General Education Requirements

A university brings together many separate areas of learning, yet it is more than just a collection of specialized disciplines. SJSU's general education program **establishes a strong foundation of versatile skills, fosters curiosity about the world, and prepares students to engage and contribute responsibly and cooperatively in a multicultural, information-rich society.** General education classes integrate areas of study and encourage progressively more complex and creative analysis, expression, and problem solving. The program aims to equip students with the knowledge, skills, and values they need for a lifetime of intellectual and personal growth. Review the [learning goals and outcomes](#), [policies](#), [academic advisement information](#), and [previous requirements](#).

UD Area 4. Self, Society, and Equality in the U.S. (Formerly Area S)

Students in courses in Self, Society & Equality in the U.S. study the interrelationships of individuals, racial groups, and cultural groups to understand and appreciate issues of equality, structured inequality, and justice in the United States. By exploring different perspectives and helping students articulate and discuss their own values, Area S courses prepare students to live and work responsibly and cooperatively in a multicultural society.

Courses in the Social Sciences (Area 4 and UD Area 4) must be completed in at least two different disciplines. Students who take two lower-division Area 4 courses in the same discipline must take an UD Area 4 upper-division GE course in a different discipline.
