D2, meets additional GE Areas when taken with MAS 10A.
Note: Must complete the entire sequence (MAS 10A and 10B) to satisfy U.S. History, U.S. Constitution and California Government (US1,2,3).
Normal Grade Rules
GE: D2
3 units

MAS 010B. Mexican Americans and the Development of U.S. History and Government
The American people and institutions from various ethnic points of view. Historical similarities and differences of various groups that make up the U.S. and its historical/political institutions. From 1865 to the present. GE Area: D3, meets additional GE Areas when taken with MAS 10A.
Prerequisite: MAS 10A
Note: Must complete the entire sequence (MAS 10A and 10B) to satisfy U.S. History, U.S. Constitution and California Government (US1,2,3).
Normal Grade Rules
GE: M7
3 units

MAS 025. The Changing Majority: Power and Ethnicity in America
Comparative and historical analysis of racial minorities. Focus on Euro American response to American Indians, Asian Americans, African Americans and Mexican Americans to provide understanding of minority experience in the U.S. as well as American culture. GE Area: D2
Normal Grade Rules
GE: D2
3 units

MAS 030. Race and Ethnicity in Public Space
This course focuses on race and ethnicity. Using readings, field trips, media images, and course discussion students learn about racialization in American society. We explore uses of racial and ethnic categories and their institutionalization in everyday life. GE Area: D1
Normal Grade Rules
GE: D1
3 units

MAS 040. The Chicano Theatre (El Teatro Chicano)
Prerequisite: ENGL 1A or instructor consent.
Misc/Lab: Lecture 1 hour/activity 2 hours.
Repeatable for credit
Normal Grade Rules
3 units

MAS 074. Public Address
Techniques of effective oral communication. Principles of rhetoric through analysis and critique of contemporary issues concerning Mexican Americans. GE Area: A1
Normal Grade Rules
GE: A1
3 units

MAS 075. The Changing Majority: Power and Ethnicity in America
Comparative and historical analysis of racial minorities. Focus on Euro American response to American Indians, Asian Americans, African Americans and Mexican Americans to provide understanding of minority experience in the U.S. as well as American culture. GE Area: D2
Normal Grade Rules
GE: D2
3 units

MAS 105. Chicanos: United States/Mexico Relations
Exploration of U.S./Mexico relations through the Chicana/o perspective. Emphasis is on both historical and contemporary issues.
Normal Grade Rules
3 units

MAS 120. Political Economy and Chicana/o Communities
Analysis of the American political and economic systems and institutions and their inter-connections from a Chicana/o perspective. Focus on the changing roles of Chicana/os in the U.S. and global economies and political processes.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

MAS 125. Chicana/o Community Studies
Examination of Chicana/o community activities, including organizations and contemporary issues.
Normal Grade Rules
3 units

MAS 127. Chicanas/os and the Criminal Justice System
Crime, delinquency and the interaction between Chicano/Latino communities and the criminal justice system. The roles of government agencies, local law enforcement, the courts and corrections.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

MAS 130. Chicanas and Chicanos in American Society
Analysis of the Chicana/o community and its role in US society, emphasizing understanding social change. Covers critical areas of the Chicana/o experience, including: family, politics, gender and sexual orientation, education, immigration, identity, institutional racism and discrimination, class, and environmental justice. GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: S
3 units

MAS 135. Contemporary Chicana/o Issues
Analysis of selected issues/topics involving Chicano/Latino communities. May be repeated with different topic/issue.
Prerequisite: ENGL 1A or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units
MAS 144. Chicana/o Literature
An examination of selected Chicana/o literature including poetry, short stories, essays, and novels. May be repeated with different topic.
Prerequisite: ENGL 1A or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

MAS 150. Research Methods
A survey of research methods used in Chicana/o studies that address issues in Chicana/o communities.
Prerequisite: ENGL 1A and MAS 130.
Notes: Offered only occasionally.
Normal Grade Rules
3 units

MAS 151. Theory in Chicana/o Studies
An introduction to the theories and study of race, gender and sexuality in Chicana/o communities. Study of the various theoretical and analytical frameworks that are or have been used in the scholarly field.
Prerequisite: MAS 1 and MAS 2
Normal Grade Rules
3 units

MAS 152. The Story of Chicano Spanish
Exploration of the origins, development, and use of the Spanish spoken by Mexican Americans and Chicanas/os in the United States. Examines Chicano Spanish from its roots in Colonial Mexico through its development and use in the United States since the first Spanish/Mexicans settled the American Southwest. Particular focus on the etymology of Chicano Spanish.
Prerequisite: MAS 1 and MAS 2
Normal Grade Rules
3 units

MAS 160. Gender and Sexuality in the Chicana/o Community
An examination of how patriarchy, race, and class shape Chicanas in their everyday lives in American society. It explores how women resist and challenge the limitations placed on them as a result of being women and members of a racial/ethnic group. CE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU courses.
Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: S
3 units

MAS 165. Chicana/o Community
Seminar exploring the historical experiences of Chicanas/os, from the indigenous past to the present. Integrates historiography, as it is grounded in an analysis of the development of and changes in the field of Chicana/o history.
Normal Grade Rules
3 units

MAS 166. Chicana/o Community
Seminar analyzing the impact of social, political, economic, and cultural systems on Chicana/o communities.
Normal Grade Rules
3 units

MAS 170. Hollywood’s Image of Chicanos/Chicanas
Analysis of Hollywood’s contribution, through cinema, to shaping the socio-political relations between Chicanas/os and the dominant society, plus the use of traditional ideological concepts in promoting stereotyped images of Chicanas/os.
Prerequisite: ENGL 1A and ENGL 2 or instructor consent.
Normal Grade Rules
3 units

MAS 175. Human Migrations: Global Reach
Examines Mexican immigration to the United States within the context of global movements as both historical and contemporary phenomena. Considers social, political, cultural, and economic forces that influence immigration.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

MAS 180. Individual Studies
Individual research projects and field activities.
Prerequisite: Upper division standing and instructor consent.
Repeatable for credit
Credit / No Credit
1-4 units

MAS 185. Teaching in a Diverse Society
See SOCS 185.
Normal Grade Rules
3 units

MAS 192. Int’l Program Studies
Repeatable for credit
Mixed Grading
1-6 units

MAS 200. Ideology and the Chicana/o Experience
Seminar examining the ideological and philosophical forces that shape Chicana/o experiences and identities.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
CE: GWAR
3 units

MAS 205. Chicana/o History
Seminar exploring the historical experiences of Chicanas/os, from the indigenous past to the present. Integrates historiography, as it is grounded in an analysis of the development of and changes in the field of Chicana/o history.
Normal Grade Rules
3 units

MAS 210. Foundations in Chicana/o Studies
An analysis of the evolution of Chicana/o thought and intellectual production and the development of the field of Chicana/o Studies. Analyzes the basic constructs and theories underlying Chicana/o Studies, from early works to the present.
Normal Grade Rules
3 units

MAS 215. Chicanas/os and Education
Focus is on key educational issues facing Chicanas/os both historically and currently, including policy, curriculum, cultural conflict, and the different efforts to address them.
Normal Grade Rules
3 units

MAS 225. The Impact of American Institutions on the Chicana/o Community
Seminar analyzing the impact of social, political, economic, and cultural systems on Chicana/o communities.
Normal Grade Rules
3 units

MAS 230. Policy Analysis and the Chicana/o Community
Policy analysis focusing on a specific institution or institutions. Emphasis is on analyzing major issues and social policies that affect the Chicana/o community.
Effective strategies to affect social change are examined.
Repeatable for credit
Normal Grade Rules
3 units

MAS 240. Applied Chicana/o Studies Seminar
Integrates major issues and theories from MAS core courses and applies them to current problems. Includes analyses of the latest research on: politics, economics, gender, immigration, education, community development, sexual orientation, and interethnic conflicts and collaborations.
Prerequisite: MAS core.
Repeatable for credit
Normal Grade Rules
3 units

MAS 252. Comparative Ethnic Studies
Interdisciplinary introduction to critical topics and debates in comparative ethnic studies, including race and representation, racialized and gendered labor and citizenship, indigenousness, feminism, nationalism, segregation and environmental injustices.
Normal Grade Rules
3 units
MAS 275. Research Methods
Seminar exploring the methodological challenges posed by Chicana/o Studies. The course helps students develop skills in specific research methods of their choice as well as research proposals for the project/thesis, or other areas of post-graduate work.
Prerequisite: Core courses.
Normal Grade Rules
3 units

MAS 298. Special Studies
Supervised project with advisor.
Prerequisite: Completion of core courses and written consent of the department's graduate advisor.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

MAS 299. Master's Thesis
Supervised thesis.
Prerequisite: Admission to candidacy for master's degree and written consent of the department's graduate advisor.
Repeatable for credit
Mandatory CR/NC/RP
3-6 units

NO DEGREE CREDIT
MAS 1290R. Culminating Experience
Supervision
Continued work on dissertation, thesis, or project or in preparation for comprehensive exams beyond the minimum required units for cases in which final deliverables are still in progress and all other degree requirements except the culminating experience have been fulfilled.
Prerequisite: Graduate Student, RP recorded for thesis or project courses.
Corequisite: Enrollment in no other courses, all degree requirements completed except thesis or project.
Note: No Degree Credit.
No-Degree Credit
1 unit

Military Science Department (Army ROTC) Courses

MILITARY SCIENCE

LOWER DIVISION

MILS 001A. Leadership & Personal Development
Introduction to the personal challenges and competencies that are critical for effective leadership. The focus is on developing basic knowledge and comprehension of Army leadership dimensions while gaining a big picture understanding of the ROTC program.
Normal Grade Rules
2 units

MILS 001B. Introduction to Tactical Leadership
Overviews leadership fundamentals such as setting direction, problem-solving, listening, presenting briefs, providing feedback, and using effective writing skills. Students explore leadership attributes and core leader competencies in the context of practical, hands-on, and interactive exercises.
Normal Grade Rules
2 units

MILS 002A. Innovative Team Leadership
Explores creative and innovative tactical leadership strategies and styles by examining team dynamics and trait and behavior theories. Students practice aspects of personal motivation and team building during planning, executing, and assessment of team exercises and participation in leadership labs.
Normal Grade Rules
2 units

MILS 002B. Foundations of Tactical Leadership
Examines the challenges of leading tactical teams in today's complex world. The course highlights dimensions of terrain analysis, patrolling, and orders. Students develop greater awareness as they assess their own leadership styles and practice communication and team building skills.
Normal Grade Rules
2 units

UPPER DIVISION

MILS 130A. Adaptive Team Leadership
Challenges students to study, practice, and evaluate adaptive leadership skills as they overcome challenging squad tactical operations scenarios. Cadets hone their leadership and critical thinking while they prepare for success at ROTC's summer Leadership Development and Assessment Course (LDAC).
Normal Grade Rules
4 units

MILS 130B. Applied Team Leadership
Uses situational team leadership challenges to build awareness and skills in leading small units. Students review aspects of full spectrum operations, and conduct military briefings to develop proficiency giving operation orders. This is the final course before students attend LDAC.
Normal Grade Rules
4 units

MILS 140A. Adaptive Leadership
Students learn how to train, mentor and evaluate underclassmen. They will learn the duties and responsibilities of an Army staff officer and apply those lessons during weekly training meetings to plan, execute and assess battalion training events.
Normal Grade Rules
4 units

MILS 140B. Leadership in a Complex World
Explores the realities of leading in the Contemporary Operating Environment (COE). Students learn to adapt to operations in unfamiliar lands and international terrorism. The course places significant emphasis on preparing cadets for their first assignment in the US Army.
Normal Grade Rules
4 units

MILS 180. Individual Studies
Individual work on special topics by arrangement. Prerequisite: Instructor consent and Military Science Chair approval. Repeatable for credit Credit / No Credit 1-4 units

MILS 199. American Military History
A survey of diplomatic, international, military and economic aspects of American involvement in conflicts from the Anglo-Indian Wars to present time. Study of leadership, weapons technology, politics, humanitarian operations and critical thinking. Prerequisite: Upper division standing.
Normal Grade Rules
3 units
## MARINE SCIENCE

### UPPER DIVISION

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
<th>Prerequisite</th>
<th>Misc/Lab:</th>
<th>Notes:</th>
</tr>
</thead>
<tbody>
<tr>
<td>MS 103</td>
<td>Marine Ecology</td>
<td>Field-oriented introduction to interrelationship between marine and estuarine organisms and their environment. Emphasis on quantitative data collection and analysis.</td>
<td>College zoology (or equivalent) or instructor consent.</td>
<td>Lecture 2 hours/lab/field 6 hours</td>
<td>Offered fall semester.</td>
</tr>
<tr>
<td>MS 104</td>
<td>Quantitative Marine Science</td>
<td>Mathematical methods for analysis of biological, chemical and physical from the marine environment; experimental design, parametric and non-parametric statistics.</td>
<td>College mathematics.</td>
<td>Lecture 3 hours/lab 3 hours.</td>
<td>Normal Grade Rules 4 units.</td>
</tr>
<tr>
<td>MS 105</td>
<td>Marine Science Diving</td>
<td>Skin and SCUBA diving course; pool-training culminates in ten ocean dives. Topics covered include diving physics and physiology, diving environments night diving and research diving. Successful completion gives NAUI and MLML certification.</td>
<td>Certified SCUBA diver (or equivalency as determined by instructor), upper division science major</td>
<td>Lecture 1 hour/lab/field 6 hours.</td>
<td>Normal Grade Rules 3 units.</td>
</tr>
<tr>
<td>MS 113</td>
<td>Marine Ichthyology</td>
<td>A description of the taxonomy, morphology and ecology of marine fishes. Both field and laboratory work concentrate on the structure, function and habits of marine fishes and the ecological interactions of these fishes with their benthic and abiotic surroundings.</td>
<td>College zoology (or equivalent) or instructor’s consent. MS 103 recommended.</td>
<td>Lecture 2 hours/lab/field 6 hours</td>
<td>Offered spring semester.</td>
</tr>
<tr>
<td>MS 114</td>
<td>Physiological Ecology of Marine Animals</td>
<td>Examines the adaptations animals have evolved to live in marine environments to deal with gradients in water, temperature, salinity, oxygen, exercise, nutrients as well as short-term physiological responses to environmental changes. Topics include metabolism, sensory systems, respiration, circulation, thermoregulation, osmoregulation.</td>
<td>Upper division vertebrate biology (physiology)</td>
<td>Lecture 2 hours 6 hours lab</td>
<td>Normal Grade Rules 4 units.</td>
</tr>
<tr>
<td>MS 115</td>
<td>Marine Invertebrate Zoology I</td>
<td>An introduction to the theoretical and practical aspects of the chemistry of the oceans, including major salts, dissolved gases, nutrient ions, carbonate system, transient traces and shipboard sampling techniques.</td>
<td>College zoology (or equivalent) or instructor consent; MS 103 recommended.</td>
<td>Lecture 2 hours/lab/field 6 hours</td>
<td>Normal Grade Rules 4 units.</td>
</tr>
<tr>
<td>MS 124</td>
<td>Marine Invertebrate Zoology</td>
<td>A field-oriented introduction to the structure, systematics, evolution and life histories of the major marine phyla.</td>
<td>College zoology or instructor consent; MS 103 recommended.</td>
<td>Lecture 2 hours/lab/field 6 hours</td>
<td>Normal Grade Rules 4 units.</td>
</tr>
<tr>
<td>MS 131</td>
<td>Marine Botany</td>
<td>Introduction to the plants of the sea, marshes and dunes, with emphasis on the morphology, taxonomy and natural history of seaweeds and vascular plants.</td>
<td>College zoology, or instructor’s consent; MS 103 recommended.</td>
<td>Lecture 2 hours/lab/field 6 hours</td>
<td>Normal Grade Rules 4 units.</td>
</tr>
<tr>
<td>MS 132</td>
<td>Marine Ichthyology</td>
<td>A description of the taxonomy, morphology and ecology of marine fishes. Both field and laboratory work concentrate on the structure, function and habits of marine fishes and the ecological interactions of these fishes with their benthic and abiotic surroundings.</td>
<td>College zoology (or equivalent) or instructor’s consent. MS 103 recommended.</td>
<td>Lecture 2 hours/lab/field 6 hours</td>
<td>Offered fall semester.</td>
</tr>
<tr>
<td>MS 133</td>
<td>Physiological Ecology of Marine Animals</td>
<td>A study of the structures, physiology and sediments of the sea bottom and shoreline.</td>
<td>Instructor consent.</td>
<td>Lecture 2 hours/lab/field 6 hours</td>
<td>Normal Grade Rules 4 units.</td>
</tr>
<tr>
<td>MS 134</td>
<td>Physical Oceanography</td>
<td>An introduction to the nature and causes of various oceanic motions including currents, waves, tides and mixing, and the physical properties of seawater including transmission of sound and light. Limitied use of calculus.</td>
<td>College algebra, college physics recommended, or instructor consent.</td>
<td>Lecture 2 hours/lab 4 hours</td>
<td>Normal Grade Rules 4 units.</td>
</tr>
<tr>
<td>MS 135</td>
<td>Chemical Oceanography</td>
<td>An introduction to the theoretical and practical aspects of the chemistry of the oceans, including major salts, dissolved gases, nutrient ions, carbonate system, transient traces and shipboard sampling techniques.</td>
<td>One year of college chemistry.</td>
<td>Lecture 2 hours/lab 6 hours</td>
<td>Normal Grade Rules 4 units.</td>
</tr>
<tr>
<td>MS 144</td>
<td>Biological Oceanography</td>
<td>The ocean as an ecological system. Emphasis on the complexity of environmental influences on plankton, the transfer of organic matter between trophic levels and nutrient cycles. Laboratory sessions will include methods in sampling, shipboard techniques, identification of the plankton, and current analytical techniques.</td>
<td>General biology, general chemistry, or instructor consent.</td>
<td>Lecture 2 hours/lab 6 hours</td>
<td>Normal Grade Rules 4 units.</td>
</tr>
</tbody>
</table>
**Course Descriptions**

**v1**

**June 1, 2018**

**ALL DATES, FEES & INFORMATION SUBJECT TO CHANGE WITHOUT NOTICE**

**GRADUATE**

**MS 175B. Topics in Marine Sciences (Lab)**

Study of selected area of marine sciences. Subjects vary depending upon demand and availability of instructors. May be repeated once for credit when topic changes.

Prerequisite: Instructor consent.

 Misc/Lab: Lab 3-12 hours. Repeatable for credit Credit / No Credit 1-4 units

**MS 180. Independent Studies**

Faculty-directed study of selected problems, open to undergraduate students with adequate preparation. Offered every semester. May be repeated once for credit.

Prerequisite: Instructor consent.

 Repeatable for credit

 Normal Grade Rules 1-4 units

---

**MS 201. Library Research Methods in Marine Science**

Students will gain an advanced understanding of the nature of scientific information. Lectures, discussions and assignments will provide the framework for using and evaluating a variety of information sources in marine and ocean sciences. Strong emphasis will be placed on developing critical skills to interweave knowledge of the history of science into the context of bibliographic tools including the digital realm.

Prerequisite: Graduate standing, instructor consent.

Notes: Offered spring semester.

Normal Grade Rules 1 unit

**MS 202. Oceanographic Instrumentation**

Principles of instruments used in oceanographic research, introduction to electronics, and applications of instrument measurements. Emphasis will vary from CTD profilers, current meters, radiometry and chemical measurement.

Prerequisite: Graduate standing; MS 141, MS 142 and instructor consent.

 Misc/Lab: Lecture/discussion 2 hours; lab/field 6 hours. Notes: Offered alternate spring semesters.

Normal Grade Rules 4 units

**MS 203. Advanced Marine Ecology**

Marine ecology is the study of factors determining the distribution and abundance of marine organisms. This course focuses on the major ecological processes determining the structure and diversity of species assemblages at several scales, primarily at that of the community.

Prerequisite: Ecology, Statistics, Instructor Consent, graduate level

 Misc/Lab: 2 hours lecture/ 6 hours lab

Normal Grade Rules 4 units

---

**MS 204. Sampling and Experimental Design**

Basic design of experiments and field sampling. Biases and problems of sampling marine biota.

Prerequisite: Graduate standing; MS 103 and MS 104.

Notes: Offered spring semester.

Normal Grade Rules 4 units

**MS 206. Molecular Biological Techniques**

Laboratory-based overview of concepts and techniques for the isolation, characterization, and analysis of DNA and RNA. Covers standard methods (amplification, cloning, and sequencing), and selected specialized techniques (analysis of gene expression), emphasizing marine science applications.

Prerequisite: Graduate standing; college level genetics, molecular biology, or instructor consent.

 Misc/Lab: Lecture 2 hours/Lab 6 hours. Notes: Offered spring semester.

Normal Grade Rules 4 units

**MS 208. Scientific Methods**

Course is designed to help students develop an understanding of strengths and limitations of various types of scientific reasoning, methodology, and analysis as they relate to scientific progress. Course centers on: round-table discussions of papers and techniques; interactive computer, laboratory, and field learning experiences; and development of critical thinking and writing skills.

Prerequisite: Graduate standing; instructor consent and approved thesis proposal.

 Misc/Lab: Lecture 3 hours/Lab 2 hours. Notes: Offered spring semester.

Normal Grade Rules 4 units

**MS 210. Advanced Marine Mammals, Birds & Turtles**

This course examines the biology of marine mammals, birds and turtles. Topics include systematics and evolution, adaptations to the marine environment, diving physiology and behavior, communication and echolocation, ecology, and conservation. This class consists of lectures, discussions of recent literature, and laboratory exercises.

Prerequisite: Introductory Biology, upper division vertebrate biology (physiology, ecology or similar)

 Misc/Lab: 2 hours lecture/ 6 hours lab

Normal Grade Rules 4 units

---

**MS 211. Ecology of Marine turtles, Birds, and Mammals**

Community approach to the ecology of marine birds and mammals using experimental and sampling methodology. The class will examine the distribution, abundance, trophic ecology, and behavior of birds and mammals in Elkhorn Slough and Monterey Bay.

Prerequisite: Graduate standing; MS 103, MS 104 and MS 112 and instructor consent.

 Misc/Lab: Lecture/discussion 2 hours; lab and field 6 hours. Notes: Generally offered alternate fall semesters during even years.

Normal Grade Rules 4 units

**MS 212. Advanced Topics in Marine Vertebrates**

Advanced consideration of the ecology, physiology and phylogeny of fishes, birds, reptiles or mammals, emphasizing current literature and research. Topics and emphasis will vary with term and instructor. May be repeated once for credit.

Prerequisite: Graduate standing; MS 112 or MS 113 and instructor consent.

 Misc/Lab: Lecture, lab and field work variable. Repeatable for credit

 Normal Grade Rules 1-4 units

**MS 213. Advanced Marine Ichthyology**

This course covers taxonomy and systematics, functional morphology, physiology, biogeography, and ecology of marine fishes at an advanced level. Accompanying laboratory and field sessions focus on taxonomic identification, morphological structure and function, and habits of marine fishes. and the ecological interactions of these fishes with their biotic and abiotic surroundings.

Prerequisite: College zoology or equivalent or consent of instructor; MS 103 recommended.

 Misc/Lab: Lecture 4 hours/Lab 12 hours

Normal Grade Rules 4 units

**MS 214. Physiological Ecology of Marine Animals**

Examines the adaptations animals have evolved to live in marine environments to deal with gradients in water, temperature, salinity, oxygen, exercise, nutrients as well as short-term physiological responses to environmental changes. Topics include metabolism, sensory systems, respiration, circulation, thermoregulation, osmoregulation.

Prerequisite: upper division vertebrate biology (physiology)

 Misc/Lab: 2 hours lecture/ 6 hours lab

Normal Grade Rules 4 units
MS 221. Advanced Topics in Marine Invertebrates
Advanced consideration of the ecology, physiology and phylogeny of the various invertebrate phyla emphasizing current literature and research. Topics and emphasis will vary from term to term. May be once repeated for credit when topic changes.
Prerequisite: MS 124 and instructor consent.
Misc/Lab: Lecture, laboratory and field work variable.
Repeatable for credit
Normal Grade Rules
1-4 units

MS 231. Biology of Seaweeds
Discussions on marine macroalgal biology with extensive reading of original literature. Ecologically-oriented individual research projects involving laboratory culture and field experimentation.
Prerequisite: Graduate standing; MS 131 or instructor consent.
Misc/Lab: Lecture 2 hours; lab/field work 6 hours.
Notes: Offered fall semester.
Normal Grade Rules
4 units

MS 233. Advanced Topics in Marine Ecology
Selected topics and current issues in marine ecology. Subjects vary depending on student demand and availability of instructors. May be repeated once for credit when topic changes.
Prerequisite: Graduate standing; MS 103 and instructor consent.
Misc/Lab: Lecture, lab/field work variable.
Repeatable for credit
Normal Grade Rules
1-4 units

MS 234. Advanced Biological Oceanography
Experimental techniques in biological oceanography with emphasis on problems important in plankton ecology. An individual research project involving the use of one or more modern analytical tools will be required.
Prerequisite: Graduate standing; MS 144 or instructor consent.
Misc/Lab: Lecture 2 hours; lab/field work 6 hours.
Notes: Offered fall semester.
Normal Grade Rules
4 units

MS 248. Marine Benthic Habitat Techniques
Collection and interpretation of geophysical data used to characterize marine benthic habitats. Basic geophysical principals will be reviewed. Application of techniques to identify and characterize marine benthic habitats, including echosounders, multibeam bathymetry and backscatter, sidescan sonar, seismic profiling, and GIS.
Prerequisite: Graduate standing; MS 341 or instructor consent.
Misc/Lab: Lecture 2 hours; lab/field work 6 hours.
Notes: Offered alternate spring semesters during odd years.
Normal Grade Rules
4 units

MS 261. Mixing, Estuarine and Sediment Transport
The mathematical description of the distribution of properties (density, dissolved oxygen, etc.) in the oceans relating to physical and biochemical processes. Equations of motion, geotrophic method, and theory of distribution of variables.
Prerequisite: Graduate standing; MS 342 and college physics strongly recommended, or instructor consent.
Misc/Lab: Lecture 3 hours; lab/field work 3 hours.
Notes: Offered alternate spring semesters during odd years.
Normal Grade Rules
4 units

MS 263. Data Analysis in Marine Science
Introduction to using observational oceanographic data, with hands on practice in scientific programming for data analysis. Lecture, discussion, and practical experience including the use of existing programs and subroutine libraries. Semester project required.
Prerequisite: Graduate standing; MS 104, college math and instructor consent.
Misc/Lab: Lecture 2 hours/lab 6 hours.
Notes: Offer spring semester.
Normal Grade Rules
4 units

MS 272. Subtidal Ecology
The ecology of nearshore rocky subtidal populations and communities with emphasis on kelp forests. Lectures and discussions of original literature. Field work with SCUBA including group projects on underwater research techniques and community analysis. Individual research on ecological questions chosen by the student. Knowledge of marine algae, invertebrates and statistics recommended.
Prerequisite: Graduate standing; MS 103; MLML diver certification and marine ecology.
Misc/Lab: Lecture 2 hours; lab/field work 6 hours.
Notes: Offered alternate spring semesters during odd years.
Normal Grade Rules
4 units

MS 273. Marine Environmental Studies of the Gulf of California
An analysis of Gulf of California marine environments. Lectures, readings, intensive field work, and written scientific paper based on original research. Topics vary. Taught with Mexican faculty and students from La Paz, Mexico. Must be able to participate in 2 weeks of field work.
Prerequisite: Graduate standing; instructor consent.
Misc/Lab: Lecture 2 hours/lab 6 hours.
Notes: Offered spring semester.
Normal Grade Rules
4 units

MS 274. Advanced Topics in Oceanography
Study of selected area in oceanography. Subjects vary depending on student demand and availability of instructors. May be repeated once for credit when topic changes.
Prerequisite: Graduate standing and instructor consent.
Misc/Lab: Lecture, lab/field work variable.
Repeatable for credit
Normal Grade Rules
1-4 units

MS 280. Scientific Writing
Techniques and strategies of scientific writing used for proposals, journal submissions and abstracts of meetings. Emphasis to develop writing skills by preparing, editing, and rewriting manuscripts.
Prerequisite: Graduate standing and instructor consent.
Notes: Offered spring semester.
Normal Grade Rules
3 units

MS 281. Coastal Dynamics
Oceanographic dynamics of coastal environments, with an emphasis on eastern boundary current systems influenced by coastal upwelling. Interactions of physical and geological oceanography and how both affect coastal ecosystem dynamics.
Prerequisite: Graduate standing and MS 142 or MS 141.
Notes: Offered spring semester.
Normal Grade Rules
4 units

MS 285. Graduate Seminar in Marine Science
Seminar will be held on topics changing each semester. Each student will be required to give at least one seminar. Prerequisite: Graduate standing and instructor consent.
Notes: Offered fall and spring semesters.
Repeatable for credit
Normal Grade Rules
2 units
MS 298. Research in the Marine Science
Independent investigations of an advanced character for the graduate student with adequate preparation.
Prerequisite: Graduate standing and instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

MS 299. Master’s Thesis
Offered spring and fall semesters. Available only to MLML Masters’ students in good standing with the approval of their major advisor.
Prerequisites: classified graduate standing, advancement to candidacy.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

NO DEGREE CREDIT

MS 1290R. Culminating Experience Supervision
Continued work on thesis.
Prerequisite: Outstanding RP grade in a preceding semester in MS 299
Note: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit
Music and Dance, School of Courses

DANCE

LOWER DIVISION

DANC 010. Dance Appreciation
A survey of dance as an art in the Western world. The course examines the diversity of people, cultures and events that led to the development of Ballet, Modern, Jazz, Tap and Musical Theatre Dance. GE Area: C1
Normal Grade Rules
GE: PE
3 units

DANC 012. Ensemble Dance Rehearsal and Performance
ENS: Training and performance experience in the field of dance. Fully-staged productions of original professional choreographic works.
Pre-requisite: Audition and Instructor Consent
Repeatable for credit
Normal Grade Rules
2 units

DANC 040A. Topics in Modern Dance I
Training experience in the field of beginning modern dance with varied topics. Can be repeated when topic changes.
Misc/Lab: Activity 4 hours.
Repeatable for credit
Normal Grade Rules
GE: PE
2 units

DANC 041A. Topics in Ballet I
Training experience in the field of beginning ballet dance with varied topics. Can be repeated when topic changes.
Misc/Lab: Activity 4 hours.
Repeatable for credit
Normal Grade Rules
GE: PE
2 units

DANC 042A. Topics in Jazz Dance I
Training experience in the field of beginning Jazz dance with varied topics. Can be repeated when topic changes.
Misc/Lab: Activity 4 hours.
Repeatable for credit
Normal Grade Rules
GE: PE
2 units

DANC 043. Dance Improvisation
Introduction to dance improvisation, developing skills in creativity in preparation for DANC 145A.
Prerequisite: Intermediate technique standing and permission of instructor.
Normal Grade Rules
1 unit

DANC 045A. Beginning Lindy Hop and Night Club Swing
See KIN 045A.
Normal Grade Rules
GE: PE
1 unit

DANC 046A. Beginning Social Dance
See KIN 046A.
Normal Grade Rules
GE: PE
1 unit

DANC 046B. Intermediate Social Dance
See KIN 046B.
Normal Grade Rules
GE: PE
1 unit

DANC 048A. Beginning Latin Dance
See KIN 048A.
Normal Grade Rules
GE: PE
1 unit

DANC 048B. Intermediate Latin Dance
See KIN 048B.
Normal Grade Rules
GE: PE
1 unit

DANC 049A. Topics in Tap Dance I
Training and experience in the field of beginning tap dance with varied topics. Can be repeated when topic changes.
Misc/Lab: Activity 3 hours.
Repeatable for credit
Normal Grade Rules
1 unit

DANC 049B. Topics in Tap Dance II
Training and experience in the field of intermediate tap dance with varied topics. Can be repeated for up to 2 units of credit when topic changes.
Prerequisite: DANC 49A (or equivalent).
Misc/Lab: Activity 3 hours.
Repeatable for credit
Normal Grade Rules
1 unit

DANC 051A. Dance Production
Practical experience in technical aspects of producing a dance concert.
Prerequisite: Instructor consent.
Misc/Lab: Lecture 1 hour/activity 3 hours.
Repeatable for credit
Normal Grade Rules
3 units

DANC 051B. Topics in Dance Crewing
The purpose of this course is to apply practical application of skills in dance production.
Repeatable for credit
Credit / No Credit
0.5 units

DANC 053. Techniques in World Dance
Traditional or theatrical dance forms selected from one of the most two specific cultures. Classical ballet, modern, jazz, and tap dance are excluded.
Prerequisite: Level II technique standing.
Misc/Lab: Activity 3 hours.
Repeatable for credit
Normal Grade Rules
1 unit

DANC 054. Topics in Dance Technique II
Beginning/Intermediate Dance with varied topics.
Prerequisite: Audition or Instructor Consent
Repeatable for credit
Normal Grade Rules
GE: PE
3 units

DANC 075. Rhythm and Dynamics in Dance
Basic music theory and the relationship of dance and music.
Misc/Lab: Activity 2 hours.
Normal Grade Rules
1 unit

UPPER DIVISION

DANC 102. Dance in World Cultures
Survey of dance in selected world cultures; the role of dance in society; consideration of style, historical background and religious/cultural influences. Included are: Caribbean, West African, Mexican, Balkan, European, Asian and American cultures. GE Area: V
Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units

DANC 112. ENS: Dance Rehearsal and Performance
ENS: Training and performance experience in the field of dance. Fully-staged productions of original professional choreographic works of varying styles.
Prerequisite: Audition and instructor consent
Misc/Lab: Lab hours required.
Repeatable for credit
Credit / No Credit
2 units
DANC 140B. Topics in Modern Dance IV
Training experience in the field of advanced modern dance with varied topics. Can be repeated for credit when topic changes.
Prerequisite: DANC 140A and permission of instructor.
Misc/Lab: Activity 6 hours.
Repeatable for credit
Normal Grade Rules
2 units

DANC 141B. Topics in Ballet IV
Training experience in the field of advanced ballet with varied topics. Can be repeated for credit when topic changes.
Prerequisite: DANC 141A and permission of instructor.
Misc/Lab: Activity 6 hours.
Repeatable for credit
Normal Grade Rules
2 units

DANC 142B. Topics in Jazz Dance IV
Training experience in the field of advanced Jazz dance with varied topics. Can be repeated for credit when topic changes.
Prerequisite: DANC 142A and permission of instructor.
Misc/Lab: Activity 6 hours.
Repeatable for credit
Normal Grade Rules
2 units

DANC 144A. Dance History and Repertory
History of dance and dances from ancient time to the court of King Louis XIV. Selected repertory works.
Prerequisite: Upper division standing.
Misc/Lab: Lecture 2 hours/activity 3 hours.
Normal Grade Rules
3 units

DANC 144B. Dance History and Repertory
History of dance and dances from the court of King Louis XIV through the twentieth century. Selected repertory works.
Prerequisite: Upper division standing.
Misc/Lab: Lecture 2 hours/activity 3 hours.
Normal Grade Rules
3 units

DANC 145A. Choreography I
Presentation and criticism of solo choreography; introduction to improvisational techniques.
Prerequisite: DANC 043 and Audition.
Misc/Lab: Activity 4 hours.
Normal Grade Rules
3 units

DANC 145B. Choreography II
Styles; forms; use of improvisation; presentation and criticism of small group dance.
Prerequisite: DANC 145A and Audition.
Misc/Lab: Activity 4 hours.
Normal Grade Rules
3 units

DANC 145C. Choreography III
Practical application of external style in relationship with art from tribal to contemporary times. Concepts, styles and forms of modern dance in the twentieth century.
Prerequisite: DANC 145B and Audition.
Misc/Lab: Activity 4 hours.
Repeatable for credit
Normal Grade Rules
3 units

DANC 147A. Dance Seminar
Course geared toward the understanding of a broader perspective of the Art of Dance with emphasis on current trends, development of personal artistic statement and introductory teaching techniques.
Prerequisite: Senior standing and completion or concurrent enrollment in DANC 144A and/or DANC 144B.
Misc/Lab: Activity 6 hours.
Repeatable for credit
Normal Grade Rules
3 units

DANC 148. Children’s Dance
Course designed to help provide the dancer with introductory teaching techniques.
Prerequisite: Audition or Instructor Approval
Misc/Lab: Lecture 2 hours/activity 2 hours.
Normal Grade Rules
1 unit

DANC 150A. Kinesiology I
This course is designed to help provide the dancer with essential information about structure and function of the human body and the achievement of optimal performance through the science of human motion.
Prerequisite: Upper division standing.
Misc/Lab: Lecture 2 hours/lab 2 hours.
Normal Grade Rules
3 units

DANC 150B. Kinesiology II
This course is designed to help provide the dancer with essential information about injury prevention and introduce active somatic techniques to increase muscular efficiency, balance and overall awareness of the body.
Prerequisite: DANC 150A.
Misc/Lab: Lecture 2 hours/activity 2 hours.
Normal Grade Rules
3 units

DANC 151. Introduction to Dance Pedagogy
Examines methods and modes of teaching dance as an art form, and embodied practice for producing and constructing knowledge and as movement research. Course investigates both theory and practice with concentrated focus on experiential, relational and holistic learning modes.
Prerequisite: DANC 54 and instructor approval
Misc/Lab: 1 hour lecture/ 2 hours activity
Normal Grade Rules
2 units

DANC 154A. Topics in Dance Technique III
Intermediate/advanced dance with varied topics.
Prerequisite: Audition or Instructor Approval
Repeatable for credit
Normal Grade Rules
3 units

DANC 154B. Topics in Dance Technique IV
Advanced Dance with varied topics.
Prerequisite: Audition or Instructor Approval
Repeatable for credit
Normal Grade Rules
3 units

DANC 156. Choreographing the Musical
Study and practice of staging and choreographing musical comedy. Analysis of scripts and choreographic techniques.
Prerequisite: DANC 75, DANC 145A and permission of instructor.
Misc/Lab: Lecture/activity 3 hours.
Normal Grade Rules
3 units

DANC 194. Repertory Dance Activity
REP: Training and performance experience in the field of dance. Fully-staged productions of original student choreographic works. Can be repeated up to 4 times when repertory changes.
Prerequisite: DANC 146 or instructor consent.
Repeatable for credit
Credit / No Credit
1 unit

DANC 198. Internship in Dance
Supervised internship with approved dance organization.
Written evaluation submitted by organizations and student after field work.
Prerequisite: Instructor consent.
Repeatable for credit
Credit / No Credit
1-3 units
**MUSIC**

**LOWER DIVISION**

**MUSC 001A. Music Systems I A**
First course in a four-semester core sequence of study of analytical systems of music. Topics include rhythm, melody, harmony, timbre, structure, style and contexts for performance and composition.  
Prerequisite: Placement examination or completion of MUSC 9 with a grade of 'C' or better.  
Normal Grade Rules  
2 units

**MUSC 001B. Music Systems I B**
First course in a four-semester core sequence of analytical systems of music. Topics include rhythm, melody, harmony, timbre, structure, style and contexts for performance and composition.  
Prerequisite: Placement examination.  
Normal Grade Rules  
1 unit

**MUSC 002A. Music Systems II A**
Second course in a four-semester core sequence of study of analytical systems of music. Topics from MUSC 1A are continued in greater detail with increased complexity.  
Prerequisite: MUSC 1A or placement examination.  
Normal Grade Rules  
2 units

**MUSC 002B. Music Systems II B**
Second course in a four-semester core sequence of analytical systems of music. Topics from MUSC 1B are continued in greater detail with increased complexity.  
Prerequisite: MUSC 1B or placement examination.  
Normal Grade Rules  
1 unit

**MUSC 003A. Music Systems III A**
Third course in a four-semester core sequence of study of analytical systems of music. Topics from MUSC 2A are continued in greater detail with increased complexity.  
Prerequisite: MUSC 2A or placement examination.  
Normal Grade Rules  
2 units

**MUSC 003B. Music Systems III B**
Third course in a four-semester core sequence of analytical systems of music. Topics from MUSC 2B are continued in greater detail with increased complexity.  
Prerequisite: MUSC 2B or placement examination.  
Normal Grade Rules  
1 unit

**MUSC 004A. Music Systems IVA**
Fourth course in a four-semester core sequence of study of analytical systems of music. Topics from MUSC 3A are continued in greater detail with increased complexity.  
GE Area: C1 when taken as part of the Music Intensive Package.  
Prerequisite: MUSC 3A or placement examination.  
Note: Music Intensive Package also requires MUSC 4B and MUSC 12  
Normal Grade Rules  
GE: C1  
2 units

**MUSC 004B. Music Systems IVB**
Fourth course in a four-semester core sequence of study of analytical systems of music. Topics from MUSC 3B are continued in greater detail with increased complexity.  
GE Area: C1 when taken as part of the Music Intensive Package.  
Prerequisite: MUSC 3B or placement examination.  
Note: Music Intensive Package also requires MUSC 4A and MUSC 12  
Normal Grade Rules  
GE: C1  
1 unit

**MUSC 006. Jazz Theory**
Understanding of traditional jazz nomenclature including chord symbols, chord/scale relationships, and jazz harmony. Various scales, their modes and their applications will be addressed as well as their applications to harmonic progressions common to the jazz idiom.  
Prerequisite: MUSC 1A, MUSC 1B, MUSC 25A  
Normal Grade Rules  
2 units

**MUSC 009. Music Fundamentals**
Understanding music terminology, fundamental concepts in music theory and techniques in music reading. Required of all music minors. Acceptable as elective credit for music major (as review of fundamentals or for individual instruction in conjunction with applied music study) only with prior advisor approval.  
Misc/Lab: Lecture 2 hours/activity 2 hours.  
Normal Grade Rules  
3 units

**MUSC 010A. Music Appreciation**
General survey of Western music focusing on recorded and live performances. GE Area: C1  
Normal Grade Rules  
GE: C1  
3 units

**MUSC 010B. Introduction to Music**
Beginning piano playing as a means to understanding music. Listening skills developed through exposure to a variety of music: Popular/classical, old/new, Western/non-Western. GE Area: C1  
Normal Grade Rules  
GE: C1  
3 units

**MUSC 013. Music Technology**
Hands-on skills development in music hardware and software, including music integration in word processing and graphics, music notation and Internet/WWW-based research tools for music majors or non-music majors with some music background.  
Normal Grade Rules  
1 unit

**MUSC 019. Music in World Cultures**
Introduction to music in various cultural contexts outside European classical tradition. Live performances, film, video tapes and slides. Projects involving related arts encouraged. GE Area: C1  
Normal Grade Rules  
GE: C1  
3 units

**MUSC 025A. Piano Proficiency I**
Skills development in performing four-part harmony; harmonizing melodies in pianistic style, modulation, simple score reading and sight-reading.  
Prerequisite: MUSC 9, MUSC 10 (or equivalent).  
Normal Grade Rules  
1 unit

**MUSC 025B. Piano Proficiency II**
25B continuation of 25A.  
Prerequisite: MUSC 25A or equivalent, instructor consent  
Normal Grade Rules  
1 unit

**MUSC 025C. Piano Proficiency III**
Preparation for Piano Proficiency Exam  
Prerequisite: MUSC 9, 25B or equivalent, instructor consent  
Repeatable for credit  
Normal Grade Rules  
1 unit

**MUSC 026A. Voice Fundamentals**
Principles of voice production and performance.  
Prerequisite: MUSC 9 or MUSC 10B (or equivalent).  
Normal Grade Rules  
1 unit
MUSC 027A. Fundamentals of Jazz Keyboard I
For any instrumental/voice student. Basic skills in jazz keyboard: Chord voicings, symbols, progressions and rhythmic patterns, jazz styles, simple melodic techniques and accompaniment.
Normal Grade Rules
1 unit

MUSC 027B. Fundamentals of Jazz Keyboard II
Advanced applications of materials presented in MUSC 27A, including keyboard performance of selected lead-sheet literature, chord symbol recognition, keyboard techniques, chord substitutions introduced, polychords.
Prerequisite: MUSC 27A (or equivalent).
Normal Grade Rules
1 unit

MUSC 028. Guitar Fundamentals
The purpose of this course is to develop basic skills and techniques in guitar playing, applicable to various types of music and teaching.
Prerequisite: Ability to read music.
Normal Grade Rules
1 unit

MUSC 029. Electro-Acoustics
Incorporating current music technology and instrumentation in creating works and projects. Required each semester of lower division electro-acoustic majors.
Pre-requisite: Audition or Instructor Consent
Normal Grade Rules
1-2 units

MUSC 029A. Electro-Acoustics 1
APPLIED LESSONS: Electro-acoustics level 1, incorporating current music technology and instrumentation into projects. For music technology majors.
Pre-requisite: Audition and instructor consent
Normal Grade Rules
1-2 units

MUSC 029AX. Applied Electro-Acoustic 1
The course is an intensive study of electro-acoustic music and audio production methods. Works and projects are created incorporating current music technology and instrumentation.
Prerequisite: Successful audition into the applied area
Normal Grade Rules
1 unit

MUSC 029B. Electro-Acoustics 2
APPLIED LESSONS: Electro-acoustics level 2, incorporating current music technology and instrumentation into projects. For music technology majors.
Pre-requisite: Audition and instructor consent, MUSC 29A or equivalent.
Normal Grade Rules
1-2 units

MUSC 029BX. Applied Electro-Acoustic 2
The course is an intensive study of electro-acoustic music and audio production methods. Works and projects are created incorporating current music technology and instrumentation.
Prerequisite: Successful audition into the applied area
Normal Grade Rules
1 unit

MUSC 029C. Electro-Acoustics 3
APPLIED LESSONS: Electro-acoustics level 3, incorporating current music technology and instrumentation into projects. For music technology majors.
Pre-requisite: Audition and instructor consent, MUSC 29B or equivalent
Normal Grade Rules
1-2 units

MUSC 029CX. Applied Electro-Acoustic 3
The course is an intensive study of electro-acoustic music and audio production methods. Works and projects are created incorporating current music technology and instrumentation.
Prerequisite: Successful audition into the applied area
Normal Grade Rules
1 unit

MUSC 029D. Electro-Acoustics 4
APPLIED LESSONS: Electro-acoustics level 4, incorporating current music technology and instrumentation into projects. For music technology majors.
Pre-requisite: Audition and instructor consent, MUSC 29C or equivalent
Normal Grade Rules
1-2 units

MUSC 029DX. Applied Electro-Acoustic 4
The course is an intensive study of electro-acoustic music and audio production methods. Works and projects are created incorporating current music technology and instrumentation.
Prerequisite: Successful audition into the applied area
Normal Grade Rules
1 unit

MUSC 030. Piano
Required each semester of lower division piano majors.
Prerequisite: Audition or instructor consent.
Normal Grade Rules
1-2 units

MUSC 030A. Piano 1
APPLIED LESSONS: Piano level 1. Required of BM piano majors every semester.
Pre-requisite: Audition and instructor consent
Normal Grade Rules
1-2 units

MUSC 030AX. Applied Piano 1
The objective of applied lessons is for the instructor to work intensively with the individual piano major in acquiring skills both technical and interpretive in the mastery of standard repertory.
Prerequisite: Successful audition into applied area
Normal Grade Rules
1 unit

MUSC 030B. Piano 2
APPLIED LESSONS: Piano level 2. Lessons required of BM piano majors every semester.
Pre-requisite: Audition and instructor consent
Normal Grade Rules
1-2 units

MUSC 030BX. Applied Piano 2
The objective of applied lessons is for the instructor to work intensively with the individual piano major in acquiring skills both technical and interpretive in the mastery of standard repertory.
Prerequisite: Successful audition into applied area
Normal Grade Rules
1 unit

MUSC 030C. Piano 3
APPLIED LESSONS: Piano level 3. Lessons required of BM piano majors every semester.
Pre-requisite: Audition and instructor consent, MUSC 30B or equivalent
Normal Grade Rules
1-2 units

MUSC 030CX. Applied Piano 3
The objective of applied lessons is for the instructor to work intensively with the individual piano major in acquiring skills both technical and interpretive in the mastery of standard repertory.
Prerequisite: Successful audition into applied area
Normal Grade Rules
1 unit

MUSC 030D. Piano 4
APPLIED LESSONS: Piano level 4. Lessons required of BM piano majors every semester.
Pre-requisite: Audition and instructor consent, MUSC 30C or equivalent.
Normal Grade Rules
1-2 units

MUSC 030DX. Applied Piano 4
The objective of applied lessons is for the instructor to work intensively with the individual piano major in acquiring skills both technical and interpretive in the mastery of standard repertory.
Prerequisite: Successful audition into applied area
Normal Grade Rules
1 unit

MUSC 030E. Piano 5
APPLIED LESSONS: Piano level 5. Lessons required of BM piano majors every semester.
Pre-requisite: Audition and instructor consent, MUSC 30D or equivalent.
Normal Grade Rules
1-2 units
The objective of applied lessons is for the instructor to work intensively with the individual piano major in acquiring skills both technical and interpretive in the mastery of standard repertory.

**Pre-requisite:** Successful audition into applied area

Normal Grade Rules
1 unit

**MUSC 030X. Applied Piano**
The objective of applied lessons is for the instructor to work intensively with the individual piano major in acquiring skills both technical and interpretive in the mastery of standard repertory.

**Pre-requisite:** Successful audition into applied area

Normal Grade Rules
1 unit

**MUSC 031. Harpsichord or Organ**
**APPLIED LESSONS:** Harpsichord or organ. Required of BM harpsichord or organ majors every semester.

**Pre-requisite:** Audition or instructor consent

Normal Grade Rules
1-2 units

**MUSC 031A. Harpsichord or Organ 1**
**APPLIED LESSONS:** Harpsichord or organ level 1. Required of BM piano majors every semester.

**Pre-requisite:** Audition or Instructor Consent

Normal Grade Rules
1-2 units

**MUSC 031AX. Harpsichord or Organ 1**
**APPLIED LESSONS:** Harpsichord or organ. Required each semester of lower division BA, BM-Composition or BM-Jazz Studies majors for whom harpsichord or organ is the applied area.

**Pre-requisite:** Audition and instructor approval

Normal Grade Rules
1 unit

**MUSC 031B. Harpsichord or Organ 2**
**APPLIED LESSONS:** Harpsichord or organ level 2. Required of BM piano majors every semester.

**Pre-requisite:** Audition and instructor consent, MUSC 31A or equivalent

Normal Grade Rules
1-2 units

**MUSC 031BX. Harpsichord or Organ 2**
**APPLIED LESSONS:** Harpsichord or organ. Required each semester of lower division BA, BM-Composition or BM-Jazz Studies majors for whom harpsichord or organ is the applied area.

**Pre-requisite:** Audition and instructor approval

Normal Grade Rules
1 unit

**MUSC 031C. Harpsichord or Organ 3**
**APPLIED LESSONS:** Harpsichord or organ level 3. Required of BM piano majors every semester.

**Pre-requisite:** Audition and instructor consent, MUSC 31B or equivalent

Normal Grade Rules
1-2 units

**MUSC 031CX. Harpsichord or Organ 3**
**APPLIED LESSONS:** Harpsichord or organ. Required each semester of lower division BA, BM-Composition or BM-Jazz Studies majors for whom harpsichord or organ is the applied area.

**Pre-requisite:** Audition and instructor approval

Normal Grade Rules
1 unit

**MUSC 031D. Harpsichord or Organ 4**
**APPLIED LESSONS:** Harpsichord or organ level 4. Required of BM piano majors every semester.

**Pre-requisite:** Audition and instructor consent, MUSC 31C or equivalent

Normal Grade Rules
1-2 units

**MUSC 031DX. Harpsichord or Organ 4**
**APPLIED LESSONS:** Harpsichord or organ. Required each semester of lower division BA, BM-Composition or BM-Jazz Studies majors for whom harpsichord or organ is the applied area.

**Pre-requisite:** Audition and instructor approval

Normal Grade Rules
1 unit

**MUSC 032. Voice**
Required each semester of lower division voice majors.

Pre-requisite: Audition and/or the prior course in the sequence

Normal Grade Rules
1 unit

**MUSC 032X. Applied Voice 1**
Applied Lessons 1-8, required each semester for lower and upper division Voice majors.

Pre-requisite: Audition and/or the prior course in the sequence

Normal Grade Rules
1 unit

**MUSC 033. Voice 2**
**APPLIED LESSONS:** Voice level 2. Required of BM vocal majors every semester.

Pre-requisite: Audition and/or the prior course in the sequence

Normal Grade Rules
1-2 units

**MUSC 033A. Voice 1**
**APPLIED LESSONS:** Voice level 1. Required of BM vocal majors every semester.

Pre-requisite: Audition and instructor consent

Normal Grade Rules
1-2 units

**MUSC 033SX. Applied Voice 2**
Applied Lessons 1-8, required each semester for lower and upper division Voice majors.

Pre-requisite: Audition and/or the prior course in the sequence

Normal Grade Rules
1-2 units

**MUSC 033A. Voice 1**
**APPLIED LESSONS:** Voice level 1. Required of BM vocal majors every semester.

Pre-requisite: Audition and instructor consent

Normal Grade Rules
1-2 units

**MUSC 033C. Voice 3**
**APPLIED LESSONS:** Voice level 3. Required of BM vocal majors every semester.

Pre-requisite: Audition and instructor consent, 33B or equivalent

Normal Grade Rules
1-2 units

**MUSC 033CX. Applied Voice 3**
Applied Lessons 1-8, required each semester for lower and upper division Voice majors.

Pre-requisite: Audition and/or the prior course in the sequence

Normal Grade Rules
1 unit

**MUSC 033D. Voice 4**
**APPLIED LESSONS:** Voice level 4. Required of BM vocal majors every semester.

Pre-requisite: Audition and instructor consent, 33C or equivalent

Normal Grade Rules
1-2 units

**MUSC 033DX. Applied Voice 4**
Applied Lessons 1-8, required each semester for lower and upper division Voice majors.

Pre-requisite: Audition and/or the prior course in the sequence

Normal Grade Rules
1 unit
MUSC 034. Strings
Required each semester of lower division string majors.
Prerequisite: Audition or instructor consent.
Normal Grade Rules
1-2 units
MUSC 034A. Strings 1
APPLIED LESSONS: Strings level 1. Required of BM string majors every semester.
Prerequisite: Audition and instructor consent
Normal Grade Rules
1-2 units
MUSC 034AX. Strings 1
Applied lessons A-D, required each semester of upper and lower division string majors.
Prerequisite: Audition or instructor consent
Normal Grade Rules
1 unit
MUSC 034B. Strings 2
APPLIED LESSONS: Strings level 2. Required of BM string majors every semester.
Prerequisite: Audition and instructor consent, MUSC 34A or equivalent
Normal Grade Rules
1-2 units
MUSC 034BX. Strings 2
Applied lessons A-D, required each semester of upper and lower division string majors.
Prerequisite: Audition or instructor consent
Normal Grade Rules
1 unit
MUSC 034C. Strings 3
APPLIED LESSONS: Strings level 3. Required of BM string majors every semester.
Prerequisite: Audition and instructor consent, MUSC 34A or equivalent
Normal Grade Rules
1-2 units
MUSC 034CX. Strings 3
Applied lessons A-D, required each semester of upper and lower division string majors.
Prerequisite: Audition or instructor consent
Normal Grade Rules
1 unit
MUSC 034D. Strings 4
APPLIED LESSONS: Strings level 4. Required of BM string majors every semester.
Prerequisite: Audition and instructor consent, MUSC 34C or equivalent
Normal Grade Rules
1-2 units
MUSC 034DX. Strings 4
Applied lessons A-D, required each semester of upper and lower division string majors.
Prerequisite: Audition or instructor consent
Normal Grade Rules
1 unit
MUSC 034X. Strings
Applied lessons A-D, required each semester of upper and lower division string majors.
Prerequisite: Audition or instructor consent
Normal Grade Rules
1-2 units
MUSC 035. Woodwinds
Required each semester of lower division woodwind majors.
Prerequisite: Audition or instructor consent.
Normal Grade Rules
1 unit
MUSC 035A. Woodwinds 1
APPLIED LESSONS: Woodwinds level 1. Required of BM woodwind majors every semester. Flute, oboe, bassoon, clarinet or saxophone.
Prerequisite: Audition and instructor consent
Normal Grade Rules
1-2 units
MUSC 035AX. Woodwinds 1
Applied Lessons 1-8, required each semester for lower and upper division woodwind majors.
Prerequisite: Audition and/or the prior course in the sequence
Normal Grade Rules
1 unit
MUSC 035B. Woodwinds 2
APPLIED LESSONS: Woodwinds level 2. Required of BM woodwind majors every semester. Flute, oboe, bassoon, clarinet or saxophone.
Prerequisite: Audition and/or the prior course in the sequence
Normal Grade Rules
1-2 units
MUSC 035BX. Woodwinds 2
Applied Lessons 1-8, required each semester for lower and upper division woodwind majors.
Prerequisite: Audition and/or the prior course in the sequence
Normal Grade Rules
1 unit
MUSC 035C. Woodwinds 3
APPLIED LESSONS: Woodwinds level 3. Required of BM woodwind majors every semester. Flute, oboe, clarinet, bassoon or saxophone.
Prerequisite: Audition and instructor consent, MUSC 35B or equivalent
Normal Grade Rules
1-2 units
MUSC 035CX. Woodwinds 3
Applied Lessons 1-8, required each semester for lower and upper division woodwind majors.
Prerequisite: Audition and/or the prior course in the sequence
Normal Grade Rules
1 unit
MUSC 035D. Woodwinds 4
APPLIED LESSONS: Woodwinds level 4. Required of BM woodwind majors every semester. Flute, oboe, bassoon, clarinet or saxophone.
Prerequisite: Audition and instructor consent, MUSC 35C or equivalent
Normal Grade Rules
1-2 units
MUSC 035DX. Woodwinds 4
Applied Lessons 1-8, required each semester for lower and upper division woodwind majors.
Prerequisite: Audition and/or the prior course in the sequence
Normal Grade Rules
1 unit
MUSC 036. Brass
Required each semester of lower division brass majors.
Pre-requisite: Audition or instructor consent.
Repeatable for credit
Normal Grade Rules
1-2 units
MUSC 036B. Brass 1
APPLIED LESSONS: Brass level 1. Required of BM brass majors every semester. Trumpet, trombone, french horn, euphonium, tuba.
Pre-requisite: Audition and instructor consent
Normal Grade Rules
1-2 units
MUSC 036BX. Brass 1
Applied Lessons 1-8, required each semester for lower and upper division brass majors.
Pre-requisite: Successful audition into the applied area.
Normal Grade Rules
1 unit
MUSC 036C. Brass 2
APPLIED LESSONS: Brass level 2. Required of BM brass majors every semester. Trumpet, trombone, french horn, euphonium, tuba.
Pre-requisite: Audition and instructor consent, MUSC 36B or equivalent
Normal Grade Rules
1-2 units
**MUSC 036CX. Brass 2**  
Required each semester for lower and upper division brass majors.  
Prerequisite: Successful audition into the applied area.  
Normal Grade Rules  
1 unit

**MUSC 036D. Brass 3**  
Pre-requisite: Audition and instructor consent, MUSC 36C or equivalent  
Normal Grade Rules  
1-2 units

**MUSC 036DX. Brass 3**  
Required each semester for lower and upper division brass majors.  
Prerequisite: Successful audition into the applied area.  
Normal Grade Rules  
1 unit

**MUSC 036E. Brass 4**  
APPLIED LESSONS: Brass level 4. Required of BM brass majors every semester. Trumpet, trombone, french horn, euphonium, tuba.  
Pre-requisite: Audition and instructor consent, MUSC 36D or equivalent  
Normal Grade Rules  
1-2 units

**MUSC 036EX. Brass 4**  
Required each semester for lower and upper division brass majors.  
Prerequisite: Successful audition into the applied area.  
Normal Grade Rules  
1 unit

**MUSC 037. Percussion**  
Required each semester of lower division percussion majors.  
Pre-requisite: Audition or instructor consent.  
Normal Grade Rules  
1-2 units

**MUSC 037A. Percussion 1**  
APPLIED LESSONS: Percussion level 1. Required of BM percussion majors every semester.  
Pre-requisite: Audition and instructor consent  
Normal Grade Rules  
1-2 units

**MUSC 037AX. Applied Percussion 1**  
Applied Lessons - Instruction in technical, stylistic, and aesthetic elements of artistic performance in percussion.  
Prerequisite: Successful audition into the percussion studio  
Normal Grade Rules  
1 unit

**MUSC 037B. Percussion 2**  
APPLIED LESSONS: Percussion level 2. Required of BM percussion majors every semester.  
Pre-requisite: Audition and instructor consent, 37A or equivalent  
Normal Grade Rules  
1-2 units

**MUSC 037BX. Applied Percussion 2**  
Applied Lessons - Instruction in technical, stylistic, and aesthetic elements of artistic performance in percussion.  
Prerequisite: Successful audition into the percussion studio  
Normal Grade Rules  
1 unit

**MUSC 037C. Percussion 3**  
APPLIED LESSONS: Percussion level 3. Required of BM percussion majors every semester.  
Pre-requisite: Audition and instructor consent, 37B or equivalent  
Normal Grade Rules  
1-2 units

**MUSC 037CX. Applied Percussion 3**  
Applied Lessons - Instruction in technical, stylistic, and aesthetic elements of artistic performance in percussion.  
Prerequisite: Successful audition into the percussion studio  
Normal Grade Rules  
1 unit

**MUSC 037D. Percussion 4**  
APPLIED LESSONS: Percussion level 4. Required of BM percussion majors every semester.  
Pre-requisite: Audition and instructor consent, 37C or equivalent  
Normal Grade Rules  
1-2 units

**MUSC 037DX. Applied Percussion 4**  
Applied Lessons - Instruction in technical, stylistic, and aesthetic elements of artistic performance in percussion.  
Prerequisite: Successful audition into the percussion studio  
Normal Grade Rules  
1 unit

**MUSC 038. Composition**  
Required each semester of lower division composition majors. Works created incorporating traditional and twentieth century procedures.  
Pre-requisite: Audition or instructor consent.  
Normal Grade Rules  
1-2 units

**MUSC 038C. Composition 2**  
APPLIED LESSONS: Composition level 2. Required of BM composition majors every semester.  
Pre-requisite: Audition and instructor consent, MUSC 1A, MUSC 1B, MUSC 38B, with a B or better  
Co-requisite: MUSC 1A and MUSC 2B  
Normal Grade Rules  
1-2 units

**MUSC 038CX. Applied Instruction in Music Composition 2**  
The course is an intensive study of the materials of art music composition. Works are created incorporating common practice and twentieth century procedures  
Normal Grade Rules  
1 unit

**MUSC 038D. Composition 3**  
APPLIED LESSONS: Composition level 3. Required of BM composition majors every semester.  
Pre-requisite: Audition and instructor consent, MUSC 2A and MUSC 2B, MUSC 38C, with a B or better  
Co-requisite: MUSC 2A and MUSC 3B  
Normal Grade Rules  
1-2 units

**MUSC 038DX. Applied Instruction in Music Composition 3**  
The course is an intensive study of the materials of art music composition. Works are created incorporating common practice and twentieth century procedures  
Normal Grade Rules  
1 unit
MUSC 038E. Composition 4
APPLIED LESSONS: Composition level 4. Required of BM composition majors every semester.
Pre-requisite: Audition and instructor consent, MUSC 3A and MUSC 3B, MUSC. 3BD, with a B or better
Co-requisite: MUSC 4A and MUSC 4B
Normal Grade Rules
1-2 units

MUSC 038EX. Applied Instruction in Music Composition 4
The course is an intensive study of the materials of art music composition. Works are created incorporating common practice and twentieth century procedures
Normal Grade Rules
1 unit

MUSC 038X. Applied Instruction in Music Composition
The course is an intensive study of the materials of art music composition. Works are created incorporating common practice and twentieth century procedures
Normal Grade Rules
1 unit

MUSC 039A. Jazz: Improvisation, Composition or Arranging 1
APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 1. Required of BM Jazz Studies majors every semester.
Pre-requisite: Audition and instructor consent
Normal Grade Rules
1-2 units

MUSC 039AX. Jazz: Improvisation, Composition or Arranging 1
APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 1. Required of BA, BM-Composition, or BM Jazz Studies majors every semester.
Pre-requisite: Audition and instructor consent approval
Normal Grade Rules
1 unit

MUSC 039B. Jazz: Improvisation, Composition or Arranging 2
APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 2. Required of BM Jazz Studies majors every semester.
Pre-requisite: Audition and instructor consent, MUSC 39A or equivalent
Normal Grade Rules
1-2 units

MUSC 039BX. Jazz: Improvisation, Composition or Arranging 2
APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 2. Required of BA, BM-Composition, or BM Jazz Studies majors every semester.
Pre-requisite: MUSC 39AX or equivalent
Normal Grade Rules
1 unit

MUSC 039C. Jazz: Improvisation, Composition or Arranging 3
APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 3. Required of BM Jazz Studies majors every semester.
Pre-requisite: Audition and instructor consent, MUSC 39B or equivalent
Normal Grade Rules
1-2 units

MUSC 039CX. Jazz: Improvisation, Composition or Arranging 3
APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 3. Required of BA, BM-Composition, or BM Jazz Studies majors every semester.
Prerequisite: MUSC 39BX or equivalent
Normal Grade Rules
1 unit

MUSC 039D. Jazz: Improvisation, Composition and Arranging 4
APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 4. Required of BA, BM-Composition, or BM Jazz Studies majors every semester.
Prerequisite: Audition and instructor consent, MUSC 39C or equivalent
Normal Grade Rules
1-2 units

MUSC 039DX. Jazz: Improvisation, Composition or Arranging 4
APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 4. Required of BA, BM-Composition, or BM Jazz Studies majors every semester.
Prerequisite: MUSC 39CX or equivalent
Normal Grade Rules
1 unit

MUSC 039X. Applied Jazz Saxophone
The goal of Applied Jazz Saxophone at any level is to present each student with the appropriate materials to increase his/her ability as an improvising musician. Emphasis will be placed on learning standard jazz repertoire; the transcription of jazz soloists; the assimilation of technical patterns associated with improvisation; and internalizing an idiomatic stylistic approach.
Prerequisite: MUSC 39AX or equivalent.
Normal Grade Rules
1 unit

MUSC 040. Jazz Improvisation - I
Development of performance skills for lead-sheet interpretation: response and interplay, ear-training for improvisers, basic chord-scales and jazz vocabulary. Vocal, instrumental, and transcription exercises. In-class performance. Emphasis will be placed on blues, modal compositions, and simple song forms.
Pre/Corequisite: MUSC 1A, MUSC 1B and MUSC 25A, or equivalent.
Misc/Lab: Seminar 1 hour/activity 2 hours.
Normal Grade Rules
2 units

MUSC 041A. Applied Lyric Diction
Pronunciation and applied execution of correct diction in English and Italian for singers in a master class setting. Performance of specific literature of these languages with emphasis on correct usage of the International Phonetic alphabet for lyric diction.
Prerequisite: Instructor consent.
Normal Grade Rules
1 unit

MUSC 041B. Applied Lyric Diction
Pronunciation and applied execution of correct diction in French and German for singers in a master class setting. Performance of specific literature of these languages with emphasis on correct usage of the International Phonetic Alphabet for lyric diction.
Prerequisite: Instructor consent.
Normal Grade Rules
1 unit

MUSC 050A. ENS: Concert Choir
Ensemble. Large select choral ensemble, specializing in advanced a cappella and symphonic major works from all periods.
Prerequisite: Audition and instructor consent
Repeatable for credit
Normal Grade Rules
1 unit

MUSC 050B. ENS: University Chorales
ENS: Training and performance experience in the field of opera. Fully-staged productions of one-act and conventional length works of varying styles.
Prerequisite: Audition and instructor consent.
Repeatable for credit
Normal Grade Rules
1 unit
MUSC 053. ENS: University Symphony Orchestra
Ensemble performance and rehearsal of standard orchestral and operatic repertoire. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 054. ENS: Symphonic Band
Ensemble rehearsal and performance of large symphonic band repertoire. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 055. ENS: Wind Ensemble
Ensemble rehearsal and performance of standard repertoire with two or more instruments plus piano. Prerequisite: Audition and instructor consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 056. ENS: Spartan Marching Band
Ensemble performance by permission to all students who play saxophone, brass or percussion instruments. Performs at all home and selected away Spartan football games. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 2 units

MUSC 057. ENS: Jazz Orchestra
Big band jazz performance for instrumentalists and singers. Classic and new repertoire. Concert performances. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 058. ENS: Afro-Latin Jazz Ensemble
Performance of Afro-Latin jazz and popular music repertoires of the US, the Caribbean, and Latin America. Ensemble techniques and solo improvisation. Concert performances. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 060. ENS: Choraliers
Small select chamber vocal group specializing in music from all periods, Renaissance to Contemporary. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 060A. ENS: Chamber Orchestra
Ensemble rehearsal and performance of advanced literature for small orchestra, with music selected from a broad range of stylistic periods and composers. Prerequisite: Audition or Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 060B. ENS: Chamber Orchestra
Ensemble rehearsal and performance of standard repertoire with two or more instruments plus piano. Prerequisite: Audition and Instructor consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 060C. ENS: Chamber Music
Ensemble rehearsal and performance of large symphonic band repertoire. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 060D. ENS: Chamber Orchestra
Ensemble rehearsal and performance of standard repertoire with two or more instruments plus piano. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 060E. ENS: Jazz Singers
Ensemble rehearsal and performance of advanced literature for chamber jazz chorus in concerts, festivals, and special events. Performance techniques, improvisation, musicianship and studio-recording techniques. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 060F. ENS: Small Jazz Ensembles
Ensemble rehearsal and performance of standard repertoire, informal ("head") arrangements. In-class and/or public performances. Prerequisite: MUSC 001A, MUSC 001B, MUSC 40A and MUSC 40B or equivalent. Instructor consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 060G. ENS: Pep Band
Ensemble limited to twenty-five woodwind, brass and percussion players; performs at home Spartan basketball games and certain campus functions. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 060H. ENS: Percussion Ensemble
Ensemble rehearsal and performance of standard repertoire with two or more instruments plus piano. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 060I. ENS: Jazz Ensemble
Large jazz ensemble focused on learning standard repertoire, style, pedagogy and improvisation. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 060J. ENS: String Ensemble
Ensemble rehearsal and performance of standard repertoire with two or more instruments plus piano. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 060K. ENS: Brass Ensemble
Ensemble rehearsal and performance of advanced literature for chamber orchestra in concerts, festivals, and special events. Performance techniques, improvisation, musicianship and studio-recording techniques. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 060L. ENS: Woodwind Ensemble
Ensemble rehearsal and performance of standard repertoire with two or more instruments plus piano. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

MUSC 060M. ENS: Saxophone Ensemble
Ensemble rehearsal and performance of advanced literature for chamber orchestra in concerts, festivals, and special events. Performance techniques, improvisation, musicianship and studio-recording techniques. Prerequisite: Audition and Instructor Consent. Repeatable for credit. Normal Grade Rules. 1 unit

All dates, fees & information subject to change without notice.
MUSC 060O. ENS: Trombone Ensemble
ENS. Rehearsal and performance of literature for trombone ensemble. Weekly meetings will also include discussion of brass related topics.
Prerequisite: Audition and instructor consent
Repeatable for credit
Normal Grade Rules
1 unit

MUSC 061. REP: Styles and Interpretation of Opera I
REP. Introduction to styles of opera composition and presentation focusing on opera scenes being presented by the Opera Theater.
Prerequisite: Audition and Instructor Consent
Repeatable for credit
Normal Grade Rules
1 unit

MUSC 062. ENS: Opera Production
ENS. Hands-on training and experience in all phases of opera production.
Prerequisite: Audition and Instructor Consent
Repeatable for credit
Normal Grade Rules
1 unit

MUSC 063. REP: Styles and Interpretation of Opera II
REP. Advanced styles of opera composition and presentation focusing on opera scenes being presented by the Opera Theater.
Prerequisite: Audition and Instructor Consent
Repeatable for credit
Normal Grade Rules
1 unit

MUSC 081. Concert Listening I
Active involvement in the professional musical life of the campus and community through attending programs from the master list published each semester and writing five critical reviews.
Notes: Open to all university students.
Repeatable for credit
Credit / No Credit
1 unit

UPPER DIVISION

MUSC 100W. Written Communication II
Examines the process of critique, creative description, research, and professional communications central to the performing arts. Students develop writing skills through the study of varied formats focused on the arts. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE: Z
3 units

MUSC 102. Orchestration
Ranges, sonorities, transposition and technical considerations of orchestral instruments. Performance of project for full orchestra as culminating activity.
Prerequisite: MUSC 13, MUSC 4A and MUSC 4B or equivalents
Notes: May be taken singly or in any sequence.
Normal Grade Rules
3 units

MUSC 103. Form and Analysis
Formal design and pitch structure of Western art music.
Prerequisite: MUSC 4A and MUSC 4B.
Normal Grade Rules
3 units

MUSC 104. Counterpoint
The study of the art of counterpoint from the sixteenth century to the present. Includes analysis, imitative and original composition.
Prerequisite: MUSC 4A or MUSC 4B; placement examination.
Notes: May be taken singly or in any sequence. Emphasis may vary.
Normal Grade Rules
3 units

MUSC 106A. Jazz Arranging I
First in a two-semester sequence of jazz arranging and composition required of all jazz majors. Deals primarily with techniques involved in writing and arranging music for the small jazz ensemble and addresses skills used jazz composition.
Prerequisite: MUSC 2A, MUSC 2B, MUSC 6, MUSC 40A
Normal Grade Rules
2 units

MUSC 160B. Jazz Arranging II
Second in a two-semester sequence of jazz arranging and composition required of all jazz majors. Deals primarily with techniques involved in writing and arranging music for the large jazz ensemble. Computer notation is required on all finished projects.
Prerequisite: MUSC 2A, MUSC 2B, MUSC 6, MUSC 106A.
Normal Grade Rules
2 units

MUSC 109. Film Scoring Techniques
Prerequisite: MUSC 102 or equivalent.
Notes: Emphasis may vary.
Normal Grade Rules
3 units

MUSC 110. Baroque and Classical Music History
Exploration and survey of the Baroque and Classical periods with study of styles, composers, works, music theory, performance practices, and cultural and intellectual history. Application of research and library skills through research assignments.
Prerequisite: MUSC 12, MUSC 3A (or equivalent), or instructor consent.
Normal Grade Rules
3 units

MUSC 111. Romantic and Modern Music History
Exploration and survey of Romantic and Modern classical music with study of styles, composers, works, music theory, performance practices, and cultural and intellectual history. Demonstration of research and library skills through a term paper.
Prerequisite: MUSC 110, or equivalent.
Notes: Emphasis may vary.
Normal Grade Rules
3 units

MUSC 116. Aspects of Twentieth Century Music
In-depth study of contemporary music from the various major musical cultures of the world including the European-American classical tradition. Content will vary depending upon national and international trends, compositional techniques and performance media. Formal analysis, listening, and performance.
Prerequisite: MUSC 111 (or equivalent).
Note: Emphasis may vary. Offered only occasionally.
Repeatable for credit
Normal Grade Rules
3 units
MUSC 117. Music and Culture in Latin America
Traces development of musical traditions in Latin America. Analyzes formation of musical styles resulting from socio-political, cultural and economic processes. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units

MUSC 118. Global Soundtracks
The course focuses on the analysis of the aural semiotics of narrative music to reflect and critique the subjectivities, themes, and cultures of their respective films, and historically traces their trans-global evolution and interchange of approaches over the past century. Prerequisites: Completion of core GE, upper division standing, passage of WST
Pre/CoRequisite: Any 100w
Normal Grade Rules
3 units

MUSC 120. Worlds of Jazz
Course approaches jazz as part of American and global cultural history, exploring the changing social contexts in which jazz musicians in the US and abroad have worked and lived throughout the 20th century and today. GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: S
3 units

MUSC 122A. Fundamental Techniques and Literature: Instrumental
Woodwinds: Flute, Clarinet, and Saxophone. Required for credential. Instrumental emphasis in music education must take two units including clarinet, saxophone, flute, oboe, and bassoon. Choral/general emphasis must take a minimum of one unit to include flute, clarinet and saxophone. Prerequisite: Upper division standing.
Misc/Lab: Activity 4 hours.
Normal Grade Rules
1 unit

MUSC 122B. Fundamental Techniques and Literature: Instrumental
Woodwinds: double reeds and saxophone. Required for credential. Instrumental emphasis in music education must take two units including flute, clarinet, saxophone and double reeds. Choral/general emphasis must take a minimum of one unit including flute, clarinet, and saxophone. Prerequisites: Upper Division Standing, and Instructor Consent
Normal Grade Rules
1 unit

MUSC 123A. Fundamental Techniques and Literature: Instrumental
Upper Brass. Required for credential. Instrumental emphasis in music education must take two units including upper and lower brass. Choral/general emphasis must take a minimum of one unit of brass. Prerequisite: Upper division standing. Misc/Lab: Activity 4 hours.
Normal Grade Rules
1 unit

MUSC 123B. Fundamental Techniques and Literature: Instrumental
Lower Brass. Required for credential. Instrumental emphasis in music education must take two units including upper and lower brass. Choral/general emphasis must take a minimum of one unit of upper brass. Prerequisite: Upper Division Standing and Instructor Consent
Normal Grade Rules
1 unit

MUSC 124. Special Topics in Music History/Literature
Content varies to allow presentation of one-time courses by specialists from artist-faculty and guests. Prerequisite: Upper division standing or instructor consent. Repeatable for credit
Normal Grade Rules
1-3 units

MUSC 125D. Fundamental Techniques and Literature: Instrumental
Applied Lessons: Electro-acoustics level 2D or equivalent
Prerequisite: Audition and instructor consent. Repeatable for credit
Normal Grade Rules
1-2 units

MUSC 126. Marching Band Techniques
Methods and materials of marching band instruction. Techniques of show development, arranging, drill design, charting, and drill instruction. Principles of band administration, such as budget management, purchasing, and program development. Required for credential. Prerequisite: Upper division standing and instructor consent.
Notes: Offer through Extended Studies. Normal Grade Rules
1 unit

MUSC 127A. Fundamental Techniques and Literature: Instrumental
Upper Strings. Required for credential. Instrumental emphasis in music education must take two units including upper and lower strings. Choral/general emphasis must take a minimum of one unit of strings. Prerequisite: Upper division standing.
Misc/Lab: Activity 4 hours.
Normal Grade Rules
1 unit

MUSC 127B. Fundamental Techniques and Literature: Instrumental
Lower Strings. Required for credential. Instrumental emphasis in music education must take two units including upper and lower strings. Choral/general emphasis must take a minimum of one unit of upper strings. Prerequisite: Upper Division Standing and Instructor Consent
Normal Grade Rules
1 unit

MUSC 129. Electro-Acoustics
Incorporating current music technology and instrumentation in creating advanced works and projects. Required each semester of upper division electro-acoustic majors. Prerequisite: Audition or instructor consent. Repeatable for credit
Normal Grade Rules
1-2 units

MUSC 129A. Electro-Acoustics 5
APPLIED LESSONS: Electro-acoustics level 5, incorporating current music technology and instrumentation into projects. For music technology majors. Pre-requisite: Audition and instructor consent, MUSC 290 or equivalent.
Normal Grade Rules
1-2 units
MUSC 129B. Electro-Acoustics 6  
APPLIED LESSONS: Electro-acoustics level 6, incorporating current music technology and instrumentation into projects. For music technology majors.  
Pre-requisite: Audition and instructor consent, MUSC 129A or equivalent  
Normal Grade Rules  
1-2 units

MUSC 129C. Electro-Acoustics 7  
APPLIED LESSONS: Electro-acoustics level 7, incorporating current music technology and instrumentation into projects. For music technology majors.  
Pre-requisite: Audition and instructor consent, MUSC 129B or equivalent  
Normal Grade Rules  
1-2 units

MUSC 129D. Electro-Acoustics 8  
APPLIED LESSONS: Electro-acoustics level 8, incorporating current music technology and instrumentation into projects. For music technology majors.  
Pre-requisite: Audition and instructor consent, MUSC 129C or equivalent  
Normal Grade Rules  
1-2 units

MUSC 130. Piano  
Required each semester of upper division piano majors.  
Continuation of MUSC 30. Study and performance of selections comparable to Bach Preludes and Fugues from Well-Tempered Clavier; Beethoven Sonata, Op. 31 No. 3; Chopin Ballade in A-flat and Debussy Preludes.  
Pre-requisite: Audition or instructor consent.  
Normal Grade Rules  
1-2 units

MUSC 130A. Piano 5  
APPLIED LESSONS: Piano level 5. Lessons required of BM piano majors every semester.  
Pre-requisite: Audition and instructor consent, MUSC 30D or equivalent  
Normal Grade Rules  
1-2 units

MUSC 130B. Piano 6  
Pre-requisite: Audition and instructor consent, MUSC 130A or equivalent  
Normal Grade Rules  
1-2 units

MUSC 130C. Piano 7  
APPLIED LESSONS: Piano level 7. Lessons required of BM piano majors every semester.  
Pre-requisite: Audition and instructor consent, MUSC 130B or equivalent  
Normal Grade Rules  
1-2 units

MUSC 130D. Piano 8  
APPLIED LESSONS: Piano level 8. Lessons required of BM piano majors every semester.  
Pre-requisite: Audition and instructor consent, MUSC 130C or equivalent  
Normal Grade Rules  
1-2 units

MUSC 131. Keyboard  
APPLIED LESSONS: Harpsichord or organ. Required of BM piano majors every semester. Upper division.  
Pre-requisite: Audition or instructor consent, 31D or equivalent  
Normal Grade Rules  
1-2 units

MUSC 131A. Harpsichord or Organ 5  
APPLIED LESSONS: Harpsichord or organ level 5. Required of BM piano majors every semester.  
Pre-requisite: Audition and instructor consent, MUSC 31D or equivalent  
Normal Grade Rules  
1-2 units

MUSC 131B. Harpsichord or Organ 6  
APPLIED LESSONS: Harpsichord or organ level 6. Required of BM piano majors every semester.  
Pre-requisite: Audition and instructor consent, MUSC 131A or equivalent  
Normal Grade Rules  
1-2 units

MUSC 131C. Harpsichord or Organ 7  
APPLIED LESSONS: Harpsichord or organ level 7. Required of BM piano majors every semester.  
Pre-requisite: Audition and instructor consent, MUSC 131B or equivalent  
Normal Grade Rules  
1-2 units

MUSC 131D. Harpsichord or Organ 8  
APPLIED LESSONS: Harpsichord or organ level 8. Required of BM piano majors every semester.  
Pre-requisite: Audition and instructor consent, MUSC 131C or equivalent  
Normal Grade Rules  
1-2 units

MUSC 133. Voice  
Required each semester of upper division voice majors.  
Continuation of MUSC 33. Study of more advanced repertoire and techniques.  
Pre-requisite: Audition or instructor consent.  
Normal Grade Rules  
1-2 units

MUSC 133A. Voice 5  
Pre-requisite: Audition and instructor consent, 33D or equivalent  
Repeatable for credit  
Normal Grade Rules  
1-2 units

MUSC 133B. Voice 6  
Pre-Requisite: Audition and instructor consent, 133B or equivalent  
Normal Grade Rules  
1-2 units

MUSC 133C. Voice 7  
Pre-Requisite: Audition and instructor consent, 133B or equivalent  
Normal Grade Rules  
1-2 units

MUSC 133D. Voice 8  
Pre-requisite: Audition and instructor consent, 133C or equivalent  
Normal Grade Rules  
1-2 units

MUSC 134. Strings  
Required each semester of upper division string majors.  
Violin: All major and minor scales and arpeggios in three octaves; double stops; Kreutzer, Fiorillo, Rode etudes; Bach unaccompanied sonatas and standard concert repertoire, including concerti and sonatas by Vivaldi, Bach, Mozart, Mendelssohn, Beethoven and Brahms. Viola: All major and minor scales in three octaves; double stops; standard etudes including Duport, Popper, Piatti. Solo literature will include selections by Bach, Beethoven, Boccherini, Brahms, Dvorak, Faure, Haydn, Saint-Saens, Shostakovich and Vivaldi. String Bass: All major and minor scales and arpeggios; Simonl Reinschagen. Bille, Storchor, Hrabe etudes. Includes solo literature of Bottesini, Dittersdorf, Dragonetti, Koussevitzky, Hindemith, Marcello, Vivaldi and standard orchestral literature. Harp: Literature and techniques, with solo and ensemble performances. Etudes by Salzedo, Lariviere and standard concert works comparable to Ravel Introduction and Allegro, Salzedo Preludes; Prescetti Sonata and Pierre Impromptus Capi?Guitar: Literature and technique of the guitar including studies by Shearer, Casassi, Giuliani, Torrega and Segovia, and solos by J. S. Bach, Carulli, De Visee, Fernando Sor and Pagani.  
Prerequisite: Audition or instructor consent.  
Normal Grade Rules  
1-2 units
MUSC 134A. Strings 5
APPLIED LESSONS: Strings level 5. Required of BM string majors every semester. Upper division.
Pre-requisite: Audition and instructor consent, MUSC 34D or equivalent
Normal Grade Rules 1-2 units

MUSC 134B. Strings 6
APPLIED LESSONS: Strings level 6. Required of BM string majors every semester. Upper division.
Pre-requisite: Audition and instructor consent, MUSC 134A or equivalent, MUSC 25C or equivalent
Normal Grade Rules 1-2 units

MUSC 134C. Strings 7
APPLIED LESSONS: Strings level 7. Required of BM string majors every semester. Upper division.
Pre-requisite: Audition and instructor consent, MUSC 134A or equivalent
Normal Grade Rules 1-2 units

MUSC 134D. Strings 8
APPLIED LESSONS: Strings level 8. Required of BM string majors every semester. Upper division.
Pre-requisite: Audition and instructor consent, MUSC 134A or equivalent
Normal Grade Rules 1-2 units

MUSC 135. Woodwinds
Prerequisite: Audition or instructor consent.
Normal Grade Rules 1-2 units

MUSC 135A. Woodwinds 5
APPLIED LESSONS: Woodwinds level 5. Required of BM woodwind majors every semester. flute, oboe, saxophone, clarinet or bassoon. Upper division.
Pre-requisite: Audition and instructor consent, MUSC 35D or equivalent
Normal Grade Rules 1-2 units

MUSC 135B. Woodwinds 6
APPLIED LESSONS: Woodwinds level 6. Required of BM woodwind majors every semester. flute, oboe, saxophone, clarinet or bassoon. Upper division.
Pre-requisite: Audition and instructor consent, MUSC 25C or equivalent, MUSC 135A or equivalent
Normal Grade Rules 1-2 units

MUSC 135C. Woodwinds 7
APPLIED LESSONS: Woodwinds level 7. Required of BM woodwind majors every semester. flute, oboe, saxophone, clarinet or bassoon. Upper division.
Pre-requisite: Audition and instructor consent, MUSC 135B or equivalent
Normal Grade Rules 1-2 units

MUSC 135D. Woodwinds 8
APPLIED LESSONS: Woodwinds level 8. Required of BM woodwind majors every semester. flute, oboe, saxophone, clarinet or bassoon. Upper division.
Pre-requisite: Audition and instructor consent, MUSC 135C or equivalent
Normal Grade Rules 1-2 units

MUSC 136. Brass
Prerequisite: Audition or instructor consent.
Normal Grade Rules 1-2 units

MUSC 136A. Vocal-Instrumental Improvisation
Advanced vocal and instrumental private lessons.
Development of performing skills in various styles, with emphasis on soloing, reading lead sheets and advanced levels of musicianship and musicality.
Prerequisite: Instructor consent.
Repeatable for credit
Normal Grade Rules 1 unit

MUSC 136B. Brass 5
Pre-requisite: Audition and instructor consent, MUSC 36D or equivalent
Normal Grade Rules 1-2 units

MUSC 136C. Brass 6
Pre-requisite: Audition and instructor consent, MUSC 25C or equivalent, MUSC 136B or equivalent
Normal Grade Rules 1-2 units

MUSC 136D. Brass 7
Pre-requisite: Audition and instructor consent, MUSC 136C or equivalent
Normal Grade Rules 1-2 units

MUSC 136E. Brass 8
Pre-requisite: Audition and instructor consent, MUSC 136D or equivalent
Normal Grade Rules 1-2 units

MUSC 137. Percussion
Required each semester of upper division percussion majors. Performance on timpani, keyboard percussion and snare drum as well as the accessory percussion instruments. Timpani etudes: Goodman, Firth, Cirone and the classical timpani repertoire. Keyboard repertoire includes Orchestral Mallet Player by Cirone. Goldenberg studies, standard orchestral literature plus 4-mallet literature. Snare drum methods of Podemski, Whaley and Cirone and the standard orchestral literature.
Prerequisite: Audition or instructor consent.
Normal Grade Rules 1-2 units

MUSC 137A. Percussion 5
APPLIED LESSONS: Percussion level 5. Required of BM percussion majors every semester. Upper division.
Pre-requisite: Audition and instructor consent, 37D or equivalent
Repeatable for credit
Normal Grade Rules 1-2 units

MUSC 137B. Percussion 6
Pre-Requisite: Audition and instructor consent, MUSC 137A or equivalent, MUSC 25C or equivalent
Normal Grade Rules 1-2 units
MUSC 137C. Percussion 7
APPLIED LESSONS: Percussion level 7. Required of BM percussion majors every semester. Upper division. Pre-requisite: Audition and instructor consent, MUSC 137B or equivalent. Normal Grade Rules 1-2 units

MUSC 137D. Percussion 8
APPLIED LESSONS: Percussion level 8. Required of BM percussion majors every semester. Upper division. Pre-requisite: Audition and instructor consent, MUSC 137C or equivalent. Normal Grade Rules 1-2 units

MUSC 138A. Composition
Private studio lessons. Advanced applications of the process needed to bring personal musical ideas and concepts to realities, such as compositions or arrangements in concert performance and video productions. Pre-requisite: Instructor consent. Repeatable for credit. Normal Grade Rules 1 unit

MUSC 138B. Composition 5
APPLIED LESSONS: Composition level 5. Required of BM composition majors every semester. Upper division. Pre-requisite: Audition and instructor consent, MUSC 4A and MUSC 4B, MUSC 38E. Normal Grade Rules 1-2 units

MUSC 138C. Composition 6
APPLIED LESSONS: Composition level 6. Required of BM composition majors every semester. Upper division. Pre-requisite: Audition and instructor consent, MUSC 25C or equivalent, MUSC 138B. Normal Grade Rules 1-2 units

MUSC 138D. Composition 7
APPLIED LESSONS: Composition level 7. Required of BM composition majors every semester. Upper division. Pre-requisite: Audition and instructor consent, MUSC 102, MUSC 103, MUSC 104 and MUSC 138C. Normal Grade Rules 1-2 units

MUSC 138E. Composition 8
APPLIED LESSONS: Composition level 8. Required of BM composition majors every semester. Upper division. Pre-requisite: Audition and instructor consent, MUSC 138D. Normal Grade Rules 1-2 units

MUSC 139A. Jazz Studies 5
APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 5. Required of BM Jazz Studies majors every semester. Upper Division. Pre-requisite: Audition and instructor consent, MUSC 39D or equivalent. Normal Grade Rules 1-2 units

MUSC 139B. Jazz Studies 6
APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 6. Required of BM Jazz Studies majors every semester. Upper Division. Pre-requisite: Audition and instructor consent, MUSC 139A or equivalent, MUSC 25C or equivalent, MUSC 27A. Normal Grade Rules 1-2 units

MUSC 139C. Jazz Studies 7
APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 7. Required of BM Jazz Studies majors every semester. Upper Division. Pre-requisite: Audition and instructor consent, MUSC 139B or equivalent. Normal Grade Rules 1-2 units

MUSC 139D. Jazz Studies 8
APPLIED LESSONS: Jazz. Vocal or instrumental improvisation, composition or arranging, level 8. Required of BM Jazz Studies majors every semester. Upper Division. Pre-requisite: Audition and instructor consent, MUSC 139C or equivalent. Normal Grade Rules 1-2 units

MUSC 140B. Jazz Improvisation-II
Continuation of 40A in greater depth and complexity: advanced transcription projects, style analysis, developing personal improvisatory style, advanced rhythmic, melodic, and harmonic techniques. Emphasis will be placed on complex jazz compositions—primarily those of Wayne Shorter, Chick Corea, and Tom Harrell. Pre/Corequisite: MUSC 2A and MUSC 2B and MUSC 140B; or equivalent. Misc/Lab: Seminar 1 hour/activity 2 hours. Repeatable for credit. Normal Grade Rules 1 unit

MUSC 140C. Jazz Improvisation-III
Continuation of MUSC 140B in greater depth and complexity: advanced transcription projects, style analysis, developing personal improvisatory style, advanced rhythmic, melodic, and harmonic techniques. Emphasis will be placed on complex jazz compositions—primarily those of Wayne Shorter, Chick Corea, and Tom Harrell. Pre/Corequisite: MUSC 2A and MUSC 2B and MUSC 140B; or equivalent. Misc/Lab: Seminar 1 hour/activity 2 hours. Repeatable for credit. Normal Grade Rules 2 units

MUSC 142. REP: Art Song Repertoire
Content varies each semester, with focus on German, French, Italian, and Spanish, English and American, or Russian, Polish, Slavic and Scandinavian literature. Performance practice, language, style and history. Prerequisite: Upper division standing or instructor consent. Pre-requisite: Seminar 1 hour/activity 2 hours. Repeatable for credit. Normal Grade Rules 1 unit

MUSC 143. REP: Collaborative Keyboard Performance
For piano majors who wish to broaden their pianistic skills by performing with singers and instrumentalists both in studio sessions and recital situations. A maximum of four units may be repeated. Prerequisite: Upper division standing or instructor consent. Repeatable for credit. Normal Grade Rules 1 unit

MUSC 144. REP: Solo Lit., Performance, Pedagogy
Performance of vocal or piano literature studied in studio lessons, with discussion of technique, pedagogy, recital preparation and interpretive, stylistic and linguistic aspects of literature in a master class setting to develop confidence and serve as a forum for exchange of ideas. Prerequisite: Instructor consent. Repeatable for credit. Normal Grade Rules 1 unit

MUSC 145. REP: Performance Concepts
Content varies to allow presentation of one-time courses by specialists from artist-faculty and guests. Repeatable for up to 4 units of credit when topic changes. Prerequisite: Upper division standing or instructor consent. Repeatable for credit. Normal Grade Rules 2 units
MUSC 146. Introduction to Applied Music Pedagogy  
An introduction to the fundamentals of teaching applied music for the performing musician.  
Prerequisite: MUSC 30D, 31D, 33D, 34D, 35D, 36E or 37D.  
Normal Grade Rules  
2 units

MUSC 146A. Pedagogy - Piano  
For piano majors and established teachers who primarily wish to teach. Teaching techniques and application of these skills from elementary to most advanced levels.  
Prerequisite: Upper division standing or instructor consent.  
Normal Grade Rules  
2 units

MUSC 146B. Pedagogy - Percussion  
Two projects chosen from the following areas: conducting, composition, clinics, orchestral repertoire, lesson plan, article, book or research projects.  
Prerequisite: Upper division percussion majors only.  
Normal Grade Rules  
1 unit

MUSC 147A. Beginning Conducting  
Basic choral and instrumental conducting techniques.  
Prerequisite: Upper division standing or instructor consent.  
Misc/Lab: Seminar 1 hour/activity 2 hours.  
Normal Grade Rules  
2 units

MUSC 147B. Advanced Conducting: Instrumental  
Advanced instrumental conducting techniques. Rehearsal and performance of instrumental groups under supervision.  
Prerequisite: MUSC 147A or instructor consent.  
Misc/Lab: Seminar 1 hour/activity 2 hours.  
Normal Grade Rules  
2 units

MUSC 147C. Advanced Conducting: Choral  
Advanced choral conducting techniques. Rehearsal and performance of choral groups under supervision.  
Prerequisite: MUSC 147A or equivalent.  
Misc/Lab: Lecture 2 hours/Activity 2 hours.  
Repeatable for credit  
Normal Grade Rules  
2 units

MUSC 148A. Improvisational Traditions of the World - Africa and Diaspora  
Selected topics in performance practice and social context of improvisational musics from African and African-Diaspora cultures: selected genres from Sub-Saharan Africa and their relations to Diasporic traditions in the Americas, the Caribbean, and elsewhere.  
In-class and/or public performances.  
Pre/Corequisite: MUSC 2A and MUSC 2B or equivalent.  
Misc/Lab: Seminar 1 hour/activity 2 hours.  
Repeatable for credit  
Normal Grade Rules  
2 units

MUSC 148B. Improvisational Traditions of the World - Asia  
Selected topics in performance and social context of improvisational musics of Asia: gamelan and/or other selected genres. In-class and/or public performances.  
Pre/Corequisite: MUSC 2A and MUSC 2B or equivalent.  
Misc/Lab: Seminar 1 hour/activity 2 hours.  
Normal Grade Rules  
2 units

MUSC 149A. Improvisational Traditions of the World - Latin America  
Selected topics in performance and social context of improvisational musics of Latin America: selected genres from Sub-Saharan Africa and their relations to Diasporic traditions in the Americas, the Caribbean, and elsewhere.  
In-class and/or public performances.  
Pre/Corequisite: MUSC 2A and MUSC 2B or equivalent.  
Misc/Lab: Seminar 1 hour/activity 2 hours.  
Repeatable for credit  
Normal Grade Rules  
2 units

MUSC 150A. ENS: Concert Choir  
Ensemble. Large select choral ensemble, specializing in advanced a cappella and symphonic major works from all periods.  
Prerequisite: MUSC 50A or equivalent, audition and instructor consent  
Repeatable for credit  
Normal Grade Rules  
1 unit

MUSC 150B. ENS: Opera Theater  
ENS: Training and performance experience in the field of opera. Fully-staged productions of one-act and conventional length works of varying styles.  
Prerequisite: MUSC 52 or equivalent. Audition and instructor consent.  
Repeatable for credit  
Normal Grade Rules  
1 unit

MUSC 150C. ENS: University Symphony Orchestra  
ENS: Rehearsal and performance of standard orchestral and operatic repertory.  
Prerequisite: MUSC 053 or equivalent. Audition and instructor consent.  
Repeatable for credit  
Normal Grade Rules  
1 unit

MUSC 151. ENS: University Chorales  
ENS: Rehearsal and performance of choral masterpieces and music with wide popular appeal. Students involved in the University Chorales will participate in either the SJSU Women’s Chorus, Men’s Glee Club, or other specialized choral ensemble and will have the opportunity to study and perform high quality choral literature.  
Prerequisite: MUSC 51 or equivalent, audition and instructor consent.  
Repeatable for credit  
Normal Grade Rules  
1 unit

MUSC 152. ENS: Opera Theater  
ENS: Training and performance experience in the field of opera. Fully-staged productions of one-act and conventional length works of varying styles.  
Prerequisite: MUSC 52 or equivalent. Audition and instructor consent.  
Repeatable for credit  
Normal Grade Rules  
1 unit

MUSC 153. ENS: University Symphony Orchestra  
ENS: Rehearsal and performance of standard orchestral and operatic repertory.  
Prerequisite: MUSC 053 or equivalent. Audition and instructor consent.  
Repeatable for credit  
Normal Grade Rules  
1 unit

MUSC 154. ENS: Symphonic Band  
ENS: Rehearsal and performance of large symphonic band repertory.  
Prerequisite: MUSC 54 or equivalent. Audition and instructor consent.  
Repeatable for credit  
Normal Grade Rules  
1 unit

MUSC 155. Wind Ensemble  
Major performing group open to all wind instrumentalists by audition. Select group that performs the most advanced and high quality contemporary and traditional literature for wind ensemble from all periods.  
Programming changes every semester. Performances can include but not be limited to state and national conferences.  
Prerequisites: MUSC 60T or equivalent. Instructor’s Consent  
Repeatable for credit  
Normal Grade Rules  
1 unit

MUSC 156. ENS: Spartan Marching Band  
ENS: Open by permission to all students who play saxophone, brass or percussion instruments. Performs at all home and selected away Spartan football games.  
Prerequisite: MUSC 56 or equivalent. Audition and instructor consent.  
Repeatable for credit  
Normal Grade Rules  
2 units

MUSC 157. ENS: Jazz Orchestra  
Prerequisite: MUSC 057 or equivalent. Audition and instructor consent.  
Repeatable for credit  
Normal Grade Rules  
2 units

MUSC 158. ENS: Afro-Latin Jazz Ensemble  
ENS: Performance of Afro-Latin jazz and popular music repertoires of the US, the Caribbean, and Latin America. Ensemble techniques and solo improvisation. Concert performances.  
Prerequisite: MUSC 59 or equivalent. Audition and instructor consent.  
Repeatable for credit  
Normal Grade Rules  
1 unit

<tr>
<td>MUSC 160A. ENS: Chamber Orchestra</td>
<td>Study and performance of advanced literature for small orchestra, with music selected from a broad range of stylistic periods and composers. Prerequisite: MUSC 60B or equivalent. Instructor consent. Repeatable for credit. Normal Grade Rules. 1 unit</td>
</tr>
<tr>
<td>MUSC 160B. ENS: Chamber Music</td>
<td>ENS: In-depth chamber music study and performance of standard repertoire with two or more instruments plus piano. Prerequisite: Audition and instructor consent. Repeatable for credit. Normal Grade Rules. 1 unit</td>
</tr>
<tr>
<td>MUSC 160C. ENS: Jazz Ensemble</td>
<td>ENS: Large jazz ensemble focused on learning standard repertoire, style, pedagogy and improvisation. Prerequisite: Audition and instructor consent. Repeatable for credit. Normal Grade Rules. 1 unit</td>
</tr>
<tr>
<td>MUSC 160D. ENS: Brass Ensemble</td>
<td>Performance of duet, trio, quartet and quintet literature for mixed and homogeneous brass instruments. Literature used represents all style periods with either original or transcription materials. Prerequisite: 60K or equivalent. Instructor consent. Repeatable for credit. Normal Grade Rules. 1 unit</td>
</tr>
<tr>
<td>MUSC 160E. ENS: Small Jazz Ensembles</td>
<td>Overview of music for saxophone ensemble for two to twenty players. All styles studied from Renaissance to Jazz. Prerequisite: 60M or equivalent. Instructor consent. Repeatable for credit. Normal Grade Rules. 1 unit</td>
</tr>
</tbody>
</table>
MUSC 168. Electro-Acoustic Music II
Continuation of MUSC 167, covering advanced synthesis, programming and production. Development of strategies for sound design and music composition toward applications in studio and performance environments. Introduction to algorithmic composition. Prerequisite: MUSC 167 or instructor consent.
Normal Grade Rules
3 units

MUSC 169. Digital Synthesis
Techniques of direct digital synthesis and digital signal processing as related to composition, performance and research in new music. In-depth study of hardware and software instrument configurations as applied to various synthesis and processing algorithms. Prerequisite: MUSC 168 (or equivalent) or instructor consent.
Normal Grade Rules
3 units

MUSC 170A. Fundamentals of Sound Recording
Beginning techniques in studio sound and music recording: terminology, tape editing, overdubbing, microphone technique and production techniques. Prerequisite: MUSC 1A and MUSC 1B.
Normal Grade Rules
3 units

MUSC 170B. Intermediate Sound Recording
Intermediate sound recording and processing techniques in audio production: emphasis on microphone techniques, analog processing and multi-track production. Prerequisite: MUSC 170A or instructor consent.
Normal Grade Rules
3 units

MUSC 170C. Advanced Sound Recording Production
Advanced production techniques in multi-track recording and digital recording, including sound construction, modulation and digital processing. Emphasis on application of techniques to group productions in synchronized audio-visual media. Prerequisite: MUSC 170B or instructor consent.
Normal Grade Rules
3 units

MUSC 172. The Arts in U.S. Society
See CA 172.
Normal Grade Rules
GE: S
3 units

MUSC 173. Thinking About Contemporary World Arts
See CA 173.
Normal Grade Rules
GE: V
3 units

MUSC 180. Individual Studies
Prerequisite: Upper division standing and instructor and director consent. May be repeated up to 4 units of credit. Repeatable for credit
Credit / No Credit
1-2 units

MUSC 181. Concert Listening II
Required active involvement of all music majors in the professional musical life of the campus and community through attending programs from the master list published each semester and writing five critical reviews. Prerequisite: Upper division music major.
Repeatable for credit
Credit / No Credit
1 unit

MUSC 182. Senior Project
Senior capstone project for B.A. in music. By advisement and according to degree requirements either a senior thesis, lecture/demonstration or lecture/recital. Prerequisite: Upper division standing, instructor consent and area approval.
Credit / No Credit
1 unit

MUSC 185A. Music for Children
Music fundamentals for the classroom teacher: Singing, playing instruments, movement, reading notation, creating music. Kodaly, Orff, Dalcroze, techniques emphasized with multicultural approach. Technology for elementary music through lab experience. Prerequisite: Upper division standing.
Normal Grade Rules
3 units

MUSC 186. Singing for Music Theatre
Theoretical and practical study of music as an extension, intensification and completion of the drama. Musical exercises and scenes, emphasizing singing, to introduce the functions and potentials of music in music theatre. Prerequisite: MUSC 10B, MUSC 26A and MUSC 26B.
Musc/Lab: Lecture 2 hours/Lab 2 hours
Normal Grade Rules
2 units

MUSC 190A. Honors Project
Prerequisite: Upper division standing, instructor and director consent.
Notes: MUSC 190B must be completed before total of 3 units is granted.
Credit / No Credit
1 unit

MUSC 190B. Honors Project
Prerequisite: MUSC 190A.
Credit / No Credit
2 units

MUSC 200. Methods of Music Research & Writing
Use and evaluation of resources for music research and writing; problems in critical writing and music literature history. Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units

MUSC 201. Seminar in Music History
Research and analytical studies on selected topics in music history. May be repeated once for elective credit. Prerequisite: MUSC 200 and classified standing.
Normal Grade Rules
3 units

MUSC 202. Seminar in Music Systems & Theory
Research and analytical studies of selected theoretical and applied compositional techniques in music. Prerequisite: MUSC 200 and classified standing.
Notes: Emphasis may vary.
Normal Grade Rules
3 units

MUSC 203. Seminar in Style & Performance Practices
Study of the history of performance practices and applications in contemporary performances. May be repeated once for elective credit.
Prerequisite: MUSC 200 and classified standing.
Normal Grade Rules
3 units

MUSC 204. Materials for Graduate Music Studies
This course presents the foundation knowledge and practical skills of music systems and music history for graduate music studies.
Normal Grade Rules
3 units

MUSC 220. Seminar in Advanced Conducting
Problems in conducting, advanced score reading and interpretation. Prerequisite: Two semesters of undergraduate conducting (or equivalent) and instructor consent.
Normal Grade Rules
2 units

MUSC 221. Seminar in Jazz History
Research and analytical studies on selected topics in jazz history.
Prerequisite: MUSC 200 and classified standing.
Normal Grade Rules
3 units
MUSC 222. Special Topics in Music
Study of specialized subjects in music history, theory, performance, or education.
Prerequisite: Instructor consent. Repeatable for credit Normal Grade Rules 1-3 units

MUSC 224. Supervised Graduate Study
Prerequisite: Audition and/or consent of instructor and graduate advisor. Repeatable for credit Normal Grade Rules 1-2 units

MUSC 230. Graduate Piano Lessons: Secondary
Applied piano lessons for graduate student in a secondary area. Continuation of work from undergraduate study.
Prerequisite: Audition and instructor approval Repeatable for credit Normal Grade Rules 1 unit

MUSC 231. Graduate Harpsichord or Organ Lessons: Secondary
Applied harpsichord or organ lessons for graduate student in a secondary area. Continuation of work from undergraduate study.
Prerequisite: Audition and instructor approval Repeatable for credit Normal Grade Rules 1 unit

MUSC 232. Advanced Field Experience--Pedagogy
Provides opportunity for the qualified graduate student to be involved in planning and assisting in teaching college courses in music. The work is carried on in conjunction with the regular college teacher and must have this supervising teacher’s approval.
Prerequisite: Audition and instructor consent Repeatable for credit Credit/No Credit 1 unit

MUSC 233. Graduate Voice Lessons: Secondary
Applied voice lessons for graduate student in a secondary area. Continuation of work from undergraduate study.
Prerequisite: Audition and instructor approval Repeatable for credit Normal Grade Rules 1 unit

MUSC 234. Graduate String Lessons: Secondary
Applied string lessons for graduate student in a secondary area. Continuation of work from undergraduate study.
Prerequisite: Audition and instructor approval Repeatable for credit Normal Grade Rules 1 unit

MUSC 235. Graduate Woodwind Lessons: Secondary
Applied woodwind (clarinet, oboe, flute, saxophone or flute) lessons for graduate student in a secondary area. Continuation of work from undergraduate study.
Prerequisite: Audition and instructor approval Repeatable for credit Normal Grade Rules 1 unit

MUSC 236. Graduate Brass Lessons: Secondary
Applied Brass (trumpet, French horn, trombone or tuba) lessons for graduate student in a secondary area. Continuation of work from undergraduate study.
Prerequisite: Audition and instructor approval Repeatable for credit Normal Grade Rules 1 unit

MUSC 237. Graduate Percussion Lessons: Secondary
Applied percussion lessons for graduate student in a secondary area. Continuation of work from undergraduate study.
Prerequisite: Audition and instructor approval Repeatable for credit Normal Grade Rules 1 unit

MUSC 238. Graduate Brasswind Lessons: Secondary
Applied brasswind (trumpet, French horn, trombone or tuba) lessons for graduate student in a secondary area. Continuation of work from undergraduate study.
Prerequisite: Audition and instructor approval Repeatable for credit Normal Grade Rules 1 unit

MUSC 239. Graduate Jazz Lessons: Secondary
Applied Jazz (saxophone, trumpet, guitar, piano or trombone) lessons for graduate student in a secondary area. Continuation of work from undergraduate study.
Prerequisite: Audition and instructor approval Repeatable for credit Normal Grade Rules 1 unit

MUSC 250A. ENS: Graduate Concert Choir
ENS: Graduate large select choral ensemble, specializing in advanced acappella and symphonic major works from all periods.
Prerequisite: Audition and instructor approval Repeatable for credit Normal Grade Rules 1 unit

MUSC 251. ENS: Graduate University Chorales
ENS: Rehearsal and performance of standard orchestral and operatic repertory for graduate students.
Prerequisite: Audition and instructor approval Repeatable for credit Normal Grade Rules 1 unit

MUSC 260A. ENS: Graduate Choraliers
ENS: Small select chamber vocal group of graduates and undergraduates specializing in music from all periods, Renaissance to Contemporary.
Prerequisite: Audition and instructor approval Repeatable for credit Normal Grade Rules 1 unit
MUSC 260C. ENS: Graduate Chamber Music
ENS: Graduate level in-depth chamber music study and performance of standard repertoire with two or more instruments plus piano.
Prerequisite: Audition and instructor approval
 Repeatable for credit
 Normal Grade Rules
 1 unit

MUSC 260D. ENS: Graduate Collegium
ENS: Graduate. Reinforces music history studies through performance. Authenticating performance of pre-Classical music on period instruments and accurate vocal/instrumental practices. Vocal and instrumental, sacred and secular music performed.
Prerequisite: Audition and instructor approval
 Repeatable for credit
 Normal Grade Rules
 1 unit

MUSC 260F. ENS: Graduate Small Jazz Ensembles
ENS: Graduate small-group jazz performance: standard literature, informal ("head") arrangements. In-class and/or public performances.
Prerequisite: Audition and instructor approval
 Repeatable for credit
 Normal Grade Rules
 1 unit

MUSC 260H. ENS: Graduate Percussion Ensemble
ENS: Performance class consisting of graduate and undergraduate percussion majors. Master classes during fall semester. Small to larger percussion ensemble works performed
Prerequisite: Audition and instructor approval
 Repeatable for credit
 Normal Grade Rules
 1 unit

MUSC 260J. ENS: Graduate String Ensemble
ENS: Graduate chamber works for various string combinations studied and performed. Rehearsal and performance techniques for small chamber groups.
Prerequisite: Audition and instructor approval
 Repeatable for credit
 Normal Grade Rules
 1 unit

MUSC 260K. ENS: Graduate Brass Ensemble
ENS: Graduate level performance of duet, trio, quartet and quintet literature for mixed and homogeneous brass instruments. Literature used represents all style periods with either original or transcription materials.
Prerequisite: Audition and instructor approval
 Repeatable for credit
 Normal Grade Rules
 1 unit

MUSC 260L. ENS: Graduate Woodwind Ensemble
Graduate level chamber works for various woodwind combinations. Rehearsal and performance techniques for small chamber groups.
Prerequisite: Audition and instructor approval
 Repeatable for credit
 Normal Grade Rules
 1 unit

MUSC 260M. ENS: Graduate Saxophone Ensemble
ENS: Graduate overview of and performance of music for saxophone ensemble for two to twenty players. All styles studied from Renaissance to Jazz.
Prerequisite: Audition and instructor approval
 Repeatable for credit
 Normal Grade Rules
 1 unit

MUSC 298. Special Study
Special study in the field of music (excluding applied instruction).
Prerequisite: Consent of instructor, graduate advisor and the School of Music director.
 Repeatable for credit
 Mandatory CR/NC/RP
 1-2 units

MUSC 299. Master’s Thesis, Recital or Composition
Prerequisite: Admission to candidacy and consent and approval of graduate study instructor, graduate advisor and School of Music department chair.
 Mandatory CR/NC/RP
 1-3 units

NO DEGREE CREDIT

MUSC 1290R. Culminating Experience Supervision
Continued work on thesis, composition, or project
Prerequisite: Outstanding RP grade in a preceding semesters in a thesis, composition, or project class.
 Note: No Degree Credit.
 Repeatable for credit
 No Degree Credit
 1 unit

MUSIC EDUCATION

UPPER DIVISION

MUED 140. Foundations of Music Education
Survey of music education's historical, philosophical, psychological and sociological foundations.
Prerequisite: Upper division standing or instructor consent.
 Normal Grade Rules
 3 units
MUED 184Z. Student Teaching III-Classroom Teaching
To be taken concurrently or in a different semester than 184Y. May be in a different subject or in different school and will be at a different grade level.
Prerequisite: Upper division standing and joint approval of major and education departments.
Repeatable for credit
Credit / No Credit
4-6 units

MUED 188. Music Ed Trends
Normal Grade Rules
1-2 units

GRADUATE

MUED 221. Foundations of Music Education
This course provides an introduction to graduate studies in music education. Topics include: historical contexts; philosophy; sociology; aesthetics; psychology; and learning theory in music education.
Prerequisite: Graduate student standing and instructor consent
Normal Grade Rules
3 units

MUED 228. Research in Music Education
This course examines research in music education, concentrating on qualitative, quantitative, and historical methodologies. Attention will focus on applications of research within music education, and the course will culminate in a capstone project using one of these research methodologies.
Prerequisite: Graduate student standing, instructor consent
Normal Grade Rules
3 units

MUED 232. Directions and Issues in Music Education
This course examines current issues and directions in music education. Topics include historical, sociological, and philosophical contexts for music education; learning and development issues; curriculum and pedagogy; assessment; applied research in music education; and leadership development.
Prerequisite: Graduate student standing and instructor consent
Repeatable for credit
Normal Grade Rules
3 units

MUED 370A. Methodology for Music Educators: Elementary K-8
Study of Kodaly, Orff, and Dalcroze elementary methods including a multicultural emphasis. A review of materials for the comprehensive elementary music curriculum. Peer teaching/field observations of classrooms, choral, and instrumental classes required.
Prerequisite: Upper division standing or instructor consent.
Notes: Required for certification.
Normal Grade Rules
2 units

MUED 370B. Methodology for Music Educators: Secondary
Prepares secondary music instructors to teach non-performance courses, including music appreciation, theory, technology, history, and multicultural survey. Peer teaching and field observations required. Organization of comprehensive secondary music departments included.
Prerequisite: MUED 370A.
Normal Grade Rules
2 units

NO DEGREE CREDIT

MUED 1290R. Culminating Experience Supervision
Continued work on thesis or project
Prerequisite: Outstanding RP grade in a preceding semester in a thesis, composition, or project class.
Note: No Degree Credit
Repeatable for credit
No Degree Credit
1 unit
Nuclear Science Program

Courses

NUCLEAR SCIENCE

UPPER DIVISION

NUCS 120A. Electronics, Data Acquisition & Analysis
See PHYS 120A.
Normal Grade Rules
3 units

NUCS 121S. Radiation Safety
Health hazards involved in working with radioactive substances. Physical nature of hazards, biological effects, standards of permissible exposures, safety precautions and protection techniques. Two units meet State of California recommendations.
Prerequisite: Lower division calculus, chemistry and physics.
Normal Grade Rules
1-2 units

NUCS 126. Introduction to Nuclear Science
See CHEM 126.
Normal Grade Rules
3 units

NUCS 127. Nuclear Science Lab
See CHEM 127.
ABC/No Credit
3 units

GRADUATE

NUCS 298. Research
Directed individual laboratory work or field studies in radiological health physics and nuclear science for students with adequate preparation. A maximum of 8 units may be repeated.
Prerequisite: Instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

NUCS 299. Master’s Thesis
Prerequisite: NUCS 298, instructor consent and admission to candidacy for the master’s degree.
Repeatable for credit
Mandatory CR/NC/RP
2-4 units
Nursing, School of Courses

NURSING

LOWER DIVISION

NURS 023. Pathophysiology - Theory I
Introduction to biologic basis for health problems in children and adults. Focuses on the pathophysiology of a variety of disease processes using systems theory as an organizing framework.
Prerequisite: Admission to nursing program. BIOL 65, BIOL 66, CHEM 30A, MICR 20, ENGL 1A, COMM 20, STAT 95, (all with grades of "C" or better).
Corequisites: NURS 33, NURS 43, NURS 53; completion of core GE.
Normal Grade Rules
3 units

NURS 024. Adult Care Management I
Covers the knowledge, skills, and attitudes required to provide safe nursing care to adults / older adults. A systems approach integrates concepts of health promotion, disease prevention, and evidence-based interventions related to actual/potential alterations in: oxygenation, circulation, metabolism, and elimination.
Prerequisite: NURS 23, NURS 33, NURS 43, NURS 53
Normal Grade Rules
4 units

NURS 033. Professional Role Development I
An overview of the professional nursing role. Includes: nursing, core values, roles of professional nurse, the nursing process, code of ethics, legal issues, Nurse Practice Act, and interpersonal communication skills in preparation for clinical practice.
Prerequisite: Admission to nursing program. BIOL 65, BIOL 66, CHEM 30A, MICR 20, ENGL 1A, COMM 20, STAT 95, (all with grades of "C" or better).
Corequisites: NURS 023, NURS 043, NURS 053; completion of core GE.
Normal Grade Rules
2 units

NURS 034A. Professional Role Development II
Focus is on the role of the professional nurse in providing patient-centered care, applying principles of the nursing process, professional communication, evidence-based practice and quality improvement in acute care setting.
Prerequisite: Completion of NURS 23, NURS 33, NURS 43, NURS 53.
Corequisite: NURS 44
Normal Grade Rules
1 unit

NURS 043. Pharmacology
Focuses on drug prototypes from major drug categories. Emphasizes the pharmacodynamics, calculations, nursing assessments and interventions of drugs commonly prescribed.
Prerequisite: Admission to nursing program. BIOL 65, BIOL 66, CHEM 30A, MICR 20, ENGL 1A, COMM 20, STAT 95, (all with grades of "C" or better).
Corequisites: NURS 023, NURS 033, NURS 053; completion of core GE.
Normal Grade Rules
3 units

NURS 044. Adult Care Clinical Practicum I
Focus is on applying the nursing process to provide safe, client-centered nursing care to acute and chronically ill adults and older adults in the acute care setting.
Prerequisite: NURS 023, NURS 033, NURS 043, NURS 053.
Credit / No Credit
3 units

NURS 053. Skills in Nursing I
A beginning simulation course for the learning and practice of psychomotor and cognitive skills used to provide direct care in the acute care setting. Includes: hygiene, safety, mobility, asepsis, medication administration, health assessment, interpersonal relationship skills.
Prerequisite: Admission to nursing program. BIOL 65, BIOL 66, CHEM 30A, MICR 20, ENGL 1A, COMM 20, STAT 95, (all with grades of "C" or better).
Corequisites: NURS 023, NURS 033, NURS 043; completion of core GE.
Misc/Lab: Lecture 3 hours/Lab 3 hours
Normal Grade Rules
3 units

NURS 054. Skills in Nursing II
A simulation course for the learning and practice of advanced psychomotor and cognitive skills used to provide direct care in the acute care setting. Skills include: IV therapy, venipuncture, trach care, wound care, NG tubes, blood transfusions, and postmortem care.
Prerequisite: Completion of NURS 023, NURS 033, NURS 043, NURS 053.
Corequisite: NURS 024 and NURS 034.
Misc/Lab: Lecture 3 hours/Lab 2 hours
Normal Grade Rules
2 units

UPPER DIVISION

NURS 100W. Writing Workshop
See HPRF 100W.
Normal Grade Rules
GE: 2
3 units

NURS 108. Special Topics in Nursing
Significant nursing topics, issues, or themes. Consult Schedule of Classes and/or School of Nursing for focus which varies each semester.
Prerequisite: Upper division standing.
Repeatable for credit
Normal Grade Rules
3 units

NURS 111. Medical Ethics
See PHIL 111.
Normal Grade Rules
3 units

NURS 124. Nursing Theory II
An RN Bridge course teaching the theoretical basis for health and illness management of culturally diverse individuals, families, and groups. Concepts include professionalism, health promotion, nursing theories, quality measurement, and clinical judgment. The delivery is in person and online.
Prerequisite: Acceptance into RN to BSN Bridge Program
Corequisite: NURS 144.
Normal Grade Rules
3 units

NURS 125. Adult Care Management II
Focus is on concepts and care related to adult medical-surgical clients in the acute care setting. Systems approach integrates human response to alterations in physiological functioning related to disorders of the musculoskeletal, neurological, gastrointestinal, integumentary, endocrine systems and oncologic disorders.
Prerequisite: NURS 100W, NURS 126A, NURS 126B, NURS 136, NURS 146A, NURS 146B
Normal Grade Rules
4 units

NURS 126A. Pediatric Health Theory
Focus is on direct health care of children in various health care settings. Exploration of biopsychosocial processes involved in health, life transitions, and illness with identification of related preventive and therapeutic nursing behaviors.
Prerequisite: NURS 24, NURS 34, NURS 44, NURS 54, NURS 128
Normal Grade Rules
2 units

NURS 126B. Maternal / Newborn Health Theory
Focus is on direct health care of the childbearing family in various health care settings. Exploration of biopsychosocial processes involved in health, life transitions, and illness with identification of related preventive and therapeutic nursing behaviors.
Prerequisite: NURS 24, NURS 34, NURS 44, NURS 54, NURS 128.
Normal Grade Rules
2 units
NURS 127A. Psychiatric / Mental Health Theory
Concepts for nursing in psychiatric-mental health settings with clients from culturally diverse backgrounds. System approach integrates psychiatric/mental health nursing care for individuals, families and communities with complex health problems.
Prerequisite: NURS 125, NURS 133, NURS 145.
Normal Grade Rules
2 units

NURS 127B. Community Theory
Utilizes a systems approach to integrate the study of community and public health nursing care for culturally diverse individuals, families, and communities with complex health problems, and promotion of health and wellness across the lifespan.
Prerequisite: NURS 125, NURS 133, NURS 145 or NURS 124, NURS 144.
Normal Grade Rules
2 units

NURS 128. Evidence-Based Nursing Practice
Focus is on research methodology and terminology related to nursing process and evidence based nursing practice.
Prerequisites: NURS 023, NURS 033, NURS 043, NURS 053.
Normal Grade Rules
2 units

NURS 133. Professional Role Development IV
Focus is on the role of the professional nurse in providing patient-centered care, applying principles of the nursing process, professional communication, evidence-based practice and quality improvement in the acute care setting.
Prerequisite: NURS 126, NURS 136, NURS 146A, NURS 146B.
Normal Grade Rules
2 units

NURS 135. Health Issues in a Multicultural Society
See HPRF 135
Normal Grade Rules
GE: S
3 units

NURS 136. Professional Role Development III
Expansion of the professional role in the childbirth-childrearing setting to include further application of: evidence-based practice, therapeutic communication, developmentally appropriate teaching/learning strategies, informatics, health literacy, developmental and cultural assessment, leadership and ethical principles, grief and loss.
Prerequisite: NURS 24, NURS 34, NURS 44, NURS 54, NURS 128.
Normal Grade Rules
2 units

NURS 137. Professional Role Development V
Using a collaborative learning environment, students acquire professional role competencies for community health and psychiatric/mental health nursing practice.
Prerequisite: NURS 125, NURS 133, NURS 145.
Normal Grade Rules
2 units

NURS 138. Professional Role Development VI
Focus is on demonstration of the professional nurse role. Includes integration of theoretical concepts and clinical practice skilled know-how into the practice setting. Encompasses models and theories of nursing management and leadership, communication, economics, quality improvement, ethics, and safety. GE Area: S
Prerequisite: NURS 127A, NURS 127B, NURS 137, NURS 147A, NURS 147B or NURS 139.
Normal Grade Rules
GE: S
3 units

NURS 138X. Professional Role Development VI
Focus is on demonstration of the professional nurse role. Includes integration of theoretical concepts and clinical practice skilled know-how into the practice setting. Encompasses models and theories of nursing management and leadership, communication, economics, quality improvement, ethics, and safety.
Prerequisite: Successful completion of NURS 127A, NURS 127B, NURS 137, NURS 147A, NURS 147B or NURS 139.
Normal Grade Rules
2 units

NURS 139. Professional Role Development for Nurses
Students use a systems approach to acquire professional role competencies required in a variety of healthcare settings (community health, acute care) in a collaborative learning environment. Focus is on nursing management and integration of nursing role concepts into professional practice.
Prerequisites: NURS 124, NURS 144.
Corequisites: NURS 127B, NURS 147B.
Normal Grade Rules
3 units

NURS 144. Clinical Nursing Applications
Implements concepts and activities using a variety of health care settings. Focus on health promotion, chronic illness and leadership/management.
Prerequisite: California RN License.
Pre/Corequisite: NURS 124 and NURS 134.
Normal Grade Rules
2 units

NURS 145. Adult Care Clinical Practicum II
Focus is on applying the knowledge, skills, and attitudes required to provide safe, client-centered care to acute and chronically ill adults and older adults in a variety of settings.
Prerequisite: NURS 126A, NURS 126B, NURS136; NURS 146A, NURS146B
Credit / No Credit
4 units

NURS 146A. Pediatric Clinical
Focuses on providing family centered care to culturally diverse childrearing families and children using concepts of systems theory in acute care, home, and community settings.
Prerequisite: NURS 24, NURS 34, NURS 44, NURS 54, NURS 128.
Credit / No Credit
2 units

NURS 146B. Maternal Health Clinical
Focuses on providing family centered care to culturally diverse childbearing families using concepts of systems theory in acute care, home, and community settings.
Prerequisite: NURS 24, NURS 34, NURS 44, NURS 54, NURS 128.
Credit / No Credit
2 units

NURS 147A. Psychiatric/Mental Health Clinical
Supervised participation in nursing and healthcare of clients with psychiatric-mental health problems in varied settings. Concepts include a systems approach to therapeutic communication and relationships, evidence-based care, symptom management, teaching/learning, leadership, and collaboration with other health care workers.
Prerequisite: NURS 125, NURS 133, NURS 145.
Credit / No Credit
2 units

NURS 147B. Community Health Clinical
Applies nursing process to care of clients from diverse populations in the community in a variety of settings. Utilizes a systems approach to promoting health and wellness for individuals and groups across the lifespan.
Prerequisite: NURS 125, NURS 133, NURS 145.
Credit / No Credit
3 units

Applies nursing process to care of clients from diverse populations in a variety of international settings. A systems approach to caring for individuals and groups across the life span with community health care needs.
Prerequisite: Completion of NURS 125, NURS 133, NURS 145
Corequisite: NURS 127B, NURS 137
Credit / No Credit
3 units
NURS 148. Nursing Practicum V
Using a systems approach, applies professional practices in a variety of health care settings. This is a preceptored experience.
Prerequisite: Completion of Semester 7 and successful completion of NURS 101B or Licensure as a Registered Nurse.
Corequisite: NURS 128 and NURS 138.
Credit / No Credit
3 units

NURS 148A. Senior Preceptorship
Independent, precepted experience in a clinical setting. Uses a systems approach integrating knowledge of research, leadership, pathophysiology, and nursing into practice.
Prerequisite: NURS 127A, NURS 127B, NURS 137 or NURS 139, NURS 147A, NURS 147B.
Corequisite: NURS 138
Credit / No Credit
4 units

NURS 148AI. Senior Practicum-- International Experience
Use a systems approach to research, leadership management, theory and beginning clinical proficiency, in collaboration with other health care members in an international setting.
Prerequisite: Completion of Nursing Semester 5
Co-requisite: NURS 138
Credit / No Credit
4 units

NURS 155. Skills in Nursing III
Simulation course for the practice of advanced, specialized psychomotor and cognitive skills used to provide direct care.
Prerequisite: Completion of Semester 4
Corequisite: NURS 125, NURS 133 and NURS 145.
Misc/Lab: Lecture 3 hours/Lab 2 hours
Normal Grade Rules
2 units

NURS 180. Individual Studies
Individual study or project work on a selected problem or professional issue in nursing.
Prerequisite: Arrangement must be made with a nursing faculty member and approved by the school director during the semester prior to taking course.
Repeatable for credit
Credit / No Credit
1-4 units

GRADUATE

NURS 200. Population Based Health Care Systems
Planning, policy, organization, and financing of health care systems. Prepares nurses to participate in design, implementation, and evaluation of ethical, cost-effective, quality health care in health care systems to improve health care delivery and client outcomes.
Prerequisite: Admission to nursing masters program
Normal Grade Rules
3 units

NURS 201. Clinical Leadership Role Development
The purpose of this course is to prepare students for leadership roles in healthcare through the study, analysis, and application of nursing leadership and management theories and principles.
Prerequisite: Acceptance into nursing masters program
Normal Grade Rules
2 units

NURS 202. Theoretical Foundations
Addresses the theoretical underpinnings of nursing practice and research, including a wide range of theories from nursing and other disciplines. Students develop and apply relevant criteria in evaluating theories for practice and research with individuals, families and communities.
Normal Grade Rules
2 units

NURS 204. Diverse Populations and Health Care
Planning for health promotion and disease prevention among diverse populations, providing available, accessible, and culturally competent care for individuals, families, and communities.
Prerequisite: Concurrent courses: NURS 200, NURS 202.
Repeatable for credit
Normal Grade Rules
3 units

NURS 212. Curriculum Development in Nursing
Curriculum development with application to programs in nursing and health education. Focuses on formulation of conceptual framework for curriculum development and utilization in making decisions regarding the objectives, learning experiences, and evaluation strategies.
Normal Grade Rules
3 units

NURS 214. Nurse Educator Theory & Practicum I
Covers theories, models, and concepts relevant to teaching and learning in nursing education and health care systems. Experience in implementing the educator role using teaching processes and strategies for diverse students and settings. Includes 2 units theory, 2 units practicum
Prerequisite: NURS 200 or NURS 202
Corequisite: NURS 212
Misc/Lab: Lecture 5 hours/Supervision 1.5 hours
Normal Grade Rules
4 units

NURS 216. Nurse Educator Theory and Practicum II
Continuing experience with educational theories, models, concepts, and strategies, focusing on educational research, and contemporary educational issues. Advanced experience in implementing the teaching role with increasing independence. Course includes 1 unit theory and 3 units (120 hours) of practicum.
Prerequisite: NURS 212 and NURS 214
Misc/Lab: Lecture 5 hours/Supervision 1.5 hours
Repeatable for credit
Normal Grade Rules
4 units

NURS 236A. Nursing Administration Theories, Concepts and Practicum I
Emphasis on administrative concepts necessary for management of a healthcare system in a diverse environment. Opportunity for experience in the nurse administrator role in a practicum.
Pre/Corequisite: NURS 200, NURS 202, NURS 204.
Misc/Lab: Lecture 3 hours/Supervision 1.5 hours
Repeatable for credit
Normal Grade Rules
3 units

NURS 236B. Nursing Administration Theories, Concepts and Practicum II
Opportunity for advanced experience in the nurse administrator role. Applying conceptual models and theories for operations and personnel management, the student assumes the administrator role in a practicum with minimal supervision within a diverse health care setting.
Prerequisite: NURS 236A.
Misc/Lab: Lecture 4 hours/Supervision 1.5 hours
Repeatable for credit
Normal Grade Rules
4 units
NURS 248. Advanced Health Assessment
This advanced assessment course focuses on differentiation between normal and pathologic changes experienced in a primary care practice. Using systems theory framework, students formulate appropriate diagnoses using pertinent symptomatologies and etiologies. May be repeated, but not in same semester.
Prerequisite: NURS 200, NURS 202, NURS 104 (or equivalent).
Repealable for credit
Normal Grade Rules
3 units

NURS 250. Family Nurse Practitioner Concepts and Theory I
Theory and evidence base for primary prevention, health maintenance, health promotion, health screening, health teaching and anticipatory guidance for nurse practitioners with an emphasis on case management techniques and interdisciplinary care. Emphasis on using algorithms and standardized procedures to effect primary prevention.
Prerequisite: NURS 248, NURS 259, NURS 260
Corequisite: NURS 253.
Normal Grade Rules
2 units

NURS 251. Family Nurse Practitioner (FNP) Concepts and Theory II
Prerequisite: NURS 248, 259, 250, 260
Corequisite: NURS 254.
Normal Grade Rules
2 units

NURS 252. Family Nurse Practitioner Concepts and Theory II
Diagnosis and management of common illnesses in primary care practice. Research and theory used to identify strategies to promote health and prevent illness. Introduction to pharmacologic therapeutic regimens with emphasis on interdisciplinary care, secondary and tertiary prevention.
Pre/Corequisite: NURS 250 and NURS 253.
Repealable for credit
Normal Grade Rules
2 units

NURS 252A. Family Nurse Practitioner (FNP) Concepts and Theory III
Prerequisite: NURS 248, 259, 250, 251, 260
Corequisite: NURS 256
Normal Grade Rules
2 units

NURS 253. Family Nurse Practitioner Practicum I
First clinical practicum increases nurse practitioner competence in the domain of management of patient health/illness status in the areas of health promotion, health protection, disease prevention and management of patient illness; using evidence based clinical practice guidelines.
Prerequisite: NURS 259, 260, 248
Corequisite: NURS 250
Misc/Lab: Laboratory 5 hours
Repealable for credit
Credit / No Credit
2 units

NURS 254. Family Nurse Practitioner Practicum II
Second clinical practicum increases nurse practitioner competence in the domain of management of patient health/illness status in the areas of health promotion, health protection, disease prevention and management of patient illness; using evidence based clinical practice guidelines.
Prerequisite: NURS 259, 260, 248, 250
Corequisite: NURS 251
Misc/Lab: Lecture 5 hours/Supervision 1.5 hours
Credit / No Credit
5 units

NURS 256. Family Nurse Practitioner Practicum III
Final clinical practicum increases nurse practitioner competence in the domain of management of patient health/illness status in the areas of health promotion, health protection, disease prevention and management of complex or chronic patient illness; using evidence based clinical practice guidelines.
Prerequisite: NURS 259, 260, 248, 250, 251, 253, 254
Corequisite: NURS 252
Misc/Lab: Lecture 5 hours/Supervision 1.5 hours
Credit / No Credit
5 units

NURS 258. Professional Issues for Nurse Practitioners
Exploration of current health care environment as it pertains to policy development, health planning, and economic management at the national, state, and local levels. Exploration of equitable distribution of existing resources, policy development, program evaluation, and client/population outcomes.
Pre/Corequisite: NURS 250, NURS 252 and NURS 253.
Repealable for credit
Normal Grade Rules
3 units

NURS 259. Advanced Clinical Pharmacology
This course is designed to prepare family nurse practitioners and nurse educators to accurately describe, administer, and counsel patients regarding appropriate and safe medication regimens. Basic pharmacologic principles and the pharmacologic actions of the major drug classes will be discussed in relation to physiologic systems, with emphasis on the application of these agents.
Normal Grade Rules
3 units

NURS 260. Advanced Physiology and Pathophysiology for Advanced Practice Nursing
Advanced physiology and compensatory mechanisms are examined with emphasis on system interaction, homeostasis, and pathophysiology. Focus for this course is on physiologic processes with clinical application to individuals across the lifespan. Course has both online and in-class components.
Prerequisites: Graduate status or instructor consent.
Repealable for credit
Normal Grade Rules
3 units

NURS 295A. Research Methods
This course provides basic principles of research. Novice researchers are familiarized with research methodology. Candidates engage in evaluating public research, and develop and write a feasible proposal for implementation as a research project.
Prerequisite: NURS 200
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units

NURS 295B. Research Project
Project option is an alternative to thesis option. Students integrate learning from graduate courses and clinical practice by developing a project proposal, implementing and reporting the project in the form of a publishable paper. May not be repeated in same semester.
Prerequisite: NURS 295A and advancement to candidacy.
Repealable for credit
Mandatory CR/NC/RP
1-4 units
NURS 298. Special Studies  
For students pursuing advanced study related to populations-at-risk. Independent study project developed by the student may be an individualized small research activity or special study topic.  
Repeatability for credit  
Mandatory CR/NC/RP  
1-6 units

NURS 299. Master’s Thesis  
Research proposal developed, research completed and study reported in approved thesis format during three semesters.  
Prerequisite: Instructor consent.  
Mandatory CR/NC/RP  
1-4 units

NURS 574. The Role of Diversity and Social Issues in Healthcare  
Analysis of social and cultural factors affecting health among populations defined by age, education, gender, ethnicity, culture, religion, occupation, income, mental or physical disability and language.  
Prerequisite: Admission to the DNP program.  
Normal Grade Rules  
2 units

NURS 575. Application of Theories in Advanced Nursing Practice  
Application of theories of nursing, ethics, and teaching-learning to advanced nursing practice and healthcare leadership.  
Prerequisite: Admission to the DNP program.  
Normal Grade Rules  
2 units

NURS 576. Application of Biostatistics to Population  
Examination of methods to generate and analyze biostatistical data to design, implement, and evaluate programs and policies for the healthcare of populations.  
Prerequisite: Admission to the DNP program.  
Normal Grade Rules  
3 units

NURS 583. Leadership and Professional Responsibility in Complex Healthcare Systems  
Analysis of nursing leadership and evidence-based management theories necessary for the leadership of complex healthcare systems. Application of concepts of leadership, management, planning, and evaluation of population based efforts to provide quality affordable care. Analysis of professional role and responsibilities.  
Prerequisites: NURS 274, NURS 275 and NURS 276.  
Normal Grade Rules  
2 units

NURS 584. Technology, Informatics, and Data Management in the Transformation of Healthcare  
Overview of patient-centered technology and clinical information systems. Application of nursing informatics in healthcare systems. Use of technology in evaluation of clinical outcomes to improve the healthcare system and to evaluate the effectiveness, quality, and efficiency of healthcare programs.  
Prerequisites: NURS 274, NURS 275 and NURS 276.  
Normal Grade Rules  
3 units

NURS 585. Foundations of Evidence-Based Practice  
Prerequisites: NURS 274, NURS 275 and NURS 276.  
Normal Grade Rules  
2 units

NURS 586. Transformation of Health Care Systems: Health Policy and Economics  
Healthcare policies and economics and the political forces that shape them. Role of the DNP in the analysis, formulation, and implementation of healthcare policies.  
Prerequisites: NURS 283, NURS 284 and NURS 285.  
Normal Grade Rules  
2 units

NURS 587. Principles of Epidemiology  
Prerequisites: NURS 283, NURS 284 and NURS 285.  
Normal Grade Rules  
3 units

NURS 591. Curriculum Development  
Prerequisites: NURS 286, NURS 287.  
Normal Grade Rules  
3 units

NURS 592. Evaluation in Nursing Education  
Focuses on assessment, measurement, and evaluation of learning and program outcomes in nursing. Explores theories of educational measurement and evaluation and of measures to evaluate teaching effectiveness, student learning, student outcomes, and student clinical performance.  
Prerequisites: NURS 291, NURS 293 and NURS 295.  
Normal Grade Rules  
3 units

NURS 593. Financial Aspects of Projects and Practice  
Principles of health care economics, third-party reimbursement, costing, budgets and budgeting, variance, economic evaluation methods, and writing a business plan to defend or market a health care program. Management of a successful project or practice emphasizing fiscal planning and control.  
Prerequisites: NURS 286, NURS 287.  
Normal Grade Rules  
2 units

NURS 594. Application of Evidence-Based Teaching in Nursing  
Prerequisites: NURS 291, NURS 293 and NURS 295.  
Mandatory CR/NC/RP  
2 units

NURS 595. Translating Evidence into Reflective Practice I  
Integration of clinical practice, theory, and research. Development of clinical expertise in management of health problems in selected populations. Identification and development of a project proposal for implementation. Formal defense of proposal and IRB approval. One hour clinical conference per week. (204-306 total practicum hours).  
Prerequisites: NURS 286, 287.  
Normal Grade Rules  
4-6 units

NURS 596. Translating Evidence into Reflective Practice II  
Integration of clinical practice, theory, and research. Development of clinical expertise in management of health problems in selected populations. Implementation of project proposal. One hour clinical conference per week. (204-306 total practicum hours).  
Prerequisites: NURS 291, NURS 293 and NURS 295.  
Normal Grade Rules  
4-6 units

NURS 597. Doctoral Project  
Evaluation of data and completion of doctoral project. Dissemination of results through an oral defense and manuscript submission to a peer-reviewed journal.  
Prerequisites: NURS 292, NURS 294 and NURS 296.  
Mandatory CR/NC/RP  
2 units
Nutrition, Food Science and Packaging Department Courses

NUTRITION AND FOOD SCIENCE

LOWER DIVISION

NUFS 001A. Physical Science of Food
Introductory course to the physical, chemical and sensory properties of food for students not majoring in the sciences. Basic structure, function and organization of foods, laws of thermodynamics, systems of classification, as well as the interactions of energy and matter. GE Area: B1
Normal Grade Rules
GE B1
3 units

NUFS 008. Nutrition for the Health Professions
Nutrients and their functions; recommended nutrient intakes and evaluation of dietary adequacy; relationship of nutrition to optimum health and dietary changes in disease. For nutritional science, nursing and other health profession majors.
Prerequisites: CHEM 001A or CHEM 030A (with a grade of 'C' or better), or instructor consent.
Normal Grade Rules
3 units

NUFS 009. Introduction to Human Nutrition
Principles and methodology of nutritional science; standards of nutrient intake; physiological functions and chemical classification of nutrients; nutrient needs throughout the lifespan; relationship between diet and disease; scientific, social, and psychological issues. GE Area: E
Notes: Not open to majors.
Normal Grade Rules
GE EE
3 units

NUFS 012. Cost Control in Hospitality
See HSPM 012
Normal Grade Rules
3 units

NUFS 016. Science, Physiology, and Nutrition
Introduction to life sciences, from chemistry to cellular and physiologic functions, with nutrition as an underlying theme. Interactions with environment, including effect of culture, genetics, and nutrition on susceptibility to disease. Applications of biotechnology in the life sciences. GE Area: B2
Normal Grade Rules
GE B2
3 units

NUFS 020. Sanitation and Environmental Issues in the Hospitality Industry
Sanitation in food service, hotel and travel/tourism industries; study of pathogenic organisms and food handling procedures. Occupational health, safety and environmental control in the hospitality industry.
Normal Grade Rules
2 units

NUFS 021. Culinary Principles and Practice
Introduction to principles of food and beverage production and techniques. Emphasis on quality and culinary standards.
Misc/Lab: Lecture 2 hour/Lab 3 hours.
Normal Grade Rules
3 units

NUFS 022. Catering and Beverage Management
Planning and executing catering and buffet functions. Evaluation of alcoholic and non-alcoholic beverages regarding purchasing, storage, preparation, merchandising and regulations.
Prerequisite: NUFS 020 or instructor consent
Misc/Lab: Lecture/lab 4 hours.
Normal Grade Rules
2 units

NUFS 023. Culinary Concepts
See HSPM 023.
Normal Grade Rules
3 units

NUFS 025. Internship in Foodservice Management
Approved professional broad-based work experience in foodservice management industry for total of 200 hours. Written report due at completion. A maximum of 2 units may be repeated.
Prerequisite: NUFS 020 and instructor consent.
Repeatable for credit
Credit / No Credit
1-2 units

NUFS 031. Professionalism in Nutrition, Food Science and Packaging
Professional roles, skills and opportunities in the fields of dietetics, foodservice, food science, and packaging.
Normal Grade Rules
1 unit

UPPER DIVISION

NUFS 100W. Writing Workshop
See HPRF 100W
Normal Grade Rules
GE Z
3 units

NUFS 101A. Food Science
Experimental study of food and introduction to scientific methods used in food evaluation; functions of ingredients in prepared foods.
Prerequisite: CHEM 030B or CHEM 008. College basic food preparation course or instructor consent.
Misc/Lab: Lecture 3 hours/Lab 3 hours
Normal Grade Rules
4 units

NUFS 101B. Computer Applications for Professionals
Computer applications for storage, editing, communication, managing, composition and processing of information. Focus on providing information and experience in using standard software packages for word processing, data management, graphics and statistics in educational and professional applications.
Prerequisite: Upper division standing.
Misc/Lab: Lecture 2 hours/lab 2 hours
Normal Grade Rules
3 units

NUFS 103. Food Processing and Packaging I
Principles and methods of food preservation/processing and packaging operations. Raw materials handling, effect of processing on nutritional value of foods, packaging and food additives. Recommended: College basic food preparation course.
Prerequisite: CHEM 030B or CHEM 008 or instructor consent.
Misc/Lab Lab: Lecture/lab 5 hours.
Normal Grade Rules
2 units

NUFS 103L. Food Processing Laboratory
Laboratory activities associated with the principles and methods of food preservation/processing and packaging operations; raw materials handling, effect of processing on nutritional value of foods, packaging and food additives.
Pre-requisites: CHEM 030B or CHEM 008, instructor consent
Normal Grade Rules
1 unit

NUFS 104A. Cultural Aspects of Food
Regional, ethnic and religious influences on food culture. Activity with foods of several cultures.
Prerequisite: Upper division standing.
Misc/Lab: Lecture/activity 4 hours.
Normal Grade Rules
3 units
NUFS 105. Current Issues in Nutrition
Controversial topics, including the relation of nutrition to cancer, coronary heart disease, hypertension, diabetes, eating disorders, osteoporosis and athletic performance; recommended nutrient intakes; and other current issues. Prerequisite: NUFS 008, NUFS 009, NUFS 163 or equivalent introductory course in human nutrition. Normal Grade Rules 3 units

NUFS 106A. Human Nutrition in the Life Span
Integrates chemical, biological and social sciences into a comprehensive concept of human nutrition. Emphasis on assessing nutrient status; planning and intervention throughout the life cycle. Prerequisite: NUFS 008 (with a grade of ‘C’ or better) or passing grade on a challenge exam. Corequisite: HPRF 100W, NUFS 31. Normal Grade Rules 3 units

NUFS 106B. Research Methodology in Nutrition and Food Science
Introduction to research methodology, interpretation and data analysis with a focus on developing strong information literacy skills, as well as critical thinking, reading, and writing skills in refining scholar writing in the style of the discipline. Prerequisite: STAT 095 or HS 67. Corequisite: NUFS 106A and HPRF 100W. Normal Grade Rules 3 units

NUFS 107. Principles of Packaging
See PKG 107. Normal Grade Rules 3 units

NUFS 108A. Nutrition and Metabolism
Chemical and physiological studies of carbohydrate, protein, lipid, vitamin and mineral metabolism. Application to the normal nutrition of human beings. Prerequisite: NUFS 106A, BIOL 066, CHEM 132 (both with a grade of ‘C’ or better); and HPRF 100W. Normal Grade Rules 3 units

NUFS 108L. Nutrition Laboratory
Chemical and biochemical analysis of nutrients and metabolites in body fluids for the assessment of nutritional status of humans. Prerequisite: CHEM 132L, STAT 095 or BUS 090 or HS 167. Corequisite: NUFS 108A. Misc/Lab: Lab 3 hours. Normal Grade Rules 1 unit

NUFS 109. Advanced Nutrition
Advanced studies of vitamins and minerals. Evaluation and interpretation of nutritional research methodology and findings. Prerequisite: NUFS 106A; CHEM 132 (with grades of ‘C’ or better in each); HPRF 100W, and BIOL 066, BUS 090, STAT 095 or HS 167. Normal Grade Rules 3 units

NUFS 110A. Medical Nutrition Therapy
Application of nutritional principles and dietary intake to meet the needs of various pathological conditions. Prerequisite: NUFS 108A (with grade of ‘C’ or better). Corequisite: NUFS 109. Misc/Lab: Lecture/activity 4 hours. Normal Grade Rules 3 units

NUFS 110B. Medical Nutrition Therapy
Application of nutritional principles and dietary intake to meet the needs of various pathological conditions. Prerequisite: NUFS 110A and NUFS 109 (with a grade of ‘C’ or better in each). Misc/Lab: Lecture/activity 4 hours. Normal Grade Rules 3 units

NUFS 111. Foodservice Production Management
Principles and procedures for menu planning, production scheduling, volume food production, operation of foodservice equipment, sanitation control and formula costing. Prerequisite: NUFS 101A or HSPM 011, NUFS 008 or NUFS 009; or instructor consent. Misc/Lab: Lecture 2 hours/Lab 3 hours Normal Grade Rules 3 units

NUFS 113. Foodservice Systems: Mgmt & Proc
Selection and purchasing in foodservice operations: food and equipment and writing food/equipment specifications. Allocation and management of resources in foodservice systems: materials (food and supplies), facilities (equipment and space), human (management and employee labor), operational (time and money). Prerequisite: NUFS 111 or instructor consent. Misc/Lab: Lecture/lab 5 hours. Normal Grade Rules 3 units

NUFS 114A. Community Nutrition for Majors
Nutrition problems; public policy, advocacy and legislation; government programs; needs assessments; management of community services. Prerequisite: NUFS 106A; senior standing and instructor consent. Normal Grade Rules 3 units

NUFS 114B. Community Nutrition (non-majors)
Key nutrition concepts and terms; age appropriate nutritional interventions focusing on school-age children; nutrition and public policy; advocacy and legislation; government programs and provision of community nutrition services focusing on mother and children. Repeatable for credit. Normal Grade Rules 3 units

NUFS 115. Issues in Food Toxicology
Introduction to toxicology of foods, and food-borne chemicals and organisms. Scientific basis for determining biological and environmental safety of the food supply from food development, growth and production through harvesting, processing, storage and eventual consumption. GE Area: R Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. Normal Grade Rules GE R 3 units

NUFS 115I TL. Issues in Food Toxicology-International Experience
Seminars on food toxicology issues. Scientific basis for determining biological and environmental safety of the food supply from farm to table. Includes a field trip to learn agricultural systems outside the U.S. and gain a global view of food safety. Prerequisite: Completion of core GE and Writing Skill Test Normal Grade Rules 3 units

NUFS 116. Aging and Nutrition
The aging process, physiological changes, dietary requirements, diseases, environmental factors, housing, economic status, handicaps, personal relations and current programs for the aged. Prerequisite: One college nutrition course or instructor consent. Normal Grade Rules 3 units

NUFS 117. Food Evaluation Techniques
Studies in food experimentation, sensory evaluation and objective methods. Prerequisite: NUFS 008 and NUFS 101A, CHEM 030A, CHEM 030B, CHEM 001A or instructor consent. Misc/Lab: Lecture/lab 5 hours. Normal Grade Rules 2 units.
NUFS 118. Food Chemistry
Important classes of food constituents, their nature, occurrence, chemical and biochemical significance, and the changes they undergo during food preservation and processing.
Prerequisite: NuFS 101A and/or NuFS 103; Chem 308 or Chem 8; or Instructor Consent
Misc/Lab: Lecture/lab 5 hours.
Normal Grade Rules
3 units

NUFS 122. Chemical Analysis of Food
Techniques in chemical analysis of nutrients and other components of food. Planning, conducting and evaluating a scientific experiment and presenting the data in a technical written form.
Prerequisite: NuFS 103, HPRF 100W, STAT 95 or HS 67
Misc/Lab: Lecture/lab 7 hours.
Normal Grade Rules
3 units

NUFS 123. Nutrition for Sport
Planning optimum diets for performance and health; metabolism and energy systems; roles of nutrients in physical performance; efficacy of ergogenic nutrition aids.
Prerequisite: NuFS 008 or NuFS 009.
Normal Grade Rules
3 units

NUFS 124. Disordered Eating and Nutrition Therapy
Metabolic, physiological, and psychological determinants and effects of disordered dietary behaviors. Disorders in regulation of food intake, case studies, and different intervention approaches explored. Screening and treatment of disordered eating in athletes emphasized. Opportunities provided to develop counseling strategies.
Prerequisite: NuFS 008.
Normal Grade Rules
3 units

NUFS 125. Child Nutrition Program Administration
Study of the components of model child nutrition programs through application of current child health and nutrition principles, education practices, marketing procedures, communication strategies, computer-based nutrient and business analysis and operations management skills.
Prerequisite: Upper division standing.
Notes: Offered Summer only.
Normal Grade Rules
2 units

NUFS 134. Complementary and Alternative Health Practices
See HPRF 134.
Normal Grade Rules
3 units

NUFS 135. Health Issues in a Multicultural Society
See HPRF 135.
Normal Grade Rules
GE: S
3 units

NUFS 139. Hunger and Environmental Nutrition
Physiology of hunger/malnutrition on human development and health; political, social, cultural, and gender factors that contribute to world hunger; scientific/technological foundation to population research and food production and their effect on the environment. GE Area: R
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LHD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU courses.
Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: R
3 units

NUFS 139ITL. Hunger and Environmental Nutrition
The physiology of hunger/malnutrition on human development and health; political, social, cultural, and gender factors that contribute to world hunger; scientific/technological foundations of population research and food production and their effect on the environment.
Prerequisite: WST, Completion of Core GE (3 units), Upper Division Standing
Pre/CoRequisite: 100W
Normal Grade Rules
3 units

NUFS 141A. Packaging Materials I, Paper, Metal, and Wood Based
See PKG 141A.
Normal Grade Rules
3 units

NUFS 141B. Packaging Materials II, Plastics, Composites, and Glass
See PKG 141B.
Normal Grade Rules
3 units

NUFS 144. Food Culture: Consuming Passions
Cultural aspects of food as related to regional, ethnic, and religious influences. The basis for the examination of effects of food behavior on culture, society, health, and economics. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LHD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU courses.
Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units

NUFS 144ITL. Food Culture: Consuming Passions: International Experience
Cultural aspects of food as related to regional, ethnic, and religious influences abroad. Issue-based examination of the effects of food behavior on culture, society, health, and economics abroad. Involves an international, study abroad experience.
Prerequisite: WST or ENGL/LHD 100A with C or better, core GE, upper division standing
Corequisite: 100W is strongly recommended
Normal Grade Rules
3 units

NUFS 154. Food and Nutritional Toxicology
Major classes of food toxicants, their importance, properties, detection, metabolism, control and regulation; and basic issues in food/diet safety and toxicology.
Prerequisite: NuFS 103, CHEM 308B or CHEM 008; introductory courses in nutrition and biology and instructor consent.
Normal Grade Rules
2 units

NUFS 156. Packaging Machinery Systems
See PKG 156.
Normal Grade Rules
3 units

NUFS 158. Protective Package Design and Testing
See PKG 158.
Normal Grade Rules
3 units

NUFS 159. Packaging Material Handling and Distribution
See PKG 159.
Normal Grade Rules
3 units

NUFS 163. Physical Fitness and Nutrition
Use of scientific principles, scientific investigation, and current technological advances to assess the relationship between diet, physical fitness, and disease. Examines scientific literature to evaluate the effects of nutritional intervention on exercise performance. GE Area: R
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LHD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU courses.
Completion of, or co-registration in, 100W is strongly recommended.
Notes: Not for Nutrition majors or minors.
Normal Grade Rules
GE: R
3 units
NUFS 169. Food Packaging and Preservation
See PKG 169.
--- Normal Grade Rules
--- 3 units

NUFS 170. Packaging Development and Management
See PKG 170.
--- Normal Grade Rules
--- 3 units

NUFS 180. Individual Studies
Individual work for majors or minors on special topics by arrangement.
Prerequisite: NUFS 008; instructor and department chair consent during semester prior to enrollment.
Repeatability for credit
Credit / No Credit
--- 1-6 units

NUFS 190. Nutrition Education and Counseling
Education principles and behavior change theories; counseling and communication techniques for nutritionists and dietitians working with individuals and groups.
Prerequisite: NuFS 106A or Instructor Consent
--- Normal Grade Rules
--- 3 units

NUFS 192. Field Experience in Nutrition and Food Science and Packaging Technology
Practical application of academic principles in nutrition, food science, packaging, dietetics food management, nutrition education, and/or sports nutrition. Repeatable for a maximum of 6 units.
Prerequisite: Senior standing in NUFS; instructor consent by end of prior semester.
Miss/Lab: Supervision 3 to 18 hours.
Repeatability for credit
Credit / No Credit
--- 1-6 units

NUFS 194. Entrepreneurial Nutrition
Introduction to entrepreneurial nutrition including professional roles, skills and opportunities.
Prerequisite: ENGL 001A or instructor consent.
--- Normal Grade Rules
--- 1 unit

NUFS 216. Seminar in Food Chemistry and Packaging
Chemical and physical properties of food constituents as they relate to food quality, functionality and the use of proper packaging techniques to preserve nutritive value.
Prerequisite: NUFS 103.
--- Misc/Lab: Lecture 3 hours.
--- Repeatable for credit
--- Normal Grade Rules
--- 3 units

NUFS 217. Issues in Nutrition, Food and Packaging
Discussion and critical evaluation of advanced topics in nutritional science, food science and technology, foodservice management, and packaging.
Prerequisite: Passing score on NUFS competency exam in emphasis area.
Corequisite: HS 167 or STAT 115.
Note: This course satisfies graduate-level GWAR in this master’s program.
--- Repeatable for credit
--- Normal Grade Rules
--- GE: GWAR
--- 3 units

NUFS 219A. Advanced Nutrition and Metabolism
Advanced seminar course in human nutrition and metabolism that covers sources and interactions among dietary constituents, digestion and absorption, transport, processing storage, and catabolism and excretion as well as the regulation of metabolic homeostasis in normal healthy individuals.
Prerequisite: NUFS 108A & NUFS 109 or equivalent advanced courses in Human nutrition and Metabolism, Chem 352 or equivalent, Bio 66 or equivalent, advanced course in statistics or biostatistics, or Consent of Instructor
--- Repeatable for credit
--- Normal Grade Rules
--- 3 units

NUFS 219B. Seminar in Advanced Topics in Human Nutrition & Dietetics
Advanced seminar on selected topics in human nutrition and dietetics such as: sources and interactions among dietary constituents, nutrition and disease, community nutrition, nutrition education, hunger and environmental nutrition, sustainability, nutrition and culture, and issues of social justice.
Prerequisite: Instructor Consent
--- Repeatable for credit
--- Normal Grade Rules
--- 3 units

NUFS 220A. Advanced Medical Nutrition Therapy
Assessment and evaluation of nutritional status; diet planning in health and disease; counseling techniques; and medical documentation.
Prerequisite: NUFS 110A and NUFS 110B (each with a grade of “C” or better)
--- Normal Grade Rules
--- 3 units

NUFS 242. Advanced Foodservice/Restaurant Management
Quantitative and qualitative analyses of foodservice/restaurant operations and decision-making.
Prerequisite: NUFS 113.
--- Misc/Lab: Lecture 3 hours.
--- Normal Grade Rules
--- 3 units

NUFS 250. Multidisciplinary Health Promotion in Later Life
Multidisciplinary assessment and planning. Principles of promoting health and preventing disability in later life. Physical, psychological, social, cultural, spiritual, and environmental factors that affect length and quality of life.
Prerequisite: BIOL 066 or GERO 108 or instructor consent.
--- Normal Grade Rules
--- 3 units

NUFS 270. Package Design for End Use
See PKG 270.
--- Normal Grade Rules
--- 3 units

NUFS 280A. Dietetic Internship
Supervised professional field experience to fulfill ADA eligibility requirements for registered dietitian examination.
Prerequisite: DPD or instructor consent.
Note: Course can be taken for 1, 3, 6, 9 or 12 units.
--- Repeatable for credit
--- Credit / No Credit
--- 1-12 units

NUFS 295A. Research Methodology
Introduction to scientific methodology, and research design; including refining scholarly search strategies to build a strong scientific base for research, development of research design, data collection, analysis, interpretation and application of research in nutrition, food science and packaging.
Prerequisite: NUFS 217; Completion of upper division statistics course with a grade of “C” or better.
Corequisite: Current or previous enrollment or 1 unit NUFS 298 or NUFS 299
--- Normal Grade Rules
--- 3 units
NUFS 298. Special Studies in Nutrition, Food Science and Packaging
Advanced individual research and projects.
Prerequisite: Consent of graduate advisor.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

NUFS 299. Master’s Thesis
Prerequisite: Admission to candidacy for the master’s degree.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

NO DEGREE CREDIT

NUFS 1290R. Culminating Experience
Supervision
This course satisfies the requirement that all graduate students must remain enrolled during semesters in which they are working solely on their theses or projects, for which they have previously received but not cleared an RP grade.
Prerequisite: Existing RP grade in a graduate-level thesis or project course
Note: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit

PACKAGING

UPPER DIVISION

PKG 107. Principles of Packaging
Basic knowledge of packaging functions, materials and industry. A variety of packaging topics including distribution systems, packaging development, package design, legislation, regulations, societal and environmental issues, ergonomics and packaging careers.
Prerequisite: ENGL 001A or equivalent.
Normal Grade Rules
3 units

PKG 120. Artios CAD For Packaging
Prepares students for ArtiosCAD (a packaging design tool common to the folding carton and corrugated industries). Introduces basic commands of ArtiosCAD to draw and design the representations for different products. Students use the structure database, change from 2D to 3D models, and make simple animations.
Misc/Lab: 2 hours lecture/ 2 hours activity
Normal Grade Rules
3 units

PKG 121. Solidworks For Packaging
Prepares students for SolidWorks (a computer drawing tool) so they can generate 3-D drawings suitable for specifications and transference to computer-driven cutting tables and 3-D printers to make prototype packages.
Misc/Lab: 2 hours lecture/ 2 hours lab
Normal Grade Rules
3 units

PKG 141A. Packaging Materials I, Paper, Metal, and Wood Based
In-depth study of selected materials to provide a working knowledge of structures, physical and chemical properties, development, evaluation and design. Experiments in applications, design limitations and cost.
Prerequisite: PKG 107 or instructor consent.
Misc/Lab: Lecture 2 hours/lab 2 hours.
Normal Grade Rules
3 units

PKG 141B. Packaging Materials II, Plastics, Composites, and Glass
In-depth study of plastic and glass materials in packaging, chemical and physical properties, design, manufacturing, compatibility, and evaluation. Experiments in applications, design limitations and cost.
Prerequisites: NUFS 31, PKG 107, PKG 141A or instructor consent.
Misc/Lab: Lecture 2 hours/lab 2 hours.
Normal Grade Rules
3 units

PKG 146. Packaging for Medical Devices and Pharmaceuticals
Chemical and physical properties of medical device and pharmaceuticals packages, fabrication techniques, package testing and evaluation methods, regulatory requirements, ergonomics and child resistant packages, tamper evidence, shelf life and aging, coding.
Prerequisite: PKG 107, PKG 141A, PKG 141B or instructor consent.
Misc/Lab: Lecture 2 hours/activity 2 hours.
Normal Grade Rules
3 units

PKG 152. Globalization and the Environment
See ENVS 352
Normal Grade Rules
GE: R
3 units

PKG 156. Packaging Machinery Systems
Evaluation of packaging machinery as a subset of a packaging production system. Component selection, design, and implementation of package filling lines in a production facility. Package design requirements for filling lines.
Prerequisite: PKG 107, PKG 141A, PKG 141B, MATH 070, MATH 071, STAT 095.
Misc/Lab: Lecture 2 hours/lab 2 hours.
Normal Grade Rules
3 units

PKG 158. Protective Package Design and Testing
In-depth study of protective packaging dynamics, theory and practice of shock, vibration, compression, humidity, temperature extremes. Measurement and analysis of the dist environment, product fragility, package design principles, package testing and evaluation.
Prerequisite: PKG 107, PKG 141A, PKG 141B, MATH 070, MATH 071, STAT 095.
Misc/Lab: Lecture 2 hours/lab 2 hours.
Normal Grade Rules
3 units

PKG 159. Packaging Material Handling and Distribution
Transportation, handling, and storage of packaged goods. Transportation modes, environment hazards, measurement techniques. Military and Hazmat packaging regulations and testing, classification of goods, legal requirements, export packaging.
Prerequisite: PKG 158 or instructor consent.
Normal Grade Rules
3 units

PKG 169. Food Packaging and Preservation
This course investigates the interaction of food processing and packaging technology. Content includes food chemistry, microbiology in foods, food processing, and finally how packaging augments these areas in food protection and preservation.
Prerequisite: PKG 107 or instructor consent.
Normal Grade Rules
3 units

PKG 170. Packaging Development and Management
Capstone course emphasizing development and evaluation of packaging systems. Specifications and design, marketing criteria, package production, distribution performance, legal and environmental evaluations.
Prerequisite: PKG 107, PKG 141A, PKG 141B, PKG 156, PKG 158 or instructor consent.
Misc/Lab: Lecture 2 hours/lab 2 hours.
Normal Grade Rules
3 units

PKG 180. Individual Studies
Individual work for majors or minors on special topics by arrangement.
Prerequisite: PKG 107, instructor and department chair consent during semester prior to enrollment.
Repeatable for credit
Credit / No Credit
1-6 units

GRADUATE

PKG 270. Package Design for End Use
Current Package Design and Influences on Designs
Normal Grade Rules
3 units
Academic Year 2018-2019
Course Descriptions

Occupational Therapy
Department Courses

OCCUPATIONAL THERAPY

UPPER DIVISION

OCTH 156. Independent Living for the Aging and Disabled
Identification and application of basic management concepts used by the disabled and aging in daily living.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

OCTH 180. Individual Studies
Investigation of special problems not covered in regular courses, including research project and/or field experience. Course is repeatable for credit in the same term.
Prerequisite: Upper division majors with department chair approval.
Repeatable for credit
Credit / No Credit
1-4 units

OCTH 180H. Individual Studies
Individual project or special study in an area not covered in the regular curriculum. Results presented in departmental seminar and written report. An honors course.
Prerequisite: 3.0 overall GPA, 3.5 GPA in major.
Repeatable for credit
Credit / No Credit
1-3 units

OCTH 190. Foundations of Neuroscience for Occupational Therapy
Foundations of neuroscience related to occupational performance. Topics include an overview of anatomy and physiology of the human nervous system and the interaction among the central, peripheral and autonomic nervous systems related to function.
Prerequisite: BIOL 65 or BIOL 65O, BIOL 66
Normal Grade Rules
3 units

OCTH 201A. Field Work Experience
Three months in full-time field work are required.
Prerequisite: OCTH 134.
Notes: This course fulfills departmental prerequisite requirements. It does not fulfill requirements for the graduate degree program. Travel to on-site facilities is the student’s responsibility.
Credit / No Credit
3-6 units

OCTH 201B. Advanced Field Work Experience
Three months in full-time field work are required.
Prerequisite: OCTH 201A.
Notes: This course fulfills departmental prerequisite requirements. It does not fulfill requirements for the graduate degree program. Travel to on-site facilities is the student’s responsibility.
Credit / No Credit
3-6 units

OCTH 205. Mindfulness of Self in Occupational Therapy Practice & Daily Life
Mindfulness-based exploration of self in personal and professional life. The course will focus on personal mindfulness practice informed by study of the foundations of mindfulness and interpersonal mindfulness practice which will form the basis for bringing mindfulness into occupational therapy practice.
Prerequisite: MBSR program
Normal Grade Rules
2 units

OCTH 207. Mindfulness and Quality of Participation in Daily Occupations
Explore links among quality of participation in occupations, inter-occupational relationship patterns, level of attention, intention, and attitudes we bring to occupations. Examine relationships of automatic patterns of occupational engagement on health and well-being, implement mindfulness-based approaches affecting occupational engagement.
Prerequisite: MBSR program and OCTH 205
Normal Grade Rules
2 units

OCTH 209. MBOT Intensive Training Retreat
The intensive 5-day residential training retreat in Mindfulness-Based Occupational Therapy (MBOT) includes periods of silent mindfulness practice and time for group discussion and learning focused on further developing participants’ skills in bringing mindfulness into their occupational therapy practice.
Prerequisite: MBSR, OCTH 205
Mandatory CR/NC/RP
2 units

OCTH 210. Seminar in Occupational Therapy
Seminar on special topics in occupational therapy. Students will develop knowledge and skills in a selected practice area.
Repeatable for credit
Normal Grade Rules
2-3 units

OCTH 210TL. Seminar in Occupational Therapy: International Experience
Gain cross-cultural and -national insight into political, social, cultural, economic factors that influence occupational therapy services outside of the U.S. define the role of occupational therapy and therapists as global citizens, engage local people in its services, explore social, occupational justice issues.
Normal Grade Rules
2-3 units

OCTH 211. Historical and Theoretical Foundations of Occupational Therapy
History of occupational therapy practice, evolution of the concepts and values underlying its theoretical constructs, and the leaders who shaped the profession. Development of ideas, values, and beliefs concerning occupation within the context of historical, social, and scientific advances.
Normal Grade Rules
3 units

OCTH 212. Occupations through the Lifespan
The development of occupations, their meaning and role in human development through the lifespan, and the conditions that create barriers to engagement in meaningful occupations. Students will analyze how interactions between self and environment influence occupational participation at all ages.
Normal Grade Rules
3 units

OCTH 213. Professional Development I
Introduces occupational therapy as a profession and addresses professional organizations, roles, attitudes, behaviors, and ethics. Explores the influence of culture on worldview, communication, and health behaviors. Students engage in personal and professional self-assessment and goal setting for professional development.
Normal Grade Rules
3 units

OCTH 216. Evaluation in Occupational Therapy
The purpose and process of evaluation in determining need for and outcomes of intervention. Application of measurement theory, theoretical perspectives and practice models for selection, administration, and interpretation of appropriate instruments, including occupational profiles, skilled observation, interviews and standardized tests.
Normal Grade Rules
3 units

OCTH 220. Education and Occupational Therapy
Study of learning theory and teaching strategies used in teaching occupational therapy and other health-related professions. Content includes learning styles, objective writing, utilization of media and evaluations.
Credit / No Credit
3 units

OCTH 250. Seminar on Measurement and Evaluation
Seminar on measurement and evaluation, assessment models and techniques, including standardized tests.
Credit / No Credit
3 units

OCTH 290. Seminar in Occupational Therapy
Seminar on special topics in occupational therapy. Students will develop knowledge and skills in a selected practice area.
Repeatable for credit
Normal Grade Rules
2-3 units

OCTH 301. Seminar in Occupational Therapy
Seminar on special topics in occupational therapy. Students will develop knowledge and skills in a selected practice area.
Repeatable for credit
Normal Grade Rules
2-3 units

OCTH 302. Seminar in Occupational Therapy
Seminar on special topics in occupational therapy. Students will develop knowledge and skills in a selected practice area.
Repeatable for credit
Normal Grade Rules
2-3 units

OCTH 311. Professional Development II
Practicum in occupational therapy. Includes observation and participation in an occupation-centered, client-centered environment in an agency representing the service delivery aspects of occupational therapy. Students will develop knowledge and skills in a selected practice area.
Credit / No Credit
3 units

OCTH 312. Professional Development III
Practicum in occupational therapy. Includes observation and participation in an occupation-centered, client-centered environment in an agency representing the service delivery aspects of occupational therapy. Students will develop knowledge and skills in a selected practice area.
Credit / No Credit
3 units

OCTH 313. Professional Development IV
Practicum in occupational therapy. Includes observation and participation in an occupation-centered, client-centered environment in an agency representing the service delivery aspects of occupational therapy. Students will develop knowledge and skills in a selected practice area.
Credit / No Credit
3 units

OCTH 314. Field Work Experience
Practicum in occupational therapy. Includes observation and participation in an occupation-centered, client-centered environment in an agency representing the service delivery aspects of occupational therapy. Students will develop knowledge and skills in a selected practice area.
Credit / No Credit
3-6 units
OC1H 221. Occupational Analysis
Course focuses on analyzing occupations and occupational performance. Meaning and significance of competence, challenge, and success in occupations are explored through engagement in selected projects. Students learn to structure, adapt, plan, teach, and assess activities for therapeutic use.
Normal Grade Rules
3 units

OC1H 222. Functional Kinesiology for Occupational Therapists
Study of body movements based on neurophysiological and biomechanical principles of joint and muscle action correlated with analysis of the body in motion, physiological effects of activity and adaptation to physical dysfunction.
Normal Grade Rules
3 units

OC1H 223. Compassionate Care for Self and Others in Occupational Therapy Practice
Students will examine the relationship of mindful self and other compassion and how both relate to health, “psychological flourishing” (Gerner & Neff, 2013), reduction of symptoms, motivation, and skills that enhance occupational therapy practice and client outcomes.
Prerequisite: MBSR program, OCTH 205, OCTH 207, OCTH 209
Corequisite: personal mindfulness practice
Normal Grade Rules
2 units

OC1H 224. Occupational Therapy Practice in the Community I
Introduction to community focused interventions based on the social model of health and occupational justice concepts, designed to promote health, well-being, social inclusion, empowerment, and health disparity reduction for populations and communities. Focus is on emerging and non-traditional practice settings.
Normal Grade Rules
3 units

OC1H 225. Capstone Evidence-Based MBOT Practice Project
The emphasis of Evidence-Based practice for Mindfulness-Based Intervention in OT is on strategies for selecting, evaluating and analyzing professional literature, and critical analysis on gathering information in clinical decision making and crafting into a publishable quality intervention program.
Prerequisite: MBSR program, OCTH 205, OCTH 207, OCTH 209, OCTH 223
Normal Grade Rules
3 units

OC1H 226. Occupational Therapy with Children
Occupational therapy practice for children from birth to early adolescence, focusing on integrating knowledge of theoretical frameworks, practice settings, research evidence, clinical reasoning and regulatory and reimbursement policies in the provision of interventions for conditions and disorders experienced in this age group.
Normal Grade Rules
3 units

OC1H 230. Management and Occupational Therapy
Principles of ethical administrative, supervisory, and consultative practice in occupational therapy organizational settings. Students review the profession’s ethics and learn ethical decision making. Basic grant writing skills and OT advocacy are also included.
Normal Grade Rules
3 units

OC1H 233. Professional Development II
Deeper exploration into occupational therapy leadership, supervision, ethical conduct, advocacy, program development, and management principles related to current service models. Recent legislation and its impact on occupational therapy practice will be reviewed.
Prerequisite: OCTH 213
Normal Grade Rules
3 units

OC1H 234. Occupational Therapy Practice in the Community II
Community focused seminar and practicum providing intervention in emerging and non-traditional practice settings and underserved communities. Seminars address the diverse dimensions of practice in the community related to needs assessment, the community site, program development and implementing occupational therapy services.
Normal Grade Rules
3 units

OC1H 235. Cultural Diversity in Occupational Therapy
Roles of occupational therapist treating diverse populations is examined through exploration of professional culture, the cultures of poverty and disability, and cultures identified by ethnicity or lifestyle. Cultural variables include time, space, relationships, value, beliefs, communication, socioeconomics, gender and tradition.
Repeatable for credit
Normal Grade Rules
3 units

OC1H 236. Occupational Therapy with Youth
Occupational therapy practice for adolescents and young adults, focusing on integrating knowledge of theoretical frameworks, practice settings, research evidence, clinical reasoning and regulatory and reimbursement policies in the provision of interventions for conditions and disorders experienced in this age group.
Normal Grade Rules
3 units

OC1H 245. Introduction to Research Methods
Introduction to research methodology and the process of critical inquiry. How one conducts research, including traditions and methods used in occupational therapy and how to understand research publications.
Prerequisite: Introductory Statistics
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
3 units

OC1H 246. Occupational Therapy with Young Adults
Occupational therapy practice for young adults ages 25-40, focusing on integrating knowledge of theoretical frameworks, practice settings, research evidence, clinical reasoning and regulatory and reimbursement policies in the provision of interventions for conditions and disorders experienced in this age group.
Normal Grade Rules
3 units

OC1H 256. Occupational Therapy with Middle Aged Adults
Occupational therapy practice for adults age 41-65, focusing on integrating knowledge of theoretical frameworks, practice settings, research evidence, clinical reasoning and regulatory and reimbursement policies in the provision of interventions for conditions and disorders experienced in this age group.
Normal Grade Rules
3 units

OC1H 266. Occupational Therapy with Older Adults
Focuses on older adults whose occupational participation and wellness are affected by age associated change, illness, injury, or disability. The occupational therapy process is applied to facilitate independence, remediate dysfunction, adapt to disability, and enhance wellness and quality of life.
Normal Grade Rules
3 units

OC1H 275. Evidence Based Practice in Occupational Therapy
Evidence based practice is explored through lecture, in-class activities and data base research. Emphasis is on strategies for selecting, evaluating and analyzing professional literature in clinical decision making and exploration of quantitative and qualitative analysis to support evaluation of literature.
Prerequisite: OCTH 245
Normal Grade Rules
3 units
OCTH 276. Practicum and Seminar 1A
Introductory practicum and seminar in occupational therapy. Students will develop beginning observation, reasoning, and documentation skills through placement at practice sites, and explore the integration of evidence and theory in the practice of occupational therapy through online and on-campus seminars.
Misc/Lab: Lecture 3 hours/Lab 3 hours.
Credit / No Credit
3 units

OCTH 286. Practicum and Seminar 1B
Clinical practice in occupational therapy. Students engage in direct intervention in departmental clinics. Seminars, in-service education, direct supervision, and one to one mentoring are used to develop practice skills.
Prerequisite: OCTH 276
Misc/Lab: Lecture 4 hour/Supervision 3 hours.
Repeatable for credit
Credit / No Credit
4 units

OCTH 295. Advanced Research Methods in Occupational Therapy
Advanced topics in research methodology and critical inquiry. Instrument development, the human subjects review process, quantitative and qualitative data analysis, interpretation and reporting of results. Critical analysis and synthesis of the gathered information crafted into a publishable quality paper and oral presentation.
Prerequisite: OCTH 245 and OCTH 275
Credit / No Credit
3 units

OCTH 298. Supervised Study in Occupational Therapy
Special problems assigned for individual study in the occupational therapy Master's program.
Prerequisite: OCTH 286
Repeatable for credit
Mandatory CR/NC/RP
1-3 units
Philosophy Department Courses

PHILOSOPHY

LOWER DIVISION

PHIL 009. Mathematics and Logic for General Education
A survey of basic concepts and methods, focusing on logic, computation, sets, numbers, geometry and probability. Emphasis will be placed on using these concepts in daily life and in coping with public issues. GE Area: B4
Corequisite: PHIL 096L required as a corequisite for Math Enrollment Categories M-III and M-IV, and recommended for Enrollment Category M-II.
Normal Grade Rules
GE B4
3 units

PHIL 010. Introduction to Philosophy
Perennial problems in philosophy, such as Who am I? What can I know? How should I live? Classical philosophical statements bearing on these issues. GE Area: C2
Normal Grade Rules
GE C2
3 units

PHIL 012. Philosophy of the Person
Philosophical issues concerning the origins, development and maturation of the self. GE Area: E
Normal Grade Rules
GE EE
3 units

PHIL 057. Logic and Critical Reasoning
Basic concepts of logic; goals and standards of both deductive and inductive reasoning; techniques of argument analysis and assessment; evaluation of evidence; language and definition; fallacies. GE Area: A3
Normal Grade Rules
GE A3
3 units

PHIL 061. Moral Issues
Moral philosophy covering major ethical theories and contemporary moral issues, such as abortion, euthanasia, animal rights, capital punishment, and sexuality. GE Area: C2
Normal Grade Rules
GE C2
3 units

PHIL 066. Introduction to Aesthetics
Issues such as the nature of beauty and ugliness, definition of art, creativity, and interpretation and evaluation of art. Philosophical discussion of works of art and our responses to them. GE Area: C1
Normal Grade Rules
GE C1
3 units

PHIL 070A. Ancient Philosophy
Includes pre-Socratics, Socrates, Plato and Aristotle; Hellenistic, Roman and Medieval philosophy. GE Area: C2
Normal Grade Rules
GE C2
3 units

PHIL 070B. Modern Philosophy
Seventeenth and eighteenth century philosophers such as Bacon, Descartes, Hobbes, Spinoza, Locke, Leibniz, Berkeley, Hume and Kant. GE Area: C2
Normal Grade Rules
GE C2
3 units

PHIL 096L. Math & Logic for GE Workshop
In-depth exploration of concepts, methods, and problem-solving strategies for PHIL 009. Opportunities for additional practice, applications, and feedback.
Co-requisite: PHIL 09
Normal Grade Rules
1 unit

UPPER DIVISION

PHIL 104. Asian Philosophy
Philosophical examination of Confucianism, Daoism, Buddhism and some other significant movements of thought originated in Asia. Comparison with Western philosophy. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE V
3 units

PHIL 106. Philosophy of Art
Aesthetics covering the main schools of thought about art and selected topics related to specific arts, music, theatre, sculpture, painting, literature, etc.
Prerequisite: 3 units of philosophy or upper division standing.
Normal Grade Rules
GE V
3 units

PHIL 107. Philosophy and Literature
Philosophical theories presented through philosophical texts and philosophically focused literary works.
Prerequisite: 3 units of Philosophy or upper division standing.
Normal Grade Rules
3 units

PHIL 109. Philosophy of Religion
Philosophical issues regarding the existence of a supreme being, evil, mysticism, miracles, reincarnation, faith, the possibility of enlightenment, and the connection between religion and morality.
Prerequisite: 3 units of philosophy or upper division standing.
Normal Grade Rules
3 units

PHIL 110. Science, Technology and Human Values
The aims, methods and world views of science and technology; such value issues as technological determinism, design aesthetics and moral implications of computer and other technologies. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE V
3 units

PHIL 111. Medical Ethics
Selected ethical problems in health care practices. For example, abortion, patient rights, national health care, euthanasia and genetic engineering, with emphasis on philosophical methods.
Prerequisite: 3 units of philosophy or upper division standing.
Normal Grade Rules
3 units

PHIL 112. American Philosophy
The eighteenth century beginnings of American philosophy, Transcendentalism, Pragmatism, classic American philosophy, including Emerson, Peirce, James, Santayana, Dewey, and recent developments.
Prerequisite: 3 units of philosophy or upper division standing.
Normal Grade Rules
3 units

PHIL 113. Existentialism and Phenomenology
Twentieth century philosophies of experience and human existence. Main topics include description of consciousness, personal authenticity, choice, anxiety, death of God. Philosophers range from Husserl and Heidegger to Sartre and de Beauvoir.
Prerequisite: 3 units of philosophy or upper division standing.
Normal Grade Rules
3 units
PHIL 118. Latin American Philosophy  
Analysis of main themes of Latin-American, Mexican and  
Mexican-American thought.  
Prerequisite: 3 units of philosophy or upper division  
standing.  
Normal Grade Rules  
3 units  

PHIL 119. Africana Philosophy and Culture  
Philosophical examination of the ideological roots of  
social movements in black diaspora cultures from Be-Bop  
to Hip-Hop.  
Prerequisite: 3 units of philosophy or upper division  
standing.  
Normal Grade Rules  
3 units  

PHIL 120. Comparative Philosophy Theory &  
Practice  
Examination of how different philosophical traditions  
(distinguished by culture or by style) via their relevant  
resources can talk to and learn from each other and make  
substantial joint contributions to our understanding and  
treatment of a range of philosophical issues.  
Prerequisite: 3 units of philosophy or upper division  
standing.  
Normal Grade Rules  
3 units  

PHIL 121. Philosophy and Feminism  
A philosophical examination of writings that deal with  
issues of special concern to women, with emphasis on  
feminist writings.  
Prerequisite: 3 units of philosophy or upper division  
standing.  
Normal Grade Rules  
3 units  

PHIL 122. Social Justice  
Critical examination of competing conceptions of justice  
and their application to social issues in a pluralistic  
society.  
Prerequisite: 3 units of philosophy or upper division  
standing.  
Normal Grade Rules  
3 units  

PHIL 126. Environmental Ethics and Philosophy  
Extensions and applications of Kantian, Lockean,  
consequentialist and other philosophical theories of value  
to problems of the environment such as pollution, global  
warming, species depletion and overpopulation.  
Prerequisite: 3 units of philosophy or upper division  
standing.  
Normal Grade Rules  
3 units  

PHIL 132. Ethical Theory  
Theoretical problems in the understanding of right  
conduct, value, obligation, justice, and virtue.  
Prerequisite: 3 units of philosophy or upper division  
standing.  
Normal Grade Rules  
3 units  

PHIL 133. Ethics in Science  
An examination of values and practices in the culture of  
science. Issues: transmission of values in scientific  
communities, interactions between scientific and lay  
communities, historical development of norms of  
responsible research, cultural influence on scientific  
values. GE Area: V  
Prerequisite: Passage of the Writing Skills Test (WST) or  
ENGL/LLD 100A with a C or better (C- not accepted),  
completion of Core General Education and upper division  
standing are prerequisites to all SJSU studies courses.  
Completion of, or co-registration in, 100W is strongly  
recommended.  
Normal Grade Rules  
GE: V  
3 units  

PHIL 134. Computers, Ethics and Society  
The nature of privacy in a technologically interconnected  
world, the role of computer technologies in the exercise  
of the human intellect and imagination with respect to  
freedom of expression and the social good; rights and  
responsibilities of intellectual property ownership. GE  
Area: V  
Prerequisites: Completion of core GE, satisfaction of  
Writing Skills Test and upper division standing. For  
students who begin continuous enrollment at a CCC or a  
CSU in Fall 2005 or later, completion of, or corequisite  
in a 100W course is required.  
Normal Grade Rules  
GE: V  
3 units  

PHIL 136. Metaphysics & Epistemology  
Such topics as nature of knowledge, skepticism, nature  
of reality, space, time, substance and causality. Course is  
repeatable once for credit in different area.  
Prerequisite: 3 units of philosophy or upper division  
standing.  
Normal Grade Rules  
Repeatable for credit  
Normal Grade Rules  
3 units  

PHIL 137. Philosophy of Law  
Theories of the nature of law, legal reasoning, and  
morality. Philosophical issues in criminal, civil, and  
constitutional law.  
Prerequisite: 3 units of philosophy or upper division  
standing.  
Normal Grade Rules  
3 units  

PHIL 139. Global Philosophy  
Philosophical analysis of questions concerning the  
nature and value of life on earth, its relationship to other  
planetary life forms, and the role of humans in the  
universe.  
Prerequisite: 3 units of philosophy or upper division  
standing.  
Normal Grade Rules  
3 units  

PHIL 155. Philosophy of Law  
Theories of the nature of law, legal reasoning, and  
morality. Philosophical issues in criminal, civil, and  
constitutional law.  
Prerequisite: 3 units of philosophy or upper division  
standing.  
Normal Grade Rules  
3 units  

PHIL 157. Intermediate Logic & Language  
Analysis  
Predicate logic, methods of proof and some meta theory.  
Additional systems of logic may be considered.  
Prerequisite: PHIL 009 or instructor consent.  
Normal Grade Rules  
3 units  

PHIL 158. Philosophy of Language  
Philosophical investigations into language in view of its  
relation to reality, thought, and logic.  
Prerequisite: 3 units of philosophy or upper division  
standing.  
Normal Grade Rules  
3 units  

PHIL 159. Philosophy of Mind  
Problems in connection with emotion, intention, human  
action and personal identity.  
Prerequisite: 3 units of philosophy or upper division  
standing.  
Normal Grade Rules  
3 units  

PHIL 160. Philosophy of Science  
Scientific methodology, explanation and verification;  
science and society. Varying topics from physical,  
biological and social sciences. GE Area: R  
Prerequisite: Passage of the Writing Skills Test (WST) or  
ENGL/LLD 100A with a C or better (C- not accepted),  
completion of Core General Education and upper division  
standing are prerequisites to all SJSU studies courses.  
Completion of, or co-registration in, 100W is strongly  
recommended.  
Normal Grade Rules  
GE: R  
3 units  

PHIL 180. Individual Studies  
By arrangement. Course is repeatable for a total of 4  
units.  
Prerequisite: Department chair consent.  
Repeatable for credit  
Credit / No Credit  
1-3 units  

PHIL 184. Directed Reading  
Course is repeatable for a total of 4 units.  
Prerequisite: Qualified upper division student.  
Repeatable for credit  
Credit / No Credit  
1-3 units
PHIL 186. Professional and Business Ethics
Interdisciplinary study of types of ethical problems which arise within the contexts of business occupations and professions. Major ethical theories, critique of economic and criminal justice. Focus is on issues of justice and equality in the U.S. Case studies. GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: S
3 units

PHIL 190. Seminar in Philosophical Classics
Works of a major philosopher or philosophical tradition. Course is repeatable for up to 12 units of credit when a seminar topic is different.
Prerequisite: PHIL 70A and PHIL 70B and 6 units of upper division philosophy or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

PHIL 195. Seminar in Philosophy of Law
Critical examination of topics in legal philosophy. Prerequisite: 3 units of Philosophy and upper division standing.
Normal Grade Rules
3 units

GRADUATE

PHIL 264A. Professional/Business Ethics
See BUS 264A.
Normal Grade Rules
3 units

PHIL 281. Philosophy of Education
See EDTE 281.
Normal Grade Rules
3 units

PHIL 290. Advanced Seminar in a Selected Philosopher or Tradition
An exhaustive and detailed study of the entire, or most significant, writings of some outstanding philosopher or philosophical tradition. Course is repeatable for credit when seminar topic is different.
Prerequisite: Nine units of philosophy including PHIL 70A and PHIL 70B or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
3 units

PHIL 291. Advanced Seminar in Epistemology and Metaphysics
Classical or contemporary problems in knowledge and reality. Course is repeatable for credit when seminar topic is different.
Prerequisite: At least one upper division course in epistemology or metaphysics, or instructor consent.
Note: This course satisfies graduate-level GWAR in this master’s program.
Repeatable for credit
Normal Grade Rules
GE: GWAR
3 units

PHIL 292. Advanced Seminar in Ethics or Aesthetics
Classic or contemporary problems in some value area such as that of moral or aesthetic value. Course is repeatable for up to 12 units of credit when seminar topic is different.
Prerequisite: At least one upper division course in ethics or value theory, or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

PHIL 293. Advanced Seminar in Logical Theory
Concepts of logic, such as truth and inference, considered on an advanced level. Course is repeatable for credit when seminar topic is different.
Prerequisite: PHIL 9, PHIL 157 or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

PHIL 298. Special Studies
Prerequisite: Advisor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-3 units

PHIL 299. Master’s Thesis
Prerequisite: Advisor consent.
Repeatable for credit
Mandatory CR/NC/RP
3 units
Astronomy

Lower Division

ASTR 010. Descriptive Astronomy
A generally non-mathematical examination of principles, facts and logic of astronomy, emphasizing arrangement, origin and evolution of the solar system. GE Area: B1
Normal Grade Rules
GE B1
3 units

ASTR 101. Modern Astronomy
A principally non-mathematical discussion of current scientific observational and theoretical understanding of the origin and evolution of stars, galaxies and the cosmos. GE Area: R
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE R
3 units

ASTR 102. Astronomy Lab
Experimental examination of specific astronomical topics: coordinate systems, constellations, etc. Astronomical applications of general physical principles: gravitational motion, stellar spectra, etc. GE Area: B3
Prerequisite: Completion of or concurrent enrollment in a college-level astronomy course.
Misc/Lab: Lab 3 hours.
Normal Grade Rules
GE B3
1 unit

ASTR 117A. Astrophysics I
Physical and observational foundations of astronomy and astrophysics. Celestial coordinates, telescopes, astronomical observations, orbital motion, physics and chemistry of planetary systems; introduction to stellar physics. Computer models and simulations may be used.
Pre-requisites: MATH 32 and PHYS 52 with a C- or better.
Normal Grade Rules
3 units

ASTR 117B. Astrophysics II
Physics of stellar structure and evolution; observed properties of stars; physics and chemistry of the interstellar medium, galaxies and cosmology.
Prerequisite: PHYS 52 and MATH 33 with a C- or better.
College of Science or Engineering Majors only.
Normal Grade Rules
3 units

ASTR 155. Topics in Modern Astrophysics
Topics vary each semester and may include observational and/or computational techniques. Course is repeatable for a total of 9 units.
Prerequisite: ASTR 117A with a C- or better
Repeatable for credit
Normal Grade Rules
3 units

Physics

Lower Division

PHYS 001. Elementary Physics
Mechanics, energy, electricity, magnetism, optics, atomic and nuclear physics, properties of matter; emphasizes practical applications of physics principles to contemporary problems. GE Area: B1
Prerequisite: The following Declared Majors are not allowed to enroll in this course: Engineering, Chemistry, Geology, Meteorology, Physics, Earth Science.
Normal Grade Rules
GE B1
3 units

PHYS 001L. Elementary Physics Lab
Selected experiments on topics covered in Phys 1. GE Area: B3
Co-requisite: PHYS 001. The following Declared Majors are not allowed to enroll in this course: Engineering, Chemistry, Geology, Meteorology, Physics, Earth Science.
Misc/Lab: Lab 3 hours.
Normal Grade Rules
GE B3
1 unit

PHYS 002A. Fundamentals of Physics
First semester of a two-semester sequence that is non-calculus based and covers the topics of mechanics, heat, and sound.
Prerequisite: Algebra.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Note: Year course.
Normal Grade Rules
GE B1B3
4 units

PHYS 002AW. Fundamentals of Physics
A discussion course for students concurrently registered in Physics 002A covering problem solving methods as related to topics normally covered in Physics 002A.
Corequisite: PHYS 002A
Repeatable for credit
Credit/No Credit
1 unit

PHYS 002B. Fundamentals of Physics
Electricity and magnetism, optics and atomic structure.
Prerequisite: PHYS 002A (with grade of “C-” or better).
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
GE B1B3
4 units

PHYS 020. Invitation to Physics and Astronomy
Introduction to the physics department, its faculty, and basic skills necessary for success as a physics major. Topics include relativity and quantum theory for beginners, careers in physics and astronomy, career pathways of BA/BS physics recipients, the role of research in undergraduate STEM education, a historical perspective on the field of physics, and physics/astronomy in the news.
Normal Grade Rules
1 unit

PHYS 023. Animation Physics
An introduction to programming for physics majors who have no previous programming experience. Problem solving, data visualization and analysis using computational methods.
Prerequisite: PHYS 50
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
GE B1
3 units

PHYS 040. Introduction to Computational Physics
An introduction to programming for physics majors emphasizing significant figures, unit conversions, vectors, quantitative reasoning. Introduction to Newton’s Laws and conservation laws. The relevance of physics to science and engineering careers.
Prerequisites: Math 19 or pre-calc placement test
Normal Grade Rules
3 units
PHYS 050. General Physics/Mechanics
Prerequisites: English Enrollment Group E-I or E-II, or ENGL 1AF with a grade of CR, or ENGL 1A with a grade of C- or better, 3 or better on AP Calc Test or C’ or better in Math 30 or 30P or 30PL. College of Science or Engineering
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
GE: B1B3
4 units

PHYS 050W. General Physics/Mechanics Workshop
A discussion course for students concurrently registered in PHYS 050 General Physics/Mechanics covering problem solving methods as related to topics normally covered in PHYS 050.
Corequisites: PHYS 050
Repeateable for credit
Credit/No Credit
1 unit

PHYS 051. General Physics/Electricity and Magnetism
A calculus-based introduction to electricity and magnetism, covering electric charges, electric and magnetic fields, dc and ac circuits, and electromagnetic waves. Intensive Science Package GE: B1 and B3.
Prerequisite: PHYS 050, MATH 031, both with grades of “C” or better. College of Science or Engineering Majors Only.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
GE: B1B3
4 units

PHYS 052. General Physics/Waves, Light, Heat
Prerequisite: PHYS 51 and Math 31 both with grade of “C” or better. College of Science or Engineering majors only.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
GE: B1B3
4 units

PHYS 100W. Methods of research and communication in physics
Develop communication skills for physics, including proposals, posters, research reports and oral presentations. Research strategies and methodologies for effective communication to general and specialized audiences. GE Area: Z
Prerequisites: C’ or better in GE Area A2, Completion of core GE, satisfaction of Writing Skills Test, or completion of LLD 100A with C- or better; and upper division standing.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).
Normal Grade Rules
GE: Z
3 units

PHYS 105A. Advanced Mechanics I
Prerequisite: PHYS 52, MATH 133A each with grade of “C” or better.
Note: Year course.
Normal Grade Rules
4 units

PHYS 105B. Advanced Mechanics II
Dynamics of systems of particles: collisions, rigid body rotations, non-inertial frames, coupled oscillations, waves. This course is strongly recommended for students who are considering graduate study in physics.
Prerequisite: PHYS 105A with grade “C-” or better.
Normal Grade Rules
3 units

PHYS 107. Waves and Oscillations
Oscillatory phenomena and their connection to waves. Review of simple harmonic motion and extension to damped, driven, and coupled oscillators. Applications to waves on strings, and basic concepts of electromagnetic and sound waves. Connections to the beginnings of quantum theory are developed.
Prerequisite: PHYS 52 with C- or better
Normal Grade Rules
3 units

PHYS 110A. Electricity and Magnetism I
Theories of electrostatics, magnetostatics, electrodynamics and electromagnetic waves.
Prerequisite: PHYS 130, MATH 133A each with “C-” or better
Note: Year course.
Normal Grade Rules
3 units

PHYS 110B. Electricity and Magnetism II
Theories of electrostatics, magnetostatics, electrodynamics and electromagnetic waves.
Prerequisite: PHYS 110A
Normal Grade Rules
3 units

PHYS 120A. Electronics, Data Acquisition & Analysis
The characteristics of basic analog and digital electronic circuits used in a scientific laboratory. Topics include transistors, operational amplifiers, digital electronic circuits, and computer data acquisition.
Prerequisite: PHYS 51 with “C” or better. Physics Majors Only
Misc/Lab: Seminar 2 hours/lab 3 hours.
Normal Grade Rules
3 units

PHYS 120B. Modern and Solid State Physics Lab
Experimental methods of modern physics and solid state physics, including semiconductors, superconducting quantum interference, Faraday effect, magnetic resonance and electron spin resonance.
Prerequisite: PHYS 122 and PHYS 120A both with C- or better. Physics Majors only.
Misc/Lab: Seminar 1 hour/lab 6 hours.
Normal Grade Rules
3 units

PHYS 120C. Advanced Physics Lab: Optics and Lasers
Design of optical systems involving lasers and other common optical components. Use of optical systems to explore interference, holography, and other optical phenomena.
Pre-requisite: PHYS 120A and PHYS 158 all with grade of “C-” or better.
Misc/Lab: Lecture 1 hour/lab 6 hours.
Normal Grade Rules
3 units

PHYS 121S. Radiation Safety
See NUCS 121S.
Normal Grade Rules
1-2 units

PHYS 122. Modern Physics
Survey of modern physics for science majors, covering special relativity, pre-quantum theory, basic quantum mechanics, atomic and molecular physics, solid state physics, nuclear and particle physics, and cosmology. Historical foundations of these topics will also be presented.
Prerequisite: CHEM 001A, MATH 032, and PHYS 052 all with a C- or better.
Normal Grade Rules
4 units

PHYS 126. Introduction to Nuclear Science
See CHEM 126.
Normal Grade Rules
3 units
**Academic Year 2018-2019**

**Course Descriptions**

---

**Return to Last Page**

**Description Contents**

---

**PHYS 127. Nuclear Science Lab**
See CHEM 127.

Normal Grade Rules
3 units

**PHYS 130. Mathematical Methods in Physics**

Mathematical methodologies commonly used in physics, including linear algebra, vector calculus, partial differential equations and complex variables, and their applications to classical mechanics, electricity and magnetism, and quantum mechanics.

Prerequisite: MATH 32 and PHYS 52

Normal Grade Rules
4 units

**PHYS 140. Computational Methods in Physics**

An introduction to the programming of algorithms and numerical techniques pertinent to physical systems.

Prerequisite: PHYS 40 or previous programming experience; PHYS 52 with a C- or better. Physics Majors Only.

Misc/Lab: Seminar 2 hours/lab 3 hours.

Normal Grade Rules
3 units

**PHYS 158. Modern Optics**

Thin and thick lens systems. Double and multiple beam interference, holoograpy, Fraunhofer and Fresnel diffraction, Fourier optics, spatial filtering, polarization and birefringence.

Prerequisite: PHYS 52 with a C- or better; MATH 32.

Normal Grade Rules
3 units

**PHYS 160. Thermodynamics and Statistical Physics**

The laws of thermodynamics and kinetic theory with introduction to statistical mechanics.

Prerequisite: CHEM 001A and PHYS 52 both with a C- or better, MATH 32.

Normal Grade Rules
3 units

**PHYS 163. Quantum Mechanics**

General principles of quantum theories. Wave functions, operator algebra and approximation methods. Applications to atomic structure and solid state physics.

Prerequisites: PHYS 122, MATH 133A, PHYS 130 with a C- or better.

Normal Grade Rules
3 units

**PHYS 166. Physics of Music**

Physical, mathematical and perceptual foundations of music. Includes musical instruments, hearing, harmony, room acoustics, sound analysis, synthesis and reproduction. GE Area: R

Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LHD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses.

Completion of, or co-registration in, 100W is strongly recommended.

Normal Grade Rules
CE: R
3 units

**PHYS 168. Lasers**

Prerequisite: PHYS 122 and PHYS 158 with a C- or better.

Corequisite: PHYS 110B.

Normal Grade Rules
3 units

**PHYS 175A. Solid State Physics**

A detailed treatment of the physics of solids using quantum mechanics, crystallography, electromagnetism, and metallurgy.

Pre-requisites: PHYS 122 with grade of “C-“ or better.

Normal Grade Rules
3 units

**PHYS 180. Individual Studies**

Advanced work in special fields.

Prerequisite: Physics major or minor. Not available to Open University Students.

Notes: Maximum 4 units of 180/184 may be applied toward graduation.

Repeatable for credit
Credit / No Credit
1-4 units

**PHYS 184. Directed Reading**

Assigned readings of selected books, journals and special papers to fill gaps in training or for contact with new fields. Weekly reports and conferences.

Notes: Maximum 4 units of 180/184 may be applied toward graduation.

Prerequisites: Not available to Open University Students.

Repeatable for credit
Credit / No Credit
1-3 units

**GRADUATE**

**PHYS 205. Advanced Dynamics**

Generalized methods and selected topics in classical mechanics.

Prerequisite: PHYS 105B, MATH 112 and MATH 133B.

Normal Grade Rules
3 units

**PHYS 208. Introduction to Electro-Optics**

This course introduces the physical principles of electro-optics including modulators (electro- and acousto-optic), non-linear optics, semiconductor lasers, optical detection and integrated optics with applications.

Prerequisite: PHYS 158

Normal Grade Rules
3 units

**PHYS 210. Electromagnetic Theory**

Topics in electrostatics and magnetostatics; Maxwell equations; solutions of boundary-value problems using methods of images and Green’s function; boundary-value problems in magnetostatics; electromagnetic plane waves and wave propagation in a dielectric media; Fresnel Equations.

Prerequisite: PHYS 230.

Normal Grade Rules
3 units

**PHYS 220E. Modern Optics Lab**

This course covers the application of Lasers and Optics with emphasis on topics such as Gaussian beams, Fabry-Perot cavities, Laser oscillators including CW and pulsed operation, non-linear optics, frequency stabilization and Fourier Optics.

Prerequisites: PHYS 120C, PHYS 258

Misc/Lab: Lecture 2 hour/Lab 3 hours

Normal Grade Rules
2 units

**PHYS 230. Methods in Mathematical Physics**

Partial differential equations and special functions: Bessel functions, Legendre polynomials, spherical harmonics; Green’s functions; complex variables and contour integrations; matrices and eigenvalue problems; Fourier and Laplace transforms.

Prerequisite: PHYS 105B, PHYS 110B, PHYS 160, PHYS 163, MATH 133B.

Normal Grade Rules
3 units

**PHYS 240. Computational Physics**

Numerical techniques and computational methods applied to solving problems from various branches of physics.

Prerequisite: PHYS 105B, PHYS 110B, PHYS 160 and a programming language.

Normal Grade Rules
3 units

**PHYS 255. Advanced Physics**

Selected topics in physics. Topics vary each semester.

Course is repeatable when content changes.

Prerequisite: Suitable upper division background in physics and mathematics.

Repeatable for credit
Normal Grade Rules
3 units
PHYS 255C. Celestial Mechanics  
Basic concepts in celestial mechanics emphasizing orbital mechanics and the calculation of orbital perturbation. Topics covered include dynamical principles, potential theory, planetary equations, the disturbing function, Lagrange’s perturbation equations and geopotential perturbations.  
Prerequisite: Senior or graduate standing.  
Normal Grade Rules  
3 units

PHYS 258. Optics  
Fourier optics, diffraction theory, imaging and image enhancement, holography and information processing.  
Prerequisite: PHYS 158 and MATH 133A.  
Normal Grade Rules  
3 units

PHYS 260. Statistical Mechanics  
Prerequisite: PHYS 160 and PHYS 163.  
Normal Grade Rules  
3 units

PHYS 263A. Quantum Theory  
Prerequisite: PHYS 163, PHYS 230.  
Normal Grade Rules  
3 units

PHYS 268. Laser Spectroscopy  
Importance of spectroscopy. Interaction of radiation with matter. Instrumentation for laser spectroscopy. Examples of various techniques, cw and pulsed.  
Prerequisite: PHYS 110B, PHYS 158 or instructor consent.  
Normal Grade Rules  
3 units

PHYS 275. Solid State Physics  
Properties of crystals, electric, magnetic and thermal properties of solids.  
Prerequisite: PHYS 175A and PHYS 263A or instructor consent.  
Normal Grade Rules  
3 units

PHYS 277. Superconductivity and Magnetism in Solids  
Prerequisite: PHYS 175A, PHYS 275 or instructor consent.  
Repeatable for credit  
No Degree Credit  
3 units

PHYS 285. Seminar  
Meetings for the presentation and discussion of advanced studies in special fields including work by the faculty, guest investigators and graduate students. Topics will vary each semester.  
Credit / No Credit  
1 unit

PHYS 298. Research  
Advanced individual work in physics.  
Prerequisite: Instructor consent. Not available to Open University Students.  
Repeatable for credit  
Mandatory CR/NC/RP  
1-4 units

PHYS 299. Master’s Thesis  
Prerequisite: Admission to candidacy for the master’s degree. Not available to Open University Students.  
Repeatable for credit  
Mandatory CR/NC/RP  
1-4 units

NO DEGREE CREDIT

PHYS 1290R. Culminating Experience Supervision  
Continued work on thesis or project.  
Prerequisite: Outstanding RP grade in a preceding semester in Chem 299, Master’s Thesis  
Note: No Degree Credit.  
Repeatable for credit  
No Degree Credit  
1 unit
Political Science Department Courses

POLITICAL SCIENCE

LOWER DIVISION

POLS 001. American Government
Notes: Satisfies American Institutions requirements in American and California government.
Normal Grade Rules
GE: US23
3 units

POLS 002. Introduction to Comparative Politics
Comparative analysis of different kinds of political systems; their political institutions, processes and policies; the environments in which they occur and their consequences. GE Area: D2
Normal Grade Rules
GE: D2
3 units

POLS 003. Introduction to Political Thought
Thinking critically about the classic problems of politics; learning how to interpret, discuss and write about historical and contemporary political thought. GE Area: C2
Normal Grade Rules
GE: C2
3 units

POLS 004. Introduction to International Relations
Introductory survey of major topics in international relations, including global, national and individual causes of war and peace, international cooperation, north-south relations and political economy. GE Area: D3
Normal Grade Rules
GE: D3
3 units

POLS 015. Essentials of U.S. & California Government
Normal Grade Rules
GE: US1
3 units

POLS 020. Controversial Legal Issues
Basic concepts in critical thinking as demonstrated in legal reasoning and analysis of contemporary legal issues possibly including abortion, drug testing, offensive speech, affirmative action, gender and sexual preference discrimination, school prayer and pornography. GE Area: A3
Prerequisite: GE Areas A1 (Oral Communication) and A2 (Written Communication I) with grades of C- or better.
Normal Grade Rules
GE: A3
3 units

UPPER DIVISION

POLS 100W. Writing Workshop
Writing skills for majors in political science. Basic materials; research, memos and research reports, press releases, analyses of political/electoral behavior, political speeches. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR). Should be taken junior year.
Normal Grade Rules
GE: Z
3 units

POLS 101. American Government for Teachers
Introduction to the institutions and processes of American and California governments with emphasis on meeting CCTC Teacher Preparation Standards. Topics include U.S. Constitution, federalism, political participation, civil rights and liberties, Congress, the presidency.
Normal Grade Rules
3 units

POLS 102. State Government and Politics
This course examines the politics and institutions of U.S. state governments. The structure and powers of state legislatures, governors, and court systems are analyzed. The effect of states’ racial, ideological, and economic characteristics on public policy is also explored. American Institutions Requirement: US3
Notes: Satisfies American Institutions requirement in California government.
Normal Grade Rules
GE: US3
4 units

POLS 103. Local Government and Politics
Offers a theoretical and practical study of local politics and government. The structure, role, and functions of city and county governments are examined. Students gain knowledge of the resources and skills required for effective citizenship in their communities.
Normal Grade Rules
4 units

POLS 105. The Legislative Process
Examines politics and policymaking in the U.S. Congress. Topics include party leadership, interest groups in Congress, congressional committees, political representation, redistricting and congressional elections, party polarization, and the process of how a bill becomes law.
Normal Grade Rules
4 units

POLS 106. The United States Presidency
Examination of the American presidency. Topics include the historical emergence of the presidency as an institution, the formal and informal powers of the modern presidency, and the tension between the presidency and other federal institutions, most notably Congress.
Normal Grade Rules
4 units

POLS 107. Politics and Public Opinion
Examines the measurement and impact of public opinion on the democratic political process. The effects of socialization, media, and ideology on public opinion are explored, as well as the state of American public opinion on current political issues.
Normal Grade Rules
4 units

POLS 108. Political Participation
Explores various forms of political participation including voting, community engagement, and social change. Includes consideration of the roles that socialization, media, campaign and elections, and other social and technological factors play in shaping citizen participation.
Normal Grade Rules
4 units

POLS 109. Women and Politics
Examines social movement strategies and theories of gender and power employed by differently situated women. Includes critical examination of the relationship between sex and gender, and intersections of race, class, gender, law and nation.
Normal Grade Rules
4 units

POLS 110. Race and Politics
Examines race and politics in America by focusing on political participation and social movement strategies among minority groups. Explores theories of equality, diversity, and justice, and the changing legal relationship between states and citizens.
Normal Grade Rules
4 units

POLS 114. Introduction to Public Administration
Introduces students to the theories and practices of public administration. The administrative process is examined from political, legal, and managerial perspectives. Examination of administrative challenges and procedures at the national, state, and local levels of government.
Normal Grade Rules
4 units
POLS 120. Law and Society
Social and philosophical foundations of law and legal systems and development of legal institutions in various cultures. Anglo-American law and administration of justice in the U.S. emphasized. GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: S
3 units

POLS 121A. Constitutional Law: Institutional Powers
Examines the U.S. Supreme Court, its processes, and the role it plays in the American governing system. Examination of judicial policy making through cases on judicial review, separations of powers, federalism, commerce, and tax and treaty powers.
Normal Grade Rules
4 units

POLS 121B. Constitutional Law: Civil Liberties
Explores the constitutional basis for civil liberties in America. Application of methods of constitutional analysis to cases involving freedom of speech, religion, and the press. Examination of personal privacy rights including abortion, gun rights, and criminal procedures.
Normal Grade Rules
4 units

POLS 121C. Constitutional Law: Civil Rights
Explores the constitutional basis for civil liberties in America. Application of methods of constitutional analysis to cases involving freedom of speech, religion, and the press. Examination of personal privacy rights including abortion, gun rights, and criminal procedures.
Normal Grade Rules
4 units

POLS 122. Judicial Politics
Examines the effects of political forces on judicial behavior. Includes consideration of the roles of interest groups, public opinion, methods of selecting judges, and the importance of judges’ personal political beliefs, on judicial decisions.
Normal Grade Rules
4 units

POLS 124. Introduction to Environmental Law
See ENV 124.
Normal Grade Rules
3 units

POLS 130. American Public Policy
Introduces students to the public policy making process in the American governing system. The politics of agenda setting, policy formulation, and policy implementation are examined. Students learn to analyze and evaluate public policy outcomes.
Normal Grade Rules
4 units

POLS 135. U.S. Environmental Policy
Inquiry focuses on state of the environment, public attitudes toward the problem, interest groups involved in formulation of policy, the response of government leaders to the problem and what the future outlook is for addressing the agenda.
Normal Grade Rules
3 units

POLS 140. European Union
Surveys and analyzes the historical evolution, the institutions, as well as the process of policy making in the European Union. Examines key policy areas: agricultural, social, economic, environmental, and foreign policy.
Normal Grade Rules
4 units

POLS 141. Eurasian Politics
Political development in Russia and Soviet Successor States, with emphasis on democratization, privatization, and international relations with the European Union and the United States.
Normal Grade Rules
4 units

POLS 142. African Politics
Basic concepts, theoretical perspectives, and information to understand the evolution of contemporary African states. Begins with a study of colonialism, and proceeds to nationalism, personalized and military rule, development, democratization, and inter-state and civil war.
Normal Grade Rules
4 units

POLS 144. Middle Eastern Politics
Study of unfolding events in the Middle East. Themes include: the failure of democratic movements, nuclear proliferation and terrorism, US foreign policy towards the region, the Israel-Palestine conflict, urbanization, gender and human rights.
Normal Grade Rules
4 units

POLS 145. Asian Politics
Study of unfolding events in Asia. Themes include: the Asian economic ‘miracle,’ the implications of China’s rise for international security, nuclear proliferation and terrorism, and sustainability, specifically, energy, environment and human rights.
Normal Grade Rules
4 units

POLS 146. Latin American Politics
Survey of the political systems of Latin American countries. Places Latin American countries in a global perspective. Major themes include: civil-military relations, democratization, economic development, social movements, and foreign relations both within and outside Latin America.
Normal Grade Rules
4 units

POLS 147. Globalization
Considers the impact of economic and political globalization, focusing primarily on nations in Latin America, Asia and Africa. Issues include the effects of multinational production, migration, aid, international institutions and humanitarian intervention.
Normal Grade Rules
4 units

POLS 148. Nationalism and Comparative Political Cultures
Comparative analysis of the origins, nature, and impact of nationalism on the politics of Western and non-Western states. Students examine cases where nationalism resulted in conflict, and those in which it supports a stable nation-state. Completion of POLS 2, POLS 3 and POLS 4 highly recommended before enrolling.
Normal Grade Rules
4 units

POLS 150. War and Peace
Fundamental human questions about causes of war, definitions of peace and approaches toward achieving peace from perspectives of historical and contemporary thinkers, including philosophers, political leaders, military strategists and diplomats. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. Not counted as a core course in the international relations subfield.
Normal Grade Rules
4 units

POLS 152A. International Organizations and NGOs
Examines the structures and functions of different types of international organizations (such as the UN, NATO, regional organizations, and non-governmental organizations), and their role in maintaining international peace and security, promoting human rights and economic development, and protecting the environment.
Normal Grade Rules
4 units
POLS 152B. Model United Nations
Structure and operations of the United Nations explored and analyzed through participation in annual U.N. simulation.
Prerequisite: POLS 152A or instructor consent. Repeatable for credit
Credit / No Credit 3 units

POLS 154. U.S. Foreign Policy: Formulation and Administration
Consideration of the factors that shape American foreign policy making, including ideology, organization, as well as partisanship, interest groups, and public opinion. Issues considered include relations with the Middle East and Russia, and economic diplomacy.
Normal Grade Rules 4 units

POLS 155. The Wealth of Nations
This course examines how states, international and multinational bodies, and global social movements shape trade, financial, and labor relations. Topics include: international trade and protectionism, the International Monetary Fund and the World Bank, regional integration, and transnational corporations.
Normal Grade Rules 4 units

POLS 156. Islam, Politics and the West
See RELS 156
Normal Grade Rules 3 units

POLS 160A. Classical Political Thought
Critical examination of the foundations of Western political thought and the continuing influence of these foundations; sources chosen from among a variety of pre-Renaissance traditions and include writers such as Plato, Aristotle, Augustine and Aquinas.
Normal Grade Rules 3 units

POLS 160B. Modern Political Thought
The basis of the modern state and society as interpreted by political thought between (and including) the Renaissance and the French Revolution; this key period includes writers such as Machiavelli, Hobbes, Locke and Rousseau.
Normal Grade Rules 3 units

POLS 160C. Recent Political Thought
The roots of today’s politics in the ideas and writers of the nineteenth and twentieth centuries; sources drawn from a variety of recent traditions such as democratic theory, Marxism, political psychology and political sociology.
Normal Grade Rules 3 units

POLS 163. American Political Thought
Critical examination of the origins and development of American politics as seen through theorists, concepts and forces which have shaped American political consciousness.
Normal Grade Rules
Credit / No Credit 3 units

POLS 170V. American Politics in Global Perspective
A survey of U.S. and California political institutions and culture in comparison with political institutions and cultures outside the U.S. GE Area: V, as well as American Institutions Requirement: US2 and US3
Prerequisites: Completion of Core GE, satisfaction of writing skills test and upper division standing.
Normal Grade Rules
GE: USV 3 units

POLS 177. Political Psychology
Introduction to the interdisciplinary field of political psychology, with a focus on topics including personality and leadership, political cognition, social identity, emotions and attitudes, voting and political behavior, racism and ethnocentrism, ethnic conflict and genocide, nationalism, terrorism, and conflict resolution.
Prerequisite: POLS 001 (or other US2-3), PSYC 001, or instructor consent
Normal Grade Rules 4 units

POLS 180. Individual Studies
Individual study for advanced work in areas where no courses are offered.
Prerequisite: Appropriate courses, instructor consent and department chair consent.
Repeatable for credit
Credit / No Credit 1-4 units

POLS 181. Internships
Offers students the opportunity to connect knowledge of politics, government, and policy making learned in the classroom to real life application through internships with elected officials, non-profit organizations, government agencies, or political campaigns.
Prerequisite: POLS 100W and instructor consent
Credit / No Credit 1-3 units

POLS 184. Directed Reading
Program of reading and writing created through student/faculty consultation in areas not covered by other courses. Course is not repeatable for credit.
Prerequisite: Appropriate courses, instructor consent and department chair consent.
Normal Grade Rules 1-4 units

POLS 190. Senior Seminar
Capstone course that serves as culminating experience for the political science major. Seminar class with significant participation required. Specific course topics vary each semester.
Prerequisite: POLS 100W or instructor consent. Repeatable for credit
Normal Grade Rules 4 units

POLS 190H. Honors Thesis
Preparation and writing of an original project.
Prerequisite: Senior standing. 3.2 GPA and instructor consent.
Normal Grade Rules 1 unit

POLS 195A. Political Inquiry
Introduction to the scope and methods of political science. Beginning with research design, measurement, and ethical considerations, and including a variety of research methods including surveys, experiments, interviews, fieldwork, content analysis, and an introduction to quantitative and qualitative analysis.
Notes: Should be taken junior year.
Normal Grade Rules 4 units

POLS 195B. Applied Research Methods
Applied research methods in the social sciences, with a focus on quantitative analysis. Students will develop an understanding of survey methods, descriptive statistics and statistical inference, and learn to investigate relationships between two or more variables.
Prerequisite: POLS195A or instructor permission
Normal Grade Rules 4 units

POLS 199. Current Political Issues
Major political issues of the day. Topics vary each semester. Course is repeatable for credit with instructor consent.
Repeatable for credit
Normal Grade Rules 1-3 units

PUBLIC ADMINISTRATION

GRADUATE

PADM 202. Regional Governance
An exploration of current theories, practices, issues and problems in the governance of urban regions in the United States.
Prerequisite: POLS 001, PADM 210.
Normal Grade Rules 3 units
**PADM 210. Introduction to Public Administration**  
A broad overview of public administration, including policy analysis, budgeting, personnel, organization, leadership, decision-making and ethics in a political environment. Examination of the theory and application of public management practices at all levels of government.  
Note: This course satisfies graduate-level GWAR in this master’s program.  
Prerequisite: Statistics.  
Normal Grade Rules

**PADM 211. Administrative Research Methods**  
The study and application of principles and methods of social science research and evaluation in a public administration context. Emphasis on learning research designs and using statistics and computers.  
Prerequisite: Statistics.  
3 units

**PADM 212. Administrative Research Methods**  
The study and application of principles and methods of social science research and evaluation in a public administration context. Emphasis on learning research designs and using statistics and computers.  
Prerequisite: Statistics.  
3 units

**PADM 213. Policy Analysis and Evaluation**  
An examination of the application of analytical and administrative tools to solving public problems. Study of the processes of policy formulation and the research and political tools necessary to assess program effectiveness.  
Prerequisite: Statistics.  
Normal Grade Rules

**PADM 214. Introduction to Public Management**  
A study of current principles and practices of effectively managing public service organizations. Emphasis on critical thinking, project management, and implementation processes.  
Prerequisite: Statistics.  
Normal Grade Rules

**PADM 215. Public Personnel Administration**  
An overview of personnel management in a political environment and its role in maintaining a democratic society. Methods and problems of job analysis, compensation, staffing, EEO, evaluation, training and union relations.  
Prerequisite: PADM 210.  
Normal Grade Rules

**PADM 217. Organizational Theory**  
Analysis and application of theories about organizations, including organizational goals, structures, authority, leadership, decision patterns and communications. Emphasis on methods of change and differences between the public and private sectors.  
Prerequisite: PADM 210.  
Normal Grade Rules

**PADM 218. Public Budgeting**  
A study of current theory, techniques and practice of public budgeting for political decision-making, planning and management. Focus on executive and legislative budget processes, reform efforts, public choice analysis, financial processes and the role of accounting.  
Prerequisite: PADM 210; ECON 1A (or equivalent).  
Normal Grade Rules

**PADM 219. Public Financial Administration**  
An overview of public financial administration, including microeconomic concepts and techniques, tax theory and policy, user charges, inter-governmental transfers, debt administration and risk management in a political environment.  
Prerequisite: PADM 218.  
Normal Grade Rules

**PADM 220. Non-Profit Management**  
Focuses primarily on internal nonprofit management issues in the U.S. context; course exposes students to core and emerging theories for a range of topics related to nonprofit management, including leadership, governance, accountability, performance management, resource development and financial management.  
Prerequisite: PADM 210, PADM 218  
Normal Grade Rules

**PADM 222. Law and Public Administration**  
An overview of legal and political processes affecting relationships among the public, government institutions, administrative agencies and the courts. Focus on major cases related to administrative agency use of rules and orders to implement public policy.  
Prerequisite: POLS 001 and PADM 210  
Normal Grade Rules

**PADM 223. Policy Analysis and Evaluation**  
An examination of the application of analytical and administrative tools to solving public problems. Study of the processes of policy formulation and the research and political tools necessary to assess program effectiveness.  
Prerequisite: Statistics.  
Normal Grade Rules

**PADM 224. Directed Reading**  
Program of reading and writing created through student/faculty consultation in areas not covered by other courses. Repeatable for credit for a maximum of 6 units.  
Prerequisite: Appropriate courses, instructor consent and department chair consent.  
Repeatable for credit  
Normal Grade Rules

**PADM 259. Topics in Public Administration**  
An exploration of current theories, problems and techniques in a selected major topic of current importance in public administration.  
Repeatable for credit  
Normal Grade Rules

**PADM 279. Advanced Seminar in Public Management**  
This course serves as the “capstone” of the MPA program. It uses an analysis of real world cases to relate principles and theories of public administration to concrete, real world problems. The individual subject papers dealing with the main class topic that earn a grade of A- or better will be published as an electronic journal. The culminating project for this class is the approved prospectus for the PADM 298 project.  
Prerequisite: Classified standing.  
Normal Grade Rules

**PADM 298. Special Problems**  
Advanced individual research and projects.  
Prerequisite: PADM 210, 212, 213, 214 and 218; instructor consent; consent of the chair.  
Mandatory CR/NC/RP

**PADM 299. Master’s Thesis**  
Independent research conducted under the supervision of a permanent faculty member and two other qualified persons. Emphasis on applying administrative concepts and analytical skills to actual problems of policy and administration in the public sector.  
Note: Repeatable once for credit.  
Repeatable for credit  
Mandatory CR/NC/RP

**PADM 299. Master’s Thesis**  
Independent research conducted under the supervision of a permanent faculty member and two other qualified persons. Emphasis on applying administrative concepts and analytical skills to actual problems of policy and administration in the public sector.  
Note: Repeatable once for credit.  
Repeatable for credit  
Mandatory CR/NC/RP

**PADM 299. Master’s Thesis**  
Independent research conducted under the supervision of a permanent faculty member and two other qualified persons. Emphasis on applying administrative concepts and analytical skills to actual problems of policy and administration in the public sector.  
Note: Repeatable once for credit.  
Repeatable for credit  
Mandatory CR/NC/RP

**PADM 299. Master’s Thesis**  
Independent research conducted under the supervision of a permanent faculty member and two other qualified persons. Emphasis on applying administrative concepts and analytical skills to actual problems of policy and administration in the public sector.  
Note: Repeatable once for credit.  
Repeatable for credit  
Mandatory CR/NC/RP

**PADM 299. Master’s Thesis**  
Independent research conducted under the supervision of a permanent faculty member and two other qualified persons. Emphasis on applying administrative concepts and analytical skills to actual problems of policy and administration in the public sector.  
Note: Repeatable once for credit.  
Repeatable for credit  
Mandatory CR/NC/RP

**PADM 299. Master’s Thesis**  
Independent research conducted under the supervision of a permanent faculty member and two other qualified persons. Emphasis on applying administrative concepts and analytical skills to actual problems of policy and administration in the public sector.  
Note: Repeatable once for credit.  
Repeatable for credit  
Mandatory CR/NC/RP
Psychology Department Courses

PSYCHOLOGY

LOWER DIVISION

PSYC 001. Introduction to Psychology
Psychology is the scientific study of behavior and mental processes. The content focuses on the exploration of major psychological theories and concepts, methods, and research findings in psychology. Topics include the biological bases of behavior, perception, cognition and consciousness, learning, memory, emotion, motivation, development, personality, social psychology, psychological disorders and therapeutic approaches to treatment, and applied psychology. GE Area: D1
Normal Grade Rules
GE D1
3 units

PSYC 002Q. Identity Development and Prejudice
This seminar is designed to facilitate the transition to higher education smoothly with a view to an increased understanding of one’s cultural identity, and exploring mechanisms and consequences of prejudice and discrimination in American cultural groups. GE Area: E
Prerequisite: First term freshmen only.
Note: All courses with a ‘Q’ suffix are designated as First Year Experience courses.
Normal Grade Rules
GE EE
3 units

PSYC 018. Introduction to Research Methods
Psychological research methods and design (experimental, quasi-experimental [correlational], and descriptive investigations) covering observation, instrumentation, and the collection, analysis, interpretation, and reporting of research data as illustrated through a review of original research in a variety of the subdisciplines of psychology.
Prerequisite: PSYC 001, and STAT 95.
Normal Grade Rules
3 units

PSYC 030. Introductory Psychobiology
Biological approaches to understanding behavior: evolution, genetic, neural and hormonal influences on normal and abnormal behavior.
Prerequisite: BIOL 021 or BIOL 065.
Normal Grade Rules
3 units

PSYC 082. Foundations of Developmental Psychology
Psychological development of children from conception to adolescence.
Normal Grade Rules
3 units

PSYC 096C. Introduction to Cognitive Science
Focuses on the study of the mind and the nature of intelligence from interdisciplinary perspectives including computer science, philosophy, mathematics, psychology, neuroscience, and other disciplines. Specific topical coverage includes language acquisition, history of computer-based approaches to artificial intelligence and expertise, human learning, neuroscience, and mathematical, logical, and computational approaches to modeling cognitive process.
Normal Grade Rules
3 units

UPPER DIVISION

PSYC 100W. Writing Workshop
Practice in improvement of writing skills appropriate to the broad field of psychology, including essays, reports and scholarly communication. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing. Psychology Majors/Minors and Behavioral Science Majors only.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE Z
3 units

PSYC 102. Psychology of Childhood
Psychological development of children from conception to middle childhood emphasizing normative (typical) development in the context of cognitive, socioemotional, biological, and cultural processes.
Prerequisite: PSYC 001.
Normal Grade Rules
3 units

PSYC 105. Special Topics in Developmental Psychology
Intensive examination of current research and theory in a specialized area of developmental psychology. Course is repeatable for credit when course content changes.
Prerequisite: PSYC 102 (or equivalent).
Repeatable for credit
Normal Grade Rules
3 units

PSYC 107. Psychology of Women
Sex-role development of women in terms of bio-social factors involved in intellectual and personal-emotional functions. Psychological theory and research.
Prerequisite: PSYC 001.
Normal Grade Rules
3 units

PSYC 110. Adult Psychopathology
Prerequisite: PSYC 001.
Normal Grade Rules
3 units

PSYC 112. Psychology of Adolescence
Psychological development of adolescents and young (emerging) adults emphasizing normative (typical) development in the context of cognitive, socioemotional, biological, and cultural processes.
Prerequisite: PSYC 001.
Normal Grade Rules
3 units

PSYC 114. Psychology of Aging
Psychological development of middle-aged and older adults emphasizing normative (typical) development in the context of cognitive, socioemotional, biological, and cultural processes. Course content also includes age-related health problems and their prevention.
Prerequisite: PSYC 001.
Normal Grade Rules
3 units

PSYC 117. Psychological Tests and Measures
Test and questionnaire construction, evaluation and interpretation applied to intelligence and ability tests, personality and adjustment questionnaires, ratings and behavioral observation techniques.
Prerequisite: STAT 095.
Normal Grade Rules
3 units

PSYC 120. Advanced Research Methods and Design
Descriptive, correlational, quasi-experimental, and experimental approaches: design, methodology, and analysis. Experience designing, conducting, analyzing, and presenting (oral and written) research findings. Topics will include hypothesis testing, validity, reliability, scales of measurement, questionnaire development, power, statistical significance, and effect size.
Prerequisite: lower division GE complete; STAT 95; PSYC 100W with ‘C’ or better (or department approval);
Upper Division; Psychology or Behavioral Science Major
Misc/Lab: Lecture 3 hours/activity 2 hours.
Normal Grade Rules
4 units
PSYC 121A. Advanced Research Methods
Social/Personality Laboratory
Advanced treatment of research approaches used in Social and Personality. The focus for this course is shared between traditional laboratory and fieldwork experimental designs and methods. Data collection and statistical data analysis facilitate experiential learning.
Prerequisite: PSYC 001, STAT 095, PSYC 100W, plus either: PSYC 139 or PSYC 154.
Pre/Corequisite: PSYC 120 must be taken either before, or concurrently with, this course.
Misc/Lab: Lecture 1 hour/lab 3 hours.
ABC/No Credit
2 units

PSYC 121B. Advanced Research Methods:
Cognition/Perception Laboratory
Advanced treatment of research approaches used in Cognition and/or Perception. The primary focus of the course is on traditional laboratory experimental designs and methods. Laboratory-based data collection and analysis facilitate experiential learning.
Prerequisite: PSYC 001 STAT 095, PSYC 100W, plus any one of: PSYC 135, PSYC 155, or PSYC 158.
Pre/Corequisite: PSYC 120 must be taken either before, or concurrently with, this course.
Misc/Lab: Lecture 1 hour/lab 3 hours.
Normal Grade Rules
2 units

PSYC 121C. Advanced Research Methods:
Clinical Laboratory
Advanced treatment of research approaches used in clinical research. The primary focus of the course is on traditional field and laboratory research methodologies. Data collection and statistical data analysis facilitate experiential learning.
Prerequisites: PSYC 001, STAT 095, PSYC 100W, PSYC 110.
Pre/Corequisite: PSYC 120 must be taken either before, or concurrently with, this course.
Misc/Lab: Lecture 1 hour/lab 3 hours.
Normal Grade Rules
2 units

PSYC 121E. Advanced Research Methods:
Psychophysiology Lab
This course is an intensive experiential introduction to applied laboratory work in human psychophysiology and hormonal influences on human behavior. Focus on experimental methodology, data analysis, and laboratory technique.
Prerequisites: PSYC 030, PSYC 100W.
Pre/Corequisite: PSYC 120 must be taken either before, or concurrently with, this course.
Misc/Lab: Lecture 1 hour/Lab 3 hours.
Normal Grade Rules
2 units

PSYC 126. Drugs, Brain and Behavior
Survey of psychoactive drugs, including prescription and street drugs; social, behavioral and physiological effects of drugs; neural mechanisms of drug action; history of drug use.
Prerequisite: PSYC 030 or 3 units of biology
Normal Grade Rules
3 units

PSYC 129. Neuroscience
Principles of brain organization and function underlying behavior. Topics include neuroanatomy and physiology of language, vision, sexual behavior, memory and abnormal behavior.
Prerequisite: Either PSYC 030 and 3 units of biology, or 9 units of biology.
Notes: Not acceptable as an elective in the Biology major.
Normal Grade Rules
3 units

PSYC 135. Cognition
The activity of knowing: acquisition, organization and use of knowledge. Processes involved in that activity, including perception, memory, thinking and language.
Prerequisite: PSYC 001.
Normal Grade Rules
3 units

PSYC 139. Psychology of Personality
Current approaches to the study of personality and personality processes.
Prerequisite: PSYC 001.
Normal Grade Rules
3 units

PSYC 142. Child Psychopathology
Prerequisite: PSYC 001.
Normal Grade Rules
3 units

PSYC 145. Community Mental Health
See HS 145.
Normal Grade Rules
3 units

PSYC 145. Community Mental Health
See HS 145.
Normal Grade Rules
3 units

PSYC 150. Educational Psychology
Development of individuals and how they learn. Intelligence, emotions, interests, social relations as related to development and learning.
Prerequisite: PSYC 001.
Notes: No credit for those who have taken EDSC 173.
Normal Grade Rules
3 units

PSYC 153. Psychology in the Courtroom
Role of psychology in the legal system: legal procedure and adversary system, jury selection, jury decision-making, eyewitness testimony, mental health law, criminal responsibility and legal insanity, expert psychological testimony, role of forensic psychologists.
Prerequisite: PSYC 001.
Normal Grade Rules
3 units

PSYC 154. Social Psychology
Theories, problems and issues in the study of human social behavior.
Prerequisite: PSYC 001.
Normal Grade Rules
3 units

PSYC 155. Human Learning
Memory, forgetting, concept formation, language learning, reinforcement and related topics. Traditional learning theories and findings with reference to contemporary classroom management, behavior modification and other applications.
Prerequisite: PSYC 001.
Normal Grade Rules
3 units

PSYC 157. Psychology of Motivation
Empirical findings and theoretical developments in motivation in relationship to concepts of need, arousal, drive and emotion.
Prerequisite: PSYC 001.
Normal Grade Rules
3 units

PSYC 158. Perception
Empirical and theoretical approaches to the psychology of perception with an emphasis on vision. Topics include the perception of form, color, depth and motion as well as the effects of attention and experience.
Prerequisite: PSYC 001.
Normal Grade Rules
3 units

PSYC 160. Clinical Psychology
Survey of clinical psychology as a profession. Emphasis placed on training models, specializations within the field, the scientific study of psychological interventions, and the graduate school admissions process for masters and doctoral level psychotherapists.
Prerequisite: PSYC 001.
Normal Grade Rules
3 units

PSYC 165. Theory and Methods of Counseling
A survey of theories focused on helping and behavior change. Course covers both historical and contemporary psychotherapeutic interventions found in clinical and counseling psychology and evidence based practice approaches in psychotherapy.
Prerequisite: PSYC 001.
Normal Grade Rules
3 units
PSYC 167. Sports Psychology  
See KIN 167  
Normal Grade Rules  
3 units

PSYC 170. Industrial and Organizational Psychology  
Application of psychological theory, research and methodology to the work environment. Topics covered include leadership, power, group processes, motivation, satisfaction and issues in personnel psychology.  
Prerequisite: PSYC 001  
Normal Grade Rules  
3 units

PSYC 173. Human Factors  
Human psychology and physiological characteristics and methods for taking these into account in designs and development of human-machine systems. Current human factor engineering efforts in lab, design process and operational environment.  
Prerequisite: PSYC 001  
Normal Grade Rules  
3 units

PSYC 175. Management Psychology  
Theory and practice of psychology in organizations and management. Topics include learning, motivation, perception, attitudes, personality, stress, groups, culture, careers, communication, leadership, politics, conflict, cooperation, decision-making and organizational change.  
Prerequisite: PSYC 001  
Normal Grade Rules  
3 units

PSYC 177. Political Psychology  
See POLS 177.  
Normal Grade Rules  
4 units

PSYC 180. Individual Studies  
Research project in psychology.  
Prerequisite: 12 units of psychology and instructor and department chair consent.  
Repeatable for credit  
Credit / No Credit  
1-4 units

PSYC 184. Directed Reading  
Directed reading on a specific psychological topic.  
Prerequisite: 12 units of psychology and instructor and department chair consent.  
Repeatable for credit  
Credit / No Credit  
1-4 units

PSYC 186. Psychology Field Work  
Supervised field work in a selected area of psychology. Course is repeatable for 4 unit maximum.  
Prerequisite: Instructor and department chair consent.  
Repeatable for credit  
Credit / No Credit  
1-4 units

PSYC 190. Current Issues Capstone  
Integrative survey of current viewpoints and issues in psychology, how they developed and likely future directions of psychology.  
Prerequisite: PSYC 100W and senior standing.  
Pre/Corequisite: PSYC 120  
Normal Grade Rules  
3 units

PSYC 191. The Psychology of Prejudice  
Provides an examination of psychological theory and research related to prejudice and discrimination from the perspectives of both the holders and targets of prejudice. Includes individual and small group exercises to provide experiential learning. CE Area: S  
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.  
Normal Grade Rules  
CE: S  
3 units

PSYC 193. Behavioral Science in Practice  
See ANTH 193.  
Normal Grade Rules  
3 units

PSYC 195. Honors Seminar in Psychology  
Intensive examination of background and current status of student-selected problems.  
Prerequisite: At least 18 units of PSYC or STAT with a GPA of at least 3.5; PSYC 120A, and senior standing.  
Notes: Enrollment limited to qualified students.  
Normal Grade Rules  
3 units

PSYC 199. Senior Honors Thesis  
Supervised thesis open only to exceptional senior psychology majors.  
Prerequisite: Senior or graduate standing and instructor consent.  
Mandatory CR/NC/RP  
3 units

PSYC 200. Seminar in Personality Theory  
A survey of contemporary approaches to personality study.  
Prerequisite: PSYC 139 (or equivalent) plus a total of nine semester hours of upper division psychology courses.  
Normal Grade Rules  
3 units

PSYC 203A. Clinical Assessment I  
An in-depth introduction to objective, projective and behavioral assessment techniques used in the clinical evaluation of the behavior and functioning of adults, children and families.  
Prerequisite: PSYC 117 (or equivalent).  
Notes: MS program priority. This course satisfies graduate-level GWAR in this master's program.  
Normal Grade Rules  
CE: GWAR  
3 units

PSYC 204. Seminar in Developmental Psychology  
An examination of significant theories, perspectives, and research in developmental psychology.  
Prerequisite: PSYC 102 (or equivalent).  
Normal Grade Rules  
3 units

PSYC 208. Family Assessment and Intervention  
An interdisciplinary exploration of how therapists can analyze and change interpersonal dynamics in couples and families.  
Normal Grade Rules  
3 units

PSYC 209. Psychology of Contemporary Families  
An overview of current family issues faced by psychotherapists in clinical settings. Emphasis will be placed on identification and conceptualization of these issues from a psychological perspective, stressing integration of issues into clinical practice. MS Clinical program priority.  
Prerequisite: PSYC 208.  
Normal Grade Rules  
3 units

PSYC 210. Advanced Psychopathology  
Advanced course to provide knowledge and experience in the classification and treatment of disorders of childhood, adolescence and adulthood as they are identified in schools, family interactions and worksite settings. Critical review of research related to the evaluation of treatment strategies.  
Prerequisite: PSYC 110.  
Notes: MS program priority.  
Normal Grade Rules  
3 units

PSYC 211. Child Psychopathology  
An overview on the nature, assessment and treatment of Child Psychopathology. Emphasis will be placed on understanding DSM-IV diagnoses from a developmental perspective. Objective methods of assessment and empirically supported treatments will be covered.  
Normal Grade Rules  
3 units
PSYC 212. Life Span Development
Psychological, biological and social development throughout the life cycle. Interdisciplinary lecture course includes infancy, childhood, adolescence, young adulthood, middle age and old age. Topics include theories, research, influences, changes, problems and patterns of human development.
Notes: MS program priority.
Normal Grade Rules
3 units

PSYC 219. HCI for Cyber Security
See ISE 219.
Normal Grade Rules
3 units

PSYC 220. Seminar in Experimental Psychology
Applications of experimental method to current problems in psychology. Individual design and experimental work required.
Prerequisite: PSYC 120A.
Normal Grade Rules
3 units

PSYC 222. Gender and Ethnic Issues in Counseling and Therapy
Theoretical and practical understanding of gender and ethnic issues in clinical practice, including issues arising from differing socialization, psychological structures, values and cultural assumptions that may affect therapeutic intervention within individuals, couples and families.
Notes: MS program priority.
Normal Grade Rules
3 units

PSYC 223B. Clinical Psychology Theory I
Application of clinical theory to the treatment of behavioral problems of individuals and families.
Prerequisite: PSYC 223A.
Corequisite: PSYC 224B.
Notes: MS program priority.
Normal Grade Rules
3 units

PSYC 224A. Clinical Psychology Practicum I
Supervised experience in the treatment of behavioral and emotional problems of individuals and families.
Prerequisite: Same as PSYC 223A.
Corequisite: PSYC 223A.
Notes: MS program priority.
Normal Grade Rules
3 units

PSYC 224B. Clinical Psychology Practicum II
Advanced supervision in the treatment of behavioral and emotional problems of individuals and families.
Prerequisite: Same as PSYC 224A.
Corequisite: PSYC 223B.
Notes: MS program priority.
Normal Grade Rules
3 units

PSYC 225. Advanced Group Dynamics
Advanced study of the dynamics of small group interaction. Limited supervised training in group facilitation techniques.
Prerequisite: PSYC 125 (or equivalent).
Notes: MS program priority.
Normal Grade Rules
3 units

PSYC 226. Addictions and Treatment
Advanced course in assessment, diagnosis, and treatment, and prevention of substance abuse and dependence and co-occurring disorders in multiple settings. Critical review of research related to the evaluation of treatment strategies is provided from recovery models, family, and individual perspectives.
Prerequisite: PSYC 203A & graduate standing in MS psychology program
Normal Grade Rules
3 units

PSYC 228. Professional Ethics for Psychologists
Consideration of ethical and legal issues related to the professional application of psychology. Designed particularly for students involved in field work.
Notes: MS program priority.
Normal Grade Rules
3 units

PSYC 230. Seminar in Physiological Psychology
An advanced consideration of the neurophysiological correlates of behavior.
Prerequisite: PSYC 129 (or equivalent).
Normal Grade Rules
3 units

PSYC 232. Clinical Psychopharmacology
Prepares counseling professionals to understand aspects of drug use, mechanisms of change and clinical outcomes.
Prerequisite: PSYC 126 or equivalent.
Normal Grade Rules
3 units

PSYC 235. Seminar in Cognitive Psychology
Theories and current research in cognitive psychology with emphasis on components of cognitive processing from pattern recognition to problem solving. Substantial emphasis on cognitive development and mechanisms of cognitive change.
Prerequisite: Graduate standing.
Normal Grade Rules
3 units

PSYC 240. Research Design and Applied Psychometrics
Advanced introduction to issues in psychological research (experimental, quasi-experimental and survey research), measurement and test construction (item analysis, test reliability and validity and development of norms).
Prerequisite: PSYC 117, STAT 115 or instructor consent.
Normal Grade Rules
3 units

PSYC 243. Field Work in Psychology
Supervised field work experience in outside agency settings. Open through consultation only to students in MS programs.
Repeatable for credit
Credit / No Credit
1-6 units

PSYC 249. Field Work in Industrial/Organizational Psychology
Supervised experience applying psychological and organizational theory and practice in business, industrial and other organizational settings.
Prerequisite: Instructor consent.
Repeatable for credit
Credit / No Credit
1-6 units

PSYC 254. Social Psychology Seminar
Theoretical and practical approaches to the understanding of human behavior within a social context.
Prerequisite: PSYC 154 (or equivalent).
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
CE: GWAR
3 units

PSYC 256. Seminar in Perception
Selected issues in visual sensation and perception. Topics include the perception of color, form, depth and motion. Emphasis on the relationship of perception to sensory physiology.
Prerequisite: PSYC 158 (or equivalent).
Normal Grade Rules
3 units

PSYC 258. Methods of Psychotherapy
Survey of the theoretical background and practical application of various approaches to psychotherapy.
Prerequisite: PSYC 139.
Notes: MS program priority.
Normal Grade Rules
3 units

PSYC 260. Crisis and Trauma Counseling
Advanced course on trauma including strategies for assessing, managing, short and long term - treatment for acute and chronic stress reactions. Empirically supported risk and protective factors, and evidence-based treatments are covered. Resilience, personal, multidisciplinary, and community perspectives are emphasized.
Prerequisite: PSYC 203A and Graduate Standing in MS Psychology program
Normal Grade Rules
3 units
PSYC 270. Seminar in Industrial and Organizational Psychology
Psychological theory, research and practice in organizations. Topics emphasized include motivation, job satisfaction, communication, leadership, group processes, decision-making, conflict, cooperation, power and organization development and change.
Prerequisite: Instructor consent.
Notes: MS I/O program priority. This course satisfies graduate-level GWAR in this master's program.
Normal Grade Rules
CE: GWAR
3 units

PSYC 271. Seminar in Personnel Psychology
In-depth introduction to relevant methodology, research, applications and issues. Topics include legal issues in personnel, test validation, selection, job analysis, performance appraisal and training and development.
Prerequisite: Instructor consent.
Notes: MS I/O program priority.
Normal Grade Rules
3 units

PSYC 272. Training and Development in Organizations
Course will address 'classic', current, and future issues in training and development. Topics covered include theories of learning, needs assessment, training methodology, program evaluation, management development, and trends that may influence future training and development programs.
Prerequisite: Instructor consent.
Notes: MS I/O program priority.
Normal Grade Rules
3 units

PSYC 273. Seminar in Human Factors
Data and theory of sensory and cognitive psychology and their application to the design of systems used by humans.
Prerequisite: PSYC 135 and PSYC 158 (or equivalent).
Normal Grade Rules
3 units

PSYC 275. Professional Issues in I/O Psychology
Address topics and issues faced by I/O psychologists working within organizational settings. Review and analysis of research regarding the application of psychological theory, concepts, and research methodologies. Evaluation and discussion of early career-related ethical issues and professional challenges and strategies.
Prerequisite: Psyc 270 and graduate standing in MS I/O Psychology program
Repeatable for credit
Normal Grade Rules
3 units

PSYC 276. Groups at Work
Group process and performance, types of work groups and tasks, group development (norms, roles and strategies), group leadership approaches and skills, decision-making, team building, high performing and self-managing teams.
Prerequisite: Instructor consent.
Normal Grade Rules
3 units

PSYC 280. General Seminar
Current psychological literature in selected fields and the development of a specific topic by the student.
Prerequisite: Undergraduate major in psychology (or equivalent).
Note: This course satisfies graduate-level GWAR in this master's program.
Normal Grade Rules
CE: GWAR
3 units

PSYC 291. Method and Design for Applied Research
Development and management of applied research programs based on contributions of psychological research and methodology. Criticizing existing and proposed research. Reporting and communicating research results.
Prerequisite: PSYC 18 or PSYC 120A; STAT 95 and STAT 115.
Notes: MS program priority.
Normal Grade Rules
3 units

PSYC 293. Organizational Development
Theory and practice of organization development, including systems thinking; action research; organization assessment and diagnosis; survey development and feedback; individual, group, inter-group and organization-wide interventions; consultant roles; and ethics of practice in organizations.
Prerequisite: Instructor consent.
Normal Grade Rules
3 units

PSYC 295. Substance Abuse, Human Sexuality, and Life-Span Issues for Therapists
An examination of current issues in marriage and family therapy related to substance use, sexual issues, and development across the lifespan. Course will cover theories and contemporary issues in these areas with an emphasis on application in treatment.
Normal Grade Rules
3 units

PSYC 299. Special Problems
Advanced work in areas not covered in any regular course offering. Course is repeatable for a maximum of four units.
Prerequisite: Instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

PSYC 299R. Culminating Experience Supervision
Continued work on thesis or project unless concurrently enrolled in another SJSU course.
Prerequisite: Outstanding RP grade in a preceding semester in a project or thesis class.
Note: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit

STATISTICS

LOWER DIVISION

STAT 095. Elementary Statistics
Statistical analysis and descriptive and inferential statistics, central tendency, variability, probability and sampling distributions, graphic representation, correlation and regression, t-tests, and analysis of variance. Computer use in analysis and interpretation. GE Area: B4
Prerequisite: Math Enrollment Category M-I or M-II, or completion of a GE Area B4 course with a grade of C- or better.
Notes: Intended for Psychology majors and minors as well as for programs in Behavioral Science, Child Development, Education, Health Science, Nursing, Nutritional Science, Social Science, and Social Work.
Normal Grade Rules
GE: B4
3 units

UPPER DIVISION

STAT 115. Intermediate Statistics
Statistical analysis at the intermediate level; chi-square, analysis of variance, correlation and regression, and topics in experimental design; use of microcomputers for statistical calculations.
Prerequisite: STAT 95 (or equivalent).
Notes: Intended for majors in education, nursing, personnel administration, psychology, social service and sociology, and psychology minors.
Normal Grade Rules
3 units
GRADUATE

STAT 235. Multivariate Analysis
Multivariate techniques for analyzing social science data with emphasis on multiple regression, multivariate analysis of variance, factor analysis, discriminant analysis and canonical correlation.
Prerequisite: STAT 115 or instructor consent.
Normal Grade Rules
3 units

STAT 245. Advanced Statistics
Advanced problems in statistical analysis. Advanced consideration of hypothesis testing, estimation and analysis of variance.
Prerequisite: STAT 115 or instructor consent.
Normal Grade Rules
3 units
School of Social Work Courses

GERONTOLOGY

LOWER DIVISION

GERO 099. Death, Dying and Religions
See RELS 099
Normal Grade Rules
GE: EE
3 units

UPPER DIVISION

GERO 107. Aging and Society
Social, psychological and physiological aging processes. Implications of aging for individuals and societies, with emphasis on issues related to diversity, equality and gender in the U.S. GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: S
3 units

GERO 108. Health in Later Life
Normal age-related health changes and common illnesses in later life. Health status, behavior and attitudes of older adults. The continuum of health care services. Professional and ethical issues in service delivery.
Prerequisite: College biological sciences course.
Normal Grade Rules
3 units

GERO 110. Medical Ethics
See PHIL 111
Normal Grade Rules
3 units

GERO 114. Psychology of Aging
See PSYC 114
Normal Grade Rules
3 units

GERO 116. Aging and Nutrition
See NUFS 116
Normal Grade Rules
3 units

GERO 117. Social Policy and Services in Aging
Social policy on aging from a historical perspective. Implications for service to the elderly. Indicators for future program projections.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

GERO 118. Long Term Care Services
History and organization of the continuum of long term care for U.S. families, financing and regulatory policies, and factors influencing the quality of care. Professional and ethical issues facing long term care providers.
Prerequisite: GERO 107 or HS 162.
Normal Grade Rules
3 units

GERO 122. Women in the Second Half of Life
The roles and problems of the older woman in a changing society. Societal attitudes, stereotypes, employment and interaction patterns. Opportunity for focus on specific areas of interest.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

GERO 127. Aging and Mental Health
Prerequisite: PSYC 1 (or equivalent).
Normal Grade Rules
3 units

GERO 133. Gerontology Field Work
Supervised work experience in an organization providing services to older adults. Short-term projects, observation of organizational dynamics and individual skills development.
Prerequisite: Completion of 9 units in gerontology.
Repeatable for credit
Credit / No Credit
3 units

GERO 137. Families, Aging, and Diversity
Family relationships of older adults in diverse U.S. ethnic groups. Current patterns of family and formal assistance to elders with disabilities. Critical analysis of eldercare policies and services.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

GERO 156. Independent Living for the Aging and Disabled
See OCTH 156
Normal Grade Rules
3 units

GERO 166. Medical Sociology
See SOCI 166
Normal Grade Rules
3 units

GERO 180. Individual Studies
Individual work on special topics in gerontology by arrangement.
Prerequisite: Coordinator approval and upper division standing.
Repeatable for credit
Credit / No Credit
1-4 units

GERO 185. Leisure, Recreation and Aging
See RECL 185
Normal Grade Rules
3 units

GRADUATE

GERO 251. Social Work with Aging Populations
See SCWK 251.
Normal Grade Rules
3 units

GERO 260. Multidisciplinary Health Promotion in Later Life
See NUFS 260
Normal Grade Rules
3 units

GERO 265. Seminar in Cognitive Disorders
See EDSP 265
Normal Grade Rules
3 units

GERO 268. Lifespan Development
See EDCO 268
Normal Grade Rules
3 units

GERO 298. Special Project
Supervised research in the field of gerontology to be taken only with approval of the program coordinator.
Mandatory CR/NC/RP
3 units

GERO 299. Master's Thesis or Project
Supervised individual research in gerontology. Preparation for doctoral level study.
Prerequisite: Admission to candidacy for the master’s degree and instructor consent.
Repeatable for credit
Mandatory CR/NC/RP
3-6 units
SOCIAL WORK

LOWER DIVISION

SCWK 010. Introduction to Social Welfare and Social Work
Social welfare institutions and the social work profession: its development, knowledge base, value system and specific areas of direct practice.
Normal Grade Rules
3 units

SCWK 100W. Writing Workshop
This course focuses on developing and enhancing writing and presentation skills vital to the social work profession in the following areas: research, grant writing, clinical documentation, and administration. GE Area: Z
Prerequisites: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE Z
3 units

SCWK 107. Aging and Society
See GERO 107.
Normal Grade Rules
GE S
3 units

SCWK 110. Foundations of Social Work Practice
Introduction to the history, mission, values, skills and knowledge base of generalist social work practice within a transcultural perspective. Focus on social work practice with emphasis on those populations-at-risk who are disenfranchised and marginalized.
Prerequisite: Junior standing, Social Work majors only.
Normal Grade Rules
3 units

SCWK 111. Generalist Social Work Practice I
Knowledge, values and skills for generalist social work practice utilizing problem-solving methods with systems of all sizes. Focus on developing professional relationships, defining issues, communication skills, collecting data and assessing individuals from diverse backgrounds interacting with their environments.
Prerequisite: SCWK 110, SCWK 120, SCWK 130, SCWK 140.
Corequisite: SCWK 141.
Normal Grade Rules
3 units

SCWK 112. Generalist Practice II
Knowledge, values and skills for generalist social work practice with emphasis on families, groups, organizations and communities. Focus on transactions to optimize social well-being and empowerment of individuals, families and communities utilizing strengths and transcultural perspectives.
Prerequisite: SCWK 111 (with a grade of “C” or better).
Corequisite: SCWK 142.
ABC/No Credit
3 units

SCWK 120. Social Welfare Institutions and Policies I
Development of social work as a profession, including mission, values, ethics. Development and changes in the philosophy, legislative base and structures for social services as these affect social and economic justice and impact health and well-being.
Prerequisite: Junior standing, Social Work majors only.
Normal Grade Rules
3 units

SCWK 121. Social Welfare Institutions and Policies II
Methodology and framework for analyzing social policy and understanding institutional discrimination, particularly related to populations-at-risk and other disenfranchised groups. Political and organizational processes to influence policy development.
Prerequisite: SCWK 120, junior standing, Social Work majors only.
Normal Grade Rules
3 units

SCWK 130. Human Behavior in the Social Environment I
Theories and knowledge of bio-psycho-social development from birth to old age. The dynamics of interacting social systems and culture on human development. Theories and research on risk and resilience. Human diversity and populations-at-risk emphasized.
Prerequisite: Junior standing, Social Work majors only.
Normal Grade Rules
3 units

SCWK 131. Human Behavior in the Social Environment II
Theories and knowledge about families, groups, organizations, and communities from a systems perspective. The impact of discrimination, economic deprivation and oppression on populations-at-risk. Emphasis on the promotion of optimal health and well-being.
Prerequisite: junior standing, Social Work majors only.
Normal Grade Rules
3 units

SCWK 140. Introduction to Field Practicum
Direct involvement with community services to provide the student with exposure to clients/client systems prior to Field Practicum I. Six to eight hours weekly in community-based agencies and on-campus seminars.
Pre/Corequisite: SCWK 110 or consent of advisor. Social Work majors only.
Credit / No Credit
3 units

SCWK 141. Field Practicum I
Generalist social work practice with individuals, families and communities from a transcultural perspective in an agency under supervision. Sixteen hours per week required in placement.
Prerequisite: SCWK 110, SCWK 120, SCWK 130 and SCWK 140.
Corequisite: SCWK 111.
Credit / No Credit
2-5 units

SCWK 142. Field Practicum II
Generalist social work practice in an agency setting continued. Emphasis on individuals, small groups and communities from a transcultural perspective. Sixteen hours per week required in placement.
Prerequisite: SCWK 111, SCWK 141.
Corequisite: SCWK 112.
Credit / No Credit
2-5 units

SCWK 170. Introduction to Research Methods
Scientific and analytic approaches to building knowledge for social work practice, including ethical issues in social research. Evaluation of service delivery systems using qualitative and quantitative research methodologies.
Prerequisite: Junior standing, Social Work majors only.
Pre/Corequisite: STAT 95.
Normal Grade Rules
3 units

SCWK 175. Social Work Senior Seminar
An integrative capstone seminar reviewing current trends, problems and issues confronting the profession. Developments and challenges in California and the country for BA level generalist practitioners evaluated in light of the student’s own personal and professional goals.
Pre/Corequisite: SCWK 175 is open to Social Work majors only, must be taken concurrently with SCWK 112 and SCWK 142, or taken in the semester immediately following completion of SCWK 142, and all other Social Work courses must have been completed.
ABC/No Credit
3 units

SCWK 180. Individual Studies
Individual work on special topics by arrangement.
Prerequisite: Department major.
Repeatable for credit
Credit / No Credit
1-4 units

RETURN TO LAST PAGE
DESCRIPTION CONTENTS
SCWK 192. Social Work with Families
Exploration of various family forms, cultural factors and dynamics influencing family interaction with agencies and community. Practice strategies include assessment, defining strengths and focusing on interventions to promote health and well-being.
Prerequisite: SCWK 110, SCWK 120 or SCWK 130 (or equivalent).
Normal Grade Rules
3 units
SCWK 192.1. Int’l Program Studies
Repeatable for credit
Mixed Grading
1-6 units

GRADUATE
SCWK 202. Social Policy and Services: History and Values
History of social welfare and work with emphasis on diverse populations, particularly Latinos/as, African Americans and Asian Americans. Social policy and social work values in relation to practice issues and social services.
Normal Grade Rules
3 units
SCWK 204. Social Policy Analysis
Frameworks for analyzing social policies using principles of social and economic justice. The role of policy in helping or deterring people in attaining well-being. Focus on diverse populations and populations-at-risk.
Prerequisite: SCWK 202.
Normal Grade Rules
3 units
SCWK 212. Human Behavior in Social Environment I
Systems and ecological models presented with the transcultural perspective provide the primary theoretical foundation. Life course perspective is applied from infancy to end of adult life cycle to understand behaviors of individuals and families with special emphasis on marginalized groups.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units
SCWK 214. Human Behavior in Social Environment II
Systems and ecological models provide the primary theoretical foundation. Special focus is given to transcultural perspective within the contexts of mezzo (families and small groups) and macro social work (organizations and communities) with marginalized populations.
Prerequisite: SCWK 212.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
3 units
SCWK 215. Advanced Standing Bridge Integrated
Summer bridge course for the Advanced Standing Masters of Social Work Program. It is intended to supplement the foundational knowledge, skills, and values developed by qualified students in respective BSW program.
Normal Grade Rules
4 units
SCWK 220. Transcultural Generalist Practice I
Transcultural generalist practice with client systems, particularly individuals and families, at micro, mezzo and macro levels. Assessment, planning and implementing interventions within a professional relationship, utilizing a strengths perspective, focusing on Latinos/as, African Americans and Asian Americans.
Corequisite: SCWK 230.
Normal Grade Rules
3 units
SCWK 221. Transcultural Generalist Practice II
Transcultural generalist practice with client systems, particularly groups, organizations and communities to enhance well-being. Approaches and skills to ameliorate conditions affecting people adversely, particularly those of diverse backgrounds and populations-at-risk. Emphasis on promoting social and economic justice.
Prerequisite: SCWK 220 and SCWK 230.
Normal Grade Rules
3 units
SCWK 222. Transcultural Advanced Generalist Practice I: Family Systems Focus
Transcultural advanced generalist practice with an emphasis on family systems, diverse cultural patterns and varying family forms. Assessment of multi-system interactions with communities and organizations, focusing on enhancing the health and well-being of marginalized populations and populations-at-risk.
Prerequisite: SCWK 221.
Corequisite: SCWK 232.
Normal Grade Rules
3 units
SCWK 223. Transcultural Advanced Generalist Practice II: Community Systems Focus
Methods of community intervention at multiple levels focused on empowerment and developing the strengths of diverse groups, particularly Latino/a, African American, Asian American and other oppressed and marginalized populations. Includes community social work, assessment and interventions.
Prerequisite: SCWK 221.
Normal Grade Rules
3 units
SCWK 224. Advanced Generalist Practice With Spanish Speaking Populations
Analysis of culturally relevant services to linguistic minority Spanish-speaking population from a transcultural generalist perspective. Skills to include Spanish language interventions appropriate for cultural access, appropriate assessment, individual, family and group interventions and advocacy for client systems at all levels.
Prerequisite: SCWK 221.
Normal Grade Rules
3 units
SCWK 230. Social Work Practicum I
Development of transcultural practice skills with families, groups and individuals in their social contexts. Emphasis on developing professional roles and relationships, applying multi-system assessment and interventions, particularly with Latino/a, African American and Asian American clients/client systems.
Corequisite: SCWK 220.
Repeatable for credit
Credit / No Credit
1-6 units
SCWK 231. Social Work Practicum II
Development of skills to differentially assess the strengths and capacities of interacting individuals, families, groups, organizations and communities. Application, termination and evaluation of problem-solving interventions from a transcultural generalist practice perspective.
Prerequisite: SCWK 230.
Corequisite: SCWK 221.
Repeatable for credit
Credit / No Credit
1-6 units
SCWK 232. Social Work Practicum III
Development of advanced generalist practice skills with individuals, families, groups, organizations and communities from a transcultural perspective emphasizing family, community and policy practice. Development of skill to use self effectively with diverse clients, colleagues and community members from various backgrounds.
Prerequisite: SCWK 231.
Corequisite: Advanced Courses
Repeatable for credit
Credit / No Credit
1-6 units
SCWK 233. Social Work Practicum IV
Development of advanced generalist practice skills with the aged, children and youth, health/mental health or educational settings. Developing culturally competent skills to assess, plan, implement and evaluate interventions from transcultural and strengths perspectives to address family and community well-being.
Prerequisite: SCWK 232.
Corequisite: Advanced Courses
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

SCWK 240. Research Methods and Design
Scientific method and problems of knowledge. Basic concepts and models of research methodology, qualitative research, program and practice evaluation in social work. Critical analysis of existing research on ethnic minorities and other populations-at-risk.
Note: This course satisfies graduate-level GWAR in this master’s program.

SCWK 242. Research Methods, Data Analysis and Evaluation
Basic concepts and models for research methodology applied to the analysis of data in social work. Emphasis on quantitative analysis using microcomputers.
Prerequisite: SCWK 240.
Note: This course satisfies graduate-level GWAR in this master’s program.

SCWK 243. Advanced Standing SW Bridge - Grad
Summer bridge course for the Advanced Standing Masters of Social Work Program. It is intended to supplement the foundational knowledge and skills needed for using research evidence to inform practice and policy.

SCWK 245. Management in Human Services
The organization and continuous operation of services delivery systems including the functions of management, decision-making, communication, authority, delegation, planning and staffing.
Notes: An elective.

SCWK 247. Collaborative Leadership in Social Service Contexts
Theory and practice of cross-systems collaboration in social services, grounded in an ecological and systems perspective. Emphasizes collaborative leadership and effective interdisciplinary collaboration in addressing complex social problems.
Pre-requisites: Undergraduates may enroll upon instructor approval.
Normal Grade Rules
1 unit

SCWK 250. Policy Practice in Aging
Critical analysis of the impact of policies on the elderly and their families, particularly those who are Latino/a, African American and Asian American. Assessment of organizations and policy implementation. Development of strategies to promote well-being and social change.
Prerequisite: SCWK 204.

SCWK 251. Social Work with Aging Populations
Notes: An elective.

SCWK 260. Policy Practice in Child and Family Welfare
Critical analysis of the impact of social policies on children and families, particularly those who are Latino/a, African American and Asian American. Assessment of organizational structures and policy implementation. Development of strategies to promote well-being and social change.
Prerequisite: SCWK 204.

SCWK 261. Social Work Practice with Children
Skills and knowledge in working with high-risk children and families from an advanced generalist perspective. Focus on understanding of child and family development as well as assessment and intervention at various levels in a transcultural context.
Notes: An elective.

SCWK 262. Social Work Practice with Adolescents
Skills and knowledge in working with diverse populations of high-risk adolescents from an advanced generalist perspective. Focus on understanding adolescent and family development as well as assessments and interventions at various levels in a transcultural context.
Notes: An elective.

This course focuses on advanced child welfare practice relevant to public and government settings. It provides a transcultural, multi-systems approach to working with children, youth, families and communities within the child welfare system, and as they intersect with community-based organizations.
Prerequisite: SCWK 231
Corequisite: SCWK 232

SCWK 266. Advancing Child Welfare Practice Skills Through Simulation
Advanced practice seminar that utilizes a simulation model to provide depth and breadth in knowledge and skill acquisition regarding engagement, assessment, and intervention that promote child safety and the well-being of children and families in the child welfare system.
Prerequisite: SCWK 231
Corequisite: SCWK 232
Credit / No Credit
1 unit

SCWK 272. Social Work in Educational Settings
Examines the promotion of well-being and social change, with emphasis on attainment of educational goals. Individual and family needs are explored in the context of educational policies, organizational dynamics, pupil adjustment and assessment, life cycle development, and advocacy.
Prerequisite: SCWK 212, SCWK 214, SCWK 220, SCWK 221
Normal Grade Rules
3 units
SCWK 280. Policy Practice in Health/Mental Health
Critical analysis of the impact of health/mental health policies on populations-at-risk, particularly those who are Latino/a, African American and Asian American. Assessment of organizations and policy implementation. Development of strategies to promote well-being and social change.
Prerequisite: SCWK 204.
Normal Grade Rules
3 units

SCWK 281. Social Work in Health/Mental Health
Normal Grade Rules
3 units

SCWK 283. Psychopharmacology for Social Workers
Historical trends and specific cultural, ethnic, gender and age related issues of alcohol and drug use are presented. Psychotherapeutic drugs and the pharmacologic basis of medicines for psychiatric disorders and culturally competent treatment interventions for substance abuse will be discussed. Social Work program elective.
Normal Grade Rules
3 units

Examination of selected social problems related to the direct practice of social work that focus on in-depth knowledge of the problems and of the required direct practice skills and techniques.
Notes: An elective.
Repeatable for credit
Normal Grade Rules
3 units

Examination of selected social problems related to the direct practice of social work that focuses on in-depth knowledge of the problems and of the required direct practice skills and techniques across cultures.
Repeatable for credit
Normal Grade Rules
3 units

SCWK 287. Advanced Generalist Practice in Substance Abuse
An examination of clinical, policy, and practice issues regarding abuse and dependence of alcohol and other drugs. Analysis and utilization of micro, mezzo and macro considerations related to prevention, harm reduction, drug policies, and current intervention models and treatment approaches.
Notes: An elective.
Normal Grade Rules
1-3 units

SCWK 298A. Special Study A
Planning and implementation of research emphasizing culturally appropriate measures and design strategies. First part of a two-part special project course in which students produce a professionally written project demonstrating an understanding of the knowledge base underlying social work issues and appropriate interventions.
Prerequisite: SCWK 242
Misc/lab: 1 hour lecture/ 3 hours lab
Repeatable for credit
Credit / No Credit
1-4 units

SCWK 298B. Special Study B
Planning and implementation of research emphasizing culturally appropriate measures and design strategies. Students continue their work from SCWK 298 A to produce a professionally written project demonstrating an understanding of the knowledge base underlying social work issues and appropriate interventions.
Prerequisite: SCWK 298A.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

SCWK 299. Master’s Thesis or Project
Prerequisite: Admission to candidacy for the master’s degree, approval of the college’s research committee. Repeatable for a total of 4 units.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units
Science Education Program Courses

SCIENCE

LOWER DIVISION

SCI 001. Academic Excellence Workshop
Cooperative learning activity to accompany selected College of Science courses and sections.
Corequisite: Enrollment in course and section accompanying workshop.
Notes: No credit toward requirements of the major or requirements of the minor for any science major or minor. May be used for university electives.
Misc/Lab: Activity 4 hours.
Repeatable for credit
Credit / No Credit
1-2 units

SCI 002. Success in Science
Emphasis on development of study skills, time management, and personal growth needed to transition from high school to university. Orientation to SJSU policies and procedures, and degree and career options in science. Guest lecturers, peer advisors, and community building. GE: Area: E
Misc/Lab: Lecture 2 hour/activity 2 hours.
GE: E
Normal Grade Rules
GE: EE
3 units

SCI 075. Fundamentals of Leadership and Career Accelerator
This course is a foundational course designed to begin preparing students in their sophomore year or first year of transfer to SJSU to practice the leadership habits of mind and workplace skills needed to thrive in 21st century workplaces once they graduate from school. Given the increasingly competitive, and globalized job marketplace, this course enables participants to cycle through rounds of interactive experiences and practice to acquire “hard” and “soft” skills needed to succeed. Students will apply these skills in real-life leadership situations and build meaningful networks of peers and adults, all while activating their personal assets and deepening their sense of self and community.
Prerequisite: ENGL 1A
Misc/Lab: 2 hours lecture/ 2 hours lab
Normal Grade Rules
3 units

SCI 090. Success as Transfer Students
Emphasis on development of study skills, time management, and personal growth needed to transition from community college to university. Orientation to SJSU policies and procedures, and degree and career options. Guest lecturers, peer advisors, and community building.
Misc/Lab: Lecture 1 hour/activity 2 hours/recitation 1 hour.
Normal Grade Rules
2-3 units

UPPER DIVISION

SCI 105. Integrated Science Teacher Enhancement
A thematic approach to the study of relevant topics and concepts in integrated science. Development of inquiry-based, hands-on classroom activities in integrated science.
Prerequisite: Teacher credential and/or instructor consent.
Repeatable for credit
Credit / No Credit
1-3 units

SCI 110. Global Themes of Science
The themes of energy, evolution, and systems & concepts in integrated science. Development of inquiry-based, hands-on classroom activities in integrated science.
Prerequisite: BIOL 21, CHEM 35, and GEOL 103.
Normal Grade Rules
3 units

SCI 125. Leadership and Career Accelerator
This course is designed to prepare students for the increasingly competitive, globalized job marketplace. It is aimed at students in their junior year or first year of transfer, though all upper division students of all majors can participate. Through online, peer learning, interactive experiences, and reflection, students will build meaningful networks, discover their innate leadership, and cultivate the “hard” and “soft” skills and habits of mind needed to thrive in twenty-first century workplaces and make positive impact through their careers upon graduation. The course’s primary text will serve as the foundation to the course, but will include additional articles and videos each week that are curated from a wide range of fields and that includes perspectives of both researchers and practitioners. Sci 75 and Sci 125 can not both be taken for credit.
Prerequisite: Upper division standing.
Misc/Lab: 2 hours lecture/ 2 hours lab
Normal Grade Rules
3 units

SCI 157SL. Community Action/Community Service
See COMM 157SL.
Normal Grade Rules
GE: S
3 units

SCI 180. Individual Studies
Work, under guidance, in special fields.
Prerequisite: Instructor consent.
Repeatable for credit
Credit / No Credit
1-4 units

SCI 184. Directed Reading
Assigned readings of selected books, journals and special papers chosen to fill gaps in training or to introduce new fields. Evaluation through weekly reports and conferences.
Prerequisite: Instructor consent.
Repeatable for credit
Credit / No Credit
1-4 units

GRADUATE

SCI 299. Master’s Thesis
Thesis development for Plan A MA Natural Science students, to be carried out under direct supervision of a faculty member and committee. Seminar presentation required upon final completion of thesis.
Prerequisite: Admission to candidacy for the master’s degree and selection of a thesis committee.
Repeatable for credit
Mandatory CR/NC/RP
1-6 units

NO DEGREE CREDIT

SCI 1003. Workshop Facilitator Training
Practical collaborative education theory and techniques for academic excellence workshop facilitators.
Prerequisite: Current appointment as AEW Facilitator.
Notes: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit

SCIENCE EDUCATION

LOWER DIVISION

SCED 005. Human Development and the Natural World
See GEOL 005.
Normal Grade Rules
GE: EE
3 units
### Course Descriptions

**UPPER DIVISION**

**SCED 173. Secondary School Science**
Theory and practice, instructional techniques, and materials for science in the secondary schools.
- Pre/Co-requisite: Passage of CSET 118 and 119 and secondary science education advisor approval.
- Normal Grade Rules 3 units

**SCED 174. Training to Teach**
This is a service learning course in which students will investigate how people learn and how to teach as they are immersed in teaching roles in the San Jose community that involve them acting as: Instructors leading small groups in science after school activities, facilitators assisting teachers with student centered activities and tutors providing personalized assistance.
- Pre-requisites: CHEM 001A or CHEM 030A, Math 19
- Misc/Lab: Lecture 3 hours/Activity 3 hours.
- Normal Grade Rules 3 units

**SCED 175. Classroom Experiences in Science Teaching**
The goal of this hybrid online/face-to-face course is to provide students with the opportunity to complete their 45 hours of science teaching observation in California public schools while also reflecting on teaching and learning practices. The course will emphasize the multi-faceted aspects of the teaching profession and most importantly will provide a forum for sharing experiences with other students who are similarly placed. The course will fulfill pre-professional teaching observation experience required of most Single Subject Teacher Credential Programs.
- Prerequisites: Sophomore or upper division standing. Not available to Open University Students.
- Repeatable for credit Normal Grade Rules 1 unit

**SCED 184Z. Student Teaching III - Classroom Teaching**
Minimum 80-120 class hours of classroom, lab or field teaching in appropriate single subject, grades K-12 and related teaching activities/seminar.
- Prerequisite: SCED 173 (Science Credential Candidates must complete SCED 173 with a grade of “B” or better, “B-” not accepted) and joint approval of the Science Education Program and the Secondary Education Department. Not available to Open University Students.
- Notes: May be in different subject/school and will be at a different grade level.
- Repeatable for credit
- Credit / No Credit 4 units

**SCED 184Y. Student Teaching II - Classroom Teaching**
Minimum 80-120 class hours of classroom, lab or field teaching in appropriate single subject, grades K-12 and related teaching activities/seminar.
- Prerequisite: SCED 173 (Science Credential Candidates must complete SCED 173 with a grade of “B” or better, “B-” not accepted) and joint approval of the Science Education Program and the Secondary Education Department. Not available to Open University Students.
- Repeatable for credit
- Credit / No Credit 4 units

**SCED 184Z. Student Teaching III - Classroom Teaching**
Minimum 80-120 class hours of classroom, lab or field teaching in appropriate single subject, grades K-12 and related teaching activities/seminar.
- Prerequisite: SCED 173 (Science Credential Candidates must complete SCED 173 with a grade of “B” or better, “B-” not accepted) and joint approval of the Science Education Program and the Secondary Education Department. Not available to Open University Students.
- Notes: May be in different subject/school and will be at a different grade level.
- Repeatable for credit
- Credit / No Credit 4 units

**GRADUATE**

**SCED 204. Earth Systems Science for Teachers**
See CEDL 204
- Repeatable for credit
- Normal Grade Rules 3 units

**SCED 205. Methods of Research**
Introduction to techniques and procedures of scientific research. Each student required to prepare and defend a working outline of a master’s thesis or project in his or her area of concentration.
- Misc/Lab: Lecture 3 hours
- Normal Grade Rules 1 unit

**SCED 220. Theories and Practices in Science Education**
Analysis of current trends in science curriculum and instruction. Orientation for the philosophy and scope of the program. Emphasis on development of a theory of instruction and curriculum in science with implications for practice.
- Misc/Lab: Lecture 3 hours
- Normal Grade Rules 1 unit

**SCED 285. Seminar**
Provides a format for the presentation and discussion of original work by faculty, guest investigators and graduate students.
- Repeatable for credit
- Normal Grade Rules 3 units

**SCED 297. Science Education Research**
Research in science education under the supervision of a faculty member associated with the science education program.
- Repeatable for credit
- Credit / No Credit 1-3 units

**SCED 298. Research**
Project development for Plan B MA Natural Science students, to be carried out under direct supervision of a faculty member and committee. Seminar presentation required upon final completion of project.
- Repeatable for credit
- Mandatory CR/NC/RP
- Normal Grade Rules 1-6 units

**SCED 375. Colloquium in Science Education**
Resources and innovations for science curriculum development and instruction. An interface with people and facilities which can enhance Bay Area science instruction.
- Corequisite: SCED 184Y or SCED 184Z
- Notes: Also open to experienced teachers.
- Credit / No Credit 2 units

**SCED 385. Seminar**
Provides a format for the presentation and discussion of original work by faculty, guest investigators and graduate students.
- Repeatable for credit
- Normal Grade Rules 3 units

**SCED 397. Science Education Research**
Research in science education under the supervision of a faculty member associated with the science education program.
- Repeatable for credit
- Mandatory CR/NC/RP
- Normal Grade Rules 1-6 units

**SCED 398. Research**
Project development for Plan B MA Natural Science students, to be carried out under direct supervision of a faculty member and committee. Seminar presentation required upon final completion of project.
- Repeatable for credit
- Mandatory CR/NC/RP
- Normal Grade Rules 1-6 units

**SCED 375. Colloquium in Science Education**
Resources and innovations for science curriculum development and instruction. An interface with people and facilities which can enhance Bay Area science instruction.
- Corequisite: SCED 184Y or SCED 184Z
- Notes: Also open to experienced teachers.
- Credit / No Credit 2 units

**NO DEGREE CREDIT**

**SCED 1290R. Culminating Experience Supervision**
Continued Work on Thesis
- Prerequisite: Outstanding RP grade in a preceding semester in a project or thesis class.
- Note: No Degree Credit.
- Repeatable for credit
- No Degree Credit 1 unit
Sociology and Interdisciplinary Social Sciences Department Courses

ASIAN AMERICAN STUDIES

LOWER DIVISION

AAS 020. Women of Color in the US
See WOMS 020
Normal Grade Rules
GE: D2
3 units

AAS 025. The Changing Majority: Power and Ethnicity in America
See MAS 025
Normal Grade Rules
GE: D2
3 units

AAS 033A. Asian Americans in U.S. History I
Historical and political processes shaping U.S. culture, institutions and society from before European expansion to the Civil War. Focus on the roles of workers, immigrants, and people of color from a comparative perspective. GE Area: D2
Note: Must complete the entire sequence (AAS 33A and 33B) to satisfy U.S. History, U.S. Constitution and California Government (US1,2,3).
Normal Grade Rules
GE: D2
3 units

AAS 033B. Asian Americans in U.S. History II
Historical and political factors that shaped U.S. culture, institutions and society from the mid-nineteenth century to the current era. Focus on experiences of Asian Americans as well as other immigrants and people of color. GE Area: D2, and American Institution Requirement: US1,2,3
Prerequisite: AAS 33A
Note: Must complete the entire sequence (AAS 33A and 33B) to satisfy U.S. History, U.S. Constitution and California Government (US1,2,3).
Normal Grade Rules
GE: M7
3 units

AAS 125. Filipino Experience in the United States
Filipinos in the United States beginning with immigration and culminating with analysis of past and contemporary issues facing Filipino Americans.
Normal Grade Rules
3 units

AAS 133. Introduction to Social Issues in Planning
See URPB 133.
Normal Grade Rules
4 units

AAS 145. Urban Policy and Its Impact on Inner City Residents
See AFAM 145.
Normal Grade Rules
4 units

AAS 170. Special Topics in Asian American Studies
Focus varies each semester and is announced in the schedule of classes. Repeatable for credit with program coordinator approval.
Repeatable for credit
Normal Grade Rules
3 units

AAS 175. Asian American Communities
Asian American demography, institutions and contemporary issues. GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJU studies courses.
Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: S
3 units

AAS 180. Individual Studies
Individual study and research.
Prerequisite: Not available to Open University Students.
Repeatable for credit
Credit / No Credit
1-4 units

AAS 185. Multicultural Perspectives within American Society
Examination of historical and sociocultural perspectives of American ethnic minorities. Theoretical and methodological approaches to the study of American ethnic minorities. GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJU studies courses.
Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
3 units

AAS 186. The Vietnamese Experience in America
The experience of Vietnamese refugees from their exodus after the end of the Vietnam War in 1975 to their resettlement in America, emphasizing processes by which a new immigrant group is incorporated into the society.
Prerequisite: Upper division standing.
Normal Grade Rules
3 units

AAS 190. Internship
On-site experience with an Asian American community organization. Regular class meetings scheduled to discuss knowledge, skills and ideas related to the internship experience. Repeatable for credit with program coordinator approval.
Prerequisite: AAS 33B or instructor consent
Repeatable for credit
Credit / No Credit
1-4 units

AAS 192. History of Japanese Americans
The Japanese in America from approximately 1800. Includes relocation, wartime conditions, post-war history and contemporary situations.
Normal Grade Rules
3 units

COLLEGESOCIALSCIENCE

LOWER DIVISION

SSCI 090. Successfully Negotiating Social Science
Course designed to help students in the College of Social Sciences, enabling them to learn the skills and knowledge necessary to become successful students. Students will explore the ways in which different social scientists see, research, analyze, understand and communicate.
Normal Grade Rules
1 unit

CULTURAL PLURALISM

SOCIAL SCIENCE

LOWER DIVISION

SOCS 015. Statistical Applications in the Social Sciences
See SOCI 015
Normal Grade Rules
GE: B4
3 units
UPPER DIVISION

SOCS 100W. Writing Workshop
Practice in improvement of writing skills appropriate to the broad field of social science. Includes essays, reports and scholarly communication. GE Area: Z
Prerequisite: A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment Requirement (GWAR).
Normal Grade Rules
GE: Z
3 units

SOCS 137. California History for Teachers
Interdisciplinary course to prepare future teachers to teach California history from a wide range of social science perspectives. Includes the diverse history of California’s people, politics, and cultures and their impact on the nation and the world. Create and implement teaching strategies for use in classrooms.
Notes: Not acceptable for Economics majors, except double majors; acceptable for Economics minors.
Normal Grade Rules
3 units

SOCS 138. US History for Teachers
Interdisciplinary course to prepare future teachers to teach United States history from a wide range of social science perspectives. Study of the diverse history of the people, politics, and cultures of the US while examining movements for social justice. Students create and implement engaging strategies for use classrooms.
GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: S
3 units

SOCS 139. World History for Teachers
This interdisciplinary course is intended to prepare future teachers to teach world history from a wide range of social science perspectives. Students will compare the diverse ideas, values, and histories of various world cultures. Students will create and implement teaching strategies for use in their own future classrooms.
GE Area: V
Prerequisite: HIST 015A and HIST 015B or AAS 033A and AAS 033B. Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: V
3 units

SOCS 177. Sociology of Education
This course applies sociology of education theory to the analysis of the relationship between society and education. The course focuses on race/ethnicity, class and gender in the U.S. educational system.
Prerequisites: Upper division standing or instructor consent.
Normal Grade Rules
3 units

SOCS 180. Individual Studies
Individual work on special topics by arrangement.
Prerequisite: Major or minor in the department.
Repeatable for credit
Credit / No Credit
1-4 units

SOCS 185. Teaching in a Diverse Society
This course will provide future teachers with an understanding of the ways in which diversity in the classroom influences the learning process and how specific teaching strategies can enhance student learning.
Normal Grade Rules
3 units

SOCS 190. Internship
On-site experience with schools and other institutions.
Repeatable for credit with program coordinator approval.
Normal Grade Rules
3 units

SOCS 195. Social Science Teacher Preparation
In this capstone course Social Science Teacher Preparation majors will synthesize their learning about the theory and practice of Social Science education through the completion of a major portfolio project.
Note: Must be taken prior to student teaching.
Normal Grade Rules
2-4 units

SOCS 298. Special Study
Advanced individual research and projects.
Prerequisite: Consent of instructor and approval by the social science graduate coordinator.
Notes: By arrangement only.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

SOCS 299. Master’s Thesis
Prerequisite: Admission to candidacy for the master’s degree.
Notes: 1-4 units; on demand. Special Studies and Thesis shall not exceed a total of 6 units.
Repeatable for credit
Mandatory CR/NC/RP
2-4 units

SOCIAL SCIENCE EDUCATION

UPPER DIVISION

SSED 184I. Student Teaching for Social Science Individualized Interns
Supervised student teaching in social science class(es) in the public school where the student is employed as an Individualized Intern. Repeatable for a total of 12 units.
Prerequisite: Admission to Single Subject Credential Program; social science advisor and Single Subject Coordinator consent.
Repeatable for credit
Credit / No Credit
1-4 units

SSED 184Y. Student Teaching II - Classroom Teaching
Minimum 80-120 class periods of classroom, teaching lab or field teaching in appropriate single subjects, grades K-12 and related teaching activities/seminar.
Prerequisite: SSED 378 with a passing grade of “B” or better (B- not acceptable) and joint approval of major and Education departments.
Repeatable for credit
Credit / No Credit
1-4 units

SSED 184Z. Student Teaching III - Classroom Teaching
Notes: May be in different subject/school and will be at a different grade level.
See SSED 184Y.
Repeatable for credit
Credit / No Credit
1-4 units

SSED 378. Social Science Methods
For prospective secondary teachers who plan to teach in the social science field. A prerequisite to student teaching.
Normal Grade Rules
3 units
SOCI 001. Introduction to Sociology
How does society affect individual behavior and how does individual behavior affect society? Influence of social institutions and arrangements (family, school, workplace, politics, etc.) on roles, groups, values. Basic sociological theories and methods. Careers, specializations. Required for majors, minors. GE Area: D1
Normal Grade Rules
GE: D2
3 units

SOCI 015. Statistical Applications in the Social Sciences
Introduction to statistical applications, particularly statistical inference, including central tendency, variation, normal distributions, probability, estimation, hypothesis testing, measures of association, correlation, linear regression and the analysis of variance. GE Area: B4
Prerequisite: Math Enrollment Category M-I, M-II, or M-III, or completion of a GE Area B4 course with a grade of C- or better. Corequisite weekly supported instruction required for Enrollment Category M-III, and recommended for M-II.
Normal Grade Rules
GE: B4
3 units

SOCI 057. Community Involvement and Personal Growth
Human development in community context, with an emphasis on civic responsibility. The influence of community engagement on individual physiological, social/cultural, and psychological well-being. Participation in a service-learning project in a multicultural organization. GE Area: E
Normal Grade Rules
GE: EE
3 units

SOCI 080. Social Problems
Sociological analysis of selected contemporary social problems such as housing and homelessness, economy and employment, environment and consumerism, family and divorce, crime and drugs, politics and media, race and gender, wealth and poverty, war and peace. Required for majors. GE Area: D3
Normal Grade Rules
GE: D3
3 units

SOCI 100W. Writing Workshop
Practice in improvement of writing and research skills appropriate to the field of sociology, including formal reports, journals and articles. GE Area: Z
Prerequisite: Required for Sociology Majors, SOCI 1, A3 or equivalent second semester composition course (with a grade of C- or better); Completion of core GE, satisfaction of Writing Skills Test and upper division standing.
Note: Must be passed with C or better to satisfy the CSU Graduation Writing Assessment requirement (GWAR).
Normal Grade Rules
GE: Z
3 units

SOCI 101. Social Theory
Comparative analysis of micro and macro sociological theories and their origins, including, but not limited to, conflict theories, consensus theories, structural functionalism, symbolic interaction and recent theoretical developments. Required for majors.
Prerequisite: SOCI 1 (or equivalent) and upper division standing.
Pre/corequisite: SOCI 100W.
Normal Grade Rules
3 units

SOCI 102. Introduction to Statistics
Introduction to measures of central tendency, variation, correlation and regression, probability, estimation and hypothesis testing.
Prerequisite: SOCI 1 (or equivalent).
Normal Grade Rules
3 units

SOCI 103. SPSS Computer Analysis
Statistical analysis of social science data using SPSS. Online course with periodic required on-campus meetings.
Prerequisite: SOCI 1 (or equivalent) and must have completed or be concurrently enrolled in an introductory statistics course.
Misc/Lab: Activity 2 hours.
Normal Grade Rules
1 unit

SOCI 104. Quantitative Research Methods
Quantitative research methods including survey research design, hypothesis formulation, questionnaire and interview design, scaling, sampling and data preparation and SPSS analysis. Completion of a class research project plus individual research reports. Required for majors.
Prerequisite: SOCI 1 or equivalent, SOCI 15 or SOCI 102 or approved Statistics course from another school, SOCI 100W, SOCI 101 and upper division standing.
Normal Grade Rules
3 units
SOCI 120. Contemporary Social Issues
A current issue in contemporary society. Content differs each semester. Repeatable for 6 unit maximum of SOCI 120, SOCI 123 or any combination.
Prerequisite: SOCI 001 or equivalent.
Repeatable for credit
Normal Grade Rules
3 units

SOCI 122. Women in the Second Half of Life
See GERO 122.
Normal Grade Rules
3 units

SOCI 127. Community-Based Participatory Research
See ENVS 127.
Normal Grade Rules
3 units

SOCI 140. Sociology of Media
Examines the historical development of popular mass media and its role in contemporary society. Explores the relationship between culture, social behavior, and various media forms. Analyzes how gender, race, class, and sexuality have been depicted and represented in media images.
Prerequisite: SOCI 001.
Normal Grade Rules
3 units

SOCI 141. Environmental Sociology
This course will will analyze how human beings interact with their environment from both macro and micro sociological perspectives. The course will address a number of other relevant topics, including environmental classism, environmental racism and policy responses to environmental problems.
Prerequisite: Upper Division Standing
Normal Grade Rules
3 units

SOCI 142. Critical Native American Studies
Investigation of current and historical issues Indigenous peoples in the United States face or have faced. Unpacks the complex relationship Native nations have developed with the United States, and the impact the government-to-government relationship has on Indigenous societies.
Normal Grade Rules
3 units

SOCI 145. Community Mental Health
See HS 145.
Normal Grade Rules
3 units

SOCI 146. Work, Power, and Leisure
Explores power in organizational settings where we work and play, and how those settings affect the family, the economy and communities. Settings examined may include corporations, cooperatives, social change organizations, community organizations, non-profit organizations such as hospitals and schools.
Prerequisite: SOCI 1 or equivalent.
Normal Grade Rules
3 units

SOCI 151. Violence in the Family
A sociological examination of violence in families focusing on the causes and consequences of violence and on the ways in which various social institutions and community agencies respond to violence among intimates.
Prerequisite: SOCI 1.
Normal Grade Rules
3 units

SOCI 154. Sociology and Non-Conforming Behavior
Sociological analysis of behavior outside of social conventions including crime, mental illness, suicide and chemical dependency.
Prerequisite: SOCI 1 or equivalent.
Normal Grade Rules
3 units

SOCI 160. Immigration and Identity
Examination of topics related to immigration and population movements. Includes the historical context of major migrations, legal, political and social issues and debates, opportunities, prejudices, immigrant communities, intergenerational tensions, and social and personal identity pressures.
Prerequisite: SOCI 1 or equivalent.
Normal Grade Rules
3 units

SOCI 161. City Life
The city as a setting for diverse lifestyles. Challenges facing urban dwellers and adaptive strategies they take. Comparison of city, suburb and rural countryside as social environments.
Prerequisite: Upper Division or instructor consent
Normal Grade Rules
3 units

SOCI 162. Race and Ethnic Relations
Analysis of racial and ethnic groups in American society, contacts and conflicts, prejudice and discrimination; dominant and subordinate group status; social structure of racial and ethnic inequality within society. Comparison of global race and ethnic relations. GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
CE: S
3 units

SOCI 163. Social Change
Analysis of causes, consequences and the role of individuals, organizations and social structures in producing social change.
Prerequisite: SOCI 1 or equivalent.
Normal Grade Rules
3 units

SOCI 164. Social Action
The tactics and strategies of social action. Topics may include applying social action to the local community, studying current and past U.S. and international social action organizations, or examining theories of social movements. Repeatable once when content changes.
Prerequisite: SOCI 1 or equivalent.
Repeatable for credit
Normal Grade Rules
3 units

SOCI 165. Poverty, Wealth and Privilege
An examination of the causes and consequences of inequality along the dimensions of social class, race/ethnicity, gender, citizenship status, and/or sexualities. Approach may be local, national or global.
Prerequisite: SOCI 1 or equivalent.
Normal Grade Rules
3 units

SOCI 166. Medical Sociology
Sociological analysis of medical and mental health institutions, values and roles. Patient-doctor interaction, influence of hospital structure on health care, social class and illness, cultural determinants of illness and related areas of old age (gerontology) and death.
Prerequisite: SOCI 1 or equivalent.
Normal Grade Rules
3 units

SOCI 169. Political Sociology
Analysis of cultural, social and institutional foundations of political policies and actions. Emphasis on patterns affecting political behavior and processes in the industrialized and developing countries.
Prerequisite: SOCI 1 or equivalent.
Normal Grade Rules
3 units
SOCI 170. Sociology of Family
Examines the historical development of family in the context of social, cultural, political, and economical inequalities, and how intersections of gender, race, class, nationality, sexuality, and age impact understandings of family and intimacy. Explores relationships within families and new family forms.
Prerequisite: SOCI 001.
Normal Grade Rules
3 units

SOCI 171. Person and Society
Analyzes our “self” as socially created and maintained through everyday interactions. Explores how individuals manage and protect self identity in settings, e.g. school, family, work. Effects of race/ethnicity, gender, sexuality, and age on definitions of self and reality.
Prerequisite: SOCI 1 or instructor consent.
Normal Grade Rules
3 units

SOCI 172. Lesbian, Gay, Bi, Transgender Studies
Explores lesbian, gay, bisexual, transgender, and intersex communities. Analyzes sexual behavior, attitudes, and identities from historical, cross-cultural, and “insider” and “outsider” perspectives. Presents social reactions to LGBT movements and persons. Includes current stereotypes, misinformation, and movements to achieve equality.
Prerequisite: SOCI 001.
Normal Grade Rules
3 units

SOCI 173. Socialization and Identity
Personality formation in the context of family, social interaction and institutions of socialization such as workplace, family and community. Emphasis on childhood and the social processes that mold basic beliefs and values in the formation of adult identity.
Prerequisite: SOCI 001.
Normal Grade Rules
3 units

SOCI 174. Sexualities
Examines diverse social constructions of sexual intimacy, meanings, identities, practices, and power embedded in relationships, communities and organizations. Sociological themes of morality, control, sexual citizenship, science and the production of sexual subjects, and the political economy of sex may be examined.
Prerequisite: SOCI 001.
Normal Grade Rules
3 units

SOCI 175. Sociology of Masculinities and Femininities
Examination and analysis of social construction of gender through interaction and social institutions. Explores gender-based identities and how intersections of gender, race, class, and sexuality shape men’s and women’s experiences. Examines theories of gender and gender-based social movements.
Prerequisite: SOCI 001.
Normal Grade Rules
3 units

SOCI 176. Sociology of Everyday Life
Examination of micro-sociology, small group processes, and interactions. Using the framework of Everyday Life, this includes studies of power, status, communication, cooperation, conflict resolution, task performance. Provides understanding of small formal and informal groups, work groups and intimate relationships.
Prerequisite: SOCI 001 or instructor consent
Normal Grade Rules
3 units

SOCI 177. Sociology of Education
See SOCS 177.
Normal Grade Rules
3 units

SOCI 178. Sociology of Childhood
Examination of sociological issues, theories, and research on childhood from infancy to adolescence, including the role of social institutions in shaping the childhood experience and the emergence of peer cultures that change societies.
Prerequisite: SOCI 001.
Normal Grade Rules
3 units

SOCI 179. Sociology of Higher Education
This course will examine the institution of higher education and its relationship to and with society. The course will address a number of other relevant topics, including educational inequalities, student debt and consequences of policy.
Prerequisite: Upper division Standing
Normal Grade Rules
3 units

SOCI 180. Individual Studies
Prerequisite: Instructor consent and department chair approval.
Repeatable for credit
Credit / No Credit
1-4 units

SOCI 181. Service Internship
Supervised placement in practical situations where sociologists are employed, including correctional services, community planning, industry, research, social action and social welfare agencies.
Prerequisite: SOCI 1 or equivalent, SOCI 100W, SOCI 101 and upper division standing, or graduate standing. Department Chair approval.
Repeatable for credit
Credit / No Credit
1-6 units

SOCI 181B. Sociology Career Capstone
Capstone course to expand undergraduate senior opportunities and options. Analyzes trends in sociology, explores employment and careers, reflection and assessment of learning in the major.
Prerequisites: SOCI 001, SOCI 100W, SOCI 101, and SOCI 104 or SOCI 105.
Note: Students must have taken at least one of the required research method courses before enrolling in the capstone course.
Normal Grade Rules
3 units

SOCI 193. Behavioral Science in Practice
See ANTH 193.
Normal Grade Rules
3 units

SOCI 199H. Senior Honors Thesis
Preparation and writing of an original project. Repeatable for a total of 4 units.
Prerequisite: Sociology Honors Program student.
Repeatable for credit
Mandatory CR/NC/RP
1-4 units

GRADUATE

SOCI 200. Sociological Practice
Introduces graduate students to the theoretically informed practice of sociology with a particular emphasis on the analysis of social problems. Covers topics such as program evaluation, community and institutional research, and policy advocacy.
Prerequisite: Graduate Standing
Normal Grade Rules
3 units

SOCI 201. Graduate Sociological Theory
Introduction to the theories and concepts sociologists use in the study of society. The course emphasizes contemporary social theories, grounded in the classical canon of Marx, Durkheim, and Weber. Application of theory to contemporary social problems. Content may vary with instructor.
Prerequisite: Graduate Standing
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR

RETURN TO LAST PAGE
DESCRIPTION CONTENTS
SOCI 204. Quantitative Data Analysis
Covers foundations of statistical analyses as well as
the statistical techniques most commonly practiced by
quantitative social science researchers such as univariate
descriptive statistics, bivariate relationships, and
multivariate modeling.
Prerequisite: Graduate Standing
Normal Grade Rules
3 units

SOCI 205. Seminar in Qualitative Research
Methods
Involves planning and conducting an in-depth
research project utilizing interviews and/or participant
observation. Students will design research project, collect
data and take field-notes, code and analyze data, and
write-up results. Project may involve exploration of a
local issue.
Prerequisite: Graduate Standing
Normal Grade Rules
3 units

SOCI 216. Seminar in Global Topics
Explores selected areas of interest in the sociological
study of social processes, institutions, and organizations
globally, transnationally, and internationally. Course
content varies.
Prerequisite: Graduate Standing
Repeatable for credit
Normal Grade Rules
3 units

SOCI 223. Seminar in Sociological Issues
Analysis of a current issue in sociology which is not
covered by other graduate seminars. Content differs each
semester. Repeatable once with advisor consent when
content changes.
Repeatable for credit
Normal Grade Rules
3 units

SOCI 224. Seminar in Deviance and Social
Control
Historical and comparative theories of deviance, its
function in society and its relation to formal and informal
systems of regulation and control.
Normal Grade Rules
3 units

SOCI 262. Seminar in Race and Ethnic Relations
Analysis of sociological theories of race relations and
racism, social structural conditions of race and racial
identity formation, society's institutional policies and
practices that affect racial inequality.
Prerequisite: Graduate Standing
Normal Grade Rules
3 units

SOCI 263. Seminar in Social Change
Theories of the origins and processes of social change.
Analysis of efforts to control or to produce social
change. Problems of research on the causes, effects and
prediction of social change.
Normal Grade Rules
3 units

SOCI 270. Seminar in Sociology of Family
Comparative analysis of institutional forms and family
small group systems including alternative life styles and
minority families. Problems of the family. Changes in
family roles and in family law.
Prerequisite: Graduate Standing
Normal Grade Rules
3 units

SOCI 275. Seminar in Gender Issues
Analysis of contemporary gender issues including an
examination of existing gender theories and ways in
which gender intersects with other forms of inequality.
Focus on social institutions such as family, media, and
workplace in order to examine the social, economic,
and cultural factors that create gender and shape
understandings of femininity and masculinity.
Prerequisite: Graduate Standing
Repeatable for credit
Normal Grade Rules
3 units

SOCI 281. Internship in Sociology
Supervised placement in practical situations where
sociologists are employed: correctional services,
community planning, industry, counseling agencies and
others. Course is repeatable for a total of 6 units.
Prerequisite: Graduate Standing
Repeatable for credit
Normal Grade Rules
3 units

SOCI 299. Master’s Thesis or Project
Prerequisite: Consent of thesis committee chair and
approval by graduate advisor or department chair.
Repeatable for credit
Mandatory CR/NC/ RP
1-6 units
UPPER DIVISION

WOMS 101. The Study of Women
Multidisciplinary introduction to traditional and new images, roles, experiences, ethnic similarities and differences, and contemporary problems of American women. GE Area: S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE S
3 units

WOMS 102. The Global Study of Women
This course will be a survey of literature on the interaction of gender and forces of globalization. GE Area: V
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE V
3 units

WOMS 107. Psychology of Women
See PSYC 107.
Normal Grade Rules
3 units

WOMS 112. Women in the Global Economy
Women's participation in the economy, US and internationally: paid employment, consumption, subsistence labor, reproduction, volunteerism. It connects daily life activities with international economic trends, with particular attention to race, class, implications for families and strategies for equity.
Prerequisite: WOMS 10, WOMS 20, WOMS 101 or instructor consent.
Normal Grade Rules
3 units

WOMS 114. Politics of Mothering and Reproduction
Explore contemporary definitions and values inscribed in issues pertaining to mothers and reproduction. It will be built upon three literatures: discourses of law and legality, discourses of nature and science, and discourses based in feminist thinking.
Prerequisite: Upper Division standing or instructor consent.
Normal Grade Rules
3 units

WOMS 120. Special Topics in Women's Studies
Focus announced in the schedule of classes. Repeatable for credit with program coordinator approval.
Prerequisite: WOMS 10, WOMS 20, WOMS 101 or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

WOMS 121. Philosophy and Feminism
See PHIL 121.
Normal Grade Rules
3 units

WOMS 122. Women in the Second Half of Life
See CERO 122.
Normal Grade Rules
3 units

WOMS 131. Gender, Sexuality, and Religion
See RELS 131.
Normal Grade Rules
3 units

WOMS 156. Black Women Writers: Race, Culture and Life Cycle in Cross-Cultural Perspective
See AFAM 156.
Normal Grade Rules
3 units

WOMS 160. Gender, Race, and Class
Interdisciplinary analysis of race and class diversity among women and social, political and economic hierarchies of race, class and gender in the U.S. Topics may include sexuality, rape and racism; immigrant experiences; welfare system.
Prerequisite: Upper Division Standing or instructor consent.
Normal Grade Rules
3 units

WOMS 169. Sexualities and the Body
This course explores the social construction of sexuality and the body from a feminist perspective. It investigates various aspects of sexuality and gendered bodies including identity, community, and social movements based on intersections of race, gender, sexuality, culture, and nation.
Prerequisite: Upper Division Standing or instructor consent.
Normal Grade Rules
3 units

WOMS 175. Sociology of Masculinities and Femininities
See SOCI 175
Normal Grade Rules
3 units

WOMS 180. Individual Studies
Individual work on special topics by arrangement.
Prerequisite: Minor or emphasis in women’s studies.
Repeatable for credit
Credit / No Credit
1-4 units

WOMS 182. Women in Literature
See ENGL 182.
Repeatable for credit
Normal Grade Rules
4 units

WOMS 187. Feminist Perspectives on Gender and Education in the U.S.
The role of gender in the educational system in the United States from both a historical and contemporary context. We will focus on the significance of schools as the primary socializing institution for boys and girls.
Prerequisite: Junior standing or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

WOMS 189. Islamic Perspectives on Gender
Contemporary feminist theories analyze premises of gender roles in Islamic cultures and variety of sexual expressions. This class will sensitize students to the diversity of Islamic cultures and communities, in addition to geographical, political, and social locations, like ethnicity and class affect the gender debate in Islamic perspectives.
Prerequisite: Upper division standing or Instructor Consent
Notes: Required for topical major and minor in Women’s Studies.
Normal Grade Rules
3 units

WOMS 190. Internship
On-site experience with community or campus organization or other agency involved with women’s issues. Individual and group advising augments the experiential learning. Repeatable for credit with program coordinator approval.
Prerequisite: WOMS 101 or instructor consent.
Repeatable for credit
Credit / No Credit
1-4 units
Technology Courses

TECHNOLOGY

LOWER DIVISION

TECH 020A. Computer-Aided-Graphics
Introduction to Computer-Aided-Graphics communication tools. Orthographic projections, section and auxiliary views and dimensioning standards. Development of visualization and technical sketching skills in conjunction with orthographic and pictorial projections. Dimensioning and tolerancing utilizing 2D and 3D commercially available software.

Misc/Lab: 1 hour lecture and 3 hours lab
Normal Grade Rules
2 units

TECH 025. Introduction to Materials Technology
Designed to introduce students to materials used to make consumer and commercial products. Including metals, plastics, and composites. How materials impact our lives and standard of living. Materials selection and the role of experimentation, testing and evaluation procedures.

Prerequisites: Math 008 or equivalent
Corequisites: Chem 001A or 030A or equivalent

Misc/Lab: Lecture 2 hours/lab 3 hours
Normal Grade Rules
3 units

TECH 031. Quality Assurance and Control
Introduction to concepts and statistical methods that companies use to manage and improve quality. Sampling inspection, statistical process control, quality function deployment, cost of quality, design of experiment and Taguchi’s method for designing in quality.

Prerequisite: BUS 090 or equivalent.

Normal Grade Rules
3 units

TECH 041. Machine Shop Safety
Introduction to basic machine shop safety and skills. Fabricating of mechanical components and assemblies from engineering drawings, performing tolerance inspection, developing fabrication process plans.

Prerequisites: ME 020, TECH 020, CE 020 or equivalent.

Repeatable for credit
Normal Grade Rules
1 unit

TECH 042. Manufacturing and Machine Shop Projects and Practices
Individual manufacturing processes and machine shop practices. Fabrication of mechanical components and assemblies in fulfillment of senior, course, special, and approved student club assignments and projects.

Prerequisites: TECH/ME 041 (with grade “C-” or better).

Misc/Lab: 3 hours lab
Repeatable for credit
Credit / No Credit
1 unit

TECH 045. Sustainable Facilities Design & Planning
Construction, planning, and maintenance of physical facilities and equipment for sustainable manufacturing operations. Green and sustainable practices and standards, plant facilities layout/design, regulatory and environmental compliance, safety/security and energy conservation. Production line planning and OSHA and NIOSH standards.

Prerequisite: ME/TECH 020, CE 020 or equivalent
Normal Grade Rules
3 units

TECH 046. Machine Operation and Management

Prerequisite: TECH 020.
Corequisite: TECH 041.

Misc/Lab: Lecture 2 hours/lab 3 hours
Normal Grade Rules
3 units

TECH 060. Introduction to Electronics
Emphasizes practical electronics applications and products: DC and AC theory; Ohm’s Law, Kirchhoff’s Laws, Power Laws, network theorems, schematic diagrams, instrumentation and measurement, and functions of discrete components.

Corequisites: MATH 71 or MATH 30 or MATH 30P or equivalent

Misc/Lab: Lecture 2 hours/lab 3 hours
Normal Grade Rules
3 units

TECH 062. Analog Circuits
Semiconductor theory, pn-junction, bipolar transistors, JFETs and MOSFETs, optoelectronic devices. Operational amplifiers and 555 timers. Device applications: comparators, signal generators, active filters, instrumentation amplifiers, voltage regulators and power supplies.

Prerequisite: TECH 060, MATH 071 or MATH 030.

Misc/Lab: Lecture 2 hours/lab 3 hours
Normal Grade Rules
3 units

TECH 063. Analog and Digital Circuits
Logic gates emphasizing TTL and CMOS Design techniques. Combinational circuits, counters, registers, multiplexers, Semiconductor theory. Operational amplifiers. Device applications, signal generators, voltage regulators and power supplies.

Prerequisite: TECH 060, MATH 71 or MATH 30 or MATH 30P

Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

TECH 065. Networking Theory and Application

Prerequisites: TECH 060 or equivalent

Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

TECH 066. Network Administration

Prerequisite: TECH 065

Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

TECH 067. Introduction to Internet of Things
Introduction to Internet of Things (IoT) fundamentals, development of the knowledge and skills required for related technologies and hands-on, problem-solving experience. Designing and connecting IoT devices to capture data and control the physical world.

Prerequisite: TECH 060, TECH 065

Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

TECH 068. Internet of Things Systems
Cyber-physical systems as control systems, including problem formulation, mathematical representation, and analysis: IoT systems components of switching, routing, security, wireless, virtualization, and their integration into end-to-end IoT systems.

Prerequisite: TECH 067

Co-Requisite: CMPE 30.

Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units
**UPPER DIVISION**

**TECH 115. Automation and Control**
Theory and application of automation elements including analog and digital sensors, controllers, indicators, actuators. Control modes for proportional, derivative, and integral control systems. Hands-on integration practices among PLC, robots, automatic identification devices, computers, and other industrial equipment.
Prerequisite: TECH 060, PHYS 002A, PHYS 002B, MATH 071.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

**TECH 139. Quality Management**
Planning, designing and managing the performance of quality in an organization. Synthesis, modeling and application of total quality management to case studies in manufacturing and service industries.
Prerequisite: TECH 031.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

**TECH 140. Green & Sustainable Product Design**
Advanced product and process design with a focus on green and sustainable design and on manufacturing green products. Analysis of process and material selection for environmental impact. Composite and advanced materials processing. Laboratory exercises and planning for green manufacturing.
Prerequisite: ME/TECH 020, CHEM 001A or CHEM 030B, MATH 071 or MATH 030 or MATH 030P
Misc/Lab: Lecture 3 hours/lab 3 hours.
Repeatable for credit
Normal Grade Rules
3 units

**TECH 143. Polymers and Composites Fabrication Technology**
Prerequisite: TECH 020, CHEM 001A and PHYS 002A.
Misc/Lab: Activity 6 hours.
Normal Grade Rules
3 units

**TECH 145. Lean Manufacturing**
Prerequisite: BUS 140 or BUS 145 or ISE 140.
Normal Grade Rules
3 units

**TECH 146. 3D Printing and Applications**
Introduction to technologies in 3D printing, equipment, processes, and materials. Applications for a variety of markets and industry in accelerating time to market for products, improving manufacturing operations, and efficiency. Hands-on experience through CAD design to product realization.
Prerequisite: Tech 20A, Tech 25, Tech 140
Normal Grade Rules
3 units

**TECH 147. Green Manufacturing Analysis & Management**
Design, operation, and control of green production systems using techniques to promote sustainability and minimize environmental impact. Emphasis is on the physical design of high performance manufacturing and will include production flow, scheduling, work flow, layout of manufacturing plants, and material handling.
Prerequisite: TECH 045, TECH 046, TECH 115.
Pre/corequisite: TECH 140.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

**TECH 149. Computer Integrated Manufacturing Systems**
Integration of all aspects of a manufacturing enterprise using computer-integrated manufacturing (CIM) technologies. Design and development and implementation of manufacturing systems using project management techniques and team work.
Prerequisite: TECH 045, TECH 147.
Pre/Corequisite: TECH 145, TECH 147.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Repeatable for credit
Normal Grade Rules
3 units

**TECH 160. Microprocessors Theory and Applications**
Microprocessor concepts and applications to testing and data management. Assembly language and high-level language programming and techniques, including assembling, compiling, debugging. Current trends and issues in microprocessors.
Prerequisite: TECH 063, TECH 115, and CMPE 030 or CS 049 or CS 049J.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

**TECH 163. Telecommunications Systems**
Prerequisite: TECH 062, TECH 063.
Normal Grade Rules
3 units

**TECH 165. Wireless Communications Technologies**
Prerequisites: TECH 063, TECH 065.
Misc/Lab: Lecture 3 hours/lab 3 hours.
Normal Grade Rules
3 units

**TECH 167. Control Systems**
Theory and applications of feedback systems, transfer functions and block diagrams. Transducers, analog and digital controllers, signal conditioners and transmission. Analysis, testing, and troubleshooting of electronic systems with feedback.
Prerequisite: TECH 063, TECH 115, and CMPE 030 or CS 049C or CS 049J.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

**TECH 169. Applied Electronic Design**
Design, test, simulation, development and implementation of electronic systems for control of industrial processes using project management techniques and team work. Hardware, software, and system interfacing.
Prerequisite: TECH 165.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

**TECH 170. Connected Products Applications**
Introduction to connected products and applications, defining user (UX) for web and software and UX for Connected Things. Presenting models of human-computer interaction, design processes and product/service definition and strategy. Cases studies of IoT systems and design.
Prerequisite: TECH 068.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units

**TECH 171. Network Security & Prevention Management**
Approaches to IT system security including physical, application, operating system, cyber-, and network security. Using switches, routers, adaptive security appliance, firewalls, and intrusion protection systems to implement comprehensive security policies. IPv4 and IPv6 security. VPN technology.
Prerequisite: TECH 065, TECH 066, TECH 170.
Misc/Lab: Lecture 2 hours/lab 3 hours.
Normal Grade Rules
3 units
TECH 172. Database Server System Management
Practical big data analytics and management systems. Issues and problems involved in massive on-line repository systems. Current practical techniques for satisfying the needs of such systems. Current approaches that are likely to provide a basis for tomorrows solutions. Prerequisite: TECH 171, TECH 173, TECH 179. Misc/Lab: Lec 2 hours/Lab 3 hours.
Normal Grade Rules 3 units

TECH 173. Cloud Computing System Management
Technologies, hardware and software applications in cloud computing. Implementation of cloud computing in the enterprise through exploration of public and private clouds, comparison. Performance monitoring of data traffic flow and process improvement for the required server systems. Normal Grade Rules 3 units

TECH 179. Cyber Security System Management
Key issues associated with protecting information assets. Levels of protection and responses to security incidents. Planning for security and management of the system. Application of software, cryptography, encryption methods. Mobile and cloud systems security. Normal Grade Rules 3 units

TECH 180A. Individual Studies in Electronics and Computer Technology
Prerequisite: Upper division standing and instructor consent. Not available to Open University Students. Repeatable for credit Credit / No Credit 1-4 units

TECH 180B. Individual Studies in Manufacturing Technology
Prerequisite: Upper division standing and instructor consent. Not available to Open University Students. Repeatable for credit Credit / No Credit 1-4 units

TECH 180H. Individual Studies in Materials Technology
Prerequisite: Upper division standing and instructor consent. Not available to Open University Students. Repeatable for credit Credit / No Credit 1-4 units

TECH 180J. Individual Studies in Technology Issues
Prerequisite: Upper division standing and instructor consent. Not available to Open University Students. Repeatable for credit Credit / No Credit 1-4 units

TECH 190. Senior Seminar in Technology
Current industry analysis and career development. Technology trends in manufacturing and electronics. Leadership skills for a technology professional. Ethics for technology managers. Prerequisite: Graduating senior, major form completed. Normal Grade Rules 3 units

TECH 190A. Senior Project I
Half of one-year senior team design projects. Professional Development and Proposal preparation with feasibility plans, specifications, oral/written reports, and career and professional seminar participation. Project proceeds over two semesters from problem definition and design to validation, prototype construction, and testing. Prerequisite: Completion of major lower division requirements, senior standing, and consent of instructor. Normal Grade Rules 3 units

TECH 190B. Senior Project II
Second half of a one-year team project carried out under faculty supervision. Review, construction, testing, and evaluation of the design from TECH 190A culminating in demonstrations and written and oral presentations to faculty and peers. Prerequisite: TECH 190A with a C or better Normal Grade Rules 3 units

TECH 195. Cooperative Internship
Provides an educational strategy that links classroom learning and student interest with the acquisition of knowledge in an applied work setting. Students undertake a significant experiential learning opportunity, typically with a company, non-profit, governmental, or community-based organization. Prerequisite: Upper division standing, course contract, instructor consent Credit / No Credit 1-3 units

TECH 197. Cooperative Education Project
See ENGR 197
Normal Grade Rules 3 units

TECH 198. Technology and Civilization
History, development, and use of technology in different cultures. Technology’s impact on society, global environment, the workplace, cultural values, gender roles, and newly industrialized countries of the world. GE Area: V
Prerequisite: Completion of core GE, satisfaction of Writing Skills Test and upper division standing. For students who begin continuous enrollment at a CCC or a CSU in Fall 2005 or later, completion of, or corequisite in a 100W course is required. Normal Grade Rules GE: V 3 units

TECH 199A. Special Topics in Computer & Networking
Special topics in Computer Network Systems Management. Content varies from semester to semester. Repeatable for a total of 6 units. Prerequisite: Senior Standing. Instructor consent. Repeatable for credit Normal Grade Rules 1-3 units

TECH 199B. Special Topics in Manufacturing Systems
Special topics in Manufacturing Systems. Content varies from semester to semester. Repeatable for a total of 6 units. Prerequisite: Instructor consent. Repeatable for credit Normal Grade Rules 3 units

GRADUATE

TECH 200. Research Methods for Engineering and Technology
Current applied research methods applied to problems in engineering, technology, and other technical fields. Exposure to current literature, scientific/technological research ethics, research and experimental design and methods, skills in research proposal development and locating funding. Prerequisite: STAT 115 (or equivalent) and graduate standing. Normal Grade Rules 3 units

TECH 230. Six-Sigma and Continuous Improvement Systems Management
Six-Sigma quality systems for design production and business processes. Statistical foundations, implementation strategies, and practical industrial applications. Methods and practices of achieving continuous quality improvement, defect reduction, project planning and management methods to achieve universal participation in process improvement. Prerequisite: STAT 115 or equivalent. Normal Grade Rules 3 units

TECH 231. Systems Reliability and Maintainability
Analysis of models for systems reliability including static, dynamic, and probabilistic engineering models; reliability estimation and optimization, life cycle prediction techniques; failure modes and effects analysis; maintainability prediction and analysis. Prerequisite: TECH 230. Normal Grade Rules 3 units
TECH 232. Advanced Statistical Process Control
Analysis of advanced statistical process control (SPC) systems for monitoring and controlling process performance. Statistical methods for sample selection, probability theory, partition of variation, blanket studies, out-of-control action plans, process capability measurement, and SPC implementation strategies and analysis.
Prerequisite: STAT 115.
Normal Grade Rules
3 units

TECH 233. Design and Analysis of Experiments
Analysis of experimental design strategies for process and design improvement. Industrial application of single factor, multi-factor, and optimization designs. Experimental analysis using t-tests, ANOVA, Chi-square, linear and multiple regression techniques. Model building and model validation.
Pre/Corequisite: TECH 232.
Repeatability for credit
Normal Grade Rules
3 units

TECH 234. Quality Systems Management: ISO 9000 and 14000
Strategies for developing and implementing ISO standards: Project management and planning, cost estimation, supply chain management, audit plans and documentation systems for ISO system compliance. Analysis of ISO 9000 and 14000 quality systems for product design, development and production.
Normal Grade Rules
3 units

TECH 235. Measurement Systems and Analysis
Analysis of variables and attributes methods for measurement systems analysis and control including; repeatability, reproducibility, accuracy, linearity and stability. A survey of measurement and testing systems; dimensional metrology, destructive and nondestructive testing, calibration methods, and inspection equipment and techniques.
Prerequisite: TECH 232.
Normal Grade Rules
3 units

TECH 239. Design Assurance in Product Development
Analysis of product development strategies, understanding design constraints and market conditions, design and configuration control systems, documentation and revision control systems, design for manufacturability, phase review approaches for new product introduction, design reviews, and developing and maintaining design guidelines.
Prerequisite: TECH 200, TECH 230, and TECH 234.
Normal Grade Rules
3 units

TECH 290. Graduate Problems
Graduate study or research of technical problems. Prerequisite: TECH 200 and instructor consent. Not available to Open University Students.
Repeatable for credit
Credit / No Credit
2-4 units

TECH 298. Graduate Project
Graduate study research of professional problems. Prerequisite: Admission to candidacy for the master’s degree and instructor consent. Not available to Open University Students.
Repeatable for credit
Mandatory CR/NC/RP
2-4 units

TECH 299. Master’s Thesis
Prerequisite: Admission to candidacy for the master’s degree and instructor consent. Not available to Open University Students.
Repeatable for credit
Mandatory CR/NC/RP
2-6 units

NO DEGREE CREDIT

TECH 1290R. Culminating Experience Supervision
Continued work on thesis or project. Prerequisite: Outstanding RP grade in a preceding semester in a project or thesis class.
Note: No Degree Credit.
Repeatable for credit
No Degree Credit
1 unit
Undergraduate Studies Courses

EARLY START ENGLISH

NO DEGREE CREDIT

ESE 1001. Introduction—College Reading and Composition
This rhetoric-based course introduces students to the demands of college-level expository, analytical, and argumentative reading and writing. Students will study the relationships between authorial purpose, structure, and intended audience; types and use of evidence; the impact of rhetorical strategies; and the social, political, and philosophical assumptions that underlie the text. Students will receive feedback on their writing in every class. Full attendance and participation satisfies the Early Start requirement in English. An end of course analytical essay may be used to improve freshman English placement for SJSU students.
Prerequisite: Writing enrollment category W-III or W-IV and Undergraduate Transitory (UGT) program.
Note: No Degree Credit
Early Start Program, 1 unit

ESE 1003. Introduction to Analytical Writing
Students will submit an analytical essay on an assigned topic, master a rubric for evaluating analytical writing, peer review essays written by classmates, and then reevaluate their own writing. All deadlines must be strictly adhered to. Online course.
Prerequisite: Writing enrollment category W-III or W-IV and Undergraduate Transitory (UGT) program.
Note: No Degree Credit
Early Start Program, 1 unit

EARLY START MATH

NO DEGREE CREDIT

ESM 1001. ES Elementary Algebra Review
Review topics from elementary algebra, including basic mathematics skills, real numbers and numbers, exponents and radicals, polynomials and rational expressions, linear equations and inequalities (including their graphs), systems of linear equations, quadratic equations, and functions. This live class will be taught in an online environment. Full attendance and participation satisfies the Early Start requirement in mathematics. The final exam and an optional ELM retest may be used to improve freshman mathematics placement and in some cases may satisfy the ELM requirement.
Prerequisites: Math enrollment category M-III or M-IV AND Undergraduate Transitory (UGT) program.
Note: No Degree Credit
Early Start Program, 1-2 units

ESM 1005. Topics in Elementary Algebra
This course reviews topics from elementary algebra using an online tool called ALEKS. To fulfill the Early Start requirement, students must spend at least 15 hours using ALEKS. This course may not be used to improve freshman mathematics placement.
Prerequisite: Math enrollment category M-III or M-IV AND Undergraduate Transitory (UGT) program.
Note: No Degree Credit
Early Start Program, 1 unit

UNIVERSITY STUDIES

LOWER DIVISION

Concepts and methods of statistics with an emphasis on data analysis. Topics include methods for collecting data graphical and numerical descriptive statistics, correlation, simple linear regression, basic concepts of probability, confidence intervals and hypothesis test for means and proportions, and chi-square tests. Must complete UNVS 15F/15S sequence to satisfy GE Area B4.
Misc/Lab: Lecture 1 hour / Activity 4 hours
Normal Grade Rules
3 units

UNVS 015S. Statway Part B: Statistics-Concepts & Methods
Concepts and methods of statistics with an emphasis on data analysis. Topics include methods for collecting data graphical and numerical descriptive statistics, correlation, simple linear regression, basic concepts of probability, confidence intervals and hypothesis test for means and proportions, and chi-square tests. Completion with a grade of C- or better satisfies the GE Area B4 Mathematical Concepts requirement.
Prerequisite: UNVS 15F with a grade of C- or better or concurrent enrollment in UNVS 1015W.
Misc/Notes: Lecture 1 hour / Activity 4 hours
Normal Grade Rules
3 units

UNVS 015B. First Year Experience- Academic Success
Course enhances student success in college through basic and leadership skills development, pertinent academic information, and strategies for achieving personal and academic goals.
Normal Grade Rules
2 units

UNVS 090. Leadership in Residential Life
Class is designed for students selected by University Housing Services to serve as leaders in the residence halls. Students will receive an introduction to residential education, student development theory, conflict mediation, community development, and leadership as well as training in university policies and procedures. Classroom learning will be integrated with on the job experience.
Prerequisite: Current application or employment with University Housing Services.
ABC/No Credit
3 units

UNVS 095. Special Topics in Student Leadership Development
University 95 is for students selected as staff for San Jose State University’s Summer Transition Programs (e.g., Summer Bridge Resident Assistants and Academic Coaches and Spartan Scholars Program Community Assistants and Academic Coaches). Through a series of lectures, project-based activities, and required readings, students will explore both theoretical and practical elements of leadership. Repeatable for credit
Normal Grade Rules
1 unit

UNVS 095A. Service Learning for Academic Leaders
Course enhances student success in college through basic and leadership skills development, pertinent academic information, and strategies for achieving personal and academic goals.
Normal Grade Rules
2 units

UNVS 095B. First Year Experience- Academic Success
University 95 is for students selected as staff for San Jose State University’s Summer Transition Programs (e.g., Summer Bridge Resident Assistants and Academic Coaches and Spartan Scholars Program Community Assistants and Academic Coaches). Through a series of lectures, project-based activities, and required readings, students will explore both theoretical and practical elements of leadership.
Normal Grade Rules
1-2 units

UNVS 095V. Warriors at Home: Success in College and Life
This course will assist veteran/military students in making positive transitions from military to civilian life or from deployment to post-deployment life. It provides essential tools to navigate the university, succeed in academics and interpersonal relationships, and develop a career plan.
Normal Grade Rules
3 units

UNVS 096D. Academic Skill Development
No Degree Credit
1 unit
UNVS 096E. Leadership and Creating Change
This course will introduce students to conceptual and theoretical dimensions of leading, following, and creating social change. We will be particularly interested in connecting the social construction of identities with the idea of leadership as a form of social influence. This will include an examination of issues of power, privilege, marginalization, inclusion, and social and group behavior. Students will explore literature, case examples and applications in the form of community service-learning to build their understanding of, and capacity for serving as ethical and effective community leaders, advocates and allies.
Normal Grade Rules
3 units

UPPER DIVISION
UNVS 120. Peer Mentor
Seminar course intended to provide the knowledge and skills necessary to be an effective Peer Mentor who will work in the new student seminars and in the Peer Mentor Center at San Jose State University.
Prerequisite: Must apply and be accepted.
Normal Grade Rules
3 units

UNVS 125M. McNair Research Colloquium
Course is designed to assist students in the SJSU McNair Scholars Program to prepare for graduate study at the doctoral level. Various faculty will lecture on topics including research methodology, research writing, protocol for presenting research results conferences, graduate school experiences and academic expectations.
Prerequisite: Students must be accepted in the SJSU McNair Scholars Program.
Repeatable for credit
Credit / No Credit
3 units

UNVS 190. University Internship
Supervised placement in student support services for advanced students.
Repeatable for credit
Credit / No Credit
1-4 units

UNVS 195H. Interdisciplinary Research Practicum
This practicum will integrate the methods of at least two disciplines to conduct basic and applied research. Undergraduate students will have hands-on experiences working with faculty from different disciplinary traditions in real research projects.
Prerequisites: Upper Division Standing
Credit / No Credit
3 units

UNVS 199. Orientation Leadership Studies
This class is designed for students selected by Student Life Center to serve as SJSU Orientation Leaders. Students will learn theoretical/practical aspects of leadership, and receive training in university policies/procedures. Curriculum will apply to students’ leadership experiences.
Prerequisite: Apply and be selected (fall semester), 2.0 G.P.A., upper division standing or instructor consent.
Repeatable for credit
Normal Grade Rules
3 units

GRADUATE
UNVS 295H. Interdisciplinary Research Graduate Practicum
This practicum will integrate the methods of at least two disciplines to conduct basic and applied research. Graduate students will have hands-on experiences working with faculty from different disciplinary traditions in real research projects.
Prerequisites: Graduate standing
Mandatory CR/NC/RP
3 units

NO DEGREE CREDIT
UNVS 1015D. Statway Algebra Review Activity
Supplemental course for Statway students planning to enter a field requiring algebra or calculus, e.g., Business.
Prerequisite: UNVS 15F or instructor consent.
Corequisite: UNVS 15S.
Note: No degree credit.
1 unit

UNVS 1015W. Statway Supplemental Activity
Supplemental activity course for Statway students who complete UNVS 15F (Statway A) with a grade below C-
Includes review of UNVS 15F and supporting activities for UNVS 15S.
Corequisite: UNVS 15S
Note: No Degree Credit
Misc/Lab: Activity 2 hours.
1 unit

UNVS 1290R. Culminating Experience Supervision
Continued work on thesis or project writing.
Prerequisite: Outstanding RP grade in a preceding semester in a project or thesis class.
Note: No Degree Credit
Repeatable for credit
1 unit
Urban and Regional Planning Department Courses

**URBAN PLANNING**

**LOWER DIVISION**

**URBP 092. Int’l Program Studies**
Repeatable for credit
Mixed Grading
1-6 units

**UPPER DIVISION**

**URBP 101. The City**
History and organization of the city, emphasizing contemporary issues and strategies for influencing urban policy. GE Area S
Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted), completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended.
Normal Grade Rules
GE: S
3 units

**URBP 102. Introductory Community Planning and Development Studio**
This course introduces students to the tools and techniques of working directly with diverse local communities to develop priorities and recommendations for improving neighborhood quality of life. Students learn about collaborative planning techniques via lectures, comparative studies, and group discussion.
Prerequisite: Upper Division Standing
Normal Grade Rules
4 units

**URBP 103. Local Government and Politics**
See POLS 103
Normal Grade Rules
4 units

**URBP 107. Introduction to Real Estate Development Business and Planning**
This course will introduce students to the business of real estate development and how the field of urban planning intersects with the development process. Topics addressed include development approval feasibility, land use regulation reform, and development during business cycles.
Prerequisite: Upper Division Standing
Normal Grade Rules
3 units

**URBP 110. Urbanization in the Global South**
See GEOG 110.
Normal Grade Rules
3 units

**URBP 120. Intro to Housing Economics and Policy**
Historic and policy aspects of housing, focusing on housing characteristics and public sector intervention. Topics may vary. Course may be repeated for credit when topic changes.
Prerequisite: Upper division standing or instructor consent.
Notes: Offered only occasionally.
Normal Grade Rules
4 units

**URBP 125. Urban Anthropology**
See ANTH 125.
Normal Grade Rules
3 units

**URBP 130. Creating Built Worlds**
See ANTH 130.
Normal Grade Rules
3 units

**URBP 133. Introduction to Social Issues in Planning**
Contemporary social issues related to urban and regional planning. Assessment of community social needs and resident planning. Focus on ethnic areas such as African, Asian and Mexican American neighborhoods.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
4 units

**URBP 136. Intro to Land Use and Urban Planning**
Land use and facilities planning practices in the context of American cities, emphasizing interrelationships between various land uses and public facilities and service requirements. Study of the role of public law in addressing urban growth and environmental change issues.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
4 units

**URBP 142. Introduction to Environmental Planning**
Environmental sustainability and its application to local planning. Review of regulatory tools and legislation that underlie most environmental planning and current environmental planning topics. Course may be repeated for credit when topic changes.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
4 units

**URBP 143. Intro Private Development and Planning**
Introduction to the real estate development process from preliminary product analysis through planning, construction, and marketing.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
3 units

**URBP 145. Urban Policy and Its Impact on Inner City Residents**
See AFAM 145.
Normal Grade Rules
4 units

**URBP 148. Intro Spatial Vis Tech in Urb Plan**
Lab-based course in digital visualization for urban spatial representation using industry standard software such as Adobe Photoshop, Adobe Illustrator and Trimble Sketch-Up.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
1-4 units

**URBP 150. Introduction to Municipal Finance**
An introduction to the theory and practice of municipal finance. Topics include public goals and externalities, the function of the budget, sources of revenues, finance tools, expenditure types, the planning programming-budgetary system (PPBS), and methods of project evaluation.
Prerequisite: Upper Division Standing
Normal Grade Rules
4 units

**URBP 151. Introduction to Urban Design**
Principles, goals and methods of the urban design process. Urban design as the comprehensive treatment of the human-made environment.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
4 units

**URBP 152. Introduction to Urban Design Studio**
Introduction to the analysis of alternative urban design policies to direct urban form development. Course may be repeated for credit when topic changes.
Prerequisite: URBP 151 or instructor consent.
Misc/lab: Activity 6 hours.
Normal Grade Rules
4 units

---

**RETURN TO LAST PAGE**

**DESCRIPTION CONTENTS**
URBP 156. Introduction to Local Transportation Planning
Examination of transportation planning issues addressed at the neighborhood and municipal level such as bicycle and pedestrian planning, traffic calming, and parking policy.
Prerequisites: Upper division standing or instructor consent.
Normal Grade Rules
4 units

URBP 160. Topics in Environmental Planning
In-depth examination of selected topics specifically related to environmental planning. Consult department for current offerings. Course may be repeated for credit when topic changes.
Prerequisites: Upper division standing or instructor consent
Repeatable for credit
Normal Grade Rules
4 units

URBP 163. Twentieth Century Urban Design
See ARTH 163.
Normal Grade Rules
3 units

URBP 169. Introduction to Social Media in Planning
An introduction to social media tools and their use in urban planning, with a particular emphasis on public participation.
Prerequisite: Upper division standing
Normal Grade Rules
1-4 units

URBP 175. Urban Studies Topics
In depth examination of selected topics. Consult schedule of classes for current offerings. Course may be repeatable for credit with different topic.
Prerequisite: Upper division standing or instructor consent
Repeatable for credit
Normal Grade Rules
1-4 units

URBP 178. Intro to Regional Transport Planning
Principles and concepts relevant to transportation planning and policy at the regional level, such as historical and current regional transportation planning processes, the relationship between regional travel demand and transportation infrastructure, and travel demand modeling practices.
Prerequisite: Upper division standing
Normal Grade Rules
4 units

URBP 179A. Fundamentals of GIS for Urban Planning
Exploration of Geographic Information Systems (GIS) area analysis techniques for spatial information management in local government planning support systems; needs analysis, envisioning neighborhoods utilizing multiple maps, charts, photos and the Internet. Course may be repeated for credit when topic changes.
Prerequisite: Upper division standing or instructor consent.
Normal Grade Rules
4 units

URBP 179B. Advanced GIS for Urban Planning
Continued study of how geographic information systems (GIS) can be applied to urban and regional planning topics.
Prerequisites: URBP 179A or instructor consent.
Normal Grade Rules
4 units

URBP 180. Individual Studies
Individual work on special topics by arrangement.
Prerequisite: Instructor consent and department chair approval.
Repeatable for credit
Credit / No Credit
1-4 units

URBP 185. Environmental Impact Analysis
See ENVS 185.
Normal Grade Rules
4 units

URBP 190. Advanced Environmental Impact Assessment
See ENVS 190.
Normal Grade Rules
4 units

URBP 192. Int’l Program Studies
Repeatable for credit
Mixed Grading
1-12 units

GRADUATE

URBP 200. Seminar on Urban and Regional Planning
Overview of the historical development of urban and regional planning in the United States, as well as prominent theories of urban planning practice. Emphasizing the connection between the theoretical and historical material and current planning practice.
Note: This course satisfies graduate-level GWAR in this master’s program.
Normal Grade Rules
GE: GWAR
4 units

URBP 203. Collaborative Neighborhood Planning
Through fieldwork and laboratory assignments, the student applies community-based participatory planning methods to develop recommendations for improving neighborhood quality of life through planning and design.
Prerequisite: URBP 201 or instructor consent.
Normal Grade Rules
4 units

URBP 204. Quantitative Methods
Urban research design, measurement, selected statistical research tools and introduction to computer processing. Extensive treatment of survey research.
Normal Grade Rules
4 units

URBP 205. Private Development and Urban Planning
Study of the entire process of private development from preliminary product analysis through planning, construction and marketing.
Normal Grade Rules
3 units

URBP 206. Market Analysis, Appraisal, & Finance of Real Estate Development
Students will be taught the real estate capital markets and the mix of the necessary financing sources required of developments. Students will evaluate criteria used by developers, real estate lenders and capital providers looking to minimize risk and maximize returns on real estate investments.
Normal Grade Rules
3 units

URBP 207. Real Estate Development Business and Planning
This course will introduce students to the California planning system, real estate development entitlement process, and contemporary issues in urban and regional planning.
Normal Grade Rules
3 units

URBP 208. Urban Real Estate Development Studio
This is a capstone studio course designed to immerse students in the real world of urban property development. Students will explore this world by taking part in a major mock-development project of an actual site in the San Francisco Bay Area.
Prerequisites: URBP 205, URBP 206, and URBP 207, or instructor consent.
Normal Grade Rules
3 units

URBP 211. Regional Analysis and Planning
Students learn the major concepts and techniques of regional analysis and apply these to assess and solve current planning problems.
Prerequisite: Instructor consent.
Normal Grade Rules
4 units
URBP 214. Introduction to Public Management
See PADM 214.
Normal Grade Rules
3 units

URBP 223. Housing Economics and Policy
Overview of the housing situation in the United States; examination of the theory of housing markets and framework for analyzing housing policies; in-depth study of the problem of affordable housing and critical examination of the steps that the public, private, and non-profit sectors have taken to alleviate the problem.
Normal Grade Rules
4 units

URBP 225. Land Use Planning and Law
Study of contemporary growth and land use management techniques used by local, state and federal governments. Examination of the role of public law in addressing urban growth and environmental change issues, and the legal aspects of preparing and administering planning controls and incentives.
Normal Grade Rules
4 units

URBP 226. Regional Transportation Planning
Overview of the evolution of key transportation institutions and policies at the metropolitan, state, and federal levels. Assessment of the current challenges facing regional transportation systems and evaluation of different planning and policy approaches proposed to improve the performance of regional transportation systems.
Prerequisite: Instructor consent.
Normal Grade Rules
4 units

URBP 228. Urban Community Development
The role, objectives and policies of the urban community development process; the social, economic, political and physical implications underlying community development programs; and relationships of these programs to comprehensive urban planning.
Normal Grade Rules
4 units

URBP 231. Urban Design in Planning
Urban design as part of the planning process; contemporary and historic urban design thought and ways of improving design quality in the urban environment.
Normal Grade Rules
4 units

URBP 232. Urban Design Studio
Through fieldwork and laboratory assignments, the student applies urban design theories, methods and principles to a current urban development issue.
Prerequisite: URBP 231 or instructor consent.
Normal Grade Rules
4 units

URBP 233. Social Issues in Planning
Multi-disciplinary study of the principles that guide the growth of a community so all members have equal access to the benefits of living in an urban environment. The course examines the coordination of citizen groups and government bodies to secure needed social services and facilities, champion initiatives that improve quality of life in our community, and engage issues important to underrepresented groups.
Normal Grade Rules
4 units

URBP 234. Field Study Seminar
Discussion and analysis of experience in the planning field under internship programs. May not be counted towards the Master of Urban Planning program of study.
Repeatable for credit with approval of the Graduate Student Advisor.
Prerequisites: Instructor consent and enrollment in the Master of Urban Planning degree program.
Repeatable for credit
Normal Grade Rules
1 unit

URBP 236. Urban and Regional Planning Policy Analysis: Tools and Methods
Analytical approaches to explain and evaluate the public policy making process with particular reference to urban and regional planning and development. Apply quantitative methods such as extrapolation techniques, population and economic projection models, and spatial interaction models for policy analysis.
Prerequisites: Passage of the Writing Skills Test. Normal Grade Rules
Note: This course satisfies graduate-level GWAR in this master’s program.

URBP 238. Urban Design Studio
Through fieldwork and laboratory assignments, the student applies urban design theories, methods and principles to a current urban development issue.
Prerequisite: URBP 231 or instructor consent.
Normal Grade Rules
4 units

URBP 240. Environmental Planning
Examination of the fundamental concepts and issues related to urban environment that planners face. Focus on land use and open space planning, planning and use of urban resources, interactions of urban residents and the physical environment, and the role of government in formulating appropriate policies and strategies.
Normal Grade Rules
4 units

URBP 241. Planning Sustainable Cities
An overview of urban sustainability covering topics such as the origins of urban sustainability, tools for sustainability planning, global dimensions of sustainability (including different approaches to planning across world regions), and visions for creating sustainable futures.
Repeatable for credit
Normal Grade Rules
2 units

URBP 248. Spatial Visualization Tech in Urb Plan
Lab-based course in digital visualization for urban spatial representation using industry standard software such as Adobe Photoshop, Adobe Illustrator and Trimble Sketch-Up.
Normal Grade Rules
1-4 units

URBP 250. Urban Planning Public Finance
An investigation of both the theory and practice of local public finance with emphasis on applications relevant to urban and regional planning. Topics include: public goals and externalities; the function of the budget; sources of revenue and expenditure; the planning programming-budgetary system (PPBS); methods of project evaluation; and traditional as well as innovative methods of public finance including property tax, user fee, impact fee, tax increment financing and use of special districts.
Normal Grade Rules
4 units

URBP 255. Urban and Regional Growth Management
Extensive study of causes, consequences and costs of sprawl; study of growth management and smart growth programs at the state, regional and local level, including the rationale, techniques, and economic, political, and organizational implications.
Normal Grade Rules
4 units

URBP 256. Sustainable Transportation Planning
Examination of transportation planning issues addressed at the neighborhood and municipal level such as bicycle and pedestrian planning, traffic calming, and parking policy, with a focus on promoting sustainable communities.
Repeatable for credit
Normal Grade Rules
4 units

URBP 260. Environmental Planning Topics
In-depth examination of selected topics specifically related to environmental planning. Consult department for current offerings. Course may be repeated for credit when topic changes.
Repeatable for credit
Normal Grade Rules
4 units

URBP 275. Urban Planning Topics
In-depth examination of selected topics introduced in the core seminars for the Master of Urban Planning degree. Consult schedule of classes for current offerings. Course may be repeated for credit when topic changes.
Repeatable for credit
Normal Grade Rules
1-4 units
URBP 275G. Geographic Information Systems
Overview: Urban Planning Applications
An overview of Geographic Information Systems
with a focus on applications to urban planning,
including demographic data analysis, land use mapping,
cartographic techniques and methods for determining
the most appropriate display of quantitative data for a variety
of intended audiences.
Normal Grade Rules
1 unit

URBP 276. Social Media in Planning
An overview of social media tools and their use in
urban planning, with a particular emphasis on public
participation.
Normal Grade Rules
1 unit

URBP 278. Introduction to GIS for Urban
Planning
Examination of geographic information systems (GIS)
applications to urban and regional planning topics.
Course may be repeated for credit when topic changes.
Repeatable for credit
Normal Grade Rules
4 units

URBP 279. Advanced GIS for Urban Planning
Further examination of advanced geographic information
systems (GIS) applications to urban and regional planning
topics
Prerequisite: URBP 278 or instructor consent.
Repeatable for credit
Normal Grade Rules
4 units

URBP 280. Planning Research Topics
In-depth examination of selected planning research
topics introduced in core seminars for the Master
of Urban Planning degree, such as the social and
environmental impacts of planning policies.
Repeatable for credit
Normal Grade Rules
1-4 units

URBP 295. Capstone Studio: Community
Planning
Through fieldwork and laboratory assignments, the
student applies theories and techniques of analysis to
identify the assets, problems, and opportunities of an
urban community.
Prerequisite: Instructor consent.
Normal Grade Rules
6 units

URBP 298A. Special Study: Planning Report
Advanced research and report writing. Students develop
a plan and complete the initial research to write a
planning report that demonstrates their capacity to
do independent research, analysis, and writing about a
complex planning problem.
Prerequisites: Passage of the Writing Skills Test and
Graduate Adviser approval. Passage of URBP 297P with a
grade of B or better.
Mandatory CR/NC/RP
3 units

URBP 298B. Special Study: Planning Report
Completion
Advanced individual research and report writing. Students
work with a faculty advisor to complete a professional
planning report that demonstrates their capacity to
do independent research, analysis, and writing about a
complex planning problem.
Prerequisite: Passage of 298A and Graduate Student
Advisor approval.
Mandatory CR/NC/RP
3 units
Women, Gender and Sexuality Studies Courses

WOMEN GENDER SEXUAL STUDIES

LOWER DIVISION

WOMS 005Q. Gender, Race & Sexuality in Media
This course uses a cultural studies approach to explore the production and consumption of contemporary media in our everyday lives with a focus on race, class, gender, sexuality, and nation. GE Area: D1
Prerequisite: First term freshmen only.

On-site experience with community or campus organization or other agency involved with women's issues. Individual and group advising augments the experiential learning. Repeatable for credit with program coordinator approval.
Prerequisite: WOMS 101 or instructor consent.
Repeatable for credit
Credit / No Credit
1-4 units
World Languages and Literatures Courses

ARABIC

LOWER DIVISION

ARAB 001A. Elementary Arabic I
This course in Modern elementary Arabic is designed for students with no previous knowledge of Modern Standard Arabic. Starting with the alphabet, students will gradually learn basic oral and written communication in the target language.
Note: This course is not for native speakers of Arabic.
Normal Grade Rules
5 units

ARAB 025A. Intermediate Arabic I
Intermediate Arabic I is designed for students who have completed at least two semesters one year) of Arabic in an academic setting and have knowledge of basic grammatical features of Arabic.
Prerequisite: ARAB 001A, ARAB 001B or equivalent or SJSU placement exam.
Normal Grade Rules
5 units

CHINESE

LOWER DIVISION

CHIN 001A. Elementary Chinese
Basic skills and structure of the language in the context of culture. GE Area: C2
Prerequisite: 001B: CHIN 001A (or equivalent).
Normal Grade Rules
4 units

CHIN 001B. Elementary Chinese
Basic skills and structure of the language in the context of culture. GE Area: C2
Prerequisite: CHIN 001A (or equivalent).
Normal Grade Rules
4 units

CHIN 025A. Intermediate Chinese
Development of basic skills in the use of Mandarin, preparation for advanced courses in the language. GE Area: C2
Prerequisite: 8 units of college Chinese (or equivalent)
Normal Grade Rules
4 units

CHIN 025B. Intermediate Chinese
Continuation of CHIN 025A. Preparation for advanced courses in the language. GE Area: C2
Prerequisite: 12 units of college Chinese (or equivalent)
Normal Grade Rules
4 units

CHIN 101A. Advanced Chinese
Readings related to culture, discussion, syntax and composition. May be repeated once for credit.
Prerequisite: Four semesters of college Chinese (or equivalent).
Notes: Year course.
Repeatable for credit
Normal Grade Rules
4 units

CHIN 101B. Advanced Chinese
Readings related to culture, discussion, syntax and composition. May be repeated once for credit.
Prerequisite: 20 units of college Chinese (or equivalent).
Notes: Year course.
Repeatable for credit
Normal Grade Rules
4 units

CHIN 102. Chinese Culture
Traditional Chinese culture in light of contemporary values (ideographs, folk tales, festivals, creeds and customs, myths and superstitions, opera and the arts, women, the art of living.
Notes: Taught in English.
Normal Grade Rules
4 units

Notes: Taught in English.
Normal Grade Rules
GE: V
3 units

CHIN 180. Individual Studies in Chinese
Individual work by arrangement.
Prerequisite: Upper division standing in Chinese (or equivalent) and instructor consent.
Repeatable for credit
Credit / No Credit
1-3 units
FOREIGN LANGUAGE EDUCATION

UPPER DIVISION

FLED 184Y. Student Teaching II - Classroom Teaching
Minimum 80-120 class periods of classroom teaching or field teaching in appropriate single subjects, grades K-12 and related teaching activities and seminar. Prerequisite: Joint approval of major and Education departments. Repeatable for credit Credit / No Credit 4-6 units

FLED 184Z. Student Teaching III - Classroom Teaching
Notes: May be in different subject/school and will be at a different grade level. See FLED 184Y. Repeatable for credit Credit / No Credit 4-6 units

FREN 001B. Elementary French
Basic structure of the language in the context of culture. GE Area: C2 Prerequisite: FREN 001A (or equivalent). Normal Grade Rules 4 units

FREN 001X. Elementary French Individualized
Self-paced individualized instruction. Repeatable for credit Normal Grade Rules 1-5 units

FREN 001Y. Elementary French Individualized
Self-paced individualized instruction. Prerequisite: 5 units of FREN 1A and FREN 1X (or equivalent). Repeatable for credit Normal Grade Rules 1-5 units

FREN 025A. Intermediate French: Reading
Intensive training in reading authentic texts of a broad variety of genres in French to increase the students' proficiency from ACTFL Low Intermediate to Mid and High Intermediate levels. GE Area: C2 Prerequisite: One Year of college-level French (or equivalent or SJSU placement exam). Normal Grade Rules GE: C2 4 units

FREN 025B. Intermediate French: Writing
Intensive practice in French expository writing to increase the students' written proficiency from ACTFL Low Intermediate to Mid and High Intermediate levels. Review of major grammatical rules, vocabulary development and introduction to translation. GE Area: C2 Normal Grade Rules GE: C2 4 units

FREN 025C. Intermediate French: Oral Communication
Practice in pronunciation, listening and speaking in formal and informal situations. Introduction to Francophone cultures and linguistic variations. May be repeated twice for credit. Prerequisite: Two semesters of college French (or equivalent). Repeatable for credit Normal Grade Rules GE: C2 3 units

FREN 101A. Advanced French: Reading and Writing
Increase proficiency in reading/writing from intermediate high to advanced. Gain competence in reading abstract and linguistically complex materials (fiction, non fiction and creative). Improve ability to express self in formal and informal writing on practical, social or professional topics. Prerequisite: Two years of college French or equivalent. Repeatable for credit Normal Grade Rules 4 units

FREN 101B. Advanced French: Written Communication
Increase proficiency in reading/writing from advanced to advanced plus level. Gain competence in reading materials that are abstract and linguistically complex (literary genres). Improve ability to write about topics with precision and describe, narrate and support point of view. Prerequisite: Two years of college French or equivalent. Repeatable for credit Normal Grade Rules 4 units

FREN 101C. Advanced French: Oral Communication
Ability to participate effectively in most formal and informal exchanges on practical, social, professional and abstract topics. Express and support opinions and hypothesize using native-like discourse strategies. May be repeated for credit, but only 3 units apply to minor or major. Prerequisite: Two years of college French or equivalent. Repeatable for credit Normal Grade Rules 4 units

FREN 102A. French Culture
History, physical and cultural geography, fine/folk art and daily life of France up to the time of the Revolution. Prerequisite: 20 units of college French (or equivalent). Normal Grade Rules 4 units

FREN 102B. Francophone Cultures: Through Literature and Cinema
History, physical and cultural geography, fine/folk art and daily life of France and French-speaking countries. GE Area: V Prerequisite: Passage of the Writing Skills Test (WST) or ENGL/LLD 100A with a C or better (C- not accepted). Completion of Core General Education and upper division standing are prerequisites to all SJSU studies courses. Completion of, or co-registration in, 100W is strongly recommended. Notes: On-line - taught in English. Normal Grade Rules GE: V 3 units

GRADUATE

FLED 285. Student Teaching Seminar In Foreign Language Education
As a companion course to the Phase II/III student teaching experience in the Single Subject Credential program in Chinese, French or Spanish at San Jose State University, the seminar provides a framework and support for the Performance Assessment for California Teachers (PACT). Prerequisites: EDSC 184X. Corequisites: FLED 184Y/FLED 184Z. Repeatable for credit Credit / No Credit 1 unit

FLED 380. Teaching Foreign Languages
Theory and practice. Prerequisite: College approval and competence in at least one foreign language Normal Grade Rules 3 units

FREN 001A. Elementary French
Basic structure of the language in the context of culture. GE Area: C2 Normal Grade Rules GE: C2 4 units
### GENERAL FOREIGN LANGUAGE

### LOWER DIVISION

**FORL 025. World Cultures Through Literature and Cinema**
Introduction to contemporary non-English speaking cultures taught online in English. Specialized modules highlight cultural features, interactions, and contributions of culture groups associated with five world languages (initially Chinese, French, German, Japanese, Spanish) examined through literature and films. Fulfills GE C1/C2
